You’ve Got to Get Up Mighty Early...

To Beat This Bird in Southern New England TV!

This famous Rhode Island bird packs a powerhouse of live local showmanship day in and day out... a powerhouse that attracts accolades from TV Guide, Variety, Boston Traveler, New York Times and others.

And this showmanship is proven salesmanship... with Channel 10’s live local shows averaging a big 87% share of homes using TV, in the latest Providence telepulse.

No wonder this early bird captures the market in Southern New England! The products that go to our rich market FIRST and leave shelves FASTEST are advertised on WJAR-TV.

Traditionally in the Public Confidence

In the long run it's public confidence in a name that makes a new product become a leader in its field. To what extent can public confidence be measured? Brown & Williamson Tobacco Corporation knows the answer. Viceroy cigarettes—newest member of this eminent tobacco family—is the world's largest-selling filter tip cigarette.

A new dimension to cigarette smoking pleasure has been added with outstanding success. The Havens & Martin Inc., Stations, too, employ new dimensions to maintain a large and responsive audience throughout Virginia—one of the South's richest areas. Imaginative programming, distinguished public service, conscientious effort are but a few of the contributing factors that make Havens & Martin advertisers confident of a loyal audience—and mounting sales results. Join with confidence the First Stations of Virginia for your advertising needs—WMBG-AM, WCOD-FM and WTVR-TV, Richmond's only complete broadcasting institution.
On October 1, 1954
Intermountain Network celebrated
its 15th anniversary

In 15 eventful years Intermountain Network has grown
from 3 stations serving a few hundred thousand people
to 44 stations serving 4 1/2 million people in the boom-
ing Intermountain West.

A SINCERE THANK YOU TO OUR ADVERTISERS who,
through their faith, have made Intermountain Net-
work strong.

A SINCERE THANKS TO OUR AFFILIATED STATIONS
which have dominated their communities and made
possible Intermountain Network's remarkable success.

WE LOOK FORWARD TO THE FUTURE with a pledge
to deliver maximum audiences to our advertisers at
lowest cost, through the strongest possible programming
and an even greater dedication to the community. We
shall continue to grow and progress, in order to keep
ahead of all developments in the ever-changing field
of radio.

For sales success in the Intermountain West, latch on to
15 years of accomplishment, growth, vigor and vitality.
Latch on to Intermountain Network, now in its 16th year.

Intermountain Network

MAXIMUM POWER

FIVE OUT OF SIX NORTH TEXAS COMMUNITY ANTENNA SYSTEMS SAY.... KRLD-TV TOPS!

KRLD-TV, Channel 4, MAXIMUM POWER Station delivers the Best Picture and Most Reliable Service TODAY...Same as in the past.

In a written survey of Six North Texas Community Antenna Systems comprising Tyler, Denison, Sherman, Palestine, Sulphur Springs and Mineral Wells, five unqualifiedly stated KRLD-TV, Channel 4, continues to deliver the Best Picture and Service. One system declined to make a statement.
MONOPOLY PROBE • Whether there shall be full-scale inquiry of alleged “monopoly” in broadcasting and radio-tv manufacturing, with newspaper ownership overtones, will be determined any day by Sen. Kilgore, of West Virginia, who becomes chairman of powerful Judiciary Committee when Democrats organize Senate in January. Sen. Kilgore has invited Howard W. Chernoff, former managing director of West Virginia Network and now consultant on West Coast, to meet with him—probably this week—in Washington. If investigation is decided upon, Mr. Chernoff will be asked to serve as Committee consultant.

SEN KILGORE, who as minority member of Judiciary Committee last February lashed out against joint radio-tv station ownership, also opposes newspaper ownership and operation of networks and stations by manufacturing companies. He will talk project over with Mr. Chernoff, an old friend dating back to latter’s active management of stations in West Virginia decade ago. Mr. Chernoff, who managed KFMB-TV until two years ago, is former newspaperman, and is well known broadcast executive.

SOUR NOTES • Inordinate increase in “rhythm and blues” type of disc jockey music on radio was discussed at NARTB Am Committee sessions in Washington last week. Committee, however, decided to study “race music” situation but with no immediate action in prospect. Some stations already have banned suggestive records, with prospect that voluntary action of this character will be encouraged.

ENTER “BROADCASTER” Thomas E. Dewey after New Year’s. New York’s governor, who relinquishes that office Jan. 1, reportedly is slated to acquire substantial minority interest in WROW-AM-TV Albany in which his longtime Powling, N. Y. neighbor, CBS commentator Lowell Thomas, recently acquired interest. Another principal owner is Rep. Dean Taft (R-N. Y.). WROW is in news this week as result of protest filed by WTRI (TV) Albany with FCC alleging infringement of FCC’s regulations (story page 27).

DOWN MEXICO WAY • Despite secrecy thrown around U. S.-Mexican NARBA treaty deliberations, it’s evident that U. S. delegation during last fortnight has become discouraged. Main contentions have to do with insistence of U. S. that clear channels be protected under old 650 mile border rule. Mexico, on other hand, has sought elimination of 650 mile rule and substitution of something it calls “contour protection.”

WHERE MEXICAN conference will go was in suspended animation last week. FCC Comm. Rosel H. Hyde, chairman of U. S. delegation, returned to Washington last Wednesday to attend series of FCC meetings and planned to return Sunday only if outlook for agreement looked hopeful. It was felt that U. S. Government probably did not want him to return unless there was better than even chance of agreement. Conference should wind up in week or ten days.

SITTING TIGHT • You can virtually write off possibility that National Collegiate Athletic Assn. will liberalize its football tv policy out of fears that national advertisers would be reluctant to continue picking up sizable tab for once-a-week slate. Its tv committee is smug on subject and feels competitive network situation will assure some tv coverage, even at rock-bottom rates. Committee’s attitude as reflected at last week’s Chicago meeting was one of “take it or leave it” to networks.

SELLING SUBSCRIPTION • Proponents of subscription tv are working overtime now that FCC staff has made initial pitch to Commission on proposed procedures (story page 64). Zenith’s Millard (Tex) Faught, who has been one-man Chautauqua for past three years on Zenith Phonovision, traisped about Capitol Hill last week coincident with filing of Zenith’s petition with FCC seeking short-cut. Likelihood is Commission will move cautiously, first asking for informal comments, having in mind that in tackling box-office tv, it comes to grips with problem that may mean evolution of new national policy on use of tv channels.

NARTB statistics expected to arrive at final tabulations this week on extent and amount of beer and wine advertising on radio and tv for “composite week” during period Sept. 1, 1953-Aug. 31, 1954. From this figure report will be made at beginning of next Congress in accordance with House Commerce Committee mandate which asked for this data in report on 83rd Congress’ Bryan Bill on liquor advertising. Some 80% of radio-tv stations replied to NARTB questionnaire on subject.

HEARING CANCELED • Planned hearing session by Senate Rules Subcommittee, which among other things has been studying whether radio-tv should have access to open congressional hearings, has evaporated with end of special Senate session, although Chairman William E. Jenner (R-Ind.) had announced three Senators would testify: Watkins (R-Utah), Capehart (R-Ind.) and Kefauver (D-Tenn.). Reason—Senators are in hurry to get out of Washington. Committee is expected to submit its report and recommendations around beginning of next Congress.

ED J. DEGRAY, director of radio station relations for CBS, has resigned effective Dec. 15. He has not announced future plans. He was formerly with WBT Charlotte.

FEUERS’ FUN • Shift of American Federation of Labor quarter-hour, acrossboard news program from Mutual to ABC Radio, effective first of year [B&T, Nov. 29], said to be causing jubilation in ranks of Local 802, American Federation of Musicians, which has been feuding with Mutual’s WOR-AM-TV New York since station gave up entire musician staff of 40 last March.
A rich market with 967,300 families who have an annual effective buying income of over five billion dollars. A super-powered station—the one station that reaches this vast territory, and exerts tremendous influence on the spending habits of this buying audience.

Hitz, McFadden, Shea Named To NBC Vice Presidencies

ELECTION of three top NBC executives to vice presidencies is being announced today (Mon.) by NBC President Sylvester L. Weaver Jr. Named are Edward R. Hitz as vice president in charge of television network sales, Central Div.; Thomas B. McFadden as vice president in charge of NBC Spot Sales, and Hamilton Shea as vice president in charge of WRCA-AM-FM-TV, NBC odo stations in New York.

Mr. Hitz has managed NBC's Central Div. television network sales office in Chicago since November 1952. Mr. McFadden, with 20 years NBC service, has headed NBC Spot Sales in New York since 1952. Mr. Shea, who joined NBC in 1949, has been general manager of NBC's New York stations since July 1953.

New Cost-Per-1,000 Data Plan To Be Issued by Hooper

INFORMATION from which tv advertiser or agency can "apply his own known cost figures per commercial to compute 'cost per 1,000 area homes watching per commercial second,'" will be issued quarterly in new report called "Hoopereports on TV Commercials," C. E. Hooper Inc. is announcing today (Mon.).

Data will be on all individual tv commercials and "program promotions" during surveyed weeks on those stations and markets included in report, and will designate products advertised, identify announcer, starting time, approximate length, whether audio-video (or audio only or video only), whether network or non-network, rating and share (metropolitan), area homes watching and composition of audience. No attempt will be made to show if commercial is film or live, it was explained.

Data will be broken down in reports according to (1) chronological report by stations, (2) brand comparison by categories and (3) so-called "commercial exposure indexes." Latter will give "measure of the comparative commercial exposure between brands, and obtained by multiplying total 'area homes' by total "commercial records" per brand, it was explained.

First report to be issued in February will cover five tv stations in New York and three in Philadelphia, with four in Chicago to be added in April and three in San Francisco in July and thereafter.

Senate Hearings Planned

SENATE Juvenile Delinquency Subcommittee expects to hold additional hearings on whether tv programs affect juvenile delinquency, spokes
man said last week. Subcommittee has said its investigators are checking into films which are programmed on tv for children and may question some producers of such films if investigative work is not complete by time of next tv hearing, date of which has not been decided. Meanwhile, spokesman said Sen. Robert C. Hendrickson (R-N.J.), chairman of group, will issue comments early this week on statement by NARTB tv Code Review Board last week to subcommittee regarding films exhibited at Washington hearings in October (BWT, Oct. 25) (see story page 58).

IMPACT ON STOCK

STOCK of Westinghouse Electric Co. (which purchased WDTV (TV) Pittsburgh from DuMont Friday) opened on New York Exchange at 753/4 Friday and closed that day at 76%, up 3/8. Allen B. DuMont Labs stock, which gained 3/4 at close Thursday, opened on American Exchange at 16% Friday and closed at 153/4, down 7/8. Westinghouse's high for 1954 was 76%; DuMont, 161/4.

Hazeltine Color Receiver Uses Projection System

HAZELTINE Corp., Little Neck, L. I., last Friday demonstrated an "entirely new type" of color television receiver, which uses optical assembly system to project on flat screen full-color picture, said to be "somewhat larger than that of a 21-inch direct view tube."

American Optical Co., which produced optical assembly used in developmental set shown at meeting in Garden City, L. I., said it was prepared to produce sample assemblies for manufacturers early next year and be ready for full production by next fall. Developmental model used 2½-inch cathode-ray projection tubes, with each tube producing image in primary colors. It was explained through elaborate optical system, images from three tubes "are enlarged to produce a full color picture on flat screen."

ABC-TV Participation Plan

ABC-TV's entry into participations-sales format is scheduled Jan. 8 on Saturday morning hour Your Better Home Show (Sat., 11:30 a.m. to 12:30 p.m.) if network line is at least five participating sponsors by that time, it was learned Friday. One participating client reportedly set. Network reportedly expects to clear minimum of 51 stations.

MONDAY MUSIC

PLANS to make Monday night "the most impressive musical evening's entertainment in radio" being set up by ABC Radio. Revisions which will lead to accent on music programming will begin next week and run through January. Beginning Dec. 13, Just Easy, popular music show with Jack Gregson, now heard Tuesday through Friday, 8-9 p.m. (EST) will be expanded to Monday in 8:25 p.m. period. Show features Bobby Hackett's orchestra with Peggy Ann Ellis as vocalist. Voice of Firestone, sponsored by Firestone Tire & Rubber Co., is heard 8:30-9 p.m. Metropolitan Opera Auditions, will return to air Jan. 3, 9-10:30 p.m., presenting operatic soloists and concert orchestra. In late January Freedom Sings will join ABC Radio, 9:30-10 p.m. EST, featuring U.S. army symphony orchestra in pop music programs originating from Washington.

• BUSINESS BRIEFLY

BALLOON CONTRACTS • Giant Animal Co. buys 10 quarter-hour shows on NBC Radio to promote Christmas sales of animal balloons. Contract covers: 3:00-3:20 p.m. (EST) segment of Woman in Love, Mon.-Fri., 3:05-3:30 p.m., Dec. 6-10; Hotel for Pets, Tues. and Thurs., Dec. 7-9, 5:30-5:45 p.m. (EST); One Man's Family, Tues. and Wed., Dec. 7-8, 7:45-8 p.m. (EST), and news program, Sun., Dec. 5, 11-11:15 a.m. (EST). Agency: Duane Jones Co., N. Y.

ALLSTATE BUYS SPORTS • Allstate Insurance Co., Chicago, buys for 52 weeks Sports Today With Bill Stern on ABC Radio network, alternate days each week, Mon.-Fri., 5:45-6 p.m. (EST). Agency: Christiansen Adv. Agency, same city.

CHICLE SHOPPING • American Chicle Co., through Dancer-Fitzgerald-Sample, New York, shopping for alternate-week sponsorship of an evening tv show.

MENNEN INTERESTED • Mennen Co., through Kenyon & Eckhardt, interested in sponsoring Phil Silvers Show on CBS-TV, Tues., at 8 p.m., if time is cleared on network's Tuesday night lineup.

ASPIRIN SPOTS • St. Joseph Aspirin, through Lake, Spiri & Shurman, Memphis, planning three-week radio spot announcement saturation campaign in approximately 15 Midwest markets to promote its 1955 calendar offer. Schedule slated to break Dec. 22.

Insurer Buys Sports Series

STATE FARM INSURANCE Co., Bloomington, Ill., to sponsor new Red Barber's Corner of CBS-TV from approximately 10:45 to 11 p.m. (EST) Wednesdays, following Pabst Blue Ribbon Bouts. State Farm Insurance Co. agency is Needham, Louis & Broby, Chicago.

Staff Group Acquires WPAT

SALE of WPAT Paterson, N. J., to group headed by Dickens J. Wright, currently executive vice president and general manager, was announced Friday by Passaic Daily News through its president, former Congressman Dow H. Drukker. Sale price not disclosed. Station is owned by North Jersey Broadcasting Co., subsidiary of Passaic Daily News. Mr. Wright will become president and general manager under new ownership, which will assume control after customary FCC approval has been obtained. Station is on 930 kc, with 5 kw fulltime. It has been on air since May 12, 1941.

Tulsa UHF to Suspend

KCEB (TV) Tulsa, Okla., asked FCC Friday for permission to suspend operation on temporary basis and retain STA for six months. Ch. 33 outlet said it is losing network affiliations to vhf stations in area, cannot sell local or national advertisers on merits of uhf in mixed market.

Tv Output at Record Point; Radios Near Million in Month

WEEKLY tv set production rate in October was highest on record and total output in fourth week was exceeded in 1954 only by five-week September, according to Radio-Electronics-TV Mfrs. Assn. Radio output increased over September, falling just short off million mark and setting record for 1954.

Following are tv and radio set production figures by months for first 10 months of 1954:

BASEBALL AGAIN

SENATE last week tabled resolution presented by Sen. Edwin C. Johnson (D-Colo.) on last day of special session which would exempt franchises entered into and enforced by baseball leagues from possible antitrust provisions of Sherman and Clayton Acts and Federal Trade Commission Act. Sen. Johnson is president of Western League, member of National Assn. of Professional Baseball Leagues (minors).

Sen. Johnson acknowledged that his resolution (S Res 334) had no relation with business at hand (McCarthy censure).

The California Democrat, who becomes governor of his state next year, introduced during first session of 83d Congress bill to restore baseball's Rule 1 (d) prohibiting benefits to televisers of major or minor league games with 50-mile radius of home team's ball park, but bill was battled by broadcasters until it died on Senate calendar last August.

Beaumont and Tampa Grants Are Held Up by FCC

STAY of two final television grants—ch. 6 for KFDM-TV Beaumont, Tex., and ch. 13 for WTVT (TV) Tampa, Fla.,—ordered by FCC Friday pending oral arguments scheduled Dec. 21 on petitions for reconsideration filed by losing applicants. Final rulings in both cases had reversed initial decision recommendations of hearing examiners. Sen. Johnson declared that his resolution (S Res 334) had no relation with business at hand (McCarthy censure), and the California Democrat, who becomes governor of his state next year, introduced during first session of 83d Congress bill to restore baseball's Rule 1 (d) prohibiting benefits to televisers of major or minor league games with 50-mile radius of home team's ball park, but bill was battled by broadcasters until it died on Senate calendar last August.

Extra Dividend Declared at RCA Board Meeting

RCA board of directors last Friday declared extra dividend of $.35 per share and quarterly dividend of $.25 per share on common stock of corporation, payable Jan. 24, 1955, to holders of record on Dec. 17, 1954. Brig. Gen. David Sarnoff, chairman of board, said future quarterly dividends by RCA will be made one month earlier than hitherto, payable as scheduled in April, July, October and January.

RCA board also declared dividend of $.875 per share on RCA preferred stock for period of Jan. 1, 1955, to March 1, 1955, to holders of such stock of record on March 14, 1955. Common stock dividends declared by RCA for 1954 totaled $18,899,000 and dividends on its outstanding preferred stock amounted to $13,150,000.

WJOL-AM-TV Joliet Transfer

SALE of WJOL-AM-TV Joliet, Ill., by W. H. Erwin Jr. and associates for $12,500 to Joseph F. Novy, chief engineer of WBMB-AM-FM-TV Chicago, and Jerome F. Cerny, WBMB engineer, was disclosed Friday in application tendered for FCC approval. WJOL-AM-Tv, not on air, is under construction on ch. 48.

Lafayette, La., Outlet Sold

KVOL-TV Lafeyette, La., under construction on ch. 10 as share-time companion to KLFY-TV there, has been sold to KLFY-TV for $45,000 representing out-of-pocket expenses, FCC was advised Friday in bid for approval.

coming in b/t

THE BIGGEST CUSTOMERS OF RADIO-TV
B't's annual authoritative survey of leading agencies and billings Dec. 20 issue
I'm a cat. I work for some people. They gave me a job to do: go cover Houston. Get the facts. Give us the pitch. Case the town good.

Gave 'em the facts straight:
Houston's got a million people, all rolling in dough. Rich. Lots of 'em new. Biggest burg in the South. People had everything but kept wanting more. Still want more. TV station sold out all the time. No real hot stuff available.

Told 'em what they had to do:
Build a new TV station. They built it. KTRK-TV, Channel 13. Tie it in with ABC. Print a rate card. They did it. They're in business.

But it's easy to underestimate in Texas, and I underestimated.

Should have told 'em to build TEN new TV stations. Their prime time's all but gone now.

Take this cat's advice: get in there now while there's something left. Lush market, man. Set-up. Go knock it over.

KTRK-TV Reception Area
Population: 1,354,200.*
Effective Buying Income: $2,378,000,000.00.*
*Sales Management Index.
12.5-KW UHF Power Available

With RCA's new transmitter, you get full 12.5-kilowatt output (at the low end of the band). Moreover, you get this with all adjustments made for optimum color transmission—and with an extra-large allowance (10%) for losses in the Filterplexer. In most cases, loss is actually much less, so that output on some channels is nearly 14 KW.

Up To 750 KW ERP

Operated in combination with an RCA high-gain UHF Pylon Antenna, types TTU-46AL/52AM/60AH, this 12.5-KW transmitter is capable of providing an ERP up to 750 KW.

Designed for Color

Performance requirements for color are much more stringent than for monochrome. The TTU-12A was designed to meet color requirements. Over-all linearity is virtually a straight line—from white level to sync signal peaks. Wide band width provides excellent response out to 4.2 MC. And the very important phase vs. amplitude response is constant over the whole operating range.

Unsurpassed Monochrome Quality

Equally important—you get SUPER MONOCHROME QUALITY with this RCA UHF transmitter. It exceeds FCC requirements for satisfactory monochrome operation by a wide margin! Since the RCA transmitter is adjusted for the more stringent color requirements, it is particularly good for monochrome.

Conventional Tubes Throughout

The latest circuit principles and techniques are employed in the TTU-12A—but they are easily understood by all station operators. That's because only conventional type tubes are used. For example, the RCA-developed high-power tetrode (RCA-6448) is used in both aural and visual "P.A.'s." This tube is small and easy to handle—fits into a unique "glide-in" cavity assembly that can be interchanged quickly and easily. The result is a high-power UHF transmitter that is as simple, reliable, and convenient to operate as standard broadcast transmitters.

Economical To Operate

Average power consumption of the TTU-12A is less than other UHF transmitters of equivalent power. Tubes are designed for long operating life. At conservative estimates, these provide total savings up to $34,000—based on a 10-year operation. See the typical readings and performance characteristics in Table 1.

RCA 1-KW Driver—Plenty of Reserve
The RCA 12.5-KW UHF transmitter uses the famous RCA TTU-1B 1-KW UHF transmitter as the driver. This transmitter, now used by nearly a hundred UHF stations, has established an outstanding record for performance and reliability. If you want to begin UHF operations with one kilowatt now, you can do so with an RCA TTU-1B 1-KW transmitter. Then add an RCA 12.5-KW UHF power amplifier later.

Space-Saving Mechanical Features
Horizontally sliding doors, front and back, save on workable floor space—give the operators more elbow room. Small cubicles (27" wide, 32" deep, 84" high) enable you to move them through standard doorways and in and out of standard elevators. Pre-formed intercabinet connecting cables reduce installation costs.

10 Micro-Second, Fault-Protection
Unique electronic overload protection completely safeguards power tubes and circuitry against momentary or sustained overload. (For example, the protection circuit will remove power so fast it will prevent damage to a wire as fine as 0.005-inch diameter shorted across the 7000-volt power supply!)

Hi-Lo Cutback Reduces "Off-Air" Time
With the TTU-12A transmitter you can cut back to a generous 1-KW power level—and stay "on-air" while making emergency repairs to the 125-KW amplifier. Moreover, small size tube cavities in the power amplifiers may be interchanged in less than 5 minutes — enabling you to return to full power promptly.

You Pay Nothing for "Extras"
The price of the RCA 12.5-KW UHF includes the complete transmitter package. No "extra" charge for UHF Filterplexer (combination sideband filter and diplexer). No "extra" charge for one complete set of tubes. No "extra" charge for two sets of crystals, two P.A. "glide-in" cavity dolly, one spare cavity, two water pumps, and pyranol-filled plate transformer.

Specify a Completely Matched UHF System
RCA can supply a completely matched system to meet any station requirement. This includes the antenna and tower, transmitter, console, monitoring equipment, transmission line or waveguide, and the many other accessories needed to put a UHF station on the air. Everything is matched for peak performance and you get everything from one reliable source—RCA!

For complete information on the RCA 12.5-KW UHF transmitter—and RCA UHF accessories—call your RCA Broadcast Sales Representative.

GENERAL ELECTRIC THEATRE

AFTER ONE ACCEPTED the premise that Jack Benny has a face no one can remember, the CBS-TV General Electric Theatre presentation of "The Face Is Familiar" on Nov. 21 became sheer fun. The story, previously done by the comedian on a Sunday radio program, truly used tv to great advantage. As a non- script writer who is inveigled by a group of gangsters into robbing a bank for $50,000, Mr. Benny was his usual smooth, perfectly-tuned self as the man gullible enough to get into such a situation and then be unable to confess because nobody recognizes him.

Mr. Benny is competent as an actor when he gets the proper vehicle. He has the advantage, not common among comedians whose established individual personalities carry them along year after year, of submerging his hand mannerisms, facial expressions and delivery to fit the characterization. His waiter, as written, was compatible with the Benny of radio but it was not limited to and by the latter.

The supporting cast was excellent. Otto Kruger enacted the "Boss." Jess White was the gangster who picks the waiter as the patsy, and Benny Rubin, as the vending machine man in line in the bank, was outstanding.

General Electric, dividing its Sunday evening series between live and film, is supposedly letting Executive Producer Mort Abrahams work without the limitations of a fixed budget and in addition has put out a call for "offbeat" scripts. The series has had remarkably few of the duds which usually follow any sort of experimentation and, instead, has come up with some top drawer half-hours. Not only, among others, have been "High Green Wall," taken from an Evelyn Waugh story, and Sherwood Anderson's "I'm a Fool." All in all, this is a noteworthy series.

Don Herbert, also known as Mr. Wizard, handles the institutional type of commercials with dignity and authority. Ronald Reagan proves a most gracious host in addition to serving as program supervisor.

Production cost: over $50,000 (Nov. 21). Sponsor: General Electric (institutional), through BDDO.

Produced on film through facilities of Revue Productions.

Executive producer: Mort Abrahams; producer: Z. Wayne Griffin; director: Frank Tashlin.

Writers: Howard Snyder and High Windelock, from an original story by Arthur Ross.

MACBETH

THERE was a performance! We mean the Maurice Evans-Judith Anderson "Macbeth" colorcast on Hallmark Hall of Fame, NBC-TV, Nov. 28. It had virtually everything one could want. Above all it used the tv camera the way it should be used—close, tight shots to show the inner turmoil of the tortured Macbeth, power-hungry but fearful.

Not the least reason for the effectiveness of the Evans television was that it ran for a full two hours. This permitted a cumulative build-up of hysteria that overwhelmed the audience. For this was a true Shakespearean tragedy—blood and murder all over the lot.

Evans acted it to the hilt—"blood, did he not? His characterization of the grasping thane, basically weak and afraid, but driven inexorably to his doom at Dunsinane, was subtle or test not have been great Shakespeare, but it certainly was magnificent tv. This portrayal was enhanced by the happy concept of filling the screen with Evans' torment face at the height of the famous soliloquies. Indubitably, it was Evans' show.

Judith Anderson's Lady Macbeth was the epitome of the scheming wife, pushing her husband to his infamous deeds and breaking under the horror of the bloodbath that follows her lust for power. If any one should be given the accolade for this outstanding production, it should be Miss Anderson. Her sleepwalking scene held this viewer breathless.

Other members of the cast performed excellently. Particularly effective was Pat O'Malley in the porter's drunk scene. Also worth special mention were the witches, whose presence was made more symbolic by the lighting and camera angles.

A special commendation should be given to the leading characters, who made Shakespeare's majestic language come alive. Undoubtedly, Shakespeare is meant to be played, not read, and this performance showed how true this is.

As to the colorcast, we are of two minds: It enhanced the pageantry in the scenes populated by the full cast, but we don't believe it added anything significant to the basic production. After all, the whole tenor of Macbeth is that of a gray, brooding tragedy.

We're no authorities on Shakespeare, God wet, and whether this was good Shakespeare or bad Shakespeare we won't attempt to decide. But, acknowledging the limitations of the tv screen for the presentation of full-peopled, multiple-plotted spectacles which are the essence of Shakespeare's tragedies, we feel that everyone concerned with this production has reason to be proud. Certainly, the set, the flow of scene into scene and the camera work were superior tv (and we should think very good Shakespeare). It bore out every promise Evans and company indicated in the previous teletcasts of Hamlet and Richard II. It warrants a bow in the direction of the producers, the director and all of the production staff.

Production cost: $35,000 to $40,000

Sponsor: Hall Brothers through Foote, Cone & Belding.

Broadcast live on NBC-TV in color, Nov. 28; 4-6 p.m. EST.

Production and TV Adaptation: Maurice Evans; director: George Shearer; NBC producer-director: Hudson Faussett; NBC executive producer: Jack Rayell; associate producers: Mildred Freed Alberg, Emmett Rogers; associate director: Sutton Boley; technical director: Robert Long.

Music composed and conducted by Lehman Engel.

Settings: Ota Riggs

Costumes: Noel Taylor

Co-Stars: Maurice Evans as Macbeth; Judith Anderson as Lady Macbeth.

BOOKS

This book is designed as an "easily-used reference source for most of the data needed in daily service work" by technicians and technical students. It is described as a concise source for data which heretofore had been available only in large, complex works or in separate forms.

The book has four chapters covering servicing, installation, components and mathematics, with accompanying charts, tables and illustrations. Subjects include: general and special probe, tv channel frequencies, capacitor and resistor color codes, and conversion factors.

THE SHOW: Out of this world
THE RESULTS: Down to earth

"Space Ship" is an original show which was created and is produced entirely by WDSU-TV for Ward Baking Company. WDSU-TV's outstanding team of producer-director-sound-script-art-lighting dreamed up a show which children eat up. They also eat up Ward's Tip Top products in a down-to-earth manner that seems to satisfy the sponsor very well.

"Space Ship" is typical of the locally produced, locally slanted shows that WDSU-TV puts on for a top-name roster of nationally distributed products. Why not let WDSU-TV create a show for you?

Time to Crack Down

EDITOR:

Isn’t it about time that there was a crack-down on performers on radio and TV making so-called “clever” remarks at the expense of another medium? For example, recording artists who make their money from records played on radio stations get on TV and saying “back in the days of radio,” “you remember radio,” etc.

If these artists do not appreciate the radio stations playing their records, I’m sure the disc jockeys across the nation will be most happy to play artists who are grateful for every single airing of a record they get. . . . Just imagine how fast an artist would vanish from the nationwide picture if the 3,000 plus radio stations stopped playing his records.

Jim Stewart, Program Dir.
WEHP Foley, Ala.

Tv Stock Offer Identified

EDITOR:

I have your magazine for Nov. 22 and notice on page 5 your comment concerning the prospectus concerning a stock offer at $1 per share to Rhode Island residents. Please be advised that your statement is entirely inaccurate as this company has no public stock offering of any sort.

Your comment presumably is based upon a stock offering by Television Associates Inc., which is not the permittee of Channel 16 but merely holds certain minority stock rights in the permittee which is Channel 16 of Rhode Island Inc.

Channel 16 of Rhode Island Inc. is entirely disassociated with such offer.

Abraham Belllow, Vice President
Channel 16 of Rhode Island Inc.

Competition Helps Fan Mags

EDITOR:

We would like to point out something that apparently Mr. Earl Abrams completely overlooked in his feature, “Fan Magazines” [BT, Nov. 22].

Mr. Abrams seems to accept a dim view of the future of local tv-listing magazines. We would like to point out our own sales pattern as an example of a situation we understand exists elsewhere in various markets.

The sale of TV News, a local Indiana tv-listing magazine, has increased to an all-time high since the advent of TV Guide in this area. In addition, we have knowledge that Guide is also enjoying a good sale in this area. . . . We feel Mr. Abrams overlooked the fact that often a competitive situation — whether it be in teledcasting or in publishing — brings about a most happy circumstance for all parties involved.

WMAZ Has 103 for 4

I am sure you will receive many letters telling those juniors at KMJJ to move over [Open Mike, Nov. 15].

