A NICKEL will go a long way these days on WHO Radio!

Take 8 a.m. to 12 noon as an example...

MAYBE instead of a "good five-cent cigar", what this country's advertisers need today is a good look at what five cents will buy in radio—WHO Radio.

LET'S LOOK AT THE RECORD...

On WHO Radio, a 1-minute spot between 8 a.m. and 12 noon will deliver 53,953 actual listening homes.

That's 56.8 homes for a nickel, or 1000 homes for $.88—ALL LISTENING TO WHO!

That's the rock-bottom minimum. With its 50,000-watt, Clear-Channel voice, WHO is heard by thousands of unmeasured listeners, both in and outside Iowa. Bonus includes Iowa's 527,000 extra home sets and 573,000 radio-equipped automobiles—plus tremendous audience in "Iowa Plus"!

Let Peters, Griffin, Woodward, Inc. give you all the impressive WHO facts.

(Computations based on projecting Nielsen figures and 1955 Iowa Radio Audience Survey data against our 26-time rate.)
Big Aggie
wins first prize
at the fair

WNAX-570 named number one station by South Dakota State Fair-Goers

Two college professors conducted a survey of listening habits among the people at the South Dakota State Fair last fall. They wanted to find out what families in Big Aggie Land—that vast 5-state area in the great Upper Missouri Valley listened to and/or watched. Here's what they found out:
78.6% listen more to radio
16.3% watch television more
58.1% of the people polled listen most to the Big Aggie Station, WNAX-570.

Big Aggie is
STILL queen in Big Aggie Land

WNAX-570
CBS Radio Yankton, South Dakota
A Cowles Station, Don D. Sullivan, Advertising Director. Under the same management as KVTV, Channel 9, Sioux City

TERRE HAUTE, INDIANA

REPRESENTED NATIONALLY BY THE BOLLING, CO., NEW YORK — CHICAGO
SALVATION THE CRY • "Save uhf" is likely clarion call to FCC in proposed interim report being drafted by staff of Senate Commerce Committee on its far-ranging TV investigation. Majority Counsel Kenneth Cox and communications expert Nicholas Zapple, at request of Chairman Warren G. Magnuson (D-Wash.), are working on report which may be released with adjournment of this session, expected in early July. Report, which may be subject to approval of committee, presumably will provide guideposts for FCC in attacking uhf problem, based on testimony adduced since hearings began two years ago. Sen. Magnuson said he's ready to recommend "a lot of things" to FCC, but doesn't know on what rest of committee membership can agree.

COMMITTEES special counsel Cox de- nied interim report would recommend "anything so extreme" as move of all TV to uhf. He said stuff is "toy ing" with idea of "putting something on paper" which "we would hope we can get agreement on—at least state a conclusion as to a broad policy" on TV allocations and "not just a statement fighting evil." He was noncommital on whether report would outline single overall procedure or give FCC alternatives to follow.

SHORT-CHANGED? • Because questions have been raised about "statistical errors" in many county-by-county statistics, which some stations think short-change them on TV set circulation, Television Bureau of Advertising's Research Committee will meet in New York tomorrow (Tues.) to re- raise TVB's participation in undertaking of Advertising Research Foundation's future studies in this area. Charles H. Smith, director of research, WCCO-TV Minneapolis-St. Paul, is chairman of committee. Analysis of methods employed from station point of view will be considered before recommendation is made to TVB management on continued participation. Contributions of $4,000 from TVB and the networks were being sought to update study [B.T., April 30].

ALTHOUGH networks have not confirmed orders placed by any political party, it was understood that Republican National Committee through its agency, BBDO, has ordered 15 half-hour and 35 five-minute segments of air time from all three TV networks. Democratic National Committee also considering similar plans but they are not yet formalized since Democratic candidate has not been selected.

PINCH HURTS • ABC is having trouble clearing time in many top markets for television coverage of two national political conventions, ABC President Robert E. Kintner has told FCC Chairman McConnaughy. In letter urging immediate selective deintermixture in order to make TV facilities equal in top 100 markets, ABC President wrote that any further delay will have consequences "little short of dis- trous" on pattern of TV. Even "crash" program urged by Mr. McConnaughy would be hardly "meaningful or justified" unless some action is taken soon to preserve uhf, Mr. Kintner said. Included with Kintner letter was copy of ABC proposals submitted in allocations proceedings proceeding for deintermixture in top markets.

PROGNOSIS DOUBTFUL • Monday night lineup is all set but on NBC-TV, but it is understood that one half-hour segment (9:30 p.m.) now occupied by The Studio One, is still uncertain, with People Are Funny, currently on Saturday, expected to be likely replacement should Studio One vacate. If move should be made, new show would go on three out of four weeks, with fourth week devoted to spectacular.

WHILE federal regulators grope for solution to vhf-uhf controversy, at least two transmitter manufacturers (RCA, GE) are understood to be testing 300 kw uhf tube equipment that would put out 4 megawatts off antenna. Present maximum-power uhf transmitter is GE 46 kw model, capable of delivering 2 megawatt signal from 50-megawatt antenna.

SAN DIEGO SHUFFLE • J. D. Worket Jr. continues as president-treasurer and one of three directors of KFMB-AM-TV under reorganization of San Diego corpora- tion. Newly elected vice president is George Whitney, who continues as general manager. Monte Livingston, attorney, is secretary. Mr. Worket, Maria Helen Alvarez, former vice president, and Edward Petry of Edward Petry & Co., constitute board of directors.

TOPIC A among Washington radio- TV attorneys last week was meaning, if any, of Court of Appeals revision of its Feb. 14 opinion denying stay requests by uhf outlets to FCC grants in Corpus Christi, Tex.; Madison, Wis., and Evansville, Ind. Amendment does not seem to make much difference in stay opinion, but unusual method (revising opinion three months later) has raised con- cern on FCC's part. Some hearing on court's consideration of these cases on their merits (argued last month).

DAY TO NIGHT • Colgate-Palmolive Co., New York, is canceling three-day character- mon Fri. shows on NBC-TV (Feather Your Nest, 12:30-1 p.m.; Modern Ro- mance, 4:15-4:30 p.m., and participat- ing on Howdy Doody, 5:46 p.m.) reportedly to devote its budget to support three recent nighttime buys as well as put some money into spot television. Firm, how- ever, will retain its daytime show on CBS- TV. C-P's evening schedule calls for spon- sorship on Lassie (CBS-TV, Fridays, 7-8 p.m.), Crusader (CBS-TV, Fridays, 9-10 p.m.) and Bob Cummings Show (CBS-TV, Thursdays, 8-8:30 p.m.). Ted Bates & Co., New York, is Colgate-Pal- moive agency.

RADIO and television department of Len- nen & Newell, New York, will have two new business managers: Ben Holness, from Harry B. Cohen agency, replacing Frank Daniels, who is going to Europe and James Graham, from DuMont Electronics, suc- ceeding Gene Caron, who is leaving and relocating in Florida.

EARLY BIRDS • When word reached broadcasters that FCC was considering possibility of changing East to all-uhf over 10-year transition period, it didn't take long for some of the more astute to begin bad- gering their consulting engineers to find them low-band uhf channels. Lower uhf wavelengths are easier for receivers to accommodate at present state of art.

LEVER Brothers and Whitehall Pharma- coal Co. have signed contract for sponsor- ship of Sir Lancelot program, three out of four weeks, Monday, 8-8:30 p.m. on NBC- TV, which starts next fall. Package was purchased by NBC from Official Films and is produced in England. J. Walter Thomp- son, New York, is agency for Lever, while Sullivan, Stauffer, Collwell & Bicycles and Dancer-Fitzgerald-Sample share Whitehall Pharmacal account.

SLIM CHANCE • WITH this session of Congress waning, outlook for passage of executive pay-rise bill, which would boost FCC commissioners' pay from present pittance $15,000 to $20,000 area, isn't bright. There's evident stalemate between executive branch and Senate Post Office and Civil Service Committee Democratic majority, with former espousing pay-rise bill while Chairman Johnston of South Carolina wants support on his civil service pension bill unless compromise is reached, prospects are that neither measure will pass prior to July adjournment, although House already has acted.
All 3 tell the same story!

42.5%—that’s KOWH’s average share of audience according to Hooper (March-April). Latest Pulse for Omaha-Council Bluffs gives KOWH top shelf. Likewise Trendex. KOWH has placed first in audience year after year . . . consistently increasing its first-place dominance, until now KOWH is first in every time period of every survey in the Omaha market.

The power of Mid-Continent ideas, programming and excitement plus broad (660 KC) coverage are moving goods for national and local advertisers alike. So no matter how you read the Omaha rating picture, you can feel secure when you book time on KOWH—because all three see eye-to-eye-to-eye. Get the story from the H-R man, or KOWH General Manager Virgil Sharpe.

STORZ GROUP HIGH BIDDER FOR WQAM, PAYS RECORD $850,000 FOR REGIONAL

SALE of WQAM, Miami regional, by Miami Herald (Knight newspaper and radio interests) to Mid-Continent Broadcasting Co., headed by Todd Storz, for what is believed to be record price of $850,000 cash, was consummated last Friday, subject to FCC approval. Mid-Continent was selected from among score of bidders who several weeks ago were invited to submit proposals.

ABC-affiliated WQAM had to be sold under FCC duploy rule because Knight interests and James M. Cox interests, owners of WIOD and Miami Daily News, are joint stockholders in broadcast station. Biscayne Television Corp., permittee for ch. 7 WCKT-TV, scheduled to begin operation July 1. WIOD becomes radio affiliate of Biscayne under new organization, and changes call to WCKR.

Acquisition of WQAM gives Mid-Continent its fifth radio outlet, others being KOWH Omaha, WTXI New Orleans, WHB Kansas City and WDDY Minneapolis-St. Paul, latter acquired last January for $334,420. Transaction, it is understood, covers acquisition of physical plant and tower on Biscayne Bay causeway but not real estate. Net quick assets and receivables would reduce $850,000 figure somewhat but price is modern record for ABC-affiliated station in other than top 10 markets.

WQAM, established in 1921, is one of oldest stations in south and operates on 560 kc, with 5 kw day, 1 kw night. In addition to Mid-Continent, other bidders for property under consideration include Plough Broadcasting Co. (WMPM Memphis, WJJD Chicago, WCOP Boston, WCAO Baltimore); William M. O'Neill, former owner of WW Cleveland; Ralph L. Atlass, WIND Chicago, and Sun Ray Drug Co., whose principal owners, Sylk brothers, own WPEN Philadelphia.

McConnell Pays $800,000 For Uhf WINT (TV) Waterloo

SALE of ch. 15 WINT (TV) for Fort Wayne-Waterloo, Ind., by R. Morris Pierce and associates to Universal Broadcasting Co. (C. Bruce McConnell) for $800,000, announced Friday subject to usual FCC approval. WINT, operating since fall of 1954, affiliated with CBS and ABC. Universal owns WISH-AM-TV Indianaopolis, WANE and cp for ch. 69 WANE-TV Fort Wayne, and WHBU Anderson, all Indiana. If WINT transfer granted, Universal will surrender ch. 69 grant.

Priest Bill Would Give Free Time to Candidates

PROPOSED AMENDMENT to Communications Act—requiring that radio-television stations and networks give 7-8 hours of free time to each of major party nominees for election to presidency—was introduced Thursday by Rep. J. Percy Priest (D-Tenn.), chairman of House Commerce Committee.

Bill (HR 11,150) in addition incorporates same provisions as earlier bill (HR 10,529) introduced by Rep. Priest [B&T, April 23].

New provisions would require stations and networks to give major party presidential candidates half-hour of time during September, one hour weekly during October and one hour in November preceding election day.

Candidate would have to notify broadcaster of period desired 15 days in advance and segments could not be less than quarter-hour. No regularly-scheduled half-hour program could be pre-empted by candidate requesting less than half-hour and no regular one-hour program could be bumped by candidate asking for less than full hour.

Stations would be obliged to clear time for period requested on network by candidate, but if station had two or more network affiliations and time requested on one network by candidate would exceed station's obligations under bill's provisions for any one week, candidate would be required to decide which network would carry time made available by station.

IAAB to Back Canadians

IN Bid for Less Regulation

INTER-AMERICAN Assn. of Broadcasters will make presentation to Canadian Royal Commission, which currently is reappraising Canadian government broadcasting policies, in support of Canadian Assn. of Broadcasters' bid for lifting of restrictions on private network and licensing (see page 10).

Move was voted by IAAB board at three-day annual meeting last week in New York, officials reported Friday. CAB position is that CBC should be divested of authority over private stations, that private enterprise should be permitted to establish networks and that new authority akin to FCC should be set up to regulate both state and privately owned broadcasting. Royal Commission is now conducting hearings, hopes to complete its study and make report by next spring.

Board also voted to re-admit Argentina, expelled in 1948 after Peron took over radio facilities, to IAAB membership since new Argentine regime has restored radio to free status. Argentine recognition of free broadcasting resulted largely from IAAB efforts, officials said.

Gilmore N. Nunn of WLAP Lexington, Ky., U. S. representative on IAAB board, reported that

EMPTY MIKE

COWBOY singing star Gene Autry was to put aside his saddle as star of radio program, Gene Autry Show, on CBS with last broadcast yesterday (Sun.), CBS Radio President Arthur Hull Hayes reported Friday. Mr. Autry's decision to end radio career, which began in January 1940, came as surprise both to network and to sponsor (since 1940), William Wrigley Jr. Co. (Doublemint gum). Wrigley expected to retain show [Sundays, 6:05-6:30 p.m. EDT], although firm may take two-week hiatus. Firm also sponsors Mr. Autry on tv (CBS-TV, Saturdays, 7-7:30 p.m. EDT), which is not affected.

• BUSINESS BRIEFLY

EARLY BIRD • DuPont's Zerone-Zerek (anti-freeze products), Wilmington, Del., beginning to place fall schedule, starting Sept. 20, in about 156 markets for 10 weeks, for quarter-hour tv sports show. BBDO, N. Y., is agency.

RADIO OPENS SEASON • Hazel-Atlas Glass Co. (Mason jars and closers), Wheeling, W. Va., opening canned season with eight-week radio spot campaign starting June 18 in three Pennsylvania and Virginia markets. Agency: Abbott Kimball Co., N. Y.

TEN FOR TEA • Lipton's icced tea, through Young & Rubicam, N. Y., preparing radio spot announcement in scattered southwest markets, starting June 4 for 10 weeks.

PICKING • Armstrong Rubber Co. (tires), West Haven, Conn., handled by The Bow Co., N. Y., currently deciding which of three agencies it will appoint. Being considered are Dancer-Fitzgerald-Sample, Lennen & Newell and Norman Craig & Kummel.

CAESAR SOLD OUT • Four advertisers have signed for Sid Caesar show, to be scheduled by NBC-TV in fall on Saturdays. Contracts make it complete sellout. Accounts are Reynolds Tobacco Co., through William Eyet Co.; Esquire shoe polish, through Emil Mogul; B. T. Babbit Co., through Dancer-Fitzgerald-Sample, and Sunbeam, through Perrin Paus.

HACKETT FOR CURTIS • Helene Curtis, Chicago, through Earl Ludgin, Chicago, understood about to sign as co-sponsor with American Cigar & Cigarette Co., N. Y., for Buddy Hackett Show on NBC-TV, Mondays, 8:30-9 p.m. EDT.

IAAB has succeeded in removing censorship and re-establishing free speech in radio-tv in approximately score of instances in Americas during 10 years of activity and has prevented censorship in as many other cases.

IAAB board is headed by Ricardo Vivado of Chile, who was present at Friday news conference along with Mr. Nunn and most of 13 other board members who attended meetings.

KAKC Tulsa Sold for $115,000

ACQUISITION of KAKC Tulsa, Okla. (790 kc), by Lester Kamin (advertising agency-radio-tv interests) for $115,000, revealed in application filed Friday for FCC approval of sale. Mr. Kamin owns Houston, Tex., agency bearing his name, also has interests in KCU Shreveport, WMRY New Orleans and WCKG (TV) same city, ch. 26 grantees not yet on-air.

FEDERAL TRADE COMMISSION last week denied petition by Radio-Electronics-Tv Mfrs. Assn. and set manufacturers seeking change or repeal of commission trade practice rule No. 9, which requires that dimensions of picture tubes be calculated by using number of viewable inches rather than actual size of tube where the two differ.

LIGHTING BLUES

TELEVISION sometimes gives President Eisenhower "aged look," Sen. Alexander Wiley (R-Wis.) said Friday after White House call. Pointing to floodlights set up at the State-Summit-City ceremony was photographed, Sen. Wiley said, "You ought to do something about these tv lights. You ought to shoot the fellows with the lights."

President said, "Oh, you think we need some colored lights?" Sen. Wiley replied, "With some of the television, it shows you looking aged whereas you now look like a kid. As they hope the lights can be arranged so that people on television can see you as you really are—youthful, vigorous and with the complexion of a kid." Later he told reporters that some people "still think of the President as a sick man because of lights."

Mr. Eisenhower replied that camera and lighting men do their best and described them as "good guys."

McClatchy Wins Rehearing

On Sacramento Ch. 10 Case

REARGUMENT on Sacramento, Calif., ch. 10 case scheduled for May 23 following U. S. Court of Appeals ruling Friday vacating its Jan. 27 opinion upholding FCC's grant of vhf to Sacramento Telecasters Inc. (KBET-TV).

In brief per curiam decision, court granted McClatchy Broadcasting Co. petition filed Feb. 10 for reconsideration and rehearing, ordered reargument by same panel as heard original argument (Circuit Judges Wilbur K. Miller, Charles Fahy and Walter M. Bastian). McClatchy was loser in contest for Sacramento ch. 10, mainly because of diversification issue (McClatchy owns newspapers and radio properties in Sacramento Valley area). In January opinion, unanimous court said Commission was not arbitrary or capricious in preferring Sacramento Telecasters on diversification issue.

Stanton Wins AMA Award

DR. FRANK STANTON, CBS Inc. president, named Friday as recipient of American Marketing Assn.'s 1956 Parlin Award, top AMA honor which recognizes "distinguished achievement in the advancement of marketing." Plaque will be presented at dinner held by AMA's Philadelphia chapter tomorrow (Tues.)

UPCOMING

May 14-15: Senate Interstate & Foreign Commerce Committee resumes investigation of tv networks and uhf problems, U. S. Capitol.
May 16-18: Pennsylvania Assn. of Broadcasters, Pocono Manor.
May 20: Radio Old Timers, Conrad Hilton Hotel, Chicago.
For other Upcomings, see page 123

PEOPLE

HUNT STROMBERG JR., who May 2 was named to head revitalized ABC western regional tv network in addition to his duties as executive of KABC-TV Los Angeles [B&T, May 7], resigned effective May 25 to join CBS-TV Hollywood in executive program capacity. His successor at regional network has not been appointed, but Peter Robinson, KABC-TV assistant program director, has been named to succeed him as program director of ABC-owned station.

