Like girls go for mink

Just like girls go for mink, local merchants go for W-I-T-H in Baltimore. W-I-T-H carries the advertising of twice as many of them as any other station in town. These smart retailers know that W-I-T-H produces big results at low cost. Because W-I-T-H delivers more listeners-per-dollar than any other radio or TV station in town. W-I-T-H can produce big results for you, too—at low cost. Get your Forjoe man to give you all the details.

IN BALTIMORE

TOM TINSLEY, PRESIDENT • REPRESENTED BY FORJOE & COMPANY
Serendipity reaches Eastern Iowa

When BAB told the story of the white elephant that radio put in the black—and the radio station involved turned out to be WMT—we inhaled a little.

It looked as if we were beginning to get the range when BAB’s 1952 “Radio Gets Results” Honorable Mention came our way.

And when the smoke of the 1952 Purina Bowl Contest cleared away, there was a plaque for “best promotion” for the boys in the back room. Perhaps a few of us modestly polished a fingernail on our blue serge.

★ ★ ★ ★ “Editorial” decided to get into the act, winning second place in the Northwest Radio News Association’s annual shindig. Was this the beginning of a trend?

It was. The Alfred I. du Pont Foundation singled out WMT for “its notably comprehensive and intensive effort in political education at all levels.” The Station Award for 1952 included a check for $1,000. This, we confess, was heady stuff on a nationwide basis.

Now Sigma Delta Chi, the professional journalistic fraternity, has selected a series of WMT broadcasts titled “Politics Is Your Business” as the outstanding example of public service in radio journalism during 1952.

Serendipity is the gift of finding agreeable or valuable things not sought for. Want some?

BEING WRAPPED up last week was nearly $2 million package covering National Football League (professional) schedule over DuMont Network under Westinghouse Electric Corp. sponsorship. With 70 to 100 station participating, schedule covers both Saturday night and Sunday afternoon games, with deals made directly with individual teams. It was through negotiations, carried on by Chris Witting, DuMont director, with Westinghouse top brass, that gave rise to reported negotiations for acquisition by Westinghouse of DuMont's WDTV (TV) Pittsburgh. Westinghouse agency: Ketchum, Maclod & Grove Inc., Pittsburgh.

THERE WAS renewed activity on that seventh GOP spot on FCC last week. Back on Washington scene was Charles Garland, general manager of KOOL Phoenix, called in to talk over post to be vacated June 30 by ex-chairman, now Comr. Paul A. Walker. But whether his or in out could not be ascertained. It was through negotiations, carried on by Chris, DuMont director, with Westinghouse top brass, that gave rise to reported negotiations for acquisition by Westinghouse of DuMont's WDTV (TV) Pittsburgh. Westinghouse agency: Ketchum, MacLeod & Grove Inc., Pittsburgh.

WORKING QUIETLY, FCC Comr. John C. Doerfer is exploring ways and means of cutting out paper work at FCC, largely that which snows under smaller stations. He's wondering 'about need for filing of annual financial reports (always of questionable legality), size and scope of application forms and renewal applications, and questionnaires bearing upon programming. ***

RELENTANCE of networks to supply service to uhf stations has brought numerous protests to FCC and there are signs Commission will take a look at situation. ***

SENATE-HOUSE leaders are not shouting about it, but: Radio and TV have made considerable comeback in covering Congressional committee sessions. Microphones and cameras now are more in favor. ***

WITH RESIGNATION of Benedict P. Cotton from FCC, Richard A. Solomon, assistant general counsel in charge of FCC Legislation, Treaties & Rules Div., has become acting general counsel. No indication when Mr. Cotton's successor will be selected but Chmn. Rosel H. Hyde has stated FCC is looking for "best qualified man" to fill post. ***

AMONG CANDIDATES for FCC general counselship on "inside" are Mary Jane Morris, attorney in litigation division; Frederick W. Ford, chief, hearing division of Broadcast Bureau, and Marshall S. Orr, chief, enforcement unit, Safety & Special Radio Services Bureau. One "outsider" is prominently mentioned. He's 36, bachelor and formerly was on legal staff of ESA, and now is in private administrative practice in D. C. ***

REASON President Robert E. Kintner of ABC didn't attend NARTB Convention in Los Angeles fortnight ago came to light last week. He was in process of making full-dress presentation on new ABC to presidents of 30 companies and 16 top agencies. ***

ONE TOP radio set manufacturer reportedly is making sets of such great sensitivity as to increase range of uhf stations. High government official, who recently inspected plant, said it could be important factor in speeding uhf development. ***

JUSTICE Dept. is playing it cozy on Sen. Edwin C. Johnson's bill that would reissue baseball's 1 (d) Rule (see story, page 56). Senate Commerce Committee's Bill Chmn. Rosel H. Hyde has stated FCC considerably brighter. Another, reportedly, thinks differently. ***

HOTPOINT Co. planning largest consumer promotion in its history with 60-day drive on current TV show, "Ozzie and Harriet," and consumer magazines to push $80 million worth of appliances. Radio-TV spot adjacencies may be used. ***

DESPITE belief that cross examination drags out TV application hearings, difference is not so great between direct and cross as is thought. FCC staff study for May 18 appearance before Senate Commerce Committee has unearthed these figures: In Wichita vhf Ch. 3 case, with three applicants, which ran 56 hearing days, direct and redirect ran 3,562 pages, cross and redirect 4,006 pages; in Denver vhf Ch. 7 case, with two applicants, 13 hearing days, direct and redirect ran 779 pages, cross and redirect 1,191 pages; in Portland vhf Ch. 12 case, with three applicants, 27 days, direct and redirect ran 1,235 pages, cross-redirect 1,982 pages. ***

SOME SENATORS, it's now believed, have idea that solution to breaking TV processing log-jam cannot be bought by supplying more money to FCC. Approach, it's whispered, is: "Break the bottleneck yourself, FCC, and you'll get more money." ***

AUTOBIOGRAPHY of Bob Hope will run later this year in Saturday Evening Post. Papers were signed last week, it's reported, for feature parallel was carried by magazine on Bing Crosby. ***

FEDERAL Civil Defense planners have fingers crossed in hope that manufacturers will play ball with plan to develop small, low-cost, mass-produced radio receiver which would operate on batteries. Fear is that acceptance may be slow, impeding CD's communication plans. ***

REPLIES of government regulatory agencies to Budget Bureau proposals for uniform policies, licensing procedures and charging of fees to recoup part of costs, are only trickling in despite May 1 deadline. FCC gained week's extension since policy isn't settled.

LEAD STORY
Vitapix Corp. announces its new slate of officers and its plans to expand into a nationwide film distributing syndicate to be owned by TV stations in 40 top markets. Page 31.

ADVERTISERS & AGENCIES
Procter & Gamble continued as top TV spender in February with gross time purchases of $1,237,970. Page 42.

GOVERNMENT
Organized baseball, major and minor, makes a powerhouse bid for reinstatement of Rule 1 (d) which would give them the ball on whether games are broadcast or telecast, in testimony before a Senate subcommittee. Page 56.

FCC makes TV grants at Lancaster, Pa., Lubbock, Tex., and St. Louis, the last a noncommercial educational outlet, in week's TV actions, bringing total post-thaw authorizations to 353. Page 58.

NETWORKS
The time-honored struggle between the Titans heights as challenger CBS claims a lead over NBC in TV set sales with $88 million billings, plus its present dominance in radio sales. While both networks deny some NBC radio-TV affiliates are being wooed to CBS, rumors persist that a shakeup of the NBC executive hierarchy is imminent. And NBC's head West Coast vice president is quietly reassigned to New York on an unannounced mission. Page 68.

CBS Inc. profits climb to $2.4 million during 1953 first quarter—58% above the 1952 period—reports Board Chairman William S. Paley. Page 72.

MANUFACTURING
RCA toppled all its previous first-quarter records with sales of $208 million during 1953's first three months, for profits of $20 million before and $9 million after taxes, Gen. Sarnoff tells stockholders meeting in New York. Page 73.

FEATURES
Television may come and some radio programs may go, but ABC radio's and Don McNeil's Breakfast Club is not even pouting as it nears its 20th birthday. Page 82.

INTERNATIONAL
Canadian Assn. of Broadcasters calls for divestiture of CBC's outlet-owning and regulatory activities by establishment of a separate body to govern broadcasting. Page 96.

UPCOMING
May 18-21: Electronic Parts Show, Conrad Hilton Hotel, Chicago.

May 19-21: Pennsylvania Assn. of Broadcasters Annual Convention, Bedford Springs Hotel, Bedford.

May 25: Sigma Delta Chi Awards, Conrad Hilton Hotel, Chicago.

May 11, 1953 • Page 5
Man alive! Galen Drake* (blur, above) is so supercharged with it he clicks wherever he goes. And he goes practically everywhere, with the speed of sound.

Just recently, for example, he broke all records by making personal appearances at seven Long Island supermarkets in a single afternoon. (He would've done better, too, except that he spent the morning helping out at a cooking school over in New Jersey.)

Between times, he's on the air seven days out of seven—5 hours and 35 minutes a week—on WCBS Radio and on the CBS Radio Network.
In addition, he runs a full-scale Housewives' Protective League merchandising program which whisks him up, down and across the WCBS area at a breathtaking pace.

Air time or spare time, Galen Drake's trade is talk. Day in and day out... in neighborhood stores and supermarkets, at club groups and luncheons... he's talking and selling for his 21 current sponsors with a friendly, fluent ease that attracts people and causes them to buy at his word.

As American Trailways puts it: "Galen Drake's commercials are the best we ever heard."

Burnham & Morrill (B&M Baked Beans) says: "He's our star salesman!" Another advertiser goes further: "The proof is in dollars and cents. Galen is the biggest bargain we ever had!"

An average of 2,000 fan letters a week proves his popularity, too. And so does his total of 2,212,670 listener-impressions per week in the WCBS intense service area alone.

Like to put some zip in your advertising? Give us a buzz about Galen Drake—man alive!

NEW YORK - CBS OWNED - 880 KC WCBS

*Wondering how he really looks? It took high-speed photography to catch Galen, but here he is!
To act as security for a bank loan. Turned down by the cashier, a poker player received a loan on his hand from the bank president—who later admonished the cashier, "In the future, Suh, consider four kings and an ace as ample security for the entire assets of this bank!"

If you want to take the "audience and sales pot" in the Omaha, Council Bluffs area—put your dough on a sure thing—KOWH! With the big Hooper averaged below for the 17-month period from Oct., 1951, to March, 1953, KOWH is a winner hands down... and you can bank on that!

- Largest total audience of any Omaha station, 8 A.M. to 6 P.M. Monday thru Saturday! (Hooper, Oct., 1951, thru Mar., 1953.)

- Largest share of audience, in any individual time period, of any independent station in all America! (March, 1953.)
ABC Announces New Programming Projects

SEVERAL NEW programming projects being launched by ABC radio, according to word reaching affiliates. These are 8-8:15 a.m. news strip from Chicago and Hollywood, to get under way about July 1, new morning show slated for Aug. 1, and reprogramming of entire afternoon schedule by Labor Day. These tie into plans for reprogramming entire night-time schedule, announced following ABC-UPT merger last February.

Affiliates last week received from ABC President Robert E. Kintner message advising them of determination to "add new programming . . . to end slide-down of radio." Following is gist of message:

"We propose to continue to add new programming to the ABC radio network in a determined attempt to end the slide-down of radio. With the merger, I instructed Charles Ayres, as vice president in charge of the radio network, that we would expend sufficient money to obtain radio programming, sales and research efforts comparable to that of NBC and CBS. I firmly believe that a saleable program structure can be developed in radio that will not only attract listeners but will bring back to radio many advertisers who are temporarily being overwhelmed by television. The ABC radio network—programming, sales, etc.—is completely separated from the ABC television network and operates with independent program and sales personnel.

Hyde Pleads More Time On Protests; Bills Reported

EFFECT of McFarland Act's protest rule reviewed before House Commerce Committee Friday when FCC Chairman Rosel H. Hyde appeared in behalf of bill (HR 4558) to extend time Commission has to act on protest from present 15 days to 30 days. Committee voted bill out favorably.

Chmn. Hyde said Commission had received 18 protests since provision went into effect last July. Of these, 14 were denied and four appealed to courts. Discussion centered on reasons for protests, with Mr. Hyde and several members of committee attributing them to competitive factors. Mr. Hyde also referred to legal problems raised by some protests, most recently by KAMD Camden, Ark., against FCC approval of assignment of CP for KPNL in same city.

If Commission gets more time to consider protests, it will be able to weigh each case, may enable many protests to be answered without need for hearing, Mr. Hyde said. He also revealed Commission was considering holding some protest hearings on oral argument basis, rather than going through regular hearing procedures.

Committee also approved two other FCC-sponsored bills (HR 4557 and 4559). First would permit FCC to waive CP requirements for government, mobile and other non-broadcast communications. Second would reduce penalty provisions for violating Communications Act from felony to misdemeanor for first offense [B•T, April 20].

• BUSINESS BRIEFLY

MIDGET SPOTS DROPPED • Lever Bros. Rinso campaign of "midget" spots (four and eight seconds) was so unsuccessful, it's understood, that advertiser now plans to switch to regular daytime announcements, starting May 25 for 19 weeks in large number of markets, beginning on West Coast and gradually moving East. Researchers checking with stores reportedly found Rinso's radio shorts generally had no sales effect. Agency: Hewitt, Ogilvy, Benson & Mather, N. Y.

EXPAND SWAN SPOTS • Lever Bros. Swan Soap, on behalf of its new five-cent Swan toilet bar, adding radio markets as soon as distribution is set up. Great expansion expected for summer. Firm uses four weeks of spots, then takes six-week hiatus, followed by another four-week schedule. Agency: BBDO, N. Y.

LIPTON WANTS SPOTS • Ruthrauff & Ryan, N. Y., asking for high-rated chainbreaks and one-minute women's show participation availability for Lipton's Frostee, which will launch its new annual radio campaign on June 8 for six weeks.

PROMOTE OXYDOL • Procter & Gamble's Oxydol, previously soap, has switched to detergent. To announce and promote new product, firm will use radio spot announcement campaigns, starting today to be advertised in more than 100 markets. Campaign will be for seven weeks, using daytime minutes in TV markets and day and night minutes in non-TV areas. Agency: Dancer-Fitzgerald-Sample, N. Y.

LORETTA REPLACES RED • Benton & Bowles, N. Y., has signed for film series, featuring Lorett Young, called Letter To Lorettia, to replace Red Skelton near WCOL at 12:30 p.m. Monday through Friday. Young's series, to begin July 5, will be reprogrammed new its radio sound program for SPOTS on NBC network.

Second TV Permit Returned, Other FCC Friday Activity

SECOND TV grant to turn back permit to FCC is Parmian Basin TV Co., surrendering vhf Ch. 2 at Midland, Tex. Earlier turn-back was vhf Ch. 3 at San Angelo, by permittee KGKL San Angelo, Tex. Parmian Basin told FCC: "Programming sources and potential advertising revenue...have failed to materialize."

Two new uhf TV bids tendered Friday, one by Miles Lab. and Conn music executives for Ch. 52 at Elkhart, Ind. They are:

Lawrence, Mass.—General Beafco, uhf Ch. 72, ERP 22 kw visual and 15 kw audio, antenna 640 ft. Principals: A. Alfred Franks (50%), retail druggist; Rudolph and Justin Wyser (each 25%), textile manufacturers.

Two TV application dissimilars reported Friday. Rockford Forest Co., Inc. drop bid for vhf Ch. 13 at Rockford, Ill., gets 10% option in Greater Rockford TV Inc., remaining applicant. Trans-American TV Corp., permittee WRTV (TV) Flint, Mich., petitioned for dis- missal of its uhf Ch. 62 application at Evansville, Ind., now set for hearing with bids of W. R. Tuley and Premier TV Inc.

Granted power changes and STAs:

KGO-TV San Francisco—Granted ERP boost on vhf Ch. 5 from 25.4 kw visual and 12.6 kw audio to 310 kw visual and 360 kw audio.

WKBC-TV Battle Creek—Issued special temporary authority to commence commercial operation of vhf Ch. 15, May 15-Nov. 15.

KVOS-TV Bellingham, Wash.—Issued STA to commence commercial operation on vhf Ch. 12, effective May 5-Aug. 8.

WKTV (TV) Rome, N.Y.—Issued STA to commence commercial operation on vhf Ch. 13, effective May 1-Aug. 4.

Formal transfer papers tendered at FCC Friday for sale of WSGN-AM-FM Birmingham, Ala., from Birmingham News Co. for $758,000 to local investment banker John S. Jemison Jr. and associates [B&T, April 27]. Application for transfer of uhf Ch. 42 permit to same group to be tendered later. Birmingham News Co. has bought WAPI, WAFM (FM) and WAFM- TV there for $2.4 million from Ed Norton and Thad Holt [B&T, April 13].

Exceptions filed Friday by FCC Broadcast Bureau and WABC New York to initial decision of Examiners James D. Cummins, which recommended extension of KOB Albuquerque on special service authorization on 770 kc with 50 kw day, 25 kw night [B&T, March 30]. KOB filed brief supporting ruling.

Miscellaneous Proposals, Actions

Proposed rule-making to add uhf Ch. 55 to Porterville, Calif., announced by FCC. Channel is sought by KTIP there. Noncommercial educational Ch. 70 would be added to Bowling Green, Ohio, by another proposed rule-making notice. FCC finalized educational allocations of uhf Ch. 82 at Amherst, Mass., and uhf Ch. 80 at North Adams, Mass. Latter both in pending action.

Oral argument May 22 will constitute Sec. 309(c) economic protest hearing on uhf Ch. 46 grant at Durham, N. C., assigned T. E. Allen

BROADCASTING • TELECASTING

ASCAP TV LETTERS

INDICATIONS that ASCAP is willing to keep negotiations for its TV licenses separated from those for radio were seen last week as Society wrote members asking for four-year extensions in their assignments of TV licensing rights to ASCAP. This makes it impossible for new TV blanket licenses, current licenses like members' assignments expiring end of this year, to run beyond Dec. 31, 1957, full year before terminal date of ASCAP's radio licenses. In its letters, ASCAP agreed to hold all new TV license right assignments in escrow until it has received them from members accounting for 80% of ASCAP royalty payments to both writer and publisher groups.

Nielsen Promises Booklet To End NCS 'Misuse'

AFTER two hours of questioning Thursday afternoon by buyers and sellers of broadcast time, Arthur C. Nielsen, president, A. C. Nielsen Co., agreed to prepare booklet explaining Nielsen Coverage Service survey of station and network audiences and detailing proper and improper uses of coverage data contained in NCS reports. Meeting of Mr. Nielsen with number of agency timebuyers and station representaives arranged by Ward Dorrell, John Blair & Co. research director and chairman of Committee on Audience Measurements of Stat- tion Representatives Assn., which had become alarmed over "flagrant misuse" of NCS data [B&T, April 20]. Similar meeting at which Dr. Kenneth Baker, president, Standard Audit & Measurement Services, will discuss SAMS au- dience survey, will be held in near future.

Vice Panel Stirs New Orleans

PANEL program involving figures concerned in New Orleans vice investigation, which has created local furor, was simulcast by WDSU-AM-TV New Orleans, drawing page 1 display stories in all local newspapers. Program included filmed interview made at Parish Prison with Jack Richter, principal in case. Open telephone line gave public chance to phone questions directly to panel.

& Sons Inc., FCC ruled Friday. Parties to argument are WSSB Durham, protestant, and FCC Broadcast Bureau.

FCC Broadcast Bureau filed brief supporting ruling by Hearing Examiner Gifford Irion "interpreting" scope of Sec. 309(c) protest hearing involving uhf Ch. 35 grant at Muskegon, Mich., to Versilus Radio & TV Corp. Protestant is WGRD Grand Rapids.

WHIS Bluefield, W. Va., was asked to indi- cate within 30 days whether it proposes to pro- secute its pending Ch. 6 application at Beck- ley, W. Va., to file statement "regarding apparent conflict between that application and applicant's expressed intention to request rule-making to assign Ch. 6 to Bluefield."

People

DON McCURE, for last three years manager of radio-TV production for McCann-Erickson, N. Y., and previously head of TV department of N. W. Ayer & Son, has joined Owen Murphy Productions, N. Y., as associate producer of TV commercials, industrial films and package programs for TV, live or film.

WALTER HOLT, account executive for Mus- terolu, Pertusz, Zemo, Inertol and Sanitary Products Corp. for Erwin, Wasey & Co., N. Y., elected vice-president of agency.

MERRELL BOYCE and ERICTON CUM- MINGS, both vice presidents and account super- visors, Compton Adv., N. Y., elected to board of directors.

JACK BRICKHOUSE, WGN-AM-TV Chicago, signed to new five-year contract, Frank Schreiber, treasurer of WGN Inc. and manager of station, announced. Mr. Brickhouse, who handles Golden Gloves, All-Star Game and other top network events, one of highest paid radio-TV sportscasters in country, Mr. Schreiber said.

EVELYN F. EPPLEY, Philadelphia attorney, named attorney-advisor to FCC Comr. John C. Drummer.

FUNERAL services held Saturday (May 9) in Beverly Hills for EDWARD M. SEDGwick, 60, senior officer of Desilu Productions, Holly- wood, who died Thursday of heart attack. For past year he served in advisory capacity on CBS-TV's Love Lucy series.

HENRY P. JOHNSTON, managing director of WSGN Birmingham, shortly will receive from his country high school of 30 years ago degree he was passed when he transferred to prep school.

AFTRA, AFM in Los Angeles Feuding Over Singers

MEMBERS of Los Angeles AFM local ordered by union to refuse all AFTRA attempts to enroll singing musicians. Phil Fischer, AFM Local 47 vice president, termed AFTRA at- tempt "invasion" and said it crosses union juris- dictional lines. He claimed AFTRA has threat- ened to pull members off shows on which singing AFM members are not also AFTRA members.

Claude McCue, AFTRA regional executive secretary, said his union's dispute is with pro- ducers, not AFM, because AFM scale in most cases is lower. As to possible walkouts by AFTRA members, he said, "We'll examine each situation. If the board determines there have been violations then we will order our people off the program."

Union Terms Cause Film Cuts

CUT of 90% in TV film commercial production in Hollywood has resulted from terms laid down by Screen Actors Guild and Screen Extras Guild in contracts with video film producers, causing heavy unemployment for actors, extras and cameramen, according to Herbert Aller, business agent for IATSE International Photog- raphers Local 659. Cameramen's union exec- utive board said to be considering organizing all other crafts in Hollywood in unified protest against SAG-SEG contract demands. Camer- ament producers are looking for alternatives instead of regular TV film commercials.

WKOW-TV on CBS-TV

WKOW-TV Madison, Wis., will join CBS-TV on June 21 as network's 113th affiliate, Herbert V. Akersberg, vice president in charge of station relations, announced Friday.

some spots are better

For the best spot, at the right time, at the right place
Team up with Spot TV to catch a bigger share of summer sales.

The 9 television stations represented by NBC Spot Sales are in Big League TV markets (11,500,000 TV homes) ... and the audience will be bigger by mid-summer (12,000,000 TV homes). And since TV set sales are on the increase, summer TV advertisers will actually average larger audiences than they did last winter!

To cover the field, ask your NBC Spot Television Salesman to help you plan a sales-stimulating summer schedule now.

A few summer boom products: Soft drink sales are up 47% ... cake soap up 14% ... tea up 22% ... dry cereal up 17% ... air conditioners up 445% ... freezers up 117% ... refrigerators up 91% ... portable fans up 500%.
ONE of radio's most ingratiating couples has permanently joined television's husband-and-wife set in the persons of Peg Lynch and Alan Bunce, stars of the Ethel and Albert show, a new weekly half-hour production on NBC-TV. Judging from the series' second episode on May 2, Saturday evening audiences may look forward to some light, whimsical entertainment engendered by an amusing treatment of incidents familiar to everyone. For the next eight weeks, the show will be sponsored by the Sunbeam Corp. (electrical appliances), which plan a summer hiatus returning to TV Aug. 29 for the fall season.

Both Miss Lynch and Mr. Bunce have a charming way with domestic comedy. They have been supplied with a homey, attractive set depicting the typical-American-home concept in its every design. It was used expertly by the director, not as a backdrop, but as a real house where honest-to-good people lived.

Peg Lynch, who writes as well as stars in the show as Ethel, is capable of extracting humor from the plainest of ordinary, commonplace situations. The thoroughly natural characters around whom she builds her equally natural stories prompt that "haven't-we-met-before?" feeling—a most desirable illusion in programs of this type. She has a great aptitude for creating simple, average people everyone has known for years. Still, the climax of her second TV script wasn't strong enough to match the activity which preceded it nor did it do the players justice. After considerable fuss and bother over two old (and all but forgotten) friends who came to pay an untimely call on Ethel and Albert and who were persuaded to stay overnight, our gracious hostess discovered the following morning that her guests had slipped off leaving only a thank you note "because we don't want to cause anyone any trouble." Ethel, of course had already had her "troubles" slaving over breakfast before this sad turn of events came to light.

Uneven phases of the second show can be attributed to the newness of working in TV in a half-hour format. The problem of adjusting to being seen as well as heard has been somewhat minimized for Miss Lynch and Mr. Bunce through former video appearances in skit versions of the now 30-minute Ethel and Albert show. The adjustment, however, is not yet complete. The second program

**WBZ-TV**

**is the New England station they watch most!**

When you study Dr. Forrest L. Whan's report of TV viewing in the Boston Trade and Distribution area, you can't miss the overwhelming preference for WBZ-TV. Of urban TV families, 28.0% named WBZ-TV as the station they watched most (compared to 13.8% for the next best station). Among village TV families, preference for WBZ-TV is 34.3% (compared to 13.9%). And on farms, the WBZ-TV figure rises to 34.9% (compared to 13.9%).

If you haven't a copy of the Whan report, write for one now. It will help you select the programs, the times and the station that will make your New England television budget most effective. Write to WBZ-TV or NBC Spot Sales.

dragged in spots. Cues were not picked up quickly enough to set an even comedy pace. The show's more polished moments showed that such weaknesses, luckily not inherent flaws, will be eliminated when the actors become completely comfortable in their new surroundings.

**BOOKS**

COMBINATION textbook-workbook (an affair having pages with punched holes and perforated edges for tearing off and handing in to the instructor) is not a recent educational development. However, such a manual (or was) new to television classrooms. Now the authors of a radio workbook (and various textbooks, too), Professors Ewbank and Lawton, have come up with a TV manual containing many different kinds of projects which a student, or a group of students, may undertake to do. The workbook has five sections: Program projects; listening and viewing projects; writing projects; radio scripts, continuity and commercial copy projects, and survey projects (measuring the audience). The workbook appears to be a sound contribution to radio-TV classrooms where the instructor wants to give students a broad background on programming and production. It will probably be most useful for introductory courses in radio and TV.

**HOW TO BE A SUCCESSFUL EMCEE,** by LeRoy Stahl. T. S. Denison & Co., 321 Fifth Ave., Minneapolis 15, Minn. 200 pp. $2.75.

LeROY STAHL is afraid that if you had to be a master of ceremonies tonight, you might not do such a good job. Even if you know some of the essentials of good speech-making or dramatic acting, he says you still might not pass his final examination on what every m.c. should know unless you've read his book. As he says, "The job of a master of ceremonies is to present a show, not to be one." After discussing the more or less routine jobs an m.c. is called upon to do (before garden clubs and businessmen's lunches, for example), Mr. Stahl covers many other types of situations, and also includes such points as physical deportment. Several pages of illustrative material complete the handbook.

HOW can college students, trained perhaps with an emphasis on drama with a bit of radio thrown in, learn about the basics of television production? One way, outside of actually working in a TV station, is through the latest book by Howard Tooley, no novice in either the theatre or in TV, but new to TV textbook writing. (His earlier radio texts include *Radio Guild Plays* and *The Radio Handbook*, which are found in nearly all school libraries and in many radio classrooms.)

In *The Television Workshop*, Mr. Tooley explains TV production in simple terms and plain language, yet he somehow manages to cover all the highlights in about 35 pages—and about 24 pages of pictures, no small aid in themselves. The last two thirds of the book includes three TV plays, introduced with notes on their production and surrounded with many helpful ideas and suggestions for presentation. At the end of the book, of course, is the usual glossary of TV lingo.

*May 11, 1953*
A CAPSULE of the experiences during Jack Simpson's career invites a review of some of the more popular radio and television shows over a score of years for a closer look at the guiding hand of the creator, producer or director.

Mr. Simpson, a Chicago agency-network veteran, has been associated in each of these capacities through tenures at NBC, Russel M. Seeds Co. and, more recently, Foote, Cone & Belding, Chicago, where he currently is radio-TV director in charge of production.

At FC&B, he is responsible for the radio and TV activities of Armour Co.; for recommendations bearing on broadcast media from all of the agency's product groups; for personnel (traffic and secretarial), and to account management for all radio-TV supervision and operations.

Mr. Simpson was born Oct. 15, 1909, in Chicago. In his early years he moved to Ohio and attended Cleveland Heights High School and, later, the U. of Missouri. He finally settled in New Orleans.

There he sold dictaphones, reported on the New Orleans Item, and headed the WPA writers' 'Little Theatre.'

Mr. Simpson really cut his creative-production teeth in New Orleans. In 1937 he joined Stone-Stevens Inc. where he created and produced a number of programs—14 per week at one time—among them Quality Game and The Assistant Housewife, Ann Baker (Mary Alyce Buist, who later became Mrs. Simpson). He left the agency in 1942 and went to Hollywood with his close friend, author Erle Stanley Gardner, to help develop a radio show.

In the late '30s, he also freelanced as a writer and sold radio scripts (including one to First Nighter). Back from Hollywood in August 1942, he returned to Stone-Stevens and, in 1942, joined WWL New Orleans as production manager. He created Down South, a vehicle which unmasked the talents of one Margaret Luft (Piazza).

Mr. Simpson came to NBC in Chicago as producer-director in May 1943. He moved to the Seeds agency in March 1944 but was still responsible for production on NBC and other programs. His most notable associations: Raleigh Room, Gay Mrs. Featherstone, Carmen Cavallero Show, Red Skelton's radio series and People are Funny. Mr. Simpson also helped build the Dave Rose Show, Padded Cell, Adventure Club and Is It Fact or Fiction?

Mr. Simpson joined FC&B in January 1952 as radio-TV supervisor. He lives in Wilmette, Chicago suburb, with his wife and two daughters Carol 9 and Jann 6.
YEAR AFTER YEAR, men and women who know the Carolinas place Charlotte higher on their market lists than the city population (73rd in U. S.) justifies. They know that Charlotte is completely ringed by a heavily populated, dependent area, studded with highly industrialized satellite cities. Among these cities, mark Hickory (Catawba County) which employs in its 200 textile, hosiery, furniture and porcelain plants a labor force almost equal to the town population*. It's an important part of the Charlotte market and for coverage to match this market, there are no media to match WBT and WBTV.

*Hickory, N. C., population 14,961, industrial workers, 13,000.
Adjustable Beam, High-Gain TV Antennas

Check these 9 features

Any power to 1000 KW
RCA UHF Pylons have ratings suitable for any transmitter power up to 50 kw... and for an ERP (Effective Radiated Power) up to 1000 kw.

Power gains up to 27
RCA UHF Pylons can be furnished with gains in the order of 3, 6, 9, 12, 21, 24 and 27.

Adjustable beam tilt
The "Beam Tilt" of the RCA UHF Pylon is a "built-in" feature. Easily adjusted in the field, you are assured of best possible coverage and maximum vertical pattern reinforcement. Mechanical "beam tilt" by leveling plates—electrical "umbrella" effect by sliding transmission line fitting.

Near perfect circularity
With the RCA UHF Pylon, you get equal signal in all directions. The measured and theoretical patterns are within 1% of a perfect circle!

No protruding elements
Nothing "sticks out" from the RCA Pylon. The smooth surface of the pipe itself is the radiator. There's nothing to bend or break under ice or wind load.

No tuning adjustments
The RCA UHF Pylon is "custom tuned" for your frequency—in the RCA plant. You put it up, connect the line, and throw the switch! Absolutely no tuning required.

Null fill-in
High-gain antenna measurements show the first null filled in about 10%—satisfactory for all except unusual mountain top locations. See the curves below.

Special matched transmission line
No UHF antenna will function properly unless the transmission line closely matches the antenna. RCA supplies specially designed lines, not available anywhere else. Factory tests on this line show VSWR better than 1.05 to 1.0.

Complete accessories available
RCA can supply transmission line fittings, towers, directional couplers, signal demodulators, UHF loads, wattmeters, filterplexers—all specifically designed to work with the UHF Pylon.

REMEMBER! Only by having everything matched from transmitter to antenna can you be sure of results. Why take a chance? Call your RCA Broadcast Sales Representative.
Table Talk
EDITOR:
I have a question in regard to [Peter] Levin's article, "How Many TV Outlets Can the U. S. Support?" [B&T, April 27].

In one part Mr. Levin has a table showing "city retail sales necessary" and "county retail sales necessary." My question is: Do the county retail sales figures also include the city retail sales, or is the total retail sales necessary a combination of both the city and county figures shown?

Thanks for a fine article... . .
H. J. Newcomb
Station Manager
WRIN-AM-FM Racine, Wis.

[EDITOR'S NOTE: The county figures include the city sales.]

