MEEKER TV, INC.

New York • Chicago • Los Angeles • San Francisco
POLITICAL PRICE TAG - NBC may sell its 1956 political convention and election coverage in one of three different ways. If single advertiser takes whole package, price will be $5 million. If two advertisers split it, their cost will be $2.75 million each. Philco, which sponsored in 1952, is expected to take one share if it's multi-sponsored (early story page 29). Package will include two hours on Sunday preceding elections—one for Democrats, called Dokey—and one for GOP, called Elephant—in addition to coverage of both nominating conventions and election returns.

WHILE IRON IS HOT - Revlon Products, New York, will put stock on public sale in next two weeks. Conversion to public stock company has been considered for some time, but tediousness of its television property, $64,000 Question, is believed to have been deciding factor in making public offer now.

MEANWHILE, Revlon has quietly appointed Norman, Craig & Kimmel, New York, as its agency for new product, Silcare, hand cream, with budget of around $1 million. Agency, which handles major portion of Revlon account, will place newest product on $64,000 Question.

JWT'S NEW MEDIA SETUP - Ruth Jones, timebuyer supervisor on Procter & Gamble account at Compton Adv., New York, is leaving to join J. Walter Thompson Co., New York, as a head group timebuyer, marking reorganization of JWT's entire media department. Details will be announced shortly, but new plan understood to include group associate media directors. Bert Mulligan, timebuyer at Compton, reportedly is in line to succeed Miss Jones at that agency as supervisor for P & P, although no replacement has been announced officially.

FLURRY of excitement last week over NBC letter to Westinghouse-owned WPTZ (TV) Philadelphia giving 90-day cancellation notice of affiliation was clarified Friday when it developed notice was more technical than otherwise. NBC contract with WPTZ has automatic renewal provisions and NBC wants to renegotiate some clauses. At first, thought was that cancellation notice had connection with NBC Westinghouse stations rule-swap, now pending at FCC, but this was vigorously denied by officials on both sides.

BLACK SHEEP - Although Westinghouse isn't too happy with NBC Radio's new Weekday expansion of Monitor sales and programming concept, one of its stations, WOWO Fort Wayne, is among those affiliates which have signed new affiliation contracts that embrace such new sales principles (also see INTERVIEW with NBC's Robert W. Sarnoff, page 35). Other NBC Radio affiliates in Westinghouse group reportedly have given cancellation notices but these are said to be technical moves to permit further negotiations on specific terms—a la notice to WPTZ (see above)—and to have been issued before new affiliation forms were distributed.

HIGH COMMAND of Radio Advertising Bureau may embrace two rather than single top executive in event Kevin Sweeney, incumbent president, decides to leave to enter private station ownership or accept offer from one of networks (it's understood both NBC and CBS have talked with him). Mr. Sweeney, who has been offered attractive new five-year contract, may decide to remain and, if he does, will probably be hustled by executive vice president. If he leaves, selection committee proposes to appoint two executives as president and executive vice president, respectively.

QUICK SERVICE PLAN - To spell out how FCC can immediately serve public in number of major markets by expediting action on pending cases thus providing additional urgently needed TV outlets, Robert H. Hinckley, ABC's Washington vice president, will submit "feasibility list" to FCC this week. He will follow up by approach of ABC President Robert E. Kithner, that there should be no arbitrary limitation of stations and that evolution of TV may see four or five networks rather than three (story page 51).

FEARS that NARTB President Harold E. Fellows had suffered relapse last week when he returned to Boston hospital were quickly dispelled when it was learned he was having routine checkup after attack of virus pneumonia. Mr. Fellows will be unable to attend this week's regional meeting at Columbus, but staff associates hope he will be able to attend last two meetings at Omaha and Dallas.

SAFE SEPARATION - Some surprise has been expressed regarding prospective assignment of Hartford's Ch. 3 to Providence as this would conflict with 60-mile separation required for adjacent channels. Ch. 2 is assigned to Boston, only 46 miles from Providence. However, proposed assignment for Hartford's Ch. 3 is Westerly, R. I., more than 35 miles southeast of Providence, well over 60 miles from Boston. There was no attempt to disguise fact that those favoring moving Ch. 3 to Westerly are, in fact, aiming to use it for Providence.

AUTOMATION PROGRESS - While technical data on performance of 50 kw non-directional and directional radio transmitters in remote control tests are being kept under cover until experiments are complete, it's known that results surpass fondest hopes of engineers.
Living dangerously . . . in New Orleans

You can do a lot of living in New Orleans' lot of past . . . but in radio it's dangerous. Not could be. Is

Because until as recently as two years ago the heretofore showed a radio station named WTIX smack on the bottom of an eleven station market.

Then Mid-Continent took over and ten months later WTIX was New Orleans' number 1-rated station.

It's been at or near the top ever since.

A drastic upset in time-buying habits has followed this upheaval in the New Orleans listening habit. How old is your New Orleans story? That old? Call Adam J. Young, Jr., or WTIX General Manager Fred Berthelson.
RCA to Seek $100 Million
In First Public Financing

PLANS to offer $100 million of 25-year convertible subordinated debentures to RCA common stockholders in November being announced today by Brig. Gen. David Saroff, RCA board chairman. Offering is subject to market conditions and other factors.

According to RCA, debentures will comprise only outstanding senior obligation except for $150 million of promissory notes 1970-77 sold to insurance companies. Subscription rights will be mailed to common stockholders about middle of November with debentures offered in ratio of $100 principal amount for each 14 shares of common stock held of record.

RCA said offering represents its first public financing. Registration statement covering proposed offering was filed Friday with Securities & Exchange Commission. Lehman Bros. and Lazard Freres & Co. will manage nationwide group of investment bankers to underwrite offering.

Some of proceeds will be for working capital needed for expanded business volume, with part of proceeds, supplemented by other RCA funds, to be used for property additions and improvements as well as for future "expansion and development" in electronics research, manufacturing and services. RCA said 80% of its business this year will be in products and services introduced during past 10 years; that sales of products and services in first nine months of 1955 reached $740,662,000, for 12% increase over comparable period last year (1954 was largest volume of RCA business) and highest in any like period in RCA's history. This year's sales volume is expected to go over $1 billion, RCA said.

Color's Potential Cited
By NBC's Eiges

COLOR TV's unusual opportunities for public relations profession and its "perfection" as medium in that field should encourage public relations people to start planning color tv use now, Sydney H. Eiges, NBC vice president in charge of promotion, said.

Speaking before second annual Middle Atlantic Public Relations Conference, Washington, D. C., sponsored by Public Relations Society of America, Mr. Eiges said tv, with color added, "takes on an even greater role in the communications picture." He cited public relations possibilities of color documentaries, as travel films, studies of industries and trades, as well as fashion, home decoration and gardening programs.

Mr. Eiges said NBC programs more than 40 hours live color monthly with color signals now available in areas covering more than 90% of all U. S. tv homes.

RCA cites Color Demand

RCA reported Friday that survey of its distributors and dealers throughout country indicated "unprecedented demand for color tv receivers." C. P. Baxter, general manager, RCA Victor television division, said demand for sets continues with possibility of color receivers in short supply "during months ahead.

Mr. Baxter said survey showed that during World Series period, 68 RCA color sets were sold in Cincinnati; 169 in Philadelphia; 181 in Los Angeles. He attributed demand for color sets to expanded color tv programming and RCA's stepped up advertising campaign.

NARTB Region 5 Agenda
Announced; Meet Set Nov. 7-9

AGENDA was released Friday for NARTB Region 5 Conference at Fort Des Moines Hotel, Des Moines, Monday-Wednesday, Nov. 7-9. Region includes Districts 10 and 11, representing broadcasters from eastern S. D., Iowa, Minn., Mo., Neb., and N. D. Speakers are:

Tuesday (Association Day): Joseph M. Sirk and Vincent T. Walsalwski, NARTB publicity-information and government relations managers, respectively; Harold Fellows, NARTB president, FCC Comm. Rosel H. Hyde. Wednesday (Television Day): Thad H. Brown Jr., NARTB tv vice president; Floyd Kalber, news director, KMTV (TV) Omaha; W. D. Rogers Jr., KDUB-TV Lubbock, Tex.; Mr. Tower.

It's Mutual

PROOF that people are people with common likes wherever they are came last week in first Nielsen report on British tv audiences, revealing that among families whose sets are equipped to receive new commercial service as well as bbc programs, top ranked show was I Love Lucy, with 94% share of audience. Second was Sunday Night at the Palladium (all-star variety show) with 93%. Other commercial tv programs, in competition with bbc fare, varied from Lucy's 94% high to low of 11% of audience. Homes with old unconverted sets can receive only bbc programs, but Nielsen reports this number steadily dwindling.

Business Briefly

Hudnut to SSB & B

Hudnut Sales Co., N. Y., appoints Sullivan, Stauffer, Colwell & Bayne, N. Y., to handle advertising for its cosmetic division, including Dullary treatment, makeup and hair products and Richard Hudnut light and bright hair preparations. Media plans as yet undetermined.

Network Saturation

Studebaker-Packard Corp., South Bend, reportedly has purchased $100,000 one-week "saturation" campaign on NBC Radio (Nov. 20-26) on behalf of 1956 Studebaker. Placed through Benton & Bowles, N. Y., order calls for 78 commercial announcements on such NBC Radio shows as Junior, One Man Family, Feud, tv show.

Introductory Campaign

National Biscuit Co., N. Y., placing five-week tv introductory campaign for its Shredded Wheat Jr., effective Nov. 10, in 35 southwest markets, using live participations in children's shows, and starting Nov. 15 in 30 southeastern markets for Wheat and Rice Honey's, using participations in women's and children's shows. Kenyon & Eckhardt, N. Y., is agency.

More for Matinee

Latest advertisers reported to have signed for participations on NBC-TV's NBC Matinee Theatre (Mon.-Fri., 3-4 p.m., EST), which will be launched today (Monday) are Block Drug Co. and Sylvania Electric Corp., pushing "pre-Christmas" promotional items. Special will be mailed to members.

Telegraph for B & B

Western Union Telegraph Co. appoints Benton & Bowles, N. Y., as its advertising agency for radio and television advertising, effective Nov. 1, and for other media effective Jan. 1.

Studio Sales

Studio Films Inc. has sold its musical transcription library to six tv stations, and Showtime musical comedy series to KDO-TV Boise, Idaho, for Sexty's (jewelers); KLAS-TV Las Vegas for Lamle Bread; WHUM-TV Reading, Pa., and KEYT-TV Santa Barbara, Calif.

CBS-TV Gets Basketball

SCHEDULE of 15 basketball games featuring Big Ten colleges, plus two National Invitation Tournament contests and one appearance by Harlem Globetrotters, will be on CBS-TV (Sat., 3-4:15 p.m. EST), starting Dec. 3 and ending March 4. NIT appearance is said by network to be first time in history of tournament that games will be telecast on national tv network.

Pittsburgh Ch. 11 Grant Stayed by Appeals Court

GRANT of ch. 11 Pittsburgh to WWSW Inc. stayed Friday by U. S. Court of Appeals in Washington. Court said stay remains in effect until five days after FCC acts on petition for reconsideration filed last summer by ch. 16 WENS (TV) Pittsburgh. Stay was argued Thursday (see page 83) and was second request for stay filed by Pittsburgh uhf station. WENS filed application to change to ch. 11 after hearing between WWSW and WJAS, both Pittsburgh, had begun. Grant came after competitors agreed to merge.

Commission returned WENS application on ground filing was too late. WENS appealed this action, asked for stay, but was denied. WENS filed protest against grant but FCC said protest procedure was erroneous since grant came after hearing. Stay issued Friday based on appeal by WENS from this FCC ruling. Friday’s court order means WWWSW must cease construction for period of stay.

More Allocations Shuffling Asked by FCC Petitioners

MORE requests for tv allocations changes involving deintermixture, partial deintermixture and one drop-in handed FCC Friday.

Most controversial request was that of ch. 26 WTSK-TV Knoxville, Tenn., which asked Commission to deintermix that city. Move would involve shifting to Knoxville of ch. 7 from Spartanburg, S. C., which is presently assigned to Spartan Radiocasting Co. Spartanburg ch. 7 station is not yet on air because of hearing on proposed transmitter site move. In addition to WTSK-TV, Knoxville has one uhf station operating (ch. 6 WATE (TV)).

WTSK-TV asked FCC to take ch. 8 to Brunswick. W. Glenn Thomas Sr., WGBR owner, urged Commission to adopt plan of ch. 30 WOBS-TV Jacksonville, Fla., creating partial deintermixture in Jacksonville by shifting ch. 7 to Savannah, Ga., thus making it possible to add ch. 8 to Brunswick and meet separation requirements.

At Lubbock, Tex., Texas Technological College requested FCC to change commercial designation of ch. 5 there to make it available for educational use.

N. Y. State Appoints Broadcast Advisory Group

FORMATION of 11-member New York Dept. of Commerce radio-television advisory committee announced today (Mon.) by state commerce commissioner Edward T. Dickenson. Committee is headed by Michael R. Hanna, WHCU Ithaca general manager and president of New York State Assn. of Radio and TV Broadcasters. Others on committee are: Hamilton Shea, WRCA-AM-TV New York; Robert Hanna, WRGB (TV) and WGY Schenectady; George Dunham, WBNF-AM-TV Binghamton; L. J. Bernard, WOR-AM-TV Buffalo; Simon Goldman, WJTN Jamestown; Nathan Strauss, WMCA New York; Carl Ward, WCBS New York; Morris Novik, WOW New York; Glover Delaney, WHEC-AM-TV Rochester, and E. R. Vadeboncoeur, WSYR-AM-TV Syracuse.

Radio Sales

Three Radio Sales Filed With Commission

CHANGES in ownership of three radio stations involving total considerations of $160,000 were filed with FCC Friday.

Biggest sale involved transfer of control of KFOX Long Beach, Calif., by F. A. Feticsch to W. T. McDonald for $75,000. Mr. Feticsch sells 45% interest to Mr. McDonald, increasing latter’s holding to 90%. KFOX operates on 1280 kc with 1 kw.

WTIK Durham, N. C., is being sold by WTIX Inc. to Hugh Holder for $5,000 plus assumption of $69,000 in obligations. Mr. Holder is one-third owner of WMYB Myrtle Beach, S. C. James L. Howe is WTKT president. WTIX operates on 1310 kc, 1 kw day and 500 w night.

In Monterey, Calif., Frederick A. Gwynn is selling 75% interest in KMBY to B. P. Timothy, sales manager, for $10,000. Mr. Gwynn will retain 25% interest. KMBY operates on 1240 kc, with 250 w.

TIME GUIDE

Upcoming TV Events

Nov. 6: Indiana Radio-TV Newsman Semi-Annual Meeting, WIRE Studios, Indianapolis.

UPCOMING

October 31, 1955 • Page 9

NEWLOW-Power TV station on ch. 9 at Ponce, Puerto Rico, is sought by American Colonial Broadcasting Corp., FCC announced Friday. Station would operate with 226 w visual and 413 w aural and will be equipped with Adler Communications Labs’ complete small tv station package costing $15,937.

Total construction cost estimated at $18,937, first year operating cost at $45,000 and first year revenue at $90,000. American Colonial, owned by Ralph P. Perry, is licensee of WKVM San Juan and applicant for new ch. 11 tv station at Caguas, P. R.

Another Merger Talked

EXPLORATORY discussions looking toward merger of Stewart-Warner Corp. (electronic, automotive equipment). Chicago, and McGraw Electric Co. (toasters, heaters, electric utility goods) today, Ill., reported underway Friday. Purpose of merger would be to effect diversification, economy of operation and financial strength. Firms described as of relatively same size, with S-W recording sales of nearly $93 million and McGraw $134 million last year.

PEOPLE

DONALD D. BURB, 33-year-old vice president in charge of sales, Hazel Bishop Inc., N. Y., for past three years, elected president of cosmetic concern, RAYMOND SPECTOR, chairman, announced. Mr. Spector is also head of Raymond Spector agency, which services Hazel Bishop account. He also announced that sales and earnings for current quarter which ends this month are running well ahead of any previous quarter in history of company.

Hazel Bishop will spend approximately $3 million in radio and television for coming year. Firm sponsors This Is Your Life on NBC-TV, tv spot campaign and has just purchased daytime segments on CBS Radio (see story, page 62).

NEWMAN F. MCEVOY, vice president and director of media, Cunningham & Walsh, N. Y., elected to agency’s board of directors. Mr. McEvoy has been with C&W since 1928.

JACK BARD, director of media and media research, Weiss & Geller Inc., Chicago, appointed vice president.

JOHN E. SURRICK, formerly assistant to president, WAKR-AM-TV Akron, named local sales manager of WPEN Philadelphia. Before joining Akron stations he was vice president and general manager of WFBR Baltimore and before that with WFIL Philadelphia.

LEO A. JYLHA, formerly with WBCK Battle Creek and WJIM Lansing, appointed general manager of WBCM Bay City, Mich. CHARLES A. ANTHONY, former program director of station, named WICM commercial manager, and ROBERT BENKELMAN, former staffer, promoted to program director.

PERRY B. FRANK JR., formerly with DuMont tv spot sales, named ABC-TV sales department account executive. He reports to WILLIAM C. GILLOGLY, recently appointed ABC-TV eastern sales manager.

RICHARD C. DAWSON, formerly with Paul H. Raymer Inc., station representatives, named salesman, NBC-TV.

Ratings, improperly used, can cause disaster. Properly employed, they can be invaluable to the telecaster, the advertiser, and, ultimately, to the viewer himself. When based on modern sampling techniques, today’s ratings reach a standard of accuracy which more than fulfills the industry’s needs.

Ratings are a guide... a means to an end and not the end itself. They are a highly sensitive audience measurement to be used side-by-side with experience, good judgment, and an awareness of all pertinent programming and marketing facts.

There’s a good deal more to ratings than meets the casual eye. Quite often, important facts are hidden behind seemingly simple figures, and specialized knowledge is required to interpret their real meaning.

In the interest of better understanding of audience research, ARB offers some basic rules which will help assure more intelligent and profitable use of today’s audience measurement figures:

- Use a reliable service and know the company behind it.
- Never base a firm decision on a single rating if it can possibly be avoided. Any one sample can fluctuate, unusual conditions may occur, and any program can have temporary audience gain or loss. Two or three reports will bring stability to most rating pictures.
- Know what is meant by standard deviation. Do not consider any rating difference meaningful unless it exceeds the plus-or-minus confidence range. For example a rating of 8.0 produced by a 400 home sample must vary nearly three points before the change should be considered significant.
- Study audience composition as well as the rating. A 5.0 rating with 50% of the viewers men will deliver a total of many more men than a 15.0 rating where only 10% of the viewers are men.
- When using more than one service, remember that different techniques measure different levels of viewing. Also, surveys not measuring the same weeks or the same geographic areas should not be expected to show the same result.
Florida Citrus Commission and its agency, Benton & Bowles, Inc., are Sold on Spot as a basic advertising medium.

To move Florida fruit, processed or fresh, the Florida Citrus Commission puts more than 50% of its advertising budget into Spot Television. The use of day and night Spot in seasonal drives provides them with flexibility, economy and impact in selected mass audience markets.

Spot Television and Spot Radio can sell for you, too . . . whatever your product, whatever your desired audience group.
An NBC Spot Sales Representative will show you how Spot can deliver your sales messages in twelve major markets, accounting for 45% of the nation's retail sales.

**SOLD ON SPOT**

Wooten, Chairman, Florida Citrus Commission.

representing radio stations:

- WMAQ Chicago, KNBC San Francisco, and St. Louis, WBC Washington, D.C., WYAN Cleveland, KOMO Seattle, WAVY Louisville, KZBF Honolulu, WBCA New York and the NBC Western Radio Network

representing television stations:

AN HOUR'S WORTH of Edward R. Murrow's "See It Now" stacked up twice as good as 30 minutes worth. TV's acknowledged kingpin of documentaries is still at the top of the heap.

Last Wednesday night the first of a "spectacular" type See It Now debuted. It was both timely and timeless. "The Great American Lottery"—the selection of the vice president of the U.S.—was a thinly-veiled editorial. While carefully avoiding any mention of the incumbent, Mr. Murrow pointed out that the only thing that stood between the vice presidency and the presidency was a heartbeat.

Mr. Murrow's starting point was the Constitution—when Benjamin Franklin commented that the veep's title should be "Your Superfluous Excellency." He followed the course of the nation's No. 2 job from Tyler's precedent of being "president in fact" through Harry Truman's succeeding Roosevelt, former vice presidents Mr. Truman, Alvin Barkley and Henry Wallace all appeared on the show.

Viewers won't be disappointed with the new Murrow show. They will regret that it won't be there every week.

Production costs: Approximately $150,000
Sponsored by Maybelline through Gordon Best Agency; CBS Records and CBS-Columbia through Ted Bates on CBS-TV, Wed, Oct. 26, 9-10 p.m. EDT.

**NEW SOUNDS FOR YOU**

WHAT EMERGED from radio speakers last Wednesday, inaugural night of ABC's New Sounds for You, was a solid 130 minutes of talk, talk, talk. The Buick commercials (Buick sponsors four 5-minute segments of the program) with their musical jingles became delightful oases in the desert of speech.

Five is the dominant number of New Sounds for You, which comprises five half-hours, mostly made up of five 5-minute segments plus a 5-minute newscast. There was news, with the day's "biggest sensation" (Marguerite Piazza's crack about Hollywood being "the only place where the men dress better than the women") and "where movie stars appear in sloppy clothes" and Shelby Winters' angry reply, an inside-Washington story of GOP political strategy, a "trans-Atlantic exclusive" interview with the British secret agent who investigated Hitler's death-or-escape in 1945 and decided definitely that Hitler had died on April 30 of that year, a "personality story" (interview with Gov. James Byrnes) and "News and You," an interview with a heart specialist on how to live with your heart. Then came a five-minute newscast.

Next was "The World Anew," including visits to the final run of the last steam engine on the Long Island Railroad, Washington's Occidental Restaurant, the Maryknnoll Seminary near Ossining, N. Y., NAM's travelling "Americana" exhibit and the New Haven trial of the new Rogers and Hammerstein musical, "Pipe Dream." News, then "Your Better Tomorrow"—philosophy by a university professor, advice on avoiding in-law trouble by a family relations expert, on how to live by 90-year-old Georgiana Carhart, on how to succeed by Dore Schary and on how to cash in on your hobbies by the author of a newspaper column on that subject. News.

Then, "Sound Mirror," with "Sounds of Today" (a police prow car adventure), "Sounds of No Importance" (an auto running over man-hole covers in several cities), "Sounds of Yesterday" (a Scottish mausoleum with a fantastic echo) and "Soundings" (an appeal for letters telling what the public wants from ABC's new evening programming). News and, finally, "Off-beat," with humor by Ernie Kovacs, "Futurescopes" (detailed account of the reasons for Winchester, Va., having the nation's lowest juvenile delinquency rate), "Soloscope" (a sentimental monologue by David Rote) and "People in the News" (an interview with E.L.M. Burns, head of the U.N. Palestine truce team). "Off-beat" lived up to its name by having only three segments in 25 minutes instead of the usual five (the news interview taking the final five minutes of the half-hour).

Each segment was well conceived, written and presented. Each, by itself, was good radio. But it required attentive listening to turn its sounds into sense and two and a half hours of it added up to entirely too much talk.

Sponsored on the segmentation plan—Buick Div. of General Motors through Kidner Agency sponsored four 5-minute segments of Oct. 26 show only.
Produced by: ABC Radio network; executive producer: Drex Hines; assis. to executive producer: Nancy Mazze; production manager: Bill MacCallum; news and special events editor: Fred Sheehan; program supervisors: Events of the Day—Lawrence Dorn; The World and You—Jim Collignon; Your Better Tomorrow—Beth Hollinger; Soundmirror—Richard Rendely; Offbeat—Bob Clarkson.

**TOGETHER WITH MUSIC**

THE 90 MINUTES between 9:30 and 11 on the evening of Oct. 22 were perhaps the shortest of the year, contrary to Noel Coward's and Mary Martin's vocal admonition that "90 Minutes is a Long, Long Time.

CBS-TV's Ford Star Jubilee that night did something at which lesser spirits might have quailed. It took two memorable stars and turned them loose on their own—no contrived plot, no involved production numbers, not even one other actor to share the spotlight. Just raw talent doing the numbers they do best. They wowed 'em.

This was television, but the producer wasn't carried away with zooming in and out and about and achieving effects. He had a clear, sensible number, Miss Martin's singing "I Get a Kick Out of You," the camera remained on her face, letting her eyes and expressions and pure personality carry the piece, sans gestures. Similar treatment was given another show stopper, Mr. Coward's "Mad Dogs and Englishmen."

Worth mentioning: the terrific pace the two set for themselves that night began to tell at the end of the show. On Mr. Coward, anyway. In the closing duets his voice was about out of gas, but he made it gamely.

Above all, this was a personal triumph for the stars. All others concerned with the show deserve the highest commendation for letting them do it so well.

Production costs: Approximately $250,000
Sponsored by Ford Division, Ford Motor Co. through J. Walter Thompson Co. on CBS-TV, Sat., Oct. 22, 9:30-11 p.m.
Stars: Mary Martin and Noel Coward.
Director: Noel Coward; producers: a Lane Hamilton-Charles Russell production; Richard Lewine, executive producer for CBS-TV; Jerome Shaw, director for CBS-TV; music conductor: Toots Camarata; set designer: Robert Markel.
ALICE IN WONDERLAND

NBC-TV, the Hallmark Greeting Card Co., and producer-host Maurice Evans got together and came up with a happy combination of electronic wizardry, costuming, acting and singing that made one of the most colorful 90-minute specials of the season. As the initial offering on the once-a-month Hallmark Hall of Fame, "Alice In Wonderland" was a well thought-out and executed show.

Yet, either because of or despite all the obvious hard work put into this production, much of the inherent simplicity of the Lewis Carroll stories of fun, nonsense (or just plain lunacy, if you wish), was sorely wanting. Instead of a Wonderland inhabited by strange, lovable creatures, it was a Paradise Lost of tv gimmicks, starring not 14-year-old British import Gillian Barber, but the video sleight of hand of the technicians.

The NBC-TV engineering staff must have had a wonderful time. One minute, Miss Barber was four foot six, the next she was down to three inches. And before you could wish anyone an unhappy birthday, she walked through opalescent surfaces talked to fading Cheshire cats and listened rapturously to Tweedledum and Tweedledee talk about Burr Tillstrom's puppet oysters. The cast likewise was a happy lot. Not only did they seem to be having a marvelous time as characters, but we're sure that they did as performers, too.

Ignoring for a minute the impracticality of transposing the world of Alice to the television set, where time and space limitations do not allow for much imagery, it was a cleverly-done, tuneful and adult show. (Let's face it—"Alice In Wonderland" never was a truly juvenile story.)

Production costs: Approximately $140,000.

Sponsored by: Hallmark Card Co. through Foote, Cone & Belding, Chicago on NBC-TV, every fourth Sun., 4:30 p.m. EST.

Cast: Gillian Barber (Alice), Martyn Green (White Rabbit), Bobby Clark (Duchess), J Pat O'Malley (Gryphon), Burr Tillstrom (Mock Turtle), Elsa Lanchester (Red Queen), Eva Le Gallienne (White Queen), Reginald Gardiner (White Knight), Alice Pearce (Dormouse), Hiran Shere (King of Hearts), Karl Swenon (Humpty-Dumpty), Noel Leslie (Caterpillar), Micheal Enserro (Fish Footman), Gilbert Mack (Frog Footman), Bernard Tone (Cook), Tan Martin (Tweedledum), Don McNeill (Tweedledee), Robert Cooper (March Hare), Mort Marshall (Mad Hatter), Skedge Miller (Gardener), Tom Bolsky (Knave of Hearts), Ronald Long (Queen of Hearts), Don Somers (Red King).

Producer: Maurice Evans; NBC executive producer: Jack Rayel; assoc. producer: Mildred Freed Alberg; director: George Schaefer; Adaptation & Editor: Florida Friebus (after stage play by Miss Friebus and Eva Le Gallienne) and S. Mark Smith; scenery: Jan Scott; costumes: Noel Taylor; puppeteer: Burr Tillstrom; staging & choreography: Tony Charnoff; score: Richard Addinsell.

LOVE STORY

TAKE one part soap opera, add a true romance (of the lumber throtty variety), blend well with a quiz show and a singing m.c. and the result is CBS-TV's latest creation for that segment of the populace which thrives on vicarious living.

Love Story is old romantic wine with a new label. With Jack Smith as the singer-host, daily guest couples are prompted to reveal the story of their love and have a chance to win cash and other prizes in a quiz that follows.

With a backdrop of hearts and a honeymoon cottage, Mr. Smith serenades the visitors with their favorite songs. To those who are not receptive to such a sentimental setting and who crave difficult quiz questions and large monetary returns, Love Story will appease their appetites only in a small way (compared to present day standards of the big money shows). But the program does seem an improvement over Welcome Travelers, which it replaces.

Production costs: Approximately $14,000.

Sponsored by Procter & Gamble Co. through Bert Kel & Bowles on CBS-TV, Mon.-Fri., 1:30-2 p.m., EST.

Stars: Jack Smith.

Executive producer: Bob Quigley; producer: Art Stark; director: Freddie Baltholomew; music conductor: Paul Taubman.

SCREEN DIRECTORS PLAYHOUSE

ENTERTAINING in a light sort of way. That's the verdict on "A Midsummer Daydream" by William Saroyan, initial offering of Screen Directors Playhouse.

The Saroyan touch was pleasantly evident in the story about a New Yorker who ran away to the Santa Monica, Calif., marriage license bureau looking for a wife, and ended up getting the clerk. Don Hammer stole the show as the young man who chokes up when it comes to talking to a girl about marriage. Keenan Wynn added several light moments as the over-confident rival.

Production costs: Approximately $35,000.

Sponsored by Eastern Kodak Co., through J Walter Thompson on NBC-TV Wed., 8-8:30 p.m. EDT.

Stars: Kim Hunter, Don Hammer and Keenan Wynn.

"Midsummer Daydream" by William Saroyan.

CONQUEST

HISTORY in a highly-palatable form was presented last week as the first of the once-a-month Conquest series took the air.

The first "conquest" with which the series dealt was man's conquering of the air. His powerful strides forward in aviation during a short 50 years were well dramatized with stills and film clips from the turn of the century.

Continuity between the show and the commercials was maintained by Longines-Wittnauer watches by pointing up changes in timekeeping during the period of aviation's rise.

Production costs: Approximately $30,000.

Sponsored by Longines-Wittnauer Watch Co. through Victor A. Bennett on CBS-TV, Sat., Oct. 22, 11 p.m.-12 midnight.

Narrators: Westbrook Van Voorhis and CBS newsman Larry LeSueur.

Host: Conrad Nagel.

Music: Longines Symphonette & Choralliers conducted by Eugene Lowell, producer-director: Alan Caron.

A TEXTBOOK for the novice in radio news, a handbook for the active radio newman and a reference work for the radio news desk, this little volume is a down-to-earth how-to-do-it book, describing step-by-step the way in which news for radio is collected, written, edited and broadcast. The author, active in radio since 1937, is currently news editor of KING Seattle.
Twin Win
EDITOR:
... Two Buick dealers, rivals incidentally, have used WDCLX profusely during the recent Buick sales contest. Vickers Motor Co. is in Huntington, Tenn., some 26 miles away, and Johnson Brothers Motor Co. is located in this city. Both of the cities are less than 5,000 in population. Both of these motor companies notified us this week that they had been winners of the $10,000 trip to Hawaii in the Buick promotion. This was possible because they were both in different districts. They were winners because they topped their districts in sales. We can't claim that we were the exclusive medium for promoting these firms and their products, but we do claim that we were the only medium that both of these firms used.

Anyone top it?
Neal B. Bunn, Gen. Mgr.
WDCLX, Lexington, Tenn.

Reynolds' 'Frontier'
EDITOR:
Having been a cover to cover reader of B&T for many years and marveled at its editorial accuracy, I was astonished to find the Reynolds Metals Co.'s Frontier program had been credited to Chrysler in your television lineup of the Oct. 10 issue. I am sure that Buchanan & Co., New York, and Clinton E. Frank, Inc. of Chicago would be shocked to learn that they lost this billing to McCann-Erickson.

I checked this matter with NBC-TV and they assured me that we are still the sponsor of Frontier. At any rate, the Reynolds Metals Co. is still getting the bills.

Reynolds Metals Co., Louisville, Ky.

[EDITOR'S NOTE: B-F regrets that the coining of a slipped slug and a sleepy eye resulted in typographically separating Reynolds Metals and "Frontier"]

NCAB Cruise Nov. 10-16
EDITOR:
In B&T's Oct. 17 issue under Upcoming the listing for Oct. 29-Nov. 3 N. C. Assn. of Broadcasters Bermuda cruise is incorrect. This was a proposed date of last spring but the correct date is Nov. 10-16. M. S. Stockholm leaves Wilmington, N. C., at 11:30 a.m. Nov. 10, returns at 8 a.m. Nov. 16.

William S. Page, Pres.
N.C. Assn. of Broadcasters
WELS, Kinston, N. C.

National Change or None
EDITOR:
I would like to express my opinion on the uhf-vhf snarl as just a television set owner. It should be recognized that the set owner is the one that is going to be affected the most from any decision on the uhf-vhf arguments...

Just as it is realized that uhf can furnish a satisfactory television service, within limits, one should realize that uhf service is not the equal of vhf service. To deny a community its fair share of vhf service will violate our communication laws. Vhf applicants and operators will not find it difficult to prove this point in Federal courts, if necessary.

There has got to be a completely national change or no change to settle the present allocation arguments. Otherwise, there would be no end to the legal protests.

I agree wholeheartedly, there must be an attempt at a solution very soon. I favor FCC Commissioner [Robert E.] Lee's plan. It expresses the most thorough understanding of all the problems and seems to be the most practical.

Dewey W. Peace Jr., M.D.
Corpus Christi, Tex.

[EDITOR'S NOTE: Comr. Robert E. Lee favors acquiring additional vhf frequencies from govern­ment military services for TV and at the same time lowering mileage separation factors to permit more vhf channels to be "dropped" in.]

Look Who's Laughing
EDITOR:
We greatly enjoyed the cartoon on the editorial page of B&T Sept. 19, and would be glad if you could give us permission to reprint it in our publication, The American Issue.

Clayton M. Wallace, Exec. Dir.
The National Temperance League Inc.
Washington, D. C.

[EDITOR'S NOTE: Permission granted.]

About Time
EDITOR:
I could not help getting up on my desk and yelling "burrah" when I finished reading your editorial "Time Is of the Essence" in the Sept. 12 B&T issue. If there is anywhere this time change nonsense is intolerable and ridiculous in our business, it is in the Rocky Mountain area.

Instead of going through the agonies twice a year, we now have it do three times a year and the public peev current right now, as we are trying to make sense out of schedules, is at its highest peak. I hope every organization within the radio and television industries, or who have anything to do with them, will raise their voices against what is so obviously an absurd and costly situation. It should be a Federal problem and one solved by the Federal government, because of its great effect on interstate commerce. The government did make a little sense during the war and there is no reason why it cannot do it again.

Walter L. Dennis, Dir. of Slg.
Telerad Inc., Pueblo, Colo.

