THE NEWSWEEKLY
OF RADIO AND TV

24th year

OMAHA. For 42 consecutive months KOWH has been No. 1 ... March-April 1955 daytime average Hooper: 45.8%. KOWH “owns” every single daytime quarter hour in the Omaha air day. Wide coverage, too, on 660 kc. KOWH gets live results for its local and national advertisers. Get H-R or General Manager Virgil Sharpe to tell you about it.

KANSAS CITY. It’s unanimous in Kansas City. WHB leads in all 3 major surveys — Hooper (49.5%, March-April 1955 daytime average) ... Pulse and Trendex. And remember, WHB has been under Mid-Continent ownership management less than a year. 10,000 watts, on 710 kc. Talk to John Blair, or General Manager George W. Armstrong about K.C. sales.

NEW ORLEANS. From 11th to 1st among 11 stations in only a year—that’s the record of WTIX, now first in New Orleans with a daytime Hooper of 21.5% (April, 1955). Second station, 16.1%. An old New Orleans tradition is giving way to a new one—for listening, for time-buying. Chat with Adam J. Young, Jr. or General Manager Fred Berthelson.

KELLOGG

Traditionally in the Public Confidence...

Kellogg's cereals are custom built for enjoying the finer things in life. Kellogg food scientists work constantly seeking new ways to make breakfast meals more enjoyable in taste, more beneficial in nutrition. In the field of broadcasting, the Havens & Martin, Inc., Stations are distinguished for programs scientifically tailored to the viewing and listening habits of a vast and loyal audience in one of the South's richest areas. The wide appeal of these "custom built" programs makes it easy for advertisers over Richmond's only complete broadcasting institution to convert an unusually responsive audience into sales. Join with confidence the growing list of advertisers who use the First Stations of Virginia—WMBG-AM, WCOD-FM and WTVR-TV—for their advertising needs.

a good question needs a good answer

Station Accounts: Oldsmobile dealer Harlan Lane has bought all-night telethon on KGUL-TV May 6, running 10:30 p.m. to 7 a.m., with 2 hours of simulcasting on radio KNIT and costing reported $6000, besides fee for comic Jerry Colonna, m.c. Report isn't in yet whether he sold all 100 new & used cars on floor—but gimmick of having salesroom as "studio," letting customers be televised signing up, serving doughnuts & coffee, all heralded in full-page ads in city's newspapers, is unique in TV's commercial annals.

Television Digest May 9, 1955

Q.

AUTOTHON
Lane Sells 100 Cars
On TV

The nation's first all-night TV Deal-O-Rama signed off the air at 8 a.m. Saturday, and weary but enthusiastic Lane Oldsmobile officials totaled up their sales.

Over 100 new and used cars hit the auction block in a night of televised buying and selling that Charles Lane, firm general manager, termed "nothing short of a tremendous success."

"It's wonderful," he beamed. "And what's more, we expect to sell 100 more cars by 10 o'clock tonight. We'll be here all day.

The Lane-sponsored autothon started at 11:30 p.m. Friday with Jerry Colonna as emcee and a host of local entertainers between sales. At 7 a.m. Saturday—sign off time—trading was so hot that Lane officials extended the telecast for an extra hour.

Published every Monday, with Yearbook Numbers (53rd and 54th issues) published in January and July by Broadcasting Publications, Inc., 1225 DeSales St., N.W., Washington 6, D. C. Entered as second class matter March 14, 1933, at Post Office at Washington, D. C., under act of March 3, 1879.
KRLD’S STOCK IS GOING UP, TOO!

Again, KRLD DELIVERS MORE AUDIENCE in Dallas and Fort Worth combined, during the cumulative hours from 6:00 a.m. until 12:00 midnight, seven days a week, than any other station or frequency.

This is the February - March, 1955, report of Pulse, Incorporated, an independent audience measurement service subscribed to by five Dallas stations.

KRLD’s month-in-and-month-out dominance of the Southwest’s Largest and Most Responsive metropolitan market sets a new high in coverage efficiency. Equally, KRLD’s leadership in its vast primary coverage area (3,303,700 population) is thus reliably indicated. Your advertising investment in KRLD is certain to produce proportionately Big Gains for you. The cost is lower than you think.

KRLD is the eighth largest CBS radio network station circulation-wise in the nation. SAMS report, 1952.
FIVE FOR THREE • Being talked up by network affiliates is project for five-year broadcast licenses (both radio and tv), five-year network affiliation contracts, with one-year negotiating period. Present license period is three years; network affiliation contracts two years and negotiating period six months.

NARTB convention in Washington this week will be springboard for Chairman Magnuson (D-Wash.) of Senate Commerce Committee in announcing he is petitioning finance committees of Senate and House to eliminate 10% excise tax on manufacture of all-band receivers as first step toward giving relief to harassed uhf stations. Despite historic unwilliness of Congress to give special tax relief for fear it will open floodgates for others, Sen. Magnuson will make all-out effort and will urge support of all broadcasters in common cause. FCC Chairman George C. McConnaughey is expected to give project his wholehearted blessing when he addresses NARTB convention Tuesday.

"DO YOU OWN A TV?" Yes . . . No . . . If yes, how many? Those are questions being included in annual survey of nation's population of Bureau of the Census for Advertising Research Foundation. Survey is based on "stratified sample" projected to 100%. ARF foots bill on basis of computations desired (i.e., by metropolitan areas, income groups, rural vs. urban, etc.).

IT'S STILL Richard A. Mack as Administration's Democratic choice to succeed Comm. Frieda B. Hennock on FCC next June 30. Delay by White House in announcing nomination or "intention to appoint" Florida public utility commissioner occasioned by "security check" routine. It might be another week, according to White House sources, before check is completed.

TALENT FIRST • Look for Senate Magnuson Committee inquiry to open with study of programming-talent aspects rather than network practices and FCC administration. Sydney Davis, majority counsel, has been in New York making preliminary investigation and shortly will give commit- tce his ideas on "constructive" course of action when hearings begin some weeks hence.

BEING studied by Magnuson Committee staff, it's learned, are complaints about program distribution which all but preclude transmission to secondary markets because of charges imposed by talent agencies (such as William Morris) to comply with union work requirements (Screen Actors Guild, Actors Equity, etc.) Convention is rates are jumped in ratio to num-

ber of markets used, making addition of tv outlets prohibitive for advertiser. For example, New York, Chicago and Los Angeles are computed as constituting seven markets each under union rules, with scale fixed accordingly.

MCCONNELL TO DUMONT? Joseph H. McConnell, who recently resigned as president of Colgate-Palmolive [B&T, May 9], reportedly is being considered for presidency of DuMont Laboratories under reorganized structure. Also mentioned as possibility is Seymour Mintz, who resigned last week as president of CBS-Columbia (story page 124). Before Mr. McConnell joined C-P two years ago, he was president of NBC and prior to that executive vice president of RCA.

SHIFT OF H. C. Bonfig, second man in Zenith, to CBS-Columbia, manufacturing division of CBS Inc., portends greater competition in set manufacturing field, with color upcoming, and may have bearing on toll tv fight. Mr. Bonfig, one of best known figures in manufacturing end, was Zenith's top spokesman in Phonevision. It's understand he has five-year contract with CBS, including stock options and retirement and pension privileges.

TWO YEARS FOR TAPE • While laboratory progress in tv tape recording is proceeding rapidly, equipment makers feel minimum of year, probably more, will be needed before system can be turned over to industrial designers. Another two years will be needed before equipment is ready for commercial use, they contend, adding that present stage of new art doesn't justify reluctance of stations to buy film projection gear.

AT ITS NARTB presentation Thursday afternoon, Television Bureau of Advertising will unroof results of hitherto secret survey showing television exerts more influence on buying decisions than other media. In survey, made in super markets in five U.S. cities, motivation researchers questioned customers after national brand purchases were made.

BARTER QUESTIONED • Certain station representatives are giving second look to "barter" deals whereby tv station trades time segments for sponsored film for which station obtains second run and residual rights. One such deal offers across-board strips on 52-week basis. Top representative firm has advised its stations it does not endorse bartering of time for sponsored film, questioning both principle and effect on station and industry structure. Spokesman for representative firm comments: "There's always somebody seeking a 'free time' ride on someone else's business."

IS REORGANIZATION of International Teletoner Co., 80% owned by Paramount Pictures, in offing? Paul A. Porter, Washington counsel for Paramount and former FCC chairman, was in Los Angeles last week in connection with pay-tv project.

RHUBARB BREWING! There may be full-scale fight brewing between major league baseball and broadcasters over practice by some clubs of charging fee (usually $50) for appearance by players in tape-recorded interviews at ballparks (not studios). John Harrington, sports director of CBS oko WBBM Chicago, has taken initiative with open letter to ball representatives and may carry plea to Comm. Ford Frick. He charges inequality between press and radio and claims that without "exploitation" values of both media, parks would be empty.

FCC commissioners will give as well as take at question-answer session before NARTB convention tomorrow (May 24). At end of session each commissioner will submit sealed envelope containing question he would most like to have broadcasters answer. Questions will be read, but delegates will be spared ordeal of answering.

NOW IT CAN BE TOLD • That Mrs. Ovea Culp Hobby, first person to hold office of Secretary of Health, Education & Welfare and only woman member of Eisenhower cabinet, would resign this summer has been to confident to intimates months ago. President Eisenhower, at last Wednesday's news conference, said Mrs. Hobby had notified him that conditions might arise to compel her to leave government. Former Texas Gov. William P. Hobby, it is known, has been insisting his wife resign because she was "working too hard." It's expected she will return to Houston sometime this summer to resume her duties as co-publisher of Houston Post which operates KPRC-AM-FM-TV.

WITHDRAWAL of Facts Forum's underwriting of Mutual's State of the Nation (see page 116) is not interpreted by close observers as meaning curtailment of other radio-tv activities by controversial, non-profit, public service FF. It's reported that Hardy Burt, producer of State of the Nation, will seek financial support for production costs of show from civic organizations, possibly American Legion, Elks and Knights of Pythias.

WHAT IT MEANS • Maybe it indicates Chairman McConnaughey's thinking—or maybe it was just too good a chance to quip—but when he spoke to Federal Communications Bar Assn. last Monday to pick up FCBA President Percy Russell's word play on vhf and uhf he referred to uhf as "unusually hopeful fellows."
"... It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom; and that government of the people, by the people, for the people, shall not perish from the earth."

ABRAHAM LINCOLN
Speech at Gettysburg, Pennsylvania
November 19, 1863
Network Study Favorable
By Chairman McConnaughy

FCC SHOULD conduct network study to learn "what makes them tick" but there's great difference between making study and "starting to criticize everybody," FCC Chairman George C. McConnaughy was quoted as telling CBS-TV newsmen on Saturday afternoon during their first annual conference in New York (early story page 115).

He called CBS President Frank Stanton's February statement on this subject "significant." Dr. Stanton had said adoption of proposals in "Plotkin Report" (memorandum prepared by Harry M. Plotkin as Democratic counsel to Senate Commerce Committee) would mean that "network television as it is known today would be greatly crippled" and public investment of $13.5 billion in receivers "substantially depreciated." [B-T, Feb. 7].

Chairman forecast FCC's backlog would be practically cleared by end of 1955. He concurred with statement that "network television faces serious problems saying ways must be found to make this service survive and prosper. On subscription tv: While praising "freedom of the airwaves," he was said to have told audience that pay-see-subscription tv would not be a serious study.

Question of amendment of Communications Act's Sec. 315, dealing with political broadcast, had been raised before affiliates by Dr. Stanton, who suggested addition of paragraph to make clear that candidate's appearance on news, forum or debate programs does not require "equal facilities" for opponent candidates.

No Pay-Tv on Networks, Zenith Proposes to FCC

ZENITH RADIO Corp. will ask FCC to "adopt a policy that will prevent subscription tv from being used by existing networks or for regular network programs," E. F. McDonald Jr., Zenith president, asserted Friday. He said Zenith will seek "appropriate safeguards so that neither CBS nor anyone else having the intent to victimize the public ever will be given the chance to do so.

Comdr. McDonald charged that CBS' statement last week (text page 28) indicated that if toll tv is approved, it intends to "highjack" American public into paying for present programming. He further charged that CBS apparently fears competition of toll tv will affect its programs, claiming "three or four New York network executives enjoy the absolute monoply of dictating" program fare. He attacked advertising on sponsored programs noting "there will be no commercials" on subscription tv.

Esau Quits NARTB Board

JOHN ESAU, formerly of KTVQ (TV) Oklahoma City, has resigned as tv member of NARTB board of directors. Mr. Esau has become business manager of Television Age, monthly. H Quenton Cox, KQFM (FM) Portland, Ore., who has joined same publication as northwestern representative, continues to sit on board despite his magazine connection, it was stated.
You Can Make a MINT in FLINT!

THE BIG MONEY MAKER IS "RECORDS with ROCKWELL"

Voted Flint's No. 1 Disc Jockey!

What a selling combination! The most popular radio station in Flint and Flint's best-loved, most-listened-to disc jockey... Jim Rockwell! Nothing could be sweeter to lure business your way in Michigan's 2nd biggest income city. Folks just naturally tune to WKMF... Flint's only 24 hour station devoted exclusively to News, Music and Sports.

So, put your ad dollars where the listeners are! "RECORDS WITH ROCKWELL" is covering Flint's billion-dollar market like a tent!

FCC Shreveport Tv Grant Goes to Don George Group

FINAL decision upholding examiner’s proposal to grant ch. 12 at Shreveport, La., to Shreveport Television Co., owned by local theatremen Don George and other businessmen, is expected from FCC. Owners met with FCC officials in New York to present their case, and FCC’s refusal to grant the license to WAKL-TV Shreveport has been reversed. The FCC is expected to issue a final decision in the case within the next few weeks.

Commission preferred Shreveport Television over KRMD and Southland on basis of assurance that program proposals would be carried out and diversification of mass media control. KRMD owner T. B. Lanford also has interests in KPLC-AM-TV Lake Charles, La., KALB-AM-TV Alexandria, La., WSLJ Jackson, Miss., and KRRV Sherman, Tex. Southland principals own KCII Shreveport and WMRY and WCKG (TV) New Orleans.

In separate opinion concerning Shreveport ch. 3 case, FCC denied petition by KWKK there for reconsideration of final decision awarding ch. 3 to KTBS Shreveport. FCC admonished KWKK for “repetitious” charges that principal KTBS witness committed perjury, terming charges “reckless and unsupported.” FCC also criticized petitioner’s assertions and allegations that Commission did not give “fair, impartial” consideration to evidence.

Second Television Outlet Authorized in Bismarck, N. D.

SECOND tv station for Bismarck, N. D., granted by FCC majority Friday to John W. Boler’s North Dakota Btcg. Co. over dissent by Comr. Freda B. Heenock and Robert T. Bartley. Facilities: ch. 12, ERP 13.2 kw visual, antenna 310 ft. above average terrain. Originally planned as satellite to ch. 4 KXJB-TV Valley City, N. D., also Boler outlet, Bismarck station bid was amended May 13 to specify local live and networks (CBS, DuMont) after protest by ch. 5 KFYR-TV Bismarck over newsworthy nature. Boler proposed Boler stations “live” program plans. In dissent, Comr. Bartley feared “public may be imposed upon in this case” and concluded from lack of specific program details in amended application “it does not appear that the public . . . will be getting what they were promised by the applicant.” Boler interests also include ch. 13 KCBJ-TV Minot and KSBJ Jamestown, N. D.

WAKE to Rounsville

ROBERT W. ROUNSAVILLE, postwar broadcaster who has run up ownership string to seven ams and three tvs (only one of which is on air), has taken five-year option on CBS-affiliated WAKE Greenville, S. C. (5 kw on 1440 kc), with price $125,000 as of now but variable over five years, B&T learned Friday. If he should exercise option, Mr. Rounsville will have to sell one of his present ams—WXQI Atlantic to WLOU Louisviilie, WCJN Cincinnati, WMBM Miami Beach, WOKK Charlotte, WBAC Cleveland, Tenn., and 51% of WBEJ Elizabethtown, Tenn. Former WSPC owner also owns ch. 15 WQAM-TV Atlanta, on air, and grants for ch. 41 WXOL-TV Louisville and ch. 54 WXON (TV) Cincinnati.

UPCOMING

A Rural Radio Survey of the Red River Valley Area was recently completed by the Northwest Audit Company of Fargo. A double postcard was mailed to 3,200 families living in the 41 counties within 150 miles of Fargo, in all directions.

Out of the 1,681 replies, the amazing total of 1,541 said that their families listened to *WDAY* most! That’s 91.7% ... and there were 25 stations mentioned in the survey! *WDAY* was the choice over the second-best station 32 to 1 ... and 11 to 1 over all other stations combined.

Let a Free & Peters Colonel give you the break-down on these staggering facts, or write us if you wish.

HIGH PITCH

A MUSICAL COMEDY dealing with what happens when an opera star buys a baseball team. That was the idea left by the advance publicity for "High Pitch," the May 12 program of CBS-TV's Shower of Stars colorcast series, and—be honest—it sounded strictly from hunger. But, with Marguerite Piazza and Tony Martin as stars, there should have been some good singing, anyway. So we tuned in and were more than pleasantly surprised.

The hour-long telecast turned out to be a delightful show from start to finish, with lots of good singing, as might have been anticipated, and lots of laughs, which viewing other "original musical comedies" on television would not lead one to expect. Milton Lazarus provided a script that gave the stars full opportunity to fall in love, to part in anger and to be reunited in time for a final duet, in the best musical comedy tradition.

Miss Piazza, as the opera star she really is and the purchaser of a last place ball club she fortunately is not, made a beautiful and vavacious heroine who did right by opera lovers with her renditions of arias from La Boheme and Carmen and by the rest of her audience with sock delivery of "Dance With Me, Henry" sponsored by Chrysler Corp. through McCann-Erickson.

Producer: Nat Perrin; associate producer and choreographer: James Starbuck; director: Seymour Berns; assistant director: Robert Adams.

Original musical comedy written by Milton Lazarus.

Musical conductor: David Rose, who also provided new musical material for the program.

Host: William Lundigan; announcer: Art Gilmore.

Stars: Marguerite Piazza, Tony Martin, Vivian Vance, William Frawley, Mel Allen.

***

BOOKS

This volume is a detailed report of an attitude survey made of Americans in the summer of 1954 on the subjects of communism and civil liberties—a three-fold study comprising two separate surveys of cross-section public opinion and a 14-city survey of the opinions of community leaders. Findings, reported at great length and thoroughly analyzed, show that very few individuals were greatly concerned over either subject last summer. Specific questioning revealed greater tolerance of unorthodox beliefs by leaders of public opinion than by the average citizen. For example, the vast majority—86% of the leaders, 89% of the national cross-section—felt that an admitted communist should not be allowed to teach in a college, but when asked whether a radio singer who is a communist should be fired, only 48% of the leaders said yes, to 63% of the national cross-section. A further question as to whether the respondent would stop buying the product advertised on the program on which the communist singer performs revealed that 36% of the general public would do so, but only 27% of the community leaders. This report should be of interest and value to top station management, as well as to program executives.

ARRANGED on an English alphabetical base, this dictionary on the left-hand pages lists the words and their meanings in English/American and on the facing pages the same terms in the other five languages. It should be a valuable reference work for electronic scientists and engineers forced to keep abreast of developments abroad. The author is in charge of bibliographical documentation and translation at the N. V. Philips' Electrical Works in Eindhoven, Holland.

The sports broadcaster should find this handy guide book of particular interest. It contains information on the history of baseball from its beginning, all-time records, listings and data on current major and minor league clubs and flashbacks into significant events. Radio and tv data with respect to each major league club are included.

New RCA 50-kilowatt AM Transmitter BTA-50G
DESIGNED WITH AMPLIPHASE MODULATION

HOW IT WORKS!
To produce phase-to-amplitude modulation in the BTA-50G, a carrier wave is developed by a common exciter. This carrier wave is then split and fed to two separate amplifier chains through phase-shift networks that establish a carrier phase difference. These two signals are controlled so that each maintains a prescribed phase relationship with the other in accordance with the intensity of modulating signal. This controlled phase relationship enables the separate 25-kilowatt amplifiers, when feeding their outputs into a combining circuit, to produce a maximum level 50-kilowatt amplitude modulated signal.
A new concept in AM Broadcasting!

... introduced in RCA's revolutionary

new 50-KW AM transmitter

Here is the most significant forward step in AM transmitters since RCA introduced high level modulation—an entirely new 50-KW transmitter using Ampliphase Modulation. Newest and finest in RCA's long line of distinguished AM transmitter designs, it is further proof of RCA leadership in the broadcast equipment field.

Ampliphase cuts transmitter floor space and operating costs by substantial margins. The BTA-50G is housed in four cubicles. It does away with half of present power tubes ... along with bulky components such as modulation transformers, reactors and accessories. It requires no underfloor trenches, costly water cooling systems, external blowers. And there's no lost air-time—because the 50-KW Ampliphase is remarkably easy to install while your present transmitter is in operation. Then, in most cases, you may keep your old unit as a stand-by.

For complete technical details ... and for information on the surprisingly low price ... call your RCA Broadcast Sales Representative. In Canada, write RCVICTOR Company Limited, Montreal.

FACTS ABOUT RCA'S NEW 50-KW AM

- Takes less than 80 square feet of floor space. No underfloor trenches required.
- Lowest operating cost of any 50-KW AM transmitter.
- Half the tube cost of other 50-KW AM transmitters.
- Uses famous Long-Life RCA 5671 P.A. tubes.
- No Modulation transformer required.
- Completely air-cooled with internal blowers—no air intake ducts necessary.
- Low distortion, excellent frequency response.
- Splatter-free modulation provided by new Ampliphase design.
- Designed to permit remote-control operation.
- New simplified circuitry. Extremely stable operation.

Code Commendation
EDITOR:
I do want to express my appreciation for the editorial page in the May 16 issue of B/T . . . partly for the generous phrases about me, in the second editorial, but more particularly for the fine lead editorial regarding the Code of Sales.

All the folks you mention have in fact been responsible for getting the Code over the hump; but "official" recognition and commendation from your "book" is most heartening to everyone concerned and should indeed be of valuable assistance in our constant campaign to increase subscription to the Code.

Harold E. Fellows, President
NARTB, Washington, D. C.

Timely Reminder
EDITOR:
It was particularly distressing to note in the first item of Closed Circuit in the B/T issue of May 9 that the probable appointment of Richard Mack to succeed Commissioner Hennoch "may provoke unrest in certain quarters."

Here in the land of the free our government leaders are continually reminding us that "all men are created equal." There is no room here for racial discrimination, etc. And yet, in these very circles, we hear that the appointment of a Protestant to a post formerly held by a person of another religious denomination "may provoke unrest."

I hope you will take the occasion to remind "certain quarters" that the brown eggs are just as good as the white, the black horses as good as the white horses, the Negroes as good as the whites, and the Protestants as good as anyone else.

Ralph K. Lemay
WENY Elmira, N. Y.

[EDITOR'S NOTE: In reporting the reaction "in certain quarters" to the news of Mr. Mack's anticipated appointment to succeed Miss Hennoch an the FCC, B/T neither expressed nor intended any approval of it. Our personal views coincide with those expressed above by Mr. Lemay.]

Recommendation
EDITOR:
Young men who are trying to get into radio should read B/T. Many of them don't know about B/T, while others think it is for people in higher positions of the medium. I got my job from an ad that appeared in B/T. This is my second subscription and I am going to renew.

I have before, and I do now, recommend B/T to ambitious young men trying to get a lead in radio and television. I don't have to recommend it to the established people in the medium; they know its value.

William Mullen
WSID Baltimore, Md.

No Blues at KSON
EDITOR:
With all the controversy and discussion about falling radio revenues . . . we thought you might be interested in the fact that KSON for both the months of March and April has enjoyed the highest gross income from sales in the station's history. More important perhaps, our net profit in each month has reached a new high, despite the fact that we are paying our employees between 75% and 100% higher-hourly wages than we did eight years ago.

The reason for the increase in net in the face of higher wages and salaries is the use of automatic operation in part and remote operation. This has, of course, necessitated an increase in capital investment but it has been well worth it.

As to gross sales, it is simply a matter of aggressive selling with an alert, wide awake sales force. Also the fact that we have concentrated in programming to the out-of-home audience.

Fred & Dorothy Rabell, Owners & Operators
KSON-AM-FM San Diego, Calif.

The Agencies Write
EDITOR:
. . . This volume [1935 Broadcasting Yearbook] is a central source for a great deal of information related to the radio industry. It is extremely valuable for its what-where-and-who-to-go-to format.

Edward A. Fonte
Ruthrauff & Ryan, New York

EDITOR:
. . . We especially find the market data very helpful. We work closely with our merchandising department and feel that they can make good use of this information, too.

Kenneth White, Vice President
Lennen & Newell, New York

EDITOR:
I have always found these YEARBOOKS an invaluable source of information which always seems to be needed in a hurry and which is always there in a handy form.

Lucian Chimene
J. Walter Thompson Co., New York

EDITOR:
. . . In the short time it has been on my desk, I have had occasion to use it several times and have been amazed at the wealth of information it contains. It has proved to be an invaluable addition to my reference library.

Marjorie Freeman
N. W. Ayer & Son, New York

Still Another Entry
EDITOR:
With no particular desire to "top" anyone, KOME is still among the "tops" in sports presentations.

During 1954 we presented 161 baseball games (Texas League) of the Tulsa Oilers; 28 basketball games of the U. of Tulsa (26 regular, 2 NCAA regionals) and 10 NBC Games of the Week plus 4 outstanding high school games, totaling 203 major sports broadcasts.

During 1955 we will do 162 Texas League games (161 regular Tulsa Oilers games plus the All-Star game), 10 U. of Tulsa football games (in addition about 5 outstanding high school games), and the full 26-game schedule of the U. of Tulsa basketball team. In addition we had access to the broadcasts of a major league team.

E. William George, Geo. Mgr.
KOME Tulsa, Okla.

[EDITOR'S NOTE: WPOR-AM-FM Pasteria, Ohio, in a report published in B/T April 25, said it had broadcast 17 basketball games and is now broadcasting all Cleveland Indians baseball games and asked if any other station could post a better record. Our Mixes letters in subsequent issues have shown a number of stations willing to try.]
To sell anything used in a kitchen use Southern Cooking. Eudora, Nashville’s leading cateress, provides just the right touch of cooking skill and Southern accent.

ON Christmas Eve 1926, WCCO Minneapolis and its young commercial manager, Earl Gammons, made radio history by introducing a new type of radio commercial which was not spoken by an announcer but sung by a male quartet. The product advertised was Wheaties, made by Washburn Crosby Co., owner of WCCO, which ordered the campaign largely to evaluate the effectiveness of its station.

James Gray, in his history of General Mills, "Business Without Boundary," tells the story this way: "As a lover of innovation and an experienced newsmen, Gammons was pleased with the opportunity to explore the potentialities of the new medium. What he offered was the first 'singing commercial,' an appeal on behalf of Wheaties that seems a model of decorum, courtesy, and effectiveness . . .

"Have you tried Wheaties? They're whole wheat with all of the bran. Won't you try Wheaties?"

Mr. Gammons, now CBS Inc. Washington vice president and senior statesman, insists that the book gives him too much credit, that his main contribution to the first singing commercial was engaging the quartet at $24 (for all four singers for a half-hour program). His friends say his modesty exceeds his memory.

Born July 23, 1893, in Edgewood, Iowa, the son of a Methodist minister, Earl Henderson Gammons grew up in Cresco, Iowa, and went on to Cornell College at Mt. Vernon, Iowa, where his journalistic efforts won him editorship of the school paper and, after an editorial which the faculty felt was lacking in respect for a visiting bishop, a suspension from academic life. Fortunately, the authorities relented and Earl graduated with his class in 1915.

Followed two years as a reporter for the Cedar Rapids Republican & Times and then Earl moved to the Minneapolis Tribune, but after only a few months there he left his type writer to become a machine gunner with the AEF in France. After the armistice of November 1918, he stayed in Germany as news editor of Wecht am Rhine, an Army newspaper. He returned to the Tribune in 1919.

Again his Tribune stay lasted a few months. This time he left to start an employe paper, Eventually News, for the Washburn Crosby Co., whose best known product, Gold Medal Flour, was advertised with the slogan "Eventually, Why Not Now?" In addition to his editorial duties, Earl also wrote publicity for the company and speeches for its executives and, in 1924 when Washburn Crosby acquired WLAC Minneapolis and renamed it WCCO, he began handling publicity for the station as well. This naturally led to news broadcasting over WCCO and that to sports announcing. By the end of 1925 Earl dropped his other work to devote full time to the station. Commercial radio was just beginning and he was named sales manager of WCCO.

It was not long after that the young sales manager started another long-lived trend by getting the Watkins Remedy Co. of Wisconsin, Minn., to sponsor radio's first daytime serial, The Watkins Family. Newsman Gammons also pioneered in special events broadcasting when he arranged with the Minnesota National Guard for coverage of an eclipse of the sun from the air, using a lightweight transmitter built for the occasion by the WCCO engineers, and then found himself handling the broadcast because all the other announcers refused.

In 1928 the Washburn Crosby Co. became General Mills and the following year sold a third interest in WCCO to CBS. Two years later CBS became full owner of the station and in 1933 named Earl Gammons as WCCO manager. This post Earl held for nearly 10 years, building the station to an enviable position.

In 1942, CBS moved him to Washington as director of the network's office there. In 1946 he became vice president of CBS Inc., in charge of Washington operations for all divisions of the corporation, a position he has held since.

"A list of Earl Gammons' intimate friends includes a larger number of people prominent in public life than can be said for anyone else in Washington," a close friend told BT. "Perhaps," he added thoughtfully, "it's because they have found, along with many others, that Earl is a mighty good friend to have."

Mr. Gammons and his wife, the former Ardelle Bergeson, live at Washington's Shera ton-Park Hotel, where their daughter, Jeanne Anne (Mrs. W. F. Merrill) and her three children have frequent visits.

A raconteur par excellence, Mr. Gammons is famed for his seemingly inexhaustible supply of short quips, without which no Gammons conversation, face-to-face or on the phone, is complete. Always to the point and often barbed as well as pointed, these stories, as he relates them, might have been especially created for the particular occasion of the telling. One friend commented, "Earl's won more points with his stories than most Washington lawyers with their briefs."

Mr. Gammons' hobbies are hunting and fishing in the appropriate seasons and golf the year round at Burning Tree (where a fellow member is President Dwight D. Eisenhower), Chevy Chase or Columbia Country Club. He also belongs to the Metropolitan Club and the National Press Club.
For The Birds

We see by The Carrier Pigeon Digest that a movement is on wing, underwritten by the Carrier Pigeon Association, to challenge TV. A public relations campaign is to promote the use of pigeons for delivery of commercials, on the basis of (1) lower cost, and (2) pinker eyes.

Alert to our responsibilities, we turned the clipping over to Research. His report follows.

"Figured this up Army Signal Corps' alley. Sought cost data. Contacted Commanding Officer (a bird colonel) in Charge of Coops, Signal Corps Br., 2d Sv Comd., who ref'd me to Transportation Officer, who ref'd me to Message Center Maintenance Officer who ref'd me to Public Relations Officer of QM Depot who ref'd me to C.O. in chg of Coops, Sig C Br. (same bird). Started over. Got to Air Force Hq., Pentagon; told info. classified. Wrote Congressman. Invited me to lunch, next visit to Washington. Wrote Ed., Carrier Pigeon Digest. Had figs finger-tips. He quotes Sig C. on what it costs to keep one pigeon one day:

Feed .................................................. .23
Straw .................................................. .03
Loft rent ............................................. .10
Identification bands .............................. .008
Coop maintenance ................................. .75
Overhead (maintain army) ...................... 254.75
Depreciation (birds that don't make it) ...... .382
Bird maintenance (ground crew, bathing, clipping, worrying about stragglers) 4.73
Recruiting program for pigeons ............... .13
Message containers ............................... .01

261.12

"Throw out the overhead item (gotta have an army anyway) and the maintenance item (ditto) and its costs $1.64 per pigeon per diem.

"A pigeon can do 200 miles daily, properly motivated. Got to be chauffeured to point of release, got to eat and drink en route, and needs a night off once in awhile. Assume he works 25 days a month and he's good for 5000 miles top a month. Allow 10¢ a working day for carfare and it works out to about 83¢ per thousand miles worked, give or take an army." —Bruce

The cost per thousand for WMT-TV can be shown to be as low as 72¢. It's true that on WMT-TV you reach people, instead of travel miles, but what's a Research Dept. for, anyway?

What about pinker eyes? —Ed.

Ever see one of our announcer's eyes on a Monday morning?

ROLAND E. JACOBSON
on all accounts

ROLAND E. JACOBSON first became acquainted with TV in 1947, when his commercial copy was among the first to emanate from KTLA (TV) Hollywood, Paramount TV Productions & station. He was then Los Angeles manager of Buchanan & Co., agency servicing Paramount Pictures.

Now vice president of William W. Harvey Inc., Hollywood, Mr. Jacobson was born in Havelock, N. D., in 1908, and grew up in Rochester, Minn. He graduated from the U. of Wisconsin with a B.A. in journalism in 1930 and became a newspaper reporter-feature writer, shifting to midwestern trade publications in 1934 as an editor.

Six years later, he entered radio as commercial manager of KWNO Winona, Minn., where he remained until Pearl Harbor. Then he moved to California and while working at Lockheed Aircraft, met Miss Virginia Morris, who became Mrs. Jacobson in 1947.

He entered the agency field with The McCarty Co., Los Angeles, as an account executive. In 1943 he joined Buchanan & Co. as copy chief, later becoming radio director and then vice president in charge of the Hollywood office. In 1949 he joined Ruthrauff & Ryan Inc. as an account executive, and two years later went to the Bow Co. as account executive in charge of the Maier Brewing Co. (Brew 102) account, a heavy radio-tv user.

In 1953 he joined the Harvey agency as an account executive, assuming his present position in a scant three months.

At least 90% of Harvey accounts use radio and tv, Mr. Jacobson points out, including Sunset Oil Co., Vitamin Div. of Thrifty Drug Co., Servisoft of California (soft water service) and General Electric Supply Co. (Southern California GE and Hotpoint distributors).

Commercials, especially singing jingles, are becoming more strident as their creators strive for new or unusual sounds, he comments. The Harvey Co., for the Thrifty Drug Vitamin Div.'s "Allen's Formula 25," has had its announcer use a straightforward sales pitch as a contrast and "It's working. The Allen's Formula people report their best business ever," Mr. Jacobson states. He also notes that Vitamin Div. has allocated its entire advertising budget to radio since last Jan. 1.

An ardent sportsman especially fond of skiing, tennis, swimming and strenuous games, Roland Jacobson admits a recent ankle fracture has slowed him down a bit. These days, he and Mrs. Jacobson do considerable reading in their home in the Hollywood Hills.

Page 22 • May 23, 1955

Broadcasting • Telecasting
NOT A SHADOW OF A DOUBT
---about radio coverage in Mid-America

As our rotund friend, Mr. Mid-America indicates, it's a big, rich, expanding market, completely covered by one big station — KCMO Radio.

Take a look at radio listening in the November-December, 1954 Area Pulse. Or glance through the 1954 composite Conlan "Study of Listening Habits" for Mid-America. You'll see there's no doubt that KCMO is the radio buy for Mid-America.

Within KCMO-Radio's ½ mv. contour you reach 213 Mid-America counties ... and with KCMO's 50,000 watts at 810 on the dial you get more Mid-America listening homes than any other Kansas City station. Take Mr. Mid-America's tip: Cover the whole market better with KCMO-Radio.

Kansas City's most powerful station for Mid-America

ABC, CBS OPPOSE TOLL TV AS CONTROVERSY HEATS UP

With most leading broadcasters in Washington this week for the NARTB convention, the Capital will be the scene of organized war between advocates and opponents of subscription television. Last week the opponents mounted some of their biggest guns.

The subscription tv battle lines appeared ready to be joined at the NARTB convention in Washington this week as the until-now mostly silent broadcasters began to raise their voices on the subject.

The trend toward opposition to pay tv even began to show itself in the voluminous correspondence at the FCC (35 volumes of letters).

And heavy artillery from the American Legion landed at the FCC when the Legion's national committee voted to oppose the move to have the viewer pay for his programs.

There was even an implied reversal of sports writers' thinking on the subject; at least two nationally known sport scribes raised cynical eyebrows at some of the claims made by pay tv adherents.

But, it was the swelling articulation by broadcasters that made last week's pay-to-see-tv activity significant. Chief developments:

- CBS President Frank Stanton said pay tv would "hijack" American viewers into paying for the privilege of looking at their own tv sets.

He also said that the toll tv is a "betrayal" of the 34 million families who have already spent $13.5 billion for their sets. (See text of Stanton statement, page 28).

- CBS primary tv affiliates, meeting in New York last Thursday, backed up their network in a secret ballot by a vote of 107 to 2.

- American Broadcasting-Paramount Theatres President Leonard H. Goldenson told stockholders in New York that ABC would oppose pay tv and would uphold that position before the FCC.

- There was a growing sentiment, sparked by a few outspoken telecasters, that some sort of anti-pay tv broadcasters' organization must be established soon—and that the propitious time was this week when the broadcasters of the nation are gathered in Washington.

- Uhf telecasters, many of whom have been in the forefront of pro-pay tv, undoubtedly were prepared to take some stand on the "burning" question at their meeting last night at the Washington Hotel in Washington.

However, the pro-pay tv side was not barren last week. It saw New York Herald Tribune syndicated radio-tv critic John Crosby see good in sponsorless tv. It saw many, including Arthur Levey, president of Skiatron Electronics & Tv Corp., point to the blackout on home tv of the Marciano-Cockell fight (it was shown on theatre-tv) as an exhibit in favor of toll tv.

It saw the FCC issue experimental authority to ch. 7 WMAL-TV Washington to broadcast scrambled signals during the NARTB convention. The grant was made to the Washington Evening Star station for May 25-June 24, but this was revised Friday when the starting date was changed to May 23. The station will te lecast the jittered pictures from 8 a.m. to 12:30 p.m., which is before its regular broadcast day begins.

The Commission said that the tests "shall avoid any action which may create public impression that the FCC has or will approve any system of subscription tv." Comr. E. M. Webster dissented.

The WMAL-TV signals will be used in conjunction with an exhibit of Phonevision established by Zenith Radio Corp. at the Sheraton Park Hotel, to which it is inviting groups of broadcasters, congressmen, senators and government officials (Closed Circuit, May 16).

The WML-TV-Zenith demonstrations will be the fourth time that off-the-air subscription tv has been authorized by the FCC. The first was in 1951, when Zenith ran a 90-day test with 300 families in Chicago. It used its then experimental Chicago ch. 2 transmitter. The second was experimental tests between ch. 9 WOR-TV New York and Skiatron. The third was between WOR-TV again and Zenith.

Zenith's scrambling and unscrambling devices, basic elements of this toll tv method, will be shown for "interested parties" throughout the next four weeks, according to Dr. Alexander Elliott, Zenith vice president for research, and Pieter VanBeek, assistant to President E. F. McDonald Jr.

In announcing the demonstrations, Zenith noted that the "center of [its] campaign for the adoption of subscription television" moves to the nation's capital. Emphasis was placed on subscription tv generally rather than Phonevision in connection with the overall pay-as-you-see campaign. Zenith hailed the first public showing as a "milestone in the company's technical history."

A variety of sources, including special films, off-the-air telecasts, slides and other material, will be utilized. In contrast to its Chicago showing in 1951, Zenith will employ aircode systems instead of telephone wire lines.

A keyboard computer, about the size of a small spinet piano, will be one of the features shown this week, the purpose being to develop decoding data for subscribers. Zenith claims it stores up recollections of "decoder settings" for some 150,000 subscribers, or multiples of that figure, and relates it to codes used for the programs. Zenith engineers indicate that several operations with the Zenith decoder could be established within a year of FCC approval.

Circulating throughout the broadcast indus-
TV COULD NOT EXIST
HALF FREE, HALF FEE

A STAND against subscription tv was taken last week by CBS Inc. Dr. Frank Stanton, president, voiced this opposition: "CBS opposes pay-television because it would hijack the American public into paying for the privilege of looking at its own television sets. This is a betrayal of the 34 million families who have already spent $133 billion for their sets in the expectation that they would be able to use them as much as they wanted without paying for the privilege of watching.

Under pay-television, stations which are now broadcasting free programs would scramble the pictures and sound so that the set owner could not receive them unless he paid for each program. Such programs could be unscrambled only when a costly gadget, attached to the home receiver, is fed a coin or slug, a key or card for which the viewer pays. Since a station cannot televise two programs at once, any station broadcasting a scrambled pay program would necessarily have to eliminate its free program during that time period. Pay-television is defending the right to the hust free television. In fact, this is a booby trap, a scheme to render the television owner blind, and then rent him a seeing eye dog at so much per mile—to restore to him, only very partially, what he had previously enjoyed as a natural right.