They mention 5 for a total of 85 years and ask if any other station can beat their record. Here at WMAZ George Rankin has been chief engineer for 32 years; I have been on the job 27; our porter has been general factotum for 23 years and “Red” Cross has been commercial manager 21—all 4 for a total of 103 years.

While he is not on our regular staff, our county agent, D. F. Bruce, has been broad-casting regularly over WMAZ more years continuously than any other county agent in the U. S.—27 years. Just to keep adding to the record, our engineering department includes Bob Ingle, 14 years; Ed Discher, 14 years, and Bill Bryan, 13 years. Lloyd Harris has been announcing 11 years and Albert Sanders has completed 10 years . . . We probably have five or six others who have been here more than the eight years KMJJ throws in to get their total, but we just don’t start counting until they have served a 10-year apprenticeship!

WMAZ Macon, Ga.

[EDITOR’S NOTE: KMJJ Grand Island, Neb., reported five and a total of 83 years at that station, asked if any other station could top that record.]

Mixed Managers

EDITOR:

Many thanks for the wonderful story in the Nov. 29 Broadcasting * Telecasting concerning the progress of the Storer Broadcasting Co. I was quite surprised to see a nice photograph of Willard Dougherty [vice president and general manager, WDOK Cleveland] over my name in connection with this story. Will and I have been good friends and business associates I0; these many years but I am sure that both Will and BT would prefer to give the devil his due. Hence, I am enclosing a picture closely resembling a guy named Jack Kelly.

to LEONALD FRANCIS MAWHINNEY

STILL VIVID in the memory of many Southern Californians is March 10, 1933, when a severe earthquake struck the area. To Leslie F. Mawhinney, news editor, Don Lee-Mutual Broadcasting System and KHJ-AM-TV, both Hollywood, and president of the newly-formed Associated Press Radio News (APRN) & TV Assn. (BWT, Oct. 4), then a Don Lee Hollywood publicist, that day marked the start of a new era in radio news.

All normal telephone and wire service with the East was disrupted. In what he believed to be a futile effort, Mr. Mawhinney tried the office teletype machine. To his astonishment, Paul White, CBS New York news chief (Don Lee was then affiliated with CBS), answered, and for the entire night, almost the only contact Los Angeles had with the outside world rested on that single wire.

All night KHJ sent press reports to the East. Mr. Mawhinney recalls two young KHJ continuity writers, Sylvester Weaver and Jack Van Nostrand, who worked through the night to prepare a dramatization of the catastrophe, later broadcast on the network.

William S. Paley, CBS board chairman, now sold on radio news after previous months of discussion with Mr. White, authorized him to form the first radio press service, Columbia News Service. Mr. Mawhinney was assigned to organize CNS in the 11 western states.

From British Columbia

A native westerner, Les Mawhinney, as he is usually known, was born in Kelowna, B. C., and educated in Canadian schools until his graduation from Victoria (B.C.) High School in 1919. As copyboy-reporter, he first practiced newsgathering on his uncle's newspaper, the Victoria Daily Times, during school vacations. However, following graduation, Mr. Mawhinney went to sea as a radio operator, reporting for the Daily Times between voyages.

Late in 1926 he moved to Los Angeles, entering commercial radio the next year as engineer for KPLA Los Angeles (later KECA and still later KABC Hollywood). Next, he joined the Los Angeles Examiner as navy and ships news reporter, but returned to radio as a Don Lee System publicist.

With the 1933 earthquake and the organization of Columbia News Service, Les Mawhinney found himself deep in a press-radio war. But when the networks and the major news services reached an armistice in 1935, wherein the services agreed to provide news if it were used, Mr. Mawhinney organized the news service.

However, some independents were dissatisfied, feeling radio had both the right to the news and to use it in any way it chose. Among them was KNX Hollywood, then operated by Guy C. Earl Jr., former newspaper publisher. When several former CNS members formed Transradio Press Service, Les Mawhinney became West Coast manager and KNX news editor, a post he held until 1938.

"Transradio broke down the press-radio agreement," he says. "United Press and AP had to start unrestricted sale of radio news to the stations.

Mr. Mawhinney left Don Lee Broadcasting for a short stint with a Prescott, Ariz., station which never got built, and then spent several years as news editor for Arizona Radio Network and KOY, both Phoenix, before returning to Don Lee in 1942 in his present position.

Today, Mr. Mawhinney observes that as a mutual, cooperative, non-profit organization, AP must function through committees. When AP first established radio memberships in 1949 (a deep satisfaction to a press-radio war veteran) Les Mawhinney was a founding member of the California AP Radio Assn.

Elected Chairman

In 1951, the AP Radio Member Committee was formed and Mr. Mawhinney, as West Coast representative, was elected chairman. Under his leadership, subcommittees on studios, news reporting and program sales were formed, but he derives greatest satisfaction from the constitution and by-laws written for the new AP Radio & TV Assn., which places the group on a "strictly democratic, elective basis."

Commenting on news broadcasting from a background of nearly two decades in the field, Les Mawhinney feels tv news "will go more into documentaries and background of big news. It will never be able to compete with radio news. In sheer speed and mobility, radio will remain first in the field."

Integrity is more than a word with Les Mawhinney, and in newsgathering he believes it must transcend all, including station and sponsor. Pointing to his present position with Don Lee-Mutual as ideal, he states the news operation is absolutely independent.

On radio's future, he comments, "News is ideally suited to the medium. Radio follows you unobtrusively, allowing you to listen while doing something else. It suits the restless nature of the American public."

Twenty-six years ago Les Mawhinney married the former Iris Graham, also a former Canadian and then an M-G-M publicist. Presently, Mr. and Mrs. Mawhinney and their daughters, Anne, 19, and Kathryn, 17, live in their suburban Sunland, Calif. home. There, as an ardent amateur astronomer and former president of the Los Angeles Astronomical Society, he follows his favorite hobby of star-gazing.
The biggest buy in radio is Michigan’s “Golden Triangle”... bounded by Detroit, Jackson and Flint! That’s where you reach 77% of Michigan’s 6-billion dollar buying power! That’s where nearly 100% of the homes and over 85% of the automobiles have radios! That’s where WKMH, WKHM and WKMF command the biggest listening audience because that’s where everybody likes news, music and sports!

BEST OF ALL... YOU CAN COVER MICHIGAN’S MAJOR MARKET LIKE A TENT AND SAVE 10% IN THE BARGAIN BY BUYING THE SMART THREE-STATION PACKAGE!

REPRESENTED BY HEADLEY REED
**KTUL PACKS The BALLYHOO PUNCH In TULSA!**

In Tulsa ... it takes radio station KTUL to put on a full promotion. And that's why new Shopping Centers just naturally call on KTUL to handle the Grand Opening.

KTUL offers a COMPLETE PROMOTION ... advertising, publicity, remote broadcasts, personalities and western bands, clowns, balloons and a real old fashioned CALLIOPE and BANDWAGON.

When the fabulous RANCH ACRES Shopping Center opened recently, newspaper was used on a one shot basis. Radio station KTUL handled the promotion on an exclusive basis ... AND chain store managers proclaimed it as the largest opening in the Southwest.

A few weeks later SHERIDAN VILLAGE climbed aboard the KTUL bandwagon for their grand opening. "It takes KTUL to better even their best promotions."

**IN PUBLIC INTEREST**

The Ten Commandments

IN AN EFFORT to counteract a series of crimes, reported to have been committed by juvenile gangs in Philadelphia, WIBG there has announced that it will air at intervals during its broadcast day, a recording of Clark Dennis singing "The Ten Commandments." The management said that it was playing the record "with the sincere hope that reacquaintance with the tenets set forth by the Supreme Being, will aid in reducing delinquency, both adult and juvenile, in our listening area."

Scouting for Boys

WKNE Keene, N. H., is airing a series on Boy Scout activities titled Scouting, 1954. The programs, sometimes taped at actual troop meetings in the station's primary coverage area, are designed to foster interest in scouting.

Amnesiac Identified

AN APPARENT amnesiac victim in Pittsburgh, Pa., was reunited with his family after his description was broadcast on a newscast by Joe Gibson over WWSW there. The man's niece heard the program and this led to his identification.

$4,700.15 Day

RUTH LYON, Crosley Broadcasting (WLWT [TV] Cincinnati; WLWC [TV] Columbus; WLWD [TV] Dayton) personality, received $4,700.15 in one day toward her eighth annual "Christmas Fund." So far the current drive has netted $31,000. Last year $70,000 was raised and since the beginning of the drive to aid hospitalized children in 1947 the fund has collected a total of $340,000.

Civic Senses Sharpened

WWDC Washington, D. C., recently began a weekly public service series titled Your Capital Host which presents programs built around civic events of current importance. Special convention activities, tourist attractions, pageants and similar affairs will be the main fare of the shows. Each program of the series will immediately follow the broadcasts of Report to the People—a weekly 15-minute public service series featuring interviews with the commissioners of the District of Columbia.

Spots on Churchgoing

WORL Boston, in cooperation with the Open Church Assn. of Gloucester, is programming one 15-minute show a day plus spot announcements throughout the day urging listeners to attend the church of their choice more frequently. The station reports that because of its campaign more churches are leaving their doors open even after Sunday services are over.

'Teenie' Voice

MOLLY of Fibber McGee and Molly fame, recorded a series of spot announcements using the voice of "Teenie," which she occasionally portrays on the air, for CKNW Vancouver, B. C., to help the station in its drive to raise $15,000 for the CKNW-New Westminster Orphans' Fund.

Safety Spots

HENRY HEIDE Inc. (candy), has purchased a series of one-minute spots to run each Wednesday at 6 p.m. on WABD (TV) New York from now until Feb. 16 incorporating safety suggestions for children. The announcements will caution children about accidents which occur because of carelessness in using matches, crossing streets, climbing and playing.

Everyone has something he does best...

There are all kinds of experts. Whatever their specialties, they all have this in common: a brand of skill that comes through long concentration on what they do best. For quality performance, it's logical to call on specialists with the greatest concentration of experience.

In quality TV representation, this is Harrington, Righter and Parsons... first to specialize exclusively in television... first to realize the service the station owner needs can only come from the representative who concentrates on a limited list of quality stations. Inevitably, this attitude attracts the caliber of TV stations listed below.

Harrington, Righter and Parsons, Inc.

WESTINGHOUSE PAYS RECORD TO BUY DUMONT'S WDTV (TV)

DuMont sells its Pittsburgh prize for $9,750,000, prepares to curtail live networking. Meanwhile, there's more wheeling-dealing to change patterns of station ownership and network affiliation. Proteus hit recent CBS-TV maneuvers.

ALL-TIME record in broadcast station sales was set Friday as Westinghouse Broadcasting Co. bought WDTV (TV), ch. 2 DuMont-owned Pittsburgh station, for $9,750,000. The transfer is subject to FCC approval.

The sale is another step in a series of industry developments that is changing the whole face of the television station and network structure, with DuMont TV Network likely to become a limited live hookup as Guild Films Co. negotiates lease of its production facilities.

Involved are network affiliations in a number of cities and a reshaping of the tv situation in Pittsburgh, for many years a one-station city and now tied up in a complicated hearing process.

Scanning developments last week as well as recent weeks, these situations are outstanding:

• Storer Broadcasting Co.'s WXEL (TV) is expected to become the CBS-TV network outlet in Cleveland, supplanting WEWS (TV), Scripps-Howard station, which has been notified its affiliation would not be renewed.

• Westinghouse, having bought WDTV Pittsburgh, apparently has sewed up the NBC-TV affiliation there and may arrange other affiliations as NBC-TV seeks outlets to be owned by it or Westinghouse in 15 top markets.

• Mergers among applicants for chs. 4 and 11 in Pittsburgh may develop.

• DuMont TV Network will still own WABD (TV) New York and WTTG (TV) Washington but may cut back its networking to a basic sports, special-events hookup. It may acquire other tv outlets.

• DuMont is coy about saying anything but it's known the company is hoping to use a new fast-recording process, possibly magnetic tv film.

• WJAS Pittsburgh, a tv applicant, is trying to block transfer of WSTV Steubenville, Ohio, to CBS-TV for $3 million [B&T, Nov. 22] on the ground the network is trying to "leapfrog the station out of Steubenville-Wheeling into the Pittsburgh area.

• WTRI (TV) Albany, N. Y., ch. 35 CBS-TV affiliate, charges that CBS is rewarding a member of its own organization in acquisition by Lowell Thomas and associates of WROW-AM-TV Albany. WROW-TV is a ch. 41 outlet.

In a petition filed Friday with the FCC, WTRI alleged there was a secret agreement to give WROW-TV a CBS-TV affiliation, with a shift of WROW-TV to vhf ch. 10 having been asked last Nov. 4, the day after the WROW sale had been approved. The FCC is asked to void the Nov. 3 FCC approval on the ground the network in effect will have control of the WROW properties.

• WTRI also asked FCC to defer acting on CBS purchases of WSTV-TV Steubenville and WOKY-TV Milwaukee, contending that decisions on those before action on the Albany petition might prejudice that case in view of multiple-ownership and anti-trust angles along with alleged failure of CBS to disclose certain information.

As the week-by-week evolution of the still young television industry proceeds in meteoric manner, with only three major live networks likely to be operating in the near future, it became apparent that the place of tv film production will become increasingly important.

DuMont's cutback on live programming and its development of fast film-tape recording are expected to pave the way for expanded Guild-Vitapix activity [B&T, Nov. 22]. Guild would lease the DuMont production facilities and DuMont's two remaining stations, WABD and WTTG, would become Vitapix members.

If Westinghouse and NBC-TV agree on a WDTV Pittsburgh affiliation, it is believed the action would lead to other negotiations by which the network would have affiliations in 14 major markets via NBC-owned or Westinghouse-owned outlets.

Westinghouse owns the pioneer radio station, KDKA Pittsburgh, which has had an NBC Radio affiliation since the network began.

With Westinghouse out of the ch. 11 picture in Pittsburgh, WWWSW and WJAS will find the situation ripe for a merger and FCC approval is believed likely. This might speed a ch. 4 merger among the five applicants, or some form of coalition that would hasten settlement of the longtime Pittsburgh confusion. One vhf station, WENS (TV) on ch. 16, is operating in Pittsburgh with WKJF-TV, ch. 53, having suspended.

The contracts covering the WDTV sale to Westinghouse were signed at a meeting in New York December 6, 1954

THE GOING PRICE IS GOING UP

January 1952: WOR-TV New York, sold by Bamberger Broadcasting Co. to General Teleradio Inc. for $4.5 million, plus $315,000 annual lease and 10% interest in purchasing company, by R. H. Macy Co., majority stockholder of Bamberger (including WOR-AM-FM).

February 1953: WBKB (TV) Chicago (now WBBM-TV), sold by Balaban & Katz Inc. (now part of American Broadcasting-Paramount Theatres Inc.) to CBS for $6 million.

May 1953: WPTZ (TV) Philadelphia, sold by Philco Corp. to Westinghouse Broadcasting Co. for $8.5 million.

June 1954: KLZ-TV Denver, sold by Aladdin Radio & Television Inc. to Time Inc. for $3.5 million (including KLZ-AM-FM).

July 1954: KPIX (TV) San Francisco, sold by Wesley J. Dumm and associates to Westinghouse Broadcasting Co. for $7.5 million.

December 1954: WDTV (TV) Pittsburgh, sold by DuMont to Westinghouse Broadcasting Co. for $9,750,000.

The three largest sales in tv history all featured Westinghouse as buyer. The total: $25,750,000.
York Friday morning. Action followed pre-
liminary approval of the terms by the Westing-
house board of directors at a meeting Wednes-
day in Homestead. Promptly after the author-
ization for the acquisition, which is subject to
usual FCC approval, E. V. Huggins, vice presi-
dent of the parent Westinghouse company and
Mr. Allen of Pittsburgh, was named president of
WJAS, left for New York to close the transac-
tion with the DuMont principals.
There were several points to be considered, it's
understood, and these were handled at the Fri-
day session in New York. Transfer applica-
tions will be filed with the FCC this week.
WDTV will continue as a DuMont affiliate
under a contract to be consummated upon
transfer of the station following FCC approval,
Dr. Allen B. DuMont, president of DuMont Labs,
reported.
In a letter to DuMont Labs stockholders, sent
coincident with the joint announcement by him-
self and Westinghouse Electric Co. President
Gwylme A. Price, he also pointed out that
WDTV has been profitable even though Du-
Mont has suffered "substantial" overall broad-
casting losses each year.
He also told the stockholders that the sale
not necessarily along conventional lines was
emphasized following the Pittsburgh transac-
tion. But it was also evident that the DuMont
operation would be systematically curtailed as
to cable and relay facilities, new live program-
ing and general overhead expense.
DuMont plans to continue operation of its
existing DuMont television station, W3DV (TV)
New York and WTG (TV) Washington—it was
learned, and also is contemplating additional
owned and operated outlets in both nsh and
WVF. "We will be making some acquisitions," a
spokesman said.
But it was reiterated that DuMont will still
be a network and will still offer programs but
possibly upon unorthodox lines.
Mention was made of a "mechanical inven-
tion" by DuMont but officials declined to
elaborate on it. One spokesman would say
only that it constituted a device for recording
that is comparable to film (presumably using
the DuMont two-camera innovation) which
would permit transmission of programs to affili-
ates with an "extreme reduction in time" as
compared to films made for tv.
Notification by CBS that it was cancelling
its longtime affiliation with WYES Cleveland
A hearing on the transfer is asked. Transfer
of control back to Hudson Valley Broadcasting
Corp. is the owner. WTRI argued that approval of
the WROW-
AM-TV sale to Messrs. Thomas and Smith will
eliminate competition for CBS-TV affili-
ation. WTRI pointed out that it has been
operating with WTRI losing CBS programs. FCC rules,
policies and precedents are violated, especially
those dealing with chain broadcasting, multiple
ownership and competition for it.
The petition said the purchase of 83.45% of
Hudson Valley stock represented a cost to
the buyer of $12 per share, with the balance
paid by assuming a set of stock a
value of no more than $60 a share. Tying
in losses of $10,000 a month on tv, the value of
stock was much less than $60, it was charged.
In its petition, as WTRI said, the buyers failed to
disclose, as required, that Mr. Thomas' prin-
cipal job is as a CBS Radio commentator or that
Mr. Smith's main job was as business manager
for Mr. Thomas.
WTRI contended the buyers and CBS had a
"secret understanding" that WROW would
get the CBS affiliation now held by WTRI if
the sale were approved. The Thomas-Smith
control in effect gives CBS control of the
station, it is argued. In addition, it is stated that
WTRI made studies showing how ch. 10
might be dropped in selecting the data to CBS
in confidence. WTRI contended
CBS then entered into a secret understanding with the buyers offering a basic two-year
affiliation if they secured control. WTRI
claimed it would suffer severe economic losses if it loses the CBS affiliation.
Going into the anti-trust angle, WTRI said
the CBS-Thomas relationship and their un-
derstanding "constitute together a tying agreement in
violation of the Sherman and Clayton acts."
The CBS "monopoly power" is declared by
WTRI to limit its right to select its affiliates, ex-
clusion of WTRI amounts to a violation of
Sec. 2 of the Sherman Act. The chain broad-
casting rule governing term of affiliation is
violated, WTRI charged, along with the re-
quirements for full disclosure. The brief was
filed by Paul A. Porter and George Bunn, of
Arnold, Fortas & Porter, on behalf of Harry
C. Wilder, president of WTRI.

Steubenville Protest

WJAS Pittsburgh moved in its petition that
FFC dismiss the WSTV-TV application to
move its main studio from Steubenville, Ohio, to
Florence, Pa., and to move its transmitting
antenna site from a point 1.3 miles south of Steubenville to a site 3½ miles from the business center of
Pittsburgh, as well as to increase power and
change equipment. The WSTV-TV application is
contingent on FCC approval of the $3 million transfer of the station to CBS Inc. WJAS is an applicant
for ch. 11 in Pittsburgh.
It was recalled by WJAS that WSTV Inc.
in the tv rule-making proceedings had argued
on behalf of allocation of ch. 9 to Wheeling-
Steubenville; that allocation to a channel to
Pittsburgh would deprive Steubenville of an
outlet for local expression; that Sec. 307 (b) would
not be met by allocation to Pittsburgh. and
that the section required allocation to Wheel-
ning-Steubenville.

FCC agreed with this argument, it was added.
The present application of WSTV-TV is
described as "an abortive attempt to maneuver
under an erroneous interpretation of the Com-
mmission's rules so as to bring about a removal
of ch. 9 from Wheeling-Steubenville to Pitts-
burgh, contrary to the Commission's decision in
the Sixth Report and Order.

The petition was filed by William A. Porter,
of Bingham, Collins, Porter & Kistler.
BBDO, NETWORKS SWEEP OUT COBWEBS ON RADIO'S STATUS

In a precedent move, the advertising agency which places $49.5 million in radio and tv takes a "new" look at the older broadcasting medium and obtains factual reports, minus the usual sales hoopla, from the four radio networks. The New York luncheon meeting finds radio very much alive.

THE VITALITY of radio today was doubly recognized last week as a major advertising agency, the CBS Radio division of the Columbia Broadcasting System Inc., conducted an in-depth, highly effective study of the medium. The test deprived it of its usual highly effective sound-effects devices, "proved just as effective as the 'eye' medium of magazines in affecting brand selection and delivering the test deprived it of its usual highly effective sound-effects devices, 'proved just as effective as the 'eye' medium of magazines in affecting brand selection and delivering its message." The study, conducted by the agency, showed that radio was "unfair to radio" in its portrayal of the medium.

The agency: BBDO, whose $49.5 million in radio spending led the agency billings parade last year. The tests were conducted for the CBS Radio division of the Columbia Broadcasting System Inc., and its advertising agency, BBDO, with the two agencies working in tandem. The test deprived the medium of its usual highly effective sound-effects devices, "proved just as effective as the 'eye' medium of magazines in affecting brand selection and delivering its message." The study, conducted by the agency, showed that radio was "unfair to radio" in its portrayal of the medium.

The radio and magazine figures, the survey firm said, are not "statistically different." However, there were variations in other phases. Younger women (20 to 39 years old) were influential to greater extent by radio (49.3% vs. 46.6%) while older women (40 and over) were influenced more by magazines (45.2% to 41.8%).

In the upper middle income group, radio and magazines were equally influential, each being responsible for 39% of those who chose one or the other medium. In the middle income group, radio pulled 49% to 40% for magazines, while in the lower economic group magazines led with 52.2% to 41.2%.

Most women—93.2%—made their choice on the basis of their reaction to claimed results. Only 13.8% based their preferences on reaction to media. The report noted: "There are few differences between the commercial clams reasons given for magazines and radio. This is to be expected, since the copy material was varied for each medium. There is, however, a marked difference in the nature of radio. Sixteen percent of those selecting the brand represented by radio mention that they liked the voice, that it held the attention better, that it was more convincing.

The survey, which its makers cautioned should not be projected too broadly because it was limited to women, to a single product, and to a single city (Philadelphia), was conducted thus:

Two toothpaste advertisements were selected, one Colgate, one Pepsi. The copy then was reproduced in two sets of four—radio copy only, television advertisement, in each of which there were (1) Pepsi copy using "Wilson" as the brand name; (2) Pepsi copy using "Thompson" as the brand name; (3) Colgate copy using "Wilson" as the brand name; and (4) Colgate copy using "Thompson" as the brand name.

Final analysis showed 50.7% of the women chose the hypothetical brand described in Colgate copy; 40% chose that described in Pepsi copy; 9.3% had no choice, it was reported.
PREVIEW

Poolmaster commercial gets into the swim

FIRST filmed television commercial to utilize under-water photography and to give its announcer a chance to display his skill as a skin-diver is making its appearance on tv stations in California, advertising a new swimming pool vacuum cleaner known as the “Poolmaster.”

The one-minute commercial opens with a young housewife in a bathing suit standing beside her swimming pool and gazing in despair at its leaf-clustered surface. “Oh, dear,” she moans. “This pool—dirty again! And my friends will be here in an hour.”

Out of the pool rises the begoggled head of the diver-announcer (Bill Edwards, West Coast tv personality whose hobby is skin-diving). He tells the lady to dry her tears and “get Poolmaster, the amazing new hydro-jet swimming pool vacuum cleaner.” Showing the girl how easily the Poolmaster connects to a regulation outdoor faucet, he hands her the instrument, telling her that “anyone can use it” and to “try it yourself while I go below to watch the Poolmaster in action.”

Underwater shots show the nozzle of the Poolmaster picking up assorted debris from the floor of the pool, with the diver’s hand pointing as he says: “Look at that cleaning power! Poolmaster picks up leaves, sand, gravel, even metal objects. Watch those coins disappear. Presto, they’re gone. Anyone can vacuum an entire pool in minutes.”

The nozzle is shown cleaning the surface as Edwards continues: “Maintenance is simple, economical because you do it yourself. End your pool cleaning problems forever. The price—just $69.50.” Now out of the pool, as he removes his goggies, he urges the audience to call Poolmaster or the nearest pool dealer for a free demonstration and concludes: “And now, this is Bill Edwards, your old Frogman, saying—It’s Poolmaster for cleaner swimming.”

Hanna Enterprises, San Mateo, Calif., maker of the Poolmaster, whose agency is Sherman-Harkness Advertising, San Francisco, plans to show this commercial in areas of dense swimming pool ownership, beginning in the San Francisco Bay area, with special audience interest in San Mateo County to the south of San Francisco where there is large pool ownership. Next, the film will be shown in the Los Angeles and Palm Springs areas and then in the Florida markets.

The commercial was produced by Motion Picture Service Co., veteran San Francisco film production organization. Its initial telecast on KPIX (TV) San Francisco evoked a “very gratifying telephone response,” according to L. D. Rashall, managing director of television productions for M.P.S.C.

Sponsor: Hanna Enterprises, advertising the “Poolmaster.”

Producer: Motion Pictures Service Co.
Director: Lee Rashall.
Cameraen: Russ Myers.
Talent: Bill Edwards, announcer-diver; Betty Von Martin, housewife.

to 10,130,000 people in 7,976,000 homes, and in the evening the audience per minute swells to 12,164,000 people in 7,417,000 homes.”

“Naturally,” NBC continued, “it is important to advertisers that one single medium at any minute of the day or night is being used by more than one out of every six homes in the country.” Experience, the presentation added, has shown that a network sponsor’s commercial may be expected to reach at least 25% of all people listening to radio at any given time. On that basis, it was shown that:

In a quarter-hour daytime strip—a single commercial in a morning program will reach 2,300,000 listeners. With the 15 commercials available weekly, 34,500,000 listener impressions will be delivered, at a cost of only 63 cents per thousand. The delivered audience per month amounts to “nearly one out of every five homes in the country.”

In a weekly half-hour evening program—each of the three commercials can reach 3,041,000 persons for a total of 9,123,000 impressions per broadcast, a cost of $1.10 per thousand, at desirable times when all members of the family are apt to be present.

In participation sale programs—advertiser buying three one-minute full network participations a week (one morning, one afternoon, one evening) will reach 2,312,000 listeners in the morning, 2,533,000 in the afternoon, and 3,041,000 in the evening for a weekly total of 7,866,000 commercial impressions, at a cost of $1.11 per thousand. Due to audience turnover, a factor also present in daytime sponsorship, these three participations will be heard by 4,646,000 different homes in a single week and 8,325,000 different homes in four weeks.

NBC conceded “many sound reasons” to substitute a choice of other media for basic advertising.

Limited Circulation

But if the basic is magazines, it was noted there is the problem of limited circulation: Four top ones (Life, Look, Saturday Evening Post, Collier’s) together reach only 12,200,000 different households, or 26% of all U.S. homes as compared to radio’s 98%.

Additionally, NBC cited a Magazine Advertising Bureau analysis which showed that, of the 45 leading magazines studied, one-third of the population reads three-fourths of the magazines and one out of three people read none.

If the basic is supplements the circulation problem comes up again, NBC’s report pointed out, noting that This Week, American Weekly, Parade and Metro have an aggregate circulation of 40,000,000 but actually reach only 24,200,000 different households, or 51% of the U.S. total.

If television is the basic buy, the study continued “your circulation is again unable to cover your national market.” If every set in the U. S. as of Sept. 1 were counted as a television home, there still would have been only 31,274,000 tv homes or 66% of all homes. “Realistically, it must be remembered that the average evening television network consists of 66 stations which have a circulation of but 24,200,000 homes, or 51% of all homes in the country.”

If a combination of magazines and television is used as basic media, NBC said, overlapping circulation develops—all four of the magazines cited can add only an aggregate 6,573,000 more households to full network tv. Similarly, with a combination of Sunday supplements and television, from 59 to 73% of the former go into homes already covered by television, the study asserts, reporting that all four of the cited supplements can add only 12,760,000 homes to those which television reaches.

“Since radio’s coverage extends to virtually all homes in the country it is obvious that radio
must duplicate every medium, almost 100%,” NBC emphasized. Aside from being a powerful basic medium, it “offers economical and effective repetition of your sales message to homes which are covered by other media plus unduplicated coverage of tremendous segments of the national market which these other media cannot reach.”

CBS Radio’s presentation for the agency was based on its “Tune in Tomorrow” film, released early this fall [WT, Oct. 4], which reviews the growth of radio, its scope and selling power; projects the expanding U. S. economy, and foresees another 40 million radios “in all sizes, in more places than ever before” by 1960.

Mutual’s presentation similarly was based on material released earlier, the so-called Ward daily living habits survey, which give quarter-hour reports on where people are, whether they’re listening to radio or watching television and what else they’re doing while listening or watching—a survey designed to help advertisers and agencies plan their campaigns more knowledgeably as well as to sell them on radio generally.

**Case Joins Geyer Adv.**

WINSLOW H. CASE, a vice president of Cunningham & Walsh, New York, has joined Geyer Adv. there as a vice president of the agency, B. B. Geyer, president, announced last week. Mr. Case has been in the advertising business for the past 20 years and was with Nell-Emmett and C & W, where he specialized in general creative work. He was formerly a senior vice president and director of Campbell-Ewald as well as manager of the company’s New York office, and served as chairman of the plans board and head of creative activities.

**Kraft May Assume News Series**

KRAFT FOODS reportedly was negotiating with MBS last week on possible sponsorship of a package, currently sponsored by S. C. Johnson & Sons, of five five-minute news shows a day, five days a week. Billings were estimated unofficially at about $1 million. The Johnson contract runs to the end of the year. The newscasts feature Frank Singiser from New York at 10:30 a.m., Holland Engle from Chicago at 11:25 a.m., Les Highie from Washington at 12:15 p.m., Sam Hayes from Los Angeles at 2:25 p.m., and Cecil Brown from New York at 5:55 p.m. Need Stew & Brody is agency for both Johnson and Kraft.

**Y&R Hires ‘On Call’ Writers**

UNDER a deal negotiated by Nat Wolfe, vice president in charge of radio and tv at Young & Rubicam, Mel Shavelson and Jack Rose have taken up their consultant duties at the agency and will be “on call.” Former radio writers, the pair recently completed writing, production and direction of “Seven Little Foys,” Paramount Pictures’ feature starring Bob Hope. Shows they create will be approved and filmed as pilots by Y&R, with complete ownership reverting to the team.