Primer's Praises
EDITOR:
For some time now I have intended to write you a note of thanks for the splendid article you had in your March 30 issue on the "ABC's of Radio and Television." This was done in a most excellent way, and we would like very much to get from you six additional copies of this story.

You are to be commended for the many splendid features you publish in B&T. Especially during the past several weeks you have had some wonderful material. . .

Dupree Jordan
Acting Director
Baptist Radio Center
Atlanta, Ga.

EDITOR:
Thanks a million for the tremendous service in sending us the copies of the "ABC's of Radio and Television." It was such a terrific article we were sure you had made reprints.

We gave them to a group of teachers visiting our station in connection with a Chamber of Commerce "Business-Education Day."

Foster H. Brown
Director, Sales Promotion
KXOK St. Louis

For the Birds
EDITOR:
This "news" story appeared in the regular news pages of the Honolulu Star-Bulletin, the island's largest daily, Saturday, April 11. I thought it quite choice. What do you think?

How to be Happy
Without Television

Don't be disgusted and tired of life if you happen to live in a "fringe area." You can be happy without television. A cheery canary will brighten your home with his melodious song and his abundant vitality. . .

So help me, that's just the way the yarn appeared. How unflattering can they be to TV? A canary for a substitute. If you'll excuse the pun, it's for the birds.

Vic Rowland
Public Relations Director
KONA-TV Honolulu

Squaring Accounts
EDITOR:
I have seen today, for the first time, the column run in your April 20 issue of Broad-
Engineering Perfection, Adequate Power and Quality Programming make the right combination that continues to build prestige for WREC—It's the right combination for advertisers too. WREC delivers the "Better Half" of both Metropolitan and Rural listeners with a single schedule. Check with your Katz man. He has the latest Standard Audit & Measurement Reports and Hooper Ratings to prove it . . . and, here's the best news of all . . . the cost is 10% LESS per thousand listeners than in 1946.
Want to catch the big ones, year-'round, with RADIO?

Winter or Summer, your best Kentucky radio buy is always WAVE—the 5000-watt station that covers the Louisville Trading Area thoroughly, with no waste.

This area alone accounts for 55.3% of the State's total retail sales—51.3% of its food sales—59.8% of its drug sales! It also accounts for more than a quarter million car and portable radios to keep people "radio-active," whether they're at home or on the go!

Any way you look at it, radio is your best bet in Kentucky, and WAVE radio is the cream of the crop.

Doctor's Dilemma
EDITOR:

We referred recent items from B • T on folding FMers, plus items page 93 (Detroit FM interest increase) and page 66 (WEMP-FM power hike) April 7 issue to our "Family Physician" for analysis and advice. Being an outstanding grad from Common Sense Promotion College, his immediate diagnosis: Strangulation due to acute duplication.

Surprisingly enough, he gave no prescription (Not even for sugar pills of "Bonus Cover-age").

Evidently remedial medicine is available to all at their local dispenser of ideas and separate programming, sold under various trade names such as Transit Radio, Storecasting, and perhaps most popular, Good Music.

James Johnson
Cincinnati, Ohio

Infernal Machine
EDITOR:

We are being defeated by the same destructive instrument which has built the gigantic federal payroll—the Mimeograph.

...Hundreds of alleged specialists are selling the major manufacturers of the nation on an advertising budget of "mailings" of promotional material to radio, television and newspapers. The stuff...is clearly marked "home hints," "farm news," "contest material" or what have you.

Stations who fall victim and respond in any way to the material find themselves on a list prepared by the specialist, to sustain his own position and salary. I shudder to think of the hundreds of thousands of dollars which might otherwise be diverted to advertising of benefit to the manufacturers but which is actually used for salary and Mimeograph paper—biting for free time...

William N. Udell
President
WIMS-AM-FM Michigan City, Ind.

When you "buy stations" on any other basis than personal selection, station by station, you automatically get some top outlets, some medium ones, and some that are downright puny. Whatever network you buy, and whether you want farmers or flappers, housewives or Hopalongs, you'll get a lot of what you don't want.

The answer, of course, is Spot Radio. With this most flexible, economical, effective medium, you can buy the best station or stations (for your needs) in any market you choose. You can buy "farm stations" only—or stations that concentrate on urban and suburban families. You can choose stations that appeal most to your best prospects, whatever their age, sex, race, economic or cultural status may be. You can use any stations you want, regardless of network affiliations.

Look now at the stations on the opposite page. All of them are top buys for Spot Radio—very probably the best choices for you.
“AL-BERTSON”

Everyone in Washington who has had occasion to call Fred W. (for Woodward) Albertson knows that vocal signature when the junior partner of the Washington law firm of Dow, Lohnes & Albertson answers a telephone call.

And, as the new president of the Federal Communications Bar Assn., the group of lawyers who specialize in practice before the FCC, many more will come to know that hearty and welcoming telephone hall.

There are in every industry a small group of selfless individuals who quietly and unassumingly work for the betterment of their profession or their business. Such a one in the field of broadcasting administrative practice is Fred Albertson.

Fred Albertson is both a lawyer and an engineer. It is in this relationship of communications law and engineering that Mr. Albertson brings his talents to bear. Having the confidence of both groups, he has served as the connecting bridge in many a situation which saw both professions initially at odds with each other. The results have been good for broadcasting.

Mr. Albertson's communications engineering background comes to him naturally. His father was a railroad telegrapher and station master at the Peru Marquette's stop at Fairgrove, Mich. His mother, too, was a Western Union telegrapher. Mr. Albertson doesn't recall a time that he did not know the Morse Code. He laughingly says that as an infant he cried in dit-dah's.

Fred W. Albertson was born in Fairgrove in 1908. During his high school days there he pursued his communications background by helping in the construction of WBCM (then WSKC) Bay City, and WMPC Lapeer, Mich. He received his amateur license in 1924, commercial operator's license in 1925, and used it to earn a part-time salary as relief operator at WBCM and at WMPC. He worked on yacht radio installations at shipyards in Bay City, 16 miles from Fairgrove.

Following his graduation from Fairgrove High School, young Albertson went to the U. of Michigan from which he received an A.B. in 1931 and a law degree in 1934. Although not in the collegiate sense, Fred Albertson was something of a "big wheel" at Ann Arbor. With his communications background, he worked on radio systems and equipment for a number of U. of Michigan expeditions. At the time Mr. Albertson was a student, Michigan scientists were active in Mesopotamia (archaeology), South Africa (astronomy) and Greenland (meteorology). In fact, the first direct intercommunication of expeditions between the Arctic and the Antarctic was the result of young Albertson's work—at Ann Arbor in 1929 he interconnected the Michigan meteorological expedition in Greenland with Admiral Richard Byrd's South Pole group.

Engineering courses vied with law courses for Mr. Albertson's interest as an undergraduate, and although law won out, a few more credits would have given him an engineering degree too. Nowadays it doesn't mean that much to him—he is a registered Professional Electrical-Communications Engineer in the District of Columbia.

A year after Mr. Albertson received his LL.B. he joined the King stown law firm of Dow & Lohnes, where fraternity brother Horace Lohnes (Delta Theta Phi) was already established. In 1944, the firm became Dow, Lohnes & Albertson, and in 1946 it was considered the third largest, in number of legal associates, in the capital, and one of the most active not only in practice before the FCC, but also before the Federal Trade Commission, Civil Aeronautics Board, Securities & Exchange Commission, Interstate Commerce Commission and in tax and other administrative legal activity.

Mr. Albertson's engineering background has led him to be a member of many technical societies, and it is through this means that he has kept abreast of the developments in electronics which have benefited not only his clients, but also the industry as a whole.

He is a senior member of the Institute of Radio Engineers and is a member of the board of editors of the Proceedings of the IRE. He is a trustee of the Washington (D. C.) Section of the IRE, and was chairman in 1946-47. He was a co-founder of the U. of Michigan Radio Club (first president, 1928-32); of the Washington Radio Club (president, 1939), and of the Engineers Club of Washington (a director). He is a member of the Academy of Television Arts & Sciences, Radio Pioneers and the Philosophical Society of Washington.

On the legal side, Mr. Albertson is a life member of Delta Theta Phi legal fraternity. He was a charter member of the Federal Communications Bar Assn., was chairman of various committees, and occupied offices which culminated this year in his election as president. He is a member of the American Bar Assn., American Judicature Society, and on the executive council of the Administrative Law Section, District of Columbia Bar Assn.

As can be surmised, Mr. Albertson's overwhelming hobby is radio. He is an active "ham" and has what he calls a "basement laboratory" at home. Although he does not actively follow ham, he is a lifetime prestidigitator caught his interest. He still is a member of the Society of American Magicians.

In 1942 he married an office colleague, fellow attorney Catherine Frances Dolan. The Albertsons have two children, Fred Jr., 7, and Helen Dolan, 5.
When people have money to spend ... they'll spend it. And, people in the rich Roanoke area have a per-family income 20% above the national average and 34% above the average in Virginia. In actual figures that means an income of $5,867 per year.*

If your product has distribution in Virginia ... if you are interested in tapping a significant source of revenue ... you can't afford to overlook Roanoke ... one of the nation's fastest growing industrial markets.

For the most complete and effective TV and Radio coverage of this rich market, call your Avery-Knodel man. He will give you the eye-opening story about WSLS and WSLS-TV.

*Sales Management, 1953 Survey of Buying Power
KWKH delivers 22.3% more listeners than all other Shreveport stations combined— for 55.8% of their cost!

Compare KWKH's total Average Daily Audience with that of Shreveport's four other stations combined, and you find KWKH is still out in front by more than 22%! Yet KWKH costs 44.2% less!

These audience figures were compiled from the new Standard Station Audience Report—the more conservative of the two audience studies made in this area in recent years.

You know the reasons for this superiority—balanced programming, nationally-famous local shows, outstanding public service, big, experienced staff, 50,000-watt, Clear-Channel reception.

Write direct or ask your Branham Company man for the whole KWKH story.

VITAPIX CORP. SPREADS; 40 TV OUTLETS IS GOAL

Expansion of Vitapix Corp. into a nationwide film distributing syndicate, to serve an anticipated 40 owner TV outlets in as many top markets, is in the works, announces new Board Chairman John Fetzer, who reveals that 20 stations are virtually committed. Former NBC executive Frank Mullen is named president, with Robert Wormhoudt to serve as executive vice president and William Broidy to become vice president.

EXPANSION of Vitapix Corp. into a nationwide TV station-owned film distributing syndicate—with Frank E. Mullen, former NBC executive vice president, as president—was announced last week by John E. Fetzer (WKZO-TV Kalamazoo, Mich.), new chairman of the board.

Organized three years ago and beginning operations last year (B&T, Nov. 3, 1952), the $1 million Vitapix Corp. will engage in rental and distribution of film features for the benefit of its cooperative owners.

Plans call for the stock participation of TV stations in the top 40 U. S. markets. Already committed, or having been invited to participate, are 20 television stations.

Vitapix activities are scheduled to move into high gear after a stockholders and directors meeting June 3 in Chicago.

Mullen at Helm

Mr. Mullen takes over the helm of Vitapix after having served as NBC executive, as president of the late G. A. Richards stations (WGAR Cleveland, WJR Detroit and until recently KMPC Los Angeles), as an officer of Jerry Fairbanks Inc., and as a broadcast management consultant.

Mr. Fetzer is chairman of the NARTB's TV Code Review Board and owner of WJEF Grand Rapids and part owner of WMBD Peoria.

Mr. Mullen

Robert H. Wormhoudt, formerly Vitapix president, was elected executive vice president. Mr. Wormhoudt was sales manager of Unity Television Corp. before joining Vitapix.

William F. Broidy, president of William F. Broidy Productions Inc., was re-elected vice president of the cooperative distribution company. Don G. Campbell, owner of the D. C. Electric Co., Hollywood, electrical equipment supplier to the film industry, was re-elected treasurer and Horace L. Lohnes of the Washington law firm of Dow, Lohnes & Albertson, was re-elected secretary.

The new officers were chosen at a meeting in Los Angeles during the NARTB convention two weeks ago. The following board also was elected at that time:

Messrs. Fetzer, Mullen and Lohnes and J. Leonard Reinsh (WSB-TV Atlanta and WHIO-TV Dayton, Ohio), J. E. Baudino (WBZ-TV Boston, for Westinghouse Radio Stations Inc., of which he is executive vice president), G. Richard Shafio (WIS-TV Columbia, S.C.), R. A. Borel (WBNS-TV Columbus, Ohio), G. L. (Ted) Taylor (station representative and TV applicant at Wichita, Kan., where he owns KANS), and Howard Lane (TV applicant for Portland, Ore., and Seattle, Wash., where he is one of the principal owners of KOIN and KJR, respectively).

Original Stockholders

Vitapix now includes original stockholders Fetzer Broadcasting Co. (WKZO-TV Kalamazoo), RadioOhio Inc. (WBNS-TV Columbus, Ohio), Dow, Lohnes & Albertson, William F. Broidy and Don G. Campbell.

The following stations have indicated they intend to become stockholders: WBZ-TV Boston, WSB-TV Atlanta, WHIO-TV Dayton, WIS-TV Columbia, S. C., WPIX (TV) New York and WDSU-TV New Orleans.

Invitations to become members have been extended to stations in Philadelphia, Chicago, Los Angeles, Seattle, Louisville, Detroit, San Francisco, Omaha, Syracuse, Phoenix, Denver, Minneapolis, Portland, Ore., and other markets.

Vitapix owns 27 Johnny Mack Brown western features, now being run in 32 markets. It also owns an Easter feature film, station slides, a group of filler shorts and film loops (rain, snow and other scenes).

In addition to acting as a buying agent for its member-stockholders in securing film and distributing it to member stations and others, Vitapix is organized to engage in other film operations, such as production. It already is engaged in procuring and selling production aids for local station use.

Corporately, Vitapix consists of 10,000 shares of preferred stock at $100 par, and 10,000 shares of common stock with a declared value of $100.

Statements Issued

These statements were issued after the announcement last week of the expansion of Vitapix Corp. and the election of Mr. Mullen as president:

Board Chairman Fetzer said:

"After three formative years our organization has evolved a successful working formula. As part of that plan I am delighted and pleased to welcome Mr. Frank Mullen as president of Vitapix Corp. and the election of Mr. Mullen but consider it an honor to be associated with a board of directors consisting of men whose outstanding leadership in the industry is recognized by all. Our group is looking forward to a vital role in the development of television affairs."

Mr. Mullen said:

"I have accepted the presidency of Vitapix with great pleasure, first because of the opportunity to become associated with the outstanding men and organizations that constitute its strength and guarantee its success; and secondly, because of the obvious need for the type of services Vitapix can render the public through its member television stations. I believe that film syndication is a necessity to meet the service needs of the television audience, the station and the advertiser. Vitapix, now a station-owned film distribution syndicate, will become increasingly successful as it operates to meet the triple requirements of licensee responsibility, program quality and economic stability. I welcome this opportunity to serve and to renew active association with my friends of many years' standing."
ADVERTISERS & AGENCIES

RADIO CITED TO EXPORT ADVERTISERS

Martinez calls the AM medium ‘backbone of any advertising campaign’ in Latin America. He warns American advertisers of competition from abroad.

RADIO was pictured as “the backbone of any advertising campaign” in Latin America at a session Thursday of the Fifth International Convention of the Export Advertising Assn. at the Hotel Plaza in New York.

In a speech titled “Radio & Television in a Competitive Market Today,” A. M. Martinez, vice president of Melchor Guzman Co., Inter-American station-representation firm, declared that radio’s pre-eminence in Latin America rested on its ability to give “mass coverage for mass sales.”

Pointing out that there are more than 1,000 commercial radio stations in Latin America, he said “the largest portion of the budgets for advertising is allocated to radio and now a good share is diverted to television.” He stated that this was “particularly true” in Cuba and Mexico and added that the same pattern is developing in Argentina, Brazil, the Dominican Republic and Venezuela.

Mr. Martinez sounded a warning to American advertisers on the competition they are facing from British, German, Japanese and Latin American manufacturers. He declared these competitors have learned how to advertise profitably by using American methods, particularly “the value of radio broadcasting as a means to create mass sales.”

In connection with raising of standards, Mr. Martinez made mention of a round-table discussion at the Inter-American Assn. of Broadcasters convention at which recommendations were formulated for approval by the board of directors of the association. He summarized them as follows:

1. Standardization of spot announcements with respect to length; (2) standardization of the minimum length of program time; (3) standard maximum for program commercial copy; (4) issuance of new rate cards three months in advance of date of application; (5) rate increase provision to advertisers of three months from the date the increase becomes effective; (6) stations and advertisers to consider as bad practice and lack of good ethics the offering or soliciting of rates other than the printed rate card; and (7) no station to accept commercial programs unless it is fully agreed that payment is in accord with the printed rate card in effect.

In evaluating television’s impact on the Latin American market, Mr. Martinez pointed out that television is in the growing stage, adding: “To get an idea of the progress made by television in the last two years, let us look at recent reports. Today, there are 20 television stations in full operation, 41 under construction, plus 17 applications for new stations. Before this year is over, there should be 30 television stations in operation.”

He declared that the cost of producing films in the U.S. “alarms the export manager whose budget is somewhat limited,” and recommended that many TV commercial films produced in the U.S. for domestic use be adapted for use abroad as one means of lowering costs and that others be made abroad “from start to finish.”

Mr. Martinez conducted a demonstration of TV filmed commercial spots produced for the Spanish-speaking market in this country and in Cuba.

Fitzhugh Granger, manager of merchandising service in foreign operations for International Harvester Co., Chicago, was presented with the Export Advertising Assn.’s annual award in the field of international advertising and marketing.

Kenyon & Eckhardt Plans Merchandising Canvass

KENYON & ECKHARDT, New York, is mailing questionnaire to every broadcasting station and network—both radio and TV—on the air in the U.S., asking for a detailed report on merchandising services available to the station’s advertisers. Results of the survey will be published in Bost after the study.

Prepared by the agency’s promotion and research department, questionnaires cover all types of merchandising services offered by stations, from on-the-air support to personal calls on retailers carrying the sponsor's product. When completed, the study is expected to present a definitive picture of merchandising services available to advertisers buying time on the nation’s radio and TV stations and networks.

Survey was prompt, the agency said in its covering letter, by “the keen interest clients and agencies are showing in station merchandising and promotion.”

Kushins Elected Hoge V. P.

EDWARD L. KUSHINS, vice president and general manager, Tube Hoge & Sons, has been elected executive vice president and assistant to the president, Cecil Hoge. Leon Appel succeeds Mr. Kushins as vice president and general manager, and Philip Steinberg becomes vice president and controller.

PATTI PAGE, star of Scott Music Hall, chats with Harry C. Pardee (l), vice president and advertising manager of the Scott Paper Co., and D. A. Prousty, Scott’s retail sales manager. Miss Page is star of Scott’s musical program seen on NBC-TV alternate Wednesdays. Mr. Prousty was in New York prior to leaving on an eight-week European tour with seven other American businessmen, to give European businessmen a picture of American selling and marketing techniques.
CAPELLE ATTESTS RADIO STRENGTH

HURMAN has announced. The firm's plans for the first three months of this year, Mr. Capelle said, are coming in strong. "So this year, Mr. Capelle said, the firm's advertising agency advised us that the Memory Book was over $25,000—and the mail is still coming in strong. In other words, we are getting better results this year than we did last."

Mr. Capelle

NEW BUSINESS

Douglas Jone Ted Bates As Radio-TV Director

JAMES C. DOUGLASS, vice president in charge of radio and television, Erwin, Wasey & Co., New York, effective May 15 joins Ted Bates & Co., also New York, in the newly created post of director of radio and television.

Before joining Erwin, Wasey, Mr. Douglas had been with Colgate-Palmolive-Peet Co. as radio and television coordinator. Prior to that he served in the U. S. Navy with lieutenant commander rank. He formerly was production manager for CBS in St. Louis and program director of Central States Broadcasting System.

His successor at Erwin, Wasey has not been named.

Mr. Douglas

Thurman Barnard Dies

HURMAN L. BARNARD, 55 former advertising agency executive and a consultant in the international Information Administration of the State Dept., which he joined in March 1951, died in Washington last Monday. Mr. Barnard in 1920 joined N. W. Ayer & Son and was vice president and manager of the Detroit office until 1943. He served in an executive capacity with the Office of War Information during World War II and from 1946 to 1951 was with Compton Advertising Inc., New York, as executive vice president, board member and director of the firm's plant board.

Direct Mail Volume Up

DIRECT MAIL Assn. reported last week that the estimated dollar volume of direct mail advertising used by U. S. business during the first three months of 1953 was $313,925,404, representing a gain of approximately 6% over the first quarter figures for 1952. The March 1953 estimated dollar volume was given as $113,955,380, as against $100,214,245 for March 1952.

Pearson Sells Weekly Show

DREW PEARSON's transcribed weekly radio show has been purchased by 173 stations and 165 local sponsors, the news commentator has announced. The sales are said to give Mr. Pearson nearly as large a coverage as he had while on ABC.

BROADCASTING • TELECASTING

May 11, 1953 • Page 33
Western Division Growth
Cited by Ziv TV's Rifkin

INCREASE in Ziv TV sales in the 11-state western division to 167 current contracts and the growth of personnel in that area from one to five were reported last week by M. J. Rifkin, vice president in charge of sales for Ziv Television Programs Inc.

He noted that Walt Kingsley, currently western division sales manager, opened Ziv TV's office in Los Angeles 18 months ago, and the staff presently includes: Jack Gregory, Washington and Oregon, with headquarters in Seattle; Jack Brumback, northern California and Nevada, headquarters in San Francisco; George Dietrich, southern California, Arizona, and New Mexico, headquarters in Los Angeles, and Leon Wray, Utah, Idaho, Montana, and Wyoming, headquarters in Denver.

Study Shows Beverage Firms
Buy 36% of CTI Films

RESULTS of a study made by Consolidated Television Sales to determine the classification of advertisers who have bought the firm's TV filmed programming at the local level in the past eight months has been announced by Peter M. Robeck, CTI general manager.

Breakdown on classification of local and regional advertisers who have bought Consolidated programs is as follows:

- Beverage, 36%; food, 26%; appliances, 12%; automotive, 10%; dry goods, 8%; banks and utilities, 5%, and miscellaneous, 5%.

The programs distributed by Consolidated, upon which the study was based, included Front Page Detective, Public Prosecutor, Hollywood Playhouse, Get Smart, I Love Lucy, and Villager. With the Rasslers, Going Places With Uncle George, and several seasonal sport series.

Mr. Robeck noted that Consolidated has completed more than 500 sales during its first eight months of operation.

KYTL-TV Buys 7 UTP Shows

UNITED Television Programs announced Thursday at Los Angeles it had sold seven shows to KYTL-TV Mesa, Ariz. The shows are Heart of the City, Royal Playhouse, Counterpoint, Sleepy Joe, Hollywood Off Beat, Double Play and American Barn Dance. UTP said it sold a total of 15 shows at the NARTB Convention.

Amos 'n' Andy Sales

TOTAL of $500,000 in sales of the Amos 'n' Andy TV film series was made in one day following CBS-TV's NARTB Convention announcement that the show, hereafter a CBS-TV network feature, had been made available for syndication, Wilbur S. Edwards, general sales manager for CBS Television Film Sales, reported last week. He said stations which had bought the series for local or regional sales included outlets in New York, Chicago, Houston, Los Angeles, Lubbock and Phoenix. First release of the series on a market-by-market basis is set for July 1.

PRODUCER and advertising representatives visit the sponsor as these men concerned with production of Foreign Intrigue, filmed TV series sponsored by P. Ballantine & Sons (Ballantine ale), tour the Newark, N. J. brewery.

Enjoying what they sell are: (l to r) James Clarkson, J. Walter Thompson Co.; Sheldon Reynolds, show's producer; Henry Gorski, Ballantine advertising manager, and Howard Reilly, J. Walter Thompson Co.

Consolidated Sells 10

COMPLETION of 10 sales of its "Station Starter Plan" during the NARTB convention, raising the total number of subscribers to 36, was announced last week by Consolidated Television Sales.

Under the plan, Consolidated supplies new TV stations with a package of nine filmed program series at a cost to the station of a weekly fee equal to the station's Class A hourly rate.

Two Usury Suits Filed

TWO SUITS charging usury and asking treble damages were filed last Monday in Los Angeles Superior Court by Marty Martyn and Ted Kneeland, producers of quarter-hour syndicated TV film series, Double Play. Named in the first suit for $24,108 are Jacques Leslie, plaintiffs' former attorney; Richard Hungate, his law partner; Philip Wain, accountant, and Joseph Shane, financier. Defendants in the second suit for $20,794 are Meara, Leslie and Hungate. Both suits were alleged to be based on two different sums which the plaintiffs said they borrowed from the defendants.

Dual Theatre-TV Release

KAY FILMS Exchanges, Atlanta, is circulating a letter among Hollywood agencies requesting information on the possibility of tying together TV film episodes for theatrical feature release in several major cities.

Deuils Productions, Hollywood, has completed an integrated three-episode feature film based on the CBS-TV I Love Lucy series. Its success may prompt other TV film producers to do likewise with episodic products, agency executives predict.

MCA TV Adds Two Offices

ADDITION of two sales offices by MCA TV Ltd., raising total number of offices throughout the country to 10, was announced by the company last week. The firm is the film division of the Music Corp. of America. Robert Canavan, sales promotion director of KROD El Paso, has been appointed manager of the new Atlanta office, and David Abbott, TV sales representative for WBZ-TV Boston, manager of the Boston office.

Film Sales

NBC Film Div.'s Hapalong Cassidy program has been sold to KROC-TV Rochester, Minn., KIT-TV Yakima, and KFIF-TV Ft. Lauderdale, raising total markets to 105, John B. Cross, national sales manager of the division, reported last week. He said recent sales have increased total markets on Dangerous Assignment to 103; Douglas Fairbanks Presents to 67, and The Lili Palmer Show to 19.

Alexander Film Co., Colorado Springs, Colo., announces recent TV commercial productions for the following organizations:

KNXT (TV) Hollywood has acquired exclusive rights for a period of 15 months to 29 British motion pictures. Contract was negotiated by Don Hine, KNXT (TV) program director, with Nathan Kramer, president of American-British TV Movies Inc.

Availabilities

What to Do, a first-aid film series of six programs produced by the American Medical Assn., will be released June 15 to local stations for public service showings through local medical societies. Directed by Mitchell Grayson and under medical supervision of Dr. W. W. Bauer, AMA director of the Bureau of Health Education, the series will star Nancy Craig, WABC-TV New York personality.

IOWA PEOPLE
Work-Play-Live
BY RADIO!

Iowa Radio Users Spend More Than Twice
As Much Time With Radio As With
All Other Media Combined!

After all is said and done, you can’t watch television, read newspapers, thumb through magazines, or pass billboards — while you push an iron. But you can listen to radio while doing the ironing — and that’s exactly what most Iowa women do.

The 1952 Iowa Radio and Television Audience Survey proves that Iowa radio users spend more than twice as much time with radio as with all other media combined. Iowa women reported themselves as using the radio 44.6% of all the weekday time they are at home and awake. (45.9% of the women using radio-equipped automobiles listen while they drive, too.)

And oh yes — 68.5% of all Iowa families hear WHO regularly, daytime — as compared with 31.9% for Station B1.

Write for your copy of the Survey, today. It’s authentic, reliable, valuable and amazing.

Perfect climate for
Like the weather, sales in Southern California conform to a steady year-round pattern, rather than fluctuating with the seasons. And KNX provides the perfect atmosphere for sales—Fall, Winter, Spring…and good old Summertime.

**BRISK SUMMER TRADE!**

Take Summer as a year-round sales barometer: Your customers in Southern California make exactly one-quarter of their total annual purchases in July, August and September, in perfect balance with the other three quarters of the year. These Summer sales alone amount to almost two billion dollars—more than the people of Toledo, Omaha, Fort Worth, Tampa, and Jersey City combined spend in a whole year!

**CONTINUOUS CASH-INFLUX!**

Year-round, free-spending vacationers (with thousands upon thousands of portables and car radios) flood Southern California resorts. Last year these visitors numbered three and a half million. And 38% of them arrived in the three Summer months.

**STEADY AIR ACTIVITY!**

Through all the seasons, too, radio listening stays at the same high level. In Los Angeles and Orange counties alone 379,020 families have their radios tuned in during the average Summertime quarter-hour, compared with 368,370 families in the Fall.

And KNX—any month, any season—reaches more of your potential customers than any other station in Southern California!

**SALES FORECAST:**

For Los Angeles and vicinity, moving masses of your product to be followed by rising profits...when you use 50,000-watt KNX year-round.
Distribution
Snader Releases Inc., Beverly Hills, has acquired TV distribution rights to "Let's Find Gold," a 54-minute western shot in color especially for video by Tabone Pictures. The film is first in a proposed series of TV features.

Production
Return of Smlin' Ed McComnnell and His Gang this fall to network radio and television, presumably ABC and CBS-TV, was announced by Leo Burnett Co., advertising agency, in Chicago. The program is filmed on the West Coast by Frank Ferrin Production Agency, with Leo Burnett as the agency handling the Brown Shoe Account. The agency said the series is "in preparation to carry the program will be announced shortly."

Dynamic Films Inc., New York, has begun shooting dramatic reading series, On Stage With Monte Wooley, starring the actor. Poe's "The Cask of Amontillado" and Chekov's "The Boor" are the first programs completed. The series will be handled through the William Morris Agency.

Pilot film in NBC-TV's Letter to Loretta, proposed series starring Loretta Young, is being completed at KKO Pathe Studios, Culver City. Packaged by William Morris Agency, the film is directed by Robert Florey and produced by Tom Lew."

John W. Loveton & Bernard Schubert Productions, Hollywood, headquartered at Goldwyn Studios, are producing a pilot film for the Topper half-hour TV series. NBC-TV is reported interested in five pilot films for possible syndication of the series.

Robert Maxwell Amos, Hollywood, has acquired all rights to "List," used as a motion picture dog series by MGM, and plans summer production on half-hour color TV film version. Location tentatively planned for Wisconsin.

Paramount Television Productions, New York, has given its new half-hour dramatic series the title of Mayfair Mystery House. It is being produced in London by Edward J. and Harry Lee Damlinger.

Random Shots
Fsimack Studios, Chicago (TV film commercial), is offering free to clients a newly-designed storyboards laid out in three sections—allowing space for audio and video, and additional space for background and action. The board is designed to provide aid to the producer and agency in explaining story and picture content to the client. Storyboards may be obtained by clients and others in advertising trade by writing to Filmack, 1324 S. Wabash Ave., Chicago 5.

Screen Gems, Hollywood, is moving its offices to 1334 N. Beachwood Drive.

Film-Art Service, animated art service for TV production companies, has moved to 1357 Broadway, New York 36. Telephone: Circle 6-2426.

Sol Lesser Productions, Culver City, Calif., moves office to 411 N. La Cienega Blvd., Los Angeles. Units making the shift are Roadshow Attractions, Thalia Productions, Odyssey Productions, Sequoia Productions, Principal Pictures Corp., Real Adventure Films Inc., and Jungle Adventure Films.

Television a 10-minute film designed specifically for use in new TV market areas, has been produced by RCA Victor and is being shipped to the company's distributors. The purpose of the film is to point up the quality and diversity of today's TV programs. To give a quick cross-section of the many different programs being offered, the film incorporates scenes from You Bet Your Life, telecasts of Toscanini and the NBC Symphony Orchestra,Dangerous Assignment in Hopalong Cassidy. Continuity is provided by the comments of Dave Garroway, narrator.

National Assn. of Manufacturers reports that its weekly TV film series, Industry on Parade, currently is presented in 85 TV markets. The series is now in its 131st week.

Film People
Warren Glintert of the Blumfield Corp., New York, has been appointed Ohio Valley area sales representative of Consolidated Television Sales, filmed TV program firm, covering Ohio, Kentucky, West Virginia and Indiana.

Cecil B. deMille will be chief consultant on matters relating to the International Motion Picture Service, a branch of the International Information Administration, according to Dr. Robert L. Johnson, IIA administrator.

YOU MIGHT STRIKE OUT 20 BATTERS IN ONE GAME*—

BUT...

YOU NEED THE FETZER STATIONS TO WIN IN WESTERN MICHIGAN!

WKZO-TV in television, WKZO-WJEF in radio—that's the record-scoring line-up for winning the Western Michigan market.

TELEVISION: WKZO-TV is the Official Basic CBS Television Outlet for Kalamazoo-Grand Rapids—America's 25th television market! WKZO-TV's brilliant Channel 3 picture is received perfectly by more than a quarter million TV sets in 28 Western Michigan and Northern Indiana counties. And here's the payoff: The December 1952 Videodex Report shows that WKZO-TV gets a far greater share of audience than Western Michigan's other television station—86.9% more afternoon viewers, 129.3% more evening viewers!

RADIO: WKZO, Kalamazoo, and WJEF, Grand Rapids, cost only 92.9% as much as the next best two-station combination in these two cities, yet deliver 62.6% more city listeners! February-March, 1952 Hoopers credit WKZO with 15.4% more listeners than the next station, for Total Rated Time Periods. And the February, 1952 Pulse credits WKZO with as many or more listeners—morning, noon and night—as all other stations combined!

It will pay you to get all the Fetzer facts. Write direct or ask Avery-Knodel.