Pay-television promoters say they would be satisfied if they got $100 a year from the average family. On this basis, today's television audience would pay some $313 billion a year—more than it pays for shoes or doctors or electricity—for viewing far fewer programs than it now watches without charge. This is three times the amount presently being paid for all spectator admissions.

Under the present system of American television, no set owner is deprived of a program because he is not as prosperous as his neighbor. But, once the turnstile of pay-television is placed in the living room, the families who rely most on television for their entertainment would be hit the hardest because they would be the ones who, for economic reasons, would have to restrict their viewing most severely. Television would no longer belong to all the people all the time.

One of the arguments made by the promoters of pay-television is that retribution would hurt nobody. Try it out in the market place, they say. Surely this is in the American tradition. There would, they claim, be free television for those who want what they are now getting and there would be pay-television for those who want the unusual, the more entertaining, and cultural which free television cannot afford currently. But this is a specious claim, unsupported by the economic facts of life. It is the shrewest kind of sophistry and it is intellectual quackland.

It is probable that pay-television would deliver an occasional heavyweight championship fight, and possibly such special entertainment as a multi-million dollar "first-run" movie, which the economics of present television cannot reach, at least as of today. On the other hand, the bulk of any programming for which pay-television would bid is bound to be the very kind of entertainment which already has found such high favor in present day free television. The result of this is that the public would be victimized into paying out billions of dollars a year for a programming service which they are now getting free.

If this scheme is authorized and becomes generally established, pay-television would be able to bid away from free television, every kind of program which the public now enjoys. For example: For viewing the World Series at home, a tribute of some $6,000,000 per game would be levied on the public if each family which watched the series in 1954 were forced to put up the modest sum of $50 for each game. Thus the people would pay 15 to 25 times as much as is now being paid by the sponsors who bring them the games free.

If only 5% of the families who now watch Ed Sullivan's Toast of the Town would pay only 50¢ a week to see the show, they would spend $375,000—two and one-half times as much as the sponsor now pays to bring it to the public free. The other 95% would then have the "free choice" that pay-television promoters want to give them: the free choice of not watching Toast of the Town or paying to see it. It's the old story of letting the camel get his nose into the tent. Once this happens, the channel on which Toast of the Town is broadcast would be scrambled out for everyone who doesn't pay.

What is true of these two examples is true of every one of the public's favorite programs. If pay-television is authorized, nobody could blame the owners of popular attractions for putting them where they could produce the most income. No one can be so naive as to believe that popular programs would be broadcast free if they could be charged for.

Thus television could not remain half free and half fee. Either television programs belong to the public free or they belong to the highest bidder. During the hours when most people watch television, co-existence would be unlikely; it would be an economic impossibility.

It is claimed that under pay-television there would be more cultural programs appealing to small minorities. We believe the reverse to be the fact. If, as the pay-television promoters say, installing a minimum service in a single major city will cost tens of millions of dollars, installing it throughout the total area now served by television will cost billions of dollars. People who make such an investment will have to get it back by putting on the type of shows which will attract the largest audiences. If a family was willing to pay $1 each to see a movie and 100,000 people a week would pay $2 each to see a ballet, there would be no ballet.

It is difficult to believe that the Federal Communications Commission would authorize a scheme which seems to be so clearly contrary to the public interest. However, if pay-television should become established, economic necessity will force CBS to participate. Unlike theater owners, we have no economic axe to grind. We would expect to operate profitably under a system of pay-television.

With our programming know-how, facilities and experience, we regard it as more probable that we will earn our share of the billions of pay-television dollars. But this is not where CBS believes its best interests lie.

We are proud of the progress the broadcasting industry has made in establishing a nationwide free television service. The pay-television promoters have continuously predicted the failure of free television at every point of its development; that it could never support itself without direct tribute from the public. They made these false prophecies 25 years ago and, as recently as 1946, the president of Zenith Radio Corp. flatly stated "the advertisers haven't sufficient money to pay for the type of continuous programs that will be necessary to make free television receivers by the millions." Today there are 36 million television sets in daily use. Unlike these false prophets, we set no limits to the increased and continually increasing service to the public of free television.

During the past seven years, and at the cost of a refrigerator, the average family has been able to convert its home into a center of information and entertainment not even the wealthiest could have enjoyed ten short years ago. The finest talents of Broadway and Hollywood, the significant events of Washington, faces of Presidents and legislators, the art of museums and advances of science have become as familiar to television set owners as their neighbors down the street. And past advances are only a prelude to future accomplishments. We are unwilling to see the present system, under which everybody watches television as much as he wants, destroyed and a great and unifying medium of communication disrupted, with attendant dangers to our entire economy. The cost to the public in dollars and in the loss of free television far outweighs the potential gains of the pay-television scheme.

We believe, therefore, that the public's best interests and ours as well, lie in the continuing expansion of free television; that television channels now dedicated to all the public should not be used for the introduction of a system whose benefits to each viewer be limited by his ability to pay.

Because the pay-television scheme would impose an unnecessary burden of billions of dollars on the American public; because it would charge the public for the popular programs it now enjoys free; because it would become a discriminatory service, available in large part only to those who could afford it; because it would endanger the scope and quality of nationwide news and public service programming, we shall oppose it before the Federal Communications Commission.
try was an attack on Harold Fellows, NARBA president, for his expressions on subscription tv. It was a 10-page booklet, using copious pen-and-ink sketches, entitled "Was Our Uncle Hal Scoopproofed?" Its theme was that Mr. Fellows had permitted "big interests" to dictate the anti-pay television resolution voted by the NARBA TV Board last April. The booklet was sent out by Gene O'Fallon, KFEL-TV Denver ch. 12.

Mr. Stroman's stand against pay tv—"it would black out the best of free television . . . tv would no longer belong to all the people all the time . . . sheerest kind of sophistry . . . intellectual quicksand . . . television is a long remain half free and half fee"—made no bones about one thing:

If subscription tv is authorized, CBS will participate. "We regard it as more than probable," Dr. Stroman said, "that we would earn our share of the billions of pay-television dollars."

But, the CBS president continued, this is not where CBS believes its best interests lie. It lies, he said, "in the continuing expansion of free television; that television channels should be dedicated to all the public should not be used for the introduction of a system whose benefits to each viewer would be limited by his ability to pay.

The resolution passed by the network's primary tv affiliates declared that any system which would require the public to pay for programs broadcast over the air "would be wholly inconsistent with the history of American broadcasting, would divide the American people by baring programs to those who could not afford them, would use the channels of free air which are currently broadcasting free programs to the public and would inevitably subvert them, if not fatally injure, present free service."

ABC Opposition Stated

Mr. Goldenson's statement at the AB-PT stockholders meeting called attention to the fact that its theatre subsidiaries had already joined with other theatre owners to combat pay-as-you-look tv.

"Our ABC division will also oppose subscription tv in the proceedings before the FCC," Mr. Goldenson said. "The subject is an extremely complicated one, and I do not think that any useful purpose would be served in setting forth here or in discussing at this meeting the various arguments pro and con which the division carefully considered in arriving at this decision. Basically, it was concluded that, at the very least, paid and free television could not co-exist without resulting in a great loss to the viewer of the availability of varied types of tv programming and that paid tv would not be in the general public interest and would not be a proper use of a public franchise."

In its resolution last month, the TV Board of NAB, it was alleged, made a request of subscription tv advocates for permission to use broadcast frequencies for their pay system of broadcasting. It was made clear then, and by Mr. Fellows subsequently, that the NARBA had not made a decision on pay tv as such [B-T INTERVIEW, May 2].

Only two other broadcasters have previously spoken out against pay tv.

RCA Chairman David Sarnoff said at the 1953 NARTB convention that toll tv was the "negation" of the American system of broadcast tv. "I would oppose the request of subscription tv advocates to use broadcast frequencies for their pay system of broadcasting," he said, "that television broadcasting, like radio broadcasting, can solve its economic problems without a cashbox in the home."

Early in 1953, H. W. Slavick, general manager of the Scripps-Howard WMCT (TV) in Memphis, entered a vigorous objection to subscription tv. He called the scheme "disastrous." He said pay tv would cost the public $7 billion a year. It is, he said, contrary to the concept that broadcast channels are natural resources belonging to the people.

For the first time since the first weeks following the FCC's invitation for comments by June 9 on the pay tv proposal [B-T, Feb. 14], Commission began receiving heavy indications of opposition. Up to now, the mail comments from Mr. and Mrs. John Q. Public have been running more than six to one in favor of subscription tv. Last week, the tide began to turn. The comments were about evenly divided, and indications were that anti-toll tv arguments were beginning to make themselves felt. It was also obvious that the theatre owners' campaign against this acknowledged threat to their box office was beginning to engender pen-in-hand activity by this industry.

The American Legion National Executive Committee asked the FCC to "make no rulings nor pass any legislation changing the funda-mental system of broadcasting and telecasting in the United States, hitherto devoted to free entertainment, information, educational and other programs which bring unlimited hours of enjoyment to millions of Americans, including the hospitalized veterans whose welfare has been and always will be the prime concern of the American Legion."

The sports scriveners' doubts regarding pay tv—which has received increasing support from sports promoters—were exemplified by Hearst columnist Dan Parker and the Washington Post and Times Herald's Shirley Povich.

Mr. Parker concluded his skeptical piece in the May 8 New York Mirror by calling pay tv "a brazen attempt to put over the biggest air grab since the last midnight mosquito hunt by a blindfolded posse of stung-to-the-quick citizens of Secaucus, N. J."

Mr. Povich, writing in the May 19 Washington Post and Times Herald, referred to the reports of ad-less pay tv programs, but asked: "How to keep the pay-tv promoters honest after they have their dough might be a problem."

The cautious Mr. Crosby, writing in the May 16 New York Herald Tribune, found that the greatest blessing pay tv could bestow would be to put the advertiser "in the back seat."

"You'd no longer have to see a program just because the sponsor's wife likes the crooner on it—and you'd be surprised how many programs you see for just that reason," Mr. Crosby unapologetically confessed.

Mr. Levey, Skiatron president, declared last week that the need for pay tv was underlined by the presentation of the Marcey-Cockle championship fight last weekend on a limited, closed-circuit, theatre-tv network.

"If subscription tv were here," Mr. Levey said, "this bout would have been on home television. And it wouldn't have cost anything like $1 or less for the entire family." He estimated that the fight promoters would have grossed "at least 10 times as much or more, compared with what they are now getting from the theatres."

Mr. Levey predicts on pay tv continued last week, when over 100 members of the Hollywood Advertising Club heard proponents and opponents of subscription tv on the subject. This marks the fourth debate between the two sides in recent months. The first was held at Washington's National Press Club, between Zenith's Millard Faught and Alfred Starr, chairman of the Organizations for Free TV and Cable Owners. The second was on CBS-TV between W. Theodore Pierson, Washington attorney for Zenith, and Vic Sholls, WHAS-TV Louisville district manager. The third was on NBC with Zenith's H. C. Bonfig and Mr. Starr. Mr. Bonfig's resignation from Zenith and his joining CBS-Columbia as president (see story, page 124) was announced last week.

At Hollywood Debate
Representing anti-pay tv forces at the Hollywood debate were Alfred Starr and Robert S. Taplinger, president of the public relations firm representing, reports, to have a selfish interest.

Subscription tv supporters were Paul MacNamara, vice president, International Telemeter Corp., Hollywood, and Joseph Brenner, Hollywood broadcast attorney and former FCC regional counsel.

Readily admitting that he represents a selfish interest in the dispute, namely the film theatre owners, Mr. Starr challenged pay-tv proponents to let them, they also, to see a selfish interest.

"Pay-to-see tv can offer nothing creative—it can only destroy our current free programming," he said. What "new" attractions it may offer, "traditionally is subsidiary to the selling matches, football games and the Kentucky Derby . . ." would be presented at the expense of "free" tv, the theatre executive warned.

Mr. MacNamara contended that subscription tv had at least four definite contributions to make to television generally:

Improvement of tv programming quality; return of sports programs, now lost to theatres; reduction of present first-run feature film distribution cost (which he estimated at 85%) and the resultant increase in the public able to view them, and a greater number of tv stations on the air.

He also revealed that at least one large advertiser had approached Telemeter with a proposition to include tokens for the Telemeter system in the advertisingmovie development.

"Pay-as-you-see tv will develop new advertising accounts that should be blockbusters and it may well be that the amount of advertising dollars that will be spent by these new entertainment accounts in the future will be very much dollar-wise with some of the present enormous automobile accounts," he told the ad men.

He has station clients on both sides of the fence on the pay-tv question, Mr. Brenner noted, commenting that if they're making money, they're opposed, and if they're losing money, they're in favor of subscription tv.

To make tv pay, advertisers and agencies must seek mass audiences with admittedly in-
adequate tools, Mr. Brenner commented. With pay-tv, mass audiences and special groups like merchants can support the programs catering to their respective tastes.

"There is nothing in present pay-tv proposals to prevent advertising on these programs too," he said. "Although many station owners who are the strongest pay-tv opponents, also show commercials to their audiences, which "proves the practice can be acceptable to the public if handled properly," he declared.

Pay-tv advertisers are talking out of both sides of their mouths when they promise the public relief from tv commercials, then tell the advertiser that commercials on subscription tv are still going to be welcomed, Mr. Taplinger observed.

Speaking on what he termed the "opening night" fallacy, the New York publicist told Ad Club members he had asked 20 leading Broadway producers whether they would allow the opening night cast of a play to be televised. "All said 'no','" he declared. All felt it would create an "intolerable burden" on a cast already keyup for a Broadway opening to ask them to undertake the necessary tv rehearsals, and that the FCC has jurisdiction over pay tv. However, he noted that "pay radio," in the form of fm multiplexing, is already in existence under FCC control and might be a precedent.

Wide disagreement appeared between Mr. MacNamara and Mr. Taplinger on estimated costs to the consumer of installing pay-tv equipment on present tv receivers. Mr. MacNamara estimated that a consumer could be asked "for $5 or $10, or even nothing." Mr. Taplinger quoted estimates from $45 to $75 for the Zenith system.

Asked the effect on theatre owners if feature films were to be "hit-or-miss" pay-tv on a single showing, both Mr. Starr and Mr. MacNamara were in agreement that they would "knock hell" out of subsequent theatrical runs. Mr. Starr ruefully asked, "What producer is going to risk the fate of a $10 million movie on a single showing?"

**Kobak Asks: Will Radio-Tv Be Scrambled or Poached?**

DON'T forget radio, when you consider pay tv, Edgar Kobak, former MBS president and present owner of WTWA Thomson, Ga., and broadcast consultant, reminded the FCC last week. "I am not considering pay-tv for a single showing, both Mr. Starr and Mr. MacNamara were in agreement that they would "knock hell" out of subsequent theatrical runs. Mr. Starr ruefully asked, "What producer is going to risk the fate of a $10 million movie on a single showing?"

PAY-TO-SEE television, not billed on the formal agenda, promises to spark delegate controversy and probably will burst into floor debate, judging by the talk of early arrivals for the annual NARTB convention in Washington. Demonstrations, promotion, ballyhoo and anonymous propaganda with emphatic overtones—and three-uphill from—were developing at the weekend on behalf of and against subscription tv (see pay-to-see roundup, page 27).

NARTB's 33d annual convention is certain to set an alltime attendance record. Advance registration at the Management Conference totaled 1,103 compared to 1,126 at Chicago last year and 1,020 at Los Angeles in 1953. Engineering registration this year ran 308 compared to 302 at Chicago last year and 268 in 1953. As is usual, the exhibits will appear without advance registration. The 1,161 advance total for management-engineering compares to 1,428 in 1954 and 1,227 in 1953.

At the weekend 135 women delegates had indicated they will attend the style show and take the Mt. Vernon trip, features of their agenda.

The exhibits [BWT, May 16] will be found in the Shoreham Exhibit Area, a short, winding stroll from the Main Ballroom and West Ballroom, where many of the management and engineering sessions will be held. Entertainment suites are at the Sheraton Park Hotel, a half-block airline but three-uphill from the Shoreham. NARTB is to operate shuttle bus service between the hotels.

The Tuesday morning opening meeting, with President's address, will be held at the Hotel, the address by Mr. Ethridge, WHAS-AM-TV Louisville, will be held at Sheraton Hall, largest hotel ballroom in the world, according to the Sheraton Park Hotel. The 3,000-seat ballroom will be converted Tuesday in 45 minutes to a 200-table luncheon room to seat 2,000. The President's talk will be on radio-tv.

Many unofficial side meetings are scheduled during the week (see list and summary agenda, page 33). Monday's pre-opening schedule includes a morning fm meeting and afternoon tv membership business meeting, preceded by a tv film breakfast.

Four members of the NARTB tv Board wind up their terms at the tv business meeting. They are Campbell Arnoux, WATR-Tv Norfolk, Va.; board vice chairman; Kenneth L. Carter, WAAM (TV) Baltimore; William Fay, WHAM-Tv Rochester, N. Y., and Ward L. Quail, WLWT (TV) Cincinnati.

Judge Justin Miller, former board chairman of NARTB, will preside at the election of new tv directors. Clair R. McCollough, Steinbrenner, was the only new candidate for the tv Board.

Eight new members will take office on the Radio Board this week (see biographical story on page 44). They were elected during the spring elections.

Radio directors whose terms expire with the convention include George H. Clinton, WPAR Parkerburg, W. Va.; District 3; John Fulton, WQXl Atlanta, District 5; F. Ernest Lackey, WHOP Hopkinsville, Ky.; District 7, who starts a new term as small-station director; Hugh K. Boice Jr., WEMP Milwaukee, District 9; Kenneth Brown, KWFT Wichita, Tex., District 13; John H. DeWit Jr., WSM Nashville, large stations; Richard Shafo, WIS Columbia, S. C., medium stations; Edgar Kobak, WTWA Thomson, Ga., small stations; Ben Strouse, WWDC-FM Washington, fm stations.

New directors representing radio networks, appointed by each network, were announced last week by NARTB President Harold E. Follett, ABC, which joined the radio membership a week ago, named Charles T. Ayres, ABC Radio vice president in charge, as its radio director. Arthur Hull Hayes, new president of CBS Radio network, was named by that network. Chas. F. E. Killingsworth, in charge in NBC owned stations and NBC Spot Sales, is the NBC representative on the board. E. M. Johnson, vice president in charge of production, station relations and engineering, continues to represent MBS.

Herefore, networks could have only one board member, selecting either radio or tv board. All four tv networks had tv directors, with NBC as the only exception. But Mr. Walker, manager, NARTB Engineering Dept.; William S. Halstead, Multiplex Engineering Corp., New York, and Dwight Harkins, KTLY Mesa, Ariz. Mr. Harkins has developed a new multiplex device which will be shown at the convention by Schaefer Custom Engineering.

The opening speakers will join a panel discussion with Mr. Wheeler; Lloyd Jaquet, WGHF (FM) New York; Raymond S. Green, WFLN (FM) Philadelphia; Donald K. DeNeuf, Rural Radio Network, Ithaca, N. Y.; Edward Davis, Musicast Stations, San Francisco; John H. Bose, Electronic Research Labs, Columbus, Ohio. A question-answer period will wind up the fm meeting.

Two management breakfasts will be held, at 8 a.m. Wednesday and Thursday. A wages and hours panel will be held Wednesday morning. At Thursday's management-labor relations panel breakfast, Stephen Dunn, labor authority of the labor firm of McCobb, Heaney & Dunn, Grand Rapids, Mich., will be main speaker. Charles H. Tower, NARTB manager of employment and labor relations, is organizing the two breakfast meetings.

At its Wednesday afternoon portion of the radio management agenda, Radio Advertising Bureau will have basic presentations by Kevin Sweeney, president, and Joseph E. Baudouin, RAB board chairman and Westinghouse Broadcasting Co. Washington vice president.

Three speakers will explain how radio advertising sold products for them: Emanuel
CLOSER understanding between government and the industry provides a theme for the 1955 NARTB convention in Washington, first time in 17 years that broadcasters have met with legislators and regulators at the Nation’s Capital. The three persons in charge of the convention were asked by BTV to summarize their ideas about the meeting. They are NARTB President Harold E. Fellows; Clair R. McCollough, Steinnan Stations, and Henry Clay, KWKH Shreveport, La., tv and radio co-chairmen of the convention committee.

THE ASSOCIATION

THIS YEAR’s convention promises to be the biggest and most important in NARTB’s history. Principally, this is because Washington is the site of our meeting and broadcasters will have a golden opportunity to meet first-hand with legislators and other government officials.

The general theme of the convention relates to government-industry cooperation and understanding. Thus it is that we will hear from many government leaders, led by President Eisenhower, and meet scores of others at the various social and business functions.

This year, by popular demand, we have separated radio and television by devoting a day to a thorough discussion of each. We trust that this new format will be pleasing and rewarding to the members and their guests.

The exhibit display—largest ever—is a virtual world’s fair of electronic devices. Many of the new devices will be shown for the first time and they merit careful perusal.

The engineers, who have contributed so much to the success of this industry, have a jam-packed agenda of technological advances.

Management, of course, will be presented with plenty of food for thought in the fields of programming, sales, public relations, labor relations, administration and others.

NARTB membership has grown this year, not only in size, but in its sense of unity, its understanding of the strength of common interests in spite of individual differences and its unrelaxing and conscientious regard for its responsibilities to the public.

TELEVISION

TELEVISION in 10 short years has become an indispensable part of American Life. Technologically and programwise, it is getting better and better, and by its very example is encouraging other media to perk up and improve themselves similarly. This is the spirit of competition at its finest. By its nature, the television industry cannot rest without losing ground both to its own aspirations and to the competitive vitality of other media.

These inborn requirements for the television broadcaster bid fair to raise his costs, to enlarge the area of public comment on his efforts, to add—in short—quite a host of problems that need unscrambling and clarification. This is one of the main purposes of this convention and of NARTB itself. A pooling of knowledge, resources and energies by television broadcasters can help to bring order out of the chaos that might be the individual broadcaster.

Television Day will bring forth an outstanding group of speakers who know the industry from the days that seem remote to many of us today. Formal and informal sessions, where members can relate the general to the specific, add their own experience to that of their colleagues and work out effective means of meeting problems common to them all, will bring out the best in all of us.

RADIO

THE RADIO INDUSTRY, from its crystal-set beginnings to the present, had to grow with America or perish. That it is in many ways stronger today than ever before can be demonstrated by the ever-growing number of radio stations and the yearly sets-in-use increase.

Over the years, radio has adapted itself to the newer needs of a rapidly growing population, a continually expanding economy, and to competition from other media.

This 33rd annual convention of NARTB will conclusively demonstrate radio’s continuing vitality as a part of American life, its unique characteristics for both listeners and advertisers that have established it so firmly that few Americans are without one or several radio sets. Radio accompanies so many of life’s activities, allows so much individual freedom and mobility within its listening purview, tells its message so within the hectic merriment of everyday living without imposing or intruding that people cannot completely replace it with any other medium or combination of media.

Radio keeps up to date with America itself. That’s why “Radio in ’55” is the theme of Radio Day at this convention. Radio, along with the American economy itself, is going places. That’s the overriding mood as radio broadcasters arrive to exchange information this year.
THE NARTB CONVENTION COMMITTEE

WORKING for months with NARTB management and the Convention Committee, chairman (see statements page 31) were eight veteran broadcasters comprising membership of the committee. Serving on the Radio Subcommittee with Co-chairman Henry Clay, KWKH Shreveport, La., are E. K. Hartenbower, KCBO Kansas City; James H. Moore, WSLS Roanoke, Va.; Ben S. Strouse, WWDC-FM Washington. On the Television Subcommittee, serving with Co-chairman Clair McCollough, Steinman Stations, are Campbell Arnoux, WATR-TV Norfolk, Va.; Kenneth L. Carter, WAAM (TV) Baltimore, and Frank M. Russell, NBC Washington. John H. DeWitt Jr., WSM Nashville, is engineering liaison. Kenyon Brown, KWFT Wichita Falls, Tex., is consulting member, having been chairman of the 1954 Convention Committee. All committee members are NARTB directors. Messrs. Hartenbower and Arnoux are Radio and TV Board vice chairmen, respectively.

and Ruth Brewer, administrative assistant, are handling arrangements. John H. DeWitt Jr., WSM-TV Nashville, is board liaison with the conference and convention committees.

Serving on Mr. Beville's committee are James D. Russell, KKT (TV) Colorado Springs, Colo.; Orrin W. Towner, WHAS-TV Louisville; Donald Weller, WISN Milwaukee; Frank L. Marx, ABC; William B. Lodge, CBS; Rodney D. Chipp, DuMont; Mr. Johnson, MBS; Raymond F. Guy, NBC.

Members of the main Convention Committee, besides the co-chairmen, are E. K. Hartenbower, KCBO Kansas City; James H. Moore, WSLS Roanoke, Va.; Mr. Strouse; Frank M. Russell, NBC Washington, and Messrs. Arnoux and Carter. Kenyon Brown is consulting member, having headed the committee in 1954. Robert K. Richards is convention consultant.

Heading convention arrangements is C. E. Arney Jr., NARTB secretary-treasurer and general manager, and Ella Nelson, administrative manager. Barry Freer is exhibit manager. William Walker heads the convention desk.

NARTB's news headquarters will be staffed by Joseph Strick, manager of the NARTB news department; Fran Riley, editor; Sally Kean, news; LaRue M. Courson, production manager, and Don Frifield, promotion manager.

The station relations staff will maintain message and service centers for delegates, operating at main meeting spots. In charge will be William K. Treynor, station relations manager, aided by Jack Barton, assistant manager; William Carlisle and Alvin King, field representatives, and Jean Levy, secretary. Christine Chadwell is secretary at the membership certification desk.

‘Radio in Every Room’ Theme Highlighted at Convention

NEWEST radio receiver models are being demonstrated at the NARTB Convention. Among the member companies of Radio-Electronics-TV Mfrs. Assn. the display is on the main lobby floor of the Shoreham Hotel. It emphasizes the growth of outdoor listening through portability of portable and personal radios as well as auto sets. Clock and table models, including am-fm sets, highlight the “Radio in Every Room” theme.

In charge of the display are C. Erick Isgrig, Zenith Radio Corp., chairman of RETMA’s Public Relations & Advertising Committee; Jack Williams, RCA; and Jack Frietsch, Philco Corp.

Manufacturers whose radios are displayed include: Arvin Industries; Capehart-Farnsworth Co.; CBS-Columbus; Emerson Radio & Phonograph Corp.; General Electric Co.; Hallicrafters Co.; Hoffman Electronics Corp.; Industrial Development Engineering Assoc.; Magnavox Co.; Motorola Inc.; Philco Corp.; Radio Corp. of America; Raytheon Manufacturing Co.; Stromberg-Carlson Co.; Sylvania Electric Products Inc.; Westinghouse Electric Corp., and Zenith Radio Corp.

Meet Your Representative

RADIO and television station representatives will have suites at the following hotels (room numbers are listed where available):

MAYFLOWER—Free & Peters; The Katz Agency.

DUPONT PLANET—Have-Blair.

RALEIGH—William G. Rambeau Co.

WOODNER—Forroe & Co.

SHOREHAM—Gill-Perna.

RADIO SET SALES DRIVE READIED

COOPERATIVE drive to more than double the sales of home radio sets will be launched Wednesday by Radio Advertising Bureau, more than 70 radio stations and six radio set manufacturers. The manufacturers are General Electric, Motorola, Philco, RCA, Stromberg-Carlson and Zenith.

The campaign announcement coincides with the RAB session next Wednesday afternoon at the NARTB convention in Washington (see story, page 30).

RAB reported that nearly all stations in Dallas, Denver, Kansas City, Nashville, Omaha, Pittsburgh, Portland (Ore.), Providence, Seattle, and Washington will participate in the campaign.

Purpose of the campaign is to increase the sale of home radio sets from the current 7-8 million receivers annually to 15 million in 1956. Kevin Sweeney, RAB president, pointed out that in the tests radio will provide the “springboard” from which the manufacturers' brand advertising will “jump.”

At the suggestion of RAB, the stations and manufacturers have decided on a series of five test campaigns in 1955, each of which will run in five cities for a four-week period. For a month starting May 25, the first two campaigns will run in the cities where stations are cooperating in the drive. The tests will promote portables, radio as a gift, radio for the bedroom, radio for the kitchen and a trade-in-your-old-set drive.

The bedroom and kitchen campaigns will begin immediately after Labor Day, each in a list of five different cities. The trade-in promotion is scheduled for mid-October in five other cities.

Stations will air general announcements to back the campaign. Additional announcements will be run simultaneously by the stations promoting the individual radio products. The radio time which the manufacturers will buy at the national level through their respective agencies will in most cases be supplemented by cooper-
tive dealer-distributor copy placed at the local level. The station announcements consist of six transcribed musical jingles plus live announcements, both of which will be provided by RAB. RAB estimates that 30 million kitchens and 55 million bedrooms remain to be equipped with new radios; that 15 million broken radios can be turned in for new models and that portable and gift markets have a potential of not less than 30 million sets.

**QRG Survey of Time Sales Unveiled on Convention Eve**

THOUGH network radio business is down, time sales are bigger than ever on the individually-owned radio stations.

These findings, emerging from an extensive survey made by Quality Radio Group among its member stations, was reported yesterday (Sunday) by William B. Ryan, executive vice president of QRG, at a pre-NARTB convention meeting of executives of stockholder member stations at the Shoreham Hotel in Washington. Mr. Ryan quoted several replies from executives of QRG member stations, all of which, he said, "are optimistic about the future of radio with time being sold on a big market, big stations.

Mr. Ryan reported that Dave Partridge, advertising manager of Westinghouse Broadcasting Co., had replied that local sales on WBZ-WBZA Boston had increased 71.9% during the same period of 1954. As to the combined figures for all five Westinghouse radio stations, Mr. Partridge said local sales in 1954 were up 48.3% against 1950 when tv was not so vital a factor as now, and up 22.9% against 1953 when tv had become significant.

Mr. Ryan quoted Wayne Coy, president of KOB-AM-TV Albuquerque, N. M., as saying that 1954 "was the best non-network income year despite the addition of two television stations and one radio station to the market."

WCAL Philadelphia told Mr. Ryan that non-network sales in 1954 accounted for 81.9% of the total as against 76.9% in 1955.

Other radio stations, according to Mr. Ryan, replied in much the same vein, making the point that while rate cards generally are slightly lower, increased sales have offset the price reductions to a large extent.

47 Public Service Agencies To Pay Tribute to Radio-Tv

FORTY-SEVEN public service agencies, joining in a demonstration of radio-tv voluntary contributions to the nation's welfare, will stage the first major exhibition of this broadcast activity during the NARTB convention. Their display will be shown starting with a preview Monday in the Sheraton-Park Hotel.

The Advertising Council and NARTB are jointly staging the exhibit, which carries the theme, "The Highest Distinction Is Service to Others."

Features include a recording setup by which Radio Free Europe will tape messages for transmission behind the Iron Curtain. American Cancer Society will have two cages of rats and mice that have been treated by chemicals. The animals will be taken back to Georgetown U. every night. The society will show cancer cells in microscope slides. U. S. Forest Service will have a huge "Talking Bear," a stuffed specimen equipped with sound.

Coordinating this special feature project are Robert K. Richards, NARTB consultant, and Gordon Kinney, Ad Council radio-tv director.

---

**THE NARTB CONVENTION IN A NUTSHELL**

**CONVENTION AGENDA**

All events at Shoreham unless indicated by SP (Sheraton Park)

**SUNDAY**

9:00 a.m. Exhibits open

**MONDAY**

10:00 a.m. Fm session. West Ballroom

12:00 noon Community Broadcasters Assn., Park Room

12:30 p.m. 2:30 p.m. Fm business session. West Ballroom

4:30 p.m. Daytime Broadcasters Assn., Park Room

7:00 p.m. BMI-NARTB Dinner, Woodner Hotel.

**TUESDAY**

10:00 a.m. Joint Session. SP Sheraton Hall. Keynote award; President Eisenhower

12:30 p.m. Joint Luncheon. SP Sheraton Hall; FCC Chairman George C. McConnaughey

2:45 p.m. Joint Session. Main Ballroom; Government, FCC officials

6:30 p.m. Engineering Reception. SP Exhibit Hall

**WEDNESDAY (Radio Day)**

8:00 a.m. Stat Association breakfasts

9:00 a.m. Waga-Hour breakfast, Blue Room

9:00 a.m. Engineering Conference. West Ballroom

10:00 a.m. Management Conference. Main Ballroom

12:30 p.m. Joint Luncheon. SP Sheraton Hall NARTB President Harold E. Fellows

2:30 p.m. Radio Advertising Bureau, Main Ballroom

6:00 p.m. Government reception. SP Exhibit Hall

7:30 p.m. Radio Pioneers Dinner, Terrace Ballroom

**THURSDAY (Television Day)**

8:00 a.m. Labor Relations breakfast. Blue Room

9:00 a.m. Engineering Conference, West Ballroom

10:00 a.m. Management Conference. Main Ballroom

Tv's 10th anniversary

12:30 p.m. Joint Luncheon, SP Sheraton Hall; Dr. Norman Vincent Peale Resolutions

12 noon-3 p.m.—BMI Board, Woodner Hotel.
FIRST AGAIN . . . by a bigger margin than ever!

The ARB ratings tell the story!
From 7:00 AM until midnight, seven days a week, KSTP-TV leads all other Minneapolis-St. Paul television stations in average program ratings* . . . and by a bigger margin than ever! During the important evening hours from 5:00 PM until midnight, KSTP-TV leads its nearest competitor in average weekday ratings by more than seven points.

In this rich, Northwest market which includes more than 600,000 television homes and commands a spendable income of FOUR BILLION DOLLARS, KSTP-TV has long been the leader. It is the Northwest's first television station, first with maximum power, first with color TV and, of course, first in audience.

The listener-loyalty which KSTP-TV has won through superior entertainment, talent, showmanship and service means sales for you! That's why—dollar for dollar—KSTP-TV is your first buy and your best buy in the great Northwest.

WHERE TO GO,
WHAT TO SEE

A B&T GUIDE TO D.C. HIGH SPOTS FOR NARTB CONVENTIONEERS

GOVERNMENT AT WORK

FEDERAL COMMUNICATIONS COMMISSION, New Post Office Bldg., Pennsylvania Ave., between 12th and 13th Sts., N.W. The fearless few who may want to find out first hand that all lions don't bite, no matter how loudly they may roar, will find FCC offices scattered throughout this building, chiefly on the sixth and seventh floor. Or they can dial EXecutive 3-3620.

Chairman George C. McConnaughey may be found on the sixth floor at Room 6107. Other FCC members: Comr. Rosel H. Hyde, Room 7241; Comr. Robert T. Bartley, Room 6207; Comr. Frieda B. Hennock, Room 7111; Comr. John C. Doerfer, Room 7207; Comr. E. M. Webster, Room 6239, and Comr. Robert E. Lee, Room 7235.

Chief of the Broadcast Bureau, Curtis B. Plummer, is at Room 7530, while the director of the Office of Information, George O. Gillingham, is at Room 7232. If it's a technical matter you are interested in, go see Chief Engineer Edward W. Allen Jr., in Room 7515. For Conelrad information, contact Ralph J. Renton, Room 7516.

If you want to check up on the public information that's available on your radio or tv competition, you can look at his license file, pending application or hearing record in the Public Reference Room on the seventh floor at Room 7013. George Simcoe or Joseph Jackson will be glad to help you and if they can't find it, Clara M. Jehl, chief of the License Division, certainly can. For an ownership summary in index card form on all persons in the U. S. having any radio or tv station interest, call on Mildred K. Roberts at Room 7014.

If you have a problem involving the Commission's Field Engineering & Monitoring Division, you will have to go to 415 22d St. N.W., where the chief of the division, George S. Turner, is located. Amateur operators may want to go see Edwin L. White, chief of the Safety & Special Radio Services Bureau, Room 2069, Temporary T Bldg., 14th and Constitution Ave. N.W.

CAPITOL, on Capitol Hill. Open 9 a.m.-4:30 p.m. (if Congress is in session, open until 30 minutes after adjournment). Guided tours every 15 minutes to 3:55 p.m., 25¢. Be sure to see radio correspondents' galleries of House and Senate.

BUREAU OF ENGRAVING & PRINTING, 14th & C Sts., S. W. Open 8-11 a.m., 12:30-2 p.m., Mon.-Fri. Conducted tours.

FEDERAL BUREAU OF INVESTIGATION, 9th St. & Pennsylvania Ave., N. W. Open Mon.-Fri., 9:30 a.m.-4 p.m. Tours start every half-hour in Room 5634 and last about an hour.

PENTAGON, headquarters of Dept. of Defense and world's largest office building, but easier to get in and out than stories you've heard would indicate. In Arlington, Va. Open, Mon.-Fri., 7 a.m.-6 p.m.

SUPREME COURT, 1st St. & Maryland Ave., N. E. Open Mon.-Fri., 9 a.m.-4:30 p.m.; Sat., 9 a.m.-12 noon. Conducted tours every 15 minutes, except when court is in session, to half-hour before closing.

UNITED STATES INFORMATION AGENCY, 1778 Pennsylvania Ave., N. W. USIA activities include operating Voice of America.

FLORA & FAUNA

BOTANIC GARDENS, 1st St. & Maryland Ave., S.W. Open Sun.-Fri., 9 a.m.-4 p.m.; Sat., 9 a.m.-12 noon.

MUSEUM OF NATURAL HISTORY (part of Smithsonian group), 10th St. & Constitution Ave., N. W. Stuffed creatures, etc. Open 9 a.m.-4:30 p.m.

ZOLOGICAL PARK, 3000 Connecticut Ave. (three blocks northwest of Sheraton-Park, just right for that before-breakfast walk). Grounds open 7 a.m.; buildings, 9 a.m.-5 p.m. (Sun., 9 a.m.-5:30 p.m.).

HISTORY

ALEXANDRIA, where Washington slept, ate, worshipped in buildings still standing. Eight miles south of Washington on Mount Vernon Blvd. A must for antiquers.

ARLINGTON NATIONAL CEMETERY, burial ground of the nation's heroes, just across the Potomac (Arlington Memorial Bridge leads to Memorial Entrance, best known of the cemetery's 10 gates). Grounds open 6 a.m.-7:30 p.m. Here are Tomb of Unknown Soldier (change of guard every hour on the hour), Amphitheatre, Iwo Jima Memorial and Lee Mansion (9:30 a.m.-6 p.m., admission 12¢).

FORD'S THEATRE, 10th St. between E & F, N. W., scene of Lincoln's assassination, now a Lincoln museum, open Mon.-Sat., 9 a.m.-9 p.m., Sun., 12:30-9 p.m., admission 10¢. House where Lincoln died, across street, open 9 a.m.-5:30 p.m. (Sun., 12:30-9 p.m., admission 12¢).
JEFFERSON MEMORIAL, South Bank of Tidal Basin. Open 9 a.m.-9 p.m.

LINCOLN MEMORIAL, West Potomac Park at foot of 23rd St. Open 9 a.m.-9 p.m.

MOUNT VERNON, Washington's home at Mount Vernon, Va. Open 9 a.m.-5 p.m. Admission 50¢. A 15-mile drive along Memorial Blvd. S.S. Mount Vernon leaves Pier No. 4, Maine Ave. & N St. S. W., daily at 2 p.m. for Mount Vernon, returning to Pier 4 at 6:40 p.m. Round trip, $1.60.

NATIONAL ARCHIVES BLDG., between 7th & 9th St., Pennsylvania & Constitution Aves., where Declaration of Independence, Constitution, Bill of Rights and other Government documents are displayed. Open 9 a.m.-10 p.m. (Sun., 1-10 p.m.).

SMITHSONIAN INSTITUTION, Arts & Industries Bldgs., 9th St. & Jefferson Drive, S.W. The original Star Stangled Banner, Lindberg's "Spirit of St. Louis," inaugural gowns of wives of the Presidents and innumerable other U. S. historical memorabilia. Open 9 a.m.-4:30 p.m.

WASHINGTON MONUMENT, on the Mall at 15th St. Open 9 a.m.-5 p.m. Elevator fee, 10¢.

WHITE HOUSE, 1600 Pennsylvania Ave. Open Tuesday-Saturday, 10 a.m.-12 noon. No pass required. (To get in at 9 a.m. ahead of the crowd, call your Senator or Representative at National 8-3120.)

LEE MANSION, in Arlington Cemetery. Built by George Washington Parke Custis, foster son of the first President, and lived in by Robert E. Lee, the mansion has been beautifully restored and appropriately furnished. Open 9:30 a.m.-4:30 p.m. Admission, 12¢.

All above open daily unless otherwise noted. Admission free, unless charge stated.

NATIONAL ASSN. OF RADIO & TELEVISION BROADCASTERS, 1771 N St., N. W. Gracious old town house, completely remodeled into efficient working quarters. Worth a visit, although you'll probably find many staff members at the convention hotels this week.

