As the Song Might Have Been Written:

"We KNEW they were comin'
So we baked a cake"

The WLS National Barn Dance celebrated its 30th Anniversary on April 24, 1954. In spite of pouring rain, the Eighth Street Theatre where the program is presented each Saturday night to a paying audience (90 cents for adults - 45 cents for children) was again filled to capacity.

That is most gratifying—but not surprising. Such attendance is an every Saturday occurrence. Since the program was moved to the theatre stage in 1932 more than 2,360,000 people have paid to see the broadcast.

But popular as is the National Barn Dance, it is only one of the features that have made WLS a part of Midwest life for all its 30 years. Its programs entertain and inform—yes, but they also aid, advise, comfort. Its constant dedication to the interests of every home and every community has made WLS more than a radio station—it's made it a part of the lives—in the homes of these friendly, prosperous and responsive Midwest people. Ask us to tell you more.

Now Full Time... with Listener Loyalty that assures TOP RETURNS from Your Advertising Dollar

WDEL-TV screen-to-store plan gives your sales message a follow-through that really pays off!

When you advertise on WDEL-TV, your product is seen again and again by people who spend over one billion dollars a year in the retail market. And your product is displayed dramatically, prominently in 178 R.G.E. stores—the largest retail grocery chain in the area! It's a terrific new television-station-and-retail-store tieup that assures results—that gives your advertising dollar great new value. Be first to seize this opportunity. Write or phone for availabilities on WDEL-TV, the television station that has a standing reputation for successful selling.
BULOVA Watch Co., entering radio set making field with line of clock sets and portables, is readying advertising campaign—through its long-time agency, Biow Co.—which is expected to be patterned after Bulova watch advertising. Bulova created and is major user of radio-tv time signal spots.

WHETHER there will be rapprochement between NARTB and newly-formed Television Advertising Bureau may be determined at NARTB Board meetings in Washington week of June 21. Although TVAB made notable start at NARTB convention, preclusion of networks, plus attitude of NARTB executives and tv board members, had caused discord. Effort to reconcile differences planned by members of tv board who also are identified with TVAB. Meanwhile, quest for top agency figure to head independent group continues.

HERES WAY current situation on FCC is sized up with nomination to full seven-year term of John C. Doerfer: If Wisconsin Republican gets by Senate Interstate Commerce Committee without undue acrimony, he'll likely be named chairman by President Eisenhower following Senate confirmation. If, on other hand, there's spirited opposition, may way be found to bring newcomer to FCC, probably George C. McConaughy of Hillsboro, Ohio, chairman of Renegotiation Board since last November and an Ike favorite.

ANY NOTION that Rosel H. Hyde will resign from FCC if he isn't continued as chairman can be dispelled. He will carry on as commissioner for indefinite future. His term as commissioner runs until June 30, 1959.

UNBOUNDED optimism displayed by Senate Communications attaches following report Wednesday that Sen. Johnson (D-Colo.) had prevailed upon Finance Committee to consider anew previously rejected proposal to eliminate 10% excise tax on all-band receivers and uhf converters as means of encouraging uhf set circulation. All concerned contend it would give uhf first concrete relief since its troubles began.

CBS LICENSE from SESAC, covering both CBS radio and tv networks and odo radio and tv stations, expired May 31 and has not been renewed. Understood that while negotiations were carried on right up to the expiration date and that meetings have been held since, network executives feel SESAC terms are unrealistic. No comment forthcoming from CBS, however, and SESAC says only that negotiations are continuing.

SPELULATION on vhf broadcasters' position before Sen. Potter's subcommittee this week has ranged field, but best bet is salient contention will be that early vhfers spent more money in construction and facilities and on program and set circulation building—and suffered heavier losses over longer period—than any of uhf telecasters. Also to be emphasized is short-span of complaining uhf stations vs. period of years before early vhf stations crossed over from red to black ink.

ONE SUGGESTION which may be formally advanced to Potter Communications Subcommittee on solution of uhf problem is redefinition of standard for uhf, to give it higher quality than vhf. This would be accomplished through wider channels (they're all now 6 mc); greater definition via more lines per picture, which would add up to sharper, clearer image approaching "high fidelity" in tv, both black and white and color.

BECAUSE of widespread publicity being given Edward Lamb case (Drew Pearson fortnight ago; The Nation last week) FCC may shift its stance on July 28 hearing to determine whether he's qualified as licensee of WICU (TV) Erie (and WTOD Toledo, WHD Orlando, WIKK Erie and WPWM Toledo, OH) and permittee of WMAC-TV Massillon, Ohio. FCC tentatively had decided on pro forma hearing before an examiner but now there's talk of en banc proceeding before full Commission.

THERES ALWAYS something new under regulatory sun: FCC Chairman Hyde last Friday cooled his heels almost all day in U. S. District Court for D. C. on futile stay order petition of Edward Lamb to prevent FCC from going ahead with hearing on Lamb station license renewals on ground that burden of proof should be on FCC and not on licensee Lamb. Mr. Hyde was never called to stand. (See story page 9.)

IT MAY BE an all-broadcaster battle for Arizona's governorship in November. Incumbent Republican Howard Pyle, on leave as vice president and program director of KTAR Phoenix and associated stations, is running again. His opponent may be former Senator and minority leader, Ernest W. McFarland, cp holder for ch. 3 in Phoenix, who last week entered Democratic primaries and is expected to emerge with nomination.

YOU TOO CAN BE SUCCESSFUL!

By Willing D. Buckpassre
Vice President and Executive Boutoniere Waterer,
Dancer, Prancer and Boxtop Agency

It seems but yesterday I was a Two Martini Man with the 117th Battalion, Assistant Radio Research Division of the agency... then came my chance for success!

While running through the Radio (Midcontinent) File one day I over reached myself and fell in... and some snook closed the drawer! It was three weeks before I was released from my strange prison—during which time I had the opportunity to thoroughly digest the file material.

Naturally, my secret knowledge (gained when I finally had time to get my teeth into the subject), that Omaha, New Orleans and Kansas City were juicy markets... served as a stairway to success for me!

Of course everyone knows there's only one choice time buy in each of these areas: WTIX, New Orleans, WHB, Kansas City; and KOWH, Omaha. I headlined them on each media list, and success was mine! By popular client acclaim, I reached my present eminence!

The moral? It pays to get right in and learn your facts!

**NEARLY HOME**

**CBS Radio officials elated with first results of none-count of affidavits on proposal to reduce nighttime rates by average of 15-20%. Six days after affiliation contract amendments were mailed out to stations, and since noon from June 18 deadline (B, T, July 7), officials counted up Friday and reported acceptances from 122 stations, 78% of network rate card. Necessary: 85%.**

**Gittingson, Clipp Named TVAB Committee Heads**

**NORMAN GITTLISON, W-IAR-TV Providence, and Roger W. Clipp, WFIL-TV Philadelphia, have been made members of new committees of Televising Advertising Bureau—membership and executive selection, respectively—Richard A. Moore, KTTV (TV) Los Angeles, TVAB temporary chairman, announced today (Monday).**

Full membership in TVAB is essential before election of permanent chairman and board, Mr. Moore said, so that these men may have industry-wide approval. Membership committee will have 20 members, he said, with 14 already named. They are, in addition to Chairman Gittingson: Don Davis, WBH-TV Kansas City; Frank Fogarty, WOW-TV Omaha; Walter Wagstaff, KIDO-TV Boise; Henry Johnston, WBTN-TV Cincinnati; Edwin K. Wheeler, WWJ-TV Detroit; Howard Lane, KOIN-TV Portland, Ore.; Richard Rawls, KPHO-TV Phoenix; Colin Selph, KEYT (TV) Santa Barbara; James Woodruff, WRBL-TV Columbus, Ohio; Paul Adanti, WHEN-TV Syracuse; William Rines, WCSH-TV Portland, Me.; Don Searle, KOA-TV Denver; Vernon Nolte, WHIZ-TV Zanesville; Robert Burrow, WDDN-TV Danville, Ill.

Executive selection committee, whose job is to screen key personnel for carrying on bureau functions and to make recommendations to board of directors following its election, consists, in addition to Chairman Clipp, Charles Crutchfield, WBTY (TV) New Bedford, Mass.; Tom Harker, Storer Broadcasting Co. (TVAB treasurer); William Quartin, WMT-TV Cedar Rapids; L. H. Rogers II, WSAZ-TV Huntington.

**ALL FOR MOM**

**TWELVE Mutual programs are coming to rescue of housewives from June 21 to July 3 with campaign to get papa and the children to pick in and give mama a respite from cooking and dish-washing. For third successive year, Mutual is launching its 'Look, Mom, It's a Picnic' crusade, under which 12 shows will stress that mom should be relieved of all householld burdens during Fourth of July weekend. Programs participating in co-mom propaganda will be Adventures of the Falcon, Under Arrest, Mickey Spillane, High Adventure, Squad Room, Nightman, Official Detective, Crime Fighters, Countercracy, Take a Number, Shadow and Nick Carter, Master Detective.**

**BUSINESS BRIEFLY**

**VIM TO SSS&C • Lever Brothers, N. Y., names Sullivan, Stauffer, Colwell & Bayles, N. Y., to handle advertising for Vim, low-sudsing detergent washer. SCCA also handles Lever's Lifebuoy and Silver Dust accounts.**

**COLGATE NAMES L & N • Colgate-Palmolive Co. appoints Lemen & Newell, N. Y., to handle its Colgate Instant Barber Shave. Product will be introduced late this month on firm's Strike It Rich program.**

**STARCH FOR BREAKFAST • A. E. Staley Co., Decatur, Ill. (Sta-Flo liquid starch), buys for 52 weeks Breakfast Club on ABC-TV, Tues.-Thurs., 8:30-8:45 a.m. CDT segment, starting July 27. Agency: Ruthrauff & Ryan, Chicago.**

**'JUSTICE' RENEWED • Borden Co., N. Y., renews sponsorship of Justice, Thursdays, 8:30-9 p.m. to Sept. 30 on NBC-TV. Agency is Young & Rubicam, N. Y.**

**CROXLEY SPOTS • Croxley Tv Sets, Cincinnati (Super-V tv set), placing spot announcement campaign for two weeks in 15 major television markets, effective today (Mon.), using night identifications and 20-second spots. BBDO, N. Y. is agency.**

**BEER IN GREAT LAKES • Falstaff Brewing Corp., St. Louis, planning to sponsor five-minute radio sports program in Great Lakes area, starting about 30 stations, to start some time in July.**

**GUM IN JULY • American Chicle Co., N. Y. (Dentyne), planning radio spot announcement campaign, effective July 1 for 26 weeks in number of markets.**

**NBC Meet Date Up for Vote**

**BALLOTTING among NBC Radio affiliates on preferable date for affiliates convention was reported neck-and-neck Friday, with returns at time showing 43 affiliates favoring end-of-June conclave, 42 for August meeting, one for “either” and one for “neither.” Chicago is scheduled site. If meeting is in August it probably will be Aug. 30, one day ahead of meeting there of NBC-TV affiliates. Robert D. Swezy, WDSU New Orleans, chairman of radio affiliates committee, and Harold Essex, WSJS Winston-Salem, committee secretary, expected to reach decision on basis of vote-count late today (Mon.).**

**RCA Starts Big Campaign**

**RCA Victor is conducting largest advertising campaign in its history for new television receiver, radio and phonograph lizes, Jack M. Williams, advertising and sales promotion manager of these product divisions, announced Friday. Network radio and tv, 21 national magazines, 200 newspapers in tv markets, and Sunday supplements will be used. Ty and radio campaign will start July 12 on Dennis Day show on NBC-TV. In radio, round-the-clock saturation type of network radio programs will be used including One Man's Family and Fibber McGee plus four other NBC programs covering morning, afternoon and evening time.**

---

**Toni-Gillette Step Up Network Radio-Tv Buys**

**TONI Co., division of Gillette Co., signs to sponsor People Are Funny simulcast, making total of six radio and four tv shows to be sponsored on NBC-TV and NBC Radio by Toni and Gillette. People will be on NBC-TV Sun., Tues., July 7:30 p.m. starting Sept. 19, and on NBC Radio Tues., 8:30-10 p.m., starting Oct. 5.**

**Second (Sun.,) company D. Roosevelt.**

**Shark of letters with**

**Stella Dallas (Tues. and Thurs., 4:15-10:45 p.m.) effective in August: Young Widder Brown (Tues. and Thurs., 4:30-45 p.m); One Man's Family (Mon. and Thurs., 7:45-8 p.m.) effective September. Another program to be selected will be heard Wed. and Fri., 8:15-10:30 p.m. starting in September. Agencies for Toni and Gillette are: Leo Burnett Co., Weitz & Geller, and Tatham-Laird, all Chicago, and Spitzer & Mills Ltd., Toronto, and Mazon Inc., N. Y.**

**FCC to Get Complaint**

**ON Facts Forum-MBS Pact**

**COMPLAINT against MBS agreement with Facts Forum to produce second public affairs program, Mutual Television, along with State of the Nation, will be filed with FCC by National Issues Committee, according to Don Pryor, executive director. Continuing exchange of letters with Herbert C. Rice, MBS program vice president, Mr. Pryor charged that “expanding influence of extremist organizations and their increasing success in neutralizing all moderate views is of very grave concern.**

NIC is described as non-partisan, non-profit educational association headed by Mrs. Franklin D. Roosevelt. It was formed to stimulate public interest in national and international issues; publishes monthly Washington bulletin, and is developing radio and tv programs.

**Commenting on letter received from Mr. Pryor, Mr. Rice said it Mutual's credo that network has obligation to present fair and impartial commentary on significant developments in public affairs. He added that Mutual would be “happy” to consider program to be created by NIC similar in length and format to Facts Forum shows.**

**Tv Structure Encourages Monopolies, DuMont Charges**

**UNLESS Congress passes corrective tv legislation, DuMont's new $5 million Telecentre in New York will never perform public role envisioned when plant was begun three years ago, Dr. Allen B. DuMont told members of Congress. “Charter itself is not yet signed,” the inventor-entrepreneur went on over the weekend.**

**Attacking present practices in tv, Dr. DuMont said, "Under present conditions, however, brought about by the ill-advised use of the radio spectrum, monopolies in television broadcasting and the distribution of the products of industry are being developed.**
THE VIEW IS JUST WONDERFUL!

Typical of diversified industry in WSAZ-TV's broad area, here is Du Pont's plant at Belle, W. Va., employing 4,000 workers in the making of many chemical products. Payrolls are about $20,000,000 a year; annual purchases of materials and services run to nearly $6,000,000 in the Kanawha Valley, more than $13,000,000 in West Virginia as a whole.

You'll find a lot of attractive scenery here in the industrial heart of America. But it's made up of much more than natural wonders alone. Few markets in the nation can spread such a panorama of expanding industry before the eyes of eager advertisers.

Today, from the tip of WSAZ-TV's lofty tower, you can send your sales message ranging across a prosperous region of 116 counties. Here live close to half-a-million TV families, many of whom count exclusively on WSAZ-TV for television pleasure. For their livelihood, they count on some of America's biggest, busiest plants where production of goods (and plump payrolls) continues at an accelerating pace.

WSAZ-TV's viewers shared heavily in the nearly four billion dollars of buying power earned in these 116 counties during 1953. Retail sales hit a record of almost two-and-a-half billion. Prosperity in 1954 shows no abatement.

Like this great market itself, WSAZ-TV's popularity also keeps growing. This warm welcome in so many high-income homes (with so much extra money to spend) is being shared profitably by advertisers who recognize WSAZ-TV's persuasive sales power. The outlook for you—and what you sell—is wonderful, too. Get the facts from The Katz Agency. They can lead to happy changes in sales curves!
Lamb Denied Injunction Against FCC; Will Appeal

PRELIMINARY injunction to halt FCC's July 28 hearing on license renewal of Edward Lamb's WICU (TV) Erie, Pa., denied Friday by U. S. District Court Judge Edward A. Tamm. Judge granted FCC motion to dismiss Lamb complaint because broadcaster-information publisher has not exhausted its administrative relief before FCC (BFT, June 7).

Lamb counsel after court action said appeal would be taken early this week to U. S. Court of Appeals for D. C. or directly to Supreme Court. He referred to WICU renewal case which is under attack as unconstitutional because it places burden upon Mr. Lamb to prove he did not falsely inform FCC he never had Communist associations.

Lamb motion was argued by Russell Morton Brown, law associate of former U. S. Attorney General J. Howard McGrath, Lamb counsel and executive vice president of Lamb Enterprises, while was presented by General Counsel Warren Baker and Assistant U. S. Attorney Oliver Gasch.

Court denied Mr. Lamb right to relate conversations with Commissioners about hearing delinquency, allowed Lamb counsel to summarize what he would have testified. Mr. Brown said Mr. Lamb was told by Chairman Hyde and others that FCC has no new evidence but is powerless to halt renewed investigation because Comr. John C. Doerfer is "key to the problem."

Mr. Brown said Mr. Lamb talked with Comr. Doerfer and told him he once was Republican but now is a Democrat, to which Comr. Doerfer reportedly replied as Mr. Lamb left, "It would be better if you were still a Republican."

Asked by counsel if he had received offer to purchase WICU, Mr. Lamb said unnamed station broker made offer, but he told broker he was not interested to sell until his qualifications were cleared. Mr. Lamb said broker answered, "That has been taken care of. We will guarantee it. Questioned if he did sell, Mr. Lamb said, "of course, if you cannot find an ideal buyer for the Commission."

Milwaukee Merger Gears Ch. 12

FCC Friday finalized grant of ch. 12 Milwaukee to merged Milwaukee and Telecasting Corp. at same time again turned down application of ch. 21 WCBY-TV in same city for move to ch. 12 (BFT, May 31). Comr. Frieda B. Hennock dissented.

Commission said grant to Milwaukee area group (Milwaukee Area, WFOX and WEBM, 30% each; Keloier Teleasting, 10% correctly followed procedures, maintaining application in hearing status even after WCBY-TV application was filed after hearing had begun, and also violated order to cease using station from filing application for new facility without surrendering its existing grant. In response to WCBY-TV application, FCC accepted KSTM-TV St. Louis application for ch. 11 in that city, even while operating on ch. 36, FCC said KSTM-T 11 application was filed in time.

FCC Denies Protests to Tulsa Grant

SINCE Grant of ch. 6 Milwaukee, Okla., to Tulsa Broadcasting Co. (KTUL Tulsa) last April was left undisturbed, hearing requests under Sec. 309(c) are invalid, FCC said Friday in denying objections to relaxation of ch. 19 (KAFT and KATV, all Tulsa, BFT, May 18).

Grant of ch. 6 was protested by others, but changed hearing procedures. Protestant counsel said having protest was improper, in fact that Milwaukee么 grant was being promoted as Tulsa-Milwaukee station that overlapped existed between Muskogee permittee and KFWY (TV) Oklahoma City, 95% owned by John H. Keaton and family, owners of

NO REL OPERATORS

AMATEUR and commercial radio operators are no longer operators if they aren't Communists and that they are not members of any organization advocating overthrow of Government by force or violence.

FCC Friday issued proposed rules, applying to "hams" and commercial operators, which would make ineligible for licenses any member of Communist Party or any organization which has been required to register as a Communist-action or Communist-front organization under 1930 Internal Security Act.

Tulsa Broadcasting Co. and that same interests also own WICU of Tulsa, KOIMA Oklahoma City and KPFW Fort Smith, Ark. and that this constitutes undue concentration of control.

Comr. Sterling M. Hennock dissented to FCC ruling, said hearing status of Tulsa Broadcasting Co. was held legal, since grant was made on no evidence compiled in hearing. Comr. George E. Sterling just not participate in decision.

FCC Disputes Property Rights Claims

FCC LICITANTS have no property rights in their cases, and cites a number of examples for the Commission to make use of. FCC, told U. S. Court of Appeals in Washington Friday in opposing petition for accounting and imputing of profits of WHFC-TV and WVTV-RT Rochester, N. Y. filed earlier this month by Gordon Brown, WSAY Rochester (BFT, June 1). At the same time, court scheduled oral argument on request for June 17. Mr. Brown asked court to order hearing, which permits both stations to share ch. 10. on ground that he had no notice of Commission action denied his application without hearing.

Unf WJTN-TV Returns Permit

PERMIT ch. 58 WJTN-TV Jamestown, N. Y. returned to FCC for deletion because network affiliation is not available and network's programs already are in area from Buffalo and Erie stations.

FCC Renews TV Licensitng

LICENSES of tv stations renewed by FCC Friday on regular basis with issue of licenses to cover construction permits of WBZ-TV Boston and KGO-TV San Francisco. Review of license bidding was set aside by Commission for more time to be spent in handling of new tv station bids.

Three Initial Grants

THREE Initial grants to new stations to be made by FCC Friday, ch. 13 at Jefferson City, Mo., to Jeffersontown, Ky., ch. 9 at Minneapolis to KEYD there, and ch. 3 at Phoenix to Arizona Educational Media at the heart of ex-Rep. Ernest W. McFarland (BFT, May 31, June 7).

Oral Arguments Scheddled

FOLLOWING initial tv decisions scheduled Friday for oral argument on dates shown: June 28

UPCOMING

June 14-16: National Community Ty Assn., Hotel Park Sheraton, New York.

June 15: Senate Communications Sub-committee resumes hearing on omnibus bill.

June 16: Assn. of National Advertisers, midwestern regional meeting, Hotel Knickerbocker, Chicago.

June 17-18: Radio-Television Broadcasters, Ocean City, Md.

June 17-19: Maine Assn. of Radio-TV Broadcasters, Poland Spring House, Poland.

June 19: Florida Assn. of Broadcasters, Biltmore Terrace, Miami Beach.

For other Upcomings see page 125.

PROVING ECONOMIC INJURY: Key to KOA-KOAT Case

HOW specific must protest be in claiming economic injury in order to have standing before courts?

That was rub of argument Friday before U. S. Court of Appeals in Washington on request of KOA Denver for stay order against FCC grant early this year to KOAT Albuquerque, N. M., to change dipole to ch. 7 and hike power from 250 kw to 1 kw, 500 kw.

KOAT protested grant, claiming that loss of New Mexico audience would cause it to lose advertisers. Commission, claim loss was less than 2% of Denver clear channel station's total listeners, denied protest on ground no serious, specific economic injury shown.

Circuit Judges Harold M. Stephens and E. Barrett Prettyman held long discussion with FCC Assistant General Counsel Richard A. Solomon on how specific injury could be proved before new broadcast operation commenced—which by then would be too late to permit protest.

Other jurist three-judge court was Judge Henry W. Edgerton.

Arguing for KOA was James A. McKenna Jr., for KOAT, Paul Dobin.

Newswriters Strike Threatened

WBWM-AM-TV Chicago prepared Friday to use newsmen and newsroom supervisors in face of threatened walkout by 14 members of independent Radio Writers Guild, slated for midnight. Possibility of 11 hour negotiation held out hope for averted strike, with union members to be scheduled. Dispute centers around wages and fringe benefits, including radio-television news program credits.

EDWARD H. WEITZEN, vice president of Bulova Watch Co. and president and director of Bulova Research and Development Labs, to American Machine and Foundry Co., N. Y., as its new president in charge of operations. Post is newly created and will entail responsibility for planning, organizing and controlling all marketing functions for company and its subsidiaries.

JOSEPH C. MEEHAN, with Geyer Adv., N. Y., for past nine years, named director of public relations department at agency.

CHRISTOPHER CROSS, assistant publicity director of Kenyon & Eckhardt, N. Y., has been appointed director of newly formed exploitation division within agency's promotion department. New division will handle all projects requiring dramatic exploitation of client sales messages in local or regional areas.

HAROLD C. LANG, formerly with certified public accountant firm of Lybrand, Ross Bros. & Montgomery, has been elected assistant treasurer of CBS, new post.

FRED W. BOARD, southeastern regional sales manager, Eglin National Watch Co., appointed director of national sales staff for watch line.

WALLACE E. STONE resigns as sales manager, WITT (TV) Fl. Lauderdale, Fla., to devote efforts to Keystone Enterprises Inc., tv packaging firm of which he is vice president.

Savannah, Ga., ch. 3, ruling favoring WSAY over WJTV: June 29—Mobile, Ala., ch. 5, ruling favoring WTVN over WTCG: June 19—Atlanta, Ga., ch. 2, ruling favoring WMAF over WJTC: June 28 FCC also will hear argument of Jefferson Amusement Co., for admission to Beaumont-Port Arthur, Tex., ch. 4 contest.

Allen Station Affirmed

FCC Friday affirmed reissued grant to W. Gordon Allen at Springfield, Ore., on 1090 kw with change of call letters from KATC to KANS, because Mr. Allen no longer has ownership in nearby KSQA Cottage Grove, Ore., with which illegal overlap was charged.

National Sales Representatives — WEED TELEVISION
Applause From Author

EDITOR:

I have been trying all morning to find enough fifty cent words to express my appreciation of the workmanlike manner in which you folks have handled "Ads, Women, and Box Tops" but there just ain't any words that will do. So all I can say is thank you for a wonderful job and for sending me one of the first off the press.

Duane Jones
New York

Abroad with B&T

EDITOR:

The great achievements in broadcasting - telecasting have travelled around the world.

Everyone, far or near, admires such accomplishments.

Eddie Zee, Manager
Grand Hotel
Taipei, Formosa

[EDITOR'S NOTE: Mr. Zee's letter is a translation of the Chinese characters on the envelope pictured above. The envelope contained a copy of B&T airmailed to A. D. Ring, Washington consulting engineer, when he was in Formosa on a mission to the Free China government.]

Where the Fault Lies

EDITOR:

If uhf folk had believed what they read, they wouldn't be yelling so loud about rules being changed in the middle of the stream. I believe B&T devoted around 5,000 pages to statements from Rosel [Hyde] and others that the FCC was going to expedite making grants. I saw nothing to indicate they were going to continue expedition to uhf, although admittedly uhf would be helped by that.

I was against intermixture originally; I still think it is a bad answer. I'm not competent to show how to do without it, but DuMont made a pretty fair showing on his own on the subject. When the allocation plan, with interbiting, was adopted, I recommended to our board that we forget uhf in Decatur and try to work out a merger on some basis in Chicago and you do it with air on 20% of a profitable operation rather than 100% of a losing one. I read the same writings, talked with similar lawyers, as did most people now in uhf... or in losing uhf. We just interpreted it differently.

And I'd hate to have our radio operation mangled by more regulation because a group of highflying broadcasters or telecasters want Congress to bail 'em out of a bad economic decision they themselves made.

Merrill Lindsay
General Manager
WJSO-AM Decatur, Ill.

Vote for Federation

EDITOR:

Your lead editorial ["Toward a National Federation of Radio and Television Broadcasters," May 31] right down my alley. At breakfast Thursday a.m. with Justin Miller I prodded him to same thought. Asked him if it made sense. Thought it did make sense. Said he.

Lobbying and public relations by the parent organization in Washington openly and without apology—all other functions under separate and independent setups. Labor, for instance, follow newspapers lead i.e., the Standing Committee—he set up in Chicago and given the funds and manpower to do the job.

All this would necessitate revision of dues structure, but that must come anyway in time. Too many and too high—bearable now but not in any stiff competitive pinch. Keep pitching!

Leslie C. Johnson
General Manager
WHBF-AM-FM-TV
Rock Island, Ill.

Not Neighborly

EDITOR:

With reference to your story on the Senate uhf hearing on page 45 of the current issue [June 7] of the magazine, you refer to Beachview Broadcasting Corp. as an applicant for ch. 10 at Portsmouth, Va.

Beachview, owned and controlled by Norfolk residents, is an applicant for uhf channel 10 at Norfolk, Va.

Irvin M. Kipnes, Secretary
Beachview Broadcasting Corp.,
Norfolk, Va.

Radio Activity

EDITOR:

With the various articles you have on the importance of radio in a television age, I thought the enclosed squib, pointing out Dick Osborn's commentary from the Detroit Free Press of May 25 should be worth reprinting in your fine publication.

Harry R. Lipson
Asst. Managing Director
WIRK, Detroit

[EDITOR'S NOTE: Here's the item Mr. Lipson sent. Harry Lipson is assistant managing director of WIRK, watched the dramatized atomic attack on ABC-TV last Tuesday. He points out that the real hero of the hour was—the portable radio! Following the attack, radio was the only means of communication. Quite an admission for a television show.]

Broadcasting - Telecasting
NEW SLIDE SCANNER KICKS-OFF G-E'S PYRAMID PLAN FOR COLOR TV

Recognition for much of the technical perfection of this slide scanning system immediately focuses on an author's spotlight on E. H. Lederer, Mechanical Design Engineer. Of many contributions which Lederer made, his simplified optical wipe technique is particularly outstanding. In application, this development speeds slide changing to a point where normally used supplemental electronic equipment is eliminated. Mr. Lederer has specialized in Studio Engineering at G-E headquarters in Electronics Park for the past seven years.

The Editor, G-E Telequipment News, Section X264-14, Electronics Park, Syracuse, New York

E. H. LEDERER

2” x 2” unit highly rated for performance, accessibility, safety, small size, and unique block-building features

If you want to be in on the ground floor of color telecasting, be ready to transmit network programs and be ready to cash in on the rapidly growing demand for local color commercials. The Pyramid Plan shows you how. General Electric is set now to supply this and every other level of your color pyramid needs with such outstanding equipment as the new slide scanning system. Note, particularly, that it is applicable to black and white programming as well as color.

There are several current exclusives in design of the PR 8-A slide scanner worthy of mention and imitation. First among these...it has the fastest (F 1.9) non-shading optical systems in the industry today. Iris control permits use of slides having wide density range. Next, the automatic slide changer feature makes it easy to operate from either local or remote sources. And, slide carriages are provided to handle as many as 125 cardboard or glass framed slides. All adjustments for the lenses and mirror mountings can be made outside the cabinet. Thus, optimum alignment of the system is achieved with all extraneous light shut out. A unique and highly desirable function of the 2” x 2” slide changer is the outside to center, and center to outside mechanical and optical wipe action which occurs when changing slides. Normally, this is completed in less than .6 second and provides acceptable slide change-over. As a result of this high speed, added electronic equipment usually required for this action is not necessary.

Work was co-ordinated with Eastman Kodak and Bausch & Lomb

Both of these well known companies provided valued assistance in developing the scanner system. Final design consists of heavy 1/8” plate of high strength tempered aluminum alloy to which all lens, mirror mounts and slide changing mechanism are attached. This plate is mounted in a heavy 14-gauge steel reinforced cabinet. Alignment is no problem since permanent location of the plate in the cabinet permits compensation for uneven flooring or other mis-alignment conditions.

Universal Acceptance Predicted

This unit satisfies the most critical broadcaster's demand with award-winning features at a reasonable price. General Electric has attained its objective of manufacturing a slide scanner with exceptional appeal to small and large broadcasters alike.

ELENT ANALYICL ACCESSIBILITY VIA SWING-OUT PANELS

NOTE EXTREME ACCESSIBILITY VIA SWING-OUT PANELS

Scanner Tube element (right) is located in a pedestal cabinet. This chassis is almost identical to the corresponding scanning source used in the 16 mm motion picture unit. Both work into a common set of 3 photo-electric rolls and associated dichronic beam splitters, filters and prisms.

Broadcasting • Telecasting

Slides are stacked above cabinet for automatic feeding. Faster control from the panel at lower left provides adjustment for accurate scanning. Operating safety assured with detailed interlocking and thidtiting. The combination of slide scanner plus two continuous motion film scanners occupies just 32½ square feet.

THE PETER LIND HAYES SHOW
Network: CBS Radio
Time: Mon-Sat. 7:15-7:45 p.m. EDT
Star: Peter Lind Hayes
Singer: Jack Haskell
Orchestration: Norman Paris Trio
Producer-Director: Bruno Ziratis
Writer: Bob Corcoran
Production Cost: $4,200 per week

CBS Radio seems determined to make a radio star out of Peter Lind Hayes. On the strength of his past performance in other branches of entertainment there are no grounds to question that goal. Mr. Hayes is a congenial showman who, with Mary Healy, his wife and theatrical partner, has earned an enviable reputation in his field, particularly on the supper club circuit.

Last March, the network set up a half-hour Saturday afternoon show around Mr. Hayes, m.e. of the series. Miss Healy, usually his costar, made only brief appearances to sing a song or two. A collection of guest celebrities gave the show a little variety. Mr. Hayes bravely chartered his way through the half-hour guided by some badly written scripts. From a program standpoint, it was a colorless show doomed to a short life.

But CBS is displaying confidence that in Mr. Hayes lies a potential for some kind of radio programming. Last Monday a new Peter Lind Hayes Show went on CBS Radio as a half-hour Monday through Friday evening venture. The format is slightly different from its predecessor. But the changes have not led to any noticeable improvement in either quality of programming or entertainment value.

In this new vehicle, Mr. Hayes stands pretty much alone. Basically he functions as a disc jockey. The records are supplemented with some live music by the Norman Paris Trio, songs by Mr. Hayes and Jack Haskell. All of this is acceptable enough. But again Mr. Hayes is working against unfair odds in the script department. Between musical numbers the show falls flat.