**PULSE HAS NEW MEASUREMENT APPROACH**

Statistical agency announces that it will issue semi-annual reports on cumulative daily and weekly station audiences. An advantage of the new report will be its comparability with ABC newspaper ratings.

PULSE Inc. last week said it has come up with “a new concept in broadcast audience measurement” and beginning this month will provide subscribers with a regular station audience count on a daily and weekly basis.

According to Dr. Sydney Roslow, director of Pulse, the new measurement report, called Cumulative Pulse Audience, was considered necessary “because of the changing nature of spot broadcast advertising.”

He asserted CPA would be of particular value to those advertisers who buy “satura- tion-type” schedules on individual stations and thus find quarter-hour ratings “not only inadequate but frequently deceptive since they give no indication of the changing nature of a station’s audience.”

**Semi-Annual Reports**

At the outset the report will be issued semi-annually and will include data on the percentage of families tuned into viewing each station in a market on the average day and throughout the week.

Added to the all-day audience data, Pulse intends to provide separate radio-tv cumulative audience ratings for morning (6 a.m.-noon) and post-midnight (midnight-6 a.m.). Weekly audiences, Pulse said, will be broken down into daytime, nighttime and post-midnight.

Among uses of CPA data listed by Pulse:

1. The data will provide a measure of both home and out-of-home total listening and viewing for the medium as a whole and for the individual stations in a market.

2. Advertisers can use the data as a “reliable basis” for buying saturation or run-of-station packages.

3. The data can be compared with newspaper and magazine circulation. “For example,” Pulse said, “a station’s average daily CPA rating can be checked against ABC data for daily newspapers.”

4. The information would measure audience “turnover” or change in station through the day and over a week’s period.

5. CPA data can show duplication between audiences reached by different stations or by the same station at different times of the day.

6. It can provide “a periodic, continuing measurement of the post-midnight audience—a long neglected segment of the broadcast audience.”

7. Evaluation of the type of families listening to or viewing a particular station would be possible.

Information for the CPA reports will be obtained through personal interviewing during evening hours with all members of the family joining in the interview, Pulse said.

Pilot studies made last spring, Pulse said, showed “major differences in audiences reached by stations when comparisons were made between the average quarter-hour figures and the CPA data for broader time periods.”

Dr. Roslow said the material provided would give subscribers “the kind of information they must have for a proper evaluation of radio and tv as spot advertising media.”

**Beer-Wine Ads Acceptable**

To Majority of L. A. Survey

NO objection to wine and beer advertising on radio-tv was offered by a majority of middle-class Los Angeles women, most of whom have children 20 years or younger, according to a survey by U. of Southern California’s department of telecommunications.

Among the ladies questioned, under supervision of Dr. Kenneth Harwood, department chairman, 51% favored such advertising, 45% opposed it and 4% expressed no opinion.

Most respondents were of Protestant faith and over 34 years old—a group usually considered conservative—university officials stated. However, 55% of ladies serve beer, wine or other alcoholic beverages in their households, the survey found.

**Three Firms to Split Tab On Pro Playoff Telecast**

CHAMPIONSHIP playoff game of the National Football League will be sponsored by three advertisers on DuMont Television Network. The game is scheduled for Dec. 26 with the possibility that the date will change to Jan. 2 if there is a divisional tie necessitating a playoff

GEORGE P. MEANY (r), president of The American Federation of Labor, discusses the upcoming ABC radio news series with Edward P. Morgan, who will be commentator [BT, Nov. 29]. AFL has sponsored news commentary on MBS for the past four years. The new ABC series will be on 175 stations, Mon.-Fri., 10:10-11:55 p.m., EST effective Jan. 3.

**BEER-DRINKING SURVEY**

The survey was conducted for a proposed new national network of radio stations on alcohol consumption. It was sponsored by the American Pharmaceutical Association, Canadian Pharmaceutical Association, American Medical Association, American College of Surgeons, National Hockey League, and the National Association of Broadcasters.

**Buys Christmas Show**

FOR THE FIFTH consecutive year, the Mutual Benefit Health & Accident Assn. of Omaha, Neb., will present the special *Mutual of Omaha Calling* broadcast on Christmas Day over Mutual (2-2:45 p.m. EST), during which overseas servicemen will exchange holiday greetings with their families in the U. S. by means of shortwave and cable facilities. Overseas origina- tions will be Berlin and Tokyo, while members of families of servicemen will speak from Mutual studios in New York, Omaha and San Francisco. Bozelli & Son, is the agency for Mutual of Omaha.

**ADVERTISERS & AGENCIES**

**COMBINED NETWORK SALES GAIN 14.4%**

Latest Publishers Information Bureau figures compare radio-
tv network time sales for Jan.-

COMBINED time sales of the nationwide radio and
tv networks in October aggregated $42,-
979,871, a gain of 14.4% over the
grossed $37,255,494 achieved in October 1953, according to Publishers Information Bureau. For the January-October period, this year's combined radio-tv network total is $369,440,-
932, a gain of 18.4% over the gross of $312,-
013,223 for the same 10-month period last year.

The tv networks during October had time sales 35.3% above the figure for the same month of 1953; for the 10-month period tv network time sales this year are 41.9% ahead of last. Radio network grosses, however, are down in comparison with last year, the Octo-
ber total being off 20.9% from October 1953 and the 10-month total lagging 13.3% behind the 1953 mark.

Pib network-by-network figures for radio and television, October and January-October, 1954 compared to 1953, follow:

**Three Buy Message Segments**

REXALL Drug Co., Eastco Inc. (Clearasil), and Campbell Cement Co. (Malt-O-Meal), have signed for segments of CBS-TV's "The Morning Show," every week this fall, 7-9 a.m. EST. Rexall signed for three participations weekly on the complete Morning Show network, effective Feb. 15. The order, placed through BBDO, Los Angeles, includes Panorama Pacific, CBS-TV's West Coast version of The Morning Show.

Eastco, through Ruthrauff & Ryan inc., will sponsor two participations weekly effective immedi-
ately. Business for Campbell, placed by Campbell-Mithun Inc., calls for two participations a week on the midwestern portion of the network.

**Miles Labs Changes Schedule**

REPLACEMENT of its Three Steps to Heaven with Modern Romances on NBC-TV starting Dec. 8 was officially confirmed last week by Miles Labs (patent medicines), Elkhart. Ind. Miles was alternate sponsor of the serial between Wednesdays and Thursdays. 4:45-5 p.m. EST, according to Geoffrey Wade Adv., which handles the account. Program is released across 220 cities. Actress Martha Scott in a complete story told in each week's episode.

[FAILS on page 51]
Morning Radio is UP in IOWA
UP on WHO!

The chart — taken from the 1954 Iowa Radio-Television Audience Survey — tells the story.

The two top lines show morning radio listening in 1954 as compared with 1953 — UP for all stations in Iowa.

The two lower lines are for WHO alone — UP for 1954, over '53 — and we hope you'll note that, at certain times, WHO alone accounts for as much as 45% of all the radio listening in the State!

The complete 1954 Survey will be out very soon, now. Write for an early copy — or ask Free & Peters!

"Best darn salesman I’ve ever seen!"

 Seriously, Mt. Washington TV is one of the “best darn salesmen you’ve ever seen”... and a good many people have found it out already!

 The sponsors of I Love Lucy, Omnibus and Bishop Sheen know that the Mountain is a “born salesman”... it reaches most of Maine, New Hampshire and Vermont at about half the cost of any other 3 TV stations in the area combined.
BUYING & SELLING:
TWO VIEWPOINTS

AN AGENCY BUYER AND A BROADCASTER
voice their opinions

THE Radio & Television Executives Society, New York, held a time buying and selling seminar at its meeting last Tuesday. An agencyman and a station man were the speakers: George Kern, associate media director of Lennen & Newell Inc., and Robert M. Reuschle, national sales manager, WHUM-TV, Reading, Pa. Moderator was Vera Brennan, head timebuyer at Scheideler, Beck & Werner, New York. The text of Mr. Kern's speech follows below; Mr. Reuschle's remarks appear on page 38.

CONCERNING:
1) The agencies' relationship with their clients and with the broadcasters, and
2) The agencies' responsibilities to their clients and to the broadcasters.

This might be "old-hat" to many, but we thought it a worthy reminder to all.

An agency's position is a peculiar one in that it acts as an agent for both the client and the broadcaster. An agency therefore becomes a buyer and a seller and as a result it is right in the middle. He buys for his client and sells for the broadcaster. The agency takes its orders from the client and gives orders to the broadcaster who pays him his commissions.

This is a point most agency timebuyers, their bosses and their clients too often lose sight of. It's the broadcaster who pays the agency commission—not the client. So let's treat him with the respect he deserves.

The thing we must all remember—advertiser, broadcaster, agency—is that we are a team and that we are in this together. We survive and succeed only so long as we work as a team. We need each other. The advertiser needs the vehicle to carry his advertising message—and he needs the agency to prepare the kind of message that will produce sales results which will enable him to continue to use the vehicle. The station needs the agency to represent him in selling the effectiveness of his vehicle and keep it sold by the results gained from the sales producing messages he prepares. The agency needs both the advertiser and the broadcaster—the advertiser to hire him and the broadcaster to pay him.

You can see this becomes a vicious and important cycle—we need each other—advertiser, agency and broadcaster.

Now let's talk about responsibility.

You remember I said that if we all assume our responsibilities, we'll get along a lot better—and do a better job. As far as an agency is concerned, its first responsibility is to its client—the advertiser.

The agency acts on behalf of his client in all his dealings with the broadcaster. As an expert in the advertising profession, he recommends without prejudice the stations and time periods which will best fit his client's needs. He is responsible for producing the best selling messages—messages that result in sales—that result in the continued use of the stations which produce the results.

The agency is responsible for protecting his client in every way possible in his negotiations with the broadcaster. He must see that his client gets the best available time periods at the lowest possible cost. He must protect his client contractually on rates, rebates, pre-emptions, cancellation privileges, legal entanglements—and every other way. And remember it is the agency who is solely liable to the broadcaster to fulfill all of the terms and conditions of the contract he signs on behalf of his client.

The agency has a responsibility to the broadcaster beyond his contractual commitments.

He should respect the important part the broadcaster plays in the community he represents. He should regard the broadcaster as an equally important part on a three man team. He should give the broadcaster an opportunity to submit proposals on a competitive basis—and be ready to tell him why he did not get the order.

In the interest of his client and the industry as a whole, the buyer should be fair in his dealings with broadcasters in requests for make goods, credits for interruptions and pre-emptions, publicity and merchandising.

Remember, any request which puts a higher overhead on a station's operation is ultimately going to be reflected in the rate card. So let's not force stations to render services which raise the rates to the point where they kill the medium. Sure, take advantage of all the services a station has to offer—but don't abuse them to the point they affect the rate structure.

Now, I want to get back to the subject of contracts.

As I said before, the agency is solely liable for the contract he signs with the broadcaster.

We are fortunate in having a standard contract which has been developed after many months of work on the part of the NARTB and the American Assn. of Advertising Agencies and is accepted pretty generally in the industry. It contains a few clauses which some of you may not agree with, but as one of the 4A representatives who labored over the drafting of all clauses, I feel we ended up with something we can all live with. It seems to cover the agency and the broadcaster in an equally equitable way. The thing I want to explain, however, is that you should not just take this contract for granted. Don't just sign it because it has the seal of approval of the NARTB and the 4A's.

Know what the contract contains? What are the agency's obligations to the station? What are the station's obligations to the agency? What are the cancellation privileges on the part of the station? What happens when your program is preempted? What protection do you get on rate increases? Who indemnifies whom? and for what? The knowledge of the terms and conditions of this standard contract on the part of buyer and seller has resulted in the unusual relationship which exists between agency and broadcaster. Because of the close cooperation between broadcasters and agencies through their respective associations in the development of a standard contract, verbal orders get the acceptance they do. A timebuyer's word to a station or network is all that is necessary to kick off a million dollar campaign.

There is a code of ethics in this business that says a man's or a woman's word is all we need. Let's keep it that way.

Let's not have anyone—the client, account executive or anyone
THEY'RE BUYING THE NEW STYLE

To break established patterns and create a bold new style is one thing; to win acceptance in the market-place is another. NBC-TV Color Spectaculars were daring departures from conventional television programming. Now the first sizable block of figures is in.

Of the first five of these 90-minute super-shows to be rated by Nielsen, four have won top-ten-size audiences. The fifth missed by a whisker. Each of the five has been seen in more than 10,000,000 homes.

"Tonight at 8:30" and "Sunday in Town" are both in the top ten in the latest Nielsen ratings, each reaching over 10,700,000 homes. In earlier ratings, "Lady in the Dark" was in fourth place with 11,347,000 homes. "Satins and Spurs," according to a Special Nielsen Tabulation, was also seen in more than 11,000,000 homes, and "The Follies of Suzy," another NBC Spectacular, was enjoyed in 10,000,000 homes.

But ratings are only one part of the picture. NBC Color Spectaculars have achieved nation-wide impact. People talk about them, read about them. They're big, exciting, newsworthy. Last week's Judy Holliday cover on LIFE is an example of the constant attention they attract. Equally impressive is their merchandising magic. Dealers are more than enthusiastic about the response at point-of-sale. And perhaps most important, these Spectaculars have provided vital impetus to the greatest selling medium yet devised—color television.

Creation of the Color Spectacular is only one aspect of NBC's dynamic program leadership in Television—leadership that brings more families to the average evening program on NBC-TV than any other network.
else, have us try to get out from under a commitment, just because it is not in writing—or because the contract has not yet been signed.

The agency has a reputation to maintain—an order is a commitment and obligation whether it be verbal or in writing. This is why it is important for buyers to know what they have contractually agreed to. This is why they must know every clause of the contract and that they convey the terms and conditions of such commitments to their account men and clients.

To sum up—if:

1) We work as a team—advertiser, agency and broadcaster, and
2) We know our relationship with each other and our responsibilities to each other, we can’t help but have a smooth-working and successful team.

I HAVE BEEN on three sides of the fence: timebuyer—station station man . . . and station representative (he’s the man in the middle).

Every timebuyer should try being a salesman . . . and every salesman should just try being a timebuyer. Or, to put it more bluntly, did you ever have to stay home and feed and diaper the kids while your wife spent the whole day in New York shopping? You know the other fellow’s job is not always as easy as it looks.

Somebody said the other day, “The best advertising men are those who best understand women” . . . and I like to think, “The best timebuyers are also those who best understand salesmen.” Salesmen are the CATALYST to our whole economy . . . something like the sparkplug in your car. Therefore let’s begin by recognizing that saleswork, like timebuying, is a profession too . . . it’s not “piddling” . . . nor is it “peddling”!

Probably some of you might be asking yourselves how to learn timebuying quickly. One of the best ways is to ask questions of salesmen. Take the salesman into your confidence whenever you can so . . . you might be surprised how much he can help you . . . admit what you don’t know, or don’t understand . . . don’t try to bluff . . . an inquiring mind will pay you great dividends, and you and the salesman will both profit by it.

Salesmen can often help you sell your ideas on radio-time values if you will welcome sales calls on your account executives and clients. Timebuyers feel they have the right to contact stations direct—and rightly so, for it leads to a better understanding and a solution of many problems all the way around. Of course, timebuyers should let the salesman know this is being done, just as the salesman should first cover the agency before going to the client. Sales calls on clients is not a serious complaint . . . However, it is a fact that the print media boys have a better working relationship in this regard.

In other fields of endeavor, many thousands of dollars are exchanged or committed by a simple raising of the hand, or a nod of the head. When a station representative gets a telephone order, many wheels start to turn. Station people would like to see timebuyers make more trips into the field to see markets and observe local conditions first hand. Your clients and account executives usually have this experience or go out and get it by riding delivery trucks; calling on jobbers; selling their products from behind the retail counter; checking shelf display and merchandising, etc. While it is true that the busy timebuyer is often confined to his desk, it is hoped the buyers will take every opportunity to get out in the field and, at the very least, get the feel of some local markets. When you see the local shows and meet the personalities, you will have a much better idea of what you bought and the kind of audience this show reaches. You will discover new ways to use and merchandise these programs. Just think of some of the New York programs you are so familiar with and I think you will agree, if you can make more trips to stations you will be even better buyers.

In my early days as a buyer I once had a tendency to have pre-conceived notions about——

“My client will only buy 30,000 watters” . . . or . . .

“We can only buy network stations” . . . etc.

But the character of advertising is changing . . . so do the relative values of radio-stv stations. You all know that power, frequency, network affiliation and program or personality changes can sometimes quickly affect a station’s audience pulling power. It is possible for one station to go from independent to network affiliate and increase its audience. The same thing can happen in reverse. Perhaps just a short six months ago you considered station “x” to be the buy in its area . . . but something happened in the meantime. I remember once calling the client to happily announce: “I have been able to get your spots in that hot disc jockey show, The Katzenjammer Kid . . . only to have the client tell me Katzenjammer moved to the other station two months ago! Remember the station representative has a responsibility to his client too . . . the station. He is at least responsible for knowing what campaigns are breaking . . . and getting a shot at the business. The point is . . . you can do a better job for your client, and yourself, if you ask for availabilities on all stations in the market before you buy.

The sales fraternity is always a little concerned about the way some radio media market lists are prepared for print and radio-stv . . . (and that’s probably the understatement of the year) . . . and while it is true, the seller of time is not yet a position to know the intimate details of an advertiser’s marketing and media strategy . . . just one word of caution . . . Ranking markets for local media use by such yardsticks as households, effective buying income, population, retail sales, etc.—may all be important and useful approaches—but we wonder at times whether sufficient attention is given to the fact that you can’t build a fence around a radio or television station deal. These media and their programming factors have large audiences beyond the metropolitan city, where people in the urban-rural areas are influenced by the advertising on these two electronic media. Many urban-rural families do a large share of their purchasing in the big cities . . . thus inverting the meaning perhaps of retail sales in that city. To assume that magazines have deep penetration right across the country is a mistake.

For example: one of the largest weekly magazines reaches about 14% of the families in WHUM-TV’s area . . . and only 19% of all the people if we allow 4.75 readers per copy to account for pass-on circulation. Remember this 19% is its total potential audience . . . we haven’t taken into account any research ratings on the reading or noting of any ad. Markets are people, wherever they are, and radio-stv reaches them best. We would like to see more emphasis put on radio-stv’s total audience . . . by the timebuyers who help to sell it.

There is one small gripe . . . salespeople have. It is the amount of time wasted waiting in advertising agency reception rooms . . . Timebuyers calculate cost-per-thousand . . . cost-per-rating-point . . . cost-per-commercial. But did you know that: the Cost-Per-Hour, in Reception Rooms, Per Salesman is about $5.48?

Please try to remember that a salesman’s time is just as valuable as yours. We know that all too often timebuyers are called into those inevitable meetings at the last minute . . . but do the guy a favor and see that he isn’t told of this after waiting around for half an hour. Brief your luscious secretary on this problem . . . she might be able to come to the lobby and handle the call and save you time. And for us, the call won’t be a total loss.

One last thought: Armed as you must be, with intestinal fortitude, and a sense of humor . . . and after you have examined all the yardsticks . . . power; frequency; coverage, gross and net; cost; ratings, gross, net and cumulative; cost-per-thousand; cost-per-rating-point; cost-per-commercial audience composition; programs preceding and following; competition; merchandising clues; sales potential; package rates; overlap of other stations or other media; AD INFINITUM . . . try to remember that sometimes “a philosophy is more important than a formula” . . . and let your common sense smile through!

MARKET RESEARCH MEANS PEOPLE, TOO

IN RADIO-TV, WHAT COUNTS IS WHO LISTENS TO WHAT, AND WHEN

WHAT is a market? Different things for different products at different times in different media, according to J. A. Ward, president of the market research firm of J. A. Ward Inc., which recently completed a nationwide survey of listening and viewing habits for Mutual. Audience composition can mean more to an advertiser than audience size, and commercials timed to coincide with appropriate listener activity (such as advertising a detergent to women at dishwashing time) can be much more effective than at other times, Mr. Ward told the Nov. 23 session of the Radio Television Executives Society timebuying and selling seminar in New York, in a talk excerpted here.

THE ANSWER requires a knowledge of the product to be sold, its uses, its competition and its distribution. These are the elements which determine the characteristics a marketing man looks for and establish the relative importance of special groups in marketing.

In the final analysis, markets are people who may buy the item you are trying to sell. It is to them you aim all your sales ammunition.

The first step usually taken in defining your markets is to classify people into convenient groupings so that you can analyze your marketing problem more systematically. Standardized groupings based on objective nose counts of age, sex, geographic location and buying power are essential to knowing your market; but they may be misleading unless further evaluations are made in terms of interest in the product and its competition.

As a market researcher, I’m the last one to minimize the importance of these definitions of markets—but I think I can make a better contribution to your thinking by restricting myself to the application of my subject to radio and tv.

Our organization has just completed a study of air media [B*T, Oct. 4] which I believe permits for the first time market interpretations of these media in terms of people. Practically all previous measurements of the size and characteristics of the various markets reached by air media have been expressed in terms of sets or families. This means these measurements give equal value to each family regardless of the number of people they contain.

Our study differs from these because we have given equal value to each individual person, thereby permitting a specific examination of the markets represented by air media. This difference in the unit of measurement developed information that is, in many respects, dramatically different from previous data.
Perhaps the most startling difference we found was in a comparison of the amount of time spent with each media during a given day. Previous measurements have indicated that the average tv set use is much greater than average radio use during a day. Our study indicates that among all viewers about two hours a day is spent viewing television and approximately the same amount of time is devoted to listening to a radio by the average radio listener.

The point is that most research has measured total set use, which obviously is greater than the amount of time most individuals can spare from their normal daily activities. For example, in my home the television set is on for probably more than five hours each day. However, there is not a single person in the family who can, or does, spend that much time viewing television. They come in and out of the audience at different times.

Thus, by one form of measurement—the family unit—the casual interpretation would be that tv enjoys perhaps a 3 to 2 superiority over radio. Our study clearly indicates that this is not so—that there is a high degree of equality between both media over a full day of operation.

For example, we found that in the course of an average weekday, both radio and tv reach about 60% of all the people in the country over the age of 5. And, instead of the commonly accepted idea that tv dominates the major proportion of air time (by air time I mean the total radio-television exposures combined), the amount of time devoted to each medium is about the same.

The reason the study shows this is simple—insteed of measuring warm tubes, we measured people and their activities. And in doing so, we measured markets.

Now, of course, there are some major differences between the markets reached by radio and those reached by tv. Television reaches more 6-to-12-year-olds than does radio. Radio reaches more persons in rural areas than does tv. Radio reaches more adults, especially women.

But this is over a full day. Nobody can buy or sell all of radio or all of tv, so the question of what sort of market you can reach by using one or the other medium narrows down to specific time periods and networks. In each such segment of the total time, the markets or people you can reach may vary considerably.

For example, before 6 p.m., of all the people spend with radio or television 70% is devoted to radio listening. After 6 p.m., 75% of all such time is devoted to tv. And, furthermore, of the total time people devote to air media, roughly half occurs before 6 p.m., the other half after 6 p.m.

A part of the process of knowing your markets involves knowing why these things occur. We developed some fairly clear reasons as to why radio-tv markets divide up the way they do. The basis of our study was a complete measurement of the daily living habits of the people in this country. We studied their activities throughout the day, from the time they got up in the morning until they went to bed at night.

Of all this waking time each individual has during a full day, a certain proportion is devoted to dressing, eating, working and leisure time. What we found was that people can and do listen to the radio when engaged in any of these activities. Of course, the nature of the medium permits this. The housewife can listen while she works. Also, most homes have kitchen radios or car radios, in addition to a living room radio. So, people can listen in more than one place.

Tv, on the other hand, is more restricted. In the first place, almost nine out of ten tv sets are located in living rooms. In the second place, full use of tv requires the use of the eyes as well as the ears and makes more difficult the performance of other chores simultaneously. Thus the vast majority of all tv viewing is done during leisure time—and most leisure time occurs in the evening hours.

All of this points up the fact that radio and tv, as a whole, are not what you could call a market—but represent many, many markets, different for each broadcast period.

It was one of the objectives of our study to examine the characteristics of these hundreds of individual markets. To do so we made analyses of individual time periods by the age, sex, geographic location and income of the people we studied. Some of each type were, of course, listening to the radio, some were watching television. Thus we are able to examine the audience composition of both media. And study the market factors that buyers and sellers of time require for the best implementation of these media.

Up to this point, I have been making comparisons and contrasts between radio and tv. Now I would like to tell you a little about what we found with respect to how these characteristics vary by periods. For the sake of avoiding confusion I'll stick to radio.

I mentioned earlier that there are always some subjective standards for measuring

**Viewing, 70% is spent with radio while 30% is spent with tv**

**Viewing, 75% is spent with tv while 25% is spent with radio**

TOP BILLING AT KEX GOES TO RADIO NEWS

RADIO WAS BORN with a news broadcast. The first regularly scheduled commercial broadcast was the Harding-Cox election results on Nov. 2, 1920. Today, no station manager would think of not allotting a generous share of his air time to news shows.

Not every station manager agrees on the amount of time which should be devoted to news. But at least one, J. B. (Steve) Conley of KEX, the Westinghouse station in Portland, Ore., believes it isn’t possible to get too much. He says flatly, “News is not only the backbone of radio but also a service in which radio excels any other means of communication.”

That’s why KEX devotes 18% of its best air time—almost four hours between 6 a.m. and 10:15 p.m.—exclusively to news.

Says Mr. Conley, “I’ve been around radio a long time, but the television to make me see the value of good news coverage to a radio station. There’s no getting away from it, television competition was rough. But where tv can do a better job on some things like dramatic programs and variety shows, we can lick them consistently on news because of immediacy and flexibility.

Figures show that KEX’s income from sponsored news broadcasts has almost tripled since 1950. In 1951, revenue from news shows was 13% of the 1950 figure. By 1952 it was 166%. Last year the total was 2290% of the 1950 revenue, and this year it will hit 287%.

Only 8% of the station’s total income in 1950 came from news. It was up to 10% in 1951, 13% in 1952 and 16% last year. Today, as Steve Conley points out, “Twenty-two per cent of all KEX’s revenue comes from news broadcasts. Twenty years ago, I never would have believed it possible.”

News director of KEX is Bob Thomas, who had amassed ten years of newspaper experience before joining KEX in April 1945. A soft-spoken, slightly-built man with greying hair, he looks, talks and thinks like a newspaperman, and he firmly believes that the best radio news shows are those put together by following basic newspaper practices.

Since he has been in radio, Mr. Thomas has developed some positive ideas about pure radio problems. For one thing, he insists mere staff announcers don’t make good newscasters. He explains: “An announcer is accustomed to reading commercials—to selling things. He may do it very well. But a news broadcaster should have a high sense of drama. He is being called upon to act out a highly dramatic situation.”

One of the most important members of the KEX news staff, like its city editor, never goes near a microphone. That’s ace “legman” Mary Margaret Whitmore, a New York girl who worked on magazines there before marrying a Portland pediatrician.

You can find “Mike” covering the day’s top local story—the big murder trial, the controversial council meeting or the six-alarm fire. Hourly she phones the station with last-minute bulletins, only leaving the scene of the news at 11 a.m.—when she hurries in to write her story for Washburn’s 12:15 p.m. broadcast—and at 5 p.m., when she returns to the station to bring the story up-to-the-minute for McGowan’s 6 p.m. show.

For the other members of the KEX news staff, who gather news mostly by telephone, life is made easier by Station Manager Conley’s edict that they are to have unlimited use of the long-distance phones. “With our three-hour time advantage over the East Coast, that means a lot,” Mr. Thomas observes. “We can call Washington or New York on a story with a Portland angle and often get what we want before the wire services can get it to us. For example, we can get a quote from Interior Secretary McKay (former governor of Oregon) on our 7 a.m. broadcast about something that happened in Washington at 9:30 a.m.”

With such calls supplementing the full UP and INS service for national news, plus the ABC network news shows KEX carries, the station’s Thomas-trained KEX news staff devotes itself to ferreting out fresh angles for the local news. Sherman Washburn and George McGowan do the bulk of the newscasting. Mr. Washburn handles five news broadcasts daily, his first at 6 a.m. and his final at 12:15 p.m. Mr. McGowan does six newscasts from 2 to 10 p.m.

In addition, there are a half-dozen other newscasts, written by Bob Thomas and his staff and put on the air by announcers. And, of course, there are break-ins for bulletins on big stories.

Mr. Thomas says: “For the two million people in our basic 50 kw area, we try to be a front page and a darned good one.”

The surest sign of his success, he believes, is that news sources call him instead of just the newspapers when a story breaks. But to Station Manager Conley, there’s a surer sign that Thomas has found the right formula for radio—the ever-mounting revenues from news broadcasts and the ease in finding sponsors for KEX’s unusually heavy schedule of news shows.

BEAUTICIANS TO TV COOKERY

VIDEO VITTLES MAKES VIDEO FOOD LOOK GOOD ENOUGH TO EAT

By Rocco Famighetti

DOES the chocolate cake in your tv commercial have that tired, worn-out look? Do you want to perk up the spinach so that the kiddies watching their favorite tv program will really want to eat that vegetable? Do your tomato soup and fried eggs come through on television like something that you wouldn't feed your worst enemy?

Well, if these are some of your trials and tribulations, you can be saved. Just as a station operator with technical problems calls on a consulting engineer and a film producer with copyright headaches seeks help from a lawyer-specialist, television commercial organizations plagued by "fouled-up food" can utilize special services.

Video Vittles Inc., New York, has a scope of operations that extends much further than that of a mere catering service, which television has had since its inception. It is a complete packaging-consultancy-catering operation which currently is servicing more than a dozen clients, furnishing drawingboard to on-the-air service on food commercials.

The driving forces behind Video Vittles are Kit Kinne, food editor of NBC-TV's Home show, and her lawyer-husband Charles Sigety. As with many thriving business enterprises, Video Vittles emerged from a chain of circumstances, starting about three years ago when Miss Kinne was the "Sally Smart" of WOR-TV New York's Sally Smart's Kitchen. Miss Kinne received a telephone call to bake some cakes for Pillsbury for CBS-TV's Godfrey and his Friends program. The word circulated that Miss Kinne, a graduate home economist out of Cornell U., was preparing the Pillsbury commercials, and other food companies availed themselves of her services.

Business began to boom to the point that it could no longer flourish on a modest scale, and nine months ago, Miss Kinne and her husband formed Video Vittles. They currently maintain a completely equipped kitchen covering 225 sq. ft. of space at 135 E. 95th St. in New York, and employ four full-time cooks and home economists, and a number of part-timers when business is particularly frisky.

One indication of the scope of business activity, Mr. Sigety said, is that the food bill alone amounts to $1,500-$2,000 a month. When color programming accelerates its pace next year, he added, food expenditures will blossom into an even larger item.

Mr. Sigety, a graduate of the Yale Law School and a one-time member of the Compton advertising agency's staff, contends that expert food advice is needed by agencies and sponsors on black-and-white as well as color commercials. In fact, Mr. Sigety believes that guidance is even more important with respect to black-and-white because it is imperative that discrimination be attained in terms of shading.