### 27 Network Shows Also Spot

- **OF 176 network TV commercially sponsored programs on the air during the first three months of 1953, 27 also were sponsored on a spot basis in one or more cities in addition to their network telecasts, the Rorbaugh Report on Spot Television for the quarter reports. The breakthrough:**

Eighth of the TV network programs were placed on a spot basis in one or more cities; five programs in two additional cities; three programs in three cities; programs in four cities; one program each in 6, 7, 11, 12, 13, and 17 cities, and two programs in 34 cities — Ozzie & Harriet, and Greatest of the Century.

PROCTER & GAMBLE IS TOP SPENDER IN TELEVISION NETWORK TIME BUYS

Firm again tops list in February with gross time purchases of $1,237,970. In total gross TV network time purchases, figures for February and for January-February compared to like periods last year show over-all time sales rise.

PROCTER & GAMBLE Co. again in February was the top spender for TV network time, with gross time purchases of $1,237,970 for the month. This is slightly ahead of the P&G total TV network billings for February of $1,153,070. In both months, and also for those in between, P&G was the only advertiser to spend more than $1 million monthly for TV network time (before discounts).

Analysis of figures on advertisers' use of time on the four TV networks compiled by Publishers Information Bureau, from which the P&G data were derived, shows that the top 10 TV network clients in February (Table I) are the same 10 that headed the roster in February 1952, although not in the same order.

More change is indicated by Table II, list of top TV network clients for each class of business advertised in this medium during February.

The 21 categories shown, 13 are led by the same company which was listed in that position for February 1952.

Table III, listing the total gross TV network time purchases of all advertisers using the medium, tabulated by product classes, with figures for this February and January-February compared to those for the like periods of last year, shows an over-all rise in time sales from $148.5 million in February 1952 to $159.5 million in February 1953.

When the number of advertisers using network television in the two months is compared, PIB records show 29 food clients to 36 the year before, nine advertisers of smoking materials to 10 last February, 21 to 19 toiletries advertisers, seven to eight advertisers of soaps and cleansers, 14 to 11 household equipment advertisers and, in the automotive category which ranked fifth in February 1952, the change was from 12 companies then to 10 in February 1953.

Over all, there were 167 TV network advertisers in February 1952 and 152 in February 1953.

Ross-Danzig, CBS Inc. Sued by Moore

SUIT for $1 million damages was filed April 29 in Los Angeles Superior Court against CBS Inc., Bart Ross, Frank Danzig, program packagers, and Ross-Danzig Productions by William H. Moore, disc m.c. personality known professionally as Peter Potter. Mr. Moore, who conducts the weekly 90-minute Juke Box Jury on KNXT (TV) Hollywood, charges defendants, who produce a weekly hour of Platterpanel on the same station, with infringement and imitation and seeks an injunction to halt further telecasts.

Former program features six guest panelists who vote on new record releases to "hit" or "miss," while the latter has a permanent panel of four men who vote on favorite all-time recordings submitted by three guest stars. Both programs are sold out on a participation basis.

KNXT (TV), reportedly bought Platterpanel to prevent any other station from scheduling it opposite Juke Box Jury.

Complaint was filed through Hollywood attorneys Fendler, Weber & Lerner and Marvin Freeman of Freeman & Taub.

General Films Signs

NEW DAILY television column, "Inside TV," described as the "first and only exclusive TV column covering all the TV centers of America," has been signed for 10 years by General Features Corp., according to Eve Starr, author of the video feature.

Miss Starr, former Hollywood correspondent for European and Latin American magazines, said the feature already has been accepted by 11 newspapers. Each column on television contains editorials, criticism, developments, gossip and brief biographies of stars. The column began April 27.

Vanderpoel-Hauser Artists

NEIL VANDERPOEL, staff announcer for WSUN St. Petersburg, Fla., and Al Hauser, publicity director of Hotel Taft, New York, have formed Vanderpoel-Hauser Artists Corp., specializing in local radio-TV production and promotion in the Tampa Bay area. Headquarters have been opened in Room 610, Florida Theater Bldg., St. Petersburg. Telephone: 5-3072.

NEW FACSIMILE service of International News Service and International News Photos is displayed by General Manager Seymour Berkson to agency executives at the INS annual business meeting. Leading news samples are: (left, front row) Louis Alwell, INS sales manager; Saul Flaim, INS sales manager; Barry Faris, INS editor-in-chief; Mr. Berkson; John A. Brogan Jr., foreign sales director; Frank J. Nicht, general sales manager; (back row) Robert W. Brown, INS business manager; Charles Bauer, INS research director; John M. Cooper, radio-TV news director; Robert H. Reid, TV sales manager; E. C. Stein, INS editor.

RECORD TURNOUT AT AWRT MEET

Workshop panels, presentation of "Mike" awards highlighted sessions at Atlanta's Hotel Biltmore.

RECORD attendance of more than 300 delegates to the American Women in Radio & Television annual convention at Atlanta's Hotel Biltmore April 30-May 3 was reported last week by the AWRT convention reports committee.

During the four-day conference, which included seven workshop panels and business meetings conducted by active members, five new directors at-large were elected to serve through the coming year. New directors are: Rena Badenoch, radio-TV relations director, National Society for Crippled Children, Chicago; Betty Barnett, TV director-producer, KSD-TV St. Louis; Jane Barton, program director, New York State Radio-Motion Picture Bureau; Betty Ross, NBC Chicago assistant director of public affairs and education, and Gertrude Trebe, women's director, WBVP Beaver Falls, Pa.

Highlights of the banquet, held May 2, were presentation of the McCalls' Magazine gold "Mike" awards to eight AWRT members, and an address by NARTB President Harold E. Fellows. "Mike" awards, presented by Daniel D. Misch, editorial director of McCalls, were won by the following:

- Ann Holland, WBAL-TV Baltimore; Christine Spindel, WDIV Memphis; Phyllis Adams, NBC-TV New York; Miss Badenoch; Mary Morgan, CKLW Windsor, Ont. (Detroit), and Madeline Long, WCCO-TV Minneapolis. All seven workshop panels and business sessions are listed:

United Press International
DON'T JUDGE OUR WOOL

BY OUR MINK

Every so often someone buys a 24-page special section in The New York Times. Costs a lot of money, but, we're told, it pays off.

Four-page, full-color inserts in Life magazine don't go for peanuts either. But people buy them and, chances are, they get value received.

Does this mean that all newspaper and magazine advertising is expensive? Of course not. You don't have to buy 24-page sections or 4-page inserts; you can buy small space too. You, the advertiser, decide whether you are going small or going big. The advertising medium itself isn't expensive, unless you want to dominate the space. Then it does cost money, and ... it's worth it.

Same way with television.

A full-hour, star-studded show in choice evening time will dominate the TV schedule. Like those four-page inserts, it costs money, but ... it's worth it.

On the other hand, you can buy a six-minute daytime TV segment on NBC-TV for $3,400. And three million people will see your commercial.

Network Television, like newspapers and magazines, lets you decide how much "space" you need or can afford. $3,400 on NBC-TV is a good investment, and not a costly one. If you spend more than $3,400 you'll get a proportionally greater value. So, if you want to advertise your product on television, don't let all this talk about high costs scare you away. If you'll give us a call today, we'll be glad to develop with you a schedule on NBC Television that fits your advertising budget.

NBC

another advertising SHOWCASE from
TV CODE BOARD STAYS INTACT

THE five-member board that has carried the TV-radio regulation load since the NARTB's video code went into effect March 1, 1952, will continue the policing of commercial and program standards as a result of action taken last week by NARTB President Harold E. Fellows.

John E. Fetzer, WKZO-TV, Kalamazoo, Mich., was persuaded to remain in office for a two-year term, continuing as chairman of the board. Mr. Fetzer had indicated repeatedly he wanted to give up the chairmanship because of business pressures, but the field still lacks an operating the Fetzer radio and TV properties.

J. Leonard Reinisch, WBR-TV Atlanta, was reappointed for a two-year term and continues as vice chairman. Mrs. A. Scott Bollitt, KING-TV Seattle, also was reappointed for a two-year term as a board member. The other two members—Walter J. Damm, WTMJ-TV Milwaukee, and Jack K. Schleifer, KTVB-TV, Boise—were reappointed for one-year terms.

Edward H. Bronson continues as NARTB's director of television code affairs, serving as operating head of the TV industry's "conscience."

Eiges on NARTB TV Group

SYDNEY EIGES, NBC vice president in charge of press, has been named as the network's representative on the NARTB Television Information Committee. He succeeds Edward D. Madden, former NBC-TV vice president.

The committee is collecting and distributing basic information on TV's contributions to the national welfare.

Cecil, Sussman Talk

AN OPEN discussion on advertising agency dealings with television was held Thursday by the League of Advertising Agencies at the Advertising Club of New York.

James M. Cecil, president, Cecil & Presbrey, New York, represented the agency which services various types of clients. Aaron Sussman, president, Sussman & Sugar Inc., New York, spoke for the specialized agency. His agency handles at least 20 book publishers.

Contract Plans Exchange Urged for NARTB Members

GREATER exchange of information on union wage contracts among radio-TV broadcasters was recommended during concluding hours of the NARTB Los Angeles convention [B&T, May 4].

Richard P. Doherty, NARTB employee-employer relations vice president, urged broadcasters to avoid union jurisdictional conflicts, become more familiar with NLRB actions, not give away concessions in labor negotiations, and strengthen morale among station employees as a foundation of good-employee-employer relations.

Mr. Doherty spoke at a panel session presided over by Leslie C. Johnson, WZBF Rock Island, Ill., with other members including Victor C. Diehl, WAZL Hazelton, Pa.; Joseph M. Donald, NBC; Robert Purcell, KTV (TV) Los Angeles, and Victor A. Sholis, WHAS-AM-TV, Louisville.

Kobak Cites Greater Need for Good Research

NEED for objective and impartial research in advertising and marketing is greater today than ever before, Edgar Kobak, president, Advertising Research Foundation said Thursday in an address to the Eastern Industrial Advertisers, Philadelphia chapter of National Industrial Advertisers Assn. No matter how expensive good research may seem at first glance, in the long run it will prove much more economical than slipshod research which costs less but does not stand up, he said.

"Millions are spent every year for advertising research, but the field still lacks the research standards and uniform methods required in any field for scientific study," Mr. Kobak stated. "One of the Foundation's goals is to remedy this situation. Today we have more than 100 experts serving on various ARF committees and on our board of directors. These are volunteers among our agency, advertiser and media subscribers. They are giving generously...in a united effort to establish and maintain sound research standards. This job won't be done overnight. But it will be done and done well."

Radio-TV Panel Set For AFA Convention

"RADIO-TV, or How to Live on a Small Fortune" will be the subject of the final morning radio and television session of the Advertising Federation of America's 49th annual convention at Cleveland's Hotel Statler.

John Thomas, radio and TV director of Ewell & Thurber Assc., who will preside at the session, has announced.

The program will feature a panel discussion featuring the following speakers: John Karol, vice president in charge of sales, CBS Radio; Hugh M. Bevill Jr., director of plans and research, NBC; Jack Denove, president, Jack Denove Productions, Los Angeles; Charles N. Newton, television account executive, BBDO, New York, and Ben Webster, president, Videx Corp., New York.

New York Film Producers Elect Pincus President

DAVID PINCUS of Caravel Films April 30 was elected president of the Film Producers Assn. of New York. He succeeds Peter Mooney of Audio Productions.

Other officers named are Walter Lowendahl of Transfilm, vice president; Leslie Roush of Leslie Roush Productions, secretary, and Edward Lamm of Pathoscope, treasurer. Mr. Mooney, Ralph Cohen of Screen Gems and Herbert Kerkow of Herbert Kerkow Inc. were elected directors of FPA.

NCTA Sets Meet June 8

SECOND annual convention of the National Community Television Assn. will be held at the Park Sheraton Hotel in New York June 8-10. It was announced last week. The program includes a technical clinic to be moderated by Dr. Frank G. Kear of the Washington consulting engineering firm of Kear & Kennedy, and an operations panel moderated by NCTA President Martin F. Malarkey Jr., and including Donald Thornburgh, WLAC-TV Philadelphia; Edward Dallam, William E. Howe & Co., tax expert, and Thomas Egan, Pennsylvania Public Utilities Commissioner. Headquarters of NCTA is in the Thompson Bldg., Pots

May 11, 1953 • Page 47
POTENTIAL sponsors were introduced to the value of radio advertising at a recent clinic held by the National Assn. of Radio Farm Directors in Kansas City, Mo., N. C. Wright Jr., assistant manager of consumer relations for International Harvester, here in discussion with Phil Evans, director of KMBC-KPRM Kansas City's service farms, and Maury Johnson, Staley Milling Co.

Radio Farm Directors Boosted at Clinic

RADIO farm directors meeting in Kansas City, Mo., recently heard Leo B. Olson, advertising manager for DeKalb Agricultural Assn., say: "DeKalb was a one-horse outfit 16 years ago when we started using radio . . . today we're the biggest hybrid corn seller. We see radio as the only real mass medium for the farm advertiser."

Mr. Olson's statement came at a clinic of the National Assn. of Radio Farm Directors, designed to show what the director can do for the advertiser.

A number of speakers outlined the role the farm director can play in selling farmers on their advertisers’ products. Among them were: Charley Smith, research representative, WCCO Minneapolis; Chuck Calkins, radio-TV director, Conklin-Mann & Son, New York; B. S. Graham, manager, Central Oklahoma Milk Producers Assn., Oklahoma City; Maurice Johnson, vice president and sales manager, Shelley Milling Co., Kansas City, Mo.; Gale Blocki Jr., director of midwest sales, BAB, Chicago; George Higgins, vice president and managing director, KMBC Kansas City, Mo.; and Chuck Worrester, radio farm director, WMT Cedar Rapids, Iowa.

Pennsylvania Broadcasters Schedule Top Speakers

PROLIFIC speakers will highlight the annual meeting of Pennsylvania Assn. of Broadcasters in sessions at the Bedford Springs Hotel, Bedford, May 20-21.

Heading the list are: Harold Fellows, NARB president; Pennsylvania’s Gov. John S. Fine; Milton Eisenhower, president of Pennsylvania State College, and Arthur Pryor, BBDO.

Roy Thompson, WRTA Altoona, is in charge of the convention. Joe Connolly, WCAU Philadelphia, is program chairman. PAB president is Roger Clipp, WFIL Philadelphia.

AAAA Regional Meets Set

DETAILS of the Eastern, Central and Pacific fall regional conventions of the American Assn. of Advertising Agencies have been announced. Pacific Council convention will be held Sept. 20-23 at the Empress Hotel, Victoria, B. C.; Central Council, Oct. 9-10, Drake Hotel, Chicago, and Eastern Council, Nov. 10-11, Hotel Roosevelt, New York.

Editor Isaacs Praises TV, Tells Newsman to Cover It

"I THINK a newspaper owes its readers good, constructive television news coverage . . . television should be praised to the skies for some of its achievements." This belief was asserted by Norman E. Isaacs, managing editor of The Louisville (Ky.) Times (WHAS-AM-TV), in a speech before the Annual Convention of News Executives at the U. of Minnesota, Minneapolis, May 8.

Speaking on "The Challenge of the 50's to Newspapers," Mr. Isaacs admonished his fellow newspaper executives to "quit acting like ostriches about television and radio. They are two of the greatest media of the world," he observed, and "people are going to continue to listen and watch. Let's be adult about it. Let's cover radio and TV for what they are worth, for the real attention our readers give them."

"The impact of the sound and picture age on the daily newspaper thus far has been one of quivering, quavering and sheer terror . . . Let's get up and fight with our own tools—words and pictures—that carry the dramatic story of the day's events."

"The challenge of the 50's," said Editor Isaacs, "is an old one: It is progress."

Catholic Broadcasters Meet

PREPARATION of Catholic news programs formed the basis of discussions last Saturday during the Catholic Broadcasters Assn., middle Atlantic district meeting in Atlantic City. The CBA meeting followed the Catholic Press Assn. convention there last week.

Members of CBA, which exchanges radio and TV scripts and gives assistance to Catholic broadcasters, Saturday heard lectures on religious broadcasting.

Sportscasters Name Hasel

JOE HASEL of NBC was elected president of the Sports Broadcasters Assn., at a meeting in New York last week, succeeding Don Dunphy of ABC. Other new officers are Sam Taub, WMGM New York, and Guy Lebow, WPIX (TV) New York, vice presidents; Len Dillon, WFPS White Plains, N. Y., treasurer, and Bob Allison, Voice of America, treasurer.

RTNDA To Repeat Seminar; Inter-Station Unit Formed

RADIO-TELEVISION News Directors Assn. has voted to continue co-sponsorship of the National Television News Seminar with Northwestern U’s Medill School of Journalism on an annual basis. RTNDA's board of directors met May 2-3 at the Orrington Hotel, Evanston, Ill., immediately following the TV news seminar [B+T, May 4]. Tom Eaton, WTC Hartford, Conn., is president of the association.

Reynolds Joins RTMA

WILLIAM L. REYNOLDS, of the Washington law firm of Covington & Burling, has joined the Radio-Television Manufacturers Assn. headquarters office as staff attorney. James D. Secrest, RTMA executive vice president, said Mr. Reynolds replaces Ray S. Donaldson, who will work under direction of Glen McDaniel, RTMA general counsel.

BAB Reports Home Listening

HOME radio listening, not counting post-midnight or out-of-home audiences, is the subject of the fifth in a BAB series of reports on radio's cumulative audience. Report points out that better than 96 out of every 100 families who own radios listen to them at home in a single week, including nine out of every 10 radio-TV families. Titled "The Total Cumulative Audience of Radio," report is a four-page folder dealing with the number of families listening to all radio advertising each week.

BROADCASTING • TELECASTING
These top KDYL personalities can boost YOUR sales in the Greater Salt Lake City Market

These four top personalities are four good reasons why you can be sure your spots on KDYL will be delivered on the air in a manner that really gets results.

LOOKING FOR PROOF? Here’s what typical KDYL sponsors say about results from advertising on KDYL:

- A garden tiller company enjoys 350% increase in sales in less than 4 months. The local dealer stated: “We can definitely attribute more than 500 sales to KDYL because we sold that many as a direct result of leads furnished by the station. We would like to give credit where credit is due and thank KDYL for the good work.”

- Home appliance dealer increases volume sales of food freezer plan more than 400% in one month. Said the manager: “During August our sales on the home freezers and food plan, as a direct result of our radio advertising on KDYL increased more than 400 per cent.”

- Health insurance company builds business from radio advertising. Reported the owner: “The first spot by Will Wright drew six leads; subsequent announcements since that time have totaled more than nine per day. Leads for 1952 totaled more than 2,500.”

Top Showmanship . . . Smart Programming
Planned Merchandising

Bill Manning’s established shows boast audiences that bring results. A spot delivered by Bill is loaded with sales appeal for any advertiser.

Your sales message presented by Joe Lee is like a personal visit with the individual listener. Joe’s appeal can be measured by surveys showing his ability to attract and hold more listeners than any other morning show in Salt Lake City.

A favorite of radio listeners for nearly two decades is genial Allan Moll, whose loyal listeners and long experience assure you a pre-built audience.

Will Wright’s gift of knowing what the public likes in the way of music, together with his congenial and informal pattern of friendliness and sincerity, combine to make him one of the West’s most popular disc jockeys.

Bill Manning’s NBC affiliate

Salt Lake City, Utah

SEVEN MORE REPORT TV STARTS

The total commercial outlets stands at 168 with prospects of nine more getting under way this month.

SEVEN new television stations began commercial operations within the last fortnight, but none started on the day originally set as a target commencement date. (The stations had been counted by BPT in its weekly totals of operating stations. Even though not on the air with anything but a test pattern, commercial operation of the stations was due to begin momentarily.)

For the third week in a row, the number of stations counted as operating on a commercial basis is 168. These include 60 post-thaw stations, 32 vhf and 28 uhf.

Between now and July 1, 33 more stations should start programming. They are (in chronological order):

On the Air

KZYL-TV Phoenix- Mesa, Ariz., vhf Ch. 12, represented by Avery-Knodel Co., affiliated with NBC-TV (began May 3). Already on the air in Phoenix: KPHO-TV, vhf Ch. 5 (a pre-freeze station). WCGO-TV Columbia, S. C., uhf Ch. 25, represented by Headley-Read TV, affiliated with ABC-TV and carrying some NBC-TV programs (began May 1). It is the first Columbia TV station to go on the air. Due on the air between June 10 and July 1 is WNOK-TV, uhf Ch. 87. WFTL-TV Fort Lauderdale, Fla., uhf Ch. 28, is represented by Weed Television (began May 1). It is the first Fort Lauderdale TV station to go on the air. WITV2 (TV), uhf Ch. 17, plans to begin next October.

WLBC-TV Muncie, Ind., uhf Ch. 49, represented by Wally Representation Co., affiliated with CBS-TV and DuMont (began May 8). It is the first Muncie TV station.

WKKN-TV Saginaw, Mich., uhf Ch. 57, represented by Bill Perna (began May 4). It is the first Saginaw-Bay City-Midland TV station.

WPAG-TV Ann Arbor, Mich., uhf Ch. 20, represented by Joseph Hervey McGIlvera, Inc., affiliated with DuMont (began April 27). It is the first Ann Arbor TV station.

WTVO (TV) Rockford, Ill., uhf Ch. 20, represented by Weed Television, affiliated with NBC-TV (began May 3). It is the first Rockford TV station.

May 13

KVOO-TV Bellingham, Wash., vhf Ch. 12, represented by Forjoe & Co. It will be the first Bellingham (Wash.-Vancouver-Victoria (B.C.), TV station.

WCSG-TV Charleston, S. C., vhf Ch. 5, represented by Forjoe & Co., affiliated with all four TV networks. It will be the first Charleston TV station.

WFAM-TV Lafayette, Ind., uhf Ch. 59, represented by William G. Rambeau Co. It will be the first Lafayette TV station.

WTVE (TV) Elmira, N. Y., uhf Ch. 24, represented by Forjoe TV Inc. It will be the first Elmira TV station.

WTVI (TV) St. Louis (Mo.-Belleville (III.), uhf Ch. 54, represented by Weed Television, affiliated with DuMont. Already in St. Louis: KSJ-TV, vhf Ch. 6 (a pre-freeze station).

May 17

WHIZ-TV Zanesville, Ohio, uhf Ch. 50, represented by John E. Pearson TV Inc. It will be the first Zanesville TV station.

May 22

WDAY-TV Fargo, N. D., vhf Ch. 6, represented by Free & Peters Inc., affiliated with NBC-TV. It will be the first Fargo TV station.

May 25

WFTV (TV) Duluth, Minn., uhf Ch. 38, represented by Adam Young Television Inc., affiliated with all four networks. It will be the first Duluth TV station.

May 28

WNAO-TV Raleigh, N. C., uhf Ch. 28, represented by Avery-Knodel Inc., affiliated with CBS-TV. It will be the first Raleigh TV station.

June 1

KAFY-TV Bakersfield, Calif., uhf Ch. 29, represented by Forjoe TV Inc., affiliated with WBEN-TV, vhf Ch. 4 (a pre-freeze station).

June 15

KFOU-TV Lincoln, Neb., vhf Ch. 10, represented by the Paul H. Raymer Co., affiliated with ABC-TV. Already in Lincoln: KOLN-TV, vhf Ch. 12.

June 15-July 1

KJMJ-TV Fresno, Calif., uhf Ch. 24, represented by the Paul H. Raymer Co. It will be the first Fresno TV station.

KTVH (TV) Hutchinson-Wichita, Kan., vhf Ch. 12, represented by H-R Television Inc. It will be the first Hutchinson-Wichita TV station.

WNOK-TV Columbia, S. C., uhf Ch. 67, represented by the Paul H. Raymer Co., affiliated with CBS-TV and DuMont. Already in Columbia: WCOG-TV, uhf Ch. 25.

June 21

WMTV (TV) Madison, Wis., uhf Ch. 33, represented by the Bolling Co., affiliated with ABC-TV, NBC-TV and DuMont. It will be the first Madison TV station.

June 1-30

KTAG (TV) Lake Charles, La., uhf Ch. 25, represented by Adam Young Television Inc. It will be the first Lake Charles TV station.

Saginaw Operation

* WKNX-TV in Saginaw began telecasting its regular program schedule last Monday (see above). William J. Edwards, president and general manager, said the station is carrying programs from all four networks. Howard H. Wolfe, secretary-treasurer and station manager, added that the program schedule starts at 7 p.m. the station is operating with an effective radiated power of 20 kw visual, and claims reception in communities 60-65 airline miles from Saginaw.

Other TV construction developments last week:

* WNNY-TV Watertown, N. Y., uhf Ch. 48, has set its target date for November 15. The station, which will begin operation with a 12 kw uhf GE transmitter, will utilize one studio camera and a film camera. James W. T. Bolling, station manager, said Louis Saff Jr. is the overall head of WNNY-AM-TV.

* WTIV (TV) Fort Lauderdale, Fla., uhf Ch. 17, will begin construction of a 762-foot tower nine miles south of Fort Lauderdale, near the Dade-Broward County line, Cmdr. Mortimer W. Loewi, president of the station, has announced. Commander Loewi, who also is assistant to the president of Allen B. DuMont Labs, said the tower will be made by Ideco, is designed to withstand 200-mile-per-hour winds and will be the highest structure in Florida. Tower is planning to begin testing September 30 and will operate with 286 kw visual effective radiated power. Robert W. Standard, general manager of WTIV (TV), said construction is scheduled to start next month on the tower and building foundations.
Stations Advised to Seek Dept. Store Radio Drives

MAY, a home furnishings promotion month with department stores, is a good time for radio stations to solicit business from the home furnishing divisions of local stores, according to Department Store Studies, which provides a number of case studies, including copy used and sales results, indicating that radio at the retail level is most successful in selling home furnishings and appliances.

DSS also reports on two independent surveys of retail advertising, one made in the East, the other in the West, one covering newspaper advertising, the other radio, which showed the total percentage selling cost for all items—good sale, poor sale, no sale—was about 17% for newspapers and about 7% for radio.

Both studies showed that about 10% of the advertised articles did not sell at all. Poor selling items amounted to about 21% of all newspaper-advertised merchandise, about 26% of items advertised on the air. But, the selling cost of these poor items in newspapers was over 80%, while in radio it was under 5%.

Analytical comparison of the two surveys confirmed the DSS findings that radio's best selling items were in the home furnishing divisions, and revealed newspapers to be most effective in selling apparel.

KWWNO Headlines Musical

A NEW programming concept for KWWNO Winona, Minn., is its "Show Time" series. The program is broadcast in Class A five nights weekly with five different sponsors, but uses the same format for all.

Featured is music from Broadway and Hollywood musicals. The 30-minute show has no script. It contains three one-minute internal commercials; music is not announced, but is recapped at the program's close.

"Show Time" represents one of the largest single sales in KWWNO history, station said.

WSPD-TV Toledo and Weisemann Beer have contracted for a new sports program, Sports Eyo, to be carried on the Ohio outlet in connection with the introduction of the beer into the Toledo area. Celebrating the agreement are: (I to r) Bob Wood, midwest sales manager, Storer Broadcasting Co.; Al Rukhel, TV production manager, WSPD-TV; Paul Schlessinger, Tatham-Laird Advertising Agency; Allen Hald, vice president-managing director, WSPD-TV; William Rine, vice president, northern district, Storer Broadcasting Co.; Jim Faek, Weisemann distributor, and Westford Shannon, commercial manager, WSPD-TV.

In-Store Broadcasts

GROCERLAND Co-Operative Stores has signed a 52-week contract with WJJD Chicago for some 4,000 every-hour, on-the-hour news broadcasts promoting products in its 160 area stores. The contract, effective today (Monday), rounds out the station's block programming schedule, it was explained.

Under the contract WJJD is to install amplifiers and loudspeakers in the stores, capitalizing on the in-store audience. Among firms whose products will be plugged are Royal Crown, Sawyer Biscuit Co., Salerno-Megowan and Canfield Beverages.

WBBM Buys Films

PURCHASE of 104 films worth over $260,000 from Republic Pictures by WBBM-TV Chicago has been announced by H. Leslie Atlass, vice president of CBS Central Division and general manager of the station.

WBBM Buys Films

PURCHASE of 104 films worth over $260,000 from Republic Pictures by WBBM-TV Chicago has been announced by H. Leslie Atlass, vice president of CBS Central Division and general manager of the station.

WSAZ Inc. Sets TV Clinic

WSAZ Inc., Huntington, W. Va., will sponsor a television clinic Saturday at the Frederick Hotel there, Lawrence H. Rogers, WSAZ-TV vice president-general manager, has announced. The sessions include discussions on programming, engineering, and "AM Living with TV," plus tours through the WSAZ-TV facilities.

WHLI Spots Plug WHLI

AS PART of its spring audience promotion campaign, WHLI-AM-FM Hempstead, L. I., is broadcasting a series of spot announcements by station advertisers, which not only plug their own programs but also point up the ability of WHLI to produce sales results.

Weather Boxscore

WTAM Cleveland reports that its baseball weather bulletin service is proving of value to Cleveland Indians' baseball fans. Broadcast every half hour, starting two hours before game time, directly from Cleveland Stadium, the report, according to WTAM, has persuaded fans to show up for games when bad weather threatened but did not materialize.
NO SALE OF WMGM, SCHENCK DECLARES

ASSERTING his faith in "radio broadcasting and its future," Nicholas M. Schenck, president of Loews Inc., announced last week that Loews' WMGM New York "is not for sale.

His announcement officially signaled the termination of negotiations in which Bertram Lebhar Jr., director of WMGM, proposed to acquire the prominent independent outlet, a 50 kw operation on 1050 kc, in an estimated $2 million deal [B*T, Jan. 12].

Mr. Schenck's statement, released in New York Friday, said WMGM "is one of America's foremost independent stations and the best known sports broadcasting station in the country," and that "no negotiations for its sale are under consideration." He continued:

"I believe in radio broadcasting and its future. It is an integral factor in the American way of life in which WMGM plays its part."

Prior to this announcement it was disclosed that some 35 to 40 employees of WMGM had been released or assigned to other duties in the Loews Inc. organization.

The move was attributed primarily to a decision to stop production of MGM Radio Attractions, transcribed programs which had been properly selected and regularly scheduled for one year but did not renew. Distribution of these shows is continuing, however, although production has stopped.

Some clerical workers in the programming and sales departments, publicity, and production were among those released, in addition to a substantial number of engineers.

The announcement that WMGM is no longer on the market, while not mentioning personnel reductions made as a result of WMGM's recording division, which records M-G-M Records as well as those for outside customers, will continue operations without change of ownership.

KIVA-TV, Dealers Confer On Pre-Operation Plans

PREPARING for its opening in mid-July, KIVA-TV Yuma has inaugurated a dealer confer pay plan. Meetings are held at the KIVA-TV set dealers in Yuma and neighboring communities to discuss sales, installation and service policies that will work to the mutual advantage of dealers and the station. Meetings have repeatedly confirmed the cooperation, willingness of retailers to erect displays and TV set sales at a high level, KIVA-TV reported. Its CP was received in April, and station executives expect to break ground about the middle of May.

KIVA-TV, which has no radio affiliate, is headed by Park Dunford, chief owner, and Walter Stiles, station manager. Station will be engineered by Mr. Stiles, who previously built KPHO-TV Phoenix and KOPO-TV Tucson. Studios and transmitting facilities will be located at Pilot's Knob in California, just across the Colorado River from Yuma. A sales office has been opened in downtown Yuma; another will be located in East Centro. KIVA-TV will operate on vhf Ch. 11 with authorized power of 30 kw visual, 15 kw aural. It will have DuMont transmitting and studio equipment and an RCA antenna.

WCFL to Air Grid Games

WCFL Chicago, 50 kw outlet owned by the AFL, has secured exclusive rights for broadcasts of all Chicago Cardinals 1953 professional football games, the station announced. Joe Boland will describe the games and Bob Elson, White Sox baseball announcer, will handle color.

Evans, Others Promoted In WSSB Reorganization

BOB EVANS, chief announcer and supervisor of continuity, production and publicity at WSSB Durham, N. C., has been appointed program manager of the station effective May 2. Harry Brown, former program director, goes to WNAO-TV Raleigh.

Leslie Carroll, WSSB continuity, has been named copy chief and assigned to public relations and publicity. Joe Carroll, WSSB office manager, becomes accountant-cashier manager.

Paul Lucey joins the WSSB staff to emcee a nightly request program, while Joe Humphrey joins the announcement staff. Tom O. McCafer, WSSB general manager, has returned to duty after a two-month illness.

WBKB (TV) Takes Duggan

TOM DUGGAN, controversial sportscaster, has been signed by WBKB (TV) Chicago to handle two programs weekly after his dismissal from NBC's odo WNBQ (TV) that city. He will do a chatter-discussion program each Sunday, 12:12-3:00 p.m. CDT and a sports show each Saturday, 8:45-9:15 p.m. CDT. Mr. Duggan was dismissed by the NBC station the past fortnight for the second time in recent months for allegedly refusing to comply with standard operating procedures of the network. The dismissal involved advance submission of his television scripts.

KEAR to Test New Power

CONSTRUCTION will get underway immediately for the newly-authorized 10 kw power of KEAR San Mateo, Calif., with expectation by station officials that work and testing of new equipment will be effected within the next 90 days. Construction permit to increase from 1 kw to 10 kw, operating fulltime on 1550 kc with directional antenna day and night, was issued April 1 by the FCC [B*T, April 13]. An addition to the transmitter building already has been finished and one more tower will be erected at the KEAR transmitter site on Bayshore Highway, near Belmont, Calif., according to KEAR.