PICTURES, STATUES & BOOKS

CORCORAN GALLERY, 17th St. & New York Ave., N. W. Primarily American art. Open 12 noon-4:30 p.m., Mon.; 10 a.m.-4:30 p.m., Tues.-Fri.; 9 a.m.-4:30 p.m., Sat.; 2-5 p.m., Sun.

FOLGER SHAKESPEARE LIBRARY, 201 E. Capitol St. Miniature Elizabethan theatre, costumes, etc., and one of world's greatest collections of Shakespearean books and manuscripts. Open 11 a.m.-4:30 p.m., Mon.-Sat.

FRER GALLERY, 12th St. & Jefferson Drive, S. W. (one of Smithsonian Group). Paintings by Whistler, Homer, Sargent and other Americans; collection of art from Near East, India and Orient.

NATIONAL GALLERY (Mellon Gallery), 6th St. & Constitution Ave., N. W. Works of many of greatest artists from 13th to 19th century, housed in one of largest marble structures in the world. Green marble rotunda and garden courts, complete with fountains, worth seeing even if you skip the pictures. Open Mon.-Sat., 10 a.m.-5 p.m.; Sun., 2-10 p.m.

PHILLIPS GALLERY, 1600 21st St., N. W. Modern French and American art, housed in former Phillips residence. Open Mon., 11 a.m.-10 p.m.; Tues.-Sat., 11 a.m.-6 p.m.; Sun., 2-7 p.m.

LIBRARY OF CONGRESS, 1st St. between East Capitol & B St., S. E. World's largest library, with a big assist from the 1870 law requiring two copies of every copyrighted work be put here. Main attractions are the Central Stair Hall, which has been called "a vision in polished stone," the main reading room, which must be seen from a gallery unless you really want to read there) and the Gutenberg Bible, but the vestibule with eight statues of Minerva and the second floor murals are also worth a quick look.

SPORTS

BASEBALL. No games in Washington. Senators on road all week.

GOLF. Public courses generally crowded and not very sporty. Better find member of one of numerous private clubs and promote a guest card.

PIMLICO RACE TRACK, Baltimore. Post time 2:00 p.m. (Daily double closes 1:50 p.m.). The Preakness will be run on May 28th. Gray Line buses leave from 11:15 a.m. to 12:30 p.m. from 1010 I St., N. W. Round trip, $2.25 plus tax.

ROSECROFT (Harness Racing), Oxon Hill, Md. (about 8 miles southeast from downtown Washington). Post time 8:30 p.m. (Daily double closes 8:20 p.m.). Good restaurant in clubhouse at reasonable prices. Gray Line buses leave from 5:30 to 7:30 p.m. from 1010 I St., N. W. Round trip, $1.00 plus tax.

THEATRE

THE MOUSETRAP. Agatha Christie thriller having its American premiere at Washington's semi-pro theatre in the round, Arena Stage, New York Ave. at 9th St., N. W. Curtain nightly (except Monday) at 8:30 p.m.; Sat. matinee, 2:30 p.m. $2 for all seats. Better phone for reservations (District 7-8592) or get tickets through your hotel.

FYI

BARS AND RESTAURANTS selling liquor, wine and beer may do so up to 2 a.m., except Saturday night, when drinks will be taken off the table by midnight. Sunday, beer only; midnight closing. Only beer may be served at the bar; all other drinks must be served at tables. You may not drink, or even hold your drink, while standing.

Liquor stores open, 10 a.m.-9 p.m. Mon.-Fri.; 10 a.m.-12 midnight, Sat.; not at all on Sunday, when no liquor may be purchased.

FOOD AND DRINK

Most of Washington's many restaurants are middle class, middle price, middle quality, the food edible but nothing to write home about. Some exceptions, as found by B.T editors, are listed below.

THE COLONY, 1737 DeSales St. (just west of the B.T Bldg., just east of Connecticut Ave.). French cuisine. Dignified atmosphere. Good bar. Good service. Place to see Washington business and professional leaders, top government officials. Prices on high side, but worth it.

LASALLE DU BOIS, 18th & M Sts., N. W. Same management as Colony, and much like
WHY THIS SIGN
IS YOUR GUIDE TO
FINER TELEVISION

RCA's 36 years' experience
is yours to share in TV—
black-and-white or color

When the time comes for you to purchase a TV set and enjoy the most fabulous medium of entertainment ever created for the home, here are facts that will help you make the right decision.

To pioneer and develop television, in color as well as in black-and-white, called for a special combination of practical experience, great resources and research facilities in the fields of communications and electronics.

RCA was well qualified to do the job:

EXPERIENCE: RCA has been the recognized leader in radio communications since its formation thirty-six years ago. Its world-wide wireless circuits, established in 1919, and its development of electron tubes, laid the groundwork for radio broadcasting in 1920... and the first nationwide radio network in 1926.

Radio broadcasting led to television—and in 1939 RCA made history by introducing black-and-white TV as a service to the public.

Dr. V. K. Zworykin of RCA invented the iconoscope, or television camera tube, and he developed the kinescope, now universally used as the picture tube.

RESOURCES: Pioneering and development of color TV has been one of the most challenging and expensive projects ever undertaken by private industry. To date, RCA has spent $50,000,000 on color TV research and development, in addition to the $50,000,000 previously spent in getting black-and-white TV "off the ground" and into service.

RESEARCH FACILITIES: RCA has one of the most complete, up-to-date laboratories in the world—the David Sarnoff Research Center at Princeton, N. J. It is the birthplace of compatible color television and many other notable electronic developments.

No wonder that you can turn to RCA to find all of the essentials of quality and dependability born only of experience.

In addition, the RCA Service Company, manned by a corps of trained technicians, operates service branches in all principal television areas. No other organization is so thoroughly equipped to install and service your television set, as well as any other RCA product.

RADIO CORPORATION
OF AMERICA

Electronics for Living
it, but slightly less formal, slightly less expensive.

LA FONDA, 1637 R St., N. W. Mexican food (Southwesterners will be critical; others will find it o.k.). Mexican beer. Prices moderate.

CARRIAGE HOUSE, 1238 Wisconsin Ave., N. W. In Georgetown, but quaintness not overdone and neither are steaks (around $4) unless you insist on it. Dry martinis are dry. Moderate prices.

DUKE ZEIBERTS, 1730 L St., N. W. Steaks, chops, etc. Kosher pickles. A meat-and-potatoes place for folks with real appetites. Prices a little above average, but food is more than that.

HARVEYS, 1107 Connecticut (next door to Mayflower Hotel). Eat seafood at the same table your great grandfather did more than 90 years ago. Prices on the high side, but food is good and traditional decor reassuring that some things go on forever, A-bomb or not.

MICHEL’S, 1020 Vermont Ave., N. W. Candlelight and gypsy music are the chief appeal, but the food is better than that combination may suggest. Prices are in keeping. Recommended for budding romances or second honeymoons.

O’DONNELL’S, 1221 E St., N. W. Nautical atmosphere sets the stage for the seafood for which O’Donnell’s is noted. Try the Shrimp Norfolk. Moderate prices.

OLMSTED’S, 1336 G St., N. W. Same ownership as Luchow’s in New York, meaning good hearty food with a German accent. Rum buns recommended for those who don’t have to count calories. Wurzberger beer, May wine. Reasonable prices.

HOGATE’S, 9th St. & Maine Ave., S. W. Eat seafood on the waterfront. Large tourism. Good place for family parties. Food plentiful and served piping hot. Prices moderate.

NEAR HEADQUARTERS

NAPOLEON’S, 2649 Connecticut Ave., N. W. As name would indicate, French cooking. Excellent onion soup. Take the family.

SMORGASBORD, 2641 Connecticut Ave., N. W. Eat all you want. Prices reasonable.

TED LEWIS RESTAURANT, 2655 Connecticut Ave., N. W. Nice for large or small groups. Pianist. Steaks, lobsters or even ham ‘n’ eggs. Fair prices.

CHIN’S RESTAURANT, 2614 Connecticut Ave., N. W. Good Chinese food. Plenty of family style dinners. No atmosphere but food better than average. Prices reasonable.

ROCCO’S RESTAURANT, 2637 Connecticut Ave., N. W. Italian or American food. Take the family. Prices average.

EL MEXICO, 2603 Connecticut Ave., N. W. Enchiladas, tamales, arroz con pollo, tacos, with Mexican beer to wash it down. Reasonable prices.

SHOPPING

FOR WIVES with a shopping bent or husbands with obligations to take home a souvenir gift, F Street is the backbone of Washington’s shopping center, running from the bargains of Hecht’s at 7th Street to the luxury items of Garfinckel’s at 14th. Next door to Garfinckel’s, also on 14th, is F.A.O. Schwarz, where bewildered parents can find the latest fashions in toys for all ages.

NIGHT LIFE

WASHINGTON does not excel in this department. Most of the better hotels have supper rooms (like the Paladian Room and the Blue Room in the Shoreham) with music for dancing and discreet entertainment. Louder, but not necessarily better, floor shows may also be found, but for the lusty—busty girly—girly bumps and grind routines you’ll have to head for Baltimore Street in the city of the same name, some 40 miles north on U. S. 1.

GENERAL INFORMATION

YOUR HOTEL can supply full information regarding guided tours by bus or limousine, where the nearest church of your faith is, what’s playing at the movie houses and that sort of information. If they don’t know the answer to any question about Washington, try the D. C. Information Center at 1616 K St., N. W., or you can call them at Sterling 3-3535.

Washington is a planned city and consequently somewhat harder for a stranger to find his way around than in normal cities which just grew. Streets running north and south are numbered; streets running east and west are lettered; avenues (all named for states) run diagonally. Occasionally north-and-south streets, east-and-west streets and avenues all come together; then it’s a circle and if you’re trying to cross it and continue on your way you’ve got to look sharp to leave by the same street you came in on.

Traffic lights at some corners have separate sections, separately timed, to tell the driver whether he should go straight ahead, or turn to the left or right or stay put until the light changes. At other corners, a simple green light gives him the go ahead to proceed straight or turn either way. If you slow down to try to see what kind of a signal it is, the car behind will honk helpfully.

Best bet is to leave your car in the garage and take a taxi to reach any points within the District boundaries. Taxis are plentiful (unless it’s raining) and less expensive than in most cities. Fares are figured by zones and are based on the number of passengers, too, and not on a straight mileage basis.
Open House

All Are Welcome
Suite G-200
Sheraton Park Hotel

Edward Petry & Co., Inc.
TUESDAY morning, for the first time in history, a President will stand on the broadcasters’ own convention platform to greet delegates and speak on problems of common interest. Dwight D. Eisenhower will be heard at 11:30 a.m., with radio and tv networks carrying the words to the nation and to the world.

It has been 24 years since the broadcasting industry has heard the spoken words of a President of the United States. In 1931 Herbert Hoover addressed the National Assn. of Broadcasters convention in Detroit—by remote control.

In his 1931 talk, President Hoover recalled the chaos of early broadcasting, and the steps that led to federal regulation. He observed that operation by private enterprise with “no restraint upon programs” had given wider variety of programs and excellent service at no cost to the listener.

President Hoover called radio “an incalculable extension of happiness and contentment.” President Eisenhower has set many radio precedents, including telecasts of his news conferences and special programs involving top government officials.

Text of President Hoover’s 1931 message to broadcasters follows:

PRESIDENT HOOVER’S MESSAGE TO THE BROADCASTERS

I give you, my most cordial greetings and good wishes for your meeting, with the confidence that you will develop still further policies of sound management and public service.
FROM FAR AND NEAR... THEY’RE WATCHING CHANNEL 2

Baltimore is a rich prosperous market, and WMAR-TV covers its 602,840* telesets like a tent. But sponsors on Sunpapers Television get an extra bonus of coverage in a lush surrounding area that extends from far up into Pennsylvania down into tidewater Virginia—with, of course, the rich Central Maryland and Delaware areas thrown in.

Evidence? CONSISTENT unsolicited mail from 243 postoffices outside of Baltimore City during March and April, 1955.

The bonus of consistent viewing, attested month after month in WMAR-TV’s mail-count, reduces cost-per-thousand and increases sales. The nearest Katz office can fill in the details.

*Total, April 1, 1955, from the Baltimore TV Circulation Committee.

THE EIGHT NEW NARTB RADIO DIRECTORS

WILLIAM HOLM
WLPO La Salle, Ill.
District 9

SIX YEARS of radio training in eastern North Carolina provided the background for the Illinois broadcast career of William Holm. He entered radio at WEED Rocky Mount, N. C., and after six years' experience started WENC Whiteville in the same state.

He moved to La Salle in 1947 to put the new WLPO on the air. The station's policy of intensified local newscasting, which he developed, has been widely publicized. Mr. Holm discussed it at 17 BMI clinics, during the 1951-54 period, in the U. S. and Canada.

In World War II he was assigned to Air Force public relations. In 1953 he was elected president of Illinois Broadcasters Assn. His local activities include Kiwanis, Boy Scouts, Chamber of Commerce and Red Cross. He was reared and educated in Huntington, N. Y.; where he was born Jan. 11, 1910.

OWEN F. URIDGE
WQAM Miami
District 5

BACK IN 1926 Owen Uridge went to work for the old WAFD Detroit, becoming its general manager. WJR Detroit hired him in 1928 as announcer-salesman but he moved to WGOP-WXYZ in 1930 as commercial manager. He returned to WJR in 1932 for a four-year term as sales manager and next headed the Detroit office of CBS Radio Sales. Again he returned to WJR, serving as assistant general manager for the 1937-46 period and vice president-general manager for the next two years.

In 1948 he left after more than a score of years in Detroit radio to become assistant secretary and general manager of WQAM-AM-FM Miami. Industry activities include ABC Affiliates Committee; Broadcast Advertising Bureau, Plans Committee; director, Florida Assn. of Broadcasters; member; NARTB 1954 Convention Committee; Radio Pioneers and Radio-TV Executives Society. Kiwanis, Masonry and numerous business and civic activities keep him on the move.

CECIL B. HOSKINS
WWNC Asheville, N. C.
Medium Stations

Many broadcast executives are converted engineers and Cecil Hoskins is one of this group. A native Kentuckian, he moved to Asheville in 1921 and has lived ever since in the land of energizing atmosphere and tumbling hills. After graduation from Dodge Radio Institute in 1929, he joined WWNC as an engineer and was appointed chief in 1931.

For 16 years Mr. Hoskins directed the technical operation of WWNC. His administrative talent was moved to the business side Jan. 1, 1947, when he became general manager.

State association activities have utilized his services for years. After six years on the North Carolina Assn. of Broadcasters board he was elected president in 1953. At present he is executive secretary and treasurer of the association. He is a member of Trinity Episcopal Church in Asheville. Civic activities include the Lions Club, of which he is president-elect for the 1955-56 term.

JOHN M. OUTLER JR.
WSB-AM-TV Atlanta
Large Stations

ANY TIME two or more broadcasters assemble and one of them is John Outler, there's bound to be an anecdote and it will be narrated in his genial, Georgian manner famed around the industry. Mr. Outler was born in Georgia, attended school there (Emory College, BS) and has spent his business career in the state. Starting with the Augusta Herald in 1914, he moved to the Atlanta Journal in 1916 and has been in the organization ever since. After World War I service in France he became Journal auto editor, then manager of rotogravure advertising.

Mr. Outler entered radio in 1931 as business manager of WSB, moving up to general manager in 1944. With entry into tv in 1948 he was named general manager for both am and tv operations. At NARTB he has served on Sales Managers and Standards of Practice committees, and presently is a member of the Freedom of Information Committee. His civic activities include Kiwanis, Druid Hills Golf Club, Atlanta Athletic Club, C. of C. and director of Armed Forces Communication Assn., Atlanta chapter.

JOHN F. PATT
WJR Detroit
Large Stations

THE LIST of commercial and civic activities in which John F. Patt has held official rank occupies a full page, single spaced, and ranges alphabetically from American Red Cross to Youth Bureau. Currently Mr. Patt is president of WJR Detroit and licensee of WJRT (TV) Flint, Mich., which is to take the air next September. In addition he is consultant to WGAR Cleveland, which he headed before sale to Peoples Broadcasting Co. in 1954, and has retained his home in Cleveland.

Other industry posts include Radio Advertising Bureau director and chairman of CBS Radio Affiliates Assn. He is the only nominee for senior vice presidency of Radio Pioneers. If custom is followed, he will assume this office at the Pioneers dinner Wednesday.

One of a family of broadcasting brothers, Mr. Patt entered radio at WDAF Kansas City in 1922 as announcer and assistant radio editor. He joined WJR in 1926 as assistant manager.

ALEX KEESEx
WFAA Dallas
District 13

SINCE 1952 Alex Keese has managed WFAA Dallas, a station he joined in 1930 as musical director. Before entering radio he had played violin in several orchestras and had directed pit orchestras in Atlanta, Kansas City, Boston and other large centers.

Shortly after he took the musical post at WFAA he decided to shift over to sales. This soon led to the sales managership.

In 1944 Mr. Keese left WFAA to join the Taylor-Howe-Snowden radio group and set up the organization's sales departments in principal cities. He rejoined WFAA in 1948 and was placed in charge of regional sales, holding the position until his advance to station manager of the radio outlet in 1952.

He is a native of Fort Gaines, Ga. In Dallas he has been active in civic life. He is a member and past director of the Rotary Club and Advertising League; member of Variety Club, Salesmanship and Dallas Sales Executive clubs; Radio-Television Executives Society. His family activities include broadcasting.
BUILD WITH GUILD

PAUL COATES:
CONFIDENTIAL FILE
Exposes rackets, unmasks social problems, reports on unusual personalities that make up America. Tremendous sales impact . . . Los Angeles' highest rated local show. Dynamic, exciting, unique!

THE GOLDBERGS
starring GERTRUDE BERG
They've moved to Haverville, U.S.A. and there's a fresh new flavor to America's most beloved family show as it embarks on a heart-warming new series of adventures.

I SPY
starring RAYMOND MASSEY
Distinguished actor, Raymond Massey, recounting the true stories behind history's most famous spies. Sets a new trend for impact in mystery, intrigue and adventure.

BROTHER MARK
starring RICHARD KILEY
Television's great new dramatic discovery starring in a new and different type of high-pitched adventure drama with a bright spiritual quality, and authentic European backgrounds.

The INA RAY HUTTON Show
Television's first all-girl musical extravaganza. Another thrill-packed musical-variety treat from the producers of the famous LIBERACE Show.

EDWARD A. WHEELER
WEAW-AM-FM Evanston, Ill.
Fm Stations
THERE'S never been, and probably never will be, a more enthusiastic booster of fm broadcasting than Ed Wheeler. He thinks so highly of his WEAW-FM signal that he gives away WEAW-AM time with every fm purchase. During the life of the old Fm Assn. he was a director, and has been on NARTB's Fm Committee for years. On the NARTB board he succeeds Ben Strouse, WWDC-FM Washington, another fm booster.

Mr. Wheeler got his radio start while at California Institute of Technology, announcing without pay on KPPC Pasadena, a church station. His BA degree came from Stanford in 1943. He started WEAW-FM shortly after World War II and has operated multiplex gear as well as storecasting services. He is a sports lover and tinkerer, building everything from radios to racing boats, and goes in for flying as well as competitive sports. Organizations include Evanston Chamber of Commerce (director), Rotary and many others. When NARTB board sessions take up topics affecting fm, Ed Wheeler will be heard.

ROBERT T. MASON
WMRN Marion, Ohio
District 7
THE evolution of trade association policy for broadcasters is a familiar setting for Robert Mason. He's been there before—1951-53, when he was director for the Ohio-Kentucky district and 1947-48 when he was small stations director. Born in Milwaukee Oct. 3, 1900, he got his bachelor of arts degree at Ohio State U. in 1922. He became president-treasurer of WMRN Marion in 1940.

His association service includes membership on many committees, including program, music, copyright, legal-legislative and labor. At present he is a member of the Insurance Committee. For four years he was a member of the Advertising Committee of the U. S. Chamber of Commerce, serving in this role until the committee was abolished. He is a past president of the Ohio Assn. of Radio & Tv Broadcasters.

Two political forays—candidacy for the Republican nomination for Congress in his district, 1948 and 1950—were unsuccessful, but he made a good showing.
WLW seasons your Radio dollar with an extra amount of powerful promotion and merchandising. So you get double your money’s worth. Only WLW’s Radio two for one plan guarantees you an additional dollar or more in big-time merchandising for every advertising dollar you spend. Nobody else doubles your dollars like WLW.

So how about trying our Radio recipe featuring your product. We’ll trade two dollars of ours for every one dollar of yours! You’ll like the results when...

one equals two on WLW RADIO

The Big Mr. in the West
REPRESENTED NATIONALLY BY CBS TELEVISION SPOT SALES
OLIVER GRAMLING is assistant general manager of The Associated Press, and a fervent booster of radio. He made some remarks on that subject before the Alabama Broadcasters Assn. last month. His speech is excerpted below.

THE OTHER DAY I happened to run across a story about a medical convention. The story quoted a group of researchers as having concluded that being just plain happy about things can cure many ills, fancied or real.

Reading the story reminded me about how all of us these days are going through a period of many changes—and of how those changes have been causing some of us considerable worry. And, the more I thought about it, the more I wondered if two or three years of worry and uncertainty aren't about enough for most of us.

The old habit of worrying, you know, goes back a long way. But the fact is that every generation—every enterprise—goes through revolution and change. That is the penalty—or the reward—for progress.

You know, it took a long time for many to realize it, but radio didn't kill off the newspaper. And now it seems to be taking just about as long for many to be convinced that television is not killing off either the newspaper or radio.

The fact is that newspapers, radio and television all have their place. All are communications media and each complements the other.

There seems no logical reason why all three of these media—after some reasonable period of adjustment, of course—should not live and prosper. There's probably nothing radically wrong with any of them. So, if there is any worry at the moment, I wonder if it isn't at least an even chance that it may be with our reluctance to adapt ourselves and our businesses to change and progress?

Take radio, for example. It's no reflection on either television or the newspaper to say that radio has inherent qualities that neither of the other two can offer—and vice versa.

But specifically, as to radio:

What other medium can serve the small businessman so effectively and so cheaply—not only for the advertiser but for the broadcaster as well? In radio, you don't have to set your sponsor's message in type and run it through a million dollars worth of presses or tubes. You just say it over your micro-phone, and it's delivered.

Radio has many other distinctions, just as television and newspapers have their distinctions. Whether we are radio or television broadcasters or both, don't you think we should do a little better job of recognizing those distinctions and promoting them accordingly.

The other afternoon, after one of those usual days, some visiting broadcasters suggested we meet for a drink. They were a pretty good cross-section, some radio, some television, some of both.

Well, we got to talking about business and one of the broadcasters, from an am station in a small market, got on the subject of some of his recent worries. He said:

"You know, until a few months ago, I was in a real stew. I was worried about business dropping off. I was going in every morning with a long face and only a few kind words. Pretty soon, it seemed that everybody around the place also had a long face.

"Then one day I got a new worry. I got to worrying about the morale of my staff. The popular notion about morale," he said, "is that it is something that must be built up from below—from the bottom. That's wrong, and I realized it when I began to realize that my own attitude was wrong. I realized that morale—real morale—must come from above. It's got to trickle down from the top—from positive leadership and confidence. I figured that I wasn't providing it. And so I changed. I started coming in with a smile and some new confidence.

"Now," he said, "everybody on my staff is in a better frame of mind. We are again selling radio for what it is—the best buy in the business. My revenue is up—and I know now that we can keep it that way. I know now how to keep it that way."

Another broadcaster, with both am and tv, said he had been in the dumps because his radio was down and his television costs—plus new competition—were eating him up. But he had been especially worried about radio.

"You know," he said, "for years my radio station rode a national network and we made plenty of money. Then I got immersed in television. Also my network business began to fall off, and that meant my revenue took a nose-dive.

"I came to New York several times and worked on the network. I poured the pavements and cooled my heels in agency offices. But I didn't get very far. And I went back home with just about as long a face as you can imagine.

"Things got so bad," he said, "that I finally decided I just had to stop worrying long enough to start thinking. Here I had been riding a radio network so long that I didn't even have a local salesman on my staff. Now I was trying to recover by cutting off peanuts—$5 a week here, $10 a week there—when what I should have been doing was building up a local sales staff and selling advertisers I never had tried to sell before.

"So," he said, "I built up a staff of seven local businessmen. Now we've got business we had never dreamed of. We are serving our area and local advertisers as we never served them before. And we are doing it in a market in which there are seven other radio stations and three tv!"

There was one other little incident that afternoon. You may recall that there's a revolving door at one side of the men's bar at the Waldorf.

We happened to look up. A big, fine-looking fellow was coming through the door. He not only was big, but he was carrying just about the biggest briefcase I've ever seen. It was obvious that he was a salesman, and it was just as obvious that he had had a tough day.

He struggled toward the bar and on the way he stopped near our table to hang up his hat and coat. He noticed we were watching him. He must have realized that we were kindred souls. Anyway, with a great, almost collapsing shrug, he faced us and said:

"Gentlemen, death of a salesman!"

Then he wandered over to the bar. He ordered a martini. Then he ordered a second one. Pretty soon he started talking to the fellow next to him. They started buying each other drinks.

An hour later they parted like bosom friends. Our salesman had a new spirit and a spring in his step as he came over our way to get his things.

Then, apparently, he remembered us again. He stopped, drew himself to his full height and delivered his parting line:

"Gentlemen!" he said, "In the words of our founder, let's all get out and sell!"

Don't you agree that the makings for a martini for the broadcasting industry are at hand right now? Don't you agree that all we have to do is use the right mix for the particular taste of our own community? Don't you agree that, if some change is needed in formula, then we should recognize the need and make the change? Don't you agree that is the positive, progressive thing to do—the right thing to do?

And they say, you know, that doing the right thing should always make us happy!
out-selling... out-performing

ALL OTHER COLOR TV SYSTEMS

the 56th

DuMONT multi-scanner

now installed at WAGA-TV

Atlanta, Georgia

by popular demand...
In monochrome operation the Multi-Scanner provides pickup for 16 mm film, transparent slides and glossy or matte opaques. Simplicity of system assures operating economies, dependability and top performance.

The Color Multi-Scanner can be ordered as such, or may be a modification of the Monochrome unit. Principle of operation is identical to monochrome. The pickup assembly consists of three multiplier phototubes and color filters. There are no registration problems with this system.
for monochrome film, slides and opaques...

**color** film and slides...

and now

**live color** in a single unit!

*the DU MONT multi-scanner*
By means of a simple addition, the DuMont Color Multi-Scanner can pick up local live color programs. The same light source scans the program subjects in a fully illuminated studio and multiplier phototubes, grouped like studio floods, pick up reflected light to form a picture. System permits specialized lighting effects similar to studio floods and spots.

This is the quick and economical way to achieve local live color programming now, along with color films and slides to provide complete color programming at minimum cost.
first with the finest in color television

outstanding color

simple conversion!
**Unencoded Color Switcher**
For control of color signals from color film equipment or other color pickup sources.

**Color Encoder**
To form the composite color video signal as transmitted from the TV station.

**Broadcast Color Picture Monitor**
Used to view a color picture either before or after system encoding.

**Multi-Channel Waveform Monitor**
Four separate signals can be viewed simultaneously on a 4-gun display tube. Unit contains four separate video amplifiers and is designed for either monochrome or color operation.

**Unencoded Color Patch Panels and Cords**
Designed for use in color systems requiring patching of red, green, and blue unencoded color signals. One panel permits twelve unencoded color circuits to terminate at the panel.

**Color Stabilizing Amplifier**
Corrects signal deficiencies resulting from network coaxial cable or microwave transmission.

**Color Synchronizing Generator**
Provides the basic driving signals needed by color signal generating units.

**Sub-Carrier Generator**
Provides the necessary signals to adapt most monochrome sync generators to operate at the frequency required for color system pickup equipment.

**Burst Key Generator**
Supplies the "burst key" pulse to "key in" the color sub-carrier signal.

**Color Sub-Carrier Frequency Monitor**
This equipment checks the accuracy of the color sub-carrier frequency.

**Convergence and Linearity Generator**
Supplies a bar or dot signal for linearity and convergence adjustments of color picture monitors.

**Color Bar Generator**
Supplies the color bar pattern used for checking encoders, color monitors and other studio broadcast equipment and for transmission of test patterns facilitating adjustment of home color receivers.

**Vectorscope**
Used to display and analyze an encoded color bar signal after passing through a television system.

**Square Wave Generator**
Provides a square-wave test signal for use in color studio equipment testing.

**Step Wave Generator**
 Provides a composite video test signal for television system testing.

**Lumi-Chrome Filter**
This unit is a switchable input filter for use with oscillographs in certain color signal analysis work, and is also useful for other color systems measurements where either low or high-pass filtering is required.

**Power Supply and Power Supply Regulator**
Compact unit containing two low voltage supplies capable of delivering total of 500 ma. Single regulator supplies control voltage for any number of stacked power supplies.

RINSO, PEPSDENT TO SHIFT AGENCIES

Lever Bros. products with accounts totaling $8 million move to J. Walter Thompson and Foote, Cone & Belding.

Lever Bros., New York, will shift two of its products—Rinso, with an approximate $5 million budget, and Pepsodent, with $3 million—from their present advertising agency affiliations to two other Lever agencies effective July 1.

Rinso, which has been served by Ogilvy, Benson & Mather, New York, for the past two years, moves to J. Walter Thompson Co. The latter agency had handled Rinso in the early 20's, prior to its association with the former agency, Ruthrauff & Ryan, the agency for Rinso for many years. JWT also services Lux for Lever Bros.

It was reported that the change in agencies probably would mean that Rinso would return to a fuller radio-television campaign. Rinso dropped out of Arthur Godfrey radio-television sponsorship several years ago and put the money into magazines, including 52 pages a year in Life.

Pepsodent moves from a four-year-stay at McCann-Erickson, New York, back to Foote, Cone & Belding, which with its predecessor, Lord & Thomas, serviced the account for more than 30 years.

Pepsodent currently sponsors half of the

Jimmy Coons children's show on CBS-TV, alternate-week portions of Arthur Godfrey on CBS radio and television and one commercial on Lever Bros.’ Lux Video Theatre on NBC-TV.

Pepsodent has a long history as an advertiser on radio and television. The toothpaste firm originally underwrote the Amos 'n Andy show in radio and later was the first advertiser to sponsor comedian Bob Hope.

The move back to Foote & Belding reportedly was because T. E. Hicks, newly-appointed vice president in charge of merchandising, wanted that agency because he had dealt with it when he was with Armour & Co.

Underwood, 4 Others Start Radio Campaigns

UNDERWOOD CORP. (office machines), returning to spot radio for the first time since last Christmas, is joining several other advertisers in accelerated radio spot campaigns, BT learned last week.

Other advertisers involved in last week's activity included Life magazine, Hazel Atlas Glass Co., Coughlin Copper Cleaner and Breakers Beach Club.

Underwood, through Brooke, Smith, French & Dorrance, New York, is preparing a radio spot announcement schedule to break today (Mon.) and run for a short term in approximately 200 markets. The advertiser is buying mostly news adjacencies.

Life magazine and its agency, Young & Rubicam, New York, are meeting to consider Life's radio budget and its new pattern for a spot schedule. Specific details are expected to be worked out by next week.

G. N. Coughlin Co., Orange, N. J. (baker cleaner), through Reidle & Freede, Paterson, N. J., is placing radio spot schedules on women's shows as distribution increases.

The Breakers Beach Club, Lido Beach, L.I., through Gibraltar Adv. Agency, has purchased radio participations on seven New York stations, starting immediately.

Three More Take 'Monitor';
Series Now 58% Sold Out

THREE more major advertisers have signed for sponsorship of Monitor, NBC Radio's new weekend service scheduled to start June 12, bringing gross billings for the series to $1 million (BT, May 16). The advertisers are Chevrolet Motor Div., General Motors Corp., through Campbell-Ewald Co.; Philip Morris through Blow-Bein-Toigo Inc., and Gruen Watch Co. through Grey Adv.

Chevrolet's 13-week schedule, which will start June 12, is the largest single order received for Monitor to date, the network announced last week. The Philip Morris schedule will commence July 2 for 52 weeks. The 13-week Gruen order will run from June 12 through June 26 and from Oct. 15 through Dec. 18.

With these recent signings, the number of minutes sold for Monitor now totals 853. The total number of six-second "billboard" announcements is 325. The new series, the network announced, is now 58% sold out.

Other network sponsors who have purchased participations on the series are Western Union Telegraph Co., RCA, Nash Motors and Carter Products.

'Spots' Offers Stations Rate-Cut Advertising Deal

RATE-SMASHING device offering 75-100 word spot announcements at $1 each is being submitted to stations by "Spots," 755 Birch St., Denver, Colo. "We are selecting 200 local radio stations in the 20-state area around Denver to induce national 'advertisers' to use local stations to promote the sale of their products," according to a circular letter sent out by J. L. Porter, general manager.

"Announcements can be placed on the air at the stations 'convenience' any time within a four-hour time limit selected by the 'advertiser,'" Mr. Porter writes. He said he had "over 1,000 of these 'advertisers' interested in the use of spots, with payment to be made in full at $1 per announcement. He adds, "While this rate may be below your regular charges we have eliminated your sales expense, bookkeeping and continuity cost plus bringing you a new source of revenue outside of your regular clients."

'Spots' Offers Stations Rate-Cut Advertising Deal

RATE-SMASHING device offering 75-100 word spot announcements at $1 each is being submitted to stations by "Spots," 755 Birch St., Denver, Colo. "We are selecting 200 local radio stations in the 20-state area around Denver to induce national 'advertisers' to use local stations to promote the sale of their products," according to a circular letter sent out by J. L. Porter, general manager.

"Announcements can be placed on the air at the stations 'convenience' any time within a four-hour time limit selected by the 'advertiser,'" Mr. Porter writes. He said he had "over 1,000 of these 'advertisers' interested in the use of spots, with payment to be made in full at $1 per announcement. He adds, "While this rate may be below your regular charges we have eliminated your sales expense, bookkeeping and continuity cost plus bringing you a new source of revenue outside of your regular clients."

On June 12, NBC will present the special premiere broadcast of MONITOR.

But MONITOR has already arrived. In the three weeks since the rate-card was issued, America's alertest advertisers and their agencies have rushed to invest more than $1,000,000 in MONITOR with the first program almost a month away.

For MONITOR is an unequalled opportunity to reach a huge cumulative audience at prices no national advertiser can afford to pass by. Wherever Americans go, MONITOR goes with them—from 8 a.m. each Saturday until midnight Sunday—into living rooms, bedrooms and kitchens; at beaches, ball parks and summer camps; along the highways in 29,000,000 family cars.

Packed with forty hours of the most exciting and entertaining material that the full resources of NBC can provide, MONITOR has everything for everyone—new sounds in music, in news, in everyday living—even new sounds in...
odities (the nation will hear a worm turn, an oyster laugh). MONITOR will take its listeners to the boulevards of Paris with Art Buchwald . . . an assault on the sound barrier with an Air Force jet pilot . . . the uncontrolled hilarity in a TV studio as the comedian warms up his audience . . . above all, to the raw, pulsing life of the unexpected news-break.

Even now, NBC Radio reaches half the families in the United States each weekend. MONITOR will bring in millions more, and keep their radios near them. And to take your message to these millions, MONITOR offers the most flexible plan in broadcasting history. You can buy one-minute announcements, 30-second announcements and 6-second "bill-boards," and you can buy them as you need them—on the entire network or on any or all of the five NBC-owned stations.

A special Introductory Dividend Plan gives you an extra bonus if you sign up now—value piled on value in the precedent-shattering pattern for radio's future.

These are some of the sponsors who have already put their money in Monitor

Car Dealer Found Guilty Of 'Bait-Switch' Practice

FOUND GUILTY in Los Angeles Municipal Court of violating the California business and professional code—specifically, in advertising used cars on TV for one price and selling them to respondents at a much higher price—a Lynnwood, Calif., car dealer and one of his salesmen will be sentenced on May 24.

Conviction of Jack Tankersley, owner of Farmer Jack's used car lot, on two code violations and salesman Gene King on one violation marked completion of the first part of a drive by the Los Angeles Better Business Bureau and police against used car "bait-switch" TV commercial practices (B&T, May 16).

Also on May 24, Cal Worthington Motors, Huntington Park, Calif., will go on trial in Los Angeles Municipal Court on similar charges.

Mr. Tankersley and Mr. King both were convicted of selling a 1953 Chevrolet, advertised on KCOP (TV) Hollywood last Jan. 30 for $999, to a BBB shopper for $1,300. Only Mr. Tankersley and Farmer Jack's, as a corporation, were found guilty on the second charge, the sale of a 1951 Plymouth offered on KCOP Feb. 6 for $699, at a final price of $1,045.

KCOP subsequently cancelled all Farmer Jack's and Cal Worthington Motors advertising after bait-switch charges were filed against the car dealers by the city attorney's office.

Improvement Noted in N. Y. Decrease of Bait-Switch

"SUBSTANTIAL IMPROVEMENT" in the "quality and character" of many radio and TV commercials formerly subject of criticism in New York for alleged bait advertising complaints were reported last week by the Better Business Bureau there.

The bureau, in its Monthly Memo, said the improvement had been noticeable in recent weeks. According to this report, "some of our TV and radio stations have done a fine job of insisting that their advertisers play fair and square with the listening audience, although two or three of them continue to carry copy which is open to substantial criticism."

Particular attention was paid to WATV (TV) Newark, to which the bureau said, "We doff our hats . . . [WATV] seems to have done an outstanding job of cleaning up baiters and insisting upon full and fair disclosure of what is being offered to its viewers."

At the same time, the bureau noted that some advertising still appears in New York "newspapers and on radio and TV" which indicates a bait-and-switch approach.

Apple Growers Increase Advertising Assessment

APPLE GROWERS in Washington State have voted to assess themselves an additional one cent a box, beginning with shipment of the 1955 crop, to increase the advertising and promotional budget of the Washington Apple Commission. Cole & Weber, Seattle, is the agency, with Floyd O. Flint as account executive.

In a year of average apple production, according to Pacific Northwest fruit-growing experts, the one-cent increase may be expected to yield approximately $200,000. Television, which has had a substantial share of the budget in the past, is expected to benefit from the raise.

In requesting the increase, the commission pledged that the entire additional amount would be used for advertising and other promotion, rather than for administration or research.

Maybelline to Participate In NBC Spectacular Series

MAYBELLINE Co., Chicago (eye beauty aids), was reported last week to have purchased participations on NBC-TV's projected series of color spectacles this fall on a 13-time basis. The contract calls for participations in each month's program and was claimed to be the largest yet purchased by a client for the spectacles.

The pact was negotiated by Roy M. Kirtland, vice president of Gordon Best Co., which handles the Maybelline account, a heavy TV spot advertiser.

Gardner Names Chipperfield

GARDNER Adv. Co., St. Louis, last week announced the appointment of Frank L. Chipperfield as media director, succeeding Warren Kraitky, promoted to head the newly-created dept. of marketing. Mr. Chipperfield has been media director of the Joseph Katz Co., Baltimore, and previously was associated with Hewitt, Ogilvy, Benson & Mather Inc., New York; Roy S. Dus stine agency, New York, and Gardner Displays Inc., New York.

Michigan Brewing Firm Signs For 30 Hours Weekly on WJR

MICHIGAN Brewing Co., will be one of the largest time buyers by a Michigan brewery. Under the purchase, effective last Monday, E&B will sponsor five hours nightly, six times a week, between 12 midnight and 5 a.m.

Announcement of the deal was made by LeRoy Payne, E&B president; Leonard Simons, Simons-Michelson Co., agency for E&B, and Worth Kramer, WJR vice president and general manager. The five-hour E&B period will be a varied program of news, music, interviews, weather and road reports, plus a nightly 15-minute man-on-the-street interview segment.

Cabot Elects Edward Chase

ELECTION of Edward F. Chase as executive vice president of Harold Cabot & Co., Boston, was announced last week by Harold Cabot, president. Mr. Chase has been with the agency since 1942 and as vice president since 1945.

Major Leagues Seek Data On Effect of Radio, TV

BASEBALL Comr. Ford Frick announced last week that he has hired an independent research firm to survey the problems of baseball, covering such topics as the effect of radio and TV on attendance and the attitudes of fans toward pay-as-you-see TV.

The assignment given to Stephen Fitzgerald & Co., New York, according to Mr. Frick, is to "get the facts" concerning radio-television, major-minor league relations, feasibility of expansion, falling game attendance, unpopular legislation, relations between front office and players and the front office and press.

"There has been a lot of loose talk regarding what effect radio-TV has had on baseball attendance, both in the majors and minors," Mr. Frick said.

The survey is expected to begin next week and will cover both fans and sports writers in various cities. A spokesman for the Fitzgerald organization said that the number of cities to be surveyed has not yet been determined but that a preliminary report is expected for the mid-season meeting to be held in July by the American and National leagues.

SPOT NEW BUSINESS

Goetz Beer, St. Joseph, Mo., preparing supplemental radio spot campaign in about eight markets for 13 weeks starting today (Mon.).