A steak or hamburger in black-and-white looks like a black mass when cooked, Mr. Sigety explained, so Video Vittles recommends that it be shown raw, thus achieving a light tonal effect. A rich spaghetti sauce would look "like mud," according to Mr. Sigety, unless it is assisted by overhead lighting.

Another important consideration in black-and-white, Miss Kinne interjected, is the selection of "accessory" foods which will blend well with the piece de resistance.

Over the past few years, Miss Kinne and her husband have gleaned from their experiences a card file of do's and don'ts for the telecasting of food commercials in color. For instance, they have learned that tomato soup will look palatable if only a certain amount is used in the bowl and a highlight.

BROADCASTING • TELECASTING
Of the 533,000 TV homes served best by WCCO-TV, 180,000 are big-buying farm households. And the folks out on the rich Minnesota-Wisconsin acres welcome WCCO-TV into their family circle—just as their city cousins do.

From 8 am to 6 pm every day, the average ARB* rating:

<table>
<thead>
<tr>
<th></th>
<th>city</th>
<th>farm</th>
</tr>
</thead>
<tbody>
<tr>
<td>WCCO-TV</td>
<td>6.0</td>
<td>8.2</td>
</tr>
<tr>
<td>Second station</td>
<td>3.6</td>
<td>4.6</td>
</tr>
<tr>
<td>Third station</td>
<td>4.6</td>
<td>1.4</td>
</tr>
</tbody>
</table>

Inside and outside the Minneapolis-St. Paul metropolitan area, it's the same pattern of WCCO-TV family acceptance.

WCCO-TV The other member of the family MINNEAPOLIS-ST. PAUL CBS
is placed directly over the bowl; scallions should be tinted white with vegetable dye; hard-boiled eggs look appetizing if the white part is tinted slightly yellow; and vegetables of extreme colors—either light or dark, such as spinach, kale and cauliflower—do not photograph well and “accessory” foods must be selected carefully to produce an appetizing meal.

A commercial in which Video Vittles participates usually begins at the script stage at the agency, with Miss Kinne and Mr. Sigety called in for suggestions on demonstration treatment, background, props, etc. (The company maintains a complete line of props, including dishes.) Subsequently, they work closely with the agency and talent through rehearsal and up to the actual on-the-air commercial. (There’s no problem in disposing of the food left over after a television program; the stagehands and actors always seem to take care of it.)

Before the commercial is placed on the air, however, there is considerable experimentation. Mr. Sigety points out that it is often necessary to fry 80 pork chops during experimentation at Video Vittles’ kitchen in order to prepare for a commercial involving six pork chops, and to fry 25 pounds of bacon for a commercial using merely eight slices. This extensive pre-testing and accumulated experience, Mr. Sigety noted, are placed at the disposal of the client.

Among the clients for which Video Vittles works are Perrin-Paus (Sunbeam kitchen utensils); Leo Burnett (Pillsbury and Converted Rice Inc.); Fitzgerald Allen (Weston Oil); Maxon (Heinz); Dancer-Fitzgerald-Sample (American Chicke and Nestle), and others.

Miss Kinne and Mr. Sigety predict a roseate future for Video Vittles, particularly when color television becomes more widespread, because agencies and sponsors are becoming increasingly aware of the value performed by VV. Currently they are in the process of educating prospective clients to the need for hiring the expert to help prepare their food commercials. They acknowledge frankly that some agencies view it as an added expense that they had not considered previously, but there is a growing tendency on the part of agencies to think in terms of Video Vittles when they plan a food commercial.

“After all,” Mr. Sigety said, “food is probably the number one advertiser on network television. If the viewer sees an unappetizing commercial, the advertiser’s efforts have all been for naught. As any housewife can tell you, food needs care. Particularly, on television, you can’t ‘mess around’ with food.”

“The postal folks also had signs urging folks to go to Boston next, but the GOP ignored their signs. They’re trying to get back to Washington. It was funny seeing Washingtonians who are Democratic bigwigs without even spilled soup on ‘em. It just shows how hotels are non-political service institutions for everybody.”

“And here’s a tip if you want to get the little woman out of the ‘summer blues.’ A dinner or weekend in your favorite summer hotel. Just take her to one of many fine hotel restaurants or dining rooms and tell her she is the prettiest woman there. Let the management know you’re coming and head waiters will greet you like the celebrity you are. Americans are the greatest celebrities—aren’t we entertaining the world, with little applause?”

One fan described his programs as “instructive, interesting, enjoyable, spirit-provoking, outstanding, unafraid and truth-seeking.” Dick Huntington, editor of Hotel World-Review, in an editorial, called the Hotels Assn. sponsorship of his Sunday series “one of the best public relations jobs being done by any group in the hotel field.”

CINCINNATI HOTELS LIKE HOLLOWAY’S WAY

PROOF that the views of a contemporary critic of the American scene, honestly and humorously presented, are good radio for sponsors as well as listeners comes from the Cincinnati Hotels Assn., which has renewed Hubert Holloway’s I See Today, on WKRC Cincinnati, Sun., 5:45-5 p.m.

In announcing the renewal, Thomas G. Corcoran, president of the hotel group, said: “Our Association has long been alert to the need for community understanding and appreciation of hotels. We feel that Hubert Holloway’s Sunday program is a fine approach. His down-to-earth comment, common sense objectivity and humor stick with listeners. The Association renews its WKRC-Holloway contract for another six months with confidence that the program is a hotel-community contribution. It will be given wide hotel promotion to assure the maximum listening audience.”

Mr. Holloway, former Washington correspondent and public relations consultant, added the Sunday broadcasts to his five-minute Monday-Friday series, sponsored by the Cincinnati Times-Star (owner of WKRC), which also carries a daily column under the same title, after these broadcasts had increased the paper’s circulation and readership [B & T, Oct. 26, 1953].

Mr. Holloway employs a friendly, informal style in delivering the middle commercials for his Sunday sponsor. On one September program dealing with the transition from summer to fall, his commercial comments went like this:

“You know, the changing seasons and the shifting plans of humans remind me somewhat of hotels. Take for instance the last week. Cincinnati has been host to our bal-
IMPORTANT ANNOUNCEMENT
re: the Mitchell 16mm Professional Camera

IMMEDIATE SHIPMENTS

are currently being made

...with this announcement
the Mitchell Camera Corporation,
for the first time in history,
now offers you shipment of the famed Mitchell 16mm Professional Camera on receipt of your order.

THE CAMERA WITH A HERITAGE
There is no substitute for a heritage of GREAT ENGINEERING. No 16mm motion picture camera made anywhere in the world can match the technical perfection which a Mitchell 16 brings to your film. Each 16mm camera has the same supreme custom workmanship and Mitchell's exclusive, positive operation that is today world-famous... wherever truly professional films are made.

Mitchell Camera CORPORATION

UBS MAKES SURE
THE SHOW GOES ON

UNIVERSAL BROADCASTING PROVIDES EQUIPMENT FOR VIDEO'S EMERGENCIES AND SPECIAL EVENTS

ONE WEEKEND last spring, United Cerebral Palsy had scheduled a telethon in the Wilkes-Barre-Scranton (Pa.) area. It was to be telecast over a two-station hookup, starting at 10 Saturday evening and running until 2 Sunday afternoon. Everything was set. Then, on Thursday, the network which was to supply the equipment notified UCP's national headquarters in New York that complications had occurred and it would be unable to live up to its commitment.

That same afternoon, UCP called Universal Broadcasting System and placed an order. By Friday evening three cameras, plus sound equipment and microphones and a three-man crew, were on their way from Boston and Detroit. The telethon went on as scheduled, with crews from the local stations manning the cameras, while UBS technicians handled the sound and video controls. The show continued without interruption until 4 p.m. Sunday.

To meet its customers' needs, fortunately not always as urgent as those of UCP, Universal Broadcasting System maintains three complete four-camera remote chains with full microwave facilities. It has three crews for broadcast work, including producer, director, control men, cameramen, announcers, film cameramen and even an advance publicity man.

And Auxiliary Needs

In addition to the actual camera coverage of an event, UBS will provide or arrange for everything needed from renting the hall and lighting it to obtaining microwave links and telephone lines, including recording the program on tape or film or both. UBS jobs are about equally divided between live remote broadcasts and closed-circuit demonstrations. A typical closed-circuit operation is the one the company has staged for several years at the Michigan State Fair. There a tv set manufacturer employs UBS facilities to attract people to see themselves on tv, and then demonstrates its receivers to the assembled crowd.

UBS got into the business of providing tv equipment for special jobs more or less accidentally. Back in 1949, when the company's main business was a radio transcription service, it also acted as sales agent for sound equipment and that year added to its line the industrial and broadcast cameras made by Dage Electronics Div. of Thompson Products Co.

When UBS salesmen started calling on tv station operators, they found most of them newcomers to television and, with big investments to be paid off, hesitant about buying any equipment they did not absolutely have to have. The station operators realized that remote equipment would come in handy from time to time, but they doubted that they could use it often enough to be profitable.

One station manager listened to the UBS sales talk, sighed and said: "I like your equipment a lot, but you know how things are—just a spot where I could use some remote gear, all right. This may be a silly question, but do you rent or lease this equipment?"

That started it. UBS did that job and realized that here was a new field, one which met a definite need and one which stood a good chance of solid success. UBS acquired the special remote equipment to do a complete job, together with trained personnel to operate it, and went looking for business.

As UBS crews learned from experience what was needed to do a job right, the company's laboratory in Detroit set about modifying standard equipment for easy shipment far and fast and to make it ready for work on arrival. When closed-circuit work was started, equipment and procedures were developed to meet its special requirements.

Begun as a partnership, UBS was incorporated in 1952. It maintains offices in Boston, where President Richard L. Colton makes his headquarters, and in Detroit, where John L. Mayer, UBS treasurer, is in charge. Robert P. Bigelow is secretary and general counsel. P. C. Huellmantel is vice president in charge of tv production and network facilities.

UBS is expanding its facilities and personnel to meet the increased demand (also its capital structure by means of a new stock issue). UBS operated at 80% the capacity of its closed-circuit equipment and manpower last year and has been completely sold out some months this fall, in addition to making a good number of live broadcasts, and has contracts already signed to cover three conventions and 11 state fairs next season.

A FORMULA FOR FOUNDATIONS ON TV

THE PROBLEMS of telecasting department store promotion for foundation garments, brassieres and panty girdles haven't baffled Block & Kuhl Co., midwestern chain.

Using the Quincy (Ill.) - Hannibal (Mo.) market as a proving ground, Block & Kuhl worked out a formula with KHQA-TV. The idea was simple. A model wore a new fashion. The foundation garment was kept in the background, being of a type suited to the model and to the fashion on display. The undergarment was "floated" on a plastic torso form as its sales points were explained.

This method effectively carried out the theory that a fashion cannot be at its best unless worn over the right foundation garment. Viewers, of course, were reminded that Block & Kuhl was well stocked to provide both garments and foundations.

The technique—fashion in the foreground, foundation in the background—was used also on spots on another Quincy-Hannibal station, WGEM-TV. At times representatives of corset manufacturers appeared on Block & Kuhl telecasts.

Television is an excellent prestige builder and stimulates general interest in the department, according to Mrs. Mildren Purpus, head of the B&K foundation department in Quincy. She said response often is delayed rather than immediate. "Tv brings in the sales," she said, after a long period of asking customers where they saw a specified garment advertised, noting that tv answers were far more numerous than newspaper responses.

Block & Kuhl has had several years experience with radio advertising, using the WTAD Quincy Hospitality Time, but only the Quincy store of the 19-unit chain has used tv advertising.

Block & Kuhl is reportedly shopping around for other suitable broadcast vehicles, possibly a tv fashion show, for foundation advertising. A roving-reporter type of radio program also is being considered. In recent months B&K's broadcast promotion has been based on spots and a film show.

This IS THE WAY the Block & Kuhl department store chain has carried out its tv formula—fashion in the foreground, foundation in the background. Here is a scene in the KHQA-TV Quincy (Ill.)-Hannibal (Mo.) studios.

Page 50 • December 6, 1954
THE AGREEMENT to sell the Snow Crop Div. of Clinton Foods to Minute Maid Corp. is signed by John M. Fox (r), Minute Maid president, and Mark Candee, Clinton vice president and general counsel. The purchase adds frozen vegetables, fruits, juices and fish products to Minute Maid's line of frozen juices.

Ballantine Takes Cantor

P. BALLANTINE & SONS (beer), Newark, N. J., will cancel its sponsorship of the Foreign Intrigue series in 25 major markets, effective in March, and will substitute Zip Television's Eddie Cantor Comedy Theatre filmed program in these same markets.

In confirming plans for Ballantine, a spokesman for J. Walter Thompson Co., its agency, told B&T last week that "It's just a matter of dropping one program and taking on another." Ballantine has sponsored Foreign Intrigue, a Sheldon Reynolds production, for the past three years.

HH&McD Elect Zitz

ELECTION of Martin Zitz as president of Henri Business, Hurst & McDonald Inc. was announced by that Chicago advertising agency last Monday. He succeeds W. B. Henri, who has headed the agency since it was formed. E. F. Hascall was promoted from executive vice president to vice chairman of the board and Mr. Henri was named chairman of the executive committee.

'Bouton' Shows Way

TRIBUTE was paid last week by Hicks & Greist Inc., New York and Los Angeles, to NBC-TV's 'Tonight' show (Mon.-Fri., 11:30 a.m.-1 p.m. EST) when the agency reported that a single announcement on the show on Nov. 19 on behalf of the Peerless Corp. (Brolil-Quik Super Chef rotisseries) had brought in 137,834 letters and postcards [B&T, Nov. 29] up to last Wednesday.

The torrent of mail poured in after Steve Allen, emcee of Tonight, casually invited viewers to send in their name and address on a letter or post card, adding he would select five persons as recipients of a Brolil-Quik rotisserie. Commented Ted Grunewald, director of radio and television, Hicks & Greist: "Brolil-Quik, as Steve Allen's first charter client, has had the kind of Christmas present we both like to give our clients . . . results. Congratulations to you [Mr. Matthew J. Culli- gain, national sales manager of NBC-TV] and everyone else at NBC-TV who have pioneered late nighttime 'live' network television."

Snow Crop Purchased

By Minute Maid Corp.

MINUTE MAID Corp. (frozen juice concentrate), New York, has purchased the Snow Crop Div. of Clinton Foods (producers of frozen fruits, vegetables and juices), John M. Fox, president of Minute Maid, announced last week.

"In acquiring Snow Crop, we are planning no major changes in its operating or sales personnel, nor in its distribution channels," Mr. Fox said.

Bumper Crop of Clients

Renew Time on CBS-TV

SERIES of renewals of CBS-TV programs were announced by that network last week. Hamm Brewing Co. and American Oil Co. have again signed for alternate sponsorship of Person to Person, Fridays, 10:30-11 p.m. EST, for 52 weeks. New contract became effective Friday. Campbell Mithun, Minneapolis, handles the Hamm account. The Joseph Katz Co., agency for American, which has also signed for Years of Crisis one-time hour-long show Jan. 2.

A renewal for 52 weeks, starting Dec. 26, has been signed by General Electric Co. for Sunday Night Theatre, Sunday, 9:30-10:30 p.m. EST. GE has also renewed Jane Froman Show for 52 weeks, Thursday, 7:45-8 p.m. EST, as of Dec. 26. GE's agency is BBDO. Ed Sullivan's Toast of the Town, Sunday, 8-9 p.m. EST, has been renewed by Lincoln Mercury Dealers, commencing Jan. 2. Agency is Kenyon & Eckhardt. Electric Companies of America again has signed for alternate-week presentation of You Are There, Sunday, 6:30-7 p.m., effective Jan. 2.

Alternately Mondays, the 10:10-11:15 a.m. segment of the Garry Moore Show will be presented for C. H. Masland & Sons, also a 52-week renewal, effective today (Monday). Masland agency is Anderson & Cairns. Bristol Myers Co. has also renewed its segment of the Moore telecast, alternating with Masland. Bristol Myers' agency is Doherty, Clifford, Steers & Sherfield.

NEW BUSINESS

San Francisco Brewing Co. (Burgermeister beer), S. F., starts Burgie Muste Box (Mon. through Fri., 9:00-10:00 p.m. PST) on 12 Don Lee Broadcasting System radio stations in three Pacific Coast states, for 52 weeks from Jan. 3. Agency: BBDO, S. F.

Procter & Gamble Co., Cincinnati, for Crisco, Ivory Flakes and Drene, to sponsor Road of Life, daily serial on radio for 17 years, on CBS-TV five-times-weekly, effective Dec. 13. Mon.-Fri. show will be 15-minute segment (1:15-1:30 p.m. EST). Agency is Compton Adv., N. Y.

General Electric Co., Telechron Dept., Louisville, Ky., will sponsor NBC-TV's coverage of New Year's Eve celebration from Times Square, N. Y. Fifteen-minute portion (11:55 p.m.-12:10 a.m.) of NBC-TV Tonight will be cancelled to accommodate program.

RENEWALS

Aero Mayflower Transit Co., Indianapolis, renew sponsorship of Mayflower Evening News over ABC Radio (Tues.-Fri., 7:55-8 p.m. and 9:55-10 p.m. EST), effective Jan. 4. Agency: Sidener & Van Riper, Indianapolis.

Goodyear Tire & Rubber Co., Akron, Ohio, renews The Greatest Story Ever Told (Sun., 5:30-6 p.m. EST) for 52 weeks on full ABC Radio network, effective Jan. 2. Agency: Kuder Agency, N. Y.

AGENCY APPOINTMENTS

Griesedieck Bros. Brewery Co., St. Louis, re-appoints Ruthrauff & Ryan, N. Y., effective Jan. 15. Agency handled account from 1942 to 1952 when Klupnick & Assoc., St. Louis, was appointed. Radio will be used.

W. P. Fuller & Co. (paint manufacturers), S. F., has appointed Young & Rubicam, same city, effective Jan. 1.

ADVERTISERS & AGENCIES PEOPLE

Richard C. Buton, William Weintraub & Co., N. Y., elected vice president, effective Jan. 3.

Lynn A. Saylor, formerly advertising and sales promotion manager, Certain-Teed Products Corp., to Burnet-Kuhn Adv. Co., Chicago, as vice president in charge of special services.

Locke W. Turner, assistant account executive, BBDO, L. A., promoted to media director, succeeding Porter Harder, resigned.

Donna DeCamp, former film supervisor, WOL-TV Ames, Iowa, appointed tv director, Cary-Hill Inc., Des Moines.

Eugene B. Collins to Phil Gordon Agency Inc., Chicago, as merchandising director and account executive.

Fred Harris, copy chief, Kal, Ehrlich & Merrick, Washington, appointed account executive.

Sylvester Cleary, Foote, Cone & Belding, N. Y., to Sullivan, Stauffer, Colwell & Bayles, same city, in account executive department.

Stewart Schuckman, assistant manager, public relations dept., Standard Oil Co. (New Jersey), N. Y., promoted to manager of department, succeeding George H. Freyermuth, who has been elected executive vice president and director, Esso Export Corp., same city.

Robert F. McIntosh appointed sales manager of conventional washing machines, Norge Div. of Borg-Warner Corp., Chicago.

CBS-TV, USAF PLAN MAJOR FILM SERIES

More than 150 million feet of historical film will be culled for inclusion in 26 half-hour shows to be presented next fall on CBS Television.

PRODUCTION of a major film series to be presented by CBS-TV in the fall of next year is being announced today (Monday) by CBS-TV President L. L. Van Volkenburg and Air Force Secretary Harold E. Talbott.

It will comprise 26-weekly half-hour programs depicting the growth of aviation and of the Air Force under the title of Conquest of The Air.

CBS-TV is producing the series with the cooperation of the Air Force, which will make available as source material its stockpile of more than 99 million feet of film in its Depository at Wright-Patterson Air Force Base (Dayton). The Air Force also will help CBS-TV to obtain aviation films from other official sources—the Army, the Navy and various government agencies, as well as from private producers, airlines, aircraft manufacturers and foreign governments. Total supply of historical film to be made available will exceed 150 million feet, it was said.

With this footage, from which it will select material to add to its own camera shooting, the network plans to tell the story of flight “from Kitty Hawk to Eniwetok and on into the future.”

Mr. Talbott noted that most Americans take for granted the “startling developments in air power, stressing that the USAF is “a bulwark of American defense policy” and “the dominant factor” in bolstering the nation’s security. Thus, he indicated, the film’s close look at the history of U. S. airpower will help the public to understand “the daily contributions made by airmen, officers, scientists and industry towards keeping our Air Force strong and our nation secure.”

Mr. Van Volkenburg said CBS-TV and the Air Force intend to tell this story “objectively, dramatically and comprehensively,” making an interested public also an informed public.

“Full resources” of its news and public affairs department will be used, CBS-TV said. Its New York, Washington and London offices and a special Wright-Patterson office will select and process original material for the project’s principal unit, to be located in New York. The latter office will serve as headquarters for research, writing and recording and will assemble, mount, and edit the completed films.

Each program in the series will be complete in itself. According to Sig Mickelson, CBS vice president in charge of news and public affairs, Conquest will incorporate voices and personalities of actual participants in the story of flight. He said: "Doolittle will take us over Tokyo. FDR will call for 50,000 planes a year. Edward R. Murrow will give us his version of ‘orchestrated hell’ with the RAF. We’ll go up in a rocket with ‘Arabella,’ the test monkey at White Sands. We’ll sweat it out with Ernie Pyle. We’ll fly with the weather patrol and with the planes that knocked out Ploesti and Regensburg and Schweinfurt."

Col. Robert L. Scott Jr., USAF, one of the U. S. aces of World War II and author of God Is My Co-Pilot, is technical advisor for Conquest. Capt. Lucille Busch, USAF, is liaison officer.

Hearings Closed in Suit Charging Premature Release

TEN-month-old hearings in the $2.5 million Los Angeles Superior Court suit, involving charges by six independent motion picture companies against five distribution firms for premature release of their feature films to TV, were closed last week following summation by both sides last Monday and Tuesday. With more than 2,000 documents to be studied, which were submitted as evidence, Judge John J. Ford is not expected to render his decision in less than a month.

The suit was filed last year (BT, March 2, 1953) by Equity Films, Equity Pictures, Orbit Productions, Orbit Pictures, Jack Schwarz Productions, Frost Films, Russ Vincent and Dave Kessel, and alleges that 11 feature films, produced in 1949, were contracted for by Chesapeake Industries (then Pathe Industries), their theatrical distribution then assigned to Eagle Lion Films, a subsidiary, and later turned over to Eagle Lion Classics. When Pathe sold Eagle Lion Classics to United Artists, UA continued theatrical distribution and then TV distribution to Motion Pictures for Television. The plaintiffs, through Los Angeles attorney Adele I. Springer, claim the films were released to TV without authorization and before their theatrical runs were complete.

WATV-TV Buys Hygo Films

ACQUISITION by WATV (TV) Newark, N. J., of a package of 156 cartoons from Hygo Television Films Inc., New York, has been announced by the station. The transaction grants WATV exclusive TV rights to the package in the New York metropolitan area.

The package, originally produced by Columbia Pictures, gives WATV a backlog of 856 cartoons, a station spokesman said, noting that the first program since 1947 that a major TV firm has released cartoons for television. The cartoons will be used on the station’s six-a-day-week Junior Frolics program.

NBC Film Exchange will be housed early next year in this specially constructed building in Englewood Cliffs, N. J. Carl M. Stanton, NBC vice president in charge of the Film Division sold the move was being made because of a steady increase in sales of the division. Ground was broken last week about one mile north of the New Jersey side of the George Washington Bridge on Route 9-W. The building will be of brick and Briar Hill cut stone. The exchange services 360 stations in the U. S. and abroad. The 3,500 prints handled weekly include film programs syndicated by the division. NBC tv network film programs and kinescopes of live network shows.

UA Charges Nassers With Contract Breach

IN COURT almost continuously for the past three years, James and George Nasser have been charged with infringement of copyright and breach of contract in two suits filed Nov. 26 in Federal District Court, Los Angeles, by United Artists. Involving the release to tv of three feature films, "Cover Up," "Without Honor" and "A Kiss for Corliss," one suit also names as defendants Strand Productions, Quality Films, Charles Weintraub, George T. Goggin, five Does and five Doe corporations. The other action substitutes Ressan Films for Strand Productions and covers the feature, "Don't Trust Your Husband."

Precipitated by the Ninth Circuit Court of Appeals opinion, handed down last October, which said, in effect, that the original contract with UA included tv as well as theatrical distribution rights, UA claims the defendants have received in excess of $100,000 from tv distribution and asks for an accounting and a judgment.

The brothers, owners of General Service Studios, in December 1951 filed suit, through attorney Groggin, against UA to secure the four films, which they had produced for the purpose of distribution to tv [B&T, Jan. 7, 1952]. In February, federal referee-in-bankruptcy Benno M. Brink ruled that the brothers should have the tv rights as UA forfeited its rights in the contract by failing to distribute the features to tv. He held at the time that UA had no intention of releasing features to tv until other major distributors did and that "tv as a commercial practice does not begin when other majors enter the field" [B&T, March 10, 1952].

That decision, appealed by UA, was reversed five months later by U. S. District Court Judge Harry C. Westover, who ruled that release to tv of movies made originally for theatrical exhibition had not become "commercial practice" [B&T, Aug. 11, 1952]. At a rehearing the following month, Judge Westover reversed his earlier opinion in favor of the Nassers [B&T, Sept. 29, 1952].

Quality Films, headed by Charles Weintraub, took over video distribution after the Nassers had won a decision [B&T, April 7, 1952] over American Federation of Musicians' attempt to collect re-scoring fees and 5% royalty formula.

Current suit was filed on UA's behalf through the Los Angeles law firm of Wright, Wright, Green & Wright.

ABC-TV May Undertake Daytime Film Serial Venture

ABC-TV was reported last week to be considering a plan for entering the daytime "soap opera" field by means of a block of film series to be produced in cooperation with ABC Film Syndication. A spokesman said that although the project is under consideration, plans are still in the "talking stage."

It was pointed out that the project, if put into operation, would provide ABC-TV with daytime serials on film that could be sold to advertisers at a price competitive with live serials and supply ABC Film Syndication with properties that could be syndicated in non-network markets. Among the properties reported being considered for the venture are "My True Story and Life Can Be Beautiful."

FILM SALES

Ziv Television Programs, N. Y., has sold "Eddie Cantor Comedy Theatre in 60 markets in its first two weeks of national sales drive, according to M. J. Rikfin, vice president in charge of sales, who noted 23 markets were sold before drive began.

FILM PRODUCTION

Joseph Green Productions, N. Y., announces new tv series, Slaves of Beauty, starring Merey Amsterdam with panel of beauty authorities. Show is directed by Mike Case and written by J. J. Alexander and Bob Van Scoyk.

FILM PEOPLE

David A. Bader, general sales manager, Atlantic Television Corp., N. Y., elected vice president.

Hans Tiesler, associate producer, Loucks & Notling Studios Inc., N. Y., elected vice president and director.

Robert O'Donnell, formerly with WSYR Syracuse, N. Y., to Good News Productions, Chester Springs, Pa., as producer-director.

George A. Ottine, supervisor of tv spots, Transfilm Inc., N. Y., appointed manager, animation department.

George Foley, creator and producer, Tales of Tomorrow, TeeVee Co., Beverly Hills, Calif., appointed New York representative to help explore and develop new properties of firm.

Mitzi Green signed for starring role in upcoming NBC-TV So This Is Hollywood film series, succeeding Cass Daley.

Robert Sable, formerly with Wilding Picture Productions, Chicago, to Kling Film Productions, same city.

Ray Bolger, Ray Bolger Show, ABC-TV, to head American National Red Cross-four week drive for added blood donors.

Young Whiltote III, production staff, McCadden Corp., Hollywood, father of girl, Laura Jean.

Marvin Briggs, 43, former account executive, George Bagnall & Assoc. (tv film distribution), Hollywood, died Nov. 21.

SPONSORSHIP on WDAY-TV Fargo, N. D., of the Sterling Television Co. film series Music for Everybody is agreed to by Don Veau Music Co. Viewing the contract are (l to r): Stan Larson, Daveau's manager in Moorhead, Minn.; A. J. Daveau, and Jim McKnight, WDAY-TV account executive.

Broadcasting • Telecasting
Changing the television network so that it can carry color pictures is a big job—one that is still going on.

Black and white pictures are easy to handle by comparison. But color requires three times as much information. And all of it must reach every point on the network at the correct level and without being changed.

Otherwise, the actress might have purple hair instead of red.

To keep the colors true, equalizers are added at many locations along the network, and more amplifiers are installed to boost the signal.

Hundreds of technicians have been trained in color techniques and many more are being taught to maintain and adjust the added equipment to exact standards.

Already more than 36,000 channel miles in the nationwide television network have been adapted for color transmission, as the Bell System continues to keep pace with the industry's rapidly expanding needs.

TV CODE REVIEW BOARD SEeks TO WIDEN SELF-REGULATION WITHIN INDUSTRY

Under a new plan, film program producers and possibly other groups may be invited to join NARTB's tv code system. Three representatives from the American Assn. of Advertising Agencies sit in on the meetings to discuss self-regulation problems.

TELEVISION film program producers and possibly other industry groups may be invited to join NARTB's television code system in an effort to broaden the self-regulation of commercial and program practices, under a new plan adopted Thursday by the NARTB Television Code Review Board.

At a time when TV stations and networks are serving as targets for pressure groups and legislators, the code group has developed the plan to extend affiliation "to others allied with the television industry whose product comprises now a large share of the programming viewed in the American home." It was not stated if this idea includes advertisers, agencies, distributors and other related industries.

The plan will go to the NARTB TV Board in January.

In the three years of code operation, affiliation with the code and right to display its seal have been granted TV stations and networks. Last week's meeting showed increased interest in broadening the code's impact by inviting three representatives of the American Assn. of Advertising Agencies to meet with it to discuss common problems of self-regulation. Representing AAAA were Ken Dyke, AAAA director and chairman of the Improvement of Advertising Content Committee and vice president of Young & Rubicam; Harold L. McClint, member of the Advertising Content Committee and vice president of Calkins & Holdens; and August Nelson, AAAA senior staff executive.

Report to Senate

The code board, after a two-day meeting, adopted a report to be submitted to the Senate Subcommittee on Juvenile Delinquency. This report deals with five films shown on TV stations which the subcommittee asked the code board to review. Examining three and a half hours of film programming, the board prepared reports to be submitted to the stations involved. It handled such other routine matters as self-monitoring activity; changes in the code seal to make it more effective for display; and adopted a program expanding its activity in telling the public about the code and industry self-regulation.

Code board members at the meeting were: Chairman John E. Fetzer, head of the Fetzer stations: Vice Chairman J. Leonard Reinsch, WSB-TV Atlanta; Mrs. A. Scott Bullitt, KING-TV Seattle; William B. Quarton, WMT-TV Cedar Rapids, Iowa; and G. Richard Shaffo, WIS-TV Columbus, S. C. Also attending were President Harold E. Fellows, of NARTB; Edward H. Bronson, director of television code affairs, and his assistant, Charles S. Cady, and Thad H. Brown Jr., tv vice president and counsel.