WOR-McCanns Sign New Pact

WOR New York has signed its McCanns at Home stars, Alfred and Dora McCann food and nutrition authorities, to a new five-year, $500,000 contract. James M. Gaines, General Teleradio vice president in charge of WOR and WOR-TV, announced last week. Mr. Gaines also reported that an afternoon version of The McCanns at Home would start May 11 (12:45-1 p.m. four days weekly), discussing all types of household programs, in addition to their present food and nutrition series and a weekly quarter-hour McCann's Food Guide.

WDOK's 45-Minute Time Sale

WDOK Cleveland, Ohio, reports "one of the largest sales of radio time to be made in Cleveland in recent months." Contract, with Miles Auto Stores, signed the local auto parts chain stores to 45 minutes broadcast time daily. Included are a 15-minute newscast, noon, Monday through Friday, and two evening mystery programs, Boston Blackie and Philo Vance.

Page 52 • May 11, 1953
Life in Capital
PREMIERE of Life magazine-WNBW (TV) (NBC) Washington documentary half-hour series, Life in Washington, was held at that city's Wardman Park Hotel on April 29. Carleton D. Smith, WNBW (TV) general manager, has described the series as a "pictorial report of Washingtonians at work and play." Life in Washington is the third city series to be presented by NBC stations or affiliates in cooperation with Life, the first two being Life in Cleveland (WWBK [TV]) and Life in Detroit (WWJ-TV). Similar series are planned in other NBC-TV cities. The Washington series is narrated by Frank Blair and Stuart Finley, written and produced by Jeff Baker, directed by Frank Slingland with Harriet Culley of Life as researcher.

'Sneak Preview' Premiere To Be Televised by KNXT
KNXT (TV) Hollywood Wednesday will premiere Sneak Preview, weekly half-hour program featuring motion pictures released by RKO-Radio Pictures and Universal-International, Don Hine, station program manager, said last week. The series, designed to sell motion pictures on TV, is expected to be switched to CBS-TV.

KNXT has negotiated contracts with the two motion picture firms to feature their new releases. Featured on the first telecast will be 11 minutes of film clips on RKO's latest release, "Split Second," plus discussions on production problems and highlights by workers and stars.

Perry Lieber, RKO national publicity director, said he believes the program idea is the solution to the movie-video problem.

KUDL Begins Operation
KUDL Kansas City, Mo., began commercial operation last Monday, broadcasting with 1 kw daytime on 1380 kc, according to owner David M. Segal [KST, April 20]. Peter Tripp is studio manager.

The Kansas City outlet is the sixth to be owned by Mr. Segal. His other stations are KTF5 Texarkana, Ark.; WGVM Greenville, Miss.; KDMS El Dorado, Ark.; KDKD Clinton, Mo., and KDAS Malvern, Ark. Construction is underway on a seventh station—KOKO Warrensburg, Mo.

WILK Adds to Baseball
SERIES of 24 weekend and holiday games of the Wilkes-Barre Barons baseball team will be broadcast by WILK Wilkes-Barre, Pa., under sponsorship of the Luzerne County Gas & Electric Div. and Coca-Cola bottlers, according to Roy E. Morgan, WILK executive vice president. Station also is carrying Phillies and Athletics games for Atlantic Refining, Valley Forge beer and Chesterfield cigarettes.

WICU's New Rate Card
WICU Erie, Pa., has issued rate card No. 8 which prescribes a reduction for daytime hours and an increase for nighttime schedules. One-hour "Class A" rate on a one-time basis is raised from $300 to $600, while "Class C" is lowered from $375 to $300.

KYW Co-sponsors Conference
KYW Philadelphia May 21 will co-sponsor the sixth annual organization conference on human rights of the Philadelphia Fellowship Commission. Delegates to the conference will be presented on a series of radio reports.

WDAY
(FARGO, N. D.)
IS ONE OF THE NATION'S MOST POPULAR STATIONS!

An independent survey made by students at North Dakota Agricultural College among 3,969 farm families in a 22-county area around Fargo proved this: WDAY is a 17-to-1 favorite over the next station—is a 3½-to-1 favorite over all other stations combined!

NBC • 5000 WATTS

FREE & PETERS, INC.
Exclusive National Representatives

WTVJ (TV) Aids UHF
WTVJ (TV) Miami has offered its facilities to representatives of WFTL-TV Fort Lauderdale, uhf station on Ch. 23 which went on the air April 1, so the new station may tell the viewing public about uhf conversions and its program plans, Mitchell Wolfson, WTVJ president, said. Mr. Wolfson said WTVJ is offering the public service time so "the people of south Florida may avail themselves of all television channels just as soon as they are put into operation."

Nick Kerstin, representing owners of WFTL-TV, indicated the station will take advantage of the WTVJ offer.
KDUB-TV Educational Fare Meets ‘Enthusiastic’ Response

KDUB-TV Lubbock is sounding out some 750 high schools in Texas on their responses to a series of in-school programs put on last month by Texas Technological College.

Five programs were produced and directed by W. Ferron Halvorson, assistant professor of speech in charge of radio-TV at the school, and beamed to high-school audiences and the general public. With cooperation of local dealers, schools in signal range equipped assembly rooms with TV receivers for the benefit of senior students.

Early reports from schools and the public indicated “enthusiastic” response to reception of the series, according to the college. On-lookers also gathered to watch programs in hotel lobbies, recreation centers and other public places.

New WABC-TV Contract

WABC-TV New York has announced signing a 52-week contract with Ludwig Bauman & Spears, New York, for what it described as “the greatest amount of television time ever purchased by a home furnishings company.”

The contract calls for sponsorship of The Television Newspaper, presenting a format with front page, feature stories, business news, sports and letters to editors, on WABC-TV 5:30-5:45 p.m. EDT, and 12 midnight-12:15 a.m., starting May 11. Getschal Co., New York, is the agency handling the account.

Sells Target Date

WASK Lafayette, Ind., says it sold all available time to Lafayette Radio Supply for a full day broadcast when WFMAM-TV (WASK WFMAM [FM] television affiliate) introduces its TV pattern. Unusual aspect is that no definite target date has been set for the pattern. Lafayette purchased the time to inform dealers of converters, antennas, strips and other equipment of the WFMAM-TV start on uhf Ch. 59.

WKBS Petitions County Boards For Legal Ads on Sales, Bids

RADIO stations should be used as well as newspapers for legal advertising regarding property sale and construction project bids, according to a petition filed with the Nassau and Suffolk Counties’ Boards of Supervisors by WKBS Oyster Bay, Long Island, N. Y.

The petition, copies of which were sent to all village and city boards and Long Island radio stations and newspapers, requested that the radio announcements should name the newspaper where the complete legal announcements are printed. It was suggested that notices such as legal business newspaper announcements would be excluded from the broadcast stations.

Lee Hollingsworth, president of WKBS, pointed out that the public often was uninformed when certain property was for sale, and noted that many persons were not even aware of parcels of Long Island Railroad property being offered for sale. Mr. Hollingsworth said that adoption of his petition would increase public interest in legal matters as well as to provide a more equitable distribution of legal advertising funds.

WCBS-TV New Business Up

NEW business booked by WCBS-TV New York during the first quarter of 1953 was 86% over the same period last year, George B. Dunham, general manager, has reported. He attributed the upswing to longer contracts by advertisers, heavier weekly schedules, and business contracted by firms not previously on WCBS-TV. He estimated that about 20% of the new business came from clients in the latter category.

WPIX (TV) Airs Benefit Game

WPIX (TV) New York will teletcast an exhibition game between the New York Giants and the Boston Red Sox at the Polo Grounds tonight (Monday), starting at 8 p.m. EDT, for the benefit of the National Amputee Foundation Inc. Game will be sponsored by Chesterfield cigarettes, sponsor of telecasts of all Giant home games on WPIX.

Birth Control Debate Loses Sponsors for WNLK

A DEBATE on birth control, broadcast April 26 by WNLK Norwalk, Conn., on its Sunday Connecticut Forum of the Air series, lost the program four of its regular sponsors, a group of merchants and industrialists, but brought the station a deluge of letters and telephone calls, James Stolzer, general manager, reported.

Connecticut, one of the two states which forbid contraception and consider doctors and others giving advice aid as law violators, has a measure to repeal the old law and enact a new one awaiting action by the state legislature. Ralph DellaSella, director of the 10-year-old forum series, selected the subject for the Sunday hour-long (4:30 p.m.) broadcast.

The subject, “Should Connecticut Change Its Birth Control Law?,” was debated by a physician and a representative of the Planned Parenthood Assn. who favored repeal of the present law, and a university professor and a Catholic lay leader, who argued for its retention.

New Billings for WABD (TV)

NEW BUSINESS and renewals representing more than $350,000 in billings have been signed within two weeks by WABD (TV) New York, key station of the DuMont TV Network, it was reported by Richard E. Jones, station’s general manager and director of DuMont’s owned-and-operated stations in New York, Washington and Pittsburgh. Among the advertisers signed are Salad Tea Co., Procter & Gamble Co., Bosco Co., Best Foods Inc., Dale Dance Studios, Goody Corp., Radio City Music Hall and Revlon Products Corp.

KBBB Goes on Air

KBBB Benton, Ark., began operating last Tuesday, general manager Richard Tuck reports. The central Arkansas outlet is on 690 kw with 250 w daytime. Lavelle Langley is the commercial manager and program director and Preston Bridges the chief engineer.

Rates With Chuckles

A RATE card with a sense of humor has been put out by WTVU (TV) Scranton, Pa. It’s a booklet of about 52 pages, only one of which deals with rates ($200 gross for one Class A hour on less than 26-time contracts). Other pages are filled with cartoons, quips, limericks. The Ch. 73 station is owned by Appalachian Co., and Jan King is general manager. It is represented by The Bolling Co.

REPRESENTATIVE SHORTS

Headley-Reed, N. Y., appointed national representative for WORL Boston.

Niagara Television Ltd., Hamilton, Ont., which starts telecasting late this year on channel 13, appoints All-Canada Radio Facilities Ltd., Toronto, as national representatives.

Page 54 • May 11, 1953

BASEBALL SWINGS HARD FOR RULE 1 (d) COMEBACK

Spokesmen of both major and minor leagues appear before Sen. Johnson's Commerce subcommittee in fight to win say-so on radio-TV coverage. Solid support is indicated. NARTB presents only opposition.

WAVING a big legislative stick, baseball spokesmen, confident of victory, went to bat last week for the game's now dormant Rule 1 (d) which would give the big leagues the say on broadcast and telecast coverage.

Baseball magnates, major and minor league, testified solidly before a Senate Commerce subcommittee meeting of the Johnstone bill (S 1396). Sen. Edwin C. Johnson (D-Colo.), president of the Western Baseball League (minor) and author of the legislation, is chairman of the subcommittee.

Sen. Johnson's measure, if it becomes law, will penalize (but not enforce) the major leagues to reinstate their rule. That rule prohibits broadcasts or telecasts of major or minor league games within a 50-mile territory around the "home" game ball park.

Significance in dollars and cents was pointed out by one of baseball's own witnesses, Tommy Richardson, president of the Eastern League.

Mr. Richardson predicted that baseball would reap $10 million in revenue from the radio-TV industry this season, as compared to about $4 million in the 1952 season.

At stake are network programs such as Game of the Day broadcast nationwide by MBS, rebroadcasts of games in minor league territories, recreations and package baseball networks which have sprung up in the last few years.

Gist of Argument

Gist of baseball's argument developed at the hearings, which started Wednesday and are slated to continue today (Monday) and tomorrow, was this:

That major league radio saturation of minor league territory threatens to hasten the downfall of the minor league structure, already weakened by a steady decline in attendance which is attributable to a number of factors—bracketing baseball.

Television, it was argued, is worsening the situation. As more stations take the air and more TV games are made available, the less willingness there is to patronize the ball park, witnesses declared.

Opposition to the bill by late Thursday came from only one quarter—the NARTB. Its president, Harold E. Fellows, in a statement filed with the subcommittee, warned that broadcasters and sponsors would not be denied an opportunity to "purchase program restrictions" from their lawfully owned in an unrestricted market.

The measure as written would exempt baseball from government prosecution under antitrust laws which prohibit unreasonable restraints or so-called "conspiracy"—that is, agreements entered into by clubs or leagues. Rule 1 (d) was put into force by the major leagues but with minor league consent.

NARTB's Mr. Fellows claimed effect of the rule as "drastic" within local stations within 50-mile radius to a "competitive disadvantage" since stations outside this limit would be able to put the broadcast into the restricted area.

He cautioned that this bill, if made law, would set in "dangerous" precedent because promoters of other sports events—boxing, football, hockey, baseball, etc.—would ask for similar treatment. At present, individual club owners can make agreements or contracts with sponsors and stations as they see fit.

Other developments:

• It was revealed that a decision is not expected in the National Football League case in Philadelphia until this fall. In that action, the Justice Dept. brought suit against NFL for restraint because of actions in radio and TV coverage alleged to be restrictive. (In football, Rule 10 prohibits broadcasts or telecasts of games by any member of the league within a 75-mile radius of the "home" game in play.)

• The Justice Dept. refused to comment on the Johnson bill because of the current litigation in Philadelphia which has indirect bearing on the legislation.

League Attendance Drops

• George M. Trautman, president of the National Assn. of Professional Baseball Leagues (minor), said league attendance has dropped between 16 and 17 million since 1949. The baseball rule was modified in 1949 and later repealed (1951) at the insistence of the Justice Dept.

• Mr. Trautman said radio sponsors in minor league cities can get a wire account of a major league game for less than it would cost to sponsor the games of the local team.

• Agreement was quite unanimous among the subcommittee members present—Sens. Johnson, Andrew F. Schoeppele (R-Kan.) and John W. Banker (R-Ohio)—and baseball witnesses, prompting late-comer and visiting solon, Sen. Warren Magnuson (D-Wash.), to ask: "Who's opposing this bill?" He had no takers and he made it plain he was in opposition.

• Sen. Johnson went so far as to accuse the Justice Dept. of forcing the issue. If the bill is enacted, he said, "baseball won't have to worry about some eager beaver in the antitrust division of the Justice Dept. throwing his weight around."

• A study is being made by an outside firm for baseball which will study radio-TV's effect on gate receipts. It is expected to be completed by June 6.

Baseball 'Eats Its Young'

Baseball Commissioner Ford Frick and National League President Warren Giles echoed Louis Carroll, National League attorney, that major league baseball has been put into the position by the Justice Dept. of "eating its young."

Also testimony the first two days of the hearings were Frank Shaughnessy, president, International League; Joe Cronin, general manager, Boston Red Sox; George Preston Marshall, owner of the professional Washington Redskins football club; former U. S. Sen. Francis Myers, counsel of football's National League, and Al Haraway, president, Cotton States League.

Still other sports executives were expected to testify. Many filed statements with the subcommittee.
How and where to find the facts of Life Insurance

The Institute of Life Insurance makes life insurance information available to all who want to learn.

People look to libraries for information. The Institute of Life Insurance, central source of information about life insurance, is constantly making available to libraries throughout the country good and useful information about life insurance.

The Institute publishes "A List of Worthwhile Life Insurance Books" that is used by librarians and others as a practical list for bibliographic and reference purposes. It sends to these libraries its annual "Life Insurance Fact Book." It also lists in the library journals the other special publications it puts out from time to time.

Co-operating with local life underwriters associations, the Institute helps in the selection and purchase of book collections which these associations present as gifts to local libraries. It distributes a pamphlet "A Life Insurance Library For Your Community" describing how these projects can be undertaken.

In addition, the Institute has its own working research library which is available to editors, writers, and students. If its own collection of material does not have the exact publication needed to answer a certain question, it can, through contact with other libraries, furnish the publication or information.

Through these services, the Institute is helping to broaden the understanding of a subject that is of vital interest to 88 million American families.

Page 57
FCC BUDGET IS UNMARKED

Senate Appropriations Subcommittee would give FCC $7.1 million for fiscal '54. That's what House passed. Senate group, however, hints that if TV processing load can be lifted more money for period will be forthcoming.

A Senate Appropriations Subcommittee is trying to do a little quarterbacking in the TV application processing jam.

The funds group, in effect, last week passed the ball to FCC, telling the Commission that if it can score enough touchdowns, more players will be forthcoming.

The Senate Independent Offices Appropriations Subcommittee came up last Wednesday with the same figure—$7.1 million budget for fiscal 1954—that was passed by the House last month [B+T, April 20]. The Senate Appropriations Committee is expected to approve its subcommittee recommendation today.

The $7.1 million figure is in line with the Budget Bureau revision. The House Appropriations Committee upped funds for TV processing alone to $550,000, or $200,000 more than the budget submitted by President Truman or by the Eisenhower Administration.

But here is how the Senate group would pass the ball to FCC:

The Senate unit took away the earmarking of funds for TV or for Safety and Special Radio Services and in effect said to FCC: Take this money, which is an increase, and apply it for whatever need you have.

The subcommittee, in a report being prepared last week, also will tell FCC that it is up to the Commission to show that it can process more applications at a faster rate with the $11 additional examiner teams it would get (FCC now has 12 examiner teams). The prediction was made by FCC Chairman Rosel H. Hyde last month [B+T, April 23].

If FCC can get more done with the additional examiner teams, the Senate Appropriations Committee is inviting the agency to come to Capitol Hill for more funds. FCC would do this by submitting a request for a so-called "supplemental" appropriation of the supplemental, if approved, would provide additional funds for FCC's fiscal 1954.

The $7.1 million, if approved by the Senate committee, also must be passed by the Senate. Senators may ask for more money on the floor. Senate comment is anticipated.

The figure okayed by the Senate group is $600,000 more than the 1953 fiscal appropriation under which FCC now is operating.

A number of Senators have expressed concern about the processing of TV applications. Sen. Edwin C. Johnson (D-Colo.), ranking minority member of the Senate Interstate & Foreign Commerce Committee, had written every Senator to urge another $1 million be tacked on to the FCC budget. He also testified before the appropriations group on the subject.

FCC Grants 2 New AMs

FCC last week authorized two new AM stations, four PM power reductions and modified facilities for two AM outlets.

New station grants were for:

Columbus, Miss.—J. W. Pur, 1,500 kw, 10 kw daytime. Mr. Pur operates a daily supply store.

Ville Platte, La.—Ville Platte Broadcasting Co., 150 kw, 250 w daytime. Major stockholders are Thomas and Paul DeClouet, 20% each; part owners of KLFY Lafayette and KRRN Eunice, La.

Permission to decrease effective radiated power went to:

WNEX-FM Macon, from 41 to 4.1 kw on 96.8 mc.

WLW (FM) Dayton, Ohio, from 18 kw to 19 kw on 97.5 mc, antenna height changed from 408 to 410 ft.

WOR-FM New York, from 2.4 to 1.7 kw on 98 mc, antenna height increased from 800 ft. to 1,280 ft.

WTMJA-FM Charleston, S. C., from 49 to 15 kw on 95.1 mc.

A power boost was awarded KBUL Junction, Tex., from 100 to 250 w on 1450 kc.

KXOC Chico, Calif., was authorized to move from 1150 kc, 5 kw unlimited to 1000 kc, 10 kw day, 5 kw night.

FCC Budget & Speed

FCC appropriations may be discussed at the May 15 meeting between the Senate Commerce Committee and FCC. That meeting has been called on ways and means of speeding up TV application processing [B+T, May 4].

David Stevens Leaves FCC, Joins McKenna & Wilkinson

DAVID S. STEVENS, chief of the FCC's New and Changed Facilities Branch, Aural Facilities Div., Broadcast Bureau, resigned last week to join the Washington law firm of McKenna & Wilkinson.

Mr. Stevens was born in Liveron, N. H., in 1917, attended the American School in Kodaikanal, India, from 1926 to 1932, when his father was adviser on foreign affairs to the government of Siam (now Thailand). He was graduated from Phillips Exeter in 1935, from Harvard U. in 1939 and from Harvard Law School cum laude in 1942.

During World War II, Mr. Stevens was an Air Corps radar officer, with the rank of first lieutenant. He joined the FCC in 1945 and served as an attorney in the AM, FM and TV branches of the old Legal Department. When the FCC was reorganized into bureaus in 1951, he was named chief of the Aural Division's branch handling applications for new stations and changes in facilities.

Mr. Stevens is married to the former Rosemary Burton. They have one son, David Michael, four-and-a-half months old.

In joining McKenna & Wilkinson, Mr. Stevens resumes his association with Vernon Wilkinson, former FCC Assistant General Counsel in charge of broadcasting.

FCC to See RCA Color

MEMBERS of FCC and key staff officials will witness RCA's improvements in compatible color televisions at an informal demonstration May 19 at RCA Laboratory at Princeton, N. J. Host will be RCA's board chairman, Brig. Gen. David Sar- noff, who tendered the invitation.

THREE NEW TVS AUTHORIZED BY FCC

THREE new television stations, including an educational outlet at St. Louis, were authorized by FCC last week to boost the post-thaw total of new TV grants to 353.

Harold C. Burke, former manager of WBAL-AM-FM-TV Baltimore, was granted a construction permit for uhf Ch. 21 at Lancaster, Pa. Plains Radio Broadcasting Co., licensee of KFYO Lubbock, Tex., received uhf Ch. 5 following withdrawal a fortnight ago of the competitive bid of Lindsey TV Co. [B+T, April 27].

Reserved uhf Ch. 9 at St. Louis went to the St. Louis Educational Television Commission, raising the total of noncommercial educational grants to 16. Nine applications are pending. Decisions of last week's FCC grants were:

St. Louis—St. Louis Educational TV Commission, uhf Ch. 9; ERP 54 kw visual, 27 kw aural; antenna height above average terrain 645 ft. Lancaster, Pa.—Harold C. Burke, uhf Ch. 21; ERP 18 kw visual, 10 kw aural; antenna height above average terrain 610 ft. (City priority group B-2, No. 150).

Lubbock, Tex.—Plains Besta Co., uhf Ch. 5; ERP 100 kw visual, 50 kw aural; antenna height average terrain 1,110 ft. Ownership is six news groups and 15-20% of CBS, ABC and Globe News Employees Pool (19%). (A-2, No. 0).

Three more consolidated TV hearings were scheduled by FCC last week, to commence June 8 in Washington. They are:

Atlantic City, N. J.—Contestants for uhf Ch. 39: B. Bryan Musumelum et al (WSAN) and Queen City TV Co. Atlantic City, N. J.—Contestants for uhf Ch. 67: Penn-Allen Besta Co. (WPMZ-FM) and Allentown TV Co. (WHOJ). Dallas, Tex.—Contestants for uhf Ch. 20: Wilson Enterprises Inc. (WAAB) and WTAG Inc. (WTFM).

In other TV actions, the Commission dismissed the application of WTVH-TV Peoria, Ill., new uhf Ch. 19, for modification of its permit to change transmitter location. Creve Coeur, Ill., FCC found its move would violate minimum channel separations.

The Commission denied petition of WTV Battle Creek, Mich., which requested cation of the call letters WKBK-TV assigned Broadcast Radio & TV Stations there because of alleged possible confusion.

FCC turned down the petition of WGRD Grand Rapids, Mich., which sought amendment of the TV rules to preclude applications for new stations where the proposed outlet would render a signal of greater intensity to a city other than that intended to be served, except upon a showing that the proposed site provides optimum coverage in which the station studio would be located.

The issue is involved in the WGRD protest hearing before Examiner Gifford Irion on the uhf Ch. 35 grant at Muskegon to Versluis Radio & Television [B+T, April 27].

Joint Petition Denied

Joint petition of WTPP Charleston and WMON Montgomery, W. Va., seeking allocation of uhf Ch. 2 to Montgomery-Handley, W. Va., was denied by the Commission. The stations had proposed a joint application for the channel.

FCC also denied request of Jefferson Amuse- ment Co., Beaumont, Tex., for a stay of the Port Arthur uhf Ch. 4 hearing. Jefferson was denied a protective proceeding slated between Smith Radio Co. and Port Arthur College (Kpac) [B+T, April 27].
Earl Lewis (right) and operations manager Jack Shay study the film camera chain that was designed and developed at WTVJ. This camera chain incorporates all the best characteristics of other circuits, and reproduces film with real "live show" quality.

EARL LEWIS, Chief Engineer
WTVJ, Miami, Florida

Says,

"OUR REPLACEMENT COSTS ARE ONLY
52 CENTS AN HOUR, THANKS TO G-E TUBES!"

WTVJ uses a three-camera mobile squad to telescript the spectacular "King Orange" Bowl parade along Miami's palm-fringed Biscayne Boulevard. Audience for this event last New Year's Eve was nationwide. By carrying the network programs of ABC, CBS, DuMont, and NBC, Station WTVJ, in turn, brings to Miami viewers the best in television from leading studios all over the country.

"We're proud of that figure on tubes, and it covers four years' telescripting—ever since we started. A record to match it is our 7 minutes' total transmitter time off the air from tube trouble, for the same four years. I'll stack those low WTVJ figures up against the best anywhere!

"It's our policy not to wait for tubes to give out, but replace them when tests show they're near the end of useful life. Even with that precaution, our off-the-air time wouldn't be as low as it is, except for G-E tube reliability. A pair of GL-7D21's has been operating 13,000 hours, while WTVJ's spares collect dust. That's top performance!

"When we need new tubes, they're delivered to us "on the double". Efficient Miami tube distribution sees to that!!"

* * *

Your station can have the same benefits of low tube cost . . . minimum time off the air from tube trouble . . . fast delivery of needed replacements. Phone your G-E tube distributor! He's equipped and ready to serve you well. Tube Department, General Electric Co., Schenectady 5, N. Y.
SEEK FCC APPROVAL FOR WLAW SALE

APPLICATION for approval of the sale of 30-kw WLAW Boston (on 680 kc) from Hildreth & Rogers Co. to General Teleradio Inc. for $59,000 (Clerk, B+T, April 6) was filed with FCC last week.

As part of the purchase, FCC approval was also sought for the sale of the facilities of General Teleradio-owned 31-year-old WNAC Boston (5 kw on 1260 kc) to Vic Diehm Associates Inc. for $120,000. Mr. Diehm and his partners own WAZL-AM-FM-TV Hazleton, Pa.; WIDE Biddeford, Me., and hold the controlling interest in WHOL Altoona, Pa.

Application indicated that General Teleradio, owned 90% by General Tire & Rubber Co. and 10% by H. R. Macy & Co., will retain the WNAC call letters for the 680 kc facility and continue to use present studios. Pennsylvania group will take over 1260 kc transmitter and present studios of WLAW in Hotel Radford in Boston, and intend to change call letters, it was explained.

Purchase of ABC-affiliated WLAW by General Teleradio had to be contingent on the sale of WNAC facilities because of the US monopoly rule which forbids the same license from owning more than one station of the same class in the same city.

Sale includes FM

Acquisition of WLAW by General Teleradio also includes WLAFM. This license will be surrendered, the application declared, since General Teleradio already owns WNAC-FM.

Balance sheet as of Feb. 28, 1953, showed that WLAW had total current assets of $126,187.86, of which $71,873.47 was in cash. Total current liabilities as of that date were $52,466.69. Surplus was $250,157.41.

WLAW license is owned by Irving E. Rogers, who also is owner of the Lawrence (Mass.) Eagle and Tribune. Originally, WLAW was a Lawrence-Lowell, Mass., station, but it was moved to Boston a few years ago.

General Teleradio, which owns the Yankee and Don Lee networks and WOR-AM-FM-TV New York, and is the principal owner of MBS, showed total current assets as of March 31, 1953, of $4,294,692, of which $1,116,524 was in cash. Total current current liabilities were $3,231,647. Surplus of $2,511,208 was indicated. Long term debt totaled $4,126,000.

Yankee Network Division comprises key MBS-affiliated WNAC-AM-FM-TV Boston, WONN Hartford, WEAN Providence and WGR (FM) Worcester. Don Lee Network includes KHI-AM-FM-TV Los Angeles, KFRC San Francisco and KGB San Diego.

An overlap problem between prospective 50-kw WNAC on 680 kc and 5-kw WEAN on 790 kc was considered insignificant, according to the transfer application. Engineering estimates showed that there would be primary daytime duplication of 143,165 persons (3.96% of the total population served), and nighttime duplication of 48,400 people (1.56% of the total served) between the two General Teleradio-owned stations.

Vic Diehm Associates was organized in the last few weeks to take over the 1260 kc facilities of the present WNAC. It comprises the same principals who own WAZL, WIDE and control WHOL. They are, in addition to Mr. Diehm, Hilda Deisroth, E. H. Witney, George

PROMOTION TO AID CONELRAD'S START

RADIO defense plan—Conelrad (control of electromagnetic radiation)—goes into effect this Friday. In support, the Civil Defense Administration is planning a nationwide promotion campaign to tell people about it.

The system permits standard radio to remain operating during an emergency while preventing enemy bombers or guided missiles from "homing" on broadcast radiations.

Script kits for all AM, FM and TV stations are on their way from Washington, D. C. They are of varied lengths.

Transcriptions being sent are 20-second and one-minute in length. One side of the disc features a "neutral" announcer while the other highlights a network commentator. Also being included are leaflets on Conelrad which stations can distribute for the laymen.

Flip cards are being prepared for TV stations and also 20-second and one-minute films. Other ideas yet to be put into effect: Stickers for radio sets giving the Conelrad frequencies (640 and 1240 kc); exhibits on the East and West Coasts for the public, and mention of the frequencies in newspaper newspaper logs. Some manufacturers are considering marking of radio sets at the 640 and 1240 frequency.

FM and TV stations are being urged to promote Conelrad and are being told they are not promoting standard radio as against their media but providing public service.

NARTB during its convention a fortnight ago adopted a resolution to fully support Conelrad, for which the broadcasting industry has provided $2 million of its own funds to provide facilities.

‘Operation Stampede’

WATCH out for "Operation Stampede!" That's the warning from Federal Civil Defense Administrator Val Peterson. He told the Economic Club of New York April 28 that an enemy could conceivably fake radio broadcasts causing "workers leaving their machines, gathering up their families in panic and heading for the hills."

FTC Probes Alleged Advertising Violations

THE FTC is investigating "five or six" complaints that food processors, manufacturers or marketers might be violating the Robinson-Patman Act by extending benefits to some of their customers to the detriment of others in co-op radio and television advertising.

An FTC staff member said the possible violations were "primarily on television." The complaints are about a month old, he said, and some were sent to the staff office for investigation "a week or ten days ago."

The possible violations involve Sec. 2 (d) and (e) of the Act. In the first instance the manufacturer subsidized a local program sponsored by a distributor who advertised the manufacturer's products, while not extending the same benefits to other distributors. Under Sec. 2 (e), in nationwide programs sponsored by the manufacturer, local commercials in conjunction with the program benefited the local distributor to the detriment of other distributors. The Act requires advertising allowances be furnished to customers on a proportionately equal basis.

One hour's work

In 1938 average hourly wage was 0.63
It bought 44 gallons of gas

In 1953 average hourly wage is 1.67
It buys 88 gallons of gas

buys 80% more '76' gasoline today than it did 15 years ago!

Excluding gasoline taxes.

Today's Union Oil '76' gasoline is superior to the 1938 variety, too.

Our free, competitive American system has stimulated great advances in petroleum research by offering an incentive for the introduction of new and better products.

So when your friends complain about the high cost of living, remind them that one hour's work today buys 80% more '76' gasoline—and better quality gasoline—at a Union Oil station than it did in 1938.

Average-wage indices from U.S. Dept. of Labor statistics. Union '76' gasoline prices are Los Angeles posted prices, excluding Federal and State taxes.

This series, sponsored by the people of Union Oil Company, is dedicated to a discussion of how and why American business functions. We hope you'll feel free to send in any suggestions or criticisms you have to offer. Write: The President, Union Oil Company, Union Oil Building, Los Angeles 17, California.

SENATE PROBE UNIT TO STUDY GLOBAL TV

Hickenlooper subcommittee schedules so-called "trans-oceanic TV" as next on its agenda as it continues probe of Voice of America.

TRANS-OCEANIC television will be explored in New York by Sen. Burke H. Hickenlooper's (R-Iowa) Foreign Relations subcommittee this week. The subcommittee has been investigating U. S. overseas information programs. Sen. Hickenlooper said the subcommittee would consider "potentialities of international television" and that demonstrations had been arranged by Maj. Henry F. Holthusen, a special consultant to and counsel of the subcommittee.

Maj. Holthusen told B'T in New-York last week that the demonstration would be put on by William S. Halstead, president of the engineering firm, Unitel Inc., and a radio-TV consultant.

The TV system is called "Narcom" (North Atlantic Relay Communication System). It calls for relays from U. S. to London (via Canada, Greenland, Iceland, etc.). Provision would be made for communications in this relay, which would include a TV channel, and at least one high-quality radio channel, it was said.

The subcommittee will hold two or three days of open hearings on the Voice of America in New York. Hearings begin today (Monday) at the International Broadcasting Service headquarters.

In addition to Maj. Holthusen's demonstration, various VOA officials will be heard, among them Robert J. Francis, acting head of the IBS, and Alfred Puhun, VOA's program manager.

Chairman Hickenlooper said the group will "try to determine what the trouble is [with Voice] and what can be done about it."

In anticipation of a change in VOA status, neither the Administration nor the Congress has asked for specific appropriations for the agency's fiscal 1954 operation.

Roads open for VOA's future include these: 
1. Elimination of Voice entirely.
2. Set up a new agency, including Voice.
3. Act by Congress extending present operating funds to as many months desired in 1953. (Current operating funds give out June 30.)