HAROLD H. WEBBER named executive vice president of Foote, Cone & Belding's Chicago office. Eight directors named seniors to half dozen executives, who are: FRANK DELANO, WILLIAM R. FORREST, JOHN F. HUNT, ROBERT J. KORETZ, FRED LEUDEKENS (also named director), MILTON SCHWARTZ, A. EDWARD ROOD and ELWOOD WHITNEY. Mr. Webber, general manager and vice president of office, also named to executive committee and appointed director.

H. L. RALLS, Atlanta office, re-elected chairman, junior board of The Syndicate Co. at meeting held at Branham's New York office, station representative firm reported Friday.

BERTRAM C. FINCH, manager of Charlotte, N. C., office, appointed to board membership.

JAMES P. McCLEARY, formerly with Kudner Advertising, N. Y., to Doherty, Clifford, Steers & Shenfeld, N. Y., as account executive on Bristol-Myers products and Bristol Labs.

JAMES S. BEALLE, assistant director of tv radio department, Kenyon & Eckhardt, N. Y., Friday elected vice president in charge of tv radio, succeeding WICK CRIDER, who has resigned [B&T, May 7]. Mr. Bealle succeeds W. F. WHEELER, vice president and account executive, has been appointed associate director of tv radio department.

Leder V. P. at WOR Radio

ELECTION of Robert J. Leder as vice president in charge of WOR New York and member of General Teleradio plans board to be announced today (Mon.), Mr. Leder is current vice president of RKO Teleradio Pictures Inc. Mr. Leder joined WOR last month as general manager, after having served for more than two years as general manager of WINS New York. Previously he had been with NBC and several advertising agencies in executive sales capacities.

WATW Sold for $55,000

SALE of WATW Ashland, Wis., from William L. Johnson and associates to Geene Walker and Gordon Schuler and associates (WPFP Park Falls, Wis.) for $55,000, announced Friday. Negotiations also underway, Mr. Johnson disclosed, to sell 51% interest in WJWS River, Mich. Under name of Upper Michigan Wisconsin Broadcasting Stations, Johnson group also owns WJMS and holds grant for ch. 12 WJMS-TV Ironwood, Mich. WATW operates on 1400 kc with 250 w, is affiliated with MBS.

KFRE-TV Fresno Goes on Air

KFRE-TV Fresno, Calif., began commercial operation on ch. 12 last Thursday using full 316 kw power, Paul R. Bartlett, president, reported Friday. Station, which received authority to begin programming tests only last week, received final grant in commission ch. 12 hearing early this year. It is affiliated with CBS, represented by Blair-TV and carries $630 Class A hour rate. Full CBS schedule will be carried beginning June 5, Mr. Bartlett reported.

WNNC-TV Questionnaire Asks Data on CBS, NBC

CBS and NBC are faced with another questionnaire (aside from prospective list which FCC's Network Study Staff had drawn up; see story page 88).

This one was written request by ch. 8 WNNC-TV New Haven, Conn., to two networks to furnish information about coverage, rates, 1954-1955 revenue and income, cancellations, spot sales arrangements, rates, FCC's Network Report, Missoula, KXLQ Bozeman, KGHI Griffin holdings are three of business.

States (WWVA Wheeling, W. Va., WAGA Atlanta, Mo.; WOW-AM-Omega, Neb.) and Storer stations (WWVA Wheeling, W. Va., WAGA Atlanta, Miss.; WMB -AM- TV Birmingham, WIST-AM- TV Cleveland). Requests, made by Paul A. Porter, visual FCC chairman now representing WNNC-TV, were in preparation for hearings involving CBS purchase of WQTH Hartford and NBC's purchase of WNBD-TV New Britain (see story page 92).

At same time, CBS asked FCC to reconsider its acceptance of WNNC-TV protested out, in alternative, narrow scope of issues to Hartford area rather than national scene. Network claimed issues (involving network rules, monopoly, diversification, etc.) verge on general rule-making rather than involving simple transfer cases.

Three Satellite Bids Top FCC Business Friday

SATELLITES—one of them—were major order of business in tv applications filed Friday with FCC. Ed B. Crane, (multiple station interests) asked for ch. 10 Helena and ch. 21 Missoula, both Mont., both to be operated as satellites of ch. 6 KXXL-TV Butte and contingent on grant of transmitter-site change and power increase (from 2.04 to 65.14 kw visual) for mother station.

J. R. Griffin interests filed application for FCC approval of purchase for $6,500 of ch. 8 KBTV-TV Jonesboro, Ark., to be used as partial satellite of ch. 7 KATV (TV) Pine Bluff, Ark., one of three Griffin tv holdings. Payment represents partial reimbursement for out-of-pocket expenses incurred by seller, Regional Broadcasting Co. (KBTV-AM-FM Jonesboro (not involved in sale) and KGHI Little Rock, Ark.). Other Griffin holdings are KTUL Tulsa; KFPW Ft. Smith, Ark.; KTVX (TV) Muskogee, Okla. (ch. 8); KOMA-KWTV (TV) (ch. 9) Oklahoma City.

Mr. Crane's satellite operations call for 410 and 538 kw visual power at Helena and Missoula, respectively, with construction costs in same order, $22,420 and $15,870. Craney interests, besides KXXL-AM-TV, include KXLI Missoula, KXLQ Bozeman and KXLL Great Falls, all Mont.

On Duty for State Dept.

CLAIR R. MCCOLLUGH, Steinman stations, represented State Dept. last week at dedication of new children's wing at St. Lo Hospital, France.

NO OTHER TV STATION IN TEXAS
gives you as much coverage as.

CHANNEL 4

KRLD-TV’s Channel 4 enables it to reach farther with a strong, clear signal... Channel 4 is the lowest-frequency channel in the Dallas-Fort Worth area.

MAXIMUM POWER

KRLD-TV operates on 100,000 watts, the maximum power for a low-VHF frequency allowed by the FCC. KRLD-TV beams 100 microvolts or more to 28,500 square miles of the most densely populated and richest area in Texas... a 30% greater area than is covered with a comparable signal by station “B.”

TEXAS’ TALLEST TOWER

KRLD-TV telecasts from atop Texas’ Tallest Tower, jutting 1,521 feet above its hilltop base... 1,685 feet above average terrain. From this second tallest man-made structure in the world, KRLD-TV serves the Top O’ Texas Market, in which live more than 2,250,000 people who watch in excess of 564,080 television sets.

An unbeatable combination that makes KRLD-TV the TOP O’ TEXAS MARKET most potent sales medium, with greater coverage, fine reception, larger audience.

CBS TELEVISION

REPRESENTED BY THE BRANHAM COMPANY
THE AMAZING DUNNINGER

EARLY in the opening program of his new Wednesday evening series on ABC-TV, Dunninger told a pair of aspiring telepathists that they were entering a career of frustration, so far as public understanding is concerned. "If you tell people it's a trick, they'll say it's supernatural," the master mentalist declared. "If you tell them it's supernatural, they say it's a trick."

Dunninger (like Shakespeare, Washington and other truly great personages he is referred to only by his last name) himself repeatedly disclaimed any connection with the supernatural, so what he did must be trickery. To at least one viewer this only makes his demonstrations of stating publicly what others are thinking privately all the more astounding. His— and ABC's— difficulty is in making his repetitions of the same stunt continually entertaining.

Last Wednesday, when the master mentalist told Capt. Robert J. Stroh of the USS Saratoga, who was on the bridge of that ship while Dunninger was on the stage of New York's Little Theatre, that he (the captain) was thinking of the clearance between the Saratoga and Brooklyn Bridge and that it was four feet, the attempt was completely successful. But it made the concluding studio part of the program seem like pretty routine stuff.

Having amazed everyone the first time, the big question now is: What can they do to make people tune in again next week?

Production costs: $20,000.

Sponsored by American Tobacco Co. (Pall Mall cigarettes) through Sullivan, Stauffer, Colwell & Bayles and Pearson Pharmacal Co. (Sakrin, Eye-Gene) through Donahue & Coe on alternate weeks, Wednesday, 8:30-9 p.m. EDT on ABC-TV.

Produced: Ben Frye; director: Arthur Rosenblum; musical director: John Gart.

YOU SOMETIMES GET RICH

PONTIAC, whose alternate-week Playwrights '56 had been skidding badly earlier this season, lacking sufficient audience and override to bypass the $64,000 vehicle, attempted to even the score last Tuesday evening with a sometimes-funny play about an Army sergeant who wins $80,000 on The Pot of Happiness quiz program, only to learn the hard way that all that glitters "ain't happiness."

Unfortunately, Pontiac's tank was half-empty.

You Sometimes Get Rich was so obvious a parody of the things that happened to that U. S. M. C. captain who assaulted, then scaled Mt. Revson for $64,000 last year, that playwright A. E. Hotchner left little to the audience's imagination.

Despite its hopeful premise (exploitation of the rich by the richer), the script found itself stuck in its own rut amid midpoint. Yet, Mr. Hotchner wielded his acid-tipped pen with a great deal of skill, sting, among others, Madison Ave.-freespeaking advertising executives, merchandisers, publishers, survey takers and free-loaders in general—all of whom descended upon our hapless hero like so many thousand locusts. Obviously, there was a moral to the story, though we're not sure which one. Could it have been "don't count your baubles till they're hatched" or "television isn't the best medium in which to do a parody on television?"

Production costs: Approximately $30,000.

Sponsored by Pontiac Motor Div., General Motors Corp., Detroit, through MacManus John & Adams, N. Y., on NBC-TV, alternate Tues., 9:30-10:00 p.m. EDT.

Writer: A. E. Hotchner; producer: Fred Coe; director: Everett Chambers.

THE CRADLE SONG

UNDAUNTED by losing Helen Hayes and Susan Strasberg from "The Cradle Song" in the weeks before the Hallmark Hour of Fame's May 6 telecast on NBC, producer Maurice Evans filled the roles with the very competent Evelyn Varden as convent virago and Deidre Owen in the ingenue lead, and put on one of his usual masterful shows. Judith Anderson, interpreting the princess with her accustomed artistry, and Siobhan McKenna as the young nun who mothered the founding of the story, also get much of the credit for a good show.

But one fault was evident in this appealing story of a foundling girl growing up in a Dominican convent. The introductory part of the play seemed wastefully long on television. The adapters could have been a bit bolder in cutting the original written by Gregorio and Maria Martinez Sierra 40 or 50 years ago.

But this touching play about simple things—nothing momentous happens between the baby arrives at the cloisters until the day she leaves to marry—became a significant experience as presented by Mr. Evans. Music by guitarist-composer Julian Prol and chanteuse Muriel O'Malley, and set by Robert Wightman contributed to the production's effectiveness.

Production costs: Approximately $100,000.

Sponsored in color and black-and-white by Hallmark Cards Inc. through Foutie, Cone & Belding, on NBC-TV May 6, 4-5:30 p.m. EDT.

Cast: Judith Anderson, Siobhan McKenna, Evelyn Varden, Barry Jones, Anthony Franciosa, Deidre Owen, Mildred Travers, Jeanne Tobey, Zohra Alton, Katharine Rohe, Pamela Simpson, Kate Harrington, Wal Avery, Frances Paige, Margaret Hill, Gerry Flemming, Gerry Jedd, Muriel O'Malley, Charron Follett, Elaine Lynn, Barclay Hodges, James Lacrigola, Julian Prol, George Sullivan. Authors: Gregorio and Maria Martinez Sierra; producer: Maurice Evans; director: George Schafer; associate producer: Mildred Fred Alber; NBC program supervisor: Joseph Cunneal; assistant to director: Robert Hartung; associate director: Adrienne Lausch; costumes: Noel Taylor; scenery: Robert Wightman; translation: John Garrett Underhill; tv adaptation: James Costigan; unit manager: Breeze Howard.

EDGAR BERGEN HOUR

NOSTALGIA on tape might have been the proper title for Edgar Bergen's 20th anniversary program May 6. Once again the salutes of Charlie McCarthy were mixed with the ripostes of the inimitable W. C. Fields, the Shakespearean sonorities of John Barrymore, the boudoir-honey murmurings of Marilyn Monroe, the nasal tones of Bob Hope, and Jimmy Stewart, Don Ameche, Nelson Eddy.

All these were play-backs of selected scenes...
GOOD PROGRAMMING "PAYS OFF" at WTCN

At WTCN a good balance—ABC Network shows—local news, weather and sports... plus well-planned disc jockey shows aimed to please a wide variety of listeners... "pays off" in well deserved recognition and in increased audience!

Outstanding performances by such talented personalities as Don Doty and Frank Buetel help to maintain WTCN consistently as the NUMBER TWO radio station in the Twin City Market!

Don Doty... 1956 AFTRA Award Winner as Top Twin City Radio Disc Jockey! (Also named #1 Disc Jockey by local record distributors!)

Frank Buetel... 1956 AFTRA Award Winner as Top Twin City Radio Sportscaster!

of past Bergen programs in honor of the china celebration of the ventriloquist and his dummy who astounded the nation in 1936. ("A ventriloquist on radio? You're crazy. He'll never go."")

The program left us with mixed feelings—a compound of nostalgia and the disbelief that we actually enjoyed this kind of humor way back then.

Production costs: Approximately $10,000.
Sponsored by Viceroy cigarettes through Ted Bates and CBS-Columbia through Ted Bates May 6 on CBS Radio 7:05-8 p.m. EDT.
Producer-director: Sam Pierce; musical conductor: Ray Noble; writer: Si Rose and Zeno Kinker; assistant director: Kenny McMenus.
Cast: Mellomen Quartet; singers: Carol Richards and Ruby Wisler; Jack Kirkwood; Ray Noble and Orchestra. guests: Mrs. Grace Harvard Phillip and Nelson Eddy.

THIS HAPPY BREED

NINETY MINUTES, Noel Coward prophesied last October, can be "a long, long time." Well, the prophecy came true a week ago Saturday night on his third Ford Star Jubilee, as Mr. Coward unwrapped the first (and we hope, last) 90-minute "soap opera" in broadcasting history. No cliff-hanger by any means, "This Happy Breed" took us through 20 tired years (1919-1939) in the lives and hard times of the Gibbons clan, purportedly representative of the "average" British household that sustained the island throughout its darkest hours.

Perhaps the basic trouble with this poor man's version of "Cavalcade" (with a bit of "One Man's Family" thrown in for bad measure) lay with the selection of Mr. Coward himself as the principal player. Mr. Coward may have set the cause of the British working class back 100 years. Throughout this seemingly-endless chronicle of British insolidarity, one somehow always expected the ebullient, elfin-like showman to break out with "Mad Dogs and Englishmen."

Though boasting some better-than-average talent (that of Edna Best, Patricia Cutts and Roger Moore), we doubt whether "This Happy Breed" was worth its price of admission. In this corner, it meant giving up that dirty bird, George Gobel.

Production costs: Approximately $125,000.
Sponsored by Ford Div., Ford Motor Co., through J. Walter Thompson Co., N. Y., on CBS-TV, every fourth Saturday, 9:30-11 p.m. EDT.
Production supervisor and author: Noel Coward; producer: Richard Lewine; director: Ralph Nelson; sets: Robert Markell; costumes: Mildred Trebor; lighting: Robert Barry; makeup: Robert Jiras.

BOOKS

THIS is a basic textbook of an activity which the author, assistant professor of electrical engineering at the U. of Cincinnati, calls a basic tool of the electrical engineer with which he will work throughout his professional career. The volume includes only those topics most essential to an understanding of circuit analysis, so presented that the student advances from a few primary concepts to the present wealth of knowledge in this field.

Maxon Fm Study

EDITOR:

Just a note to let you know that we have already received several hundred requests for our fm study that was so well publicized in the April 16 issue of B&T.

Most of the requests were from persons or organizations directly concerned with the broadcasting/telecasting industry. However, it was surprising to me that about 10% of the requests were from only slightly related endeavors, which indicates an interested readership of B&T by persons who do not seem to be directly connected with the media.

It all goes to show you the effectiveness of B&T.

Ray Stone
Maxon Inc., New York

EDITOR:

Your recent article on fm is most encouraging—it might very well help the rebirth of fm that is growing day by day. As a recent grantee of a new fm station, KELE Phoenix, Ariz., I am more than happy that B&T is telling the industry what is going on in this almost untapped field. Keep up the good work.

James T. Ownby, Pres.
WIXN Jackson, Miss.

EDITOR:

We have an application with the Canadian Broadcasting Corp. for a license to establish and operate an exclusive fm station here in the city of Toronto. This will be the first of its kind in the Dominion and at this point we have every reason to believe that our application is going to be approved.

We have read with extreme interest the splendid article entitled, "Agency's Study of Fm Cities Untapped Potential" (B&T, April 16) and would like very much to obtain 10 copies of this issue.

We would also appreciate learning if you have had occasion to make a re-run of this particular article. If so, we would be interested in buying possibly 100 copies.

E. J. Piggott
Instantaneous Recording Service
Toronto, Canada

Gross Error

EDITOR:

We wish to advise you of a gross error in B&T for April 30. You carried a story stating that WAAB Worcester, Mass., had been sold by George Wilson to Bernie Waterman, "formerly general manager of WMAY Springfield, Ill."

Radio Station WMAY has been on the air since Oct. 15, 1930, and since the date of its inception there has been one general manager. I have been privileged to hold the position of general manager and can also advise you that I am president of the Lincoln Broadcasting Co., owner of WMAY. Mr. Waterman's only connection with this station has been that of a sportscaster.

Gordon Sherman, Gen. Mgr.
WMAY Springfield, Ill.

[EDITOR'S NOTE: B&T regrets its erroneous description of Mr. Waterman's position at WMAY, which was taken from an announcement made neither by Mr. Waterman nor WMAY.]

Amazing

EDITOR:

Expressions such as this "Writers Guild Attacks 'Growing Censorship,'" B&T, April 30) always amaze me. Isn't the guild objecting to something which it wishes to do itself?—"To control, to suppress, or, through pressure, to influence the presentation . . . on any basis other than it violates express provisions of a constitutional law."

They don't want anyone censored or molding public opinion but themselves. How quaint.

Ansel D. Pfaff, Pres.
WNMP Evanston, Ill.

Home Town Promotion

EDITOR:

In a recent issue (B&T, April 23) you pointed out in a boxed article something that KWPC in Muscatine is doing. They are promoting their city. This we feel is an excellent thing for them to do.

We feel it is such an excellent thing that we would like to encourage the spots that we have been running along the exact same line for at least two months...

