How To Use The Ratings Information

As you examine the ratings section of the R&R Directory, Vol. 1, '06, you'll find the following highlights featured in the detailed breakdowns for markets 1-100:

1 SHARE TRENDS

All stations in the top 50 markets that earned at least a 1.0 share and the top 10 stations in markets 51-100 (according to the fall '05 Arbitron) are listed. Trends read left to right, with the most recent results on the right. Up to five rating periods are included in any market's trend report, which covers the past year. Stations are ranked according to their Monday-Sunday (total persons 12+) Average Quarter-Hour share.

2 STATION/FORMAT

The call letters are printed in **bold** type. The format is listed in the column next to it.

3 FREQUENCY/POWER

The frequency and power for each radio signal are shown as listed in the fall '05 Arbitron.

4 AUDIENCE RANKINGS

The six rankings to the right of the frequency/power column will help you determine a station's core strength. The first listing shows the 12+ cume in thousands, followed by five AQH demo ranks.

5 TIME SPENT LISTENING

This column shows the average number of hours and minutes the audience spent listening to the station each week. Based on 12+ total-week listening.

6 OWNER & REP INFORMATION

Station owners (as of February 27, 2006) and their national rep affiliations are shown as listed in the fall '05 Arbitron report.

7 NOTATIONS

Updates are listed noting format and call-letter changes, as well as LMA activity.

8 OWNERSHIP SHARE

At the end of each top 50 market page are three bar graphs ranking owner share. Owner totals are computed by combining the respective fall '05 Monday-Sunday AQH numbers of the companies.

9 MARKET POPULATION

The 12+ population for each market is shown, with the Black and Hispanic percentages in parentheses. In those markets where the ethnic populations do not achieve established thresholds, the code N/A is used.

Population: 15,332,000 (Black: 17.5%, Hispanic: 19.1%)