Other Voice developments:
1. State Dept. public affairs officers told the Senate subcommittee May 1 that the overseas information program would be safe if established as a separate agency. It is now in the State Dept.
2. Sen. Karl E. Mundt (R-S. D.) introduced a bill (S 1802) which would split the International Information Administration, retaining the exchange program in the State Dept., but separating all other functions (including Voice).
3. Cut in Voice personnel and programming—foreshadowing possible elimination of all broadcasts except those aimed beyond the Iron Curtain—have been announced by Dr. Robert L. Johnson, IIA's administrator.

Speaking before the Senate Foreign Relations subcommittee, Dr. Johnson advocated separation of IIA from the State Dept. [B'T, April 13]. Other reports indicate the White House is thinking of establishing a new overseas information and propaganda agency.

Preceding Dr. Johnson, VOA officials had their say when Mr. Francis and Program Director Alfred Puhun defended VOA activities.

SCOTUS to Review WBTV (TV) Labor Dispute

THE U. S. Supreme Court will review an appellate court decision holding that TV station technicians, who passed out scurrilous leaflets condemning programs of WBTV (TV) Charlotte, N. C., were protected by the Taft-Hartley Act.

Involved in the case is a ruling by the National Labor Relations Board that distribution of the leaflets was not within the scope of the Taft Hartley guarantee that employees may engage in concerted activities for bargaining or other mutual protection.

The board had ruled discharge of the employees was lawful. The U. S. Court of Appeals (4th C.) had reversed this board ruling on the ground all concerted activities in a labor dispute come under protection of the act if no federal or state law is violated.

An appeal was taken to the Supreme Court by the government, noting the technicians deliberately undertook to alienate WBTV's customers by disparaging the quality of its product. WBTV and Jefferson Standard Broadcasting Co. are not formal parties to the review.

This statement was made by Charles H. Crutchfield WBTV executive vice president and general manager:

We have received notification from the Clerk of the U. S. Supreme Court that the Court has decided to review the ruling which was made by the Court of the District of Columbia in favor of the Union in our case some months ago. We are indeed glad to learn that the Supreme Court is going to review the case, as we have requested. We are confident that the Court will overturn the lower Court's ruling and decide the entire matter in our favor.

Although we have not been so notified, we understand from news reports that the formal notice to the case will be confined to the National Labor Board and the Union.

We feel sure that the ultimate burden of an adverse decision would fall on our company. The Court will reverse the decision holding that TV employees were protected in distributing the leaflets.

The case involves whether the Taft-Hartley Act contains an "ambiguous" provision which was interpreted by the appeals court to cover the Union's activities.

The union is the Communications Workers of America.

Court of Appeals Hears Transit Radio Argument

TRANSIT RADIO was before the courts again as the U. S. Court of Appeals for the District of Columbia April 20 listened to oral argument on the appeal of Transit Riders Assn. from an FCC order denying TRA's protest of the license renewal of WWDC-FM, a transit radio outlet [B'T, March 9]. FCC renewed WWDC-FM's license without hearing after the station had been extended for some time on temporary license, reportedly pending policy consideration of the transit radio and "functional music" issues.

The transit riders group argued it is properly a "party in interest" under Sec. 309(c) of the Communications Act, hence has standing to protest the FM station's renewal grant test to take part in the hearing it asks on the renewal. FCC and WWDC-FM, intervenors in the appeal, told the court TRA does not have standing, while Justice Dept. questioned whether the organization filed its appeal under the correct provisions of the Act. Acknowledging the Act is "ambiguous" on appeal structure in this case, the Justice Dept. took a neutral position on the question of whether TRA is properly a party in interest in the WWDC-FM renewal action before FCC.

The U. S. Supreme Court has already ruled in another case that broadcasting to bus and streetcar riders does not violate the Constitutional rights of the listeners.

Page 62 • May 11, 1953"
Old woodcut, made in 1876, shows the young aerialist Maria Spelterini tightroping across the great gorge below the Falls with baskets strapped to her feet. (She made it.)

YOU are in the next event at Niagara Falls

No matter where you live, you are involved in the next big event at Niagara Falls. It could be dangerous to your pocketbook, because it's going to cost somebody $390 million. Here, briefly, are the facts:

A big new hydroelectric power plant is going to be built on the Niagara River. Congress must decide who will build it—some agency of the government or the electric light and power companies now serving the area.

A group of five companies is ready to do the big job. They have asked Congress for the approval they need to start immediately. They have the plans, complete in every detail. They have the experience—fifty-eight years of power development at Niagara Falls. They have the experience, all the power will be shared by all, with rates regulated by state commissions.

The project will pay about $23 million a year in additional local, state and federal taxes.

Defense plants and others will begin to get the power in about 3 years.

If the federal government, for example, builds the plant

• The companies and their investors will pay for it.
• Power produced will be shared by all, with rates regulated by state commissions.
• The project will pay about $23 million a year in additional local, state and federal taxes.
• Defense plants and others will begin to get the power in about 3 years.

Note: The Niagara River project will not affect the beauty of the Falls—nor has it any connection with the St. Lawrence Seaway on another river.

WHO DO YOU THINK SHOULD BUILD THIS NEW PLANT? Let your readers and listeners know how you feel. Congress is discussing it now. The plan proposed by those who want government to do the job is a long step toward socialized electricity—because only power production is involved, with no other purposes, such as flood control, to complicate the issue. That's why these facts are brought to you by America's ELECTRIC LIGHT AND POWER COMPANIES*

HOUSE ELIMINATES BUSINESS CENSUS

People in media who look to business figures may be without the rule of thumb to guide them.

A STATISTICIAN in advertising, marketing and similar business fields closely allied to the broadcast media may find a prop knocked from under him as a result of a House action last week.

The House passed an appropriations bill last Tuesday with funds for the business censuses specifically eliminated.

The business censuses, taken by the Dept. of Commerce's Bureau of the Census in the "4" and "9" years for the preceding 12-month periods, was set up by law in 1948.

The censuses are of business, manufacturing, mineral industries, transportation and agriculture. It is the first in this list which interests the broadcaster and his researcher.

NARTB President Harold E. Fellows, voicing regret at the House action, told B*+T:

"Much of the material on which we relied, for example, in putting together NARTB's recent study of profitable radio operation (B*+T, May 4), came from statistics gathered in the last Census of Business.

"This and other instances provide examples where unassailable research is essential. We have found this material extremely valuable for members of the association as well as for clients of broadcasters. We believe that, particularly in view of the fact that the Census Bureau has tried to reduce the cost of conducting the Census of Business, it should be restored."

The bill now goes to the Senate, where it will be up to that body to consider the House rejected economy cut. The budget had estimated $21 million for the special censuses excepting agriculture, which had a separate appropriation request.

Robert W. Burgess, director of the Census Bureau, when questioned by B*+T last week, admitted the importance of the special censuses in advertising media because "population figures are often combined with our business figures."

From this data, he said, advertisers can better tell how well off people are in a given area. Commerce Dept. spokesmen said communications have been received from advertising, market research, statistical and other groups urging funds be provided for the business census.

Heller Introduces Bill To Protect News Sources

RADIO and television news people could refuse to reveal their sources of information and get away with it legally, if a bill introduced last week by Rep. Louis Heller (D-N.Y.) becomes law.

The measure (HR 3003), which has been referred to the House Judiciary Committee, would protect all newsmen—newspaper, magazine, radio, television, wire service, press syndicate—before Federal grand juries, Federal courts and committees of Congress.

Only exception made in the bill is for special circumstances involving national security or concealment of a crime.

Tampa-St. Petersburg Ch. 8 Case Goes to Examiner

WITH filing of proposed findings of fact and conclusions by contestants in the vhf Ch. 8 hearing for Tampa-St. Petersburg, Fla., the case is now before FCC Hearing Officer Basil P. Cooper for his initial decision. Competitors are WTSP St. Petersburg, WFLA Tampa and Tampa Bay Area Telecasting Corp.

WTSP, in the brief filed by its Washington counsel, Neville Miller, charges its competitors with abuse of control, multiple broadcast interests and lack of attention to local affairs. WFLA's pleading, filed by Philip J. Hennessey Jr., Washington attorney, questions opponents' financing and claims superior program plans and greater familiarity with the coverage area. Tampa Bay, filing through Washington counsel Frank U. Fletcher, argues it should be preferred because of technical superiority, lack of identification with other media and diversified ownership.

The Chief of FCC's Broadcast Bureau concludes the engineering proposals of all three applicants meet FCC's rules and standards, hence none should be preferred on engineering grounds.

NEDA Given Until June 12 To Answer Charges of FTC

THE National Electronic Distributors Assn., Chicago, reported last Thursday it has been given an extension of time to June 12 for answering charges by the Federal Trade Commission that NEDA and 37 association members adopted practices tending to hinder competition and create a monopoly in the sale of electronic supplies and equipment.

The FTC had filed the complaint April 14 and had given NEDA 20 days to reply. Hearing on the complaint has been rescheduled from May 26 to Aug. 3, an NEDA spokesman said.

One FTC charge is that NEDA has arbitrarily kept certain wholesale distributors from becoming members. This was categorically denied by L. B. Calamaras, NEDA executive vice president, who said the charge is "hardly consistent" with NEDA's "aggressive campaign" for membership for several years.

FTC charged NEDA and members with forcing sales by manufacturers only through members or those recognized by NEDA as "established" and "legitimate," urging manufacturers to protect these firms on purchases of tubes made 60 days before a price drop and urging a uniform cash discount and fixed resale prices reflecting a uniform mark-up from distributors' costs, both on goods bought from manufacturers.

NEDA also was charged by the FTC with acting to enforce the policies. The FTC said members "in a number of instances" agreed on quantity discounts, resale prices, rate of trade discounts for goods and on identical price lists for radio tubes sold in the same area. NEDA and members were charged with threatening or carrying out boycott against manufacturers who sold to non-NEDA-recognized distributors, and with giving preference to those who co-operated.

Mr. Calamaras expressed doubt that, even if the charges could be proved, they would constitute violations, because they are not unfair methods of competition, he said. He said there are no precedents to support the FTC's charges and promised NEDA would "resist" the complaint.

Come On In... BUSINESS IS FINE!

This great Dixie Key Market is just burstin' at the seams with new business every month!

Believe you me... we never had it so good! So, come on in—business is fine here in Miami.

But remember...your "in" is WIOD. The Local Boys have proved that's the best way to get RESULTS.

Just ask our Rep... Your Hollingbery Man!

NBC CONTROL DENIED BY KOA

DISCLAIMER that NBC has any "shred of control, either directly or indirectly" in the management of KOA was issued last week by William Grant, president of Metropolitan Television Co., owners of KOA. Mr. Grant's statement was issued at the same time that KOA filed a 63-page reply to the proposed finding by the FCC's Broadcast Bureau [B*T, April 27].

Broadcast Bureau held that because Hope Productions Inc. owed NBC $1,250,000, NBC retained an interest in KOA. This would preclude a TV Grant since FCC's regulations forbid the ownership of more than five TV stations by one entity. NBC already owns five TV stations. Note held by NBC represented debt due from so-called "Hope Group" (Bob Hope and associates) in the acquisition of KOA from NBC by Metropolitan last year. KOA is half-owned by Hope group and a Denver group.

In a similar reply to the allegations, NBC declared that the clauses in the Hope note which the Broadcast Bureau found suspicious were only the normal rights retained by a creditor. It bolstered this with examples of a score of other such agreements including some by broadcast companies, from the files of the Securities & Exchange Commission. NBC also held that the FCC already had passed on the Hope situation when it approved the sale of KOA from NBC to Metropolitan.

Formal resolution to pay off the NBC note after KOA received a TV grant was voted at a special meeting of Hope Productions April 27. Mr. Grant made the following points in answer to the Broadcast Bureau's allegations of NBC control: (1) NBC is a creditor of one of the stockholders of KOA, and not of the licensee of the station; (2) FCC decided issue of NBC control when it approved the sale of KOA from the network to Metropolitan last year; (3) Hope Productions is "willing and able" to pay off its obligation immediately if the FCC required that action, in granting KOA a television permit. Mr. Grant called the failure of the Broadcast Bureau to cite that latter information an "incredible omission."

Competing with KOA for the Denver vhf channel is KMYR.

Renewals by FCC

Include WABD (TV)

SEVERAL score AM, FM and TV stations were granted renewal of license by FCC last week, including WRGB (TV) Schenectady, WABD (TV) New York and WMGM-AM-FM New York. Comr. Frieda H. Hennock dis- sented in the WRGB and WMGM renewals, indicating "anti-trust activities" should be explored.

In the WABD action, Miss Hennock said that since FCC considered the Paramount control issue "and the majority having found DuMont qualified ... despite my dissent, I now go along with the Commission in voting for a renewal of license."

FCC also renewed the license of WDLP Panama City, Fla., with Comr. E. M. Webster issuing a concurring opinion reviewing tech- nical violations in 1949 which resulted in put- ting the station on temporary license. The station for a period was operated without directional antenna at night, FCC said. "While the Communications Act places the responsi- bility for the operation of a radio station solely on the licensee," Comr. Webster said, "crim-
AM, FM, TV Ownership Changes Okayed by FCC

OWNERSHIP changes involving two TV outlets, five AMs and a block of five FM stations got FCC approval last week.

These were:
Northeast Radio Corp., Ithaca, N.Y., acquired the five FM stations owned by insolvent Rural Radio Network for $225,475. They are: WVCN, De Ruiter, WVCV Cherry Valley, WYBT Binghamton, WPNY, Wathenfield, and WHVA Poughkeepsie, all in New York. Northeast is a wholly owned subsidiary of Cooperative Orange League Federation Exchange, chief creditor of the network. Northeast has absorbed RNN, which feeds programs to about 16 other stations.

Lake Superior Beste Co. (WREX Duluth) purchased WDSM Superior, Wis., from milton Co., paving the way for their merger to obtain Ch. 6 Duluth-Superior. Lake Superior, which paid $88,186 for WDSM, must sell WREX before purchase can be finalized.

CP for WTVU (TV) Scranton, Pa. (ch. Ch. 73), was tendered by Appalachian Co., wholly owned by Mr. and Mrs. Frank J. Collins who paid $22,314 for holdings of their former partners.

Richard Davis, general manager of WELI and WBIB (FM) New Haven, and other station personnel purchased control of the stations from Col. Harry Wilber. Consideration $132, 580.

James H. Gibbs became sole owner of WIVY Crockett, Tex., through purchase of 50% interest held by the estate of Hamilton Calen, deceased, his former partner. Consideration $24,000.

Control of WJDX-AM-FM Jackson, Miss., passed to Murchison Bros., Dallas, who increased their holding from 49.8% to 50.7% by purchasing 216 shares from Willy P. Harris for $24,970.

James M. Cox Jr. relinquished control of WSB-AM-FM-TV Atlanta through conversion of some preferred stock to common and issuance of new stock. His holding was reduced from 42% to 38.6%. No consideration.

Control of WPFR Ponce, Puerto Rico, passed to Francesco M. and Antonio Susoni, Julio M. Conea, Luis A. Ferre, Arturo Valleduy, Celso Garcia as a Radio America Corp. in a stock transaction.

Sylvania, Philco Hearing Continued by FTC

HEARING was continued to May 20 by Hear- ing Examiner Webster Ballinger on FTC's anti- trust action against Sylvania Electric Products Inc. and Philco Corp. to give attorneys for two firms time to study the case for their justification of charges. Sylvania is charged with discriminating against its own distributors in sale of radio tubes at lower prices to Philco, and latter firm is charged with inducing such sales and receiving tubes at discriminatory prices.

Humphreys to GOP Post

APPOINTMENT of Robert Humphreys, formerly public relation director of the Republican Congressional Committee, to the $10,000-a-year position of publicity director for the Republican National Committee was announced last week by Chairman Leonard W. Hall. He also announced appointment of A. D. Baumgartner Jr. as executive director.

Serving under Mr. Humphreys is Edward T. Ingle, radio-TV director of the RNC.

Deadline for Comments on Clear Channel Pact Extended

FOLLOWING protests by daytime Class II stations, and requests for extension of the May 1 deadline, the FCC last week extended the final date for comments on the proposed U.S.- Canadian agreement covering a formula for the protection of Canadian Class I-A stations [See Fax The Record, B'T, May 4] to May 29.

Gist of several dozen protests was that the U. S. should decide the six-year-old Daytime Skywave case before entering into a pact with Canada. A number of objectors claimed that the protection afforded Canadian Class I-A was "ridiculously high." Others, including the Clear Channel Broadcasting Service, urged that the international understanding be expanded to protect both Class I-A and I-B stations in the U.S. as well as in Canada.

Frequencies Listed

Canadian Class I-A frequencies are 540, 690, 740, 860, 990, 1010 and 1350 kc. FCC said that the proposed pact, with one exception not identified, would require no modification of any existing Canadian station. The U.S. has 140 assignments on Canadian Class I-A wavelengths, and about 40 applications pending.

Under the terms of the proposed agreement, applications not meeting the proposed criteria would be referred to the Canadian Government for comment.

The unilateral agreement was the result of conferences between U.S. and Canadian officials last February. It is designed to eliminate complaints of interference by Canadian Class I-A stations, FCC said.

Under terms of the 1937 North American Regional Broadcast Agreement, Class II stations with powers up to 50 kw may be assigned in the U. S. on Canadian Class I-A channels provided they do not produce more than 1 microvolts-per-meter groundwave or more than 25 uv/m 10% skywave on the Canadian border.

Provisions of the 1951 NARBA, still awaiting U. S. Senate ratification, are identical in this respect.

Miles Returns to FCC

CAPT. PAUL D. MILES (USN Ret.), U.S. member of International Frequency Registration Board, International Telecommunications Union, Geneva, Switzerland, is due to return to the U. S. in July to resume his old position as chief of FCC's Frequency Allocation & Treaty Div. Present incumbent A. L. McIntosh is scheduled to succeed Capt. Miles in Geneva.

TV Studio Bill

BILL to provide for a television studio in the Senate Radio-TV Gallery has been introduced by Sens. Homer Ferguson (R-Mich.) and Burnet R. Maybank (D-S.C.). Bill (S 1648) was referred to the Senate Rules Committee. If approved by the committee and the Senate, the studio would be constructed next to the present Radio-TV Gallery. At present, according to D. Harold McGrath, gallery superintendent, at least four TV interviews are conducted each day.

Florida Anti-Station Bill

On Political Libel Facts

FLORIDA House Civil Judiciary Committee has rejected a state bill that would have made radio and TV stations responsible for libelous statements broadcast on their facilities. The measure was introduced by Rep. Morgan Duval (B'T, April 20).

The Duval bill would have repealed a section of the state's libel laws which relieves radio and TV stations of responsibility for statements made by other than station personnel if the stations have exercised due care to prevent slanderous statements. Rep. Kenneth Ballinger noted that FCC does not permit station to censor political broadcasts. Mr. Ballinger in previous sessions represented the Florida Assn. of Broadcasters.

In the Florida Senate, there were indications of vigorous opposition growing to a Judiciary committee-approved bill prohibiting the broad- casting, televising or filming of official investiga- tions where witnesses are questioned under compulsary summons. George W. Thrope, WVCV Coral Cables, FAB president, asked FAB members to work toward the defeat of the broadcast bar bill.

Newton Attacked Bill

Last Tuesday, V. M. Newton Jr., managing editor, The Tallahassee Tribune, and chairman, committee of freedom of information, Sigma Delta Chi, national professional journalistic fraternity, attacked the bill in a letter to Senate Senator John Branch. He warned that when a legislative body "proceeds in secret, errors accumulate throughout deliberation and may be carried into a finished proposal where they may be discovered too late for the pressure of public opinion to rectify them." He urged Sen. Branch, who said publicly "the bill goes too far," to oppose the legislation and "thereby extend the principle of free, open government ... to Florida through the new media of communication, radio and television."

Illinois Senate Passes TV Libel Bill; House Next

TV BROADCASTERS in Illinois will be sub- ject to the same libel laws as radio operators if the lower chamber of the State Legislature in Springfield goes along with a bill passed by the Senate last week.

A proposal sponsored by Sen. William J. Connors (D-Chicago) was unanimously approved by the Senate and sent on to the House. If approved there and signed by Illinois Gov. William Stratton, the measure will amend libel laws revised in 1945 to cover radio as well as press.

The measure would render TV station operators not guilty of libel where they had "no advance knowledge or opportunity or right to prevent it." TV libel is described as "malici- ous defamation." As in radio and press cases, "truth would be sufficient defense." The bill does not apply to political utterances on TV. Penalties provide for a maximum of one year imprisonment and a $500 fine.

Sen. Connors told the Senate that the Chi- cago Tribune and other stations supported his proposal. The Tribune has taken an editorial stand in favor of the bill, introduced last month [B'T, April 6].
Skywave Signal Computation Changes Proposed by FCC
PROVISIONS of FCC's AM engineering standards which allow the intensity of skywave signals to be computed on the basis of individual measurements and which set forth the method for making such measurements, would be deleted according to a proposal issued by the Commission last week.

Instead, FCC would require use of the skywave curves already continued in the standards. The extent of skywave radiation is important in the assigning of standard stations because of interference to existing stations. Deadline for comments in the proposed rule-making proceeding is May 29.

In its order, FCC said that "on the basis of our experience, it appears that the application of these provisions for the case by case consideration of propagation by measurement of skywave signals is wholly unsatisfactory. It appears that the use of the limited amount of data available in individual cases cannot be relied upon to refute the validity and application to particular situations of the skywave curves contained in the standards."

FCC explained that these curves "are based upon relatively large amounts of data secured over a considerable period of time and indicate average skywave fields of broadcast stations much more reliably than the measurements provided for in the existing rules. Nor are there any other types of individual measurements which it is believed would be practicable to prescribe."

The order pointed out, however, "the Commission is not proposing to preclude any person from submitting such skywave recordings as may be taken from time to time and which, considered together with the existing data, may lead to the formulation of revised skywave curves or allocation rules. On the contrary, where data indicates the necessity or advisability of revising the existing rules and standards relating to the proper determination of skywave service or interference, the Commission will institute an appropriate rule making proceeding to accomplish this result."

Florida Bill Would Ban Airing of Some Hearings
BILL to ban broadcasts and telecasts of legislative hearings and other procedures where witnesses appear under process was passed 22-15 on May 3, by the Florida State Senate. The bill, introduced by Sen. Wallace Sturgis of Ocala, follows the measure authored by Gov. Thomas A. Dewey of New York.

In debate, Sen. Sturgis said persons involved in a hearing were subject to "human fallibilities that make us anxious to please the press and radio and television." Sen. Verle A. Pope of St. Augustine contended the public has a constitutional right to freedom of information.

Sen. Wayne Ripley of Jacksonville said the bill was "a subterfuge" to stop inquiries such as those of the Kefauver committee. He argued Gov. Dewey had drafted the measure merely "to take a slap at a Democrat, Rudolph Halley, former chief counsel for the Kefauver committee," after Mr. Halley had been elected chairman of the New York City Council.

Pennsylvania Libel Bill
LEGISLATION (H-343) to protect radio and TV stations from slander and libel suits in the case of political and other broadcasts not subject to station review was passed last week by the Pennsylvania Assembly. The bill has gone to the State Senate.
Bill Would Deny Educ. TV Money to State-Aided Outlets

A MOVE to prohibit educational TV outlets operated by state-subsidized institutions from receiving financial aid was won favor of a House committee in the Illinois legislature last week.

A House appropriations group recommended a ban on educational television stations obtaining monetary support where the institution is state-financed. The recommendation followed hearings on that measure and another to channel $1 million each for outlets in Chicago and at the U. of Illinois at Champaign-Urbana.

Would Ban Construction

Denial of financial aid would have the practical effect of banning the construction and operation of an educational outlet at the U. of Illinois, whose budget already has been cut by the state.

State broadcasters' groups and other organizations have scored the money-siphoning measure as a means of "putting a vehicle of propaganda in the hands of a government agency" [BT, March 23, 16, 9].

AM Processing Plan Scrapped

PROPOSAL to set up two processing lines for AM applications was withdrawn by FCC last week because of a decrease in number of pending bids. The plan, which would have given priority to applicants in communities receiving less than 25% coverage from primary AM outlets, was proposed April 17, 1952, but never put into effect.

NBC Shifts Speculated:
CBS-TV Claims Sales Lead

Brig. Gen. Sarnoff's references to NBC in his NARTB keynote speech, temporary shift of John K. West to New York and reports that several TV affiliates are re-studying their network tie-ins have raised questions about NBC plans for the future.

Reports of unrest and impending shifts in the sphere of executive influence at NBC circulated persistently last week—despite repeated denials—in an atmosphere made tenser by CBS-TV's announced claim that it had taken the network television sales lead which NBC has held to date.

CBS-TV's announcement, which also claimed first place in program popularity, cited $44 million in gross annual billings signed within a week to bring the network's April-signed new business total to $84 million, came in the wake of rumblings that a number of major NBC radio-TV affiliates might switch to CBS [Closed Circuit, May 4], plus entirely independent—and unconfirmed—reports that at least one major NBC executive is apt to leave as a forerunner to executive realignment.

The NARTB convention keynote speech by Brig. Gen. David Sarnoff, board chairman of both RCA and NBC, meanwhile heightened industry speculation—especially with his call for "sympathetic understanding and cooperation between networks and stations" and that he intends to take, if indeed he had not already started to take, a more direct active role in guiding NBC affairs.

It also was noted that John K. West, NBC vice president in charge of West Coast operations, who also is the newest member of the NBC board, has been assigned to New York headquarters on a mission whose purpose and probable duration were not announced. Indeed, not even the fact of the assignment was announced.

But authorities said the assignment included that of assisting President Frank White on special projects and serving as a coordinator between NBC and RCA officials, and that the mission was expected to last about two months.

NBC officially appeared to discount the spate of reports that were circulating. Stories that several TV affiliates in important single-station markets were in negotiations looking toward the possibility of switching to CBS, both radio and TV, were denied as having been "inspired" and "spread" by CBS authorities.

This charge was denied by CBS officials as sharply as NBC officials had made it. CBS-TV authorities maintained that several NBC affiliates had talked with them about "problems," and insisted that NBC had "cause for concern," although they conceded that CBS had not fired up any "switches.

Such problems as may exist between NBC and its television affiliates may be clarified in the forthcoming meeting, scheduled May 25 in New York, between the NBC-TV affiliates committee, an independent organization headed by Walter Damm of WTMJ-TV Milwaukee, and officials of the network.

This meeting was called by the committee. One of the chief questions, it was reported, will be NBC's daytime TV programming, long a matter over which affiliates have expressed concern.

On this subject, CBS-TV did not fail to point out—in a presentation coincident with its claim of sales leadership in TV—that as of April 1, it had 19¾ hours a week of sponsored daytime programming as against 7½ hours for NBC-TV. Counting both daytime and evening, CBS-TV claimed its weekly total of sponsored hours stood at 47 as compared to 36½ for NBC-TV.

If there was any question about CBS-TV having acquired network television sales leadership, there has been none—for some time—about CBS Radio's sales dominance over the other radio networks. Publishers Information Bureau figures for the first quarter of 1953, just released, show that in combined gross billings CBS Radio and CBS-TV outdistanced NBC radio and NBC-TV by more than $2,275,000—$37,008,436 in the case of the two CBS networks and $34,732,111 in the case of those of NBC [BT, May 4].

Breaking these totals down, it is shown that
People needed more oil in 1952 than ever before, but once again ample supplies were available to meet the demand. An important part of this big job was done by companies in which Standard Oil Company (New Jersey) has investments. These companies expanded their facilities to provide people of many nations with oil to heat and light their homes, fuel their ships, and power and lubricate their factories, harvest their crops, and run their cars and trucks.

Jersey’s Annual Report for 1952 shows how the big job of supplying people’s oil needs has become even bigger. It shows, too, how well this kind of American enterprise handles it.

During 1952, Jersey’s affiliated companies produced, refined and sold more oil than in any previous year. This meant more oil wells, more miles of pipe line, new tankers, additional refining capacity, and expanded distribution facilities.

It also meant large investments. During the year, new equipment and replacements cost $498,000,000. Since 1945, almost three billion dollars have been spent for this purpose.

The increased business brought to Jersey and its consolidated affiliates a record gross income for the year, but because of the higher costs of doing business, net income was $8,480,000 less than 1951’s record high. About half of this net income of $520,000,000 was paid in dividends to the 269,000 persons who own Jersey.

These pictures give some idea of the scope and scale of Jersey affiliates’ activities during 1952:

When Geologists Find a Likely Spot, or when known fields are being developed, new oil wells must be sunk, often at great cost. Here is a drilling rig in a project which expanded the known boundaries of an oil field in Saudi Arabia.

Many New Wells, such as this opening a Texas field, must be placed in operation yearly to meet demands. In 1952, although production of Jersey affiliates was 4 times that of 20 years ago, their proved reserves were at an all time high.

New Refining Capacity helps to meet the need for more and better products. The units shown above, for example, represented an important part of a recent modernization and expansion program at a Jersey affiliate’s refinery.

Pipe Lines are costly, but provide the most efficient overland transportation of petroleum. This means cheaper, more abundant products. The pipe shown above went into a line delivering crude oil to a Venezuelan refinery.

**FINANCIAL SUMMARY—1952**

The Annual Report tells the story in detail. We will be pleased to send a copy to anyone wishing it. Write Room 1625, 30 Rockefeller Plaza, New York 20, N. Y.
CBS Radio's first-quarter gross billings totaled $15,339,508 as compared to NBC radio's $12,414,385, while NBC-TV led CBS-TV by $22,-
317,728 to $21,668,928.

The Olympic of NBC sales and Gen. Sarnoff's participation was raised at the annual meeting of the stockholders of RCA (separate
story page 73), which by coincidence was held at the same time CBS-TV was claiming acquisition of RCA's sales dominance.

Questioned by a stockholder about network sales, Gen. Sarnoff expressed the belief that NBC was first in TV network business although
CBS had forged ahead on the radio front.

"It's a fluctuating affair," he said.

Wylma Soss, president of the Federation of Women Sales Representatives in American Business, who had raised the question about network sales, then suggested that a reorganization of the NBC sales department on a more aggressive basis might be a good idea.

"This looks like just the place for your fine Italian hand, General," she commented. Gen. Sarnoff smiled noncommittally.

CBS-TV's announcement that it had "taken the business leadership among all [TV] net-
works" was made on Sunday at a trade news luncheon where network officials unveiled a presentation refuting nine of the "top 10 cliches" about television. Only one of the 10 "cliches" which has been proved true, according to Network Sales Vice President Wil-
liam H. Hylan and Network Sales De-
velopment Manager Edward P. Shumirk, is the one that says the advertisers "can't afford to stay out of television." Mr. Hylan said
CBS-TV signed up $4,750,000 in gross annual billings dur-
ing the first quarter ending April 22-28, which he called one of the largest sales weeks in the network's history, and also cited an additional $4 million in new business signed earlier in April.

April 22-28 signings, he said, included: Prudential Insurance Co. of America for al-
ternate-week sponsorship, starting early in September, of You Are There, now seen Sun., 6:30-7:30 p.m. EDT and co-sponsored by Electric
Companies Adv. program through Calkins &
Holden, Carlock, Mc Clintock & Smith, New-
York 1B-T, May 41; Chrysler Motors for half-
hour dramatic show, Saturdays at 10:10-10:30 p.m., starting mid-July, through BBDO, New
York 1B-T, April 201; Purex Corp. for a quar-
time hour of the Wednesday Garry Moore Show starting June 3, through Foote, Cone &
Belding, San Francisco, and General Electric's Small Appliances and Electronics Divisions for the half-hour Meet Mr. McNally show, starting Sept. 17 (Thurs., 8-8:30 p.m. EDT), through Young & Rubicam and Mason Inc., both New York 1B-T, April 201.

Earlier April sales previously announced, were listed as including P. Lorillard's decl-
ade purchase of the limerine brand Four for the Money, to CBS-TV in August; Simonoff Co.
and International Silver Co.'s purchase of My Favorite Husband for alternating sponsorship starting in October, and Singer Sewing Ma-
chine for Four Star Playhouse, twice weekly, on a weekly rather than alternate week basis.

Mr. Hyland predicted that "the time is come when manufacturers will set up a sales
quota for advertising media, and expect them to meet it."

"More and more," he continued, "a medium will be judged not only on its ability to deliver advertising but on its performance in moving merchandise. This trend will be an increasing challenge to every medium because retail sales forces today are thinning out. More than 80
million shoppers go to self-service stores every week."

Television's "exclusive" combination of sound, sight and motion, he declared, make it "the medium best adapted to present needs" and the one that best fills the reduced ranks of retail salesmen.

CBS-TV's announcement claimed that its "programming popularity has kept pace with its sales leadership," asserting that during the past one-year period it sold more pro-
grams in the top ten Trendex than any other network, maintaining an average of six for the entire season.

"All the rating services," the announcement continued, "CBS-TV's I Love Lucy in first place, followed by Arthur Godfrey's Talent Scouts, with Godfrey's Friends in third place in two services and fourth in the other."

CBS-TV's formal presentation, detailed to the luncheon group by Mr. Shumirk and slated for extensive showings to agencies and adver-
tisers, claimed for CBS-TV the biggest network growth, the highest average rating, the greatest single audience, the most sponsored time, the largest network rate formula, most spoc-
conded daytime hours, the highest rated package shows, and the lowest cost-per-thousand
viewers.