Charles J. Ellis, Pres.
KCHA Charles City, Iowa

[EDITOR'S NOTE: With Mr. Ellis' letter were scripts for a dozen or more announcements, all extolling the advantages of shopping in Charles City, "whether it is for a loaf of bread or the materials for a house."]
These inland radio stations, purchased as a unit, give you more listeners than any competitive combination of local stations ... and at the lowest cost per thousand! (SAMS and SR&D)

PULSE: INC. SURVEY, SEPTEMBER 1955

neapolis, Oklahoma City, Toronto, Rio de
Janeiro, London, Paris, The Hague and Stock-
holm.

"Yes, we have a team operation here," Mr.
McGaughey will tell you with his friendly
grin. "There are no politics, no relatives. Every
account belongs to the house, and no one gets
a brighter star just because his work means
bigger billings than the next man."

BORN Emmett Connell McGaughey on May
20, 1911, he grew up in St. Paul, went to public
school and shoveled snow for pocket money.
During high school he moved with his family
to Seattle. The family fortune had changes,
so he worked a year at Frederic & Nelson Dept.
Store before saving enough to finish high
school. Then, as campus representative for
Bob Littler's men's haberdashery, he worked
his way through the U. of Washington and re-
ceived his B.A., in merchandising and adver-
tising in 1934. "Bob Littler is a terrible mer-
chandiser," he recalls. "I learned a lot from
him."

After college, Mr. McGaughey joined Gen-
eral Motors Acceptance Corp. as a field man
"making collections, sometimes repossessioning"
and by 1939 advanced to territorial manager.
That year he switched to the Chevrolet Div.
of GM and became district manager. His sales
achievements won him a place on the firm's
"all-American selling team" in 1941.

But as war clouds signaled a diminishing auto
market and greater need of service to country,
Mr. McGaughey joined the FBI and was gradu-
ated from the FBI's academy at Quantico, Va.,
in early 1942 ("2½ years of college crammed
into three months' training"). After a few
months as agent in San Francisco, he was
assigned to supervisory work in Los Angeles
in German, criminal and communist matters.
He resigned from the FBI in 1949 to return to
sales as Southern California manager of Cappel-
MacDonald Co., midwest firm specializing in
salesmen's incentive contests. He was with
this firm in 1952 when tapped by Erwin, Wasey.

Mr. McGaughey was appointed to the Los
Angeles Board of Police Commissioners by
Mayor Fletcher Bowron in 1952 and was the
only reappointment by present Mayor Norris
Poulson. He now is president of this board and
devotes each Monday to the work, an active
policy administration of a $32 million police
budget and a force of 4,500 men.

Mr. McGaughey married Mary Elta Freese
of Los Angeles in 1939. They live in Hancock
Park just off Wilshire Blvd. where they share
their home and swimming pool with their four
children: Terrence, 14; Dennis, 11; Mark, 10,
and Mary Frances, 3.

Hobbies? "Hi, golf, reading and—of
course—spectator sports. It's one advantage
of being police commissioner."

To EMMETT CONNELL McGAUGHEY

FAITH in the "sell" ability of radio-tv is a very
vital thing to Emmett McGaughey, executive
vice president of Erwin, Wasey & Co. and
head of the international agency's Los Angeles
office. Testimony to his faith is proved in
action.

"We're the biggest spenders of western dol-
I wandering music and other divisions, but it is com-
plemented by other substantial radio-tv ac-
counts. White King Soap Co. and Van Camp
Sea Food Co., both Los Angeles, became new
Erwin, Wasey clients May 1. White King
claims to outsell all national brands combined
in its region and relies heavily on radio-tv and
Van Camp, which packs Chicken of the Sea
and White Star brands of tuna, is a national
user of radio-tv.

Arizona Brewing Co., Phoenix (A-1 Pilsner
beer); Consolidated Cigar Corp., New York
(Dutch Masters cigars in western states); Nor-
best Canning Co. (Spirit of Norway sardines);
L. Rose & Co., London (lime juice); Safeway
Stores, Oakland (Curtsey cakes, Sunnybank
margarine, Jell-Well desserts), and Texas Co.,
New York (Skychef gasoline and Marfax in
11 western states) also are high on the agency's
national and regional radio-tv lists.

Mr. McGaughey is responsible for his office's
fully-integrated radio-tv department of 20 pro-
ducers, directors, writers, art directors and busi-
ness representatives, who handle all commercial
production for the national campaigns.

It is natural for Mr. McGaughey to recog-
nize the sales impact of the broadcast media.
"He's a top salesman with exceptional adminis-
trative talents built in," according to fellow
workers. In fact, this is the rare combination
that accounted for his selection as executive
vice president in charge of the Los Angeles of-
office of Erwin, Wasey in early 1952 even
though he didn't have one day of actual agency
experience before that.

"Advertising is selling. If it doesn't sell, it
isn't advertising." This is the basic philosophy
Howard D. Williams, board chairman, shared
with Mr. McGaughey when considering him
for the post. "We wanted a good administrator.
A man who would insist on discipline and see
it to that work got done for our clients." He
concluded Mr. McGaughey was his man—a
man whose career has ranged from being an
award-winning salesman for Chevrolet to an
FBI agent and administrator.

For proving that leadership, Mr. McGaughey
a few weeks ago was named national executive
vice president and elected to the agency's board
of directors. Outside of Los Angeles, Erwin,
Wasey has offices in New York, Chicago, Min-
neapolis, Oklahoma City, Toronto, Rio de
Janeiro, London, Paris, The Hague and Stock-
holm.
There are Los Angeles radio stations that program for lovers of Beethoven and Bach, stations that specialize in mambo and pops.

However, KNX Radio is the Los Angeles station that attracts practically everyone—which is exactly why it reaches more homes in a single day than the top four independent stations put together.

What's more, KNX is the only Los Angeles station that reaches as many as 43% of the metropolitan radio homes in a day, 83% in just one week.

If you have a product or service that everyone in Los Angeles can use, then talk to everyone with

THEODORE M. KAUFMAN

on all accounts

FROM the time he dons his Wallachs suit and Van Heusen shirt each morning to the time he takes them off each night, slipping into Van Heusen pajamas, Theodore M. Kaufman, a vice president and account supervisor at Grey Adv., New York, is continually reminded of the fact that he’s held but two jobs during his 40-year life span. The first was with Wallachs, a chain of New York clothing and accessory stores, which he joined in 1937 following his graduation from Cornell, as a salesman. The second came 11 years later, when, as advertising and general manager of all Wallachs stores, he joined Grey as an account executive (he became vice president in 1954).

Ted Kaufman first aroused public attention on Feb. 29, 1916, when the townspeople of Sunbury, Pa., took cognizance of his arrival. Consequently, he celebrates his official birthday every fourth year.

Six out of his eight clients are active air media users: Phillips-Jones Corp. (Van Heusen shirts, ties, etc.) and Anson jewelry, both ABC-TV Stop the Music; Canadian Converters Ltd. (Van Heusen franchise operation); Dominion Textile Co. (Texmade), Spiegel’s (mail-order house), Emerson Radio & Phonograph Corp., and Union Underwear Co., all heavy radio-tv spot users, some on a co-op basis. With four of the six clients out of town, Mr. Kaufman logs a great number of air miles, shuttling between New York, Chicago, Montreal and Providence.

The radio and tv media, Ted Kaufman feels, have a primary purpose in moving traffic into soft goods emporiums. At Grey, Mr. Kaufman points out, this premise has worked out “beautifully” for our clients. Example: Van Heusen and Anson, sharing Stop the Music sponsorship, have “seemingly shot up out of nowhere in the past three years," to the point where he notes that Van Heusen seriously threatens the position of Arrow and Manhattan, and Anson that of Swank.

What little time remains his, Ted Kaufman declares, is spent at home at Rockville Center, L. I., with his wife (the former Grace Miller, whom he met and courted while both were at Cornell), four children (one boy, three girls, aged three to 15), working in his little home shop, building furniture, and participating in local community affairs. As one of the principal founders of the Rockville Center Citizens Committee, Mr. Kaufman was partially responsible for that town’s four new schools. He has given up golf altogether—“I figured if my wife could beat me, I’d better stop.”
Spectacular things are happening in the Prosperous Piedmont Section of North Carolina and Virginia ... home of WFMY-TV.

Today, heavy industry such as steel fabricators, machine tool builders and giant lumber producers help make this area one of the most lucrative TV markets in the nation. And WFMY-TV ... The only CBS station completely covering this 46 county area ... has been playing and selling to more than 2 million potential customers here since 1949.

With full 100,000 watts power on Channel 2, WFMY-TV gives you coverage of this $2.5 billion market that no other station or group of stations dares claim.

To get spectacular sales results for your product in the Prosperous Piedmont, call your H-R-P man today.

CRAVEN APPOINTMENT TO FCC IS CLEARED AT WHITE HOUSE

- Nomination probably will be sent to Senate this week
- Webster slated for retirement after nine years service
- FCC balance will be four Republicans, three Democrats

PRESIDENT Eisenhower this week is expected to transmit to the Senate the nomination of Commander T. A. M. Craven, USN, Ret., as a Democrat for the FCC, to serve for seven years from next June 30.

On Capitol Hill it was learned authoritatively that Mr. Craven's name had been "cleared" and that the nomination, subject to Senate confirmation, could be sent to the Senate this week. Mr. Craven will succeed Comr. E. M. Webster, who has served continuously since April 10, 1947, and who is eligible for retirement. Each an outstanding engineer.

For Comdr. Craven, the FCC seven-year tenure would be his second. He served, under appointment by President Roosevelt, from 1937 to 1944. While no formal word was forthcoming from the White House, it had been learned several weeks ago that the customary security check had been made on Comdr. Craven. The fact that his name was under consideration was first reported in B&T April 16. Comdr. Craven was out of town last Friday and could not be reached for comment.

It was understood, however, that the White House already had contacted Comdr. Craven, presumably to ascertain whether he would accept appointment if offered. It is believed his response was affirmative.

With Comdr. Craven's assumption of office, the FCC balance will become four Republicans (Chairman McConnaughey, Hyde, Doerfer and Lee) and three Democrats (Bartley, Mack and Craven). Commr. Webster politically is an Independent. He was appointed originally on March 7, 1947 as a resident of Washington but now resides in nearby Maryland. Comdr. Craven resides in Virginia.

FCC Chairman George C. McConnaughey likewise was out of town Friday and was not available for comment. It is believed, however, that he endorsed the Craven nomination but did not oppose reappointment. Commr. Webster, if the administration were so disposed.

Commr. Webster, while not an active candidate for reappointment, would have accepted another term if offered. The fact that he is politically an Independent may have weighed against reappointment. Commr. Webster is 67 whereas Comdr. Craven is 63.

Commr. Webster is eligible for retirement, both as a Civil Service employee and as a Coast Guard officer. He has understood his retirement pay would be considerably more than the $7500 maximum provided for a member of the FCC who has served the requisite number of years.

It was speculated that Commr. Webster, a foremost expert in safety-of-life, common carrier and point-to-point communications, probably will be offered consultancies in that field. There was also speculation that he might be asked by the administration to participate in international conferences bearing on telecommunications, in which field he is an acknowledged expert.

Comdr. Craven's return to the Commission would come at a time when it is troubled with fundamental problems in television allocations. This is his forte. He was instrumental in fashioning the original tv allocations looking toward commercial operation in 1939, when he was first appointed to the FCC after having served as its chief engineer. At that time, he authored the now famed Socio-Economic Report which even today is being used by the FCC members and its staff in appraising the allocations problem. He also headed several delegations which handled North American Regional Broadcast Agreement associations and won acclaim for their success.

Comdr. Craven's recommendations in the current tv allocations considerations excited considerable attention when he filed them last December [B&T, Dec. 26, 1955]. In essence, the former FCC commissioner suggested a block of at least 65 contiguous channels, assigned in "area" apportionments which would, in Zone I, permit all cities and communities to be either all vhf or all uhf, except for 10 communities which would be mixed. His basic premise seemingly was to secure the most stations in the most communities. He also called for receiver "compatibility" to ensure the best use of uhf frequencies.

Commr. Webster was appointed an FCC commissioner to fill the unexpired portion of the term of Paul A. Porter. In 1949 he was reappointed for a full seven year term.

ALLOCATIONS EXPERT TO JOIN FCC

TUNIS AUGUSTUS MACDONOUGH CRAVEN is widely acclaimed as one of the world's foremost authorities on frequency allocation and communications engineering. He is senior member of the engineering consulting firm of Craven, Lohnes & Culver.

His career includes a seven-year term on the FCC and participation in most of the principal international conventions as well as congressional and regulatory hearings.

Born Jan. 31, 1893, in Philadelphia, Comdr. Craven entered the U. S. Naval Academy after completing his academic education. He was graduated from the Academy in the class of 1913. In the next two decades he held commissions as a Navy officer, specializing in communications. In World War I he set up a communications system that delivered orders to convoys in submarine-infested waters without disclosing their positions. His fundamental frequency plan developed as first fleet radio officer has been the basis for such plans since that time.

Besides developing both land and sea radio systems, Comdr. Craven was an important figure in government radio allocations and long served as a member of the Interdepartment Radio Advisory Committee. His role in important international communications conferences included the 1927 sessions in Washington where the first major allocation was drawn up for the world.

In 1937 Comdr. Craven was chairman of the Inter-American Radio Conference at Havana, negotiating a broadcasting and communications treaty for the continent.

Comdr. Craven resigned his Navy commission in 1930 to enter private consulting practice and was the first engineer to adapt radio directional antennas to broadcast service. He was appointed FCC chief engineer Nov. 20, 1935, and became a commissioner Aug. 21, 1937.

In 1944 he returned to private industry as vice president of Cowles Broadcasting Co., which at the time included East Coast outlets. In December 1949 he left the Cowles organization to enter the consulting business. He is a past president of the Am. Soc. of Federal Communication Consulting Engineers.
MONTHLY REPORT ON RADIO SPOT SALES TO BE RELEASED, STARTING NEXT JULY

Dollar volume figures to be issued by Station Representatives Assn. Service will meet long-felt demand for such statistics by buying and selling segments of industry.

A DOLLAR VOLUME total of radio spot time sales will be issued as a regular monthly report by Station Representatives Assn, starting in July.

Disclosure of plans for plotting the monthly progress of national spot time sales on a month-delay basis was to be made today (Monday) by Adam J. Young Jr. of Adam Young Inc., station representative, and president of Station Representatives Assn, and Lawrence Webb, SRA's announcing director.

For some time there has been increasing agitation within media research, advertiser, timebuying, and selling ranks of the radio industry for a compilation that would show figures and trends in the sale of national spot radio.

Only last month, Television Bureau of Advertising released its first quarterly report on spot television time at gross rates [Bet, April 16]. Tvb's current quarterly report, for the first three months of this year is being released today (see page 30).

Total Figure Only

Unlike the Tvb report, SRA's compilation at first will be a total figure only but this total will be compared to the previous month and to the same month of a year ago. The first report, expected about the middle of July, thus will show a total dollar volume for national spot time sales for June and for May, and also a figure for June 1955.

Publishers Information Bureau for some time has issued a monthly total gross billing (time sales at gross rates) compilation per tv network (see page 96), on about a month’s delay, and last summer discontinued its publication of similar totals in network radio.

In addition to the total dollar volume figure for the month, SRA also will provide an index of spot radio time sales using 1954 as a base year, and the annual rate of spot time sales for the year to date.

As explained in today's announcement, SRA's members will supply each month the total figures for each company's national spot time sales. This raw data then will be supplied to Price-Waterhouse & Co., New York, a professional accounting firm.

SRA's announcement emphasized that it is this type of information “which agencies and advertisers rely on in the increasingly creative task of media buying.” It recalled that "the spectacular rise of national spot radio leveled out in the years of tv’s growing pains from 1951 to 1954, but the advance was resumed in 1955."

Continued SRA: "Research departments, timebuyers, media heads, account executives of advertising agencies, and the executives controlling the large appropriations of advertisers look to radio to provide the figures that show comparative and current history. . . . Publication of dollar volume figures for the entire spot broadcasting industry will eliminate the confusion and guesswork which has been prevalent in advertising circles for too many years."

So far the only figures on national spot radio useful to advertisers have been FCC's compilation issued only on an annual basis, SRA said, adding that the 1953 figures would not be released until December 1956, just one year later. However, advertisers interested in spot radio figures for January in any year have had to wait nearly two years to check upon their guesses.

SRA observed that local radio advertising, according to yearly FCC reports, has been "healthy in tonnage" although dollar volume has grown only slightly in the past few years because of "lower rates to attract tonnage to make up for the substantial decline in network business." National spot, SRA went on, also has been tonnage healthy but failed to reflect the growth in dollar time sales because of advertiser movement from higher rated nighttime periods into daytime as well as use of more saturation campaigns which gained larger discounts.

"Enthusiastic" reception was accorded SRA's announcement by James M. Boerst, owner of Executives Radio-TV Service, Larchmont, N. Y., which has a publication a national spot radio figure compilation are being finalized by the Station Representatives Assn. Discussing the new service, scheduled to begin in July, are (l to r): William Kewer, Price-Waterhouse & Co. (New York accounting firm which is to do the statistical work); Lawrence Webb, managing director of SRA, and Adam Young, SRA president.

which publishes a monthly "Spot Radio Report." But Mr. Boerst tempered his enthusiasm by adding that he thought the figures "will not only provide valuable information, but will help point up the need for the publication of more detailed information." He asserted the radio industry needed a report such as that now available from Tvb, whose reports are based on figures provided by N. C. Rorabaugh Co.

Mr. Boerst's report was owned by Rorabaugh until its purchase by Mr. Boerst in 1952. The Rorabaugh firm had published reports for both radio and television. These two reports had differed, however, in that Rorabaugh's compilation was based on material gathered from stations while Mr. Boerst's data is gained from advertising agencies. Neither report published dollar figures. Referring to this possibility in radio, however, Mr. Boerst said his report could provide a similar job to that of Tvb's spot report "if an agreement can be made with the Radio Advertising Bureau to bear the cost of converting activity listings into dollar figures."

Mr. Boerst asserted that advertisers who now avoid representation in his report would "reveal their activity if the ultimate result would be a mutually advantageous industry report on dollar expenditures." He said a greater number of advertisers and agencies now cooperate in the reports although a figure was some of the major soap and cigarette companies.

Mr. Boerst's report provides a monthly compilation showing the activity of about 300 national and regional advertisers as reported by nearly 70 top agencies. A breakdown is provided of each advertiser, giving station by station the number of broadcasts per day, time of night and the type of broadcast.

Radio-TV Ad Inquiries Keep Better Business Bureau Busy

A RADIO-TV-MUSIC classification was among the top 10 business categories causing the greatest number of persons to seek the facilities of the Better Business Bureau during 1955, according to a report by the Assn. of Better Business Bureaus Inc., New York. Demands on Better Business Bureau services reached an all-time high last year, the report reveals.