Yearbook Kudos
EDITOR:
Congratulations on your latest colossus—

We here at IRE are in a position to know something about the tremendous amount of work involved in compiling special issues and directories. Your 1955-56 issue is certainly an outstanding job.

George W. Bailey, Exec. Sec.
Institute of Radio Engineers, New York

HERE ARE THE \textbf{facts} ABOUT FOR TELEVISION

\textbf{WHAT IT IS.} The General Electric Film Center is a \textit{complete} equipment package for your station projection room. It operates on the Scanner principle and consists of a 16 mm Continuous Motion Scanner; a 2x2 Dual Slide Scanner; and a Scanner Pickup. The entire equipment package is \textit{newly designed}, specifically for color or monochrome operation—or both.

\textbf{THE G-E SCANNER SYSTEM.} G.E.’s Film Center, using the Scanner principle, features better picture quality, a simpler operating method, and, lower cost for operation and maintenance. No other type system offered today can match these high G.E. requirements. The G-E Scanner system gives your station the benefits of photo-electric pickup tubes which are simple, mass-produced, inexpensive—with a \textit{record} of dependable performance. Sweep circuits or sync signals are not needed. Color registration, smear, or shading problems \textit{do not exist}.

\textbf{WHAT IT DOES FOR YOUR STATION.} Your station can replace old equipment with a modern, G-E-designed package which will pay its way on monochrome service \textit{now}—be on stand-by for color when you want it. With the G-E Film Center you can install basic units, block-build additional equipment as your needs and expansion plans dictate. Quality film and slide operations are assured, control monitoring is reduced. The overall operation is simplified and less costly than others. You owe it to the station to see this G-E system.

\begin{itemize}
\item \textbf{G-E Scanner Pickup}—serves the same function as the film camera now used with B&W projectors. Dichroic mirrors break the light from the projectors into primary colors—photo-electric pickup cells convert it to electric signals.
\item \textbf{Film threading} of the Eastman Continuous Motion 16 mm Projector is fast and easy. Light compensating mirrors, behind window, are out of the focal plane—eliminating dust problem—and rotate at 770 rpm.
\item \textbf{2x2 Dual Slide Scanner}—handles up to 16 paper, metal, or cloth-bound slides with fast positive action change. Outside knobs provide quick focus control. Slide change controls can be at the scanner or at the console.
\end{itemize}
THE G-E COLOR FILM CENTER
BROADCASTERS

The Completely New G-E Color Film Center.
A New System—A New Continuous Motion Projector.
For Monochrome Service NOW—Color When You Want It!

G.E.'s Scanner System coupled with the Eastman Continuous Motion Projector result in exceptionally high light transmission for the brightest, cleanest, sharpest color television pictures.

Many times the light output of other CM optical systems make it possible to obtain the best pictures from your "problem" films or slides—regardless of age or density.

Automatic film shrinkage compensation—virtually guarantees the same quality of projection time after time regardless of film shrinkage.

Double-duty—available for monochrome or color projection.

Block-Build. Start with 2x2 Dual Slide Scanner. Add one Continuous Motion Projector for limited film programming. Add a second projector, when needed, for monochrome or color film facilities.

Separate scanner tubes in each projector—assure reduced lost air-time in the event of tube failure.

Reduced maintenance and operating costs. Accessibility, simplicity of circuits, and minimum adjustments during operation cut manpower costs.

Masking amplifier actually can make the final picture better than original film.

FREE BOOKLET, SPECIFICATIONS!

Progress Is Our Most Important Product

GENERAL ELECTRIC
GENEVA, nestled in the fastness of the Swiss Alps, is in the news these days. Eyes of the world, looking hopefully for land-based peace, are turned toward this quiet, beautiful lake city as the foreign ministers of the great powers convene to implement President Eisenhower's crusade to abolish war in this grim atomic era.

Few Americans know, however, that Geneva is the telecommunication capital of the world, and that an eminent American engineer who played a large part in its evolution this week observes his 10th anniversary as an international communicator in that city. On Nov. 1, 1945, Gerald C. (Jerry) Gross took leave of absence from his post as assistant chief engineer in charge of broadcasting at the FCC to become vice director and head of the radio division of the International Telecommunication Union. In 1947, when ITU formally was acknowledged as the specialized agency in telecommunication by the United Nations, Mr. Gross became assistant secretary general of ITU.

Why an ITU? Without such a coordinating organization there would be chaos on the air. The Union's job is to maintain and extend international cooperation for the improvement and rational use of telecommunication, to promote the development of technical facilities and their most efficient operation and to harmonize the actions of nations in the attainment of these common ends. There are 95 nations who hold membership in and contribute to its support—including the USSR and its satellites.

ITU regulates radio frequencies as well as telephone and telegraph. Its job is to standardize methods so that all nations follow the same rules at the same time and that apparatus in each country meets the same technical specifications. ITU was established nearly 100 years ago—in 1865—as the International Telegraph Union, to work out rules for international telegraph. Later, it evolved arrangements for telephone, and is now responsible for "wireless" communications. Since then, its functions have expanded to cover the full range of the communications spectrum.

When Jerry Gross was "borrowed" by ITU on Nov. 1, 1945, the organization had 30 employees. He was the first non-European. The record-keeping was archaic, a hangover of the quill-pen era. ITU now has 200 employees of all nationalities. French is the official language, but most of the employees are multi-lingual. House in Palais Wilson, where the League of Nations was born in 1919, ITU now has modern offset printing equipment, multiliths and punch-card business machinery. It turns out a dozen publications, including the official 850-page Yearbook of World Broadcasting Station Annual List, the ponderous 1538-page Costal-Ship-Station List and the monthly Telecommunication Journal.

It was logical that Mr. Gross should be drafted for the ITU post at a time when the horizons of telecommunication were expanding swiftly. He had participated in every important international conference beginning with the Washington Radiotelegraph Conference in 1927. He had been educated in Europe, and was an accomplished linguist. He had been with the old Federal Radio Commission in the hard-rock broadcast allocation days of those eventful 20s, and had worked alongside such well-known engineers as Dellinger, Jolliffe, Craven and Jett.

And he was a deft hand at diplomacy.

A native of New York City (Dec. 27, 1903) Gerald Connon Gross went to elementary school in France for five years, and graduated from White Plains (N.Y.) High. In his junior year, at 16, he evinced interest in "wireless" and got his ham license, which he retains with the U.S. call WGG. He also is the only American amateur licensed in Geneva.

Jerry Gross graduated from Haverford College (Pa.) with a B.S. in electrical engineering (Phi Beta Kappa) in 1926. While at college he helped design, construct and operate one of the first college broadcast stations in the country. During summers, and also between his third and fourth years, he worked as a commercial brass-pounder in the merchant marine.

Upon graduation, Mr. Gross joined the Bureau of Standards, first on development of binaural aviation radio beacons and later in charge of standard frequency transmissions. He joined the RFC in 1928—as its second year—as a staff engineer, and served successively with it and the FCC as chief of the engineering department's international division, chief of common carrier, and chief of broadcasting.

Mr. Gross' FCC service was interrupted by World War II, when as a Naval Reserve officer, he was called to active duty (Jan. 1943-Dec. 1945) winding up as a commander, after serving in European and Mediterranean waters, and the Far Eastern area. He was promoted to captain in the reserve this year.

Mrs. Gross is the former Susan Brundage of Oak Park, Ill. There are six children and three grandchildren. Aside from hisham activities, Jerry Gross is an accomplished photographer, and also delves into astronautics, holding membership in the American Rocket Society, with which his former FCC colleague, Washington communications attorney Andrew Haley, is prominently identified as past president.

Mr. Gross is a senior member of IRE (chairman, Washington Section, 1939) and of the American Institute of Electrical Engineers. He holds membership in the Army and Navy Country Club and the Metropolitan Club of Washington, and the Inter-Allied Club of Paris.

WITH
APPEAL!

You can sell more sponsors with this show because it builds a big, all-family audience with —

★ Original songs recorded exclusively for RCA Thesaurus by Frank Luther... comic songs, ballads, folk numbers, holiday songs, sacred songs, educational tunes.

★ Limericks, riddles, jokes and character dialogues to tickle any youngster's — or oldster's — funny bones.

★ Sparkling Safety, Health and Public Service Jingles... many of them endorsed by the National Safety Council.

★ Special Birthday Announcements.

★ Musical accompaniment by the Tony Mottola Group.

You can sell more sponsors with this show because sponsors get these big EXTRAS —

★ Frank Luther will record special announcements wherein he will identify himself with a sponsor's product or service.

★ Recorded commercial jingles by Frank Luther provide a "built-in" extra for participation buyers in local sponsor categories such as ice cream manufacturers, supermarkets and department stores, drug stores, furniture stores, insurance companies and banks, laundries, frozen custard stores, shoe stores, bakeries, milk and butter companies.

★ Free sales promotion kit to help you and your sponsors merchandise the show.

The most versatile transcription radio show ever —

All voice tracks and musical portions have been created and recorded for complete flexibility. A half-hour program format is provided weekly, plus sample five, fifteen and sixty-minute formats, so you can custom-tailor any length show your sponsors need... for as many times per week as they want!

FREE OF ANY EXTRA COST TO ALL RCA THESAURUS SUBSCRIBERS

This uniquely different children's program shows again how RCA Thesaurus is first with the biggest, finest, most salable programming and time-selling aids:

26 different, easy-to-sell programs

Fully recorded open end shows

"Shop-At-The-Store" merchandising promotion

2,000 commercial singing jingles

Complete weekly continuity service

Sponsor-selling recorded sell-effects

Voice-tracks, brochures and 52 new releases every month.

For complete information about The Frank Luther Fun Show and RCA Thesaurus, write, wire or call your nearest RCA Recorded Program Services office, Dept. B-10, today!

FRANK LUTHER,
AMERICA'S FOREMOST EDUCATOR
THROUGH ENTERTAINMENT

This unique radio show is the culmination of 25 years of entertainment "know-how" by the one and only Frank Luther. As a composer and recording artist, Frank Luther is known and loved in millions of homes. As a story-teller and entertainer, he offers a very special kind of folk-appeal that makes this show simple and universal enough for children, warm and appealing to adults.

KENNETH McALLISTER

on all accounts

LEGEND has it that all agency vice presidents are supposed to have “started in the mailroom, wear three-buttoned, single-breasted gray flannel suits, live in suburbia and shoot golf in the low seventies.” Except for the fact that he lives in Darien, Conn., Kenneth McAllister, a vice president and account supervisor at Benton & Bowles, New York, thoroughly belies the myth.

A quiet, soft-spoken man of 39, Mr. McAllister did not begin to “rise through the agency ranks” until just about five years ago, when he left Columbia Records Inc., as director of advertising and sales promotion, in order to join B&B as the account executive in charge of radio-TV for Crosley, then an agency account. Joining Sullivan, Stauffer, Colwell & Bayles that year as vice president, Ken McAllister took over as account executive on American Tobacco Co.’s Pall Mall cigarettes, remaining with SSC&B until September of this year when he returned to Benton & Bowles.

Mr. McAllister’s admitted shyness is a handy shield, both for himself and his clients. In 1947, as coordinator of CRI’s hush-hush L-P record project, “Operation Roulette,” Mr. McAllister learned firsthand that silence is truly golden, for Roulette caught the major competition with their tone-arms completely down.

For a young man, Mr. McAllister has come up the long way fast since leaving Rutgers in 1939 armed with a B. S. in mechanical engineering and a Phi Beta Kappa key. First he joined General Electric’s Test Team, within three months shifted into the company’s publicity department where, among other things, he wrote and announced a farm program over WOY Schenectady. Then, when GE took back operational control of the outlet from NBC in 1941, Ken McAllister joined the station staff and soon was upped to sales promotion manager.

The day after Pearl Harbor, Mr. McAllister left GE to go with Columbia as manager of the popular records division. Then, when “to my shock, I found the Army could do without me altogether, I joined the Navy.” In 1944, he shipped to the Pacific on an amphibious LSM as a L.T. (jg), returning home in 1946 to rejoin CRI, first as merchandising manager, then as coordinator of the L-P project, and lastly, as advertising sales promotion director.

As we said: Kenneth McAllister didn’t start in the mailroom, doesn’t wear gray-flannel suits—prefers dark blue, if flannel—doesn’t play golf, but likes to listen to Bach with his wife, the former Betty Proudfoot, and romp about the Connecticut countryside with his two boys, ages five and eight and a half.

WRATHER, LOEB, BUCKLEY BUY WNEW FOR RECORD $4 MILLION

- New York independent brings highest radio price ever
- Station value had doubled since last transfer in 1954
- Sale marks new confidence in radio's profit potential

SALE OF WNEW New York for more than $4 million—highest price ever paid for a radio station—was announced last week.

A syndicate headed by industrialist and radio-tv station owner Jack Wrather and including investment banker John L. Loeb and WNEW president and part owner Richard D. Buckley signed to pay $4,076,887.67 for all of the stock in the licensee corporation, subject to the customary FCC approval.

Authorities reported that they hope to have FCC’s consent in time to complete the transfer before the first of 1956. They said Mr. Buckley is expected to continue as president and that no changes are planned in either the policies or personnel of the 50 kw station, recognized as one of the nation’s top independents.

The $4 million-plus transaction followed by almost a year and a half the purchase of WNEW by Mr. Buckley and associates for slightly more than $2 million.

The selling group includes Mr. Buckley, who owns 25% of the voting stock of WNEW Broadcasting Inc., and will have a similar percentage under the new ownership; a group including board chairman Harry R. Playford, Ed C. Wright, and H. W. Holland and sons Elliott W. and William Langston Holland who own 50% of the voting shares; another group including the estate of the late Horace L. Lohnes, Washington attorney, and his daughter Roberts Lee Lohnes, who owns the remaining 25% of the voting stock, and a group of 10 WNEW employees who own all of the non-voting stock.

The new ownership will consist of J. D. (Jack) Wrather Jr. with 37.5% of the stock, John L. Loeb and associates with 37.5%, and Mr. Buckley with 25%.

Mr. Wrather, youthful Texas and Los Angeles industrialist whose fortune was founded in oil, currently has widespread holdings which include, in the broadcast field, part ownership of KFMB-AM-TV San Diego, a grant for a Boston uhf television station which is slated to commence operations in 1956, and the Lone Ranger and all radio, tv, merchandising, comic book and comic strip rights to this property.

He also has an application pending for a tv channel in Corpus Christi and formerly was part owner of KTEN (TV) Tulsa.

Mr. Loeb is senior partner of the Carl M. Loeb, Rhoads Co., New York investment bankers. Some of his banking associates are represented in the ownership of Allen B. Du Mont Labs Inc., who do not include any who are associates with him in the WNEW purchase, authorities said.

The record-setting sale was negotiating by Allen Kander & Co., radio and tv brokers. Paul A. O’Bryan of the Washington law firm of Dow, Lohnes & Albertson represented WNEW throughout the negotiations. Monte Livingston, general counsel for Mr. Wrather, represented the Wrathers and Loeb group.

WNEW, which operates on 1130 kc, has long been regarded as one of the nation's leading — and most successful — radio stations and has pioneered many program innovations including the music and news format of Mr. Buckley and his associates acquired it from William S. Cherry (WPRO Providence, R. I.) and associates for $2.1 million in April 1954. Mr. Cherry had acquired control in 1949 from long-time owner Arde Bulova. When Mr. Buckley’s group took over they also bought out Bernice Judis and Ira Herbert, for many years the operating chiefs of the New York independent. The Herberts (Miss Judis is Mrs. Herbert) owned and had options to buy less than 20%.

Officials reported last week that under Mr. Buckley’s direction, the station’s sales figures for 1955 are 32% higher than for 1953. It also was reported that program realignments undertaken under Mr. Buckley had produced rating increases ranging as high as 29% to 125% for specific shows, with Nielsen figures showing total listening to WNEW up 70% during this period.

Mr. Livingston called attention to Mr. Wrather’s “reversal of the usual course in radio and television today” in that he is expanding from television into radio.

President Buckley said that in the transfer he is “reaffirming” the trend he took “for radio only” when he went from the presidency of John Blair & Co., of the Blair radio and tv station representation organizations, into the ownership and presidency of WNEW.

Mr. Wrather entered tv with the purchase of KOTV for $2 million-plus, Later, in association with Mrs. Helen Alvarez, manager and part owner of KOTV, he acquired KFMB-AM-TV for $3 million. The Tulsa property was sold to Mr. J. H. Winney & Co. for $4 million but Mr. Wrather remains on the board of directors.

The WNEW employee group selling the WNEW non-voting stock in the current transaction consists of John Jaeger, vice president and assistant manager; Melvin J. Stack, treasurer; Mary McKenna, director of research and sales development; John V. B. Sullivan, Kermit Moss, John Beaton, Richard H. Gerkin, and John Geddes, salesmen; Alexander Trilling, who is in charge of the musical library, and Max Weiner, chief engineer.

THE YEAR RADIO CAME BACK

IT MAY BE that 1955 will go down as the year radio came back. Back to life, anyway, if not back to its pre-tv billings peaks. All signs point that way—new programming, new sales techniques, and new awareness that radio has something to sell, after all.

Now, in a market dominated by seven tvs, an independent has commanded the largest radio station sales price in history. WBT had spotlighted the tremendous commercial success of WNEW in its “Radio Resurgence” issue Sept. 19 (page 168), commenting that the successful music and news formula had “paid off in millions.” Another article in that same issue told how “The Going Price Is Going Up” at WNEW. For further assurance of this trend, read the last five paragraphs of this box.

The independent stations are not the only ones making news. Networks, although undoubtedly facing an uphill climb, are digging in to the task of regaining lost ground. Elsewhere in this issue B&I reports that story: there’s an interview with Executive Vice President Robert W. Sarnecki of NBC, beginning on page 35, and a condensed speech by President Robert E. Kintner of ABC beginning on page 51.

B&I commends them to its readers as interesting reading.

Prices and How They’ve Grown

GOING price for an stations has been on the rise in recent years. Up to the beginning of this year, am station prices were modest. But beginning in January, they began to inch upward. It was in that month that WPAT Paterson, N. J., 5 kw on 930 kc, was sold by the Passaic Daily News to Emanuel Dettner for $300,000.

Last summer, WHIM Providence, R. I., 1 kw day on 1110 kc, was sold by Miss John Kluge, Harris Thompson, Robert T. Engle and C. George Taylor to Frank Miller Jr. for $469,000.

And this fall, WITR Troy, N. Y., 5 kw on 980 kc, was sold by Harry C. Wilder and associates to Robert T. Engle, C. George Taylor, Kenneth M. Cooper and Mowry Long for $500,000.

This is not to say that substantial sums were not spent in the purchase of an stations before this year. The largest for a long time was the 1954 sale of WINS New York, 50 kw on 1010 kc, by Crosley Broadcasting Co. to J. Elroy McCaw and John D. Keating for $450,000.

Note: all are independents.
360 LATEST advertising developments, ideas and practices come into focus in New York today (Monday) where the Assn. of National Advertisers is holding its 46th annual meeting. The sessions which start today and wind up with a feature luncheon Wednesday, are being held at the Hotel Plaza.

Advertising productivity is the keynote that will be struck at all the workshop and panel discussions planned for delegates.

Top advertising executives on the program include among others: Theodore S. Repplier, president of the Advertising Council; Stuart Peabody, assistant vice president of the Borden Co. and chairman of the council; William A. Hart, president of Advertising Research Foundation; Fred Manchee, executive vice president and treasurer of BBDO and also chairman of the AARF; Sherwood Dodge, vice president of Follin, Cone & Belding; Robert Kintner, president of ABC; T. J. O'Neill, executive director of sales and advertising, Ford Motor Co.; George E. Mosley, vice president in charge of advertising and sales promotion of Seagram Distillers Co.; Robert C. Myers, director of market development, U. S. Steel Corp.; James E. Robison, president of Indian Head Mills Inc.; Russell H. Colley, consultant to ANA's Advertising Management Committee; R. G. Holbrook, board chairman, Compton Adv. Inc.; C. S. (Cliff) Samuelson, advertising manager of General Mills' Grocery Products Div.; John B. McLaughlin, director of sales and advertising, Kraft Foods Co., and W. B. (Pete) Potter, director of advertising, Eastman Kodak Co.

In addition to these speakers, various advertising presentations will be held and a panel of top representatives of the various media fields will join Mr. Kintner, who represents radio-tv at the session, in describing what each medium is doing to help make advertising more productive.

The program is split up into various phases of the main theme: "How to Make Advertising More Productive." Monday morning will be devoted to panels and talks on just this general subject with a special workshop session in the afternoon taking up case histories of how—from the experiences of the particular firm—management practices have proved effective in the advertising operation.

Tuesday sessions start with the creative marketing phase, move into the media stories and then explore additional case histories.

From these meetings, the convention moves into the problem of coordinating sales and advertising and delves into such matters as: search tools, the Justice Dept.'s complaint against advertising and the public relations of advertising. The feature luncheon Wednesday is devoted to the history of advertising, and Mr. Repplier presenting the benefits of a six-month, round-the-world study on which he reported to President Eisenhower.

Complete agenda for the convention follows:

Monday, Oct. 31—Morning
Grand Ballroom Foyer
8:30 a.m.—Registration and coffee hour.

Grand Ballroom

Theme for session—"Making Your Advertising More Productive in Today's Business Climate."

Part I
Presiding—Donald S. Frost, vice president in charge of advertising, Bristol-Myers Products Div., Bristol-Myers Co. 9:45 a.m.—"The New Age of Marketing: Full Speed Ahead."

A presentation prepared especially for this meeting by Fortune editors and introduced by Ralph Delahaye Paine Jr., publisher.

10:25 a.m.—"How Many Dollars for Advertising?"—Albert W. Frey, professor of marketing, Amos Tuck School of Business Administration, Dartmouth U.

10:50 a.m.—Announcements and intermission.

Part II
Presiding—Edward G. Gerbic, vice president, Johnson & Johnson; chairman, ANA board of directors.

11:00 a.m.—"Your Business Is Our Business."

A presentation by the ANA board of directors.

Monday, Oct. 31—Afternoon

Grand Ballroom

Theme for session—"How better advertising management can make your advertising more productive."

11:40 a.m.—Special workshop session.

"Long-term Budgeting for Long-term Marketing Planning"—W. B. Potter, director of advertising, Eastman Kodak Co.

"How Can Management Help Put All Marketing Functions Including Advertising Into the Same Harness?"—John B. McLaughlin, director of sales and advertising, Kraft Foods Co.

The Places To Be

LUNCHEON and dinner schedule at the ANA meeting at New York's Hotel Plaza this Monday through Wednesday: Monday—luncheon, special get together, ANA business session and annual elections; Tuesday—informal luncheon, Terrace Room, 1 p.m. (cocktails at 12:30 p.m.); ANA annual reception-dinner and entertainment (provided by CBS Radio and CBS-TV)—reception, Terrace Room, 6:30 p.m., and dinner-entertainment, the Ballroom, 7:30 p.m. (Entertainers to include: Johnny Carson, Jim Jeffries [Mr. Texas], Lilian Briggs, new recording star, song stylist Julie Wilson and Hank Sylvern and his CBS-TV Orchestra plus a “surprise act.”); Wednesday—feature luncheon, Grand Ballroom, 12:45 p.m., Theodore S. Repplier, president of the Advertising Council on "The Idea War—Are We Losing It?" (cocktails at Terrace Room, 12:15 p.m.).

"How Good a Job Is Our Agency Doing for Us?"—C. S. Samuelson, advertising manager, Grocery Products Div., General Mills Inc.

4:00 p.m.—Question and answer period.

4:30 p.m.—"Organizing for Greater Advertising Productivity"—Russell H. Colley, consultant to the ANA Advertising Management Committee.

Tuesday, Nov. 1—Morning

Grand Ballroom Foyer
8:30 a.m.—Registration for agency and media guests.

Grand Ballroom

Theme for session—"The Forces of Advertising—Keystone to 'Creative Marketing.'"

Presiding—E. W. Ebel, vice president, marketing, General Foods Corp.

Part I
9:30 a.m.—"The Challenge to America"—A dramatization by the joint ANA-AAA Committee for Economic Understanding.

Part II
Media's creative marketing contribution to more productive advertising.

10:05 a.m.—For newspapers.

Harold S. Barnes, director, Bureau of Advertising, American Newspaper Publishers Assn.

10:30 a.m.—For outdoor advertising.

Warner Moore, president, Outdoor Adv. Inc.

10:55 a.m.—Announcements and intermission.

11:05 a.m.—For television and radio.

Robert E. Kintner, president, ABC.

11:30 a.m.—For magazines and business papers.

A special panel under the auspices of the Magazine Publishers Assn.

Moderator: Frederick Nelson, chief editorial writer, The Saturday Evening Post.

Panel members: Stanley High, senior editor, Reader's Digest; Robert Elder, vice president of the Flax Corp. and prominent marketing economist; Frank Baxter, professor, University of Southern California.

Tuesday, Nov. 1—Afternoon

Terrace Room

1:00 p.m.—Luncheon.

Grand Ballroom

Actual case histories by leading companies showing how creative planning, advertising and marketing are paying off.

Presiding—Ralph Winslow, vice president, manager of marketing, Koppers Co.

2:30 p.m.—"Better Planning and Better Promotion Mean More Profit"—James E. Robison, president, Indian Head Mills Inc., with Peter G. Scottes, vice president and general sales manager; Charles O. Wood, vice president, marketing, and M. John O'Donaghue, director of advertising and public relations, also Indian Head Mills.

3:00 p.m.—"Don't Sell the Product—Sell the Market"—Robert C. Myers, director, market development, United States Steel Corp.

3:30 p.m.—A fifteen-minute intermission.

3:45 p.m.—"How Seagrams Made 'The President's Dream' Come True"—George E. Mosley, vice president in charge of advertising and sales promotion, Seagram Distillers Co.

Wednesday, Nov. 2—Morning

Grand Ballroom

Better coordination of sales and advertising—

BROADCASTING • TELECASTING
better research tools—the Justice Dept.'s complaint against advertising—the public relations of advertising.

Presiding—Howard A. Marple, director of public relations, Monsanto Chemical Co.

10:35 a.m.—Announcements and intermission.

10:45 a.m.—"What Is the Justice Dept.'s Complaint Against Advertising"—Gilbert H. Weil, ANA general counsel.

Wednesday, Nov. 2—Afternoon

Terrace Room
12:15 p.m.—Cocktails a la carte

Grand Ballroom
12:45 p.m.—Feature ANA luncheon.

L&M Is First to Sponsor
Full 'PEP' Lineup on NBC-TV

LIGGETT & MYERS TOBACCO Co., New York, last week became the first major tv advertiser to order the full 44-station lineup under NBC-TV's new Program Extension Plan [CLOSED CIRCUIT, B&T, Oct. 24].

George Frey, NBC-TV vice president in charge of sales, announced Wednesday that effective Nov. 3, the tobacco firm, through Cunningham & Walsh, will buy an additional optional station line-up of 28 NBC-TV "PEP" stations for Dragnet (Thurs, 9:30 p.m. EST). Added to L & M's present 16-station lineup, the additional 28 make the company the first advertiser to order the entire NBC group of 44 stations.

Purpose of "PEP" is to help smaller market stations gain more network revenue by making these stations available to advertisers at a savings in cost and without any reduction in station rates.

Gen. Foods Buys Circus Show

GENERAL FOODS Corp., White Plains, N.Y., will sponsor the first telecast of the Ringling Brothers and Barnum & Bailey Circus Christmas Party from Sarasota, Fla., over CBS-TV, Fri., Dec. 16, from 8-9 p.m. (EST). Benton & Bowles Inc., New York, is the agency.

THE POLITICAL DOLLAR

PARTIES AND ADVERTISERS WILL SPEND TWICE AS MUCH FOR RADIO-TV IN 1956 CAMPAIGN

The 1956 national political campaigns will draw at least twice as many millions into radio and television as they did the last time 'round in 1952.

A doubling of the Republicans' and Demo- crats' radio-television expenditures loomed as one of the clearest prospects to emerge last week from a survey of the certainties, probabilities, and baffling uncertainties that already are engaging the attention of broadcasters and political parties alike.

If anything appeared more certain, it was the obvious conclusion that television and radio would be relied upon more heavily than all other media combined, save possibly the traditional hustings and stump.

The Republicans, who estimated they split their advertising budget approximately 90-10 in favor of the broadcast media in 1952, were not expected to go back on the first winning combination they had had in 20 years. The Democrats, who put a healthy budget into broadcasting but nevertheless used newspapers much more heavily than the Republicans, were expected to raise the tv-radio share.

For the networks, already deep into their planning for the most complicated and expensive political campaign coverage yet, there was no assurance that they would face the day after election with much better financial results than in 1952—largely in the red. But they were planning.

Even less susceptible to prediction was the political revenue that would fall, along with the headaches, to individual stations, regional hookups, and such allied television entities as film production companies, whose combined take in 1952 was known to be great but almost impossible to compute.

If the national television and radio networks sell their respective packages for coverage of the two nominating conventions and election night returns at their current offering prices, the sales will come to a total in the vicinity of $16 million.

Thus far—still almost 10 months in advance of the nominating conventions—CBS is the only one with a sponsor on the line. Westinghouse Electric Corp., which sponsored the CBS political package in 1952, signed up in mid-summer for similar 1956 coverage on CBS-TV and CBS Radio at an expenditure estimated at $5 million [B&T, Aug. 1]. This package includes special pre-opening convention programs and weekly progress reports for eight weeks between conventions and elections, as well as coverage of the conventions and election returns.

NBC, whose 1952 campaign coverage was sponsored by Philco Corp., reportedly is offering its 1956 radio-television election night package for approximately $5.5 million. As yet it has signed no sponsor. It's understood Philco has indicated it will not underwrite the entire package, but has not ruled out participating in sponsorship with other advertisers if the coverage becomes available on that basis.

ABC has put a price tag of approximately $4,350,000 on sponsorship of its convention and election night coverage and reportedly is awaiting the decision of Admiral Corp., its 1952 sponsor, as to whether it will pick up its option for 1956. Admiral, in turn, is said to be awaiting the return of President Ross Siragusa from a European trip, probably within about a week.

Mutual's asking price for radio coverage has not been definitely set and authorities said it probably would not be known for another fortnight or so. Other sources speculated that the price might be $1 million to $1.5 million. In 1952 Mutual had a tie-in with Farm Journal and Pathfinder and made the coverage available for sale by affiliates on a local co-op basis.

Not included in these potential package revenues are time sales for political broadcasts which in 1952, according to authoritative

October 31, 1955 • Page 29
figures, exceeded $2 million in the case of the GOP national organization and over $1.1 million in the case of the Democrats [B&T, Nov. 10, 1952]. CBS has estimated that its total radio and television time sales during the 1952 campaign (aside from the Westinghouse package) ran somewhat short of $1 million, and that its political coverage during that campaign resulted in a loss "running into seven figures" [B&T]. Unfortunately, with it estimated at the time that the three radio-television network organizations took a combined loss ranging up to $2.5 million or more on their respective deals with Philco, Admiral and Westinghouse.

Precise campaign plans for 1956 will not be developed until the two major parties have designated their respective advertising agencies. A number including Biow-Belfo-Toigo, William Esty & Co., Bozell & Jacobs, Norman, Craig & Kimmel, Benton & Bowles, as well as the Joseph Katz Co., which is nominally the Democratic agency although inactive on the account since the 1954 elections—are being considered by the Democrats and the Republicans. For the Republicans, it is assumed that BBDO and Kimberly Inc., having ridden a winning streak in 1952, will be renominated for the 1956 campaign.

Network planning for time sale as well as for news coverage already has started. NBC's Executive Vice President Robert W. Sarnoff announced last week the creation of a special Political Broadcast Unit—said to be the first of its kind in radio-television history—which will operate under NBC Treasurer Joseph A. McDonald to facilitate the purchase of political broadcast time on NBC. Mr. Sarnoff said the unit will begin functioning immediately to help meet the problems of clearing and settling up political broadcasts and at the same time assure our NBC broadcasters of maximum cooperation in maintaining a minimum of interference with their normal operations.

Some months ago NBC's Financial Vice President Joseph V. Heffernan told members of the Senate Subcommittee on Privileges & Elections that NBC-TV proposed to make both five-minute and one-minute time periods available for sale during the 1956 campaign and also proposed to reserve 30-minute blocks of regular commercial time for sale for political broadcasts in the fall of 1956. Mr. Heffernan emphasized, however, that these proposals could be most effective only if the network received advance cooperation from national committees in working out specific blocks of time.

Lack of such advance arrangement with all networks would make it necessary for the parties to pre-empt whatever commercial periods they want, at considerable expense. Mr. Heffernan, for instance, has estimated that during the 1952 campaign pre-emption costs in connection with political broadcasts on NBC-TV alone amounted to about $175,000.

CBS has had staff Vice President Richard S. Salant working in coordination with CBS Radio President Arthur Hull Hayes and CBS-TV President J. L. Van Volkenburg—on the political time problem with the two major parties. During the summer Mr. Salant asked both the Democratic and Republican organizations to submit proposed schedules, so that network planning might proceed in order to minimize the pre-emption and related problems, and several weeks ago received a proposed Republican schedule which is currently under study.

Several factors stimulate the belief that political reliance upon radio and television at all campaign levels will be greater than ever. Aside from the growth of television and the enthusiasm which the 1952 campaign stirred up for the effective spread of the broadcast media, especially television, the strongest stimulus stems from the possibility that President Eisenhower will take himself out of the race. If he does not run, political observers point out, the Republicans presumably will feel a need for a considerably heavier campaign than they had intended to wage, with Gen. Eisenhower as the standard bearer, between nominations and elections. A more intensive campaign by the Republicans would leave Democrats little choice but to match or try to exceed the opposition. A decision by President Eisenhower to retire also would open the field for more widespread pre-convention skimming among Republican would-be candidates who would make no run for it at all if the President should seek a second term. This obviously would mean mix of heavy television and radio purchases by the GOP presidential aspirants.

Among the Democrats there is more certainty of what some of the immediate future holds—a nomination race among several candidates, with 1952 nominee Adlai Stevenson apparently the current front-runner, according to latest calculations. Mr. Stevenson has not yet declared his candidacy but is expected to do so about mid-November. Others deemed likely prospects include Gov. Averell Harriman of New York and Sen. Estes Kefauver of Tennessee.

While the networks stand to take in an estimated $16 million from their convention and election night coverage alone—not counting the sale of time for campaign speeches and the like—they know for a fact that their expenses will be high. Under certain circumstances the probable total network cost of covering the two conventions at about $5 million for production alone—not including time costs. This approximate figure is derived from estimates that the three radio-television network organizations will spend around $1.5 million apiece while Mutual's radio outlay will come to about $500,000.

The chronological closeness and geographical distance between the two parties' nominating conventions will, it's unanimously accepted, strain all networks. The Democrats will open in Chicago on Aug. 13. Whether the Democrats have finished or not—the presumption is that they will—the Republicans plan to start theirs Aug. 20 in San Francisco.

This arrangement, which was opposed vainly by the networks before it was finalized, already apparently has taken on substantial casualty. CBS-TV and NBC-TV for one were originally expected to handle some pickups from both conventions in color. Although some competitive secrecy may be involved, both indicate that they'll do no colorcasting at either place. It's expected that they will be virtually the only networks to have colorcasting equipment in both Chicago and San Francisco within the span of a single week.