Another factor that possibly contributes to Mr. Hayes' unseasonedness is lack of a live audience. The show is transcribed. It's star, whose success in the entertainment business has been largely tied up with immediate audience response, has apparently found that putting talent on tape for broadcast at a later time is a poor substitute for the encouragement a performer gets from fans in the studio.

THEATRE ROYAL
Network: NBC Radio
Time: 7:30-8:30 p.m. EDT Mondays
Play (6/9/54): "Private Rooms"
Star-Narrator: Sir Ralph Richardson
Produced By: Towers of London
Producer-Director: Jerry Alain Towers
Music Composer-Conductor: Sydney Torch
Point of Origin: London (by transcription)

FOR THE past several months NBC Radio has been programming a series of English dramas titled Theatre Royal. Occasion arose to hear one episode last Wednesday when the network moved the series into the 9:30-10 p.m. time period. On almost every level, Theatre Royal is superior radio entertainment.

The series is British through and through. It is transmitted in London for broadcast here. The people who bring to life the radio adaptations of such prominent writers as J. B. Priestley, whose "Private Rooms" was on the boards last week, are all English actors. The company engaged for "Private Rooms" was headed by Sir Ralph Richardson, who did a fine job in clarifying the "Private Rooms" story line and making a complicated plot understandable in a short half-hour's time.

The play actually deals with two stories: the relationship of an established actress and a young poet and similarly the relationship of an established actor and young ballerina. Eventually the youngsters get together as do their older and wiser theatrical friends, and all ends on a happy note. But jumping from one tale to another in a radio play where the eye cannot follow the action can ruin a story if it is not properly handled.

In "Private Lives," the adaptation depended mostly on narration rather than dialogue to get across a good percentage of the story. As narrator and star Mr. Richardson reached that goal most satisfactorily.

BOOKS
YOUR PLACE IN TV, by Edwin B. Broderick. David McKay Co., 55 Fifth Ave., New York. 142 pp. $2.75.

WRITTEN in the second person, this little book is intended to answer a question being asked today by many high school and college students: "How can I get into television?" Greatly simplified for easy reading, chapters deal with possibilities for a tv career, the technical, administrative and creative divisions of tv, and some allied industries. The appendix includes a job classification list, directories of colleges and technical schools offering tv courses, a glossary and a sample script.

The 1954-55 Telecasting Yearbook and Marketbook is now in Production.

THE BUYERS’ GUIDE of the TV business. . . the all-inclusive 1954 TELECASTING Yearbook & Marketbook . . . is now in production. Timed for fall buying, the 16,000 editions will be published in mid-August.

The 500 page fact-packed TELECASTING Yearbook & Marketbook meets the urgent need for up-to-date data on burgeoning TV. That's why, in 1953, some 327 astute advertisers used space in television's "One BOOK Reference Library".

You'll find your important customers . . . agencies . . . advertisers . . . stations . . . using the TELECASTING Yearbook & Marketbook practically every working day. That's why it's your Best Year-Round Advertising value. Reserve space today!

BRIEF INDEX OF FEATURES

• Complete TV Station Directory, including key personnel, station coverage, rates, market statistics.
• County by county breakdown of TV homes.
• Film, Equipment, Station Representative, Agency Directories and others.
• Latest retail sales, population, and other market data by counties.
• Network personnel, rates, maps, affiliates, and 600 other reference classifications.

DEADLINES:
Advertising deadline is July 19 (for proof); final closing is August 1. Minimum space for station directory positions is a half page; space for all other directories ranges from 1/6 page to spreads.

1 12.5-KW UHF Power Available

With RCA's new transmitter, you get full 12½-kilowatt output (at the low end of the band). Moreover, you get this with all adjustments made for optimum color transmission—and with an extra-large allowance (10%) for losses in the Filterplexer. In most cases, loss is actually much less, so that output on some channels is nearly 14 KW.

2 300-KW to 500-KW Effective Radiated Power (ERP)

Operated in combination with a non-directional RCA high-gain UHF Pylon Antenna, this 12.5-KW transmitter is capable of providing an ERP of 300 KW. With a directional RCA Pylon Antenna, powers up to 500 KW are possible (in a given direction).

3 Designed for Color

Performance requirements for color are much more stringent than for monochrome. The TTU-12A was designed to meet color requirements. Over-all linearity is virtually a straight line—from white level to sync signal peaks. Wide band width provides excellent response out to 4.3 MC. And the very important phase vs. amplitude response is constant over the whole operating range.

4 Unsurpassed Monochrome Quality

Equally important—you get SUPER MONOCHROME QUALITY with this RCA UHF transmitter. It exceeds FCC requirements for satisfactory monochrome operation by a wide margin! Since the RCA transmitter is adjusted for the more stringent color requirements, it is particularly good for monochrome.

5 Conventional Tubes Throughout

The latest circuit principles and techniques are employed in the TTU-12A—but they are easily understood by all station operators. That's because only conventional type tubes are used. For example, the RCA-developed high-power tetrode (RCA-6448) is used in both aural and visual "P.A.'s." This tube is small and easy to handle—fits into a unique "slide-in" cavity assembly that can be interchanged quickly and easily. The result is a high-power UHF transmitter that is as simple, reliable, and convenient to operate as standard broadcast transmitters.

6 Economical To Operate

Average power consumption of the TTU-12A is less than other UHF transmitters of equivalent power. Tubes are designed for long operating life. At conservative estimates, these provide total savings up to $34,000—based on a 10-year operation. See the typical readings and performance characteristics in Table I.

Only the RCA 12.5-KW "UHF" has all these 11 features!

7 RCA 1-KW Driver—Plenty of Reserve
The RCA 12.5-KW UHF transmitter uses the famous RCA TTU-1B 1-KW UHF transmitter as the driver. This transmitter, now used by nearly a hundred UHF stations, has established an outstanding record for performance and reliability. If you want to begin UHF operations with one kilowatt now, you can do so with an RCA TTU-1B 1-KW transmitter. Then add an RCA 12.5-KW UHF power amplifier later.

8 Space-Saving Mechanical Features
Horizontally sliding doors, front and back, save on workable floor space—give the operators more elbow room. Small cubicles (27" wide, 32" deep, 84" high) enable you to move them through standard doorways and in and out of standard elevators. Pre-formed intercabinet connecting cables reduce installation costs.

9 10 Micro-Second, Fault-Protection
Unique electronic overload protection completely safeguards power tubes and circuitry against momentary or sustained overload. (For example, the protection circuit will remove power so fast it will prevent damage to a wire as fine as 0.005-inch diameter shorted across the 7000-volt power supply!)

10 Hi-Lo Cutback Reduces "Off-Air" Time
With the TTU-12A transmitter you can cut back to a generous 1-KW power level—and stay "on-air" while making emergency repairs to the 123/4-KW amplifier. Moreover, small size tube cavities in the power amplifiers may be interchanged in less than 5 minutes—enabling you to return to full power promptly.

You Pay Nothing for "Extras"
The price of the RCA 12.5-KW UHF includes the complete transmitter package. No "extra" charge for UHF Filterplexer (combination sideband filter and diplexer). No "extra" charge for one complete set of tubes. No "extra" charge for two sets of crystals, two P.A. "glide-in" cavity dollies, one spare cavity, two water pumps, and pyranol-filled plate transformer.

Specify a Completely Matched UHF System
RCA can supply a completely matched system to meet any station requirement. This includes the antenna and tower, transmitter, console, monitoring equipment, transmission line or waveguide, and the many other accessories needed to put a UHF station on the air. Everything is matched for peak performance and you get everything from one reliable source—RCA!

For complete information on the RCA 12.5-KW UHF transmitter—and RCA UHF accessories—call your RCA Broadcast Sales Representative.

RCA PIONEERED AND DEVELOPED COMPATIBLE COLOR TELEVISION

RCA CORPORATION of AMERICA
ENGINEERING PRODUCTS DIVISION
CAMDEN, N.J.
AN INDEPENDENT radio station can hold its own against radio or tv network programming. This is the profound belief of Thomas Sherman Marshall, president of WOLF Syracuse, N. Y., whose conservative but flexible business hand has guided WOLF through 14 successful years.

Mr. Marshall, who is chairman of the Assn. of Independent Metropolitan Stations, also feels that tv has in no way hurt his operation. WOLF's forte is music and news, and, according to its president, tv hasn't taken away that specialized audience.

Known by his associates as Sherm, Mr. Marshall was born in Salem, Ill., Jan. 27, 1899, the son of a sawmill operator. During his vacations, and for two years after his graduation from Northwestern U. in 1920, Mr. Marshall also worked at sawmilling. He then left to try his hand in other fields.

Mr. Marshall began his career in sales and advertising with the Shell Oil Co., as a tank car salesman, covering the state of Iowa. In 1927 he was transferred to the St. Louis office and was promoted to assistant advertising manager. Two years later he was appointed advertising manager of the then newly-formed Shell eastern unit. It was in this assignment that Sherm first felt the impact of radio.

The idea of entering the radio operation field came in 1935, when he was not able to clear time for a Red Network show in Syracuse for Shell. At the time there were only two stations in the city, one a Blue Network outlet and the other Columbia.

The opportunity that another radio station in that city promised was too great for Mr. Marshall to ignore. After he was transferred to Syracuse in 1936, he resigned at the end of the year to try his luck in radio.

WOLF Wins Over WORM

After many delays and a year's wait for a final decision, Mr. Marshall's new station finally began operating in 1940. The choice of call letters resulted in a painstaking search through the dictionary to find a four letter word beginning with "W." WOLF seemed more appropriate at the time than WORM, Mr. Marshall recalls.

In his first year of operation, Mr. Marshall was caught unprepared by a prospective sponsor who insisted on hearing a singing jingle commercial. The urgency of the situation demanded quick action. Mr. Marshall gathered together a Certified Public Accountant and a police sergeant, who happened to be in the building, and they, together with the program director and the staff pianist, "mutilated a parody on 'Jingle Bells,'" which the new customer thought was terrific. This initial success led WOLF into transcribing commercials. Today 95% of its commercials are self-transcribed and the station provides this service for radio outlets all over the country.

He Sticks to Selling

Mr. Marshall works at the angle of the business he knows best—selling. He handles the local and national sales, leaving the program, technical and office departments to others.

Mr. Marshall believes the best way to hold his music audience is to have the same type program at the same time every day, basing the selection of tunes on requests. WOLF broadcasts about 20 hours of music programming daily. This is interrupted only by the hourly five-minute newscasts. This is the simple formula for the station's success as Syracuse's only independent. Referring to the constant need of the radio operator to build and maintain his audience, Mr. Marshall believes, "There can be no public service or advertising where there is no ear to hear it."

Little emphasis is placed on station personalities. Mr. Marshall feels that if listeners tune in to hear music, "there's no point in crossing them up." Even inning scores of baseball games are inserted in bulletin form with musical openings and closings. WOLF also has a total of 56 musical station breaks.

As for the future, Mr. Marshall has no designs on television or network affiliation. He adds, "I hope business will always continue to be pleasant and profitable."

His wife Elizabeth (Chap) and daughter Patricia have worked at the station filling in on all duties from switchboard and control panel operation to acting parts on transcribed announcements. Mr. Marshall and his two family helpers often give talks before university classes, trade organizations and clubs.

Mr. Marshall, a golf enthusiast, belongs to the Onondaga Golf & Country Club. His other chief outside interest is sun bathing on WOLF's sun terrace. He also is a member of the University Club and the Phi Kappa Psi fraternity.

---

A THEATRICAL background, including experience in broadcasting, motion pictures and the legitimate stage, has proven invaluable in advertising, feels John Gaunt, West Coast director of radio-tv, Grant Advertising Inc., Hollywood.

A writer-director at WJAR Providence while a Brown U. undergraduate, he became an actor-stage manager on Broadway and an assistant director in Hollywood after graduation in 1934. He returned to radio in 1938, as producer of CBS Dodge Show for Blackett-Sample-Hummert Inc., Chicago, joining NBC New York in 1939. Except for war service, he remained with the network 12 years.

Separated from the Navy as a commander in 1945, NBC assigned him to the then-infant tv division in New York. As producer and programming director of WNBW (TV) & NBC- TV Washington, John Gaunt has an impressive credit list of tv firsts. In 1949, he transferred to KNBH (TV) Hollywood as a producer-director.

But by 1952, John Gaunt felt he had become too specialized in that job. Deciding he wanted to diversify and “learn first-hand the methods and procedures of a top, aggressive agency,” he left NBC-TV.

After producing and directing CBS-TV’s Johnny Carson Show in 1953 for Ted Bates & Co., Hollywood, Paul Bradley, vice president, Grant Advertising, Hollywood, consulted him on that city’s KTLA (TV)’s Lawrence Welk Show. The consultation proved so mutually agreeable that Mr. Gaunt joined the firm.

These days, John Gaunt states he is very happy in applying this theatrical experience to such programs as ABC-TV’s Make Room for Daddy and Break the Bank, and NBC Radio’s Roy Rogers Show for Dodge division, Chrysler Motors; KTLA’s Lawrence Welk Show for local Dodge dealers; preparing introductory summer programs for Chrysler Air-Temp and Dad’s Old Fashioned Root Beer in the Southern California market, and a promotional campaign for Florist Telegraph & Delivery Service.

Radio will continue in importance because, “the cost-per-thousand is infinitely less than tv, although the sales impression is also less. However, because it costs less, repetition can achieve an equal sales impression and often do a job for the smaller advertiser,” he says.

John Gaunt relaxes from his work with his wife Virginia Drake of San Francisco, and daughters Elizabeth, 4, and Francie, 2. An amateur golfer and gardener, he laughingly states he “backs away” at both.
It's No Draw...in Omaha

KMTV is one TV station you need for fast action in landing sales whoppers in the Omaha market.

Here's why: No matter which audience survey you prefer—ARB, Hooper, or Pulse—they all show KMTV has Omaha's most popular locally-produced show...most popular multi-weekly show...and at least 11 of the top 15 weekly shows!

And this big audience makes up a booming market, too! According to the May Business Trend Bulletin of Rand McNally, Omaha is one of the "10 best cities" in the country for business growth and activity.

And here's what the '54 figures of the Omaha CC Research Bureau show, compared to '53...the Nation's biggest business year: Bank Clearings up 2.2 per cent...Building Permits up 15.2 per cent...Natural Gas Use up 5.5 per cent...Electricity Use up 5.9 per cent...Postal Receipts up 16.8 per cent.

Take advantage now of this sales-producing combination...the leading TV station in one of the Nation's top booming markets. Contact KMTV or Petry today.

RADIO-TV FACE MORE CURBS AS CONGRESS SPEEDS NEW BILL

Justice Dept. sponsors a Congressional railroading of a resurrected gambling information bill giving new fodder to the 'anti' forces on Capitol Hill. It adds to 'dry' attacks against broadcast media and demands by lawmakers for tv blackout in both branches of Congress.

(Also see editorial, page 126)

THE JUSTICE Dept. is betting on quick action and Administration pressure to clear through Congress a bill that would ban broadcasting and other interstate transmission of "gambling information" on sports events.

In the case of horse racing and dog racing, the bill would require an hour's time lag before details are broadcast.

The proposed curtailment of station and network horse race and dog race broadcasts was added to other discriminatory moves underway in Congress.

In this category are twin attacks in the House and Senate on beer, wine and liquor advertising. While legislation is aimed at all media, it is an open secret that the "drys" principally are out to "get" radio and television (see story page 58).

In still another sphere—the prolonged circus-type congressional hearings such as the McCarthy-Army controversy, created and conducted by Congress itself—tv is being made the fall guy. Rep. Dwight L. Rogers (D-Fla.) would ban television from all-Congressional committee proceedings. In a speech before the House Thursday, Rep. Rogers took to task the McCarthy-Army proceeding and dropped in the hopper a resolution that would take tv out of the Capitol's picture.

Sen. Olin D. Johnston (D-S. C.) Friday introduced a similar proposal including also the filming of procedures for future use.

The measure (S 3542), introduced in the Senate by John W. Bricker (R-Ohio), chairman of the Senate Interstate & Foreign Commerce Committee, last week had a two-day subcommittee airing and already is slated for deliberation.

"Heaf" is On

There was little doubt that the "heaf" was on the anti-gambling bill. Without advance warning, a hearing suddenly was called on the Bricker measure. Committee procedure of submitting such a bill to agencies directly involved and waiting for prepared comments or at the minimum giving the agencies time to study the measure—was avoided in the case of the FCC. There, contact was by telephone and just before the weekend when Commissioners were in executive session. The Justice Dept., on the other hand, which requested the measure, was amply prepared.

Two Senators, one of them the subcommittee chairman, Sen. William A. Purtell (R-Conn.), and the other, Sen. Bricker, were present at the hearing. Questions were kept to a minimum. References to controversy were avoided.

Justice Dept. officials and common carrier representatives, however, were fully informed as to amendments which were inserted during the hearing to conform to telephone company objections which had been voiced as long ago as 1930. Substance of these amendments was to give protection to common carriers from litigation.

Two factors assured speed on efforts to push the bill through Congress:

- The workload on Capitol Hill has increased in keeping pace with Congress entering the homestretch in advance of adjournment.
- The bill is substantially the same measure the Justice Dept. supported in 1950 (B*T, April 10, 1950). In that year, certain controversial features contained in the broadcast provisions, which lawmakers have been opposed to, have been cut out.

2 Out of 15

MEMBERS of the Senate Business & Consumer Interests Subcommittee, which has S 3542 before it, are Sens. William A. Purtell (R-Conn.), chairman; Andrew F. Schoeppel (R-Kan.); Charles E. Potter (R-Mich.); A. S. Mike Monroney (D-Okl.); John O. Pastore (D-R.I.). Others of the full Senate Interstate & Foreign Commerce Committee, which must finally consider the anti-gambling measure, are Sens. John W. Bricker (R-Ohio), chairman, and sponsor of the bill; John Marshall Butler (R-Md.); James H. Duff (R-Pa.); Frederick G. Payne (R-Ms.); Eva Bowring (R-Neb.); Edwin C. Johnson (D-Colo.); Warren G. Magnuson (D-Wash.); Lyndon B. Johnson (D-Tex.); Lester C. Hunt (D-Wyo.); George A. Smathers (D-Fla.). Actually present at last week's hearing: Sens. Purtell and Bricker.

Weren't they pointed up. Observers see an attempt to keep a step ahead of this controversy. Sen. Bricker offered the measure at the behest of the Justice Dept.

In 1950, hearings were held by the Senate Commerce Committee. At that time, FCC expressed opposition to the measure. FCC Chairman Rosel H. Hyde last Monday reiterated these arguments.

Chairman Hyde asked the subcommittee if the bill were not discriminatory to radio. He noted that the bill confines stations to reception or transmission of horse racing and dog racing information but does not so restrict the newspapers. He said FCC does not agree with this apparent discrimination.

In brief, FCC's position then and also now is that the Commission's own desirable gambling curbs would entail a simple ban on either broadcasting or common carrier transmission of information on bets, odds and prices paid, with no time-lag requirement and no prohibition against broadcasting or telecasting sports events.

The bill would limit stations and networks to the broadcasting of one horse race per day. The Justice Dept.'s desire for the measure dates back to the anti-organized gambling movement sweeping the country at the time when the Kefauver Crime Committee got underway.

Over the years, the FCC has sponsored alternative bills. FCC has taken the position during this time that the Justice version would make the Commission an enforcement agency on criminal matters; the bill is too complicated, and the measure would vastly increase FCC's administrative burden by requiring it to deal with such complex questions as a determination of the nature of "gambling information," and "special events." Monitoring also probably would be necessary.

The bill would bar radio and tv from carrying race information in advance or immediately after a race, except for such special events as the Kentucky Derby, Preakness or Belmont. But newspapers or other publications would be allowed to report racing or other sports events as they see fit.

It was speculated last week that the measure could be considered by the Senate group as early as next week. Should the bill clear the Senate, the House is expected to be receptive.

"Law Enforcement Project"

Chairman Hyde told the subcommittee that the desire to restrict gambling information "is a law enforcement project" and therefore, should not be made an administrative problem for FCC.

He also pinpointed the broadcast aspect, noting that the exemption was not as all-encompassing for stations as to newspapers. Mr. Hyde asserted that even on a delayed basis, racing news is helpful to the gambler.

The FCC chairman declared that the bill could be construed to mean that Congress believes the transmission of gambling information is all right on a delayed basis, thus implying that FCC should not have the power to prevent stations from broadcasting such information on a delayed basis even though the Commission might find such broadcasts not in the public interest.

A key section of the bill is Sec. 3 (b) which reads in part:

"Nothing in this Act shall be construed to prevent the transmission in interstate or foreign commerce of information in connection with the news reporting of sporting events or contests, with the understanding that such transmissions shall be made so as not to conflicts with this Act. If such information is intended, transmission must be controlled, delivered, and received only for printed news publication in newspapers, magazines, elsewhere, by radio and television broadcasting as set forth in section 4."

Sec. 4 reads:

No radio broadcasting station or television
Wolf Succeeds Slater in R&R Radio-Tv Post

George Wolf, vice president in charge of radio and television, Geyer Inc., New York, has resigned effective June 22 to join Ruthrauff & Ryan, New York, as vice president in charge of radio and television, succeeding Tom Slater, who resigned from that position in April.

Mr. Wolf had been with Geyer Inc. since August 1953, prior to which he was with Poole, Cone & Belding as director of radio-ty production for eight years. Before that he was with NBC’s press department.

Mr. Slater had been with Ruthrauff & Ryan, New York, for the past eight years. He started as an account executive with the agency and was then assistant director of the radio and television department. He was named a vice president in charge of radio-ty five years ago. Prior to his joining R&R, Mr. Slater was associated with Mutual for nine years as director of special events and sports.

Mr. Slater is expected to announce his plans in the near future.

Voice of Firestone Becomes ABC Simulcast

Firestone Tire & Rubber Co., which was deposed of its Monday 8:30-9 p.m. period by NBC-TV to make room for the new Sid Caesar show next fall, has placed its program, Voice of Firestone, as a simulcast on ABC-TV and ABC Radio effective today (Monday) 8:30-9 p.m. from the Paramount Theatre in New York.

Each Monday the Paramount Theatre will be closed from 10 a.m. to 5 p.m. to permit full rehearsals of the show on the Paramount stage. When the rehearsal breaks at 5 p.m. the theatre box-office will open for customary sale of its motion picture patrons. The feature motion picture will start at 5:30 p.m. and will continue for showing along with added film attractions until around 8 or 8:15 p.m., at which time Hugh James, host for Voice of Firestone will take center stage to introduce and discuss the Firestone program the theatre audience is about to see at 8:30 to 9 p.m. Following the program there will be a brief intermission, after which the film schedule will resume for continuous showings.

25 Years on NBC

Voice of Firestone had been on NBC Radio for the past 25 years and on NBC-TV for the last five years.

In behalf of the advertiser, Raymond C. Firestone, executive vice president of the company, said, “We are delighted that the Firestone Tire & Rubber Co. will continue un interruptedly to bring our loyal listening and viewing audience the magnificent music and great musical artists that so many families have made a tradition for Monday night listening and viewing in their homes.” Sweeney & James, Cleveland, is the agency.

The Monday night musical programming on NBC Radio from 8 to 9:30 p.m., which included The Railroad Hour, followed by Voice of Firestone and then Bell Telephone Hour, was disrupted by the Voice shifting to ABC, but the network plans to place a musical show in the 8:30-9 p.m. period and hopes to sell it.

Meanwhile The Railroad Hour, sponsored by the Am. of American Railroads, 8-8:30 p.m., goes off the air on June 21. The association is expected to decide by early July, at a meeting.
in Washington, as to whether it will renew the program for next fall. Benton & Bowles, New York, is the agency.

The network is secure, however, with the Telephone Hour, sponsored by Bell Telephone Co., through N. W. Ayer & Son, New York, in the 9-9:30 p.m. period which was renewed last April on a firm 52-week contract. The show has been on the air for the past 15 years.

Chicago ‘American’ Buys McCarthy-Army

NEWSPAPERS are continuing to back up TV stations in joint ventures to underwrite part or whole sponsorship of the McCarthy-Army televised hearings.

Latest example in the Midwest is that of the Chicago American, which has agreed to pick up the tab for afternoon sessions on WGN-TV there on days the station does not carry baseball. The arrangement was announced yesterday by Ted Weber, WGN-TV sales manager.

The Chicago Tribune outlet picked up network coverage of the hearings on non-baseball days in recent weeks. The American reportedly balked at an earlier offer by WBBK (TV) Chicago to underwrite part of the hearings, thereby after they got underway. The Sun-Times then negotiated the deal, with newspaper and station sharing the expense incurred from loss of sponsor revenue.

Newspaper participation was evolved weeks ago in Chicago as a joint public service project, even before the subcommittee removed the bars on commercial sponsorship of the televised sessions.

All-Star Baseball, Belmont Stakes, Taken by Gillette

GILLETTE Safety Razor Co. will sponsor major-league All-Star Baseball Game in Cleveland July 13 on Mutual Radio and NBC-TV. Coverage will start at 1:15 p.m. EDT. Game also will be carried by Canadian radio stations and Armed Forces Radio Network, and special Latin American announcer will broadcast it to Cuba and other Latin American countries. Mutual stations’ affiliates in four cities also will carry the content: WNAV-TV, Boston, WGN-TV Chicago, KFIL-TV Los Angeles, and WOR-TV New York.

Gillette Safety Razor Co. also will sponsor coverage of the running of the Belmont Stakes horse race event on CBS-TV June 12, 4:30-5 p.m. EDT. Maxon Inc., New York, is agency for Gillette.

Hudson Signs Year’s Contract With WNbc and Wntb (TV)

contract was signed last week between the Hudson Pulp & Paper Corp., New York, and WNBC-WNBT (TV) New York for what the stations believed to be “the largest single local station purchase of radio and television time and talent.” The 52-week contract was understood to represent approximately $1 million in gross billings.

Agreement was announced last week by William Mazer, executive vice president of Hudson, and Hamilton Shea, general manager of the NBC-owned stations in New York. The Blaw Co., New York, is the agency for the advertiser.

Contract provides for a year-long saturation campaign on Hudson’s household tissue products, starting today (Monday), with commercials on various radio and television programs throughout the day, plus a heavy schedule of spot announcements, chainbreaks and ID’s on WNbc and WNTB.

FINAL DETAILS of the merger of AWL Advertising Agency and Leon S. Golnick and Assoc., both of Baltimore, are settled by (I to r) Morton Levinstein, Leon S. Golnick and Cas Appelstein. The new firm is combining staffs and will be known as AWL & Golnick Assoc.

CRANDALL RESIGNS BRYAN HOUSTON INC.

JOHN CRANDALL, vice president in charge of media, Bryan Houston Inc., New York, has resigned and expects to announce his plans in the near future. H. H. Dobberteen, vice president in charge of media, Foote, Cone & Belding, New York, who resigned from that agency a fortnight ago (May 31), is expected to succeed Mr. Crandall.

John Crandall, recently named a vice president of Bryan Houston, had been director of media for the past eight years with the agency’s predecessor, Sherman & Marquetie, New York. During World War II he was with the U. S. Air Force. Prior to the war he was with Kudner Agency, New York, for a year and before that was with Benton & Bowles, New York, as radio timebuyer and media buyer.

Mr. Dobberteen had been with FC&B for the past two and a half years. Before that he was with Benton & Bowles as a vice president for more than a dozen years.

Three Take ‘Howdy Doody’

NEW order and two renewals for NBC-TV’s Howdy Doody Show (Mon.-Fri., 5:30-6 p.m. EDT) were announced last week by the network. The renewals were by the Kellogg Co., Battle Creek, and the Continental Baking Co., New York, and the new advertiser is International Shoe Co., St. Louis.

Kellogg, through Leo Burnett Co., Chicago, renewed for 104 programs for 52 weeks of the Tuesday and Thursday, 5:30-5:45 p.m. EDT segments, starting June 1; Continental Baking, through Ted Bates & Co., New York, for 52 programs of Wednesday, 5:30-6 p.m. EDT, portion, starting last Wednesday. International Shoe, through Henri, Hurst & MacDonald, Chicago, bought seven 15-minute segments of alternate Friday 5:45-6 p.m. EDT segment, starting Aug. 6.

N. Y. Chevrolet Dealers Appoint Compton Adv.

CHEVROLET Dealers Asso., New York, has appointed Compton Adv., New York, to handle its advertising campaign, representing almost a million dollars annually, most of which is placed in television.

The association had been handled by Campbell-Ewald since its formation in June 1948. C-E resigned the account effective June 15, although it continues to handle the Chevrolet Motor Division.

The dealers group currently is using spot news programs and is expected to continue this campaign through the summer. Compton Adv., which takes over immediately, probably will have fall plans set shortly.

Chevrolet Dealers Buy CBS Radio Newscasts

IN A transaction said to represent more than $325,000 in gross billings, the Chevrolet Dealers last week signed to sponsor 12 five-minute newscasts per week over CBS Radio for 13 weeks, starting July 3. Agency is the Campbell-Ewald Co., Detroit.

As outlined by John Karol, vice president in charge of network sales for CBS Radio, the contract provides for a line-up of newscasts scheduled in such a way as to achieve maximum saturation. Newscasters are to be announced shortly. The broadcast schedule is as follows: Sunday, 10-10:05 a.m. EDT; 1:10-3:05 p.m.; 2:30-3:35 p.m.; Saturday, 12-1:15 p.m.; 2:35-3:35 p.m.}

ENTRY INTO RADIO by Mytinger & Casselberry Inc., Long Beach (Nutritile food supplement), with a full half-hour Sunday afternoon series emceed by Dennis Day on NBC Radio, brings together (I to r) John K. West, vice president in charge, NBC Pacific Division; Mrs. Peggy Seals, advertising manager, Mytinger & Casselberry; Hildred Sonders, vice president in charge of radio-tv, Don B. Miner Co., Los Angeles agency servicing Nutritile, and William Storke, NBC account executive.

Westinghouse-CBS-TV Plan Musical Series in Color TV
WESTINGHOUSE Electric Corp. will present in color over CBS-TV a series of Broadway's best musical comedies of the past three decades, starting Sept. 15, it was announced jointly last week by H. M. McKibbin, vice president in charge of consumer products for Westinghouse, and Hubbell Robinson Jr., vice president in charge of programming for CBS-TV. The series for Westinghouse is McCann-Erickson.

The new series, which will be titled The Best of Broadway, will be carried every fourth Wednesday on what was described as "the largest line-up of live stations on CBS-TV." On three out of four Wednesday nights, CBS-TV will present Blue Ribbon Bouts for Pabst.

Five Join Y & R Contact Staff
FIVE persons have joined the contact staff of Young & Rubicam New York: William R. Wright, previously with Ted Bates Inc.; Carl W. Sturbs Jr., formerly with Foote, Cone & Belding, New York; Alan Stoddard Perry, formerly with Dancer-Fitzgerald-Sample, New York; James Rodman Benedict, formerly with Ward Wheelock Co., Philadelphia, and Gerald M. Schaffander, formerly with Kudner Agency.

P & G Renews NBC Block
RENEWAL by Procter & Gamble Co. of its afternoon time block on NBC Radio, effective June 28, was announced last week by Fred L. Horton, network director of sales. Agencies for the client are Compton Adv., Benton & Bowles, Dancer-Fitzgerald-Sample, and Young & Rubicam. Line-up of the programs, presented on a Monday-through-Friday basis are: Welcome Traveler, 10:10-3:30 a.m.; Pepper Young's Family 3:30-3:45 p.m.; Right to Happiness, 3:45-4 p.m. and Backstage Wife, 4:45-5 p.m.

Rogers of BBDO Dies
HUGH M. ROGERS Jr., 38, director of television production for BBDO, N. Y., died last Thursday of pneumonia at Norwalk (Conn.) General Hospital. During the presidential campaign of 1952 he handled network television program for General Eisenhower. Surviving are his wife, Mrs. Beverly C. Rogers; two sons and a daughter.

SPOT NEW BUSINESS
Chambers & Wiswell, Boston, planning tv spot campaign in number of scattered markets for Appian Way (pizza pie mix).

American Sisal Kraft Corp., Adelberg (wheat covering), is preparing radio spot announcement schedule on farm programs in wheat belt, effective today (June 14) for one week, one spot per day in about 17 states. Agency: Sutherland-Abott, Boston.

NETWORK NEW BUSINESS
Schiek Electric Shavers will co-sponsor summer replacement of CBS-TV Jackie Gleason Show, effective July 3, a one-hour extravaganza, Stage Show. Kudner Agency, N. Y., is agency.

Pharmaceuticals Inc., N. Y., (Geritol), will sponsor Juvenile Jury as summer replacement for its Red Skelton Show, Tues., 8:30-9 p.m. on CBS-TV, effective June 22. Edward Kletter Assoc., N. Y., is agency.