NETWORK NEW BUSINESS

Polk Miller Products Corp. (Sargeant's Dog Care products), Richmond, Va., makes TV debut with 24 participations on NBC-TV Home during 14-week period on summer incentive plan, effective in June. Agency: W. W. Ayer & Son, Phila.

American Medical Assn., Chicago, will sponsor special broadcast covering inauguration ceremonies and address of incoming AMA president June 7 on ABC Radio (8:30-9:15 p.m. EDT). Agency: J. Walter Thompson Co., Chicago.

NETWORK RENEWAL

Gulf Oil Corp., Pittsburgh, renews The Life of Riley on NBC-TV (Fri., 8:30-9 p.m. EDT) for 52 weeks, starting Sept. 16. Agency: Young & Rubicam, N. Y.

AGENCY APPOINTMENTS

Lionel Corp., electric train div., N. Y., names Grey Ads., same city.

American Institute of Men's & Boy's Wear, N. Y., has named BBDO, N. Y.

Athena Products Corp. (New-R-Spot Surface Protection); Panda Products Corp. (plastic foam processors), and Sherwood Industries (business development), all Buffalo, N. Y., appoint Comstock & Co., same city.

Valley Ford, Ranchero Motors (Studebaker-Packard), Stansbury Buick and Snyder-Lynch Motors (Dodge-Plymouth), L. A. area auto dealers, and Citizen Filing Service (land development), Hollywood, name Jimmy Fritz & Assoc., Hollywood. Radio spot announcements will be used in all campaigns.

White Ice Cream & Milk Co., Wilmington, N. C., has named Tucker Wayne & Co., Atlanta.

Anton's Continental Frozen Foods, Miami, has named Bishopric/Green & Assoc., same city. TV is planned.
Farm livestock income in the KFAB area is over $1,172,000,000 annually.

This month, KFAB is proud to "Face the Facts" with Harold L. Coons, Advertising Manager of the Keystone Steel and Wire Company.

Keystone is a great believer in radio advertising and has long association with KFAB in the Omaha market. Big Mike and his staff are proud of the many long-term advertisers of the caliber and reputation of Keystone. The station has sold everything from cake mix to Red Brand fence... with a corresponding range in success stories.

When you're considering the multi-billion dollar market that centers in Omaha, you're invited to Face the Facts. A Free & Peters man will be glad to give you the KFAB station and market story. Or, have a visit with General Manager Harry Burke.
A&A PEOPLE

Dr. Joseph Schultz, president, Lady Esther Co., Chicago, and director, parent Zonite Products Corp., New Brunswick, N. J., to Consolidated Cosmetics Inc. (Lancolin Plus products), Chicago, as president, effective June 1, succeeding Karl Kemper; Charles T. Silloway, Zonite president, assumes Mr. Schultz’s duties.

Cornelius W. Hauck, media director, Guenther, Brown & Berne Inc., Cincinnati, appointed vice president.

Stan Pforn, account executive, Bozell & Jacobs, Seattle, named vice president in charge of advertising and promotion, Coca-Cola Bottling Co. of New York, to Gettschol Co., N. Y., as vice president and merchandising director.

Thomas D. Murray, formerly vice president in charge of advertising and promotion, Coca-Cola Bottling Co. of New York, to Gettschol Co., N. Y., vice president and merchandising director.

Stuart D. Strand, formerly radio-television consultant, Barber & Baar (public relations), N. Y., to E. M. Eisfeld Adv. Management, Miami, as television department director.

Dave Titus to Cole & Weber, Seattle, as radio-television director; Edna Erickson, formerly with McCann-Erickson, Chicago, to Cole & Weber as media director; Niles E. Kelley Jr. to agency as visual director; Sherwood Armstrong, formerly creative and marketing director, Ryder & Ingram, Oakland, Calif., to creative staff.

Brooks Elms, formerly with McCann-Erickson, N. Y., to Bermuda, Castlemain & Pierce, same city, as radio-television director; Robert Rowell, BBDO, N. Y., to Bermuda, Castlemain & Pierce as assistant to radio-television director.

Alfred J. Blake, formerly head of own public relations agency, to public relations dept., Emil Mogul Co., N. Y., as director.

Lloyd Miller, research project director, Dancer-Fitzgerald-Sample, N. Y., promoted to research department manager.

Ben Gedalia, BBDO, N. Y., appointed research director.

William H. Ryan, former promotion, merchandising and publicity manager, KFMB-AM-TV San Diego, to Dick Bradley Adv. Agency, same city, as account executive and creative supervisor.

Faith Green, formerly assistant fashion editor, Vogue magazine, to Mory, Humm & Johnstone, N. Y., as assistant account executive.

Donald Rithmiller, formerly with Ketchum, McLeod & Grove, Pittsburgh, to Lang, Fisher & Stashower, Cleveland, as art director; Edward T. Noll, formerly producer-director, WXEL (TV) Cleveland, to Lang, Fisher & Stashower radio-television staff.

R. Allan Gardner, Monsanto Chemical Co., St. Louis, appointed household products advertising manager, merchandising div.; Stanley W. Sullivan, Monsanto, named merchandising division garden products sales manager, headquartered in Chicago.

C. M. Garvies, sales staff, Southern Premium Stamp Co., Atlanta, appointed east Tennessee sales manager, headquartered in Morristown.

Maidie Alexander to public relations dept., BBDO, N. Y.

Alfred N. Steele, president, Pepsi-Cola Co., N. Y., and Joan Crawford, motion picture and television star, were married May 9.
NBC pays Westinghouse $3 million cash to boot in unprecedented swap transaction. Neither party gives reasons for the unusual deal, but for NBC Philadelphia is a better television market than Cleveland.

NYING with the NARTB's 33d annual convention in Washington this week for the attention of the nation's broadcasters was the NBC-Westinghouse swap transaction involving Philadelphia and Cleveland, announced last Tuesday after intermittent negotiations.

The unprecedented deal gives Westinghouse the NBC-owned WNBK (TV) and WTAM-AM-FM Cleveland in exchange for the Westinghouse Philadelphia stations, WPTZ (TV) and KYW, plus $3 million of NBC cash.

NBC and Westinghouse, upon FCC approval of the transaction, would become more firmly entrenched as associates in the basic structure of the network. There had been earlier reports of possible switches in affiliation by several Westinghouse outlets to CBS and also of a possible Am-Fm deal which would have traded even-up its Cleveland properties for other Philadelphia outlets.

The FCC informally was notified of the transaction last Thursday, prior to the public announcement. The announcement was made by NBC President Sylvester L. Weaver and Westinghouse Broadcasting Co. President Chris J. Witting, the latter and Joseph V. Heffernan, NBC financial vice president, having signed the actual agreement.

Since trades are involved, the only dollar figure used was the $3 million cash which NBC pays Westinghouse. Westinghouse purchased WPTZ (TV) from NBC in May 1953 for $8.5 million. It has spent about $200,000 in bringing the ch. 3 outlet up to full power. Figuring the radio properties as even-up (both are 50 kw with WTAM a 1-A clear and KYW a 1-B) the differential as between the Philadelphia and Cleveland tv stations is $3 million, which would place an evaluation on WNBK (TV) of $3.5 million.

Last January, Westinghouse purchased WDTV (TV) (now KDKA-TV) Pittsburgh from DuMont for $9,750,000. In July 1954 it bought KPIX (TV) San Francisco from Wesley J. Dunn and associates for $5.5 million in cash and Westinghouse stock. By the time of FCC approval the stock had risen in value so that the FCC described the total sale as a $7.5 million package.

In May 1953 Westinghouse bought WPTZ (TV) from Philco for $8.5 million. Its swap of WPTZ for NBC's WBNK (TV) last week represented a rock-bottom figure of $8.5 million, although only $3 million in money changed hands. Here are some other sales figures of the past six years:

    July 1949: KRSC-TV Seattle (now KING-TV), sold by P. K. Leberman to Mrs. A. Scott Bullitt and associates for $375,000.
    July 1950: WOIC (TV) Washington (now WTOP-TV), sold by Bamberger Broadcasting Co. to WTOP Inc. (then 55% owned by Washington Post and 45% owned by CBS) for $1.4 million.
    December 1950: KTSF (TV) Los Angeles (now KNXT (TV)), sold by Thomas S. Lee Enterprise Inc. (General Tire & Rubber Co.) to CBS for $3.6 million.
    August 1951: KFI-TV Los Angeles (now KFJH-TV), sold by Earle C. Anthony Inc. to General Teleradio Inc. for $2.5 million.
    September 1951: WOW-TV Omaha, sold by Francis B. Matthews and associates to Meredith Publishing Co. for $2.5 million (with WOW).
    January 1952: WOR-TV New York, sold by Bamberger Broadcasting Co. to General Teleradio Inc. for $4.5 million, plus $315,000 annual lease and 10% interest in purchasing company, by R. H. Macy Co., majority stockholder of Bamberger (including WOR-AM-FM)

February 1953: WBBK (TV) Chicago (now WBBM-TV), sold by Balaban & Katz Inc. (now part of American Broadcasting-Premium Theatres Inc.) to CBS for $6 million.

May 1953: WPTZ (TV) Philadelphia, sold by Philco Corp. to Westinghouse Broadcasting Co. for $8.5 million.

June 1954: KLZ-TV Denver, sold by Aladdin Radio & Television Inc. to Time Inc. for $3.5 million (including KLZ-AM-FM).

November 1954: WCCO-TV Minneapolis, 47% interest sold by CBS to Cowles Publishing Co. for $3.9 million (with WCCO).

December 1954: WTOP-TV Washington, 45% interest sold by CBS to 55% owners Washington Post & Times Herald for $3.5 million.

January 1955: WDEL-TV Wilmington, Del., sold by Steinmans to Paul F. Herron (WIBG Philadelphia) for $3.7 million.

WTCN-TV Minneapolis, sold by Robert Balaban and associates to Consolidated TV & Radio Bcastrs. Inc. (Bitter) for $1.9 million.

WMIN-TV St. Paul, sold by N. L. Benton and associates to Consolidated TV & Radio Bcastrs. Inc. (Bitter) for $1.23 million.

WTVW (TV) Milwaukee sold by Milwaukee Telescasters Inc. to Hearst Corp. for $2 million.

March 1955: WNBV-TV Binghamton, N. Y., sold by Clark Associates Inc. to Triangle Publications Inc. (WFIL Philadelphia) for $3 million (with WNF).
Cleveland station exchange, NBC expects to transfer its top management team in Cleveland to Philadelphia, and WBC will move its key Philadelphia executives to Cleveland. The rest of the NBC and Westinghouse personnel will remain in place under the new ownership.

Lloyd E. Yoder is general manager of WNBK (TV) and WTAM-AM-FM Cleveland. Top WBC executives in Philadelphia are Roland V. Tooke, station manager of WPTZ (TV), and Frank A. Tooke (no relation), station manager of KYW.

Conversations have been held off and on between Messrs. Heffernan and Witting since early last fall, but there had been discussions also between Westinghouse and CBS regarding possible switches in affiliation, dating back to 1953. These, it was learned, had been revived as recently as several weeks ago. CBS, however, was reportedly loath to change its long-established affiliation with WCAL-AM-TV, now owned by the Philadelphia Bulletin but established by the Levy brothers, both of whom had served on the CBS board of directors almost from the start of the network's operation.

In some quarters it was reported that NBC would make an acquisition in Philadelphia whether or not it was with Westinghouse. Last fall there were reports of conversations regarding a possible shift in affiliations by NBC from Westinghouse to WFLIL-AM-TV, owned by the Philadelphia Inquirer. Reports of a possible even-up swap of the Inquirer properties for NBC's Cleveland properties were never verified.

Last January it had been said that the NBC board had approved the very transaction agreed to last week—exchange of the Cleveland properties for the Philadelphia properties with $3 million to boot for Westinghouse. At that time it was reported that Westinghouse was reluctant to trade because of the profitability of the Philadelphia operations.

The Westinghouse Electric board, it is understood, last fall authorized the subsidiary WBC to engage in the negotiations. There was one postponement after another until last week.

FCC Notified

Last Tuesday, F. M. Russell, vice president of NBC in Washington, and Joseph E. Baudino, WBC vice president, called on members of the FCC informally to notify them of the transaction. Transfer papers, it was indicated, would be filed within a fortnight.

In the negotiations over the past several months, Messrs. Witting and Heffernan conferred frequently. Mr. Witting also had discussed the transaction several times with Brig. Gen. David Sarnoff, RCA's board chairman, and, as such, the policy head of NBC. Also in the conversations for NBC from time to time were Robert W. Sarnoff, executive vice president of NBC, and Charles R. Denny, vice president in charge of owned-and-operated stations.

E. V. Huggins, vice president of corporate affairs of Westinghouse Electric Co., and chairman of WRC, and Mr. Baudino also sat in from time to time for Westinghouse.

Originally NBC had suggested not only the Cleveland-Philadelphia swap, but also a sister transaction involving NBC's Washington properties. WRC-AM-FM-TV, for Westinghouse's Boston properties, WBZ-WBZA and WBZ-TV. Mentioned then was the prospect that Westinghouse could locate WRC-TV (ch. 4) at a point midway between Washington and Baltimore (separated by about 40 miles) to cover both markets. Westinghouse has important factory operations in the Baltimore area but would not consider this proposal, and the conversations settled down to Cleveland for Philadelphia.

Subsequently NBC renewed its regular affiliation...
Another thinly disguised WJR success story

I don't care what WJR says—we haven't got it!

One day an advertiser sent us a commercial announcing a new ingredient in his product.

It went on sale Wednesday. Part of his strategy was that the dealers themselves weren't to know it until Wednesday.

He sponsored an early evening newscast on WJR. Naturally, we put the commercial on his Tuesday show—to give him a headstart on announcement day.

And even we didn't anticipate what would result. Right away, dealers in Cleveland, Toledo, Saginaw, Lansing, Flint and Detroit got on the phone. They barraged the Detroit division manager—even called the New York office. They were being pestered by people for a product they didn't have.

The Detroit division manager is a charming fellow with great respect and admiration for WJR. (He points to his sales to back him up.) When the home office and his dealers called him, he had a very simple lesson for them.

First, he said, this was proof that the best—and cheapest—way to move goods fast is to advertise with spot radio on WJR.

Because, he warned, when WJR goes to work, your product had better be ready to go—right now.

They believed him. Wednesday sales were out of this world. WJR believes him, too. Your Henry I. Christal man can tell you why.

Sales “Picking Up”

Someday when you’re waiting on the corner for a bus, don’t be surprised if Slim Miller from the Town Used Car Lot pulls up and offers you a ride.

“I hate to see anyone standing in the cold,” Slim says. “One day when I picked up a fellow in my own reconditioned car we got to talking about its smooth-running motor. Next day he came down to buy a used car.

“Now I drive a different car each day, so when I pick someone up I can demonstrate its slick performance. I’m selling more used cars than ever before—making lots of new friends, too!”

From where I sit, Slim’s “be nice to your neighbor” campaign is one reason for his being a leading businessman in this town. But it goes further than that because he isn’t only nice to potential customers. He’s neighborly to everyone—local folks and tourists, Democrats and Republicans, lemonade-fanciers and those who’d rather enjoy a glass of beer. There’s nothing “secondhand” about his community spirit.”

Joe Marsh
**Telethon Tops Cancer Crusade Goal**

The famed creator of the polio vaccine, Dr. Jonas Salk, was given a 1955 Oldsmobile—and the Cancer Crusade gained $32,244.52 as the result of the 16-hour telethon from KGNC-TV and KGNC-Radio. In a triple play—from auto dealer to Cancer Crusade to the famed scientist—the big car, with air conditioning to be added, was paid for by the gift of enthusiastic West Texans.

To the young scientist who will receive no remuneration for the car, on paying the vaccine that may eliminate polio from the world, other gifts included a license plate, in fact, everything including an expense paid trip to Texas to accept the car.

Late last night Dr. Salk had not yet been reached for a statement at his home near the University of Pittsburgh where he is a staff member of the medical department. Although he has steadfastly refused any gifts from individuals, it was thought by some of his co-workers in Pittsburgh that he would take the car and purchase with the dollars that will go to search for a cure for another dreaded disease.

Originally KGNC-TV planned to auction off dozens of items contributed from Amarillo merchants (with one big refrigerator from a Happy merchant and the Happy Lions Club). And until around 4 p.m. the auction went off as scheduled with more than $18,000 raised by the sale of merchandise.

Then a Chevrolet truck was brought on, and a bid came from New Mexico for $750 on the vehicle. At 2:30, Sam Fenberg called in:

"Let's put up the money and buy that truck for Dr. Salk. I'll give 1,000." The idea caught on. The auction had been going well enough when people were bidding for merchandise for their own use, with the knowledge that all money would go to the Cancer Crusade. But with the chance to simply give without any hope of having something show for it, the telephone lines clogged.

Before you could say, jack-rabbit, the value of the truck had been met—and passed. In fact, a Graham-Loeinc plow was being brought up into the audience, with a price tag of $4,139, and someone yelled "Let's give the plow to the Boy's Ranch, too."

The Oldsmobile had been displayed, as had some other expensive appliances to the televiewers. But no bids had been received on it, yet.

Then came a call. Jim Pearson, 1069 Lliponce, was making another attempt to give an apprreciative gift to Dr. Salk. Earlier he had sent a check for $5 to the Amarillo Daily News, asking that it be given to Salk. His letter had been used in Letters to the Editor and the check was back with a suggestion that it be given to the National Foundation for Infantile Paralysis, which raised the funds that provided the research teams for polio.

"Why don't we give that automobile to Dr. Salk?" he said.

"Come and get my 50." It was like hitting the jackpot. In less than an hour, $53,580 had been donated toward the value of that car—and with every second of it going into the Cancer Crusade funds!

One of the first donors to the telethon was Ken Randall, whose firm of Garner-Randall Motors Inc., had donated the car in the first place. His one of many contributions. In fact, a few of the contributions came in addressed to the polio fund, but these would be separated and sent to that organization. The team of auctioneers, headed by Johnnie Linn, and formed of Pappy Watson and Bob Izzard, explained carefully what was going on—but on any triple play, the onlookers are apt to confused.

The telephone was a runaway by that time. With a dozens of appliances awaiting homes, the "gift for Dr. Salk" kept eight telephone lines in constant use. At after 4 p.m. before Johnnie Linn could get the camera back on the appliance.

Between times the Amarillo Chamber of Commerce had offered to pay Dr. Salk's expenses to Texas to pick up the car. Several individuals had offered to take the car to him, without cost. Mrs. Warren Freeman said she'd buy the license plates, and Hubert Cole, Potter County tax collector, who has worked with the Cancer Crusade for years, said he'd guarantee any license number Dr. Salk wanted. Someone offered a gold key. And the cost of airconditioning the car was added by inspiration of one caller.

Then W. A. Graham called to say he could stand the gift of another plow. "Auction it off so Dr. Salk can have one if he's got a farm," he said. No one knows yet whether Dr. Salk has a farm or not. He's got a plow!

The generosity of the Plain people—was truly a Golden Spread yesterday afternoon. Frank Persley of Miami bought a $500 defense bond for $501. Even after waiting 10 years to get his 500, he'll still be short of what he paid for it.

Other items sold at well over retail price as Pleinsmen bid to give the Cancer Crusade assistance. Exhorted by Johnnie Linn to remember that research had done toward stamping out polio, the money came a-bouncing.

"We can give our time and our money to defend our country in war times. Why can't we give both to wipe out the shameful death rate of cancer—one of every seven deaths in the U.S.A., was caused by cancer last year," he said. "At least 260,000 Americans will die from cancer this year. Our dollars can help to fight this battle, too."

Not all of the $22,000 raised in the telephone will be credited to the Potter County goal (which already had more than $3,000 in earlier donations). All of the donations made by residents of other counties will be credited to their counties. The breakdown of contributions will be given Monday by Calvin Handy, head of the accounting department of KGNC, who kept the books on the telephone yesterday.

To try to give full credit to all the people who made the telephone a success was like trying to sweep up the ocean, said Pappy Watson as heured from television studio to radio rooms, keeping a steady cast under way for an extra two hours.

First, there was Tom Krister, who conceived the idea after watching a similar auction in Cleveland. Krister personally took on the task of interesting merchants in contributing the items to be auctioned.

There were the staff members of the radio and television station who built the show, staff it through the long afternoon. With no lunch and a long delayed dinner hour, they were fed by hamburgers from Stan-ley's, and fried chicken from Jones Doll's Ranch House told the street, "next come out for a steak dinner."

Armstrong Transfer Co. hauled the heavy auction items to the studio. Dub Trofter offered to deliver to the buyers any items purchased.

And of course there were thousands who bought auctioned items, or made contributions—many of them anonymous. For example, there was the lady who paid $113 for a chair she could buy for $100, or Sam Fenberg, who offered $300 to the truck for Boys Ranch added another $100 to the Cancer Crusade by contributing $100 to Dr. Salk's car.

"The Only Bargain Here May Be Your Life!"

That sign dominated the camera picture. No one tried to buy any bargains.

And of course we gave in gratitude to a young man who had saved their children from polio—and to win the legacy of another cancer which another young scientist, God willing, will do in some not too far off future.

TV Specs for Britain, Too

The new plan of commercial TV in London is taking shape. The London Associated British Broadcasting Co. Ltd. has been given permission to launch a television service for the British Isles, and the U.S. networks are looking forward to the opportunity to sponsor programs. Among the programs expected to be shown are "The Corridor," a documentary on the British railway system, and "The House," a play about the English family. The new service is expected to begin in September.

ELECTION of J. Howard Wood, business manager of the Chicago Tribune, as president and Frank Schreiber as vice president of WGN Inc. (WGN-AM-TV Chicago) was announced Monday following the annual board meeting of the Tribune Co.

Mr. Wood also was elected a vice president of the Tribune Co., holding organization for the Tribune, New York Daily News and 13 subsidiary firms in the U.S. and Canada. He is also a director and trustee of the McCormick estate. Chesser M. Campbell, former director of MBS who earlier was named president of the company, in addition becomes publisher of the Tribune.

Mr. Schreiber continues as manager and business manager of WGN Inc. and was re-elected a director. He relinquished his post of treasurer to J. A. Cotey. Mr. Schreiber, who also is a director of WPIX (TV) New York, MBS and RAB, has been identified with the Tribune radio-television-newspaper properties for over 30 years. He has been manager and treasurer of WGN Inc. since 1940 and of WGN-TV since 1948.

New directors elected to the board of WGN Inc. include Mr. Wood; W. D. Maxwell, managing editor of the Tribune and vice president of the Tribune Co.; Fred Thrower, vice president of WPIX, and C. E. McKittrick, Tribune advertising manager. Re-elected as directors were Mr. Campbell; F. M. Flynn, publisher of the New York News; Richard W. Clarke, executive editor of the News; Mrs. Garvin McCormick Tankersley; Alfred Cowles, and Henry E. Floyd Jr.

J. J. Jameson was named auditor and controller of WGN Inc. and Fred Byington Jr. continues as secretary. Elections and appointments follow in the wake of the death of Col. Robert R. McCormick, editor and publisher of the Tribune, on April 1.

New officers of WPIX Inc. (WPIX TV) New York, which is owned by the News Syndicate Co., subsidiary of the Chicago Tribune) are J. J. Lynch, assistant treasurer, and T. E. Mitchell, auditor and controller.

WWTV (TV) Goes to 104 Kw

REPLACEMENT of its 530-ft. tower with a 1,282-ft. model, which reaches 2,985 ft. above sea level and increases power to 104 kw, has been announced by ch. 13 WWTV (TV) Cadillac, Mich. The new signal is projected into 42 Michigan counties with a population of 1,338,525 people, WWTV reports. The tower is triangular, has 11-ft. sides and was constructed by the Truscon Steel Div. of Republic Steel Corp., Youngstown, Ohio.
right on time in Chicago...

Time on WMAQ, that is. And it's the right way to run a railroad!

Mr. E. E. Gordon, Passenger Traffic Manager of the Chicago & Eastern Illinois Railroad, recently wrote a letter about how right his company’s time-buys are on WMAQ:

"We want to convey our appreciation for the immediate response that we received from advertising our services over your station. Mr. Henry Cooke on the morning program, as well as Mr. Howard Miller in the evening, along with Mr. Joe Wilson's sport broadcast, made a very effective story from the announcement that described our new train service to Florida, that was reflected so successfully in inquiry and ultimately in actual sales. Considerable interest was created as a result of their personal efforts. We are presently contemplating extending the program . . . ."

Messrs. Cooke, Miller and Wilson are three of the many home-grown, top-rated WMAQ personalities ready to make sure for advertisers that

THE PAY-OFF IS AT THE POINT OF SALE!

And they're backed to the hilt by WMAQ's strong promotional and merchandising support.

There's a personality and a time that's just right for your product or service. All aboard!

19 TV STATIONS SIGN WITH NATS

AFFILIATION of 19 tv stations with National Affiliated Television Stations Inc., New York, recently-formed organization which offers member stations management counsel, a sales force, a basic film library and, if necessary, financial assistance [B&T, March 21], was announced last week by Berman Swarttz, NATS vice president and secretary-treasurer. The stations are the first to be accepted as NATS affiliates.

They are: WROW-TV Albany, N. Y.; KBMT (TV) Beaumont, Tex.; WBLN (TV) Bloomington, Ill.; WCMB-TV Harrisburg, Pa.; WHNT-TV Huntington, W. Va.; WKNY-TV Poughkeepsie, N. Y.; WTMQ-TV Lansing, Mich.; WTVE (TV) Longview, Tex.; KEYD-TV Minneapolis; WMJ-AM New Orleans; WECL-TV Norfolk, Va.; KTVQ (TV) Oklahoma City; WPFA (TV) Pensacola, Fla.; WEEC-TV Peoria, Ill.; KCCO-TV Sacramento; KSAN-TV San Francisco; KTVI (TV) St. Louis; KVVG (TV) Tulare, Calif., and WORA (TV) Mayaguez, P. R.

NATS is backed by General Electric Co. and National Telefilm Assoc. with the intention of helping both uhf and vhf television stations with their management, sales programming and financial problems. Some 700 hours of film from the National Telefilm Assoc. library have been turned over to NATS in addition to other material which includes exclusive footage.

Financial Assistance Offered

Loans to stations may be obtained, where necessary, on a basis from GE and deferred film rentals from NTA. At the request of a member station NATS sales personnel will handle promotions and sales campaigns at the local level.

Officers of the NATS organization are Joseph Justman, president of Motion Picture Center Studios, Hollywood, board chairman; Ely A. Landau, president of NTA, executive vice president; Oliver Unger, executive vice president of NTA, vice president, and Mr. Swarttz, who is a motion picture producer and attorney.

In announcing the affiliation of the 19 stations with NATS, Mr. Swarttz said that of the 19 stations only three had requested financial assistance.

Within the next few days, Mr. Swarttz said he expects to announce additional affiliates. He pointed out that a number of station operators have made arrangements to meet with NATS executives at the NARTB convention this week.

Farm Shows Featured In WREX-TV Lineup

WREX-TV Rockford, Ill., is stressing farm shows on its programming schedule and reports a number of contracts signed by rural advertisers.

Among programs now carried by the station are ones sponsored by Murphy Products Co., Burlington, Wis., and devoted to national and local news, market quotations and other statistics; Town and Country Time, featuring rural music, and Waterfront, syndicated film package just renewed for 26 weeks by 16 area John Deere dealers.

Among other advertisers signed by the station are American Cyanide Co. (Lederle Lab Div. for a cow remedy) and Pfizer Corp. (Terranyn). Les Davis, WREX-TV farm director, handles local programs.
each one is different

The staff of life — despite its many origins and types — is a common need around the world. Quality television stations — just as diverse in their personalities and origins — share a common need for individualized representation. Some of the most outstanding find their answer with Harrington, Righter and Parsons. If your standards are similar to theirs, this is the kind of quality representation worth investigating.

FARRIS, NATS SET KTVQ (TV) REVAMP

U. S. District Court approves plan by E. A. Farris, new controlling owner, and National Affiliated TV Stations Inc. to reorganize Oklahoma City uhf.

PLAN for financial revitalization of uhf KTVQ (TV) Oklahoma City was approved last week by the station's creditors and confirmed by the federal district court. Major backing for the station's reorganization comes from the combined resources of KTVQ's new controlling owner, E. A. Farris, who was one of the major creditors, and the National Affiliated Television Stations Inc., formed two months ago to give aid to ailing stations, uhf or vhf.

The plan for reorganization was formulated by NATS with Mr. Farris, Oklahoma attorney, oilman and rancher. Mr. Farris cancelled all station debts owed him in exchange for all voting common stock [At Deadline, May 16].

NATS was formed by General Electric Co., National Telefilm Assoc. and Hollywood motion picture people because of concern over the increasing number of financially unstable tv stations in seemingly profitable markets. Its part in the rebuilding of ch. 25 KTVQ will be to furnish financial assistance where required, management counsel, an experienced national and regional sales representation and programming. At the time NATS was first announced it offered affiliates a basic film library of over 1,000 hours, mainly the library of National Telefilm Assoc. plus feature films released for tv.

All present KTVQ stockholders will surrender their voting stock for preferred stock. Mr. Farris then will be issued all the voting common stock, becoming controlling owner, subject to FCC approval.

New personnel and management counsel appointed to put KTVQ back on a financial footing include:
- Richard Doherty, director of NATS management services and president of Radio-Tv Management Corp., Washington, who will work closely with the station in an advisory capacity.
- Robert Purcell, tv consultant and former executive of KTTV (TV) Los Angeles, who at the recommendation of NATS will serve as director of television for 60 to 90 days.
- B. Mack Lester, for the past four years station manager of KTWV Oklahoma City, will be general manager, assuming complete responsibility for KTVQ when Mr. Purcell's job is done. Mr. Lester has been in broadcasting for nine years, almost all in Oklahoma City.

Stafford Warner Dies

FUNERAL SERVICES have been held for Stafford Warner, founder, general manager and co-owner of KWBR Oakland, Calif. Mr. Warner, 63, died May 8 at Oakland's Peralta Hospital. Services were held May 12.

In 1919 Mr. Warner established one of the first radio stations. A year later his experimental outlet began operating under the call KLS which was changed to KWBR in 1945. Mr. Warner also is a pioneer in radio retailing; he opened his first store in 1920.

He is survived by his mother, a sister and three brothers, one of whom is Eugene, co-owner of KWBR.

KPTV (TV) Plans 1,000 Kw

INCREASE in power to 1,000 kw, maximum allowed for a uhf station, has been slated for June 11 by KPTV (TV) Portland, Ore., the nation's first commercial uhf outlet. Delivery of a new RCA high-power antenna is expected late this month at which time it will be placed atop a new 535-ft. tower, replacing the present 210-ft. structure. Target date for the power increase is set to coincide with Portland's Rose Parade. KPTV operates on ch. 27 and is owned by Storer Broadcasting Co.
Sound-est investment

Only on WBT Radio can you associate for your product the massive, traditional selling power of "Grady Cole Time", now in its twenty-sixth year and stronger than ever. Grady gives each of his forty-six current sponsors individualized benefit of his 8.7 average Pulse rating (5:45 to 9 a.m., Monday through Saturday) plus canny commercializing and immense influence with consumers, retailers and wholesalers.

The rarity of availabilities underlines the prudence of regular contacts with your CBS Radio Sales man.
A Progress Report (and sincere thank-you)
to all our ABC Affiliates
When we're thrashing out our problems (everybody has 'em), it's pleasant to remember we're in the middle of the most exciting year in ABC's history.

It's a year which has seen the success of many major TV properties...like Disneyland, to name an outstanding example. Before it's over, you'll be adding such shows as Mickey Mouse Club, Warner Bros. Presents, Wyatt Earp, It's a Great Country and others to the list.

Since January, ABC Television has signed $43 million worth of new business and renewals. Already, that's a record, topping our TV revenue for the entire year 1954. And these orders are coming from blue-chip advertisers and agencies.

We are pleased that our radio and television networks are now offering such diversified and interesting programs as the Wednesday Night Fights and the Voice of Firestone. This combination of radio and television for the same program makes excellent advertising sense. In the fall, Bishop Sheen's unique Life is Worth Living will be an important new addition to the list of ABC Radio and ABC Television programs.

Radio presents knotty problems, but we are proud of our success in this medium, and we continue to make gains. In just the past two years, for example, ABC Radio's morning audience has increased 15%. Another outstanding success: our Weekend News saturation package. It has been continually sponsored for two years and earns a gross audience rating bigger than that of any other radio show on the air.

Naturally, these solid achievements don't clear up all our headaches. We are frankly not content with our present progress in such areas as nighttime radio. But you may be sure we are devoting special attention to these items, and developing new plans.

No one can know all the answers in this business of ours. Certainly, we don't claim to. But every season we hope to bring solid accomplishments to the industry.

To you, our affiliates, we owe a good share of the credit for all this. Thanks for your loyalty and cooperation.
Walbridge Now Exec. V. P., Manager of KTRK (TV)

WILLARD E. WALBRIDGE, general manager of KTRK (TV) Houston, Tex., has been elected executive vice president and general manager, John T. Jones Jr., president, announced last week following a meeting of the board of directors.

Mr. Walbridge is a pioneer tv executive, having served with WWJ-TV Detroit when it went on the air in 1946. He later became station manager. Before joining KTRK (ch. 13), Mr. Walbridge was executive vice president and general manager of WJIM-AM-TV Lansing, Mich.

WAGC Chattanooga Owners Buy 80% of WAPO There

SWITCH in ownership of two Chattanooga, Tenn., am stations was announced last week, pending FCC approval.

Ramon G. Patterson, owner of ABC-affiliated WAPO (1150 kc, with 5 kw day, 1 kw night), has sold an 80% interest to local businessmen Rice T. Russell, Hubert M. Martin, Gordon Gambill and Humphrey B. Heywood. The transaction involved more than $225,000. Mr. Patterson will remain as president and general manager of the WAPO operation. WAPO-FM, also involved, operates on 99.1 mc with 60 kw.

Mestrs. Russell, Martin, Gambill and Heywood, owners of MBS-affiliated WAGC Chattanooga (1450 kc with 250 w), have sold their stock to Premiss Furlow, N. O. Waite, and Cecil Beaver for more than $100,000. Mestrs. Furlow, Waite and Beaver own WHHM Memphis (1340 kc with 250 w). Mestrs. Furlow and Waite are Chattanooga businessmen; Mr. Waite is from Memphis.

Mr. Patterson also is 50% owner of Mountain City Television Co., which holds an initial decision for Chattanooga’s ch. 3.

ABC-TV Names Wettersten WBKB (TV) Sales Manager

HAROLD R. WETTERSTEN, account executive in the sales department of WBKB (TV) Chicago, has been promoted to sales manager of the ABC oste outlet, it has been announced by James W. Beach, new director of ABC-TV Central Div.

Mr. Wettersten fills a position that had been vacant since the resignation of Gerald Vernon from the division’s director post. Mr. Vernon resigned May 16 and was succeeded by Mr. Beach, veteran sales executive and former Hearst newspaperman [At Deadline, May 16]. Mr. Wettersten has been with ABC since 1950 and previously worked in sales and announcing capacities in Chicago, Milwaukee and Green Bay, Wis.

WTVJ (TV) Foils a Racket

NEWS FILM by WTVJ (TV) Miami, said to be actual shots of local police officers taking protection money from a “bookie,” has precipitated an upheaval in Dade County circles. So far, the film, telecast May 9 by WTVJ, has resulted in the arrest of two Miami policemen and prompted Miami’s city commissioners to threaten the city manager with loss of his position, according to the station.

Prelude to WTVJ’s dramatic scoop began four weeks ago when Daniel Sullivan, managing director of the Greater Miami Crime Commission, asked for and was promised the assistance of station news director Ralph Renick in obtaining evidence of bookie payoffs to Miami policemen.

The county solicitor placed an undercover agent, posing as a bookie, in a downtown Miami hotel room. WTVJ then mounted a camera in an adjacent room, aimed through the back of a one-way glass that appeared to be a wall mirror in the “bookie’s” room. A clock and marked calendar were placed in camera range to establish time.

Shortly after the bookie began soliciting business, two Miami policemen—Sgt. James King and Officer E. J. Carberry—visited the room and arranged for a $50 weekly “protection” fee, according to WTVJ, which recorded the sight and sound of the conversation.

One week later, an emissary, who identified himself as having been sent by Sgt. King, came to the “bookie’s” room and, WTVJ reports, was recorded and filmed as $50 in marked bills for “protection” was counted out.

IN THE SEQUENCE at left, Miami Detective Sgt. James King (I) is caught by the WTVJ (TV) camera as he allegedly discusses “protection” payments with “bookie” Ben Moscovitz. The sequence at right shows cab driver Porter Monroe receiving payoff money from Mr. Moscovitz.

The two officers involved were then arrested and suspension charges filed against both, according to the station. The WTVJ news film shot by cameraman Jay Wooten constituted the main evidence.

In the wake of the tv scoop, city commissioners have asked the Dade County delegation to the Florida legislature to introduce a new law empowering the city manager to discharge the police chief without regard to civil service regulations. Within Miami all precinct captains have been switched to new districts and a new chief of detectives installed.

City officials have commended WTVJ for its public service in helping to maintain an efficient, graft-free police operation.
"Ed Murrow's gonna Person-to-Person Gran'pappy this week."
STORER REALIGNS TOP EXECUTIVE DUTIES

George Storer Sr. to serve only at policy level with new duties going to Lee Wailes, Stanton Kettler, George Storer Jr., John E. McCoy and William E. Rine.

REALIGNMENT of functions of the top echelon of Storer Broadcasting Co. was announced last Thursday by George B. Storer Sr., president.

Lee B. Wailes, executive vice president, was given broader executive responsibilities, with Mr. Storer Sr. functioning only at the policy level.

Stanton P. Kettler, heretofore vice president in charge of the southern district, was elevated to vice president in charge of operations of the Storer enterprises, with George B. Storer Jr. succeeding him as southern district vice president. Mr. Storer Jr. formerly served as vice president in charge of finance.

John E. McCoy, secretary of Storer, was elevated to vice president in charge of all non-operating activities of the corporation. He continues as secretary. Mr. McCoy formerly was on the legal staff of the FCC and joined the Storer organization five years ago as staff attorney.

All of these officers headquartered in Miami. William E. Rine, vice president in charge of the northern district who continues in that post, receives additional responsibility. Mr. Storer noted that as head of the northern district where the largest Storer operations are located, Mr. Rine will “by virtue of the geographical separation from the home office in Miami, act in an increased autonomous basis.”

Mr. Storer, in making the announcement, said:

“This realignment of executive duties is in line with increased responsibilities resulting from the growth of our company and the nature of our business.

“All of the top executives in the company have come up through the ranks, have been with the company for years and had a large part in its development. Therefore, with day to day operations in their hands, I hope to be able to spend more of my time on overall company problems and planning.”

‘Mr. Wailes joined Storer in March 1946 after being associated with Westinghouse Broadcasting Co. He was made executive vice president of the company in 1952 and has been an officer and a director since 1948.

Mr. Kettler, with Storer since 1937 when he started as a salesman at WWVA Wheeling, W. Va., progressively advanced as manager of Storer stations to the post of vice president in charge of southern district in 1951. Since 1949 he has been an officer and director. Also a veteran with the Storer organization, Mr. Rine similarly started at WWVA as a salesman in 1932, subsequently becoming sales manager and managing director. He was appointed to the vice presidency for the northern district Jan. 1, 1953, and has been an officer and director since 1949.

Mr. Storer, Jr. was with the company on a full time basis beginning in 1948, supervising construction and operation of WAGA-TV Atlanta. In November 1951, he moved to San Antonio to manage KGMS-TV and in April 1954 was shifted to the Miami home office as vice president. He has been an officer and a director since 1951.

WMRI-AM Commences

WMRI-AM Marion, Ind., went on the air on 860 kc May 11, making it now a combined am-fm operation, according to the stations. WMRI-FM has been on the air since October 1953 and has been operating with a staff of four people. The staff has been doubled with the addition of WMRI which operates with 250 w daytime only.
Summer

BRINGS 10,000,000 MORE LISTENERS TO KYW

10,118,000 out-of-state motorists come into KYW's area June-through-August. Almost 4,000,000 of their cars have radios. What's more, even during summer, KYW's regular listeners rarely leave the signal area. KYW goes along with the vacation crowd, follows them to the mountains, to the shore. Or stays with folks in their own backyards. Yes, KYW entertains a booming summer market. Statistics prove it—

- In the KYW signal area, 91.1% of the families are at home on any summer day.
- Of the less than 10% who are on vacation, 54.6% visit vacation spots in Pennsylvania and New Jersey. This means that less than 5% actually go beyond KYW's signal area, even on vacation.

That's IT! Home-bodies, highway-huggers, vacationers alike make up the bonus summer market that gets your message via KYW. More mileage for your advertising money, more push for your product. Get on the bandwagon. See Bob Teter, KYW Sales Manager, or call him at LOCust 4-3700. In New York, it's Eldon Campbell, WBC National Sales Manager at MUrray Hill 7-0808.
For whatever news they need, radio and television turn first to United Press.