It's going to be difficult enough to transport men and black-and-white equipment. All in all, it's expected more than 1,000 men and women will be needed to do each job—300 to 375 for each of the three radio-television networks and around 150 for Mutual. Most of these will work both conventions, moving from Chicago to San Francisco as soon as the Democratic conclave is over. Some key personnel from each network will have to precede the regular crews from Chicago to San Francisco. The already complicated problem of logistics will of course become even more complex in the event, not generally considered likely, that the Democratic convention runs overtime and overlaps the Republicans'.

Under pool arrangements already worked out, NBC-TV will handle the pool video feeds at the Chicago convention and the audio pools in San Francisco, and ABC will handle the audio pools at both places. The "pool committee" is composed of Sid Mickelson, CBS vice president in charge of news and public affairs; William R. McAndrew, NBC news director; Thomas Velotta, ABC vice president and administrative officer for news, special events, sports and public affairs, and Milton Burgh, Mutual director of news and special events.

All networks are expected to transfer virtually their entire news staffs to the convention sites.

The time costs—not figured in the estimates of out-of-pocket expenses for coverage—will encompass virtually gavel-to-gavel pickups of convention proceedings. At present, the Democratic conclave is expected to last from two daily sessions, starting at 12:30 p.m. New York time on the opening date but adhering generally to a 2:30-5 p.m. and 9:30 to about midnight scheduled (New York time) on the other days. GOP convention have sale a single daily session running from 5 to 10 p.m. New York time. Present thinking is that each convention will run four or five days.

Although there is considerable speculation as to whether the networks could be provided all the space they need in San Francisco's Cow Palace, site of the Republican convention, network authorities say they have been assured space to meet their requirements in both cities. Aside from an estimated total of 850 hotel rooms to house personnel, this includes camera positions, radio studios and working space in the two convention halls and, in hotels, some 8 to 15 instant rooms for press and office officials, additional working space and the like.

The Conrad Hilton is expected to be Democratic headquarters but in San Francisco the Republicans will be split between the Mark Hopkins and the Fairmont. That said, because of space limitations, the networks reportedly have agreed that two will be housed in one hotel and two in the other.

NBC's planning, headed up by Mr. McAndrew, is being conducted by a unit under Reuven Frank. CBS' preliminary planning, under Mr. Mickelson's overall supervision, is being directed by Paul Levitan and Elmer Lower. Mr. Velotta heads the planning activi-
NEEDED: COVERAGE DATA

TIMEBUYER'S PRESENT TOOLS DON'T TELL THE WHOLE STORY

HOW can the timebuyer best judge station coverage? An analysis of the tools at hand was given last Tuesday's Timebuying and Selling Seminar of the Radio & Television Executives Society in New York by Hal Miller, manager of media analysis, Benton & Bowles. His remarks, condensed, follow:

OBVIOUSLY, there are many techniques or approaches which can be used to establish some form of coverage estimate. However, the number of basic tools available is much more limited. In my opinion, there are about four basic tools: a) the mail map, b) the ballot type survey, c) the engineering map, d) rating data.

Under the mail map procedure, the station requests that its listeners write in to the station either because of an offer, or of their own free choice. The station manager would say that this technique does represent coverage for it actually indicates people who have taken the time and the effort to do something in having written to the station—thus, if these people get the signal in a county so can others.

There are some factors, however, which would appear to negate this coverage claims based on the use of only this tool. The mail write-ins do not typify the audience of stations. What's more, this kind of mail-in basis of coverage can be biased by such things as who has made the offer, what type of offer was made, when it was made, how it was made. We have found that mail returns have come in from very far places due to the freakishness of signal. We have seen claims of coverage based upon mail-ins where local rating data showed no listening or viewing in that particular area.

Another tool available to the timebuyer and/or his research man is the ballot type surveys, most recently made by Nielsen and Standard Audit Measurements back in 1952. The surveys, through the use of a mail ballot, personal interview or combination of both, attempted to determine the number of homes which claimed to listen and/or view each station with some degree of frequency.

These data are also subject to some biases: Returns to a mail survey are not necessarily representative of people who did not answer; the homes on the mailing list may not be representative of all of the homes in a particular locale. In addition, many respondent's answers as to the particular station to which they listen or view regularly may be affected subconsciously by the appeal of the programming on that particular station.

It is important to point out that these surveys cannot be used to reflect specific program or station popularity; you still need a rating report to accomplish this. Nor can these data tell you the absolute measurements of station popularity or the absolute proportion of homes which claim regular station listening and/or viewing.

However, the data does have substantial value in giving us information by counties or clusters thereof, which in turn can be used to establish a can-and-do concept of coverage. That is, we can use this basic information in a relative way to establish a station's coverage area in which the homes in that area not only can receive the signal but do receive it on some regular basis.

Three years ago there was still a tv freeze; the studies covered only 109 tv stations which were on in 63 markets. None of these stations was uhf. In January 1955, the number of tv stations had grown to 394 in 227 markets, with 103 stations on the uhf band. Furthermore, practically all of the stations which were covered in these surveys either changed power,
ties for ABC and Mr. Burgh for Mutual. 

In Washington, officials of both national party committees had fairly concrete ideas on how they will conduct election campaigns next year by radio and television.

L. Richard Guylay, who as public relations director for the Republican National Committee, will be conducting national GOP radio-television activities, said the committee already has set most of the time periods it will use in radio and television.

Instead of holding off time purchases as in 1952 until a few days before the time is needed and then pre-empting top-rated TV network shows, the Republicans are buying their time in advance, He said, in a strategy designed to cut or avoid the cost of reimbursing commercial advertisers.

Mr. Guylay felt giving other networks 30-second time periods where top-rated network programs now appear.

Mr. Guylay indicated there will be less playing by ear in employing this method. Republican thinking is that top-rated shows this season are still likely to be tops next fall. Early buying by the GOP will save the party money in this avoiding the cost of reimbursing commercial sponsors for talent and stand-by fees.

Mr. Guylay admitted that "we may make a few mistakes" in buying time in advance, but felt that the plan would be economical in the long run.

He said the Republicans intend to hold back a reserve fund to use for televised events not now planned or for such emergency presentations as the "Nixon and Checkers" radio and television broadcast (B&T, Sept. 29, 1952).

Mr. Guylay did not know what percentage of the Republican committee budget will be devoted to the broadcast media, but said television will get the biggest share.

GOP National Chairman Leonard W. Hall has charged that the committee's radio-television budget will be $1,500,000 to $2,000,000 for the national campaign and committee officials feel state and local radio-television spending will equal or exceed this.

Mr. Guylay did not disclose how the national committee will allocate purchases among the radio-television networks but said that the budget will be spread out to buy time from all.
Today's most exciting radio buy is Monitor

NBC's spectacular success—MONITOR—has put new life into radio! You get BIG results at LOW cost on MONITOR. And in Richmond, you can make this GREAT BUY only on WLEE. Get the whole story from your Forjoe man!

Passes Another
Milestone . . .

600 REMOTES
IN FIVE YEARS OF
TELECASTING!

Only a few stations in the U. S. A.
could equal WSM-TV's record of
remote telecasts.

Why?
Probably because they're expensive
... because each one involves its own
peculiarly tricky technical problems ... and
because it's a rare remote that adds
any black ink to the profit column at the
end of the year.
Yet many important, colorful, enter-
taining events take place outside of TV
studios.
That's why a tabulation of remotes is
often the key to a station's vigor, vision,
aggressiveness, and public service — im-
portant factors in building the audience
loyalty that boosts sales for your
products.

Incidentally, WSM-TV's 600 includes
1952 political campaign speeches by
major candidates...the inaugural
ceremonies of Tennessee's governor...
Grand Ole Opry shows fed to the net-
work...NCAA basketball games from
Bowling Green, Kentucky (65 air miles
from Nashville)...steeplechases, stock
car races, baseball games, and other
events in locales where many miles and
mountains separated pick-up point from
tower—requiring supplements to WSM-
TV's two-truck, two-camera mobile unit,
plus the construction of special relay
facilities.

WSM-TV was Nashville's first (and
is still Nashville's only) TV station
equipped for remote telecasting.
WHY NETWORK RADIO MUST ADAPT OR DIE

THERE's a revolution going on in the aural medium. The networks are vying with each other to find something new in both programming and selling. Radio now is an annual $2 million loss item at NBC; they'd be happy just to break even. Will 'Monitor' do the trick? Are the new selling formulas cutting into the spot field? Can four radio networks exist? NBC Executive Vice President Robert W. Sarnoff answers these and other posers (such as the outlook for color television) in the exclusive, recorded interview with B&T editors which follows on this and the next six pages.

For another viewpoint on network radio, see text of ABC President Robert Kintner's speech, page 51.

Q: Would you say that your radio billings have hit bottom? Will the curve turn up soon, or has it done so already?

A: I really don't know. I don't know whether it'll get any worse before it gets better. I think we're pretty close to levelling off.

Q: You don't look for a continuation on the same level, do you? Aren't you hoping for something that'll scoot it up a bit?

A: I'd like to see it scoot up a bit. That's what we're working towards.

Q: Wasn't the comment made at your affiliates meeting that if things continued as they were at that time, the radio network stood to lose about $2 million this year? Have you had any reason to change that estimate, to believe that an extension of the Monitor-type format and the Monitor-type selling will reduce that loss?

A: Yes. We have projections which indicate that Monitor and Weekday and the new nighttime form have the potential of wiping out the loss—not this year, And I don't even know whether they will actually wipe it out next year.

Q: How long are you prepared to go on taking a loss on your radio network?

A: I think that's an impossible question to answer because there are too many other considerations and values involved. I don't think anybody's going to put down a figure and say "At this point we'll go out." I'm certain we'll be there as long—or longer—than anybody else is, but I'd be unrealistic if I didn't say that at some point it becomes hard for management to justify an operation that could be a multi-million dollar annual loss operation.

Q: Then, unless you have an upturn in billings, you're going to have to trim operations and overhead, are you not?

A: We have been doing that steadily—so far as cutting costs without degrading the service is concerned. That's one reason we're able to hold our loss this year to $2 million. I think in that respect we probably started earlier than the others did. We'd been hit harder.

Remember, we don't look on the radio network any more as a big business in financial terms. However, it's an important business to the country. It's important to have a radio network service going. We want to keep it going. We think it's important to the stations and the country. I think you've got to have a radio network. This is obvious. It's the only means of communication that can reach all the people instantaneously, and particularly the way it's developing into a personalized service, you know. The people like to have it with them and I think we can provide that service.

But we're not looking to make a lot of money out of our radio network. To be quite frank about it, I'd be very happy to run it at break even and know that we're providing enough of a service so that it's attractive to enough advertisers on a national basis to want to buy it, even though some of them will come in and go out, like on Monitor for example.

The idea of Monitor never was that you would be sold out to advertisers, with the same ones staying with it constantly. It's like Today and Home and Tonight, in television, where a fellow may come in for three months and it may not serve his purposes to be
in for the next three months, but he does come back three months later, and that's what's going to happen. If we can get enough of it coming in and going out, so that we know we have a steady volume, we'll build our service and cut our operation and overhead to run it at least at a break-even level. From a business standpoint, you know, this represents only a small percentage of the total gross of the company. So I don't look for any great rebuilding to the peaks of the old days. What was the maximum? $60 million, I guess, was about the biggest figure a radio network ever had. Trying to return to that obviously would be wishful thinking, certainly with four networks.

The answer to your question, I think, all depends on what range of time you're taking. Hopefully, our billings in '56 will be higher than in '55. It may be—and this would not be too bad a picture either—even if they were only about the same, they might well give us a prospect in '56 for building up in '57, which we would not have otherwise. That is, '56 may be the year in which we substantially increase our billings in the new participation forms, in Weekday and in Monitor, and look toward the same sort of thing in the evening.

But at the same time, we may meet ourselves coming backwards as billings from half-hour sales in the evening and strips in the daytime diminish or are withdrawn. These two factors may offset themselves in '56, but if we can keep going in '56 on a future course of building up, then we can look to '57 as the year where we will start getting back from the bottom, with the seeds having been planted in '56.

One point I'd like to make on this is that I'm not complaining, because you always get it when you lead. Our radio network has taken all the brunt for the last year or two of pushing the new forms and trying to come up with solutions. The fact of the matter is that there's practically no difference any more between ABC, ABC and CBS on the sales forms. CBS calls it segmentation at night—five minute segments—but it's still a one-minute participation. We, I think, were just a little more direct and called it a one-minute participation. At ABC, the same thing; they have been for some time selling this kind of little units, and have now organized it in their evening schedule.

The only real difference between us now is perhaps in program concept. Well, who knows? Maybe they're right. Maybe we're right. I don't know. I mean ABC and CBS are both making a big pitch on the same programming at the same time every day of the week. It may be that Monitor eventually will move toward more regular scheduling of program elements. I think you'll find Weekday moving more in that direction. I think when we finally get it shaken down and come out with it on the air you'll find that in Weekday there will be certain features every day of the same kind at the same period.

Banking on Audience-Getters

Instead of going to the evening strips like they did, we thought that for this year at least, we would keep what last year were high audience-getters. When I say high audience, it's relative; I mean for radio they were high audience-getters, but since nobody was buying them as individual programs any more we were given the opportunity to get the cumulative audience value by going through the nighttime schedule with a spread of advertising positions. So, in terms of commercial patterns, the three networks are all levelled in the same direction. The only difference now is what's in the programming.

Q: The sales techniques are not really different, would you say?

A: The sales techniques are the same. Therefore, I made this point to the stations at the meeting: The stations really have only one of two choices, I think. They either go with the network, or they go independent, because it isn't a question of not wanting NBC and wanting ABC or CBS as a network affiliation, because they're doing the same thing we're doing. The stations make their choice. They can stay with the network or go independent. The network really has no choice. The networks have to make these new forms work or else.

Q: Speaking of new forms or else, do you have an "else" in mind?

A: We don't think we'll need an "else," and we don't have one in mind. I don't really know what the "else" would be, at this point. During the past couple of years we studied all the different possibilities and out of all those possibilities, the one that emerged as the most likely to succeed was Monitor. Now the success of Monitor actually was greater than we had anticipated in the beginning and with the reduction of the existing conventional business, which came a little faster than we had expected, it was necessary to take the next step. This next logical step seemed to be to go into the Weekday form and hold the nighttime thing the way it is, so far as the programming is concerned. If it doesn't work, I don't know what the next step will be because there are a number of things you can do, but you wouldn't recognize the result as a network, if you do them. That is the problem.

Q: Let's talk about Monitor for a minute. There is some talk that it will draw off spot money. What do you think?

A: Quite frankly, we think just the opposite. We think it's already demonstrated that it's creating opportunities for new and bigger spot money. One of the reasons is that the station reps have spots within the body of important network programming, available to sell, which they have had in only small quantities before. But they now have availabilities within the body of Monitor as well as availabilities within our nighttime and new daytime structure. We think that if Monitor continues to build and is successful, and if the new forms that we're working with on what we now call Weekday and our nighttime plan are successful, and if all this programming builds and holds the audience, then we should really create opportunities for the station reps to sell.

Q: Just for the record, could you give us a brief description of Monitor and how it works?

A: Surely. Monitor is a program service beginning at 8 Saturday morning and running through to midnight Sunday. It's a 40-hour continuous service. The network feeds it continuously, so that it's available to stations throughout the 40 hours. We expect the stations to carry the 14 hours of network option time. And we have offered the programming to them in station time on the theory that—with the exception of some local programming which is important and which they must have—they may find it worthwhile to carry the service in some of their station time.

990 10,000 WATTS

PHILADELPHIA 2, PENNA. RI 6-2300
It's made up in units of hours, each with a similar format. Every hour opens with news, goes to sports, goes to a segment of entertainment programming, goes to a 5-minute cutaway for the station to program locally with whatever it wants in the way of local news or local service and returns again to entertainment or variety or information or remote pickup, coming up on the hour. This continues throughout the full 40 hours, so that certain elements of the programming which we consider good enough can be repeated at different points during that time. Certain remote pickups can be presented in episodes to follow the progress of whatever event it is that we are covering. It might start at 2 in the afternoon and be picked up again at 6 and again at 10, depending on how important it is.

Q: And you sell announcements within the network option time?
A: We sell announcements within the network option time, announcements of either one minute, 30-seconds or six-seconds, but the stations also have periods to sell available to them within the network option hours. They have minutes to sell. They have 70-seconds at the hour break, then they have the five-minute cutaway at the half hour break.

Q: About what ratio have you established between the number of spots that the network sells and the number that are available to the stations?
A: The network has nine one-minute availabilities in the network option time hour and the stations have what amounts to four, because if you take their five-minute cutaway, that's presumably a one-minute availability, local. They also have two one-minute availabilities within the body of the hour, and the 70-second availability at the end of the hour.

NO COMMERCIAL RESTRICTIONS

Q: Are there any limitations upon the type of advertiser to whom they may sell? I mean if you sold announcements to a cigarette advertiser, could they sell to one on a spot basis?
A: There's no limitation, except that we try to work it out so that there's a reasonable amount of time between our advertisement and theirs. That is, for competitive products.

Q: Are your commercials run-of-program, or are they definitely scheduled?
A: They are run-of-program. Now just to complete this, we can also sell participations in station time, but there we have about four and the stations have the equivalent of nine per hour.

Q: On Monitor, I believe your gross is $1,000 per one-minute announcement. Is that right?
A: Yes. $1,000 gross per minute announcement.

Q: And you sell the shorter ones in minimum packages . . ?
A: We sell 30-second announcements in minimums of four, and six-second announcements in minimums of 10.

Q: Have you made any computations to indicate what it would cost a national advertiser to buy on a spot basis a one-minute similar to the one-minute he buys network-wise on Monitor, using the same list of stations?
A: Well, it's a meaningless computation, actually: it's comparing apples and oranges. When an advertiser's buying a minute in Monitor for $1,000, he's buying national coverage. He must order the full network. We guarantee delivery of 75% of the dollar value of the total network. He normally wouldn't be buying all those stations on a spot basis.

Q: How many markets are involved in your minimum network buy?

A: The total network consists of about 200 stations. About 75% of that network is less than 200 stations. But it is 75% of the total network rate and the composition of stations making up 75% of the total network rate would depend on the individual rates of the stations.

Q: Would you regard the sale of network announcements within these programs as competitive with national spot?
A: I would say only where national spot is seeking to get money that has been spent on network for national circulation.

Q: Can you amplify that a little?
A: Yes. The big battle that the spot reps have been carrying on has been that what we are doing—and presumably what ABC and CBS are doing, because their commercial patterns are now virtually the same as ours—is that we networks are going after national spot dollars. Of course, there really is no such thing as national spot dollars. There is a national dollar that the advertiser determines for his own purposes how he's going to spend. But the reps seem to feel that there's an area here which belongs to national spot that should be inviolate, that nobody else should go after.

On the other hand, they are perfectly willing and they have tried to do it—I mean the Quality Group and the Blair group and the others—to go after the money that has been spent for network circulation. They have tried to divert that into national spot. Where they try to do that, I would say we are competitive, obviously. If they go after an advertiser who for years has been buying network and they convince him in a presentation that instead of buying network he ought to buy spot, to that extent we'd all do what we can to hold that business. I would say beyond that we're not competitive. No.

Q: Aren't you competitive to the extent that both NBC and the spot people are trying to get a bigger share of the national advertising dollar?
A: Well, I think our objective ought to be to create more advertising dollars for radio so that there's enough for both of us, because, quite frankly, we don't think that national spot can be healthy without a healthy network service. Now if there is no network service, no network programming, we think that national spot will suffer. Therefore, in effect we are not competitive. We should be building with each other.

Q: How about the argument that the prices on Monitor are so low that they amount to price-cutting?
A: Price-cutting? Cutting of what prices?

Q: Radio. The reps, some of them, make the argument that the prices on Monitor participations are so much lower than it would cost the advertiser to buy the same thing on a spot basis, that what NBC is actually doing is cutting the value of radio time.

A: I have to go back to the fact that what we are selling is the full network. The advertiser doesn't buy network coverage on a spot basis, so I don't see the comparison between the network price and the spot price for the same number of stations. There is a comparison—and that's between the network participation prices and network prices for time segments. Let's take Weekday, because there we have something to compare the prices with. The price per announcement on Weekday is about the same and, in some cases, a little more than the price per commercial minute that advertisers are paying and have been paying for some time in conventional network buying.

The question might make sense on the part of those who ask it, if we were undercutting the price level on network. We are not. The $1,500 gross price per commercial minute on Weekday is the same or higher than daytime advertisers on NBC and CBS and ABC are getting their commercial minutes for. If the network buys there have not hurt spot, I don't know why they should in the spread commercial form that Weekday offers.
You have to be realistic about what advertisers are paying for radio network time under the conventional time period sponsorships today. When you take into account the volume discounts and everything else, their actual cost-per-minute is approximately the same as the participation price in Weekday, for example.

Another way of putting it is that the value of the new sales form is not that the announcements cost you less per advertising exposure than in buying a strip or a single program, but it gives the advertiser the ability to spread his advertising messages over many different audiences through the course of the service like Weekday or the course of a service like Monitor or for many different programs, as under our nighttime plan. He can pick up a cumulative audience for three or five announcements that will be much larger than the audience that he would pick up if he put them all in the same program with virtually the same audience. It's an advantage of flexibility in reaching out again towards the national circulation which he isn't reaching enough of with a single program. It's not a price advantage.

Q: Then you wouldn't agree with the reps who say that the networks should stick to the established format of programming quarter-hours, half-hours.

A: I certainly would not. There's no particular virtue in sticking to something for the sake of sticking to it if it doesn't answer your problem. All you have to do is look at what's happened in the last few years. One rep outfit has stated that if only a better selling effort were made we could do all our selling on the basis of 15-minute units or more, but that's just not true. There will always be some advertisers who for their own reasons—I hope it's true—that it'll always be that way—will continue to buy strips or programming entirely for their own sponsorship, but there's very, very little of that any more.

Q: Aside from the commercial pattern, do you think that the quarter-hour program as such, or the half-hour program, is obsolete?

A: As a programming form ... no. I don't think so. As a matter of fact, what we are doing in our nighttime scheduling is to preserve, actually, the half-hour, 15-minute and the hour form. All we are changing is the selling pattern, because the number of advertisers available to support that form alone is not sufficient any more.

Just look what's happened to us in the past year and I can assure you it has nothing to do with selling. Lux just isn't there any more with Radio Theatre. Chesterfield isn't there with Dragnet. They're both good shows. They were both in the top 10 last year. Dragnet is Number One in the current Nielsen. Somebody can say, "Well, you should have made the sponsors stay," but the fact of the matter is that for their own best reasons they have decided not to go on as single sponsors of those programs. This doesn't mean that the program's no good. Obviously Dragnet's still good as a half-hour radio show. What we've got to do is find another way to get the economic support.

Q: Have any stations given you evidence of an increase in billing, overall, not just from the network, but also from national spot and local advertising, as a consequence of their carrying Monitor? Have there been any real success stories from stations since you've switched to Monitor?

A: Some stations have told us that as a result of Monitor, during the first quarter that it was on, they were completely sold out for the weekend for the first time in a long time. And that's in a period that's been only marginal as far as stations are concerned. I know that our own stations had a 50% increase in station business. Before Monitor, these stations were selling about one-third of their weekend availability. Monitor brought them into the position of selling more than two-thirds of their weekend availabilities, on the average.

Q: In what period did this take place?

A: It took place immediately when Monitor went in, in June. It was true of all figures we have for July and August. Interestingly enough, the increased business that they got, over and above the network, was just about evenly divided between national spot and local. We actually have a number of case histories—real success stories among the affiliates as a result of Monitor. WLW, for example, increased its own sales on the weekend by 300% because of Monitor; they went to network advertisers buying Monitor to sell additional national spots in Monitor on WLW.

Q: Has there been any thought of extending the Monitor programming concept to the nighttime hours during the week?

A: No. There's no thinking in that direction at this time. We're proceeding step by step. The evening programs we have on now are getting the top ratings. We intend to keep them on, for this season at least, but we're selling advertising in many of them on the basis of announcements spread across different programs.

Q: You've sold participations in television programming for some time. Has that drawn off any spot money?

A: It may have on occasion drawn a little, but the facts and figures indicate that since Today, which was the first of that kind of operation, got started, the growth of national spot advertising in television has been tremendous. It has actually grown at a rate far greater, percentagewise, than network business. We know of many cases where advertisers have come into television first via Today and have stayed with Today and have in addition bought spot campaigns. We also know of cases where advertisers have bought into Today and then have left Today and gone to spot campaigns.

Q: Incidentally, are you having any luck selling the participation Today show with Monitor—I guess combination is the wrong word—but do you ...?

A: We offered a plan whereby an advertiser to get seven-days-a-week coverage could buy Today, Home and Tonight on NBC-TV and in addition buy Monitor on NBC Radio. We merely put it together to show how he could get himself seven-days-a-week coverage.

Q: I'd like to get back to Monitor itself for just a minute. You're now getting new contracts, or contract amendments, back from the stations. What percent of your rate card does that represent?

A: On the contract amendments, which include the compensation arrangements for Weekday and the evening participation plan, we have signed agreements or statements of intention to sign
from stations amounting to about 85% of the total network rate. That's to date, and we expect 100%.

[Editor's Note: As of last Thursday, two sales had been made. Mennen Co. and Associated Products each had signed for 15 one-minute positions between Nov. 1, when Weekday starts, and the end of this year. The 85% figure on stations which had signed or indicated they would sign the contract amendments also represents the status as of last week.]

Q: How many stations have agreed to take Weekday in the 12-to-3 time?
A: As far as clearances half hour by half hour are concerned, we just put out an inquiry and are just beginning to get the returns. The indications of clearance in the network option time periods are very high, but they're much lower in the 12-3 station time period. We'll know better when all the returns are in, but you understand that the network sales will go first and primarily into the network time periods. In fact, most of the availability in the station time periods are for station sale.

Q: Did you ask for clearances on the load of Monitor in the 12-to-3 time?
A: Yes, we've made some sales on that, and the stations are assigning them, as they have before.

Q: Are all your o&o stations carrying all of Monitor?
A: Yes, they are, except for a few periods where they have important local programming in space time.

WHO'S RESISTING 'MONITOR'?

Q: Is there any one or more important group of NBC affiliates which are resisting your Monitor concept?
A: Yes, there are some stations and some groups that still aren't convinced.

Q: Are they resisting as groups, or as individual stations? Do they vary from station to station within the group?
A: Actually, they vary from station to station within the group, which is reasonable, because they each have different problems. One of the groups that we have talked to is Westinghouse and they have different problems in Boston than they have in Philadelphia or Pittsburgh. The clearances will vary with the local situation.

Q: On these new contracts, if a station does not sign, does it continue to get compensation at 100% of the face value of its own contract?
A: No. The old contract doesn't provide for compensation for a service like Weekday. If he doesn't sign the new one there is no contractual basis we have which will compensate him for Weekday.

Q: You mean ... ?
A: I mean he can't really accept Weekday programming and get compensated on the old basis.

Q: In that case, the new contract to some extent does cover clearance, or at least acceptance of the Weekday concept, doesn't it?
A: No, the contract doesn't cover clearance by terms. Let me put it this way. If a station intended not to carry Weekday, presumably it would not sign that contract. It could agree to the Weekday factor of compensation and still not clear. It can do that.

Q: But it cannot refuse to sign the new contract and still take Weekday?
A: No. Then we would have no provision with that station for compensation for Weekday sales.

Q: If he did not sign the contract, which would be the only provision you have for compensating him for Weekday, and if he accepted Weekday and programmed it and put the network commercials in it, you would then have no basis for compensating him?
A: That is correct, because the compensation for this form of sale is covered in the amendment.

Q: Is the same true of the new participation programs?
A: Yes.

Q: If an affiliate declines for whatever reason to sign the new contract . . . ?
A: It's an amendment to the contract.

Q: The amendment to the contract . . . can be under the terms of the old contract continue to take the programming? Or can he continue to be affiliated? Does his affiliation continue until the termination date of the old contract?
A: No, we are offering a new kind of a service for which at the present time there is a no existing compensation formula in the old contract. The new arrangement covers this new kind of programming. It would seem to me the only basis on which he could carry the program, and we would sell him, is on the basis of the new compensation arrangement that goes with this new programming.

Q: Doesn't the old contract require that the network for a given period of time will provide certain programming?
A: No. The obligation of the network under the affiliation contract is to furnish sustaining and sponsored programs of high quality.

Q: For which compensation will be paid at a given rate?
A: That's right. A half-hour sponsorship gets some much compensation. An hour sponsorship gets so much compensation. A quarter-hour sponsorship gets so much compensation. Let's talk Monitor as an example, . . . All this week's time is not programmed for quarter-hour or half-hour or half-hour sponsorship for which compensation is established, so that a new arrangement is needed for compensation. If a station doesn't accept that new arrangement, then we have no deal with that station for compensation under the new service.

Q: Aren't you really changing the terms of the contract while the contract is still in force?
A: We're changing the nature of the service. We're changing the form of the service. I think your question could be dealt with more meaningfully if you asked what would happen if a station declined to clear for and carry the Weekday service or the Monitor service. If that happened we would have a decision to make as to whether our coverage of that market was sufficient important and necessary for us to justify taking the next normal step of putting that service on an alternate outlet in that market.

If it were an important market and if we felt that this forward development for which we hope high hopes would be adversely affected or even destroyed by unavailability of an affiliate to carry this service in a particular market, we would have, I think, no alternative but to put that service in that market on another station.

Under our contract with the affiliate, we have the right to do so. The affiliate has the right of first refusal on our program in its community, under the change in the Commission's rules. If the affiliate exercises that right of first refusal by declining to carry the program, it would be within our prerogative to decide whether or not to put that program or that service on another outlet of the community.

Q: In order to put the service on another station, what sort of contract, if any, do you need to sign with the other station?
A: We haven't faced that question yet. But I think we would offer that other station a compensation arrangement parallel to that which we would offer any other affiliate.

Q: For that particular program?
A: Yes.
We're building more homes in growing San Diego!

San Diego is now the Nation's 15th Market in the sale of Lumber and Building Materials. (Sales Management, Survey of Buying Power, 1955)

Bigger than - Buffalo, New York; Kansas City, Missouri; Miami, Florida or Dallas, Texas.

There are more people, BUILDING MORE, making more, spending more, and watching Channel 8 more than ever before!

America's more market
Q: Then those stations which did not clear Monitor might continue to take the NBC evening programs?

A: Yes. It's quite conceivable that a station could be carrying weekend Monitor and our nighttime programming, but for its own reasons not want to take Weekday. And that Weekday conceivably could be put on another station in that market.

Q: You'd really have a split network, then, if that occurred to any great extent, wouldn't you?

A: Well, you might have split affiliations. You'd still have the same coverage, though. It obviously wouldn't be as desirable as having it all on the same station. It would not be desirable for us, and it would probably be less desirable for the normal affiliate. Because his identity with NBC would be diluted to the extent that a big portion of our service would be carried on another facility in his market.

But, remember, we want to keep the network going. The only way we can keep the network going is to provide national coverage in all the markets. I made this point to the affiliates. They are the answer, really. They're the key to whether or not a network can keep going, because if they don't want a network, there won't be a network. You can't have a network unless the stations carry the programming.

Now, all these arguments about cutting prices and competing with spot and all that kind of stuff, I think are unimportant in the face of the problem facing the networks ... not just us, but CBS and ABC and Mutual. The problem is to get enough money into the business to maintain the networks and to maintain healthy stations. As far as the stations are concerned, quite frankly, I don't see that it makes any difference to them—and many of them have told me this—whether their money comes from spot or local or network as long as they get money to run their operation. What difference does it make, really, where it comes from? As far as the network goes, it's got to get enough national money to run its operation and I think that it's only by running a healthy network that you provide a base for a healthy local operation going. I think they're all inseparable.

**CAN THERE BE FOUR NETWORKS?**

Q: How long do you think four radio networks can exist?

A: Conceivably, under the new forms they might exist forever. But the kind of money that radio once knew isn't there any more and it'll never be there any more.

Q: On weekday nighttime radio programming, do you plan on increasing the number of programs which are sold on a participating basis?

A: What we've done is to take the existing nighttime schedule, with some of the programming sold on the conventional basis. Those that are no longer sponsored this season, which we feel are still good programming and where we were able to make the arrangements to sell them on that basis, will go into the participating plan.

Q: In other words, you will expand the plan as the need arises?

A: You mean, will we add others? I think as of now we have a sufficient inventory in the evening not to contemplate any increase. If we should sell everything now available on a participation basis, and we have other unsponsored properties available, we might add them to increase our potential. I think the ideal thing would be to be sold out at nighttime through a combination of existing forms of sponsorship, plus the new ones. If the day should ever come when all the existing standard sponsorships go by the board, we'd have to take a new look, and it may be that the only thing left is participation on the whole nighttime schedule.

Q: Let's change the subject a minute—to color television. Many people are asking when color sets are going to be available at lower prices?

A: That's a little out of my bailiwick. The manufacturers should answer, not the broadcasters.

Q: I ask you this as associated with the company which is a subsidiary of one manufacturer which is really active in color set production.

A: I don't think I can give you a date. The answer really is the same as with any manufacturing process. When the volume of production gets up to a point—I don't know what that point is, quite frankly—the price has got to come down. It always does, with any product. The thing is here, it isn't RCA alone. It's RCA plus the rest of the industry and it's impossible for me to give you an indication of what the rest of the industry is going to do.

Q: Can you give us an estimate of color set production today?

A: Not exactly, but I do know that the demand for RCA 21" color sets has picked up tremendously since the start of our fall color schedule. I just heard that all the sets they've made so far have been sold and that production is being increased. It now appears that the industry will produce next year at least 300,000 color sets and that if more color tubes are available, that figure can be substantially increased. It seems now that in 1957, the industry will turn out at least 1,500,000 color sets. I think that if more than that can be produced, then more will be sold.

Q: How many color sets are now in circulation?

A: I think offhand that there'd be somewhere between 25,000 and 50,000 right now, and the number is increasing daily. They're in key spots. It isn't like being hidden away in an upstairs bedroom. You've got the majority of them in public places; you've got them in dealers' stores and in distributors' showrooms, so that the number of people who are seeing color far exceeds the limited number of sets.

Q: How long do you think NBC will continue to add color to its telecasts?

A: My guess would be that from here on our color programming will increase rather than stay where it is. I'm not talking about this season. I think that this season we're pretty well set as to what we are going to do, although it's possible we may add some film programming in color. Actually, while we have more color facilities for live programming than anybody else in the business—I think almost than everybody else combined—all our color facilities are being used to capacity.

Q: How about the production expense of color? Who picks up the tab? The advertiser, or NBC, or is it a joint venture?

A: Almost without exception it's been picked up by the advertiser. Last year we sold a dollar volume of programming in color of somewhere around $14 to $15 million. This year it'll be better than $35 million.

Q: Does that include time costs, or only programming?

A: That involves time, production and programming for those telecasts and the comparable figures are on that basis.

Q: Are you selling it at a break-even point, this 30-million-dollar volume?

A: Yes, although there are some things we're doing where we probably won't get back all our costs for a while, obviously.

Q: What are the costs to advertisers percentage-wise for color shows compared to the black-and-white shows? How much more does it cost?