The code board's statement to the Senate Juvenile Delinquency subcommittee explained that the code board had inspected the films reviewed Oct. 19 by the subcommittee [WTB Oct. 25]. One of the stations involved was not a code subscriber, it was explained.

The board found that portions of a film shown to the subcommittee, and involved in the discussion of tv programming, had actually been edited out of the station's telecast program.

Individual comments sent to stations in regard to films are kept in confidence in line with code board policy. The board reached the following conclusions after viewing the films:

"(1) That despite the fact that some of the films were the subject of considerable editing by the stations, both for the purpose of timing and deletion of objectionable content, the Television Code Board expresses doubt as to whether portions of certain of the films are wholly within the spirit of the code.

"(2) That some instances of excessive violence were noted in some of the individual reports to the stations.

"(3) That all of the films under review were produced originally for theatre display, not for television presentation. Three of the five films are 'westerns,' and this type of film product for programs constitutes a substantial percentage of such products available to the television broadcasters from the output of motion picture studios. This type of film product has been available for theatre display in this country for over two decades.

"(4) Four of the five films reviewed were approved for theatre presentation by the National Board of Review of the Motion Picture Industry. The fifth, a British import, was approved by the motion picture review board of that country.

"(5) Thus, it is felt that previous clearance by such theatre review boards did not take into consideration the intimate viewing by family groups as provided by television. Such action does not necessarily provide proper clearance for television.

"(6) With the foregoing in mind, all subscribers to the Television Code, networks and stations are being reminded that they should exercise particular care in reviewing all programming designed for, or subject to viewing by children, with specific emphasis upon film falling in so-called 'westerns', mystery and adventure categories, where such film product is old and produced originally for the theatre, not for television."

The board asked subscribers, it told the Senate group, to pay special attention to code paragraphs dealing with horror and brutality content in programs; responsibility toward children, and to review their entire schedules "to be reasonably certain there is not a cumulative effect of continuous programming containing sequences of violent action during children's viewing hours."

Subscribers were notified to pay special attention "to clearance before acceptance of all film productions manufactured before the first television station went on the air."

The board's statement to the subcommittee conceded errors of judgment have been made in programming, noting that otherwise there would be no need of a code or administrative board. It added:

"The incidence of such errors has dropped sharply as television management has developed new sources of programming, especially designed for exhibition by tv stations. This new source of programming, combined with the increased activity by networks and stations themselves are closing the gap between supply and demand.

"The board is convinced that there will be fewer instances of code departures as this process of self-regulation and the expansion of program sources continues; and restates the proposition that, thus far, no case of departure so persistent or flagrant as to require the board to censure a station by withdrawing use of the television code seal has come to the board's attention.

"The board acknowledged the seriousness of the Senate subcommittee's inquiry and commends the thoroughness and care with which it is being conducted. The board reiterates the determination of the nation's television broadcasters to give full cooperation to such Congressional investigations."

Frank Atwood Elected To Head Farm Directors

FRANK ATWOOD, WTIC Hartford, Conn., was elected president and John McDonald, WSM Nashville, vice president of the National Assn. of Television and Radio Farm Directors for 1955 during the closing sessions of its annual convention in Chicago Nov. 26-28. Mr. Atwood, who had been vice president, succeeds Jack Jackson, KCMO Kansas City, Mo.

Sessions on farm radio and tv rounded out the Sunday (Nov. 28) agenda of the convention at Chicago's Conrad Hilton Hotel. A plea for better farm information and data was delivered by John Cory, Chicago vice president, Free &

COMMON TV PROBLEMS of agencies and broadcasters were discussed Thursday at conclusion of the two-day NARTB TV Code Board meeting. Taking part in the NARTB-American Assn. of Advertising Agencies session, were (l to r): Harold L. McClint, Calkins & Holdens; August Nelson, AAAA; G. Richard Shaffo, WIS-TV Columbus, S. C.; Ken Dyke, Young & Rubicam; John E. Fetzer, Fetzer Stations, Code Board chairman; J. Leonard Reinsch, WSB-TV Atlanta, board vice chairman; William B. Quarton, WMT-TV Cedar Rapids, Iowa; Mrs. A. Scott Bullitt, KING-TV Seattle; and Edward H. Bronson, director of television code affairs.

Lovely in black and white? Yes! But think of it in COLOR!
NCAA TV COMMITTEE TAKES FIRST STEP TO RENEW GRID RESTRICTIONS FOR 1955

The 12-man group says it will recommend that national controls on tv coverage of intercollegiate football games be retained. Door is left open, however, for regional and other plans as a concession to the Big Ten and other conferences. Notre Dame U. bucks for unrestricted tv coverage.

DESPITE an obvious undercurrent of dissatisfaction in some quarters, and an unmistakable desire among member schools, particularly in the Midwest, and in broadcast industry ranks, NCAA's Television Committee last week took the first step for renewal of national restrictions over intercollegiate football in 1955.

The 12-man group, meeting in Chicago's La Salle Hotel last Tuesday and Wednesday, reviewed opinions for the past year and announced it will recommend that national controls be retained. It also started—but did not finalize—a draft of a report to be submitted to the NCAA's 49th annual convention at the Hotel New Yorker in New York Jan. 5-7.

The committee made plain that whatever approach materializes under any resolution adopted by the association, it last worked out by the incoming 1955 TV Committee, it still favors national restrictions, whatever the feelings of the smaller colleges.

"The recommendation doesn't imply that controls will be national in the sense it is sometimes used," Harvey Cassill, U. of Washington, TV Committee chairman, told a news conference. "It does not mean that we will recommend a program for 1955 similar to the one in effect this year." Walter Byers, NCAA executive director, noted that "within national controls you can have many different things." The approach will be left in the lap of the 1955 group.

Thus, the door was left open for adoption of regional and other type plant as a concession to the Big Ten and other conferences with strong voices in the NCAA hierarchy, not including Notre Dame U., which has consistently advocated unrestricted football on television.

With regard to the voice of smaller colleges in determining NCAA tv policy, he observed: "Those setting policy in television are those with a definite tv problem in intercollegiate football."

Mr. Byers said the committee will meet again in advance of the national conclave to finalize its conclusions and report. As in the past, a resolution will be offered on the floor for national controls. The policy would become operative with two-thirds majority vote in NCAA mail referendum of the membership in accordance with the resolution. A new group then would be set up to draft a working plan, which would in turn be submitted to networks for presentation to agencies and their clients.

Mr. Cassill said that by and large, he felt the 1954 plan—which called for a nationally-televisioned game each Saturday and the substitution of certain regional tv broadcasts on a few occasions—was successful. He acknowledged that it never had been an "unqualified success."

NCAA spokesmen were wont to shrug off any presumptions that national advertisers might hesitate to pick up the tab for a season of NCAA games because of considerations or dissatisfaction over the slate of games. They pointed out this was the network's problem, once such a schedule is devised, and that NCAA is not directly involved in setting the package price with the networks.

"Loss This Season"

ABC-TV reportedly lost close to $2 million on NCAA football this fall and only recently dropped a schedule of other NCAA sports events that had been included in the package.

Spokesmen also brushed aside charges by Bert Bell, commissioner of the National Football League, that the Big Ten, while plumping for regional controls within the NCAA, was actually desirous of any restrictions designed to curb unlimited Notre Dame football on the nation's viewing screens. This despite the knowledge that the Big Ten reportedly stood to profit financially had it been able to sell its own games to a regional sponsor, which it had in tow.

Mr. Cassill revealed that NCAA would continue independent studies by the national opinion research center at the U. of Chicago measuring tv's impact on football attendance. The committee also favors more studies on basketball, authorized at NCAA's Cincinnati convention this past year. Saturation factors will be carefully weighed in the football surveys, he added.

Mr. Byers observed that the association's smaller colleges are adequately represented through mail referendum, if not through the actual convention machinery.

"Aside from Notre Dame, whose athletic director, B. (Moore), Krogh, of financial considerations branded the NCAA tv policy as "artificial and arbitrary," a number of privately-endowed, smaller midwestern colleges have attacked controls the past fortnight."

On the eve of the committee meeting, Bob Hall, former NCAA TV Committee chairman, said on a television program last Monday that the committee this year would not recommend

WARD DORRELL (l), director of research, John Blair Co., is greeted by Walter Erickson (r), president of the Television Assn. of Philadelphia, and Alexander W. Donnenbaum Jr., TAP vice president and commercial manager of WPTZ (TV) that city. Mr. Dorrell addressed the TAP meeting on rating services.

Why

WSLS-TV
Is
Most Viewed
In
Western Virginia

Programs Like “Community Headlines” is the Answer

Because WSLS-TV serves a vast area in Virginia, West Virginia, and North Carolina, (63 counties), it has become the obligation of WSLS-TV to be a part of many communities. With the cooperation of some 40 newspapers, Andy Petersen reports news stories of local interest each weekend. As he reads, the masthead of the paper is brought into view; and many times he shows a photograph from the paper. Each week “Community Headlines” salutes one of the towns or cities in a five-minute film story showing industry, retail stores, churches, schools, hospitals, etc.

Much publicity is given in advance of the salute through the local paper in the town to be saluted and also over Channel 10. All filming is done by WSLS-TV personnel and background material is furnished through the local Chambers of Commerce. The majority of these newspapers publish the WSLS-TV program listings.

Just one of many WSLS-TV programs designed to consider viewers’ interest in the complete coverage area . . . not just in the Roanoke City Limits.

TRADING ASSN.

a regional TV plan to the NCAA's January convention could be explored.
At the same time, he also labeled as "the worst plan," the college proposal that NCAA permitted games to be telecast regionally. "It would be better to throw the entire televising of football wide open as it was prior to the 1951 season than to televise regionally," he declared. A regional TV policy is supported among others, by the Big Ten, the Pacific Coast Conference, U. of Pennsylvania and Notre Dame.

Reason given by Mr. Hall for his distaste of regional TV was that it would mean the top game in each area would be telecast in the general area where the game was being played. This, he said, would have disastrous effects at the gate.

Mr. Hall predicted the NCAA games would be telecast next season with a sponsor because "there will always be sponsors that want to get to the vast TV audience the football games attract."

The conference teams or others won't crack the controlled TV program because the sanctioning of individual stations of scheduled sport events would restrain the school or group from breaking any plan approved by NCAA colleges as a unit.

If not for the need of gate receipts to support athletic programs of the individual colleges, he asserted, an unlimited TV plan could be adopted.

NCAA, he said, does not put a price on the TV package but presents the plan to sponsors and networks who then bid for it. Money paid for the package, Mr. Hall said, goes to schools taking part in the games scheduled. In some cases, conferences have their own rules, dividing TV money among all member schools.

Mr. Hall appeared on College Press Conference, seen Mondays, 9:30 p.m. EST on ABC-TV, which carried NCAA's '54 schedule.

FELLOWS ATTACKS SPOT PRACTICES

THE PRACTICE of cutting short network programs to permit triple and quadruple spots is "just one more example of the time which will come when it will catch up with stations which practice it," NARTB President Harold E. Fellows said in a letter to Roy M. Kirtland, vice president of Gordon Best Co., Chicago advertising agency.

Mr. Kirtland had written Mr. Fellows to complain about spotting practices involving one of the agency's clients. He said that in some instances, stations had curtailed his client's announcements to "allow for triple-spotting." He solicited Mr. Fellows' personal views on the problem.

Citing the NARTB TV Code, Mr. Fellows wrote that "the principle here is the thing—which should not be more than two separate commercial announcements in the 30-second period... except in extenuating circumstances" such as when the World Series is in progress or when programs have been cancelled due to some event of national significance where advertisers, even though bunched up, would like to have an adjacency.

Mr. Fellows said that an agency which accepts commercial announcements that have been curtailed to accommodate triple-spotting in violation of its contract should cancel the pact, could "refuse to pay, or demand a full-length substitution at an equally valuable time."

Another alternative might be legal action, he suggested.

"The final answer to worthy conduct by the television station in America depends upon everybody's adoption of an agreed-upon standard of ethics. The advertisers and the agencies must want to do business with those stations which behave; and the stations must want to do business with advertisers and agencies which have proper respect for the media," he said.

NARTB COMMITTEE SCANS FM FIELD

FM BROADCASTERS, whose once-aggressive promotion has given way to a quieter existence, promise once again to search jointly for new revenues from their facilities.

NARTB's FM Committee, at a meeting in Washington Wednesday, peered into the possibili- ties of new income sources. They considered such matters as multiplexing, set circulation and regulatory problems. At luncheon they met with two FCC Commissioners—E. M. Webber and Robert T. Bulter.

Supporting the FM group's interest in the future is the Advertising Research Foundation's finding that 11,210,000 fm-equipped receivers were in circulation in all of the nation's 45,020,000 radio households.

Multiplexing was considered by the commit- tee as a possible field to be exploited inasmuch as FCC is expected to hand down a decision permitting extended use of FM facilities for extra services performed simultaneously. These services can be put out at the same time because the wide FM band of 200 kc is adapted to such multiple use.

The committee wants the NARTB board to reaffirm its belief that the 88-108 mc FM band should be maintained, pointing to efforts to appropriate parts of the band for TV and other services. It felt, too, that radio set manufacturers should look seriously into the idea of producing FM receivers for new automobiles. This idea has been advanced for nearly a decade, but it has run afoul of fac- tory production problems and cost factors.

Multiplexed services would require an adap- ter. Stations could broadcast more than one program at the same time, depending on the facilities needed. For example, each would have each 7,500-cycle band width. Three would be 4,500 cycles wide, and five would each be 3,000 cycles wide.

Among users for multiplexing would be func- tional music that need to make portions of the program by automatic devices at receiver locations. Independent operation of multiscan channels permits a functional musical program separate from the regular FM program, or even two or three extra channels.

Improved protection against bootlegging is afforded, providing program security. Legal protection would be available, similar to that of radio music. "It is a given that a protecting program is considered attractive to commercial users." The lock-and-key control method could be used to give selective programming at specific receiver locations, providing desired services for certain subscribers.

Multicast methods are described as offering advantages over present straight broadcasts, with superabundant control signals. Several specialized straight broadcasting programs could be broadcast simulta- neously under a larger 21,680 kc program. The FM channel is adaptable to facsimile, teleprinter or other graphic recording transmissions to supplement audio programs.

Traffic toll service also has been developed, such as the Multistitch service developed by FM to the Lincoln Tunnel where the program is relayed on 550 kc for reception by motorists in the tunnel. Transistors also could be used.

Other multiplexing uses include information services on a subscriber basis, using taped news summaries, for example. Semi-broadcast special services could provide different programs from one station for different audiences.

Network interconnection is a type of multi-plex service used regionally, offering many advan- tages and permitting service communication and other inter-station traffic. Quality of fac- simile transmissions by the Navy in tests using Rural Radio Network in New York and WTOP- FM Washington is described by the Navy as better than telephone transmissions for the distances.

Stereoraphic broadcasting promises signifi- cant service for FM stations through use of multiplexing methods.

Presiding at the FM Committee's meeting was Ben Strouse, WWDC-FM Washington, chairman. Attending were Walter J. Brown, WDXV (FM) Spartanburg, S. C.; H Quinton Cox, KGW-FM Portland, Ore.; Donald de- Neuf, Rural Radio Network; Carl George, WGR-FM Cleveland; J. R. Livesay, WLBH-FM Mattoon, Ill., and Edward A. Wheeler, WEAW (FM) Evanston, Ill. Taking part from the NARTB staff were President Harold E. Fellows; John F. Meagher, radio vice presi- dent; John H. Smith Jr., public affairs man- ager; A. Prose Walker, engineering manager; Richard M. Allerton, research manager; Vin- cent T. Wasilewski, chief attorney and C. E. Arney Jr., secretary-treasurer.

Weaver Talks Policy At S. F. Ad Club Meet

"AT NBC we let the advertiser determine how he wants to use teleprinter," Pat Weaver, NBC president, told some 400 mem- bers of the San Francisco Ad Club last week.

"Our advertising policies are to build a pattern of uses in national television that will range from five-second identifications to all-night explosions, from 365 day continuity to once-a-year spectaculars," Weaver told his audience.

Stressing the importance of color in the television advertising field, Weaver predicted, "Color will be here sooner than even the optimists predict, and when the public sees more color they will flock to the TV dealers to buy sets of their own. They will demand more and more color they'll demand its use."

Weaver defended the spectaculars: "Last year our Bob Hope Show broke down the last possible hesitancy in my mind regarding the commercial success of the early one-shot holi- day shows. We now know that the spectacu- lars could be a great marketing success."

Committee Lineups Listed For New Radio Adv Bureau

NEW committees and their memberships were announced last week by Broadcast Advertising Bureau, which becomes Radio Advertising Bu- reau on Jan. 1. The committee membership also is effective at the first of the year, according to Joseph E. Baudino, Westinghouse Broadcasting Co., who becomes RAB board chairman on that date to serve two years.

PAY-TV DISCUSSED AT FCC
AS ZENITH RENews ITS PLEA

The original 'Phonevision' proponent amends its earlier petition and submits a new version of television in which the set owner would pay to look. Zenith says the Commission can approve its system without protracted rule-making proceedings.

FCC TOOK its first official look at subscription television last week, while at the same time it received a new petition from Zenith Radio Corp. urging that pay-as-you-look TV be authorized without the formality of a protracted rule-making proceeding.

The Commission, with six of its seven commissioners in attendance, discussed the subject of pay-TV at its Wednesday meeting. It decided to lay aside the subject until the next meeting (this week) so that further consideration may be given it.

General attitude, it is believed, is to use the pending petitions as the basis for inviting comments on the legality, technicalities and policy questions involved in considering the proposal to permit scrambled telecasts to be broadcast which could be received clearly by the public only through payment of a fee.

Such conferences are before FCC asking that it authorize subscription TV. These are the 1952 Zenith petition, amended last week, and the September petition of Skatron TV Inc. [8T, Sept. 20]. In addition there are a hundred or more formal station petitions, mainly from uhf operators, urging that the Commission move quickly to authorize this service. Uhf broadcasters have many times expressed their belief that subscription TV may succor them from their present plight.

Consideration of the subscription TV question last month [8T, Nov. 15] was delayed, it was understood, by the advent of Thanksgiving and the absence from Washington of some of the Commissioners.

The basic premise of the new Zenith petition rested on two points: (1) There is nothing in the Communications Act which prohibits subscription TV, and (2) and FCC action is not on the subject without rule-making proceedings.

Zenith asked FCC to announce that it will consider applications to begin subscription TV and that it will approve such applications after transmissions and equipment have been approved.

In the alternative, Zenith said, FCC should hold "expedited, simplified and limited" rule-making hearings.

Any full-scale hearing or investigation would be based on "speculative" considerations, Zenith said. There are no accurate yardssticks regarding pay-TV at this time, the Chicago radio-TV manufacturer said.

Zenith added that no technical standards be imposed at this time, if subscription TV is approved. Standards might restrict development, it pointed out. The only technicalities

should be that no system should cause interference to regular telecasts or have any adverse effect on tv broadcasting, it said.

The Zenith system interposes no degradation of tv's sight or sound, the Chicago company said. It added that the Zenith system is fully compatible with color tv.

In urging the Commission to move quickly to permit tollcasting, Zenith said:

If private capital is to make its proper contribution to the development of our national television system, it is necessary that Zenith and other subscription TV subscribers, as well as their competitors, be permitted to test their new methods that subscription TV fills a public need in the marketplace. Unnecessary delay and red tape, just as much as prohibitory regulations, is a most effective method of discouraging private enterprise from developing or trying new methods.

Zenith estimated that a full-scale rule-making
They live on the Pacific Coast... they listen to
DON LEE RADIO*

*Don Lee IS Pacific Coast Radio
the only network with "point-of-purchase" penetration paralleling the local buying habits of 16½ million people
the only network with stations in 45 important Pacific Coast markets... the nation's greatest regional network...
proceeding will take from six months to a year. It called attention to several rule-making cases which have been in progress for five years or longer (clear channel, 1945; daytime skywave, 1947; radiation devices, 1949).

It also said that procedural devices to delay can be used as "vicious tools" in the hands of selfish competitors desiring to stave off subscription tv.

Emphasizing that subscription tv is to be considered complementary to present-day broadcasting, Zenith said:

"Subscription television proposes to supply television broadcasting with a second source of economic support similar to that now enjoyed on an unregulated basis by its most important media-competitors—newspapers, periodicals and movie theatres. As in the case of its media-competitors, these two means by which commercial television may gain economic support (advertising and reception fees) are complementary rather than conflicting.

References to "free" tv are erroneous, Zenith said. The whole cost of the present television broadcasting industry is ultimately borne by the public, it said, through the purchase of the products or services advertised, and the cost of buying a receiver.

"Subscription television offers the commendable characteristic," Zenith said, "that each member of the public would contribute according to his individual use."

In a lengthy historical analysis of Congressional attitudes toward a public charge for receiving broadcasts, Zenith said the advertising-sponsored economic base of broadcasting was a natural development and not something imposed by Congress. In fact, it pointed out, efforts in 1927 to prohibit broadcasters from charging the public for receiving broadcasts were defeated in Congress. It also pointed to FCC's decision in the 1941 Muzak case when the Commission decided that the "pig-squeak" system of fm broadcasting was not inconsistent with the concept of broadcasting. More recently, Zenith said, the Commission approved specialized service broadcasts by fm stations (functional music, telecasting, etc.).

Zenith referred to the fact that as of Nov. 1, there were 410 commercial tv stations operating, plus eight educational tv outlets, and that there were 166 grantees building and 175 applications pending. Since there are 1,875 commercial tv channels allocated, the technical capacity of a national tv system is greater than its present economic or program resources. Zenith also referred to the fact that during the last two years, 6 vhf and 28 uhf stations have ceased operating and another 16 vhf and 83 uhf stations have given up their permits.

It continued:

While the Commission and the broadcast industry can justifiably take pride in the growth of the system since the war, the record also discloses that there is no room for complacency. We still must ask why a majority of the tv frequencies available are being totally ignored by private enterprise. Why have there been no applicants for approximately 69% of the commercial and 99% of the educational frequencies available? Why have no applications been filed for hundreds of small communities which have been allocated tv channels? Why have 36 tv stations gone off the air? Why have 90 holders of post-freeze construction permits relinquished their permits before going on the air? Why have numerous existing licensees complained to Congress that they cannot exist on present financial and program resources?

The last question was a reference to the Potter subcommittee hearing last spring on the plight of uhf stations.

The Zenith move urging that subscription tv be authorized quickly drew an immediate objection from Truman T. Rembusch, past president of the Allied States Assn. of Motion Picture Exhibitors and co-chairman of the Joint Committee on Toll tv, representing Allied and Theatre Owners of America in opposition to pay-tv.

Mr. Rembusch called last week's petition by Zenith "obviously a tactical move." He said the question of subscription tv was too complex to permit the Commission to be "stampeded into a snap judgment decision." In the course of his statement, Mr. Rembusch alluded to recourse to the Federal courts as being "open to interested parties not agreeing to the decision."

The Zenith substitute petition was filed by the Washington radio-tv law firms of Pierson & Ball, for Zenith, and by Loucks, Zias, Young & Jansky, for Teco. Teco was organized in 1949 as the holder of certain Zenith rights in subscription tv.

New 'Phonevision' Unveiled by Zenith

OPERATION of alternate Zenith systems of subscription tv, all of which shy away from the use of telephone lines as an integral part of the decoding system as originally contemplated, was explained in last week's Zenith substitute petition.

Called the Phonevision Aircode System, it is described as follows:

Both sight and sound are transmitted in scrambled form. To unscramble the signal at the receiving end, two elements of information are needed—a key signal and a key number. The key signal is air-transmitted along with
We are deeply grateful to the Committee which made the selection, and to our partners in this production, Eugene B. Rodney, the producer, and Robert Young. Their magnificent cooperation, and the distinguished contribution of the writers, director, and every member of the cast, together with the skill and ingenuity of our studio technicians and crews, made it possible for us once again to present "outstanding entertainment" for television.

Screen Gems, Inc.
Television Subsidiary of Columbia Pictures Corp. • 233 W. 49th St., N.Y. 19, N.Y. • Circle 5-5044

The only company which provides advertisers with Hollywood and New York custom-produced national shows, commercials and syndicated programs.
the Phonevision program. The key number is supplied directly to the subscriber and this is dialed on Phonevision attachment to the tv.

Distribution of the key number might take various forms. A punched card, similar to an IBM card, might be furnished subscribers. Each card would contain information for 30 programs. Payments would be made by returning the card to a local Phonevision office or a local bank or other place where cash payment can be made.

Another method might be for the subscriber to call the local Phonevision office, give his identification number and program choice. A computer would then develop the proper key number. The computer also would record the call to permit billing. A third method is to use a vending machine in public places, with the subscriber dialing his identification number and indicating his program choice. After inserting the proper amount, the vending machine would furnish him with the key number through connection with a computer at the local Phonevision office.

Seek New Florida Ch. 10

NEW VHF allocation for Florida is requested in a petition filed with FCC last week by the Jacksonville Journal Co., operator of ch. 36 WJHP-TV Jacksonville. Firm proposes that ch. 10 be assigned to Bunnell, Fla. The Journal Co. indicated no other vhf allocation would be affected by its proposal.

TV NETWORKS REPLY TO BRICKER PROBE; MAGNUSON TO ACCEPT COMMITTEE CHAIR

The four have submitted partial answers to the still-continuing investigation. Direction of inquiry probably will be changed when the Democrats take over in January.

THE FOUR television networks have replied questionnaires in Senate Commerce Committee Chairman John W. Bricker's probe of the networks, although not all the answers are complete.

This was indicated last week by the committee's investigation staff, which was formed by the Ohio Republican to probe the networks and uhf-vhf problems.

Full information is expected "shortly" from the networks, however, a spokesman said. Some information also is expected "very shortly" from the FCC, to which a questionnaire also was mailed.

Meanwhile, Sen. Warren G. Magnuson (D-Wash.) last week said he definitely would accept chairmanship of the Senate Commerce Committee if the job is offered to him in the new Democratic Congress. Sen. Magnuson is in line for the chairmanship as ranking Democrat in an anticipated organization of the 84th Congress by that party next month.

Sen. Bricker, currently on a tour of Australia with members of the Joint Congressional Atomic Energy Committee, would relinquish the chairmanship and remain as ranking Republican.

The investigation staff has maintained it is going ahead with the investigation as contemplated by Sen. Bricker, despite the Nov. 2 elections, which gave Democrats majorities in the House and Senate.

There still is no intention to lay aside questionnaires intended for all television stations, although the probe group is awaiting complete replies from the networks and the FCC before sending out the station queries, according to the spokesman.

This obviously will make it impossible for a full report to be submitted to the Senate Commerce Committee as originally contemplated by Sen. Bricker, because of the few weeks left before Congress convenes Jan. 5. Nevertheless, "something will have to be submitted," the investigation staff spokesman said.

When Sen. Bricker announced the probe last summer he said the investigation staff would make its report to the full Commerce Committee, and that a hearing would be held later to consider legislation. Among legislative proposals is Sen. Bricker's own bill (S 3456) calling for regulation of the networks by the FCC.

Senate Democratic leadership has indicated members of that party are not as eager to investigate the networks as Sen. Bricker has been. Sen. Magnuson has made no public comment since the Nov. 2 elections on what his attitude will be toward the network probe. It has been generally expected that the investigation will be toned down or its direction changed under a Democratic reign, although Democrats, as the Republicans, have expressed concern over the plight of uhf operators.

Biggest complaint by the uhf stations, as evidenced during hearings on uhf ailments last spring by a Senate Communications subcommittee headed by Sen. Charles E. Potter (R-Mich.), is that they have been unable to secure network affiliations in areas where there is vhf competition.

The questionnaires sent to networks by the Senate Commerce Committee dealt largely with affiliation details and policies [B&T, Oct. 25]. The query to the FCC dealt with network affiliations, the FCC's allocations philosophy, coverage by tv outlets and the reason for intermixure of uhf and vhf in the same areas.

Heading the committee's investigation staff as majority counsel is attorney Robert F. Jones, former Ohio congressman and FCC commissioner. Minority counsel is attorney Harry M. Plotkin, former assistant general counsel of the FCC. In a Democratic Congress their positions presumably would be reversed, with Mr. Plotkin becoming majority counsel and Mr. Jones minority counsel. Neither has indicated whether he will accept the new position, if offered.

Coordinating the probe is Nicholas Zapple, the committee's communications counsel.

Rep. Dwight Rogers Dies

REP. DWIGHT L. ROGERS (D-Fla.), 68, third-ranking Democrat on the House Commerce Committee, which has jurisdiction over most legislation affecting radio-television, died last Tuesday in Ft. Lauderdale after a heart attack. Rep. Rogers was stricken after making an address to the local Junior Chamber of Commerce.
Suppose the government forbade food chains to abandon unprofitable stores

During the past decade, the rise of the super-market and the shopping center has made advisable the abandonment of many no-longer profitable small store locations—moves which could freely be taken by chain store management in the best interests of stockholders, employees and customers.

There are few people who fail to see this as a sound and justifiable business practice—or who would expect the Government to intervene to forbid it. In fact, if it did so intervene, the large food chains, for example, could no longer afford to sell such high quality food products at such low prices.

While other businesses are free to make such moves as this, the railroads—under similar circumstances—generally are not free to do so. In many instances, before a railroad can discontinue a passenger train that no longer pays for itself, it must obtain permission from the regulatory body of the state or states in which the operation is conducted.

Such state regulatory bodies are understandably sensitive to local pressures. As a result, justified applications for discontinuance of service are frequently denied or subjected to inordinate delay.

The railroads believe that such unprofitable and unnecessary local operations place an unjust burden on interstate commerce, with shippers having to absorb a large part of the losses in the freight rates they pay.

The railroads operating in the crowded eastern section of the United States are especially hard hit by such operations. It is not in the public interest for the food chains—or the railroads—to maintain unprofitable operations. The railroads do not ask for complete relief from regulation—they ask only that regulation be brought into line with present-day conditions... Eastern Railroad Presidents Conference, 143 Liberty Street, New York 6, N. Y.
CAPP QUESTIONED IN BOSTON TV CASE

Attorneys ask if it is true, as related in a 'New Yorker' story, that the cartoonist sold pornographic drawings to students while he was in the fourth grade.

SEX had a frustrating day in the Boston ch. 5 television hearing at FCC, his last Tuesday as counsel for competitive applicants cross-examined cartoonist Al Capp before Examiner James D. Cunningham. Mr. Capp is a minority stockholder and chief financial officer in Massachusetts Bay Telecasters Inc. Others seeking ch. 5 are WHDH, WCOPI, DuMont and Greater Boston Television Corp.

The attorneys wanted to know if it was true, as related in a 1947 'New Yorker' story by E. J. Kahn Jr., that the witness sold pornographic drawings to fellow students while in the fourth grade of a Brooklyn public school.