Because United Press has everything for news for the air — newswire, newspaper pictures, newsfilm.

And because every one of these is the best of its kind.

Take the newswire. U.P. was the first to provide one for broadcasting, 20 years ago. And ever since U.P.'s been making it better and better, improving the form and widening the scope of its shows. In value it's still the pioneer.

In newspaper too U.P. blazed the trail, coming out with facsimiles that an established network could carry — from any point on it to any other point — without relay or recopying — finished, ready-to-use pictures that do away with the need of a darkroom.

United Press Movietone News again showed the way by delivering newsfilm clip by clip, like dispatches to newspapers, and by keeping them as up to date as the tick of a watch with a day-long script wire — still an exclusive feature.

In consequence United Press from the start has run far ahead in all three forms of news. Many more stations — over 1600 in all — take the U.P. newswire than any other. U.P. Movietone News holds a corresponding lead. U.P. newspaper pictures is the fastest-growing service of its kind in the world; Unifax clients are five times as many as a year ago.

On the page to the right are some specifications of the services that are earning this triple supremacy.

United Press
THE WORLD'S BEST COVERAGE OF THE WORLD'S BIGGEST NEWS
newswire

Around-the-clock world-news report, ready to broadcast as received. The same news shows that more than 1000 stations and more than 200 kinds of sponsors buy. Comprises over 50 news programs and news features daily. In the course of every week it presents: 196 basic news programs running from one to 15 minutes; plus 60 on sports, one to 15 minutes; 16 five-minute features for women; 34 of general human interest, one to five minutes; 17 five-minute farm programs; 20 of commentary and review, five minutes; eight on business and science, five minutes... plus a one-hour Sunday Show. Scores more of extra shows of seasonal or special topical interest throughout the year.

newspictures

By wire: Unifax* pictures on continuous roll—or Telephotos—from some 160 sending points in the U. S., Canada, Mexico, South America, Europe, the Orient. Full service averages from 60 to 70 seven-by-nines a day, with 24 top shots duplicated in three-by-four-inch size. Bulletin service available on big news breaks... by airmail, messenger, courier: 10 or more selected matte Telephotos daily, in standard, halve or Relap sizes, or 35mm transparencies, individually or in strips... Supplementary shows: Weather—facts-at-a-glance maps, cartoons, scripts. Baseball Scoreboard—500 cartoons, action shots, scoreboard charts making lively visual program of results. Sports Show—day's top sports photos.

*See U. S. Pat. Off.

newsfilm

United Press Movietone News, produced jointly by U.P. and 20th Century-Fox. 400 to 900 feet of film daily, 16mm, sound-on-film and silent, ample for building as many as three 15-minute shows five days a week. Processed in New York, Washington, Los Angeles, Paris. Delivered by plane and motorcycle courier, story by story, like news to newspapers. Eight-hour leased wire carries scripts keyed and timed to fit film-clips, keep them abreast of latest developments. Service includes 24-hour, 60,000-word daily world-news report. Hold-for-release film clips present scheduled events as they happen. Clients may use clips for own news library; special background footage serviced from Movietone's 50-million-foot library. Special coverage anywhere in the world on assignment.
WAGE-TV Names Munkhof
To Supervise Construction

SOREN H. MUNKHOF, tv consultant and former general manager of WTVW (TV) Milwaukee, has been appointed consultant to handle construction and start of operation of WAGE-TV Marquette, Mich. In making the announcement Jerome Sill, president of licensee Peninsula Television Inc., noted that Mr. Munkhof will turn the management of WAGE-TV (ch. 6) over to Harry Peck after an interim operation period.

Mr. Peck is a one-time business rival of Mr. Munkhof, having served as general manager of WISN Milwaukee when the latter was with WTVW. Previously they were on competing radio stations in Omaha. In addition to his duties as president of WAGE-TV, Mr. Sill is general manager of WMIL Milwaukee.

Clark, Annenberg Complete Purchase of WNBF-AM-TV

PURCHASE of WNBF-AM-TV Binghamton, N. Y., by Walter H. Annenberg's Triangle Publications Inc. for $3 million cash from John C. Clark Sr. and family was completed in Philadelphia Thursday. FCC approval to the sale was announced a fortnight ago [BET, May 9].

The Binghamton properties, according to Mr. Annenberg, were taken over by Triangle's Radio-Television Div., which operates WFLAM-AM-FM-TV Philadelphia and holds 50% interest in WHGB Harrisburg, Pa. Triangle also publishes the Philadelphia Inquirer, Seventeen, TV Guide and other national periodicals.

Mr. Annenberg said the WNBF outlets will continue to be "hometown" stations geared to the needs of the area they serve.

Roger W. Clipp, general manager of Triangle's Radio-Television Div., said George R. Dunham would continue as general manager of WNBF-AM-TV. WNBF-AM is a CBS affiliate while WNBF-TV, only video outlet in that market, carries all four tv networks. Mr. Clipp said a headquarters staff would be named soon to service the Triangle stations in Binghamton, Harrisburg and Philadelphia.

WHBQ-TV Names Lawhead
As Sales Service Director

PROMOTION of Gorden Lawhead from program director to sales service director of WHBQ-TV Memphis, Tenn., has been announced by William H. Grumbles, WHBQ-TV operations manager. Mr. Lawhead, who in his new post will serve as liaison between WHBQ-TV and its national representative, Blair-TV, and the networks, will be succeeded as program director by Wilson Northcross, former production director, who joined WHBQ in 1940 and has been in tv the past seven years.

Succeeding Mr. Northcross is Mark Forrester, former traffic director and creator of WHBQ-TV's Mars Patrol program who at one time worked for Disney Studios in Hollywood.

Stars Sell on Alabama's greatest radio station

WAPI

Don is a newcomer to WAPI but is a veteran radio man, having 8½ years experience with leading radio stations in the Midwest. Although he has been in Alabama for only a few weeks, listeners agree that Don's smooth, relaxing music is just what they want to hear on afternoon and late-night disc-jockey shows.

You can SELL Your Products to Alabama folks

If you TELL them on programs they enjoy hearing

KAHS-TV Hastings, Neb., Sets Fall Target Date

DEBUT of KHAS-TV Hastings, Neb., is expected by early fall, Fred A. Seaton, president of the Seaton Publishing Co., has announced.

Personnel appointed to key posts are Duane L. Watts, who will be general manager of KHAS-AM-TV, and Duane B. Allison, named chief engineer for both am and tv. Mr. Watts was with KHAS from 1940 to October 1953 when he left to become station manager of KHOL-TV Kearney, Neb. Mr. Allison joined KHAS in 1941 and later was named chief engineer.

KAHS-TV (ch. 5) will operate at full 100 kw from a 767-ft. tower and 12-day antenna. A one-story building, 58 by 120 ft., will be constructed to house studios, equipment and business offices. Bids for construction will be called within the next few weeks. KHAS-TV will be affiliated with NBC-TV.

Malloy Offers $1,000 Reward For Arrest of KVSM VANDALS

LES MALLOY, owner-operator of KVSM San Mateo, Calif., last week offered a $1,000 reward for the arrest or information leading to the arrest of vandals who have twice put the 1 kw (day) station off the air.

On May 8 KVSM lost the air nearly two hours because somebody cut through a protective fence around the station's antenna, removed the antenna tuner and threw it into nearby San Francisco Bay.

A week later vandals entered the transmitter building, an automatic operation, and removed the crystals, thus putting the station off the air again for more than five hours.

San Mateo police, investigating the two acts, said that the person responsible either had access to one of the three keys to the transmitter building, or has been able to have a duplicate made.

Independent KTTV (TV) Profits Near Quarter Million

KTTV (TV) Hollywood made a profit of $225,833 during 1954, according to the annual stockholders' report issued by Norman Chandler, president of the Times-Mirror Co., licensee. The 1954 gross revenue of $5,640,555 is 49% higher than the station's 1953 gross revenue of $4,011,981. Loss during 1953 was $607,699 as compared with the loss during 1952 of $896,940.

Station currently has 243 employees, having added 26 during the past year. Capital expenditures were over $400,000 including items such as new transmitter equipment, and increase in signal power and building alterations, the report continued.

Petry Radio Sales Names Two

APPOINTMENTS of Edwin F. England and Edward A. V. Smith as sales executives of Edward Petry & Co., New York staff, both effective May 31, have been announced by William B. Maileifer, radio sales manager.

Mr. England was with ABC in spot and local sales before joining Petry. From 1949-1952, he was a salesman in NBC's spot division and before that, associate director of NBC's research department. Mr. Smith, for two years an account executive with WIP Philadelphia, also has been in sales with WCAU Philadelphia and WKK Erie, Pa.

Simmons Names Blocki V.P.

APPOINTMENT of Gale Blocki Jr., formerly midwestern representative of RAB, as vice president of Simmons Assoc., radio station representatives, is being announced today (Monday) by David N. Simmons, president. The firm recently was formed as an organization representing radio exclusively [B*T, May 15].

Mr. Blocki, who also will serve as Chicago manager of Simmons Assoc., will assume his new post on June 15. He has been with RAB for three years and previously served for several years with John Blair & Co. in Chicago, rising to the post of vice president.

WNEW First Simmons Client

APPOINTMENT of Simmons Assoc., New York, newly-formed station representative firm, by WNEW New York, was announced last Thursday. It is the first station to be represented by Simmons, which will handle radio outlets exclusively [B*T, May 16]. The appointment is effective June 1.

WMBY-TV Goes to 234 Kw

MORE THAN two-fold increase in power along with addition to its tower and opening of new studios has been announced by Joseph D. Mackin, general manager of WMBY-TV Marinette, Wis. The ch. 11 station simultaneously boosted its power from 110 kw to 234 kw and opened studios in Green Bay, offering Packerland improved reception of NBC-TV and local shows. In addition WMBY-TV has added to its 590-ft. tower, which now measures 825 ft. including an 80-ft. antenna.

Baldwin to CBS Radio Spot

APPOINTMENT of Keith Baldwin, sales manager of WAKR Akron, Ohio, to the Sales Development Dept., of CBS Radio Spot Sales was announced last week by Newell T. Schwinn, manager of sales development. Mr. Baldwin will service advertisers in Michigan, Ohio, West Virginia and Western Pennsylvania. He will have headquarters in the Fisher Bldg., Detroit.

PLANS for the Katz Agency, representation firm, to discontinue the operation of its subsidiary Station Films Inc. were disclosed last week coincident with the announcement that Robert H. Salk, general manager of SFI, had been named director of sales of Screen Gems Inc.

Mr. Salk will take over the newly-created post at Screen Gems, tv subsidiary of Columbia Pictures Corp., on Aug. 1. He will report to John H. Mitchell, vice president in charge of sales, and will further develop and integrate all Screen Gems sales operations, officials said.

Station Films was formed in 1953 and has operated as a film-buying organization, essentially for stations represented by Katz. Explaining discontinuance of the operation, officials said that SFI was formed to help stations at a time when film distribution generally was in a "chaotic" state, but that the field has now become stabilized with the result that the original need for SFI no longer exists.

Mr. Salk has been general manager of Station Films since its formation. His association with the Katz Agency dates to 1945, when he joined the company as director of research. He served later as head of Katz' TV Sales Dept. in Chicago then returned to New York and was put in charge of the TV Sales Development Dept. In 1948 he created a presentation, "TV Facts For Advertising," which won wide acclaim.

In 1950 Mr. Salk moved to the CBS Network Sales Dept., returning to Katz the following year as tv program and sales development manager. In this post he worked with stations buying film for spot use until the creation of Station Films as a separate entity.

ABC Film Syndication

Acquires 'Bolger' Rights

GEORGE T. SHUPERT, president of ABC Film Syndication, is announcing today (Monday) that the company has acquired distribution rights to the Ray Bolger Show, series of 60 half-hour musical comedy films starring comedian-dancer Ray Bolger. The series started on ABC-TV in October 1953 under sponsorship of Pall Mall cigarettes and Sherwin-Williams Co. The current season, which ends June 10, has been sponsored by Lehn & Fink and Dorothy Gray Products.

With the addition of the Bolger series, six programs are now being distributed by ABC Film Syndication. The others are: Passport to Danger, Racket Squad, Douglas Fairbanks Jr. Presents, The Playhouse and John Kieran's Kaleidoscope. Another, Shenan, Queen of the Jungle, will be placed on sale sometime in June, Mr. Shupert said.

'Rider' First in Boston

THE Range Rider film series distributed by CBS-TV Film Sales ranked first in Boston in American Research Bureau's April ratings. The film, which had an ARB rating of 35.9, was inadvertently omitted from the ARB list published in Broadcasting on May 2, and the list was labeled March instead of April.
"Man, this ain't no ladder ... it's a list of the Top Ten TV shows in the Central Arkansas Market according to the March 1955 ARB survey!"

"It's a ladder, son ... and every rung is a step nearer the top for every KATV advertiser!"

"Sing on, Dad ... this ladder is beginning to interest me!"

"It should interest you, boy ... and it should interest any advertiser who wants to climb to the top in Arkansas!"

"Should? Man, it does!!! Not only does KATV have ALL TEN of the Top Ten ... but this page just isn't long enough to include all of their top programs. Why, Dad, we could go on-and-on-and-on ..."

"A real cool advertiser's dream-come-true! Complete details on climbing the ladder to success in Arkansas is available from those Hep Reps ... Avery-Knodel, Inc."

Bernard's association with TPA was effective immediately. He started his duties at the NARTB convention now underway in Washington, his headquarters will be in Pittsburgh.

Before his four-year Ziv TV relationship, Mr. Bernard held a number of radio station managements including that of WKLY Kingston, N. Y.

**TPA Plans N. Y. Clinic**

A SALES CLINIC will be held by Television Programs of America in New York May 30 through June 3 for the film firm's field account executives. The meeting will be conducted by Mickey Sillerman, executive vice president of TPA.

**FILM DISTRIBUTION**

Sportsvision Inc., S. F., will handle sales in midwestern and western markets of Jiminy Demaret, tv film show of Award Television Corp., N. Y.

Tom J. Corrande & Assoc., Hollywood, has acquired The Ruggles, syndicated package of 91 half-hour episodes, for national distribution.

**RANDOM SHOTS**

Bemiller Productions (tv film commercials), Hollywood, has moved to 2350 Hyperion Ave.; telephone remains Normandy 5-5137.

Atlas Television Corp., N. Y., has appointed Tom Corrande & Assoc., L. A., as west coast sales representative for all properties in 12 western states.

**FILM PEOPLE**

Don M. Alexander, executive vice president, Alexander Film Co., Colorado Springs, Colo., assumes management of firm, succeeding J. Donald Alexander, brother, who died May 6 [BWT, May 16].

Earl Klein, president, Storyboard Inc. (tv film commercials), Hollywood, resigns to form Animation Inc. (tv film commercials), Hollywood, with offices at 640 N. McLeanena Blvd.; telephone: Crestview 5-4925.

Bill McLaren, former operations director and program manager, KCEB-TV Tulsa, Okla., to Guild Films Co, Hollywood, working on Ina Ray Hutton Show.

Peter Frank, agency producer, BBDO, Hollywood, to Robert Maxwell Productions, same city, as assistant producer.

---

**FOR-RADIO CAMPAIGN DETAILED BY WORLD**

A FOR-RADIO merchandising and promotion campaign, including local, regional and national contests run by stations serviced by World Broadcasting System, was announced in New York last week by Pierre Weis, general manager of World. Full release of details is being made at the NARTB convention in Washington [BWT, May 16].

Purpose is to generate "new excitement" for radio by the users who have come to take the medium for granted, Mr. Weis asserted. Involved is use of a new sales caricature to carry the theme of radio's power as a medium. The little, strong man's name is "Radio's Big Little Man."

World, through its radio affiliates, will cooperate in the campaign with local, regional and national advertisers. World estimated it will spend at least $250,000 for merchandising-promotion with stations expected to spend between $500,000 and $750,000 in time, direct mailing, newspaper advertising and card display. Another $500,000 is expected to be spent by the advertisers.

Mr. Weis acknowledged at a news conference Monday that World anticipates the campaign will pay off dividends primarily in stations identification with the campaign as those outlets doing an "alert, merchandising job" and only incidentally perhaps adding new stations to World's affiliate list.

In the national contest, from which local winners will participate, prizes include vacation trips to Paris, the Virgin Isles and Bermuda. Stations also are in line for prizes. Through the promotion, run with cooperation of a local advertiser or group of advertisers, people will be invited to tell why they like to listen to their favorite radio station.

The baby-faced, strong-physique "Little Strong Man" will be reproduced in posters, window streamers, car and truck stickers, mailing pieces, bumper strips, newspaper ads and in other ways both in and out of stores and window displays. Linked will be the station's call letters.

**Tv Screen Testing Firm Formed by Raymond Pheelan**

PEOPLE who deal with tv talent, selling or buying their services, now have a new service available to them for "screen testing." A firm called Screen Tests to Order Inc., New York, has been formed under the managing directorship of Raymond Pheelan.

Mr. Pheelan also heads the parent company, Stock Shots to Order Inc., New York, which films background scenes and inserts for commercials and programs. The new service will be a division of Stock Shots.

According to Mr. Pheelan, the new division, with the facilities including 16 and 35 mm sound cameras, was formed at the suggestion of agency casting directors who found that auditioning and casting of talent from film clips showing the performer in action are efficient. Mr. Pheelan said that agencies "have begun making inquiries for testing in color and on location." He noted, too, that Screen Tests to Order expects "long-distance" testing assignments from Hollywood, principally to fill available roles in west coast tv film productions from the roster of New York's legitimate stage performers.
Because of the unusual interest this ad aroused when it first appeared in THE NEW YORK TIMES we are reprinting it for the benefit of many NARTE members who did not have the opportunity to see it.

WEBB TO SUCCEED FLANAGAN AT SRA

LAWRENCE WEBB, former national sales manager of WLOK-AM-TV Lima, Ohio (now WIMA-AM-TV), will succeed Thomas F. Flanagan as managing director of Station Representatives Assn. on June 1, Adam J. Young Jr., president of SRA, is announcing today (Monday).

Mr. Flanagan, who is retiring from the managing directorship, will continue to work with SRA on a long-term, active consulting basis with offices at SRA's New York headquarters [BTW, May 16]. He will carry out special assignments for the association.

Mr. Webb was associated with WLOK for two years, headquarters in New York where he worked with agencies and clients, selling spot radio and spot tv. He similarly aided in obtaining tv network programming for the station. He joined WLOK in April 1953, helping in the establishment of the tv station which made its debut that month.

Film Distributors Group Has Meeting, Plans Another

MEETING of the organization committee of the proposed trade association among tv film distributors [AT DEADLINE, May 16] was held in New York last week under the direction of Dave Savage of Guild Films, committee chairman. No details of the closed-session affair were revealed, but another meeting is scheduled after this week's NARTB convention to develop plans on forming the trade organization.

The organization committee, in addition to Mr. Savage, consists of Dwight Martin, General Teleradio Film Div.; Ralph Cohn, Screen Gems; Frank Reel, Ziv-Tv, and Herbert Gelbman, Hal Roach, Studios.

RTES to Honor Hagerty

JAMES C. HAGERTY, White House news secretary, will be given the annual achievement award for 1954 by the Radio & Television Executives Society, at the White House this morning (Monday).

The award to Mr. Hagerty is for "distinguished service to the radio and television broadcasting industry in your accomplishment of coordinating the efforts of President Dwight D. Eisenhower and the broadcasters, thereby resulting in enlightenment to listeners and viewers throughout the entire world."

Roger Pryor, vice president in charge of radio and television, Foote, Cone & Belding, retiring president of RTES; Elliott Sanger, executive vice president and general manager of WLWX New York, and Merle S. Jones, vice president in charge of CBS-owned television stations and general services, will present the plaque to Mr. Hagerty.

‘Sale of Month’ First Prize Goes to KNGS’ Offenbach

RADIO ADVERTISING Bureau’s first prize in its March contest of “Best Sale of the Month” went to Mel Offenbach, sales manager, KNGS Hanford, Calif., Kevin Sweeney, RAB president, announced Tuesday.

Mr. Offenbach’s sale involved 55 five-minute newscasts per week to Sears, Roebuck & Co. in Hanford, which prior to this time had limited its radio advertising to one short saturation campaign supporting store-wide sales events.

In the contest, C. J. Thoraquist, account executive, WONE Dayton, placed second, and Jack de Mello, sales manager, KROW Oakland, Calif., placed third and became the first radio salesman to repeat in the monthly nationwide sales competition conducted by RAB (Mr. de Mello won first place last October).

TvB Names Griffin, Murphy

APPOINTMENT of Lloyd Griffin, vice president in charge of tv for Free & Peters Inc., New York, as chairman of the membership committee for the northeast for Television Bureau of Advertisers, New York, was announced last week by L. H. (Bud) Rogers, vice president and general manager of WSZA-AM-TV Huntington, W. Va., national membership committee chairman.

A midwest territory for the membership committee has also been created. Mr. Rogers said. It will be headed by John T. Murphy, Crosley vice president in charge of WLWA (TV) Atlanta, WLWC (TV) Columbus, Ohio, WLWD (TV) Dayton, and WLWT (TV) Cincinnati. Mr. Griffin will supervise membership activities in New York, Maine, New Hampshire, Vermont, Pennsylvania, Delaware, Maryland, Connecticut, New Jersey, Massachusetts, and Rhode Island. Mr. Murphy will oversee Ohio, Indiana, Kentucky, West Virginia, Illinois, Wisconsin and the cities of Minneapolis-St. Paul and St. Louis.

Brett Named to TvB Board

ELECTION of George W. Brett, vice president and director of sales policy, the Katz Agency, New York, to the board of directors of Television Bureau of Advertising, New York, is being announced today (Monday). Mr. Brett was elected by the six station representation firm members of TvB. Representative firms recently received full voting membership. TvB’s station representation firm members are Blair-Tv, Meeker-Tv Inc., Hoag-Blair Co., Free & Peters Inc., the Katz Agency and Edward Petry & Co.

NARTB Meeting Shifted

CHANGE of date for NARTB Region 3 meeting next September has been announced. Region 3 sessions will be held Sept. 28-30 at St. Charles Hotel, New Orleans, instead of Sept. 26-28 at Jung Hotel. The change was made because of a religious holiday. Region 3: Fla., Ga., Ala., Miss., La., Ark., Tenn., P. R.

THE DE-INTERMIXTURE COMMENTS ARE IN

Opposition and supporting comments on proposals to de-intermix Evansville, Hartford, Madison and Peoria filed with FCC at Tuesday deadline.

OPPOSITIONS to the proposals to de-intermix Evansville, Ind.; Hartford, Conn.; Madison, Wis., and Peoria, Ill. (B安慰, April 3), were filed with FCC at its deadline last Tuesday.

Also filed were supporting comments by the original petitioners for the move.

The objectors generally argued that the changes proposed were against the public interest and in the interest only of uhf broadcasters. The adherents of the changes argued that the proposals would serve the public interest and aid in establishing uhf broadcasting as part of the national television system.

In all four instances, the Commission’s proposal called for the switch of the educational reservation from uhf to ch. 3 or move it to Beloit, Wis., brought objections from Badger T.v Co. and WISC, the former holding an initial decision for that frequency. Also opposing was WLEX-TV Rockford, Ill., ch. 13. One of the proposals would substitute a uhf channel for Rockford’s ch. 13. In favor were WKOW-TV and WMTV (TV), both Madison uhf stations, and WTVQ (TV) Rockford.

Opposing the Peoria proposal to move the educational reservation from the uhf wavelength to ch. 8 were WIRL Peoria, holding an initial decision for the channel, and WMBD Peoria, the other ch. 8 contestant. Favoring the move were WEEK-TV and WTVH-TV, both uhf stations in Peoria.

**WITNESS in behalf of Edward Lamb, Mayor David L. Lawrence of Pittsburgh (r) listens to Lamb counsel J. Howard McGrath explain status of the license renewal hearing now in final stage before FCC examiner.**

**MAJOR LAWRENCE SUPPORTS LAMB**

MAYOR David L. Lawrence of Pittsburgh testified before FCC Examiner Herbert Sharman last week about Edward Lamb’s anti-communist stand during organization of the steel workers in 1937.

Also Democratic National Committee from Pennsylvania, Mayor Lawrence said that when the FCC’s Lamb story “broke,” he called Mr. Lamb voluntarily and offered to testify in the license renewal hearing ordered for Mr. Lamb’s WICU (TV) Erie, Pa. He did this, he said, “because I knew from my own personal knowledge his attitude on these matters and I felt there was a great injustice being done him.”

The WICU case, underway last September to learn whether Mr. Lamb misrepresented alleged communist ties, was expected to be concluded on Friday as Mr. Lamb returned to the stand for completion of questioning by FCC counsel James M. McGrath.

Appearing on Wednesday, Mayor Lawrence told Examiner Sharman that Mr. Lamb in 1937 was counsel for the Steel Workers Organizing Committee and was in “entire agreement” with Philip Murray, John L. Lewis and Sidney Hillman in fighting communist efforts to infiltrate the labor movement.

J. Howard McGrath, ex-U. S. Attorney General and now counsel for Mr. Lamb and executive vice president of Lamb Enterprises, testified that he and co-counsel Russell Morton Brown took full responsibility for the averment contained in Mr. Lamb’s pleading in U. S. District Court last summer which charged FCC representatives with causing at least one bribe to be offered to secure false testimony against Mr. Lamb.

He said Mr. Lamb acted fully on the advice of counsel in allowing the charge to be included in the court petition seeking to enjoin the FCC from holding the WICU renewal hearing. The court turned down the plea and an appeal now pend in a higher court. FCC subsequently made the bribe charge an issue in the WICU renewal case.

Mr. McGrath testified that he decided the averment should be made after a visit from Emmett Wheelwright, who related a bribe attempt by William Garfield Cummings, FCC’s first witness in the WICU case and part-time paid consultant to the FCC. Mr. McGrath said Mr. Wheelwright told him that Mr. Cummings took Mr. (Wheelwright) to see three FCC investigators in Toledo and later offered him $1,000 if he would “remember” that Mr. Lamb had been speaker at the dedication of Lincoln House in Toledo in 1944. Mr. Cummings identified Lincoln House as headquarters of the local Communist Party.

Mr. McGrath said Mr. Wheelwright told him he couldn’t recall the Lincoln House dedication and had so informed the FCC representatives. The former Attorney General said Mr. Wheelwright then dictated and signed an affidavit concerning the bribe attempt. Mr. McGrath said he still believes the affidavit is true, although Mr. Brown told Examiner Sharman that the truth of the story was not in issue. Mr. Brown said the explanation was given in order to prove Mr. Lamb’s good faith in allowing the averment to be made in the court brief.

Sunne Miller, manager of WTOD Toledo, another Lamb station, testified she was told by Eugene Stoll, before he appeared as FCC witness, that Commission “investigators” told him (Stoll) they were “out to get Lamb” and take his TV station “worth $10 million” away from him. Mrs. Miller said she was present in the hearing room when Mr. Stoll denied that FCC investigators said this to him.

Mr. Brown at one point claimed, “There was a constant stream of reports reaching us about highly improper and irregular conduct on the part of the government’s representatives from a wide variety of sources.” He said, however, that they “didn’t go into them all.”

**NATVIG GUILTY ON PERJURY COUNTS**

TURNABOUT witness Mrs. Marie Natvig was found guilty by a Federal District Court jury last Monday on three counts of perjury involving her testimony before FCC Examiner Herbert Sharman in the license renewal hearing on Edward Lamb’s WICU (TV) Erie, Pa.

The jury, deliberating about 20 minutes, held that Mrs. Natvig testified falsely when she said she did not tell FBI and FCC officials last

$10,000 Last Straw

BADGER TV Inc., favored in an initial decision for Madison’s ch. 3, filed three typewritten pages as its response to the proposal to de-intermix the Wisconsin capital. It called it refused to incur any more expense in connection with its application, which was originally filed in 1948. It said it had already spent $75,000 in prosecuting its application, laid out $10,000 as a deposit for equipment, and estimated that it would cost $10,000 more to compile, assemble and present the data called for by the FCC.

Most of the other respondents to the de-intermix proposals involving not only Madison, but also Evansville, Ind.; Hartford, Conn., and Peoria, Ill., filed voluminous documents, complete with detailed analysis of their arguments pro and con.

**BROADCASTING  TELECASTING**
Hello. I'm Martha Brooks—hostess on the Martha Brooks Show (WGY Monday thru Friday—9:15–10:00 a.m.) Today I'd like to tell you something about the WGY market area.

Schenectady, N. Y. is the second largest city in the New York Capital District market which ranks 32 in national retail sales. (Albany, N. Y. is the first city) Schenectady has a population of more than 98,000. It is the center of heavy industry for eastern New York. Schenectady is the western gateway to the rich farm country of the Mohawk Valley.

Schenectady is just one of 22 cities in WGY-land with a population more than 10,000. The entire WGY market includes 1,004,750 radio homes in 53 counties of New York and New England.

I can help you reach this market during prime morning hours on the Martha Brooks Show.

Just one thing more. Only one radio station can reach this huge market for You.

Fall that she once was a member of the Communist Party and knew Mr. Lamb in that connection. The truth of her statement about Mr. Lamb was not at issue in the trial, held before Judge Alexander Holtzoff. In dismissing the jury, Judge Holtzoff said he agreed with its verdict.

Mrs. Natvig is free on $2,500 bail pending completion of a report to the court by the probation officer, at which time a date for sentencing will be set. Maximum penalty involved is $6,000 fine and 15 years in jail. John and Jean Dwyer, defense counsel for Mrs. Natvig, said they may appeal the case.

The original indictment listed nine counts of perjury, but two were dismissed by the court before the trial began and four more were dropped during the proceeding, including the government’s principal charge that Mrs. Natvig lied when she said she had been coerced in her original testimony by ex-FCC counsel Walter R. Powell Jr. [B&T, May 16].

The government abandoned this count because Mr. Powell,testifying from a heart attack, was excused from testifying. Other FCC witnesses, however, told the court Mrs. Natvig was not coerced by Mr. Powell.

FCC Staff Consultation Urged by McConnaughey

Chairman says Commission should be permitted to have advice of FCC ‘experts’ working on a case.

STRONG PLEA for the FCC to be permitted to consult with its staff was made last week by FCC Chairman George C. McConnaughey in a speech to the Federal Communications Bar Assn. at a luncheon meeting.

Mr. McConnaughey said that the Commission would ask Congress to revise Sections 5(c) and 409(c) of the Communications Act to permit commissioners to have the “expert” advice of the general counsel, chief engineer, chief accountant and the review staff.

The present provisions, which prohibit commissioners from consulting with any staff member who has anything to do with a case, were added to the Communications Act by the 1952 McFarland amendments.

The FCC chairman said he had made a study of the reasons for the separation of commission and staff and that he could find no “Svengali” from whom the commissioners must be protected.

Mr. McConnaughey also referred to the requested revision of Sec. 309(c)—the protest rule—to permit the Commission more leeway in handling such protests. He said that the present provisions—also added to the Communications Act by the McFarland Act—resulted in delay, competitive advantage and an undue amount of FCC time. He said that the protest provision has become an instrument of “blackmail” in some instances.

The Commission has asked that the protest rule be amended to permit the discretion of whether a grant made without a hearing on which a protest is filed must be automatically stayed. It also has asked that it be permitted to dismiss the protest if in its judgment the allegations even if proven do not justify a reversal of the grant. The Commission also has asked for the right to draw the issues for a protest hearing.

The Commission’s proposals have won the support of the FCB’s executive committee and Communications Law Section, Administrative Law Division of the American Bar Assn. [B&T, May 16]. Both, however, have qualified their support in various instances.

Court Rules Networks Can Be Sued Anywhere

U. S. judge in Alabama says CBS and Westinghouse can be sued there. If ruling stands it would overruled precedent.

NETWORK attorneys last week were pondering a ruling of a federal court in Alabama that a network may be sued in that state.

The implication of that ruling—handed down by U. S. District Judge C. B. Kennamer May 9 in a libel action against CBS and Westinghouse for a 1954 Studio One program—is that any network may be sued in any state of the Union.

Heretofore the networks have insisted, and the courts have upheld, that suit could only be brought in the state in which networks are incorporated, or in the District of Columbia.

The ruling followed a CBS motion to dismiss suit or quash “service” on the ground that it did not “do business” in that state.

The Montgomery, Ala., court held that CBS does “do business” in Alabama. It cited the fact that the “airplane was filled day and night with broadcasts from CBS.” It also stated that CBS has contracts with radio and TV affiliates in four Alabama cities, to which it paid in 1954 the sum of $656,189.19. (The court also said that CBS collected from advertisers the sum of $1.6 million for having its programs carried by its Alabama affiliates.)

The court said CBS had originated programs from Alabama, citing the 1954 Senior Bowl football game from Mobile. The court also pointed to CBS’ leasing of AT&T lines to carry its programs to Alabama affiliates.

It is understood that CBS is considering appealing this decision.

The $1 million libel suit was brought last year against CBS and Westinghouse Electric Corp., sponsor of Studio One, by Hugh Bentley, former head of the Russell County (Ala.) Betterment Assn. He contended that a Studio One program broadcast early in December 1954 implied he was the slayer of A. L. Patterson, Phoenix City, Ala., crime figure. On the following week’s Studio One broadcast, CBS specifically denied that the finger of suspicion had been pointed at Mr. Bentley.

Court Rules Station Is Asset From Time Permit Is Granted

TAX RULING involving the question of whether a station becomes an asset at the time of the FCC’s issuance of a construction permit, or later when the station is built and operating, was made in favor of the first interpretation by the District of Columbia Tax Court last week.

Case involved the 1950 sale of WOIC (TV) Washington, ch. 9, then owned by General Teleradio Inc. (Bamberger-Macy interests) to WTOP Inc. (then owned 55% by the Washington Post and Times Herald and 45% by CBS) for $1.4 million. Suit was for a refund of $27,257 in taxes paid under protest under D. C. law which holds that the gain from selling assets 20 years or more comes under an income and franchise tax.

Judge J. V. Morgan ruled that the station’s principal asset, the right to broadcast, dated from 1946 when a construction permit for the station was issued by the FCC. This asset was valued at more than $750,000. The D. C. government had claimed that this asset dated from 1949 when the station was built.
Demonstrate the Product, We Always Say

And who can make a better pitch for U. S. Keds than the pooch that delights a half a million kids on Seattle's most popular afternoon TV strip, King's Clubhouse with Stan Boreson. The hound's name is "No-Moshun"...as any youngster in Western Washington will tell you. She helps Stan pull down an average 22.3 ARB rating in the 4:30-5:00 P.M. period. Together, they swamp the competition (79% share of audience).

But the KING-TV story doesn't stop with superior ratings. We not only encourage talent tie-ins with client products—we insist on it. KING-TV personalities believe in selling. They like to sell and they spend time at the job. Besides, they've had a five-year headstart on the competition. That's why most local advertisers count on KING-TV's personal plus, when advertising must pay off.

So, whether you are selling tennis shoes or toothpaste, the place to go is KING-TV. In the Pacific Northwest, that's where your sales begin.
APPEALS COURT GETS DIVERSIFICATION ISSUE

THE question of the FCC’s right to favor an applicant for a TV station because it does not own newspapers or radio stations over a competitor which does was squarely up to the U. S. Court of Appeals in Washington last week, after a twouround argument.

At issue is the FCC’s 1954 decision granting Sacramento’s ch. 10 to Sacramento Telecasters Inc. and denying McClatchy Broadcasting Co. This overturned an examiner’s initial decision favoring McClatchy.

The Commission said that the grant to Sacramento Telecasters favored diversification of the media of communications.

Sacramento Telecasters is owned by a group including John H. Schacht, former chief-owner of KMOD, Modesto, Calif. McClatchy owns KFBK-AM-FM Sacramento, KMI-AM-FM-TV Fresno, KBE (FM) Modesto, KERN-AM-FM Bakersfield, all Calif., and KOH Reno, Nev. It also publishes the Sacramento Bee, Fresno Bee and Modesto Bee. McClatchy’s purchase of KBOX Modesto for $75,000 has been set for hearing on the question of overlap.

McClatchy’s appeal—in which it was joined by the American Newspaper Publishers Assn. as amicus curiae—was on the ground that the Commission discriminated against it solely because of its newspaper ownership. This is illegal, McClatchy held. It claimed it was clearly superior in most respects.

The FCC held that it was in the public interest to diversify control of media in the Central Valley of California. It denied that newspaper ownership was an automatic bar to broadcast licenses. The Commission argued that actually Sacramento Telecasters was superior to McClatchy in several significant factors—local ownership, integration of ownership and management.

Each party held that the appellate court’s 1951 Scripps-Howard decision bolstered its case. McClatchy held that in the Sacramento decision the Commission had gone beyond the terms of that decision. FCC held the Sacramento ruling was exactly in line with that decision.

The Scripps-Howard decision was that the Commission could weigh newspaper ownership as a factor in a comparative hearing.

Senator Johnson Praises Sarnoff Plan at Dinner

THE SARNOFF Plan “points the way to a solution of the greatest problem before our people,” Senate Majority Leader Lyndon B. Johnson (D-Tex.) said in New York May 15.

Sen Johnson spoke at a dinner honoring Brig. Gen. David Sarnoff, RCA-NBC board chairman, at the Waldorf-Astoria where he over the 1955 gold medal achievement award of the Williamsburg Settlement, a social agency serving the Williamsburg section of Brooklyn. The award was presented by Herbert Bayard Swope. Other dignitaries included Bernard M. Baruch and Dr. Ralph Bunche.

Gen. Sarnoff’s plan, as presented to the White House (BT, May 16), calls for a stepped-up “political offensive” as a means of winning the Cold War. Sen. Johnson said the plan may yet prove to be the general’s “greatest effort.” He noted that the “basic elements” of the Sarnoff blueprint have been endorsed by the President. The senator recommended that the creation of a political strategy board be the first step in carrying through the Sarnoff plan. A board, with a cabinet-level official at its head, was one of the suggestions made by Gen. Sarnoff.

KVOA-AM-TV Sale Submitted to FCC

APPLICATION for FCC approval to the sale of KVOA-AM-TV Tucson, Ariz., for a total consideration of $113,904 was filed last week.

Purchasing group is headed by Clinton D. McKinnon (20%), 75% owner of North Shore (San Diego) Sentinel, 51% owner of the Coro-

nado (Calif.) Journal and former editor-publisher-majority stockholder of the defunct Los Angeles Daily News. Mr. McKinnon is a former Congressman from California. Others in the group are Vice President Bernard Weinberg (20%), Milton Weinberg Advertising Co.; Vice President Frank J. Oxarart, commercial manager, KTAR Hollywood, and radio-television production; Secretary Arthur A. Deser (20%), attorney and real estate development and, Treasurer Harold B. Garfield (20%), drugstore owner and associated with Mr. Deser in a business and property management firm.

Purchasing price includes $288,904 for the stock of the Tucson stations and purchase of obligations totaling $225,000. Majority (76.9%) selling stockholder of KVOA-AM-TV is KTAR Broadcasting Co., operator of KVJ (TV) Mesa and KTAR Phoenix, both in Arizona. KTAR Broadcasting is controlled by John J. Louis, who also controls KYUN Yuma and KYCA Prescott, both in Arizona. Mr. Louis is also president of Needham, Louis & Brobury Inc., Chicago advertising agency and is a principal stockholder of S. C. Johnson & Sons Inc. (wax and polishes).

Recall Hearing on FCC Budget Rescheduled for Wednesday

RECALL hearing on the FCC’s budget for fiscal 1956, which had been scheduled for last Thursday by a Senate Appropriations Subcommittee headed by Sen. Warren G. Magnuson (D-Wash.), last week was postponed to 2 p.m. this Wednesday.

The Senate group has held initial hearings on the FCC’s proposed 1956 budget of $6,876,000—while $170,000 added by the House above Budget Bureau recommendations—but senators want to ask FCC members more about the agency’s proposed study of the broadcasting industry and about other FCC policy matters.

In its $700,000 boost for the FCC in the appropriations bill (HR 5240), the House earmarked $80,000 for the proposed FCC study, but FCC Chairman George C. McConaughy has told the Senate appropriations group that this amount will only initiate the investigation (BT, May 9). The FCC also feels the total 1956 budget should be raised to $7,240,930—the amount FCC originally requested.

FCC Approves Merger Of Jackson, Miss. Tvs

FCC last week approved the consolidation of WSLI-AM-TV and WTV (TV), both of Jackson, Miss.

Under terms of the agreement, Standard Life Insurance Co. relinquishes control of the WSLI stations through sale of 40% interest for $176,000 to Mississippi Publishers Corp. In turn, Standard Life will pay Mississippi Publishers $175,000 for ch. 25 WTVT equipment and facilities. WSLI-TV operates on ch. 12. The FCC approval is subject to the condition that the permit for ch. 25 WTVT be disposed.