A: Well, it depends on ...
Why We Didn't Hire Gretchen

"This," our secretary intercom'd, "you gotta see."
We saw. (We found out the hard way, long ago, that secretaries are best obeyed.)

* * *

Our visitor slunk in, the obvious product of a School for Models and the little bistro around the corner. "I was streamlining to Beverly Hills," she began, "When your lush countryside beguiled me. This is the divine little spot I've dreamed of all my life. I have decided to work for you."

"Darling," we protested, "you can't bury yourself here. This is corn country. Hybrid."

She pleaded. "I'm tired of the Lido, Capri, Rio. I want to plant roots and till earth. I want to spray bugs. I want to meet Real People."

"Can you type?" She couldn't. "Take shorthand?" No. "Well, what exactly did you have in mind?"

She was a wonderful hostess, she admitted.

"What," we asked with some trepidation, "do you do?"

"I circulate," she breathed.

* * *

Gretchen didn't get the job. WMT-TV has circulation to spare, with more audience in its 25-county primary area than all other stations combined during 87% of the telecasting week.

We referred Gretchen to the Los Angeles office of our national representative, The Katz Agency, and never did hear how she made out. They sent us an order, though.
ED TAYLOR AND DAVE KUTNER are Marketing Vice President and Advertising Director respectively of Motorola, Inc. Like the company they work for, they are progressive and imaginative—quick to pioneer when a new opportunity comes along.

Perhaps that’s why NBC MATINEE THEATER first piqued their interest. It was different and unconventional...a different full-hour drama every weekday from 3:00 to 4:00 p.m., in both black and white and color, featuring production, writing and stars of nighttime calibre.

Intrigued, Messrs. Taylor and Kutner dug deeper. They found:

... that according to ARB, hour-long dramas are the most popular form in the daytime (just as they are in the evening)

... that NBC MATINEE THEATER will have an estimated coverage of 32,500,000 homes (90% of all TV homes in the United States)

... that the commercials will be 90 seconds in length allowing each selling message to be developed fully and powerfully

... that, for all of its unique features and quality production, MATINEE’S total cost comes to only $10,326 gross per commercial position.

Then Motorola considered the new audience that this fresh, quality program would inevitably attract; the prestige of association with top stars and top production; the growing advantages of color commercials. Motorola added all these things together and signed as a long-term client.

Other discriminating advertisers like Aluminum Company of America, Procter & Gamble, and B. T. Babbitt Company — have analyzed MATINEE and come to the same conclusion.

Take a long, examining look yourself. You’ll find you too can enjoy major values on
Q: It depends on the show, I realize. How about a dramatic show, for example?
A: It’s around 2% to 15%, with an average of about 10%. That is, overall budget.
Q: So the average advertiser buying a color production is paying about a 10% color premium. Is that correct?
A: It comes roughly to that. It’s a little difficult to pin it down. Take the spectaculars. They are expensive productions, color or no. You still would need almost the same amount of time in the studio. It is true that it takes a little longer time to warm up the cameras in color. And you’ve got to take a little more time with the lighting. But the basic elements are there because of the size of the show, not because of color.
Q: How about the World Series? How much did color add to the cost, percentage-wise?
A: Negligible. Because it’s only the difference between rolling out the color mobile unit and rolling out the black-and-white unit, and you may have a few more engineers. It’s a little more costly, but not very much.

**THE EXPENSE IN SPECTACULARS**

Q: What’s the most expensive spectacular you’ve had on NBC in production costs?
A: You mean which single spectacular? I guess Peter Pan was the most costly. [Approximately $300,000.]
Q: What single show now in planning and committed to the schedule will have the highest production cost this season?
A: Well, the one that will have the highest cost, but you can’t exactly call it production cost, will be Richard III. [$225,000.]
Q: What’s your average cost for a spectacular—about $200,000?
A: In that area. Some of them may go to two and a quarter.
Q: Could you estimate what percentage of the total NBC is paying for itself or absorbing for total color?
A: If the fellows stay within their budgets, we are getting our costs back on the spectaculars. That represents a multi-million dollar operation, when you take the Monday, Saturday and Sunday night specs.
Q: What percentage...?
A: Let me give you an example just a little further. We converted Studio 3K to color. It’s the studio which Howdy Doody was in. We brought down a wall and made it a larger studio and that was all converted to color. We’re doing Howdy Doody in color. Well, Howdy Doody is not completely sold as you know. Therefore, we bear some costs of getting Howdy Doody on the air because it’s not completely sold out. So you can’t say that you’re underwriting color, because of course you’re also underwriting black-and-white, really. I mean your production costs.
Q: That refers back to the question I asked some time ago: how long will you continue to absorb some of the cost on color?
A: Well, my guess would be that the unabsorbed costs of color will continue to diminish. That would be our objective.
Q: What reaction are you getting from advertisers on color, considering the roughly 10% average differential? Are you finding any resistance or are they enthusiastic? Are they eager to experiment with color commercials?
A: There is a growing interest on the part of a number of agencies to learn about color. There is a growing interest on the part of a number of advertisers. Some of them don’t want to consider it now, quite frankly, because they say there are not enough sets out. I have heard no complaints about the fact that to do color would cost a little more than to do black-and-white. It’s certainly true that those advertisers who are using color on NBC now are, I believe, wholly satisfied with their results. The proof of that is that of all the pioneer sponsors on the spectaculars, all but one came back to use color, came back to sponsor the same series.
Q: Which one was that one?
A: Hazel Bishop. But everyone else came back, plus new sponsors, additional sponsors. Look what happened when we announced the Color Spread Sunday night show. We nearly sold it out weeks before it went on the air.
Q: So you’re still bullish about color?
A: More so than ever.
Q: Have you any general observations to make that we haven’t ferreted out before we sign off? A closing commercial, possibly?
A: Well, as a further answer to your earlier questions—"Is network radio competitive with spot radio?" and "Are the new network forms which NBC is developing competitive with spot?"—I’d like to say this:

Spot radio takes many different forms. The historic and traditional form has been a regional buy for the regional advertiser or supplementary coverage for the national advertiser, with selectivity of the market, of the stations in the market, and of adjacencies on the station. In these forms NBC network radio is in no way competitive with spot, because the basis for the network buy on a participation form is the full network which delivers national circulation, which is the only thing networks have to sell, which is the thing they were created to sell.

In recent years, because of the decline in listening to individual network programs and the failure therefore of networks to deliver as high a national overall circulation as they did traditionally, spot radio has moved into the network field of national circulation. And rather than ask ourselves: "Is network invading spot?" we might better ask: "Has spot been invading network?" It has been invading network to the extent that spot sellers are seeking to sell and spot buyers are being persuaded to buy national circulation on a spot basis. This is the sort of thing that networks delivered and delivered very well when they covered the country and when each program got a huge audience. As those audiences fell off, advertisers have been weaned into spot to get replacement national circulation.

Certain spot reps have criticized networks on the grounds that there is a list of advertisers who formerly bought spot and who are now moving into Monitor or into the CBS segmentized program form, or into one of the other network participation forms. Of course, we could show you a list about 30 times as long of advertisers who formerly bought network, and who have been sold into spot and away from network to get the national circulation they wanted from network—which networks were not efficiently delivering under the single program sponsorship form.

What we are seeking to do with Monitor and with Weekday is to bring back to the network revenues from advertisers who want national circulation. In this area, we’re talking about the advertising buy that rests on national circulation, spot and network are competitive. They’re competitive because spot has sought to compete with network’s traditional buy, and we are going to compete in that field for national circulation. The spot reps who say that networks should confine themselves to the sales of program periods of a quarter-hour or more are saying, "We don’t want competition. We want the networks to be confined to the most ineffective form of competition, that form which has a diminishing market for national circulation." We think that networks are entitled to, and have to sell national circulation because it’s the only field they have to sell. If spot is going to compete with network in this field, then we’re going to have to compete with spot.
True color... high definition

yours with GPL's 3-Vidicon Color Film Chain

Telecast stable, 600 line color pictures of unmatched quality with the outstanding 3-Vidicon Color Film Chain recently developed by GPL. Typical GPL performance superiority has been achieved in this equipment with a highly advanced color filter system, precise registration, precision-engineered GPL components, and factory-adjusted optical and mechanical alignment. Compactness of the chain permits easy installation into your present monochrome film layout.

These and the many other outstanding features of this chain will make color film telecasts a profitable feature of your station. Ask GPL engineers to show you how.

ABC'S 'TOWN MEETING':
500,000 MILES OF RADIO

GETTING TO THE GRASS ROOTS IS THE WINNING FORMULA FOR 'RADIO'S NUMBER ONE ROAD SHOW'

THROUGH RADIO's power of mobility, a 20th Century version of the old New England town hall meeting is unfolding in cities and towns across the United States. One week it may be Phoenix . . . then Philadelphia . . . and after that Hartford. Radio can move around easily, and it moves America's Town Meeting of the Air (ABC Radio, Sun., 8-9 p.m., EST), fulfilling its primary objective of stimulating interest in public issues among the inhabitants of "grassroots America," but also providing an extra "bonus" for the medium of radio. It is believed to be network radio's only show that is almost continuously on tour.

There is little doubt that America's Town Hall, produced by The Town Hall Inc., New York, deserves the title of "radio's number one road show." Here are a few travel statistics about the program (and Town Hall welcomes any comments from challengers to its title):

Since the program first started touring in 1941, it has had more than 200 different points of origination. It has visited 42 states and 14 foreign countries. William R. Traum, director of the radio-television division of Town Hall and producer of the radio program, has travelled more than 300,000 miles in 10 years of association with the organization. Over the past 14 years, the program itself has chalked up some 500,000 miles.

With each passing year, Town Meeting has become more and more a "radio road show." The first year the program toured there was a schedule of six out-of-town originations. Some 40 to 45 cities will be visited this year, but this scarcely indicates the overpowering interest of the program. In the past 15 months, Town Hall has had to decline some 257 requests for originations out of New York!

Mr. Traum is convinced that the consistent and increasing demands for the program not only highlights the durability of Town Meeting, which has been on the air for more than 20 years, but dramatizes the continuing strength of radio. He believes that an educational program, like Town Meeting, proves that radio can be pre-eminent in areas of programming that are thought-provocative, rather than merely entertaining.

Another facet of the touring Town Meet-

YOU CAN MAKE MONEY
IN NETWORK RADIO

THAT'S WHY WE'RE IN BUSINESS, SAYS ABC PRESIDENT KINTNER

LAST WEDNESDAY President Robert E. Kintner of ABC received The Pulse Inc.'s award as "Man of the Year" in the communications industry. In accepting the award at that organization's annual luncheon he commented specifically about the future of network radio and also about the emergence of ABC-TV as a third strong network. His remarks, slightly condensed, follow.

PERHAPS it is ironical that this 14th Annual Pulse Luncheon be held during October, since this month is designated as National Ulcer Month, and the emphasis on ratings in our business must be one basic cause of the disease.

Turning first to radio, let me say that there is no law, no regulation that compels ABC or the other companies to stay in the network radio business. We can stop being a radio network merely by letting our advertiser and station contracts expire; by paying off our telephone bills; and running, at a profit, our own radio stations as independents. Speaking only for ABC, we have no intention of doing this. We are in business for a profit, as are all companies. We continue to have faith in the operation of network radio, to believe that they represent, in addition to a great force for good, a means of making substantial money.

In fact, after a long study of our radio operation and that of our competitors, several months ago we decided to increase our expenditures in programming, advertising, sales, research and all the elements that make up the operation of a network, because we believe we have at least a partial answer to making the radio network business less ulcerous.

We may be wrong. If we are, we will continue to experiment in other ways, with daytime and nighttime, because we know that a business which can do a gross of over $600,000,000 is something not done enough to be buried. We also know that a medium that covers 96% of all homes in America does not have one foot in the grave.

We believe that radio has literally been researched to death: We have been proving there are more radios than telephones; more radios than bathtubs; more radios than women, at least pretty women. Yet radio revenues and radio prices have continued to drop. I think the fault lies not with the public, although audience levels have fallen—or even with the networks, which have not devoted sufficient time, money, and ingenuity in programming; with some agencies, which have taken an easy way out, since their clients want to buy television and it's a glamour buy; and with some advertisers who take the course of least resistance against the entreaties of their distributors and salesmen to "give us television"; and some radio stations, which are constantly attacking the networks for cutting prices and degrading the business, but who, themselves, are important offenders in their local markets.

We are all guilty of doing a bad job in a great medium of communication.

There have been many—and they have been elaborate—studies of radio. It seems to me that they all boil down to one thing: What the great bulk of people, whether they are housewives in the daytime or individuals of the family at night, want is a quality service designed to accommodate itself to what the individual is doing at the time he or she chooses to do it.

I am talking about a refinement of the conception of "my radio" versus "our television." It is axiomatic that radio listening today is not the family gathered together at nighttime for a Fred Allen or a Jack Benny; it is not the old days of no competition for the noontime reading of the housewife; nor is today comparable to 1939-1945, when every news program on a radio network meant a matter of life and death to each family.

In answer to a changing communications world, we—and by "we" I mean the networks, the advertising agencies and the stations—came up with new sales plans, new segmented selling, mostly based on cheap programs of a standard radio type, without proper research and proper perspective, or we over-emphasized a too obvious form of programming. As we recently detailed in our ABC presentation on our new nighttime programming, radio set sales are greater than television; most people have more than one radio set; there is less radio listening in living rooms and more in other rooms and in cars; radio is listened to by individuals and not by the family; radio listeners look for both personal guidance and entertainment; and last, but probably most important, most daytime radio listeners do other things while they listen, while two out of three nighttime listeners concentrate only on the program.

To put it another way, about as many people listen to radio as before, but they do not listen as extensively. To reach the maximum of advantage as a communications medium, therefore, is a job that can be expressed in simple terms: Either the listener has to listen longer when he listens to the radio, or he must be persuaded to come back to radio more often. How can this be done?

First, as to daytime radio, in researching the operation of three networks in the daytime, we discovered, in connection with certain morning ABC programming, there was much higher listening by younger housewives with larger families than there was to other offerings on ABC or the other networks.

Obviously, any appeal that radio can make to the younger person offers a tremendous advantage to the advertiser and to the network. We discovered that this young housewife bias came about particularly in dramatic shows that were more realistic than the regular soap operas and that offered a complete episode every day, or at the

FOUR HOURS A DAY ● SEVEN DAYS A WEEK
most over a period of one week. To this end, ABC is removing the last vestiges of conventional soap opera to meet these requirements. I personally think the clue is here for a rehabilitation of audiences in daytime radio.

The toughest problem is the nighttime, not only because television is a major factor, but also because radio has to satisfy, in some degree, a great variety of persons who are home, in their cars, or in some way have a radio available to them. When television came, we were lulled into a false sense of values by what appeared obvious. Why not turn to music, since television cannot do music as effectively as can radio? The result was a tremendous emphasis by the stations and networks on music. With this music complex there also came a companion one. Why not concentrate a great deal on news, since television cannot do news as speedily as radio?

It was easy for stations, particularly, and networks to go overboard on this concept, because there had been many stations, even in the heyday of radio, which had been successful as music and news stations. This concentration on this type of programming not only had the effect of removing the excitement from radio, but also had an adverse effect on the efficiency of the advertising message, for long blocks of music soon lulled the listener into a kind of half-listening, a kind of half-attention.

The transition period for all radio, as television grew, was this pendulum swing to music, via disc jockeys and other programming forms. It was not the answer to radio's reorientation, but I believe that it did point up that the new kind of listener to radio wanted freedom—freedom to drive the car, to do housework and even to read. Music provides long blocks of entertainment that the listener can turn to and receive short periods of entertainment without the necessity of coming back again and again to finish the entertainment, or the insistence of staying for a long length of time to hear the end.

We believe that the present news and music concepts have proved that people want to be free in radio listening. Watching television, people report they feel a lack of this freedom in that the tv set demands and commands the major portion of their attention while they are viewing. Our research indicates that we should do to meet the demands of the listener for freedom, but at the same time supply to him not just continual music, but real and vital information with a sense of excitement.

This is the reason that we are reprogramming our entire nighttime Monday through Fridays in a way that the listener is free to tune in or out and is enabled to get not only news, but entertaining and practical approaches to his improvement and greater happiness. What we are trying to do is to establish a theme, in each 25 minutes of programming, broken by 5- or 10-minute segments so that the listener will have the freedom to choose at any time during the evening, without being glued to his set. At the same time, however, we have retained what we believe was and is the basic strength of radio: knowing at what time, on a regular basis, particular types of programming can be heard.

Why Networking?

Before I leave the subject of radio, let me make one more comment. From a small group of station operators I hear this almost week-in and week-out. Why do we need any radio network? Why shouldn't everything be programmed locally? Perhaps, in the short run, the local station operator might profit more. He gets 100% of the dollar when he sells a program or a spot on a local basis.

However, I believe that this is a very short-term view of radio and one that will drag the industry to lower and lower levels. If you are willing to accept that radio business should seek the level of records, local newscasts and the limited productions that local stations can afford, obviously there should be no radio networks.

If you believe that a mass medium that covers 96% of all homes in America should continue to have great and instantaneous news services, a variety of skilled commentator opinion; if you believe that the public is entitled to the maximum expenditure for program offerings; if you believe that there is sufficient ingenuity in the communications business to provide programs of national stature, then radio networks do have a place.

In spite of all network radio's troubles, all major radio stations still voluntarily subscribe to networks—a true indication of the vitality of networks as a useful function.

I would now like to turn briefly to the question of television and discuss it in terms of the emergence of a strong third network. One of the worst things that can happen to any business is monopoly. It is bad for those who enjoy it, it is destructive to progress, and it is not in the public interest.

Have you ever stopped to think what the emergence of ABC, as a major television network, means? To the public it means that the listener is no longer confined to a choice of two national programming structures; he now has a third and in the public interest I hope the day will come that we will have a fourth and a fifth.

To the advertiser and agency it means several things. It means that the agency and ad-

veriser now have one of the most important
assets of the business, a greater freedom of
choice. They no longer are dependent upon
their franchises on NBC or CBS. They now
have additional ways of testing new programs,
building new franchises and improving old
franchises. They also know that if the compe-
tition increases, the chances of program
improvement are greater, and they can only ben-
fit from the greater response of the public.
To those who are connected with program-
ing, a strong third network means greater op-
portunity for talent, particularly young talent;
greater opportunity for developing new program
ideas; greater opportunity for doing business in
a creative world.

But in a growing industry, problems always
remain. For the future, I would say the Num-
ber I television problem is the scarcity factor in
the total number of television stations in in-
dividual cities. I am referring to the limitations
that the Federal Communications Commission
has put on the number of truly competitive
television stations in the American communities.

This problem is bound up with and by an
extension of it—namely, the uhf problem. It is
almost literally impossible for a uhf station to
compete successfully in a city where there are
two vhf stations, unless the uhf station was the
first on the air, and even then it is difficult. Uhf
works well in uhf-only markets, but against
strong vhf competition it is not equal to the task.
Yet uhf stations are needed to cover the country.

What is desired, and can be developed by
government allocation, is a truly national televi-
sion service where in the great majority of
the top 100 markets a minimum of three, and
I would hope four, truly competitive—I stress
the word competitive—stations can be located.

Support Antimonopoly Moves

CBS and ABC have recently filed before the
FCC plans whereby competitive television ser-
"vices can be supplied in most of the top 100
markets covering the great bulk of the popu-
lation of the country. I will not appraise the
CBS plan here, nor argue for the ABC plan,
but I do believe that everyone interested in the
business must support prompt government action
to diminish present station monopoly.

Through deintermixture, that is the removal
of uhf or vhf stations from some cities; through
reallocation of vhf stations now assigned, but
unused in less populous communities; through
the opening up of educational stations which
are not going to be used for any real purpose
to regular programming, we can build compe-
titive services in most of the top markets of
the country. We believe that this is one problem
left in the communications industry that will
plague and vex not only the industry, but the
public as well, for the rest of its days unless
action is taken soon. Faster FCC action is also
needed on vhf grants in such cities as Pitts-
burough, Boston, and Miami where the vhf al-
locations are there, but undecided.

It is axiomatic to us that the large bulk of
the population of the country is entitled to
have at least three choices of national program-
ing. Obviously, it is in our selfish interests,
but it is also in the interest of the advertiser and
the agency and the viewer. When this problem
of scarcity is solved by the government, as I
am sure it will be, then you will find that this
portion of the communications business will
be more competitive than radio ever thought of
being, because with radio in its heyday there
remained the scarcity of clear channels which
contributed to an unequal situation among the
networks.
NEW SYSTEM TESTS TV EFFECTIVENESS

Gallup & Robinson executive explains how company's Direct Purchase Index tells whether TV commercials actually sell.

A NEW SYSTEM for measuring the sales effectiveness of television was described Thursday by Leyton E. Carter Jr., vice president and director of television, Gallup & Robinson, Princeton, N. J., at an American Marketing Assn. meeting in New York.

Rating services provide the measurement of audience size for an advertiser's TV show, which Mr. Carter called "the measurement of opportunity." The impact-playback technique introduced by his firm some four years ago gives "some objective measurement of the sales themes and ideas which are communicated to the TV audience," he said, but a gap still remains "between the buying of TV time and knowing its effect on sales."

What is needed, he said, is "a meter on the pipeline of customers coming into the market from television for a particular brand." That meter, Mr. Carter explained, was consumers answers to a simple question which Gallup & Robinson had first used in conducting kitchen inventories: "In the past eight weeks, what things have you bought as a direct result of seeing them advertised on television?"

From this, he reported, "we have developed the Direct Purchase Index, which is simply the number of people per thousand who say that they have bought a given brand in the past eight weeks as a direct result of television—and who can prove it."

The proof: First, the G & R kitchen inventory reveals that the product is actually in the home. Second, the person must testify to having seen the commercial. Third, the person must describe or "play back" the commercial itself.

"A slightly different piece of evidence is that products which are not advertised on television are almost never mentioned," Mr. Carter explained.

PARTNERS in the Kal, Ehrlich & Merrick agency exchange congratulations on the completion of a third of a century in the advertising business in Washington, D. C. Left to right: Norman C. Kal, who started the agency in 1922, Harry L. Merrick, Alvin Q. Ehrlich and Bernard R. Linkins.

DON'T OVERLOOK THE FACTS

Fact Number 3 for the VITASCAN color TV system

1. Permits color broadcasting on modest budgets. Costs no more than monochrome I.D. system. May be used for monochrome as well as color.
2. Camera employs simple cathode-ray tube costing only $100. Life expectancy of 4000 to 5000 hours, or approximately 2 cents per hour cost.
3. No need for large, heat-generating banks of lights. Eliminates elaborate air conditioning requirements.
4. Keep watching this space for more revealing facts!

stated, "People are not confused among radio, television, magazines and newspapers."

Two case histories were used as illustrations of the main advantage of the Direct Purchase Index—that an advertiser may know very quickly just how well his current television advertising is doing in producing sales." Saran Wrap, Mr. Carter recalled, started on tv in the fall of 1953. "It was on three tv shows that year and the index shot up rapidly in the fall to 60 and then to 96. In June, when it was dropped from two television shows, it went down sharply. Then, in the fall of 1954, Saran Wrap was on a very popular show, 'Medic,' and the index rose again and in March had continued to rise."

Gleem toothpaste is another "outstanding tv success," Mr. Carter said. "In February 1954, the Direct Purchase Index for Gleem was 50. In April it went up to 91 and from April to December showed a slight but steady decline. However, in March it rose slightly again and appears still to be doing a powerful job in winning new customers and inducing old customers to return to Gleem."

**HOW MUCH SHOULD A CLIENT SPEND?**

THE BUDGET ADVICE that an agency should give its clients was discussed last Wednesday by Sherwood Dodge, vice president and general manager, Foote, Cone & Belding, New York, who said the "soundest recommendation from an agency point of view is the one which will produce the greatest long-term profits for the client.

Mr. Dodge, in his talk before a luncheon meeting of the International Advertising Assn., in New York, outlined a research method used by his agency.

With aid of charts, Mr. Dodge showed what he said was the "relationship of changes from year to year in the percent of the brand's total advertising budget received by a particular market, and the percent of sales accounted for by that market."

Mr. Dodge also said that he thought too much time is being spent these days in analyzing why people prefer one brand product to another, instead of looking into the behavior patterns set by the American public. "Too often we have learned only what people think they think," instead of what they actually do in the final act. Calling the latter "performance research," Mr. Dodge reported that PCARB had long gone into testing people, via "blind products" to see what the American buying public would actually do, rather than what they said they would do under the discomfort of a sampling interview.

Blankenship to Bates & Co.

**DR. A. B. BLANKENSHIP**, manager of research department, Young & Rubicam, New York, has joined Ted Bates & Co. as vice president and research director. Dr. Blankenship studied under a Rockefeller Fellowship and spent several years as associate professor of marketing at Temple U., Philadelphia. Before joining Y & R he was senior research associate with Stewart Dougall & Assoc., New York.

Open Tv to Smaller Advertiser—Breckner

LOCAL and regional advertisers must be allowed equal access to television with the large national advertisers, during the prime evening hours as well as other time periods, Robert Breckner, vice president in charge of programming of KTVT (TV) Los Angeles, said Friday in a talk to the Advertising & Sales Club of Seattle.

Mr. Breckner quoted from the B&T interview with NBC President Sylvester L. Weaver [B&T, Feb. 28] in which Mr. Weaver said that whereas it didn't matter too much if the big companies took over radio, this is not true of television: "If television were limited, for instance in the soap field, to the Big Three, the other companies would go out of business, literally go out of business. They could not compete without television, in terms of selling."

Agreeing that all advertisers must have access to tv, Mr. Breckner said: "When we talk about access to television for the medium sized or small advertiser, the regional or local advertiser, there's only one kind of access that counts. That's equal access, equal with the national advertisers."

Noting that the best and most effective hours on tv are the mid-evening time when it is convenient for the public to watch tv, Mr. Breckner declared that, to have equal access to television, the local or regional "must have access to these prime viewing hours. Any arrangement which reserves these choice viewing periods for the great national advertisers, but which says to the smaller company that he can use television only during the less valuable time periods, is not wholesome and is not right."

William S. Walker

DIES OF HEART ATTACK

Mr. Walker founded WWSW Pittsburgh in the late twenties and in later years was part owner of KQV in the same city. In 1920 he and Harold Downing formed the advertising agency bearing their names.

He is survived by his wife, Elsie W. Walker.

Hoyt Co., McAtee Adv. Will Merge on Nov. 3

CHARLES W. HOYT Co., New York, will merge with John R. McAtee Adv. Inc., Miami, Fla., effective Nov. 3, Winthrop Hoyt, board chairman, announced Friday. The Hoyt Co. will now have offices in three cities—New York, Miami and Hartford, Conn.

Move was made, according to company spokesman, in order to absorb the Eastern Shipping Corp. account handled by the McAtee firm, and to give Hoyt a southern base of operations "in anticipation of business expansion in the Caribbean resort area." Mr. McAtee becomes a vice president of the Hoyt company and will manage the Miami office.

We Had To Turn Out The Lights
To Get Them To Leave

“Nighttime radio? Forget it — everybody’s watching television.”

Tain’t so in Philadelphia . . . at least, not on WPEN.

From 9 o’clock at night, people come by the thousands to the WPEN studios to watch and participate in our programs. And we don’t give a thing away. (We actually had to hire a hostess to handle the crowds.)

Can you imagine — in staid Philadelphia — a full house every night till five in the morning? Fact is, we have to turn out the lights to get them to go home.

Programming like this is one of the reasons why WPEN has the GREATEST RATING INCREASE*, the LARGEST OUT-OF-HOME LISTENING*, and MORE LOCAL AND NATIONAL ADVERTISERS** than any other station in Philadelphia.

The Station of Personalities
WPEN
Philadelphia

Marschalk & Pratt Elects Three V. P.'s

THREE executive changes, effective Nov. 1, at Marschalk & Pratt Div. of McCann-Erickson, New York, was announced last week by Samuel L. Meulendyke, M & P president. Elected vice presidents were William C. Munro, Russ Johnston and E. George Cloutier.

Mr. Munro has been head of radio-television research at McCann-Erickson and before that was with Geyer Adv. as an account executive on the Kelvinator Div. Prior to that he was with George Gallup in a copy research capacity.

Mr. Johnston has been vice president in charge of radio production at McCann-Erickson for the past year and for six years prior to 1948. In the interim, he was vice president in charge of radio and tv for Ward Wheelock Co. (now defunct). At one time program head of CBS Hollywood, he also set up and directed the film division of NBC.

Mr. Cloutier was formerly with J. Walter Thompson, New York, and Lewis & Gilman, Philadelphia. At Thompson, he was copy group head and contact group head on the Eastman Kodak account.

'Spot Radio Report' Expands List of Cooperating Agencies

PROGRESS toward expanded coverage of spot radio information was reported last week by Executives Radio-TV Service, Larchmont, N. Y., which has added 13 agencies to the list of those cooperating with its monthly Spot Radio Report.

The publication now has a reporting source of 60 leading advertising agencies across the nation, according to James M. Boerst, publisher. Latest agencies offering cooperation are Buchen Co., Dancer-Fitzgerald-Sample, W. B. Doner, Doyle Dane Bernbach, Hewthrop Adv., Hicks & Greist, Kenyon & Eckhardt, Dan B. Miner, Sherwin Robert Rodgers, Ross Roy, Silton Bros., United States Adv. Corp. and Wesley Assoc.

The upsurge in agency cooperation, Mr. Boerst said, indicated "an encouraging trend on the part of agencies to bring spot radio activity into the open." He observed that agencies "are the only source of complete activity for each individual client," and added:

"Even more encouraging is that this trend is extending to advertisers. Many advertisers who in the past refused permission for the publication of their spot radio activity are now giving that permission to their agencies without hesitation."

'Journal' Forecasts 1956

As Record Advertising Year

BUSINESS will spend more than ever before on advertising in 1956, according to the Wall Street Journal, and higher tv costs aren't scaring away the big spenders who can afford to pay for choice time and programs.

Of 103 large and small companies questioned in a Journal survey, 65 plan bigger advertising budgets for 1956, 12 can't or won't say, 24 report no change and 2 say they will decrease their spending. An overall increase of 10% or more is predicted over last year's outlay of $8.5 billion.

"Going by what our clients are planning now, I'd say that advertising next year will go up about 15%," says Fairch M. Cone, president of Foote, Cone & Belding.

Much of the increase, according to the Journal, will reflect only higher advertising rates. A survey made by Standard Rate & Data Service shows that of 427 tv stations, 137 boosted their one-hour, one-time Class A rates by an average of 22%. Magazines and newspapers had similar increases.

There also has been a considerable amount of shifting advertising among various media, with network radio showing the only decrease. Network television showed the biggest jump, 36% for the first eight months of 1955 over a similar period last year.

An example of increases of two large companies:

"The largest increase in our 1956 budget, which will be higher than 1955, will go into tv," says an official of the Ford Motor Co. The firm's Fird Div. added the one-and-a-half hour Ford Star Jubilee on CBS-TV to its advertising program this year. Westinghouse will lay out $5 million to sponsor tv and radio coverage of next year's political conventions and elections as well as a series of debates between the leaders of both parties.

Encore Buys Half-Hour, 25 Spots in N. Y., Phila.

UNITED STATES Tobacco Co. (Encore cigarettes), New York, through Kudner Agency, New York, is using television strongly in two areas—New York and Philadelphia—according to L. A. Bantle, vice president of the company. The schedule includes spot announcements as well as a fully sponsored half-hour show in each territory. Future plans include a market-by-market expansion of the campaign.

In the New York market, Encore sponsors 25 spots, including weather reports and a half hour show, Fabian of Scotland Yard, Saturday nights on WRCW-TV.

In Philadelphia, Encore underwrites Favorite Story on WPTZ (TV) Saturday nights, plus the same number of spots—25 weekly—on such shows as Today, Tonight, Home, Tennessee Ernie, Feather Your Nest, Here's Jack Wilson, It Pays To Be Ignorant and the Saturday Night Movie.

Hazel Bishop Buys 10 CBS Radio Serial Strips

HAZEL BISHOP Inc. has purchased 10 segments of four Monday-through-Friday CBS Radio daytime series, effective Jan. 2, 1956, John Karol, vice president in charge of network sales, announced Wednesday.

Described by the network as "a major purchase of radio network time," the Hazel Bishop contract points out increased and renewed interest among major national advertisers in network radio, Mr. Karol added. He noted also that Hazel Bishop last August had achieved a total mail pull of some 200,000 letters over a two-week period when it made lipstick and compact offers on four of the network's daytime series.

In the new purchase, Hazel Bishop, through Raymond Spector Co., New York, on behalf of its lipstick, Complexion Glow, nail polish and compact makeup products, will sponsor three segments weekly of Backstage Wife, two segments weekly of Our Gal, Sunday, three segments weekly of Second Mrs. Burton and two segments weekly of Perry Mason.
How adequate house monitoring can help you sales-wise

When a client visits your office, are you able to punch up any on-air signal... color or monochrome... on the channel selector of your nearest TV receiver? Or, are you limited when it comes to station monitoring? Wouldn't it give you a “selling aid” to be able to go to your channel selector and receive:

a. Any rehearsal... live program... preview of sponsor’s film
b. Any on-air show... from studio... from transmitter
c. Other local stations’ off-air signals...

A sales plus in the Sales Manager’s office

With a modern RCA signal distribution system you can flip the switch and bring in whatever your customer requests. Handles all studios in rehearsal, on-air signal, or any local station. Up to seven channels are available... tailored to your own special requirements... for monochrome and color.

How the house monitoring system works

Local and remote signals (audio and video) are fed to a closed circuit transmitter of the monitran type. An RCA monitran handles local signals—one monitran is used for each signal.

The output of the monitran is then fed to an RF amplifier. Off-air signals go directly to the input of the amplifier. All signals are fed via a single coax cable to any standard TV receiver. In the RCA system, the receiver need not be “jeeped.” No expensive video monitors are required since standard receivers are used.

Fully rated for color

Whether for color or monochrome you’ll find the RCA house distribution system—low in cost, easy to install and operate, and fully satisfactory for picture quality.

Your RCA Broadcast Sales representative will be glad to advise you on the equipment best suited to your needs.

SEVEN PICTURE SOURCES TO ANY LOCATION VIA A SINGLE CABLE

Cunningham Says Adv. Abets Stable Economy

Agency president tells Ohio U. conference that more efficient advertising is needed to keep consumer demand up with mass production.

More efficient advertising was urged last Friday by John P. Cunningham, president of Cunningham & Walsh, as a means of helping to maintain a stable economy in which mass consumption will keep pace with mass production.

Mr. Cunningham called it a challenge in the course of a talk before the advertising and sales promotion conference of Ohio State U., observing that economists fear an economic crisis unless consumer buying can continue to absorb the production output of U. S. industry. The advertising field can make its contributions toward creating consumer desire for products, he said, but advertising must be made more efficient and some of its traditional thinking overhauled.

Some of the suggestions offered by Mr. Cunningham were: get the copywriters out of the offices in the large cities and put them in retail stores throughout the country to learn more about the consumers; give radio and tv thinking "a little brainwashing" by cleaning up some of the "commercial evils so that sound advertising can be trusted"; convince clients on pre-testing all things which can be pre-tested; sell luxury items hard and on a broader base; sell products more, but premium and "deals" less; put more emphasis on point-of-sale, with more efficient sales persons employed at this level.