The top 10 classifications accounting for 52% of all contacts include home improvements and maintenance (174,175 inquiries and complaints); solicitations (138,176); home appliances (129,274); insurance (107,910); automotive (112,924); radio-tv-music (107,732); photography (81,317); furniture-floor coverings (71,879); apparel (63,125), and magazine subscriptions (62,666).

According to the report, the heaviest volume of questionable advertising appeared in the following business classifications: apparel (3,218 advertisements); automotive (2,956); home appliances (2,764); insurance (2,161); radio-tv-music (977); home furnishings (756); business opportunities (869), and employment (735).

Sales Potential of Women Keys New National Campaign

A NATIONAL "women-in-sales" campaign, that seeks to open new opportunities for women in industry via sales, was launched in New York last week with a luncheon at the Savoy Plaza Hotel attended by a number of top industry and advertising executives.

Chairman of the campaign is Claire Mann, performer on WABC-TV New York, who told the executives the promotion will include the designation of the second week of May each year as "Women-in-Sales Week" and that three "outstanding sales women" in the U.S. will be selected each year and honored with awards.

Each segment of industry including manufacturing, retailing and services—such as advertising, banking or public relations, will be represented in the yearly awards.

Three V.P.'s Elected by C&H

THREE new vice presidents elected last week at Calkins & Holden, New York, were Walter B. Geoghegan, account supervisor for Firmenich Inc. (perfumes), Gulf Oil Corp., and Oakline Products Co. (cleansers); William C. Pank, account supervisor for Royal Doulton Inc. (china), Eastman Chemical Inc., Fielder Mills (blankets) and others, and Robert W. Robb, account supervisor for Prudential Insurance Co. of America as well as director of C&H's public relations.

COMMISSION SYSTEM AGAIN UNDER STUDY

ANA names 11-man committee, headed by Kraft's McLaughlin, to investigate agency relations and compensation methods.

THE MOVE toward re-examination of the commission system of compensating advertising agencies [B&T, April 30, May 7] gained momentum late last week as the Assn. of National Advertisers announced appointment of a special study committee on agency relations and agency compensation methods. John B. McLaughlin, director of sales and advertising for Kraft Foods Co., was named chairman of the 11-man group.

"The past decade have been marked by great growth in the role of advertising and by the reliance placed on advertising by industry," ANA President Paul B. West said in announcing the committee on behalf of the ANA board. "Similarly, the role and function of the advertising agency has grown and matured. Today, advertisers and agencies are in the role of advertising agency, in addition to its traditional role of creating and placing national advertising, performs a most important function in the role of professional counsel, and as such, is, in growing number of cases, a close and confidential 'working partner' of the advertiser in advertising and marketing planning. "These marked changes have led many advertisers to the conviction that advertisers and agencies should re-examine the method of compensation to make sure it is soundly based and that it best meets their individual needs under today's conditions. In the opinion of the ANA board, advertisers and their agencies should be free to determine the terms and methods of compensation which are best for them and will contribute most to productive advertising."

Growing Sentiment

Edwin W. Ebel of General Foods Corp., chairman of the ANA board, had told the American Assn. of Advertising Agencies practically the same thing—saying there was a growing feeling to this effect among many ANA members—at a closed session of the AAAA convention that week [B&T, April 30].

Robert D. Holbrook of Compton Adv., newly elected AAAA chairman, replied at the time that the subject had been under study by the AAAA's regular committee on advertiser relations for the past year; that it will be the committee's "primary assignment," and that a meeting of the committee would be held this month. Selection of the 1956 membership of this committee was nearing completion late last week.

Named to serve with Chairman McLaughlin on the ANA special committee were C. J. Coward, senior consultant, advertising and sales promotion services, marketing services division, General Electric Co.; Donald S. Frost, vice president in charge of advertising, Bristol-Myers; E. G. Gerbic, vice president, Johnson & Johnson; J. Ward Maurer, vice president for advertising, Wildroot Co.; George E. Mosley, vice president in charge of advertising and sales promotion, Seagram-Distillers Co.; Edward E. Rothman, director of product advertising and sales promotion office, Ford Motor Co.; Henry Schacht, vice president, Lever Bros.; William Brooks Smith, vice president in charge of advertising, Thomas J. Lipton Inc., and Ralph Winslow, vice president and manager of marketing, Koppers Co.

The Hooper Index of Broadcast Advertisers is a measure of the extent to which a sponsor's commercials are seen or heard. Each commercial is assigned a number of "commercial units," according to its length.** This number is then multiplied by the audience rating attributed to that commercial.** When each commercial has thus been evaluated, the results are made to each sponsor are added to form the HIBA. For further details of preparation, see the basic reports published by C. E. Hooper, Inc., Broadcast Advertisers Reports Inc. and American Research Bureau Inc. Above summary is prepared for use solely by BROADCASTING • TELECASTING. No reproduction permitted.

** "Commercial Units": Commercials are taken from the monitored reports published by Broadcast Advertisers Reports Inc. A "commercial unit" defined as a commercial exposure of more than 10 seconds but usually not more than one minute in duration. Four "commercial units" are attributed to a 20-minute program, and in the same proportion for programs of other lengths. A "station identification" equals one-half "commercial unit."

** Audience ratings for television, both national and local, are those published by American Research Bureau Inc. Those for radio are the ratings of C. E. Hooper Inc. In the case of station breaks the average of the ratings for the preceding and following time periods is used whenever possible. The rating is that of either the preceding or following time period, normally the preceding. In the above summary monitoring for Chicago occurred week ending March 18, 1956.

Gas Sales Meet Hears Toigo

FOR association advertising to be effective, it must, like product advertising, be competitive and productive, according to Adolph J. Toigo, president of Lenens & Newell, New York. Speaking before the Eastern Gas Sales Conference in New York last Monday, Mr. Toigo observed that Lenens & Newell in handling the American Gas Assn. has approached that account as it has others in the agency, not merely as an institution but as a commodity that must be sold.

Bishop Buys Into 'Monitor'

PURCHASE by Hazel Bishop Inc., New York, of a schedule amounting to more than $500,000 in gross billings on NBC Radio's Monitor weekend programming, starting May 26, was announced last week by Fred Horton, director of sales for NBC Radio. The 52-week contract for Hazel Bishop Inc., placed through the Raymond Spector Co., New York, calls for five 5-minute news programs each Saturday and five each Sunday on Monitor to advertise cosmetic products.

THE MOVE toward re-examination of the commission system of compensating advertising agencies [B&T, April 30, May 7] gained momentum late last week as the Assn. of National Advertisers announced appointment of a special study committee on agency relations and agency compensation methods. John B. McLaughlin, director of sales and advertising for Kraft Foods Co., was named chairman of the 11-man group.

"The past decade have been marked by great growth in the role of advertising and by the reliance placed on advertising by industry," ANA President Paul B. West said in announcing the committee on behalf of the ANA board. "Similarly, the role and function of the advertising agency has grown and matured. Today, advertisers and agencies are in the role of advertising agency, in addition to its traditional role of creating and placing national advertising, performs a most important function in the role of professional counsel, and as such, is, in growing number of cases, a close and confidential 'working partner' of the advertiser in advertising and marketing planning. "These marked changes have led many advertisers to the conviction that advertisers and agencies should re-examine the method of compensation to make sure it is soundly based and that it best meets their individual needs under today's conditions. In the opinion of the ANA board, advertisers and their agencies should be free to determine the terms and methods of compensation which are best for them and will contribute most to productive advertising."

Lipton Inc., and Ralph Winslow, vice president and manager of marketing, Koppers Co.
NATIONAL TV: $217 MILLION FOR FIRST QUARTER OF 1956

TvB lists spot business at $100,209,000, and Publishers Information Bureau puts network gross billings for period at $116,695,520. No direct comparison with 1955 available.

NATIONAL and regional advertisers spent nearly $217 million for tv time during the first quarter of 1956. This total, calculated on a basis of gross rates (one-time rate before discounts or deductions of any kind), includes both spot time sales figures as estimated by Television Bureau of Advertising and network sales figures compiled by Publishers Information Bureau.

Ted Bates & Co. was leading agency in the placement of spot tv business during the first three months of this year, TvB announced. Leo Burnett Co. ranked second and McCann-Erickson third in the tabulation. The remainder of TvB's list of top 10 agencies, in descending order, includes: Dancer - Fitzgerald - Sample, Benton & Bowles, Young & Rubicam, BBDO, Compton Adv., William Esty Co. and Cunningham & Walsh.

TvB, which last month began to issue quarterly reports of television's spot business with one for the fourth quarter of 1955 [BT, April 16] and which plans to continue such reports each three months hereafter, estimates that a total of 2,702 advertisers bought $100,209,000 worth of tv time (at gross rates) for spot campaigns during the first three months of this year.

PIB, which has made monthly reports on tv network time purchases of national advertisers since the late 1940's, also at gross rates, puts the first quarter 1956 network gross billings at $116,692,520. This total is divided among the three tv networks this way: ABC, $35,648,184; CBS, $52,648,532; NBC, $44,495,804.

No direct comparison with the first quarter of 1955 is available for both spot and network tv advertising. PIB data show a 17.5% increase for the first quarter of 1956 over the same period of last year, when the combined gross of the two networks (then four, as the DuMont tv Network was still operating) was $99,209,368. TvB, which uses the data of N. C. Rorbaugh Co. on tv spot advertising as the basis for its spot estimates, reports that the number of tv spot advertisers has increased from 2,346 for the first quarter of 1955 to 2,702 for the first quarter of 1956, a gain of 15.2%, but dollar figures are not available for the first quarter of 1955. With the increase in tv spot clients matching so closely the tv network dollar increase, percentagewise, there seems little doubt that television's overall national billings have risen about one-sixth in the past year.

Compared to the final quarter of 1955, the first three months of this year show a slight increase in tv network billings, a slightly larger decrease in the spot total, for a net decrease of $3.3 million or about 1.5%. This does not signify any drop-off for spot tv, however, as the first quarter of the year, with its pre-Christmas sales promotion, is always the major quarter so far as spot advertising is concerned.

Nearly half of tv's spot revenue comes from announcements, a TvB analysis reveals:

- Announcements: $44,590,000 (44.5%)
- ID's: $31,833,000 (12.2%)
- Participations: $21,410,000 (21.4%)
- Shows: $22,017,000 (21.9%)

Commenting on this breakdown, Oliver Treyz, TvB president, called attention to the sometimes overlooked way that spot television embraces more than tv spots. "We want to

Of the 2,702 companies which used spot television to advertise their wares or services during the first quarter of 1956, there were 1,174 whose gross tv time purchases amounted to $5,000 or more in that time, and 1,528 whose tv spot time purchases were less than $5,000.

The method by which tv dollar estimates are made begins with reports of time sales by tv stations, who report to the Rorbaugh organization the amount and the type of time sold to spot advertisers. The current tv report is based on data accumulated by Rorbaugh from 267 stations in 181 markets and then projected to full national proportions. These time figures are then translated into dollars by applying to each the gross one-time rate of the station.

DECKINGER JOINS GREY ADV. JULY 2

Jack Tarcher Leaves Biow To Handle Benrus at L&N

ADDITIONS to the New York and Hollywood offices of N. W. Ayer announced last week included: Eileen P. Cummings, formerly assistant to media director, Paris & Peart, and David Pollard, formerly copywriter, William Waintraub, to New York as a member of radio-television research and of the radio-television copy department respectively; Edward J. Pyle Jr., formerly with CBS, to Hollywood in charge of the newly-organized film department. Also announced was the transfer of Henry G. Harper, from public relations to the service department in New York.
Dominant in power! WXEX-TV, basic NBC-TV station serving Richmond, Petersburg and Central Virginia, has maximum power—316 KW. That’s dominance!

in tower! WXEX-TV has maximum tower height—1049 feet above sea level and 943 feet above average terrain. That makes WXEX-TV more than 100 feet higher than any station in this market. That’s dominance!

Dominant in viewers per rating point! Because its unique tower location carries its maximum power to heavily populated communities that no other TV station in this market can reach, WXEX-TV delivers more viewers per rating point. That’s dominance!

Dominant in Richmond, Petersburg and Central Virginia.

MR. COLWELL

BOB COLWELL LEAVES SSC&B FOR JWT POST
ROBERT (Bob) COLWELL, partner and creative head of Sullivan, Stauffer, Colwell & Bayles, New York, has resigned to return to J. Walter Thompson, New York, as an executive in the creative department. It was understood Mr. Colwell's decision to leave SSC&B was because he prefers to work creatively without the administrative responsibility that is necessary as a partner of an agency.

At JWT, Mr. Colwell probably will be on duty six months out of the year, with a good deal of European traveling during the rest of the year among the agency's European offices.

DEPT. STORE EXECUTIVE SEES TV AD MEDIUM

Kenneth G. Holmes, vice president of Wurzburg's, Grand Rapids, Mich., tells buying group meeting at Houston that video sells his firm 'more effectively than any other medium we have ever used.'

TELEVISION can enable a department store to sell itself to the public "more effectively than any other medium," according to Kenneth G. Holmes, vice-president and general sales manager of Wurzburg Department Store, Grand Rapids, Mich.

Mr. Holmes expressed this belief in a speech before the Arkwright Merchandising Corp., a buying group of more than 100 department stores, meeting in Houston, Tex., a fortnight ago. Said Mr. Holmes:

"We believe very strongly that before we can hope to sell our merchandise, we must first sell our store. Television enables us to do this more effectively than any other medium we have ever used.

"It, in the first place, reaches more people. Our largest newspaper circulation is 110,000. Our television reaches into over 300,000 homes in our selling area with television sets."

"Secondly, our message can be presented more dramatically with all of the magical techniques of picture and sound that is the miracle of television."

Wurzburg is using television in a number of ways, Mr. Holmes continued. These include tying in spot announcements following national programs on WOOD-TV Grand Rapids; developing children's business by sponsoring a weekly local cowboy television program; spots on the Mickey Mouse tv show, and The World of Fashion, fashion show produced live at WOOD-TV and sent by microwave simultaneously to WKZO-TV Kalamazoo, WTVV (TV) Cadillac, and WPBN-TV Traverse City.

The Wurzburg features a weekly "door prize drawing." Viewers are invited to write in giving their names and addresses and each week a winner is drawn from a giant, revolving globe of the world.

Louise Crocker, media director, W. B. Doner

Broadcasting • Telecasting
RCA Time-proved Tube Designs—for longer service

10,273 HOURS "ON-AIR"

... in almost 2 years of operation

It takes stamina to withstand the wear and tear of day-in, day-out operation in a high-power television transmitter—and RCA power tubes really have it.

From WTCN-TV, for example, Chief Engineer Joseph Kahnke recently reported that an RCA-6166 in the 30-kw aural amplifier of the RCA-50-kw "VHF" clocked 10,273 hours of on-air service before the tube eventually was retired.

RCA-6166 is just ONE of the many RCA power types now paying extra dividends to broadcast and television stations throughout the industry—in terms of lower capital investment per hour of tube performance—lower station operating costs—and minimum equipment "outage."

Your RCA Tube Distributor can fill all your broadcast tube requirements promptly.

HOW TO GET MORE HOURS FROM AN RCA-6166

- Maintain filament voltage at 5 volts—right at tube terminals.
- Keep air-cooling system clean—to prevent tube and circuit damage from overheating.
- If power amplifier uses spring finger socket contacts, make sure each finger is clean—and has ample tension for good contact (to prevent arcing).
- Handle RCA-6166 carefully to avoid damage through mechanical shock.
- Operate RCA-6166 within RCA ratings; Follow instructions packed with each tube.
- Operate spare tubes periodically.
- Test each RCA-6166 in actual operation as soon as you receive it.

RCA TUBES FOR TELECASTING

RADIO CORPORATION OF AMERICA, HARRISON, N. J.

Chester B. Hayes, Gray Research of Hartford, Conn., appointed sales promotional manager of M. H. Rhodes Co. (timing controls, parking meters), Hartford, to coordinate and expand firm’s advertising and sales promotion program.

Mari Hayes, copywriter, Young & Rubicam, N. Y., to Sullivan, Stafford, Colwell & Bayles Inc., N. Y., in similar capacity.

Clean Sweep in the Carolinas!

by

WSJS Radio and Television

WINSTON-SALEM, NORTH CAROLINA

FIRST PLACE AWARDS FOR EXCELLENCE IN NEWS OPERATIONS FOR BOTH RADIO AND TELEVISION STATIONS WON BY WSJS

For Radio Stations in the 5000 Watt Class and above and Television Stations, the Radio and Television News Directors Association of the Carolinas presented its first annual awards for excellence in news operations to Winston-Salem's first station—WSJS Radio and Television.

Previously in 1955, WSJS was accorded national recognition by winning the distinguished achievement award for radio news reporting presented by the National Association of Radio and TV News Directors and the Medill School of Journalism of Northwestern University.

In still another national arena, both WSJS Radio and Television were awarded the National Safety Council's Public Interest Award for exceptional service to safety on the farm 1954-55.

WSJS-Television with 316,000 watts maximum power reaches over 500,000 TV homes in an industrially expansive market of 75 counties in four states.

WSJS-Radio now in its 26th year of broadcasting covers an 18 county market, offering a larger share of audience in the rich Winston-Salem—Piedmont area.

LET WSJS RADIO AND TV WIN SALES FOR YOU IN NORTH CAROLINA'S RICH PIEDMONT MARKET

WARsN CONTROL PASSES TO INVESTORS

More than 28% of picture firm now owned by investment firm headed by Serge Semenenko, First National Bank of Boston, giving group working control.

WORKING STOCK CONTROL of Warner Bros. Inc. was acquired last week by a group of investors, headed by Serge Semenenko, senior vice president of the First National Bank of Boston, who have purchased a major portion of the holdings in the corporation held by Harry, Albert and Jack Warner.

A brief announcement from the three Warner brothers gave no details of the transaction but merely said they had sold “a major portion” of their holdings to a syndicate under Mr. Semenenko’s leadership, but would continue on the board of the company and retain “substantial stock” in Warner Bros.

It was reported the new group paid $27.50 a share for 700,000 shares of stock. This stock, together with shares the group previously had acquired, is said to represent more than 28% of the outstanding common shares of the film company. It is estimated the three Warner brothers and other members of their family retain 10% of the company’s common stock.

Warner Bros. last March sold $50 feature films plus shorts to PRM Inc., for $21 million.

It is reported the new group is earmarking this money for use in financing additional film production. In this connection, Warner Bros. is awaiting a ruling by the Internal Revenue Service on whether the sale of its films for tv use qualifies as a sale of assets to which the capital gains tax is applicable. It is reported that if IRS rules it is not applicable, the memorandum of sale would be nullified and ownership of the films would revert to Warner Bros.