Denying the implication, Mr. Capp recalled that Mr. Kahn took no notes during his interview and the witness said he did not see the story until it appeared in print. The cartoonist thought the biographical sketch was 'a very funny one,' but 'barbarically accurate.' He noted Mr. Kahn 'is a humorist' and the art of humor involves 'exaggeration.'

Mr. Capp, known for his 'L'il Abner' cartoon series, was asked if his work contained hidden bits of 'Rabelaisian humor' directed to a third level' of his audience. Opposing counsel cited the March 1951 report of a New York State legislative inquiry into comic books, part of which referred to 'semi-hidden pornography' and presented exhibits which included 'L'il Abner' strips.

Refuting the allegations, the witness observed that his cartoon output belongs to the Unied Press and is subject to full censorship by UP and the editors of some 700 papers subscribing to the feature. To attempt hidden meanings would be committing 'professional suicide,' Mr. Capp emphasized.

As for the legislative report, Mr. Capp charged that the exhibits of the 'L'il Abner' strips were 'faked excerpts,' 'multilated,' 're-touched' and 'forgeries.'

As for a story in the November 1953 issue of Confidential magazine titled 'The Secret Sex Life of L'il Abner,' Mr. Capp replied, 'I know about the article. It is a filthy magazine. . . . Criminal charges are part of the steps we are taking. . . . We conducted an investigation of the source of the forgeries. We think we have discovered the source of the forgeries, of this filthy thing that appeared in this unspeakable magazine, and which the New York State committee were doped by.'

Mr. Capp explained further, 'We are in the last stage of finding the forger. We think we have him.'

Mr. Capp is co-chairman of Massachusetts Bay Telecasters' Public Affairs Committee, comprised of representatives from among the applicant's 88 stockholders. Mr. Capp's Fosdick Productions holds 1.9% interest in the applicant. Other co-chairman is John Lawrence, 1952 Eisenhowe campaign state chairman.

Direct examination of Mr. Capp was presented to Examiner Cunningham in writing. During the past several weeks he has been listening to oral cross examination. WHDH, Greater Boston, Massachusetts Bay has completed their cases. Today (Monday) cross examination of DuMont witnesses begins, following with WCOPI.
From the pioneer maker of transcription turntables comes the finest Gates transcription turntable of them all—three speeds plus motor starting from one smooth running lever and a new high torque in silent motor power.

Available in both chassis and many complete turntable styles that are attractive both mechanically and budget-wise. You will like this newest of the many new and modern Gates products for the radio and television industry.

McConnaughey Bid Up to 84th Congress

Senate adjourns special session without taking action on "controversial" nomination of McConnaughey to FCC.

THE SENATE adjourned its special session at 7:10 p.m. Thursday without taking action on the nomination of George C. McConnaughey to the FCC. Mr. McConnaughey thus will continue to serve as FCC chairman—under the President's interim appointment which put him in office Oct. 4—until his nomination or that of another is acted upon by the Senate during the 84th Congress.

Mr. McConnaughey's nomination was among those labeled "controversial" by Senate Democrats. The minority party had issued a statement early in the special session asking that all "controversial" nominations or those requiring committee hearings be held over until the new Congress.

Hopes for the FCC chairman's confirmation were dashed late Thursday during a short executive session. Senator Kefauver (Tenn.) had indicated a desire to question Mr. McConnaughey.

Kefauver Explains

Sen. Kefauver has explained that he may want to question the FCC chairman about "some letters" critical of Mr. McConnaughey [B&T, Nov. 29]. Sen. Magnuson, who was absent from the Thursday session, is in line for the Senate Commerce Committee chairmanship under Democratic reorganization of the Senate next year.

There had been talk earlier that an organized attempt would be made by Republicans to push through the McConnaughey confirmation [Closed Circuit, Nov. 29], but any such plan appeared to have been discarded in favor of bipartisan considerations.

Sen. John W. Bricker (R-Ohio) had tried to report the nomination of Mr. McConnaughey on the Senate floor early in the session [B&T, Nov. 15], but this action was blocked by Sen. Lyndon B. Johnson (D-Tex.). The nomination had cleared the Senate Commerce Committee by affirmative vote of its seven Republicans, with its seven Democrats abstaining.

Sen. Bricker, chairman of the Commerce Committee, said in calling the Nov. 9 committee hearing on the nomination that he was a "life long friend" of the FCC chairman.

President Dwight Eisenhower has expressed disappointment at the Democratic action in heading off the "controversial" nominations [B&T, Nov. 29].

The Democratic move in blocking the McConnaughey and others of the contested nominations has been interpreted as a bid for power by the minority party on the basis of its Nov. 2 election victories in which it captured control of both houses of the 84th Congress. This interpretation is based at least in part on the speculation that Democrats may want to place another member of their own party on the FCC. Present FCC membership: four Republicans, two Democrats, one Independent.

FCC Approves KANG-TV Sale To KTBC-AM-TV Austin

SALE of ch. 34 KANG-TV Waco, Tex., by Central Texas TV, Co. to KTBC-AM-TV Austin, Tex., was approved by the FCC last week [B&T, Nov. 29].

Consideration for the ch. 34 facility was $115,000 and assumption of $19,000 indebtedness.

KANG-TV, on the air since November 1953, had requested quick FCC approval to the sales agreement in view of the heavy losses sustained because of the failure to obtain network and national business in sufficient volume to meet operating expenses and a projected station deficit of $145,550.

President and majority stockholder of KTBC-AM-TV is Claudia T. Johnson, wife of Sen. Lyndon B. Johnson (D-Tex.), slated to be Senate majority leader in the upcoming 84th Congress. Other stockholders include J. C. Kellem, general manager; Paul Bolton, news director; Walter Jenkins, of Austin and Washington.

KGMB-TV Honolulu Asks For Satellite on Ch. 3

SATELLITE television station on ch. 3 at Wailuku, Maui County, is requested in a new application filed with the FCC by ch. 9 KGMB-TV Honolulu, CBS outlet. As indicated by C. Richard Evans, KGMB-TV vice president, the satellite can be completed within 60 days after FCC approval and will be located on the slope of the Haleakula crater at an elevation of 10,000 ft.

He said the satellite could be received also on the Hamakua and Kohala coasts of the Island of Hawaii and would increase KGMB-TV's audience by 66,500 people. The application specified the satellite will cost an estimated $24,431 and will be powered by a 1/4 kw visual. Antenna height above average terrain of 5,960 ft. was given.

FCC Questions WDAS Sale Pending Legality Hearing

FCC notified WDAS Philadelphia last week that its application to sell its 1400 kc facilities to Richard Eaton for $72,000 required a hearing on the legal question of whether this could be done while WDAS also held a CP to move to 1480 kc [B&T, Nov. 29, Sept. 27].

Application to sell the old facilities was protested by WPEN and WHAT, both Philadelphia. Both argued that WDAS had no right to sell the frequency it was vacating. WPEN also asked that the FCC revoke the WDAS license because the FCC was not informed of the pending sale when it asked for license renewal last July.

WDAS' application cited instances where the Commission had permitted this type of sale.

Proposed sale is to Friendly Broadcasting Co., owned by Mr. Eaton. Mr. Eaton owns WOOK-AM-TV and WFAN (FM) Washington; WSD and WTLF (TV) Baltimore, WARK Hagerstown, WINX Rockville, all Maryland; WJMO Cleveland, Ohio, and WANT Richmond, Va.
Report on Soviet Russia:

"I paid $1.00 a gallon for State-produced gasoline"

by Foreign Correspondent

EDDY GILMORE

I don't consider myself an expert on Russia's oil industry. I mean I don't possess a lot of fancy figures and percentages, but:

After nearly 12 years residence in Moscow and travel from one corner of that vast country to the other I come away with some very definite impressions on the Soviet Union's oil industry and ours.

I figure I bought 14,440 gallons of Russian gasoline, 160 gallons of Russian kerosine and as little Russian motor oil as I possibly could.

My cars were filled with state-produced gasoline because I couldn't get any other kind. I know nothing about octanes, but I know all my cars developed engines that knocked. In the depth of winter the carburetor often froze.

"Why?" I asked our Russian driver.

"Because," he answered, "we've got water in our gasoline."

For this watered gasoline I paid about $1.00 a gallon and when I had to buy it on the black market I paid a good deal more than a dollar.

The kerosine burned all right, but it wasn't always easy to find. And when I did find it I had to haul it home in my own bucket or can. I do know it smelled to high heaven.

I didn't buy Russian oil for my cars because all the chauffeurs I knew advised against it. Fortunately, I was able to buy American oil from abroad and have it shipped in. But not always. Sometimes we'd get caught short and be forced to go on the Russian market.

The chauffeur would shake his head.

"We're going to have trouble, Gospodin," he would say.

And we usually did.

I have seen the oil wells of Baku. More of them at Gurev, at the northern tip of the Caspian Sea. I've ridden oil barges on the Volga. I've stood in long lines, when the mercury was flat on its stomach in the cold of a Russian winter, to buy kerosine.

I saw Russia get desperate for oil during World War II. In those days they even imported oil machinery from the U. S. and brought in American oilmen to show them how to operate it. They must have a high opinion of the American petroleum industry. After 11 years and 9 months in Russia I know I have.

* I say "my cars." I had 9 automobiles during my time in Russia. They were used principally for business, but sometimes for pleasure.

** Gospodin means "Mister" in Russian and that's what any polite Russian calls a foreigner.

This report on Russia's oil industry is presented for your information by the American Petroleum Institute, 50 West 50th Street, New York 20, N.Y.
The Air Coordinating Committee's Technical Div. will meet to discuss the proposed 1,000-ft. limit on tv towers Dec. 15.

JUST HOW FAR the Air Coordinating Committee will go in backing its Airspace Subcommittee recommendation that all tv towers be limited to 1,000-ft. above ground [BW+T, Nov. 29] will be told at that time.

At this point, probably Dec. 15, the ACC Technical Div. will meet to discuss the subject. The FCC and broadcast industry representatives are expected to prove their opposition at that time.

At issue is whether the ACC, which is the Presidential advisory committee on national air policy, should accept the recommendations of its Airspace Subcommittee on the subject of putting a 1,000-ft. ceiling on tv antenna heights.

Earlier last month, the Airspace Subcommittee unanimously approved a policy declaration to withhold its approval for any tv tower of more than 1,000-ft. height. The only exception would be for those 1,000-ft. towers which are screened by existing structures.

In its discussion of the situation, the Airspace Subcommittee urged greater reliance on the use of single tower for multiple antennas.

The subcommittee also asks the FCC to initiate action to revise its regulations to "minimize" the use of antennas more than 1,000-ft. above ground.

If the ACC Technical Div. approves the Airspace Subcommittee's declaration, it is understood that top membership of the ACC usually goes along. However, if the Technical Div. does not have unanimity, ACC's standing members will be called to make the decision.

Although the FCC is not an official member of the top ACC, it is understood that it will be invited to participate in its deliberations—"if it should come to that."

The Commission, however, is not bound by any ACC decision. The Commission, as an independent agency, is responsible to Congress and operates under Congressional mandates as expressed in the Communications Act. There is no doubt, however, that it would take serious notice of any ACC action.

The Commission's liaison with the ACC is Comr. Edward Webster. Comr. Webster was co-chairman (with CAA Administrator F. B. Lee) of an FCC-CAA study of the effect of tall tv towers on aviation two years ago. This brought a joint recommendation that matters decided on an individual case basis. The FCC member of the ACC Technical Div. is John R. Evans, chief of the FCC's Aviation Div. The FCC also has a member of the Airspace Subcommittee. It abstained from voting when the tv antenna limitation was taken up.

Walker Gives NARTB Stand In Airspace Deliberations

ACTIVITY of NARTB in Airspace Subcommittee deliberations was explained by NARTB Engineering Manager A. Prose Walker last week to secretaries of Regional Airspace Subcommittees attending CAA-sponsored meetings in Washington. Others at the Dec. 1 meeting were members and associate members of the Washington Airspace Subcommittee and representatives of the aviation industry.

NARTB's interest in airspace matters is three-fold, Mr. Walker said. These are: (1) to present the overall broadcasting industry viewpoint, (2) to endeavor to ensure a complete and accurate record, particularly in controversial cases, because of the possibility of future FCC hearings, and (3) to provide useful information regarding broadcasting to assist the Airspace Subcommittee in its deliberations. He emphasized that NARTB does not participate on behalf of individual applicants.

He also explained the import of the FCC's Sixth Report and Order on which the national television allocation is based.

FCC Asked to Stay Pasco Satellite Grant

DISPUTE over a newly-authorized satellite television station on ch. 19 at Pasco, Wash., confronted the FCC last week as KALE Richland, Wash., petitioned the Commission to set the grant aside on the grounds of premature construction. Hearing is requested. The satellite belongs to ch. 29 KIMA-TV Yakima and proposes to rebroadcast that station's programs [BW+T, Nov. 8].

The KALE petition said Cascade Broadcasting Co., owner of KIMA-TV, received its permit for the Pasco satellite (KPRK-TV) on Nov. 8. It also requested the FCC to limit the permit to change power, antenna height and move of transmitter site from Badger Mt., two miles southwest of Richland, to Johnson Butte Horse Heaven Hills, eight miles southwest of Kennewick, Wash.

KALE said a story in the Nov. 11 issue of the Tri-City Herald reported ground had been broken Nov. 10 by KPRK-TV and on Nov. 17 representatives of KALE witnessed construction at the Johnson Butte site. KALE charged this was two days before the move to the Johnson Butte site was approved by FCC, hence in violation of Sec. 319(a) of the Communications Act.

KALE also pointed out its petition pends for reconsideration of FCC's action of Oct. 29 which denied KALE's petition to allocate ch. 3 to Richland by removing the vhf facility from Lewiston Idaho channels. The FCC granted a petition by Lewiston Television Co., which as described by Cascade, KALE said the satellite application was filed about the same time.

Waco, Klamath Falls Cps Awarded by FCC

INITIAL DECISIONS proposing to grant new tv stations at Waco, Tex., and at Klamath Falls, Ore., were finalized by the FCC last week [BW+T, Nov. 15, Oct. 11].

At Waco, the grant for a new station on ch. 11 went to KWTX. This action came after the FCC granted the petition of WACO there to dismiss its competitive bid for the same facility. The FCC order revealed that KWTX has offered up to $45,000 to reimburse WACO for its out-of-pocket expenses incurred in prosecuting its tv bid and has agreed to reimburse WACO for losses up to $5,000 which may be incurred in the disposal of a tv tower.

At Klamath Falls, grant for a new station on ch. 2 went to KFJF. The grant was made possible by the dismissal of the competing bid of Klamath Falls Tv Inc. which will be paid $7,500 for expenses incurred in prosecuting its application.
Significant Anaconda contributions to U.S. progress in metals—1953-1954

Chile. At Chuquicamata, huge plant for treating copper sulphide ores of Chile Exploration Company—an Anaconda subsidiary—is completed.

Copper. Anaconda’s new open pit copper mine at Weed Heights, Nevada, officially opened in November, 1953, is now producing 5,000,000 lb. a month.

Aluminum. The new Anaconda reduction plant now being built near Columbia Falls, Mont. Scheduled to start production in mid-1955.

Uranium. Working with the U.S. Government, Anaconda builds a processing plant and develops uranium ore properties in New Mexico.

Brass Mills. New pre-formed copper tube grids for radiant panel heating come from The American Brass Co., an Anaconda subsidiary.

Wire Mills. Anaconda Wire & Cable Company expands research and production facilities for turning out its highly engineered line of copper and aluminum electrical conductors.

Today an important fact faces all of us: you can’t replace copper with any other metal without losing something.

For copper and its alloys have many virtues—high thermal and electrical conductivity, ease of machining, forming, drawing, stamping, plating, welding, fabricating, and a high scrap value.

Since World War II, copper producers like Anaconda have been expanding mining operations here and abroad, developing new ore bodies, and revitalizing many existing mines with new methods.

As a result, the U.S. faces no lack of copper. All the copper we need—for peacetime and preparedness—is there, ready to be mined, refined and fabricated for all the demands of industry.

Circuit Court Rules
KPOA Liable for Taxes

APPEAL to the Supreme Court is contemplated, former KPOA Honolulu part-owner John D. Keating said last week, following publication of the decision of the U. S. Circuit Court in San Francisco which makes Island Broadcasting Co. liable for $15,000 in back taxes.

Decision upheld the Hawaii Supreme Court ruling that the territory's tax on gross income of businesses was legal when applied to radio stations.

Mr. Keating and J. Elroy McCaw each owned 50% of KPOA. The 3 kw. MBS affiliate (on 630 kc) was sold to Radio Hawaii Inc. last spring for $400,000 [BT, March 29]. Radio Hawaii is a subsidiary of Tele-Trip Policy Co., aviation insurance firm, which has also bought WTAC Flint, Mich. [BT, Aug. 29] and KQV Pittsburgh [BT, Nov. 1].

KPOA instituted the suit in 1951 to collect more than $7,500 which it had paid as taxes in 1946 and 1947. A counter-suit by the Hawaiian tax commissioner to collect more than $14,500 in taxes which the station refused to pay from 1947 on, was filed at the same time. A lower court held that the tax in the radio station was valid since income from outside the Islands was specifically exempted and therefore, the court held, the tax was not a burden on interstate commerce. The Supreme Court of Hawaii upheld this decision.

The decision of the U. S. Court of Appeals was written by U. S. District Judge Leon R. Yankwich, and concurred in by Circuit Judges William Denman and William E. Orr.

The court held that the Hawaiian tax was of different character from that involved in the 1936 Supreme Court decision in (KOMO Seattle, Wash.) Fisher's Blend Stations Inc. vs State Tax Commission. In that case, KOMO successfully contended that since it was a clear channel station (50 kw on 1000 kc), covering eleven western and northwestern states, including Washington and the Territories of Alaska and Hawaii, there was no way of segregating its income.

Notwithstanding that Congress has preempted the radio field, the San Francisco court said, and that the Communications Act requires Federal licensing, "the character of radio communication does not prohibit a tax upon the state business any more than the interstate character of railroads, power companies, telephone, telegraph and express companies stands in the way of valid tax statutes of the type under discussion."

Minton Denies RCA Plea For Stay in Zenith Case

AN RCA request for a Supreme Court stay order to prevent Zenith from proceeding with its $16 million anti-trust suit against RCA failed last week when Associate Justice Sherman Minton denied both the request for a stay and a request for a hearing—tendered by RCA counsel Adlai Stevenson, former Illinois governor and unsuccessful Democratic candidate for the presidency in 1952. This was Mr. Stevenson's first legal activity in almost eight years.

Ruling gave the green light to Zenith to begin taking depositions in its Chicago suit. RCA contended that the Chicago trial should be postponed until its suit against Zenith in Delaware Federal Court was completed. Chicago District Judge Michael 1goe ruled that the Chicago suit did not have to be delayed. This was upheld by a three-judge Chicago Court of Appeals ruling which refused an RCA plea for a stay [BT, Nov. 22].

Meanwhile, argument was scheduled Wednesday in New York District Court before Judge John C. Knox on RCA's request that the government's anti-trust suit be transferred to the Delaware Federal Court [BT, Nov. 29]. The Department of Justice has complained that RCA's patent business practices violate the anti-trust laws [BT, Nov. 22].

SALES OF KQV, TWO OTHERS FILED

APPLICATIONS for the sale of KQV Pittsburgh and KOAT Albuquerque and KRSN Los Alamos, both New Mexico, were filed with the FCC last week.

- At Pittsburgh, KQV was sold by Irwin D. Wolf and Earl F. Reed to Tele-Trip Policy Co. for $740,000. [BT, Nov. 1]. Tele-Trip, aviation insurance specialists, owns KPOA Honolulu and WTAC Flint, Mich. Until last October, KQV was 45% owned by CBS. In a move to unload its minority station holdings, CBS sold back its 45% interest to Merts Wolf and Reed for $236,250 July 29, 1952 (BT, Oct. 4). KQV is an applicant for ch. 4 there and is in hearing with WCAE Pittsburgh, WLOA Braddock, Pa., Wespven Television Inc. and Irwin Community Television Co. KQV's balance sheet as of Sept. 30 reported total current assets at $99,298 and total assets at $644,550. Total liabilities were reported at $75,148. Tele-Trip balance sheet as of Nov. 20 reported total assets as $1,407,621.

- The New Mexico stations KOAT and KRSN were sold by the Alvarado Broadcasting Co. to Sunshine Broadcasting Co. for $160,000. KQV was sold by the Alvarado Broadcasting Co. to Sunshine Broadcasting Co. for $160,000. Reason given for sale of the two stations was to be able to deal more time to ch. 7 KOAT-TV Albuquerque.

Sunshine Broadcasting is composed of: Hugh DeWitt Landis (36.3%), owner of KICA Clovis, one-third partner of KDBC Farmington, both in New Mexico, and minority stockholder of KANS Wichita, Kan., and KRGV Weslaco, Tex.; William Wayne Phelps (36.3%), owner of KALG Alamosordo, N. M.; D. F. Prince (9%), Washington attorney and minority stockholder of WSBR Pensacola, Fla.; Robert Porton (9%), KRSN general manager, and William Spack Jr. (9%), KRSN assistant manager.

Out of the Attic

DOWN out of the "attic" comes the FCC Broadcast Bureau's License Division, including the public reference room for radio-audio applications and hearing dockets, to repainted quarters in the 7th floor of the New Post Office Bldg. in Washington. For years division chief Clara M. Iehl and her staff, plus applications, station files and dockets, have been jammed under the roof on the NPO Bldg.'s 8th floor, never intended for offices. Workers and official files have shared space with high voltage cabinets, transformers and big steam system valves. Move began Thursday and should be completed this week.
Charlie Arndt's doing it again this year.

Not much doubt about Charlie's taste in holiday giving, is there? Catch that satisfied expression—and select armful! From experience knows BROADCASTING • TELECASTING is top choice of business associates and friends in radio/tv. Charlie is well aware that B•T will come week after week as a live and useful reminder of his thoughtfulness.

Sylvania Television Awards Judges Name NBC-TV’s ‘Medic’ 1954’s Best

"A DEFINITE upward swing in the quality of television programs" was noted by the Sylvanian Television Awards' committee of judges last week as the winners of the 1954 awards were announced.

NBC-TV's Medic, documentary dramatic series on medicine, was singled out for the grand award as "the most outstanding program on television," while other honors were presented for programs, talent, agencies, and advertisers considered outstanding by the judges.

The committee's report praised many tv developments of the year and was critical of others, including vastly budgeted color tv productions of which, the committee felt, "few have provided worthwhile entertainment. Those in charge of these shows must realize by now that an open checkbook does not guarantee a quality presentation."

The judges also criticized the scheduling of shows based on crime and violence during hours when children in large numbers are watching, and added: "Although we deplore censorship in any form, we cannot but feel that television, by failing to cope with its own problems, is providing potent ammunition to those who are eager to impose restrictions upon it."

Medic, the second show to win the grand award in the four years the Sylvia awards have been presented (first was Victory at Sea, in 1952), was hailed as "a truly great contribution to the advancement of television" and praised for "the worth of its content, the impact of its presentation, and the dignity of its purpose." The grand award was presented to its creator and writer, James E. Moser, and awards went to Worthington Miner, executive producer; Dow Chemical Co., sponsor, and NBC, while certificates of merit were issued to Producer Frank L'Artouette, Director Bernard Girard, the Los Angeles County Medical Askin, and MacManus, John & Adams, agency for Dow.

The awards, sponsored by Sylvanian Electric Products Inc., were presented on Tuesday night at Sylvanian Board Chairman Don G. Mitchell at a banquet at the Hotel Pierre in New York, attended by more than 300 guests. In addition to the awards given for Medic, winners were as follows:

- For the most outstanding tv series for children of all ages—Disneyland. Awards to Walt Disney, sponsors American Motors Corp., American Dairy Assn., Dairy Foods and to ABC. Certificates of merit to Geyer, Adv. Brooke, Smith, French & Dorrance, Campbell-Mithun, and McCann-Erickson.
- For the best educational series—The Searc. Awards to Irving Gitlin, producer, and CBS-TV.
- For the television comedian of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television producer of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television writer of the year—Robert Stigwood. Awards to Robert Stigwood, producer, and ABC.
- For the television director of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television editor of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television performer of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television costume designer of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television makeup artist of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television set designer of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television lighting designer of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television sound designer of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television production designer of the year—George Gobel. Awards to Mr. Gobel and NBC.
- For the television继续...
AMONG Sylvania award recipients at last Tuesday's dinner (l to r): George Gobel, NBC, named comedian of the year; John Daly, ABC, for Open Hearing, and Steven Hill, who was voted the dramatic actor of the year.

It's enough to make Commander Whitehead practice pneumotomy.

What is?

The Eastern Iowa market.

(WMT AM & TV cover Eastern Iowa like a beard)

For superior camera direction—"Twelve Angry Men," in the Studio One series. Awards to Frank Schaffner, director, and CBS-TV, Certificate of merit to Ted Miller, technical director.

For public information service—Open Hearing, Awards to John Daly, producer, and ABC. Certificate of merit to Eddie Nugent, director.

For the best dramatic series—Philco-Goodyear Teleleton Playhouse. Awards to producers Fred Cse and Gordon Duff Philo Corp., Goodyear Tire & Rubber Co. and NBC. Certificates of merit to Hutchins Adv. and Young & Rubicam.

For the finest original teleplay of the year—"Man on Mountain," awarded to Robert Alan Aurthur, writer, Arthur Penn, director, and NBC.

For the dramatic actor and actress of the year—Steven Hill and Eva Marie Saint, who received awards for having met live television's demands "successfully in a diversity of leading roles.

For the character actor and actress of the year—E. G. Marshall and Ellen Heckart, who received awards for characterizations which, in each case, "stands as an example of noteworthy professional skill.

For the outstanding comedy team on television —Jackie Gleason, Audrey Meadows, and Jack Carney, each of whom, along with CBS-TV, received an award.

For television news coverage—Telepix News on WPIX (TV) New York. Awards to John Tillman, producer, Consolidated Edison Co. of New York, sponsor, and WPIX. Certificates of merit to Walter Engels, producer, and BBDO.

For wholesome family entertainment—Father Knows Best. Awards to Robert Young, Jane Wyatt, P. Lorillard Co. and CBS-TV. Certificates of merit to Eugene B. Rodney, producer; William Russell, director; Dorothy Cooper and Roswell Rogers, writers, and Young & Rubicam.

The judges' report, "What the Committee of Judges Thinks About Television," said TV this year "made its most notable progress in the area of dramatic entertainment, and in programs of educational or public service nature. The public now has a wider choice, with shows to suit every taste. A considerable number of them are better than good—a few are noteworthy as creative achievements."

But the committee also found "still too much time and energy devoted to trite, banal, and downright silly concoctions."

"It regarded the advent of color as "opening up a bright new world," but questioned whether the public might not develop "a feeling of resentment" that color sets are unavailable or too expensive, although the committee admitted it had no "ready-made solution" other than to suggest that "perhaps by emphasizing the high quality of the black-and-white versions, broadcasters can keep monochrome owners happy until color sets are more in supply."

And the committee reported, "sadly," that it did not think the results of vast expenditures which have been made on color programs have been "commensurate" with the outlays, "although we applaud the spirit of these enterprises and their striving to bring new entertainment techniques to television."

The committee also praised TV's on-the-spot coverage of news events such as the Presidential Cabinet telecast, Congressional hearings and election results, declaring that "truly, television brings us history in the making, thereby realizing its immense power to inform and instruct the nation."

The judges said they examined commercials "carefully and at great length," finding "some that were done with taste, ingenuity, and purpose," but that "there are still many aspects of television commercials that are disturbing."

The committee said it found "a few notable juvenile shows" but that "in general, programming for children lacks substance."

Tv dramatic plays "reached a new high level of quality" in 1954, the report said, adding that "the only lack we noted in the dramatic field was the absence of plays in the lighter vein. A touch of the satiric, the flippan, would round out the picture."

KROW'S DEMELLO GETS BAB AWARD

TOP-winner in Broadcast Advertising Bureau's "Best Radio Salesman" contest for October was Jack Demello, KROW Oakland, Calif., Kevin Sweeney, president of BAB, announced last week. Second and third prizes go to Joseph C. Winkler, WCAU Philadelphia, and Tom E. Beal, KLWN Lawrence, Kan., respectively.

Mr. Demello was adjudged first-place winner in the October competition for selling Jackson's Home Furnishers, five retail stores in the San Francisco Bay area, their first radio schedule since 1950. The sale called for an eight-week campaign of 976 announcements on a 122-peak-week basis and the use of the midnight-6 a.m. Pat Henry Dancing Party Show on KROW. As first-place winner, Mr. Demello has received a silver trophy from BAB engraved with his name and KROW's call letters.

Second-place award went to Mr. Winkler for selling time on WCAU to the Pennsylvania Nurserymen's Assn.

Mr. Beal, third-place winner, sold the Stowits Rexall Drug Store in Lawrence, Kan., a 52-week campaign to promote its baby and prescription departments.

AT AWARDS festivities are (l to r) winners Robert Young and Jane Wyatt, featured on CBS-TV series, Father Knows Best; Walt Disney, for his ABC-TV Disneyland; and James E. Moser, Mediac writer.
The budget is set. The client has okayed the general plan. Now the pressure is on to draw up space schedules; compare stations. The hour is late, but the agency men work on. Work with Standard Rate. And if you have a Service-Ad near your listing...

you are there

For the full story on the values 1,161 media get from their Service-Ads, see Standard Rate's own Service-Ad in the front of any edition of SRDS; or call a Standard Rate Service-Salesman.

N. Y. C.—Murray Hill 9-6620  •  CHI.—Hollycourt 5-2400  •  L. A.—Dunkirk 2-6376

Note: Six years of continuous research among buyers and users of space and time has revealed that one of the most welcome uses of Service-Ads comes at those times account executives or media men are working nights or weekends, planning new campaigns or adjusting current ones.
GE STATIONS SETUP EXPANDED, REVISED

Radio and television station activities are split into separate units. Three new managers are named to fill station and section positions.

REORGANIZATION of General Electric's Broadcasting Stations Department into separate units for radio and television was announced last week by R. B. Hanna Jr., department manager. The split of radio and television functions, it was said, will begin at the manager level and proceed through sales, traffic and programs and will involve the creation of a new Station Service Section.

The move, according to Mr. Hanna, has resulted in the creation of a total of three new managerial posts at WRGB (TV), WGY-AM-FM, all Schenectady, N. Y., and at Stations Services. Managers will report to the manager of the Broadcasting Stations Department as will the managers of engineering and of finance, whose sections were unaffected by the reorganization.

"This new plan gives us greater freedom to meet the challenge of further expansion within the broadcasting industry," Mr. Hanna said. "It is based on the theory of dynamic management pioneered by the General Electric Co. and fits the modern concepts of broadcasting stations organization."

Raymond W. Welpott has been named manager of WRGB (TV) with direction over the managers of tv sales and programs and the supervisor of film and traffic. He joined the Broadcasting Stations Department in 1941 as an accountant. Before his latest appointment he had served successively as assistant to the stations manager, assistant station manager and manager of stations operations.