Other speakers at the conference included Arno H. Johnson, vice president and director of research, J. Walter Thompson Co., on "Advertising's Job in the Continuing Expansion of Our Economy"; Fred B. Manche, director and chairman of the Advertising Research Foundation and executive vice president of BBDO, on "How Research Is Used in the Development of Effective and Creative Advertising"; Robert Foreman, vice president in charge of radio and television, BBDO, on "Television--An Advertising Medium, Rare, When Well Done," and Charles L. Whittier, chairman of the board, Simonds, Payson Co., Portland, Me., on "Creative Advertising."

Socony Buys ABC Film Series For First Major TV Venture

A major TV spot buy by Socony Mobil Oil Co. of 26 half-hour episodes of Mobil Theatre, dramatic TV film anthology series, for 60 markets, was announced last week by George T. Shupet, president, ABC Film Syndication. Mr. Shupet noted that Socony thus enters into its first "substantial" TV venture. The firm in the past purchased announcements or programs in only a few markets. "Mobil Theatre will star Gordon Oliver as host and will be produced by Douglas Fairbanks Jr. with the starting date of the series set for about the middle of November.

Prudential Ups Sponsorship

Prudential Insurance of America, through Calkins & Holden, New York, will become full-time sponsor of CBS-TV's You Are There (Sun., 6:30-7 p.m. EST) effective Nov. 27, following departure from the show of alternate-week sponsor Electric Co. of America. Latter is said to be considering NBC-TV's Project 20 next year, which had been cancelled by Pontiac Div. of General Motors Corp. (B&T, Oct. 24).
For outstanding service to Georgia agriculture the top radio award goes to **WSB**, the Voice of the South

This award was made by the Georgia Farm Bureau Federation on October 10 in recognition of WSB Radio's progressive and active farm programming for the betterment of Georgia farmers and farming in 1954-1955. It is another laurel to be added to the scores already earned by WSB Radio throughout thirty-three years of broadcasting in the public interest. No other Georgia radio station—or economical combination of Georgia stations—gives advertisers an audience as large and as loyal as does WSB Radio.

Mike McDougald
WSB Farm Director
Age of Consent

RADIO-TV is coming of age on the New York Stock Exchange. The exchange's public relations and market development staff has issued amended rules as authorized by the board of governors, one of which (rule 703) states expressly that members, member firms and member corporations must obtain consent of the exchange before broadcasting quotations. Also, the amendment adds this: "the text of all commercials and program material (except lists of market quotations) about securities or investing sponsored by members, member firms or member corporations on radio, television or public telephone market reports, or program material supplied to these media, shall be sent to the exchange promptly following the program in which it is used."

Chicago Pontiac Drive Set

ALLOCATION of $200,000—or 40% of its advertising budget—has been earmarked by the Pontiac Dealers of Metropolitan Chicago for broadcast media in a campaign starting today (Monday). Radio and tv spot announcements will be used locally and in the Greater Chicago area, including parts of Indiana, according to Marvin Gordon, president of Marvin Gordon & Assoc., which handles the account.

Little Lauds Ad Media For Helping Agencies Grow

TRIBUTE was paid last week by Henry G. Little, president and chairman of the board, Campbell-Ewald Co., Detroit, to the various advertising media for their contributions in helping advertising agencies to flourish. In a talk before the Minneapolis Advertising Club, Mr. Little traced the role of the advertising agencies as primarily a "broker of space" in the printed media in their earliest days to their present function of acting as a "highly specialized group of advertising technicians concerned chiefly with serving our clients." This shift in approach by the agencies, he said, has been followed by support from the major media, covering marketing and merchandising activities and direct sales assistance by such media organizations as tvB, RAB, Bureau of Advertising of ANPA and Magazine Advertising Bureau.

AGENCY APPOINTMENTS

State Pharmaceutical Co., for its All-In-One reducing tablets, appoints Schwimmer & Scott Inc., Chicago.

Corning Glass Works, Corning, N. Y., appoints BBDO, N. Y., to handle its institutional advertising, effective immediately.

Dugan Brothers (Roman Meal bread and Brown 'n Serve rolls), N. Y. and N. J., appoints Roy S. Durstine Inc., N. Y., effective immediately.

Doyle Packing Co., Chicago, names C. Wendel Muench & Co. as agency for Strongheart dog food, which will be promoted by half-million dollar campaign.

Know Your Car Correspondence Course, division of Roberts Technical & Trade Schools, N. Y., names William Warren, Jackson & Delaney, N. Y., Radio will be used. Stevens P. Jackson is account executive.

California Motorist Insurance appoints Honig-Cooper Co., S. P. Radio and television spots will be used in northern California.

Brophy Says Advertising Accelerates New Products

BECAUSE advertising can accelerate the "regular acceptance of new products" and because it can "lift the level of acceptability of established products," it unleashes a tremendous flood of new demand and new employment."

This appraisal of advertising was given Thursday by Thomas D'Arcy Brophy, board chairman of Kenyon & Eckhardt Inc., New York, before a luncheon meeting of the Rochester, N. Y., Ad Club. Mr. Brophy, who saw advertising as the biggest factor in job-making, reviewed the histories of successful deodorants, new instant dessert puddings, frozen foods and air conditioning as examples of businesses which became successful through advertising. He pointed to supermarket merchandising as a prime example of how customers are pre-sold to a greater extent than ever before.

LITTLE LAUDS AD MEDIA FOR HELPING AGENCIES GROW

TRIBUTE was paid last week by Henry G. Little, president and chairman of the board, Campbell-Ewald Co., Detroit, to the various advertising media for their contributions in helping advertising agencies to flourish. In a talk before the Minneapolis Advertising Club, Mr. Little traced the role of the advertising agencies as primarily a "broker of space" in the printed media in their earliest days to their present function of acting as a "highly specialized group of advertising technicians concerned chiefly with serving our clients." This shift in approach by the agencies, he said, has been followed by support from the major media, covering marketing and merchandising activities and direct sales assistance by such media organizations as tvB, RAB, Bureau of Advertising of ANPA and Magazine Advertising Bureau.

A&A PEOPLE

L. Martin Krautter, vice president, general manager and account executive, Maxon Inc., Chicago, elected to board of directors.

Jeff Wilson, Al Paul Lefton Co., Philadelphia, named vice president and general manager of agency's Chicago office, in line with expanded activities in that city. Also from Philadelphia to Chicago: Hershel Brown, creative planning; Albert A. Gillis, art director, and Morton Neufield, in charge of production.

Gene Patterson, with Dancer-Fitzgerald-Sample, N. Y., for past six years, promoted to senior program and script supervisor in radio- TV department, Mr. Patterson will report to David N. Y., to Dancer-Fitzgerald-Sample, N. Y., as account executive.

Arthur M. Jones Jr., J. Walter Thompson, N. Y., to Benton & Bowles, N. Y., as vice president and account supervisor. He has been with JWT 10 years.

Mary Smith and John P. List appointed vice president and comptroller, respectively, of Trendex Inc., New York, national rating service. Miss Smith will continue to direct field staff operations as well as service accounts. Mr. List continues to handle firm's financial matters.

George R. Plass, Ben M. Hines and M. Frank Cummings appointed to new staff posts in Baker-Gaines Div.. General Foods Corp., White Plains, N. Y. Mr. Plass, assistant director of corporate marketing, named marketing director; Mr. Hines, special projects manager in company's new products dept., made manager of product development; Mr. Cummings, controller of Gaines div., appointed Baker-Gaines div. controller. Dr. Roger M. Bellows, industrial psychologist and founder of Roger Bellows & Assoc., Detroit personal management consulting firm (dissolved), to General Foods Corp., White Plains, N. Y., as director of personnel research and communications.

Peter Keveson, vice president and tv-radio copy chief, Lennen & Newell, N. Y., to Doherty, Clifford, Steer & Shenfield, N. Y., as director of tv-radio commercial copy.

Sumner J. Lyon, film producer, Princeton Film Center, Princeton, N. J., to Lennen & Newell, N. Y., as assistant director of television commercial production.

Robert Wannamaker, copy supervisor, Fulton, Morrissey Co., promoted to assistant creative director. Frank Stephany, assistant crafts editor, Popular Mechanics, to public relations division of Fulton, Morrissey.

Harry F. Baum, appointed manager of advertising research department, Jordan-Sieber & Assoc., Chicago.

James A. Berg, assistant to advertising director, Fruehauf Trailer Co., Detroit, to promotion-merchandising department of Grant Adv. Inc.

Edwin B. Grauer, formerly with J. Walter Thompson Co., Detroit, to Grant Adv. Inc., same city, as copywriter on automotive and related copy.

Maye Saddenmire, fashion coordinator and copy chief, Galbraith-Hoffman Adv., N. Y., to Anderson & Cairns, N. Y., publicity department.

Jerome Simon to account service staff of Krupnick & Assoc., St. Louis.

Donald A. Owens, McCann-Erickson, N. Y., appointed traffic manager, Product Services Inc., N. Y.

David Russell to Emil Mogul Co., N. Y., copy department. He formerly was with Stockton-West-Burkhart, Cincinnati.

SWEZYE URGES TV INDUSTRY AT REGION 8 TO RETAIN PROGRAM STANDARDS CONTROL

Three-day session in San Francisco marks NARTB's fifth regional meeting this year. Registration of 247 described as one of largest regional turnouts. Mr. Swezey, WDSU-TV executive vice president-general manager, also takes swing at pay tv.

THE TELEVISION industry should retain control over programming standards and not adopt a "let George do it attitude," Robert D. Swezey, executive vice president and general manager of WDSU-TV New Orleans, said last Wednesday before NARTB's Region 8 meeting in San Francisco.

Mr. Swezey said the television industry several years ago awoke to public criticism of programs in the nick of time and produced the code of ethics "which saved us."

If we hadn't had the code, gentlemen, we would have been in real trouble," the past chairman of the NARTB Television Board told the meeting. Featured speaker at Wednesday's luncheon meeting, Mr. Swezey said a few station operators are "still grumbling" about the code, but he characterized these as the short-sighted few who can see only immediate profits.

Held Monday through Wednesday at the St. Francis Hotel, the Region 8 meeting reported a registration of 247. It was described as one of the biggest turnouts of the five regional meetings to date this year. Region 8 includes Districts 15, 16, and 17 (Alaska, Arizona, California, Hawaii, Nevada, Oregon and Washington).

His Pay-Tv Pitch

The WDSU-TV executive also took a swing at pay-tv advocates and their claim that subscription television would be merely supplemental to the present free system. He pointed out that the Zenith petition to FCC explained that box office tv would telecast quality programs which the public would be willing to pay to see. He interpreted this to mean pay tv would seek any program which it felt the public rated highly, hence would pay for, thus leaving nothing worthwhile for free television. The economics of box office tv could drive top talent into its stable as a result, he said.

"I would rather sell fish on the San Francisco Fisherman's Wharf than run a nickelodeon for Mr. McDonald [Zenith], or anyone," Mr. Swezey explained. "The television business is too important for operators to continue to 'let George do it,'" he said, calling for greater vigilance.

The television code also highlighted Wednesday morning's panel discussion by Dorothy Brown, continuity acceptance editor for ABC Western Div. at Hollywood; Philip G. Lasky, general manager of KPIX (TV) San Francisco, and Edward H. Bronston, director of television code affairs for NARTB. They were introduced by Thad H. Brown Jr., NARTB vice president for television, who presided over Wednesday's "Televising Day."

Miss Brown called the surveying of program material a "traffic cop" function for all station management, describing the code as the common sense "traffic regulations" of the airways. Although difference of opinion is the American way, she said, a sincere effort "to do the right thing at the right time" is the most that can be expected of any station or network.

Urging management to stand firm in its code interpretation regardless of what others accept or reject, Miss Brown said station operators might come to realize "the license we save may be our own."

Mr. Lasky described the code as "good business." Television is a commercial success, he said, "and to keep it so, we must keep it acceptable." Only a few "back sliders" can cause a swing of public opinion against the industry, he cautioned, when their deviations are seized upon by the "false prophets" of the critical minority.

The KPIX executive said strict adherence to the code in action, not lip service, is necessary to hold public confidence. To assure the acceptability of his station's film programs, Mr. Lasky said, the program director screens a random selection of a proffered series, never the salesman's samples. Each film contract includes an automatic rejection clause if the material fails to meet code requirements, he said.

Clete Roberts, news analyst for CBS-owned KNXT (TV) Los Angeles, related experiences RELAXING during sessions of the NARTB Region 8 meeting are (1 to r) Harold See, KRON-TV San Francisco; Len Higgins, KNTV-TV Tacoma, Wash.; Ted Cooke, KOIN-TV Portland, Ore.; William Goetz, KFSD-TV San Diego; Howard Lane, KOIN-TV; Clyde Coombs, KARM Fresno, and George Whitney, KPMB-TV San Diego.
TODAY, medical and nursing authorities are recommending home care for more and more patients...especially if someone in the family is skilled in home nursing.

There are several reasons why home nursing is of such great importance now. Nearly all of our country's hospitals are crowded. In fact, they care for more than 20 million patients a year.

Naturally, doctors, nurses and their assistants are busier than ever before. So, whenever a patient can be adequately cared for at home, hospital beds and personnel are freed for more serious cases.

Moreover, the cost of a long hospital stay is a heavy financial burden to the average family...as well as a source of worry to the ill person.

Lengthy hospitalization may also make the sick person depressed and even doubtful of his recovery. These attitudes can often be offset when the patient can safely and conveniently be cared for within the family circle. In fact, familiar home surroundings and family companionship can often help to hasten recovery.

Fortunately, in such circumstances, home nursing can usually be performed adequately by a family member under the direction of the doctor.

To give the best possible help to an ill person, however, the home nurse must know how to follow the doctor's specific instructions, and be able to care for both the physical and emotional needs of the patient. In addition, the home nurse should be prepared to make some simple but essential observations which help the doctor determine the patient's progress.

Suppose you had to give home nursing care to someone in your family. Would you know how to do any of the following:

1. Could you carry out a doctor's orders to observe and record a patient's breathing, or to take his pulse?
2. Help a sick person overcome fears and anxieties?
3. Persuade a child to take medicine?
4. Help a bed patient maintain comfortable posture?

Since illness may occur unexpectedly at any time in any family, someone in every household should be a qualified home nurse.

You can learn more about home nursing skills in free courses given in most communities by the American Red Cross.

in obtaining film news for television. He said film can be handled almost as quickly as tape in radio, and said TV newsmen today enjoy greater acceptance than any other medium. A highly successful technique is to "take the audience with you" on a news story or interview, to include them as on-the-scene spectators to the actual event.

An off the record business session on television problems Wednesday morning heard Otto F. Brandt, vice president and general manager of KING-TV Seattle; John C. Cohoon, president and general manager of KSBW-TV Salinas, Calif.; Harold P. See, station manager of KRON-TV San Francisco, and A. Prose Walker, NARTB manager of engineering.

TVB Makes Presentation

The Television Bureau of Advertising presented its slide film discussion of "Television—The Selling Machine." It was given by Oliver Treyz, TVB president, and Norman (Pete) Cash, director of station relations.

William D. Pabst, KFRC San Francisco, was host director of the three-day meeting. Other participants from the region included Richard M. Brown, KPOJ Portland; Calvin J. Smith, KFAC Los Angeles, and H Quentin Cox, KQFM (FM) Portland.

Mr. Pabst was presented a redwood gavel by William P. KJRC Eureka, Calif.; C. E. Arney Jr., NARTB secretary-treasurer, appearing in the absence of President Harold E. Fellows, spoke at the Tuesday luncheon. After a word to Mr. Fellows and his association accomplishments, he outlined the need of a strong association to resist increasing efforts to invade the private system of broadcasting. He told how industry unity can combat federal and state legislative attacks if "the government ever gets its nose under the program tent, you're out of business," he warned.

Judge Justin Miller, NARTB consultant and former board chairman-president, was given an ovation Tuesday. He spoke at the morning meeting on efforts to obtain radio-TV admission to the courtroom (see story page 74).

At a radio "bull session" conducted by John F. Morgan, radio vice president-cur rent operating problems of radio stations were discussed. Lee Bishop, KORE Eugene, Ore., led a small market roundtable and Cliff Gill, KBKU Avalon, Calif., led a large market discussion.

The west coast broadcasters joined the move that has developed for a poll of the membership on the proposal to change the association's name back to National Assn. of Broadcasters. In adopting 10 resolutions, the region called for a campaign to obtain legislation keeping all times in the same zone to avoid radio and TV confusion; urged manufacturers to step up development and production of personal radio sets; endorsed the regional meeting idea instead of the former 17 district meetings; called for a study of ways to resolve the confusion in program rating services; thanked Com. E. M. Webster and others who participated in the program; regretted inability of President Fellows to attend because of illness (BT, Oct. 17), and thanked the St. Francis Hotel for its cooperation.

In an address distributed to delegates in printed form, President Fellows reviewed the problems of station managers and saluted them for their handling of complex business affairs. "Knowing the man and you'll know the station," he said.

Reports on state association activities were given Tuesday by Richard B. Rawls, KPHO Phoenix, for the Arizona group; Mr. Lasky, for California, and Mr. Brown, for Oregon.

Members of the Resolutions Committee were William J. Beaton, KWHB, Calif., chairman; Tom C. Bostic, KIMA-TV Yakima; James J. Dunlevy, KYJC Medford, Ore.; Charles Hamilton, KFI Los Angeles; Art Westlund, KKE Berkeley, and Mrs. Hugh McClung, McClung Broadcasting Co.

Reviewing latest trends in labor, Charles H. Tower, NARTB employee-employer relations manager, stressed the importance of staff promotions and salary increases. He listed two principal types—within grade (job) increases based on merit and seniority, and promotion increases. These encourage the best job performance from the staff, he said.

Mr. Tower listed such factors as quality of work, quality of work in some types of broadcast activity; attitude and initiative especially in creative jobs. Delegates showed interest in problems of salesmen's compensation and discussed NARTB's newest studies (BT, Oct. 24). Mr. Tower followed his Monday radio employment session with a general review of labor problems on Wednesday afternoon, final feature of the convention program.

NARTB Engineering Manager Walker said NARTB has started to compile remote control engineering data at five 50-kw stations. Two of the stations are directional—KSCO Seattle and WOWO Fort Wayne, Ind. The other three, non-directional operations, are KDKA Pittsburgh, WHAS Louisville and WSB Atlanta.

Participants in an audience participation panel at Monday's radio meeting were Mr. Beaton; Charles H. Tinsley Jr., KHSI Chico, Calif.; Frank H. Logan, KBND Bend, Ore., and J. G. Paltridge, KROW Oakland, Calif.

MORGAN TELLS NARTB RADIO BEST FOR SELLING

Advertising executive advocates use of premiums to get results; says ratings not a criterion if program sells.

Radio offers the "fastest, cheapest and surest way to sell merchandise" ever developed, in the opinion of Raymond R. Morgan, president of the Hollywood Advertising Club. Mr. Morgan backed up this claim at the NARTB regional meeting in San Francisco last week by citing a series of radio success stories that have made media history. He spoke at the Monday Radio Day luncheon.

"The best way to get something is to give something," he said a radio campaign must be based on a "free offer, the right angle and the right copy." Ratings don't concern him if the station sells goods, he said, recalling an instance in which a Southern California program with an "0.0 rating" brought 8,000 letters when a free breakfast was offered.

Premiums and offers form the background of many successful campaigns, Mr. Morgan said. He cited the case of McMillen Petroleum Co., explaining that the old KEJK Beverly Hills (later KMPC) was brought in radio's early days to promote gasoline "16 hours a day." After volume had increased, "One evening we offered a budget book premium that cost only a few cents," he said. "Five minutes later Norma Shearer drove in with her big imported car to ask for a book. In 30 days one station had increased from 200 to 2,000 gallons a day." Later coupons were offered for two free gallons of gasoline.

A later offer on KJBS San Francisco, he continued, offered a dictionary for a dime and the label, "If you can sell a can of soup we were buying a carload of dictionaries a week," he said.

Another success story centered around White King soap. Mr. Morgan said dealers have taken away 80% of the homes in the marketing area. With only a fifth of 7 million homes as a potential, White King has sold soap "by buying more and more radio," he said, plus a color series in American Weekly and big media.

"The heavy load has been on the broad back of radio," he explained.

Don Lee Cornerstone

White King radio has included 16 years on 80 Don Lee stations as a cornerstone, plus MBS Queen for a Day on 583 MBS stations. "Nothing but radio delivers bontos so fast," Mr. Morgan said. "Radio produced 4½ million bontos for White King from 7 million homes. Four-and-a-half million people went out and did what we asked them to do on radio. A commercial with an offer gets two times the attention.

"Remember, a customer uses two cases of soap a year," he said, comparing it to coffee as a customer-getter for food stores. He explained $40 out of every $1,000 business in a food store is coffee and $12 is soap. "Coffee and soap you sell with," he explained, and should be in the back of the store. Coffee consumption amounts to 63 pounds per family per year, he estimated.

Going into the Folger coffee radio campaigns, Mr. Morgan declared one offer in the San Francisco series brought in 600,000 Folger labels. In another instance, a radio offer brought $22,000 pieces of mail in a single day, and 1.2 million in a week.

He saluted radio pioneers, listing a score of executives who have been active in the medium's development.

"To stay on top, stay with the force that put you there," he urged.

"Millions of dollars of farm advertising are going to other media and could be channeled to radio if stations did a better farm programming job, Mal Hansen, WOW Omaha, told radio delegates Monday. There is the real tool to reach the tremendous farm market, he listed these advantages:

1—There is almost complete radio saturation on farms—58% of farmers have more car radios (67%) than city people.

2—Farmers use radio 13% more than city people; they use radio more than tv, newspapers and magazines combined, or two hours a day with radio compared to 21 to 34 minutes for each of the others.

3—Radio is direct, instantaneous and highly mobile. A front warning in weather news is more valuable right now than a few hours later; market information from radio is worth untold millions to the farm economy.

4—Radio keeps farmers up-to-the-minute on scientific progress and specialized information.
"America was not built by government...

America was not built by government. It was built by the energies of a self-reliant people who long ago learned the lesson of cooperation. It was built by a people who created homes in the wilderness through log-raising bees, who pushed across the western plains in organized wagon trains, who began the reclamation of arid lands by their own efforts, constantly demonstrating their capacity to fend for themselves.

* * *

Government as a remote and bureaucratic overseer can only weaken and subject its citizens to a demoralizing control. It is not a coincidence that the only areas of potential [electric] power scarcity in the United States are those in which government has assumed to itself a dominant role.

* * *

The most comprehensive development of [multi-purpose] water resources can be achieved if our government and private agencies willing and able to share the financial burden become working partners.

* * *

Government power installations are almost wholly exempt from taxation. Those who hawk their deceptive ware of "cheap public power" cannot honestly dispute this fact. It is little wonder that with a tremendously unfair tax advantage the government is often able to undercut its own citizens in the marketing of power.

There can be no moral justification for burdening the taxpayers of the entire nation with the construction of unnecessary, tax-free electric systems to serve a privileged few. Exempting government power installations from taxation discriminates between citizens. It denies to local governments and schools the tax support they would receive if the power installations were built by power companies. Government power should be taxed on the same basis as power produced by the investor-owned utility industry. Such taxation would end forever the myth that government power is cheap.

AMERICA'S ELECTRIC LIGHT AND POWER COMPANIES*

"YOU ARE THERE" — CBS television — witness history's great events
Fight for Courtroom Access Urged by Miller

Judge Miller cited last August of ABA convention in Philadelphia as setting a pattern that must be repeated all over the nation to convince lawyers and judges that broadcasting media should be admitted into courtrooms.

BROADCASTERS must conduct a long-range campaign of radio-tv demonstrations if they wish the courts and lawyers to permit courtroom pickups, Judge Justin Miller, NARTB consultant and past board chairman-president, told the NARTB regional meeting in San Francisco last Tuesday.

Last summer’s successful test pickups at the American Bar Assn. convention in Philadelphia [B&T, Aug. 29] set a pattern that must be repeated all over the nation, he said in a talk reciting the history of freedom of speech and court broadcasting. These tests will be aimed at revision or deletion of the ABA’s Canon 35, a policy that labels courtroom pickups distracting, degrading and creators of misconceptions and they recommends “should not be permitted.”

A successful attack on Canon 35, he reminded, “can be a major step toward opening up governmental news sources all along the line,” but efforts to persuade governmental agencies to open news sources should not be lessened.

Taking the position that much headway has not been made in securing a change in Canon 35, he warned that failure to continue the effort can mean that the pattern “will become more and more fixed.” ABA is currently considering a proposal to reopen all ABA canons and a study along that line is under way.

Judge Miller recalled the care taken last Aug. 22 in Philadelphia as the three local TV stations (WPTZ-TV, WCAU-TV and WFIL-TV) cooperated to cover the ABA House of Delegates with the use of the yellowed lighting of an antique ballroom. Despite difficult conditions, he said, ABA delegates were able to hear and see the procedure on the network.

Unanimous permission to allow the radio test was granted by the ABA House of Delegates following a presentation by Judge Miller. “The demonstration was a complete success,” Judge Miller said. “So far as I know, no one questioned that fact.” He told how the house chairman regretted the pickup was not continuing throughout the weeklong proceedings. A meeting of the Section on Judicial Administration was telecast during the convention.

“These tests must be made over and over throughout the country,” Judge Miller said. “Only a comparatively small number of lawyers and judges witnessed the demonstration there. The demonstration received little publicity generally outside of the trade press.” He noted that the American Bar Journal in a recent issue had an article by Judge Florence E. Allen, U. S. District Judge, referring to radio, tv and news photography this way: “From the standpoint of confusion, distraction of witnesses and destruction of the right of privacy, all of these media are objectionable.”

He said that permission to give tests of radio-tv pickups be secured at state and local bar association meetings around the nation. “It will be necessary that the proper approach be made to the officials of the state and local association,” he said, adding, “permission must be obtained only by fully protected by the police in advance; care must be taken to avoid excessive lighting; carefully selected operations must make themselves completely inconspicuous; no noise or confusion of any kind should take place.”

This educational process will give lawyers and judges an entirely new idea of modern techniques, he reminded, and “will go a long way toward bringing down the prejudices which presently exist against radio-tv as applied to courtroom telecasting.”

Judge Miller warned that the courts “have a perfect right to insist upon the maintenance of dignity and decorum and that the accompanied of telecasting, which have been present in the past in the way of excessive lighting, obtrusive machinery and noisy operators, cannot be permitted.”

“There is no using to fool ourselves upon these points. Representatives of broadcasting... are now assured by decisions of the Supreme Court that their medium is, like the press, protected by the First Amendment of the Constitution, both as concerns the federal government and — by virtue of the provisions of the 14th amendment — also as applied to state and local governments.

“However, this does not give them any right to invade a courtroom in such a manner as to ‘detract the witness in giving his testimony or degrade the court.’ Broadcasters must realize that the provision of the Constitution is relied upon the courts to prevent any such occurrences in the courtroom.”

Explaining that Canon 35 is in some respects an insult to a judge, he described the basic conflict between freedom of speech and the courts to prevent any such occurrences in the courtroom.

He said contrary to opinions expressed at both NBC and CBS, “network spot carriers are definitely competitive to spot business.” As “proof,” Mr. Webb revealed a list of advertisers now buying “spot carrier plan packages” which, he indicated, have had no spot at all.

Mr. Webb’s list included Viceroy, which he said canceled most of its national spot to purchase NBC’s Three Plan and CBS Segmentation; Swandown, spending “considerably less” for national spot because of CBS Segmentation; Broono-Quinine, “drastically?” reduced its budget that already had been set for a national spot campaign because of a buy into MBS’ multi-message plan; Pepto-Bismol, which he said last year had purchased a national spot campaign but this year put its money into Mutual’s multi-message plan; Miller’s High Life, which Mr. Webb asserted “canceled national spot schedules and bought Monitor”; Goodrich, also buying Monitor, but which last year had a weekend, national spot campaign; Charles Antell, for several years a “large spot spender . . . now their dollars are on Monitor,” and Tintex—a national spot account for about the last 10 years, still a spot account but spending less because they are also buying participations on ABC.

Mr. Webb said that neither SRA nor any of its members were “anti-network,” but that it should be pointed out that “there are a number of executives who are still in the dark ages in believing that most national spot business consists of adjacencies to their network programs.” They have no appreciation of the importance of local programs, he said. “A station’s current rating strength, and the fact that national spot business is purchased within these strong local programs. There is a strong quality factor in local programming which is the reason why national advertisers buy spot participation in such programming.”

Mr. Webb summed up his statement with a flat prediction that NBC’s Monitor programming plan “will eventually prove to be very successful,” but he said, “the experiment will be forgiven as an error of commission which you can say is better than ‘do-nothing’ errors of omission.”

NBC COMPETES WITH AFFILIATES—WEBB

Managing director of Station Representatives Assn., says network should confine its sales to quarter hours and over. He blasts ‘Monitor’ and participations concepts.

To OPERATE its radio network without "competing" with its affiliates, NBC must limit itself to the sale of no unit smaller than a quarter-hour program, Larry Webb, managing director of Station Representatives Assn., asserted last week. (See B&T INTERVIEW with NBC Executive Vice President Robert W. Sarnoff, page 35.)

Mr. Webb issued a statement in response to B&T’s report that some NBC affiliates who are in opposition to the network’s Monitor weekend service would be willing to forego all compensation for carrying network commercial programs if they were sure the network would maintain its rates and thus, in their opinion, not imperil spot and local rate structure [CLOSED CIRCUIT, Sept. 26].

The SRA head said the "affiliates should never have any spot position by the network that would force them to even think along such lines."

Assailing that the sales departments of the networks have been traditionally "weak" over the years, Mr. Webb said this was particularly true of NBC despite the "fact they have always had a most salable package in the network." He charged that "NBC has never gone out and done a real sales job for their affiliates in securing network business. Therefore, they resort to such programming as Monitor, a leaf taken from the books of radio stations who have always looked to the network for programs and business that they themselves could not get otherwise."

"The network now is in direct competition with its affiliates. Since they do not have sufficiently good salesmen to go out and sell any kind of product, the Monitor might come up with—Monitor or what have you—at rate card, they must resort to price cutting. Is it little wonder that some affiliates are willing to give up all compensation from the network if the network would maintain its (the station’s) rate structure?"

Mr. Webb said there were alternatives to Monitor—"If the network would hire top men, pay them good money and give them a good sales job, the network could be built back to its former strength. Unquestionably, it is a very saleable package."

He said contrary to opinions expressed at both NBC and CBS, network "spot carriers are definitely competitive to spot business." As "proof," Mr. Webb revealed a list of advertisers now buying "spot carrier plan packages" which, he indicated, have had no spot at all.

Mr. Webb’s list included Viceroy, which he said canceled most of its national spot to purchase NBC’s Three Plan and CBS Segmentation; Swandown, spending "considerably less" for national spot because of CBS Segmentation; Broono-Quinine, "drastically" reduced its budget that already had been set for a national spot campaign because of a buy into MBS’ multi-message plan; Pepto-Bismol, which he said last year had purchased a national spot campaign but this year put its money into Mutual’s multi-message plan; Miller’s High Life, which Mr. Webb asserted "canceled national spot schedules and bought Monitor"; Goodrich, also buying Monitor, but which last year had a weekend, national spot campaign; Charles Antell, for several years a "large spot spender . . . now their dollars are on Monitor," and Tintex—a national spot account for about the last 10 years, still a spot account but spending less because they are also buying participations on ABC.

Mr. Webb said that neither SRA nor any of its members were "anti-network," but that it should be pointed out that "there are a number of executives who are still in the dark ages in believing that most national spot business consists of adjacencies to their network programs. They have no appreciation of the importance of local programs, he said. "A station’s current rating strength, and the fact that national spot business is purchased within these strong local programs. There is a strong quality factor in local programming which is the reason why national advertisers buy spot participation in such programming."

Mr. Webb summed up his statement with a flat prediction that NBC’s Monitor programming plan “will eventually prove to be very successful,” but he said, “the experiment will be forgiven as an error of commission which you can say is better than ‘do-nothing’ errors of omission.”
ZENITH HITS NARTB STAND ON TOLL TV

Subscriptionponent says trade association board is dominated by networks and network affiliated stations.

ZENITH Radio Corp. last week accused NARTB of understentedly trying to "stifle competition" and of fostering a tv network "monopoly" in its stand against pay tv.

Ted Leitzell, public relations director of the Chicago radio-tv manufacturer, charged that NARTB had sent out to its members excerpts from opposition comments only and had failed to relay comments favorable to subscription tv.

The week also saw Zenith publicist Millard C. Faught urge that pay tv be given an opportunity of proving itself in the market place. He was opposed by Don Durgin, ABC director of sales development and research. They spoke to the Pennsylvania State Conference of American Women in Radio & Television at a meeting in Beaver Falls, Pa.

And an article entitled "Tv's Colossal Hassle" by Milton Lehman appeared in the Oct. 29 issue of the Saturday Evening Post. The article is a review of the fee tv imbroglio.

Mr. Leitzell declared that the NARTB position on pay tv (it opposes the use of broadcast channels for pay-as-you-see tv) should be clarified by revealing the commercial affiliations and economic interests of the NARTB board. Repeating the allegations made by Zenith President Eugene F. McDonald Jr. to Mr. Fellows immediately following the board's action earlier, Mr. Leitzell charged that of the 15 NARTB board members, four are network vice presidents, nine represent stations affiliated with networks, and only one is non-affiliated. The independent board member, Mr. Leitzell said, was the only one who voted against the board's decision.

"... Your pamphlet is a self-serving document for the NARTB board, which in turn is dominated more than 90% by networks and network affiliated or controlled stations," Mr. Leitzell said. "It certainly does not represent the interest of the majority of your broadcaster members, or express their views," he added.

The remainder of Mr. Leitzell's letter was a reiteration of the position taken by pay tv advocates; that subscription tv will aid stations, bring higher quality programs to the public, etc.

GOVT. NEWS POLICY KEYS SDX MEETING

GOVERNMENT views on access to information and a forum on tv news coverage will be among the highlights of the 46th anniversary convention of Sigma Delta Chi in Chicago Nov. 9-12. (Also see story page 84.)

U. S. Atty. Gen. Herbert Brownell Jr. will join top newsmen as one of the major speakers during the four-day convention of the national professional journalism fraternity at the Sheraton Hotel. He will address the annual banquet Nov. 12. Government news policy will be explored at another session, according to the agenda released by SDX last week.

Over 500 delegates are expected to register for the convention. Al Orton, AP Chicago
Radio's One-Book

Who are radio's top advertisers? What hour of the day can you reach most homes using radio? How many cars are there in Cattaraugus County, N. Y.? What are the FCC Rules governing political broadcasts? Who sells transmitters, tubes and towers? Who's the manager of station X, the rep of station Y? What agency handles General Foods? Who sells radio scripts, handles name talent, makes recordings?

For the answer to these (and several thousand other questions), 3488 agency men, 2765 national and regional advertisers, and 11,000 other subscribers will turn to radio's One-Book Reference Library—

Broadcasting • Telecasting Yearbook - Marketbook.