Warner Bros. currently is producing for television the Warner Bros. Presents series, carried on ABC-TV. Several weeks ago the company announced it would produce four new half-hour tv films for next season (B&T, April 16). They are: Amazon Trader, starring John Sutton; 96 William Street, starring Lee Bowman; Joe McDouakes, featuring George O’Hanlon and, Port of Call, starring John Ireland.

Mr. Semenenko’s group of investors is said to include S. H. Fabian, president of the Stanley-Warner Corp. and S-W Cinorama Corp. Stanley-Warner Corp. owns WTRI (TV) Albany, which has suspended operations but has not turned in its痞. Mr. Fabian’s status in the new group is unclear, since he is a major stockholder in Stanley-Warner, a theatre chain.

Under the terms of the consent decree entered into by all major film companies and the Justice Dept., a major stockholder in a theatre chain would be barred from owning a controlling or substantial interest in a producing company, such as Warner Bros. pictures.

NATIONAL TELEFILM TO BUY UM&M CORP.

Negotiations for acquiring television film distributor for $5 million reportedly completed. Deal would include acquisition of Paramount library of 1,600 cartoon and short subjects.

NATIONAL Telefilm Assoc., New York, reportedly has completed negotiations for acquiring UM&M Television Corp. for about $5 million retaining the Paramount library of 1,600 cartoons and short subjects.

Though neither Elly Landau, NTA president, nor Charles Amory, UM&M president, would confirm or deny reports, B&T learned that Mr. Landau is preparing to announce the acquisition at a meeting of NTA’s stockholders in New York tomorrow (Tuesday). The move is said to be the forerunner of other transactions by NTA, under which that company would purchase other tv film syndication organizations.

It is understood that NTA’s principal interest in UM&M was to gain control of the Paramount library, which UM&M purchased last winter for about $3.5 million. The acquisition also includes distribution rights on 13 tv film series, including Duffy’s Tavern, Janet Dean, Registered Nurse, Sherlock Holmes, Flash Gordon and Paris Première.

UM&M Television Corp. is a company consisting of three other organizations—Minot TV, New York; Motion Picture Advertising Service Co., New Orleans, and United Film Service Inc., Kansas City, Mo. The New Orleans and Kansas City organizations primarily are devoted to the motion picture advertising field and these companies and activities are not involved in the transaction with NTA. They served as sales agents on the product to which Minot TV originally had distribution rights.

NTA already is represented in tv film distribution with 285 feature films, including the productions of David O. Selznick, J. Arthur Rank and Sir Alexander Korda, plus various tv film series such as China Smith, Lilli Palmer Presents, Orient Express, The James Mason Show and The Perhersy.

NTA SELLS ‘SECRET MISSION’ TO ABC, RE-RUN TO WPIX (TV)

AN UNUSUAL SALES pattern was set last week by National Telefilm Assoc. which announced the sale of its 13-program adventure series, Secret Mission, to ABC-TV for showing starting June 29, and to WPIX (TV) New York for re-run after its cycle is completed on the network.

The series represents NTA’s first network-exposed production. It is also believed to be the first time a syndicated show has been sold to a network on a first-run basis with a simultaneous transaction set for a re-run on a station.

ABC-TV will schedule the film series in the Friday, 8-8:30 p.m. EDT period, according to an NTA spokesman. Re-runs will be shown on WPIX starting in early October, with the time slot not yet set.

Bosustow Back for Opening

STEPHEN BOSUSTOW, president of UPA Pictures Inc., returned to Hollywood Thursday following a five-week visit to England where he established UPA Pictures Ltd., a London office to transact European business for the company’s studios in Burbank and New York.

First business upon his return to this country was as host for the official opening of UPA’s new expanded studio in New York.

SUN DRUG CO. of Pittsburgh, Pa., has renewed its sponsorship of Dr. Hudson’s Secret Journal on KDKA-TV there. Looking at most of the second series of 39 films are (1 to r) Harold Perry, vice president in charge of advertising for Sun Drug; Lloyd Chapman, KDKA-TV sales manager, and Dick Dryfuss, KDKA-TV film director.

FURR’S Inc. (supermarkets) will sponsor Popcorn Theatre, a Guild Film release, on KDUB-TV Lubbock, Tex. The hour-long film program will be highlighted with sponsorship breaks featuring a local "Poppo" clown. Jack Stone, Furr’s advertising manager, signs the contract with W. H. Shipley, KDUB-TV vice president, watches.

VEGETABLE oils producer Humko Co. has signed for the Man Called X, a Ziv Television Programs production, on WMCT-TV Memphis, Tenn. Looking over the recent Ziv ad series in B&T are (l to r): Lester Crain, vice president in charge of sales for Humko; Earl Moreland, WMCT manager, and Milton Simon, Simon & Owyne, Memphis agency.
KFMB-TV'S SEVENTH BIRTHDAY

GOING ON 8

KFMB-TV

WRATHER-ALVAREZ BROADCASTING, INC.
SAN DIEGO, CALIF.

STILL FIRST IN SAN DIEGO-AMERICA'S MORE MARKET
Can that station handle color? How big is the market? Who's in charge? What's the FCC ruling? Who'll we call for more dope? Which agencies handle P & G? What's the name of that distributor with the new First Run Movies?

For the answer to these (and several thousand other) questions some 15,000 subscribers will reach for television's One-Book Reference Library—the B-T Telecasting Yearbook, Marketbook—the one with the blue cover.

This is the annual reference book that lives. This is the book that gets reached for almost automatically whenever the men and women who are active in television need data.

This is a good place for an advertiser. See the coupon?

Don't forget the final deadline has been advanced to July 1.

Proof deadline June 15.

'Pilots' Rescued

MOST people in the tv film field have heard the observation that "there must be at least one good film series in a collection of pilot films that never got on the air." Barry & Enright Productions, New York, assiduously subscribes to this theory and has formed a new division to operate as a clearing house for sale and distribution of individual pilot films, which B&E estimates to number about 10,000 throughout the country. B&E plans to incorporate groups of pilots of the same genre into a series for sale to stations and agencies and also to effect one-time sales of single pilots to stations, networks and established programs.

Episcopal Church Releases Film Series to Tv Stations

IN what was reported to be its first tv venture, the National Council of the Episcopal Church last week launched on 18 stations a series of 13 half-hour films titled Mission at Mid-Century.

The films, originally produced by the late Alan Shilln for motion picture theatre and church group use, are documentary in nature and are being offered at no charge to tv stations requesting them, through Shillin Film Service Corp., New York, a distributing organization. All 13 describe the work of the Episcopal Church at home and overseas. With the exception of two of the 13, all of the films were produced by the Radio-Tv Div., Protestant Episcopal Church, in cooperation with the National Council of Churches. The two were financed by the Diocese of Southern Ohio.

At a special luncheon in New York last Monday, the Rev. Dana F. Kennedy, executive director of the radio-tv division, told newsmen that with current bookings set at 18, the Episcopal Church hopes to reach a "minimum goal" of 100 by the end of the year.

CBS-TV Film Sales Reports New Quarterly Gross Record

RECORD quarter was established by CBS Television Film Sales in the first quarter of 1956, with gross sales up 100% over the first quarter of 1955 and net income 200% over the corresponding period last year, it was announced last week by Fred Mahlstedt, director of operations and production for the company.

This achievement, Mr. Mahlstedt said, can be attributed to "steadily increasing domestic sales plus intense sales activity in foreign markets."

In line with mounting sales, Mr. Mahlstedt continued, the company plans to place six CBS-TV network programs into syndication this year. CBS Film, he said, recently put two new series, Champion and Brave Eagle, into syndication, and shortly will make available two other series, The Legionnaire and The City.

Kirby to Hullinger Productions

EDWARD M. KIRBY, wartime Army radio chief and former public relations director of NARTB, has joined Hullinger Productions Inc., Washington, as director of its creative division. The firm produces a number of programs as well as industrial films, television films and commercials. Col. Kirby resigned as public relations director of the Washington Board of Trade to join the Hullinger firm. He also is handling public relations for several radio and tv advertisers.

NTA Runs 'Grassroots' Ads To Determine Public Tastes

NATIONAL Telefilm Assoc. has attempted to ascertain the likes and dislikes of the viewing public in "grassroots" areas for feature films and commercial messages by inserting paid advertisements in newspapers and inviting reaction and comment from the readers.

The advertisements appeared in newspapers in Iowa, Nebraska and North Carolina, took the form of an open letter from NTA, and pointed out that the company distributes various "quality" packages of feature films for use as station programming. It asked readers if they would be more favorably inclined toward the advertising message of the program sponsor, provided "highly-budgeted feature films" were shown.

FILM SALES

International News Service, N. Y., reports sale of This Week in Sports film program to WVEC-TV Hampton-Norfolk, Va.; WBFT-TV Green- fare, S. C.; KROD-TV El Paso, Tex.; WNCT (TV) Greenville, N. C., and Alpargatas, Buenos Aires, Argentina. INS also sold daily 28mm transparency service and library of 100 news personalitites to WMAZ-TV Macon, Ga., and WCTV-TV Tallahassee, Fla.; WATE-TV Knoxville, Tenn., bought This Week In Sports and Telenews Weekly News Review. Telenews Daily Newsfilm ordered by KLRJ-TV Las Vegas and WBRE-TV Wilkes-Barre, Pa.

National Telefilm Assoc., N. Y., sold TNT package of 30 feature films to 16 new stations bringing total sales on series to 73.

CBS-TV Film Sales, N. Y., reports sales on Terrytoon package of 156 cartoons have reached $600,000 mark. Package being shown in 28 markets.

Winik Film Corp., N. Y., reports sales of Famous Fight series in 17 new markets, raising number of markets carrying series to 21.

Ziv Television Programs, International Div., N. Y., reports sale of four-program package of Spanish-dubbed films to Voice of Dominica in Ciudad Trujillo, Dominican Republic, bringing Ziv representation in Latin America to every tv-equipped country.

FILM DISTRIBUTION

National Telefilm Assoc., N. Y., is offering advertising agencies and regional and local advertisers two half-hour tv film series, Theatre, with Lilli Palmer and Secret Mission. Dramatic incidents in World War II are basis for 13-week Secret Mission series, while Theatre consists of 26 episodes, based on works of world's outstanding writers.

NEWS  MUSIC
FILM PRODUCTION

Ben Fox Productions Inc., L. A., filming Forest Ranger, new half-hour family-appeal adventure film series to be offered soon by ABC Film Syndication Div. for national network sponsorship this fall. Series, filmed in California's San Bernardino National Forest in cooperation with U. S. Forest Service, stars Dick Foran who portrays forest ranger. Property is owned by Ben Fox Productions and RABCO, corporation owned jointly by Hal Roach Studios, Culver City, Calif., and ABC. Hal Roach Jr. is executive producer.

Mark Stevens Tv Co., L. A., has bought tv rights to The Mysterious Traveler, former MBS radio and magazine series. Author Robert Arthur sold more than 250 radio scripts, giving Stevens firm exclusive long term option.

Guild Films Co., N. Y., has acquired tv rights to works of Jack London and will begin production shortly on series of 39 half-hour tv films, based on Captain Grief stories.

Fanchon & Marco Inc., Hollywood, major theatre circuit operator, and Judson Cox, formerly associated with Walt Disney Studios in production of "Davy Crockett," have joined in production of new half-hour tv series, Police Woman, to be packaged by Al Melnick. Series will include 39 films based on original format written by motion picture director Frank Butler. Story editor will be Norman Reilly Rane.

Walt Disney Studios, Burbank, Calif., producing "The Hardy Boys" tv film programs, to be presented as part of ABC-TV's The Mickey Mouse Club series, starting next fall. Twenty 15-minute episodes of "The Hardy Boys" will be produced, starring Tim Considine. Charles Hass is director of tv stories, which are based on screen play by Jackson Gillis.

Fred A. Niles Productions Inc., Chicago, announces new half-hour pilot tv film designed to appeal especially to U. S. Negro market. Projected 26-week series is musical-variety show, featuring Sam Evans, WGES Chicago disc jockey, and live audience.

Theatrical Enterprises Inc., N. Y., has acquired packaging and representation rights to Riders of the Pony Express, new half-hour tv film series, to be produced in Hollywood by Alan Dinehart.

Four Star Productions, Hollywood, has signed Don Taylor to star in and direct new half-hour syndicated tv film series, Richard Diamond, former radio series. Production currently underway with Dick Powell, who starred in radio series, as producer.

Television Programs of America, N. Y., has acquired rights to Mr. Digby stories, which have appeared in Saturday Evening Post, and plans to produce a half-hour, tv film series of same name. Production to begin next month on series, which deals with the exploits of news photographer.

Industry groups boost radio week

First commemorative week in eight years marked by government officials, trade associations, set and distribution groups, networks and individual stations.

HIGH government and broadcast industry officials joined at the weekend in beginning the first National Radio Week held in eight years. All over America broadcasting stations and networks, in nationwide and promulgations designed to keep the public apprised of the aural medium’s place in the nation’s life.

Several trade associations ranging from NARTB and the Radio-Electronics-TV Mfrs. Assn. to set and distribution groups cooperated in promoting the event, separated once more from television. A special tv week will be held in the autumn.

Joining President Eisenhowe in paying tribute to radio’s place in the business, social and educational fields were Chairman Warren C. Magnuson (D-Wash.), of the Senate Interstate & Foreign Commerce Committee, and Rep. J. Percy Priest (D-Tenn.), chairman of the opposite House committee.

In salute Radio Week, FCC Chairman George C. McConnaughey said radio “has proved to be a vital force in advancing the nation’s welfare. In many communities, radio stations have led the way in promoting civic improvement, won salutably of their time and effort in behalf of charitable and patriotic causes. Their huge contribution to our war effort and national defense is a lasting tribute.”

Governors and mayors issued proclamations setting aside the week for special observance. For the first time the event inspired aggressive promotional activity all through the industry, led by NARTB President Harold E. Fellows and John F. Macougal, radio vice president, James D. Secrest, executive vice president of RETMA, directed the participation of manufacturers.

Chairman Magnuson observed, “Radio’s inescapant duty for service, recognizing no political, racial, or religious boundaries, has helped immeasurably to make today’s world better informed and understood than that world our fathers knew.”

Chairman Priest commended broadcasters for their public service, adding, “As a means of mass communication, radio broadcasting has become an indispensable force in the maintenance of America’s welfare and security. On a broader scale, our system of free radio broadcasting, including the networks and outlets operated by Radio Free Europe and the Voice of America, symbolizes to people around the world one of the truly great defenses against those who threaten the freedom of mankind. America’s radio industry has continually devoted itself to the enrichment of our lives by making available to all people vast sources of entertainment, information and education.”

Mr. Fellows found encouragement in the cooperation pledged by 200 civic, religious, social and welfare organizations as well as RETMA, the National Appliance & Radio-TV Dealers Assn. and the Radio Advertising Bureau. He added, “Everyone in radio has a right to be proud of his profession. It is an ever-changing, ever-improving medium and justly deserves the tribute it will receive during the coming week.”

As part of its extensive promotion, RAB last week sent out to more than 800 member stations a set of full-scale orchestrated jingles hailing the event.

The jingles, along with some live announcements, were furnished in one package and offer up to 15 different ways of promoting radio on radio during the week and for the future. The announcements are designed to sell listeners—and in a subtle way, advertisers—on the size, growth and power of radio.

The week also will be highlighted by the appearances of key RAB executives at advertising and business clubs. These assignments are being handled by Kevin Sweeney, RAB president; John F. Hardesty, vice president and general manager, and Sherrill Taylor, director of promotion.

RAB’s efforts began last February when the organization issued an eight-page booklet containing 36 different ideas for the exploitation of the event. Subsequently, RAB has distributed various sales tools to stations to assist them in their plans.

Advertiser and agency people in New York were invited by Edward Petry & Co. to see mean more to me than the morning of June 6 (1944, Allied invasion of Normandy). Something along the order, I think, of about 2:30, the air tarpers had taken in radios with them and some tiny little transmitter said, ‘We are okay, and the situation around Ste. Mere Eglise is in fine shape.’ And since I had been told by experts that we would lose 90 per cent of that command before it went, and I had to take it all on my shoulders, it was a very great thing. And incidentally, I hope that you have all noted that today is the eleventh anniversary—the first time in four years that there wasn’t shooting in Europe. Midnight last night was the end of hostilities in Europe in the second World War.”

In War and Peace

NATIONAL Radio Week was given an advance greeting last week by President Eisenhower. Speaking at his Wednesday morning news conference, the President commented as follows:

“Indeed, I supposed that all the representatives of the radio industry here know May 13-19 is Radio Week, and I want to pay my private tribute to radio, not only as a medium of bringing education, information, entertainment into the home, but for its very wide value in the international world.

Particularly I want to refer just for a moment to its very great value in the war. And at no time, I think, did it

Radio" during National Radio Week. The station representation firm sent letters last week, for delivery today (Monday), to some 1,000 advertising managers and agency people asking them to see for themselves tomorrow—"while rushing out to, or back from, lunch"—that "radio is in the air, everywhere." If you notice everyone along the way looking up, and a-smiling, we hope you’ll pause for a second and do likewise, the letters assert. They give no other clue as to what the advertising executives will see, except an admonition to look about the same time on Wednesday in case of fog or rain on Tuesday.

Southern California Broadcasters Assn. and the Electric League of Los Angeles have combined their efforts in radio promotion this week in conjunction with dealers and distributors. Los Angeles Acting Mayor John S. Gibson Jr. read a message during this week as Radio Week and commending broadcasters, manufacturers and dealers for making the city the entertainment capital and "destined to become the electronics capital of the world."

Barker Bros. Dept. Store, major radio advertiser in Los Angeles, kicked off the week yesterday (Sunday) with 10 full pages of supporting promotion in local newspapers and all week is keying its extensive radio advertising to the Radio Week theme. The store converted its radio-tv department into a radio showcase and during the week multiple daily programs are being originated there by KABC, KBIG (Avallon), KCFI and KMPC. KLC disc jockeys are appearing as guests on the other stations shows along with recording stars. KBIG is using its Volkswagon remote unit in the store lobby.

Additional communications mobility and the tempo of the times have given radio still further impetus as a news medium, according to NBC’s News Director William R. McAndrew who pointed out last week that NBC Radio news coverage and newscast sales are "up leaps and bounds" over those programs ever before. He said, "Radio, still the swiftest

Radio Supplies Advertisers With Larger Audience—Karol

A RUNDOWN on radio’s power as a sales medium and as a mass cirulator was presented to the Advertising Club of Hartford, Conn., Thursday evening by a Radio Week address by John Karol, vice president in charge of network sales, CBS Radio.

But, asked Mr. Karol, "How are we going to measure radio listening as the number of sets increases? Our medium moved into more and more locations, including ladies’ handbags and men’s pockets? This is an important problem for the industry and equally important to advertisers and agencies.