A&A PEOPLE
M. G. Reade, advertising director, Valley National Bank, Phoenix, named director of its newly-combined advertising and publicity dept., with Charles W. Pine and Lester M. Goldberg as assistants.

Paul Gerhold, vice president in charge of research, Foote, Cone & Belding, N. Y., has had his duties broadened to include media. Arthur Pollard will continue to manage broadcast media and Charles Hoffman will manage print. H. H. Dobberteen, vice president in charge of media [B&W, May 31] is leaving to join Bryan Houston Inc. (see story page 29).

Roy Campbell, vice president and a director, Foote, Cone & Belding, N. Y., transfers to Los Angeles as marketing consultant for agency's four western offices.

W. A. Weaver, director, and Lee R. Canfield, account executive, Griswold-Eshelman Co., Cleveland, elected vice presidents.

Roger Purdon, formerly copy chief, William Weintraub Co., N. Y., named vice president and creative director of Bryan Houston Inc., same city.

W. A. WEAVER  L. R. CANFIELD

'Home,' 'Today' Add Sponsors
SIGNING of three additional sponsors for NBC-TV's Today (Mon-Fri., 7-9 a.m. EDT) and another for Home (Mon-Fri., 11 a.m.-12 noon EDT) were announced last week by the network. United States Shoe Corp., Cincinnati, through West Burkhart Inc., Cincinnati, bought nine participations on Home, starting Sept. 20. New sponsors on Today are the Reardon Co., St. Louis, through Krupnick Assoc., St. Louis, with 14 participations, starting Sept. 8; John Otter Mfg. Co., Racine, Wis., through Henri, Hurst & McDonald, Chicago, with 15 participations, beginning Sept. 28, and Curtis Pub. Co., Philadelphia, through BBDO, New York, with one participation, Sept. 28.

Marfree-Gainex Status
HARRY A. FRIEDENBERG, president of the defunct Marfree Agency and of the newly-established Barnett & Bennett Agency in New York [B&W, June 7] told B&W last week that Carlson Industries (Gainex) had paid to the Marfree Agency more than $23,000 last year in order to place its mail order campaign then. The words "last year" were inadvertently omitted from a sentence in the June 7 story. Mr. Friedenberg explained that since Carlson Industries had paid that amount of money for the campaign last year Marfree had given them so much credit on this year's campaign and he averred that he was not paid by Carlson for the recent campaign, which resulted in a debt of more than a quarter-million dollars to about 600 stations.

Pabst Starts Cola Campaign
PABST BREWING CO., for its new canned cola drinks, non-fattening and regular Tap-A-Cola, will start an introductory campaign on radio and television in the New York area today (Monday) to continue through the summer. Company will use spots on seven New York radio stations, and spots and participations on television. It also will sponsor two five-minute weather strips on WNBT (TV) and five-minute news strip on WCBS-TV's Morning Show. Monthly expenditures for this introductory campaign will be approximately $100,000 which will include radio, tv and printed media. Campaign will go national as distribution requires it. Warwick & Legler, N. Y., is agency.

COURT SAYS REPUBLIC TECHNICALLY MAY SELL AUTRY, ROGERS MOVIES TO TV

San Francisco decision may stand as precedent in the release of old theatrical films to television, but Autry attorneys cite decision as upholding vital part of their contentions, making sales impractical. Rogers says he will appeal.

PATTERN for release of old theatrical films to tv may have been established by a ruling of the Ninth U. S. District Court of Appeals in San Francisco June 4, which clarified two previous conflicting decisions in lower Los Angeles Federal courts.

In essence, the appellate court held that the broad nature of copyright contracts between Republic Pictures and cowboy actors Gene Autry and Roy Rogers, giving the studio reproduction rights to "any and all of the acts, poses, plays and appearances of the artists," covered sale of old theatrical pictures to tv.

However, Autry forces claimed victory in a section of the 3,000-page decision which upheld their contention that the studio:

1. May not edit or revire Autry pictures to make them different from the original picture. They may not show them except as feature photoplays running approximately 53 minutes.

2. "May not 'doctor' the pictures to make it appear that Autry endorses product of program sponsor."

3. May only license pictures for tv under conditions expressly prohibiting "any advertising or statement which may be understood to be an endorsement of any sponsor by Autry, or that Autry is connected or associated with any sponsor."

4. And that the decision handed down in Los Angeles District Court by Judge Benjamin Harrison in May, 1952, refusing to grant Mr. Autry an injunction against the studio and subsidiary Hollywood Television Service to stop making Gene Autry films available to tv, was in error in not offering him protection against deterioration in quality. The actor's appeal for such protection was upheld, with express right to use courts in enforcing rights.

Reverses October Decision

The appellate court, in a second ruling June 4, completely reversed the October 1951 decision of Los Angeles Federal Judge Peirson M. Hall, granting an injunction to cowboy star Roy Rogers which restrained Republic from releasing his old westerns to video while attorney Frederick Sturdy, representing Mr. Rogers, admitted he had not had a chance to study fully the voluminous decision. He indicated Mr. Rogers would probably file an appeal within the 30 days normally allotted to answer.

An "increasing" number of inquiries has been received by Hollywood TV Service on film release since the Appellate Court decision, President Earl C. Collins stated. He added HTS hasn't yet decided which method of distribution would be adopted, national, regional or syndicated.

Despite the 30-day appeal period given Messrs. Autry and Rogers, HTS is proceeding with distribution plans, he said. He saw very little chance of decision reversal or appeal to the Supreme Court.

Commenting on possible receipts from over 50 Autry and 60 Rogers pictures, he pointed out HTS has received an offer of $8 million for Autry pictures alone several years ago, with greater income from both sets safely to be assumed. Other films in the Republic backlog would be released, he said, as each group is legally cleared.

Since Autry and Rogers films are "full production" value pictures, Mr. Collins estimated they could "take the rating away from anything" opposing them on air. Some films, in color, would probably be held off market until color tv is commercially feasible.

On the Autry portion of the Appellate Court decision, he stated HTS had never intended to use the Autry name with tv advertising, even if such were possible.

Screen Gems Space Series To Be Networked-Syndicated

SCREEN GEMS Inc., last week announced details of a plan under which the costs of producing a tv filmed series for a national sponsor will be reduced by the creation of a simultaneous version for syndication in non-network markets.

Ralph Cohn, vice president and general manager, said Screen Gems has reached agreement with the Wander Co., Chicago, to produce Captain Midnight for sponsorship by Ovalline, through Tatham-Laird, Chicago, over 60 CBS-TV stations, starting in September. Mr. Cohn added that at the time Captain Midnight is being produced, each time the name of Captain Midnight is mentioned or seen, a separate shot will be made using the name Jet Jackson. Screen Gems will syndicate this latter version under the title of Jet Jackson in about 120 non-network markets, starting in October.

Negotiations on the project were conducted by Hart Johnson, president of the Wander Co., which holds control to the Captain Midnight character; Arthur Tatham and George Bolas of Tatham-Laird, and Mr. Cohn and John Mitchell, general sales manager of Screen Gems.

Station Films Inc. Reports Good First 10 Months

A MILLION dollars' worth of business in 10 months of operation is the record of Station Films Inc., established Aug. 1, 1953, as a film-buying service for tv stations, Robert H. Salk, SFI president, said last week.

SFI has served 20 tv stations, Mr. Salk reported, with a list of 24 signed for the year ahead. New SFI stations are: WSEE (TV) Erie, Pa.; WLAC-TV Nashville; KWK-TV St. Louis; and WKBT (TV) La Crosse. Service begins immediately for WSEE and will start for others concurrently with their starting dates on the air.

"About half our business has been in films originally made for theatrical showing—features and westerns—and about half in syndicated programs made especially for tv use," Mr. Salk said. "This is a reversal of the situation that prevailed a year ago, when almost all syndicated tv film programs were sold to advertisers and agencies and few purchased by stations. In recent months, however, a noticeable trend has developed of stations buying these films themselves, for programming and for resale to advertisers locally.

FOREIGN TV FILMING COSTS MORE THAN U. S.

Sheldon Reynolds, producer of Foreign Intrigue, says the same production costs $5,000 more in Europe than here.

TV FILMING ABROAD, contrary to popular beliefs, is not a cheap method of production, according to Sheldon Reynolds, who has spent the past three years in and out of Europe as producer-writer-director of Foreign Intrigue.

A minimum of at least $5,000 over what the same production would cost in the U. S. should be allowed, he explained at a news conference last week during his first trip to the West Coast.

Contributing factors are lack of equipment and that, in the U. S., the shows are slow down the actual shooting, he revealed. Even with America's best key personnel, you must allow four days shooting in France and five and a half in Stockholm, he added.

Formats Should Change

A firm believer that no series with a single, continuing character has a market on tv after three years, Mr. Reynolds said that Foreign Intrigue, which is seen in a total of 62 markets, 23 of which have just been renewed by P. Ballantine & Sons (beer and ale) for 39 more weeks, will have undergone a change in format when the new films are telecast this fall.

Michael Powers, who is portrayed by James Daly, will continue, but not as a newspaperman, and he will be put into completely different situations. Mr. Reynolds stressed that filming abroad will proceed uninterrupted to provide the series with its authenticity and flavor.

In discussing his future plans, Mr. Reynolds disclosed that the film in the Sherlock Holmes tv series, starring Ronald Howard, is completed and is set for fall release by Motion Pictures for Television. On the agenda is an adventure series, the working premise of which is based on Foreign Intrigue, making use of cities and locations in the U. S.

Explorers Pictures Sues TPA, Others Over 'Ramar'

EXPLORERS PICTURES Corp., New York, announced last week it has applied for an injunction in the New York Federal Court against Television Programs of America, Arrow Productions and Cornell Films Co., claiming that TPA's Ramar of the Jungle tv film series infringed Explorers' exclusive television rights to Congorilla, feature film produced in Africa.

Explorers Pictures charged that scenes from Congorilla were used in the Ramar series without authorization. The complaint seeks an injunction, damages and attorneys' fees and costs of action against the defendants.
DELAYED collegiate football television will reach an all-time peak this fall, William J. Parry Jr., president of Sportvision Inc., predicted last week.

Based on the forecast is the reported booming early season sales of Sportvision's three fall film shows. Sale of Sportvision's All-American Game of the Week, Pacific Coast Hi-Lites and Big Ten Conference Hi-Lites, were reported ahead of last year, with the All-American Game series sold in 50 markets. Sportvision is the official TV film producer for three major college athletic conferences, the Big Ten, the Big Seven, and the Pacific Coast Conference, and also represents the latter in "live" TV sales and scheduling.

**FILM SALES**

**FILM PEOPLE**

Norman Blackburn, formerly vice president, J. Walter Thompson Co. in charge of Hollywood office, appointed executive director, Screen Gems Inc., Hollywood. Mr. Blackburn was incorrectly identified as having joined Guild Films Co. (B.T., May 24).

William Veneman, national sales manager, KABC-TV Los Angeles, to Television Programs of America as sales representative for San Francisco area.

Marvin Briggs, formerly radio-tv director, Walter McCreery Adv., Beverly Hills, to George Bagnall & Assoc., same city, as sales representative covering California territory south of Fresno and San Luis Obispo.

Roy Rubins to Teevee Co., Beverly Hills, as Pacific Northwest sales manager.

Elsa Aylward, former advertising manager, De Vry Corp. (motion picture projectors), appointed assistant advertising manager at Filmack Studios, Chicago. He will handle copywriting in TV and theatre departments.

Hugh William McFadyn, control operator of CFRB Toronto, and assistant program director of WSO-O Chan. Brn., to traffic assistant of W. S. Caldwell Ltd., Toronto, film distributor.

Frank J. Shea, formerly director of tv and commercial sales, March of Time, named director of industrial sales, John Sotherland Productions Inc., N. Y.

Gabriel Bazy, previously a script editor and film supervisor, BBDO, N. Y., appointed creative supervisor of Robert Lawrence Productions, N. Y.

Howard T. Magwood, producer-director of Hollywood films and various stage plays, appointed producer-director, Screen Gems Inc., N. Y.

Les Anthony, sales executive, to represent George Bagnall & Assoc. in the South, headquartered in Miami.

James Fay, freelance radio-tv writer-producer who has been conducting independent market survey of western states for World Wide TV Productions, Hollywood, joins firm as executive director.

Fred de Cordova, director, CBS-TV George Burns and Gracie Allen Show for McCadden Corp., Hollywood, has been re-signed for 1954-55 season.

Roy Kellino, Hollywood tv film director, signed by Four Star Productions, Culver City, to exclusive producer-director contract on CBS-TV Four Star Playhouse and upcoming Star and the Story.

Willy Ley, space historian and author, signed by Walt Disney as technical advisor and consultant on World of Tomorrow, portion of upcoming ABC-TV series.

Norma-Jane Howarth, formerly with British American Oil Co., Toronto, to tv film production dept., S. W. Caldwell Ltd., Toronto.

Joseph G. Betzer, film planning director, Sarra Inc., Chicago, resigned June 1.

Hugh O'Brian, motion picture actor, signed by Lewisor Enterprises, Hollywood, to enact leading male roles in 10 NBC-TV Loretta Young Show films.

FACTS & FIGURES

TV’S FOOTBALL GATE IMPACT REACHING PEAK, NORC FINDS

College football group claims telecasts have cut attendance by one-fourth; radio, on other hand, draws praise.

TELEVISEON attention is the whipping-boy of the National Collegiate Athletic Assn. in its fifth annual report blaming tv for declines in football gate receipts. However, tv’s damage is at a peak so long as football telecasts are strictly controlled, NCAA concedes.

A study, released, emerges from the NORC’s as a helpful medium serving “a real function” for the college sport. The research was conducted by NORC by National Opinion Research Center, U. of Chicago, and is titled, “Fifth Annual Report of the Effects of Television on College Football Attendance.”

NORC’s report attacks the theory of Jerry Jordan, W. Ayer & Son, and RETMA that the advent of television cut attendance at colleges and universities; instead, it has held to attendance at sports events.

Live tv coverage of college football games has cut attendance by one-fourth without doing anything to create new fans for the sport, the NORC report shows.

Apparently in conflict is NCAA’s attack on the novelty theory and the finding in the NORC survey that attendance at games were down last year at colleges that had tv prior to 1953.

The NORC report includes these statements:

The moderate loss of 2% in tv-area attendance can be traced to the extension of network tv to new areas which were exposed to game of the week competition for the first time. Thirty-nine such reported a collective loss of almost 20% in their 1953 sales. In contrast, the 43 colleges which had been exposed to televised football competition in 1952 and earlier reported a drop of only 1% from their levels of last year. It bears repeating, however, that these levels were still far below the attendances these colleges were drawing in 1947-48, before television had become an appreciable factor.

The rate of loss has gradually slowed, as each year a smaller proportion of football fans become newly exposed to tv.

What Makes a Fan?

Reporting on extensive research into what makes a college football fan, NORC states that a survey that way by watching football themselves, by following their school teams or through friends who either played or had great interest in the game. Only 3% said they became fans through watching games on tv, the same percentage as reported becoming interested through reading about games in the newspaper.

Radio, somewhat surprisingly, rated twice as high as tv or newspapers, with 2% saying they had become fans through college football by listening to games on the radio. More fans (4%) listened to college games on the radio on an average Saturday last fall than attended them (1%) or watched them on tv (23%).

Most fans (40%) “did something else” on a typical Saturday, NORC reports, with only 20% of fans attending one or more games during the 1953 season.

“There can be no doubt that radio serves a real function for the college football fan,” NORC states. “Its usefulness lies first in its convenience, while the fan is doing other things, driving his car, or away from his tv set. Second, it offers the top games of the day. Third, it offers a variety of games; if one is dull the fan can tune in to another. And lastly, it often offers the only opportunity to catch the fortunes of the local team when it is playing away.”

In contrast, television as it has been restricted under the NCAA plan, is much less flexible and does not have these advantages. Only one game is available if a game is selected in advance of the season and may or may not turn out to be one of the big games of the day, and the chances of the fan’s own local team appearing on the screen are very slight.

Despite all this, NORC avers, “it is only since television that tv-area attendances have declined so notably, in fact of trends in the non-areas. It is the 23% of fans who watch television every Saturday—and who watch it even when the teams are of little interest to them and even when the game itself has no national importance—that we must look for the cause of attendance declines in tv areas, when attendance would otherwise have been expected.

“The findings make it quite clear that if the televising of games were to be banned completely, the result would not be just a switch to radio listening. It would be a sharp reduction in attendance. And if television were to be unrestricted, the result would not be just a switch from radio listening to tv, but an even sharper loss in game attendance.

The most cheerful note in the report, so far, the colleges are concerned, is the finding that tv has already reached its maximum effect on attendance at the games and is unlikely to cut any farther into gate receipts, provided that the NCAA program of limited tv is kept in effect. This program, which restricts the number of telecasts in any area to one per week, which prevents any one team from appearing on television more than once per season and which apportion the limited number of telecasts available among teams from all parts of the country,” has, NORC declares, “saved many colleges from losses which would force them to abandon the sport entirely.”

The report summarizes the 1953 figures as follows: “given the current economic conditions, student enrollments, etc., college football attendance would have been 9% above the 1947-48 levels had it not been for tv competition. But where tv competition was present (which was almost 1% below the 1947-48 levels.

The difference of 27.7% represents the harmful effects of television” (BT, Jan. 11).

In 1953 only about 69% of college gridiron contests was allowed, colleges in areas where tv ownership was heavy suffered a 40% “tv differential,” the report points out, calculating that if that unlimited tv policy were in effect today the national differential would be 40% instead of 27.7%.

“Even such a calculation,” NORC states, “does not take into account the increased number of tv stations, so that a fan who in 1950 had a choice of only one or two games on his local stations might now have a choice of four or five in many areas.”

The five degrees of tv competition, in descending order, are college playing with its own games on tv, facing televised games of another local school, a telecast game in a different city but the same area, one from a distant region and a complete absence of games on tv. In the five consecutive years they could be tested, the figures showed lowest attendance trends at colleges which telecast their own games and next lowest at those which faced telecasts of other local games.

In 1951 and 1952, attempt to check the theory that the tv game of the week would have more serious effects on attendance at games in the geographical region than on those farther away from small and inclusive differences. In 1953, however, NORC found that attendance at more attractive games was 8% greater when the telecast game of the week was from a distant point than when it was in their own area. The difference did not hold for less attractive games.

Base of Original Research

“The original research which gave rise to the Jordan novelty theory,” NORC elaborates a little, “was based on a single graduate student, conducted in 1949 by small sample of fans in a single area, in the year 1949, with no controls over the comparability of the groups whose behavior was contrasted. No research involving controlled comparisons has ever duplicated that finding for college football or any other sports activity and it has been refuted not only by the large-scale NORC student study but a four-year period, but also by the college attendance trends in more recent years when the novelty of television may be presumed to have worn off.”

Interviewing football fans, half of whom have attended two or more games for four seasons, one-in-five for three, 14% for two and 13% who were watching television football at home for the first season (see table, adjacent column), NORC ventured.

“It is plausible and no doubt true that a new tv owner will spend a good many hours watching his set, acquainting himself with all the programs it has to offer, and then, when the novelty has worn off, become more selective in his viewing,” NORC comments. “But it is difficult to see why a football fan who has reduced his attendance because of television should later resume his old habits.

"Rather, it appears that watching the telecasts of games breaks the habit of attendance and becomes a new habit itself.”

ABR’S COOPER ADVISES CAREFUL USE OF RESEARCH

Southern California AAA chapter holds seminar on advertising in the future.

RATINGS are not the only part of radio-tv which should interest the advertiser, Roger N. Cooper, Western Region Manager, American Research Bureau, Los Angeles, told a seminar of the southern California chapter of American Assn. of Advertising Agencies in Los Angeles on June 3.

Speaking on “How Can Advertising Do a Better Job in the Competitive Years Ahead?”, topic of the seminar, Mr. Cooper said the wise advertiser would do well to look additionally
You can't get to Macon by way of Atlanta!

Macon is 93 miles from Atlanta! So it stands to reason that Atlanta TV stations are not covering the Macon area with an adequate signal. If you want to reach this middle Georgia market, heretofore untapped by TV, there's only one station that can do a job for you — WMAZ-TV!

Only 10 of the 47 counties now blanketed by WMAZ-TV received “good” service from any other station. Significantly, the remaining 37 counties in WMAZ-TV’s 47-county area represent...

...80% of this area's population!
...81% of retail sales!

WMAZ-TV ADDS 153 NEW TV FAMILIES A DAY*...
153 NEW CUSTOMER-FAMILIES A DAY!

And in metropolitan Macon alone, population has virtually doubled since ’40. Purchasing power has increased tremendously (income per household is well above the state's average) ... and wide industrial growth has strengthened and stabilized the demand for every product sold.

Only WMAZ-TV adequately serves the well-balanced industrial and agricultural Macon market for you!

Write for free brochure on Macon market and WMAZ-TV specifications, rates, etc.

*Average daily growth of TV homes in coverage area

WMAZ-TV DOMINATES THE MACON AREA AUDIENCE MORNING, NOON & NIGHT!

There's Something About New Orleans...

It stands out as a city with a charm and a culture all of its own. And WDSU and WDSU-TV stand out with the finest in radio and television programs - tailor-made to please the distinctive tastes of New Orleanians. Shown here are some of the members of the WDSU and WDSU-TV staffs who appear on these programs. Recruited from north, south, east and west, they are now welcome friends in most New Orleans homes. Using the specialized talents of people like these, WDSU and WDSU-TV bring their listeners and viewers the kind of radio and television entertainment they want - ranging from full scale musical productions, helpful programs for women, complete coverage of the latest sports, local and international news to children's shows and special feature programs. Maintaining this well-rounded staff and producing local shows of network calibre is another example of how WDSU and WDSU-TV, Louisiana's first television station, continue to serve New Orleans and the nation.
NBC-TV QUALITATIVE STUDY REPORTS

DAYTIME TV AUDIENCES BUY BEST

Network's survey of nearly 3,000 households shows that where there is television during daytime hours, there also are the highest income families and the biggest buyers of the advertisers' products.

DAYTIME tv viewers, primarily housewives who take time from their home chores to look at television sometime before 6 p.m., are God's gift to the American manufacturer, according to a study unveiled last week by NBC-TV, which reports:

"From soaps to soaps, cereals to cars, home permanent to home repairs, facial tissues to floor waxers—viewers of daytime television are consistently the best customers. They spend more money—and buy more products—because they are younger, their families are bigger, their incomes higher, their homes in larger and better markets."

Study, titled "Television's Daytime Profile: Buying Habits and Characteristics of the Audience," was inspired by a survey of advertising and advertising agency executives who wanted more qualitative information about broadcast audiences, Hugh M. Beville Jr., NBC director of research and planning, told a news conference last Monday.

"We decided to make a qualitative study of daytime tv, because we've got more daytime for sale," Mr. Beville declared.

Made in January by W. R. Simmons & Assoc., which interviewed 3,243 women in 2,871 households in 450 interviewing districts in 185 counties covering all regions of the country, the study covered a sample typical of all homes in the nation, in districts without tv service as well as those with it. Dr. Thomas Coffin, manager of research for NBC, who presented the study, defined "daytime home" as the tv home in which the housewife personally watched daytime tv during the week before she was interviewed. Highlights of the study findings are:

- Two out of every three tv homes are daytime homes.
- Daytime viewers are younger. The largest single group of daytime tv viewers (29%, compared to 22% who work and can be interviewers) is in the 25-34 age group of young married couples, who are raising children, setting up homes and generally spending money.
- Daytime families are larger, with 371 persons in every 100 daytime homes to 312 in every non-daytime home.
- More daytime families have children (64%, against 49% for non-daytime homes).
- Daytime families have higher incomes, averaging $4,710, compared to $4,020 in non-daytime homes; 36% of daytime families earn $5,000 or more, against 26% of non-daytimers.
- Daytime families live in larger and better markets. Nearly three quarters live in markets of 50,000 or more population, to half of nondaylight families. More than half the daytime families live in above-average markets, a third in average markets and only 14% in below-average markets.
- Daytime families are better and bigger customers for food products. Two thirds spend more than $20 a week for food and grocery products and for all of ten food items studied more daytime tv families buy the product each week than non-daytime families do.
- Daytime families are better and bigger customers for household goods. More daytime families buy these items each week than non-daytime families and they buy more of them—

455 units of seven items studied purchased by 100 daytime homes each week to 348 units bought by 100 non-daytime homes.

- Daytime viewers are better customers for children's fare, with about 40% of daytime tv watchers spending more than $100 in the past year for toys.
- Daytime viewers are better customers for household goods, with about 25% of daytime tv watchers spending more than $100 in the past year for food.
- Daytime viewers are better customers for home furnishings, with about 15% of daytime tv watchers spending more than $100 in the past year for furniture.
- Daytime viewers are better customers for housewares, with about 10% of daytime tv watchers spending more than $100 in the past year for cleaning supplies.
- Daytime viewers are better customers for all types of goods, with about 5% of daytime tv watchers spending more than $100 in the past year for all types of goods.
- Daytime viewers are better customers for all types of services, with about 2% of daytime tv watchers spending more than $100 in the past year for all types of services.
250 million pounds of sugar — that is the annual production of Nebraska’s sugar refineries. The million tons of sugar beets grown every year put the state fourth in the nation’s sugar production. The beet sugar industry is a rich bonus to Nebraska’s corn, wheat and cattle — and the multi-million dollar sugar industry is a valuable extra in Big Mike’s Midwest Empire. Nebraska’s farms and factories depend on Big Mike, the 50,000 watt KFAB, for service and entertainment all over this vast area. For the Big Mike story, talk to your Free & Peters representative, or contact Harry Burke, General Manager.
in eight, tied in one (freezers) with the non-daytime homes.

- Daytime families are better customers for cars, with 80% owning autos and 14% buying one within the year, to 67% car-ownership among the non-daytime families, only 5% of whom bought new cars within the year.

- Daytime tv, specifically the right program, is the final step for the advertiser to his best customer prospects. Cases cited typically showed non-tv homes to be below-average purchasers, all tv homes to be somewhat above average, daytime homes to be higher above average and viewers to specific programs high-

BERNAYS STUDY ASSAILS TV COMMERCIALS

Public relations counsel also continues crusade in magazine article, foreseeing governmental controls as a possible result of tv abuses.

(Also see editorial, page 126)

PRESENT-DAY television commercials are condemned by senior class presidents of colleges and universities throughout the country because of "their inferior quality, their exagerrated length, their over-emphasis and their inaccuracy," it was reported last week by Edward L. Bernays, public relations counsel, in releasing his latest study on public attitudes toward tv commercials.

"This is a bad omen for the future of sponsored broadcasting unless the quality and effectiveness of tv commercials are improved," Mr. Bernays commented, "since it is logical to assume that these class presidents are likely to be influential later on, and at present reflect their contemporaries' judgments."

Mr. Bernays previously had issued two studies on tv commercials, one reflecting the opinions of educators, businessmen and officials of trade publications, and the other of barbers, butchers, beauticians and bar and tavern keepers.

The two studies, Mr. Bernays said, showed that "a wide variety of people resent tv commercials in their present form and want them improved."

The third study, according to Mr. Bernays, was based on 112 answers to a letter-questionnaire sent to senior class presidents at universities and colleges in all states, as listed in The World Almanac. He said the study reveals that "the younger generation agrees with criticisms of their elders . . . who echo the general contempt for most tv commercials."

About 70% of the class presidents, Mr. Bernays reported, expressed the belief that tv commercials do not serve "the public interest, convenience and necessity." Poor taste and length and timing were said to account for the largest number of complaints.

Among the comments on tv commercials by class presidents, as reported by Mr. Bernays were: "Some dramatize to the extent of being repugnant." "They are too long, in poor taste, of little interest and thus of little value." "They irritate." "They seem to assume that all Americans are extremely ignorant." "Take too much time trying to appeal to reactions which are, for the most part, childish." "They are insulting to a person's intelligence, and are nerve-wracking and interrupting, causing more antagonism than anything."

Most frequent recommendations made by many respondents to improve tv commercials, Mr. Bernays said, was to shorten them and cut down their number, with commercial mentions only at the beginning and the end of the program. About 5% urge some form of censorship-government or civilian—to "eliminate the worst excesses," according to Mr. Bernays.

The average viewing time per week of the class presidents was reported by Mr. Bernays to be eight hours and ten minutes.

Meanwhile, Mr. Bernays has written an article, appearing in the June 7 issue of New Leader, which contends that the present American system of television broadcasting is in jeopardy because of public antipathy to "irritating and obtrusive tv commercials." Mr. Bernays voices the belief that public attitudes toward commercials may result in stringent government regulations or control not only of commercials but of the television industry itself.

Agencies Run the Show

Mr. Bernays charges that the tv industry sponsors, advertisers and networks pay little attention to commercials, with agencies delegating responsibility for them "to the people who lack the skill, experience or imagination or talent to produce top-notch commercials."

Recommendations offered by Mr. Bernays to improve the quality of tv commercials include the employment of "creative craftsmen, skilled in the necessary audio, visual and aesthetic impact," and the setting up by the tv industry of a foundation to carry on fundamental research on how tv commercials can meet the needs of economics and of the public interest within the framework of the present system.

The senior class president study and the magazine article represent the latest steps taken by Mr. Bernays in a campaign which he said was undertaken to improve the quality of tv commercials so that they "may serve the public interest, convenience and necessity."

730,000 Tv Sets in Canada

THERE WERE close to 730,000 television receivers in Canada at the end of April, according to figures of the Radio-Television Manufacturers Assn. of Canada. Of this total the province of Ontario accounted for 463,000 sets, with Quebec province having 209,000 receivers.
JUST to keep the readers of Broadcasting aware of the way the wind blows in certain quarters, here are a pair of consumer magazine clippings:

"... how to teach a crow to talk? Put it in a dark room. Turn on a radio. After a few weeks the crow gets lonesome and starts talking." The editor commented, "Who wants a crow that talks like a radio?"

Item 2: "One warm spring evening recently a pair of Indian braves, in town to celebrate, checked into a hotel, opened the windows, and turned on the room's tv set. It so happened that the Stockyards were particularly fragrant that evening. 'Ugh' remarked one of the men, 'television smell terrible'."

We bore that with equanimity; what got us was the comment which followed: "Isn't that absurd? Indians never say ugh."

* * *

Apparently everyone doesn't share our enthusiasm for radio and tv in general and KGNC in particular. Anent the latter, with innate immodesty we call your attention to a Fact: Amarillo is again No. 1 for the nation in retail sales per family. If this suggests that we're worth an investment, it's no coincidence.

KGNC - AM & TV
Amarillo

AM: 10,000 watts, 710 kc. TV: Channel 4. Represented nationally by the Katz Agency
At the recent NARTB Convention, broadcasters & advertisers

Any way you look at it...

- Excellent color fidelity. Special Masking Amplifier plus overall quality of system results in superlative reproduction.

- Continuous film movement. No intermittent action. Optical immobilizer eliminates claws and shutter.

- Sensitivity of system faithfully reproduces all tonal gradations through gamma-corrected amplifier.

- Film may be run forward or backward. Stopped at any point. Speed may be varied.

- No shading adjustments necessary. Picture free from edge flare and shading. Completely automatic from remote panel.

- Entirely new standard of operating economy for both color and monochrome operation.

Du Mont®
agreed conclusively—

YOU’RE YEARS AHEAD with the

DU MONT COLOR MULTI-SCANNER

Here is the one system that puts you years ahead... whether for monochrome or color. The Du Mont Color Multi-Scanner permits you to be ready for the day you start color broadcasting, and at the same time provides a means of monochrome-film, slide and opaque pickup surpassing all other systems in quality of performance, operating economies and dependability. Yes, sir... anyway you look at it... you’re years ahead with the Du Mont Color Multi-Scanner — the only continuous-motion scanner now IN PRODUCTION!

...FOR COLOR

Permits the average television station to prepare for color now, without the large investment required in specialized color equipment. The cost of the system may be amortized over both current monochrome broadcasting operations and future color operations.

The Color Multi-Scanner eliminates registration and other technical problems inherent in triple pick-up tube camera designs. The single scanning tube along with the unparalleled sensitivity of the Du Mont Multiplier Phototube results in a color signal source far surpassing that of other systems.

...FOR MONOCHROME

The Color Multi-Scanner can go right to work on monochrome transmission. Utilization of the same equipment provides fine quality black and white reproduction. At the flick of a switch—your choice of color or monochrome—it’s as simple as that!

The Color Multi-Scanner is basically the same as the famous Monochrome Multi-Scanner with the exception of a light-splitting mirror system and additional unitized channel amplifiers. All operational advantages and economies have been retained.

...AND OTHER DU MONT COLOR EQUIPMENT

Incorporated in the Du Mont Color Multi-Scanner and available as a separate unit for improving other color signal sources, the Du Mont Color Masking Amplifier adds new realism to color signals. It permits compensation for dye and filter deficiencies and adds new qualities to any color setup.

Get details on the complete line of Du Mont color transmitting accessories. As always... in color or monochrome... it's Du Mont to be first with the finest!