Four hundred and eighty seven (or more if we beat last year's figure) advertisers will get the benefit of advertising that lives for an entire year in a book that, like radio, looks like it's here to stay. This is our 22nd consecutive Radio Yearbook, and as Jim Luce of J. W. T. once said, "B•T"s Yearbook could easily win the $64,000 question if it could only talk".

Let your ad talk for you 12 months a year, opposite your listing in the Yearbook. There's only so much space available so make your reservation now and be sure. Use the coupon on the opposite page.
Reference Library

Partial List of Contents

Complete state and city directories of am and fm radio stations, listing station executives, frequencies, network affiliations, national reps, power;

Market data includes county population, radio homes, retail sales, audience analyses, program trends, basic statistical information about national, spot and network radio, available in no other single source;

Directories of agencies and their radio accounts;

Directories of services related to radio;

Directories of state associations; of FCC Bar Members; of program production services; of equipment makers;

Complete FCC Rules and Regulations for Broadcast Services.

To reserve space, use the coupon below—

Broadcasting ● Telecasting
1735 DeSales St., N. W.
Washington 5, D. C.

Please reserve the space checked for the 1956 Broadcasting Yearbook, published in early 1956. Deadline November 21—if proof desired. December 5, no proof.

TRADE ASSNS.

chairman of Scripps-Howard Newspapers and editor of the New York World Telegram & Sun, will deliver the main address.

A past presidents breakfast will be held Friday morning with Lee Hills, executive editor, Detroit Free Press, presiding, and at a luncheon that noon, under Ed J. Dooley, Denver Post, delegates will be welcomed by Chicago Mayor Richard J. Daley.

Tour of Chicago news scenes and discussions with local newsmen will follow under plans drafted by Isaac Gershman, Chicago City News Bureau. A general business session will take place after the Saturday breakfast, devoted to college training of journalists, and will be followed by a convention session, with James A. Byron, WBAP-TV Fort Worth, as presiding officer.

Magazine journalism will be explored by Paul Smith, chief executive, Crowell-Collier Corp. and editor of Collier's, at the Saturday luncheon.

Don McNeill, Chicago radio-tv performer, will be toastmaster at the closing banquet at which Aty. Gen. Brownell will speak.

Local Billings to Jump, Kimble Tells RAB Meet

THE SURGE of local radio advertising since 1945 from $93 million to the present figure of $370 million could be considered a "penny-ante raise" in light of increased advertising to come.

This optimistic view was given 65 Radio Advertising Bureau member station managers and sales executives in Boston Oct. 19 by Dave Kimble, RAB local sales and service director.

Speaking before an all-day RAB clinic program dedicated to "Sound Selling in Selling Sound," Mr. Kimble declared that "the 400% jump in local advertising revenue we've experienced since the end of World War II is only the beginning." Going on to explain why radio can best serve the three leading local billings groups—automobile, foods and home furnishings—Mr. Kimble pointed out instances where radio complemented the client better than any other medium.

"To the car-dealer, radio alone gives the ability to talk to his best prospects while they are actually driving their present cars," Mr. Kimble declared, "while to the food retailer, radio alone provides the opportunity to talk to the homemaker in her kitchen where she's busy working within 12 feet of the cupboards he'd like to fill for her, and to the furnishings retailer, radio provides unparalleled access to new homes."

Explain Media's True Role, Morton Tells Advertisers

The trouble with advertising today, according to Elon G. Borton, president of the Advertising Federation of America, is that too many people in the field are so engrossed with its techniques and fascinated with the spectacular things that they lose sight of its economic importance.

Speaking before the Advertising Club of Jacksonville, Fla., last Tuesday, Mr. Borton challenged members to examine advertising in its real functional role as the workhorse of mass distribution," instead of placing undue stress on the glamorous aspect.

"People know that our mass production makes our country great, but they do not realize that such production cannot exist without mass distribution and that advertising is the 'workhorse' that makes mass distribution possible," Mr. Borton said.

Pointing out that a country 3,000 miles wide and 1,500 miles deep, where millions of products and services compete for the buying power of 166 million people "must have low cost mass communication of news about these products," Mr. Borton urged the club to educate the public about advertising's effects in changing the nation's health habits as well as raising the nation's standards.

McDonald Named Chairman Of Copyright Committee

NARTB Names William Fay To Community Antenna Group

NARTB has named William Fay of WHAM-TV Rochester, N. Y., to chairmanship of the organization's Community Antenna Committee, it was announced last week.

The committee is concerned with legal questions and other problems which may arise from the use of community antenna systems. It is trying to find out how best to protect all the broadcast interests involved.

Other committee members are: William C. Grove, KFBC-TV Cheyenne, Wyo.; Lawrence H. Rogers II, WSAS-TV Huntington, W. Va.; Henry W. Sivick, WMCT (TV) Memphis, Tenn.; Carl Elder, ABC; Thomas Fisher, CBS; and Harry Olsson, NBC, the latter three all from New York.

Only STEEL can do so many jobs so well

It's No Fish Story. More than 1000 pounds of steel are used every day, just to make fish hooks. Those giant hooks in the picture are used to catch tuna, marlin or albacore. About 3000 of the small No. 6 trout hooks can be made from a single pound of steel.

Bridge-Builders Paradise is the recently completed West Virginia Turnpike. Its 88-mile length required 76 bridges, built from 25,000 tons of steel. The Bender Bridge, here, is 278 feet high, one of the tallest bridges east of the Mississippi. U. S. Steel supplied the steel and built this bridge.

Like Flicking A Light Switch. Want finger-tip control of light and air in your home or office? You get this with venetian blinds made of steel. And steel venetian blinds are made in just about any size you will ever need—like the whopper shown here. In addition to their trim beauty, steel slats give privacy and protect rugs, draperies and furniture from sun damage. Steel slats are flexible and tough, easy to clean, and they will not crack or warp.

The Bow-Legged Truck. This unusual machine is called a straddle truck, because it literally stands over a load (up to 25 tons), hoists it, then rolls away. The truck can actually roll over a full-size automobile without touching it. It uses many USS steel plates and bars.

- Various cities across the country

**Audience:**
- Wide range of demographics

**Schedule:**
- Each day offers a diverse selection of programs

**Technical Notes:**
- The table format allows for easy comparison and navigation

**Contact Information:**
- For more details, contact the respective network or station.
PRIVATE FCC-NETWORK TALKS NULLIFY ALBANY DECISION, WTRI (TV) CHARGES

Station says Commission's conversations with CBS officials disqualify its ruling against deintermixture in Albany-Schenectady-Troy case.

Another complication in allocationssnarl: Connecticut governor protests move of Hartford vhf.

THE FCC was confronted with a new complication last week in the intricate and unsettled television allocation problem when WTRI (TV) of Albany, N.Y.—a ch. 35 uhf outlet—now dark—charged that the Commission's conversations with CBS President Frank Stanton and aides [B#T, Oct. 10] had nullified the Albany-Schenectady-Troy deintermixture proceedings.

The WTRI “Petition to Reopen Hearing” came in a week which saw a quiescent FCC staff still digesting the tentative instructions given two weeks ago at the annual convention of the National Assn. of Railroad & Utility Commissioners in Asheville, N. C. These were FCC Chairman George C. McGonaghey and Comrs. John C. Doerfer and Richard A. Mack. The full Commission meets again on vhf-uhf allocations problems Wednesday.

The week also saw Connecticut Gov. Abraham A. Ribicoff telegraph the Commission protesting the reported FCC decision to move Hartford's ch. 3 to Westerly, R. I. (37 miles from Providence).

The WTRI objection was based on the legal point that once a formal proceeding has been undertaken by the FCC it cannot discuss the matter of persons not interested in the hearing. The Albany-Schenectady-Troy case, which involves two petitions, one to deintermix the New York capital city by changing ch. 6 (WRGB [TV] Schenectady) to educational and the other to drop in ch. 10 to Vail Mills, N.Y., outside of Albany, was one of the five deintermixture petitions heard by the FCC last June.

By inference, the WTRI petition would affect the other four deintermixture proceedings also. The other cases involved Peoria, Evansville, Madison and Hartford. It has been reported that the Commission tentatively decided to deny the deintermixture petitions in Peoria, Evansville, Madison and Albany, and to grant the Hartford request.

“Petitioner submits,” the WTRI document declared, “that such ex parte intervention violates the provisions of the Administrative Procedure Act and is contrary to the procedures for filing of complaint by the Commission for considering rule-making matters, and is a violation of the due process clause of the Constitution. Because of such illegality, the proceeding thus far conducted are a nullity and must be vacated.”

The Albany uhf station charged also that CBS has an interest in the outcome of the Albany deintermixture case and that it should have participated in that proceeding in order to be eligible to present its comments legally.

WTRI has charged that CBS switched its radio and tv affiliations to WROW Albany after it was bought by CBS commentator Lowell Thomas and associates. This was the basis of a separate hearing on which an initial decision is still awaited.

The CBS plan referred to by WTRI contemplated using some uhf, but through evasion of mileage separations ensuring the allocation of at least three vhf channels to the top 10 markets. What aroused WTRI's ire was that CBS recommended three vhf channels for the upstate New York tri-county area.

WTRI is largely owned by Harry C. Wilder, who also was majority owner of WTRY Troy before it was sold earlier this year.

Connecticut Protest

The telegram to the FCC from Gov. Ribicoff read as follows:

"Disturbing rumors have reached me that your Commission is about to take action which would remove television channel number 3 from Hartford. Though the rumors are unsubstantiated and I hope untrue, I respectfully urge with all the strength at my command that channel remain in the Capital City where it will best serve all of the citizens of Connecticut. I further urge that your body act as expeditiously as possible in order to bring this long-delayed service to the people of our state."

Three days later, in response to protests from uhf stations WGTH-TV Hartford and WKNB-TV New Britain, the Connecticut government sent the following to those stations:

"Relief unaware of problems of intermixture. Only interest is to make sure that the entire state of Connecticut is provided with proper and complete tv service. First information that channel 3 would be substituted by another uhf channel. In complete agreement that uhf stations in Connecticut are providing a fine service for the area they are serving. Would like similar service to cover the entire state. Have been informed that uhf signal does not reach all areas of the state."

WGTH-TV has been sold to CBS; WKNB-TV to NBC. Both transfers are awaiting FCC approval.

Hartford's WTC holds an initial decision for ch. 3 there; it is opposed by Hartford Telecast Co., comprising local businessmen and Harry Butcher, KIST Santa Barbara, Calif., and one time CBS Washington vice president.

Others for Deintermixture

WHAT cities are concerned in those dozen petitions for deintermixture which are referred to from time to time in talking about the allocations problem confronting the FCC?

The five pending cases are known well. They concern Peoria, Evansville, Madison, Albany and Hartford. The others, according to the official FCC files, which have not yet been acted upon by the Commission, are:

Corpus Christi, Hutchins (Wichita), Baton Rouge, Springfield-Decatur (III), Fresno-Bakersfield, Jacksonville, Sacramento, Spartanburg-Anderson-Greenville, Miami, Norfolk-Portsmouth-Newport News, Toledo, Philadelphia, Durham-Raleigh, Walla Walla. Most of these requests would make the cities all uhf commercially; a few involve partial deintermixture, i.e., the presently operating vhf would be permitted to continue.
Rochester Stations Seek Supreme Court Review

GENERAL attack on the interpretations by the FCC and the U. S. Court of Appeals of the protest provisions of the Communications Act (Sec. 309(c)) was made last week by WECH-TV and WVET-TV Rochester, N. Y.

The share-time ch. 10 stations asked the U. S. Supreme Court to accept an appeal from last July's appellate court ruling that the FCC must give WSAV Rochester a hearing on its protest against the 1953 Rochester tv grants. Both tv stations have been operating since November 1953. WSAV is owned by Gordon Brown.

Grant to the tv stations came after the two competing applicants agreed to share operations on ch. 10. Six days after the grant was made WSAV filed its application for ch. 10. At the same time, the radio station filed a protest against the grants.

The FCC returned the application on the ground that it was submitted too late. The Commission also turned down the protest on the ground that WSAV had not specified in sufficient detail its charges against the grant.

Last summer, the Court of Appeals in Washington held that WSAV had met the requirements of Sec. 309(c) and should be given a hearing [Bt, Aug. 1].

Under the provisions of the protest rule, the authorization for the ch. 10 grants must be stayed pending a hearing and a decision on the protest. However, issuance of the appellate court's decision has been held up to permit an appeal to the Supreme Court. At one time the FCC considered appealing this ruling, but it decided not to press the action. Last week's petition by the stations for a writ of certiorari followed.

In its petition, the Rochester stations question whether a late-filing applicant is entitled to file a protest; whether an am station is per se a “party in interest,” and whether a judicial case is presented where the interest of the appellant "arises solely out of expected, but undemonstrated, economic competition.

If the present interpretations of the protest rule continue, the Rochester tv stations said, the final result will be that all FCC radio and tv grants will be subject to protests and automatic stays "at the instance of a wide range of persons only remotely affected by a grant.

The tv stations referred to the Clarksburg Publishing Co. case (where the Court of Appeals held that a newspaper was a party in interest for the purpose of protesting a grant), and the Rochester case. The appeals court, the stations said, has "unreasonably liberalized the conditions [of the protest rule]."

Should the Supreme Court refuse to review the case, the Rochester telecasters said, both stations will be forced to go off the air. The stations have incurred a capital investment of about $750,000, the petition said, plus a payroll that runs $50,000 a month, involving more than 100 employees. Also a consideration, the stations declared, would be interruption of local and national network service to one million people.

Webster Speaks to NARTB, McConnaughey in Asheville

ELEMENTS that go into making a decision in a matter as significant as television allocations were outlined by FCC Comr. Edward M. Webster before the San Francisco regional NARTB meeting (see story, page 70).

Also last week, FCC Chairman George C. McConnaughey spoke to delegates attending the annual convention of the National Assn. of Railroad & Utilities Commissioners at Asheville, N. C.

McConnaughey spoke to delegates attending the annual convention of the National Assn. of Railroad & Utilities Commissioners at Asheville, N. C.

Here are some of the aspects of the tv allocations problem that the Commission must answer. Mr. Webster enumerated: economics, advances in the communications art, vagaries of human behavior, public likes and dislikes, impact of political moves, effect of competition and demands of users. Mr. Webster did not comment on the various proposals now before the FCC on the subject of tv allocations.

Charges for color intercity connections, under the experimental tariff, are the same as for black-and-white tv plus special terminal connection charges. The color terminal charges, which have been the same since the FCC approved the National Television System Committee's compatible color standards in 1954, are $450 per month for each station, in addition to the $300 per month charge for fulltime black-and-white service (eight consecutive hours daily). The rate per mile for color or black-and-white is $35.

For occasional service, the experimental color tariff is $230 per month for each station connection, in addition to the black-and-white rate of $200 per month. Hourly and mileage rates are the same as for black-and-white: $10 per hour and $1 per mile.

SEN. ESTES KEFAUVER (D-Tenn.) (r) is greeted outside the WICU (TV) Erie, Pa., building by (to r): Edward Lamb, owner of the Erie Dispatch, WICU-TV and WIKK; Ben McLoughlin, WICU general manager, and Arthur Gardner, Erie mayor. Sen. Kefauver was in Erie to deliver the principal address at the dedication ceremonies of the new Dispatch publishing plant.

WENS (TV) Again Asks Stay Of Pittsburgh Ch. 11 Grant

REQUEST for a stay order against the grant of Pittsburgh's ch. 11 to merged applicants WWSW and WIAS of that city was argued in the U. S. Court of Appeals in Washington last week. The plea was made by ch. 16 WENS (TV) Pittsburgh.

This is the second request for a stay order against the Pittsburgh ch. 11 grant made by the shf station. Last August it failed to convince the same court that a stay was necessary.

The appeal last week was from an FCC decision denying WENS the right to protest the vhf grant. The FCC held that the grant was made after a hearing and thus was not open to a protest under Sec. 309(c) of the Communications Act. This provides that when a grant is made without a hearing, a party in interest may object.

The FCC granted the ch. 11 facility to WWSW Inc. last July, following a hearing which culminated in an agreement to merge the competing applicants into joint ownership of the tv facility.

In its previous appeal, WENS claimed that the FCC should have accepted its application to change from ch. 16 to ch. 11. This was on the ground that the merger of WWSW and WIAS constituted a new application which should have been returned to the processing line. FCC rules prohibit the filing of new applications less than 20 days before a hearing is scheduled to begin.

Gist of the WENS argument was that if a second vhf begins operating in Pittsburgh, it will have to cease operation. WENS now holds the CBS and ABC affiliation. KDRA-TV, owned by Westinghouse Broadcasting Co. and affiliated with NBC, operates on ch. 2.

The argument last week was before Circuit Judges Wilbur K. Miller, Charles Pahy and George Thomas Washington. Arguing for WENS was Vernon L. Wilkinson; for the FCC, Edward W. Houtanen; for WWSW, Paul M. Segal, and for WIAS, William A. Porter. Robert Engel, assistant city solicitor of Pittsburgh, also argued against the stay on the ground that the city needed the additional service. He emphasized, however, that the city was taking no sides in the litigation.
Telegram for Ike

A 65-FT. TELEGRAM, bearing names and messages of nearly 10,000 KIRO Seattle listeners, was delivered to President Eisenhower at Fitzsimmons Army hospital Oct. 14. The telegram climaxd a spot announcement campaign in which the station invited its audience to add sympathies to a KIRO get-well-birthday wire to the President.

When KIRO began airing the first spots late Wednesday afternoon, Oct. 12, it appeared that the drive would meet with limited response since Western Union had set a Thursday midnight deadline for the message, in order to insure delivery on the President's birthday Fri.

Response, however, was so sensational that Western Union had to work a 12-hour crew into the early hours of Thursday morning. All messages arriving after the deadline were bundled together and sent to Denver by plane.

**14 Information Experts To Testify in Access Hearing**

AN INFORMAL discussion featuring 14 men considered expert in the field of freedom of information was held yesterday with a subcommittee's hearing beginning Nov. 7 in Washington on whether federal executive agencies are making information available to the public and to congressional committees. (See story page 75.)

Rep. John E. Moss (D-Calif.), chairman of the House Government Information Subcommittee, said the 14 would participate in informal talks with subcommittee members Nov. 7, with hearings opening Nov. 12.

Among those scheduled for the talks are: Theodore F. Koop, director of CBS news and public affairs in Washington; James S. Pope, executive editor of the Louisville (Ky.) Courier-Journal (WHAS-AM-TV) and member and former chairman of the American Society of Newspaper Editors' Freedom of Information Committee; J. R. Wiggins, executive editor of The Washington Times-Herald (WTOP-AM-TV Washington, WMBR-AM-TV Jackson-ville, Fla.) and chairman of the ASNE committee.

**KOOS Files Competing Bid For Coos Bay UHF Facility**

COMPETING application for ch. 16 at Coos Bay, Ore., was filed with the FCC last week by KOOS Coos Bay. Early in October Pacific Television Inc. (KVAL-TV Eugene, Ore.) filed for the same facility (ch. 14). The KOOS application asked for power of 20.5 kw visual and 11.6 kw aural, with antenna 836 ft. above average terrain. This is the second time KOOS has applied for ch. 16 at Coos Bay, having first sought the channel in 1952.

KOOS is owned by Sheldon F. Sackett, who also owns KROW Oakland, Calif., and KVAN-AM-TV Vancouver, Wash.

Brunetti Tells Subcommittee

**Automatic Role in Color Tv**

COLOR tv "truly awaits automation" Dr. Cleo Brunetti, director of engineering research and development for General Mills Inc., told a congressional subcommittee last week. The Inc. is studying the forms of automation on the national economy.

Testifying last Tuesday before the Economic Stabilization Subcommittee of the Joint Congres-sional Committee on the Economic Report, headed by Rep. Wright Patman (D-Tex.), Dr. Brunetti saw color tv sets as a coming market for the increased production in the electronics industry brought about by automation.

"The whole question of using color tubes and components as black and white . . . is still too high," Dr. Brunetti said. Color tv, he said, is not yet "off the ground," despite "rosy predictions and false starts."

He said tv sets would not be mass market items today, if automation ever sets in, since would cost $2,000 to $3,000 each without automatic machinery in kinescope manufacturing.

Dr. Brunetti defended his firm's Autofab machine, which he said prepares certain electronic components for assembly, test them onto printed circuit boards and solder them. The circuit board for color tv has been installed in six plants manufacturing electronic products such as radios.

He cited figures to show that workers displaced by the machine are channeled slowly into other jobs in the same industry in both manufacturing and distribution functions.

Dr. Brunetti said the domestic radio market in 1941, mostly home radios at a value of $469,636,000, had more than quadrupled by 1954 to $1,950,535,700. But not only were tv sets, but new products such as clock radios and portables. Living room radios now comprise only 25% of the total, he said.

**Known Coverage Data Belys FCC Curves, Engineers Report**

ACKNOWLEDGEMENT that the FCC's present vhf and uhf coverage curves for tv stations are not consistent with present information on tv radiation was contained in a technical report issued by the FCC's Technical Research Division last week.

The report (TRR 2.4.15), the work of William C. Boese and Harry Fine, is entitled "Present Knowledge of Propagation in the Vhf and Uhf Tv Bands." It is represented as the work of the two FCC technicians, and not an expression of official FCC thinking.

In discussing the data now available on tv propagation, the authors mention the studies made by the Central Radio Propagation Labs, Boulder, Colo.; work done on "scatter" systems; FCC monitoring with 16-20 field strength recorders operating since 1949, and the FCC's Laboratory Division's study of uhf coverage. This last will be issued as a separate document soon, it is understood.

Among the suggestions is one that there should be a study of receiver and antenna performance in the urban area, "to determine to what extent equipment performance limits the present range of uhf stations."

There is enough data, the authors said, to indicate that the present FCC curves "do not represent adequately the data which have been collected in the interim," Dr. Call is made for more studies, since "more work is required before a revised set of curves can be established. . . ."
Initial Decision Favors Rozzell for Muleshoe Am

SUPERIOR broadcast experience and greater integration of ownership with management were cited by FCC Hearing Examiner Hugh B. Hutchison in an initial decision last week favoring Blackwater Valley Broadcasters (Theodore Rozzell) for a new AM station in Muleshoe, Tex., on 1570 kc, 250 w daytime. Examiner Hutchison proposed denial of the competing application of Muleshoe Broadcasting Co., a partnership comprised of R. I. McLeroy, 40%; Mrs. Ed Holmes, 40%; and B. C. Dyess, 20%.

Mrs. Rozzell, a former member of the New Mexico legislature, was once 45% owner of KBIM Roswell. Mrs. Holmes is a 43% stockholder of KFLD Floydada, Tex.

Hearing Manual Offered As Guide for FCC Cases

HEARING manual for the conduct of comparative hearings at the FCC has been formulated for FCC hearing examiners, Commission attorneys, and private attorneys. It is designed to promote uniformity in comparative hearing cases and covers conduct of hearings and types of evidence.

The Commission has asked for comments by interested parties on whether the manual should be incorporated in the rules or whether it should be issued solely as a guide for examiners and attorneys. It asked for comments by Nov. 21, and for replies to these comments 10 days later.

The hearing manual, first in the FCC's history, was the work of a joint FCC-Federal Communications Bar Assn. committee. Heading the FCC delegation was Chief Hearing Examiner James D. Cunningham. Heading the FCBA contingent was Robert L. Heald, NARTB.

Allocations Change Sought For Drop-in Vhf in Valdosta

WGOV-TV Valdosta, Ga., which turned in its ch. 37 permit a year ago because of uhf economics, last week asked the FCC to amend the tv allocations table and add ch. 8 to Valdosta.

The station said the drop-in would meet all separation requirements and that it would apply for ch. 8 for immediate construction if the change is made.

In other actions last week involving allocation changes, the Joint Committee on Educational Television asked the FCC for additional time to reply to two proposals that would alter educational reservations and make them available for commercial use. The assignments involve ch. 5 at Weston, W. Va., and ch. 3 at College Station (Bryan), Tex. WJPB-TV Fairmont, W. Va. (ch. 35), requested the Weston change.

Laura Hollingsworth Dies

LAURA L. HOLLINGSWORTH, 67, administrative assistant to the Secretary of the FCC since 1934, died last week after a long illness. Mrs. Hollingsworth entered government service in 1917 with the Navy Department. She joined the Federal Radio Commission in 1928 and continued with its successor agency, the FCC. She is survived by her son and two grandchildren. Interment was at Arlington National Cemetery, where her husband is buried.
**ZIV NEW BUSINESS HEADED BY MUSNIK**

Former vice president of Crosley Broadcasting given responsibility of stirring up new business. Ziv also planning $2.5 million overseas expansion.

APPOINTMENT of Bernard Musnik, vice president in charge of Crosley Broadcasting System's eastern division, as head of new business for Ziv Television Programs Inc., was announced by Ziv officials last week.

Mr. Musnik, with Crosley since 1940, will be charged with stirring up new business among selected New York advertising agencies while also establishing closer liaison with national station representatives on new Ziv products. M. J. Rifkin, Ziv vice president in charge of sales, cited Mr. Musnik's appointment as a "further step in planning towards a greater understanding among leading national clients, agencies and station representatives of national spot use of tv as opposed to the network concept."

He added that since "more and more studies reveal the growing power and productiveness emerging from the wedding of film programming and selective national buying . . . our objective is to see that the increasing amount of intelligence on this subject gets exposure" in the top agency and station echelons.

While at Crosley, Mr. Musnik headed the company's local radio network in South America as sales director, switched to the firm's domestic division after the outbreak of World War II, rose to become eastern sales manager in 1950 and three years later was elected vice president in charge of eastern sales.

Ziv officials also announced that Ed Stern, president of Ziv International Div., is currently in Europe on a month-long survey of sales possibilities for Ziv productions. Mr. Stern will visit London, Paris, Madrid, Rome, Zurich, Frankfurt, Munich, Copenhagen and Amsterdam, and will also explore dubbing facilities in other European areas as part of Ziv's planned $2.5 million overseas expansion.

**Wagner Does About-Face, Holds Up N. Y. Film Series**

AS THE CLIMAX to a controversy surrounding a proposed production of a tv film series dramatizing the various New York City departments, Mayor Robert F. Wagner last Tuesday called a halt to the project and appointed a special study committee.

Mayor Wagner's decision followed criticism in local newspapers of the mayor's directive which asked department heads to cooperate with New York TV Productions on a proposed tv film series [AT DEADLINE, Oct. 24], plus objections from Police Commissioner Stephens S. Kennedy, various civic associations and a private taxpayer, who filed suit.

Various reasons were advanced for the objections. Newspapers and unidentified tv producers said that New York Tv Productions, headed by Theodore S. Granik, a long-time friend of Mayor Wagner and a former law partner, had been granted permission without benefit of competitive bids. Commissioner Kennedy took the position that material in the Police Department's files that would interest a tv producer would concern dramatic cases, leading perhaps to distortion. Newspapers and civic groups contended that no mention was made in the directive of financial gain that could accrue to the city from use of the files.

Before Mayor Wagner halted the project, a private meeting with Queens County Court, seeking to ascertain if other producers had been granted an opportunity to acquire tv rights and if "monetary terms of this transaction ultimately would be to the benefit of the city at large."

Coming as an anti-climax, in view of Mayor Wagner's later move, was an announcement Monday by Screen Gems and New York T'Neill Productions reporting that the companies would co-produce a 39-episode tv film series, entitled _The New York City Story_.

Mr. Granik explained at a news conference that the two co-producers had "every intention of making donations to New York City's welfare organization, with details to be worked out on a percentage of the gross sales. He repudiated suggestions that Mayor Wagner had issued the directive as a consequence of their friendship, and said that his request promptly had been approved because he had proposed to dramatize the workings of all the city departments, not solely the police, fire or hospitals.

Mr. Granik is an attorney and veteran radio-tv producer of such programs as _American Forum of the Air and Youth Wants to Know_.

The committee selected by Mayor Wagner to review the "overall situation consists of City Administrator Robert C. Gillece, chairman; Corporation Counsel Peter Campbell Brown; William R. Peer, executive secretary to the mayor; Seymour N. Siegel, director of communications for the City of New York and director of New York-owned WNYC; and Arnold Cohan, television consultant to the mayor.

**Alexander Film Develops Motion Color Background**

ALEXANDER FILM Co., Colorado Springs, Colo., has announced the development of a semi-automatic, one-man projector for motion color backgrounds. The company claims it is the only one of its kind developed in the film ad field.

The machine is operated by remote control from the camera position and the automatic features incorporated in the projector and interlocking mechanism make it unnecessary to use the large crew of men usually needed when projecting moving backgrounds. "Utilization of the machine will eliminate the sometimes obvious "fake" action or give a new selling force to the filmed advertising message," the company said.

**Sheena' Series Sold to Six**

SIGNING of six new contracts in two days for the _Sheena, Queen of the Jungle_ tv film series has been announced by Don L. Kearney, vice president in charge of sales, ABC Film Syndication. These sales raise the total number of markets sold to almost 50, Mr. Kearney said.

Among those which have bought the series are The Red Fern Sausage Co., Atlanta; Little Rock Television Co.; Little Rock, Ark.; Bell Ice Cream & Milk Co., Lubbock, Tex., and Santa Maria Dairy, Baton Rouge. The names of the two other advertisers will be announced shortly.

**Independent Producers Signed in TPA Expansion**

SIGNING of independent film producers by Television Programs of America is being announced today (Monday) by Milton A. Gordon, TPA president, as part of its campaign to expand both its program production schedule and production facilities. The production budget to which TPA already is committed for the current season amounts to $4,970,000, according to Mr. Gordon.

The latest producing firm to be signed by TPA is Four Star Films Inc., which is set to launch production of six new programs at the RKO-Pathe studios in Hollywood. TPA also has Chertok tv under contract to produce 39 _Tugboat Annie_ episodes at General Service Studios, Hollywood, and on location on Puget Sound. The _Lassie_ series is currently being produced by TPA in association with Robert Maxwell Assoc. Other series to which TPA is committed are _Fury_ and _The Count of Monte Cristo_.

Mr. Gordon said that TPA is holding discussions with several other independent producers for other series, and if satisfactory arrangements can be made, two additional series will be in production by February 1956.

**Six Account Executives Appointed to TPA Sales**

APPOINTMENTS of six account executives to the sales staff of Television Programs of America, New York, were announced last week by Michael M. Silberman, TPA executive vice president. They are:

Crenshaw Bonner, formerly with MCA-TV and Ziv Television, who has been assigned the southeastern territory; Leonard Corwin, commercial manager of WWOR-TV Worcester, Mass., and previously with KBTV and Ziv Co., who will handle the New England area; Jack Skinner, Frederic W. Ziv Co., who will cover the Denver area; E. L. Coburn, sales manager of KBTB (TV) Denver and previously with TPA, who will head the Portland, Ore., and Los Angeles areas; and Julian P. Bernard and Edward C. Simmel, who will have roving assignments. Mr. Bernard previously was active in department store merchandising, and Mr. Simmel was with Mono-gram Pictures and United Television Programs.

**‘Faith for Today’ Drops Live Programs for Films**

ABC-TV's _Faith for Today_ (Sun., 12:30-1 p.m. EDT), presented live for the past five years over most of the network's eastern affiliates plus 130 independent tv stations throughout the U. S., will go on film Jan. 1, according to spokesmen of the Seventh Day Adventist Churches of North America, producers of the program.

Pastor William A. Fagal, who heads the series, said last week that the decision was made after taking full note of "increasing difficulties in clearing time slots on distant stations in varying time zones." Though "still believing in live tv," the church weighed against the cost of filming and found that film could best serve "uniform quality to all stations."

Filming on the first of 39 programs to be produced between now and the end of the year has begun last week in New York. Rev. Fagal pointed out that the 30-minute program will retain its original format of 15 minutes of drama and 15 minutes of sermon.
**Going West**

HOLLYWOOD tv film production will get "New York treatment" under plan announced by John L. Sinn, president of Ziv Television Programs Inc. Mr. Sinn said actors and actresses, as well as writers, from the East will be flown to Hollywood to be used in various Ziv tv filmed series. Ziv TV believes Hollywood performers are becoming "all too familiar" and new faces and new writing talent will be a step toward fresher programming.

**Will Sell Any Films to Tv For Right Price—Skouras**

SPYROUS SKOURAS, 20th Century-Fox president, said his studio will sell any films to television "if the price is right." Testifying in the government's 16mm antitrust suit in Los Angeles, he said the prices had been "so ridiculous that we just couldn't sell our films," adding that the motion picture industry must protect the investment of exhibitors.

Mr. Skouras said the studio expects to wind up preliminary testing of the Swiss Eldorado color television telecast process and predicted it will cost about $18 million to launch.

Peter Levathes, Young & Rubicam vice president, testified he felt that tv as a dynamic industry will eventually be willing to pay more for films. He said he had recommended, while making a survey for Mr. Skouras some years ago, that the studio refuse to sell to tv because prices were less than the rate charged per hour.

**Screen Gems Active In Canadian Markets**

SALE of eight Screen Gems tv film series in Canada over the past eight weeks has been announced by John H. Mitchell, vice president in charge of sales. Negotiations were conducted by Screen Gems (Canada) Ltd., Toronto, of which Lloyd Burns is vice president and general manager.

The sales included Celebrity Playhouse to General Mills (Canada) Ltd. and Noxzema Chemical Co. of Canada Ltd. in 19 markets; Jungle Inn, to the CBC for use on seven stations; Father Knows Best, to E. I. du Pont de Nemours Ltd. and Imperial Tobacco Co. Ltd. (Players cigarettes) for the full CBC network; The Patti Page Show, to Dominion Dairies for five markets; Adventures of Rin Tin Tin, to the Kellogg Co. for 13 markets; All-Star Theatre, to Vick Chemical Co. for CBLT-AM Toronto; Top Plays of 1955 to CBUT-TV Vancouver and Big Playback to CBUT-TV and CBMT-TV Montreal.

**MCA-TV Opens Mexico Office**

AS PART of further expansion into overseas markets, MCA-TV Film Syndication Division has opened an office in Mexico City to accommodate the Latin American market. Wynn Nathan, vice president in charge of sales, conferred there with leaders of the Mexican tv industry, and arranged for Spanish dubbing of MCA-TV properties. Mr. Nathan reported that MCA-TV is examining the possibility of extending its overseas operation to the Far East, and said it shortly will announce plans. MCA-TV also has overseas offices in London, Paris and Toronto. No announcement has been made as to who will head the Mexico City office.

**Conne-Stephens Formed, Plans 26 Pilot Films**

CONNE-STEPHENS Productions Inc., a new television producing company, has been organized with William Stephens as president and Harry Maizlish, owner of KFWB Hollywood, as vice president of the new organization.

The company plans to issue 300,000 shares of stock at one dollar per share.

Firm has set up a production schedule of 26 pilot films and expects to have four films in the making by Dec. 5. Other officers of the new company are Jerome Weber, secretary and counsel, and Alice Blackburn, treasurer. Edward R. Conne is chairman of the board of directors. The distribution of the company's products will be handled by the William Morris Agency. Conne-Stephens Productions will make its headquarters at the General Service Studios in Hollywood.

**FILM PEOPLE**

Manny Reiner, appointed general sales manager of the I.F.E. Releasing Corp. Mr. Reiner, who was vice president in charge of sales for Guild Films and foreign sales manager for Samuel Goldwyn Productions, succeeds Bernard Jaco, who has resigned.