Mr. Karol asserted, however, that he didn’t think problems would exist in measuring radio’s "continuing impact and efficiency... as an advertising medium. For people who have products or ideas to sell will find that more radios in more places—measured or not—are supplying greater audiences to their messages."

"In radio’s growth, its usage, and its impact... we have the medium that matches America," Mr. Karol said. He pointed to last year’s 14 million sets sold as the peak year since 1948 and noted that sales will far pass this year as sales figures are higher than the same period in 1955. Mr. Karol predicted continued high sale of sets, taking note of a "new dimension—the era of the transistor," promising more and more "midget-sized sets. Every major manufacturer is producing these sets at a rate better than $2 million a month, according to Mr. Karol. He said: "The simplest way to reach America

EXECUTIVES of the Radio Adv. Bureau audition tape presentations as they prepare for their nine-city, coast-to-coast speaking tour during National Radio Week. Left to right: John F. Hardesty, vice president and general manager, who will speak in Los Angeles, Portland, St. Louis and Denver; Kevin B. Sweeney, president, who is scheduled for speaking engagements in Kansas City, Buffalo, and Cleveland; and Sherill Taylor, vice president and director of promotion, who will present radio’s story in Norfolk, Miami, and Birmingham.

and most flexible method of news reporting, will be of utmost importance during NBC’s coverage of the 1956 political year." He added that mobility will play a most important part during the Chicago and San Francisco political conventions.

As part of the campaign KXOK St. Louis is giving away a radio every hour during Radio Week, or a total of 125 RCA radios, according to C. L. (Chet) Thomas, vice president.

Charles H. Smith to Head TVB’s Research Committee

CHARLES H. SMITH, director of research, WCCO-TV Minneapolis, has accepted the chairmanship of a newly-formed research committee which will advise Television Bureau of Advertising on research policy matters, working closely with Dr. Leon Arons, TVB’s director of research.

According to Oliver Treyz, TVB’s president, the new advisory committee, which will draw upon "top people in the field" for its membership, "will coordinate our (TVB’s) own research program with the advertisers’ needs." Mr. Smith’s background includes research assistant in experimental research at CBS; Advertising & Selling Award (1941) for development of listener panel technique; assistant director of network research with CBS; director of research for CBS Radio Spot Sales, and market research counsel for CBS. Before he joined WCCO-TV, Mr. Smith was radio and tv counsel for BBDO’s western office. He was president of the Advertising Council in 1946 and a member of the Advertising Research Foundation’s Rating Services Committee 1954-55.

AIMS Convention May 17-21

ASSN. of Independent Metropolitan Stations, composed of 30 major and spot stations from coast to coast, will hold its annual convention Thursday through Saturday (May 17-19) at the Huntington Hotel, San Francisco, and on Sunday and Monday (May 20-21) moves to Higher Inn, Carmel. San Franciscos session will be a “shirt sleeve” business meeting, according to Irving Phillips, general manager of KFY San Francisco. KFY and KEAR there are co-hosts for the AIMS gathering. AIMS chairman is John J. Hurley, general manager of WNEB Worcester, Mass.

N. Y. AWRT Installs Officers

ELECTION and installation of new officers of the New York City chapter of American Women in Radio & Television will be held today (Monday) at noon at Toots Shor’s Restaurant. Officers nominated: Lilian Okun, WMCA, president; Eleanor P. Hurley, WQXR, first vice president; Priscilla Campbell, NBC, second vice president; Jo-Ann Welch, CBS, treasurer; Viola Becker, V. S. Becker Productions, corresponding secretary, and Lucille Mason, Compton Adv., recording secretary. Nomination is tantamount to election. Ruth Crawford, ABC, was nominated to the board of directors to fill the one-year term of Miss Okun. Retiring president of the chapter is Jayne Shannon, J. Walter Thompson Co.

Radio Pioneers to Elect

ELECTION of officers of the New York Chaper of Radio Pioneers will be held tomorrow (Tuesday) at the chapter’s annual dinner-meeting at Toots Shor’s restaurant in midtown Manhattan. Official slate of candidates (whose nomination is tantamount to election) includes Frank Pellegrian, H-R Representatives, president; Henrietta Harrison, consultant, first vice president; Jeff Sparks, UN, second vice president; Gordon Gray, WOR New York, third vice president; Arthur Simon, Radio Daily, secretary, and Charles A. Wall, BMI, treasurer.

Pattysion Heads Boston Club

BRUCE G. PATTYSION, manager of the John Blake Co. Boston office, has been named president of the Broadcasting Executives Club of Boston for 1956-57. Other club officers include: Charles F. Hutchinson, Chambers & Wiswell agency, first vice president; John Hurley, WNEB Worcester; Mass., general manager, second vice president; Roy Whisnand, WCOP Boston general manager, treasurer, and Kay Chille, of the Nora Kirby Inc. office in Boston, secretary.

AAW Sets June Meeting

ANNUAL convention of Advertising Assn. of the West will be held June 9-10 in Los Angeles using the theme of “Ad-orama,” signifying “more vision, more stature, more advertising.” AAW said. Program leaders will include Calif. Gov. Goodwin Knight, Cardinal Francis J. McIntyre, Treasurer of the West, AAW, and Henry Little, president of Campbell-Ewald Co., Detroit, and chairman of American Assn. of Advertising Agencies.

TRADE ASSNS.

CODE FOR TV PRODUCERS DRAWS ACLU OPPOSITION

Civil liberties group and its anti-censorship affiliate voice objection to all codes that fetter freedom in trade of ideas.

THE proposed new code for TV producers, drafted a few weeks ago by a Hollywood special committee [B&T, April 9], is a "restraint in the trade of ideas and interferes with freedom of expression" and should be abandoned, the American Civil Liberties Union asserted last week.

ACLU and its anti-censorship affiliate, The National Council on Freedom from Censorship, made plain that it's not just the TV producers code that they're opposed to. They're against all codes in the communications industry:

"In our view, freedom in the trade of ideas is limited by industry agreements or practice, or even by groups within the industry which make such agreements. A code is an agreement undertaken by industry members of a medium of communication, which is intended to set standards of propriety. Insofar as a code sets forth limitations on what may be said or done, it is a restraint upon freedom of expression."

ACLU's and the Council's views were contained in a letter sent by ACLU Executive Director Patrick Murphy Malin and Council Chairman Elmer Rice to Martin Leeds, executive vice president of Desilu Productions. Mr. Leeds headed the special committee which drafted the proposed code and had asked for ACLU's comments on it.

ACLU made clear that it does not object to an individual producer setting standards for himself.

'Individual Decision'

"This is his individual decision," Messrs. Malin and Rice said. "But a different situation exists where a significant segment of the industry agrees to abide by a code. Collective adherence to a single set of principles in a code has the effect of limiting different points of view, because producers—as well as writers—are fearful of departing from the accepted norm lest they are held up to scorn or attack and suffer economic loss."

The letter cited several provisions of the proposed code which in ACLU's view would interfere with freedom of expression. For instance, it noted, barring criticism of congressional procedures, third-degree methods and other illegal police practices is "not in accord with real life."

The ban on attacks on religion would seem to "violate the freedom-of-religion guarantee of the first amendment" and also put clergymen above criticism, the letter continued, while the taboo on divorce as a solution for marital problems fails to recognize "that divorce is legal in every state of the union and countless people have found it the only solution to their problems."

In making these observations, the letter said, the council did not base its opinions on opposition to religion or pass on "the merit or demerit of divorce."

The proposed code's section on crime was deemed obviously at variance "with what now appears on the TV screen. It assumes the same arguments of proponents of censorship of crime comic books—that the showing of crime is bound to lead people to crime. Yet there is a large body of expert opinion which believes that persons who are criminally disposed are not deterred by knowledge of punishment or fear of such punishment."

The union and its Council join the producers in desiring that TV be used to its best advan-
It's Sales, King-Size,
as Mr. Big comes to KYW!

KYW is winning listeners in a great BIG way with the BIG WILSON SHOW, Monday through Friday, 12:15-3 p.m. and Sunday, 11 a.m.-3 p.m.

Big Wilson, newest addition to KYW's roster of radio personalities, is a big man in Cleveland radio—not just in size, but in sales force! Big has what it takes to tickle the fancy of radio listeners—sponsors, too. And how! They're mighty pleased about the way Big peppers commercials (for local and national products alike), with a personal touch that turns listeners into customers.

Yes, Big wins them all with smooth recorded numbers, plus a little of Wilson at the keyboard. He even sings along every now and then! An entertaining super-salesman, that's BIG!

You want to be in the BIG-TIME? Just call John McIntosh, Jr., Sales Manager of Cleveland's popular new sound, KYW, at Cherry 1-0942. Or call A. W. "Bink" Dannenbaum, WBC General Sales Manager at Murray Hill 7-0808 in New York.

In Cleveland, no Selling Campaign is Complete
Without the WBC Station—

tages, Messrs. Malin and Rice asserted. But they also feel that a code which prevents freedom of expression "weakens the effectiveness of this medium of communication, and instead of allowing it to realize its full scope, threatens to make it sterile."

NARTB, Tv Film Producers Talk Plan for Single Code

DEVELOPMENT of a single code of practice for live and film tv may grow out of joint gestures by NARTB and the Alliance of Television Film Producers, judging by progress in negotiations. Subcommittees of the organizations met Tuesday in New York to discuss proposals to extend provisions of NARTB's tv code to film producers and distributors.

NARTB under this plan would offer an affiliate subscription plan to the film interests to encourage conformity of their product with provisions of NARTB's document. Definite plans to bring about an agreement will be reviewed in June by the alliance, the NARTB Tv Code Review Board and in turn the NARTB board.

Attending the Tuesday meeting for NARTB were G. Richard Shafso, WIS-TV Columbia, S. C., code board chairman; Roger Clipp, WFIL-TV Philadelphia, code board member; Edward H. Bronson, director of tv code affairs; Robert Heald, chief attorney, and Robert K. Richards, consultant. Alliance representatives included Maurice R. Morton, McCadden Corp.; Dean F. Johnson, executive director; A. Frank Reel, Ziv Television Programs; Herbert Stern, Review Productions, and Richard St. John, counsel.

REED TO KEYNOTE AFA CONVENTION

DR. VERGIL D. REED, vice president of J. Walter Thompson Co., New York, will be keynote speaker for the Advertising Federation of America's 52nd annual convention in Philadelphia June 10-13, Ben R. Donaldson, Ford Motor Co. institutional advertising manager and AFA board chairman, announced last week.

The convention will be held at the Bellevue-Stratford Hotel in Philadelphia, starting with a Sunday brunch sponsored by the Federation's Council on Women's Advertising Clubs June 10. Dr. Reed will speak on "The Consumer Market and How It Is Growing" at the convention's opening general session the morning of June 11.

Joseph B. Elliott, former president of Schick Inc. and before that an executive vice president of RCA, will be the luncheon speaker June 11.

Among other convention features, announced previously, a session on "How Will Media Meet the Changing Trends in Marketing" is slated for the June 12 luncheon with a panel on which CBS-TV President J. L. Van Volkenburg will represent television and Westinghouse Broadcasting Co. President Don H. McCannon will represent radio.

On June 13, four speakers will discuss practical methods of "Stimulating the Buying Urge": George T. Sweetser, vice president, N. W. Ayer & Son, will talk on "Marketing What It Is and How to Use It"; Pierre D. Martineau, director of research, Chicago Tribune, will present "The Place of Advertising in Creating Buying Urge"; Walter J. Weir, vice president, Donahue & Coe, will explain "The Importance of Copy in Closing the Sale", and C. Stuart Brown, advertising and public relations manager, American Viscose Co., will outline a "Case History: Establishing a New Company Identity."

The convention will be co-hosted by the Poor Richard Club and the Philadelphia Club of Advertising Women.

New York ATAS Chapter Elects Board of Governors

RESULTS of an election to the board of governors, New York chapter, Academy of Television Arts & Sciences, were announced last week.

Elected were: (actors and actresses) Faye Emerson and Carl Reiner for two-year terms, Bud Collyer and Ken Groot for one-year terms; (executives) Henry White, Screen Gems, and Syd Eig, NBC, two years; Robert Lewine of ABC and Warren Caroz of Theatre Guild, one year; (singers, dancers and specialty acts) Nanette Fabray and Giselle Mackenzie, two years, Bambi Linn and Rod Alexander, one year; (musicians, composers and arrangers) Ray Bloch and Skitch Henderson, two years, and Steven Allen and Hank Sylvern, one year; (writers) Rod Serling and Jerome Lisa, two years, and Nat Hinken and Evelyn F. Burkey, one year; (directors and choreographers) Max Liebman and Franklin Schaffner, two years, and Sidney Lumet and Perry Lafferty, one year; (producers) Mark Lewis and Mark Goodson, two years, and Worthington T. Miner and Barry Wood, one year; (newscasters, commentators, master of ceremonies and announcers) Ed Sullivan, CBS, and John Daly, ABC, two years, and Garry Moore, and Charles Collingwood, one year; (cameramen, film editors and engineers) Robert Dailey and Charles Giriat, two years, and Imero Fiorentino and Bob Barry, one year; (art directors, scenic designers and costume designers) Otis Rigs and Robert P. Paddock, two years, and Frederic Fox and Carl Kent, one year.

Mercer Succeeds DeFore As Hollywood ATAS Chief

THE HOLLYWOOD chapter of the Academy of Television Arts & Sciences last week elected song writer-actor Johnny Mercer as president to succeed producer Don DeFore while Robert Logueacker was named first vice president; Sheldon Leonard, second vice president; Frank Lovejoy, secretary, and Harry Ackerman, CBS-TV, treasurer.

Retiring President DeFore last week also headed a Hollywood delegation meeting with San Francisco's independent Academy of Television Arts & Sciences to promote unification under one formal national group including the New York chapter. The San Francisco membership voted unanimously to proceed toward unification.

TvB Spot Presentation Set

AN ESTIMATED 1,500 advertisers and agency personnel are expected to be on hand to see Television Bureau of Advertising's spot television presentation at the Waldorf-Astoria in New York May 22. TvB spokesmen reported last week. The slide-film-sound effects presentation will include highlights of TVB's Chicago tv-versus-newspapers study, first shown at NARTB's convention last month [BW, April 30]. The New York showing will start at 9:13 a.m.

A NEW CHAPTER IN RICHMOND HISTORY

Since 1925, the voice of WRVA Radio has been an inseparable part of the Richmond scene. And public regard has earned WRVA Radio the warmest welcome in Richmond homes... the firmest place in Richmond tradition.

Now, rooted in 31 years of acceptance, the same high standards of management, skilled personnel, and creative talent bring a new television station to the people of Richmond. With WRVA-TV, a new chapter enhances a history of unique service over three decades old. On the air April 29, 1956, WRVA-TV is a full-time operation, with a complete schedule of CBS programs, ingenious local origina-tions—and the assurance of a hearty response from Richmond viewers.

WRVA-TV, represented by Harrington, Righter and Parsons, Inc.
Ty Called Threat to Boxing
IS THE pool of young professional boxers to dry up to little more than a ripple? Julius Helfand, New York State athletic commissioner, warned the Sportscasters Assn. of New York at a luncheon meeting Wednesday that this is precisely what is happening in New York. Mr. Helfand blamed it all on TV. A small boxing club—the proving ground for young fighters—cannot exist today without television and finds it hard put to exist against competition from boxing already programmed on TV, he said. This situation, which he likened to the predicament of minor league baseball clubs meeting competition of major league ball club telecasts, places the “possible survival of boxing in great danger,” according to Mr. Helfand.

Ad Club Re-Elects Haire

Fellows Cites Adv. Growth
VOLUME of advertising in public media has increased from $30 million in 1967 to $9 billion in 1955, NARTB President Harold E. Fellows told the Television & Radio Advertisers Club of Philadelphia last Thursday. "America’s greatest, most desperate need is for increased thinking of everyone in business, in government, in education—everyone," he said. "Creativity, the new idea, and the different approach is the essence of advertising in the future."

New Placement Service
MRS. M. E. STONE, manager of the National Radio and Television Service, Washington, D. C., has announced the opening of a national placement bureau in that city. Service is designed to be a placement bureau for executives, engineers, announcers and other broadcast personnel. The organization is located at 1627 K St., N.W., Washington, D. C. All job placement inquiries should be sent to that address, according to Mrs. Stone.

PROFESSIONAL SERVICE SHORTS
Woodrow G. Gatehouse, formerly general manager, Public Relations Society of America, N. Y., to Gellendre & Bowditch, producer of special events, N. Y., as partner.

Ted Bryon, formerly creative director, William W. Harvey Co., L. A. agency, to Wendell Olsen Co., L. A. public relations firm, as director of creative activities and production supervisor.
AFM SUSPENSIONS FACE READ GROUP

Referee in Hollywood local controversy tempers recommendations for expulsion by proposing one-day suspensions for 10 rebel leaders while Cecil Read suspension would be for one year. None would be permitted to hold union office for two years.

RECOMMENDATION was made by a unappointed referee last week that the American Federation of Musicians expel 11 leaders of the Los Angeles Local 47, who revolted against the present administration.

Though referee Arthur Goldberg used the words "expel" and "expulsion," his proposal actually was more in the nature of a suspension rather than permanent exclusion from the union. He recommended that Cecil F. Read, vice president of Local 47 and avowed leader of the rebel group, be expelled from the union for one year. Six directors of the local and four other members who supported Mr. Read, would be expelled for one day and subsequently can be reinstated, according to the proposal. Both Mr. Read and the 10 other "rebels," under the referee's terms, would be ineligible to hold office in Local 47 for two years after reinstatement.

The findings and recommendations in the 30,000-word report made by Mr. Goldberg, who is special counsel to the AFL-CIO, were announced in Newark last week by Leo Cluesmann, international secretary of the AFM. The report will be transmitted to James C. Petrillo, AFM president, and the union's nine-man International Board for review and action at a meeting in New York on May 22. Mr. Goldberg was named referee by President Petrillo, at the direction of the executive board, and held hearings in Los Angeles April 9-13.

Mr. Goldberg concluded that Mr. Read and 10 other rebels "did conspire illegally" in "open revolt" and should be expelled from membership in the union. He characterized Mr. Read as "the leader and guiding spirit in each of the violations."

The dispute within Local 47 and with the AFM stemmed largely from an order issued by Mr. Petrillo last summer assigning royalties from television film and record companies. Until last summer, musicians who worked on theatrical movies received $25 each when the film was made available for tv. Mr. Petrillo then directed that the money should go into the Music Performance Trust Fund. An anti-Petrillo faction within Local 47, whose membership provides music for a large majority of motion pictures, protested the royalty ruling.