COLLEGE PREDICTS 37,000
MORE TV PEOPLE BY '60

ROUGHLY 37,000 additional qualified people
will be needed to man about 913 TV stations in
1960, raising employment of the television
industry to about 60,000 in over five years.

Those are the chief findings in a survey
conducted by the radio-TV department of Columbia
College, Chicago, whose conclusions are being
released today (Monday). The study was con-
ducted among top executives of 154 television
outlets, 14 network officials, TV directors of 10
"leading" advertising agencies.

Group comprised questionnaires returned by
FCC Comrs. John C. Doerfer and Robert T.
Barley, as well as a response from a member of
the Joint Committee on Educational Tele-
vision.

The majority of responses (47%) on number of
stations felt 800 would be on the air, while
22.7% felt it would be closer to 1,100 outlets.

One of the most surprising findings was that
the number of employees per station will be
smaller (67 responses); additional personnel
will come largely from in-service training by
TV stations, from radio and other
stations (93, 56 and 28 responses); there
are enough colleges and universities to provide
training (113-52); there will be more women
employed (154-23), and color TV is not likely
to change personnel requirements of stations
(109-70).

Full Business Census
In Prospects for 1955

FULL census-taking of businesses, manufactur-
ingers and mineral industries is in the cards.
The House has authorized such a census tak-
ing in fiscal 1955 to cover the current fiscal
year. For this project, some $8,450,000 is be-
ing recommended.

The proposal is a reversal of the previous
position taken on Capitol Hill which would
have permitted some $650,000 for "spot check"
census.

The Senate Appropriations Committee last
week in taking cognizance of the actions in
the House, decided to delete the $650,000 figure
from its Commerce Dept. budget bill in prepara-
tion for the larger figure requested only last
Tuesday in the House.

'Lucy,' Comedy Hour Lead
Latest Nielsen TV Survey

CBS-TV's 'I Love Lucy' and NBC-TV's 'Colgate
Comedy Hour' lead the latest Nielsen
Ratings, according to a survey of TV viewing

Decca Undecided on 78s

An official of Decca records stated that the
company was planning to send 45 rpm to sta-
tions, but said it had not decided whether it
would discontinue 78 rpm to stations which
request them. He reported that the company
had not received any complaints as it had not
issued a statement on its policy.

An official of Decca records stated that the
company was planning to send 45 rpm to sta-
tions, but said it had not decided whether it
would discontinue 78 rpm to stations which
request them. He reported that the company
had not received any complaints as it had not
issued a statement on its policy.

A spokesman for Columbia records said the
firm had received too few complaints and a
number of complaints from stations a few weeks ago when
reports circulated that Columbia would release
45 rpm's. He added that complaints have been
"filtered down" in the last week so as to
stations learned it is an industry-wide move,
aimed at effecting economy in operations. He
pointed out that the lighter discs would spread
up deliveries and result in more frequent re-
leases to stations.

Only a "few" complaints were received by
Decca records, an official there said.

MERCURY records, an official there said, has
BET. Along with other record company executives, he
pointed out that the time is "ripe" for the
change, as 45 rpm's are the most generally-
accepted records and 78's have been "on the
way out for some time."

Carl Zamoiski, of Capitol records said the firm has received "five or six letters and one phone
call" from stations on the change. He voiced
the belief that in the long run, the move may
benefit stations. He claimed the stations would
save space with 45's, and said that the Capitol
45 rpm is a better quality record than the 78.

No comment was available from RCA Victor.
A spokesman said the company had not re-
sponded to reports from its field managers who
would be apprised of station reaction.

Regret Expense

All officials said they regretted any expense
the stations might have incurred in effecting a
conversion, but they pointed out that this
investment should not be a considerable one.
It was estimated by several executives that
conversion expenses would run from $85 to
$100 for the most stations requiring change-
covers on equipment.

On behalf of the change-over, effective July
6, Joseph M. Zamoiski Co., Columbia dis-
tributors in the Baltimore-Washington area, said
the Columbia decision has "been motivated by
the increasing advantages of microgroove
records in the overall realm of programming,
storage, fidelity and speed of delivery."
The firm said it would be "a new level of fidelity
to radio stations."

Space savings afforded by this new policy are
too obvious to necessitate detailed description.
Shipment of new releases should reach radio
stations faster than the present system and
breakage should virtually be eliminated.

"With the first shipment of new releases,
Columbia will endeavor to supply all stations
in special assortments of the top hits so as
to make cueing of different types of records a
minimum problem during this conversion.
Plans for additional shipments of standards and
catalog selections to follow through the
balance of the year have already been blue-
print. This advance notice will also allow
those few stations not currently equipped for
the playing of microgroove records to make the
minimum adjustments at their convenience."

Carl Zamoiski Jr., of the distributing firm,
told BET some complaints have been received
from stations. These have been referred to
Columbia.

Russ H. Beville, chief engineer of WWDC-
AM-FM Washington, 24-hour station featuring
a heavy schedule of records said 45s are harder
to cue and are not as satisfactory as 78s from
an operation standpoint. Asked about conver-
sion costs, he said he had two Pro-ject tables could be
converted for $185 each but would be out of
action two weeks. Four RCA turntables at
WWDC could be converted for around $110
each, he said, with several rim-drive tables
involving a conversion cost of only $30 to $50
each. Some of the station's 13 turntables cannot
be converted, he said, with new ones costing
$600 to $700 each, depending on type of head.
He said some stations might employ "peewee"
45 consumer players costing around $15 but

Broadcasting • Telecasting
When a station is new and faced with the job of quickly integrating itself among local sponsors, it's a good idea to make use of program material which "needs no introduction."

That's straight-from-the-shoulder advice expressed by Oliver Thornburg, Sales Manager of WSTN, St. Augustine, Fla. After only a few months of operation, WSTN has carved a solid niche for itself. Thornburg gives a great deal of the credit to his Associated Press news sales.

Thornburg knew The AP was firmly established in the minds of listeners while his station was not. So in his approaches to prospective sponsors, he stressed the long-standing familiarity that those listeners feel toward AP news and features ... that this, by association, made WSTN a friend of good standing in the community.

The station has twelve 5-minute AP newscasts daily (4 presently sponsored); a quarter-hour newscast (sold); five daily spot summaries (all sold); eight spot summaries on Sunday (all sold).

AP features are important revenue producers for WSTN. A daily weather feature is sponsored by a well-known beer; "Sports Whirl" and "Sports Special" are both sponsored by an auto dealer, who also carries a spot summary in the morning. "Jigsaw News" and "Flashes of Life" are important segments of an early morning participating show. A bank identifies itself with the popular "It Happened This Week" on Sunday. "Listen Ladies", "Women's World" and "To Market, to Market" are all part of a woman's show about to be sponsored by a well-known dairy.

Sales Manager Thornburg, with a background of 13 years experience in radio and TV, says:

"AP is one of our greatest assets — it rang the cash register immediately — and that's important to a brand new station. AP is a brand name every thinking person knows and appreciates."

Those who know famous brands ... know the most famous brand in news is AP
SMOOTH YOUR WAY TO SALES WITH FOUR BIG PLUSSES

+ TO FILL IN THE GAPS
Mutual has 328 affiliates in markets where no other network has a station, where other media straggle—but where 9,000,000 radio families live and buy.

+ TO OBLITERATE DISTANCE
Mutual is the far-largest of all networks, with 570 stations, closest to the most people—and the most dealers and distributors—in the most markets.

MUTUAL BROADCASTING SYSTEM...
There's no obstacle between you and 48-state sales that network radio can't smooth out best—and no network can smooth your way to sales with earthier advantages than Mutual's. Examine the four special plusses shown here...Mister PLUS at the controls.

+ TO BROADEN THE BASE
Mutual's unique combination of programs and stations draws more out-of-home audience than other networks—and in-home audiences that all media miss.

TO COVER THE GROUND
Mutual has engineered new ways to use radio for maximum flexibility and multiple impact—"Top Ten"-size audiences regularly delivered at rockbottom cost.

... the ALL-America network for radio ... PLUS
By using America's only "3-state one-station TV network" you can save the cost of a $3,900 Jaguar sports car in fifteen weeks of a half-hour weekly program.

**COVERS 3 STATES**
Mt. Washington's more-than-a-mile high TV station covers most of the three states of Maine, New Hampshire, and Vermont. On the air in August.

**WHAT A REACH**
Covers virtually all the families local stations do. Reaches thousands of families they cannot reach. Costs 54% less than the combination of the 3 TV stations giving next best coverage.

Mt. Washington TV, Inc.
WMTW
Channel 8

Represented nationally by
HARRINGTON, RIGHTER & PARSONS, Inc.
doubted if they would be satisfactory except for occasional use. Either temporary spindles or center inserts must be employed in adapted turntables, he noted.

Mark L. Haas, director of KMPC Los Angeles, describing the KMPC situation as probably typical from a mechanical standpoint, said the station is set up primarily to handle 78 rpm records and 33 rpm transcriptions. "To convert this equipment to handle 45s would cost us well over $3,000," he said. "In addition we would have to build filing cabinets at further expense."

Penalty on Millions

"Multiply this by the 2,500-3,000 stations in similar position," he continued, and it becomes obvious that record manufacturers "are imposing a penalty of many millions on the radio industry—and, incidentally, providing a mighty attractive melon to be cut up by the manufacturers of 45 equipment." Mr. Haas looked at the handling problem this way: "The small-sized 45s undoubtedly are excellent for home use where the operator can carefully cue up the record. However, the situation is quite different with the disc jockey who plays his own records—and most of them feel they can turn out a better show by so doing—and always is working under pressure.

"The small records are difficult to cue up, there is a tendency for the needle to skip the shallow grooves, the small records do not stack as well as do the larger 78s, the records are difficult to pick up and handle.

The one Los Angeles station fully equipped to handle 45s in all studios informs me that their disc jockeys use the 45s along with 78s largely because the front office insists that they do so. The inconvenience of switching playing arms between records (and the resulting program interruption when the busy, harried DJ overlooks doing so) certainly discourages adding multiple playing arms and speeds to the record spinner's numerous other responsibilities."

Equally disturbed was WICC Bridgeport, Conn., which sent a letter to heads of five recording companies pointing to practical difficulties faced in the changeover. Wallie Dunlap, WICC-AM-TV program vice president, said after talking over the problem with Philip Merryman, general manager, and Bob Crane, radio program director, that record firms "are forcing upon your greatest promotional medium circumstances which in actual fact will be entirely impractical."

He continued:

"To begin with, the average radio station in the United States, particularly those operating on a music and news format such as we do, would have to completely re-equip itself in order to accommodate such a change. Micro-groove heads, 45 rpm tables, and a different kind of table mat would have to be installed. The 12,000 records we now have in our library would have to be completely reshuffled and considerable carpentry employed to facilitate a new type of storage and handling. Also, because of those 12,000 records, our 78 rpm equipment would have to be retained in addition to the 45 rpm equipment which we have no desire to install or other use for.

Difficult to Handle

"An additional objection to 45s from a radio station's point of view is that they are extremely difficult to handle at air time. They do not cue well, they do not fit present record racks, they do not interchange with any other type of recording, and they are subject to 'skipping' and 'jumping' from vibration."

"I do not think I am being at all pre-
sumptuous in saying that a poll of all radio stations you and the other record companies now service would result in a resounding 'nay' against this move. Since we are your greatest sales medium and you are one of our prime sources of entertainment, I think we have a common enough stake in the matter for a great deal more consideration being given such a problem. After putting it into effect I think many of my associates in the broadcast industry would agree with me that a selective system of purchasing those 78's we choose to play would in the long run be more practical than converting to a system we do not want just to receive some free records from time to time. What's more, I honestly feel that you can gain the economy you seek by a much better organization of your sources of distributing records to radio stations. I submit that a good deal of your present cost is tied up in overlap and waste."

MCA To Represent BOTV
BOTV To Use MCA Talent

AGREEMENT was completed last week under which the Music Corp. of America will serve as representative for Box Office Televisor Inc. and, in turn, BOTV will book all talent for its closed-circuit TV programs through MCA unless specific individuals are requested by a client.

The arrangement is said to mark the first time that a talent agency has become active in the closed-circuit field. During the first five months of 1954, BOTV has produced six closed circuit TV programs, two for the Ford Motor Co., and others for the Chrysler Corp., American Management Assn., Pan American World Airways and the Sheraton Hotel chain. The industrial division of MCA, over the past three years, has produced industrial shows for such clients as General Electric, Studebaker, Abbott Labs., Motorola, Hotpoint, Chevrolet and Burlington Mills.

PROGRAM SERVICES SHORTS
City News Service of Los Angeles, under new ownership by A. Mayor Bowron and Joseph M. Quiha, former United Press Southwest U. S. business manager, starts extensive rapid teletype and telephone news service for L. A. area radio and TV stations, from today (June 14). New offices are located at 106 W. 3d St.

Ross Roy, Detroit, appoints Phil Davis Musical Enterprises to originate and produce music for spot series for Dodge job-rated trucks. Campaign will be tested in Detroit area before expansion.

PROGRAM SERVICES PEOPLE
Edward Hochhauser Jr. vice president, Muzak Corp., N. Y., placed in overall charge of promotion and advertising dept. and will direct newly expanded merchandising and advertising activities.

Hal Danson, formerly general sales manager, Adler Communications Labs, New Rochelle, N. Y., appointed director of advertising, publicity and TV, National Screen Service Corp., N. Y., succeeding Melvin L. Geld, resigned (B&T, May 24).

TALKING OVER a BAB "Radio Gets Results" award to Burnham & Morrill Co. (B&M Beans) are Ralph Woodford, BBDO, Boston, account executive for B&M; Bill Cole, B&M sales manager; Ed Wood, general manager, CBS Housewives' Protective League; Frank Reiner, BBDO; Boston, and Jerry Feniger, account executive, CBS Radio Spot Sales, New York. Award resulted from B&M's successful use of the League on WCAU Philadelphia.
every TV station needs

LOW COST COMMERCIALS

that local sponsors can afford

Here's how the GRAY Telop screens out high production costs

Install a Gray Telop as part of your basic TV broadcast equipment for commercials... "screen" out high production costs! Use with any television film camera, including the new Vidicon camera. Projects opaque cards, photographs, artwork, 3¼" x 4" transparent glass slides, strip material, even small objects... pens, watches, cigarette lighters, pipes, etc., or small models of large products.

A Gray Telop... at low initial cost... projects these economical materials and small objects with all the professional versatility of major "network" effects... without using costly film strips or live talent. Sponsors' copy can be prepared quickly, easily, for a variety of effects that is virtually unlimited. Gray's Telop will help you to sell more revenue producing commercials... Increase Your Profits!

Seeing is Believing

- Gray Telop projection of commercials must be seen to be appreciated...
- You get dual projection, superposition, lap dissolve, fade-out... with a single lens system.
- You can project "cinematic", exciting visual effects for greater audience interest...
- Your Gray Telop will pack punch and profit into every minute of your TV commercials... at a price that local sponsors can afford!

MILLER ELECTED TO HEAD SO. CALIF. AGENCY GROUP

Maine Broadcasters to Meet

TWO-DAY MEETING OF MAINE BROADCASTERS ASSN. will be held June 17-18 at Portland Spring House, Poland, with FCC Comm. George Sterling as a speaker. Mr. Sterling will take part in a discussion and luncheon on the first day. NARTB is sending John F. Meagher, new radio vice president who takes office June 15, and Charles H. Tower, acting assistant NARTB. BMI will conduct a clinic June 18. Harold H. Meyer, WPOR Portland, is MBA president.

Indiana Meeting June 24

RADIO sales problems will head the agenda of the June 24 meeting of Indiana Broadcasters Assn., to be held at the Indianapolis Athletic Club. Both radio and tv sales problems will be discussed, with all types of stations covered. Brooks bowling tournament will be considered. A BAB award will be presented and a BMI clinic will be held June 25.

TRADE ASSNS. PEOPLE

Glen E. Carter, Bank of America, elected president, Los Angeles Ad Club. Named first and second vice president, respectively, were Nelson Carter, Foote, Cone & Belding, and Paul G. Beach, Union Pacific R. R. J. A. Crooks, Certified Grocers of Calif., elected treasurer, and Robert L. Hemmings, Burroughs Inc., secretary.

Slocum Predicts Tv to Pass Other Media

PREDICTION that television will outrace all other "media giants" was voiced last week by Richard W. Slocum, executive vice president of the Philadelphia Evening Bulletin and president of the American Newspapers Publishers Assn.

Mr. Slocum, who addressed ANPA production men in Atlantic City early last week, warned that newspapers needed higher quality at reduced cost.

"The charge is tougher," he said. "Other media giants also are stirring. The most recent one, probably destined to outgrow all the rest of them, is going up fast—televison, with color tv almost ready to break.
The South's Prosperous Piedmont is a world center of the textile industry. It's the home of Cone Mills Corporation, world's largest producer of denim; Blue Bell, Inc., giant converter of denim; Burlington Mills Corporation, world's largest weavers of man-made fibers; Dan River Mills, Inc., and many others. Employees of these textile empires spend many hours daily viewing WFMY-TV.

Textiles team with agriculture and other expanding industries to furnish 2 billion dollars of spending money to eager buyers in WFMY-TV's North Carolina and Virginia viewing area.

WFMY-TV covers the Prosperous Piedmont's 31 county gold mine where 1,700,000 people live, work and buy. To get your share of sales in this wealthy market, call your H-R-P man today.
"...incredible, but true—WCKY just sold over 1,362,500 packages of seeds for Lancaster County Seed Company... in only 13 weeks. These results are simply phenomenal. Believe it or not, they're even better than your record in 1951, when you sold 1,010,000 packages of seeds."

"...WCKY STILL has its tremendous audience. Further... again as usual, you produced as much business as all the other stations we used PUT TOGETHER."

WCKY... ON THE AIR EVERYWHERE • TWENTY
No...not incredible to you if you are a WCKY Advertiser.
It's as simple as $1 + 1 = 2$.
A good product, plus WCKY's tremendous coverage...and a loyal, responsive audience, is ALWAYS an unbeatable combination.
This same unbeatable combination is ready and waiting to do a real job for you. Get all the facts...then get your sales story on WCKY...and get "phenomenal results."

- FOUR HOURS A DAY • SEVEN DAYS A WEEK
SENATE UHF HEARING RESUMES TUESDAY WITH FULL SCHEDULE

VHF telecasters prepare to tell their side of the story as Sen. Johnson discloses excise tax relief for uhf sets is still to be considered by the Senate Finance Committee. NARTB's Harold E. Fellows will speak for all television, not vhf or uhf.

GENERAL plan for the Senate uhf inquiry which resumes tomorrow (Tuesday) afternoon is for additional uhf and then NARTB, vhf and network representatives to testify, roughly in that order.

Announcement by Sen. Charles E. Potter (R-Mich.), chairman of the Senate Communications Subcommittee, that the hearing will get underway as planned, highlighted a week of:

• Final preparation of the vhf testimony which will be developed by four to five vhf telecasters and attorney W. Theodore Pierson, Washington counsel for the vhf segment of the tv industry.

• Action by Sen. Edwin C. Johnson (D-Colo.) who revealed he has a commitment from the Senate Finance Committee, of which he is a member, to consider his proposal for uhf receiver excise tax relief on its merits. The Johnson amendment, he disclosed, will be taken up when a measure on estate taxes (HR 6440) comes before the committee. The Senator is banking on wide industry support and the policy statement of the Potter group favoring such relief (elimination of the 10% excise levy at the manufacturing level).

• NARTB affirmation that it will not sympathize with either "uhf or vhf". Senator Harold E. Fellows, who will testify this week, said he will represent "television."

The hearing opens tomorrow at 1:30 p.m. in G-16, the regular Senate Commerce Committee room in the Senate wings. Sessions each day thereafter will begin at 9:30 a.m.

It was disclosed last week that Rep. John E. Moss Jr. (D-Calif.) of Sacramento has asked to testify before the subcommittee.

Only Fellows for NARTB

Also revealed was the NARTB decision that A. Prose Walker, manager of NARTB Engineering Dept., would not testify. President Harold E. Fellows of the trade association will be the sole NARTB spokesman.

Network people are expected to be the last to appear on the stand. Sessions probably will go through the week.

The unofficial witness list as of last Thursday:

Raymond F. Kohn, WFMB-TV Allentown, Pa.;
Melvin Goldberg, consultant, UHF Industry Coordinating Committee; Noran E. Kirszt, WFTL-TV Ft. Lauderdale, Fla.; Farris Kahall, WPEA Manchester, N. H.; Thomas Olsenas, WYEO-TV Norfolk (Hampton); Hubert Taft Jr., WKRC-TV Cincinnati; Gordon Brown, WSBAY Rochester.

Also, Franklin C. Salisbury, attorney, Salisbury & Wall; Raymond Wilmore, consulting engineer; Leon Green, KNEZ-TV Houston; Philip Merryman, WICC-TV Bridgeport, Conn.; J. Howard McGrath, attorney (representing Edward Lamb); John Essau, KTQV (TV) Oklahoma City.

Also, Mr. Fellows; Irvin M. Kipnes, Beachview Broadcasting Corp. (vhf applicant in Norfolk) George F. Cameron, CO.; Mr. Pierson and the vhf group; A. Earl Cullum, consulting engineer; Rep. Moss; Paul Bartaz, pres.; Paul B. Fellows; Larry Kaner (rear), sls. mgr. for tuna firm.

GOVERNMENT

10-CITY PLAN OFFERED TO STOP INTERMIXTURE

WCAN-TV's Lou Poller, president of UHF TV Assn., makes the suggestion in a letter to the Senate Communications Subcommittee studying uhf.

PROPOSAL that 10 major markets, now operating with intermixed vhf and uhf stations, be switched over at once to vhf or uhf-only was made last week to the Senate Commerce Subcommittee investigating the plight of uhf television.

Suggestion was made by Lou Poller, ch. 25 WCAN-TV Milwaukee, who is also president of the Uhf TV Assn. Mr. Poller has been one of the leading proponents urging Congressional action to eliminate intermixture.

Mr. Poller suggested that among the ten cities, which, he said, account for almost 50% of the three million receivers in the United States, those which have a predominance of uhf stations be made entirely uhf, and those with a predominance of uhf stations be made solely uhf. These are the cities and the estimated set count, as listed by Mr. Poller:

Total 6,080,000 1,245,000

"There may be some 'secondary' markets that I have not yet covered which can be included," Mr. Poller wrote in his letter to Committee communications specialist Nicholas Zapple, "but—if these markets are changed to all V or all U, whichever is predominant, you will be eliminating almost 50% of the problems of the country in one stroke without serious dislocation. More important, it sets up the laboratory for the total elimination of intermixture and reallocation."

In such markets as Portland, Ore., where the intermixture problem is not acute, Mr. Poller recommended that where additional stations are granted in such markets then the cities should be designated either all vhf or all uhf.

"There should be no further licensing of any stations, whether black and white or color that create intermixture," Mr. Poller said.

Broadcasting • Telecasting
No small feat!

Northwesterners once believed no one could ever follow in Paul Bunyan's footsteps. So big were the legendary hero's boots that his footfall resounded across three counties.

But today—thanks to giant WCCO Radio—Cedric Adams fills Bunyan's boots and then some. Adams (as most everyone knows) is WCCO's nationally-famed humorist, emcee, commentator and columnist. When he speaks, he steps up sales over a 109-county, 992,400-family territory.

And no wonder: throughout this vast area, he's listened-to during the week by two out of every three of these families!

If you'd like to make giant sales strides in the Northwest, ask us or CBS Radio Spot Sales about Cedric Adams or some of the other fast-stepping personalities on WCCO Radio.
UHF TAX RELIEF URGED BY BRENNER

UHF telecaster can be helped with tax relief, West Coast attorney Joseph Brenner, former FCC legal aide, submitted last week to the Senate Commerce subcommittee looking into the problems of UHF.

In his statement, filed with the Committee, Mr. Brenner recommended that uhf broadcasters be permitted to offset expenditures made in promoting and developing a uhf audience in the early years of operation against later earnings after such circulation has been established.

As an alternative, he suggested that uhf broadcasters be permitted to treat such expenditures as current operating expenses.

Mr. Brenner also recommended that uhf broadcasters be permitted the same rate of depreciation on their equipment as permitted to vhf telecasters up to this year. This is a four-year "straight-line" depreciation factor, now being proposed by the Bureau of Internal Revenue.

The Los Angeles attorney also suggested that manufacturers be required to label vhf-only receivers as not capable of receiving all of the channels which may be operating, or which have been allocated, to a community. A more drastic approach "but correspondingly more effective one," Mr. Brenner said, would be to prohibit in interstate commerce the shipment of vhf-only receivers.

Mr. Brenner referred to his previous suggestion to the FCC [B-T, May 3], which proposed the establishment of subscription television for uhf stations only, and provision for stereophonic or multi-channel sound for uhf stations only. He also recommended that uhf stations be permitted to program music with fixed visual images, such as test patterns, slides and still photographs, as vhf stations were permitted to do prior to mid-1951.

In his final proposal to the FCC, Mr. Brenner recommended that FCC rules be changed to require that networks have one third of their affiliates on the uhf band, at the end of one year; and one half at the end of two years.

FTC Implements New Compliance Program

STEPS are being taken by the Federal Trade Commission to put into effect its "integrated compliance program" and other improvements in its compliance procedures, it was announced last week by Chairman Edward F. Howrey.

The program calls for a systematic and selective review of 4,000 cease and desist orders, 8,000 stipulation-agreements to cease and desist, and 2,000 trade practice rules, he explained.

Chairman Howrey announced that FTC has appointed the recommendations of a special committee he appointed last summer to study the agency's procedures for obtaining compliance with the laws it administers.

As the initial step in the integrated compliance program, Mr. Howrey said the Commission has directed FTC Executive Director Alex Akerman Jr. and General Counsel Earl Kintner to start a systematic survey of all outstanding orders, stipulations and trade practice rules.

Other steps to be taken include: (1) Closer coordination between the general investigation staff and the staffs primarily responsible for compliance. (2) More frequent use of procedures for requiring the filing of special follow-up reports "showing the manner and form of compliance with cease and desist orders." (3) Use of a more informative letter of notification to respondents under orders and parties to stipulations concerning the action taken in receiving and filing their reports of compliance. (4) A more effective program for exhibiting the cooperation of industry members to effect industry-wide observance of trade practice rules, including more extensive utilization of industry trade practice committees.

In announcing the plan for systematic surveying and screening of stipulations, Mr. Howrey said:

"In the past, checks on compliance with stipulations have been limited almost entirely to matters brought to the Commission's attention from outside sources or detected in the regular survey of radio and periodical advertising. There have been no systematic checks on compliance after the required report of compliance is received and filed by the Commission. This has resulted in a backlog of some 8,000 stipulations in which the Commission is without any reasonably current information as to whether the parties thereto are complying with their agreements."

TREASURY LAUDS RADIO-TV AID

Department officials, backed by message from President Eisenhower, pay tribute to the role of radio-tv and all advertising in the promotion of sales of U.S. Savings Bonds.

OFFICIAL praise for the role of radio, tv and other advertising media in stimulating public sale of U.S. Savings Bonds was given Tuesday by President Eisenhower, Secretary of the Treasury George M. Humphrey and other high government officials.

Volunteer work of the advertising industry was reviewed at a Washington meeting of Treasury officials and 20 executives of advertising agencies and media who represented the Advertising Council. Distinguished Service Award for his six years of service as Advertiser Council volunteer coordinator for Savings Bond advertising was presented to Thomas H. Young, president of U.S. Rubber Co. Robert R. Mathews, vice president of American Express Co., becomes the new coordinator.

President Eisenhower's tribute to advertisers, agencies and media was conveyed by Sherman Adams, Assistant to the President. Niles A. Lennartson, Assistant to the Secretary, presented Secretary Humphrey's appreciation. Speakers included W. Randolph Burgess, Deputy to Secretary Humphrey; Dr. Neil H. Jacoby, of the Council of Economic Advisers, and Earl O. Shreve, national director of the Treasury's Savings Bond Division.

Sales of E and H bonds have broken long-time records each month this year, Mr. Shreve reported. The following is a further increase in net sales.

The Tuesday meeting included a general discussion of the role all media play in bond sales. Radio promotion includes the weekly Guest Star quarter-hour disc on 2,800 stations plus an average of 15 announcements on each station. Nearly 100% use of film announcements on tv stations was reported, with each station carrying an average of five announcements a week. In addition the radio-tv promotion includes wide use of Treasury Bandstand programs, with AFM musicians and the networks contributing services and facilities, plus spots on co-op net-

TREASURY DEPT. distinguished service award is presented to Thomas H. Young (l), director of advertising, U. S. Rubber Co., by Secretary of the Treasury George M. Humphrey. Mr. Young retired Monday as Advertising Council volunteer coordinator for Savings Bond advertising.

work shows. On top of these contributions are the regular Advertising Council allocations on commercial programs.

Mr. Shreve told B&T that radio and tv give outstanding help in spurring bond sales. He said:

"I want to thank the broadcasters of America for the leading role they are playing in our sales success. Radio and television have contributed to our program in a major way by effectively and consistently delivering savings bonds messages to virtually every family in the land."

"Your broadcasts have induced millions of citizens to save for personal security and our country's economic welfare through systematic investment in Savings Bonds. May I express to every broadcaster the Treasury Dept.'s sincere thanks for a magnificent job in the public interest."

Radio-tv representatives at Tuesday's council meeting included Ralph W. Hardy, NARTB; Earl H. Gammons, CBS; Everett Holles, MBS; Leslie G. Arritt Jr., DuMont Tv Network; George Wheeler, NBC.

The council was represented by President Theodore S. Reppier, Hector Perrier and James Lambie Jr. Other Treasury Dept. and Savings Bond Division representatives included Arthur B. Hill, special assistant to Mr. Shreve, and Edmund J. Lineham, newly appointed as assistant national director for advertising and promotion.

Senate Unit to Study Anti-Alcohol Ad Bill

A SENATE GROUP once again will hear testimony on prohibitionist-sponsored legislation to bar alcoholic beverage advertising in all media, including radio and television.

The hearing, the seventh Congressional airing in past year, will be held one week from today (Monday) before the Senate Business & Consumer Interests Subcommittee. The bill (Langer measure) is a companion to the Bryson proposal which was heard a few weeks ago by the House Interstate & Foreign Commerce Committee [B-T, May 31, 24]. It is expected the same people in general will testify in the Senate on the Langer bill (S 3294) as appeared in the House for the Bryson plan.

Introducing a revolutionary and much-needed new service...

STANDARD

SHORTY-TUNES

Monthly releases of 20 current and standard pop tunes, each tune averaging only...

1½ Minutes in length

Abbreviated, yet complete ... Tailored to fit smoothly into time-tight program schedules ... Eliminates breaking into middle of tune as often happens with ordinary 2½ or 3 minute recordings ... Lets you squeeze in that precious extra minute or more you need for an extra commercial without double or triple spotting!

20 New SHORTY-TUNES Each Month—Service provides 10 current pops and 10 standard pops on two 12" 33½ r.p.m. vinylite discs. Featuring top recording bands and combos.

EXTREMELY LOW PRICE—You'll be amazed at how little this service costs. What's more, a whopping discount to present Standard Library owners. You buy SHORTY-TUNES outright — no lengthy lease.

Shorty-Tunes are your short-cut to better, more flexible, more profitable programming. Find out how they can save money and make money for your station. Phone, wire or write for full details and FREE AUDITION PLATTER.

RADIO TRANSCRIPTION SERVICES, INC.
360 N. Michigan Ave., Chicago 1, Ill.
more violence on children's programs was Richard Clendening, staff director of the subcommittee, who used figures provided in a study made by the National Assn. of Educational Broadcasters of programs on seven New York stations Jan. 4-10, 1953. A monitoring survey of programming by NAEB showed, Mr. Clendenen said, that there were 15.2 instances of violence an hour, while for the adult programs, during the sample period, the comparable average was 6.2 instances of violence.

A similar finding was reported by the Rev. Everett C. Parker, director of the Communications Research Project of the Broadcasting & Film Commission of the National Council of the Churches of Christ in the U. S. A. In a survey conducted in New Haven under the supervision of the Yale Divinity School for the past two years, Mr. Parker said, it was found that children's dramas tend twice as violent as adult crime drama and that most of this violence occurred in a non-humorous context.

Another witness appearing before the subcommittee was Mrs. Milton Whitman, who reported on a monitoring conducted in Chevy Chase, Md., for the American Assn. of University Women. She stated that children watching TV are subjected to "a steady diet of crime and violence," and that throughout programs, there was "flaunting of the proper law enforcement agencies."

Sen. Robert C. Hendrickson (R-N. J.), chairman, said his subcommittee had received "thousands and thousands of letters" from parents expressing concern about the influence of television on youngsters. The subcommittee also is conducting a parallel investigation into the possible relationship between crime-sex "comic" books and juvenile delinquency.