Merl L. Galusha, who has been with the department since 1950 and served most recently as supervisor of production for WRGB, has been appointed manager of WGY-AM-FM. The managers of radio sales and programs and the supervisor of traffic and continuity will report to him.

Caleb Paine, with the department in various executive capacities since 1946, has been named manager of the newly-created Stations Services Section. Reporting to him will be the manager of promotion and publicity, news editor, director of farm broadcasting and music librarian.

Edwin S. West and William Purcell continue in their respective posts of managers of finance and engineering.

418 Tvs On-The-Air As Three More Start

THREE new tv stations were scheduled to begin commercial programming this past weekend increasing to 418 the number of operating tv outlets. Two of the stations open up new local tv markets:

- WFMZ-TV Allentown, Pa., the first tv there, began programming Saturday and held open house ceremonies that night. The ch. 67 outlet is located in a market with two other chs—one in Bethlehem and the other in Easton. WFMZ-TV reports its primary area will cover Lehigh Valley, a combined population of 318,000 with retail sales for 1953 equaling $446,282,000. Raymond F. Kohle is president and general manager. The station will feature local programming exclusively.

- WIRI (TV) Lake Placid, N. Y., owned by Great Northern Television Corp., was due to start commercial programming yesterday (Sunday) as the first tv station in the area. The closest competitor is 100 miles away. The ch. 5 outlet begins telecasting with 60-70 sales, Joel H. Schier, president and general manager, reports. WIRI is equipped with a DuMont package and claims to be the first tv to start operating with two DuMont flying scanners—one at the studio and another at the transmitter site. Adam Young TV Corp. is representative.

- KVOO-TV Tulsa, Okla., was scheduled to begin commercial operations yesterday, affiliated with NBC and represented by Blair TV Inc. The ch. 2 station is the third tv in that city and second vhf. C. B. Akers, formerly of WEEK-TV Poria, is general manager, and Russell Lamb, formerly of KMBC-TV Kansas City, is sales manager. KVOO-TV is owned by Southwestern Sales Corp. (W. G. Skelly, oilman); Harold C. Stuart, attorney and former assistant secretary of the Air Force; Sen. Robert S. Kerr (D-Okla.), Mrs. Grayce B. Kerr, Dean A. McGehee, Travis M. Kerr, F. C. Love; Mr. Akers; Oklahoma A&M College; Tulsa U., and a group of non-voting stockholders. Class A hourly rate is $700 local and $650 network.

Brown Co. Announces Reorganization Plans

CLARKE BROWN CO., Dallas, Tex., southern radio and tv representatives, has announced representation additions, office expansion and personnel shifts at the same time that plans for incorporation of the firm were revealed.

In addition to its present activities, which include handling the H-R Representatives lists in the South, the firm is to represent KLIF-KFIZ Dallas-Ft. Worth, KFDA-AM-TV Amarillo and the Cactus Network of West Texas, effective Jan. 1. Clarke Brown also is to represent KFIZ-TV Ft. Worth, whose tentative target date is late spring.

Officers of the to-be-incorporated firm are

- MR. BROWN
- MR. WELPOTT
- MR. GALUSHA
- MR. PERANNA
- MR. McRAE
- MR. STUART

Clarke R. Brown, president; Robert E. Stuart, vice president; Andrew E. Peranni, secretary-treasurer, and Bill McRae, vice president.

Mr. McRae has been named manager of the new Atlanta, Ga., office in Suite 615 of the 101 Marietta St. Building. This office will service accounts from East Tennessee and the Carolinas, south to the Gulf of Mexico.

Mr. Peranni has been moved from the company's Houston office to Dallas to assist Mr. Stuart, Dallas manager. Jack Lee has been named manager of the Houston branch succeeding Mr. Peranni.
Every 10th U.S. paycheck depends on trucks!

Some 6,773,000 men and women are now employed directly by the trucking industry or in jobs which depend on the trucking industry for continuing success. With a total U.S. labor force of some 62 million, this means that one out of every ten employed Americans looks to the trucking industry for his or her livelihood. Only agriculture provides more jobs to more people.

The industry has met its responsibilities as the No. 2 U.S. employer with improved working conditions and a pay scale that, more often than not, exceeds the average for U.S. industry as a whole. For example, the average yearly wage in the trucking industry in 1952 was $4,333 while that of private industries was $3,428.

Chairman, American Trucking Associations
KMBC-TV Sales, Reception Up After Boost to 316 Kw

KMBC-TV Kansas City, Mo., reports that since it increased its power to 316 kw [BT, Nov. 29] its local billings have been doubled as compared with the same period last year. The station reports that it now reaches areas which could not pick up the station at all previously. KMBC-TV estimates its set count at 440,000.

PRESENT when KMBC-TV Kansas City, Mo., switched from its interim transmitter to its permanent 316 kw transmitter were (l to r) John T. Schilling, vice president and general manager, KMBC-AM-TV and KFRC; Henry Goldenberg, chief engineer of the stations; Mrs. Charles R. Cook, widow of the founder of the Cook Paint & Varnish Co., stations owner, and Don Davis, first vice president, KMBC Broadcasting Co.

WNAM-TV, WFRV-TV Merge, Plan to Use Latter’s Ch. 5

PROPOSED merger of the interests of ch. 5 WFRV-TV Green Bay, and ch. 42 WNAM-TV Neenah-Menasha, both Wis., was disclosed last week in a joint announcement by Clayton Strong, WFRV-TV president, and S. N. Pickard, WNAM-TV president.

The merged interests propose to operate ch. 5 WFRV-TV with the ultimate discontinuance of ch. 42 WNAM-TV which is presently on the air. WNAM-TV’s studio and other technical equipment will be used in getting the ch. 5 facility on the air, it was disclosed.

It was further announced that WFRV-TV has leased the tower and transmitter building of the Green Bay Press-Gazette’s defunct WJPG-FM, deemed suitable for use as a transmitter and studio location providing the ch. 5 station with studios in both Green Bay and Neenah.

Switch Rate Card Emphasis, Blair & Co. Tells Clients

JOHN BLAIR & Co., station representatives, is suggesting to the radio stations it represents nationally that they switch emphasis in their rate cards.

According to Robert E. Eastman, executive vice president at Blair, the stations are being urged to issue their future rate cards with the 52-week rate listed first and the one-time rate last.

This, Mr. Eastman explains, ought to focus attention of buyers and sellers on the advantages of buying radio—particularly spot—on a long-range basis, since, he notes, advertisers themselves are on a continuous, 52-week basis and thus should exert continuous pressure on the buying public.

Crosley Plans Sales Meet

CROSLEY Broadcasting Corp. officials will meet in both New York and Chicago this month to discuss with Crosley sales representatives the 1955 sales and promotion plans for WLW Cincinnati.

Attending from Cincinnati will be: R. E. Dunville, Crosley president; H. M. Smith, vice president for sales; Richard K. Jones, director of the client service department; Jack Frazier, director of merchandising; and George Henderson, general sales manager. In New York, the group will meet with Bernard Musnik, vice president in charge of Crosley’s Eastern Sales Div.; Carlos Franco, WLW sales manager, and representatives of Crosley sales and NBC Spot Sales. In Chicago, NBC Spot Sales will be represented as well as Crosley’s Central Sales Div., headed by Harry P. Albrecht.

KGUL-TV Appoints Wilson

APPOINTMENT of Robert S. Wilson as general sales manager of KGUL-TV Galveston, Tex., has been announced by Paul E. Taft, president of the outlet. Mr. Wilson was formerly with Katz Agency Inc., (station representatives), New York.

Mr. Taft said the assignment was “a further indication of the expanding scope of KGUL-TV’s operation.” KGUL-TV, a CBS-TV affiliate, is represented nationally by CBS Television Spot Sales.

CBS Spot Names Schwin Sales Development Manager

NEWELL T. SCHWIN has been appointed manager of sales development for CBS Radio Spot Sales, Henry T. Flynn, general sales manager, announced Wednesday.

Mr. Schwin, formerly executive assistant to H. Leslie Atlass, vice president of the CBS Central Div., will take his headquarters in New York. His appointment was effective immediately.

Mr. Schwin joined CBS in March 1953 after a 20-year association with the Household Finance Corp., where he was advertising manager for the company’s 600 branches in the U. S. and Canada.

Frederick A. Miller, 86, WSBT-AM-TV Pres., Dies

FREDERICK A. MILLER, 86, president of WSBT-AM-TV South Bend, Ind., and president and editor of the South Bend Tribune, died last week in South Bend Memorial Hospital. His health had been failing for the past several years, but he had continued his managerial functions.

Mr. Miller was a charter member of the Associated Press and held membership in the American Society of Newspaper Editors and the National Press Club.

He is survived by his wife, Flora, and a nephew, Franklin Schurr, secretary-treasurer of the South Bend Tribune Co.

KSVF Off Air Six Hours After Fire Guts Transmitter

KSVF San Mateo, Calif., which lost six hours of air time after a $60,000 fire destroyed both the station’s transmitters, was rescued by the California National Guard which lent a transmitter and operating crew to the outlet until a 1 kw Collins transmitter could be shipped by air.

Nearby stations had made offers of equipment, but because of technical difficulties involved the NG transmitter was the simplest solution to the problem.

The fire, resulting from a short-circuited power line, gutted the transmitter building, which housed a 1 kw transmitter, a 250 w transmitter and station files.

Polgreen Heads WFBF Sales

APPOINTMENT of Richard F. Polgreen as sales manager of WFBF Syracuse was announced last week by Charles F. Phillips, general manager of the outlet. Mr. Polgreen has been with WFBF for four years.

Prior to his association with the station, Mr. Polgreen was with Loblaw Supermarkets as advertising manager in central New York.
STATION PEOPLE

Roger Peppert, sales dept., KAKE Wichita, Kan., appointed sales manager, succeeding Martin Umaunky, now manager, KAKE-TV; Dick Williams, program dept., KAKE, appointed program director, succeeding Graeme Fletcher, now vice president and general manager; Marion Brandenberger appointed sports director, KAKE.

Perry S. Ury, formerly sales representative, WHIZ - TV Zanesville, Ohio, to WFMZ - TV Allentown, Pa., as director of sales; Jean Lieberman, to WFMZ-TV as conductor, Romper Room children's program.

Robert Doan appointed program director, KWPC Muscatine, Iowa; Earl McLaughley, formerly with KBUR Burlington, Vt., to KWPC as announcer.

Marjorie Anning, office manager, WGSM Huntington, L. I., N. Y., promoted to program manager; William Naramore, chief engineer, WGSM, promoted to assistant to general manager; William Goodard, announcer, appointed news director.

Duncan Miller, assistant program director, WWDC Washington, to WTTG (TV) there as publicity and promotion director.

Harry Middleton, former program director, WVEC-TV Hampton, Va., to WTVD (TV) Durham, N. C., as program coordinator; Leo Deckler, formerly production manager, WBNSTV Columbus, Ohio, to WTVD as producer-director.

Beverly N. Hofer, formerly with Headley-Reed Co. (station representatives), N. Y., to WPAW Pawtucket, R. I., as director of station relations.

Dick Hildreth to WIRY Plattsburgh, N. Y., as news director.

Dick Nesbitt, former sportscaster, WKRC Cincinnati, to KSTP St. Paul as sports director, effective Dec. 13.

Redd Gardner, WBBM-TV Chicago, appointed assistant executive producer.

Stanley Johnson, national sales representative and merchandising director, KCBS San Francisco, promoted to sales account executive.

Hal A. Zogg, account executive, KUTA Salt Lake City, to KUTV (TV) there in same capacity.

George Henning and Robert Cobbins, time salesman, WART Arlington, Va., promoted to account executives; Ron Harold to WART as disc. m.c.

W. Barrett Mayer, formerly with WNEW New York, to time sales staff, WOND Atlantic City, N. J., as national sales representative, headquartering in New York.

Jack Satterfield, formerly with sales dept., WSAZ Huntington, W. Va., to sales dept., WLWD (TV) Dayton, Ohio.

Bill Musler and Colleen Hayden to sales dept., and program dept., respectively, KGVO-TV Missoula, Mont.; Bee Ahl, advertising dept.,

**NETWORKS**

**NBC-TV CITES OWN PROJECT IN BEHALF OF AFFILIATES IN SMALLER MARKETS**

CBS-TV's new Extended Market Plan is being scrutinized by ABC-TV and DuMont. NBC-TV last week said that its own similar plan had been reviewed last summer at an affiliates meeting in Chicago.

While ABC-TV and DuMont had CBS-TV's newly-announced Extended Market Plan (BW, Nov. 29) "under study" last week, NBC-TV asserted it already has been engaged in a similar program which was formulated and announced as early as last summer.

Basically, CBS-TV's formula is designed to extend tv network service to small market affiliates at rates varied from $50-100 per nighttime hour which the network believes will attract formerly-reluctant advertisers.

In answer to BW's query, NBC-TV said its original plans were worked out in consultation with the NBC optional station subcommittee last August and presented to the affiliates at the Chicago meeting in September. The network said that while it considered itself "the first network to initiate action for developing more network programming and more network sales on affiliates in smaller markets," it felt still further effort was needed to enlarge stations' opportunities to increase network volume "without endangering their current revenues."

Toward this end, NBC-TV said it would continue to work closely with the committee representing the network's optional affiliates.

NBC-TV said it already "has made good progress" in its plan to develop more network programming and sales on smaller-market affiliates.

The network's optional affiliate set-up as developed in New York with affiliates had three basic avenues for action:

- Availability of Home, the Imogene Coca Show and Howdy Doody to optional affiliates not ordered by the advertiser for programming with network spots, and
- Use can be made of these shows to build local audience and station revenue from local and spot sales, pending network orders. These three programs have been furnished to optional affiliates since October and NBC-TV said its Today show will be added next month to the three programs already being offered.

NBC-TV disclosed the Home program is being furnished to 31 optional stations, the Coca show to 21 optional stations, and Howdy Doody to 62 such outlets, including stations which have been ordered for one commercial segment of the program. Of the 62 stations being serviced the latter program, 30 stations are receiving them without network commercials. Today will be serviced to 35 options in January, NBC-TV said.

- Creation of a station sales unit "to concentrate full time on getting more NBC advertisers to order more optional stations." This specialized sales unit, NBC-TV said, has been set up under Richard H. Soule, who has been promoted from the network's sales force to serve as station sales representative.

- Offer of a group rate plan to affiliates in small markets which wish to take part. The stations will be available in territorial groups of their choice, scattered territorially, on the last proposal, but because of an inability to group the stations along territorial lines, the plan was not put into effect.

Individual network rates for stations participating in the CBS-TV plan will be set on a network fixed ratio to actual circulation. A special sales unit will be set up and advertisers using all stations in the group will be given a 10% discount which will not be passed on to the stations. CBS-TV will pay affiliates in the group 70% of their gross time charges, less usual deductions. These stations would pay CBS-TV $5 per commercial minute, if they desire live programming, they would pay line costs for interconnecting them.

NBC-TV indicated in its comment that the "problem of increasing network commercial business on television affiliates in smaller markets" is "essentially a problem of advertising economics."

"As a result of our past efforts," NBC-TV claimed it "now averages a longer commercial lineup on its sponsored programs than any other television network."

First part of the plan—that of supplying commercial-less network programs for local sponsorship—was made to permit the small-market station to build circulation faster, and eventually to attract more network sponsors, NBC-TV indicated.

It also noted that its third phase of the plan—that of offering "special incentives"—was premised on the desire of encouraging network advertisers to use the stations but "without jeopardizing sound rate structures."

**Miss Holm Withdraws**

CBS-TV's Honestly, Celeste (Sun., 9:30-10 p.m. EST), starring Celeste Holm and sponsored by Bristol-Meyers, was slated to end its short run with last night's performance. The network announced Thursday that Miss Holm had obtained release from further commitments to the show and had expressed gratitude to both CBS-TV and her sponsor for allowing her to continue. "Her live weekly shows at this point would not allow time for development of the proper show format to display her various talents most suitably," the network announcement said. A replacement show will be announced shortly.
Eight on Bandwagon

CBS-TV reported that as of late last week eight television stations had responded, all “favorably,” to the network’s Extended Market Plan offer [B*T, Nov. 29]. Under the plan, smaller-station markets would be enabled to obtain network service at prices which CBS-TV believes advertisers will find attractive. CBS-TV, which made the offer in a letter to 20 stations, listed the eight respondents as WMSL-TV Decatur, Ala.; KVEC-TV San Luis Obispo, Calif.; WINK-TV Fl. Myers, Fla.; KLIX-TV Twin Falls, Idaho; WFAM-TV Lafayette, Ind.; WBOC-TV Salisbury, Md.; WDXI-TV Jackson, Tenn., and KVOS-TV Bellingham, Wash. No contracts have been signed as yet.

ABC RADIO NAMES FAIRBANKS, CASH

PROMOTION of two ABC Radio executives was announced Thursday by Charles T. Ayres, vice president in charge of the network. Appointments were: William E. Fairbanks, eastern sales manager, to national sales manager, a newly-created post; Norman E. Cash, assistant sales manager, to the post vacated by Mr. Fairbanks.

Mr. Fairbanks, with ABC since Nov. 1950 as a radio account executive, was with NBC’s Research and Sales Promotion Departments from 1933-1942. He then spent two years as network allocation chief with the Office of War Information Radio Bureau in Washington, leaving in 1944 to join Compton Advertising Inc. as manager of its Radio Timebuying Div. In 1945 he was made an assistant account executive at Compton. A year later he joined MBS as account executive and became director of planning. He was appointed eastern sales manager at ABC Radio in April 1952.

Mr. Cash, with NBC for 12 years as director of radio station relations, joined WLW Cincinnati where he was general sales manager before his appointment to ABC Radio in Nov. 1953 as assistant sales manager. Mr. Cash was credited by ABC as having “formulated the original plans for the Quality Radio Group” while with WLW.

ABC-TV Affiliations at 218

SIGNING of WBTV (TV) Charlotte, N. C., and KVEC-TV San Luis Obispo, Calif., as ABC-TV affiliates, bringing the network’s total to 218 stations, was announced last week by Alfred R. Beckman, director of station relations. WBTV, ch. 3 outlet owned by Jefferson Standard Broadcast Co. and operated under the general management of Charles H. Crutchfield, affiliated with ABC-TV Oct. 15. KVEC-TV, ch. 6 station owned by Valley Electric Co. with Les Hacker as general manager, joined the network Nov. 17.

From where I sit
by Joe Marsh

Going—Going—
But Not Gone!

Saturday they got set to auction off “Sis” Brown’s house for non-payment of taxes. Buck Stone from Centerville was the auctioneer. Everybody who came to the auction knew that “Sis” is a war widow.

When Buck began the bidding he said, “Anybody can bid. Just remember that ‘Sis’ and three nice kids happen to live here. Now who’s going to start the bidding?”

There was silence. “Sis,” standing in back, got the point. She reached into her purse for just about all the money she had in the world. “I’ll bid $75,” she said. “Sold,” bellowed Buck and “Sis” had her home back.

From where I sit, Buck Stone used a helping hand instead of a gavel. It was real neighborliness. You know, even in something as small as respecting another’s choice of beverage, a person can be neighborly. You might like buttermilk. I’m “sold” on a temperate glass of beer. And I can’t “buy” anyone’s telling me I’m wrong.

Joe Marsh

PIERRE MENDES-FRANCE, premier of France, is greeted by Brig. Gen. David Sarnoff, board chairman of RCA-NBC, at the RCA Bldg. in New York prior to Mr. France's appearance on NBC's Meet the Press program. L to r: Robert Sarnoff, executive vice president of NBC; Lawrence Spivak, owner-producer and permanent panel member of Meet the Press; Mr. France; Sylvester L. Weaver Jr., NBC president; Gen. Sarnoff; and Henri Bonnet, French ambassador to the U. S.

**Holiday Grid Games**

**Dot Network Schedules**

EXTENSIVE slate of college football games throughout the nation will be offered by radio and television networks on New Year's Day.

NBC will present a simulcast of the Cotton Bowl Game in Dallas between U. of Arkansas and Georgia Tech, starting at 1:45 p.m. EST. Radio coverage will be sponsored by the Crosley Division, Avco Mfg. Corp., Cincinnati. At 4:45 p.m. EST, NBC Radio and NBC-TV will begin coverage of the Rose Bowl Game in Pasadena between U. of Southern California and Ohio State U. under the sponsorship of the Gillette Safety Razor Co., Boston. NBC will carry a telecast of the Tournament of Roses Parade from 12:15-1:45 p.m. EST and a radio broadcast at a time to be announced later under sponsorship of the Minute Maid Corp., New York.

Simulcast of the Orange Bowl Game from Miami between Duke U. and the U. of Nebraska will be carried by CBS, starting at 1:45 p.m. EST. Sponsorship will be by Gillette.

ABC will present a simulcast of the Sugar Bowl Contest from New Orleans between Navy and U. of Mississippi, starting at 1 p.m. EST. Coverage will be sponsored by C. A. Swanson & Sons, Omaha; American Chicle Co., New York, and E-Z-Popcorn Co., Detroit.

Mutual will present two bowl games during the holiday period, starting with the annual Blue-Gray (North-South) Game from the Cramton Bowl in Montgomery, Ala., on Christmas Day between teams to be selected, starting at 1:45 p.m. EST. The contest will be sponsored by Gillette. On Dec. 31 Mutual will carry the Gator Bowl Game between Auburn U. and Baylor U. from Jacksonville, Fla., starting at 1:45 p.m. EST.

**NBC Appoints John Porter**

**Advertising, Promotion Mgr.**

APPOINTMENT of John Porter as manager of NBC's advertising and promotion department was announced Wednesday by Kenneth W. Bilby, NBC vice president for public relations.

Also announced by Mr. Bilby was the promotion of Edward Vane, formerly coordinator of tv network sales promotion, to manager of national sales promotion, the post vacated by Mr. Porter.

Mr. Porter joined NBC in 1950 subsequently rising to manager of national sales promotion.
Booklet Being Published
To Answer Facts Forum Critics

THE first booklet of a two-part Case History of a Smear Campaign is being distributed by Hardy Burt & Assoc., New York, in answer to critics of Facts Forum Inc.

Hardy Burt & Assoc. produces two shows (State of the Nation and Answers for America) of a series of radio and TV programs underwritten by Facts Forum.

The booklet criticizes a number of individuals, groups and newspapers, among them Rep. Wayne Hays (D-Ohio) who has asked that Facts Forum be removed from the list of tax-exempt foundations, and commentator Drew Pearson. The booklet said Facts Forum officials have discovered an apparent "propaganda campaign to destroy Facts Forum" which can be "traced back to the Daily Worker, the official daily organ of the Communist Party."

Facts Forum receives financial support from H. L. Hunt, wealthy Texas oilman. Its news release describes it as a "non-profit, non-partisan public affairs organization."

Olmsted Opening Plant

OLMSTED SOUND STUDIOS, New York, with more than $200,000 invested in construction and equipment, officially opens Dec. 16 when a reception will be held for business leaders and newsmen, according to Henry Olmsted, president. Newly-built studios at 1 E. 45th St., Mr. Olmsted said, will handle all types of sound recording and are equipped for commercial film production. Olmsted Sound will do most of Princeton Film Center's commercial film work in addition to contracting with other firms, he said.

Lewis Sets Up PR Firm

GEORGE Q. LEWIS, talent coordinator for the United Cerebral Palsy campaign for the past two years, has resigned that post, effective Dec. 10, to specialize in radio-TV public relations work. Mr. Lewis, founder of the National Assn. of Gag Writers and former publicity director of WHN New York (now WMGM) and also former exploitation director for MBS, will headquarter at 360 First Ave., New York. Telephone is Spring 7-6210.

KBS Adds Five Stations

STATIONS in four states have joined Keystone Broadcasting System as affiliates, it was announced Tuesday. Stations are WGWR Asheville, N. C.; KOA Ogallala, Neb.; WMRE Monroe and WLFA Lafayette, both Georgia, and KSUE Susanville, Calif. Additions bring total number of KBS affiliates to 786, according to Blanche Stein, station relations director.

PROGRAM SERVICES PEOPLE

George S. Summers, territorial sales manager, Bigelow Carpet Co., Kansas City, to TV Spots, Hollywood, as sales executive, headquartering in New York.

DuMONT LABS SALES INCREASE FROM '53

SALES of Allen B. DuMont Labs for the 40 weeks ended Oct. 10 amounted to $67,593,000 as against $56,896,000 for the same period of 1953, the company reported last week.

Net profits for the 40-week period dropped from $935,000 in 1953 to $672,000 in 1954, and net profit after payment of preferred dividends totaled 22 cents per share of common stock as compared to 36 cents per share in 1953.

A comparative summary of earnings is provided in the following table:

Slow Color Sales in '55, Abrams Tells N. Y. Meeting

SALES of color receivers in 1955 will be small, although the year will see progress in the increased use of transistor-equipped radio and tv sets, Benjamin Abrams, president of Emerson Radio & Phonograph Corp., said Wednesday.

Mr. Abrams revealed that Emerson has discontinued its color set production because its 15-inch receiver already has become "obsolete." He said Emerson's color set production would be resumed when a satisfactory 21-inch tube is available. He said this should be some time in the early part of 1955. While Mr. Abrams did not elaborate on his statement, a spokesman indicated Emerson soon would release further details of its color tv plans. The firm first introduced its color receiver, housing a 15-inch color tube, in September 1953.

Mr. Abrams spoke at a special meeting of representatives of investment trusts, banks and insurance companies at the offices of Hayden, Stone & Co., New York.

He said "contrary to popular anticipation and to the views voiced by some members of the industry," he could not see color tv becoming an important factor next year because of continued high prices for receivers and failure to provide color programming on a substantial and sustained basis.

It was said it would not be until 1956 before color tv plays a vital role in the electronics industry.

Mr. Abrams hailed 1955 as the "introductory year for transistorized receivers" and predicted that within two or three years, the majority of radio and tv sets would contain transistors in place of vacuum tubes. He said radios with transistors will be introduced next year and perhaps some tv receivers. These radios, he noted, will be more compact and audible, and more economical to operate on their own power.

In general, he noted, the future of tv and air conditioning as industries is optimistic. His optimism extended to Emerson's aim to attain a strong position in both, referring the financial representatives to the firm's Six Year Plan that has a $300 million annual sales objective.

Hazardous Occupation

COMMENT from Dr. Albert Einstein that if he could live his life over again he would choose the occupation of plumber, recalled for Orrin E. Dunlap Jr., RCA vice president of press relations and institutional advertising, a similar anecdote in the life of Brig. General David Sarnoff, RCA-NBC board chairman. When Gen. Sarnoff began his electronics career in 1906, wireless was, to most people, only a fantastic dream. When neighbors inquired about the type of work her son was engaged in, Mrs. Sarnoff, embarrassed, would reply "wireless." Neighbors were confused and Mrs. Sarnoff lacked a complete explanation of the "mystery." "What shall I tell them?" she asked her son. "Well, mother," said young David, "just tell them I'm a plumber laying pipes in space." Mr. Dunlap adds: "Gen. Sarnoff has been 'plumbing' in space ever since."
Construction of Tv Equipment Begun by New Fleetwood Corp.

FLEETWOOD CORP., a new firm which will engage in the production and supply of tv equipment for studios, remote and closed-circuit work, is to have its main manufacturing and development organization at 1037 Custee Drive, Toledo, Ohio, according to John W. McGee, company president and former general manager of the Willys Motors Inc. electronics division.

The company plans to produce a complete tv package including both camera and transmitter and expects to have regional showings of its products early next year.

A. R. Bitter will be consultant engineer and educational sales head and Homer Humiston will have the position of chief engineer. Both men held similar positions with Willys.

DuMont Announces New Video Monitor Package

ALLEN B. DUMONT Labs, Instrument Div., announced last week it is placing on the market an "inexpensive" video-signal monitor, primarily for use in tv broadcasting, which is made available by "packaging" the DuMont type 325 tv line selector and 327 cathode-ray oscillograph.

A DuMont spokesman pointed out that virtually any cathode-ray oscillograph becomes a tv broadcast monitor when used in conjunction with the line selector, but said the monitoring performance of such a set-up "is necessarily limited by the characteristics of the oscillograph." He added that for these reasons these two new instruments "were designed to complement each other for use as a package in television work."

RCA Announces New Line Of Electron Receiving Tubes

RCA's Tube Division last week announced a new line of electron receiving tubes which it described as "important to the efficient operation of a 21-inch home color television receiver."

It also announced as commercial products, six types of specially developed electronic components for the deflection and convergence of the three electron beams in the company's 21-inch color tv picture tube.

Lee Holleran, general marketing manager of the division, said the tubes and components are available to set manufacturers. Of the tubes—a beam power tube for use as a horizontal...

**Quick Quiz for Beefeaters**

If you know the answers, you are qualified to converse (or argue) with authority in the company of visiting cowboys, eminent economists or the waiter who serves you your steak.

**Q. Which steer will make choice grade beef?**

A. The grade of the meat can't be established definitely until after the steer is dressed. But to be a buyer for a meat packing plant you'd have to be able to judge not only what the grade will be, but the meat yield within 1/2.

**Q. How many pounds of beef in a 1000-lb. steer?**

A. Dressing percentage varies from one animal to another but on the average, a steer that weighs in at 1000 lbs. "slanks down" to 650 lbs. of dressed beef. A steer that brings 50c per lb. on the hoof (for example) actually costs the packer about 45c per lb. for the beef.

**Q. Where does sirloin steak come from?**

A. On the side of beef pictured, the sirloin section is No. 4. Only about 8% of a side of beef is sirloin. There is over 6 times as much pot roast, stew meat and hamburger in a side of beef.

**Q. Which is the best steak for broiling?**

A. Opinions differ, but if you name Porterhouse as your first choice, remember there are only a few cuts of Porterhouse on a 300-lb. side of beef. That's why it naturally costs more.

**American Meat Institute**

Headquarters, Chicago • Members throughout the U. S.
deflection amplifier; a sharp-cutoff beam triode for application as a shunt voltage regulator, and a half-wave vacuum rectifier for use as a damper diode—Mr. Holleran said they are designed specifically with operating characteristics that match circuit requirements of the RCA 21-inch color kinescope. He described the six components available as: a deflecting yoke; two types of dynamic-convergence inductor packs; a converging magnet assembly; a horizontal-output and high-voltage transformer, and a vertical-deflection-output transformer.

Three New Offices Opened
By Mycalex Corp. of America

MYCALEX Corp. of America, Clifton, N. J., producer of glass-bonded mica products used in radio and television equipment, has announced the opening of new sales offices in Los Angeles, Chicago, and Minneapolis.

Kenneth V. Tindall will manage the Pacific Sales Div., 5675 Wilshire Blvd., Los Angeles, which covers California, Oregon, Washington, Utah, Idaho, Montana, Wyoming, Colorado, New Mexico, Arizona and Nevada.

Leslie F. Thompson was named manager of the Chicago branch, 6677 N. Northwest Highway, serving Illinois, Iowa, Indiana and Eastern Wisconsin.