The revolt took shape when Local 47 ousted John te Groen, local president, and Maury Paul, recording secretary, last February. Mr. Goldberg characterized the rebel action in this fashion:

"It was a deliberate and wilful conspiracy to suspend te Groen, not for any neglect of duty or other proper charge, but because he would not agree in advance to lead the local in defiance of the lawful regulations of the federation. . . . The defendants conspired to suspend te Groen from office without even making a charge that he was guilty. The membership of 16,000 was not notified of the action which was planned at a secret caucus. To
sanction such a meeting... would be to stamp approval on anarchy rather than to support democratic trade union government and practices.

The charges leveled against Mr. Read and his followers by Mr. te Groen and G. R. Hen- non, financial secretary of the local, were: they had advocated "dual unionism" by seeking to win from the federation its bargaining rights for musicians in all fields of recorded and film music; "had conspired to and did illegally oust Mr. Groen from office on Feb. 27; defied the March order of the federation's executive board canceling a March 12 meeting called to effect Mr. Groen's removal from office and they openly invited a loss of Local 47's charter."

In the hearings before Mr. Goldberg, the rebels entered a blanket denial of the "dual unionism" charges and challenged the authority given to Mr. Petrillo under the constitution. They contended that he had the power to act as "prosecutor, judge and jury."

Six members of the local board for whom a one-day expulsion was proposed by Mr. Goldberg were Van Rasey, Ray Toland, Warren D. Bake, John Clyman, William Atkinson and Jack Dumont. Two defendants, Vincent De-Rosa and George Wald, were also tried, but no disciplinary action recommended.

Mr. Read told newsmen in Washington last week that his group would study the report and file its exceptions with the international executive board. He said that if the board concurs in the expulsions, an appeal will be taken to the union's convention opening in Atlantic City on June 11.

Meanwhile, it was announced in Hollywood last week that Local 47's official delegates to the national AFM convention in Atlantic City in June will be the pro-Petrillo executives. But the rebel group in addition plans to send "a half dozen or more" members from its own faction as "observers and to let the other dele- gates know why we are fighting Mr. Petrillo," according to one spokesman. The observers will be selected at a general membership meet- ing scheduled May 28, when the official dele- gates are instructed by the membership how to cast the 10 convention votes belonging to Local 47.

Uniquely enough, Local 47's official dele- gates will be President te Groen and Recording Secretary Paul, plus Phil Fischer, AFM's studio representative in Hollywood. Both Messrs. te Groen and Paul were ousted by their membership earlier this year in the anti-Petrillo revolt led by Mr. Read, but their removal from office was stayed by Mr. Petrillo until conclusion of AFM's trial of the rebel leaders.

Labor's Stake in Color Tv
Stressed by Union Official

COLOR TV represents "the next big advance" for radio-tv broadcasting and "labors has as much at stake in selling and promoting this new kingpin product of our industry as has management," according to M. F. Darling, president of International Brotherhood of Elec- trical Workers Local 1031.

Mr. Darling explained his convictions in connection with the AFL-CIO local's week-long stage presentation of "A Salute to Color Television" in Chicago last week. The show was described as a union "spectacular" with Imogene Coca, Muggsy Spanier and other performers.

Members of Local 1031 produce about 65% of the "entire national output of television and radio components," according to the union.

The local pointed out Mr. Darling has been "conducting a coordinated and powerful pro- gram to enthuse its members on the tremendous growth possibilities of what management terms the industry's new "king pin" product, color television." It noted the stage presentation, in the union's W. Madison St. Auditorium, is inspired, "not by any manufacturer or distributor of color tv, nor by television broad- casters, but by the union."

The "spectacular" was open only to union audiences and (on Sunday) to management seg- ments from broadcasting, manufacturing and distributing fields—representing 109 factories owned by 72 companies employing local mem- bers in the Chicago area.

NLRB Rules Interference
In KDAL-TV Election

THE National Labor Relations Board ruled to uphold a regional director's recommendation that a Jan. 4 jurisdictional election between two unions by 14 employees of KDAL-TV Du- luth, Minn., be set aside and a new election be held within 30 days. NLRB backed up the regional director's finding that KDAL-TV "interfered with a free choice by the employees" in calling each of the 14 employees in for an interview prior to the election. The Jan. 4 jurisdictional contest re- sulted in a 7-7 tie between the International Alliance of Theatrical Stage Employees & Mov- ing Picture Machine Operators of the U. S. & Canada and the International Brotherhood of Electrical Workers. No votes were cast against having a union.
The account executive has taken a "rough cut" at media selection for a new campaign. He and the media director sit down to refine the list; your medium is questioned. They reopen the account man's copy of Standard Rate... and if you have a Service-Ad near your listing... you are there.

$3.75 MILLION BUYS 90% OF KGUL-TV

Galveston-Houston, Tex., ch. 9 outlet is sold to J. H. Whitney & Co., New York group.

PURCHASE of 90% of ch. 9 KGUL-TV Galveston-Houston, Tex., by the New York investment firm of J. H. Whitney & Co. for almost $3.75 million was announced last week by Paul Taft, president of the CBS-affiliated station, and C. Wrede Petersmeyer, partner of the Whitney company. The 100% value of the station was estimated to be about $4.5 million, including adjustments and interests.

The 90% interest in KGUL-TV will be bought by Lone Star Television Corp., which is 90% owned by the Whitney firm and 10% by Mr. Taft. The latter will become president of Lone Star and remain as managing head of the station. At a subsequent date, it is believed, Lone Star will acquire the remaining 10% stockholdings in the ch. 9 outlet from Texas oilman Wesley Johnson, Galveston banker.

R. Lee Kemppner and Galveston attorney V. W. McLeod. Mr. Kemppner sold 10% of his 20% holding to Mr. West some months ago for

Purchase of WCAO-AM-FM

By Plough Inc. Approved

THE half-a-million-dollar-plus purchase of WCAO-AM-FM Baltimore by Plough Inc. [Ft, March 26] topped the list of sales (moneywise) approved by the FCC last week.

Plough Inc., Memphis, Tenn., pharmaceutical firm and owner of WMSF there and WJJD Chicago, bought the Baltimore outlets from J. Waters Milbourne and associates for $590,710. The purchase, which was described by Plough as a bid toward seven-station ownership, was followed by the pharmaceutical company's purchase of WCOP-AM-FM Boston, for $437,500, which received FCC approval a fortnight ago [Ft, May 7].

Also approved by the Commission last week: Assignment of KSMN Mason City, Iowa, from

MOHAWK BROADCASTING Co., to land O'Connell Broadcasters Inc. (KJFU Webster City, Iowa), for $115,000; transfer of WBIA Augusta, Ga., from Media Inc. to Augusta Broadcasting Co., for $85,000. W. Ray Ringrose, president-70% stockholder of purchasing group, is former 20% owner of WRDW-AM-TV Augusta.

Syndicates Eye Purchases Of Chicago Independents

TWO BUSINESS SYNDICATES have been surveying the Chicago station scene the past fortnight, each with an eye toward the purchase of an independent property.

One group is represented by George Brode, a Chicago attorney, who reportedly was prepared to offer $5 million to Ralph Atlas, president and general manager of WIND, for that station. Mr. Brode declined comment but Mr. Atlas reported "the station is not for sale at any price and we have not been approached." WIND is regarded as one of the country's most profitable independent operations.

A second business group has enlisted the services of a south side Chicago broker, whose interests have been mainly non-broadcast, to seek out independent availabilities.

WTSP St. Petersburg Sold

SALE of WTSP St. Petersburg, Fla., by Nelson Poynter (St. Petersburg Times) to N. Joe Rahall and associates for around $200,000 was announced last week. WTSP operates on 1380 kc with 5 kw and is affiliated with MBS. It lost out for ch. 8 Tampa-St. Petersburg, when the FCC's grant to The Tampa Tribune (WFLA-TV) was upheld in court earlier this year. Mr. Rahall's group also owns WNAR Norristown and WKAP and construction permit for ch. 39 WCQY (TV) Allentown, both Pennsylvania; WWNR Beckley and 40% of ch. 8 WCHS-TV Charleston, both West Virginia.

Storer Stockholders Profit

STORER BROADCASTING Co. last week declared a quarterly dividend of 37½ cents per share on its common stock, payable June 14 to stockholders of record June 1. President George B. Storer announced. The board also declared a five cent dividend per share on Class B common stock. The common stock is listed on the New York Stock Exchange while the Class B is not, Mr. Storer said.

WQA1 Returns to 50 Kw Following Tower Mishap

WQA1 San Antonio, Tex., began transmitting from its new 435-ft. tower May 6, marking a return to 50 kw output for the first time since the station's tower was destroyed by an Air Force bomber April 3 [B&T, April 9]. WQA1 had been operating for a month with 5 kw, using its auxiliary tower atop WQA1-TV's antenna.

The new installation was constructed at the site of the old tower in Selma, Tex., under an agreement made with the Air Force. Under the arrangement, WQA1 has agreed to seek different location satisfactory to aviation interests for a future tower, according to James M. Gaines, vice president-general manager.

WOV on Air Around Clock

WITH extension of its broadcast schedule to include the 3-6 a.m. period, WOV New York is now on the air 24 hours a day, for the first time in its 30-year history. The early morning hours feature a disc jockey origination from Harlem's Palm Cafe. This late extension by WOV, which beams its daytime broadcasts to New York's Italian populations, completes the development of "Italian all day." "Negro all night" policy adopted by station.

$2,000 on the Cops

KITE San Antonio, Tex., News Director Glen Krueger recently accompanied police officers as they made pre-Kentucky Derby raids on bookmaking establishments in the area.

Tape recordings were made and KITE listeners heard last minute bets being made over the telephone, the first time recordings of such activity have been aired, the station believes.

One caller wanted to place a bet of $2,000 on Needles, the eventual Derby winner. It's doubtful the bettor will be paid off -- the voice at the other end of the conversation was not the bookie but a vice squad detective.

Television Brings Success For Seattle Hockey Season

TELEVISION currently is being given credit for a revival of interest in hockey in Seattle, Wash., and for assuring a permanent hockey club in that city.

At the end of the 1953-54 hockey season in Seattle, during which only slightly more than 50,000 paid spectators attended the home games, the club disbanded and was not operated the following season.

This past season, hockey returned to Seattle on much the same old basis but with one exception -- the Heidelberg Brewing Co. of Tacoma signed a contract to televise all home games over KTJVW (TV) Seattle-Tacoma and to reconstruct all out-of-town games through KNTN Tacoma and KOL Seattle. The season's attendance exceeded 80,000 persons, a 60% increase.

Result: There will be hockey in Seattle next season -- and televised, of course.

CBS-TV Spot Sales Campaign Stresses Summer Advertising

DESPITE an estimated 20% drop in the number of tv sets-in-use during the summer months, new advertisers would do well to look mainly at summer tv sponsorship because of better schedule availabilities. This is the essence of CBS Television Spot Sales' 1956 summer presentation, which was made public to more than 1,000 advertising and sales executives.

Other factors highlighted in the presentation: employment is actually 3% higher than the average figure during the summer months, "disposable income" goes up at $900 million and sales are up an average 3%.

According to Clark George, CBS-TV Spot Sales general manager, the material informs advertisers of the value of summer tv as thoroughly as possible, while aiming for additional advertisers in the fall season. "Our main objective," Mr. George said, "is to get advertisers thinking of the television season in terms of 52 weeks, rather than the traditional 13, 26 and 39 week periods . . . "

Lobster Group Names Wheeler New England Representative

HARRY WHEELER has been named New England representative for the Lobster Group of radio stations in Maine, it was announced last week.

Mr. Wheeler, former WCPB Boston sales manager and Ziv film sales representative, has just established his own representative firm with offices in the Little Bldg., Boston.

Stations in the Lobster Group are WGUY Bangor; WCOU Lewiston; WFAU Augusta; WGHM Skowhegan-Waterville and WRUM Rumford. The stations will continue to be represented by Richard O'Connell, Inc. in New York and Los Angeles and by Hal Holman Co. in Chicago.

WNMP Dedicates Studios

WNMP Evanston, Ill., dedicated new studios in the First National Bank Bldg., simultaneously with observance of its 10th anniversary last Friday, the station reports. New quarters are in Fountain Square, 800 Davis St., Evanston. Angus D. Pfaff, president, commercial manager and one-third owner of WNMP (Evanston Broadcasting Co.), gained 50% stock to succeed Northwestern Television Broadcasting Corp., granteef of WTLF (TV) on uhf ch. 32 in Evanston, with target date unknown.

(Stations continues on page 84)
HILL COUNTRY UHF

DOES uhf work? Last week Senior Editor J. Frank Beatty assayed the medium in the South Bend-Elkhart, Ind., market, which is mostly flat terrain. He found uhf serving that area capably over an 80-100 mile area. This week BT presents his findings in an area where uhf has faced a more dramatic challenge—in the tumbled hills and deep valleys of Northeast Pennsylvania.

LAST SUMMER a busy man with sturdy feet and a full notebook wandered up and down the mountains and valleys of Northeast Pennsylvania. From Lewisburg, 55 miles southwest of Wilkes-Barre, and north of Scranton to the New York state line, he knocked on doors and asked questions.

The purpose: To find out what media reach the majority of the people in this extensive market, one of the first 50 in the U. S. John Green, advertising manager of Fowler, Dick & Walker, The Boston Store (Wilkes-Barre), spent four tough but informative months on his media mission. His knuckles still twitch at an imminent door sill, but his survey led to a conclusion that had a profound impact on the advertising policies of this department store, described as the largest in the market. The conclusion:

"Uhf television is the only medium that covers most of the Wilkes-Barre and Scranton 100-mile trading area."

The twin cities, 15 miles apart, have daily newspapers, as do some of the smaller cities, but The Boston Store could find only one single medium that reaches its metropolitan and outlying market. Now the store is a major television sponsor.

Four uhf stations—two with megawatt (1 million watts) power and two with a quarter megawatt—push their signals up and down the valleys and around mountainsides. This rugged terrain, engineers predicted years ago, would be a most unlikely spot for uhf. Yet today, people on the blind side of hills and tucked in curving valleys are getting signals from Wilkes-Barre and Scranton. The laws of allocation aren't being defied; rather, the uhf stations are using height and sheer electronic muscle to provide reliable service to a predominant share of the populace. All four stations have transmitter sites over 2,000 feet above sea level and 1,500 feet above the Susquehanna and Lackawanna River valleys.

Of utmost importance in the Northeast Pennsylvania television market is the fact that around 90% of the people live in valleys, which run in a generally northeast-southwest direction. The four uhf stations sit atop mountains that give them a clean shot up and down these inhabited valleys. Luzerne County, with nearly 400,000 people, and Lackawanna County, with 275,000, depend almost entirely on uhf signals picked off the air. Aside from such smaller places as Shickshinny, victim of a river bend, and the important Hazleton market, for example, direct off-the-air reception prevails.

As uhf signals get out 30 to 100 or more miles from the twin cities, they are picked up at what is often known as "Cable Heaven."

Dozens of cities and towns, such as Williamsport and Sunbury, are served by community antenna systems with their direct cable feeds to subscribing customers. Those living in the deep valleys of mountainous Schuylkill County (South of Luzerne) and many other outlying sections are mostly dependent on cable service.

Scranton and Wilkes-Barre reach directly many towns 50 miles away, with uhf signals obligingly bending down and around to a limited extent, and bounding among the hills to provide refracted and reflected images that alert servicemen are quick to catch. The signals go out 50 to 75 miles and more for the benefit of viewers living on hilltops or favorably sloping hillsides.

Over 90% of the families in Lackawanna and Luzerne counties have tv reception. Conversion is practically 100%. Plenty of
homes do not have all four uhf signals, but relatively few are totally blind. Uhf's technical advantages such as freedom from man-made and natural interference are offset by a shadow problem that no broadcaster tries to ignore. The shadows are inevitable around this rugged landscape and even a few isolated blocks in the two main cities have signal trouble. Many engineers insist that vhf, too, would have shadow problems in the market—possibly worse than uhf. They point to the vhf shadowing in areas 20 or more miles from ch. 12 in Binghamton, N. Y.

This conclusion is inevitable after a visit around northeastern Pennsylvania: Wilkes-Barre and Scranton, and the outlying trade areas, totaling 1¾ million people, are happy with their uhf service.

The question that keeps popping up most often is this: Is megawatt power the answer to the uhf problem in mountain country? In general, the answer is affirmative. Signals are stronger, all agree, but the benefits were practical rather than dramatic. Primary areas spread somewhat, but the main benefit came from the solid pictures put into marginal and inaccessible homes within the primary and secondary areas.

No miracles came out of the quadrupled power involved in these megawatt operations—WBRE-TV and WILK-TV Wilkes-Barre—expected miracles. They wanted to cut down the shadow areas and overcome the snow, and they attained these goals. This fill-in improvement, most of them agree, meant more viewers than a 20-mile radius of the primary radius could have provided. The other two stations in this uhf market are WGBI-TV and WARM-TV Scranton.

That is a thumbnail and non-technical summary of the Wilkes-Barre and Scranton market—the market that Mr. Green surveyed on behalf of The Boston Store. Having found that uhf television provided the only single medium that could deliver commercial messages to the market, the store started planning. Late last month it opened a major television campaign, starting a five-minute window in the NBC-TV Today five mornings of the week. WBRE-TV Wilkes-Barre plus 70 announcements and IDs. The Today window—and it's a carefully planned production—was telecast the morning of May 4 from "The Little White House" on the second floor of this thoroughly modern department store. Every department has been wired for live tv production.

With uhf, The Boston Store is contacting the trading area residents. The slogan "a great store in a great state" and a Pennsylvania map are identifying devices. TV sets have been placed around the departments as morale builders and sales stimulants for the staff as well as for public observation.

A major retailer's discovery is that uhf is the only medium that can serve this corner of Pennsylvania is shared by one of the area's important advertising agencies, Croll Advertising Agency of Wilkes-Barre. Phl A. O'Neill, president of the agency, joins Mr. Green in feeling that the only way to understand public media habits is to go out into the field and talk to people and businesses.

"In Northeast Pennsylvania," Mr. O'Neill said, "Uhf is definitely the medium to buy. Vhf has little coverage that excludes uhf reception. Binghamton puts a vhf signal into northern parts of the market but it is unnecessary to local, regional or national advertising.

The uhf stations are well engineered and get into the populous areas, with a potential of two million people. They reach 75% to 90% of the L&L people—Lackawanna County (Scranton) and Luzerne County (Wilkes-Barre).

"The second floor.

I constantly see people in their homes in my field work. If I were a New York, Philadelphia, Chicago, or San Francisco agency I would definitely use uhf to reach Northeast Pennsylvania. Some timebuyers still shy from uhf like a scared horse because of the bad eye it suffered in some markets. They don’t know this market if they don’t buy uhf.

"The corner of the state was starved for tv almost six years. People spent big money for vhf sets and antenna or cable facilities. Now they have excellent uhf service and the networks are received all over the market except in some of the severe shadow spots."