"The broadcasting industry has been concerned with the juvenile delinquency issue almost from its beginning," Mr. Hardy told the subcommittee. In radio's beginning there were thoughts that "abnormal behavior patterns" might result from some of the programs and from "the frequent presentation of the news of the day in the instantaneous and living style of radio," he said.

"American free-enterprise radio is pow over a quarter of a century old and it is significant to note that there is no substantial evidence in experience that in any way confirms the prognostications of those earlier prophets of doom," he declared.

Coincidental Patterns

"But having said that, let me make it clear that experience over the years has yielded many valuable lessons and guide posts for broadcasters. We have recognized that there are coincidental patterns of cause and effect ascertainable in youthful emotional disturbances which accompany excessive portrayal of human violence and malpractices in their many aspects. This has led to the establishment of standards of practice and production guides voluntarily agreed upon and self enforced. Significantly, it has also produced a very helpful relationship between the broadcasters of the various communities and parent groups. Law enforcement and educational authorities are most vitally concerned with juvenile delinquency."

Mr. Hardy said the Television Code is a "self-policing" voluntary action taken by broadcasters who "recognize that service to the people of this country is the industry's greatest responsibility as well as its greatest opportunity." He continued:

"...I wish to state that the broadcasting industry is aware of, and deeply concerned with the problem of juvenile delinquency. As broadcasters, we have a very vital interest in all efforts of an educational and preventative, as well as enforcement, character. We do not take lightly our public responsibilities as managers of great media of communication, and will continue to welcome the cooperation of all interested parties who seek for a solution to this major social problem. We have embarked on a substantial and far-reaching project to do something constructive about these issues on a community as well as national basis.

"We are striving to preserve television's influence in America as an influence for good. What we have already learned about its tremendous powers of exposition, of education, of specific and general motivation, makes us avid students of the age in which we live, and students as well of the great communications tool which the creative genius of man has placed at our disposal."

Florida 40 & 8 Unit Would Ban Subversives

FCC was asked last week to exclude automatically from license privilege any person who now is or was associated with an organization cited by the Attorney General as subversive. The request was made in a resolution adopted June 2 by La Societe des 40 Hommes at 8 Chevaux, Voiture No. 202 of the American Legion at Orlando, Fla.

Signed by Chef de Gare Carl D. Buchanan, the resolution was circulated to FCC Chairman Rosal Hyde, Sen. Joseph McCarthy (R-Wis.), other Congressmen and press sources, including B&T.

Although the resolution included no specific name, it was accompanied by the list to which it was circulated plus a photostat of page 2664 of the March 2, 1950, Congressional Record. The page reported comments by Rep. Clarence J. Brown (R-Ohio) on the then current Jefferson-Jackson Day dinner and its guests.

Rep. Brown introduced a “statement” by then Rep. Leonard W. Hall (R-N. Y.) (now Republican national chairman) “about one guest at the dinner, Edward Lamb.” At the bottom of the photostat was typed: “Mr. Edward Lamb is petitioning the FCC for a tv station in Orlando.” Portions of Rep. Hall’s statement concerning Mr. Lamb's background were outlined in red pencil.

Mr. Lamb, owner of WHOO-AM-FM Orlando, is contesting for ch. 9 there. His application for license renewal of WICU (TV) Erie, Pa., has been designated for hearing by FCC July 28 to investigate charges of mis-representation of former Communist associations [B&T, June 7]. Mr. Lamb continues to deny any such former ties and has taken FCC to court.

Rep. Hall’s statement, according to the Record, contended “Mr. Lamb's affinity for Red causes has been the subject of debate on the floor of the House of Representatives on at least five occasions” and gave citations.

FCC Proposes to Regroup Remote Pickup Frequencies

PROPOSED rule making to amend Sec. 4.402 of its rules with respect to frequency assignments to remote pickup broadcast stations was announced by FCC last week.

In addition to incorporating certain changes in Part 4, including the Commission’s action of May 14 in making frequencies in the band 455-456 mc (instead of 451-452 mc) available for remote pickup stations, the FCC proposes to regroup the remaining frequencies below 25 mc into a single group of three frequencies available to all broadcast stations on a shared basis, and to channel the frequencies in the 25.85-26.10 mc band.

Combining the frequencies below 25 mc, the Commission said, would provide flexibility in selecting a remote pickup operation based on considerations of adjacent frequency operation and the proximity of those frequencies to the am band. The proposed channeling of the frequency band 25.85-26.10 mc would provide one 40 kc channel in addition to the present 20 kc channels in certain groups. In addition, a third 20 kc channel is proposed to be added to other groups which are used for the transmission of voice communications, the Commission noted. Comments on the proposal may be filed on or before July 12.

AMERICAN AIRLINES INC.
CULLUM ANALYZES SKYWAVE ISSUES

In a report to clients, A. Earl Cullum Jr., consulting engineer, offers alternate solutions. ANALYSIS of FCC's proposed decision in the daytime skywave case and alternate solutions to those offered by the Commission are set forth by A. Earl Cullum Jr., consulting engineer, in a report submitted to his firm's clients last week.

Mr. Cullum contends that while the FCC proposal [B+T, March 15] is designed to increase protection to Class I clear channel outlets, it actually will result in greater daytime skywave interference at sunrise and sunset hours for both Class I and Class II outlets.

Oral argument on merits of its proposal has been scheduled by FCC for July 15; briefs are due July 8, appearances July 1. Comments on notice of further proposed rule-making to implement the plan are due Aug. 2 with replies Aug. 17 [B+T, June 7].

Mr. Cullum recalls that in the daytime skywave case (Docket 8333), heard by the Commission in 1947, uncontroverted basic engineering data and curves for determining skywave interference were presented by FCC witnesses.

"We know of no engineering objection to the curves at this time," Mr. Cullum says, and the Commission "is bound to accept and adopt these curves to determine daytime skywave interference until additional or better information becomes available".

Summarizing the general effects of the proposal on domestic stations if it is adopted, Mr. Cullum outlines the following:

1. Class I-A Stations—These stations would not be affected in their hours of operation or in power. They could be subjected, however, to serious additional daytime skywave interference by increases in power of existing Class II stations or by the assignment of additional Class II stations to the channel.

2. Class I-B Stations—These stations would not be affected in their hours of operation or in power. Certain of these stations would be required to reduce the radiation toward other Class I-B stations during transition periods from SR to SH + 2 and from SS to SS + 2 (sunrise minus two hours) to SS. They could be subjected to serious additional daytime skywave interference by increases in power of existing Class II stations or by the assignment of additional Class II stations to the channel.

3. Class II Stations—These stations would be affected as follows:
   a. The Unlimited-Time stations would not be affected in their hours of operation or in power. Certain of these stations would be required to reduce the radiation toward Class I-B stations during transition periods from SR to SH + 2 and from SS to SS + 2. They could be subjected to serious additional daytime skywave interference by increases in power of existing Class I stations or by the assignment of additional Class I stations to the channel.
   b. The Limited-Time stations would be limited in their hours of operation to the period from local sunrise to local sunset. These stations would not be affected in their power, but they would be required, in certain cases, to reduce the radiation toward Class I-B stations during transition periods from SR to SH + 2 and from SS to SS + 2. They could be subjected to serious additional daytime skywave interference by increases in power of existing Class II stations or by the assignment of additional Class II stations to the channel.
   c. The Daytime stations would not be affected in their hours of operation or in power. Certain of these stations would be required to reduce the radiation toward Class I-B stations during transition periods from SR to SH + 2 and from SS to SS + 2. They could be subjected to serious additional daytime skywave interference by increases in power of existing Class II stations or by the assignment of additional Class II stations to the channel.

4. Generally—Class I-B, II and III stations would be required to sign on and off, or change mode of operation, at sunrise and sunset with utter disregard of the actual interference conditions at those times.

While Class I stations under the present rules are protected to their 0.1 mv/m contour during the day he says, the new proposal would allow daytime skywave interference to go as high as 6.5 mv/m at 640 kc and ranging to 2.0 mv/m at 100 kc.

In contrast, Mr. Cullum notes the FCC report set forth as an extreme case that of interference by KFuo Clayton, Mo., a limited time station, to the groundwave service of KOA Denver. The interference ranged up to only the 2.8 mv/m KOA contour, he explains, but FCC estimated this as about 80% of the area within the normally protected KOA contour.

"If the Commission feels now as it did when the report and order was released," he says, "the Commission must not be aware of the much higher limitations conditioned by the report and order." For KOA, this would be as much as 5.5 mv/m, he asserts.

"Further investigations on our part have determined that the Commission has made no comprehensive studies to determine the areas and populations that would be lost or gained by a single radio station as a result of daytime skywave interference," the Cullum report says. FCC presented examples of serious interference and then "proceeded to condone as high or higher limitations during the daytime hours for all stations."

The Cullum report contends FCC's proposal would allow daytime skywave interference to Class II stations to go as high as 14.6 mv/m for an outlet 500 miles from the 50-kw station, or 3.8 mv/m at 1,000 miles.

"The Commission proposes to dispose of this problem by ignoring it in effect," the Cullum report says, noting FCC stated there is no evidence as to the seriousness of such interference. "If the Commission feels that the record is defective in this regard with respect

The Night the Stars Came Out

If the stars came out only one night a year, what an audience they would draw. And if WIBW broadcast only one day out of 365, what a rush there would be for availability.

Fortunately for advertisers, WIBW is on the air every day from dawn to midnight. To the farm and small town folks who make up our audience, we're as dependable as the North Star... dependable in our services in their best interests.

That's why WIBW consistently* continues to be the station that Kansas farm folks listen to most—the station where RESULTS make it the first choice of sales-minded advertisers.

*=% of Radio Homes in Area
to Class II stations, we feel that public interest requires that the Commission reopen the record and get full information before attempting to decide the matter on incomplete information supplied by the Commission staff," it continues.

Mr. Cullum observed the interference to Class III stations "is not likely to be so severe" while Class IV stations are not protected from skywave interference during nighttime hours and the daytime skywave interference to them never exceeds that at night.

Mr. Cullum explains that "during the hours before sunrise and after sunset when the interfering stations are either off the air or operating with their nighttime directional antenna patterns, stations are protected from interference."

He notes FCC's proposal "would allow excessive daytime skywave interference to occur at sunrise and at sunset. This situation is most unsatisfactory in that a station which is enjoying wide-spread coverage during the day-time hours has its extensive area limited in the late afternoon hours to a rather small area. Then, at sundown, the station suddenly receives additional protection and its coverage area is extended once more. A similar condition in reverse exists in the early morning hours."

Mr. Cullum states "a more practical arrangement would be one which would allow the daytime skywave interference to build up from the normally protected daytime contour to the normally protected nighttime contour of the station, at which time, the interfering station would either sign off, reduce power, or change its mode of operation to its nighttime pattern in order to provide reasonable protection to other stations."

"Under this arrangement," the Cullum report explains, "two Class I-B stations, designed to protect one another, would change simultaneously from their daytime mode of operation to their nighttime mode of operation. The change would occur at a time such that the daytime skywave interference would not exceed 0.5 mV/m. The change-over time would be related to sunset at the midpoint which could be obtained from suitable curves or tables.

The same principle could be applied to Class II stations which are normally protected to the 0.5 mV/m contour during the day and 2.5 mV/m at night, Mr. Cullum says. Under FCC's proposal, he points out, the interference level to Class II stations from a 50 kw outlet 50 miles distant could be as high as 14.5 mV/m at 1500 kc to 5.0 mV/m at 500 kc.

To make his simultaneous-change plan work for Class II stations, he explains, it would be desirable to change the operating facilities of some Class II stations. But these could be afforded priority under the present freeze in Docket 8333, he indicates.

Mr. Cullum in conclusion says his firm "does not believe that any proposal should be adopted by the Commission until determinations have been made as to the areas that would gain or lose service."

NBS Radio Research Funds

The National Bureau of Standards would get $2.2 million for "radio propagation and standards" research for fiscal 1955 under a report released last week by the Senate Appropriations Committee.

This permits an increase of $500,000 (including NBS administration and construction of laboratories and other research) over the House recommendation. Total recommendation for NBS is $6,615,000.

Shreveport TV Wins; Other Proposed Grants

Recommended victor would take over facilities of now-operating KSLA (TV). FCC examiners rule on five initial grants during week.

LACK of radio facilities, as well as better proposed tv programming, facilities and staff commitments are the key factors which persuaded FCC Hearing Examiner Fanney N. Litvin to recommend that ch. 12 at Shreveport, La., be awarded to Shreveport Television Co., comprised of local theatre, oil and real estate businessmen.

In a 73-page initial decision issued last week, Mrs. Litvin holds that non-broadcaster Shreveport Television Co. is to be preferred over competitors KXOA Shreveport and Southland Television Co.

If the initial decision is upheld, Shreveport Television Co. will take over the ownership of KSLA (TV), now operating on ch. 12 in Shreveport. Station is operating under a temporary grant pending the outcome of the Shreveport ch. 12 hearing [BPT, Aug. 31, Sept. 21, 1953].

In other initial decisions last week, FCC hearing examiners recommended grants for the following: ch. 3 at Sacramento, Calif., to KCRA (proposing to deny KXOA), ch. 2 at Tulsa, Okla., to Central Plains Enterprises Inc.; ch. 2 at Daytona Beach, Fla., to WMFI; and ch. 2 at Henderson, Nev., to Southwestern Pub. Co. (KPSA-AM-TV Ft. Smith, Ark.).

Both Shreveport TV Co. and KXOA are to be preferred, Mrs. Litvin declared, on the basis of local residence and participation and integration of ownership and management. Shreveport is preferred, however, on the factors of programming, facilities and staff and on diversification of the media of communications.

Owners Listed

Shreveport Television Co. is owned by Don George, who owns six motion picture theatres in the Shreveport area; Ben Beckham Jr. and Henry E. Linam, oilmen, and Carter Henderson, real estate. KXOA principal owner, T. B. Lanford, also is 33-1/3% owner of KLPC-AM-TV Lake Charles, La.; 47.2% owner of KALB-AM-TV Alexandria, La.; 23% owner of WSLI Jackson, Miss.; and 88% owner of KRRV Sherman, Texas.

Southland principals own KCJI Shreveport and WMRY and WCKG (TV) New Orleans. Initial decision becomes final in 40 days unless exceptions are taken by the unsuccessful applicants. They have 20 days to file exceptions.

KSLA (TV), now operating on ch. 12 with 11.5 kw from a 270 ft. antenna above average terrain, is licensed to Interim Television Corp. It is owned equally by the three applicants under an agreement which provides that the successful applicant in the hearing buys out the other two. It began commercial operation Jan. 1, and is affiliated with all four networks.

In the Sacramento ch. 3 ruling, Examiner Thomas H. Donahue concludes that "with the slight assistance of its proposed longer broadcast day, KCRA's superior proposal concerning technical matters and personnel allocation couldn't balance the superior showing of [KXOA] on assessment of the community's program needs. Thus, the case turns on considerations of stability versus skill, and it is clear that under the facts here those concepts are not black or
This tremendous Blaw-Knox tower, designed and fabricated for WHIO-TV, is 1104 feet high... five times taller than the highest building in Dayton, Ohio.

**Tower equipped with two-passenger elevator**

Gliding up and down inside the Blaw-Knox Tower, the two-passenger, electrically operated elevator provides quick and easy access to all parts of the tower. A man in the cab operates the elevator by push button control... and can stop it at predetermined levels.

To support both the antenna and this elevator the sturdy triangular tower measures 14 feet on each side and weighs 600,000 pounds. But like an iceberg, there is more weight below than above the surface. For the below-ground pyramid base is 220 cubic yards of concrete weighing 832,700 pounds.

Some features of the Blaw-Knox Type TG-4 Tower construction, which assure a sturdy structure, are the pivoted or articulated base to avoid excessive bending stresses... double laced structural angle bracing to provide extra strong rigid construction... guys that are factory pre-stressed and proof tested to load greater than ever required in service... and hot-dip galvanized coating to protect against all weather conditions.

This tallest TV tower in the world, complete with elevator, is indicative of how we are prepared to design and fabricate towers to meet your specific conditions.

Write for your copy of Bulletin No. 2417 for more information on the many types of Blaw-Knox Antenna Towers. Or, send us your specifications for height of tower and type of antenna for prompt service on your inquiry.

white, but merely varying shades of gray."

Examiner Donahue continues, "We believe that KCRA's showing of close and unbroken identity with the Sacramento community, plus its record of improvement of technical facilities, betokens an insurance of a stable, continuous and progressive service that Sacramento Broad- casters (KXOA) does not match and that this consideration outweighs Sacramento Broad- casters' showing of superior management skill."

Past programming of neither KCRA nor KXOA was considered by the examiner since he found both by and large met the public interest.

Ewing C. Kelly, KCRA president-general manager, told B&T he contemplates a late summer commencement for the ch. 3 station upon final ruling by FCC. While the application specifies NBC affiliation, he asserted negotiations have not been completed. National representative will be Meeker TV.

At Tulsa, Examiner Annie Neal Hunting recommended grant of ch. 2 to Central Plains Enterprises following dismissal of the competitive application of Oil Capital Television Corp. Certain Oil Capital stockholders receive option to purchase 15% interest in the TV venture. Oil Capital also is reimbursed $50,000 for its expenses.

Central Plains is composed of KRMG principals Sen. Robert E. Kerr (D-Okl.) and D. A. McGee, plus KVOO's W. G. Skelly. KRMG is being sold to the Altus, Okla., Times-Democ- rat to meet FCC's duopoly rule. Sale has been protested, however, by KFMJ Tulsa on the ground the newspaper's KWHW Altus overlaps with KRMG [B&T, Dec. 21, 1953].

At Daytona Beach, the initial ruling by Examiner Claire W. Hardy favoring ch. 2 for WMFJ was made possible by the dismissal of the competitive application of WNDB there [B&T, June 7]. W. Wright Esch, WMFJ owner, hopes to get on the air before July 1 of next year and expects to use RCA equip- ment. Joseph H. McGillvra Inc. is representa- tive for WMFJ.

Examiner H. Gifford Irion recommended grant of Henderson ch. 2 to Southwestern Pub. Co. after competitor KRAM Las Vegas with- drew in favor of prosecution of a bid in which it is associated for ch. 13 at Las Vegas, Desert TV Co.

Donald W. Reynolds, president of South- western Pub. Co., said it is hoped to be on the air at Henderson before the end of the year "interconnected with color facilities. RCA equipment was specified in our application." Studios would be located in both Henderson and Las Vegas, he said.

**No Date Set to Consider Doerfer FCC Nomination**

THE SENATE Interstate & Foreign Commerce Committee has not yet set a date for a con- firmation hearing on the nomination of John C. Doerfer, Wisconsin Republican, for a new term of seven years as an FCC member. The nomination was announced by the White House a week ago Friday [At DEADLINE, June 7].

While no official word has come from Com- merce Committee Chairman John W. Bricker (R-Ohio), it was expected the committee may sandwich in the hearing sometime next week. The committee has slated its regular executive session a week from this Wednesday. The nom- ination possibly could be heard that day.

Usual procedure is for the nominee to ap- pear before the Senators to answer any ques- tions. If there is any opposition to the nomina- tion, and in Comr. Doerfer's case none has been expressed to this date, the opposition's testimony is heard.

The silence on a date for the nomination hearing added to that already surrounding the FCC chairmanship. Presidential appointment of a chairman does not need Senate confirma-

**Sen. Hunt to Retire From Political Races**

SEN. LESTER C. HUNT (D-Wyo.), member of the Senate Communications Subcommittee and a veteran member of the Senate Interstate & Foreign Commerce Committee, is on record as saying, "I shall never again be a candidate for an elective office."

The Senator, who has been in bad health, made this statement in a letter to J. J. Hickey, Wyoming Democrat. Sen. Hunt, elected to the U. S. Senate in 1948 and a former gov- ernor of the state, is 61 and has been un- dergoing treatment in Bethesda (Md.) Naval Hospital.

The Wyoming legislator, who had planned to run for re-election this fall, said: "I am com- pelled to withdraw my announcement as a candidate. . . . It has been a very distinct honor to serve my state in various elective capacities for now nearly 22 years."

Sen. Hunt's withdrawal would make this the third change expected on the Senate Commerce Committee by next year. Sen. Dwight Gris- wold (R-Neb.) died this year and Sen. Edwin C. Johnson (D-Colo.) has his sights on the Colorado governorship.

**'Red Channels' Suit Dropped**

LIBEL suit for $150,000 brought by radio and television actor Joe Julian against the publishers of Red Channels has been dismissed in New York State Supreme Court. Mr. Julian had alleged that his income had decreased from about $18,000 a year before the reference to him appeared in Red Channels to about $1,524.07 last year. The defense motion to dismiss was based on a warning in the publication that "some liberals and innocent people" might have been mentioned in the listings.

**Asks Ch. 9 for Elmira**

ELMIRA Television, comprised of John S. Booth and Thompson K. Cassel and operator of ch. 24 WVTVE (TV) Elmira, N. Y., petitioned FCC last week to allocate ch. 9 there. Earlier, ch. 18 WECT (TV) Elmira suspended opera- tion. Elmira Television told FCC the addition of ch. 9 would not affect any other community or station.

**Carthage Relay Approved**

TO EXTEND interstate network tv service to ch. 7 WCNY-TV Carthage, N. Y., new and modified radio relay facilities were granted by FCC last week to American Telephone & Tele- graph Co. Long Lines Div. Cost of project is $240,000. WCNY-TV plans commencement in September with ABC and CBS shows.

**The Sesac Transcribed Library presents**

**STAN FREEMAN and his JAZZ QUARTET**

"The Stan Freeman Jazz Quartet has added a cool note and spans the gap from concert to modern jazz in the SESAC Library. Real crazy, man!"

*Bill Richards, WGGV, Charleston, W. Va.*

"The Stan Freeman Jazz Quartet is truly great. Certainly will be played here a lot."

*Bill Gravenville, KPAB, Omaha, Nebr.*

"Stan Freeman brings to the listeners a new concept of music; a styling that gives listeners of varied musical taste full enjoyment on any Stan Freeman show. It's just another of many fine musical shows that the SESAC Library is jam-full of."

*Ward Coleman, WENC, Whiteville, N. C.*

The SESAC Transcribed Library is lowest in cost for a complete Program Service.

FCC Programming Review Not Censorship—Doerfer

Commissioner disentert from ruling denying WREC Memphis request that tape recording of a program on competitor WMPS be admitted into a comparative hearing for Memphis ch. 3.

FCC is not invading the field of censorship when it considers past programming of a station. In a comparative proceeding, Comr. John C. Doerfer indicates in a dissent to a procedural ruling in the Memphis ch. 3 contest between WREC and WMPS. The dissent also reveals his feelings on station program responsibility.

Comr. Doerfer disentert from a majority ruling by the Commission which denied an appeal by WREC. The appeal asked FCC to overrule an examiner's decision excluding from the record the transcript and tape recording of an all-inclusive program by a disc jockey containing 15 minutes of material which eclipsed the station's dispute over the question of whether the program can be included in the hearing.

Contending he would instruct the examiner to permit the issue, Comr. Doerfer said "the situation at hand is whether one of the applicants for a television station in Memphis will be permitted to prove that its opponent carried improper, indecent and salacious program material by reason of the discussion of the Kinsey report on the Sexual Behaviour of the Human Male. WREC has disputed the matter with the following ruling: "I am striking it out primarily on the basis that it is not material."

Submits Transcrip

Comr. Doerfer noted WREC appealed from the ruling and submitted a verbatim transcript of the material broadcast Aug. 20, 1953, between 2 and 4 p.m. as well as a tape recording, "alleging that the intonations, inflections and other vocal manipulations employed by the disc jockey gave it a much more indecent effect than a cold mechanical reading would indicate." He pointed out WMPS "does not deny the accuracy of the transcript" but argued Sec. 1,877 of FCC's rules prohibits mechanical reproduction of the transcript.

"I do not read the rule," Comr. Doerfer said, indicating the rule allows mechanical reproduction for "sound," and the tape was offered to show inflection since what the disc jockey said was not in dispute.

Comr. Doerfer continued:

"It seems strange that there is admissibility in evidence at a comparative hearing numerous promises as to future programming and yet they are not admissible in evidence at a comparative hearing which is based on past programming. It might be that evidence with respect to past experience, a more reliable index as to character and the type of program which probably will be placed on the air, is here barred. And the influence on the part of the Commission to probe past programming is grounded mainly upon its misappraisal that the door will be open to interminable and inconclusive proceedings. The Commission is also aware of the Congressional Interdiction against the Commission enacting any powers of censorship. The courts, too, have indicated that freedom of speech and expression is the rule and that any exceptions to the general rule require or call for a heavy burden of proof beyond a reasonable doubt. A definition of such an exception is justifiable. But such caution is not necessary here.

In the instant case, we are not coping with a censorship problem, but it is a comparative hearing. The Television Code, second edition, March 1954, promulgated by the National Association of Radio and Television Broadcasters sets forth in its preamble the following:

"... It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television relationship to the viewers is that between guest and host."

The broadsider, however, is obligated to bring his positive responsibility for excellence and quality to the air with respect to good taste and timing. If not inflections and tone of voice. The Television Code goes on to say: "... Sex crimes and abnormalities are, generally unacceptable as program material, Under the circumstances, the examiner would have been well advised to permit that issue with the caveat that he would not entertain a lengthy proceeding and that he would hold it within the limits of weight because of an isolated instance or other reasons. Generally, many of the comparative hearings will turn on slight differences. The narrowness of timing and the the subject of legitimate inquiry. Past programming is not evidence to be used to show, either directly or indirectly, how the programming of one station was better or worse than that of the other station."

"But here there is a drawn a reasonable inference that a maximum pressure the audience as in television plays, shows, churches, courthouses, educational centers, discussion and hearing, when a maximum pressure in the children would be possible with their discipline and control."

The Commission may be powerless to censor program material or to time it, it certainly need not reward or encourage a lack of good judgment and callousness with a television grant. Admittedly the standards of good taste and propriety are elusive. But there is a positive responsibility upon the part of a broadcaster for excellence and good taste in programming. It is not a negative one. To press as far as the scale of the law permits, or to program merely in the shadows of decency and good taste is a negative approach to the positive responsibilities of broadcasters seeking to operate a public trust. The provider evidence is short and not denied. It is an audience, and consequently that television relationship to the viewers is that between guest and host."

KTRB-TV Asks Changes

KTRB-TV Modesto, Calif., new ch. 14 station under construction, petitioned FCC last week for allocation changes which would permit it to move transmitter site to atop Mt. Oso, 22 miles southwest. Greater population coverage would be afforded, KTRB-TV said, asking that ch. 70 be substituted for ch. 15 at Port Chicago and ch. 35 substituted for ch. 28 at Salinas-Monterey to avoid interference from use of ch. 14 at Mt. Oso.

HOW TO WIN THE SERIES

You can't play baseball with recording discs... nor, do baseballs provide an adequate surface for recording.

On the other hand, a cheap, poorly balanced baseball is useless in a professional game. And, a second rate, unevenly coated recording disc can spell doom for any professional recording job.

In recording, the risk is removed when you choose PRESTO. For here is a disc made with the same care and perfection that go into the world's finest recording equipment. Produced in the world's most modern disc manufacturing plant, PRESTO Green, White, Orange and Brown label discs are outstanding in quality, unbeatable in performance.

Whether you're recording one program, or an entire series, you're always on the winning side with PRESTO discs.

EUROPEAN TV EXCHANGE PLAN UNDERWAY

Eight nations participate in 'Eurovision,' a month-long trade of programs over 44 transmitters tied by 80 relays.

MONTH-LONG exchange of television programs among eight countries in Europe opened last Monday with 44 transmitters tied by 80 relay stations plus land lines in the United Kingdom.

Countries taking part are Britain, Italy, France, West Germany, Belgium, the Netherlands, Switzerland and Denmark.

"Eurovision" opened with a 15-minute appearance by Pope Pius XII, speaking in five languages. Comments foreign to the program source, with nations except United Kingdom, each of the relay stations originating in the French standard of language commentaries are only in English.

The Pontiff said television is a symbol and promise of unity, with nations learning to know each other better. He faced two tv cameras from a distance of 10 feet and remained after his talk to discuss tv problems with technicians and studio workers.

Canadian Broadcasting Corp. announced last week that the European linkage was entirely by radio with the exception of land lines between several cities in the United Kingdom. The European radio links are reversible, being set up on a semi-permanent basis while nations decide how much money they wish to expend for international service.

Conversion Points

Four conversion points were set up to translate signals into different line standards. Conversion at Dover, United Kingdom, was to 405 lines; in Paris to 819 and to one 441 line transmitter; in Netherlands to 625 lines and in Baden-Baden, Germany, to 625 lines. All European nations except United Kingdom, France and Belgium use 405 lines. United Kingdom is the only nation to use 405 lines. Belgium uses the French standard of 819 lines.

Each of the eight nations taking part in European exchange is contributing programs on one day. A series of matches for the World Football Cup will originate in Switzerland. One of the relay stations is located in a peak 10,000 feet atop the Jungfrau Peak in the Swiss Alps.

Local language commentaries are given in nations foreign to the program source, with guide commentaries sent by separate lines in some cases. This service requires a complex network of sound channels, described by BBC as a "greater complication than the vision network." An international coordination center is located at Life, France. Technical staffs work from London or Paris.

Test telecasts were staged starting May 24, with signals and programs fed through the network. In all, the 44 transmitters are connected by 4,000 miles of linkage.

The method of converting signals to different scanning standards is described in the BBC Quarterly as follows: "The apparatus consists basically of a television camera viewing a picture displayed by a cathode-ray tube. Principal difficulties may be largely overcome by use of a long-persistence phosphor in the picture tube, together with a suitable storage camera tube. Pickup tubes used in the converters are image orthicons in all cases except equipment in Netherlands, which employs an image iconoscope.

A three-month program exchange period has been tentatively planned next year.

BBC has participated in experiments involving difference in the British and American frame frequency. The British standard of 405 lines utilizes 50 frames per second, compared to the American standard of 52.5 lines and 5 frames.

Principal problem encountered is flicker.

Two More TV Outlets Commence in Canada

CHCH-TV Hamilton Ont., after a number of delays, officially went on the air June 7. CHCH-TV, known as "springing the second Canada," is a Victor wave stack antenna, developed by RCA-Victor Ltd., at Montreal, to produce a directional signal.

The wave stack at Hamilton is 540 feet high on top of Hamilton Mountain and 600 feet above Stoney Creek, eight miles from the studios on Jackson St. The other wave stack in CBOT Ottawa.

This type of antenna is self-supporting and looks like an industrial smokestack with radiorator slots at the top. Victor engineer claims it eliminates complex coaxial distribution harness and expensive de-icing equipment.

CHCH-TV plans 12 hours of daily telecasting, with 10 hours on Saturdays and Sundays. It will telecast live local shows, as well as film and network shows from the United States and Canada.

Ken Soble, owner of CHML Hamilton, is president and general manager of CHCH-TV, with two other Hamilton stations. CKCQ and CJSJ-MF as part owners.

CBWT on Air

CBWT Winnipeg Man., began telecasting on June 1, with some 1,500 viewers claimed in the area. It was the 10th Canadian tv station to go on the air. D. L. Campbell, Manitoba Premier, officially opened the first tv transmitter self in Canada's prairies and the second west of the Great Lakes area.

J. R. Finlay, director for the prairie provinces for the Canadian Broadcasting Corp., stated that the 60 kw station would only use films and kinescoped programs for the time being.

CFPA-TV Port Arthur, Ont., ch. 2, plans to be on the air with a 2 kw RCA transmitter Sept. 3. Station will broadcast from Mountain top, 174 feet above average terrain. Ralph H. Parker, president and general manager, of CFPA Port Arthur, is licensee. Station will be represented in Canada by All-Canada Television, Toronto.

Most Canadian tv stations on the air by the end of 1954, will be powered with RCA-Victor transmitters, according to orders on hand by RCA-Victor Ltd., Montreal. Being installed or soon to be installed are tv transmitters for CKLW-TV Windsor-Detroit, CKWS-TV Kingston, Ontario, CBWE-TV Peterborough, Ont., CJBV-TV Rimouski, Que., CIBC Sydney, CBHT (TV) Halifax, CFPC-TV Saskatoon, Sask.

$24 MILLION-PLUS BUDGETED TO CBC

OPPOSITION parties in the Canadian Parliament early in June urged the establishment of an independent regulatory body for radio and television during debate on allocations of funds for the Canadian Broadcasting Corporation. Revenue Minister McCann reported that last fiscal year, ending March 31, CBC had received $11,700,000 from the 15% excise tax levied on radio and tv sets and parts, and as a result had a surplus for the 1953-54 fiscal year of $5,000,000, and the current fiscal year, starting April 1, CBC is allocated $21,250,000 from the Canadian treasury, consisting of an annual grant of $6,250,000 and the 15% excise tax on radio and tv sets and parts.

In addition, CBC has a loan of $3,000,000 from the government for further expansion of tv facilities.