D. A. Schulz heads the Minneapolis office, 801 S. E. 8th St., servicing Minnesota and Western Wisconsin.

Stromberg-Carlson Dividend

DIVIDEND of 564 cents per share on 4 1/2% convertible preferred stock has been declared by the board of directors of Stromberg-Carlson Co., Rochester. Dividend is payable Jan. 1 to stockholders of record at close of business Dec. 15. The board also declared a dividend of 40 cents per share on common stock payable Dec. 31 to stockholders of record Dec. 15.

Raytheon Starts New Plant

RAYTHEON MFG. Co. started construction last week on a new $1.5 million electronics laboratory for engineering and research at Wayland, Mass., near Boston. When completed, the building will have 150,000 sq. ft. of floor space, according to Charles F. Adams Jr., Raytheon president.

GE Shifts Phase to Clyde, N.Y.

ENGINEERING and the manufacture of General Electric germanium rectifiers and diodes will be centered at GE’s Clyde, N. Y., plant. H. Brainard Fancher, general manager of germanium products, said last week. He said engineering design and development of rectifiers and diodes will be transferred from Electronics Park in Syracuse to the Clyde plant. At the same time, James E. Kiester, GE’s manager of engineering for germanium products, announced the appointment of Raymond A. York as manager of germanium diode and rectifier engineering.

MANUFACTURING PEOPLE

Alexander Kidd elected vice president, Stewart-Warner Corp. (radio-television sets), Chicago.

Paul G. O’Rielly appointed director of labor relations, broadcasting div., Allen B. DuMont Labs, N. Y.

Fred L. Gordon, former advertising production manager, Necchi-Elna Sewing Machine Co., N. Y., named to newly-created position of advertising production manager, CBS-Columbia, Long Island City, N. Y.

E. Gordon Burlingham appointed to newly-created position, sales service manager, CBS-Hytron, Danvers, Mass.

Lou Smith appointed factory representative, Ampex Electronic Corp., Hicksville, L. I., N. Y., for metropolitan areas of Chicago and Milwaukee.

CBS Sets Rate Increases

For TV Network Stations

RATE INCREASES for Canadian television network stations, effective Jan. 1, have been announced by the Canadian Broadcasting Corp. at Toronto. Network rates on CBC-owned stations are up from 5 to 10%, and independent stations have had their network rates upped on CBC network. Advertisers are given protection to June 30, 1955, for the rates in force since Oct. 1, 1954. Total of 13 tv stations are affected by these new rate increases.

CBS stations affected are CBLT (TV) Toronto (with the highest Canadian tv rate of $930 an hour Class A time), CBOT (TV) Ottawa, CBMT (TV) and CBFT (TV) Montreal, CBWT (TV) Winnipeg, and CBUT (TV) Vancouver. Independent stations affected are CJCB (TV) Sydney, CKLW (TV) Windsor, CFSQ (TV) Saskatoon, CHCT (TV) Calgary and CFRN (TV) Edmonton.

Egyptian Proposes Use of Tv

To Lessen Nation’s Illiteracy

A PROPOSAL for using tv to attack illiteracy in Egypt, said to total about a third of its 22 millions of people, was advanced in New York last week by Mrs. Doria Shafik, lecturer, woman suffragist and a leading feminist in Egypt.

Mrs. Shafik, on a lecture tour, said that upon her return to Egypt soon she would present her proposal, which includes construction of a $10 million, six-station tv network, to the Egyptian Government. She said her program, already discussed with American tv engineers, calls for stations in Alexandria, Tanta, Cairo, Benesov, Mineh and Assout. Reading and writing instructions would be telecast an hour daily over the network which would be financed by the Government. Telecasts would be received at several thousand "social centers" around the country. Mrs. Shafik’s idea was a result of impressions in her U. S. travels in which she noted the possibilities of tv to reduce her country’s high percentage of population that neither reads nor writes.

CBC-CARITB Talks Presage

Spot Announcement Change

CHANGES in Canadian Broadcasting Corp. regulations regarding the number of spot and flash announcements in any one hour are expected as a result of discussions between CBC officials, including board chairman A. D. Dunton and General Manager J. A. Oulmet, and representatives of the Canadian Assn. of Radio & Television Broadcasters. CARITB representatives asked that CBC regulation 7 (2) be changed to permit independent stations to average their daily number of spot and flash announcements, rather than the present limit of a set number per hour. Further meetings within the CBC are to be held on the subject, to be followed by more discussions between CARITB and CBC.

New Frankfort-Main Office

Opened by A. C. Nielsen Co.

GERMAN and international clients will receive retail food and drug sales reports from a new office opened by A. C. Nielsen Co. in Frankfort-Main to serve West Germany, the market research firm announced Nov. 26. The company’s seventh foreign affiliate will be designated A. C. Nielsen G. m. b. H., with

headquarters at Hassengasse 25 in Frankfort-Main, and will include another office in Lucerne, Switzerland. The company will operate under Justin Power, a director of A. C. Niel- sen Co. Ltd., Oxford, and under general supervision of Dr. E. L. Lloyd, vice chairman of the British outlet and executive vice president of the parent company in Chicago.

New German office opening marks the eighth country in which the Nielsen service has been set up, including the U.S.

New Market Reports Planned

NEW series of radio and television reports will be issued monthly for three major Canadian markets, Toronto, Montreal and Vancouver, by International Surveys Ltd., Toronto. The surveys will combine radio-television reports on panels of homes in these three markets with reports for daytime, late evening and Sunday listening and viewing. The reports will show audience flow to and from programs, unduplicated audiences of two or more programs, audience characteristics and other features. The reports are to be published monthly under direction of Paul Haynes, president of International Surveys Ltd., and Peter R. Colos, vice president and radio-television director.

Baker, Canadian Adman, Dies

HOWARD F. BAKER, 50, vice president of Baker Adv. Agency, Toronto, died on Nov. 27 at his Toronto home after two heart attacks, caused by the excitement of watching television final Canadian Grey Cup football game. Mr. Baker was born and educated at Toronto and for the past 31 years has been with the advertising agency founded by his father. Mr. Baker was a past president of the Canadian Advertising Agency Assn. He is survived by his wife, two daughters and two brothers. One brother, W. R. Baker, is president of the agency.

Strike Hampers CBHT (TV)

Despite a strike in the steel industry which has delayed erection of the 500-ft. RCA wavelack antenna for CBHT (TV) Halifax, the ch. 3 station plans to go the air with a temporary antenna before Christmas, according to W. E. S. Briggs, Canadian Broadcasting Corp. director of the Maritime Region.

INTERNATIONAL PEOPLE

M. M. Schneckenburger, advertising manager, Distillers Corp.-Seagrams Ltd., Montreal, to Joseph E. Seagram & Sons Ltd., same city, as vice president.

R. W. McGa11, director of radio, CBL and CJBC Toronto, to CBL (TV) Toronto, as program director, succeeding Robert Allen who returned to former post, director of tv drama production, Canadian Broadcasting Corp. tv program headquarters, Toronto; John Kane- win, supervisor of radio presentations, CBC, to CBL and CJBC as acting director.

Larry Glover to CKCK-TV Regina, Sask., as production manager; Lloyd Westmoreland, formerly with CKOC Hamilton, Ont., to CKCK- TV as sales manager; William Rees to station as promotion director; Lloyd J. Saunders to station as sports director; Jim McLeod to CKCK- TV as news director; Rita Spicer to station as women's director; E. A. Strong and Alex White to CKCK-TV as chief engineer and assistant engineer respectively.
SAG WOULD NARROW FILM, LIVE RATE GAP

Guild will ask minimum wage for each commercial made with payment at time services are performed.

FURTHER information on Screen Actors Guild demands in forthcoming negotiations with film producers in tv commercial and program fields [B&T, Nov. 22] was received this week by John L. Dales, SAG national executive secretary, in the monthly Intelligence Bulletin issued to members and the press.

In addition to general wage increases for film commercials, SAG will ask that actors be paid at least Guild minimum “for each and every commercial made in a day or a session,” with payment at the time services are performed. SAG intends to bring film commercial rates “more closely in line with live commercial rates,” Mr. Dales commented.

Guild also will seek to “tighten up” provisions in the present contract regarding editing privileges and to extend contract coverage to commercials filmed abroad. The tv film commercial contract expires March 1, 1955.

To eliminate the present producer practice of hiring actors for leading roles at minimum rates in tv entertainment films, Mr. Dales will seek both minimum increases and establishment of a “sliding scale” system of minimum payments. Elaborating on “sliding scale,” he told members that, for example, different rates would prevail for minor roles with only a few lines than for more important parts.

The Guild will no longer agree to second runs for tv entertainment films without residuals to actors involved, the national secretary stated. Stressing that the financial condition of the tv industry has "improved greatly" since negotiation of the current contract, which permits first and second showings of such films for actors' initial salary payment, Mr. Dales stated, "The actor, at present, is giving away a second run of great value to the sponsor who shows it." The tv entertainment film contract expires July 20, 1955.

Also in the Bulletin, SAG officials revealed they have been discussing with H. R. Landow, U. S. Immigration and Naturalization Service district director, importation of foreign actors. In a published letter to SAG, Mr. Landon said, in part:

"The prospective employer who wishes to import an alien actor should be required to certify that the compensation to be paid to the alien's work here is sufficient to justify the phrase of the law, "service of an exceptional nature requiring such merit and ability." In our considered opinion, the compensation should be at least $1,500 a week. In this connection, we understand the New York district office . . . now requires that a nonresident alien receive at least $1,500 for one performance in live tv in order to qualify under the "distinguished merit and ability" clause. Actors' salaries on tv are somewhat lower than in theatrical motion pictures. It would also seem that the prospective employer should certify that the alien actor he wishes to import is to play a starring or featured (Mr. Landow's emphasis) role and not one which ordinarily would be played by a resident professional actor . . . ."

Hollywood producer Bernard Tabakin and the syndicated tv film series "China Smith" are no longer on the SAG unfair list, the Bulletin further revealed. Guild has reached an agreement with Mr. Tabakin on residual payments due actors from previous series films and actors are now receiving payments, Guild officials said.

Two additional Cleveland film companies, Coleman Motion Pictures and Reynold & Howe Film Assn., have refused to sign SAG contracts and are on the Guild unfair list, union officials noted. Griswold-Eshleman Co., Cleveland advertising firm, has signed the Guild code, leaving Foster & Davies Inc. the only one of 46 area agencies on the unfair list, according to the Bulletin.

SAG financial surplus for the period ended Oct. 31 reached $656,251, despite the fact that the year's operating expenses exceeded the income from dues and initiation fees by $9,323. However, the Bulletin states, "substantial" income from other sources, including $38,261 from dividends, interest and profits on investments, and $19,645 in damage settlements on employers in union security breaches, helped erase the deficit.

While Hollywood membership declined slightly, SAG has gained 225 members in other cities, raising the total of paid-up members from 8,213 last year to 8,370 this year.

Supervisors Strike Dropped

THE MONTH-long strike by Script Supervisors Guild against the Alliance of Television Film Producers has been called off as a result of meetings held under the auspices of the Hollywood AFL Film Council. Negotiations are to be resumed and "both parties are confident that mutual areas of understanding will be reached," according to a joint statement. The strike, which featured no picket lines, followed AFJFP's refusal to grant the film industry-wide 5% wage increase.

J. R. Sawyer (l), NRTS president, explains the various training programs offered by the school to Clifford Gill of Clifford Gill Agency, Los Angeles, and Mrs. Gill. The new school, located at 1440 N. Highland in a space formerly occupied by ABC, has been completely renovated and furnished with $27,000 worth of radio-television equipment.

Chicago Museum to House WTTW (TV) Headquarters

CHICAGO's forthcoming non-commercial educational station will be located in the city's Museum of Science and Industry when it goes on the air sometime in 1955.

The Chicago Educational Television Assn., permittee of WTTW (TV), on ch. 11, reported it had signed a three-year pact with the museum, headed by J. M. Cleves Riley Lohr, onetime NBC president, covering studios and office space. Announcement was made Tuesday by Dr. John W. Taylor, executive director of CETA.

The museum will set aside about 13,000 square feet for two studios, a master control room, a film studio and executive offices in its east wing. WTTW also will use a theatre in the west wing of the building, located on the shoreline of Chicago's south side. Theatre is equipped with coaxial cable.

Mesics Addresses RCA Grads

COMMENCEMENT exercises were held last week for 197 graduates of RCA Institutes Inc., New York, radio technical training school. Among the graduates were students from 10 foreign countries as well as the U. S. Members of the fall term class have completed courses in radio-television broadcasting, servicing, advanced technology and radiotelegraph operating. Commencement address was delivered by Emil A. Mesics, director of personnel, RCA International Division.
PAUL BUNYAN STATION
PAUL BUNYAN, for the past two years the advertising symbol of WCWO Minneapolis-St. Paul, is traveling to agencies and advertisers in a sheath of ad reprints of the station, symbolizing his bigness as WCWO's bigness. The nine Paul Bunyan ads, reprinted from leading broadcasting industry publications, all plug the station's largeness in some degree. They are contained in a yellow folder titled "Bigger than Bunyan," which includes a message from Larry Haag, general manager of the station, who says "... only WCWO Radio has the power and coverage to bring you gigantic sales in the rich four-state Northwest."

EDUCATIONAL SERIES
RUTGERS U.'s educational TV series on WATV (TV) Newark, N. J., has been deemed a success by the school, as it reviewed its first year of telecasting. During its beginning year in which the programs featured were concerned with art, mathematics, conservation, geography, entomology and languages, the shows received a total of 2,824 letters from interested listeners.

KDKA CHICAGO FARM REPORTS
DAILY broadcasts from the International Livestock Exposition and the National 4-H Club Congress from Chicago were featured on the Farm Hour of KDKA Pittsburgh Nov. 29 through Dec. 3 by Homer Martz, the station's agricultural director. The special Chicago reports were presented through the cooperation of the Producers Livestock Cooperative Assn. of Pittsburgh, an organization which provides marketing and related services to livestock men of the Tri-State area. The reports consists of interviews with KDKA area exhibitors at the show and 4-H Club members who are winners of state and national awards and special features dealing with the two meetings.

WRC-TV 'SHADOW STUMPERS'
WRC-TV Washington, D. C., is featuring a five-minute each weekday night Shadow Stumpers program in which the shadow of some familiar object is flashed on a screen and the audience is required to identify the object before a buzzer sounds. Each program features a special shadow puzzle for which home viewers who send in correct identifications will be awarded $25 savings bonds.

TWO WAVE CONTESTS
WAVE Louisville, Ky., is conducting two contests simultaneously to provoke listener interest in the station. Twenty-five portable radios are being given away to the listeners called at random who are able to identify the voice of the WAVE or NBC star which is being broadcast on station identifications throughout the day. Listeners also are being encouraged to write letters of 25 words or less for a radio-tv-phonograph combination or one of two resort vacations.

KSTV BOOTH
MORE than 10,000 visitors registered at the booth of KSTV Stephenville, Tex., during the Stephenville Centennial. The station moved its United Press teletype to the celebration, and all news, weather and feature programs were originated from the booth. KSTV also gave away radios at the event and provided ice water to the visitors.

WBZ COVERS FIRE
COMPLETE, on-the-scene coverage of a $1.5 million fire Nov. 21 was carried by WBZ Lock Haven, Pa., Harris Lipe, general manager, has reported. Mr. Lipez made nine 15-minute newscasts between 5:30 p.m. and midnight from a store across the street from the fire, which destroyed a half-block section in the

"OUR BEST PORTABLE RECORDER YET"
says Richard Parks, Asst. Chief Engineer, ABC, San Francisco

"This new Ampex 600 really fills a need. We like it. It's light. It's compact. And its fidelity and timing accuracy leave nothing to be desired. Now no matter how important the program material, we can send the 600 out after it. The results that come back are as good as we could have recorded inside our studio on Ampex 350s. For program protection the 600's third head is an excellent feature. The engineer monitors as he records. There's no guesswork. The recording is always right."

"The photo shows Bill Adams, our farm reporter. He has made extensive use of the 600 for farm interviews."

NOW THERE'S AN AMPEX FOR EVERY BROADCAST NEED

The new 600 completes the Ampex line. In any station it's an ideal portable, and for many it's an all-purpose machine. The Ampex 600 fits limited space and limited budgets, but does an unlimited job. Base price is $498. In portable case it's $545. The Ampex 620, a portable amplifier-speaker unit in matching case is a superb quality monitoring unit, usable inside or out; price is $149.50.

The Ampex 350 is the versatile broadcast studio machine. It has a remote control plug-in, two speeds, 10 1/2-inch reels, easy editing and quick accessibility for service. Its durability defies time and hard usage.

Bulletins on the low cost Ampex 600, the versatile 350, the 450 eight-hour reproducer and the Ampex Tape Duplicator are available on request. Write today to Dept. D-188.

heart of town. The store's telephone was connected to the station's beep system. WBZ interrupted its regular schedule for the fire coverage. Broadcasts were made to WRAK Williamsport and to AP and UP news services.

‘NBC TRAVEL BUREAU’

NBC Radio began a new program, ‘NBC Travel Bureau,’ Nov. 20 (7-7:05 p.m. EST) and Nov. 21 (10:30-35 p.m. EST), serving as a twice-weekly clearing house for listeners who are prospective vacationers abroad. Horace Sutton, travel expert and author of a syndicated travel column appearing in the Saturday Review and various travel books, conducts the program, answering questions on methods of travel, expenses, budgets, sights to see, places to eat and even the amount of tip for a porter or rickshaw driver.

Advance Schedule
Of Network Color Shows

CHCH-TV WOMEN’S SHOW

CHCH-TV Hamilton, Ont., has started an afternoon women's program, 'The Teddy Forward Show,' between 1:30 and 2:30 p.m., Mondays through Fridays. It includes such features as decorating tips, interviews, fashions, hobbies and household hints. A guest chef daily prepares a main dish on the kitchen portion of the show. A special section of the program featuring Christmas decorations is being telecast during December.

SMOKE-EATING ANNOUNCER

WHEN a fire broke out in the Mohican Hotel, which houses the studios of WNLC New Haven, Conn., John Leffingwell, announcer at the station, broadcast a running account of the blaze while it burned around him. Mr. Leffingwell was airing a local news summary when the fire occurred, breaking out on the main floor and shooting up to WNLC's second floor studios. He continued his broadcast, giving a description of the hotel's evacuation and the progress of the fire fighting. Mr. Leffingwell, who had to shut off his microphone intermittently to cough from the heavy smoke, later was relieved by the station news staff. Damage to WNLC's studios was heavy, but all of the engineering equipment was intact, and the station continued on the air.

RUTH LYONS FLIGHT

EIGHTY-FOUR young men joined the 'Ruth Lyons Flight' when the WLWT (TV) Cincinnati personality staged a drive to aid Air Force recruitment in the area. The campaign, which was plugged between Nov. 11, Veteran's Day, and Nov. 25, Thanksgiving, was expected to enroll only 60 persons, and thus far has exceeded Air Force expectations. WLWT believes this is the first time an Air Force flight has been named for a tv personality.

WLOS-TV SET COUNT

COMPARISON by counties of the circulation of the Asheville (N. C.) Citizen-Times and the tv set count of WLOS-TV Asheville in the newspaper's circulation area has been prepared by the station. In the 20-county report, the families and tv sets of each and the papers' daily and Sunday circulation of each are compared side-by-side. The chart shows the station's total 20-county set count to be 50,923, based on a Nov. 1 report of the A. C. Nielsen Co. The paper's circulation, from the Sept. 20 ABC Audit Reports, is 54,997 daily and 49,887 on Sundays.

WJAG HOSPITAL PROGRAM

AN ANNIVERSARY has been celebrated by WJAG Norfolk, Neb., for a program which has been produced and directed by patients of the State Mental Hospital in Norfolk for the past 23 years. In 1931, Art Thomas, then manager of WJAG, happened to attend a musical show staged by the hospital, and decided to help it in producing a series of programs. Since then, the 15-minute musical and recreational therapy show has been aired continuously two Sundays a month. Mrs. Louie Young, director of music for the program, reports the series "has achieved nation-wide recognition among mental state hospitals" since its inception and believes it is the only continuous show of its type in the country.

KITE MAILING PIECES

AMONG the latest promotional mailing pieces of KITE San Antonio, Tex., are a plastic strainer and a hot pot holder. The strainer, made to fit the top of a cocktail shaker, carry...
ried the sales admonition, "Don't strain your nerves—don't strain your eyes. Just relax and listen to Radio KITE, half past nine on any dial." The pot holder carries the kite emblem of the station with the "half past nine" (930 kc) reminder.

KGW EDITORIAL PROGRAM

New weekday program expressing the editorial opinions of KGW Portland, Ore., on public issues has been inaugurated by the station to answer "... a real need for clear, unafraid thinking on the part of radio as a respected member of this community." KGW reports long and careful planning preceded the show's debut, with the announcement being delayed by the formation of an editorial advisory board composed of local leaders to serve as a guide to the station's own editorial board in determining the issues and topics of the program. The board also serves as a resource of persons in widely varying fields for the editorial writer of the program. A "Backtalk" section is included in the program, expressing listener reaction to the public issues. The project is supervised by Thomas D. Rishworth, assistant manager of KGW.

PLANT DEDICATION COVERAGE

WKBR, WPEA, WMUR-AM-TV, all Manchester, N. H., and WBZ-TV Boston carried the dedication ceremonies of the Inslun Corp. of America headquarters in Manchester. The company supplies about 2,000 different electronic, radio, tv and radar parts to private industry and the armed forces.

HOT SHOTS PARTY

THE HOT SHOTS, WTMJ-AM-TV Milwaukee western music group, celebrated their second anniversary with a five-hour party attended by 2,500 paying admirers of the latter. Ballroom at the party were entertainers who had appeared on The Hot Shots shows.

WHBC HOSTS FOOTBALL BANQUET

CITATIONS were presented to local football stars at the 10th annual High School Football Awards Banquet with WHBC Canton, Ohio, as host. Individual players, the most valuable player and the coaches of the year were selected for honors by the coaches of the county. Of the 117 people at the banquet, 44 were high school football players and the rest were sports coaches and sponsors of WHBC sports programs.

FOUR NEW WBAP-TV SHOWS

WBAP-TV Fort Worth, Tex., has instituted a program schedule which provides four new shows Monday through Friday. From 11 a.m. to noon, Texas Living, a women's show, is being presented, the station reports. At 12, Neal Jones, station personality, emcees The Jones Place, a low key variety program, until 12:45 p.m. Curtain Call, featuring cartoons and movies, is presented from then until 2 p.m. Tricks and Treats, a children's program lighted by cartoons, a film serial and magic tricks, is the fare from 4:30-5:30 p.m.

SHERIFF SCOTTY HONOR

PENNY, nickel and dime contributions from the young fans of Sheriff Scotty, KLZ-TV Denver, were donated for the purchase of an electric clock engraved with a note thanking the show's star, Ed Scott, for his contributions in the fight against juvenile delinquency. The presentation was made by a judge of the Denver Juvenile Court on behalf of the boys of the YMCA and the school children of the city.

TELESTATUS
Tv Stations on the Air With Market Set Count
And Reports of Grantees’ Target Dates

Editor’s note: This directory is weekly status report of (1) stations that are operating as commercial and educational outlets and (2) grantees. Triangle (Δ) indicates stations now on air with regular programing. Each is listed in the city where it is licensed. Stations, w/vh or uhf, report respective set estimates of their coverage areas. Where estimates differ among stations in same city, separate figures are shown for each as claimed. Set estimates are from the station. Further queries about the station should be directed to that source. Total U.S. sets in use is unduplicated 30T estimate. Stations not preceded by triangle (Δ) are grantees, not yet operating.

Chico—
> KISSL-TV (12) ABC, CBS, NBC, DuM; Avery-Knodel; 46,203

Total stations on air in U. S. and possessions: 410; total cities with stations on air: 276. Both totals include XEJ-TV Juarez and XETV (TV) Tijuana, now off the air as educational outlets that are operating. Total sets in use 34,218,312, *includes professional stations + includes interconnected to receive network service.

(a) Figure does not include 355,013 sets which WBEN-TV Buffalo reports it serves in Canada, (b) Number of sets list currently reported by WHAS-TV Louisville, Ky. Last report was 2,254 only on 11, 9/1/54.

(c) The following stations have suspended regular operations but are not turned in C.P.P’s: WAKA-TV Mobile, Ala.; KJLL-FM Fresno, Calif.; KTHW (TV) Oklahoma City, and WTVY (TV) in Georgia and Charlotte, N.C.; WRAY-TV Princeton, Ind.; WRKO-TV Louisville, Ky.; KZTV AZ (TV) Phoenix, Ariz.; WAB (TV) Duluth, Minn.; WOCW-TV Meridian, Miss.; KACY (TV) Appleton, Wis.; KOPP-TV Butte, Mont.; WFFG-TV Atlantic City, N. J.; WTVE (TV) Elms, N. Y.; WOAC-DT Dayton, Ohio; WLBW-TV Lebanon, Pa.; WJFK-TV Pittsburgh, Pa.; KETX TV Tyler, Tex.; KTVT (TV) Tyler, Tex.; WTVT-TV Norfolk, Va.

Drop the compass overboard—the skipper’s eyes are better than radar for keeping him straight and true on Channel 8.

Most folks in Fulton, N. Y., can’t tell a mizzennast from a main bearing, but one thing they’re sure of—When-TV is the greatest thing since the invention of water-wings.

In Fulton, as in 250 similar communities, people love their daily cruise on Channel 8. And they get really steamed up about the goodies they see on their travels. Buy everything in sight, they do! Want to be a part of call on the most heavily traveled route in upstate New York?

**What's the Rush?**

In PETITIONING for quick authorization of subscription television, Zenith Radio Corp. has asked the FCC to rush a decision on an issue which should be examined with deliberation and utmost care.

Not since it issued its television allocations report, ending the long freeze and opening the way for vast TV expansion, has the FCC had before it an issue of such profound importance as subscription television. The future of television broadcasters, advertisers, agencies and others associated in the business. It is also a matter of significant public concern.

The introduction of subscription TV service would inevitably affect the status of television as an advertising medium, disturb conventional viewing habits of the television audience and influence the basic economic structure of the medium.

We do not know—nor does anyone else—whether these effects would be good or bad, would constitute a net improvement or degradation of the U.S. television system, would provide the public with an increase in the number and variety of TV programs or a loss.

To date the only extensive comment on the subject of subscription television has come from interests associated with the technical development of subscription TV. If others have thought about the subject, they have kept their thoughts quiet. At this stage the FCC has an absolutely one-sided case to consider.

In its petition for early approval of pay-as-you-see television, Zenith said that there was now an absence of empirical knowledge of the effects that might be generated by such a system. That is undeniable as is also the fact that opinion on the subject would of necessity be speculative.

But even speculation can be valuable if it comes from people of intelligence and experience in television broadcasting and advertising. It can be particularly valuable if it comes from a good across-sector of interests in the field.

If the FCC is to act in the public interest in this case, it should invite comments before it acts. And the best minds in the business should accept the invitation as a command performance.

**Nine Out of Ten . . .**

Nine out of ten in the business of broadcasting ask: "Is the FCC more political under Eisenhower than it was under Truman?"

The answer is that it probably would be if the GOP politicians had their way. But the eyes of Congress are upon it—probing, penetrating Democratic eyes.

There's no question about the original intent of the party political leaders, out to make up for 20 years of patronage famine. They saw in television, patronage rewards that would make pygmies of those postmasters, public works, rivers and harbors and other erstwhile spoils that belong to the victors.

But they didn't reckon with the opposition. Hardly an action of the FCC escapes the notice of Capitol Hill. If the Senators or Congressmen themselves do not get the word at first-hand, their assistants or the committee experts on communications do. The Bricker network investigation committee, whatever its ultimate fate, watches the FCC's every move. And what the legislators don't learn at the staff level they're almost certain to get from broadcaster competitors of those about to be appointed.

Politics, to a greater or less extent, has been a factor with every Commission since regulation of communications began in 1927. It has been more brazen with some commissions than with others. That is a situation not peculiar to the FCC; it has permeated most of the regulatory agencies. Usually the only ones who talk about it out loud are the political adversaries of those in office for the nonce. It works the same way in reverse, Republican or Democratic.

The point is that the GOP team, whatever its intent, has goofed aplenty. Stalwart Republicans, who were with Ike before Chicago, are disillusioned. Among them are many newspapers who feel the Republican FCC has out-dealt the New Deal on the newspaper-ownership philosophy, under the guise of "diversification" of media. Many GOP job-hunters are still looking.

The stunning blow was the loss of the Nov. 2 elections and the imminent return in January of a Democrat-led Congress. Irate Republicans are pointing the finger at the patronage battery of GOP Chairman Leonard W. Hall and Assistant to the President Sherman Adams. We wouldn't know how they've done on the whole front, but in the communications sector, they haven't won many contests. Doubtless that's the reason there's talk of a new battery when early training begins for the new Congressional season in January.

**Does Biggest Mean Best?**

"The dollar volume of advertising in newspapers is greater than that of all . . . radio, magazines, TV put together": Statement by James Gediman, executive vice president, the American Weekly and Puck, The Comic Weekly.

"Certainly we should not embrace the newspaper as the best merely because it is the oldest. But I suggest it is equally judicious not to embrace television as the best merely because it is the newest":

There is a delightful inconsistency of argument in this assemblage of observations, relatively factual though each may be. They are culled from a speech by Mr. Gediman at the American Assn. of Advertising Agencies eastern annual conference in New York a fortnight ago [BT, Nov. 29].

Taking his reference to the magnitude of newspapers' advertising volume, is it his point that newspapers are best because they're biggest? If this is his standard, we are constrained to observe that the broadcast media have made whopping strides and are still eating up the distance despite newspapers' hundred-year jump. If so, again, what is the point about the "frequently forgotten" fact that "both TV and radio tend to be used with thoroughgoing frequency and adequacy"? Is this a slur on their effectiveness as advertising media, and on the business judgment of the advertisers?

As for the basis to be used in selecting media to "embrace," as Mr. Gediman puts it, would it not be most sensible to embrace the ones with demonstrated ability to sell most for least? Like radio and TV, for instance.

Mr. Gediman also noted that among $25,000-and-more advertisers last year, 57% of those who used network radio at all used it to the tune of $1 million or more for time only (56% in the case of TV). Would it be out of line to suggest that these advertisers have found the broadcast media worth the money and that their broadcast advertising, in the national spot as well as network fields, have contributed to their success and their ability to put more and more into broadcasting?
AN EXPERT SHOW... because all the stars are experts

HOMEMAKERS' INSTITUTE

Each personality on Homemakers' Institute is an expert in her own field, chosen for this show because she is an expert. This brings talent, knowledge and entertainment to thousands of housewives in the WBAL-TV audience.

Monday thru Friday, 1:30 to 2:30 PM... what housewife isn't ready to relax at this hour? It's lunch time... the time they sit down for an hour and treat themselves to learning more about everything that interests them most.

Known as the "Women's Magazine of the Air", Homemakers' Institute combines all the factors usually found in several different magazines. It's a 60 minute, fast moving session, divided into three sections; cooking and kitchen demonstrations—news for women, including interviews with famous guests—fashion highlights.

And better yet, Homemakers' Institute is backed by merchandising to help food brokers, appliance distributors and sales representatives.