Louis Kravits, sales manager, Flickman Studios, Chicago, to Lewis & Martin Films Inc., same city, as vice president and sales director. Wolf Dochtermann appointed production manager at Lewis & Martin.

Marvin Korman, MCA-TV Ltd., Beverly Hills, Calif., named supervisor of art and production for MCA-TV Film Syndication Div.

Mervin House, executive assistant to RKO eastern publicity director Perry Lieber, appointed publicity director for RKO studio in Hollywood.

Luke De Matania to Reela Films, Miami, Fla., for national sales and development. He served formerly with March of Dimes motion picture department and Grant Adv. as writer and account executive.

Frank Greenfield, William Morris office (talent), N. Y., to sales staff, Mel Gold Productions Inc., N. Y.

Walter Lowendahl, executive vice president of Transfilm, N. Y. film producers, father of daughter, Anne, Oct. 18.

**FILM SALES**

Sterling Television Co., N. Y., has sold its Bowling Time tv film series to Bavarian beer for WHIO-TV Dayton; Aaron Heating Co. for WGN-TV Chicago, and Houston Bowling Assn. for KTRK-TV Houston.

Charles Michelson Inc., radio-tv transcriptions, has sold 26 five-minute tv films in "Paradox" series to DuMont Best Corp. (WADD TV New York, WTTG [TV] Washington) for late night Featureana show. Company also announces release of Hopalong Cassidy half-hour radio show to Mutual Broadcasting System.
**PROGRAM SERVICES**

**World Names Joseph, Weathers to New Posts**

WORLD BROADCASTING SYSTEM, subsidiary of the Frederic W. Ziv Co., Cincinnati, has established two new territorial sales divisions, with headquarters in New York and Atlanta.

Heading the New York operations as divisional sales manager is Ken Joseph, former WPAT Paterson, N. J., sales staff member. Mr. Joseph joined Westinghouse in 1952, after radio associations including WOLF Syracuse, WGNR White Plains, and WNYC and WEVD New York.

Working out of Atlanta is James Weathers, with World since 1951, most recently in a sales post in San Francisco. He started his radio sales career with WAGF Dothan, Ala., later became sales manager of WNEX Macon, Ga.

Dick Lawrence, national sales manager for World, also announced that Bill Pennell, formerly of CBS New York, will move to California to head up the company's western sales division.

**PROGRAM SERVICE PEOPLE**

John P. Brophy, former KUTV (TV) Salt Lake City program director and national sales manager, announces opening of own agency for production of radio and television programs and commercials and public events in Salt Lake City, with complete talent directory.

Mr. Brophy was on production staffs of network programs in New York City before entering western radio-tv.

Max K. Lerner, general attorney for Sesac Inc., re-elected for a second three-year term as member of board of trustees, Federal Bar Assn. of New York, New Jersey and Connecticut.

Harriet Kaplan and Lily Veldt, associates in the Robert Lantz Talent Agency, will be responsible for new department at the Henry C. Brown office handling radio, tv, and legitimate theatre talent, effective Nov. 1. Company spokesmen also said that plans are under consideration to open a west coast office.

William Peart, Southwestern representative for Associated Press, to International News Service-International News Photos as southwestern business and sales representative. From headquarters in Dallas, he will handle sales and client relations in tv, radio and newspaper fields.

**NETWORKS**

**CHICAGO RENEWS BID FOR NETWORK SHOWS**

Momentum gains in civic movement to recapture ground lost by Chicago as an origination center for network radio-tv programs.

A MOVEMENT to recapture ground lost by Chicago as a radio-tv origination center has assumed civic proportions as part of a multi-pronged endeavor to revitalize the city as a broadcast, theatre and cultural capital.

First indications that more network tv programs are contemplated are seen in NBC-TV's reported plans to produce some of its Home, Today and Tonight programs during the 1955-56 season from Chicago. Also CBS Central Div. will move its studios to the remodeled Chicago Arena next year.

The movement has been spearheaded recently by the Assn. of Commerce and Industry, headed up by Thomas Coulier as chief executive officer, who noted that total advertising volume of agencies is over the $1 billion mark [89T, Sept. 26].

It gained further impetus when Mayor Richard J. Daley lent his support to the movement. Last week, a number of plans looking toward revitalization of broadcasting and other pursuits had been submitted to Mayor Daley. In a closed circuit talk before the Commercial Club of Chicago, the Mayor expressed concern over the city's status in contrast to New York and Hollywood.

Groundwork for the movement was laid earlier by Chicago Unlimited, an organization devoted to the promotion of the city as a radio-tv center.

Another source of concern in Chicago radio-tv circles is the acknowledged failure of Broadcast Advertising Club to emerge as a strong organization alongside the Chicago Federated Advertising Club, Sales Executives Club and other local organizations devoted to advertising generally.

**Court Denies AB-PT Plea To Drop Winchell Complaint**

THE NEW YORK State Supreme Court last week denied on the ground of insufficiency a motion by American Broadcasting-Paramount Theatres to dismiss a complaint in a $7 million suit brought by Walter Winchell.

The court, however, directed that Mr. Winchell's complaint be "recast" in compliance with certain parts of the Rules of Civil Practice so that it explains "with great particularity" his cause of action. The principal issue was whether Mr. Winchell, who was under contract to ABC as a commentator, was protected, if he were sued for libel or slander. Mr. Winchell alleges that network officials told him he was not protected.

**NBC Signs First 3 Sponsors For New 'Weekday' Service**

FIRST advertisers to sign for NBC Radio's Weekday, which starts Nov. 7 (Mon.-Fri., 10 a.m. through 6 p.m. EST), were announced last week.

The sponsors are Associated Products Inc. (5-Day Deodorant Stick), Phillips-Jones Corp. (Van Heusen shorts) and the Menen Co. (Mennen Skin Magic). Additional announcements are made at the rate of two per day and continuing through the end of this year.
Adv. is the agency for all three companies. 

Weekly announcements are $1,500 for one minute; $5,625 for 30-second announcements sold in a minimum of five weekly; $4,300 for six-second billboards sold in a minimum group of 10 weekly (subject to variations and annual discounts varying up to 10% for 10 weekly minutes or more and annual discounts varying up to 20% for 250 minutes a year).

Marmor, formerly AP regional radio the now PRODUCTION be supervised, take turns to be tracted for the production of a programme and talent.

Benson Named to Produce NBC Radio's New 'Weekday' PRODUCTION of NBC Radio's Weekday (Mon.-Fri., 10 a.m.-6 p.m. EDT) which premieres Nov. 7, will be headed by executive producer Mitchell Benson, with NBC Radio since 1949. Key members under his supervision are: supervising producer Allen Ludden, moderator of College Quiz Bowl and Mind Your Manners; and information and service director Geraldine Rhoads, former editor-in-chief of the now-defunct Today's Woman magazine and more recently with Readers Digest. Also reporting to Mr. Benson are Helen Marmor, formerly AP regional radio editor, now Weekday features editor, and Kenneth W. MacGregor, NBC Radio staff producer, who will handle Weekday's dramatic unit.

Godfrey Drops 4 More: Puck, Bresler, Bryan, Simms A NEW CHAPTER was added to the Godfrey employee-employer relations story last week. The CBS radio station initially hired three from his staff: Larry Puck, co-producer with Jack Carney of Talent Scout; Jerry Bresler, musical conductor, and George Bryan, announcer, both of Talent Scouts. No replacement was indicated for the three whose five-year contracts would have run until next April. CBS said Mr. Puck would be paid in full. Mr. Carney remains as co-producer. Bert Farber becomes the new musical conductor and Tony Marvin the announcer.

Late in the week another member of the staff, singer Lu Ann Simms, who had taken maternity leave in March from two Godfrey radio-stv productions, informed the station that her contract—which CBS had an option to terminate Dec. 2—would not be renewed.

Her dismissal from Mr. Godfrey's shows was the 20th since Julia La Rosa, singer, became the first dismissal.

Mr. Puck last December was dropped as producer of Arthur Godfrey and His Friends after he and singer Marian Marlowe announced their engagement. Subsequently, in April, she was dismissed from the latter show along with eight others. Miss Marlowe and Mr. Puck were married last summer. Mr. Puck said that he did not know why he had been let go but added that as far as he was concerned, "Godfrey is an employer, and an employer has the right to terminate anybody's services if he wants to do so."

ABC-TV, Four-Star Plan Film Series for Next Fall ABC-TV and Four-Star Corp., producers of Four Star Playhouse and Cavalcade of America, last week jointly revealed that they had contracted for the production of a full-hour series to be shown on the network next autumn.

Tentatively titled Wire Service, the series will star three or more unnamed, who will take turns in the leading roles, and will be filmed at KKO-Pathé, Culver City, Calif., as well as in Paris and London. Wire Service will be supervised, network officials said, by Robert M. Weitman, ABC-TV vice president in charge of programme and talent.

Signing for ABC was President Robert E. Kintner, and for Four-Star Corp., Don W. Sharpe, its president.

Networks Aligning Plans For Bowl Game Coverage RADIO AND TELEVISION networks are getting prepared for extensive coverage of bowl football games to be played during the Christmas and New Year's holiday season.

ABC will present the Sugar Bowl game on radio and television on Jan. 2, starting at 2 p.m. EST. The network is offering the joint radio-tv package to one advertiser for a complete price of $198,458, commissionable.

On Jan. 2, NBC-TV will carry the Cotton Bowl, sponsored by the Dodge Div., Chrysler Corp., starting at 1:45 p.m. EST, and the Rose Bowl, under the sponsorship of Gillette Safety Razor Co. NBC-TV also will carry the professional football championship game on Dec. 26, starting at 1:45 p.m. EST, under sponsorship of Miller Brewing Co. and Buick Div. of General Motors Corp.; the Blue-gray game on Dec. 31 (2:45 p.m. EST), sponsored by Gillette, and the East-West game on Dec. 31, starting at 4:45 p.m. EST. A spokesman said that NBC Radio currently is negotiating to carry all or some of these games.

CBS Radio and CBS-TV will present the Orange Bowl game on Jan. 2, starting at 2 p.m. EST under the sponsorship of Gillette. CBS Radio will broadcast the Gator Bowl on Dec. 31, starting at 2 p.m., and the Senior Bowl on Jan. 6, starting at 3 p.m.

Mutual will carry the East-West game on Dec. 31, starting at 4:45 p.m. EST.

More for 'Breakfast Club' SANDURA Co., through Hicks & Greist, New York, will sponsor on behalf of its floor coverings, the 9:45-9:45 a.m. EST segment of Al Ritschard's Breakfast Club (Mon.-Fri., 9-10 a.m. EST) each Thursday, effective Nov. 17, Charles T. Ayres, vice president in charge of the network, said last week. Mr. Ayres also said British-American Co. has added new segments to its sponsorship. Effective today (Monday) it will sponsor the 9:45-9:45 a.m. period Mondays and Fridays on behalf of Bufferin, Young & Rubicam, Bristol-Myers, through Doherty, Clifford, Steers & Scheffeld already sponsors the 9:55-10:30 a.m. period, Mondays, Wednesdays and Fridays on behalf of Mink cream deodorant.

WJHL to Join CBS Radio WJHL Johnson City, Tenn., joint CBS Radio as a supplementary station in the South-Central group on Jan. 1, 1956, William A. Schudt Jr., CBS Radio vice president in charge of station relations, announced last week. The station will be available individually with the basic network, Mr. Schudt added. WJHL, 5 kw day and 1 kw night on 910 kc, is owned and operated by WJHL Inc.

MBS Extends Afternoon Show MBS starting today (Monday) extends its new "Personality-Program Formula" by an additional two hours. Titled Mutual Mainline, the two hour block of programs, starring former musical comedy star Ruby Mercer, MBS personalities Bruce Elliot and Dan McCullough, singer Richard Hayes, the U. S. Army, Air Force and West Point bands, will be slotted between 3 and 5 p.m., alternating on a regular basis.
RECORDED TV DEVELOPMENTS EXHIBITED; MULTI-BILLION-DOLLAR INDUSTRY SEEN

Academy of Television Arts & Sciences Hollywood meeting hears equipment leaders describe newest developments. RCA unveils new monochrome and color kine processes.

RECORDED TELEVISION faces a period of tremendous expansion, in the opinion of major equipment manufacturers, and they are ready to battle for what promises to be a multibillion-dollar industry within an industry.

The equipment giants joined in a well-attended but hard-fought battle last Wednesday night before the Academy of Television Arts and Sciences, meeting in Hollywood, as more than a thousand leading engineering, marketing and executive personnel from the industry joined in a kinescope-magnetic tape encounter. They heard details of a brand new Disney RCA film editing process that takes 70% of the time and heavy print costs out of film editing. They saw the promising details of the DuMont Electronicam match of optical and video camera processing and production-editing.

Finally, they took a quick peek into television's future as seen through an RCA spokesman, including two-way wrist-watch video sets, mural screens for home and theatre. And, color kine visual contact with man-made satellite space vehicles was "still within our lifetime."

Most exciting to the industry leaders was the sudden unveiling of RCA's new monochrome and color kine processes. These are based on an ultra-violet lighting system. When the two-color kine was demonstrated there appeared to be substantial agreement with RCA's claim that film made by the kine process is indistinguishable on the receiver from direct photography. RCA said the kine process is at a commercial stage and even suggested it is ready for extensive use in the commercial film industry.

RCA is developing a color opaque projector that can be multiplexed into the color camera. A dramatic point in the RCA-Crosby recording competition was RCA's unveiling of high-quality color kine recording only a few minutes after a Crosby spokesman had claimed their own color kine equipment. The RCA color kine reminded viewers of theatrical color film and it was shown on a full theatre screen.

It is still in the laboratory stage and was recorded at an output of 16mm for the black-and-white kine.

Summing up, the technical unveiling of new equipment and processes pointed to enormous savings in production and an eventual revolution in the dollar-saving techniques used in theatrical studios; to steady and rapid growth in the use of video recording processes for television station and network programming, and to a test battle between magnetic tape and kine recording, with the likelihood that both will find important levels in the entertainment, theatrical and education industries.

In this development there will be multibillion-dollar new markets for electronic and photographic equipment with a blending of techniques and an eventual revolution in motion picture studio processes.

RCA made it obvious that a serious bid is being made in all phases of this evolution. It is out to capture its share of the educational industry on the theory that one out of every seven American dollars—$350 billion out of the nation's $335 billion spending budget—is spent "to teach people to do something." Coupled with automation, the academy group was told that new development should mean more rather than fewer employment opportunities in America industry.

Here is a company-by-company account of the unveiling of television's future before the academy's members and guests:

**RCA**

Andrew F. Inglis, manager of television systems for RCA, brought the latest word from Princeton and Camden, N. J. He showed 16mm black-and-white kines "of commercial quality based on the new ultra-violet technique. He said improved gray scale and resolution had been achieved. Large-screen monochrome kines were shown on the theatre screen and Mr. Inglis drew favorable nods from the audience with large-screen kines as he claimed they can't be told from direct photography on the receiver.

He showed laboratory kine color on a theatre-size screen, with clips from NBC's "Swan Lake," a Connie Russell singing sequence that presented Miss Russell in detail, and a color tv promotion film with a mobile motif. Mr. Inglis apologized for some flaws but only the technical experts were able to detect imperfections. His demonstration was spiced by a previous Crosby claim that no kine process existed.

While Mr. Inglis didn't say so, it was obvious that RCA feels it is at least as far along as Crosby in development of magnetic video tape. Mr. Inglis held to the belief that tape will not replace theatrical film in the foreseeable future by citing "industrial inertia" factors such as vast libraries of optical films, equipment investment and specialized techniques. It appeared RCA is developing both kine and magnetic tape recording but the presentation by Mr. Inglis raised the prospect that kine may take a leading role in the evolution of television and motion picture devices.

Mr. Inglis said vidicon camera tube development is moving rapidly although it still requires 10 times as much light as the image orthicon. He said the upcoming tri-color tubes have long life and will be cheaper than image orthicon tubes.

He forecast a downward price trend in color tv sets starting in mid-1956 and estimated 1956 color set output at 300,000. The color problems are now "commercial," he said, with relay facilities and full equipment available to the industry. He predicted that the transistor some day will replace the many equipment uses and that theatrical tv will be an important part of the entertainment industry.

Mural tv, using electro-luminescent sheets, promises an answer to large-screen tv in home and theatre, he said, explaining it is still in the laboratory stage and may not come out for a number of years.

**Bing Crosby Enterprises**

John T. Mullen, in charge of engineering, told how the Crosby laboratory started work on video magnetic tape a few months after the first commercial audio tape, in 1948. Laboratory development started in mid-1951 with the first demonstration in November of that year. Emphasis was shifted to multiplexing, using a one-inch tape at 100 inches a second, but this was dropped in favor of a direct system which is easily adaptable to color.

Next week the Crosby laboratory will demonstrate its latest video tape, which Mr. Mullen said "is pleasant to look at and is highly acceptable, particularly in color." He explained explained tape tv, which he called "VTR," can be played back in a fraction of a second. The half-inch tape is run at 180 inches a second, with 294 mc. Defined tracks are 17 inches in diameter. Speed is no problem as in intricate optical gear, he said. Improvement is coming in elimination of dropouts and better definition, as well as lower speed, he said, with all circuits having been devised.

He listed tape advantages as: foolproof; can be erased; playback in fraction of a second; stop-and-go editing; editing with scissors and sticky tape; tape can be stopped for easy examination of both sides; one can be duplicated quickly in large quantities by re-recording; can be recorded for color and tone; there is no gray-scale problem as in optical film work; color is reproduced exactly as recorded and is simplified to three tracks instead of one. "Black and white is very good; color is better," he claimed.

** Walt Disney Studios**

Robert W. Gilbeaut, manager of editing, described "The Monster," a new film editing machine developed by RCA for the Disney Studios on 60 days notice to meet the need of the new daily one-hour New York television schedule. The device applies tv switching technique to film editing, utilizing three editors tied into RCA TV-6 cameras which converts an optical image to an electronic image.

The device was described by industry viewers as an important step in editing and production, saving three-fourths of editing time and already drastically cutting print costs. Mr. Gilbeaut predicted it will be adapted to kine films and direct broadcast. Rough editing is permitted during photography by a recording control track in interlock with camera. The control desk has a four-monitor and a footage counter. Reverse images are used to give the appearance of prints. The memory tape is actuated by a cluster of seven recording heads.

**Allen B. DuMont Labs.**

James L. Caddigan, director of electronics
marketing, called the Electronicon "a marriage of motion picture and television." He showed how three cameras are used, each having both film and electronic pickups, and demonstrated how the director selects cameras and comes up with a film ready for direct projection or tv broadcast. Rapid rehearsal and spontaneity are advantages, with important production cost economies.

The Electronicon is being used in the Jackie Gleason Show. Work that once took hours with only a few feet of film obtained can now be done rapidly, he said. A light translator is being developed as a refinement. "The techniques will have a far-reaching effect in all areas where action or subject matter must be recorded on motion picture film," Mr. Caggian said. The system has 16mm and 35mm film versions and can be adapted to the new wide theatre screens.

Sarnoff Given Navy Award Citing Outstanding Record

BRIG. GEN. David Sarnoff, chairman of the board of RCA and NBC, last week was presented with a plaque from the Chicago Council of the Navy League of the U. S. for his "distinguished service to the U. S. Navy, the nation and the American people."

The presentation was made at the Navy Day dinner of the council in Chicago, during which Gen. Sarnoff outlined a three-point program to meet the communist challenge on the military, civil defense and propaganda fronts. He urged that the United States bolster its military strength to the point that no nation will dare to attack us; develop a civil defense program to assure "the maximum support of our armed forces if hostilities do come," and "pursue victory in the so-called 'cold war' as resolutely as the Navy always has pursued victories in 'hot war.'"

Gen. Sarnoff reviewed RCA's long association with the armed forces and said that electronic advances accomplished during World War II had hastened the advancement of tv broadcasting as a post-war service to the public.

Six Tv's Buy RCA Color Gear

SALES of color tv live and film cameras to six stations for use in originating local colorcasts were announced last week by A. R. Hopkins, manager of the RCA broadcast equipment marketing department. The cameras were bought by KMTV (TV) Omaha, KFRC-TV Houston, WSLS-TV Roanoke, WTOR-TV Norfolk, WJBK-TV Detroit and WTOV-TV Washington.

**Philco Opens New Division, Changes Key Assignments**

SEVERAL changes in the assignments of top-level personnel of the Philco Corp. were announced last week by President James H. Cantine.

Frederick D. Ogilby, vice president-manager of television sales, has been named vice president-marketing of Philco. James M. Skinner Jr., vice president of tv division, has been given added duties of division general manager.

At the same time Mr. Cantine announced the formation of an automotive division to direct the manufacture and sale of Philco radios and other products for the automotive industry. The new division will be headed by William H. Chaffee, formerly vice president-general manager of the radio division.

Henry E. Bowes, advertising and promotion manager of television, has been named general manager of home radios. John L. Goldschmeding, sales manager for refrigerator, was appointed manager of electric range sales. J. S. Friesch, sales promotion manager, home radios, takes over similar duties for television as well.

Gibson B. Kennedy, sales manager for the North Atlantic Div. with headquarters in Boston, has been transferred to Philadelphia as merchandising manager of television, a newly created post. Robert P. Kelly, general sales manager, Philco Distributors Inc., was named to succeed Mr. Goldschmeding, with headquarters in Philadelphia.

Sun-Powered Transistor Radio Displayed by Admiral Corp.

A TRANSISTOR radio, capable of being operated by the sun rays or heat-producing objects, was unveiled by Admiral Corp. in Chicago Thursday [Closed Circuit, Oct. 24].

The radio, which also operates in conventional manner, requires no tubes or replaceable batteries. It contains a control knob for changing the receiver from solar operation to a standby battery (flashlight size) recharged by the sun's rays. A standby cell can play 50 hours without recharging, it was claimed.

On top of the cabinet is a line of seven cells on a plastic strip which, activated by the sun, provide the radio's primary source of power. The solar battery can also be activated by a heat lamp or 100-w household bulb. The receiver includes eight transistors instead of tubes.

One of the biggest drawbacks of the receiver at present, Admiral officials acknowledged, is the cost of each solar cell because of the expensive silicon element. Now about $25 each, the cost conceivably could come down to less than $1 in five years, it was noted.

Tv Set Shipments Hit 4.1 Million in 8 Months

SHIPMENTS of tv receivers to dealers for the first eight months of 1953 totaled 4,155,541, compared with 3,465,871 in the same period last year, Radio-Electronics-TV Mfrs. Ann. reported last week. In August, there were 605,664 tv sets shipped, compared to 465,160 in July and 466,694 in August 1954. Set shipments for January-August this year were as follows:

Ranger Hits Tv Film Sound

CHALLENGING tv film producers to take more time and use better means with which to convey sound over the home tv sets, Col. Richard H. Ranger, president of Ranger-Tone Inc.,
NEWARK, N. J., magnetic tape manufacturer, told the Radio Club of America that "too many sound tracks are the result of eleven hour rushes."

Speaking at the Club's regular meeting in New York last Thursday, Col. Ranger stressed the "obligation" that film producers have to the public of "synchronizing the sound with the picture." He said that although "many sound tracks are not all are, especially on commercials." The solution, said Col. Ranger, is in fully utilizing optical sound tracks, currently used in regular motion pictures.

RCA Uses Special Lens To Place Color Phosphors

USE BY RCA of a specially-designed optical lens that permits precise location of phosphor dots on the face of color tubes was made known at the Conference on Electron Devices sponsored by the Institute of Radio Engineers in Washington last week.

The optical lens permits the simultaneous emission of electron beams as they come from a regular color tube gun so that angles of deflection on the shadow mask can be correlated with the red, green and blue phosphor dots on the face of the tube itself. This has simplified and speeded production of color tubes, RCA said.

Watts Sees Industrial TV Topping Electronic Sales

PREDICTION was made last week by W. Walter Watts, executive vice president, electric components, RCA, that in the next few years, television and the smaller "eye-tv" systems will represent a larger dollar volume for the electronics industry than entertainment tv represents today.

Mr. Watts expressed his view at a roundtable meeting of business executives at the New School for Social Research, New York. Mr. Watts, who spoke on "The Changing Design for Industry and Living—Through Electronics," selected industrial tv as one of a number of products and services not on the market 10 years ago that have "high potentialities for future growth."

He also reported that by the end of this year total black-and-white television set purchases by the American public since 1946 may exceed 43 million. He said that a "break-through" in color television is now going on, and added that by the end of 1956, color tv will be "a major factor in the electronics industry."

Admiral Corp. Premieres Automation Color Movie

A NEW MOTION PICTURE film on radio-television set automation techniques was premiered by Admiral Corp. in Chicago and New Orleans last week.

In Chicago Martin Sheridan, Admiral public relations director, noted that his company's system of automation was developed "with private capital." Admiral held a news luncheon Thursday to introduce its new solar-powered transistor radio (see page 90-A) and premiered the color film produced by Atlas Film Corp., Chicago.

Mr. Sheridan addressed the Tulane U. business alumni conference in New Orleans Friday, commending labor for its "intelligent and enlightened approach" to automatic production involving use of printed circuit panels. He described automation as a "highly advanced form of mechanization" and noted the radio-television industry was slow in gearing for it after some forms had been used in other industries.

TelePrompTer Expands, Reorganizes Personnel

TELEPROMPTER Corp., New York, has completed an expansion program adding new products and services and reorganizing the executive staff, according to Irving B. Hahn, TelePrompTer president.

Launched five years ago to manufacture the TelePrompTer, the company has now added a new line of teleprompt equipment, including rear screen projectors and related equipment. Under the new organization, TelePrompTer National Sales Co. has been merged with the parent company.

In the new executive appointment, Herbert W. Hobler becomes vice president in charge of sales. He formerly was sales manager of the subsidiary company. Five sales divisions have been established under his direction. They are:

- Stations division, headed by Warren Abrams, formerly with CBS and NBC; public speaking and staging division, headed by William Marsh; sales service division, headed by James Blair, former sales manager in Washington and New York—Ray Hagen has been named a special sales representative in the sales division; network and film service division, headed by Don Kiddell; field offices division, under direct supervision of Mr. Hobler.

MANUFACTURING SHORTS

CBS-Columbia's 1956 line of tv receivers, introduced last week in stores throughout country, features chassis in "lift-out" for easier and quicker servicing, without need for disassembling entire set. Daniel Newman, CBS director of product services, describes the innovation as "a basic contribution to modern television set design."

Baume Electronic Sales Co., Bethpage, N. Y., appointed sales representative for Panasonic Hi Fi Speakers, manufactured by Matsushita Electric Industries, Japan. Max Baume will handle Panasonic sales in N. Y. metropolitan area.

Magnavox Co., Ft. Wayne, Ind., had 30% increase in sales for first quarter ending Sept. 30, 1955, over same period last year, company reports. Total product-sales for 1955 were $13,300,000 as against $10,300,000 for 1954. Although all Magnavox divisions were reported to have expanded sales since last year, radio-phonograph-television sales showed biggest increase, according to President Frank Freimann.

RCA receiving tube manual RC-17, for many years standard reference book for circuit engineers, revised and enlarged to 136 pages in move to "keep abreast of the technological advances in electronics field," according to RCA Labs spokesman. Revised edition may be obtained for 60 cents by writing to commercial engineering, RCA Tube Div., Harrison, N. J.
BETTER PROMOTION METHODS ANALYZED

Fourth Annual Promotion-Merchandising-Publicity Clinic of stations represented by NBC Spot Sales is offered suggestions for improved merchandising, promotion and publicity.

SUGGESTIONS on how to penetrate the so-called "gray flannel curtain" of advertising and a presentation on the dynamics and dimensions of television highlighted the luncheon sessions of the Fourth Annual Promotion-Merchandising-Publicity Clinic of stations represented by NBC Spot Sales, held last Monday and Tuesday in the Hotel Plaza, New York.

Nearly 50 persons associated with the promotion, merchandising and publicity activities of the stations participated in informal workshop sessions at which ideas were exchanged and reports made. The luncheon sessions, which presented talks by Halsey V. Barrett, Television Bureau of Advertising account executive, and included the sending of information to agencies that will prove valuable and helpful to them, and the selection of the sales tool-personal call, promotion piece, personal letter or trade advertising-that seems most appropriate for a specific project.

Mr. Barrett told the audience that many advertisers are not using television because they still are unaware that tv does not require a million-dollar budget. He pointed out that some of the outstanding American companies, both large and small, are using spot television regularly. He said that prime spot announcement and program time currently is available.

Mr. Barrett said few advertisers realize that tv sponsorship can be "the mainspring of their entire advertising campaign." He said many advertisers are now aware that tv has captured the fancy of the American people in much the same way that the movies, the theatre and "bigtime" radio did in the past.

"Because of the far-reaching power of television, it is my personal belief that to date, of television's growth "calls for sharper evaluation of markets and stations and, in turn, more complete coverage and market data. "The publication of this pocketpiece is part of an overall expansion of our service facilities. . . . Here, for the first time, the principal market guides, population, families, tv homes and retail sales, have joined in one basic report."

H-R Representatives Inc. Names Mandeville, Cass

ROBERT S. MANDEVILLE, vice president and eastern sales manager of Everett-McKinney Inc., and Calvin S. Cass, Hoag-Blair, have been appointed to the New York sales staff of H-R Representatives Inc.

Mr. Mandeville began his career with NBC and broke into time sales with John H. Perry Assoc., prior to joining Everett-McKinney in Chicago as western sales manager.

Mr. Cass started in print media representation with Burke-Ruipers & Mahoney Inc., and from there went to Adam Young, before joining Hoag-Blair.

Cubs Sign Pact With WIND

WIND Chicago has completed a new three-year agreement with the Chicago Cubs National League ball club for exclusive broadcast rights to all home and road games. The Cubs were expected momentarily to sign a two-year contract with WGN-TV for tv rights to all its home games which will put the Cubs on the same basis as the Chicago White Sox, whose games also are televised by the Chicago Tribune station under a three-year agreement. WIND has aired Cubs broadcasts on its independent facilities for the past 12 years.

JOIN the smart music stations- USE

This service pays its way every day in better programming, more spots without doubling—The hit of current and standard hit tunes are recorded new each month by outstanding talent on pure vinylite 12" 331/2 RPM discs.

WWIL Goes on Air, Appoints Key Personnel

WWIL, Ft. Lauderdale, Fla., went on the air Oct. 20 with a format of 20 hours of music and news daily, according to L. A. Benson, president of Missouri Broadcasting Corp., which owns and operates the 1 kw outlet. Mr. Benson, who started WIL St. Louis in 1922, will serve as president-general manager. Nick Pagliara has been named vice president-assistant general manager and Jack Barry is station director.

Mr. Pagliara has been in broadcasting 26 years, the last six with Missouri Broadcasting. Mr. Barry is a veteran of 20 years, most recently with WGBS-TV Miami.

WABD (TV) Goes to College With New Programming Plan

WABD (TV) New York last Friday launched a "campus close-up" operation to bring broadcasters closer to colleges' viewpoint—and vice versa.

The station has chosen representatives from 30 colleges in the metropolitan New York-New Jersey area and has assigned them to the WABD news bureau as "stringers," to cover important campus news events for such programs as Mike Wallace and the News. In return, station is presenting a series of eight seminars, covering every aspect of news and public affairs, lasting through the current semester. Also planned by station's special projects coordinator Betty Friedman, supervising "campus close-up," are rotating work schedules throughout all station departments, and the production of either a 15-minute or half-hour script.

N.Y. CBS Radio Spot Moves

CBS Radio Spot Sales, New York, today (Mon.) is moving to enlarged headquarters at 460 Park Ave. from its former location at 501 Madison Ave. Wendell Campbell, CBS Radio vice president in charge of radio spot sales, announced that during the past year, the department has increased its sales development staff from two to four representatives, and added an additional two account executives to its 12-man sales force. The department also created a new spot sales mail order section, which currently devotes fulltime to mail order advertisers on represented stations.

Certified Audience Plan Offered by WLW Cincinnati

WLW Cincinnati's new programming concept, The World Now, slated for a Nov. 6 beginning [B*T, Oct. 24], will also present a new sales plan for sponsors and clients. Known as Certified Audience Plan, it is designed to reach the greatest number of unduplicated homes, according to the station.

CAP guarantees advertisers that their message will reach customers at a cost of $1.00 or less per thousand. The plan incorporates announcements at various times during the day, with a minimum of three per week and a maximum of fifteen.

WCEM Drops Mutual Strip, Charges Crime Overemphasis

WCEM Cambridge, Md., informed Mutual last week that it was dropping the network's programs in the 8-8:30 p.m. time slot Monday-Friday because, according to WCEM President G. P. Richards, the shows "are not in the best interest of the audience which predominates that listening period." Mr. Richards stated the station's evening audience is made up largely of young people.

WCEM did not name the programs involved but Mutual carries True Detective Mysteries, Treasury Agent, Gangbusters. Official Detective and Counterspy during the half-hour mentioned.

Mutual made no comment on the WCEM action.

WMAL Stations, NABET Sign 39-Month 'Record' Contract

WMAL-AM-FM-TV Washington and Local 31 of National Assn. of Broadcast Employees & Technicians (NABET-CIO) last week signed a contract which station and union officials believe to be the longest ever put into effect in that region and one of the longest ever signed with the union anywhere.

The agreement, which affects 36 employees of the Evening Star Broadcasting Co. (Evening Star) stations, runs for three years and three months. Previous contracts have been in force only for one-year periods, a WMAL spokesman said.

Details of the 39-month contract were not disclosed.

Signing on behalf of WMAL-AM-FM-TV last Thursday were Fred S. Houwink, general manager of the stations, and A. T. Powley, chief engineer. Representing the union were Clifford Gorsuch, NABET regional director, and Stan Egbert, vice president of NABET Local 31. Jack Dennis and Lee Hunter, engineers at the stations, were members of a negotiating committee.

WITI-TV Plans Winter Start

INDEPENDENT TELEVISION Inc. has awarded contracts for tower foundations and ground has been broken in initial steps looking toward operation of WITI-TV Whitefish Bay (Milwaukee), Wis., on ch. 6 late this winter, it was reported by Soren H. Munkhof, vice president and general manager.

The plant will include studios, tower and transmitter in Mequon, north of Milwaukee. WITI-TV will erect a 1,046-ft. tower and operate with 100 kw as a non-network station, stressing top films and local programs. It also will be equipped for colorcast.

Page 90-D • October 31, 1955
Passage, Maucione Promoted At KYAK Yakima, Wash.

RICHARD J. PASSAGE, commercial manager, has been named manager of KYAK Yakima, Wash., and Anthony W. Maucione appointed assistant manager-commercial manager, according to Robert S. McCaw, president of the Yakima Broadcasting Corp.

Mr. Passage has been farm director of the Mutual outlet for the past six years and will continue to serve in that capacity in addition to his new duties. Mr. Maucione was formerly news editor and account executive for KYAK, but for the past two years has been manager of KOMB Cottage Grove, Ore.

Other recent additions to the KYAK staff are Hal Shade and Bob Sweezy, account executives.

WJR Program on Conelrad Recorded for U. S. Stations

FEDERAL Civil Defense Administration, through the cooperation of WJR Detroit, has made 3,100 recordings of No Second Chance for distribution to all radio stations in the U. S. and territories.