Government policy on giving CBC a monopoly on stations in the major markets of Montreal, Toronto, Ottawa, Quebec and Halifax, was criticized by members of the Progressive-Conservative and Social Credit parties. Cooperative Commonwealth Federation (socialist) party members backed the Liberal government's policy.

Opposition members who criticized the government's policies urged the establishment of an authority similar to the Canadian Board of Transport Commissioners to take over the powers which the CBC now exercises over independent broadcasting and tv stations that are its competitors. They pointed out that at first the Canadian government had delayed the introduction of tv, and when it did introduce it was denying tv to many parts of the country and denying the public alternative programs in other parts. They stated that in areas where Canadian stations were not receiving the benefit of United States and CBC stations, viewers tuned in U.S. stations for 70% of their receiving time.

Progressive-Conservative party leader George Drew stated that the government had argued in obtaining more than $30,000,000 from Parliament for CBC that the television policy would discourage excessive commercialism and encourage Canadian culture and talent. Cultural advantages were advanced as arguments for denying Canadians the advantages of competition and selection of stations, he pointed out.

Canadians were not given the freedom to choose what they would accept except in areas bordering on the United States.

Revenue Minister McCann, reporting on tv expenditures of CBC, stated that CBHT Halifax, would be on the air by CBC before the end of the year, that facilities for telecasting live shows from CBOT Ottawa, would be being developed, that 16 privately-owned tv stations would be on the air this year and would receive national programs from CBC. He also reported on development of a coast-to-coast tv network, on which communications companies have been asked to tender. He felt that Canada was developing one of the most extensive tv systems in the world under a scheme of "seizable cooperation" between public and private interests.

WEEK-TV Peoria Wins ‘Janet Dean’ Awards

WEEK-TV Peoria and its promotion manager, F. R. Oakley, won the first prize of $250 for a special promotion contest run for Janet Dean, Registered Nurse by Emerson Drug Co., makers of Bromo Seltzer, sponsors of the program, which is placed on a regional basis.

Robert Baldrica, director of advertising, WXYZ-TV Detroit, won second prize of $150, and Del Leeson, promotion manager, KDYL-TV Salt Lake City received the third prize of $100.

The winning entry from WEEK-TV included a parade for Janet Dean on the main street in Peoria, an election of the town’s most popular nurse, movie trailers of the tv drama, newspaper and magazine advertisements, trade mailings, lobby displays and tv promotion spots.

The second prize winner, WXYZ-TV, in addition to spot and newspaper promotions, used flash displays and made an intensive promotion effort among Detroit druggists.

KDYL-TV, the third winner, among other promotion stunts obtained feature displays in 163 IGA stores in Utah and Wyoming.

The judges were: Kirk L. Billings, advertising director of the Emerson Drug Co.; Fred Dodge, merchandising director of NBC; Dan Shea, vice president and merchandising director of Lennen & Newell (agency for Emerson), and Jack Brooks, tv sales manager of Free and Peters, station representative.

Mr. Shea, speaking for the agency said, "In judging the contest we took into consideration the size of the city and the overall promotion effort. Some who did not win prizes did better jobs in specialized fields than some of the winners. But we felt it was the overall result that counted and we judged accordingly."

CHECKING the winning entry in the Janet Dean, Registered Nurse promotion contest are (1 to r): Dan Shea, merchandising director of Lennen & Newell Inc.; Ella Raines, star of the show; Fred Dodge, NBC merchandising director, and Hugh Leland, of Lennen & Newell.

CBS’ Stanton, Others Win Art Directors Awards

FRANK STANTON, president of CBS, was among four business executives who received special medals from the Art Directors Club of New York last Tuesday for "outstanding appreciation and encouragement of good art and design."

Other businessmen presented with medals were David Ogilvy, founder and president of Hewitt, Ogilvy, Benson & Mather, Henry Ford II, president of Ford Motor Co., and Henry R. Luce, editor-in-chief of Time Inc. publications.

The club also presented the Kerwin H. Fulton medal for outstanding 24-sheet posters to George Booth, art director, J. Walter Thompson Co., and other medals to Jack Sidebotham and Gene Doetch, Young & Rubicam, television commercials; Louis Dorfman, CBS Radio, newspaper ads (300 lines or less); Paul Rand, William Weintraub Inc., newspaper ads (over 300 lines); Kenneth Parkhurst, Hal Stiebhn Inc., trade periodical ads (three or more colors); Harry Zelenko, William Douglas McAdams Inc., trade periodical ads (two colors), and Arnold Rosten, MBS, trade periodical ads (black and white).

Tv Awards Go to NBC

NBC was presented with three awards by the Radio-Television-Newsmen Working Press Assn. of New York at the Annual Mike and Screen Press dinner of the association in New York June 4. Presentations were made by Edward R. Murrow, CBS commentator.

The awards were for NBC’s “outstanding contributions in the field of television journalism,” as exemplified by its coverage of “the marine killer," for its "contributions in the field of feature reporting” as typified by its "outstanding film analysis of events in Guatemala in the series; Trouble Spots, and for its "outstanding contributions to radio journalism, as exemplified by "Oppenheimer Story" in Heart of the News series."
HOPPY'S RATING HIGH—HIGHER THAN EVER

Top ratings make Hopalong Cassidy a better buy than ever before.

HOPPY's new series of 26 half-hour films is first in its time spot in eight of the ten cities in which it is rated. And in the other two, it is topped only by fractions of a rating point (ARB averages from start of the new series thru March '54).

Today, 45% of HOPPY's audience is adult. And there's hardly an advertiser, a viewer, or a man in the street who doesn't know HOPPY's face...who hasn't felt his influence.

Why? Because Hopalong Cassidy is one of a handful of truly great salesmen in America today. He has moved mountains of merchandise for an impressive group of sponsors. Hire this great salesman at a local market price, put him to work for you. Then hold onto your hat...as HOPPY sends your sales soaring.

AVAILABLE IMMEDIATELY

FOR AUDITION:
49 EAST OAK STREET
CHICAGO 11, ILL.
MICHIGAN 2-6200
VICE PRESIDENT in charge of studio operations for Hal Roach Studios Inc., Culver City, Calif., since 1936, Sidney Stuyvesant Van Keuren has acquired expanded duties since tv came along. He now supervises all tv film commercials in addition to serving as executive producer on Life of Riley (sponsored by Gulf Oil on NBC-TV east of Denver, syndicated elsewhere).

Born Sept. 19, 1901, he left his birthplace, Pittsburgh, 20 years later to move to Los Angeles, which necessitated transferring from Penn State to Stanford U. While attending the former institution, he played banjo in the orchestra organized by classmate Fred Waring. At Stanford, Mr. Van Keuren, captain of the golf team, also went in for swimming and track before graduating in 1923 with an engineering major.

His musical career "long since passed into oblivion," he spent several years doing construction work in Los Angeles before that business fell apart during the depression. His dream of getting into the film business bore fruit when in 1931 he started at Roach Studios, learning from the bottom up and working in every department on the lot.

In the Air Force from 1942 through 1945, producing training films and documentaries, he emerged a lieutenant colonel with the Legion of Merit.

He returned to the studio, which was undergoing a spell of "disastrous" post-war production. First venture into tv, in the fall of 1947, consisted of a couple of quarter-hour pilot films and a Chevrolet commercial. But, Mr. Van Keuren recalls, the studio hit its stride about four years ago with the CBS-TV film package, Amos 'n' Andy, and has since turned out over 950 films.

Last year saw the studio's commercial operation more than doubled, and he predicts 1954 will be an even larger year. Among the spot announcement contracts last year were Bulova with 108; General Motors, 21; Pabst Blue Ribbon, 18; Union Oil, 12; United States Tobacco, 6; Falstaff Brewing, 12; Liebmann Breweries, 36; Brown & Williamson Tobacco, 16.

A source of pride is that Roach Studios does everything but the lab processing and, not only is it operated by the people who built it, it is the only tv studio in the business with its own optical department, according to Mr. Van Keuren.

Emphasizing the necessity of quality, he stresses that "A" and "B" products in tv parallel such theatrical products. "Everyone wants to turn out 'A' products and that which starts out as 'B' is bad, as 'sleepers' are too few and far between."

With the trend "definitely toward syndication," the Roach thinking is to develop new tv personalities and offer them for multiple sponsorship. In preparation are Dramatic Hour and Comedy Hour, each to be headlined by a name actor who will play a part in one segment and serve as m.c. Also on the agenda is the development of a permanent stock company.

Mr. Van Keuren and his wife, Idabel, make their home in suburban Westwood. Besides swimming, he is a baseball fan of such devotion he has missed only one Los Angeles home game. That was when his daughter, Lee, was married.

June 14, 1954 • Page 77
FILM ANNOUNCEMENTS

B*T’S THIRD SURVEY OF TV FILM USE INVESTIGATES SPOTS

TELEVISION advertisers sponsor a heavier share of film announcements than live announcements, according to the third in a series of film surveys conducted by B*T.

Three-fourths of all film announcements are commercial, according to the survey, compared to less than one-half of live announcements.

The sponsorship analysis is drawn from results of questionnaires supplied by 124 television stations, approximately a third of all the stations on the air. Data are broken down by size of markets as well as by number of operating hours per day and the length of announcements.

Average number of daily announcements per station ranges from around 50 in smaller markets to 101 in the case of stations operating full schedules in markets with over a million population. Smallest number of announcements occurs at stations in markets with 250,000-500,000 population.

While over three-fourths of all film announcements are sponsored, the average is brought down by stations operating fewer than 10 hours per day in markets of 500,000-1,000,000 population.

In scanning the use of commercial announcements by tv stations, the B*T survey shows a fairly uniform pattern for length of films among the four sizes of markets. One-fourth to one-fifth of all commercial film announcements are 1Ds, or 8-10 second offerings, with the 250,000-500,000 category showing a 26.6% ratio. A little over a third of commercial film announcements are 20 seconds in length.

Heading the commercial film field are one-minute announcements, hovering around the 40% mark. Only a minor percentage, around 2%, of such announcements are more than one minute in length.

Looking into the types of commercial live announcements, it was found that tv stations in cities over 500,000 population average over 40% of 1Ds, or 8-10 second types. The percentage of 20-second announcements is much smaller, ranging from 11.9% in largest markets to 27.2% for 250,000-500,000 markets.

The number of one-minute announcements is high in the commercial live group, reaching 55% in the case of markets under 250,000. A somewhat higher ratio of commercials over a minute in length will be found in the live group, though the average is under 10%.

With 124 usable questionnaires submitted in the survey, results are believed to be typical of the field. The 124 returns were divided among different markets as follows: Under 250,000 population, 26 questionnaires returned; 250,000-500,000, 32 returned; 500,000-1,000,000, 29 returned; over 1,000,000, 37 returned. The term “film” as used in the survey includes both films and slides.

The first 1954 film survey conducted by B*T, covering 1 hour, 1½-hour and full-length feature films [B*T, April 12], showed that the price paid for feature film programs ranges upward in direct ratio to the size of the market served.

This first analysis showed that few stations permit single commercials of more than two minutes duration during feature films; the number of breaks during the showing of a one-hour or full-length feature ranges between two and five, as a rule; films are interrupted more often by stations in the smaller markets.

It was found, too, that local advertisers are supplying a major share of film sponsorship revenue in smaller markets, with stations in larger markets getting over half their film income from national advertisers.

In the case of quarter-hour and half-hour film packages it was found [B*T, May 10] that a majority of stations devote an average of more than six hours a week to such programming. Maximum announcements allowed a single advertiser in a half-hour film package is three, this survey showed, though some larger stations allow four in half-hour packages sold on a participating basis.

This study also revealed that average commercial announcements run around one minute; double spotting is prevalent at station breaks, usually in the form of an identification plus longer announcement; some triple spotting exists; in large markets three-fourths of tv stations get over half their revenue from national advertising.

Top price paid to distributors for half-hour film packages ranges from around $40 to as high as $1,400, depending on size of market and station audience, this survey showed.

LEADING BUYERS OF TV SPOT COMMERCIALS

How Stations Rank the Biggest Customers for Announcements

BULOVA WATCH Co. and Procter & Gamble Co. are the leading buyers of announcements on tv stations, according to B+T's survey of the tv spot announcement business (see analysis opposite page).

The watch and soap firms are tied as top sponsors in the television announcement field, buying time on 42% of the 124 stations that returned usable questionnaires.

Ranking next are Brown & Williamson Tobacco Corp., which buys announcements on 36% of tv stations in the survey, and Miles Labs., 20%. Other leading buyers of tv spots are Standard Brands, using 18% of stations; Colgate-Palmolive Co. and National Biscuit Co., appearing on 11%, and Sterling Drug and General Mills, 10%.

P&G divided its announcement purchases among Gleem, Ivory soaps, Tide, Cheer, Joy and Dreft for the most part, the questionnaires show. Brown & Williamson promoted Kools, Viceroy and Raleigh cigarettes. Standard Brands' use of announcements included Royal desserts, Chase & Sanborn and Blue Bonnet.

Sponsors using 5% or more of the 124 stations covered by the survey, which covered roughly a third of all operating tv stations in the nation, included Schenley Industries (Blatz, Cresta Blanca), Borden Co., B. T. Babbitt Co., Coca-Cola, Ford Motor Co. dealers, General Foods, R. J. Reynolds Tobacco Co., General Motors, Bardallai Oil, Duncan Coffee Co., Elgin watches, Peter Paul candy and Socony-Vacuum Oil Co.

Other leading national advertisers buying announcements on 2% or more of the reporting tv stations include S. O. S. Co., U.S. Rubber Co., Van Camp Seafood Co., Stag beer, Brock Candy Co., Anacin and Pillsbury Mills.

In filling out the advertising portion of the questionnaires, respondents were asked to list the five leading sponsors of tv announcements as shown by station records.

RELIGION ON FILM

Tv films are transporting the minister to the parlor

HOLLYWOOD has always known the drawing power of feature films with a religious theme. Even today, it is said, Cecil B. DeMille's early silent feature, "The King of Kings," grosses large box office receipts with every re-issue.

The mass popularity of contemporary box office successes like "The Robe," "David and Bathsheba," and "Samson and Delilah" cannot be ignored, nor can the impact of the award-winning "Martin Luther."

In one corner of the production factory that is Hollywood is the field of films for television. And in a small sector of that growing branch of film-making, quiet, little films are being turned out bringing the ministrations of religion into the home.

A check of West Coast religious tv film production reveals an almost unanimous belief that such programming is only beginning to hit its stride.

Given to stations free of charge, the first group of films has been picked up by 125 and draws an average of 3,500 letters weekly. Mr. Heard, who was previously film consultant for the Broadcasting and Film Commission in New York, is scheduling production on the second group of films which will dramatize specific problems and be offered for commercial sponsorship. Declaring that there is much sponsor interest from institutional products, Mr. Heard says such a program as Dr. Peale's becomes a service program for the sponsor in that it serves as well as entertains.

Viewer response, according to Dr. Peale, shows that many people are going to church for the first time and "more important, they are putting into practice the spiritual living techniques suggested over tv."

Produced and distributed in behalf of the National Council, composed of 29 Protes-
"TO MAKE CAMERAS WHICH WILL TAKE THE WORLD'S FINEST FILMS"

Work on the first Mitchell Camera was dedicated with these words over thirty years ago.

Today Mitchell 16mm and 35mm Cameras are used throughout the world in every field of motion picture photography.

In Television, Mitchell Cameras have pioneered new and superior techniques and standards. Mitchell, alone, brings you years-ahead professional motion picture equipment. Commercials, shorts, and features filmed with this camera are sharper, clearer, and steadier on home television screens because of the internationally famous smooth, positive operation and perfect control which the Mitchell Camera brings to each film.

The Mitchell 16mm Professional has the same proven Mitchell 35mm features which have made this camera the standard equipment of major studios in every part of the world.

Be sure of professional results—use the Mitchell Camera.

ANIMATED COMMERCIALS AT LOW COST

RESULT of an account executive’s hazy knowledge of TV animation costs is a simplified, inexpensive animation process conceived by Betty King, now production manager-copywriter of Brooks Advertising Agency, Hollywood.

The process, which promises savings for advertisers, won Miss King advertising industry recognition in the form of a "Lulu," yearly Frances Holmes Achievement Award of Los Angeles Advertising Women Inc. [BWT, May 3].

The technique was evolved last year, while Miss King was special copywriter and production assistant at Action In Advertising Agency, Los Angeles, when the agency bid on LosOr Chevrolet Dealers account. The LosOr group, consisting of Los Angeles and Orange County Chevrolet dealers outside the metropolitan Los Angeles area, was preparing a special 13-week TV campaign as a protest against General Motors advertising policy. The LosOr group believed that too much emphasis was being placed on the car and not enough on the dealers, and the dealers were willing to finance an independent campaign to prove their point.

Unfortunately, the account executive seeking the LosOr account, unfamiliar with TV film costs, quoted an audition figure of $1,000. This was to include two animated cartoon commercials, plus a third to display all 31 dealer names.

Miss King, who entered film with Cinecraft Productions, Cleveland, in 1944, gently pointed out a one-minute TV commercial ranges from $1,500 to $10,000 in cost.

However, while with Cinecraft, she

and production assistant at Action In Advertising Agency, Los Angeles, when the agency bid on LosOr Chevrolet Dealers account. The LosOr group, consisting of Los Angeles and Orange County Chevrolet dealers outside the metropolitan Los Angeles area, was preparing a special 13-week TV campaign as a protest against General Motors advertising policy. The LosOr group believed that too much emphasis was being placed on the car and not enough on the dealers, and the dealers were willing to finance an independent campaign to prove their point.

Unfortunately, the account executive seeking the LosOr account, unfamiliar with TV film costs, quoted an audition figure of $1,000. This was to include two animated cartoon commercials, plus a third to display all 31 dealer names.

Miss King, who entered film with Cinecraft Productions, Cleveland, in 1944, gently pointed out a one-minute TV commercial ranges from $1,500 to $10,000 in cost.

However, while with Cinecraft, she

had used the cell-by-cell animation technique in preparing a commercial film for Standard Oil of Ohio. For LosOr, she altered the animation technique to stop-motion and, using small cut-out cardboard figures against various backgrounds, worked out her present inexpensive system.

From a number of artists, she chose Cornelius Peet to create the art work. This consisted of Hank and Frank (twin figures, one smiling and one frowning, which could be used interchangeably as the sequence dictated), several stylized automobiles, backgrounds of Gypperm Joe’s Used Car Lot, a country road and a modern Chevrolet agency.

The figures were mounted on blocks, with either Hank or Frank taped onto the automobile, as required. By moving the figures against various backgrounds and photographing them in different positions, the effect of animation was given.

With a rhymed advertising message dubbed in, two complete sequences were filmed by Miss King. In one, Hank buys a car from the “Gyp” lot, which progressively rides smoothly, starts to bounce, loses a wheel, then breaks in half. In the other, Frank buys his car at the Chevrolet agency and receives a good car at a fair price.

“We give it the light copy touch, making no attempt at realism. That’s the only way this technique can work,” Miss King observes.

This is the second “Lulu” for Miss King. In 1951, her commercial film for the Automobile Club of Southern California won her an award in that category.

a spokesman further explained, "is any person who upholds the Christian way of life without necessarily adhering to the Christian religion."

The current series, 104 films of which are completed with an additional 18 upcoming, comprises interviews by Father Keller, with such names as Bing Crosby, Irene Dunne, Dinah Shore, etc., which point up the idea that "regardless of specific religion, everyone is working toward the same goal." While the group does not ask for charity, it asks the stars and crew to work for minimum scale. The budget is set at about $2,500 for each quarter-hour film from which a tape is made and broadcast on 300 radio stations.

In the works for The Christophers is an untitled half-hour series, budgeted at $27,500 per film, which Jack Denove is reporting in addition to his current schedule of ABC-TV Cavalcade of America films, animated and live action commercials and up-coming It’s the Bickersons. Dramatic in format, incidents are portrayed showing how a person in such fields of endeavor as teaching, government, labor relations, etc., can make the world better through Christian action.

Rev. Oral Roberts, under the auspices of Pentecostal, evangelistic group, is currently appearing on 22 stations in Your Faith Is Power, half-hour color film series, which White Adv. Agency is producing through Devon Productions. Format consists of a series of songs, 20-minute weekly segment, and the broadcast of 122 tv stations, is going into production of the third group of 26 half-hour films. Utilizing a regular cast of professional actors, the program deals with a specific moral problem and how it is worked out by the Fisher family. Budgeted at $20,000 to $25,000 per film, the overall aim is to bring more people into church and to the Christian way of life in addition to broadening the concept of the resulting benefits. While stations give the time, talent and crew are paid scale.

Religion in Color

Family Films, organized in 1948 by president and executive producer Sam Hersh to make theatrical films for family consumption, was later commissioned by the Lutheran group when it entered the video medium. Mr. Hersh recently has been assigned by Southern Baptist Radio and TV Commission of Atlanta to do a color pilot half-hour film modernized version of “The Prodigal Son” for a proposed series of Biblical stories.

Family Theatre is a non-profit organization with the purpose of promoting family prayer. While the MBS radio Family Theatre series is non-sectarian in concept, the tv films are predominantly Catholic in interpretation. Stars donate their services but the crew, technicians and musicians receive the minimum wage. The budget for each hour-long film varies between $25,000 and $27,500. Films are assigned to various Hollywood producers, while Family Theatre handles its own distribution. Rev. Patrick Peyton, C. S. C., is executive producer, though he is on the road most of the time with Family Prayer Crusades. Rev. Jerome Lawyer, C. S. C., is associate producer, administers the group’s Hollywood headquarters and produces the radio program. Rev. John P. Lynch, C. S. C., is spearheading Family Prayer Foundation to raise funds to

continue the work which is financed by funds donated by people.

Production firms utilized by Family Theatre are Jerry Fairbanks with "The Triumphant Hour" (Easter 1950), "The Joyful Hour" (Christmas 1950), "Ill Number One" (Easter 1951), "That I May Sec" (Thanksgiving 1951) and "The World’s Greatest Mother" (Mothers' Day 1952). Ben Pivar filmed "The Hound of Heaven" (Thanksgiving 1952). Roland Reed Productions shot "A Star Shall Rise" (Christmas 1952) and "Trial at Tara" (St. Patrick’s Day 1953).

Group’s first tv entry, "The Triumphant Hour," was carried at no charge by 47 stations, a little less than 50% of the total then on the air. "The World’s Greatest Mother" was re-released for Mother’s Day on 204 stations. For this past Thanksgiving, Father Peyton obtained tv rights to "Dawn of America," Spain-produced feature dealing with Christopher Columbus, which was carried by 288 tv stations, 92.8% of the total on the air at the time.

Roland Reed also produced the group of spot films titled Inspiration Please, which last month (April) received the George Washington honor medal from Freedoms Foundation. First series of six 20- to 60-second spots, based on the value of prayer in the lives of great figures in history, is now seen on 185 stations while the second group of six is being readied for fall release. Each film is budgeted between $600 and $800.

While Family Theatre’s current films are being re-released to fit the season, additional production is scheduled to start in the fall.

Origin of Cathedral Films

Cathedral Films Inc. was organized 15 years ago by Rev. James K. Friedrich, an ordained Episcopal minister. The non-profit organization has produced more than 50 films with “no attempt to put doctrine into them,” making them instead historical documentaries. Commissioned by various faiths to make films for church and Sunday School showings, Cathedral is branching out into tv. "I Behold His Glory," a 55-minute feature in color depicting Jesus’ crucifixion and resurrection and completed in seven days, won the top awards from Boston and Cleveland Film Festivals and National Evangelical Film Festival. It was made available to stations and last year 130 stations showed it between Good Friday and Easter Sunday, while this year 258 stations scheduled it in the same time period and portions were used on CBS-TV Fred Waring Easter Sunday program. It was rented by the National Council of Churches of Christ, which in turn gave it to the stations at no charge.

Living Christ series of 26 half-hour films, four of which have been completed by Cathedral, is in production with a budget of $40,000 per film. This series, according to Dr. Friedrich, will need a sponsor, such as an institutional product. Subjects contemplated are "Holy Night," "Escape to Egypt," "Boys and Baptism" and "Men of the Wilderness."

Delta Productions Inc. has completed two pilot films for a total of $120,000, distribution of which is being handled through George Bagnall & Assoc. Photographed by Great Commission Films, which does the Billy Graham series for Billy Graham Evangelistic Foundation of Minneapolis, one series is a western musical, Sunday on the Range. Non-denominational in slant, the format is built around religious songs by Tim Spencer, one of the Sons of the Pioneers singing group, and others. Designed in the same vein to provide entertainment with a religious motif is "Queen of Sheba," color-quarter-hour pilot film in a Biblical series.

Commercial Religion

As “straight commercial film,” Delta rents or leases its product at flat fees. Scheduled for production is Pinpoint Universe, quarter-hour series of 13 films dealing with microscopic life accompanied by commentary by Rev. Harry T. Woodard, Delta vice president, who gives a spiritual interpretation to the various natural phenomena. Delta, according to treasurer Paul M. Hewitt, draws on talent within the Hollywood Christian group, a non-profit religious foundation whose members, such as Connie Haines,
It's Our Move! To better serve those advertising agencies and their clients (like those above) for whom we have produced television commercials, it's our move ... to the newest and most complete studios in Hollywood devoted exclusively to the production of the television commercial.

It's Your Move! We cordially invite you to see our greatly expanded facilities. Newly built stages for both live-action-sound, and stop-motion (including those fabulous stop-motion puppets). Our own complete departments for Art, Animation, Editing, and Creative are all available to you for a more unique, more effective Television Commercial at Swift-Chaplin.

### Show Descriptions

- **TBA**: To be announced.
- **Ms. Wizard**: A children's show hosted by a mysterious woman who imparts wisdom to her young viewers.
- **8:00 PM** programs are typically news shows or feature films.
- **8:15 PM** programs might be variety shows or live music performances.
- **9:00 PM** shows often include dramatic series or specials.
- **10:00 PM** slots are usually reserved for late-night talk shows or late-night specials.

**Broadcasting Telecasting**

June 14, 1954
Marjorie Rambeau and others, are active in church work.

Aimed at release this Christmas season is the half-hour color film, "Christmas Is a Song," which Dudley Television Corp. produced for the Franciscan Fathers of California Inc. Marking the TV debut for the producers of Hour of St. Francis radio program, the film features the Padre Choiristers of Santa Barbara Mission, the Eligio Herrera and Jose Manero nativity play and dancing groups with J. Carol Naish as narrator. Richard Goldstone produced and directed for Dudley.

While not a complete picture of religious TV film activity throughout the nation, such a programming trend has gained a definite toehold.

Television, as a "missionary in the home," can surpass the contribution to religion made by the mystery and miracle plays of the Middle Ages, according to J. L. Van Volkenburg, president of CBS-TV. In a recent speech before the Broadcasting and Film Commission of the National Council of Churches of Christ, he said religious TV programming is "a difficult challenge" but "the potential of effectiveness is so great as to justify all the work and expense and long hours of planning."

This type of programming, Mr. Van Volkenburg added, "can bring together the most influential medium in history and the experience of the ministry through the centuries in drawing people to religion."

GENERAL slides such as this one are designed to promote block programming—in this case homemaking shows—at WBNS-TV Columbus, Ohio.

ID TIME at WCBS-TV New York is utilized largely to promote programs televised by the station. Art work, as the violin indicates, stresses show's distinguishing characteristics.

KSLA (TV) Shreveport, La., concentrates on local color in many of its station break announcements. This example features the pelican, Louisiana's state bird.

IN the same vein, WNOK-TV Columbia, S. C., capitalizes on a state trademark in its IDs. The tree shown above on this WNOK slide is the Palmetto, South Carolina's state tree.

BECAUSE of the close association of the name of Buffalo and the bison, the animal is featured on many IDs on WBEN-TV Buffalo, N. Y., ch. 4 outlet in that city.

AT WJAR-TV Providence, R. I., the rooster pictured above has come to be synonymous with the outlet. He is used on all IDs seen on the Rhode Island station.
MANEUVERABILITY

never before achieved!

NEW!

for Film and
TV Cameras

NEW! CIRCULAR STEERING
Entirely new steering mechanism makes possible easy, smooth, sharp turning on own axis or in any desired arc. Wheels can also be locked parallel for straight tracking in any direction.

NEW! MANEUVERABILITY
The extreme flexibility of the steering mechanism makes possible fast positioning in small, crowded studios.

NEW! HANDLING EASE
Weighs only 500 pounds. Cameramen and grips appreciate easy dollying, turning, raising and lowering boom.

NEW! LOW SLUNG CHASSIS
Cinemobile is built low down for better balance, greater stability and smoother rolling.

NEW! HYDRAULIC BOOM LIFT
Camera boom is raised and lowered smoothly, quietly, effortlessly, automatically by hydraulic system. Extreme high and low lens heights are readily achieved even when dolly is in motion.

NEW! VERSATILITY
Makes possible a wide range of camera effects formerly achieved only with larger, heavier equipment. Priced to fit the budget of smaller studios.

"WORLD'S LARGEST MANUFACTURER OF MOTION PICTURE PROCESSING EQUIPMENT"
They're blowing OUR horn...

April 8, 1954,

Mr. Edward Hochhauser, Jr.
General Manager
Associated Program Service
223 Fourth Ave.
New York 3, N.Y.

Dear Ed:

I'm sorry to say that the Great Americans series is over. Our client the First & Merchants National Bank is sorry, too, because the show really did a wonderful job for them on TV. The audience was good. The show itself was praised as the ideal combination of drama and education by many viewers.

One indication of the show's effect was that it helped draw into opening days at the five new First & Merchants branches. They packed in and opened accounts galore.

Sounds like I'm laying it on thick but I'm not because we're all very much pleased with the Great Americans show. One of the best bargains we ever made....

Depending upon several things, we may rerun the whole series in the fall. I don't think it will lose any impact at all.

It's been a happy 26 week association for our client and for us.

Keep us posted on any other series you may think right for us.

Best regards.

Cordially,

E. Lanning Rubin
Radio-TV Director

E. Lanning Rubin
Radio-TV Director

GREAT AMERICANS
DOCUMENTED BY ENCYCLOPAEDIA BRITANNICA

There is no substitute for results! If it's sales you're after, if it's prestige you want, if high ratings are your goal, if unusual merchandising opportunities are important, GREAT AMERICANS is for you—no other TV film series offers so much!

This superbly produced dramatic quarter-hour series brings new meaning to the lives of 26 GREAT AMERICANS and their contributions to our American heritage.

Audition prints are available on request. Write, wire or phone today.

Page 90 • June 14, 1954
TO GET results in package goods advertising these days, you have to concentrate your fire power. You can't just open the barn door and blaze away with both barrels of a shotgun, aiming at everything in general and hitting nothing in particular.

For that reason, therefore, the technique of concentration is vitally important in advertising all kinds of package wares in the food and drug fields. This holds true irrespective of whether your problem is introducing a new product, or increasing sales for an established brand.

Advertising, as I see it, is like electricity. It has both voltage and amperage.

Voltage is represented by the media used —radio, television, newspapers, periodicals, etc. And amperage by the power that makes the dynamo go, the power that puts the "sell" into advertising.

Now, to get the most out of voltage and amperage, you must consider the cost of current. For that reason it is important to confine this cost to a single market or to a tight market group on which you can concentrate. Don't pay transmission tolls over high tension lines to innumerable markets and risk resistance that may reduce the voltage and amperage. In other words, take your markets in turn, don't try to raise the level of all at once. Start with a hub and build out; don't begin with the rim of the wheel and try to build in. You buy coverage when you do that but you don't buy sales.

I can't think of a better example to illustrate my point than the experience I had during the first presidential campaign of Thomas E. Dewey, governor of New York. The Duane Jones Co. handled the radio coverage for this campaign, working closely with the Republican National Committee.

In outlining the strategy for this coverage, I suggested that instead of using the shotgun technique and endeavoring to cover the entire country, we concentrate on the six marginal states that, roughly speaking, border the Mason and Dixon Line. In other words, those states adjacent to the Solid Democratic South — states whose political identity at that time was in the doubtful category.

"What is the use," I pointed out, "of spending money for valuable radio time in Republican territory where Dewey is already pre-sold? I see no point in trying to win strong Republican states that are already won. Why not concentrate on those voters who have not fully made up their minds — those fence-sitters on the fringe of the Solid South? I think we can convince many of them that it's time for a change."

As a matter of logic, Herbert Brownell, then chairman of the Republican National Committee, agreed with me, but for purposes of political expediency other policy-makers on the committee felt it would be unwise not to include all acknowledged Republican states in the radio coverage. It would be too hard to explain, they said, why they were left out. So despite its admittedly good campaign strategy the technique of concentration was ignored and the shotgun method applied. And when the final count of votes came through, it was reluctantly conceded in the inner circles that Gov. Dewey lost the election by four of those marginal states.

So with this experience as a mirror, we see what can happen when you buy unlimited coverage without buying sales. But there is another side to the picture, of course, so let's turn a few more pages in the Book of Experience until we find a rosier view.