"Can't Stay Out of TV"

Of the 10 "cliches" spelled out and an-
swered in the presentation also noted that, for
instance, S'inger Sewing Machine, sponsor of
Four Star Playhouse, is set to spend, during the coming year, almost as much on CBS-TV as the approximately $1.2 million which repre-
sented the overall advertising budget in 1951.

In answer to the "cliche" that TV's cost-
per-thousand is getting lower but its overall price is "getting too high," CBS-TV asserted that "there's a right overall price for any ad-
vertiser, large or small," with television avail-
able in "all combinations of programs, time
and coverage." It was noted, for instance, that CBS-TV is offering five-minute segments in its 11-11:30 daytime period, occupied by There's One In Every Family, at less than $2,500 weekly per participation.

To the "cliche" that television is pricing itself out of the market, it was noted that TV's programmed hours (excluding both day and time and talent) is steadily going down, while those of printed media are steadily rising. And on the "cliche" that television will price itself out of the market, the reply was that, based on the notional net-
work's time cost per thousand homes in 1955
will be what it is today ($1.59). This, the presentation noted, assumes continuation of the present rate of TV's growth, which in 1955, would bring 90 cent saturation in 100 leading
markets.

Other "cliches" answered by research data in the presentation included those which main-
tained that "television will not become a mass medium"; that "television will never cover the
country"; that "people won't watch television after the novelty wears off"; that "housewives will never have time for television during the day"; that "in summer viewers will take a
take a vacation from television," and that "when the glamour wears off, advertisers will drop out of television."

Adrian Samish Joins NBC Program Dept.

ADRIAN SAMISH, vice president and radio-
tv director of Dancer-Fitzgerald-Sample for six years prior to his resignation a few weeks ago, joined the NBC program department, effective May 1, as a member of the creative produc-
tion group and as a general executive in the depart-
ment, Programs, Vice President Charles C. Barry announced last week.

Before his associ-
ation with the D-S Agency, Mr. Samish served with ABC from 1944 to 1947 as vice president in charge of radio and television programming and production.

Don Lee Network

Don Lee Network

Announces Sales

SALES totalling more than 115 hours on Don Lee Broadcasting System were announced last week by Norman Boggs, network vice-president in charge of sales.

Don Lee Coffee Co., San Francisco, starts thrice weekly, five-minute Something to Think About on Don Lee Network, for 62 weeks from today (Monday). Santa Rosa Shoe Co., Sant
Rosa (Calif.), starts weekly 10-minute new
program on 24 stations, for 62 weeks from June 6. Hoefler, Dietrich & Brown Inc., S. F., services both accounts.

Dormin Inc., New York (sleeping tablets), starts twice weekly, five-minute Names and Places in the News on the network for 26 weeks from tomorrow (Tuesday). Agency is Dowd, Redfield & Johnstone Inc., N. Y.

Renewal includes Planters' Nut & Chocolate Co., San Francisco, contract for five times weekly, 10-minute segment of Lucky U on 41 Don Lee Stations, effective April 9 for 62 weeks. Agency is Raymond R. Morgan Co., Hollywood. General Foods Corp., New York, has renewed its twice weekly, quarter-hour segment of Breakfast Gang on the network for 12 weeks from September 30. Agency is Young & Rubi-

NBC Co-op Sales Reach 100 Affiliate Stations

SPONSORSHIP of NBC radio co-op programs by 280 advertisers on more than 100 NBC- affiliated stations was reported last week by Lud Simmel, manager of NBC co-op sales.

He also announced renewal of the Howdy Doody Show (Sat., 8:30-9:30 a.m. EDT) for the complete Dominion Network by Kraft Foods Ltd., through J. Walter Thompson Ltd., Montreal, and the St. Lawrence Starch Co., through Harold F. Stanfield & Co., for two 15-minute periods each through June 27, plus renewal of a half-hour of the program by Ogilvie Flour Co., through Stanfield Ltd., starting October 1.

Mr. Simmel also reported that NBC-TV's Who Said That? co-op show (Monday, 10-30-
11 p.m. EDT) had been sold to Piel’s Beer Co. by WBEN (TV) New York, effective April 15. Young & Rubicam is the agency. He noted that WSPD-TV Toledo and WJIM-TV Lansing have been added to the Who Said That? lineup by Pure Oil Co., raising that company’s station total to 21.

CBS East-West Switch
Transfers Jencks, Woodward

APPOINTMENT of Richard W. Jencks of the CBS-TV New York legal department as resident attorney of CBS Inc.‘s west coast legal department, effective immediately, was announced Thursday by CBS Secretary and General Attorney Julius F. Brauner.

At the same time the designation of Charles C. Woodard Jr. of the CBS Hollywood legal staff to assume operating charge of the CBS-TV legal department in New York was announced by W. Spencer Harrison, CBS-TV vice president in charge of legal and business affairs. Mr. Woodard’s new assignment becomes effective today (Monday).

McBride Radio Project

ABC radio reported last week that 350 women from 279 localities in the U.S. and Alaska have been nominated as possible winners in the Mary Margaret McBride Radio Project, which is designed to show what women on the local level have accomplished in the interests of Democracy and peace. Winners of the project, which is conducted by ABC radio, will be chosen by a board of judges representing the United Church Women, the National Council of Catholic Women, and the National Council of Jewish Women.

ABC-Friendly Network

To Carry Braves Games

ALL stations of United Broadcasting Co.-Friendly Network have contracted with World News Service to carry Milwaukee Braves baseball games fed by WEMP Milwaukee to a network in that area. Richard Eaton, UBC president, said WNS, of which he also is president, has the concession for the team’s home park in 14 Mid-Atlantic and Southern states and the District of Columbia.

Miller’s High Life beer is sponsoring games on the network on a participating basis. Sinclair Oil Co. is co-sponsor on WOJO Washington, WJNO Rockville, Md., and WJBN Richmond, Va. Other stations on the special network are WFAN (FM) Washington; WSNY Baltimore; WARK Hagerstown, Md., and WJMO Cleveland.

NBC Plans Talent Search

PLANS for a weekly two-hour program to discover and showcase talent new to network radio have been revealed by NBC, which said it would conduct the project in collaboration with station affiliates. The series will be heard Saturdays, 7:30-9:30 p.m. EDT, starting June 13. Four stations will participate in each broadcast in the series, to be known as New Talent, USA. Teams of talent scouts will go on the road several weeks in advance of each broadcast, to help the stations in arrangements.

GM DIESEL Standby GENERATOR SETS

If you are planning stand-by power, be sure to check the advantages of General Motors Diesel generator sets, listed briefly below. GM Diesel generators are meeting the exacting requirements of military service in all parts of the world. They supply emergency power for more than 1100 telephone and telegraph exchanges—for microwave relay stations, for hospitals, government buildings, banks, airports. There is a GM Diesel distributor near you who will analyze your power requirements and make his recommendations without obligation. Look in the yellow pages of your phone book for his listing, or write directly to us.

- Wide range of models—12½ to 200 kw., 220 or 440 volts, single or three-phase current.
- Excellent frequency and voltage regulation for the most exacting requirements.
- Powered by General Motors Diesel engines—dependable, smooth 2-cycle operation—low cost maintenance—easy to service.
- Built by one manufacturer—one warranty, one responsibility for both engine and power generator.
- Instant push-button power starting on safe Diesel fuel—or fully automatic starting. Immediate power, no “warm-up” period.
- Dependent starting—no spark-ignition system to fail because of dampness or corrosion—always ready to start.
- Easy to install—compact—lightweight—requires no special building, no special base. Complete instrumentation provided.
- Distributors and Dealers throughout the country.

BBDO-Miner Disassociate

BREAK-DOWN of negotiations between BBDO, New York, and Worthington Miner with respect to production of the new Chrysler program, slated to go on CBS-TV B+B, May 4, was revealed last week. The agency and Mr. Miner made a joint statement in which it was announced "that it will be impossible for him to go forward with the production of the new Chrysler TV program. The reason for this is solely the fact that complications arose in working out details as to the ownership of the program itself as well as the title. Both BBDO and Chrysler felt strongly that the program as well as the title must be the property of the Chrysler Corp." Mr. Miner is under contract to NBC.

Leaves Buenos Aires

GEORGE NATANSON, NBC Buenos Aires correspondent, planned to leave Argentina last week because he had overstayed his visa but said that his associations with the Argentine Immigration Dept. had been amicable and that he would seek a residence visa to continue his work in that country, according to reports reaching New York.

NBC Team to Indo-China

ASSIGNMENT of Joseph Michels, NBC-TV news writer and editor, and Edgar Hatrick, NBC Newfilm cameraman, as a reporter and cameraman team to cover the war in Indo-China was announced last week by William R. McAndrew, manager of NBC news and special events. They left New York for Saigon May 6.

CBS INC. PROFITS SOAR 58% IN '53

First quarter net profits of CBS and its subsidiaries exceed $2.4 million, reports Board Chairman Paley—record first-quarter earnings for the company.

NET PROFITS of CBS Inc. and its domestic subsidiaries reached a total of $2,404,935 for the first quarter of 1953—approximately 58% above the same period of 1952—Board Chairman William S. Paley announced last week.

The $2.4 million figure was described as record first-quarter earnings for the company, which included not only the CBS Radio and Television networks and Labs Div., but Columbia Records Inc., CBS-Columbia Inc., and Hytron Radio & Electronics Co.

"Operations of the various companies and divisions of the corporations have shown gratifying progress during this period," Mr. Paley said in his announcement, which was made at a board meeting Wednesday. "We have every hope that our operations will show continued growth."

The $2.4 million net income figure for the 1953 first quarter compares with $1,522,796 for 1952, and represents $1.03 per share as against $.65 per share for last year's first quarter.

The CBS board at its meeting declared a cash dividend of $.40 per Class A and Class B share, payable June 5 to stockholders of record at the close of business May 30.

Notes:
1. Late in 1952 the Company discontinued the practice of netting related operating expenses against certain takeover revenues. Accordingly, the "gross income" and "operating expenses and cost of goods sold" have each been increased $6,413,048 over the amounts previously reported for the three months ended March 31, 1953, in order to reflect these amounts on the new basis. This change in accounting treatment does not affect net income.
2. In November 1952, the Bureau of Internal Revenue published certain proposed regulations under which the Company would be denied the benefit of the current broadcasting relief provision for each of these periods. The Company is of the opinion that the Bureau has no authority under the law to deprive it of this relief. If, however, the Bureau's proposed regulations prevail, the Company would be liable for approximately $20,000 of additional tax for each of the 13 week periods ended April 4, 1953, and March 29, 1953, for which no provisions have been made in the above income statements.
3. The 1952 results are subject to year end adjustments and to audit by Lybrand, Ross Bros. & Montgomery.

MANUFACTURING

’53 FIRST QUARTER AT RCA HIGHEST IN COMPANY HISTORY

Report lists profits for period at more than $20 million (before taxes) and in excess of $9 million (after tax provision). Gen. Sarnoff also tells board color TV for public is at least two years away.

RCA did the largest volume of business of any first quarter in company history in the first three months of 1953, with sales amounting to $208,007,333, Brig. Gen. David Sarnoff, RCA board chairman, reported Tuesday to the annual meeting of RCA stockholders, which filled NBC Studio 8-H in New York’s RCA Bldg. to overflowing.

Gen. Sarnoff, John Hays Hammond Jr., Mrs. Douglas Horton and Harry C. Ingle were re-elected directors for three-year terms by the stockholders, who also named Arthur Young & Co. to certify the company’s financial statements for the year of 1953. Stockholders rejected a proposal of Lewis D. Gilbert, John J. Gilbert, and John Campbell Henry for cumulative voting in election of directors.

Profits for the first quarter of this year amounted to $20,456,141 before taxes and to $9,293,141 after provision for taxes. Gen. Sarnoff said, the net earnings being 31% ahead of the first quarter of 1952. After provision for preferred dividends, he said, earnings for the quarter were 61 cents a share, compared to 45 cents a share for the same period of last year.

“This excellent record,” Gen. Sarnoff said, “resulted from increased sales of television receivers and transmitters and government equipment, as well as the new business of home appliances which the corporation has added to its line of merchandise.” In response to a question, he said that TV equipment accounted for about 75% of the total volume of business of RCA-Vector Div. Government business, he said, amounted to $37 million or about 18% of the RCA total, up from 13% in the first quarter of 1952, with RCA “billings to the government this year expected to exceed last year’s billings by a substantial amount.”

Color TV for the public is at least two years away, Gen. Sarnoff replied to a question following his report on the status of compatible color. “And that two years begins when the FCC approves it for commercial use,” he commented, explaining that it will take nine months to a year to tool up to produce color sets and another year to get production going at normal speed. RCA’s Lancaster plant, he said, already has a pilot operation underway for the production of tri-color tubes, which he said “can reach a monthly output of 2,000 color tubes within nine months to a year after it tools up for commercial production.”

Looking to the future, the RCA board chairman estimated that by mid-1956 there will be 38 million TV sets in U.S. homes, 15 million more than at present. Radios at that time will be sold chiefly as ‘add-ons’ to the TV market. Sales of television equipment in the home will be well into the millions, Gen. Sarnoff predicted.

"W" in the '53 First Quarter"

1. You can SELL this rich ... growing ... prosperous market with only ONE TV Station ... The Only TV Station in the area...

2. Exclusively covered ... in 103 Counties of West Virginia, Ohio, Kentucky and Virginia ... The Retail Sales: $1,826,597,000; Effective Buying Power: $2,873,118,000 ....

time will total 130 million, he said, including 26 million auto radios.

Acceptance of RCA room air conditioners and room dehumidifiers, introduced last year, "made it possible to sell all available models," he said, with production being expanded this year. The new line of RCA Estate ranges also has found consumer acceptance "most gratifying," he said. When Lewis Gilbert, a persistently critical stockholder, asked the price RCA had paid the stove company and RCA officials declined to answer for "competitive reasons," Mr. Gilbert answered his own question and announced that the sum was $2 million.

After a number of stockholders had praised the achievements of RCA under Gen. Sarnoff's leadership and expressed regret that in three years, when he will be 65, the corporation may lose his services, a motion was made for an amendment to the bylaws to permit him and other valued employees to be retained beyond the stipulated retirement age. Gen. Sarnoff then revealed that the board already has that authority and pointed out that he himself had made no announcement of any plans to retire. "That's up to the board," he said.

Asked how much insurance RCA has on its $9 million building, Gen. Sarnoff answered none, causing Wylma Soss, president, Federation of American Shareholders in American Business, to urge the board to follow the example of "many other companies" in insuring its top executives, "beginning with the founder."

Among new developments "in the offing," Gen. Sarnoff listed a compact, light-weight

**DuMont Refutes Fears Of TV Threat to Press**

BELIEF that newspapers and television can live together, be financially successful and contribute to America's progress was expressed in a statement released yesterday (Sunday) by Dr. Allen B. DuMont, president of Allen B. DuMont Labs. and DuMont TV Network.

Dr. DuMont made his observation following a study of reports issued at the 67th annual convention of the American Newspaper Publishers Assn. in New York April 21-23 (B+T, April 27). Some publishers at the convention expressed concern over the growing competition and inroads by television.

Voicing the opinion that "newspaper publishers and broadcasters will enjoy increased revenues," Dr. DuMont cited figures showing that both newspapers and television had registered peak national advertising revenues in 1952. He added that "more daily newspapers were published in the U. S. last year than in the past decade" and that the "all-time circulation" of 1951 had declined only one-tenth of one per cent last year.

Dr. DuMont said that TV and the press would work to each other's advantage in coming years and pointed to paid advertisements in newspapers by TV stations and television receivers as a method of increasing newspaper revenue. He offered the opinion that viewers would rely on newspapers for complete news and background information and that television, as did radio, would stimulate newspaper reading that will be "translated into increased circulation."

---

**ITC To Put 'Pay-As-You-See' TV Plan Before FCC**

INTERNATIONAL TELEMETER Corp., currently testing its subscription TV plan in Palm Springs, Calif., this year expects to apply for FCC permission to operate its "pay-as-you-see" system on a national basis. Cost of installation of the unscrambling device is estimated at $8, according to the firm's officials. Programmes are then unscrambled upon deposit of a coin in the coin box attached to the receiver set.

Experiments, delayed by Palm Springs electric power strike, now in its 12th week, will be resumed next fall, according to Carl Learman, executive vice-president.
DuMONT DEVELOPING COMPATIBLE 3-D

DuMont Labs may demonstrate a compatible 3-D color TV system by year's end, President Allen B. DuMont tells stockholders at meeting. He predicts the firm's 1953 sales will top $100 million. Officers, directors re-elected.

A COMPATIBLE 3-D system of color television is in the process of development by Allen B. DuMont Labs and may be demonstrated by the end of this year, President Allen B. DuMont told stockholders at their annual meeting last Monday at Clifton, N. J.

On the subject of color TV—not 3-D color—he said DuMont engineers are not satisfied the system being developed by the National Television System Committee is "right" for the public, and reported it is his opinion that a long time will pass before a commercially practical system is approved by FCC. He said the NTSC system is too complex and the cost of the cathode-ray color tube too high.

Although optimistic about prospect of successful developments in DuMont's 3-D system, he stressed the company is not preparing to put this system forward now.

Dr. DuMont said TV pictures could be received in four ways in the DuMont 3-D system: in black-and-white, in color, in 3-D color, and in 3-D black-and-white. He estimated the retail cost of a 17-inch color receiver at $600 to $700, and predicted a 3-D black-and-white set would be less expensive.

In a summary of the company's overall business outlook, he said DuMont expects good business with record-breaking sales exceeding $100 million for the year. He cited the lifting of the freeze especially as giving impetus to DuMont transmitter, receiver, and cathode-ray tube sales.

More than 20% of DuMont's total production this year will be in defense work, he estimated.

In a board meeting, Dr. DuMont was re-elected president of the company, along with Stanley F. Patten as vice president; Paul Ralbourn, treasurer; Bernard Goodwin, secretary, and Irving Singer, assistant treasurer.

Owners of Class A stock re-elected, as directors, Dr. DuMont, Mr. Patten, Dr. Thomas T. Goldsmith Jr., Percy M. Stewart, and Bruce T. DuMont, while holders of Class B stock (Paramount Pictures) re-elected Edwin L. Weisl, Barney Balaban, and Mr. Ralbourn.

After the board meeting, a regular quarterly dividend was announced. It is 25 cents per share on outstanding shares of 5% cumulative convertible preferred stock and is payable July 1 to preferred stockholders of record at the close of business on June 15.

Mfr. Earnings Reported Up

SURVEY of 1953 first quarter earnings of 411 corporations in 27 categories by the Wall Street Journal indicates four radio and television manufacturing corporations earned 178.8% more for this year's first quarter than for the similar 1952 period.

While earnings for the 411 corporations increased an average 10%, the four radio and television manufacturers showed an increase from $1,329,000 in the 1952 quarter to $3,706,000 in 1953.

Hi-Fi Demonstrations Set

DEMONSTRATION of high fidelity equipment will be conducted jointly by McIntosh Lab. Inc. and Weathers Industries during a three-day showing in Chicago May 17-19. Demonstration will include a complete home sound reproduction setup in a typical living room setting. Audio engineers will discuss problems in connection with hi-fi system and answer questions on sound equipment. Showings will be held at the Graemere Hotel, and invitations have been mailed out by Frank McIntosh, McIntosh Lab., and Paul Weathers, Weathers Industries.

A 4000 Per Cent Increase!

A local Chicago advertiser has advertised on WGN-TV exclusively for two years, and his business volume has increased more than 4000 Per Cent!

Whether you're big or small, here is a success story that's hard to beat. Another example of the pulling power of WGN-TV—and another reason for making WGN-TV your Best Buy in Chicago.
RCA MASS-PRODUCES PRINTED CIRCUITS

PRINTED-CIRCUIT transformers and coils, made through a photo-engraving process by which a virtually unlimited number of parts can be produced from a single photographic negative, now are being mass-produced for general use. L. S. Thees, general sales manager of the RCA Tube Dept., Camden, N. J., says that the printed circuits now being manufactured are intended for home TV sets, but that the same photo-etching process can be used to print circuits for parts used in a wide range of radio and communications equipment.

The photo-etch process is so precise that it will faithfully reproduce a circuit pattern having a line width of as little as one-hundredth of an inch. Mr. Thees reports the photographic printing of electronic circuits makes possible unprecedented accuracy in the production and assembly of components and gives precision control of such vital factors as the coefficient of coupling. The printed circuit technique is cheaper than old methods, Mr. Thees added, and by using the photo-etch process, circuit arrangements can be arranged that are impossible with the usual kind of parts.

In order to make the printed-circuit parts, a photograph is taken of the pattern of the required circuit. Then a contact print is made on a copper-clad plastic strip which has been coated with light-sensitive material. Next the strip is developed and put into an etching solution. The unexposed parts of the copper are eaten away, leaving an accurate, sharply defined reproduction of the copper circuit. After the strip goes through a little more processing, it is put in a small metal case.

RCA now is making six 40-mc intermediate-frequency transformers, coils and traps for TV receivers. The conventional inductors depend upon coils of hand-wound or machine-wound copper wire. Exact values are determined by the number of turns of wire, its spacing and the diameter of the coil form. In the printed circuit method, both the copper wire and the wire-winding operations are eliminated. Inductances are provided by flat inductors having rectangular windings which are photographically printed on copper-clad strips. Mr. Thees says RCA is a pioneer on the printed-circuit field but heretofore had been producing the parts on a "custom order" basis.

DuMont Says Convention Sales 'Record Breaking'

"RECORD-BREAKING" sales or television broadcasting equipment during a four-day period at the NARTB Convention in Los Angeles were announced Wednesday by Herbert E. Taylor, Jr., manager of the Television Transmitter Div., Allen B. DuMont Labs.

Mr. Taylor said the equipment was sold to TV station owners and to uhf and vhf station applicants during the convention period, April 28-May 1. Sales included more than 50 of the new DuMont "Film-Scanners," plus uhf and vhf television transmitters, uhf antennas, microwave relay units, cameras and camera chains, camera dollies, studio monitors, master control consoles, and associated station and studio broadcast equipment.

The "Film-Scanner," according to Mr. Taylor, was shown publicly for the first time at the NARTB meeting. He added that it was not shown in "carefully staged, limited-time demonstrations but was turned on at the opening of each day's session and ran continuously until the session closed each night."

New ACA Portable Recorder

AMPLIFIER Corp. of America has announced production of its new 110 volt AC portable tape recorder, the Magnematic, which weighs 19 pounds and attains a frequency response of 50 to 15,000 cycles at 7½ inches per second. Operated by push-button with a solenoid-operated, clutch-controlled electric drive which starts and stops tape travel in 1/20 of a second, the Magnematic, according to ACA, has a relay-operated modified Geneva movement to control high speed rewind and 60 inches per second forward functions.

Color TV 'Good Way Off'

MANY problems must be overcome before color television becomes a reality, a top manufacturing executive said last Monday. Paul V. Galvin, president, Motorola Inc., told a news conference at the Austin Fine Arts Club in Chicago that color TV is "a good way off." He said that present color tubes are expensive to manufacture, and added that color TV, when it finally arrives commercially, will probably involve use of a 15-inch color tube.

Contracts for Sound Device

AMPEX Electric Corp. has contracted with Magna Theatres and Todd-Ao Corp. to develop and manufacture a special stereophonic sound device for use with the new Todd-Ao system of wide-screen motion pictures, according to an announcement by Alexander M. Poniatoff, Ampex president. The system will employ 35mm magnetic film and is being developed under the direction of Ampex engineer Dr. Cal Becker.

Advertisers can cash in by following tax dollars to the market place. Franklin County (Columbus, Ohio) is unique... more tax dollars are spent here than are collected. This means buying power isn't siphoned off... it is increased!

Large military installations, aircraft factories, defense industries and government centers use tax dollars to meet big payrolls. This money is spent where it is earned — in the rich, billion-dollar Central Ohio market.

Reach this market with WBNS... with more listeners than any other Central Ohio station... with the 20 top-rated (Pulse) programs heard locally. Ask John Blair for rates and ratings.
URGES CAUTION ON COLOR TV

COLOR TV could be set back for years if the industry moves "prematurely"—before the picture tube problem is resolved and home receivers are able to provide trouble-free service—a leading manufacturer declared last week.

Addressing a United Jewish Appeal dinner at the Hotel Plaza in New York, Ross D. Siragusa, president of Admiral Corp., warned that tooling up for color set production before development of a satisfactory picture tube would be a serious "mistake." He said "the right tube simply doesn't exist at present," and that tubes now are only laboratory devices. He said speculation on the cost of a color tube is "guessing" because it has not yet been designed.

Mr. Siragusa predicted that when the tube problem is solved, manufacturers will be able to turn out reasonably-priced sets and that "sponsors will be willing to absorb the additional cost for color when they see the public is willing to buy the receivers."

Color broadcasting will follow the pattern of radio on multiple-set ownership and replacement of obsolete models with new receivers, he said, referring to small screen models. Less than 1% of TV homes have more than one set, he noted. Demands from present markets, plus the inception of new TV stations, will "keep TV production at a very high level for several years to come," he predicted.

First Quarter TV Sales Up

RETAIL sales of TV receivers exceeded 1.7 million units in the first quarter of 1953, according to Radio-Television Manufacturers Assn. The figure of 1,780,899 TV sets compared to 1,279,783 in the same quarter of 1952. By months the retail sales were: January, 640,073 sets; February, 537,122; March, 603,704.

Retail sales of radios, excluding auto sets, were estimated by RTMA at 1,438,871 units for the quarter compared to 1,505,883 a year ago. This figure by months was broken down as follows: January, 414,726 radios; February, 507,527; March, 516,618.

DuMont Opens New Plant

OFFICIAL opening of Allen B. DuMont Labs, Inc. cathode-ray instrument plant at 760 Bloomfield Ave., Clifton, N. J., will take place tomorrow (Tuesday) at ceremonies to be attended by high-ranking officers of the armed forces and prominent local officials. The instrument plant is said to be the fifth major manufacturing installation of DuMont Labs. The company maintains two other plants in Clifton and one each in Passaic and East Paterson.

Mini. Mining Sales Up

SALES of Minnesota Mining & Manufacturing Co. (sound recording tapes) during the first quarter of 1953 reached an all-time high for that period in the company's history—$51,062,122—it was reported Friday. Previous first-quarter high was $44,358,553 in 1951. Net income before taxes this past quarter was $13,304,859.

R. P. Carlton, president, cited substantial sales growth of new and improved products as one factor in the 16% sales jump.

MANUFACTURING SHORTS

Ampex Electric Corp., Redwood City, Calif., opens district sales offices at 252 North Ave. N. W., Atlanta (ATwood 8402); 401 Lexington Ave., N. Y. (Murray Hill 4-4437), and 7338 Baltimore Ave., College Park, Md. (APleton 7-9276).

Hytron Radio & Electronics Co., Danvers, Mass., changes name to CBS Hytron.

Electronic Devices Inc., Brooklyn, announces development of new device, "saw-a-battery," to convert battery-type portable radios to AC operation on ordinary 110-volt house current.

Emerson Radio & Phonograph Corp. has taken title to 10-story building at 524 W. 23d St., N. Y., to be used exclusively as administrative and engineering headquarters.

AFTRA-DE MILLE QUARREL ERUPTS

PLANNED appearance of Film Producer Cecil B. De Mille on CBS-TV's "Toast of the Town" has been disapproved by the American Federation of Television & Radio Artists (AFTRA) because Mr. De Mille is "not a member in good standing." George Heller, national executive secretary of AFTRA, revealed last week.

Mr. Heller told B'T Thursday that since Mr. De Mille has not paid union dues since 1944, he is not qualified to appear on a TV program over which AFTRA holds jurisdiction.

Mr. De Mille was approached by producers of "Toast of the Town" to participate in a program that was to describe his career in show business, according to Mr. Heller.

"We have no objections to Mr. De Mille appearing as a guest star," Mr. Heller explained. "But we were given to understand that he would be used as a narrator in connection with film clips of his life and of his motion pictures. We consider a narrator a performer and Mr. De Mille is not eligible under AFTRA regulations."

Mr. De Mille has quarreled with the union since 1944, when he objected to a special $1 assessment levied upon membership to fight labor legislation submitted to California voters in a state election. Mr. Heller confirmed that the union had disqualified him from continuing in his post at that time as narrator in the Lux Radio Theatre, for which Mr. De Mille earned a reported $92,800 a year.

In reply to a question, Mr. Heller said that, so far as he knew, Mr. De Mille had made no effort to become an AFTRA member "in good standing." He said that Mr. De Mille's union status was "the same as any member who has been suspended for non-payment of dues," and that his application for reinstatement, if submitted, "will be handled in the same way as anybody else's."

Non-Network L. A. Announcers Reject 5% Raise, Vote Strike

TURNING down a 5% wage increase offered by 12 Los Angeles area independent radio stations, announcers met with AFTRA negotiators last week and voted to recommend a strike for strike action. AFTRA Hollywood local board of directors meets today (Monday) to determine future action.

AFTRA representatives for a new contract, is asking the independents for a flat $2.50 per week wage increase for staff announcers. Stations have agreed to sick leave of ten days per year cumulative, but refused a request that discharge for cause be subject to arbitration. The union also is asking limitation for use of part-time announcers.

Stations involved are KMPC, KFWB, KLAC, KPAC, KGER, KFOX, KHLD, KPOL, KALI, KGFI and KWWK. XLXA is being negotiated separately. Agreement has been worked out between AFTRA and KIEV where-by announcers start at $85 weekly, with gradual increase to $110 a week by end of third year. Severance pay calls for one week's salary for each year of service, with a minimum of two weeks. Maximum is five years. The clause applies, however, only on discharge under normal conditions.

Admitting that a special union membership meeting is contemplated to support its stalemated demands, Claude McCue, AFTRA regional executive secretary, declared, "We are concerned as a union with having encouraged too many stations to operate in this area by maintaining substandard pay to announcers, which has permitted unfair competition."

Meanwhile, IBEW Local 45 and Southern California Broadcasters Assn., representing 13 member stations in the area, start their fourth week of negotiation today for a new working agreement. The stations are offering an approximately 5% wage increase for technicians to IBEW's demand for a $2.50 per week raise.

TV Writers' Vote Ordered

ELECTION to determine free-lance TV writers' choice of Television Writers of America or Authors League of America as their collective bargaining agent has been ordered by NLRA for such writers working on network programs originated by ABC, CBS and NBC in New York, Chicago and Los Angeles, or on programs telecast on a syndicated basis.

Excluded from voting are those free-lance writers employed by advertising agencies, independent TV film producers and sponsors and those who sell or license rights of use or ownership of literary material with no additional contract. Eligible voters in the networks unit must have been employed at some time during the preceding 12 months.

Elections also were ordered to determine jurisdiction of writers for stock TV plays and non-series TV plays. The board ordered that all writers employed by McCadden Corp., producers of the CBS-TV Burns & Allen Show, are eligible to join a unit except William Burns, brother of George Burns. His exclusion was on grounds that "he receives separate treatment from the other writers."

AWARDS

Radio-TV Safety Aid Cited

COOPERATION of radio and television has been acknowledged by the National Committee for Traffic Safety in handing out its annual citation awards for outstanding contributions to highway safety in 1952. Six organizations and six individuals were recipients of citations, which called attention to public information programs carried on radio and use of tape recordings for radio and TV appearances in the promotion of highway safety. Winning organizations were the U. S. Junior Chamber of Commerce and the Atlantic Refining Co., Philadelphia.

Murrow Wins $1,000 Award

EDWARD R. MURROW, CBS newscaster, last Monday was presented with a $1,000 award by Lord & Taylor, New York department and specialty store, for his contributions toward building "the first world-wide corps of radio newsmen" and for his CBS-TV series, See It Now.

AMA Honor to 'Christian'...
Fables of the leopard and the hippo — 9

ON GAINING PRESTIGE

THE HIPPO: "Alas, how I've thrown my weight around 'most everywhere, just to be folks' favorite."

THE LEOPARD: "But subtle tactics used just right—in the right place, at the right time, I mean—is really all it takes."

THE MORAL:
Wily TV advertisers know, too (like the Spotted Leopard) that prestige is most easily built by subtlety. And locally-produced Spot TV programs, they find, have a special subtlety. Which builds local customer acceptance. Which dealers know makes more sales. Which quickly opens up better shelf and floor display space. And so builds product prestige. Easily. Economically.

In just the markets wanted. Just when needed. Spot TV news, variety, women's, children's and sports programs on these thirteen leading stations sell their markets well. They will get results for your product.

TOP ANTENNA AUTHORITY REPORTS ON CONTOURING TV PATTERNS

LLOYD O. KRAUSE
Supervisor Antenna and Relay Engineering, General Electric Co.

High-gain antennas for television have assumed a need to insert an adequate signal into so-called "null regions" of every broadcaster's market area. Generally, four factors—average antenna height, antenna location relative to population and terrain, antenna gain, and transmitter power—enter into coverage considerations. Adjusting the antenna vertical plane pattern to provide certain signal levels based on the requirements of these four factors may be defined as pattern contouring.

G-E Installed First High-gain VHF TV Antenna at Louisville, Ky.

The current popularity of high-gain antennas is directly traceable to the success of General Electric's first installation at Louisville, Kentucky, in 1950. As a result, these antennas were produced in quantity to greatly increase availability. Then, too, this initial experiment proved it is economically feasible to achieve increased ERP through higher gain antennas rather than with higher power amplifiers. Today, with broadened application, high-gain antennas are almost universally used for UHF-TV.