Mississippi Publishers Corp. owns the Jackson Clarion-Ledger and News. Standard Life will retain a 32.4% interest in WSLI-AM-TV.

FAIRBANKS
HITS 48% SHARE-OF-AUDIENCE IN NEW YORK

Throughout last year, “Douglas Fairbanks Jr. Presents” topped all syndicated shows in the nation’s top market: New York. Its average rating was 18.5, share-of-audience over 40%. This year, it’s doing even better. In January, almost every other viewing home in New York was watching this show! (ARB)

A howling blizzard last March 27-28 dropped 20 to 30 inches of snow over the 20-county area served by WSYR. Highways were blocked. Schools closed. It was one of those times when Central New Yorkers realized how much they depend upon radio... how surely they rely on WSYR.

WSYR's local programs poured forth a steady stream of information about conditions in every city, village and hamlet in the area. The voices were those of familiar personalities who have become, over the years, the trusted daily companions of a great share of the 428,000 radio families in WSYR's coverage area.

... Folks like Farm Editor Deacon Doubleday... Time-keeper Elliott Gove... Newsman Fred Millegas, Bob Nelson, Rod Swift and Carl Zimmerman... Jim Deline and His Gang... Women's Editor Jennie-Belle Armstrong.

WSYR's superior local program service, performed by people who know—and are known by—the communities they serve, is a powerful reason for WSYR's commanding leadership in a market with $2 billion buying power.

NBC in Central New York
One Fm, Four Am Outlets
Granted by Commission

FOUR new daytime standard stations at Harlan, Ky., Plymouth, Mass., Clarksdale, Miss., and Spruce Pine, N. C., and an fm station at Providence, R. I., were granted by the FCC last week.

A new 1 kw daytime am station on 1410 kc at Harlan, Ky., was granted to Ky-Va Broadcasting Corp., operator of WTCW Whitesburg, Ky. President and 97.5% stockholder is Kenneth J. Crosthwait.

At Plymouth, Mass., a new 500 w standard daytime station on 1390 kc was granted to Plymouth Rock Broadcasting Co., composed of President-General Manager Joseph M. Corcoran (51%), salesman; Treasurer Robert G. Clark Jr. (39%), attorney, and Eleanor Corcoran (10%), school teacher.

A new 1 kw daytime station on 1600 kc at Clarksdale, Miss., was granted to Coahoma Broadcasting Co., a general partnership composed of Anne P. McLendon (60%), retail furniture; Harding Corley (20%), accountant, and Harvey T. Roes (20%), attorney.

The new 1 kw daytime station at Spruce Pine, N. C., was granted to Toe River Valley Broadcasting Co., headed by Tom N. Cooper, drive-in theatre owner.

The new class B fm station at Providence, R. I., was granted to General Broadcasting Corp. The new station will operate on ch. 268 (101.5 mc) with effective radiated power of 20 kw and antenna height of 500 ft. above average terrain.

Initial Decision Favors
WCEM Increase to 250 W

INITIAL decision proposing to grant the application of WCEM Cambridge, Md., to increase power from 100 w to 250 w on 1240 kc fulltime, was issued by FCC Examiner Hugh B. Hutchison last week.

WCEM's application was designated for hearing to determine whether the proposed operation would involve objectionable interference with WSJF Bridgeton, N. J. The examiner concluded that a grant of the WCEM proposal would be in the public interest in view of the fact that it would provide a first local nighttime primary service and a medium of local self-expression to a portion of the population in the immediate Cambridge area.

Biscayne Tv Takes Issue
With Storer De-Intermix Bid

STORER Broadcasting Co.'s proposal to de-intermix Miami by removing chs. 7 and 10 from that Florida city drew the fire of Biscayne Television Corp. last week.

Biscayne, which holds an initial decision for Miami's ch. 7, opposed the de-intermix proposal on the grounds (1) that it would reduce competition from five stations to two stations; (2) that its original proposal would have left one uhf channel for the competitors seeking chs. 7 and 10; (3) that the rights and interests of the parties in the chs. 7 and 10 hearings had been lost sight of; (4) that Storer contradicted itself by filing an application for Miami's ch. 10; (5) that it amended its Miami de-intermix petition when its Toledo, Ohio, vhf station (WSPD-TV) was threatened by a de-intermix petition for that city; (6) that it would cost the Miami public about $8 million to convert their receivers to uhf.

Biscayne comprises the Cox and Knight news-paper-radio interests in Miami and Niles Trammell, former NBC president.

In answer to the protest of WKAT Miami Beach to Storer's filing of its application for ch. 10 there [BWT, May 16], Storer averred that WKAT was wrong in stating it does not have the right to file. Even though its appeal was on the multiplicity ownership rule, the FCC's denial of its then proffered ch. 10 application was a part of that appeal, Storer said. WKAT has the initial decision for Miami's ch. 10.

FCC Orders KOAT Back
To 1240 Kc From 860 Kc

FCC last week ordered KOAT Albuquerque, N. M., to cease operation on 860 kc as of May 31 and to resume operation on its regularly licensed facility of 1240 kc with 250 w fulltime on or after June 1.

The Commission's action last week postponed the effective date of its Feb. 4, 1954, grant to KOAT to change from its regular facility to 860 kc, 5 kw day, 1 kw directional night and scheduled a hearing on the grant.

KOAT Denver, operating a clear channel on 850 kc, had objected to KOAT's move to 860 kc on ground it obliterated its signal from part of New Mexico. The FCC denied the protest and the U. S. Court of Appeals in Washington remained the case to the Commission for a hearing on the ground that KOA had shown it was likely to be financially injured and thus had standing as a protestant [BWT, April 18].

Kilgore Monopoly Probe
Scheduled to Begin June 1

"FULL-SCALE investigation into every significant phase of antitrust and monopoly problems" is promised by Chairman Harley M. Kilgore (D-W.Va.) of the Senate Antimonopoly Subcommittee, which opens two weeks of hearings at 10 a.m. June 1. FTC and Justice Dept. officials are among those scheduled to testify.

MISS KESSLER

Kessler Leaves Cohn & Marks, Will Open Own Law Practice

SYLVIA D. KESSLER, former chief of the FCC's Office of Opinions & Reviews, has resigned from the Washington law firm of Cohn & Marks to open her own office. She joined Cohn & Marks in August 1953.

Miss Kessler was born in the District of Columbia and received her law degree in 1936 from the University of Chicago. After private practice, she joined the FCC in 1943 as legal assistant to the late Comr. Ray C. Wakefield. In February 1952, Miss Kessler became chief of the Office of Opinions & Reviews, the office which writes decisions for the Commission.

Blackburn-Hamilton in S. F.

NEW OFFICE opened in San Francisco by Blackburn-Hamilton Co., media brokers, is located at 111 Sutter St., Suite 340. William T. Stubblefield is in charge of the office. The address is not 235 Montgomery St., as was reported in BWT May 9.
NOW—HOLD SIMULTANEOUS SALES MEETINGS COAST TO COAST

Sheraton Hotels Closed Circuit TV Network

Now — management can talk "face to face" with the entire sales force . . . introduce a new product simultaneously to dealers in all territories . . . get reactions and answer questions from plant personnel scattered all over the country. What's more — all this can be done without pulling a single key man from his district and without paying costly travel expenses!

These are a few of the advantages you gain by using the new Sheraton Closed Circuit Television Network with a two-way audio pick-up — in any Sheraton Hotels in cities from Massachusetts to California (or independent hotels in non-Sheraton cities).

An experienced staff handles production details, assists in all planning, including budgeting and analysis.

LEARN MORE about this newest and most modern way to communicate "in person" at less cost. Write to SHERATON CLOSED CIRCUIT TV, 470 Atlantic Avenue, Boston 10, Mass.
CBS RADIO CHARTS ONE RATE, MAINTAINS IT'S NOT A CUT

Plan would replace and reportedly equal present rates that have complicated discount arrangements. It would not result in lowered charges, affiliates are assured.

A SINGLE rate for all time periods on CBS Radio—week days, week nights and weekends—is being considered by network officials to simplify the current structure which produces virtually the same result for the advertiser via elaborate discount arrangements, it was reported last week.

Members of the executive committee of the CBS Radio Affiliates Assn.'s board of directors, meeting with network officials in New York last Monday and Tuesday in preparation for a meeting of the association's full board in Washington today (Monday), said they had long been assured by top CBS and CBS Radio authorities that such a simplification would not involve lowered charges to advertisers.

On the other hand, they said, a single rate for all time periods would mean a slight increase for Saturday and Sunday time, which currently is priced somewhat lower than Monday-through-Friday segments. At present, Monday-Friday evening periods carry a higher rate than daytime segments, but the actual cost is equalized through discounts.

If CBS Radio proposes to reduce affiliates' compensation for carrying network programs, affiliates said, the effort will be resisted. They said they knew of no such proposal, however. Both adoption of a single rate and any change in station compensation, should any be made, presumably would be subject to renegotiation of affiliation contracts between the network and the affiliates individually.

Rates are slated to be one of several subjects up for discussion at today's affiliates board meeting, to start this morning with a session of the board alone and followed by a luncheon and perhaps afternoon meeting with top network officials.

Plans for the annual convention of all CBS Radio affiliates, scheduled Sept. 12-13 in Detroit, are expected to rank high on today's board agenda.

Other discussions are expected to range across such subjects as co-op programs, including the charges and arrangements therefor; Daylight Saving Time and its effects and the matter of charges for taping programs for non-DST stations; station clearances, and research activities.

Executive committee members at last week's meeting, held with new President Arthur Hull Hayes and other key officials of the network, included John F. Patt, WRJ Detroit, chairman of the affiliates board as well as of the executive committee; Victor A. Sheehy, WHAS Louisville; George B. Storer, Storer Broadcasting Co.; Saul Haas, KIRO Seattle, and Kenyon Brown, KWWF Wichita Falls, Tex.

Other members of the affiliates board are Arnold Schoen, WPRO Providence, R. I.; secretary-treasurer; George Coleman, WGBI Scranton, Pa.; C. T. Lucy, WRVA Richmond, Va.; John Rivers, WCSC Columbia, S. C.; F. C. Sowell, WLAC Nashville, Tenn.; C. C. Caley, WMHD Peoria, Ill., and Hugh Terry, KLZ Denver.

Three of the nine districts will hold elections this summer. In District 1, Joseph K. Close of WKNE Keene, N. H., and J. Maxim Ryder of WBRY Waterbury, Conn., are running for the board seat now held by Mr. Schoen. In District 2, Mr. Coleman of WGBI, C. Grover De Lalney of WHEC Rochester, N. Y., and Keith W. Horton of WELM Elmira are seeking the seat now held by Mr. Coleman (who is eligible for the contest only because he has not served a full term, having been named to fill out the term of J. E. Lounsberry), and in District 3, John S. Hayes of WTOP Washington and Donald Thornburg of WCAU Philadelphia are running for the seat now held by Mr. Lucy.

The directors from the nine districts elect three directors-at-large to round out the board membership. These three—who are eligible for re-election but serve only one-year terms as against three-year terms for district directors—currently are chairman Patt and Messrs. De Lalney and Schoen.

The affiliates association now numbers approximately 175 members, a gain of 10 over the total a year ago. Officials hope to bring the number to around 200 by the time of the Detroit convention. CBS Radio currently has 221 affiliates.

CBS-TV GETS PCC, BIG TEN FOOTBALL

PLANS for telecasting top football games of the Big Ten and the Pacific Coast conferences on a regional basis this fall were revealed to CBS-TV affiliates meeting in New York last week. (See other stories, page 116.)

A joint announcement was made in New York Thursday by Sig Mickelson, CBS vice president in charge of news and public affairs, and K. L. (Tug) Wilson, commissioner of the Big Ten, revealing some of the details of the Big Ten pact.

Included in the Big Ten arrangement is an agreement to telecast for its second straight year CBS-TV's coverage of the conference's basketball games in December.

No details of sponsorship nor price of the games were disclosed, although Mr. Mickelson said that a national sponsor, picking up the tab for the whole Big Ten football package, would be preferred over a game-by-game sale to different advertisers.

Under the agreement, CBS-TV has the right to select the games to be telecast as the season progresses. On an estimate basis, these are the dates and games available for regional telecast:

Mr. Mickelson said CBS-TV also expected within a "short time" similar regional agreements with eastern colleges, principally in the New England and middle Atlantic regions.

As of Thursday, CBS-TV had this tentative schedule for Pacific Coast games: Sept. 24—California vs. Illinois and (at Stanford only) Oregon vs. San Francisco; Oct. 8—Washington vs. U. of So. Calif.; Oct. 22—Washington vs. Stanford; Nov. 5—Washington State vs.

Page 114 • May 23, 1955
Oregon, and Nov. 12—Oregon State vs. California.

Although announcers have not yet been designated, Mr. Mickelson said sportscaster Tom Harmon probably would be assigned to do the west coast telecasts.

It was explained that the decision to telescast conference games was premised on the belief that national games do not hold the strength of interest enjoyed in football-minded areas such as the states supporting the Big Ten.

Mr. Mickelson said the agreements were entered into by CBS-TV because of the network’s belief that the game telecasts would “build intensive viewer interest” and bring to the tv screens those games “closest to the viewers.”

Mr. Wilson was asked if the Big Ten, on the basis of the experience with the basketball schedule that was telescast, could expect an increase or decline in actual football attendance next season. He said the Big Ten did not know at this time what effect tv had on basketball or what it would have on football but that advance “football ticket sales have exceeded anything we have had to date. We are happy to bring the games back to the people who pay the bills.”

Asked to what extent the gate was “hurt” during the last basketball season as compared to previous attendance, Mr. Wilson answered that it was “very small.” Proceeds from sale of the games, Mr. Wilson said, would be divided among the member Big Ten schools—and “of course will mean more money for them.”

Another sports event to be on CBS-TV nationally, Mr. Mickelson said, is the National Collegiate Athletic Assn.’s track and field meet, to be held in Los Angeles on June 18.

CBS-TV PLANS TEN 90-MINUTE SHOWS, 17 NEW NIGHTTIME SERIES FOR FALL

Network’s affiliates meeting in New York hear Network Program Vice President Hubbell Robinson Jr. tell of revamped schedule to meet competition from other tv networks. Color plans and coverage of sporting events were also agenda items.

THE PROGRAM schedule which CBS-TV plans to pit against the lineups of rival networks this fall—including ten 90-minute Saturday night specials, with Noel Coward starring in three and Bing Crosby in two—was outlined to CBS-TV affiliates last Thursday by Network Programs Vice President Hubbell Robinson Jr.

The program plans, which also include 17 new half-hour nighttime series, shared honors at the first general conference of CBS-TV affiliates, held Thursday and Friday at the Waldorf-Astoria in New York, with such diverse agenda subjects as subscription television (see story, page 27) and CBS-TV policy statement opposing pay-tv, (on page 28), plans for color, arrangements for regional telescasts of Big Ten and Pacific Coast Conference collegiate football and other sports events (opposite page), and election of the first permanent CBS-TV Affiliates Advisory Board (page 116).

An estimated 300-plus officials of CBS-TV affiliated stations were on hand for the two-day meeting. First-day speakers included Dr. Frank Stanton, president of CBS Inc.; CBS-TV President J. L. Van Volkenburg; Programs Vice President Robinson, and Sig Mickelson, CBS vice president in charge of news and public affairs. The Friday agenda included an informal luncheon address by FCC Chairman George C. McConnaughey and business session speeches by a number of CBS-TV department heads including William B. Lodge, vice president in charge of engineering; John P. Cowden, operations director, advertising and sales promotion department, and Charles Oppenheim, public relations director.

President Van Volkenburg said color tv plans for fall encompass at least two weekly programs on a regular basis, a “majority” of the ten-hour-and-a-half specials, all of some Omnibus programs and segments of others, plus the Chrysler Corp.’s hour-long Shower of Stars presentations, which also were carried in color during the past season.

Jack Benny will be starred in six of the Shower of Stars programs in addition to his alternate-Sunday series. Three of the six will be written especially for him; the first, now in preparation, is by F. Hugh Herbert, author of “The Moon Is Blue” while the two others will be musicals, one featuring a full symphony orchestra.

Mr. Robinson said that among the Saturday night 90-minute specials—which will run from 9:30 to 11 p.m. EST, every four weeks—the first of Noel Coward’s three shows will co-star...
Mary Martin with the British author-actor and the two others will be Mr. Coward's own "Blithe Spirit" and "Peace In Our Time."

The two Bing Crosby specials will be plays with music, identified by Mr. Robinson as Thornton Wilder's "Our Town" and Maxwell Anderson's "High Tor.

Of the five remaining specials, three will be produced by Paul Gregory, who conceived, produced and staged "Don Juan in Hell" and "John Brown's Body" and whose "Three for Tonight" is currently playing on Broadway. The remaining Gregory special for CBS-TV will be "The Big Banjo," the story of America minstrelsy, with a name cast.

Night by night, here are highlights of the fall schedule reported by Mr. Robinson:

The 10 p.m. block Monday through Friday will be programmed with "wholesome, family entertainment of high quality, with the accent on action and adventure." On Monday night Johnson & Johnson will sponsor "Adventures of Robin Hood" in this spot; Tuesdays, Whitehall Pharmaceutical Co. will sponsor "Name that Tune;" Wednesday nights will see "Brave Eagle" in that period; Thursday, Quaker Oats will take a "Junior Guest Premier" of the Yukon; and on Friday will have "My Friend Flicka." The Monday night schedule from 8 p.m. onward will be unchanged.

Tuesday night, however, will be "re-programmed almost in its entirety." The Phil Silvers Show! will start at 8 p.m. followed by the new Marie Wilson series, "Miss Pepperidge," at 8:30; "Joe and Mabel," described by Mr. Robinson as expected to be "one of the season's big sleepers" will go in at 9 p.m. and the revamped Red Skelton Show will resume at 9:30. The "$64,000 Question," which looks as though it should be the blockbuster of all given its 9:30 p.m. time slot, goes into the 10 p.m. segment, and Ed Murdoch's "See it Now," new to the schedule from 8 p.m. onward will be unchanged.

Wednesday night's main change will bring two new occupants into the 10-11 hour: United States Steel will alternate with General Electric Co.'s 20th Century-Fox series. Mr. Robinson told the affiliates that in its new time spot "Steel Hour" should have the chance to reach the rating heights it was unable to achieve before. "20th Century-Fox" is "being planned to consist of top picture names in top picture properties. They will have the budget and the creative resources to make it into a major entertainment." Approximately 50% of Thursday night's schedule will be new. A new documentary called "Wanted," with each half-hour dealing factually with people and events leading to the crime for which a criminal is wanted, is slated for 8:30-9:30. Chrysler's "Climax (Shower of Stars one week in four)" will be back from 8:30-9:30, and "Four Star Playhouse" will resume at 9:30. The new Johnny Carson Show is slated from 10-10:30 and Mr. Robinson said "we are so confident" about the young comic that "we are currently formulating plans and discussing with advertisers the extension of this show into a full hour-run!"

The Friday night schedule will remain unchanged following the introduction of "My Friend Flicka" at 7:30-8 p.m.

The regular Saturday night lineup will start with "The Last Angry Man," replaced by Jack Genge's "The Honeymooners." Then at 9:30 will come a new comedy, "The Four of Us," starring Jack Paige, with Gunsmoke next at 10 p.m.

On Sunday nights, Ed Sullivan's "Toast of the Town" will continue in the 8-9 period. "General Electric Co.'s 20th Century-Fox" series, the new Alfred Hitchcock series go into the 9:30-10 segment, to be followed by another new show on which "we are working with agency and client now."
A big step toward a Modern Transportation Policy

On April 18, the White House released the report of the Presidential Advisory Committee on Transport Policy and Organization calling for a revised national transportation policy. The railroad industry endorses this report as an important contribution toward working out to the best interest of the public the changes in transportation policy which are made necessary by changed competitive conditions.

In its report, the Advisory Committee finds...

- That the public interest requires the maintenance of a sound and vigorous common carrier transportation system, adequate for an expanding economy in peace and for the national security in war.
- That, in many respects, present government policy prevents — or severely limits — the most economical use of the nation's transportation plant and imposes large and needless costs upon common carriers and so upon travelers, shippers and the consuming public.
- That common carriers should be permitted greater freedom to utilize their economic capabilities in the competitive pricing of their services, so long as their prices do not exceed reasonable maximum rates or are not less than reasonable minimum rates fixed by the Interstate Commerce Commission.
- That the cornerstone of a modernized regulatory program under a system of dynamic competition is increased reliance on competitive forces in rate making, to enable each form of transport to reflect its abilities by aggressive experimentation in rates and service in order to demonstrate to the full its possibilities for service to the shipping and traveling public.

The report of the Presidential Advisory Committee contains other sound recommendations intended to establish and maintain the "progressive and financially strong system of common carrier transportation" which the committee feels is of "paramount importance to the public interest."

That's why the railroads regard the report of the Presidential Advisory Committee as a distinct step toward greater equality in transportation, with improved service and economy to the public.

Association of American Railroads
WASHINGTON, D. C.
FILM NETWORKING NEAR AT DUMONT

Trend accented as current sponsors put shows on Electronicam film as experiment.

FIRST DuMont moves—a rumbling—toward “film networking” were detected last week with disclosure that all of the network’s current sponsors are filming their programs with the Electronicam system on an experimental basis.

DuMont, it was learned, expects the first commercial program filmed by Electronicam (live-film camera) to be on the airwaves “within a few weeks.”

As of this week, commercial network time programmed by DuMont has been trimmed to some four hours as compared to the five hours programmed at the time of Electronicam’s demonstration in New York [BT, May 16].

Meanwhile, Ted Bergmann, managing director of the network, said last week that station executives at the NARTB convention this week will “see for themselves the superiority” of Electronicam-filmed programs.

Frequent showings of the system with “typical Electronicam program excerpts” are being held at the network suite, B-209, at the Sheraton-Park Hotel.

Referring to the New York demonstration, Mr. Bergmann said that station managers who saw “what we will shortly be putting on the air are amazed at the quality and agree that the day of the kinescope has ended.” He said station executives agree with those concerned with agencies, film producers and program packagers that DuMont has “found a way to offer every station in the country, interconnected or not, programs indistinguishable in quality or effectiveness from the live show as it leaves the studio.”

The Electronicam system’s use of filming programs at present in New York is in the process of “shakedown,” it was said. Although most advertisers reportedly are “in favor” of having their current programs so filmed on the DuMont Network, the majority also are adopting a “wait and see” policy.

DuMont Network officials report they are confident that some advertisers will seek extended station lineups with Electronicam-filmed programs because of the preference for these over kinescope.

Attending the suite will be Mr. Bergmann; John H. Bachem, network general manager; James L. Caddigan, newly-named head of the Electronicam production unit; Rodney D. Chipp, director of engineering; Robert L. Coe, director of station relations, and Edwin G. Koehler, station relations.

Hearst’s WISN Milwaukee

Joins ABC Radio Network

AFFILIATION of WISN Milwaukee with ABC Radio, effective immediately, was announced Friday by Charles T. Ayres, ABC vice president in charge of the radio network, and D. L. (Tony) Provost, vice president and general manager of the radio and television division of the Hearst Corp., operator of WISN. Station operates with 5 kw on 1150 kc.

Mr. Ayres, noting that ABC was “proud and happy to welcome WISN as the newest member of the ABC family,” described the station as one of the oldest in the U. S. and at its debut “a pioneer in an infant industry.” He said WISN, a “key station in a key market,” would be a strong addition to the ABC Radio lineup.
ANNOUNCING NEW ADVANCED DESIGNS IN REMOTE CONTROL SYSTEMS

RUST'S TWO NEW MODELS OUTMODE ALL OTHERS ON THE MARKET TODAY!

Inside new modern chassis, lie the most advanced remote control units ever devised. Rust Industrial, pioneers in the field, now announces two new systems that offer performance and dependability never before achieved!

Already proven in actual operation in both full time directional and non-directional stations, where continuous operation is paramount, these systems are custom-engineered to each station's requirements... and complete in every respect. Such features as simplified design... drop-down panel construction... no tubes... the very finest components, virtually assure years of trouble-free operation. And Rust facilitates proper installation with complete interconnecting diagrams and expert engineering consulting service.

Write about these new systems today. Start saving thousands of dollars tomorrow!

24 FUNCTION SYSTEM
Recommended for use in directional and multi-transmitter installations where up to 24 control and metering functions are required.

10 FUNCTION SYSTEM
Recommended for use in non-directional installations where no more than 10 control and metering functions are required.

CALL, WIRE OR WRITE TODAY FOR NEW CATALOGUE
NBC Radio Teenager Show Planned for Friday Nights

FRIDAY NIGHT will be the only night in the week so far as recording stars’ fans are concerned if NBC Radio scores with a new 90-minute show (8:30-10 p.m. EDT) it is starting June 17. Idea of the show, according to John Cleary, director of programs for NBC Radio, is to supply entertainment for youngsters “in keeping with America’s Friday night ‘party’ frame of mind.

Thus, NBC plans for fan clubs of all recording stars to register in a "National Radio Fan Club" to promote the individual star’s recordings and to receive certain benefits from club membership, including special discount record purchases and a subscription to a magazine.

A live audience will dance to recordings played on the program in the studio at Radio City, New York. Each half-hour of the program will feature an outstanding record artist who will appear on the program and will speak directly with fans in various parts of the country through special facilities set up with NBC affiliates.

Danzig to Program Post
With NBC O&O Stations

APPOINTMENT of Jerry A. Danzig as general executive for programming for NBC o&o stations was announced last Monday by Charles R. Denny, vice president of NBC owned stations and NBC Spot Sales. Mr. Danzig formerly was with CBS-TV, where he served as associate director of network programs, member of program plans board, supervisor of color programs and network producer.

WROW Joins CBS in Fall

AFFILIATION of WROW Albany, N. Y., with CBS Radio, effective Nov. 15, was announced last week by William A. Schudt Jr., vice president in charge of station relations, CBS Radio. The Albany outlet will replace WTRY Troy as the CBS affiliate in the Albany-Schenectady-Troy area.

WROW is owned and operated by the Hudson Valley Bstg. Co., Albany. General manager of the station is Thomas S. Murphy. CBS Radio affiliates now total 221, Mr. Schudt said.

Hoffer Joins ABC

APPOINTMENT of Jay Hoffer to the promotion and publicity department of ABC as head of advertising and promotion for WABC-AM-TV New York and ABC o&o stations was announced last week by Gene Accas, ABC director of promotion and publicity. Mr. Hoffer was with WJAR-AM-TV Providence as promotion manager.

Martin Heads CBS-TV Talent

PROMOTION of Robert Dale Martin from assistant director to director of CBS-TV’s Talent and Casting Dept. was announced last week by Hubbell Robinson Jr., CBS-TV vice president in charge of network programs.
In 1920 when Station KDKA first startled listeners with the strains of "Avalon" rendered through a carbon mike, ASCAP was six years old with only a handful of members. Today the broadcasting industry has expanded from a single commercial station to more than 3,000, and the advent of television has revolutionized the airways. The ASCAP membership has grown to more than 3,000 writers and nearly 800 publishers, and its repertory today is truly "the music of America".

Music is the basic program material used on the airways. We the creators of music — and you the broadcasters and telecasters — are mutually dedicated to provide the American Public with the best in entertainment.

In the future, as in the past, broadcasters and telecasters will find ASCAP music the best salesman of the airways — with the strongest listener and sponsor appeal.
DUMONT SHOWS ‘VITASCAN’ COLOR PLAN

The new system uses the flying-spot scanner technique. It will permit local color origination quickly and at little cost.

A NEW color tv development in station equipment is being shown for the first time today (Monday) at the NARTB convention in Washington.

The system being announced today by Allen B. DuMont Labs is for originating live color without use of color tv cameras. The novel system, according to DuMont, will permit the small tv station to originate its own color and get it on the air quickly and at little cost. There is no registration problem involved as in the conventional method of originating live programs with the color camera.

A private showing of the system nearly two weeks before the NARTB convention at a DuMont plant in New Jersey demonstrated that pictures were in good registration and color satisfactory.

Adjoint of Multi-Scanner

The system is called a "Vitascan" color studio scanner and is an adjunct to the DuMont color Multi-Scanner which has been marketed for some time. Normal delivery of from 30 to 60 days is offered. This is how the color "pickup" works:

A beam of light from a cathode-ray tube "scans" persons or objects being televised—the flying-spot scanner technique. The scanned light that is thus reflected is picked up by multiplier phototubes. These tubes convert the light into an electrical signal that is passed on to a regular standard color transmitter for broadcast.

DuMont points out that the new system will produce live color tv pictures of "highest quality" without the expense of color tv cameras, large studio crews and highly-trained color engineers and without usual problems of color registration.

For the national and local advertiser, DuMont anticipates use of the system to allow quick staging of live commercials of high color quality. It's also designed as "an easy, inexpensive method for producing live closed-circuit commercial telecasts in color."

An advantage of the new system is that it can be installed at a station which already has Multi-Scanner equipment, thus placing the conversion at a very low cost, it is pointed out by DuMont, which estimates it has shipped more than 60 Multi-Scanning units to stations.

It is estimated that the cost of a color camera is $60-85,000. The DuMont equipment, however, is much lower, it is pointed out, and not only permits "live" color programming but color films and slides as well.

According to DuMont's price listings, stations which already have a monochrome Multi-Scanner can be equipped for live monochrome for $9,097. Stations which already have a color Multi-Scanner can be equipped for live color for $15,692.

Stations which are not equipped with a monochrome Multi-Scanner can be equipped for live monochrome (stationary or mobile) for $18,415. Stations not equipped with a color Multi-Scanner can be equipped for live color (stationary or mobile) for $32,570.

DuMont's monochrome Multi-Scanner provides pickup for 16mm film, transparent slides and glossy or matte opaques. The color Multi-Scanner provides, in general, the same uses. The "Vitascan" unit actually is an addition to permit pick up of local live color. The same light source is used for the scanning process. The studio is illuminated with strobe lighting as compared to floodlighting and the multiplier phototubes (grouped like studio floods) make the pickup.

Thus, in general terms, the "Vitascan" principle could be described as a conventional tv pickup system in reverse. The phototubes are placed in the studio about where the usual floodlights would be in a conventional studio.

According to DuMont, "all that is needed is a light source, a light-tight room, and the necessary clusters of pickup tubes and strobe lights" to operate with the "Vitascan" system.

No "warm up" or "fire up" of color equipment is necessary. The time used to turn on the system corresponds to about the time it takes to turn on a home tv receiver. Only one

man is needed to turn on the system and then operate it.

According to DuMont, it takes hours to warm up regular color cameras before each broadcast and "even then, their operating techniques change and drift, and demand frequent readjustment."

In its present form, the use of "Vitascan" is limited. The system cannot be used where the light source cannot be controlled. Thus, there is no intention for the system to be utilized in daylight or in studios which are lighted from sources other than stroboscopic. DuMont also has mobile "Vitascan" equipment which permits studio dollying and other movement.

Programmable adaptable to the system, according to DuMont, would include news commentaries, debates, panel discussions, speeches, commercial showings of products and other programs not requiring extensive movement of studio apparatus.

RCA Reveals Equipment To Color B-&-W Commercials

PRODUCTION of special color-effects equipment that will enable broadcasters to originate tv commercials, program titles and station identification in color from black-and-white slides and artwork was announced last week by A. R. Hopkins, manager of broadcast equipment marketing, Engineering Products Div., RCA.

The new equipment, to be exhibited at the NARTB convention, enables stations without live or film color cameras to obviate a return to monochrome during station breaks in network color programs by originating spot commercials and station IDs in color, it was explained.

Mr. Hopkins said the equipment permits electronic addition of up to 24 different pre-selected colors to the black and to the white portions of a monochrome picture. All the units are standard for colorcasting and can be used by the station when it converts its facilities for origination of local tv programs.

An RCA colorplexer which produces the various color combinations is the essential color-adding element of the color effects equipment. Both the blanking and the signal from the monochrome camera which views the black-and-white slide or artwork are fed into the blue-green-red color channels of the colorplexer. The color combinations produced vary according to the combination of channels into which the blanking and black-and-white signal are fed.

Electronic Components Shown to Distributors

MILLIONS of dollars of component equipment, including newest developments in tape and film products, were exhibited at the Electronic Parts Distributors Show Chicago last week.

The show drew over 9,000 distributors from the U. S. and 23 foreign countries to the Conrad Hilton Hotel as parts-makers displayed 15 different major types of wares.

Winston Electronics Inc. showed a new tv test instrument (a circuit analyzer) for color or monochrome application, designed to troubleshoot horizontal and vertical deflection circuits.

New "Irish brand long playing tape" promising 50% more playing time over standard tapes on the same reel was exhibited by ORRadio Inc. The tape provides up to six hours more time at 13½ inches per second speed. Officials felt it would expand the market for pre-recorded tapes, broadcast station application, background music in business and industry and the home recorder field.

BONFIG TO HEAD CBS-COLUMBIA

H. C. BONFIG, vice president and director of sales of Zenith Radio Corp., last week was named president of CBS-Columbia, tv and radio receiver manufacturing division of CBS Inc. He succeeds Seymour Mintz, resigned.

Appointment of Leonard C. Truesdell to succeed Mr. Bonfig effective immediately was also announced last week by E. F. McDonald Jr., president.

The resignation of Mr. Mintz and appointment of Mr. Bonfig were announced by CBS President Frank Stanton. Mr. Mintz' future plans were not disclosed. A former vice president of Admiral Corp., he had headed CBS-Columbia since March 1, 1954.

Mr. Bonfig has been a vice president of Zenith for 11 years and formerly was commercial vice president of RCA. His home is at Winneka, III. CBS-Columbia's main offices and plant are in Long Island City, N. Y.

Mr. Truesdell has been vice president in charge of radio-tv sales at Zenith since April 1930. He joined the firm a year earlier as sales manager for home instruments.

First Quarter Tv Shipments

Up 300,000 Over '54 Figure

TELEVISION set shipments to dealers during the first quarter of 1955 totaled 1,968,347, over 300,000 more than the 1954 figure, according to Radio-Electronics Tv Mfrs. Assn. March shipments totaled 690,097 compared to 640,771 in February and 582,839 shipped in March 1954.

MANUFACTURING

Color Will Increase Tv Sales To Over $2 Billion Annually

TELEVISION, now a billion dollar industry, with color "will top two billion annually" in gross sales of receivers, according to Robert A. Seidel, executive vice president of RCA's consumer products. Mr. Seidel spoke to members of the National Appliance & Radio-Television Dealers Assn. in Milwaukee Wednesday.

Mr. Seidel said that while factors are lining up to bring more of color tv to the American public, black-and-white tv continues at a good pace, offering unprecedented values and service. He cited the decision of some manufacturers, including RCA, to offer compatible color receivers (RCA's suggested list price is $795 and $895), which, he said, "in no way changes the great future of black-and-white television." He said retail merchandisers—the dealers—have a greater opportunity "for progress and profit than at any time since the early kick-off days of television."

RCA's color set line, two new 21-inch receivers, will be available in limited quantities beginning in early June, he said.

Tv, Radio Receiver Sales Run Ahead of Last Year

RETAIL sales of tv and radio sets increased during the first quarter compared to 1954, according to Radio-Electronics-Tv Mfrs. Assn. Tv sales totaled 682,734 sets in March compared to 602,613 in February and 505,493 in March 1954. First-quarter tv sales totaled 1,943,992 units compared to 1,773,427 year ago.

Radio set sales (not including auto sets which are sold to factories) totaled 451,049 in March compared to 320,042 in February and 486,034 in March 1954. First-quarter radio sales in retail stores totaled 1,246,038 compared to 1,059,336 in the same 1954 period. Production of auto receivers in the first quarter totaled 1,945,604 sets. March was a five-week reporting period.

Sylvania Expands at Waltham

SYLVANIA ELECTRIC Products Inc. announced last week it is increasing by 50% the size of its new electronics laboratory nearing completion in Waltham, Mass. Henry Lehne, general manager of Sylvania's Electronic Systems Div., said that because of the company's "continuous expansion" in the electronics industry, the size of the new facility is being enlarged from 80,000 to 120,000 sq. ft.

DuMont Promotes Zusi

APPOINTMENT of Fred C. Zusi as sales engineer for industrial electronics for Allen B. DuMont Labs, Clifton, N. J., was announced last week by Emil G. Nichols, technical sales manager. Mr. Zusi, who has been with DuMont since 1952, has most recently been in charge of applications engineering for the company's technical sales department.

DuMont Sales Realignment

MOVE to strengthen DuMont tv receiver sales at distributor and dealer levels has been made by William C. Scales, division manager, in announcing appointment of four new field sales managers. They are: Richard F. O'Briin, national field sales manager; Robert Cheshire, New England-Mid-Atlantic manager; A. G. Evans, New York State manager; C. J. Molthrop, Midwest manager.
Only STEEL can do so many jobs so well

Wheat Suffocation. Stored wheat needs lots of air, or it will mildew and rot. Giant-sized USS American Quality Springs are covered with Cyclone Insect Screening to form tunnels through the wheat piles. Air is pumped through under pressure to ventilate the wheat, and keep it sweet and dry.

Steel Diet for Golf Shoes. If you play 18 holes of golf on a normal course, you take about 12,000 steps, so a light shoe is very important. The world's largest golf shoe manufacturer found a way to reduce weight by 1/3 by adding steel construction. The spikes screw into an inner sole plate made from USS Stainless Steel. The resulting shoe is feather-light, flexible as your foot, and you never feel the spikes.

Thousands of Horses...Coming Up! It takes gasoline to get the horsepower out of your automobile, but first it takes horsepower to get the gasoline out of the ground. Shown here is the power frame for a gigantic "Oil-well" slush pump that utilizes nearly 1,000 input horsepower to force mud down into an oil well while it is being drilled. United States Steel makes a complete line of oil drilling, production, pipe line and refining equipment.

Hard as Steel, Soft as Rubber. The wheels of most trolley cars have a hard steel rim, but they are fastened to the hub with a band of tough rubber. These Resilient Steel Wheels, supplied by United States Steel, last longer and ride easier than solid steel wheels.

CineScanner

...film "star" of network color shows!

Over and over, the Philco CineScanner continues to prove itself the star performer on top-notch network shows: Transforming scenes-on-film to bright, crisp, steady pictures in rich full color... with unequaled simplicity and dependability!

CineScanner employs the simplest film telecasting technique known. There are no problems of shading or color registration. In fact, color registration insurance is actually built in!

Here's how CineScanner works:

A dependable cathode ray tube projects bright "cold" light through the film on to low cost, non-synchronous pickup tubes. Simultaneously, these tubes generate signals for the red, green and blue images—all from a single scanning tube! Operation is simple and direct. Costly camera tubes are eliminated. Perfect registration is assured.

CineScanner has other exclusive advantages. A continuous-motion film transport mechanism designed by Philco and built by the Mitchell Camera Company eliminates mechanical shutters and noisy film-damaging intermittents. The film can be started, stopped—run forward and backward—instantaneously!

Install the Philco CineScanner and enjoy this simple, practical way of film telecasting. You can start today in monochrome... convert tomorrow to color with a simple conversion kit.

JOHN WENTWORTH (I), RCA manager of tv terminal equipment engineering, was one
of the principal speakers at the State U. of Iowa Color Tv Conference, held last month
at Iowa City. Listening as Mr. Wentworth details a new tube are (l to r); John Boeost
and Ray Stauffer, WHO-TV Des Moines, and E. B. Kurtz, who is in charge of the uni-
versity's electrical engineering department.

HALPIN TO SALES POST
WITH WESTINGHOUSE

Former DuMont executive ap-
pointed assistant general man-
ger in WBC tv-radio division.
DAN D. HALPIN, general sales manager,
DuMont television receiver sales division, has
been appointed assistant general manager of
marketing and general sales of Westinghouse
Corp.'s television-radio division, Metuchen,
N. J., succeeding Richard L. Sandelur, who has
resigned.
Mr. Halpin also has been associated with
RCA Victor Division and the Dicograph Prod-
ucts Co.
He is also chairman of the sales managers
committee of the Radio-Electronics-Television
Mfrs. Assn.

IRE ELECTRON DEVICES MEET
SET FOR OCT. 24-25 IN D. C.

FIRST annual meeting of the professional
group on electron devices of the Institute of
Radio Engineers will be held Oct. 24-25 at the
Shoreham Hotel, Washington, George A. Espre-
sen, Philips Labs Inc. and chairman of the
group, has announced. Mr. Espersen said
the sessions will "provide an exclusive medium
for exchange of engineering information" in
the field of electron devices.
Chairman of the Washington meeting will
be George D. O'Neill, Sylvania Electric Prod-
ucts Inc. Approximately 1,000 engineers from
government and industry are expected to attend
the meeting for an exchange of information on
advanced developments and applications of both
electron tubes and transistors in radio, televi-
sion, business machines and equipment for the
military.
The program will include papers read by
scientists and engineers representing various
organizations in the United States and foreign
countries.