In passing, however, let me say that whenever I think of concentration as a technique, there comes to mind the philosophy of that master marketer, Frank Hummert. During the six years I spent with Blackett-Sample-Hummert, I never ceased to marvel at Mr. Hummert's shrewd analyses of sales problems.

"When it comes to selling goods," he used to say, "I'll take a loyal and responsive radio audience of 100,000 any time in preference to a million casual listeners."

I have found that a sound sales build-up is reasonably easy to accomplish if you make the right approach to it. We had an instance not long ago wherein the problem was to increase sales east of the Mississippi river for 7-MINIT Ready-to-Make Pies, a food product put out by National Selected Products Inc., which is one of our clients.

Instead of dissipating our fire power over the entire territory, we concentrated on our markets either one by one or in convenient groups, using spot radio on local stations as our principal approach, supplemented by advertising in local papers.

Our yardstick for sales was a premium deal, of course — in this case a silver dollar offered for seven boxtops obtained by purchasing seven packages of 7-MINIT Pies at an average total cost of $1.89. Since there are six varieties of these pies, this gave housewives an opportunity to sample all six varieties, with one over for good measure.

Economically, the deal was to the housewife's advantage. By sending in the boxtops she got seven pies for only 89 cents, for in return for her boxtops she received a new, shiny silver dollar, which not only provided a neat saving on her purchase but gave her a novel souvenir. East of the Mississippi, silver dollars are a rarity. So her premium had value both intrinsically and as a curiosity.

In consequence the premium pulled so well that when the arithmetic was worked out on the deal, we found that new customers were costing us only 15 cents apiece.
a real bargain, to say the least, for a new product.

Another case history of concentration versus general blasting concerned Bab-O, a household cleanser that went from zero to first place in its class, under our technique of direct fire. Bab-O was a pioneer account in the Duane Jones Co. With two others it helped to get the agency airborne when it first took off in 1942.

First, Concentration

When I first got the account, the company's advertising was confined to a once-a-week break in two Sunday supplements. We canceled one supplement, and used the money to reach its larger circulation, as a holding campaign. Then we launched an 18-station radio drive over NBC, that concentrated its fire power in markets with a high sales potential for the product. We accomplished this by means of a soap opera that gave us two commercials a day, Mondays through Fridays, making a total of ten commercials per week. And every three months we tied a premium deal to this program, writing it into the script so that we got a six weeks' advance build-up for the offer.

This strategy worked so well that we eventually added a daytime serial on CBS, at a different time of day naturally, thus covering another gigantic market.

Over a seven-year period sales rose from 600,000 cases of 24's per year to 5,100,000 cases, thus pushing Bab-O up to Number One in the cleanser market.

This feat made merchandising history, setting a pattern that has since become standard practice for all who handle package goods advertising. It resulted in obtaining new customers at the amazingly low figure of 8.7 cents each, which still stands as a record. As a result, Bab-O won 51% of the cleanser market, climbing gradually from seventh to first place.

When you set out to concentrate your advertising fire power, it is important that you be equipped budget-wise to pay the price of admission into the market you want to invade. If that sounds technical, or like double-talk, then let's look at it this way: Suppose you wanted to get a close-up of a Broadway show, a hit musical, say, with a swell line of shapely chorus cuts. That close-up would cost you $6.60 per copy for orchestra seats situated where you could fill both ears with the enticing view that your heart desired. If you wanted company, someone to confirm your taste in pulchritude, the cost for two would be $13.20, not counting the brokerage fee.

Now you could see that same show for less, of course, but the view would be obscured by distance. You wouldn't get that intimate close-up of the feminine form in rhythmic motion that your esthetic soul so earnestly craved. So you would suffer an emotional loss, a let-down that left you with a sense of frustration, a feeling that something was amiss, all because you were not financially equipped to invade the market of your choice. In other words, assuming for purposes of comparison that you were down to 80 cents, it would be much better judgment to go to a neighborhood movie in the Bronx. There you would be concentrating on a market you could afford to invade.

So in the final analysis, it's a matter of relativity. Which gives us a rule to go by, a definite technique that can be specifically applied in package goods advertising. Let's write it down this way: "Concentrate your fire power on a market you can afford to invade, one for which your budget is big enough to pay the cost of admission."

ONE day shortly after a jury in the New York Supreme Court handed down that $300,000 verdict in our favor in our recent conspiracy suit, I was waiting in the lobby of the Ambassador Hotel to keep an appointment.

As I watched the people come and go, a friendly hand gripped my shoulder. I looked around and there stood the great Edward H. Little, chairman of the board of Colgate-Palmolive.

"Just want to congratulate you on winning your case, Duane," he said, then he grinned and added, "and I see you still know how to sell shave cream."

Praise from a Competitor

That last remark made me feel particularly good. He was referring to a campaign we had run for Mennen Shave Creams. And coming from Ed Little, that comment constituted a super-compliment, for it was praise from a competitor—and what a competitor! There was a personal angle too, for Edward H. Little had been president of Colgate-Palmolive-Peet at the time I handled the SuperSuds account for Benton & Bowles. And like Bill Benton he had entertained grave misgivings about offering flower seeds as a premium for SuperSuds, a prize C-P-P product. After the premium succeeded, however, and it became apparent that it would pioneer a whole series of package goods advertising techniques, he was among the first to tip his hat to a new trend.

The Mennen campaign had been a stand-out success because it was based on continuity. In fact, it was an irrefutable confirmation of the value of this ten-letter word as a package goods advertising technique. I had learned it years before as one of the facts of life in advertising, learned it the hard way too through the great game of trial and error.

Since the Mennen campaign showed so graphically how continuity can be successfully applied, it seems fitting that I use it here as the text of what I have to say—as a sort of theme song, if you like. However, let me warn all that it will interest women only vaguely. Although almost all package goods advertising appeals to the disaffection of the buying public, I am now about to discuss an angle for men only, one in which housewives have little or no concern.

Yet I cannot deny that even in men's shaving habits there's a feminine influence. Actually, if it were not for the women, bless them, men might never shave, or at least not very often. So what I say here will be indirectly motivated by a feminine aspect, whether I try to make it so or not.

When we first took over the Mennen account, the firm relied entirely for its radio sales pitch on an extremely expensive evening musical show. This program featured two commercials and was heard only once a week in the fashionable dinner-hour time bracket. That, by and large, was the sum total of Mennen's radio activities. But they had representation in printed media, of course, which was their main road to market.

I pointed out to Sem Dieterich, vice president and a key Mennen executive until his untimely death late in 1953, that in my opinion the company was facing a roadblock in its sales strategy insofar as shave creams and men's toiletries were involved.

"How do you figure that?" Mr. Dieterich asked.

"Well," I said, "how many men do you think shave at dinner time?"

Sem shrugged. "Not many, I guess."

"Besides, you're beaming your programs at a mixed audience—men, women and children. All are interested in music but not all in shaving, at least not at that time of day. Furthermore, you're telling your sales story to this audience only once a week. That's like telling a man he ought to shave every seven days. Since he shaves every day, why not tell him every day what to shave with?"

"But," Sem objected, "that would cost a fortune. Our show already runs into terrific costs. We couldn't spend that kind of money every day, it would be ridiculous!"

"Sure would," I agreed, "and it would be equally ridiculous to ask you to."

"Then what do you suggest?"

Until we took over the Mennen account, I had met F. Semler Dieterich only once. That was casually, at White Sulphur Springs where I'd gone to make a speech. But I'd long known of Mr. Dieterich as a super-salesman and top executive. Otherwise he'd never have been a veepee for Mennen. The sales picture there for shaving accessories hadn't looked good to Sem, so he had turned the advertising over to us. The Duane Jones Co. had a reputation for hard selling, and Sem wanted more sales.

Jones Takes the Ball

When he asked me to suggest something, that meant he was passing the ball, and I knew I'd better gain some yardage. I took a deep breath. "Why not try continuity?" I asked.

Sem looked a little blank. "Continuity?"

"Yes. Continuity will give you frequency and repetition. Continuity will put your sales messages in sequence. Continuity will multiply and intensify their impact."

Sem then asked the 64-dollar question. "What will it cost?"

"It comes cheapest by air," I said. "By an analysis of our premium returns, we have been able to make a breakdown of..."

COOK TAKES OVER KMBC-AM-TV, KFRM

Following FCC approval to sale of stations by industry pioneer Arthur B. Church, the former WHB owner announces executive and policy changes. Don Davis and John Schilling, former WHB officials, become vice presidents of KMBC; Higgins is sales head.

EXECUTIVE changes and policy were announced last week for KMBC-AM-TV Kansas City following FCC approval to the purchase of the properties by Cook Paint & Varnish Co. for $1.75 million from pioneer broadcaster Arthur B. Church (B+T, April 26). Cook merges its share time WHB-TV with KMBC-TV into a fulltime operation on ch. 9 as KMBC-TV.

In turn, FCC approved Cook's sale of WHB radio for $400,000 to Todd Storz and family (see separate story). The KMBC sale to Cook also includes sister station KFRM Concordia, Kan.

In a joint statement, Don Davis and John T. Schilling, WHB executives, said "no immediate changes in the program structure and public interest programs of the Midland Broadcasting Co. stations [KMBC] are contemplated, accord-

ing to program plans filed with the FCC. Therefore, there will be no immediate changes in the KMBC-KFRM and KMBC-TV staffs beyond those which must be expected at time of a complete change in ownership.

"The name WHB Broadcasting Co. will be changed to KMBC Broadcasting Co., which will continue the operations of Midland.

"Mr. Davis will be first vice president of the KMBC corporation, will serve as chairman of the programming board and will have direct responsibility for sales, advertising and promotion.

"Mr. Schilling, who built the original WHB in 1922, will be vice president and general manager."

The joint statement said George Higgins of KMBC joins the Cook organization as sales manager for radio and tv. The KMBC stations will be represented for national sales by Free & Petora.

Dick Smith, who originally was with KMBC and joined WHB in 1932, returns to KMBC as director of radio. Mori Creiner Jr., with WHB from 1948-50 when he joined Rogers & Smith Adv., and who rejoined the Cook organization last summer as director of television, will serve in the latter capacity on KMBC-TV.

Ken Greenwood, assistant director of television at WHB-TV, whose call will be deleted, continues in that capacity with fulltime KMBC-TV.

Henry Goldenberg, who with Mr. Schilling built the original WHB in 1922, will be chief engineer in charge of both radio and television for Cook. "Some necessary adjustments in the technical staff will be made as ch. 9 becomes a one-station operation," the statement explained.

Transmitter Work Underway

Progress on the new KMBC-TV transmitter for full 316 kw ERP, with its 1,079-ft. tower at 23d and Topping Sts., is now underway and completion is expected late this summer, the announcement said. New 50-kw RCA transmitter, equipped for color, is due July 15.

Cook Paint & Varnish Co. entered the broadcasting field in 1930 when it bought WHB (then a daytime station) from Sweeney Automotive & Electrical Co. WHB joined the Mutual network in 1936 and became a full-time station in 1948. Its tv activities joined those of KMBC-TV last August, when both stations began share-time operations on ch. 9.

Cook "looks forward to even greater public service to radio listeners and television viewers as a single ownership tv station takes over the operation of ch. 9," the announcement said, "and the program services and facilities of KMBC and KFRM are expanded."

The operations of the KMBC Broadcasting Co. will be under the general supervision of certain of the officers of Cook Paint & Varnish Co., the parent company. John Cash, vice president, will continue his advisory work with the radio and television stations. Lathrop G. Backstrom is president of the newly-named KMBC Broadcasting Co., and Robert B. Caldwell is chairman of the board of directors.

Present WHB-TV studios and offices in the Power & Light Bldg. will be moved immediately to the KMBC Bldg. at 11th and Central Sts. in Kansas City, where the main tv studio accommodates sixteen permanent sets, a rearvision projector and facilities for audience participation shows.

Camera equipment now will include the extensive combined facilities of both WHB-TV and KMBC-TV, it was pointed out. The building houses a 2,600-seat theatre used for radio and tv program originations.

See Greater Service

"Over the years," Mr. Davis said, "Cook has built WHB radio, and later WHB-TV, into stations rendering a fine service to the community. Now, with the acquisition of the KMBC properties, and full-time on ch. 9, and with our CBS affiliation in both radio and television, all of us have a greater opportunity as well as a greater responsibility to operate radio and television stations that will be outstanding, not only in the heart of America, but in the nation."

"This we are determined to do, with the wholehearted cooperation of everyone connected with this new and progressive organization now taking stewardship of the Midland properties."

MODEL of the Prudential Bldg. in Chicago shows the new WGN-TV antenna, to be completed in the summer of 1955 [B+T, June 7]. Antenna will tower 925 feet above street level—515 feet higher than present one atop Tribune Tower—and enable the Chicago Tribune station, with transmitter there, to increase power from 120 kw to maximum 316 kw in early 1956. Prudential Insurance Bldg., at Randolph & Michigan Blvd., is now under construction and will be ready for occupancy in December 1955. The station has acquired lease for 3,000 square feet of floor space and is planning color tv operation there.

WHB Personnel Changes

Announced by Storz

PERSONNEL changes for WHB Kansas City were announced last week by Todd Storz, vice president and general manager of Mid-Continent Broadcasting Co., following FCC approval to purchase of the Kansas City outlet for $400,000 from Cook Paint & Varnish Co. Cook takes over operation of KMBC-AM-TV Kansas City (see separate story).

Mid-Continent also operates KOWH Omaha and WTIX New Orleans.

New manager of WHB is George W. (Bud) Armstrong, formerly WTIX manager, Mr. Storz said. Mr. Armstrong is replaced at WTIX by Fred Bertheisen, heretofore WTIX sales manager.

Virgil Sharpe, a 20-year veteran in Omaha radio and for two years sales-program director
NO WINDOW SHOPPING IN TOPEKA

Topeka folks don't window shop—they BUY! Topeka ranks 14th in the U.S. in Consumer Spendable Income* with $6,804 per household . . . that's $1,558 (29.7%) above the national average!

TV SELLS 'EM

America's 14th market has only one TV station—WIBW-TV. Right now, we're delivering 52,472 homes on interim operation. But when they've tightened the last bolt on our new 1000 foot tower, we'll hand our advertisers well over 100,000 of these ready and able to buy families.

Kelly Maddox Appointed General Manager of WJBO

APPOINTMENT of Kelly Maddox as general manager of WJBO Baton Rouge, La., was announced last week by the station. He succeeds Charles Garrett, who has been named advertising manager of the Baton Rouge State Times-Morning Advocate. The newspapers are under the same ownership as WJBO.

Mr. Maddox, a 25-year veteran in radio, formerly was with KPLC Lake Charles, La. His longest tenure was with WFAB Dallas from 1941 to 1952 when he resigned as assistant to the general manager to become radio TV director of the Couchman Adv. Agency, Dallas.

Robert H. Swintz Succumbs

ROBERT H. SWINTZ, 59, former manager of WSBT South Bend, Ind., died of leukemia June 4, following a long illness. Mr. Swintz managed the South Bend Tribune station for almost 20 years before retiring in February 1953. He joined the radio staff as manager in September 1934, and was still actively connected with WSBT-AM-TV until a few weeks ago when failing health forced him to give up his duties.

He is survived by his wife and two daughters.

Mary McKenna Heads WNEW Research, Sales Development

MARY L. McKENNA, timebuyer supervisor, Benton & Bowles, New York, has been appointed director of research and sales development of WNEW New York [B&T, June 7]. Richard D. Buckley, president and general manager of WNEW, announced last week.

Miss McKenna had been with the agency since 1942. Since Miss McKenna's background embraces almost all aspects of the broadcasting field, ranging from media-research through time-buying and broadcast supervision, Mr. Buckley emphasized that a greater integration between the function of research and the specific needs of radio sponsors can be accomplished through the launching of special research projects as well as constant re-examination of research results under Miss McKenna's supervision.

In addition, Mr. Buckley said, the new department headed by Miss McKenna will provide a "continued effectiveness insurance policy" for WNEW clients by being responsible for surveillance of accounts already on the air.

Chesley Pays $65,000 For KCOG Centerville

SALE of KCOG Centerville, Iowa, by the Daily Iowegian for a consideration of $65,000 has been announced. The sale is subject to FCC approval.

The purchaser is Alex Chesley, who recently resigned as northwest account executive for Motion Pictures for Television. Previously he was manager of WIMR New Orleans. The new corporation will be known as Hiawatha Broadcasting Corp., according to Mr. Chesley. Some changes at the management level are contemplated, he added.

KCOG is licensed to Centerville Broadcasting Co. whose president, Robert K. Peck, controls the local newspaper.

TORNADIC winds of 100 m.p.h. during the night of June 1 leveled this 368-ft. directional tower of KWFT Wichita Falls, Tex. [B&T, June 7]. Station President Kenyon Brown estimated damages at $20,000.

ASSOCIATION OF AMERICAN RAILROADS
Five-Day Open House Launches WLWA (TV) Studios

FOR WLWA (TV) Atlanta it was a five-day open house that the station will long remember. For the agency-advertiser-press-radio-tv guests who attended a June 4 preview, it was an opportunity to inspect first-hand a new, modern studio layout in the heart of the South. For the public who flocked through the building by the thousands until the doors closed on June 8, it was a great celebration.

WLWA's open house got off to an exciting start. The special guests trod a 50-ft. long, specially woven red and gold welcome mat, the ladies received orchids and the men wallets, all attended a special show featuring Bill Lowery and Neva Langley, were served cocktails and dinner and took part in WLWA contests, during which hundreds of dollars worth of prizes were given away.

The celebration was attended by Mayor William Hartfield, Mrs. Herman Talmadge, wife of the Georgia governor who was out of town but appeared on film congratulating the station's debut, and others. The president of Crosley Broadcasting of Atlanta Inc. (WLWA), William P. Robinson, was awarded a gold plaque from the people of Atlanta for the station's outstanding service in the community.

Another special show was a Jamboree June 5 for 300 guests, and included dancing, contests, games, singing and barbeque. Ticket distribution for the general public was made via Colonial Stores and Jacobs Drugs stores, both participants in WLWA's "Point-of-Purchase Plan." Tickets also were entry forms for the slogan contest for which the first prize was a 1954 Ford convertible.

The open house celebration was part of the $100,000 summer promotion by Crosley, called "Operation Sunburst," during which WLWA will give away more than $20,000 in prizes. Officials of the Crosley Broadcasting Corp., headed by R. E. Dunville, president, attended.

Philip Kauffmann Dies; Owner in Washington 'Star'

PHILIP CHRISTOPHER KAUFFMANN, 58, an owner of the Washington D. C., Evening Star, operator of WMAL-AM-TV there, died last Wednesday at Palm Beach, Fla., following a long illness.

Mr. Kauffmann, a grandson of the late Samuel Hay Kauffmann, a founder of the Evening Star Newspaper Co., served with the newspaper as a reporter, assistant city editor and city editor. He was forced to take an indefinite leave of absence in 1929 because of illness. He is survived by his brother, Samuel, president of the Star and WMAL; his wife, Florida Staniford; four sons, and a daughter.

WNBQ (TV) New Rate Card Ups Class AA, A Rates

INCREASE in tv families in the past eight months and prospective increase in power from 75 kw to 100 kw have prompted WNBQ (TV) Chicago to devise a new rate card (No. 8), effective June 15, it was announced last week. Jules Herbeaux, general manager of WMAQ-WNBQ (TV), estimated over two million television homes—a boost of 100,000 families since last November—would be covered by the NBC o&0 tv outlet. Rate card No. 7 became effective at that time.

Under the new rate card, Class AA station time rate of $1,800 per half-hour and $1,200 for a quarter-hour are established. The Class A rate will jump to $2,500 an hour, $1,500 per half-hour and $1,000 for 15 minutes.

Philip Kauffmann, owner in Washington 'Star'

Monroe Benton, announcer, news editor and news director, WNYC New York, to WELM Elmina, N. Y., as news director.

Robert E. Head, program manager, WLWD (TV) Dayton, appointed to sales staff. Bill Bailey, formerly with WMAQ, WBMM and WLS Chicago, succeeds Mr. Head.

Robert G. Murdock, formerly a public information officer, U. S. Air Force, appointed program manager, KSL Salt Lake City. Lloyd E. Cooney, formerly Salt Lake City office public relations director, Blue Cross and Blue Shield, appointed account executive, KSL-TV that city.

Robert McGill, assistant program manager, The Oregonian, Portland, to KQIN-TV Portland, promotion manager.

Claude Frazier, commercial manager, WAGA Atlanta, named station manager; Les Henrikson, sports director, named program director; R. David Mayo, merchandising manager, named promotion and publicity manager, and Doris McGill and Betty Lou Terry joint program dept. and promotion dept., respectively.

Mr. Frazier

Mr. Murdock

Mr. Riesen

Mr. Riesens

The GIRL and the auto, awarded to a slogan contest winner, odd grace and fine lines to last week's open house held by WLWA (TV) Atlanta. L. to R.: R. E. Dunville, president, Crosley Broadcasting Corp.; Neva Langley (Miss America of 1953) who is one of the station's tv stars, and William P. Robinson, president, Crosley Broadcasting of Atlanta Inc. (WLWA).

Mr. Robinson was awarded a gold plaque. Miss Langley appeared in a special show.

STATION PEOPLE

Charles Herring, news staff, KNXT-TV Los Angeles, returns to KING-TV Seattle, in newly-created position, news director, KING-AM-TV. Richard Riesens named associate news director of same newly combined operation.

Gene Riesens, salesman, KKTW (TV) Oklahoma City to affiliated KOMA City, as sales manager.

Robert Underwood, general supervisor of industrial relations, Northrop Aircraft Inc., Hawthorne, Calif., to KBID-TV Fresno, as account executive.

Ralph Petti, program director, WESC Greenville, S. C., to WBSR Pensacola, Fla., as program and sports director.

Frohman Johnson, formerly promotion director, Charleston (W. Va.) Daily Mail, to WCHS Charleston, in similar capacity.

Rose Caulde and Jackie Kirby to promotion dept., WPMY-TV Greensboro, N. C.

Bill Cox appointed news editor, KLYN Amarillo, Tex. Nick Reyes, staff announcer, named night newscaster, same station.

Bigger CAKES for longer COILS

Another 2,000 kw diesel-generator set has been added to the power plant of the Raritan Copper Works to provide more current for its electrolytic copper refinery.

COPPER CAKES HAVE PUT ON WEIGHT

at the Raritan Copper Works of International Smelting and Refining Company, a subsidiary of Anaconda. Heretofore, the maximum weight was 840 pounds. But now, with the recent completion of a new casting plant, parallel-sided copper cakes ranging in weight from 1,800 to 3,000 pounds are regularly produced on the casting wheel illustrated above.

This means that The American Brass Company, an Anaconda fabricating subsidiary, is able to supply its customers with larger and heavier copper plates; also with longer unjointed coils of strip copper in very thin gauges. These longer coils, in demand by industry, enable users to operate their machines more economically—with fewer interruptions.

This new casting plant, the largest of its kind, is another example of Anaconda's continuing program to meet industry's evermore exacting requirements for copper and copper alloy products.

NBC TELLS AFFILIATES RATE CUT IS NECESSARY AFTER CBS SLASH

NBC takes crack at CBS for reducing radio network time costs three times in four years. It is unofficially reported that NBC asked affiliates to agree to “clock hours” standard of compensation.

WITH a blast at CBS Radio for making the first move, NBC told its radio affiliates last week that it had “found it necessary” to ask them to agree to a more cut in compensation for evening network radio time in order to “maintain competitive position” in the face of CBS Radio’s projected rate cut [B*T, June 7, May 31].

The NBC affiliates were assured that the rate-cut proposal was made unavoidable by CBS Radio’s “act of desperation” but that it would not stand in the way of NBC’s “continuing effort to advance the NBC Radio network’s program and sales position,” the announcement said. Effective date of the NBC changes was indefinite, as remained true in the case of those planned by CBS Radio. Presumably they will take effect at approximately the same time. CBS Radio, under commitment to affiliates, cannot reduce rates before Aug. 25.

Coincidentally with its request that affiliates accept a reduction in compensation, NBC was reported unofficially to be asking them to agree to a conversion to “clock hours” standard of compensation which CBS Radio also employs. Under this compensation plan the stations are paid at 50% rather than 60% of the hour rate for a half-hour; 25% instead of 40% of the hour rate for a quarter-hour, etc.

In its message to affiliates, NBC noted that CBS Radio has reduced network time costs three times in four years and charged it with “deprecating the value of America’s basic communication medium ... contrary to the best interests of radio stations and networks.” But to maintain “sales momentum” and remain competitive, NBC said it must ask for a comparable reduction.

NBC also noted, in answer to CBS Radio’s agreement to give its affiliates 70-second station breaks on certain evening commercial programs, that NBC Radio affiliates have been getting 70-second station breaks preceding evening network programs for the past three years, plus local one-minute commercial availability in the body of network participation programs, and three minute local cut-ins on such programs as Roadshow. Thus CBS Radio’s expansion of station-break time “belatedly meets a practice instituted by NBC Radio years ago.” NBC maintained.

While CBS Radio did not officially answer the NBC charges, a CBS Radio official said “I am glad to see Pat Weaver (Sylvestor L. Weaver Jr., NBC president) again taking an interest in radio.”

Like CBS Radio, NBC’s reduction in costs to advertisers would be accomplished through a revision in dollars rather than through a reduction in the rates themselves, and the cost reductions would apply only in nighttime hours.

In the announcement of NBC plans, NBC President Weaver said:

“NBC network radio is on the way up as a result of our policies. We have been taking affirmative and constructive steps in support of network radio by developing new values for the medium, its components, and its audiences through network participation opportunities and programming geared to present interests. The results speak for themselves.

Substantial New Sales

“Since last Dec. 1, we have registered new radio sales in excess of $9 million, an increase of 357% over the comparable six months period a year ago. Renewals for the same period were another $16 million. The placement of over $25 million in new and renewed "radio orders shows what can be done to revitalize this dynamic medium and aid its usefulness to the advertiser and the public.

“On the NBC Radio network we have patterns and plans to fit the needs of any and all national advertisers. This is demonstrated by the fact that of our $9 million in new business, almost $7 million was placed in orders for time for programs following the traditional half-hour, quarter-hour and strip patterns, while over $2 million was spent on participations in our new syndicated and top-rating plans.

“When our competition deplores our application of new flexibility patterns to network radio, it is an admission that price cutting is the only solution the competition can offer. The sales patterns we are developing are bringing into network radio clients it should have had years ago, but was never able to reach because it was frozen to conventional patterns established at its beginning. At the same time, we are making the conventional use of network radio a still more attractive buy for those who prefer this pattern.

“On the programming side, we are applying concepts that will make the most of the changing radio listening habits. By taking advantage of the growing trend toward a more personalized type of listening, we serve the real needs of the public as well as those of the advertisers.

“A denial of the validity of these new sales and programming patterns is a denial of radio’s great future potential and a failure to understand advertising and circulation needs. NBC is devoting its skills and energies to creating new values for network radio because we believe in the future of the medium and our future in it.”

Mutual Names Allen Eastern Sales Manager

APPOINTMENT of Sidney P. Allen, administrative manager for network sales for Mutual, as sales manager of the eastern division of the network was announced last week by Adolf N. Hutt, MBS vice president in charge of sales. Mr. Allen joined Mutual in 1950 when they opened their department in 1936 following previous association with Conde Naste Publications and Dell Publishing Co. He is a member of the Radio & Television Executives Society and the Radio Pioneers.

CBS-TV ‘Toast of the Town’ To Be Telecast In Color

FIRST major CBS-TV program to be broadcast in color will be Ed Sullivan’s Toast of the Town program on Aug. 22, it was announced last week by Hubbell Robinson Jr., CBS-TV vice president in charge of network programs. The color telecast will be a highlight of ceremonies inaugurating CBS-TV’s $115 million color television theatre at 81st St. and Broadway.

The Toast of the Town show (Sun., 8-9 p.m. EDT), which begins its seventh year on the air June 20, is sponsored by the Lincoln-Mercury Dealers. The Aug. 22 program will provide the tv audience with a view of the color theatre, said to be the largest and most completely-equipped color studio in the world. The stage has a production area of more than 5,000 square feet.

Nine ABC-TV Sponsors Renew Seven Programs

NINE ADVERTISERS during the past month have placed renewal orders with ABC-TV representing gross time sales of about $8,235,400, according to Alexander Stonach Jr., vice president in charge of ABC-TV. The renewals:

Real-Lemon-Puritan Co., through Rutledge & Lilienfeld, Chicago, for Tuesday and Thursday segments of John Daly and the News (Mon.-Fri., 7:15-7:30 p.m. EDT), starting June 1;

Dick Foods Inc., through McCann-Erickson, for Sky King, (Mon., 8-8:30 p.m. EDT), effective June 14; Hotpoint theatre, through Maxon Inc., and Lambert Co., through Lambert & Feasley, for alternate sponsorship of The Adventures of Ozzie and Harriet (Fri., 8-8:30 p.m. EDT), starting July 2; Pepsi-Cola Co., through Blowe Co., for Pepsi-Cola Playhouse (Sun., BROADCASTING • TELECASTING
You can see and examine all types of Truscon Towers in full operation in Youngstown.

A tower is one piece of equipment no salesman can bring to you. He can't demonstrate its features in your office. Fortunately, you can get all the advantages of on-the-job demonstration simply by visiting Youngstown. You can get the facts to help you buy on proof. And, you can inspect Truscon's design and fabricating facilities at the same time.

You'll be able to see and examine:
1. A 150-foot self-supporting tower for AM broadcasting.
2. Four 400-foot self-supporting towers in directional array for AM broadcasting.
4. A 539-foot self-supporting tower sustaining both an FM and a TV antenna.
5. A 1000-foot guyed tower with TV antenna.

Next time business takes you near Youngstown, make it a point to see all these Truscon Towers. Contact the Radio Tower Sales Department to let us know when you're coming.
Tele-Centre Dedication

FORMAL dedication of the DuMont Television Network’s Tele-Centre, said to be the first facility completely devoted to television production in the East, is scheduled to take place today (Monday). The Tele-Centre is located at 203 E. 67th St., New York. DuMont reported it has invested $5 million in building and equipping the interior of the structure. It contains five studios, a film projector room, isolated control booths for sound, sight and production, and other facilities.

McAndrew To NATO Briefing

WILLIAM R. McANDREW, manager of news and special events for NBC, has been named to represent NBC, CBS, ABC and Mutual at the North Atlantic Treaty Organization briefing in Paris starting tomorrow (Tuesday). The four-day briefing, held under the NATO Committee on Information and Cultural Relations, is to encourage American broadcasting organizations to “bear witness to informing world opinion without NATO.” Mr. McAndrew will return to New York June 21.

AB-PT Declares Dividend

AMERICAN Broadcasting-Paramount Theatres Inc., last week declared dividends of 25 cents per share on both the outstanding preferred and the outstanding common stock of the corporation, payable July 20 to holders of record on June 25.

Another Reason Why Morning Radio PAYS OFF for WSYR Advertisers

"This is the Deacon Speakin’”

By all odds the top farm-program personality in Central New York, Bob Doubleday, the RDF Deacon, mixes wisdom and wit to hold the enthusiasm of his huge farm audience. City slickers listen, too. Participating, Monday through Saturday, 5 to 7 a.m.

EDUCATION

KTHE (TV) ANGEL Quits; TV’s Future Doubtful

Capt. Allan Hancock, benefactor of USC and director of Hancock Foundation, resigns as school’s head of board of trustees. Educational TV outlet, nation’s second on the air, depends on foundation funds.

FUTURE of KTKE (TV) Los Angeles, second U. S. non-commercial educational TV station, is in serious question after the resignation of Capt. Allan Hancock, director and supporter of the Hancock Foundation, station licensee and operator, effective July 1.

The fund, with principal assets of $2,150,000, has been established by the 78-year-old philanthropist for U. S. of Southern California, on whose campus the station studios and offices are located, “to continue those activities of the Hancock Foundation, with which Dr. Hancock and trustees may desire to preserve.” University authorities’ final decision on KTKE and KUSC (FM) Los Angeles must wait a meeting of the board of trustees shortly.

The foundation projects are KTKE, KUSC and the Hancock School of Telecommunications, which must compete for now-limited funds with Hancock schools of oceanography and aeronautics. The Hancock Foundation will cease as an independent body and become an integral part of USC.

With the resignation as Foundation director, Capt. Hancock also relinquishes his role as chairman of USC Board of Trustees. He cited business considerations and personal plans which will require all his time and attention as reason for the action, but declined to discuss future plans to enlarge on provisions he has made for the foundation.

However, serious differences with USC authorities, especially on operation of KTKE, have been rumored.