No Second Chance explains Conelrad and illustrates how it works in the civil defense system. It was written and produced by WJR as a public service after civil defense surveys and new publication editorials indicated an urgent need for further public education as to the meaning of Conelrad. The program simulates a Conelrad alert and an enemy air raid, complete with sound effects.

KOZE Lewiston Starts

KOZE Lewiston, Idaho, music, news and sports station owned by Lewis Clark Broadcasting Co., went on the air Oct. 6, operating on 950 kc, 300 w. Studio location is at 924 Main St., Lewiston; transmitter is in North Lewiston.

KOZE staff appointments include A. Thomas Decker, manager; Reg Roos, assistant manager; Harry Howard, sports-news director; Tom Moeller, chief announcer; Gladys Swank, news editor, and Irene Hutcherson, receptionist.

WHOT Goes on Air

WHOT Youngstown, Ohio, announced last week that it is now on the air on 1570 kc with 250 w. William Fleckenstein is general manager and Lou Skelly is commercial manager. The daytimer is owned by Myron Jones, majority stockholder of the Jet Broadcasting Co., which also owns WJET Erie, Pa.

WRCA-TV Color Offer

PARTICIPATING advertisers on WRCA-TV New York's Jinx's Diary (Mon.-Fri., 2:30-3 p.m. EDT), starring Jinx Fulkenberg McCravy, will be able to sell their wares via color tv, effective today (Monday). The last ten minutes of each program will be in color. According to WRCA-TV Sales Manager Jay Heitman, advertisers may ask to have their schedules rotated through the period of colorcasting, enabling them to make use of a "laboratory for experimenting with live color."

WBAL-TV Steps Up Color

WBAL-TV Baltimore begins its first daily regularly scheduled local colorcast today (Monday) when The Homemakers (10:45-11 a.m. EST) is presented in color. The Monday-Friday program features Molly Martin and Mary Landis and will also make use of color commercials.

Intermountain Broadcasting Promotes Shaw, Woolley

APPOINTMENTS of Glenn Shaw, sales director of KDYL Salt Lake City, to general manager of that station and of Harold (Hack) Woolley to sales manager in charge of local and national business of KTNT (TV) Salt Lake City were announced last week. G. Bennett Larson, president and general manager of the Intermountain Broadcasting & Television Corp., (KDYL-AM-FM, KTNT (TV)), said both men will assume their new positions immediately.

Mr. Shaw was chairman of the am radio committee for the NARTB in 1952 and served four years as a board of directors member of NARTB District No. 15.

Mr. Woolley joined the sales staff of KDYL in 1949, then moved into the tv sales picture with the expansion of KDYL-TV, now KTNT.

STATION SHORTS

KWIZ Santa Ana, Calif., launches Alpha Beta Markets on its first saturation campaign with signing of year's contract through Warren P. Felman agency for 154 announcements weekly on Thursdays, Fridays and Saturdays. Station also reports new department store high, with six in fold.

KMTV (TV) Omaha announces purchase of its second color camera, from RCA. Since introducing local color, station has been producing daily color shows.

WTMJ-TV Milwaukee reports that Raymond Spector Co., N. Y. (for Hazel Bishop), is first national agency to take advantage of station's new 30-second spot service. Plan eliminates

Jack Logan, former operations manager of WMAL Washington, to KQV Pittsburgh as morning personality.

Harrison W. H. Eagles, tv news and special events director for Pittsburgh and Florida stations, to XETV (TV) Tijuana-San Diego as merchandising-promotion manager.

Stanley Reid, WTOP-TV Washington, appointed production manager, to supervise operations and scheduling of directors, announcers and floor directors.

Norman H. Stewart, Chicago radio veteran, to WFBA Dallas sales staff.

Faye Leavitt to WOAI-TV San Antonio as film manager, Paul Audette, WOAI-TV technical staff, to CKRS-TV Jonquiere, Que., Canada, as production manager.

Guy Anderson, assistant musical director and librarian, WFAA Dallas, Texas, appointed music director, replacing Wilbur Ard, leaving to over Tarpley Music Co., Pampa, Texas.

Pierre Willis Jr., manufacturing representative and with WEAT West Palm Beach, Fla., from 1951 to 1954, to sales staff, WEAT-TV.

Forest M. Landon, KFRRU Columbia, Mo., to WDBJ-TV Roanoke, Va. news department.

James Durham, studio engineer, WASL Annar- obis, Md., to WDBJ-TV in same capacity.

**All Because of Columbus**

AN unidentified Philadelphian received a rude jolt when over 3,000 postcards spilled out of his post office box that were intended for KYW Philadelphia. KYW plugged a Columbus Day salute, asking listeners to send their names to “Columbus Day, Box 1492, KYW Philadelphia” to be eligible to win records by Italian stars and a six-foot pizza pie, which was given away by the Westinghouse station every hour Oct. 12 [B&T, Oct. 17]. The irate holder of box 1492 notified post office officials who in turn called the station. Red-faced station officials changed the address to read “Department 1492.”
New Magazine Publishes Top Radio-TV Scripts

NEW monthly publication, Radio-TV Scripts, designed to serve as a published record of "radio and television programs in the informative field," began publication last month.

Initial 96-page issue presented digests of Edward R. Murrow's report on smoking and lung cancer (CBS-TV); A Biography in Sound program on F. Scott Fitzgerald (NBC Radio); NBC-TV's Comment show on the American "turncoat" ex-POWs; WCBS New York's Let's Find out daily with Rocky Graziano on juvenile delinquency, and NBC Radio's Weekend report on divorce, among others.

Radio-TV Scripts is published by Facts On File Inc., at 119 W. 57th St., New York 19, N. Y. Edward Van Westerborg is publisher. Fred McGee is editor and Lester A. Sobel is senior assistant editor. Test advertising for magazine subscriptions is being conducted on radio stations for six weeks, with announcements placed on WHEN and WFBQ Syracuse, WADC Akron, and WAVZ New Haven.

PROFESSIONAL SERVICES SHORTS

Audio-Video Recording Co., N.Y., has instituted new service supplying audio air checks taken anywhere in the U.S. Company notified ad agencies it has established agreements with other recording studios throughout the country for tape or disc checks.

WHDH Boston has named Alan (Bud) Brandt Office, N. Y., as public relations counsel. Mr. Brandt's work includes WNEW New York public relations director, also has exclusive radio, TV station contract for New York area with WMGM, Metro-Goldwyn-Mayer station. Other broadcast clients of new firm include Keeshan-Miller Enterprises Inc., partners of CBS-TV's Captains Kangaroo, and CBS-TV's Morning Show, latter by arrangement with Louis G. Cowan.

Elgin-American Co., Elgin, Ill., appoints Martin E. Janis & Co. to handle its public relations.

PROFESSIONAL SERVICES PEOPLE

William F. Wetmore Jr. and Robert B. Yorty elected junior partners Pierson, Ball & Dowd, Washington law firm.

Hathaway Watson Jr. and Dwight M. Dernier admitted to partnership in Booz, Allen & Hamilton, management consultant firm. Mr. Watson headquarters in Chicago and Mr. Dernier in New York.

Ed Pazdur, formerly editor and promotion manager, Chicago edition of TV Guide, resigned to enter private business in television production, promotion and merchandising.

RAL NAGES KBIG AS SEPT. WINNER

Other winners, in addition to the California station, were WAPL Appleton, Wis., and WKKY Winchester, Ky.

SEPTEMBER winners in Radio Advertising Bureau's "Best Sale of the Month" contest, involving the midwest dairy, a southern cooperative and a far-west supermarket, represent "the snowballing trends toward more aggressive heads-up selling at the station level," according to RAB.

Top three winning stations and salesmen for September were, in order of position: KBIG Hollywood, Calif., Philip Dexheimer; WAPL Appleton, Wis., Connie Forster, and WKKY Winchester, Ky., Tom Wade.

In what was termed the biggest spot announcement schedule in KBIG's history, Mr. Dexheimer sold a 52-week contract to McDaniel's supermarkets chain, Vernon, Calif., calling for 60 weekly spots, over 3,000 per year. According to KBIG, the eight-store two-county chain plunged heavily into this schedule after seeing what a 100-spot campaign could do for one of its new stores in Oxnard.

After a test run of 13 weeks in Appleton of the "Morning Glory Mystery Tune," designed to build home deliveries for Morning Glory dairy products, Miss Forster of WAPL signed Consolidated Badger Co-Operative, West De Pere, Wis., to a 52-week contract calling for 14 shows a week. Within eight weeks of being on the air, "Mystery Tune" peeked up dairy sales in the Appleton area to such a point the sponsor reported that it was "well into the black, with retail distribution at an all-time high and increased home subscriptions." Final results: the client increased WAPL's appropriation by 50%, cut the length of the show to allow for additional programs and now sponsors 12 programs daily (or) $4 a week.

By convincing the Southern States Cooperative, a farm supply firm, that its previously allocated-to-newspapers-only budget could best be spent on 15-minute local shows, WKKY salesman Tom Wade managed to sell the prospective client a 52-week contract with the station. Stressing the effectiveness of reaching four areas with four different stations at the lowest cost per farm family, Mr. Wade gained the contract.

FUND OFFERS $40,000 IN TV PROGRAM CONTEST

THREE PRIZES totaling $40,000 will be awarded by the Fund for the Republic to TV programs which in 1956 handled the themes of liberty and freedom "with the greatest distinction, taste and effectiveness."

The fund is a non-profit organization devoted to "advancing the understanding and discussion of civil liberties as stated in the Constitution and the Bill of Rights."

The judges -- Broadway producer Kermit Bloomgarden; publisher Gardner Cowles; Ex-Gov. Alf M. Landon of Kansas; author-critic Gilbert Seldes; Mrs. Eleanor Roosevelt; New York attorney Harrison Tweed, managing director Robert M. Purcell of KEYD-TV Minneapolis, and Dr. Buell G. Gallagher, president, City College of New York -- will consider any TV program aired by any station in the U.S. or its territories, between Oct. 1, 1955, and May 31, 1956. Programs based on scripts previously judged by the fund in its recent TV script competition are ineligible.

The general public is also invited to submit nominations which must be in the fund's hands by no later than May 31 next year. The address is: Television Awards, The Fund for the Republic Inc., 60 East 42d St., New York 17, N.Y.

The cash awards ($15,000 for the best network program, $10,000 for the best program drama, and $10,000 for the best production of either type by an independent station) will be shared by the producer, director and writer of the winning programs on a basis as yet undetermined. Should the programs be non-sustaining, the sponsors as well as the stations or network, will receive plaques signifying their achievements. Citations also will be awarded to those programs which treat civil liberty themes with skill "but below the prize winning category."

A screening system from coast to coast will be established and kinescopes (network programs, at least) as well as scripts must be available at the jury's call.

According to the fund, the purpose of the awards is "to encourage the TV industry when it devotes some of its resources and talents to pressing issues of civil liberties. These include racial and religious discrimination, loyalty-security problems and that great complex of freedoms guaranteed in our Bill of Rights."

The announcement defined, for purposes of the competition, "documentary" as "a program treating actual events, current or historical, in either dramatic or 'news' format." The term "drama" was defined as "using a dramatic format and treating [its] subject matter factually."
Cerf Named Chairman Of Peabody Awards Board

BENNETT CERF, publisher-author, columnist and panelist on CBS-TV's "What's My Line?, has been appointed chairman of the George Foster Peabody Radio & TV Awards Advisory Board, which selects winners of the annual Peabody Awards. The appointment was announced by Dean John E. Drewry of the Henry W. Grady School of Journalism, U. of Georgia, which administers the awards.

Mr. Cerf succeeds Edward Weeks, editor of the Atlantic Monthly, Boston, who has served as chairman since the creation of the Peabody Awards in 1940. Mr. Weeks will continue on the advisory board.

The awards, established to honor the memory of Georgia-born banker-philanthropist George Foster Peabody, are designed to recognize radio-television achievement in six categories: (1) news (reporting, interpretation and/or commentary); (2) entertainment; (3) education; (4) youth or children's programs; (5) promotion of international understanding, and (6) public service.

An announcement pamphlet on 1955 awards, together with the official entrance form is being mailed to radio-television stations and stations. Entries may be submitted by any person or organization. Closing date for 1955 entries (programs for the current year) is Jan. 10, 1956.

Nominations Being Accepted For Radio-Tv duPont Awards

MEMBERS of the radio-television industry and the general public are invited to submit nominations for the 12th annual awards of the Alfred I. duPont Awards Foundation, given next spring.

Dr. W. Reginald Liddell, vice president and director of the Lee Memorial Journalism Foundation, Washington and Lee U., said three awards—large power stations, small power stations, newscast—will be given to outstanding radio and television performance in the public interest. Nominations will be accepted through Dec. 31 and should be addressed to the Curator, Alfred I. duPont Awards Foundation, Washington and Lee U., Lexington, Va.

RCA Report Wins Award

RCA'S 1954 annual report to its stockholders was cited last week as the "best in the marketing and services classification" of Financial World's 15th annual awards survey of stockholder reports.

The 48-page booklet (describing RCA's largest hunting volume in its 35-year history) was selected from a total of 1,895 Merit winning awards for its "attractive presentation, its ability to hold interest, inspire confidence in management, and adequate selection of current and background statistics."

Accepting the "Silver Oscar" for RCA at the award-winners banquet last Monday in New York, was Executive Vice Pres. Dr. E. W. Engstrom.

AWARD SHORTS

Frank A. Arnold, NBC radio director of development from 1926-1932, honored Oct. 26 by Radio Pioneers Club in New York. Presenting Mr. Arnold with plaque citing his contribution to field of broadcasting was Chester Hedges, NBC Radio's vice president in charge of integrated services and chairman of RPC awards committee.

WNBK (TV) Cleveland, Ohio, took first prize in public transportation card category at Art Directors Club of Cleveland seventh Annual Awards luncheon. Winning entry was card promoting film series, "Ramar of the Jungle" showing elephants silhouetted against stylized jungle background, conceived by Morris Wattenberg, advertising-promotion manager of WTNK.

Robert Blanchard, graphic art director, WDSU-AM, New Orleans, awarded first prize for design and drawing best domestic poster produced in U. S. during 1955. Certificate is to be presented in Chicago today (Mon.) at awards luncheon of National Assn. of Travel Organizations.

Lawrence H. Rogers II, vice president, general manager, WSAS-AM-TV, Huntington, W. Va., cited for work organizing annual United Fund appeal.

KZT-TV Denver President-General Manager Hugh B. Terry accepted special award of merit Oct. 18 from Denver Community Chest-United Fund campaign for station's pre-campaign volunteer training telecast "Red Feather School House."

Charles W. Pursell Jr., WMAR-TV motion picture cameraman, awarded $200 first prize in Bay Belle Vacation Photo Contest sponsored by Wilson Excursion Line.

Chester S. Miller, WVPO Stroudsburg, Pa., manager, recently received Regimental Commander's Certificate of Merit from Col. Fred R. Evans, commander of 109th Infantry Regiment. He was cited with 11 others, both military and civilian, for services in support of military operations in Stroudsburg flood emergency. WVPO withdrew all advertising several days after the flood to relay official and personal messages to workers, agencies and disaster victims.

Harriet Pressly, WPIT Raleigh, N. C., director of women's activities, received Treasury Department's highest volunteer award, the "President's Prayer," for "untiring and consistent efforts" in U. S. saving bonds promotion.

Sam Balter, KLAC Los Angeles sports commentator, cited by George Washington Carver Memorial Institute for stories about Little Leagues.

SOUTH AFRICANS FAVOR RADIO AS NEWS MEDIUM

Gideon Roos, director of South African Broadcasting Corp., says that people of his republic depend on radio for news and educational information.

Radio covers the entire republic through the use of three networks, two non-commercial and one commercial, each composed of 14 stations located throughout the republic. The commercial network, called the Springbok Network, operates radio and television only in English. The two other networks present programs in English and Afrikaans (Dutch with French influence), plus occasional shows in the native Bantu languages.

Advertising on radio is exclusively by international firms which have branches in South Africa, Mr. Roos said, with local advertisers using the newspapers. In 1954, the billings of the commercial network amounted to almost $2 million, exclusive of agency commissions.

There are some 800,000 radio homes in South Africa, according to Mr. Roos, with each home paying a license fee of from $3-$5 a year. He described the three networks as comprising "a public-owned operation organized by government statute but receiving no financial support from the government." Funds derived from advertising and from licenses, he added, are put into a common pool and are used to support the three networks.

The programming, he said, is similar to that in the U. S., including news, documentaries, "general" music and drama. From 50-60% of the programming, Mr. Roos continued, is now produced in South Africa, and the remainder consists of recorded shows from the U. S., Great Britain and Australia.

"Because of the enormous area that South Africa covers," Mr. Roos pointed out, "the newspapers cannot serve as a means of conveying news and other information rapidly. It is to the radio that the South Africans turn to keep abreast of news developments throughout the world."

Selling Outlook Outlined For Canadian Agencies

ADVERTISING still has a big job to do to sell Canadians a wide range of Canadian-made products to raise their standards of living, Robert Winter, Canadian Minister of Public Works, told the 50th annual meeting of the Canadian Advertising Agencies Assn. at Montreal on Oct. 20.

He told the meeting that half of the Canadian households have yet to buy vacuum cleaners. He reported that half the homes of Canada have yet to buy heating units and presently depend on surplus heat from stoves and the warmth of space heaters. Half the Canadian households have yet to buy their first car and there is a
Blackwell Named to Head Fremantle London Office

APPOINTMENT of Lane Blackwell, chief of production and program administration for Radio Free Europe since 1950, as head of the London office of Fremantle Overseas Radio & TV Inc. was announced last week by Paul Talbot, Fremantle president.

Mr. Blackwell assumes direction of FORTV's second wholly owned and operated overseas office. The other has been in operation in Mexico City for more than two years. In other areas, the company works through associates and agents.

Mr. Talbot also announced that the new London office already completed two sales. One was to the BBC covering 39 programs of the Movie Museum series and the other was to Associated Rediffusion, the built-in commercial service, consisting of a package of cartoons.

CKCO-TV Builds New Tower

CKCO-TV Kitchener, Ont., has completed construction of a new 680 ft. tower and now is mounting an eight bay GE antenna. When the new installation is put into service, power will be boosted from 29 kw to 54 kw. The ch. 13 outlet now is transmitting from a 230 ft. tower and three bay antenna.

INTERNATIONAL SHORTS

CKGN-TV North Bay, Ont., ch. 10, has released its first rate card, effective December 1. Class A rates start at $160 an hour, $35 for one-minute spot announcement. Station announces it is not owned by or affiliated with any other advertising media. Owner is Ted-Ad Co. Ltd., 491 Worthington St. East, North Bay, Ont. W. J. Eastcott is general manager and Paul Muhlvihr & Co., Toronto and Montreal, is exclusive representative. Station will have 51.5 kw video and 27.75 kw audio power with antenna 429 ft., above basic terrain. It will be connected with CBC TV Network.

INTERNATIONAL PEOPLE

F. R. Halhed, representative at Toronto of CBS International Service, to assist supervisor of outside broadcast and special events for CBS at Toronto. A. K. Morrow, supervisor of farm and fisheries broadcast department of CBC at Ottawa, nominated director of radio at CBC Ottawa headquarters.

Bob Lee, formerly manager of CHUM Toronto, to assistant supervisor of radio and television of Young & Rubicam Ltd., Toronto.

Robert F. Tally, manager of program division of All-Canada Radio Facilities Ltd., Toronto, to western supervisor for radio and tv at Winnipeg offices of All-Canada organization, Dana S. Murray, program division, All-Canada Radio Facilities, named manager of program division at Toronto.

Bert Cunnings, news director, CKWX Vancouver, to same position at CFPC Montreal.

Arch Ferrie, CIOY Guelph, Ont., to sales manager of CFJB Brampton, Ont.
Groundwork

A KICKOFF show on behalf of the United Appeal campaign without any funds being raised might sound like a dismal failure on the surface. But down Charlotte, N. C., way it’s heralded as a great success. The show, produced by WBTV (TV) there in cooperation with all Charlotte radio stations, was designed to lay groundwork for the 1956 United Appeal drive. Local and national personalities joined with the stations in the 2½-hour kickoff program which was credited by a United Appeal official with producing “the greatest interest ever” created for the organization. Donating choice evening time (7:30-10) were WAYS, WBT, WIST and WSOC. Daytime-only stations WGV and WWOK also helped to promote the show and used taped portions during the week.

efforts to get help because of the increased number of live shows going on film. (Mr. Ebel reported that out of the 31 advertisers contacted, seven declined because of technical difficulties; 16 have as yet made no reply one way or the other.)

As part of the Council’s radio and television allocation plan, each advertiser sponsoring a filmed TV program is asked to select seven of the “Big 10” campaigns for scheduling a message every sixth week during the forthcoming “season.” According to Mr. Ebel, the Council has suggested two means by which to circumvent the otherwise troublesome technicalities, currently preventing full cooperation.

Used in past years by General Foods, the first is to edit the film weeks in advance to allow room for a 20-second film spot provided gratis by the Council to the advertiser. The second alternative is to tack on brief closing messages, arranged for by the advertiser and edited into the film during the actual season.

Of the 28 advertisers signed, Mr. Ebel said that they “involved in more than 35 network filmed series that have a total weekly circulation of more than 200 million TV home impressions.”

Reporting to the Council’s board of directors last week, Gordon C. Kinney, radio-TV director, said: “Traditionally, The Advertising Council’s forte in the field of public service and broadcasting has been its ability to guarantee important campaigns regular help from America’s large coast-to-coast, top-rated, big audience network programs.” Mr. Kinney also pointed out the Council’s prime means of effectiveness; its members’ participation in nighttime schedules, virtually sold out this season. “When sets-in-use are highest, ratings are highest, and number of persons-per-set is highest.”

Among the industry leaders backing this current drive are radio and television board members Felix W. Coste, vice president, Coca-Cola; Chris J. Witting, president, Westinghouse Broadcasting; Thomas D’Arcy Brophy, board chairman, Kenyon & Eckhardt Inc.; Sylvester L. Weaver Jr., president, NBC, and Harold E. Fellows, chairman and president, NARTB.

The Council’s “Big 10” campaigns for this season are: Highway Safety, Better Schools, Forest Fires, Crusade for Freedom, U. S. Savings Bonds, Community Chests and United Funds, Air Force Ground Observer Corps, Church Attendance, Action (neighborhood improvement), and the American Red Cross.

Eighteen Added to Polio Radio-TV Funds Campaign

EIGHTEEN people from the radio-TV industry have joined the augmented radio, television and motion picture department of the National Foundation for Infantile Paralysis in order to handle a stepped-up air promotion drive for the 1956 campaign.

Department Director Howard J. London said last week that with a goal of $47,600,000 to be reached between Jan. 3-31, he has placed 15 people with the New York office, two on the Hollywood staff and one in Chicago.

Additions to the regular New York staff, consisting of former script editor Charles C. Bennett and ex-publicity executive Ed Franck are:

Joseph N. Walsh, former RKO Pictures writer-director; Harold Young, president of Young TV Productions Inc.; Harry Middleton, freelance screen writer; John McMllin, formerly with the Compton and Maxon agencies; David Wear, writer-editor for Universal and Warner Bros.; Saunders J. Thomas, former TV director for NBC and CBS; Virginia Allison, film and promotion writer for WCBST-TV New York; Edward Gilmore, freelance writer; Melina Palmer, J. Walter Thompson Inc. copywriter; Yule Shafer, former radio-TV copy chief for Frank B. Sawdon Inc.; Jim Shean, playwright; Marshall Nead, radio writer; Edward Kenney, former copywriter with Maxon Inc., and John D. McGtigue, former NBC Radio publicity director.

Working out of Hollywood are John Swallow, former NBC west coast program manager and Jane Lait. Chicago radio and TV activities of the campaign will be serviced by Jack Fisher of M. M. Fisher Assoc.

CBS Helps

SPECIAL half-hour TV program has been filmed at CBS Television City in Hollywood for the National Society for Retarded Children as part of its promotion of National Retarded Children’s Week, Nov. 12-23, according to CBS-TV. Program, with Jack Benny (national honorary chairman of the society) as master of ceremonies and featuring a number of network stars, will be offered to local TV stations for individual broadcast. Stars and the production staff donated their services while CBS-TV lent its production facilities.

Thompson Co. Volunteers

J. WALTER THOMPSON Co., New York, has agreed to serve as the volunteer advertising agency for the 1955-56 Crusade for Freedom campaign of The Advertising Council, according to Allan Brown, vice-president of the Bakelite Co., subsidiary of Union Carbide & Carbon Corp., volunteer coordinator for the campaign.

Crusade for Freedom campaign, the sixth the Council has conducted for the activities of Radio Free Europe and the Free Europe press, gets underway January and February, when public donations will be urged through all media.

‘Religion’ Material to Stations

TELEVISON kits and radio facts sheets have been distributed to stations and networks by The Advertising Council on behalf of the seventh annual Religion in American Life campaign.

J. Walter Thompson Co. has prepared the materials on this year’s project, as it has for the past six years. The Jam Handy Organization contributed film spots for the TV kit. Robert W. Boggs, manager of advertising, Linde Air Products Co., is the volunteer coordinator.

Page 96 • October 31, 1955

BROADCASTING • TELECASTING
WNEW TELESCOPES HISTORY
WNEW New York Oct. 23 undertook to tele-
scape 150,000 hours of history into a special
90-minute program. With actors Melvyn Doug-
las and Michael Reudrge narrating, WNEW's
"This Is the WNEW Voice of 190-
55" was to trace the history of the U.N. from
its entry into the Korean War on June 23, 1950.
The program was put together by the station
and the U.N. Dept. of Information, and will be
broadcast by the Voice of America and U.N. radio.

WPTZ (TV) HAILS HALLOWEEN
HALLOWEEN got an early start on WPTZ
(TV) Philadelphia with "Fun House Halloween
Parties" promotion begun Oct. 18. Ed Wallis,
station promotion-publicity manager, started
long ago booking Fun House host Pete Boyle
for department store and community center
appearances through a four-state area, each visit
hardly be heralded by full-page newspaper ads, tabloid
sections and window display, stipulated by
WPTZ in its show Mr. Boyle promoted Halloween fun and discouraged vandalism.

STATIONS COVER DOPE RAIDS
PHILADELPHIA stations rode with police and
federal agents Oct. 19 on the largest dope
breakdown in city's history, documenting
dramatic accounts of arrests and interrogations.
WFIL-AM-TV featured a special 15-
minute radiocast the afternoon of the 19th with
tape integrations, and film scenes on
evening telectases. KYW aired a special docu-
mentary, "Raid Three" (Philadelphia's third
raid in 10 months). Broadcast recordings in-
cluded, besides arrests and questioning, inter-
views with top officials and undercover agents
and pre-raid briefings of more than 175 police
and federal agents participating in raids.

MBS TO EXPAND CD SHOW
MBS' This Is Civil Defense (Tues., 9:15-9:30
p.m. EDT) will be expanded into a 30-minute
documentary drama "after the first of the year
as the initial phase in Mutual's expansion
plans," according to a network spokesman.
The programs, presented by MBS in cooperation
with the Federal Civil Defense Administration,
will consist of 25-minute documentary dramas.
The final five minutes of each show will make
use of the full 560-station MBS facilities for
on-the-spot news reports and eye-witness ac-
counts of CD activities. Date and time of the
expanded series have not been announced.

FLASHES QUAKE IN 13 SECONDS
The Oct. 23 earthquake in the San Francisco
area received quick recognition from KPIX
(TV), Westin-house station there. Bill Hill-
man, staff announcer, pressed the interruption
switch at 8:11:00 p.m. during the CBS Ed
Sullivan kine, bringing on a "news flash" slide."
It's 8:11," he said, when he felt the studio
tremble. "An earthquake has just hit. It
appears to be of more than moderate intens-
ity." Official time of the tremor's start was
8:10:47 p.m.

WIP SCORES HOLIDAY SCOOP
WIP PHILADELPHIA Special Events Director
Sam Serota claims city scoop Oct. 18 when his
station broadcast news of an attempted holdup
within a day after it took place at 10:30 at the Broad
St. Bank & Trust Co. Station made tapes for
followup broadcasts after initial airing.

AIR FAIRS EVERYWHERE

RADIO and tv continue to broaden audience
horizons with autumn fair promotions. WCAU
Philadelphia takes its shows on the road to the
Mid-Arctic Farm and Home Show Nov. 3
where listeners will hear the "Carrie Lopp"
and "Mr. Bill" shows, plus an "American Band-
stand" special. Kraft's "Victor Saturday Night"
will be telecast to RKO shows in Philadelphia
and New York. WOR's "Heart to Heart" will
also be telecast. WOR's "Tommy Dorsey Show"
will be televised to NYC and New York area
Kraft shows. WOR's "Annie Get Your Gun"
will go on NBC network from WOR Oct. 9.

GET TOGETHER FOR COLOR

SPECIAL colocast of CBS-TV's Ford Star
Jubilee, with Mary Martin and Noel Crawford,
was viewed Oct. 22 by over 35 Ford dealers,
their families and guests from southwestern
Wisconsin and Ford factory and agency repre-
sentatives at the special invitation of WIXX
(TV) Milwaukee. Sets were supplied by CBS-
Columbia of Milwaukee distributor as part of a
joint celebration by distributor and WIXX
of "CBS Week." All media were utilized for
the campaign, which ended Oct. 29.

MBS NEWSMAN STARTS SERIES
MBS' Miami news bureau chief, John Price,
has inaugurated a new series of comment-
taries (Sun., 5:55-6 p.m. EDT) that is "based
on private sources available to him throughout
the world." Programs are sponsored by
Aquafilter Corp. through L. H. Hartman Inc., N. Y.

WCP0 UPDATES 18TH CENTURY
CINCINNATI heard an unusual mingling of
the old and new early this month when WCP0
carried microphones into an 18th century
English townhouse. Jack Fogarty sat at a gilt,
mahogany table in front of Romney and
Reynolds paintings to give his regular newscast
in the library of Lord Aberdeen's London
home. The newscast, now part of a six-part tour,
has been reassembled by the Cincinnati Art
Museum.

Time to Retire the Sixth Report

One must be drawn to the view that the FCC is flying off in all directions in its zeal to come up with the right answer on TV allocations. Certainly it is clear that the commissioners are at odds as to how best to do the job.

The commission, we deign to suggest, is trying to accomplish too much too fast (if we forget about the weeks of treading water since last summer). This complex problem is not susceptible to quick handling in one action or order. There are too many opportunities to throw blocks which might bring another freeze.

Without attempting to mastermind, we should like later to project a few questions, in the hope that the answers might lead the FCC toward the goal it seeks.

The FCC proposes to consider forthwith rule-making procedure, presumably to receive the CBS, ABC, Crosley, Mullaney-Welch, Mott & Morgan, RETMA and other proposals dealing with the vexing problem. Thus, we assume, it would carry the charges that some of its recent conferences constitute ex-parte intervention and violate everything from the Administrative Procedure Act to the Constitution.

The present crisis stems from the Sixth and Final Television Report of 1952. After three years, it turns out that this allocation plan did not achieve optimum results, that internixture was a mistake, and that the engineering standards are not now all they should be. But the Sixth Report did result in expediting television service so that there are now 554 stations on the air, with 32 million TV homes. Despite the travail, controversy and political intrigue which followed, this record of achievement in three years is a modern miracle in business and industry.

With this prelude, here are our questions:

Instead of rule-making narrowed to receive the various proposals, why not one which would do that and also retire the Sixth Report and Order (except for those cases still in hearing status which would be carried to decision)?

Then why not revert to the pre-TV (and pre-fm) procedure of considering applications on a case-by-case basis, under rigid engineering standards which would take into consideration the experience of these past three years by repairing existing standards as to separations, coverage, etc.?

Why attempt to determine whether uhf or vhf should survive when it is evident that both services are needed to provide adequate potential service; when more and more uhf stations are turning the economic corner and there's no pressure to relinquish vhf space?

Why not take advantage of the offer of RETMA to make measurements of effective coverage of uhf broadcasting (and maybe vhf too) so that these can later be implemented in engineering standards where deemed desirable?

These questions are posed with the realization that all of the answers are not immediately evident. They are posed because we feel that the Sixth Report has served its ends, usefully, when the whole broad tv structure is appraised. It would mean that in future proceedings, instead of what we have called a "planned economy," applications would be filed for facilities, vhf or uhf, where the applicants feel the opportunities are best. They would not be anchored arbitrarily to geography, but to engineering standards and the willingness of the applicants to take the economic risks involved. There would be no educational or other reservations.

Under such procedures, used in the formative years of AM broadcasting, the world's most efficient radio service was built. In tv, a good foundation toward nationwide, competitive service has been laid, though many aspirants suffered severely in the process.

Why the Sixth Report and Order, with all its shortcomings, made this possible? It seems to us it's now time to retire the Sixth Report and let the natural law of free enterprise and competition govern in bringing to all America full, efficient and competitive TV service.

Legalized Maliciousness

It is easy to understand why many business interests are urging revision of the national labor law, the Taft-Hartley Act. Broadcasters have special reason to be aware of at least one of the law's shortcomings.

As now written and interpreted the act forbids the use of secondary boycotts, but that prohibition does not extend to another kind of boycott which, to us, seems to vary slightly, if at all, from the secondary boycott but, to lawyers, is different enough to justify its legality. That is the "consumer boycott" which has come into standard use as a weapon in broadcast labor disputes.

The consumer boycott as used in broadcasting may be described simply as an effort by the union to persuade sponsors to cancel their advertising on stations with which the union is in dispute. Its latest application was in Michigan against four Radio stations by the National Assn. of Broadcast Employes & Technicians. An interesting, not to say deplorable, feature of that boycott was that NABET enforced it against four Knorr-owned stations although its dispute was confined to one.

With the assistance of the CIO and AFL in Michigan, NABET conducted what it frankly called a campaign of economic pressure, and the union claimed to have succeeded in drawing business off the stations.

A campaign of that kind may not be illegal but it is certainly malicious. In a sense it is as destructive as the sabotage of equipment in a strike. A station can be put off the air by business failure as surely as by technical failure.

It will do no lasting favor to either unions or broadcasters if this sort of tactic can continue to be used.

McNamara's Brand

Not unexpectedly, newspapers have widely played a story quoting the president of the National Tea Co. grocery chain as saying that newspapers were a better advertising medium than radio and television.

H. V. McNamara, the grocery president, made his remarks before what must be presumed to have been a sympathetic audience at the annual meeting of the Inland Daily Press Assn. in Chicago.

An AP story quoted him in part: "... It would appear to us that the retailers of America should know where they get the most productive results from their hard-earned advertising dollar. Why, then, if the national advertiser respects to any degree the intelligence of the retailer, should he be spending more for radio and television advertising than he is for newspaper advertising?"

If we were to intrude with an answer to Mr. McNamara's question it would be that the very national advertisers he was talking about do indeed respect the intelligence of retailers and because of that respect are betting heavily on radio-tv.

Grocery chains and supermarkets constitute the second biggest block of local radio advertisers, their spending, as a group, exceeded only by that of automotive dealers. That fact was turned up in a national survey of local business by Radio Advertising Bureau [B+T, Aug. 15], which Mr. McNamara would find enlightening reading.

In case Mr. McNamara wonders why some of his competitors' business is booming, he might find the answer in their increased use of the media he scorns.