1 + 1 + 1 = 3 Colors

LEE BERRYHILL, chief engineer,
KRON-TV San Francisco, and his staff
used a little "sleight of camera" to pro-
duce color station identifications during a
color network show without using color
cameras.
They made three color separation title
cards and focused a black-and-white
camera on each one. Then they fed the
signal from each camera into one of the
color inputs of the encoder which com-
bined it all into a composite color signal.

GE Portable Tv Line
Styled as 'Second Set'

THREE 32-pound portable tv sets, with sug-
gested list prices starting at $99.95, have been
added to the General Electric line, it was an-
nounced last week by Paul H. Leslie, mono-
chrome tv sales manager for the company's
radio and television department in Syracuse,
N. Y. Mr. Leslie felt the sets will be GE's
answer to a growing demand for a second tv
set in the home. The sets have 14-inch picture
Tubes.
Distribution of the portable is expected to be
nationwide by July, Mr. Leslie said. He pre-
dicted the new portable will be useful in hotels,
for invalids, for children, in game rooms,
kitchens, bedrooms, porches or outdoor living
areas.

ADMIRAL SALES, Earnings Dip

DROP in sales of 11% and net earnings of
18% for the first quarter of 1955 has been
reported for Admiral Corp. by John B. Huarisa,
executive vice president and treasurer.
Sales were tabbed at $50,034,396 as against
$55,977,563 for the same period last year, with
the decrease attributed to "sharply lower sales
to the nation's armed forces." Net earnings
fell off from $1,504,044 the first three months
of 1954 to $1,238,176 this past quarter. Earn-
ing before taxes were roughly $1.8 million
compared to $3.8 million last year.
"How Norton makes the sparks fly!"

"When a plant's grinding operations break down, their production lines may grind to a halt, too. We have to make the sparks fly!" says Doug Dawson.

"The abrasive that can meet specifications — and get there first — gets the order.

"We win those races time after time from our one big plant in Worcester, Mass.

"How? With on-the-ball engineering — and Air Express!

To us, Air Express is like a full warehouse in every community; we can deliver anywhere in the U.S. in a few hours.

"Yet, we actually save money when we use Air Express instead of other air carriers. A typical 25-lb. shipment from Worcester to Chicago, for example, costs $8.85. That's $3.55 cheaper than any other direct air service!

"Those savings add up when you ship as much as 1,000 pounds a day by Air Express, as we do!"

General Traffic Manager Douglas Dawson of Norton Company tells
Electronics Faces Two Years Of Great Expansion—Folsom

THE ELECTRONICS industry is on "the threshold of its greatest period of expansion" and sales will increase at least 35% in the next two years, RCA President Frank M. Folsom predicted in Chicago last Monday.

Mr. Folsom spoke before 500 RCA employees at the opening of its new distribution center on Chicago's south side. He said that industry sales will approach $14 billion by 1957, having passed the $10 billion mark already.

Mr. Folsom stated:

"Knowing of the new products now in our laboratories and the rate at which additional ones are being developed, it is safe to say that by 1962, regardless of the size of the radio, television and electronics industry, more than half of the volume will be in products and services that do not exist today."

MANUFACTURING SHORTS

Bell Sound Systems Inc., Columbus, Ohio, has announced new portable battery-powered dual-track tape recorder, Cub-Corder, designed as fully portable, high quality recording device to aid reporters and others in places where it is impossible to use standard recorders. Utilizing rechargeable non-spill wet battery and 6/12 volt B battery, unit will record for one hour at 33 1/3 ips or 30 minutes at 7 1/2 ips on single 5-in 600-ft. tape reel. Housed in carrying case approximately size of average brief case, Cub-Corder weighs 12 lbs. and may be carried by handle or shoulder strap. Complete details obtainable from firm at 555 Marion Rd., Columbus 7.

Electromec Inc., Burbank, Calif., announces large screen precision oscilloscopes are now available in console type cabinets. Console oscilloscope utilizes 17-in. rectangular tube and is useful for production test set-ups where work can be placed in front of operator during test. Further information available at console oscilloscope dept., Electromec Inc., 3200 N. San Fernando Blvd., Burbank.

RCA Tube Div., Harrison, N. J., has announced production of new 90° deflecting yoke for replacement use in tv receivers using picture tubes up to 27 inches. Yoke, RCA-237DI, supersedes RCA-219DI and is smaller, lighter and cheaper.

Raytheon Mfg. Co., Waltham, Mass., announces new portable transistor radio with front and back speaker grilles providing full...
Another Truscon Thousand-Footer...

now serving WBAP-TV, FT. WORTH

Everything's big in Texas. No exception is this giant Truscon Guyed Tower which climbs 1030 feet into the air. The tower mounts an 83-foot antenna. Tower and antenna together total 1113 feet. And that's tall...even for Texas.

Taller towers such as this are a job for experts only.

Truscon knows towers, can offer you the top talent in towers. With Truscon handling your assignment, you are assured of the skill and experience responsible for the design and construction of many hundreds of towers now standing strong and tall in all types of topography...in all kinds of wind and weather.

As a matter of fact, to the best of our knowledge, not one Truscon Guyed Tower has ever failed in any kind of storm.

Truscon builds them for you tall or small...guyed or self-supporting...tapered or uniform in cross-section...for AM, FM, TV, and Microwave transmission.

Turn your tower problems over to experts. Your phone call or letter to any Truscon District Office—or to "tower headquarters" in Youngstown—will get your program started without delay.
NEW BOLEX ZOOMING LENS GIVES

through-the-lens viewing •
four-to-one ratio •
finer optical quality •

Two completely new zooming lenses by Som Berthiot: Pan Cinor-70 and Pan Cinor-100. These 14-element lenses offer crystal-clear, corner-to-corner sharp images. Both have through-the-lens viewing, giving sharp, brilliant field of view—regardless of aperture!

Ideal for news shots, grab shots of any subject, and for sports filming. Both lenses are optically sharp at F:2.4.

No parallax problems; focusing is from 7" to infinity; from 32" using close-up attachments.

Pan Cinor-70 zooms from 17.5 mm to 70 mm — wide angle to telephoto. Pan Cinor-100 zooms from 25 mm to 100 mm — standard to extreme telephoto. Price including leather case is $449.50. For full details, write address below or see your Bolex dealer.

MANUFACTURING

PURCHASE of a 50 kw transmitter, antenna and complete terminal facilities from Allen B. DuMont Labs is agreed to by WDBJ-TV Roanoke, Va., ch. 7 station slated to go on the air next fall. L to r: seated, Lewis Radford, DuMont; M. W. Armstead III, president of the Times-World Corp., owner of WDBJ-AM-TV; standing, Ray Jordan, general manager of WDBJ, and Edward J. Newman, WDBJ chief engineer.

directional sound, claiming development is first of its kind in industry.

Gotham Audio Development Corp., N. Y., has announced development of new 150 w power amplifier specifically designed for disc recording, accommodating every cutether head made for disc recording, including BBC Grampian feedback cutether head for which feedback circuit connections have been provided, according to company. Firm claims four-position equalizer switch provides correct RIAA recording characteristics as well as level changes for 33 1/3, 45 and 78 rpm records from 30-15,000 cycles.

MANUFACTURING PEOPLE

Arthur H. Bolt, sales director, Bell & Howell (motion picture equipment), Chicago, appointed assistant to vice president of western operations, headquartering in Hollywood.

Robert E. Steele appointed New York area public relations manager, General Dynamics Corp., N. Y.

Bernard B. Cohen to General Transistor Corp., N. Y., as works manager.

Sam F. Arm Jr., engineering sales manager, Packard-Bell Co. (radio-tv-electronics), L. A., named sales manager, civilian and military technical electronic products.

Ray McCadam, General Electric Co., Syracuse, N. Y., appointed western region district sales manager, equipment sales organization, tube dept., headquartering in Los Angeles.

How do Boeing methods help achieve “More Air Force per dollar”?

Living in the atomic age, we find that each year makes certain facts stand out in sharper relief.

The first such fact, now grasped by all thinking Americans, is that the power to inflict terrible destruction on an enemy is no longer ours alone. We know that nuclear weapons have been produced by the Soviets. We know, too, that the U. S. S. R. has aircraft capable of delivering them. Therefore, the major deterrent to war is now, and must continue to be, the superiority of our own air arm.

At the same time it is clear that a free nation cannot afford to cripple its economy by wasting any of the billions of dollars being spent to maintain air superiority.

A double responsibility

The Boeing Airplane Company, as a principal supplier of Strategic Air Command planes, has a double responsibility to the public.

Our first duty is to build the world’s most potent bombers and refueling tankers. In doing so we are making weapons for the defense of our country. The consequences of producing aircraft that would place second in the event of international conflict would be unthinkable.

That is why the Boeing tradition of achieving the utmost in quality is more important today than ever before. Not only our management but all of our nearly 65,000 employees are imbued with the idea of building the best that can be built. Research, design and engineering all contribute to that objective.

The company’s second and equally vital responsibility is to deliver its product to the Air Force at the lowest possible cost.

“More Air Force per dollar”

That meaningful phrase is a slogan of the Air Materiel Command. And helping to make it a fact is one of Boeing’s permanent objectives.

Efficient production is as deeply ingrained in this organization as the urge to build well. It was demonstrated during World War II, in the steadily lowered costs of the B-17 Flying Fortress and the B-29 Superfortress.

More recently, the constant drive for efficiency has broken records in reducing the number of man-hours needed to produce the B-47 Stratojet bomber and the KC-97 tanker. As a result, many millions of dollars have been returned to the U. S. Treasury.

Saving dollars for the taxpayer starts with the design of the aircraft itself. It follows through the planning and setting up of tools and jigs for fast, smooth-flowing production. It is inherent in Boeing’s constant emphasis on manufacturing efficiency throughout the production life of the airplane. It is supplemented by workers’ suggestions for process improvement—for which scores of cash awards are made each month. Finally, it is highlighted by an extreme cost consciousness throughout the ranks of Boeing management.

Management training pays off

Primary among Boeing’s policies is the building of an ever-stronger management team. In an industry producing mechanisms of growing complexity, the manager’s role of channeling skills for maximum effectiveness takes on more and more importance. For that reason, thorough training is a must for every man at the management level. Boeing has established programs ranging from a forty-hour course for supervisors to six-week university courses for men in higher positions.

These training programs, along with Boeing’s continuing emphasis on efficiency and effective long-range planning, are paying off every day. They are playing a large part in giving America more and better airplanes at lower cost—helping to reach the goal of “More Air Force per dollar.”
McCray Elected '55-56 Head Of R-T-R-A Charities Inc.

THOMAS C. McCRAY, general manager of KRCA (TV) Hollywood, has been elected 1955-56 president of Radio-Television-Recording Advertising Charities Inc. Other officers are M. J. Rockford, vice president, Music Corp. of America, vice president; James V. Melick, director of production administration, CBS-TV, vice president; Robert F. Myers, attorney, re-elected secretary, and Liz Gould, executive secretary, Radio-TV Directors Guild, treasurer.

Elected to the board of directors, in addition to the five officers, were C. Hirt Oliver, vice president and general manager, Hollywood office, Foote, Cone & Belding Inc.; Ben Alexander, co-star of NBC-AM-TV Dragnet; Harold R. Maag, vice president and western division manager, Radio Corp. of America; Hildred Sanders, vice president in charge of radio-tv, Dan B. Miner Co.; Robert L. Redd, vice president in charge of radio-tv, Erwin, Wasey & Co.; Richard A. Moore, vice president and general manager, KTTY (TV) Hollywood, and Walter Tibbs, vice president in charge of west coast production, BBDO.

Fire Film

TEN-MINUTE film depicting its activities was presented to St. Louis Fire Dept. Training School by KWK-TV there and shown publicly in connection with the school's graduation exercises. A film clip was shown on KWK-TV.

KFSD-AM-TV Hits MS

OVER $50,000 in cash and pledged donations to the San Diego Multiple Sclerosis Society was reported after a two-day simulcast on KFSD-AM-TV San Diego. Jack Rourke emceed and produced the program.

'Life in a Radio Station'

CFBC St. John, N.B., used a minstrel show theme for its 'Life in a Radio Station' which played four nights in the local YMCA. The show played before 1,100 spectators per performance with funds going to the aid of the YMCA. Publicity for the program was all on CFBC. The production was also put on in nearby Moncton.

Home, Safe Home

A SPECIAL half-minute tv spot has been produced by Lucille Ball and Desi Arnaz, stars of I Love Lucy, for use by the National Safety Council. The spot depicts the hazards which have made falls the nation's No. 2 accidental killer. Theme of the campaign is 'Don't let home be where the hurt is.'

$500 for Education

WDRC Hartford, Conn., has participated in a campaign which netted $500 for two scholarships to be donated by the alumni association of a local high school. The scholarship drive is an annual affair.

$30,000 CP Telethon

CONTRIBUTIONS from the 1955 Cerebral Palsy Telethon conducted by WICS (TV) Springfield, III., are expected to exceed $30,000 —$10,000 more than the amount received last year. It was the second annual telethon staged by the station and attracted a grand total of about 18,000 people to a local hotel ballroom for the 18-hour telecast which featured 47 acts, 11 bands and nine emcees.

Modern Medicine Highlighted

WOAI-TV San Antonio, Tex., is presenting a series on modern medical practice, in cooperation with the Bexar County Medical Society. Two Bexar County physicians appear on the weekly programs to discuss diagnosis and treatment of disease and explain the proper use of new medical discoveries.

Tv Outlines Cancer Cures

WNBK (TV) Cleveland has presented an hour-long special feature dramatizing the possibilities for cure of cancer by means of radioactive isotope treatment. The program was coordinated with the local drive for funds to support the cancer crusade.

Interstate Conclave

A SPECIAL 14 station network carried the initial broadcast of a once-a-month series in which the governors of Pennsylvania, New Jersey and Delaware discussed problems of common interest. The series is originated by WFIL-AM-TV Philadelphia for the tri-state network.

UCP Material Available

UNITED CEREBRAL PALSY has announced that it has color tv slides available for use by stations equipped with color transmitting facilities. The public service organization also has black-and-white slides, telops and semi-animated cartoons for tv stations and has prepared transcriptions, starring name Hollywood actors, for radio use.

Welfare Agencies Given Aid

WTVI (TV) Miami, Fla., held a "Television Workshop" for representatives of greater Miami's welfare agencies so that the groups could better utilize their public service time in presenting their stories to the viewing public.

Telecast Saves Life

NEW SURGICAL techniques used in treating certain heart conditions were being demonstrated on a WEWS (TV) Cleveland public service program when a viewer recognized the symptoms described by the surgeon as those experienced by his sister. Because of the telecast, the operation was performed and the girl can look forward to a normal life instead of the prospect of death in less than two years as had been previously predicted by medical authorities.

'No Second Chance'

A PROGRAM prepared and produced by WJR Detroit to explain the meaning and operation of Conelrad is being distributed to all radio stations in the U. S. and territories by the Federal Civil Defense Administration.

No Second Chance was originally broadcast as a public service over WJR every day for two weeks during different time segments so as to reach all the station's different listening audiences.

WJR produced the show after civil defense surveys and a both editorial (Nov. 29, 1954) indicated an urgent need for further public education on Conelrad. The program simulates a Conelrad alert and an enemy air raid complete with sound effects.

Initial program expenses were defrayed by WJR. FCDA is pressing the 3,000 records necessary for distribution.
PROTECTING YOU IN MORE WAYS THAN YOU KNOW

This ad is appearing nationally. To encourage supplementary home town advertising, the National Board, through State insurance agents’ associations, provides mats and suggested copy for local insurance boards. These, with other artwork and suggested copy, radio and TV spots, are available to your advertising department.

Putting a new roof over your head... fast

Disasters occur all too frequently—without warning—from fire, explosion or windstorm. No one knows where or when they will strike. The next one may hit your home. Then you will need help—fast. The capital stock fire insurance companies are ready for just these emergencies. Adjusters are rushed to the disaster to speed up claim payments. Through this “Catastrophe Plan,” your capital stock fire insurance company gives you immediate aid so you can quickly re-build your home, start up business anew and be back on your feet—fast.

Protecting you is our business. Don’t take chances—make sure you’re protected against loss by fire, explosion and windstorm. You safeguard your health by seeing your doctor and dentist. You can be equally sure you’re adequately protected against fire and other disasters by seeing another specialist regularly—your insurance agent or broker. This protection, too, is necessary for your sense of security.

Capital Stock Fire Insurance Companies are represented by independent local agents or brokers. It’s the insurance service that gives you the personal advice of a man right in your own neighborhood. And he protects you in more ways than you know; he’s the man who can take care of ALL your insurance needs!

NATIONAL BOARD OF FIRE UNDERWRITERS
85 John Street New York 38, N.Y.
222 West Adams Street, Chicago 6, Illinois
465 California Street, San Francisco 4, Cal.
**WBAW Aids Salk Inoculations**

WBAW Barnwell, S. C., staged a spot campaign to have local parents give consent for their children to be inoculated with Salk anti-polio vaccine. When the announcements started, about 40% of the eligible children had the necessary consent, but after the campaign had been underway for a few days the percentage was near the 100% mark.

**Funeral Expenses Defrayed**

OVER $600 was raised by WAIN Columbia, Ky., to help a destitute local family pay the funeral bills contracted when the family’s six-year-old girl drowned in a creek.

**KFAB Starts Ordinance Probe**

KFAB Omaha, Neb., claims credit for throwing the spotlight on a “breakdown” in record-keeping at the understaffed city clerk’s office there which has resulted in the journal record of general city ordinances falling some five years behind. After KFAB reporter Glenn Desmond probed the logjam, the station aired a broadcast calling attention to the situation.

**GOC Gains 2,300**

CENTRAL IOWA’s Ground Observer Corps increased by 2,300 volunteers during the three-week period that WOI-TV Ames, Iowa, conducted a drive in behalf of the group. A special half-hour program, spot announcements, and a running tabulation of new volunteers highlighted the campaign.

**KVEN Ventura, Calif., aired a missing person bulletin which produced results in record time, the station reports. Thirty-five seconds after the report was broadcast that the whereabouts of a nine-year-old girl were unknown, a KVEN listener called the station and said the girl was seen sleeping in a parked car.**

**Thirty-five Second Record**

**GOFK Aids Cancer Fund**

WPEN Philadelphia personalities “Pancho” and Larry Brown, co-m.c.’s of the Mambo Dancing Party, raised funds for the fight against cancer by getting donations from members of the show’s studio audience who had their pictures taken with the stars during the show.

**Child Problems Analyzed**

**KFTV Des Moines, Iowa, has aired a special panel program on “Why Children Blow Off Steam.”** The program, put on with the cooperation of the local Parent-Teachers Assn., and Drake U., was listened to by 80 individual parent-teacher groups which held discussions on the matter after the radio panel was closed.

**WFMY-TV Aids Blood Drive**

WFMY-TV Greensboro, N. C., studios and offices were turned into a blood donor center when the North Carolina bloodmobile made its visit in that area. Fifty pints more than the quota were collected.

**$260,000 Donation**

**TIME WORTH** $260,000 was donated for public service programming on WHLI Hempstead, N. Y., during 1954, George Ball, station’s director of public affairs, has announced. During the year, the station aired 1,174 public service programs and 11,202 public service announcements.

**‘You and the Law’**

**WERE Cleveland is presenting a 13-week series of programs, You and the Law, which is designed to familiarize the public with common legal problems and methods. The broadcasts are being produced in cooperation with the Cleveland Bar Assn.**

**City Budgets Discussed**

**WKNE Keene, N. H., has aired a series of panel programs dealing with the city’s budget. It has met with such success, the station feels, that a series on the school budget is planned. The station also is using a saturation campaign of spot announcements urging greater participation in civic affairs on the part of its listeners.**

**$50,000 for UCP**

**KGE-TV Enid, Okla., enriched the United Cerebral Palsy Assn. by $50,000 by broadcasting a 17-hour telephone on its behalf. National and local personalities contributed to the show’s success. The station estimated that approximately 17,000 people filed through KGE-TV studios during the course of the program.**

**WSTC Urges Fire Caution**

**WSTC Stamford, Conn., is airing forest fire warnings on all its daily weather reports.**

**4-H Club Week Marked**

**DEMONSTRATIONS and explanations of 4-H Club projects were telecast by WICS (TV) Springfield, III., during observance of National 4-H Club Week. Besides the daily series WICS also set aside time for several other programs featuring club members and their activities.**

**WFMY-TV Studies Education**

**WFMY-TV Greensboro, N. C., is presenting a series, Your Child at School, in which various facets of public education are being discussed. The 15-minute-a-week 18-week series is being aired with the cooperation of the North Carolina Education Assn.**

**Safety Patrols Honored**

WGN-TV Chicago honored the nation’s school safety patrols and the Chicago Motor Club, which conceived of the patrol idea 32 years ago, by airing a special program in which club, municipal and school officials were presented.

**Health Facilities Described**

A 13-WEEK series, Public Health is People, describing the work being done by the Minnesota Dept. of Public Health to safeguard the health of Minnesotans, is being presented by KSTP-TV Minneapolis-St. Paul. The show, produced by the department, will present both physicians and municipal executives during the programs.
TWO CENTURIES ago Voltaire said, "He who makes two blades of grass grow in place of one renders a service to the State." The job of Standard Oil Company (New Jersey) and its affiliates is something like that — to produce oil where none was produced before and, by doing so, to create wealth for everybody.

How well have we been doing this job? Our Annual Report for 1954, which has just been sent to the 300,000 shareholders who own Jersey Standard, tells about it.

It tells how wealth was created by extending known oil fields . . . And by discovery of new ones . . . By converting crude oil, itself of little value, into hundreds of useful products . . . By moving petroleum products from where they were made to where they were needed.

All these things helped the people and strengthened the nations where we do business.

Some highlights of these activities, drawn from the Annual Report, are set forth here as a matter of public information.

1. During 1954, the free world used more oil than ever before. And oil is energy, which is basic to the world's progress.
2. To meet these needs, our affiliates produced and refined more oil than ever before in the Company's history. But additions to oil reserves were greater than the oil used.
3. We had vigorous competition everywhere. There is nothing like competition to bring you better products and service.
4. 1954 was our top year in sales, earnings, and dividends paid to owners.
5. During the year, we spent 764 million dollars for new equipment and for exploration. Since World War II, we have spent 5 billion dollars for the means to meet your future oil needs.
6. Research was productive. Our research affiliate obtained more patents on products and processes than any other oil company. In Linden, N. J., the first atomic laboratory in the oil industry is being built to study the uses of radiation in oil refining.
7. Current developments in atomic energy will mean greater availability of electric power: increased mechanization, expanded industry, and greater use of petroleum products. The oil business will gain, and you will have the benefits of both kinds of energy.
8. We played an important part in arranging to return Iran's oil to world markets.
9. A world's safety record for major refineries was set by Esso employees at Baton Rouge, La....7,911,769 man-hours with no disabling injury. This passed the previous record by more than a million man-hours.
10. We have long supported education through our taxes. We have also felt an obligation to aid privately supported colleges and universities, which are an important source of new employees and of informed citizens. During 1954, we contributed about a million dollars to such institutions.

If you wish a copy of the full Report for 1954, write to Standard Oil Company (New Jersey), Room 1626, 30 Rockefeller Plaza, New York 20, N.Y.
CKCO-TV Silent Promotion

CKCO-TV Kitchener, Ont., had all its announcers who appeared on camera wear red cross buttons on their lapels during the local drive for funds by the public service organization. No verbal attention was called to the pins, but their presence was eye-catching and self-explanatory, the station reports.

‘Louisville: Target 21’

WAVE Louisville, Ky., has presented a three-week series (six 15-minute shows), Louisville: Target 21, detailing the civilian defense measures necessary to prevent in case of an enemy attack. Purpose of the series is to acquaint the public with the dangers of such an attack and to recruit personnel for the armed forces and for Civil Defense work.

Delinquency Problems Detailed

WTAG Worcester, Mass., has aired a five-broadcast panel series Juvenile D, in which the psychological and social factors underlying delinquency were analyzed. The series was put on with the cooperation of the Worcester Area Mental Health Assn. and the local PTA.

Jazz Aids Blind

JAZZ and variety concert was staged May 6 at Carnegie Hall by WCBS New York to help celebrate the 50th anniversary of the Lighthouse, supported by the New York Assn. for the Blind. Leading stars from radio, television and the recording industry participated in the show. Part of the proceeds are to be used to expand the facilities of the Lighthouse Music School, which now has 235 blind students.

Orchestra Fund Aided

WWLP (TV) Springfield, Mass., presented executives and a performer of the local Springfield Orchestra Assn. during the organization's drive for funds to sustain its musical programs.

Public Service Time Told

WNHC-TV New Haven, Conn., provided free air time for 49 different campaigns with a total of 611 public service spot announcements during March, the station has reported. During that month the station donated 34 hours of TV program time to public service organizations, including religious groups, industrial groups, service organizations, Red Cross and educational institutions.

WFBC-TV Aids UCP

PLEDGES to United Cerebral Palsy amounting to $69,057 were received through a telethon on WFBC-TV Greenville, N. C. Of the total amount pledged, $32,518 was in cash donated at the auditorium where the telethon originated. A major portion of the funds will be used to assist palsy victims in Greenville and Spartanburg counties.

UCP Trailer

DANNY THOMAS, star of ABC-TV’s Make Room for Daddy, has made a three-minute trailer for the sixth annual United Cerebral Palsy campaign. Lou Edelman and Sheldon Leonard, producer and director, respectively, of Make Room for Daddy, acted in like capacities for the trailer, with Earl J. Hudson, vice president of the ABC western division and the UCP fund, supervising production for UCP.

AWARDS

SLOAN SAFETY

AWARDS PRESENTED

Winners include WCPO-TV, NBC Radio, WOWL, KOY and WUOT. Four radio-TV advertisers also get awards. Rural Radio Network receives honorable mention.

ONE TV station, three radio stations and one radio network were among the recipients of the Alfred P. Sloan radio-TV awards for outstanding public service in traffic safety.

Prizes were presented last Tuesday in New York by Alfred P. Sloan Jr., board chairman of General Motors Corp. and president of the Sloan Foundation, to WCPO-TV Cincinnati, NBC Radio, three radio outlets—WOWL Florence, Ala., KOY Phoenix and WUOT Knoxville (non-commercial, educational station)—and four advertisers. Rural Radio Network, Ithaca, N. Y., was given an honorable mention.

Presentations were made at the annual awards dinner in the Waldorf-Astoria Hotel, drawing over 200 business and industry executives, government officials and civic leaders. Mr. Sloan lauded broadcasters for their role in helping the nation to achieve its lowest motor vehicle death rate last year. Harold E. Fellows, NARTB president, also spoke briefly.

Expresses Industry’s Thanks

Mr. Fellows expressed the gratitude of the broadcasting industry to the Sloan Foundation for making the awards possible. He said stations and advertisers considered it “a privilege” to participate in the campaign, and paid tribute to the personnel of stations for contributing to the project.

WCPO-TV was cited for “resourceful programming of safety features for young people of all school levels.” NBC Radio won in the national or regional network sustaining category “for highlighting traffic safety on many excellent programs” and for “repeated emphasis by spot announcements and mentions through all seasons.”

WOWL emerged victorious in the 1 kw or less sustaining category, KOY in the 1 kw or over group and WUOT in the educational station field. Advertisers cited were DeSoto-Plymouth Dealers of America (national or regional radio network commercial category), Esso Standard Oil (tv network commercial), Twin City Federal Savings & Loan Assn. (over 1 kw radio station commercial group) and Plymouth Dealers of Greater Detroit (tv station commercial category).

Rural Radio Network won honorable mention for “its contribution to highway safety in rural areas...through its helpful daily road reports over 13 fm stations.”

Citations follow:

NBC Radio Network (winner in the national or regional network sustaining category).

For highlighting traffic safety, particularly Road Show and Heart of the News, and for repeated emphasis by spot announcements and mentions through all seasons. A stand-out feature [of Road Show] was the awarding of prizes to Drivers of the Day selected in various parts of the U. S. in cooperation with local representatives of the American Automobile Assn.

WOWL Florence, Ala. (winner in the 1 kw or less sustaining category).

For its strong promotion of safe driving
among teenagers. Through a highly successful contest for young drivers, intensively publicized on the air, WOVL-AM was able to unite the support of influential community groups, both civic and official, in a common effort.

KOY Phoenix, Ariz. (winner in the over 1 kW radio station sustaining category).

For its balanced and consistent coverage of traffic safety throughout the year, KOY did a notable job in integrating accident prevention into its daily programming, including its daily disc-jockey shows, newscasts and other features. Its additional activities ranged from recorded messages from the Governor's Highway Safety Committee, to mailings, regular road-condition bulletins and safety tips to special campaigns on back-to-school safety and Safe-Driving Day observance.

WUOT Knoxville, Tenn. (winner in the non-commercial educational radio station category).

For its comprehensive schedule of traffic safety broadcasts, as well as for the enterprise shown in spreading the safety gospel among other stations in its region. Tapes of 130 15-minute programs were made available to 15 other Tennessee outlets, one in Kentucky and one in Virginia. The fine effort of this U. of Tennessee educational station earned it the previous Sloan Award.

WCPO-TV Cincinnati, Ohio (winner in the television station sustaining category).

For resourceful programming of safety features for young people of all school levels. Convinced that installing a "do-it-yourself" attitude is the first step in developing a real sense of personal responsibility in traffic, WCPO-TV has created a series of popular and distinctive participation programs for the various age groups. Typical are "Fun In Facts," conducted for teenage drivers in conjunction with the Cincinnati Junior Safety Council; "Big Wheels," a program for the bicycle set, and "Play It Safe," a quiz-type program for elementary school children.

Marx Show Listed
De Soto-Plymouth Dealers of America (winner in the national or regional radio network commercial category).

For its program highway safety on the high-rated Groucho Marx You Bet Your Life show, with safety reminders on 44 weekly programs over 207 NBC radio network stations. The De Soto-Plymouth dealer program, a threeway promotion on the Sloan Award, regularly reached nearly 80% of all radio and television homes in the U. S.

Esso Standard Oil Co. (winner in the television network commercial category).

For effective, year-round safety promotion on Your Esso Reporter over 18 television stations. The flexible schedule of Your Esso Reporter made it possible to time special messages in the middle-of-weekday weekend and other critical traffic periods. . . . Esso's unswerving dedication to highway safety is exemplified in this, its third Sloan Award.

Twin City Federal Savings & Loan Assn., Minneapolis, Minn. (winner in the over 1 kW radio station commercial category).

For its series of 75 half-hour shows entitled As We Journey, Let Us Live, devoted to varied traffic safety appeals and related services to medical and psychological interests. . . . The program boasts the most complete road-condition report in the Twin City area, with local truck firms relaying special information on hazardous spots.

Plymouth Dealers of Greater Detroit (winner in the television station commercial category).

For their instructive and provocative traffic series, The Plymouth Safety Eye, beamed on

36 half-hour programs over WTVK-TV (Detroit). Incidents involving both motorists and pedestrians were filmed in candid-camera fashion, providing a basis for commentary emphasizing proper driving and walking practices. Related educational topics included development of emergency plans for pedestrians, traffic ordinances and school safety patrols.

For its important contribution to highway safety in rural areas, specifically in New York State and western Pennsylvania, through its helpful daily reports on over 13 fm stations. There was no award in the 1 kW or less radio station commercial category.

Holmes Awards Luncheon Set

NINTH ANNUAL Frances Holmes Competition, open to all women in advertising or allied fields in the 11 western states and British Columbia, will hold its "Lulu" presentation luncheon June 5 at the Ambassador Hotel, Los Angeles. Classifications are copy, layout, advertising illustration, research project, direct mail, radio commercial, tv commercial, comic, commercial film, publicity, public relations and sale promotion-merchandising. Deadline was yesterday (Sunday).

AWARD SHORTS

Beverly Brown, Beverly Brown Productions, New Orleans, and director, Hillies, WNOE New Orleans, and writer-producer, Teeine-Towne, WSMN there, presented fourth annual New Orleans Community Theatre award for contributions to New Orleans theatre through years of developing young talent.

WMAK-AM-TV Washington presented certificate of merit from Washington Board of Trade's architectural awards committee for erection of workshop building on American U. there as one of eight outstanding structures built in Washington area during past two years. Structure is gift from stations to school to house radio-vee course classes.

Judith Waller, education and public affairs director, NBC Central Div., Chicago, cited by Chicago Council on Foreign Relations with "pioneer World Understanding" Award [Rev. May 16].

Jack Bailey, host-m.c., Mutual-Dan Lee and KHJ-TV Hollywood Queen for a Day, received special award from United Cerebral Palsy Foundation for wishing-well project, in which wells are installed across country to keynote annual UCP fund drive.

Dr. Herman Harvey, host-lecturer, KNX-TV Hollywood Child Psychology on Tv, and associate psychology professor, U. of Southern California, received special award from national women's committee of Brandeis U., Waltham, Mass., at Brandeis, lifetime meeting, for "special contribution to American culture and education through . . . his college credit courses presented on KNXT."

WIS-TV Columbia, S. C., presented special certificate from Veterans of Foreign Wars, South Carolina division, in recognition of the true spirit of Americanism.

Audio Productions, N. Y., "Before They Happen," film, produced for National Bureau of Fire Underwriters, awarded bronze plaque from national committee on films for safety. Resident fire prevention bureau, the municipal fire prevention bureau, is available to tv stations for black-and-white showings.

Wilson R. Thornley, creative writing instructor, Ogden (Utah) High School, presented engraved plaque from KLO Ogden in appreciation of contributions to Youth in the Fight for American Freedom, Washington dept., for time and faculties donated to VFW.

Burke Ormsby, production director, KRTV-TV Tacoma, Wash., presented state flag of Washington from Veterans of Foreign Wars for aiding VFW in search for outstanding high school and college musical talent through Talent Contest program.

Maynard Speece, farm service director, WCCO Minneapolis-St. Paul, named honorary state farmer by Minnesota Assn. of Future Farmers of America in recognition of outstanding service to FFA and agriculture.

KVWO Cheyenne, Wyo., presented award from White King Soap Co., L. A., for promotion of Big Boy Barbecue Contest on MBS Queen for a Day program in western states; KCAF Helena, Mont., for promotion and licensing of "Lulu" presentations.

Russ Grasek, host, Platter Party, WGLV (TV) Easton, Pa., presented award from Easton Area Junior Chamber of Commerce for service to teenagers of Lehigh Valley and fight against juvenile delinquency.

WTRF-TV Wheeling, W. Va., presented 21-in. RCA color set as winner of "Lux Video Theatre's Festival of Academy Award Winners" contest to promote program, conducted by Leyer Bros. Co., N. Y.

Ampex Corp. (magnetic tape recording equipment), Redwood City, Calif., presented certificate of outstanding service to National Fire prevention bureau, Argonaut Insurance Group, S. F., for record of one million man hours of labor in 1934 without lost time from accidents due to industrial causes.

John Scott, disc m.c., WEEI Boston, cited by Musician's Guide as "one of the top disc jockeys in the U. S." and appointed to its editorial advisory board.

Claude M. Bolser, coordinator, cooperative training program of advertising, Baruch School Chapter, Alpha Delta Sigma, presented distinguished service key for " exceptionally long service to advertising.""
WTIC Hartford, Conn., cited by Hartford Court of Common Council for aid in polio fight.

Normaileen Field and George J. Fox, Indiana U. radio-tv dept. postgraduates, and Marvin Goodman, undergraduate, presented annual scholarships of Sarks and Mary Tarzian, who own and operate WTTIS-WTTV (TV) Bloomington, Ind.

Robert F. Browning, newsman, WKNY radio station, presented annual citizenship award of Veterans of Foreign Wars' Joyce-Schrick Post.

CBS-TV Mama presented citation from American Mothers Committee in recognition of "inspiration given to families throughout six years of continuous presentation" on TV.

Helen Thomas, vice president and radio time-buyer, Street & Finney, N. Y., presented top award of $100 for winning estimate in WDSSM Duluth, Minn., contest to guess day and time first freighter would break through Lake Superior ice and enter Duluth harbor this season.

Jack Benny, CBS Radio and CBS-TV comedian, presented citation at May 4 brotherhood dinner of Massachusetts Committee of Catholics, Protestants & Jews.

**RADIO & TV STATIONS!**

Up to $20,000 in Revenue...

A Large Percentage of Which is Paid to You Before Any Service is Rendered on Your Part!

1. **PICK A WINNER** contest secures local merchants who act as co-sponsors — creates many new accounts.

2. **PICK A WINNER** contest gives you up to $3,000 in prize merchandise.

3. **PICK A WINNER** contest provides publicity for your station. Each co-sponsor receives a display and entry blank that carries your call letters and kilocycles.

**ALL YOU DO:**

Provide each co-sponsor with a sixty (60) word weekly announcement at a time left to your discretion, and aid in the distribution of your entry blanks by announcing daily where they may be obtained.

**DUNTON CITES CBC LONG-TERM EXPENSE**

Chairman of CBC board of governors tells Parliamentary Broadcasting Committee that CBC will continue to need more money from the government to complete its program.

**THE EXPECTATION** that capital expenses of the Canadian Broadcasting Corp. "will be extensive for many years" was voiced May 13 to the Canadian Parliamentary Broadcasting Committee at Ottawa by A. D. Dunton, chairman of the board of governors of the CBC. Mr. Dunton said that if it would take CBC four or five years to complete its capital program which includes new studios at Vancouver, new quarters at Toronto to centralize operations now in a number of buildings, and construction of new stations.

Mr. Dunton told the committee that at present, CBC is confined to six major city areas for its TV operations, but ultimately the CBC planned to serve rural areas which would not be served by independent TV stations. CBC would continue to need more money from the government because the yield from excise taxes on radio and TV sets, now earmarked for the CBC, would decline.

CBC has two sources of revenue, Mr. Dunton said, commercial and public. The latter included an annual grant of $6,250,000 and the 15% excise tax on TV and radio sets and components. He estimated that in the current fiscal year there would be an operating deficit of $560,000 for sound broadcasting, and a surplus of $3,500,000 for TV. Net commercial revenue last year was $3,800,000, he reported.

Mr. Dunton told the committee he did not expect any color TV or pay-as-you-see TV in Canada as operations of the CBC, the former as being too expensive at present, and the latter as being impractical for the CBC.

He told committee member Tom Goode, Liberal member for Burnaby-Richmond (a Vancouver area) that decision to have more than one TV station in any one market was up to government policy, but CBC felt that the effect would be to weaken the economy of the CBC. Competitive TV stations would weaken commercial support for Canadian programs.

Mr. Goode had pointed out that U. S. stations near Vancouver were obtaining a large volume of Canadian advertising directed at Vancouver audiences from advertisers who could not get time on CBC station CBUT (TV) Vancouver. Mr. Dunton said CBC could operate at a profit without assistance from the government if CBC would import programs and drop the development of Canadian talent.

He pointed out that CBC planned more TV programs like the recent two-hour showing of *Hamlet* with all-Canadian talent, which cost $30,000 to produce. Several such shows are planned for next year and sponsors have been approached on using these cultural programs.

**Tv Gets First Political Use**

**In June 9 Canadian Election**

**THE FIRST** provincial election in Canada since the advent of television takes place in Ontario on June 9. Under Canadian broadcasting regulations time is made available to candidates on a free as well as paid basis, with free time allotted on a basis of party standing. All elec-
BMI presents a four month accounting of the outstanding current song hits in the BMI repertoire as determined by two of the music trade barometers.

tion broadcasts come under the Canadian Broadcasting Corp., even those on independent stations.

The three major Ontario parties, Progressive-Conservative, Liberal and Cooperative Commonwealth Federation, will share without charge four and one-fourth hours on Ontario TV stations and five hours on radio stations. The TV time consists of three half-hour, three 15-minute and three 10-minute periods, with three local 15-minute periods on CBC stations CBOFT Ottawa and CBLT Toronto. Free-time telecasts will be on eight TV stations on microwave network from May 19 to June 6, with a focus on three stations not yet connected with the network.

On radio, 15 Ontario stations will be on the network in 18 quarter-hour periods and three 10-minute periods from May 12 to June 6.

The agreement was signed by Aidan Crawley, director of operations of ITN, and Howard Kany, CBS Newfilm manager. ITN is the news programming company set up by the new Independent Television Authority that was created under authorization of commercial TV in Great Britain. Under the contract, ITN will receive full syndicated film coverage of the news by more than 250 Newfilm cameramen, soundmen and correspondents located in world capitals and news centers in more than 50 countries. CBS Newfilm also draws upon a library of more than 5 million feet of film of past news events and color and background material. Commentaries and news shows are distributed in addition to "spot" news coverage.

The ITN contract adds Great Britain to the list of Newfilm customers which, in addition to stations in U.S., include TV stations in Japan, Italy, Sweden, Denmark, Mexico, Cuba, Puerto Rico, Venezuela, Alaska and Hawaii.