Pattern Contouring and Nulls

In general, contouring employs two basic techniques—tilt and null fill-in. The amount of each depends on the particular application. Nulls are fundamental in antenna design. An antenna array is comprised of a prime element having its own pattern, multiplied by the array factor. Nulls will exist where either the array factor becomes zero or where the prime pattern has a null. The array factor resulting from a large vertical aperture produces nulls at high angles, or near the horizontal. These may cause difficulty.

Nulls and Transmitter Power

If antenna gain is increased, pattern nulls move farther away from the station. The same is true when antenna height is increased. Nulls move in proportion to the height. The combination of gain and height increases, which is rapidly becoming common practice today, results in nulls fairly distant from the transmitting site. As this distance becomes greater, unfortunately the effective signal level in the null becomes lower. Transmitter power then becomes an important factor. Higher transmitter power means greater horizontal depth of null which may be tolerated, since the total level of signal is increased.

Terrain effects enter in that the ground may slope away abruptly on one side and be relatively flat on the other. A combination of electrical and mechanical beam tilting may become necessary. In this way, cities on either side may be covered by an adequate signal.

Beam Tilting

Beam tilting as such usually helps solve a high gain coverage problem in the medium distance range. It may also be desirable for maximum range since the horizon is depressed from the horizontal, depending on antenna height. Without beam tilt, the area at a medium distance from the antenna may have large variations in signal. Tiltling a small amount can bring this area up to a high level point on the beam without much variation in average signal.

Simple beam tilting is accomplished by the technique known as progressive phase shift. Uniform phase advance is put in each primary unit of the antenna array from bottom to top. Note, however, that phase shift on a two element array will produce beam tilt but never null fill-in!

Number of Array Elements Important

The amount of pattern control obtainable depends on the number of elements in the array. A certain minimum number exists for effects of phase and amplitude. For example, to produce null fill-in on a 12-bay antenna, by phase shift, the antenna must be broken down to at least three elements of 4 bays each.

Practical Application Contouring G-E 6-Bay Antenna in Brazil

An actual application in Brazil called for a 6-bay antenna but with the principal city lying very close to the transmitting site in the range from 2° to 23° below the horizontal. (See Fig. 1) Simple beam tilting alone could not handle the situation. The only answer was to contour the pattern. For the type of contouring required, phase deviation was found to be the simpler solution. The contoured pattern which was designed for this installation is shown in Fig. 1.

Distant Null Fill-in with 12-Bay Antennas

For most applications of 12-bay antennas, only a small amount of fill-in of the most distant null is required. Ordinarily, a level of 30 db below the noise power is adequate in this null region. A simple solution is 90° phasing of the top or bottom bay of the antenna.

No Mystery in Pattern Shaping

Contouring is not an item over which the broadcaster need be technically concerned. He should be aware of it, however, in order that each installation be reviewed and proper recommendations made. A considerable amount of effort has gone into analyzing basic requirements and designing antennas to meet these requirements. Even so, new and special applications continue to arise and may require different patterns from those offered. By working with a consultant and manufacturer in whom you have complete confidence and applying either standard, standard contoured, or a specially contoured antenna pattern, the best overall coverage is assured for the broadcaster.

EDITOR'S NOTE: Due to space limitations this article has been condensed. It should be remembered that the same general principles and procedures apply also to UHF contouring. For additional information please write: Sections 52-41, General Electric Co., Electronics Park, Syracuse, New York.

VHF 6-BAY CONTOUTED TO COVER PRINCIPAL CITY

By Dr. Frank Black

SHOULD MUSIC BE HEARD AND NOT SEEN?

I THINK that at this point I am entitled to be called a radio veterans, because for 30 summers and 30 winters, man and boy, I've worked in the medium and I happen to love it. When Broadcasting • Telecasting asked me to compare music on radio and television today, I started to look back on some of the changes which have come about since my first broadcast. That was in 1923, on station WOO in Philadelphia, and I presented a piano recital. No one bothered to time the program, and I must have played for about an hour and a half. No one asked for advance program information. I just played what I felt like playing.

A few years later, I was again on the air, this time as the conductor of a 65-man orchestra from the Fox Moving Picture Theatre in Philadelphia. We used to go on the air once a week, from the projection room of the theatre. Our soloists were members of the orchestra and sometimes a singer who happened to be on the theatre's stage show. The announcer ad libbed the musical facts as he went along. Maybe "facts" is the wrong word. Our announcer, for instance, believed that every record we played was composed by Sousa!

The next step was the beginning of the networks, in the middle twenties. The first "network" over which I broadcast consisted of just two stations, WJZ in New York and the General Electric station in Schenectady. Our orchestra, advertised as "the largest orchestra on the air," consisted of only 22 men, but even then their difficulty crowding in to play in the regular broadcast studio. It was around that time that we also started recording programs for future broadcasts, and building up the kind of music library of recorders which is basic equipment for every station today.

Now, a quarter of a century later, I'm still presenting music, as conductor of the CBS Radio Cadillac Choral Symphony. In these years, I would say that we've learned a great deal about putting musical broadcasts on the radio. Now we are presented with similar problems on television. In this new medium, full of creative opportunities, I question whether good music has really been presented as it should be. When one listens to music, one's own imagination should be able to roam freely; each one makes his own interpretation of what the music means to him. Radio allows this freedom; television, with all good intent, too often suggests the meaning, through special background effects and other visual devices. No one likes to have thrust on him what someone else thinks the music suggests; his own conception of the music is what brings the sparkle to his eye, the pleasure to his ear.

Also, I think that we must admit that most musicians are not actors, nor should they try to be, because they are more convincing speaking through their instruments. What they produce is for the ear, not for the eye. It has been customary in musical movies and on television to concentrate the camera on various sections of the orchestra in action. But after all, how many trombone players do you want to see in a closeup, unless you are studying the trombone yourself? The important thing is to hear them.

Which brings us, I think, to the crux of the question: music is not a visual art any more than painting is an audible one. The experience of going to a concert is basically to listen. Thus, to "view" music on television as it is offered at present seems to me a distraction. The emphasis is apt to be on staging, on choreography, on closeups of the players—all taking away from the impact of the sound.

I do think that music can and will be better presented on television. In the early days of moving pictures, when they were experimenting with a new medium that actually showed people in motion, they exaggerated that motion in their zeal, and made the actors move too fast. They've learned better now; they know that slower motion is more realistic, less distracting. In the same way, because TV can produce visual effects with music, the proportion of emphasis at present tends to be 80% visual, 20% aural. Eventually, I believe that television will achieve a more realistic as well as a more artistic proportion, just as the motion pictures did.

I am not trying to make a plea for radio today. It certainly doesn't need any support from me. The people know what they want; and if they wish to hear good music—and I believe they do—they will turn to their radios. Millions of people are doing just that, every week. Radio is a medium complete in itself, with special fields in which it can be particularly effective. Television is a completely different medium; it too has an important, but a different contribution to make. Both should continue to serve the American people.
ONE DAY last year a communication from a station executive passed over the desk of Ed Fitzgerald, timebuyer at J. Walter Thompson Co.

"... I'm not an ABC affiliate but I'd like to carry the Breakfast Club ... I'll gladly pay you $10 for each day we carry it ... Please see if you can arrange it," the station official wrote.

A small-market, midwest outlet wanted to take the show on a "bonus or pay" basis. Still another wished to schedule it with the proviso that the station be permitted to sell spot adjacencies or participations.

Agency, network and advertiser officials connected with the Don McNeill early-morning eye-opener frequently receive such queries, many of them from non-basic ABC affiliates. It seems a commercial as well as a general tribute to the popular Breakfast Club (aired Monday through Friday, 8-9 a.m., on the full ABC network) which celebrates its 20th anniversary June 23.

The program is a number of things—one of network radio's most durable and established institutions, a rousing success story for at least two advertisers (Swift & Co. and Philco Corp.), a heavily merchandised vehicle that has stood the test of time and TV penetration and unquestionably ABC's most valuable commercial daytime radio property.

Perhaps the most persuasive argument for its success through the years lies in the obvious satisfaction of Swift (currently on Mon.-Fri., 8:15-45 a.m.) which boasts 12 years of sponsorship, and Philco (Mon.-Fri., 8:45-9 a.m.) which has picked up the tab for seven. Toni Co. (Tues., Thurs.) and O-Cedar (Mon., Wed., Fri.) share the first quarter hour segment.

Both Swift and Philco are reluctant to quote sales results—indeed, they say it's impossible to break down any sales directly—but evidence of sales pull, listener fan mail, program attendance and consistently high ratings speak for themselves.

The underlying philosophy is simple. A place in Don McNeill's family of advertisers is a valuable piece of network radio property—and a prestige-builder. An advertiser (even Toni and O-Cedar, which have been on a relatively short time) knows he is getting a franchise for the ears of some 10 million weekly listeners tuned to 352 ABC stations (317 U.S., 32 Canadian, 2 Alaskan, 1 Hawaiian) able to reach perhaps 98% of all U.S. radio homes.

The Network
ABC is reluctant to comment on gross revenue for the McNeill stanza—now near the 6,000th broadcast mark—but a conservative estimate would be about $5 million annually for gross facilities alone. Swift reportedly spends about $2.25 million and Philco some $1.5 million for gross facilities each year.

This $5 million is exclusive of talent (sponsors buy it and facilities together). ABC owns the Breakfast Club as a package—not to forget a 20-year pact for McNeill's services through 1970—and its officials are wont to minimize the sum of billings when measured alongside more expensive evening network shows. The fact remains that the program has been a veritable gold mine to ABC since it got its first sponsor (Swift) in 1941.

Don Roberts, manager of ABC's radio network in Chicago, explains it this way:

"Commercially, Don McNeill's reputation with his listeners, the love and respect for him, gives the sponsor's message an impact it could get no place else. After all, you pay off on the score that Swift & Co. has sponsored him for 12 years and Philco for seven. This is direct evidence of the program's selling power."

The Breakfast Club did not come into its own commercially until Feb. 8, 1941, when Swift bought 15 minutes, thrice weekly, on 75 stations—claimed to be the largest daytime commercial hookup at the time. Nine days later Acme Paint picked up a segment. In time the list was extended by other advertisers (Cream of Wheat, 1941-42; Kellogg Co., 1943; Kay Daumit, 1946; Toni Co., 1947; General Mills, 1948; General Foods, 1951).

Basically, save for occasional cast changes, McNeill's Breakfast Club has not changed discernibly through the years, a fact which contrasts sharply with the mushrooming increase of personnel who are intimately connected with the show.

An avowed claimant to the title, "king of corn," Mr. McNeill has acquired a reputation for salesmanship that invites comparison (and contrast) with CBS super-salesman Arthur Godfrey. To listeners Mr. McNeill offers generous helpings of corn, music and sentiment, seasoned with family fun and prayer.

Commercially, the program fans out into...
The people lined up outside the auditorium at left are waiting to get in to see an in-the-flesh production of a radio network phenomenon pictured at right. Now nearing its 20th anniversary, the "Breakfast Club" is an apparently indestructible institution.

baby clubs, contests, premium offers, dealer displays and other gimmicks which Swift and Philco have carefully nurtured to pay off for a variety of products used by the average American family.

These are diligently merchandised, particularly in advance of Mr. McNeill's road trips, which are little short of phenomenal in their drawing power. A ticket to a Breakfast Club broadcast on tour—or even in Chicago's Morrison Hotel, where the program originates locally—is a prized possession.

The tribute to Mr. McNeill's loyal following—and this his commercial success—is that when the program emanates from Chicago, visitors from all over the country flood the network with ticket requests. Ironically, he is considered a stronger draw, and a better commercial property, while on tour. This is because of the role merchandising plays in selling the consumer. His trips also seem to have demonstrated that radio is far from dead if aggressively promoted, especially in TV markets.

That's where merchandising efforts come into full play as Swift and Philco (and to a lesser degree, O-Cedar) pull out all the stops. Executives at Swift & Co. work closely with the principal agency, J. Walter Thompson Co. (Swiftning, Pard dog food, ham and bacon, table ready meats, All-Sweet margarine, peanut butter) and two others—McCann-Erickson (canned meats, Premium chicken) and Needham, Louis & Brorby (cleanser, meats for babies).

Philco works through its own agency, Hutchins Advertising Co.; Toni (Bobbi, White Rain) through Tatham-Laird, and O-Cedar through Turner Advertising Co.

Planning on sales and promotion usually takes place weeks in advance of the McNeill crew invasion.

Advertisers and Agencies

Swift operates on earnings of eight-tenths of a cent per each dollar of sales. (Estimated 1952 sales, $2.6 billion; earnings, $21.6 million.) It reckons its advertising dollar coolly but merchandises lavishly. A road trip usually calls for a round of conferences involving executives from the meat packing firm, the agencies, the network and Don McNeill Enterprises.

Little is left to chance. The proposed itinerary takes into account the type of market, the show's rating in each market, transportation facilities, the strength of Swift products and population. Basis for this planning is J. Walter Thompson Co. report on 162 "Cream Markets," which Swift uses as a bible.

Once Don McNeill Enterprises (set up to handle the star's affairs) sets up the tour, a Swift merchandising man (usually Henry Schumacher) is off for the road. The project may call for a Don McNeill Week in retail stores and groceries and dealer contests for best product displays, best retail ads and overall promotion. (Some 20,000 dealers took part last year.) Kits of materials are distributed. Breakfasts or luncheons are held in various cities.

More than 1,500 communities participated in Don McNeill Weeks last year.

Ray Weber, advertising manager of Swift & Co., told B.T.

"Swift has found over the years that this type of radio show is ideally suited to promote a variety of products. It appeals also to the homemaker who is the principal buyer of our products. Furthermore, the broad coverage of the ABC network ties in well with our national distribution."

Says Ross Littig, account executive at J. Walter Thompson Co.: "Swift has found that radio is a low-cost medium reaching all markets."

Sam Morgan, assistant manager for radio who works on Breakfast Club products, explains Swift's affinity for Mr. McNeill as one of listener loyalty, his appeal to women and the flexibility of demonstrating Swift products. He reported numerous instances where the McNeill personality had drawn customers to food stores during Don McNeill Weeks.

Philco Corp. is no less vigorous in using the show but its methods differ. Saviington Crampton, radio director of Hutchins Advertising Co., pointed out. It's one thing to sell bacon and chicken (repeat items)
and quite another to push a variety of appliances-refrigerators, home freezers, electric ranges, air conditioners, radios, radio-phonographs and television sets. This Philco has been doing with market cut-ins since Sept. 3, 1945—and with gratifying results, particularly for its refrigerator line.

As explained by John F. Gilligan, Philco vice president in charge of advertising:

"we have come to regard Don McNeill as our personal representative in homes all over the country. He is our star salesman. Our experience has shown Breakfast Club to be more than a mere platform for commercials. It's a newy, friendly, get-together of neighbors and acquaintances who develop an almost fraternal loyalty to the Breakfast Club and Philco products."

"The results of every promotion in which we've used (the program) directly, have varied only from 'excellent' to 'spectacular.'

"The years that Philco has sponsored the Breakfast Club have been years of great growth and expansion for the Philco Corp. We feel their contribution has been made (by the program) . . . . "

**Listener Loyalty**

A concrete example of this listener-loyalty was demonstrated last year when fans paid $6 million for over 32,000 Philco products as a requirement for voting for "salesman Don" or "salesman Sam" (Sam Cowling, BC's famed wit).

As another example, one Philco dealer in the Hollywood area ran a Sunday advertisement in a community paper reporting he had Breakfast Club tickets. When he opened his store on a Monday morning 25 women were waiting. Before they left with their tickets, they had purchased two television sets, a refrigerator, a home freezer, several clock radios and two ironers. "What a man, McNeill," remarked the dealer.

Swift and Philco (and O-Cedar and Toni) frequently join hands with stations in a multi-bushed promotion assault when the show is on the road (one month out of every 12). An example is the western trip last Jan. 18-28 which covered 5,685 miles and nine cities (Spokane, Vancouver, Seattle, Portland, San Francisco, Oakland, Pasadena, Los Angeles, and Hollywood), with an estimated live audience of over 29,000 and ticket requests estimated at over 76,000.

In Vancouver, Swift dealers held Don McNeill Week sales, while Philco representatives invited country dealers in to see the show and attend the unveiling of the commercials. ABC reported that only 16% of ticket-holders failed to show.

In Washington, KGA Spokane received more than 6,000 ticket requests as a result of Breakfast Club plugs. KGA joined with Swift and Philco in sponsoring a brunch and cocktail party. KJR Seattle helped move 6,200 tickets on Jan. 20, filling the Civic Auditorium (Don McNeill's inauguration telecast at that time (10 a.m. on the West Coast). Station also donated 31 courtesy announcements. Swift, Philco and Toni entertained 45 contest winners and dealers at a brunch. (It was O-Cedar's day on the show.)

In Portland, KEX used 86 courtesy announcements for the Breakfast Club and received ticket requests to 16,000. Part of the promotion was a Red Cross blood drive, with 500 donors receiving free tickets. The program played to a "standing room only" crowd (3,066). In San Francisco (KGO) capacity crowds also were in evidence. Philco brought a bus load of Korean war veterans to the program. A special tape of the program was done at Swift's request for Fresno.

KECA Los Angeles had requests for more than 30,000 tickets and 98% of the 10,000 which the station distributed were used. Some 53 Don McNeill Week store-wide sales were scheduled.

Speaking of the western tour, Herb Hawkins, an O-Cedar sales representative was obliged to decline invitations to attend various programs and luncheons given for sponsor representatives. "Breakfast Club is doing such a terrific job for us I have to keep traveling. I won't be able to see the shows here."

O-Cedar is one of the happiest sponsors in Don McNeill's family. Speaking for O-Cedar is John Turner, Turner Advertising Agency, which handles the account:

"Results have been good. The Breakfast Club has been a direct route to the housewife. McNeill has a wide appeal— a whole-some appeal. It's a family group of sponsors he might consider to be a part of it."

O-Cedar sold six million mops last year, and attributes the results to aggressive selling and the fact that salesmen continually talk about Mr. McNeill with enthusiasm. It spends roughly $2 million a year in advertising, with the Breakfast Club drawing down perhaps a third (an estimated $750,000 for time and talent). It is satisfied with Mr. McNeill because he is a "salesman" himself and because it can integrate commercials with the program.

O-Cedar doesn't merchandise as extensively as Swift and Philco, but its 150,000 dealers do play a vital role. They are encouraged to build up Mr. McNeill's arrival locally if the cast is to be in town.

As one of the co-holders of the 8:45-15 a.m. segment, O-Cedar is not disturbed by the admission that this is the lowest-rated (roughly 3.3%) portion of the four quarters. Mr. McNeill feels that it is essentially good and cites multi-set listening. The important thing, as he sees it, is "impact" from use of network radio.

"O-Cedar has a substantial investment in McNeill and wouldn't have bought the program unless it was prepared to stay with it," he says.

Toni Co., which is in the process of re-assessing its network properties in the light of new products, also has expressed satisfaction with the McNeill show, though it represents only a small part of its overall radio-TV budget.

Richard Neisen Harris, president of the firm, sums it up in this statement:

"Toni believes in the Breakfast Club as a home selling medium. Don McNeill's format of interviewing women from the audience is an excellent way of presenting testimonial commercials that have been so successful in putting across our products. His sincerity produces a great deal of believability."

Tatham hired Haige to manage the Bobbi account in a four-way agency split last January. It originally had General Mills' Kix, which Mr. McNeill advertised from 1948 to 1951 —and successfully, too, according to Paul Schlesinger, T-L radio-TV manager. Toni, which had stayed with Mr. McNeill for 10 months from September 1947, decided to bring Bobbi back on the market. It bought the first 15 minutes of the Breakfast Club twice a week, to push Bobbi and White Rain shampoo.

There are no sales figures available but Toni figures it reaches about 1.5 million listeners each week. It's estimated that the McNeill show costs about $4,000 per broadcast to reach a selective audience, with allowances for network contiguous rates earned by its use of other shows like Break the Bank. It also likes the turnover audience, which is a major factor in the program's listenership, and network impact.

**The Ratings**

Sponsors of the Breakfast Club, their agencies and network officials are disposed to shrug off the relatively low ratings of a program that has demonstrated its audience and sales pull and received bulges of national magazine and newspaper publicity. They know that the show delivers where it counts—at the cash register.

A Nielsen national rating for January gives Toni-Cedar segment 3.3, the Swift middle section 4.9 and Philco's period 4.7. Hooper city ratings aren't much higher (18 months ago, Hooper city ratings gave the program a range from 4.3 to 6.3. The first quarter hour is traditionally low-rated because of station clearance problems. Officials point out, however, that the Breakfast Club pulls largely in rural areas (with an estimated 27% of its audience) and that national ratings are not indicative of its pulling power. Other considerations which should be taken into account are the multiple-set measurements (still obscure in automobile radios).

Don McNeill Enterprises estimates the daily listening audience at two million (comprised 65% women, 20% children and 15% men), and notes that more than 150,000 people attend Chicago broadcasts each year. The mail pull is just as substantial (100,000 unsolicited letters of praise, another 750,000 for Breakfast Club yearbooks each year).

As toastmaster, Mr. McNeill mushroomed in stature and popularity and became more valuable to ABC. Don McNeill Enterprises was established to handle a multitude of his activities. It works closely, under General Manager Ralph Bergsten and Promotion Director Fred Montiegel, with ABC
KNBC's 50,000 watt non-directional transmitter blankets the great San Francisco-Oakland Metropolitan Market—and all the thriving plus-markets of Northern California. The narrow ellipse represents the coverage pattern of the other two dominant 50,000 watt, directional transmitters. Tiny circle represents Northern California's TV coverage.

make **KNBC** San Francisco northern California's No. 1 advertising medium

Represented by NBC Spot Sales. In the Southern States, by Bomar Lowrance and Associates, Inc., Charlotte, North Carolina and Atlanta, Georgia
and the agencies involved, particularly on road trips.

When Mr. McNeill was given a 20-year contract, he also got a clause inserted that permits him to take the show on the road. Like Mr. McNeill, Don McNeill Enterprises has grown, too, until now it handles a variety of activities (preparation of the yearbooks, Memory Time poem books, and publicity). It also plays a vital role in the road trips. Says Mr. Montiegel:

“The policy of advertisers is not to advertise advertising. But Swift advertises McNeill in its newspaper ads as do local dealers. Don McNeill was also one of the first radio personalities to realize that radio had to be merchandised.” And Mr. McNeill had been in radio through the Red and Blue network regimes. He was hired by NBC in 1933, became the property of the Blue Network in 1942 and changed to ABC in 1944.

The Television Experience

When McNeill signed his 20-year contract in June 1950, Mark Woods, then ABC vice chairman, expressed gratification with the performer and noted that “during the past 17 years he has served to build a firm foundation for our AM daytime programming activities.” The continued affiliation, Mr. Woods observed, also meant the introduction of Mr. McNeill to television.

Network and advertising executives—not to mention Mr. McNeill himself and Philco Corporation—were inclined to write off the performer’s initial TV appearance in September 1950 on the Don McNeill TV Club as “one of those things.” It was not an especially memorable experience. There were divergent views on Mr. McNeill’s lack of success which prompted Philco to cancel him (after one renewal in 1951) within 18 months. The most common lack of format, too much glamor on the show, too much nighttime TV competition, etc. Best guess: Mr. McNeill was out of his element.

It would be premature to write off a personality who has attained a firm grip on the listening habits of millions of early-rising Americans. In fact, there have been discussions under way for months looking toward a possible simulcast series—providing the advertisers fall in line and other problems can be resolved. A pilot film already has been completed. It would not, in any event, be surprising if ABC came off with a simulcast of the 20th anniversary program June 23.

ABC radio affiliates carrying the network’s Breakfast Club have been swamped with ticket requests, and the S.R.O. sign is out in six eastern cities that are playing host to the Don McNeill early-morning program starting May 4.

ABC affiliates have mapped special plans along the itinerary route to honor the McNeill cast on its tour, which winds up in New York May 11-15. Three of the four participating sponsors—Swift & Co., Philco Corp. and O-Cedar Corp.—have arranged luncheons in New York City for the cast May 9, 11 and 14.

About 18,000 seats were made available to Breakfast Club fans in advance of the swing through Detroit (May 4), Cleveland (May 5), Youngstown (May 6), Pittsburgh (May 7) and Rochester (May 8).

ON May 1, 1948, AT&T opened for commercial use 196 miles of television channels, providing network service to 12 TV stations in five cities—New York, Boston, Philadelphia, Washington and Baltimore.

Now, just five years later, the AT&T inter-city TV network comprises 34,000 channel miles of coaxial cable and radio relay connections, bringing “live” network TV shows to more than 130 stations in 87 cities, according to A. F. Jacobson, Long Lines Director of Operations, who said that before the end of 1953 another 13,000 channel miles will have been added.

“To meet the anticipated increased requirements of broadcasters, Bell System people are engaged in an extensive and progressive program designed to expand network facilities,” Mr. Jacobson said. Present plans of AT&T call for construction this year almost double of that of any previous year.

Major milestones in network television since May 1, 1948, were listed by AT&T as follows:

1. The national political conventions were telecast to 18 stations in nine eastern cities (Schenectady, Boston, New Haven, New York, Newark, Philadelphia, Baltimore, Washington, Richmond) in July, 1948.

2. A section of TV facilities was opened in the Midwest in September, 1948. It served seven major cities (Buffalo, Cleveland, Detroit, Toledo, Milwaukee, Chicago, St. Louis) from Buffalo to St. Louis.

3. The east and Midwest networks were linked in January, 1949.

4. Coast-to-coast television was inaugurated in September, 1951, with the opening of a microwave radio-relay system that carried telecasts of the Japanese Peace Treaty Conference.

5. Telecast of political conventions in July of 1952 to 107 stations in 65 cities.

6. In September, 1952, 50 theatres in 30 cities were linked on a closed circuit for the Walcott-Marciano heavyweight title fight. It is estimated that 125,000 persons witnessed the match.

7. First coast-to-coast telecast of election return programs, November, 1952. The Bell System facilities made it possible for these programs to be transmitted “live” to 110 stations in 67 cities.

8. January, 1953, another first—coast-to-coast telecast of the Presidential Inaugural ceremonies. An estimated potential audience of 75,000,000 witnessed historic event, which was transmitted, 118 stations in 74 cities.

9. Also in January, 1953, Bell System network facilities were extended to Toronto, Canada, establishing the first regular video link between the two countries.
ANNOUNCING THE NEW

RAYTHEON 7000MC AUDIO-VIDEO

KTR-100

FOUR COMPACT, HIGHLY PORTABLE UNITS PROVIDE THE ULTIMATE IN SIMPLICITY, UTILITY, DEPENDABILITY AND SERVICEABILITY

Raytheon Microlink provides in almost unbelievably light and compact form complete equipment for multiplex wide band video and high quality audio transmission and reception.

Highly portable yet ideally adapted for permanent installation, it is extremely easy to set up and operate in any location — with installation, control and servicing features never before available.

From unit packaging to IF strips, RF plumbing and audio circuits, the Raytheon Microlink is entirely new. Introduced only after long research and development, it combines the best efforts of Raytheon specialists in every phase of electronics with the advice of television engineers, industry professionals and consulting engineers.

Before you buy microwave equipment for remote pick-up, STL or network interconnection, by all means look into the Raytheon Microlink. You will be richly repaid in economy, operating convenience and reliable performance.

Write for complete information

21 BIG FEATURES you want most in Microwave Equipment

1. Multiplex audio-video — range to 2.5 miles
2. Up to 500 ft. of camera cable may be used between control units and RF heads
3. Cable length compensation by capacity switch
4. Provisions for frequency, modulation and klystron power monitoring
5. Temperature-controlled fused quartz cavity
6. Simplified AFC with improved limiter using same discriminator as video
7. Entire system operates over —30°C, to +50°C ambient temperature range
8. Transmitter klystron voltages regulated for 7000 mc frequency stability
9. Klystrons housed in temperature controlled ovens
10. Only 4 light compact units with all components accessible
11. 2, 4 and 6 ft. dishes available with simplified antenna feed
12. Meter jack in Receiver Control for peaking dish with Simpson meter
13. Vertical or horizontal antenna feed
14. Test switch meter and test points for checking system during operation
15. All caps and covers attached to units
16. Intercom between control units and RF heads
17. 110 volt outlet in completely waterproofed RF heads
18. Standard tubes and circuitry with proven dependability
19. Embodies every technique of simplified, ruggedized, miniaturized design
20. No FM broadcast interference in interconnecting cables
21. Convenient luggage-style aluminum cases with rugged baked finish

BOOKKEEPING

Compared with radio, a TV station is big business. With bigger staffs, more equipment, more expense—and more revenue—TV station management needs up-to-the-minute accounting systems that will keep it thoroughly informed. Walter J. Damm, vice president and general manager of radio and television (WTMJ-AM-TV), The (Milwaukee) Journal Co., is celebrated among broadcasters for his sharp managerial eye. In this article he tells how he keeps it on WTMJ-TV operations.

WHEN the editor of this worthy journal said:

“A lot of broadcasters have run their radio properties without paying serious attention to keeping books. In some cases I know of, accounting systems have been pretty primitive. Because of the larger sums of money involved telecasters are going to have to maintain much tighter accounting systems than radio broadcasters have had to maintain,”

he never spoke truer words.

When this same editor asked me to describe our accounting system I told him I was not an accountant or a bookkeeper. And when the same persuasive individual insisted that notwithstanding I take a crack at explaining our system, I finally agreed with the proviso that I be permitted to explain what we found we needed in the way of facts and figures from the accounting department in order to keep abreast of day-to-day operations, costs and revenues, and then the accountants could figure out the way to set up the books to produce them.

What we, as management of WTMJ-TV, want to know about our operation is not much different from what we have wanted to know all along about our radio and newspaper operations except that some of the account classifications are different. We have never been satisfied with any standard classification of accounts. Whenever it has been deemed desirable, sub-classifications have been added. The biggest bugaboos are the “sundry” accounts which can hide many important expenses that should be analyzed separately.

I will admit that we have not been welcomed with open arms by our accounting department whenever our curiosity for further detailed information has resulted in additional account breakdowns.

Based on our radio experience and five years of television operation here is a list of what we feel we need in the way of information in order to know what our costs consist of and where the money comes from to pay those costs and still leave a profit:

1. Weekly profit and loss estimate.
3. Daily net time service sales divided so as to show announcement and program sales by the national reps and for all business other than that sold by the national reps, the report showing comparisons for the same day of the previous month and the previous year together with accumulated totals for the year.
4. Monthly detail of expenses and revenue by various classifications and comparisons for the previous year and accumulated totals for the year.
5. Monthly summary of time on the air, showing hours of network and non-network, with a breakdown showing commercial, participating and sustaining and with further divisions as to live, kinescope or film.
6. Monthly report showing the percentage of gross network billings received by the station as compensation.
7. Monthly report showing total commercial hours carried from each network with relation to total hours offered by each network.
8. Semi-annual report on per hour cost of transmitter tubes and camera tubes.
9. Monthly report showing earnings of each staff member over and above regular weekly salary and overtime, which earnings are the result of the sale of the staff member’s time to commercial sponsors.
12. Cost of each participating program and revenue produced by each.
13. Percentage of total spot sales at old rate and new rate for each of six months during which old rate is guaranteed following announcement of new rate.
14. Per hour over-all operating cost.
15. Per hour over-all revenue.
16. Monthly net revenue from non-national rep spot sales, and percentage of such sales to total spot sales.
17. Monthly revenue from the sale of national rep spot sales, and percentage of such sales to total spot sales.

To us the weekly profit and loss estimate is one of the most vital parts of our operation. It lets us know how things are going without waiting for monthly and semi-annual statements. It is based on the previous month’s overhead with estimated expendi-
The monthly profit and loss statement is corrected to the actual overhead, expenses and revenues for the current month.

**PROFIT & LOSS STATEMENT**

**REVENUE**
- Time Service (spot sales net after time discount and agency commission)
- Talent Sales
- Sundry
- Network
- Gross Revenue
- Less—Credits & Allowances
- Bonus Discounts
- Net Revenue

**COST**
- Operating Expense
- Selling Expense (Salesmen-Commission-Promotion-Publicity)
- Gen. Administrative Expense
- Pension Contribution

**INCOME BEFORE TAXES**
- Federal Taxes
- State Taxes

**NET INCOME**
- Week's Acc. before Taxes
- Week's Acc. after Taxes
- % Increase or Decrease this week over same week last year

**NET INCOME (WEEK)**

**ACC. BEFORE TAXES**

**ACC. AFTER TAXES**

The daily time service revenue report (lower right) gives us all of the information we need regarding spot sales, where they come from, of what nature they are (whether announcements or programs), how today compares with the same day of last month and the same day of last year by date as well as by day of the week. It also gives us the accumulations for the various classifications since the first of the calendar year.

Several of the other reports are not entirely accounting department reports. They are a combination of records kept by the various station departments and correlated with the figures supplied by the accounting department. Among the most important of these reports are the breakdown of time on the air as between network and local-commercial, participating and sustaining; a report showing the per cent of gross network billing received by the station as compensation; and the report showing the per hour operating cost and per hour average revenue.

The most detailed report of all is the monthly expense and revenue analysis by classifications. It is in this report that we are constantly adding new classifications and it is these classifications which are used in setting up the annual budgets.