Twelve Educ. TV Workshops To Convene During Summer

SCHEDULES for summer workshops in television, which includes many courses designed for those interested in educational TV, were reported last week by the National Citizens Committee for Educational Television. The 12 sessions reported are:

Michigan State College TV Workshop, East Lansing, Aug. 3-6; for credit or non-credit. University of Houston series of two-week TV Training Programs, June 21, July 19, Aug. 9, 16; for teachers and community leaders. Harvard College NBC Summer Radio-TV Institute, N. Y. C., June 28-Aug. 6, for professionals, teachers, and others. Pennsylvania State University TV Institute, State College, Aug. 5-22; for graduate credit. Syracuse University TV Workshops, Syracuse, N. Y., June 25-Aug. 9 or Aug. 9-29; graduate credit for teachers, administrators and others. Philadelphia Board of Public Education TV Workshop, July 13-30; for professionals, teachers, and others. Philadelphia NBC-TV Workshop, Stockton, Calif., July 5-24; for graduate credit.

San Francisco Saturday TV Workshop, San Francisco, Calif., June 16-July 31; for non-credit. U. S. Summer Workshop in Radio-TV, New York City, June 28-Aug. 6; undergraduate, graduate or non-credit.

U. of Southern California Communications Course, Los Angeles, July 20-Aug. 15; graduate credit.

George Peabody College-WSM TV Workshop, Nashville, Tenn., Aug. 2-19; for educational TV producer-directors.

Pennsylvania State University Educational TV Workshop, State College, Pa., June 28-Aug. 7; for school and educational TV personnel.

BROADCASTING • TELECASTING
CBS, IBEW Sign Two-Year Contract, Wage Increase

CBS and the International Brotherhood of Electrical Workers signed a new two-year contract last Tuesday covering 1,100 engineering employees at CBS-owned stations throughout the country. Age clauses of the contract, retroactive to May 1, call for varying pay increases. Weekly salaries for technicians will be paid the following scale as compared with the old rates, depending on length of service: 0 to 3 months, $85, from $76.50; 3 months to 1 year, $90, from $83; 1 to 2 years, $104, from $93; 2 to 3 years, $118, from $108.50; 3 to 4 years, $132, from $119, and 4 years or more, $162.50 on May 1, 1954, and $165 on May 1, 1955, from $150.

Wages of assistant supervisors are increased from $166.50 to $180 the first year and $182.50, effective May 1, 1955; technical directors, from $166.50 to $190; supervisors from $174 to $190 and assistant technicians from $72.50 to $78. It was pointed out that wages of technical directors received the benefit of both an upgrading in classification and a rate increase.

‘Allegro’ Criticizes NBC For Disbanding Symphony

NBC’s action in disbanding the NBC Symphony Orchestra [BT, April 5] was decried in an editorial in the May issue of Allegro, publication of New York Local 802, American Federation of Musicians, which intimated that the network is not living up to “its inescapable obligations to the people it should serve.”

The editorial claimed there has been “great outpouring of criticism and condemnation” against the decision to disband the orchestra, and pointed out that radio and television stations and networks have obligations to the public to advance good taste and raise cultural standards. The editorial concludes:

“And we submit that the most essential of yardsticks is the one with which radio and tv must measure the degree to which it has fulfilled its inescapable obligations to the people it should serve. What is the measure by that yardstick, Mr. Sarnoff [Brig. Gen. David Sarnoff, board chairman of RCA, NBC parent company], of your decision to disband the NBC orchestra?”

A spokesman for NBC said the network had no comment to make on the editorial.

AFTRA Suspends Brown

INDEFINITE suspension of John Brown, former radio-tv actor on such programs as CBS-AM-TV My Friend Irma and ABC-AM-TV Ozzie and Harriet, was ruled by Hollywood AFTRA executive board after actor failed to answer questions of the House Un-American Activities Subcommittee within the 90 days period previously set by the board [BT, March 15]. Mr. Brown had been temporarily suspended until he answered subcommittee questions on alleged Communist connections, but suspension became “indefinite” with failure to meet the deadline.

NABET Wins MPTV Elections

NATIONAL Assn. of Broadcast Engineers & Technicians last week was named bargaining representative for eight film inspectors and handlers at Motion Pictures for Television, Hollywood office. Vote was six for NABET and two for no union. No other union was involved although IATSE generally represents such workers.

From where I sit by Joe Marsh

The “Write” Prescription

Noticed three half-finished letters lying on the counter down at Jones’ Drug Store last week. “Writing three at once, Doc?” I asked.

“No,” Doc said, “you are—you and the rest of the folks from the town. Those are for the boys from our town who are at the National Guard encampment.

“Everyone who comes in adds a line or two, and when a couple of pages are filled, I mail them. That way the boys hear from folks who might not write otherwise. They sure do enjoy getting those letters.”

From where I sit, little things can add up pretty big. A few short notes make a letter. Boys from our little town help build up a strong National Guard to protect our freedom. Even freedom is made up of a lot of things—living where we like, voting the way we think is right, choosing between coffee, tea, or beer at dinner. And anything that adds up to freedom gets my stamp of approval.
RCA Fall Color Sets
To Have 19-Inch Tube

Elliott tells electrical distributors meeting in Atlantic City that 1955 will be the year of transition from black-and-white to color tv.

NEW model shadow mask 19-inch color viewing tube, providing larger pictures than previously, will be used in the RCA Victor color sets to be put on the market this fall, Joseph B. Elliott, executive vice president, Consumer Products, RCA, announced Thursday in an address before a convention of the National Assn. of Electrical Distributors in Atlantic City.

"RCA Victor color television receivers to be introduced this fall will employ the new and very latest RCA shadow mask 19-inch tube," Mr. Elliott stated. "The full area of the tube face will be used, providing larger and brighter color pictures of approximately 24 square inches. The new tri-color tube will incorporate a recently developed three-gun assembly, shorter and with higher efficiency, producing outstanding brilliance and picture quality with increased stability. The new tube does not require any change whatsoever in the circuitry of the color receiver."

Mr. Elliott's disclosure that the new 19-inch tube is ready for commercial use in the fall sparked rumors circulated during the past month that RCA was abandoning its plans to bring out a 19-inch color set this year. These rumors stemmed from the fact that RCA had stopped production of an earlier model 19-inch color tube of the same design as the 15-inch viewing tube used in the color sets first introduced by RCA.

Pointing out that color tv program reception is now possible in 35 cities, with 125 tv stations expected to be equipped for colorcasting by the end of the year, Mr. Elliott said: "The year 1954 will be remembered as the year that color tv made its start as a regular service; 1955 will be known as the year of transition from black-and-white to color, with increasing interest and effort placed on color. After that, the curve of color growth should turn sharply upward."

"The series of color 'spectaculars' which NBC will inaugurate in October will give color television the shot in the arm which all of us have been waiting for. In addition, these 'spectaculars,' because of their wide appeal, will help black-and-white television. Advertisers who sponsor these features to obtain the extra impact of color in displaying their products are fully aware that the owners of millions of black-and-white tv sets will also be included in their audience."

Second Set Prospects

Second tv sets will soon be "a must" in homes with both children and adults, Mr. Elliott declared. "The football game will hold adult attention for 150 minutes," he said, "but most of the youngsters will keep on demanding their westerns at the same time. Through persistent and productive merchandising and promotion, we can see that peace is maintained in the family circle."

Mr. Elliott warned his audience, however, not to concentrate so hard on tv sales that they forget about radio. "I'm sure radio is going to be with us for a long time," he declared. "Don't sell it short."

He expressed confidence that the "added punch" which radio set promotion will receive during the balance of the year will demonstrate that radios still offer opportunities for volume and profit. "If better promotion and harder hitting salesmanship had been employed in 1953," he said, "the resulting increase in sales of radio sets would have absorbed the industry's entire inventory. A little extra effort spent here and there could well have made the great difference between a sluggish market and a most productive one."

Andrea's 19-Inch Color Set

AVAILABILITY of a 19-inch color set for sale this fall was announced last week by Frank D'Andrea, president of Andrea Radio Corp., New York, as he disclosed his firm has stopped production on a 15-inch pilot color receiver.

Mr. Andrea said he has come to the conclusion that a 15-inch set "is not a practical instrument," and has instructed his company to start work on a 19-inch color set with a viewing area of 17 inches. He voiced the belief that 19-inch sets will represent "the ideal size to start at, particularly considering that color programs by then will increase both in number of hours and in quality and quantity."

Jerrold Promotes Jacobs

HERBERT JACOBS has been named general manager of Jerrold Electronics Corp., Philadelphia, manufacturer of master antenna systems and community television system equipment. Mr. Jacobs will coordinate all departments in the Philadelphia plant and the seven affiliate companies. Donald H. Rogers, former chief engineer of Blonder-Tongue Labs, has joined Jerrold's engineering department.

NEW Collins 21E broadcast transmitter to increase power for WJPG Green Bay, Wis., from 1 to 5 kw, is accepted by Elmo Reed (r), WJPG chief engineer, from Harold Olson of Collins Radio Co.

General Electric Enters Closed Circuit Color Tv

ENTRY of General Electric Co. into the closed circuit color tv field was announced last week.

Using the CBS-developed field sequential system, GE plans to offer a $26,800 package for closed circuit color tv for business, education and industry.

William Morlock, general manager, GE commercial equipment department, made the announcement and said the field sequential color tv apparatus offers users a lower initial investment and lower operating costs than other types.

The GE package is composed of four basic elements: color camera, camera control console, rack-mounted power supply, and a receiver. All the equipment except the camera and the receivers may be located remote from the scene being televised. For an extra fee, it was said, a large-screen projector receiver could be substituted for the home-type console receiver. This would throw a picture on a 6x6-ft. screen. The camera and the receivers contain the color disc which adds the color to the black-and-white picture.

Printed Circuits Used By Admiral in New Tv Line

NEW LINE of tv receivers featuring extensive use of printed circuits in a new television chassis and 21-inch picture tubes was announced by Admiral Corp. last Tuesday following a distributors meeting in Chicago.

Joe Marty Jr., general manager of Admiral's electronics division, claimed use of the first tv chassis ever built around a printed circuit, which involves six tubes and one-third the normally exposed wiring. He said the development would help eliminate vibration and cut down possibility of circuit trouble. Ross Sira-gusa, Admiral president, predicted the 100% printed circuit chassis will be a reality within a year.

Admiral claims the 21-inch tube provides a 20% larger picture within a shorter cabinet. The manufacturer is first to use the 270-square inch deflection tube, according to W. C. Johnson, vice president for sales. Admiral has dropped the 24-inch set from its line, he added, because of the disproportionately greater viewing area of the 21-inch (only 10% smaller). Largest model is a 27-inch.
GEN. SARNOFF CITES RADIO-TV PROGRESS

RCA board chairman receives honorary degree at USC commencement and also addresses FBI National Academy exercises on technical advances.

MAN is "mature technologically while still an adolescent spiritually," Brig. Gen. David Sarnoff, chairman of the board of RCA, declared in an address to be given yesterday (Sunday) at the U. of Southern California. During the USC commencement exercises in Los Angeles, Gen. Sarnoff was to receive the honorary degree of Doctor of Laws.

Saying he was departing from the usual pattern of a commencement address where in the speaker is required "to apologize for the sins and failures of his generation," the RCA board chairman told the USC graduates "your parents and grandparents, which is to say roughly my generation, have built a remarkably vital and promising world.

Gen. Sarnoff said the "inevitable of man as a social and economic creature to keep step with his science" was the crux of his dilemma today. "This," he pointed out, "is the primary challenge that awaits you in the world beyond this campus; by this your generation and those that follow will be judged."

The RCA board chairman traced the rapid progress since 1900, citing the many advances, including radio, radar and television. He also pointed to the cultural and moral victories that have been won in the past half century. "The job ahead," Gen. Sarnoff declared, "is to assimilate the scientific progress, to turn every potential for the human benefit into a living reality.

Talk in Washington

In an earlier commencement address before the graduating class of the FBI National Academy in Washington last Friday, Gen. Sarnoff outlined the significant contributions that electronics has made to law enforcement efforts and charted developments in the offing that should prove of assistance in detecting law-breakers.

He cited the first use of radio in 1910 as a means of helping apprehend a fugitive from justice and, step by step, touched upon later electronic devices such as microwave radio communication system, radar and television. Gen. Sarnoff predicted it will be only a matter of time before a coast-to-coast television network will transmit teletype messages, weather reports, photographs, fingerprints and other documents that will make available to law enforcement agencies "an all-seeing eye that scans the country at a glance."

Some of the contributions of television to police work, Gen. Sarnoff continued, include presentation on screens of a wanted person that can be viewed by 30 million television homes, and the need-circuit televising of a police line-up. He noted that the New York City Police Dept. recently telecast a police lineup. He told the FBI graduates, who are police officers from communities throughout U. S., that the transistor will open up a new era of "personal" or individual communication, and will make "every patrolman as good as Dick Tracy." He pointed out that by means of the transistor, receiving sets ultimately will be small enough to be worn like a wristwatch and, in due time, patrolmen will be equipped with a pocket-size transmitter for two-way communication.

Crosley Uses Radio, TV To Introduce New 21" Set

NATIONWIDE tv and radio are being used by Crosley Div., Avco Corp., to introduce its new Super V 21 video receiver, companion to the 17-inch Super V brought out by Crosley earlier in the year (8/24, p. 9). The new set, which the company suggests be priced starting at $169.95, was first presented to the public last Saturday via NBC-TV's "Hi-De-Hi," which Crosley sponsors every other week. Special radio broadcasts by Bill Stern preceding and following the Marchano-Charles heavyweight title bout broadcast on ABC Radio this Thursday also will promote the new Super V 21. Newspaper advertising in key cities also will be used.

Introduction of the 17-inch Super V has increased the company's tv set sales sevenfold in the face of a decline in tv receiver sales generally, Leonard F. Cramer, vice president of Avco Mfg. Corp., and general manager of Crosley radio and tv, said at a new luncheon Tuesday in New York. Super V sales total some $8 million a month at retail, he said.

Indictments Handed Down Against Monarch Corp.

INDICTMENTS were handed down by a Federal Grand Jury in New York on June 4 against the bankrupt Monarch Radio & Television Corp., its former president and seven other persons on charges of violating anti-fraud provisions of the Securities Act, conspiracy and mail fraud.

Assistant U. S. Attorney William Esbitt said the indictment resulted from an investigation by the Securities & Exchange Commission into the interstate sale of $300,000 in Monarch stock to more than 1,000 individuals. The defendants, Mr. Esbitt said, caused the company to issue false financial statements and to pay dividends out of proceeds from stock sale. He added that Monarch was bankrupted shortly after the completion of the stock sale.

Sylvania Appoints Talbot

APPOINTMENT of Harold D. Talbot Jr. as advertising manager, with photographic lighting equipment, of the Lighting Division of Sylvania Electric Products Inc., was announced last week. Mr. Talbot will be responsible for the advertising and sales promotion programs and will be located in Salem, headquarters of the Lighting Division. For the past five years Mr. Talbot was sales promotion manager of the Floor Covering Division of B. F. Goodrich Co. in Watertown, Mass.

June 14, 1954 • Page 107
NO 'BRAVES' BASEBALL

ONE would presume that a station, located in as rabid a baseball town as Milwaukee, would openly boast about the fact that it covers the Braves' games. Contrariwise, one could presume that a station not carrying the games would not advertise the fact. Not so with WISN Milwaukee, the Hearst outlet there. In a recent promotion, WISN placed 50-ft. billboards strategically throughout the city claiming it has nine of ten top-rated programs — and does not carry the Milwaukee Braves' baseball games.

WKY PROMOTIONAL FOLDER

PICTURES of Oklahoma business executives, who specialize in Oklahoma City, for advertising campaigns as well as for at-home listening, appear in a promotional folder being sent to agencies and advertisers by that station. The advertisers' comments and a Pulse Inc. survey which rated WKY higher in listening audience than all other Oklahoma City stations combined are the bases for the folder title, "WKY You're O.K." The folder points out that WKY's primary coverage area is in 42 counties but the station's influence actually extends to 68 counties . . . with more than half-million radio homes. Population information, sales data and comparative listening audiences by time-of-day are included in addition to a coverage map and a list of top evening and day time shows carried by the Katz Agency-represented outlet.

WTVJ (TV) STUDIO MEETING

WTVJ (TV) Miami played host to 100 members of the Advertising Club of Greater Miami for the club's May meeting, which was held in WTVJ's Studio A. The groups were seated at dinner tables to watch the Renick Reporting news show which was followed by a chicken dinner. During dinner, the WTVJ guests watched the rehearsal of the Johnny Yoppio music show and later saw the live presentation in Studio A. By means of monitors guests watched the Lee Dickens shows which was originated in Studio B. Afterwards, the members were given a tour of the station's engineering facilities. The members reported, according to WTVJ, that the "Inside Television" program was the most successful meeting of the current year and a repeat show next year is planned.

OUTDOOR GARDENING SHOW

KABC-TV Los Angeles Gordon's Garden, which emanates from a 1,500 square foot garden and is reportedly the only outdoor gardening tv program in the United States, starts its second year on the station. The team of Gordon Baker Lloyd and his wife, Sassy, specializes in showing the beginning gardener what to do as necessary tasks occur each month.

WHPE VACATION PROGRAM

TO SALUTE four new sponsors of five-minute segments of their Adam & Eve Program over WHPE High Point, N. C., Mr. and Mrs. Russ Reardon, emcees, developed a "Vacation on We Work" theme on the show. They set up colorful stage props depicting a desert resort scene and described vacation spots throughout the country on the program.

CKCW LODGER PARTIES

TO MARK its 20th year of community service, CKCW Moncton, N. B., entertained several hundred advertising agency and broadcast industry executives at lobster parties at Montreal and Toronto early in June. CKCW's president Fred Lynds, brought the fresh lobster to the central Canadian cities from his native province of New Brunswick, and guests were hif featuring the station's trade mark, Lionel the Lobster, and the 20 years of community service.

' HAPPY DAN' HONORED

Dwight J. Bruce, m.c. and "Happy Dan" of children's Happy Dan program over WOTC-TV Savannah, Ga., was presented with a scroll, signed by more than 1,000 local children and teachers, complimenting him for the program's beneficial influence on school children throughout the area. The scroll was brought to "Happy Dan" by children of the Charles Ellis elementary school, including officers of the school, a rhythm band and singers. The late afternoon kiddie show features a cartoonist and live talent.

'TAKE-A-BATH-WEEK'

Keeping America clean, at least personally, is the avowed pledge of KNRT Des Moines disc m.c. Don Bell, arbitrarily elected president of National Take-a-Bath-Week Foundation. Mr. Bell is sending to the broadcasting trade no inference intended — membership cards in the newly-formed organization. Membership requires that a bath be taken during National Take-a-Bath-Week (date to be announced every spring on the Don Bell Show over KNRT), and that the member enlist others in his family to do so. Members must also urge five others to join the Foundation and join in the theme song "Let Bathubs Ring." In one week's time, nearly 10,000 membership cards were issued, KNRT reports.

MERCHANDISING EXPANSION

WTTV (TV) Bloomington, Ind., in an expansion of its merchandising plan, has added the Indianapolis metropolitan market with the addition of nine Stop & Shop supermarkets to its coverage. For the past two years, WTTV has had a merchandising plan with 74 IGA stores located in 21 counties outside of Indianapolis. The nine Stop & Shop stores have agreed to one-week displays of WTTV advertised products, which will be given extra promotion by tie-in ads in Indianapolis newspapers plus a minimum of seven extra spots a week on WTTV.

ZOO SHOW PRAISED

WAAAM (TV) Baltimore and Baltimore Zoo director Arthur R. Watson, who is also m.c. of that station's Saturday evening This Is Your Zoo program, were honored at a special meeting of the Advertising Club of Baltimore for their contributions to the city. The meeting celebrated WAAAM's underwriting of the Baltimore Zoo African expedition, recently concluded, from which Mr. Watson brought back thousands of dollars worth of African birds, reptiles and animals. The scene of the luncheon was decorated with specimens from the expedition with palms and brightly colored birds employed to give the room the impression of an African setting. Door prizes given away included a pseudo shrunken head, banana stalks, pith helmets and genuine African statuary.

KFAB 4-H WINNERS

OVER 90 awards were given out by KFAB Omaha, Neb., in the 12th annual station-sponsored 4-H Public Speaking contest. Top boy and girl winners, respectively, were Lauren Timm of Millard, and Rita Prucha of Omaha. They will receive a KFAB scholarship to the U. of Nebraska Agricultural College. Every county winner received imprinted pen sets along with special honor ribbons. Harry Burke, general manager of KFAB, has announced plans for the station to sponsor the 4-H project again next year.

YANKTON FLOWER GARDEN

WNAK Yankton, S. D., has mailed 14,408 seed packets, especially prepared for that station, to listeners who requested them. The WNAW Flower Garden" response, tops by more than 1,000 the results achieved by a similar offer in 1953. The seed packet, which contains a variety of 40 flowers, was plugged on live talent shows and on spots for an eight-week period. All requests were accompanied by five cents to cover cost of handling.

PRAYER FOR PEACE

EVERY day KGST Fresno, Calif., daytimer, closes its broadcast service with a live signoff in the form of a prayer for peace, in the Mexican tongue. The Rosary program is narrated by Fr. Bernard Hopkins, St. Alphonsus Parish. The area has 80,000 Mexicans.

KCBC-TV Boosts Boost

TO PROMOTE its power boost to 100 kw, KCBC-TV Texarkana, Tex. (ch. 6), used radio, direct mail, newspapers and a contest for audience mail. Spot announcements of the power increase were broadcast in a three-day saturation campaign on 21 radio stations in the same area. On the day the station's power was quadrupled (May 28), KCBC-TV came on the air five hours earlier than usual, and reported that calls were received from communities within 120 miles of Texarkana describing reception as "satisfactory."
SO WMAR-TV Baltimore black-and-white set owners will know the station is telecasting color, this slide is shown during color programs. Color TV set owners see a red “C” with blue in the background. WMAR-TV now presents color pictures on morning news shows seven days a week and reports it is the first station in the area to originate its own color signals.

to tour the British Commonwealth; attend the famous “festival”; hear rebroadcasts of excerpts from BBC programs; meet celebrities; listen to orators in Hyde Park, and hear the voices of Sir Winston Churchill, Clement Attlee and Anthony Eden. Staff Sidney will cover entertainment and women’s features for the coming series.

WNHC BEACH BROADCASTS
IN COOPERATION with the New Haven Park and Recreation Commission, WNHC New Haven has arranged for the installation of a high-powered public address system at New Haven’s Lighthouse Beach. The public address system will permit WNHC radio programs to be heard by bathers at the beach all summer, seven days a week. The system also is intended for use in locating parents of lost youngsters.

CJOC RADIO PROMOTION
TO HELP sell more radio sets in May, CJOC Lehigh, had a special campaign with a “Summertime is Radio Time” slogan. The station used newspaper advertising, distributed streamers to all stores in its area, used station breaks with the slogan and offered prizes of spot announcements to dealers with best “Summertime is Radio Time” window promotion. CJOC also distributed recipe folders with the slogan through its women’s programs, used participating programs to produce traffic in local radio stores, and enlisted all radio dealers in its area to join the campaign.

USELESS OBJECT CONTEST
USELESS objects can win viewers of WCPO-TV Cincinnati prizes in a contest conducted by Martha Ranshoff, producer of that station’s weekday Fun ’n’ Facts program. The desired objects are between the keepsake and castoff variety, objects which have survived spring cleanings over the years. Contestants are requested to send in memorabilia and explain its longevity. The winners will be judged on the basis of how unusual the object is and the reason for keeping it. Grand prize will be a pastel portrait of the winner by Selma Frech of the WCPO-TV art department.

‘OLD PROSPECTOR’ PROMOTION
TO BOOST his early morning newscast over KALL Salt Lake City, newscaster Jim Petersen came up with a promotional idea associated with the current uranium boom. A man was dressed up in a prospector’s outfit, complete with beard and long, stringy hair, and provided with a mine detector borrowed from the National Guard. The man wore a sign inscribed: “Up and At ‘em for the Jim Petersen 7:30 News. It’s Radio Active.” The man roamed the business section of Salt Lake, ostensibly searching for metals and attracted large crowds, according to KALL.

KEEN SPORTS QUIZ
KEEN San Jose, Calif., presents a Mon.-Sat. quarter-hour sports quiz preceding major league baseball Game of the Day. Bill and Norm Standlee, local sports figures, narrate the program, Slips In Sports, wherein a sports event is described and a panel is required to detect all errors in the recitation.

KCSJ-AM-TV FIRE COVERAGE
LIVE coverage simulcast of a $450,000 lumber yard fire was provided by KCSJ-AM-TV Pueblo, Colo., within 45 minutes after the alarm had been turned in. Audio was set up at the scene of the fire and checked through to the tv and radio stations; cameras were mounted on the roof of KCSJ-TV, the highest point in Pueblo, and viewers were watching the blaze and resulting explosions two air miles away. Most people were content to watch the fire from the safety of their homes, according to the station, thus eliminating the usual crowds that hamper firefighting.

NAEB FRENCH BROADCASTS
COMPLETION of arrangements for the broadcast in France of a French version of Jeffersonian Heritage, radio series produced by the National Assn. of Educational Broadcasters, has been announced by Pierre Crenesse, director of the French Broadcasting System in North America. Mr. Crenesse and Seymour Siegel, director of the Municipal Broadcasting System, New York, and president of NAEB, expressed the belief that more international exchanges will be made in the future to bring to the people of France “a wider knowledge of the history and mores of the American people.”

NETWORK SWITCH PROMOTION
AN INTENSIVE promotional campaign celebrating its affiliation switch to the CBS Radio network after 23½ years with NBC, was conducted by WJAC, “The Talker,” announcements were used on radio and tv and in newspaper ads by the Buffalo Evening News station for a week prior to the switch, which occurred June 1, immediately following the local Breakfast at the Sheraton audience participation show. A spelling contest was held and “Verf-dog,” “Rekrap,” and “Swivad” was quickly identified as Godfrey, Parker and Davis. Token prizes symbolic of CBS stars were awarded, such as a miniature ukelele for Godfrey, whose Author Godfrey Time was the first CBS feed to WBEN. Wires from many CBS stars were received by the station, including one from Joanne Carson, whose Benny Which read: “...I'd know that WBEN is the Benny station in Buffalo...this is one wire I'm not sending collect.”

TO THESE RESULTS
A Florida Publisher Writes:
"... My use of BROADCASTING • TELECASTING Magazine classified ads over a period of five months has sold 432 copies of our new Speakers Dictionary to radio and television stations throughout the U.S.A., Canada, Puerto Rico and the Hawaiian Islands. I know this result was through BROADCASTING • TELECASTING because my appeal to radio and television stations was only advertised in B-T. Sales are still coming in."

What do you want of a television station?

**Coverage?**

Operating on the low channel 2 dial spot with, 100,000 watts boomed out from a 1062-ft. tower, WSB-TV gives you merchandisable coverage in Georgia, Alabama, Tennessee, North Carolina and South Carolina. (1) High Tower, (2) maximum power, and (3) low channel are the three ingredients that add up to tops in coverage effectivity.

**Audience?**

WSB-TV delivers* listeners in 18% more counties than Atlanta station B; in 106% more counties than station C. In the outlying 25-74% effective coverage area, WSB-TV delivers 63,235 more families than station B, and 137,782 more families than station C. We or Petry will be happy to show you supporting statistical evidence in full.

**Prestige?**

WSB-TV was the first television station in the South, and richly shares the prestige of its affiliate, WSB Radio, Dixie's pioneer broadcaster with a record of 32 years service in the public interest. These stations are affiliated with The Atlanta Journal and The Atlanta Constitution. Get more for your money . . .

Aug. 24: Denver, Colo.
Aug. 26: Albuquerque, N. M.
Aug. 27: Wichita, Kan.
Aug. 30: St. Louis, Mo.
Aug. 31: Indianapolis, Ind.

one would think we have no competition

Latest TELEPULSE survey made in 6 counties adjoining Wheeling, W. Va., gives WTRF-TV 25 of the top 23 most popular once a week programs and 15 of the 12 most popular multi-weekly shows. You might expect such ratings in a market where the local TV station has no competition—but that's not the case in Wheeling. We have a competitor not far from Wheeling, operating at less power than our 31,600 watts, and making for distant coverage claims.

TELEPULSE proves that we are supplying the television entertainment for the majority of homes in the greater Wheeling and Eastern Ohio market—truly our market.

so, remember,

when making up Summer and Fall schedules, there's only one station necessary to reach and penetrate the rich, important Wheeling and Eastern Ohio market—that's WTRF-TV, Channel 7, Wheeling, W. Va.

Page 125
ITEM: An editorial in the June issue of Editor & Publisher chided FCC Chairman Rosel H. Hyde for trying to "butter up the broadcast boys and make them feel good..." by portraying broadcast media as the future 'big boy' of all media." The newspaper trade journal was referring to Mr. Hyde's speech at the NARTB convention in which he summarized radio-tv financial reports.

Item: In an address at a newspaper mechanical conference June 7, Richard W. Slocum, executive vice president of The Philadelphia Evening Bulletin (WCAU-AM-FM-TV) and president of the American Newspaper Publishers Assn., said that television was destined to outgrow all other "media giants."

It is not given to us to know whether Mr. Slocum reads Editor & Publisher (although we are sure that, in Philadelphia at least, nearly everybody reads his Bulletin). Whether he did or did not read the June 5 editorial in E & P, we think he is on sounder ground in his predictions. And his comments would hardly be suspect of having been made in an effort to "butter up the broadcast boys."

What's His Game?

WHATSOEVER objectives Edward L. Bernays has in mind in surveying public attitudes toward television commercials, there is no longer any doubt of his dedication to his mysterious mission.

As reported in this issue, Mr. Bernays' latest survey was among senior class presidents at 112 universities and colleges. He had formerly pursued what he has passed off as research among educators, businessmen, barbers, butchers, beauticians and barkeepers.

The one thing these disparate groups have in common is a violent antagonism toward television advertising, if you are to believe Mr. Bernays. We are not sure he should be believed. Certain features of his activity in this field are open to question.

For one thing, his investigations has been carried on by questionnaire. It is logical to assume that respondents who take the time and trouble to complete and return the questionnaires feel rather more violently about tv commercials than those who fail to answer.

What Mr. Bernays is getting is not a representative sample of opinion from the groups he surveys. His college survey is based on 112 returns out of a mailing to senior class presidents at universities and colleges in the World Almanac. About 1,000 such institutions are listed there.

It may be true, as Mr. Bernays insists, that he has undertaken his opinion surveys as a public service, with no other thought but for the betterment of television. If that is so, his contribution would be the more impressive if he took a more moderate approach, one more certain to obtain true samples of public attitudes.

To be sure, there are commercial abuses which need correction, a fact of which responsible advertisers, agencies and telecasters are aware. But they are neither so abundant nor so vicious as Mr. Bernays' evidence suggests.

The 'Voice' Continues

IN LITERATURE, in music and in the fine arts, there are classics. In broadcasting, almost from the start of the aural medium, and since the beginning of the visual, there has been the Voice of Firestone. It is among the classics of the air, along with such programs as the Telephone Hour, the Railroad Hour and many others.

The vicissitudes of network scheduling caused NBC to propose a change in time for the Firestone program which would have removed it from its 8:30 Monday night time—a position it had held for 25 years on radio and five years on tv. Now Firestone, without missing a beat, shifts to ABC with the same format, the same artists and the same orchestra. With it move millions of loyal listeners and viewers.

Thus, there is a harmonious solution of a vexing problem. The public wins, broadcasting retains one of its classics, ABC and its affiliated stations benefit, and NBC achieves the programming "balance" it sought.

farm news and data for early risers

AM-910 KILOCYCLES—5000 WATTS
FM—CHANNEL 241-911 MEGACYCLES

WORLD'S FIRST RADIO STATION • Owned and Operated by THE DETROIT NEWS • National Representatives: THE GEORGE P. HOLLINGBERY CO.
The purchase of Midland Broadcasting Company, operators of KMBC-TV, by the Cook Paint and Varnish Company, operators of WHB-TV, has been approved by the Federal Communications Commission. The two stations have been sharing Channel 9 and the CBS-TV network in Kansas City. The new single-station operation has adopted the call letters KMBC-TV. The channel will continue to be the full-time CBS-TV basic affiliate in the Heart of America.

THE BIG TOP IS GOING UP!

The tallest tower in the Heart of America is under construction. From a height of 1,079 feet, KMBC-TV will transmit with full 316,000 watts power by late summer. Newest type RCA transmitter equipped for color, using BIGgest power and TOP-height tower, will make KMBC-TV the Big Top Station, dominating the nation's 18th largest metropolitan area by its top coverage of the rich Kansas City market.

FEATURING KANSAS CITY'S GREATEST TALENT!

The biggest personalities, the top local programs of the two stations are now exclusively on the Heart of America's Big Top Station, KMBC-TV!

STARRING THE CBS-TV NETWORK!

Full CBS-TV network programming—the big, top television shows of America, carried exclusively on KMBC-TV, basic CBS-TV station.

Plus THE "COLOSSAL-COVERAGE" RADIO TEAM—KMBC-KFRM!

Now under "Big Top" direction is also the great radio team, KMBC-KFRM, covering the Kansas City and Kansas radio markets as no other Kansas City station can. It's CBS Radio, of course, on "The Team!"