CBS Newsfilm to Cover For England's New ITN
CBS NEWSFILM will supply filmed news coverage of North and South America and the Far East to Independent Television News Ltd. of England under a contract signed in New York last week.

The agreement was signed by Aidan Crawley, editor of ITN, and Sig Mickelson, CBS vice president in charge of news and public affairs. Also present at the negotiations were Philip Dorte, director of operations of ITN, and Howard Kany, CBS Newfilm manager. ITN is the news programming company set up by the new Independent Television Authority that was created under authorization of commercial TV in Great Britain. Under the contract, ITN will receive full syndicated film coverage of the news by more than 250 Newfilm cameramen, soundmen and correspondents located in world capitals and news centers in more than 50 countries. CBS Newfilm also draws upon a library of more than 5 million feet of film of past news events and color and background material. Commentaries and news shows are distributed in addition to "spot" news coverage.

The ITN contract adds Great Britain to the list of Newfilm customers which, in addition to stations in U.S., include TV stations in Japan, Italy, Sweden, Denmark, Mexico, Cuba, Puerto Rico, Venezuela, Alaska and Hawaii.

To the Salt Mines
A NEW "voice of America" may have been heard behind the Russian Iron Curtain and it may have been the first of its kind not sponsored by the U.S. Information Agency's Voice of America program. On April 22, KYBR Anchorage, Alaska, directed a message to Siberia at the start of its regular noon newscast. It was broadcast by Jack Wandell, KYBR news editor, after he was advised that the KYBR music and news programs were being received in the Bering Sea and Nunivak. The station believes it was the first time a privately-owned longwave radio station has attempted to reach people behind the "Iron Curtain." Mr. Wandell, in his message, described the freedom that the American press and radio stations enjoy and he told those people who were receiving KYBR's programs: "Keep listening and you will hear the truth."

Elliott-Haynes Releases Radio Ratings for April
APRIL national ratings of Elliott-Haynes Ltd., Toronto, list six Canadian evening radio network shows, led by Our Miss Brooks with a rating of 15.2, and Wayne & Shuster (Canadian) 9.9, Army Show (Canadian) 9.8, Singing Stars of Tomorrow (Canadian) 9, Championshio Fights 8.6 and Toronto Symphony Concert (Canadian) 5.5.

National ratings on transmitted evening shows placed these four on top: People Are Funny 16.5, Denny Vaughan Show (Canadian) 11.8, Fun Parade (Canadian) 10.3 and Take a Chance (Canadian) 8.7.

Daytime network shows numbered 12, with leading five being Ma Perkins 14.4, Guiding Light 13.6, Pepper Young's Family 13, Right to Happiness 12.5 and Road of Life 11.7.

Leading five French-language evening network shows were Un Homme et Son Peche 37.3, Le Survenant 27.6, La Famille Plouffe 26.9, La Voix du Cercle 18.9 and Tambour Battant 16.5.

Leading French-language daytime network programs were Vie de Femmes 31.5, Vous et Votre Avenir 29.8, Jeunesse et Votre Avenir 27.5, Rue Principale 27 and Les Joyeux Troubadours 26.9.

Canada Considers Troop TV
TV STATIONS with limited range for use in entertaining troops at defense bases in Canada, used by both U.S. and Canadian troops, are now under consideration by the Canadian government. The Canadian Army is understood to be negotiating for establishment of a non-commercial TV station at Churchill, Man., on the west shore of Hudson Bay, along the lines of the army radio station CHFC Churchill. Funds for the TV station would come from the regimental institutes. United States forces have also requested TV stations at bases they are using in northern Canada.

Two Canada TV Sets Debut
CKVR-TV Barrie, Ont. (ch. 3), expects to be on the air by Sept. 15, according to owner Ralph Snelgrove, who also owns CKBB Barrie. CKNX-TV Wingham, Ont., plans to be on the air early in October, in time for the World Series baseball games. The ch. 8 station was recently recommended for a TV license by the board of governors of the Canadian Broadcasting Corp.

Three Ams Merge for TV
THREE British Columbia radio stations—CKOK Penticton, CKOV Kelowna and CJIB Vancouver—have formed Okanagan Valley Television Co. and plan to apply for a TV station license, with transmitter to be located at Westbank, near Kelowna. Jim Brown, CKOV, is president of the company, which expects to invest $500,000 in the TV station.

1,376,101 TV Sets in Canada
CANADA had 1,376,101 television receivers in use at the end of March, according to tabulations of the Canadian Radio & Television Manufacturers Assn. and All-Canada Television, Toronto. Of these, 724,103 were in the province of Ontario, 401,794 in the province of Quebec, 104,403 sets in the three prairie provinces, 100,339 in British Columbia, and 45,462 in the four Atlantic coast provinces.
NOW! the new

Eliminates extra manpower requirements

opaque and transparency projector

REMOTE OR LOCAL CONTROL
CHECK THESE NEW FEATURES

- Completely automatic...utilizing features contained in the now famous Telop and Telojecor...Slides change by push button control.
- Sequence of up to 50 slides can be handled at one loading...additional pre-loaded slide holders easily inserted in unit.
- Remote control of lap dissolves...superposition of two slides...and slide changes.
- Shutter type dimming permits fades without variation of color temperature...opaque copy cooled by heat filters and adequate blowers...assembly movable on base which permits easy focus of image.

SCREEN OUT HIGH PRODUCTION COSTS FOR LOCAL SPONSORS

Telop III by the elimination of extra manpower assures the production and projection of low-cost commercials that local sponsors can afford. It can be used with any TV camera including the new Vidicon camera. Telop III projects on single optical axis opaque cards, photographs, art work, transparent 3¼" x 4" glass slides, strip material, and 2" x 2" transparencies when Telojecor is used with optical channel provided. Telop III eliminates costly film strips and expensive live talent.

WRITE FOR: Illustrated bulletin describing Telop III specifications. Your request will receive prompt response.

YOU ARE CORDIALLY INVITED...to see Gray's complete line of TV-Broadcasting Equipment at the NARTB Exposition...May 22-26...Room F-114, Shoreham Hotel, Wash., D.C.

Economic Development Aided By Advertising, Gamble Says

ADVERTISING on an international scale can hasten the economic development of the world's nations, Frederic R. Gamble, president of the American Assn. of Advertising Agencies, told the 15th Congress of the International Chamber of Commerce meeting Wednesday in Tokyo.

Briefly, these are the main benefits that a nation's economy and its people can derive from advertising, according to Mr. Gamble:

1. Successful advertising enables sellers to find customers for their goods and services and thus to succeed in business.

2. Advertising, which stimulates new wants and desires (for cultural services as well as commodities), is one of the most powerful agents in raising the standard of living.

3. It also raises the living standard by selling new models, new designs and improved features, thus permitting older models to spread throughout the population.

4. Advertising supports mass media, helps to keep a nation informed and entertained and brings a national way of living to the country.

Ziv's Stern Off to Europe

EDWARD STERN, head of international activities, Ziv Television Programs Inc., left May 13 for a six-week European trip to meet with tv executives and producers in Germany, France, Holland and England. Mr. Stern will demonstrate the first German language version of Favorite Story, starring Adolph Menjou, and the French language version of Mr. District Attorney, starring David Brian.

Mr. Stern recently returned from Havana, Cuba, where he completed arrangements for CMBF-TV Havana to acquire a Ziv package of six tv shows: Boston Blackie, Cisco Kid, The Unexpected, Mr. District Attorney, I Led Three Lives and Science Fiction Theatre.

INTERNATIONAL SHORTS

A. C. Nielsen S. A., Alpenstrasse 1, Lucerne, Switzerland, established by A. C. Nielsen Co., Chicago, as affiliated marketing research company, is eighth Nielsen associate company to be organized out of the U. S. Dr. Rudi Zingg, with experience in Nielsen operations in U. S., Great Britain and Netherlands, will head organization.

Louis Jose Arreaza Almenar, owner of eight Venezuelan radio stations and of Eastern Venezuelan Radio Network and part owner of Caracas tv interest, visiting U. S. to study possibilities of introducing tv into eastern Venezuela.

Phil MacKellar, disc jockey, CKLW Windsor, Ont., to CKFH Toronto in similar capacity.

John Boutes, promotion dept., CKWX Vancouver, B. C., to promotion staff, CIAT Trail, B. C.
year's grants follows: Augustana College (Sioux Falls, S. D.)—Sig Mickelson, vice president, CBS Inc., in charge of news and public affairs; Brown U.—Don I. Ball, director of editing, CBS; Colgate U.—Jules Dunes, general manager, KCBS San Francisco; Benjamin F. Feiner, executive producer, CBS-TV Hollywood; Cornell College (Mt. Vernon, Iowa)—Earl H. Gammon, vice president, CBS Inc.; Washington office; Cornell U.—Julius F. Brat- 

Also: Edward L. Saxe, vice president and as- 

sistant to the president, CBS-TV; Massachusetts Institute of Technology—William B. Lodge, vice president, CBS Television, in charge of general engineering; Stanford U.—Richard W. Jencks, resident attorney, CBS-TV Hollywood, and assistant secretary, CBS Inc.; U. of Chatt-

anooga—Eugene B. Wilkey, general manager, KMOX St. Louis; U. of Detroit—Arthur Hull Hayes, president, CBS Radio; U. of Pennsyl-

dent in charge of network sales, CBS-TV.

Award-Winner Hugh Terry Addresses Journalism School

THE "virtually unlimited" opportunities in radio and television bring with them a "siamese twin-responsibility," Hugh B. Terry, president and general manager of KLZ-AM-TV Denver, emphasized in an address to the Missouri U. School of Journalism May 5. Mr. Terry par-

ticipated in the university's annual Journalism Week during which he received its 26th annual Honor Award for Distinguished Service in Journalism [B&T, May 2].

Mr. Terry traced the history of the electronic media up to the present, pointing out that they are "big, healthy and growing," and "begging for new ideas, fresh, different techniques." But he cautioned the students that as no method of communication reaches as many people as fast and as frequently as radio-television, the respon-

sibility is great, and "those who utilize these tools of journalism should be well educated, thoroughly trained, mature of thought and action, and willing and able to accept responsibility."

"We in electronic journalism," he said, "must all fight to be accepted for what we are—a vital part of freedom of the press." "It will be one of your responsibilities," he stressed, "to guard against arbitrary curtains of silence whenever and wherever they may threaten these new and modern tools of journalism."

Six-Course Program Set For NBC Summer Institute

PROGRAM of six courses has been set up for the fifth annual Summer Institute of Radio & Television, which will be presented June 27-Aug. 5 by Barnard College and NBC from the NBC studios in New York.

The schedule of courses and teachers are:

The institute is open to 40 men and women college graduates and non-degree holders who have paid experience in radio and tv. Students successfully completing the course will receive a certificate from Barnard College and NBC. Application should be made before June 1 on forms obtainable from Dorothy Kemble, 112 Millbank Hall, Barnard College, New York 27.

$25,000 for Educ. Tv Granted to META

GRANT of $25,000 from the New York Foundation has been received by the Metropolitan Educational Television Assn., it was announced last Wednesday by Arthur Hungerford Jr., execu-

tive director of the association, which plans to establish a non-commercial television station to serve New York City and Westchester and Nassau counties.

David M. Heyman, president of the foundation, said the grant was made to "aid in the work of developing educational television in the New York City area." The association was chartered last year by the New York State Board of Regents.

EDUCATION SHORTS

RCA Institutes, N. Y., awarded three $1,600 scholarships to high school seniors selected from 41 contestants representing metropolitan N. Y. area schools. Winners, who will study ad-

vanced radio-television technology course at school, are Mary Anne Fitzmaurice, Jackson Heights, N. Y.; Frank Heinrich, N. Y., and John C. San-

ford, Gaylordsville, Conn.

Pennsylvania State U., University Park, Pa., establishes School of Journalism, effective July 1, replacing journalism dept. and composed of news and editorial journalism dept., headed by Dr. James W. Markham, and advertising dept., headed by Donald W. Davis. George J. Palm-

er, telegraph desk editor, New York Daily News, will head overall school.

National Academy of Broadcasting, Washing-

ton, held commencement exercises May 13.

EDUCATION PEOPLE

Stephen F. Temmer signed by School of Dra-

matic Arts, Columbia U., N. Y., to conduct 15-

week course, "Motion Pictures," covering re-

cordings for films, tv, radio and phonograph, 

beginning in fall.

D. Brandon Bernstein, Beverly Hills, Calif., at-

torney, appointed western regional counsel, 

National Audience Board.

**PROGRAMS AND PROMOTION**

**NBC COVERING BRITISH VOTE**

NBC NEWS is staging radio-tv shows May 21-27 as coverage of the British elections, scheduled to be held May 26. Foreign correspondents Romney Wheeler, Ed Newman and Frank Bourgholtzer are covering the event for the network. Camera work is being handled by Guy Blanchard and Alan Blowey. During this week, special election programs are being carried and election news is featured on regularly scheduled NBC radio and television news shows.

**MBS ADDS MARKET SERIES**

AS A REFLECTION of current interest in stock market investment, Mutual last Friday launched a 15-minute weekly program of business analysis, called *Forbes Reports* (Fri., 10:15-10:30 p.m. EDT). The program is being presented in cooperation with *Forbes* magazine. Three months ago Mutual started a spot news program of business and finance, *America's Business* (Mon.-Fri., 5:45-5:50 p.m. EDT).

**'TOWN MEETING' CAVALCADE**

SPECIAL anniversary program, "Town Meeting: A 20-Year Cavalcade," highlighting programs of 20-year history of America's Town Meeting of the Air, will be on ABC Radio May 29 (8-9 p.m. EDT). John Daly will narrate the program, which will feature recorded excerpts of prominent people of past and present. The first Town Hall broadcast was May 30, 1935.

**NOTRE DAME GAME LISTED**

GAME between Notre Dame and Southern Methodist Sept. 24 at South Bend will be one of five football contests to be covered by NBC-TV on a regional basis as part of its NCAA football coverage next fall, the network has announced. The game will be seen only on stations in NCAA District 4: Ohio, Mich., Ind., Wis., Minn., Ill., Iowa. Regional telecasts are in addition to eight games which will be carried nationally by NBC-TV.

**DAVY CROCKETT ON NBC**

NEW five-minute strip entitled *Stories of Davy Crockett* will start on NBC Radio May 30 as five-day-a-week program, 5:55-6 p.m. EDT. New verse to now-popular Crockett theme song will be introduced each evening. Plans for the series were announced by John Cleary, director of NBC Radio network programs.

**COLORCASTING**

*Advance Schedule Of Network Color Shows*

- **CBS-TV**
  - June 9 (8:30-9:30 p.m.): *Shower of Stars, "Muskulous Review*,” Chrysler Corp. through McCann-Erickson.

- **NBC-TV**
  - May 30 (8:9-9:30 p.m.): *Producers' Showcase, "Petrided Forest*,” Ford Motor Co. through Kenyon & Eckhardt, and RCA through Kenyon & Eckhardt, Al Paul Lefton and Grey Adv. Agency.
  - June 4 (9-10:30 p.m.): *Max Liebman Presents, "Chocolate Soldier,” Oldsmobile Div. of General Motors through D. P. Brother & Co.
  - June 27 (8:9-9:30 p.m.): *Producers' Showcase, Ford Motor Co. through Kenyon & Eckhardt, and RCA through Kenyon & Eckhardt, Al Paul Lefton and Grey Adv. Agency.

(Note: This schedule will be expected to print time of each issue of B.T.)

**WOR-TV GETS 11 FEATURE FILMS**

IN A transaction said to involve more than $102,000, WOR-TV New York last week acquired from National Telefilm Assoc., New York, the television rights in the metropolitan area to 11 feature films. The pictures will be used on the station's Million Dollar Movie series starting in the fall. Seven of the films are Alexander Korda Productions which were released in theatres in 1952, 1953, and 1954.

**KIERNAN TO JOIN 'MONITOR'**

WALTER KIERNAN, radio-tv personality, last week was selected to preside over a four-hour block of entertainment and information segment of NBC Radio's Monitor weekend service. Program will be launched with a one-hour simulcast on June 12 (4-5 p.m. EDT) and thereafter will be heard each weekend from 8 a.m. Saturday until Sunday midnight EDT on NBC Radio.

**DEFENSE ALERTS**

YOU DON'T HAVE MAXIMUM PROTECTION FOR A DEFENSE ALERT UNLESS YOU HAVE A "WARE" CONELRAD SYSTEM

Designed to be triggered by carrier break of key station.

Clock stops to indicate time of break, bull's eye pilot light glows, and alarm sounds if desired when system does not. Push button to reset.

Adjustable time delay to prevent false indication. Will operate reliably on less than 1 volt A.V.G. from ordinary receiver. Ready for rack mounting.

F.O.S.B. Ware $85.00

Other items available from Ware Electronics:
- Remote Control Unit (Custom Built—for Directional, too)
- Automatic Transmitter Resetter
- Radio Frequency Amplifier for Modulation and Frequency Monitor
- Audiautor (Automatic Audio Gain Control and Limiter)

Write for further particulars

**WARE ELECTRONICS**

Ware Coupling & Nippe Co.—Wara, Mass.

D. W. HOWE, JR.—ENGINEER

**WABD (TV) AIRS AT THE PARK**

SPECIAL advertising, promotion and merchandising tie-up has been arranged between WABD (TV) New York and the Rockaways' Playland amusement park on Long Island, whereby the station will be able to reach through a public address system and other means persons who visit the park. Under the plan, the station's programs and commercial announcements will be broadcast over the public address system; station personalities will make personal appearances; WABD and the park will cooperate in staging a series of contests and Playland will share time on the station's giant "spectacular" sign in Times Square.

**WHOD-COURIER TIE-UP**

AGREEMENT has been signed between two competitive media, WHOD Pittsburgh and the Pittsburgh Courier, and is "without precedent in the Negro radio field." The Courier is claimed to be the largest Negro paper in the world, with circulation in all 48 states and WHOD is claimed to be one of the first radio stations in the country to program to the Negro audience. WHOD will feature the paper's writers in its news and homemaking programs and the two media will combine facilities for promotion and merchandising.

**PRESIDENTS ON THE AIR**

**FEATURE ARTICLE** in the May 21 Saturday Evening Post describes how networks have stage-managed Presidents on the air, from President Harding's broadcasts on primitive facilities to the classy tv show of President Eisenhower. Woodrow Wilson, the article said, would have been the first chief executive to broadcast had not his physician declared it was "beneath the dignity of a President" to speak into a mike. President Roosevelt made extensive use of radio with his "fireside chats." Now the value of tv is so realized that performer Robert Montgomery holds "kitchen-cabinet" status on the White House staff.
MAURICE EVANS PROGRAM
CURTAIN raiser on the new series, Maurice Evans Presents the Hallmark Hall of Fame, starting Oct. 23 on NBC-TV, will be "Alice in Wonderland." The announcement was made last week by Mr. Evans who has just returned from a six-week tour to England where he lined up dramatic material and screened acting talent to star in some of the telecasts. The version to be televised was prepared by Florida Friebus and Eva Le Gallienne. Miss Le Gallienne will appear in the show. The new programmes will be hour-and-a-half dramatic presentations. Mr. Evans will produce and be host on all the shows, also starring in two during the season.

KATHY GODFREY SHOW
RADIO program stressing the good news of the day will start on CBS Radio May 29 with Kathy Godfrey, sister of Arthur Godfrey, as its star. The Kathy Godfrey Show, scheduled for Sundays, 7:05-2:30 pm. EDT, will be produced and directed by Ira Ashley. Miss Godfrey will interview people from the entertainment world and others who make good news, the network announced. The show also will feature the music of Norman Leyden and his orchestra.

FOURTH 'VICTORY' TREK
OVER 10,000 requests from station viewers resulted in KTTV (TV) Hollywood renewing the 26-week syndicated film Victory at Sea series for a fourth run in the Los Angeles market. At the conclusion of the third run May 9, the station had the program announcer suggest that viewers call or write if they wished to see the series again. With the resultant response, the award-winning film history of World War II naval operations, originally produced by NBC-TV and since syndicated, started its fourth run the following week. Bill Murphy Buick, Los Angeles car dealer, renewed sponsorship.

FOR ASPIRING DISC M.C.'S
ASPIRANTS to platter spinning on radio will serve as disc jockeys at WVNJ Newark every Monday morning as part of the course at Broadcasting Coaching Assoc., New York, according to the program's creator, WVNJ announcer WHAT Paterson, N. J., and director of the school. Students will work in teams, introducing new records and interviewing personalities.

MURROW-OPPENHEIMER FILM
FUND for the Republic Inc., New York, has announced that approximately 400 showings of the tv film interview between J. Robert Oppenheimer, scientist, and Edward R. Murrow, CBS news commentator, have taken place since February, when the organization began distribution of the film. A steady circulation of 78 prints with a total audience through March of 36,297 people also was reported. An additional 25 prints, owned by universities and foundations have accounted for another 400 showings in addition to those reported by the fund. The films are available only to non-profit groups. Most showings have been sponsored by colleges, high schools, scientific groups and civic organizations.

1,000 BASEBALL GAMES
ADVERTISING and agency executives turned out in numbers May 11 for a special luncheon hosted by WGN-TV Chicago in connection with the station's celebration of the 1,000th play-by-play baseball telecast in that city, with sports-caster Jack Brickhouse the honored guest. In addition, team executives from the Chicago Cubs and sportswriters were represented. The Chicago Tribune station exclusively has covered every daytime home game of the Cubs and the Chicago White Sox since April 20, 1948. WGN-TV claims Mr. Brickhouse is the nation's only sportscaster to handle the tv games of two major league clubs.

WNAC-TV AIRS HORSE RACE
WNAC-TV Boston featured the 19th running of the $10,000 Commonwealth Handicap, for three-year-olds and up, directly from the Suffolk Downs grass course May 21. Turfcaster Babe Rubenstein called the race and Les Smith aired color commentary for the sports event, sponsored by Carlberg Brewing Co. The race is run over a mile and one-sixteenth course.

KMEC BREAKFAST
"SELL the salesmen and you can sell the customer' was the theme behind a breakfast which KMEC Los Angeles hosted to the entire sales staff of the Felix Chevrolet Co. of that city which co-sponsors the Los Angeles Angels baseball broadcasts on the station. The program for the breakfast was arranged by Ed Stodel Adv., agency for Felix Chevrolet, and consisted of pep talks by Felix and KMEC executives, entertain ment by KMEC disc jockeys and a simulated baseball re-creation by Bob Kelley, station sports director. "We wanted the 40 salesmen of the Felix Chevrolet Co. to realize what their management . . . is doing to bring customers into their showrooms," Lloyd Sigmon, KMEC vice president and assistant general manager, said, "We think of KMEC as part of the sales staff of every advertiser represented on the station."

WKBW-AM TV OPEN HOUSE
WKBW-AM TV West Hartford, Conn., threw open its doors to visitors for nine hours during its show-and-sales open house. Thirteen merchants bought participations in two hour-long shows.

---

100 Horseless Carriages Commemorates WOOD's 30 YEARS
APPROXIMATELY 100 antique automobiles were assembled last Saturday in the parking lot of WOOD-AM-TV Grand Rapids, Mich., to participate in the first annual WOODland Tour, a 90-mile excursion commemorating WOOD's 30 years of broadcasting. The trip was staged in conjunction with the Grand Rapids chapter of the Veteran Motor Car Club of America. Col. Alexis de Sakhnoffsky, internationally known automotive style, was a guest of honor. He aided Bob Runyon, WOOD-TV news director, in providing radio-tv coverage of the event.

With the drivers and guests attired in goggle and duster outfits of the touring car era, the procession got underway with a live tv show from the parking lot. Then, complete with police escort, the caravan traveled to Holland, Mich., and Poll's Antique Car Museum where they were guests of Henry Poll for lunch and a tour of his museum. The group continued on to Grand Haven, Mich. WOOD-AM-TV held a dinner-dance for the motorists at the Bilt-Mar Hotel there, where the group spent the night. Sunday morning the procession traveled back to Grand Rapids and arrived at WOOD-TV studios for an hour-long show.

On the program drivers were interviewed every daytime home game of the Cubs and the Chicago White Sox since April 20, 1948. WGN-TV claims Mr. Brickhouse is the nation's only sportscaster to handle the tv games of two major league clubs.

WOR-AM General Manager Willard Schroeder (r) discusses this 1921 Dodge with Bob Maurer (l), president, Grand Rapids chapter of the Veteran Motor Car Club of America, and Bob Etheridge, chapter member.

and a 21-inch Westlinghouse tv set was awarded to the one with the most popular car. Other prizes were given for the auto traveling the longest distance, the oldest car on the tour, the best costumes and the driver who ran into the most hard luck. Two radio remotes were staged en route, one from the Poll Museum and the other from the Bilt-Mar.

---
MANAGEMENT of WOC-AM-TV Davenport, Iowa, feted timebuyers from the Chicago offices of major advertising agencies to a tour of the “Quint-City” area to give them an on-the-spot story of the rapidly growing market of Davenport and Bettendorf, Iowa, and Rock Island, Moline and East Moline, Ill.

Agency people were taken on a bus tour of the five cities, with nearly 250,000 population, and a special boat trip gave the visitors a view of the area from the Mississippi River. A highlight of the tour was a conducted tour of the U.S. Rock Island Arsenal, located on an island between Davenport and Rock Island. Market data and the programming stories of WOC-AM-TV rounded out the session.

Present on the tour were (1 to r): Ralph Evans, executive vice president, Tri-City (WOC) and Central Broadcasting (WOC-TV) companies; Mark Wodlinger, sales manager, WOC-AM-TV; W. F. Helms, WOC-TV sales department; Beverly Hicks, MacFarland, Aveyard & Co.; Pat Krall, Weiss & Geller Co. (rear); Ed Kasser, Ruthrauff & Ryan Inc.; Jack Severson, Mathisson Advertising Co.; Bud Trude, MacFarland, Aveyard & Co.; Gwen Dargell, Foote, Cone & Belding Inc.; Charles Fairall, WOC sales department; Virginia Russell, Russel M. Seeds Co.; Art Bagge, radio sales manager, Free & Peters Inc.; William Tynan, television sales manager, Free & Peters Inc.; Marilyn Bielefeldt, Earle Ludgin & Co.; John Cole, McCann-Erickson Inc.; Marian Reuter, Young & Rubicam Inc.; Bob Frank, WOC-AM-TV news director; Ruth Babick, Earle Ludgin & Co.; Esther Anderson, McCann-Erickson Inc.; Don Grass, Tatham-Laird Inc. (rear); Betty Armstrong, Grant, Schwenc & Baker; Helen Davis, Clinton E. Frank Inc.; Janice Wardman, WOC-AM-TV traffic manager; Roy Kirtland, Gordon Best Co.; Helen Stanley, Leo Burnett Co.; David S. Williams, Geoffrey Wade Adv. (rear); Paul Schlesinger, Tatham-Laird Inc. (rear); Ruth Leach, Young & Rubicam Inc.; Jack Ragel, Tatham-Laird Inc.; Bill Kennedy, J. Walter Thompson Co. (rear); Nic Wolf, Leo Burnett Co.; Joe Watson, J. Walter Thompson Co.; Fred Norman, Grant Advertising Inc.; Paul Arvidson, WOC-AM-TV technical director; Ernest C. Sanders, WOC-AM-TV resident manager; Irene Hess, Ruthrauff & Ryan Inc.; Wayne Blick, WOC-AM-TV comptroller; Kay Knight, Gordon Best Co.; Fred Reed, WOC-AM-TV assistant manager; Ray Guth, WOC-TV program director; Paul Ives, WOC-AM-TV promotion director, and Walter Fry, Rogers & Smith Co.

programs presented during the event and received booth space in the studios as well. The event, promoted only by the stations, drew 12,000 persons, they report.

EIGHT-WEEK NEWSCAST

AN EIGHT-week-long newscast was staged by Don Greene, news director of WSVS Crewe, Va., when he began reading the text of the Yalta Papers on March 21 and concluded May 13. Mr. Greene read a portion of the text as written in the New York Times each day on a 15-minute program. The purpose of the airings was to inform the public about the papers’ content because so many people were giving their own version as to what was contained. The programs received nationwide publicity, according to WSVS, with Mr. Greene receiving mail from 31 states. Mr. Greene was afraid many persons would find the material dry, the station says, but that this wasn’t the case. Not one adverse comment was received.

WPTZ (TV) PREVIEWS ELECTION

TV NEWSCAST on WPTZ (TV) Philadelphia served as the first sounding board for the local mayoralty race, with newspapers assigning reporters for complete coverage. Particular interest in the election is focused on Republican candidate Thacher Longstreth, vice president of Grane-Marston Inc., who is the first advertising agency executive to run for the office. At 1 a.m. last Thursday Mr. Longstreth met with his Democratic number, Richardson Dilworth, on WPTZ. The session was given full treatment along with pictures of the telecast by two of the city’s dailies. Mr. Longstreth made his first victory statement as Republican candidate over Taylor Grant’s news show at 11 p.m. the night before. Mr. Grant at that time set up the early morning meeting, inviting Mr. Dilworth and local newspapers.

MAN OF THE WORLD

COMMENTATOR with a cloak-and-dagger background is now airing news for KDKA Pittsburgh. He is Col. Jaroslav Sustar, former Czechoslovakian career soldier, diplomat and resistance leader, whose analyses of world events, based on personal knowledge of the people and leaders of many countries, are featured on the daily, 15-minute The News in Depth program. Born in the old Austro-Hungarian Empire, Col. Sustar served in the Czech Army until the German invasion in 1939 when he joined the underground. Arrested by the Nazis in 1940, he escaped to Yugoslavia and later went to Palestine and organized part of the Czech forces in exile. In 1941 he was in England working with Czech government leaders where his work included BBC broadcasts to the Czech underground. He also organized a paratrooper group which carried out sabotage and intelligence behind German lines in Czechoslovakia. This phase included the assassination of SS Reichsprotektor Reinhard Heydrich, “The Hangman,” whose death brought the Nazi execution of the Colonel’s entire family. Col. Sustar subsequently went to China as military attaché to Chiang Kai-shek, where he met Chou-En-Lai. In 1946 he was sent to Berlin as military representative of the Czech government on the Allied Control Commission but when the Reds took over his country later he "walked off the job" and eventually came to the U.S. with his wife and child. Since then he has worked for WTVU (TV) and WARM-TV Scranton, Pa.

‘VITAPIX AND GUILD’

BROCHURE, Vitapix and Guild, “a new idea in television,” has been released by the two associated companies. The booklet answers such questions as “What does Vitapix Corp. do?”, “What does Guild Films Co. do?”, “What are the Guild Films programs?”, and “What is this new idea in television?” A gallery of the executives of both firms is contained, as is a list of the subscribing stations. A section describing how to join the group is included.

CPRN AT THE RACES

HOLLYWOOD Park Saturday feature races during the present 11-week season is being offered by Columbia Pacific Radio Network from the Inglewood, Calif., racetrack, starting May 14. Announcer Hal Moore calls the actual
running, while sportscaster Tom Hanlon handles before-and-after race color features. Gene Webster directs.

'EDUCATIONAL INSTITUTE'

NEW YORK-owned WNYC presented its second annual "Educational Institute" last week, with more than 25 hours of special programming devoted to such topics as teacher shortage, overcrowded classrooms and desegregation. A feature dealing with mass media was presented Friday and consisted of a panel discussion by Judith Waller, director of public affairs for NBC's Central Div.; Charles F. Murphy, advertising manager of the Columbia Broadcasting System's Magazine Assn. of America; Paul C. Smith, president of Crowell-Collier Pub. Co.; Josette Frank, Child Study Assn. of America, and Theodore Waller, vice president of the Grolier Society and Encyclopedia Americana.

WHITE KING CONTEST

A 1,650 sq.-ft. four-bedroom home already constructed in Costa Mesa, Calif., and fully equipped with various appliances, is the first prize in a contest sponsored by White King Soap Co., Los Angeles, on two Don Lee-Intermountain Network radio programs. Additionally, White King will give away 120 Rheem-Wedge-wood gas ranges and clothes dryers during the six-week contest. Listeners to Queen for a Day and Frank Hemingway and the News, both sponsored by White King, are required to name the house and tell in a maximum of 20 words the reason for their choice.

L. A. CHURCH PROGRAMS

SOME 90 radio and television programs will be presented over Los Angeles area stations under the auspices of the Presbyterian Church in the U. S. A. during the period of its 107th General Assembly in Los Angeles May 15-29. The schedule was arranged by the Los Angeles Broadcasting Committee, under the chairmanship of the Rev. Clifton E. Moore, in cooperation with Clayton T. Griswold, executive director of the radio and tv department of the Presbyterian Church in the U. S. A.

REP. BOLTON OFFERS TAPE

A TAPED "handout" of a talk she made on WHK Cleveland about juvenile delinquency has been furnished to the Capitol Hill radio correspondents by Rep. Frances P. Bolton (R-Ohio). With the tape, Rep. Bolton sent a letter saying radio stations "might find some use for the program in whole or in part."

Presidential Precedent

TOMORROW (Tuesday) President Eisenhower addresses the opening session of the NARTB Convention in Washington. It is programmed as an “informal” talk. It is our guess that it will be something more than that, because the President speaks only when he has something to say.

The President talks well off-the-cuff. He has demonstrated this at his news conferences, now thrown open to broadcast coverage. He knows broadcasting not only as the chief of state. He knew how broadcasting was used by the sinister Hitler police state during his tenure as Supreme Allied Commander. He knows about domestic broadcasting through his younger brother, Dr. Milton S. Eisenhower, who has been a student of radio since his days as information director of the Dept. of Agriculture in the 20’s.

Tomorow a precedent will be set. It will mark the first personal appearance by a President of the United States before a broadcasters’ convention in the 33 years of organized broadcasting. Every future convention, it is to be hoped, will be addressed by the nation’s chief executive, just as the President each year addresses a meeting of one of the national newspaper conventions.

A Word to the Wise

THE spectacular success of a number of the larger entities in broadcasting whose capital stock is available for public subscription has attracted the attention of security underwriters to the point where trouble may be in the offing. The magic of television and the popularity of radio make an attractive package for the average investor, with the result that virtually all of the offerings thus far made have been snapped up and oversubscribed.

Some stock brokers see in this a chance for free-wheeling sales to smaller investors. They are encouraging station licensees (usually with both radio and tv) to package a minority of their holdings, offer it for public subscription, and still retain legal control and management. They argue that such public participation actually strengthens the lot of the broadcaster individually and of the field as a whole, by broadening the investment base. For the investor they point to earnings and expansion prospects.

On the surface, it would appear that the brokers are right on all counts. Certainly most of the companies whose stock is available are successful. RCA (NBC), CBS, Westinghouse, Storer, Meredith, to mention a few, have enjoyed sale of expansion records. All, however, are long-established and are diversified, in that they are either in other non-licensed pursuits, or have a multiplicity of markets in which they operate stations.

The danger lies in overselling the public, without adequate explanation of the vagaries of licensed operation in the broadcast field. A company having a television station in an existing single market may have more attractive earnings statement. But entry of another station in the market, or loss of a major network affiliation, could swiftly alter that financial picture.

The ordinary stock-selling prospectus would not divulge these negative possibilities. Nor could one expect the Securities & Exchange Commission to be familiar with them. The FCC presumably has no present responsibility in such situations, but members of the Commission are not unaware of the danger, fearing that the zeal to make a profit and pay a dividend might result in a deterioration of station service.

FCC Comr. Robert T. Bartley has repeatedly warned stations, both in his dissenting opinions and in his speeches, that broadcasting “is not a strictly business proposition.” He has said its basic asset “does not belong to it. Without the frequency on which it operates, it is a rag, a bone and a hank of hair; a breathless and lifeless thing.

A couple of weeks ago Mr. Bartley dissented from an FCC transfer action involving a public offering by a company operating an am-tv combination in a single market. He wanted a hearing “lest the rights of unknown minority stockholders interfere with the prime responsibility of the licensee to render a public service, as contrasted with the officers’ responsibility to public stockholders unfamiliar with the obligations of a broadcast licensee.”

Without reference to what goes on in broadcasting, J. Sinclair Armstrong, newly-designated chairman of the SEC, the other day cautioned that neither government regulation nor industry self-regulation in securities advertising is proving adequate to protect investors. He warned that prompt steps would have to be taken.

Sale of stock in broadcast enterprises is perfectly legal and proper. The important point, at this stage when owners are being solicited, is to make certain that the stock prospectus clearly sets forth the true and full facts, so that the public will know clearly what it is being offered. Otherwise, all broadcasting could be stigmatized, once unsuspecting speculative investors find themselves losers. Because stations are licensed, any serious public complaint could bring legislative restrictions that could impede the broadcasters’ future freedom of action.

Squirrels and Grease Paint

SEN. Richard L. Neuberger (D-Ore.) has been in the Senate a relatively short time, but already he has taken two firm stands on the side of the oppressed.

First, it will be recalled, he took up a defense of squirrels that were being heartlessly evicted from their ancestral homes on the White House putting green.

Second, and more recently, he has come out on behalf of the gullible television audience which he says is being duped by theatrical devices which forgetful and unattractive politicians use to enhance their memories and appearances before the tv camera. Sen. Neuberger has introduced a proposed amendment to the Communications Act to require it to be announced when a politician uses a TelePrompTer or makeup. That way, he believes, the viewer will find it easier to spot the ornamented phonies.

We are certainly in sympathy with anyone who sympathizes with the put-upon, whether squirrels or voters with television sets. But we suspect the senator has a greater cause in his first effort. Squirrels really cannot defend themselves effectively. A nut hurled by even the most powerful squirrel is not apt to create extensive damage.

But the voter—well, he’s got a vote, the weapon most feared by the politician. He also has sense enough to spot a phony through the greasepaint, without having to be told that Max Factor may have been among the advisors of a candidate.

The ‘American Plan’ Prevails

NEXT September an international paradox evaporates. Commercial television debuts in Great Britain. The significance of the event extends much farther than that tiny little island.

From the beginning of broadcasting on an international basis in the 1920s, it has always been “The British Plan” of tax-supported operation, versus the “American Plan” of free competitive enterprise. Initially, all of Europe followed the British Plan, because Britain then ruled Europe’s air waves, too.

Today the story is different. In almost every nation, except those under the heel of the Communists, there either is commercial broadcasting in some form, or plans to embark upon it. Thus, the “American Plan” has prevailed in all democratic nations.

Henceforth, the lexicon will change. It will be the “American Plan” versus the “Totalitarian Plan” until the latter collapses.

"When Chester doesn't like a show, he insists on getting his money back!"
HERE'S NEWS FOR YOU
on The Detroit NEWS Station!

... COMPLETE NEWS COVERAGE ... BY FULLTIME NEWSCASTERS ... COMPLETE NEWS ...

What makes a great radio newscast? WWJ has the answer: matchless newsgathering facilities, complete coverage, and real "pros" behind the mike.

That's why Detroit's number one news station is The Detroit News station. That's why WWJ's popular 15-minute newscasts offer so much extra value to advertising agencies and their clients.

Before you buy any radio in Detroit, check into WWJ's newscasts. Hollingbery will gladly give you a complete rundown on newscasters, ratings, and availabilities.

Here’s how Lee Little of KTUC in Tucson adds to his station’s revenue with Muzak

I thought you would be interested in learning how very pleased we are with the way our new Muzak franchise is working out.

You will recall that when you and I initially went over the projection of the development possibilities of Muzak in Tucson, I estimated that it would take us from 9 months to a year to reach the "break even point".

I am delighted to tell you that after only 4 months of operation we have been able to sign up a sufficient number of Muzak subscribers to get our franchise operation into the clear.

One of the contributing reasons for our success has been the facility with which we have been able to combine our radio and Muzak business. Our salesmen who sell radio time also sell Muzak. Our transmitter and studio engineers do double duty, they have complete charge of the tapes and do what little maintenance is necessary on the tape machines, and our KTUC bookkeeping department also handles billing on our Muzak accounts.

We have found a ready acceptance for Muzak in Tucson due to the general reputation of Muzak and your national advertising campaign.

If you should ever want to use my name as a reference to any broadcaster potentially interested in a Muzak franchise as a strong source of supplemental income, please feel perfectly free to do so.

Best regards.

Most sincerely,

Lee Little

As Lee Little’s letter points out, Muzak affords a most unusual opportunity to profitably supplement your station income. There are many Muzak functional background music prospects in your station’s coverage area—prospects like offices, banks, factories, restaurants, hotels, super markets, department stores and specialty shops—just to mention a few with whom your salesmen probably are already acquainted and are now calling on.

Of course, there is only one Muzak—and only one exclusive Muzak franchise available for each market. We’d be pleased to furnish you further details and discuss the availability of a Muzak franchise in your city.

MUZAK Corporation—221 Fourth Ave.—New York 3, N. Y. • ORchard 4-7400

As a convenience to broadcasters interested in finding out more about Muzak affiliations, Muzak has arranged for Hospitality Suite B411-415 at the Sheraton-Park Hotel during the N.A.R.T.B. Convention in Washington. We’d be pleased to see you there. An advance appointment is suggested.