A careful study of the classifications of expenses and revenue gives every department head a knowledge of how his department is functioning. The classifications of expense are grouped into General Operating, Sales Administrative, etc. I will admit that at first glance this whole system seems very complicated and burdensome but I know that in our case the value to management fully justifies the work and expense involved.

Of course, all of these statistics wouldn’t mean much if when they are received they were put aside to be looked at at a more convenient time. In our case, as they are received, other work waits until they have been analyzed. For instance, when the monthly analysis of expenses and revenue by classifications is received the writer personally transfers the figures to a set of cards (1 for each classification) which dates back to 1927. The same is true of other data such as the accumulated figures at the end of each month from the Daily Time Service Revenue report. In other words we do not just look at the reports and then file them. Posting to our accumulated cards impresses them upon us far more than just looking at them and gives us an opportunity to make immediate comparisons with the last month, the last year, and even if necessary the past several years. Sure it is a lot of work. I could have my secretary do it for me but, from experience, if that were done we would not know what we do about our operation.

Fingertip control of your broadcast tube inventory

Here’s a program that places vital ordering and inventory information right at your fingertips. With just one glance you can quickly estimate the status of your reserve tube stock.

Here’s all you have to do...

Get in touch with your RCA Tube Distributor. Tell him you would like to take advantage of the free RCA Tube Requirement Analysis Program.

Your RCA Tube Distributor will survey your station equipment, analyze your tube requirements, and prepare a suggested inventory control system for your spare tube stock...tailored specifically to your equipment and your operation. There is no charge or obligation for this service.

RESULT: No shortages. No “overstocks.” Your spare tube inventory will be in correct balance at all times.

RCA’s new Tube Requirement Analysis is available exclusively through your local RCA Tube Distributor. Call or write him today. No charge or obligation.
WINDOW DISPLAY CONTEST
A $10,000 window display contest for RCA Victor dealers from coast to coast was announced last week by Jack M. Williams, advertising and sales promotion manager of the Home Instrument Department, RCA Victor Division of RCA. The contest, which will run from May 15 through June 15, is tied in with the company's promotion of portable radios.

RECORD-MAKING CHEMICAL
MONSANTO Chemical Co.’s advertising took a musical turn recently with the distribution of a recording of two specially composed pieces, combining chemistry and music. The 10-inch 78 rpm record, in a handsome jacket, was sent to a selected list of customers and prospects for products of the company's Organic Chemical Div. Featured on the record is the "ONB Samba," ONB being a flow aid in the manufacture of unbreakable plastic records. On the flip side is the "Monsanto March." Both songs feature the composer, Russ Davie, musical director of KSD-AM-TV St. Louis. Information on ONB and related products, as well as facts about the record, composer and performers are found on the back of the record jacket.

PARE DOWN PROBLEMS
HOLDING a real potato-peeler and telling you how “to pare down Kansas selling problems” is the girl on the cover of a WBWB Topeka, Kan., promotion piece. The colorful orange and black folder gives cost information, addresses of sales representatives and also tells you how to send away for more potato-peelers.

BINAURAL SOUND
RENSSELAER Polytechnic Institute, Troy, N. Y., announced last week that it had conducted a “successful scheduled broadcasting of binaural sound for several months” over WIBW and WRPI, radio stations operated by the institute. RPI said that a series of concerts had been carried every Monday evening since Nov. 3, 1952.

KOREAN ANNIVERSARY
A DOCUMENTARY radio program describing the highlights of the Korean War, in connection with its third anniversary, will be broadcast over NBC on June 21, 8:30-9:30 p.m. EDT. James Fleming will edit and narrate the program, which will be based on actual tape recordings made by NBC during the Korean campaign. The program will be produced by Joseph O. Meyers, manager of the central news desk, and preparation will utilize the facilities of the NBC newsroom.

LIFE IN NEW YORK'
A 13-WEEK television series covering various phases of social and economic conditions in New York is being aired on WNBT (TV) New York as of May 10, 3-3:30 p.m. EDT. Titled Life in New York, the series is prepared by WNBT in conjunction with Life magazine. It examines such areas of New York life as the garment center, Harlem, show business, the “melting pot,” and art and culture centers.

DISTINGUISHED PERSONALITIES
NBC-TV will present Frank Lloyd Wright, noted architect, on a filmed program Sunday, 3:30-4 p.m. EDT, as part of the network's continuing series of filmed conversations with distinguished personalities. The series previously has featured philosopher Bertrand Russell, poet Carl Sandburg and Dr. Louis Finkelstein, theologian.

ON THE SCENE
IN LINE with its technique of presenting human interest dramatizations in the actual production buildings of some of New York’s large industrial organizations, the entire Dark of Night program camera crew and production staff moved into the East Paterson, N. J., plant of Allen B. DuMont Labs. to present an "on location" story in the TV set assembly section. The program, seen Fridays on DuMont, 8:30-9 p.m. EDT, uses no scenery and props, beyond what is "legitimately on the scene."

THE KEYY STORY
KEYY Provo, Utah recently released a promotion booklet entitled "The KEYY Story." The booklet gives statistics showing KEYY to be the second most listened-to station in the greater Provo area, followed by questions and answers illustrating why KEYY "delivers more listeners per dollar in the greater Provo trade area." Following this are statistics on some of the other stations in Provo and the KEYY program schedule.

MARY MARGARET ABRAD
SPECIAL series of five pre-Coronation broadcasts featuring Mary Margaret McBride will be transmitted direct from London and heard on ABC radio at 10:45-11 p.m. EDT May 25-29. The programs will be a series of interviews with guests including British nobility describing traditions of Coronation ceremonies. Miss McBride also will be heard in a special Coronation eve broadcast June 1 in the same time period.

WESTERN WEEK
IN CONNECTION with MBS’ celebration of Western Week May 11-16, several selected short dramas of American Indian stories were broadcast on Friday, May 8 on the network’s Heroes of the West program (Mon.-Fri., 3:45-4 p.m. EDT). The stories are award-winners which were broadcast originally three years ago. Five special programs were broadcast on Heroes of the West, during the week of May 4-8.

YOGI BERRA TO SELL BIKES
THE SHELBY CYCLE Co. announces that it has signed Yogi Berra, slugging star of the New York Yankees, to act as "The Shelby Salesman." The Yankee catcher will lend his endorsement and approval to the Shelby bicycle in a series of TV commercials, especially designed to be shown on children's programs in eight major marketing areas. Shelby dealers will offer free autographed pictures of Mr. Berra as a tie-in promotion. Agency is Fletcher D. Richards Inc., N. Y.

‘COLLECTOR’S ITEM’
A NEW program, Collector’s Item, designed to interpret the happenings of the first half of the Twentieth Century through the arts of the period, began on May 7 on WOI-TV Ames, Iowa. Films taken at Chicago's Museum of Science and Industry, old films from commercial sources, pictures from the Library of Congress and reproductions of famous art works throughout the country are being incorporated into the 13 week series. Each of the 13 programs will be built around a specific collector’s...
WHEN WLWD (TV) Dayton changed from Ch. 5 to Ch. 2 a new slogan was originated: "C'est plus pour vous on Ch. 2," which is being delivered by all the stations' announcers and talent in their best French. The slogan, which is being carried out on billboards, window displays and car cards, will be translated every six weeks into a different language. It will always mean the same, however: "There's more for you on Ch. 2."

POW INTERVIEWS
PHILADELPHIA's first returned prisoner of war from Korea, Corporal Wilbert Warring, was interviewed on WPTZ (TV) Philadelphia's Your Ezzo Reporter news program a few hours after his arrival, reports the station. Corporal Warring, though suffering from injuries, was able to come to the studio, where he expressed his gratitude for being home and talked with news editor Dick McCutchen on the situation in Red prison camps.

INVISIBLE STORY LADY
WHEN Betsy Stelck, the Story Lady of Little Playhouse, WNBW (TV) Washington, had to make a two-day trip out of town, producer Carl Degen was faced with the problem of explaining her absence to young viewers. The problem was solved by making the Story Lady invisible for two days. Miss Stelck's voice was recorded and her magic wand, telephone and other props were attached to thin puppet strings, which were manipulated from 20 feet overhead. The station reports that youngsters at home never suspected that they were looking at the world's largest puppet proge rather than the invisible Story Lady.

CORONATION GUIDE
CBS TELEVISION'S teacher's guide on the forthcoming Coronation broadcasts was praised in a statement to the network by Sir Roger Makins, British ambassador to the U. S. He said that the guide, prepared for CBS-TV by the Citizenship Education Project, Teachers College, Columbia U., will help teachers to introduce and explain the meanings of the Coronation to children in the U. S. and to point up "the origins and traditions of the British and American people."

'INTERSCHOOL FORUM'
A SERIES of four weekly half-hour round table discussions on world affairs, titled The Interschool Forum, being presented over WBRY Waterbury, Conn., on Sundays, 4-4:30 EDT.

Varsity debaters from Taft and Hotchkiss schools opened the series on May 3 with a discussion of the McCarran-Walter Immigration and Nationalization Act. The series, featuring public and private schools in the Waterbury area, is in its fifth year.

NEW NETWORK SERIES
GERALD W. JOHNSON, WAAM (TV) Baltimore, will begin a new series of comment programs for ABC-TV, beginning Sunday, May 31, 8:45 p.m. EDT, originating from WAAM (TV). Mr. Johnson is the current winner of the Alfred duPont Foundation Commentator Award for "pointed, witty and wise analysis and comment." The station reports that it will thus become the only TV station in the nation originating regular programs for two networks.

Mr. Johnson is joining Johns Hopkins Science Review, DuMont, as a WAAM (TV) network production.

Q FOR QUANTUM
ROBERT LEWISES in St. Louis were interviewed by Robert Q. Lewis on disc jockey Curt Ray's program on KMOX St. Louis recently. Of the 22 Lewis namesakes, there wasn't one duplicate Robert Q. However, Robert F. Lewis won two dinners at the Hotel Chase, where Robert Q. is appearing in a night club act, for his winning suggestion as to what the "Q" in Lewis' name stand for. His suggestion was "Quantum" because "as a unit of atomic energy, it represents to science the spark and newness that you have for show business."

AMPEX brings you these cost-saving operating advantages:

- UNINTERRUPTED SERVICE
Under the demand of heavy-duty programming, AMPEX Recorders deliver thousands of hours of unbroken service. Recently a set of AMPEX heads was returned from Honolulu for routine replacement after 11,000 hours continuous use, 17 hours a day. The heads were still within AMPEX specifications for new heads and had several thousand more hours of use remaining.

- MINIMUM "DOWN TIME"
AMPEX Recorders are designed for thousands of hours of continuous operation with minimum down time, resulting in low maintenance costs and protection from sudden broadcast failures.

- ACCURATE TIMING
AMPEX split-second timing accuracy protects your programs and commercials from embarrassing time overlaps.

- HIGHEST FIDELITY
Even when programs are repeatedly transcribed from one tape to another, there is no noticeable buildup of noise level, "wow" or distortion.

- LONG LIFE
AMPEX Recorders are designed and built for years of service dependability. Its recordings match established NABTB standards. When you have an AMPEX, you have a machine built for years-ahead performance.

Services

Lt. Robert Mackall, chief of Radio-TV Div., First Army Information Section, to Public Re-
lations Management Corp., N. Y., as account executive, following release from active mil-
itary duty.

"Stress local programs and personalities"

says Herbert A. Cloasen,
time buyer at
Ruthrauff & Ryan, Inc.
New York

"If I were a station manager preparing an ad giving time buyers the information they needed, I would lay stress on my local programs and personalities.

"I think the best way to do this would be to put the information in log form, giving thumbnail sketches of personalities, up-to-date ratings, merchandising; and who the sponsors are or have been for each program. Basic coverage information might be included for those agencies that do not subscribe to services such as SAM and Nielsen."

8 WAYS a SERVICE-AD in SRDS sells time

1. It helps known prospects recall the gist of the sales story your representatives and your promotion are telling.

2. It helps unknown prospects to decide to call in your representatives.

3. It goes to agency-client conferences.

4. It remains instantly accessible to the SRDS user who is working nights or weekends.

5. It provides fertile material for inclusion in media proposals.

6. It makes possible a good "action" closing for other promotion, directing prospects to SRDS for more information, fast.

7. It keeps your story in the only place you can be certain that everyone who sees it is interested in stations right then.

8. It provides a "first chance" point from which a prospect can get a final "briefing" on your story before he makes his final decision.

Informative Standard Rate Service-Ads such as the one shown here sell time for you because they deliver wanted information - to your prospects at the time they are making station selections.

**SEPARATE REGULATION** PLEA VOICED BY CAB BEFORE PARLIAMENT GROUP

Canadian Broadcasters Assn.'s presentation praises the government's policy change on TV ownership, but contends an independent body should be set up to govern broadcasting.

**REPRESENTATIONS** for a separate broadcasting regulatory body and commendation on the government's change in its television policy to allow privately-owned TV stations, featured the presentation of the Canadian Assn. of Broadcasters before the Parliamentary Radio Committee at Ottawa April 29. CAB, in commending the government on its new TV policy, stated that in addition to the seven private enterprise stations which were recently licensed, 17 more AM stations have applications for TV licenses at Ottawa, eight more intend to apply late this year or early in 1954, another 11 have plans well underway for applications, and 14 will submit applications as soon as more than one station is allowed in any one city.

Questioned about their TV plans in major markets, CAB President F. H. Elphicke, CKWX Vancouver; CAB director Wm. Rea Jr., CKNW New Westminster; and Harry Sedgwick, CFBB Toronto, told members of Parliament how much they planned to put into TV station equipment and operation when granted licenses, and how many live programs they planned to use. They told committee members that expensive live shows could not be telecast consistently by private enterprise. They all stated they were prepared to lose considerable money the first year or two before advertising revenue would begin to pay the operating costs.

Joseph Sedgwick, Toronto, former CAB counsel, pointed to the present Canadian Broadcasting Act, which permits the government's Canadian Broadcasting Corp. to expropriate any private station at a fair depreciated value of its equipment. He stated that this would be most unfair in TV, as private enterprise would not be compensated for the loss of hundreds of thousands of dollars on programming to build audience, and suggested that the law be changed in this connection.

The CAB brief, presented by T. J. Allard, CAB general manager, reviewed the development of broadcasting and Canadian broadcasting legislation to date. He showed that the original broadcasting legislation of 1932 setting up a nationalized service, was still basic, despite the great changes which had been made in broadcasting.

The brief also pointed to other communication services in which the government was represented with an operating organization, such as the airlines and railways. It showed that there were separate regulatory bodies, ruling over both the government and private communication systems.

"The situation we suggest," the CAB brief stated, "visualizes the continued existence of both the CBC and the non-government stations in an atmosphere which would encourage each to continue and improve its respective services to the community. . . . The establishment of an independent regulatory body would provide for better distribution of wealth and would relieve the CBC of the heavy regulatory responsibilities it is forced to assume under existing legislation.

"At present the board of governors of the CBC is called upon to administer a very large, complex and far-flung organization. These duties will grow more arduous as television develops. Left free to concentrate on the provision of a programming service—the job it was originally set up to perform—CBC could do an even better job of providing that specific service. An independent regulatory body would assist the full and free development of the CBC, just as such a body would for broadcasting generally. The independent regulatory body we suggest exists in several similar or parallel situations where a state corporation competes with privately owned businesses."

**WEEKLIES PROTEST** CBC-OWNED OUTLETS

CANADIAN Weekly Newspapers Assn. joined a growing number of organizations urging formation of a regulatory body for broadcasting when it appeared April 30 before the Parliamentary Radio Committee at Ottawa and suggested the Canadian Broadcasting Corp. be stripped down to a regulatory body.

The publishers' brief, unanimously endorsed by the 32 directors, stated there was no reason

CBC should own and operate stations. It compared CBC to the National Film Board, a government film-making organization, and said the BBC had no chain of theatres in which to show its films. The brief was caustic on the role of the CBC as an aid to cultural development. The publishers held there should be no government ownership of a form of mass communication.

Supporting the CBC and against private ownership of radio and TV stations was a Canadian Congress of Labor delegation which appeared before the Parliamentary Radio Committee April 28. Its spokesmen stated that "untrammeled free enterprise (in the radio and TV fields) is bound to give us too little information and too much soap, because soap pays.

The private broadcasters have recently renewed and intensified their offensive against the present national policy on radio and television broadcasting. This makes it imperative for us to reaffirm our support of that policy. . . . Canada has and should have a culture of her own and outside (U. S.) control of radio and television is incompatible with that ideal."

Labor spokesmen said they favored a single nationally owned system, and if necessary, doing away with privately-owned stations.

Labor spokesmen went on record against present CBC management policies on labor, and referred to a specific case in which management was alleged to have interfered with voting on a CIO union as a bargaining agent.

**CBC'S OUIMET SEE S**

**BIG TV GROWTH**

Canadian TV's present $1.5 million commercial income will expand 20 times in the next few years, CBC General Manager Al Ouimet says.

CANADIAN advertisers and agency executives were told a fortnight ago that "the next five or seven years will probably set the basic pattern for future television". In Canada, by Al Ouimet, general manager of the Canadian Broadcasting Corp., at a meeting of the Advertising and Sales Club of Toronto.

"If you predicted "that within a few years you will see it [Canadian commercial TV] grow from its present level of about $1.5 million a year to some 20 times that amount." Mr. Ouimet reviewed development of Canadian TV, claiming a necessity for developing a distinctly Canadian TV programming basis.

Mr. Ouimet reported that the Canadian TV set manufacturing industry now is a $100 million annual business, and that this will double in a few years as more Canadian TV stations begin. He said that with completion of CBC stations at Ottawa, Vancouver, Winnipeg and Halifax, about half the Canadian population will see TV.

With completion next year of the seven independent TV stations now authorized, about two-thirds of Canada's population will be within reach of a Canadian TV station, he said. He estimated that in two or three years many more private stations will be licensed and "will form an integral part of the national television system, carrying CBC programs and their own-originations. This policy brings together public and private resources under a well-coordinated and typically Canadian effort to provide Canadian program service to as many people as possible throughout the country before provision is made for alternate service in the larger centers."
AID TO EDUCATIONAL TV PRaised

First National Conference on Educational TV, sponsored in Washington by J CET-N C E T , lauds broadcasters for their aid to educational TV efforts. Some 50 educational TV outlets by 1955 seen possible by one speaker.

COOPERATION of commercial broadcasters in helping to organize, finance and equip proposed noncommercial TV stations was reported by delegates to the first National Conference on Educational Television, held Monday in Washington.

The reports also showed that in many cities and states educational TV groups are soliciting private money rather than public tax funds in an effort to stay clear of "politics." The conference was told that, according to present progress, there should be at least 50 educational TV stations operating in the U. S. by the end of 1955.

The conference, sponsored by the Joint Committee on Educational Television and the National Citizens Committee for Educational Television, was attended by some 250 representatives of civic, educational, business and governmental organizations from coast to coast.

Held at the Wardman Park Hotel, the dinner session was attended by FCC Chairman Rosel H. Hyde and Comrs. Paul A. Walker, Frieda B. Hennock, E. M. Webster and John C. Doerfer. Also present were Sen. Charles W. Tolvey (R. N. H.), chairman of the Senate Interstate & Foreign Commerce Committee, and committee members Sens. Andrew F. Schoeppe11 (R-Kan.) and John Sherman Cooper (R-Ky.).

FCC to date has granted construction permits for 16 noncommercial, educational TV stations, two expected to begin operation shortly. These are KUHT (TV) Houston, Tex., and KUSC-TV Los Angeles. KUHT (TV) had planned to start last Monday, but was delayed by water in its coaxial transmission line [B+T, May 4, April 20]. There are 10 applications for reserved channels pending.

The Commission also has issued permits to educational institutions for five stations on commercial channels, several to be operated on a commercial basis. Four educational bids pend for commercial channels.

Reports to the conference showed that in 76 cities where channels are reserved, besides those where permits or applications pend, "citizens and educators are active and raising funds." In 51 other cities, citizens and educators are showing "some activity." In the remaining 90 cities, "formal, organized campaigns" are not yet underway.

A number of commercial TV stations are offering educators free time and, in some cases, financial and production assistance to present their programs on the commercial outlet. Reports to the conference also showed many commercial broadcasters are cooperating in helping to establish noncommercial educational stations in their communities.

Larry Walker, vice president and assistant general manager of W BT (TV) Charlotte, N. C., attended the educational TV meeting as chairman of the local educational TV group. He and Jefferson Standard Broadcasting Co., operator of WBT and WBT (TV), were commended for their extensive financial assistance and cooperation.

"As a commercial operator, I think there is a great big need for educational television, so let's have it," Mr. Walker told the conference. KING-TV Seattle has given $182,000 worth of equipment to the educational TV group there.

Substantial donation of equipment, including a mobile unit, has been given by WM BR- TV Jacksonville, Fla., to the educational group in that city.

Crosley Broadcasting Corp., licensee of WLWT (TV) Cincinnati, has granted financial assistance and facilities to the educational group there, which plans to file its application with the FCC soon.

At Miami, WTVJ (TV) has given local educators its present transmitter and tower, to be transferred as soon as WTVJ completes a new installation.

KPIX (TV) San Francisco is "selling" two old studios to the local educational TV group for $40,000, payable over a long period, but before the "sale" the station is spending $32,000 to recondition the facilities, it was reported. Educational spokesmen also said that in a number of other cities (unidentified), commercial broadcasters are offering to share their transmitter site and tower with the proposed educational TV outlets.

Morning meeting of the conference was devoted to a general session on TV equipment, with Arthur Hungerford, engineering consultant to J CET, presiding. Washington consulting engineer George Adair discussed problems of transmitters and sites while consulting engineer Robin Compton outlined studio designs.

George A. Mayoral, TV project engineer for General Electric Co., Syracuse, highlighted the new GE "one-man operation" unveiled the previous week at the NARTB convention at Los Angeles. He indicated the GE transmitter package would be particularly suited to educational TV outlets.

George W. Stoddard, U. of Illinois president and chairman of the newly established Educational Television & Radio Center at Chicago, spoke at a luncheon. Raymond Witcoff, NCET chairman and president of the St. Louis Adult Education Commission, presided at the luncheon.

At the afternoon session, Robert R. Mullen, NCET executive director, introduced premiere of a new film, "New Vision for Television," designed for educational TV promotion before community organizations.

George Overton, Chicago attorney, outlined principles for fund raising on a community-wide scale. Special instruction manual for organizing and conducting such campaigns was distributed. Mr. Overton announced that tax
New York Educ. TV Group Names Karelson President

FRANK E. KARELSON Jr., New York attorney, was elected chairman of the Metropolitan New York coordinating Council for Educational Television last week, succeeding Winthrop Rockefeller, who had served as temporary chairman.

Other officers chosen were Mrs. Katrina McCormick Barnes of the American Civil Liberties Union, vice chairman, and Harold Schiff, educational director of the New York office of the Anti-Defamation League, secretary.

The council announced that it plans a public fund-raising campaign to finance construction and operation of an educational TV station in New York City.

Chicago Educ. TV Groups Set Quota at $275,000

A DRIVE to raise money for an educational TV outlet in Chicago was scheduled to get underway in that city yesterday (Sunday), with a quota of $275,000 reportedly set for corporation contributions.

The goal was recently upped by the Chicago Educational Television Assn., which would operate the station. Ch. 11, from $500,000 to $800,000. The sum covers construction of the station and two years' operation.

The plan to solicit funds from corporations was outlined by Edward Ryerson, chairman of a money-raising unit, at a luncheon in Chica
gost Monday. Fairfax Con
core, president of Foote, Cone & Belding, led talks on sponsor commitment, while George Jennings, radio director of the Chicago Board of Education, is directing community activity.

WHDH Panel Discusses Massachusetts Educ. TV

Panel discussion on prospects of a state- wide network of vhf and uhf educational television stations in Massachusetts was broadcast May 3 over WHDH Boston on the eve of the first national conference on educational television in Washington.

State Sen. Christopher H. Phillips, chairman of the State Legislature's special commission on educational television, claimed that costs would not be prohibitive, asserting that the cost of erecting a TV station "to reach tens of thousands of Massachusetts viewers would be no greater than that for a modern high school building for one community." Linus Travers, vice president and general manager of the Yankee Network, urged proponents of educational TV to give the public and legis
tators the "operational blueprint" of a proposed station, indicating day-to-day cost of operation and programming.

Other panelists were Donald Anderson, Mass
achusetts Dept. of Education; David E. Place, board member of the Massachusetts Citizens' Committee for Educational TV, and state Sen. John E. Powers, who voiced opposition to public support of educational TV.

WCAN-TV Offers Free Time

WCAN-TV Milwaukee, uhf Ch. 25 outlet which expects to begin broadcasting in a few months, last week offered 5 hours in time weekly to the Wisconsin Assn. for Vocational Education. The association plans to construct an educational TV outlet there in the future.

June 26-27: Annual meeting of Florida Assn. of Broadcasters, Miami Beach.

June 28-July 11: TV workshop, Pasadena, Playhouse.
Merchandising Merits

IN RADIO and to a somewhat lesser extent in TV there is a growing trend among stations to provide their advertisers with merchandising services ranging from the simple and inexpensive to the complicated and costly.

The addition of these extras is a natural consequence of the intensifying competition in the media field. Natural or otherwise, the development needs investigation.

All merchandising plans should be examined with a view to determining whether they are legitimate extensions of a station’s effort to help move its customers’ goods and as such fully compensated for in the price charged or whether they are inducements to attract more time sales and are, in effect, rate cuts. Suspicion points to the fact that many plans fall into the latter category.

The near anarchy of the present merchandising situation was described by John M. Outler Jr., general manager of WSB Atlanta, at an NARTB convention panel [B*T, May 4]. Mr. Outler said stations were using merchandising extras to bid for clients against other stations, a devious way of undercutting the competition’s prices. He favored uniform merchandising plans that would eliminate the bidding aspects of current practices.

We go along with Mr. Outlier’s views.

Ignoring for the moment the interesting philosophical question of whether merchandising is really the function of media, we must admit that it has been adopted as such by a great many stations, newspapers and magazines. That being so, this service must be fitted into the business practices—and the published rates and fees—of those radio and TV stations that provide it.

The best way to introduce uniformity into any kind of business practice is first to find out just what form the practice takes among the various enterprises using it. As reported elsewhere in this issue, Kenyon & Eckhardt has undertaken a basic exploration of the merchandising practices of radio and TV.

Results of the Kenyon & Eckhardt survey will be published by Broadcasting & Telecasting. They ought to constitute a base point from which some kind of standardization may be undertaken.

Sweet and Lower

SETTLEMENT of the more than 10-year-old dispute between radio broadcasters and ASCAP over co-ops programs is more than a victory of one side over the other. It is a victory of calm consideration over stubborn facts. It is an outstanding example ofreason triumphing where table-thumping oratory had notably failed. It is the best possible omen that could be asked for an equally happy outcome of negotiations now underway between TV broadcasters and ASCAP for a renewal of blanket licenses. It might indicate the chance of settling the per-program TV license problem.

Certainly, there has been rearing vexatious problems than that of determining whether network co-op programs are network or local programs and, to get to the important part of it, whether they should pay ASCAP 2 3/4% or 2 1/4% for the right to use the music of ASCAP members. ASCAP contended that these programs are produced by the networks and broadcast over the networks. The broadcasters maintained that while those contentions may be true, the dispute was essentially one of economics, over the percentage of sales, and since all co-op sales are made by individual stations on the local level any revenue from these sales must necessarily be calculated on the same local level.

The broadcasters’ view won and its acceptance by ASCAP after all the years of argument is in part another tribute to BMI and to the competitive situation in the music licensing field created by BMI, the best possible insurance against a return of the erstwhile ASCAP monopoly. But the settlement of the long-pending dispute is a demonstration of the patient determination of those involved, Joseph A. McDonald, NBC treasurer and a leading legal expert on broadcast matters, and Herman Finkelstein, general attorney of ASCAP—that the issue was a straight business proposition of buying and selling and was therefore subject to a straight business solution without recourse to boycotts or to legal action. The prompt acceptance of the McDonald-Finkelstein agreement by the broadcasters as well as NARTB indicates a new spirit of tolerant understanding that augurs well for future music purchases of radio and TV broadcasters.

Not Miracles, But Action

MIRACLES should not be expected overnight, now that the FCC is under Republican control. It’s going to take time to get the right men in the important jobs. Until that is done, there probably won’t be any significant changes in the FCC’s methods, because the Commissioners are and have been, to a great degree, dependent upon staff-level work.

A new General Counsel soon will be named. The secretary’s office will be restaffed, and the Broadcast Bureau, which has exerted almost alarming influence, is due for an overhauling.

Chairman Hyde and his colleagues realize the Commission has to act swiftly. Congress is interested in seeing the TV hearing bottleneck broken. They want service in “white areas” and they want competition in the one-station big cities. Next Monday’s hearing before the Senate Commerce Committee is obviously a pressure session to get the FCC moving.

Confusing the whole issue has been the tub-thumping of the organized educators, battling an imaginary June 2 cut-off date on non-commercial educational reservations. They have been knocking down straw-men to arouse support and entice new money from the foundations. Last week they hit a new high at a so-called First National Conference on Educational Television, using Ford Foundation funds to throw the party as a national sounding board.

Madame Comr. Frieda B. Hennock triggered the educational-TV campaign. Former Chairman Paul A. Walker, who retires next June 30 as an FCC member, got into the act. Both have been hitting the hustings drumming up support—a strange activity for impartial public servants.

In Milwaukee, one of the one-station markets, there has been a hot campaign to preserve vhf Ch. 10 for non-commercial educational use. Before the freeze it was earmarked commercial. A vocational school is the only applicant against WISN, which originally sought the channel, and then was caught in the freeze.

Matt E. Connor, who heads the Matte Engineering Co. of Milwaukee, wrote Rep. Charles J. Kersten (R. Wis.) a fortnight ago that “a well organized, carefully planned and deliberately carried out pressure campaign” had been instituted against commercial use of Ch. 10. He named the two FCC members and asked the Congressman to “make every effort to curtail the peculiar activities of these FCC board members . . . . We don't want a Socialist monster in our Community,” he wrote.

The educational storm will blow itself out, we predict, after that imaginary June 2 deadline. Then the FCC must deal with this question as its rules prescribe—on a case-to-case basis.

And by then, the FCC must come to grips with its processing problem. Congress and the public won’t stand by indefinitely with monopoly situations existing in many major markets, and with no service at all in others.
IT'S EASY TO PICK A WINNER

IN THE HEART OF AMERICA!

IF YOU are among the many wise advertisers who "ride" under the colors of The KMBC-KFRM Team in the great Kansas City Primary Trade Area, your chances of being "on the nose" any hour of any weekday are 52 to 19. What's more, if you're not among the 52 firsts, you can be sure of "place" money, because The KMBC-KFRM Team just isn't running to "show"!

IT'S A FACT! According to the latest Kansas City Pulse survey (January-February, 1953), from 6:00 A.M. to Midnight, Monday through Friday, KMBC programs rate first in 52 of the quarter hours and second in 19—and NOT ONE SINGLE KMBC PROGRAM RATES BELOW SECOND IN LISTENERSHIP!

JUST AS IMPORTANT is the fact that of the top ten daytime programs listed, FOUR are locally-produced KMBC features!

Yes, indeed, it's easy to pick the winner in the Heart of America, but you owe it to yourself to get the complete story. Write, wire or phone KMBC-KFRM, Kansas City, Missouri, or your nearest Free & Peters colonel for

THE TICKET THAT WILL GET YOU BOTH WIN AND PLACE MONEY FOR YOUR PRODUCT OR SERVICE!

The KMBC-KFRM Team

CBS RADIO FOR THE HEART OF AMERICA

OWNED AND OPERATED BY MIDLAND BROADCASTING COMPANY
Club WHB NEIGHBORIN' TIME

A daily feature on WHB since July 12, 1931. Bruce Grant is the "Timekeeper," and sales man extraordinary! At 7 a.m. Charles Gray presents a 15-minute news report, and at 8 a.m., a 10-minute news summary. The Weatherman-in-Person is heard at 8:10 a.m. At 8:15 a.m. Reuben Corbin gives housewives a report on the fruit and vegetable market. Available: participating spots, "live" or transcription minutes. Ask your John Blair Man.

WHB MUSICAL CLOCK

You can reach the family audience with Kansas City's original Musical Clock program, on WHB Mondays through Saturdays 6:30 a.m. to 9 a.m. 2½ hours of tuneful wake-up music: the correct time and temperature announcement every five minutes...and a five-state and local weather forecast.

WHB NIGHT CLUB OF THE AIR

Mondays through Fridays, 11 p.m. to 1 a.m., with Roch Ulmer as disc jockey! Request tunes by telegram—ask for the radioclip of popular Roch Ulmer.

K. C. "BLUES" BASEBALL - PLAY-BY-PLAY

BY LARRY RAY - 154 NIGHT AND DAY GAMES

For the fourth consecutive season, WHB exclusively broadcasts all games, at home and away, played by the New York Yankees. No farm team: the K.C. Blues. Day games are played Saturday and Sunday, and an twelve mid-week days during the season. One hundred and one games are at night. Multi-ethnic and Kroyen Beer. For the fourth straight year, sponsor the play-by-play. Ask John Blair for minute spot availabilities before and after the games, and for Larry Ray's 5-minute "Scoreboard" immediately following each game; presenting scenes from both major leagues and the American Association, sponsored by your product.

DO YOU READ IT?

A news, 101-page pocket-size magazine published by WHB six times a week, with features on marketing, advertising and research. Ask for a copy on our television field.
