

The
VICTOR
Gramophone

The
VICTOR
DIAL LIST

THE Victor Dial List is a complete, accurate and comprehensive reference book, the correct use of which will enable you to enjoy your Victor Radio to the full, and to realize and employ the remarkable tuning possibilities of this unique radio instrument.

There is no mystery, no difficulty, about tuning Victor Micro-Synchronous Radio. The instrument has been so simplified in operation, so completely automatic in control, and so dependable in performance, that tuning is merely the act of moving the station-selector to the desired point on the dial—and there's your station.

The tuning dial is calibrated in degrees from 550 to 1500. These represent *frequency in kilocycles*, and include the entire range of frequencies which the United States Government permits to be used in commercial broadcasting. All stations—American, Canadian and South American—listed in this booklet, use frequencies lying between the extremes of the Victor Radio dial.

In combination with the simplicity and efficiency of Victor tuning, the Victor Dial List makes it possible for you to identify, in a moment, a station you are hearing; or, to locate on the dial, any station you wish to hear.

How to use the DIAL LIST

IN the Victor Dial List the stations are listed in the following order:

1. United States broadcasting stations, alphabetically, according to call-letters.
2. United States stations in numerical order, according to kilocycles.
3. Canadian stations, alphabetically, according to call-letters.
4. Central and South American stations, alphabetically, according to call-letters.

In addition to the above-mentioned tables, the Victor Dial List includes a convenient "conversion table," by which the wave-length in meters used by a given station, can be calculated accurately in the more modern designation, *kilocycles*. This table can also be used conversely; that is, you may, if you wish, convert kilocycles to meters.

If you wish to receive a station whose call-letters are known, look for this station in the alphabetical list. Here will be found the location, kilocycles, and power of the station. Set the tuning knob of your Victor Radio on the proper kilocycle position, and if the station is broadcasting and is within the receiving range, it will be heard.

If you wish to know the call-letters of the various stations which broadcast on a given kilocycle setting of the dial, reference can be made to the numerical list where all stations are grouped numerically by kilocycles. Further reference can then be made back to the alphabetical list for location and power.

Broadcasting Stations

IN THE

United States

Alphabetically Arranged

Station	LOCATION	Kilocycles	Watts Power
WAAF	Chicago, Ill.	920	500
WAAM	Newark, N. J.	1250	1000

The MUSIC OF THE ~ WHOLE WORLD

C

Countless owners of the marvelous new Victor Radio with Electrola No. RE-45, have suffered from the embarrassment of riches offered in the Victor Record Catalog. In this extraordinary treasury of recorded music, one can find practically any music he has ever heard or heard of, and the very magnificence and extent of the collection make it difficult at times to choose. Therefore, in response to many requests, we suggest the following programs of recorded music as supplementary to the radio programs which the new Victor instruments provide.

These programs are divided as follows:

- No. 1. Is a comprehensive list including all popular types of music from symphonic to the latest jazz.
- No. 2. Includes the best of current dance music.
- No. 3. Is given over to operatic and concert selections, employing orchestras and both vocal and instrumental soloists.
- No. 4. Is confined to the popular standard works for instrumental soloists and orchestras.

These are but fragmentary specimens of the enormous wealth of musical enjoyment contained between the covers of the Victor Record Catalog which your Dealer will gladly supply.

PROGRAM No. 1

- | | | |
|--------------|---|--------------------------------------|
| 6751 | Toccata and Fugue | |
| | <i>Philadelphia Orchestra under direction Leopold Stokowski</i> | |
| 21916 | The Slumber Boat | <i>National Cavaliers</i> |