WBRE-TV (ch. 28) is wholly owned by Louis G. and David M. Baltimore. The father-son executive team combines engineering and management experience, with the elder as president and the younger as vice president-general manager. Their aggressive operation is reflected in the pioneering of megawatt uhf, the original RCA innovation having been set up for him in mind. Charles Sakoski Sr. is chief engineer.

As a basic NBC affiliate, WBRE-TV has a top rate of $575 an hour for network time and Class A rate of $450. Despite the heavy investment in equipment, WBRE-TV is described as a profitable operation. Business is way over last year and is expected to pass $900,000 in 1956.

The NBC-TV service is picked off the air from a relay atop Pimple Hill, in an eastern mountain range.

The Baltimores own WREB, 250 w on 1340 kc, and WSCR Scranton, 1320 kc regional. Their studio-office building in downtown Wilkes-Barre once was a residenc-
A new aircoach service offered only by American Airlines

THE ROYAL COACHMAN
DC-7 NONSTOP

The first nonstop DC-7 aircoach coast-to-coast
New York-Los Angeles $99
Washington-Los Angeles $98

Just in time for the vacation season, American introduces the finest and fastest transcontinental aircoach service—the first nonstop aircoach on the DC-7, world's fastest airliner. This is luxury aircoach travel—including reserved seats and passenger lounge. Fine meals are served, available at economical prices. "The Royal Coachman" is all-coach service. There will be two flights daily—daylight and overnight—between New York and Los Angeles, starting May 20th, and daily service between Washington and Los Angeles, starting June 3rd. Make your reservation now for this popular new service.
tive. As a CBS-TV optional, WGBI-TV provides the only CBS network service over an extensive area. While the station feels it is reaching most of its normal market with 250 kw, it isn’t going to be left behind in the megawatt race. It will be ready to go on up to 2 megawatts if FCC lifts the permissible power limit. Operating WGBI-TV with Mrs. Holcomb are Vance E. Nalley, attorney-consultant; George D. Coleman, general manager-national commercial manager, and Kenneth R. Cooke, chief engineer. Douglas M. Holcomb is promotion manager.

The two Scranton stations, with adjacent mountaintop sites west of the city, claim ability to put their uhf signals into the populous area of Scranton, Wilkes-Barre stations claim their mountain offers the better location.

WARM-TV started in February 1954 on ch. 16. William W. Scraorton, treasurer, is 80% owner of stock and President Martin F. Memolo owns the other 20%. William Dawson is general manager and Roy W. Holcomb chief engineer. Bolling Co. is national representative. The station is an optional ABC-TV network affiliate. Mr. Memolo said it takes about 50% of the network’s commercial programs. Highest rate is $225 an hour.

Revenues in 1956 are expected to be around $450,000, judging by winter and spring business. The station is making steady progress, Mr. Memolo said. “Each quarter has been better than the last one,” he explained. ‘‘We’ll be in the black in the not too distant future.”

Mr. Scraorton, president of Scraorton Lackawanna Trust Co. and director in DLAW railroad and other corporations, holds a minority interest in WTVE (TV) Elmira, N. Y., which returned to the air a week ago after having been blown out of operation by famed professional Hazel. He said Elmira is taking ABC-TV programs from WARM-TV, with a combination sales arrangement. Transmitters are 83 miles apart.

The Elmira service area includes 120,000 people and 42,000 converted receivers, he added. Autumn plans call for strengthened program service where ratings are low. The aural station, WARM, operates with 5 kw on 590 kc. WARM-TV goes on the air daily at 12:45 p.m. Coverage of a 200,000-set uhf area is claimed with 191 kw power.

The megawatt signal is emitted in two different ways by WREB-TV and WILK-TV, and much WGBI-TV is tooling up to use both of them. WREB-TV became the first megawatt tv station at 3 a.m., Dec. 31, 1954, on the eve of its second birthday. It added two RCA 12½ kw amplifiers to the 12½ unit, that had been putting one-fourth megawatt off the antenna, using the older unit as a 5 kw driver. The megawatt signal is radiated with a 46-gain pylon antenna.

Three weeks later WILK-TV joined the megawatt ranks, adding a 45 kw GE amplifier to its 100 kw and 1 kw driver. The antenna gain is around 25, half that of the WBRE-TV antenna.

Which is the better system? WGBI-TV hopes to find out when it jumps to a megawatt this summer. Using GE equipment, WGBI-TV will operate a 45 kw amplifier to its 100 kw and 1 kw driver, and may have a 50-gain antenna split in the center.

With this flexible setup, WGBI-TV will attain a megawatt by (1) using high antenna gain on half power and (2) by using half the antenna gain and the full 45 kw amplification. According to Mr. Eckerlsley, the station will measure the signal at a number of points to see if there is enough signal to have a 50-gain antenna split in the center.

What happens when a uhf station ups its power from one-fourth megawatt to a full megawatt?

John Creutz, of the consulting firm of Page, Creutz, Steel & Waldschmitt, summed it up this way: “Megawatt operation made it easier to sell a good signal over the whole service area and helped substantially to fill in the shadows and dead spots. The stations...

---

**WILL GE’S 6BY4 DO THE TRICK?**

AROUND the hills of Northeast Pennsylvania the four uhf tv stations in Wilkes-Barre and Scranton are pumping efficient signals from strategically located mountain peaks, but there are two problems facing this relatively new medium—problems beyond station control.

First, engineers and servicemen agree, is the receiver problem. The allwave circuitry is highly inefficient, they feel, though some progress has been made by set factories. Second is the problem of filling absolutely blind spots, such as Schuylkill County, and putting a boosted signal into distant points.

Like their South Bend-Elkhart brethren, technical and service people speak critically of the front-end gear that goes into receiving sets and blame manufacturers for not putting better engineering into these allwave models. After all, 1,181,000 allwave sets were manufactured last year of the 7,756,000 tv total, plus large numbers of converters for vhf-only models.

“There’s a crying need for a good front end in receivers,” said Charles Sakoski Sr., chief engineer of WREB-TV Wilkes-Barre, megawatt station. “A reduction in tuner noise of 6 db would be equivalent to an increase in station power from 1 to 4 megawatts.”

Theodore French, chief engineer of WILK-TV Wilkes-Barre, also operating with a megawatt, said the new General Electric microminiature metal-ceramic tube (6BY4) could be installed in a tuner to add possibly 6 db to the signal. This is the benefit gained by quadrupling power from 1 to 4 megawatts.

Mr. French said a tuner using this tiny tube (see photo) would include an rf stage, requiring a tuning adjustment. The 6BY4 tube has been used in guided missiles and for professional tuning. GE describes it as a low-noise, high-gain type. Technical delegates at the NATOB Engineering Conference last month voiced enthusiasm at the hope for a way out of the allwave tuning predicament.

Inquiry at GE disclosed that manufacturers, who have been sent models of the tube and technical data, are showing little interest in development of new uhf tuners despite obvious signs that FCC is looking toward uhf for allocation relief.

On a production basis, it was indicated at the NARTB meeting that the tube might be produced for around $2. A power gain of 15 db is claimed for the 6BY4 with approximately a 6 to 8 db signal-to-noise improvement over the 6AF4 used in most uhf tuners. The 6AF4 boils, and it loses efficiency at the upper end of the uhf band. GE claims simplified vhf-uhf tuners can be built with the tiny, new ceramic tube.

Western Electric Co. has a costly tuner tube containing gold elements, but it is out of the consumer-product price range. While tuner improvement will benefit all uhf reception, the stations in the Wilkes-Barre and Scranton area are showing interest in boosting of the transmitted signal. They would like to use efficient, trouble-proof translators, costing around $5,000, for shadow spots. These automatic translators would operate in the top part of the uhf band and cover a range of several miles.

They are interested, too, in automatic boosters that could add vitamins to signals in weak spots. Both translators and boosters have been developed.

What would happen to community cable systems? One answer can be found in Wilkes-Barre, which once had a prosperous hookup. It now operates with a small subscriber list, principally taverns and clubs seeking sports and other programming from New York and Philadelphia vhf stations.

Around Northeast Pennsylvania are numerous cable systems, such as those at Williamsport, and small outfits serving crossroads spots and villages. All of them charge fees ranging from a half a month or more a month for their service. None of the Scraorton or Wilkes-Barre stations could offer any information on their cable circulation but they conceded it is extensive.
PUBLIC NOTICE

Harper’s recently ran an amusing article by a New Yorker without a television set who visited his tee-vee-ing Iowa in-laws and found Sophistication. They knew all about The World Outside, and credited tv.

For all we know he may have been crediting us; we thank him even in case he wasn’t.

But that’s not the point. So many of our friends have called the article to our attention, so many have sent us copies, that it’s time to call a halt.

Alright already—we saw it. As a matter of fact, we saw it the day the magazine came out, having been a Harper’s subscriber for years.

Wonder if their stock is available.

needed better coverage of the concentrated population." His firm is WILK-TV consultant.

The two Wilkes-Barre stations voice satisfaction at the results, but concede the service area was not pushed out substantially. They were aware of this before contracting for the new transmitters. Since the country is roughly 40 miles in all directions from the station, the signal at the south end is not very strong, and at the north end, where it is only 20 miles, the signal is very strong. There is a slight hill near the coast, and the terrain is quite rugged.

"Mr. Baltimore Bethlehem and Reading, but as of homes creating occasional cause of watt power impresses Madison Ave.; possibly..."}

"Since the tuners in allwave converters tend to deteriorate faster than the rest of the receiver, thus losing efficiency, the stronger Wilkes-Barre signals give a margin of safety. Equally important, from a coverage standpoint, is the conviction of both stations that the stronger signals add more audience than a 20-mile extension of the radius which would have obtained. In the fringe city of Bloomsburg, the megawatt power "made the difference between just a tv picture and a real good picture," according to Joe Follmer, serviceman. Many servicemen observed that antenna adjustments, in this area, are typical comments tuned to the technical..."}

"WGBK-TV's megawatt operation will add new fuel to the technical argument when the new plant gets underway in a few months.

Reception in Outlying Areas

Here are typical comments gathered in field trips around Northeast Pennsylvania:

Jack Vandemark, Vans TV Furniture Appliance Co., Berwick (18 miles from Wilkes-Barre, 35 from Scranton, in valley) — "Wilkes-Barre stations come in best. Scranton is hard to get snow-free in spots behind hills but there are few blind areas. Some ghosting is found northwest toward the mountain. The newer model allwave tuners are getting better. No reliable vhf service in this area. Some of the better uhf..."

A General Electric portable hooked to a roof antenna brought in 28 and 34 satisfactorily. Scranton stations were snowy but Mr. Vandermark said he had just moved into a new building and didn't have permanent antennas in operation.

Joe Follmer, Bloomsburg (30 miles from Wilkes-Barre, 45 from Scranton, in valley) — "We have a few blind spots, and there are some snowy installations. Since Wilkes-Barre went to a million watts we get chs. 34 and 28 good. Scranton is noisy but adequate in most cases. Sunbury (15 miles northwest of Bloomsburg) gets the two cities..."

Floyd Seaman, Seaman's Store, New Milford, Pa. (33 miles north of Scranton, 50 from Wilkes-Barre, 18 south of Binghamton) — "Usually we get all Scranton and Wilkes-Barre signals fine, but may have some trouble in the low spots. Scranton is better than Wilkes-Barre. Ch. 12 from Binghamton comes in everywhere and once in a while we get chs. 3 and 8 from Syracuse."

Home of Sam Letzic, businessman, 82 Lincoln Ave., Carbondale (part way up hill sloping away from Scranton)—Wilkes-Barre stations, 30 miles southwest, came in better than Scranton, 15 miles southwest, because of terrain. In other parts of Carbondale, an important market, the situation is the reverse and Hanoversdale, another 15 miles to the east, sits in a tough uhf spot. Carbondale is at the head of the Lakawanna Valley which runs southwest through Scranton.

That's what uhf looks like in the bumpy landscape of Northeast Pennsylvania.

At WBBR-TV Vice President Baltimore and Mr. Sakoski said their tube bill is running about $5.70 per hour for six major tubes and going down every month. WBBR-TV operates with 4 pentodes (and two spares) bought from RCA at $4,300 each. Power is built up to 6,000 hours. The megawatt installation cost over $200,000, about the same as the WILK-TV figure. Power costs have risen from $600-$700 a month to $1,300 (including the fm transmitter) but WBBR-TV goes on the air in early morning whereas WILK-TV starts at lunch time.

 Aside from cost factors, broadcasters have varying views on the merits of the two megawatt systems. David Baltimore, a Massachusetts Institute of Technology graduate, favors the simplicity and efficiency of the RCA transmitter.

On the other hand Messrs. Shelburne and French prefer "honest kilowatts" to high antenna gain. They claim WILK-TV puts out a fatter lobe that is superior to that of WBBR-TV over most of Northeast Pennsylvania and contend it's easier to phase the signal so it's tailored to the population centers. They cite an engineering survey to support this claim.

WGBI-TV's megawatt operation will add new fuel to the technical argument when the new plant gets underway in a few months.

BROADCASTING • TELECASTING
just 25 years ago

**ITT revealed to the world the amazing possibilities in microwave communications**

It was an historic day, 25 years ago, when IT&T engineers beamed a microwave telephone signal from Calais to Dover across the English Channel. A new age of communications was born with this first demonstration of the practicability of microwave transmission.

Today, microwave radio links span the United States, as well as many other countries.

In the brief time of one generation, pioneer IT&T achievements have rapidly expanded the knowledge and use of microwave. IT&T leadership provided techniques and equipment that helped make possible today's modern microwave radio links for telegraph, telephone, television, telemetering, aircraft navigation, and other vital services including over-the-horizon microwave—an exciting step toward the day when TV may span the oceans.

It's only the beginning. Each year, with world-wide facilities for research and manufacturing, IT&T engineers continue the development of new applications of microwave that will bring even greater benefits to industry, national defense, and your daily life.

**INTERNATIONAL TELEPHONE AND TELEGRAPH CORPORATION, 67 Broad Street, New York 4, N.Y.**
RARE is the big-town radio-connected executive who hasn't dreamed of getting away from it all and settling down in Homeville with a little radio station of his own. Rarer still is one who has actually made the transition successfully. Herewith is a road map of the radio route from Madison Ave. to Main Street, with all its steep climbs, sharp turns and hidden pitfalls, drawn by one who knows it well from firsthand experience—Beverly (Bevo) M. Middleton, onetime sales manager of WCBS New York and today owner-operator of a daytime 1 kw station, WWIT Canton, N. C., and a fulltime 250 watter, WHKP Hendersonville, N. C.

From Madison Avenue to Main Street is not far, but the way is most hazardous. Whether you're a radio director of an advertising agency, a program man or a commercial man in one of the top broadcast jobs in New York, Chicago, or San Francisco, don't think for one moment that you can pack your bags and go to a Main Street station and show them how to do it, because you simply can't. If you try it, believe me, you'll wind up licking your financial wounds after your first year's operation, and it will be a very expensive education.

What is a small market radio station? Well, just about what the name implies; a radio station in a single-station market in a community of 5,000 to 20,000, with perhaps a county population of from 15,000 to 40,000-50,000. There's no such thing as "no competition." That dream spot where the small market radio station has no competitors, I have not yet found. There may be even two stations in your county. This makes life all the more intriguing.

Your small market radio station is usually full-time 250 w, with or without a network affiliation or 1,000 w daytime-only, probably independent. The acquisition of one of these stations is not as easy as falling off a log, even though your jeans may be loaded with money.

Assuming you can find the exact station, in the exact market, available to you at the price you want to pay, there is always the wait while an application is filed with the Federal Communications Commission for transfer of the license from the previous owner to you. This can take several months or, as in one recent case, only six weeks. Now, in case you can't find the station you want already in operation, and you still must have that dream station in Homeville, the next thing is to pore over maps and statistics of the part of the country you'd like to settle in and look for a town and county big enough to support a radio station, or possibly, a second station. Only then will you discover that practically every Homeville, U. S. A., already has a radio station. Should you be fortunate enough to find the particular Homeville that you believe has a good future and no radio station, then the fun begins.

Don't try to be a "do-it-yourself" artist and prepare your own application and choose your own frequency and file your own papers with the Commission. It takes the technical knowledge of a radio engineer and the legal talent of a good lawyer (and a specialized one, at that) to prepare the various exhibits and financial statements, plus proof that your frequency will not interfere with any current frequencies and know that nobody else has filed for the same frequency in or nearby that would put you into a hearing. We won't discuss all of these details, we'll just make the suggestion that you locate a good radio lawyer and a good engineer and have them do a search for you on the Homeville you have, and when they come up with a frequency for a full-time 250 watter or for a kilowatt day-time, then they're ready to prepare the papers and file them with the FCC.

We're assuming that you've already talked to your engineer and he's found a frequency for you in Homeville, because if there's none available there, we should forget the whole thing. That should be your first step—to find out if there's a frequency available.

At this point, we'll have to take time out to discuss how much it costs to build a station and have sufficient finances to carry it over the period necessary until it can get enough revenue in from advertising to carry itself and make a little profit, we hope. This, of course, varies greatly. I knew one engineer who put a 250 w station on the air with a total capital of $10,000. Of course, he was able to rent space and buy a second-hand transmitter that would pass the FCC standards, and do a lot of the work himself. Also, his wife did a lot of the work.

But let's assume that you are not an engineer, only a good business man who knows

Broadcasting • Telecasting
something about radio and wants to know "How much does it take?" I'd like to suggest that you have, in cash and credit, no less than $50,000 before you start out.

The chart at right shows exactly what it cost us to put a 1,000 w daytime station on the air in Canton, N. C.

As you will note, we were able to finance a good many things and, of course, even though we were able to finance them, we did have the credit to back the financing. You'll see that we had a little more than this actually invested in the station.

In the case of WUSN Charleston, S. C., the cost to get on the air was approximately $35,000. That was back in 1948; we had a tower base already there, and the building, with slight remodeling, was made into a combination studio and transmitter house.

Now back to the application. If you happen not to be an American citizen, forget the whole thing, because the Commission requires that no more than 10% of any radio station be owned by foreigners. Generally speaking, the qualifications, as far as the Commission is concerned, are that you have proper finances, that you're a person of good reputation and that you know enough about a radio station to be able to run it in the public interest and/or necessity. This doesn't mean that you have to "know it all" but you do have to know enough to employ people who know how to run a station for you. Let's assume that you have these qualifications and take it from there.

You should be prepared to show that the service a radio station can give the Homeville you've chosen is a needed one. To do that, before you've actually applied to the Commission for your construction permit (incidentally, you get that before you get a license), go to Homeville. Talk to the principal of the school, find out how your program planning will fit into his scheme of things; talk to the Ministerial Association, find out how to plan time for that. In short, study the needs of the community.

If there's no daily paper there, perhaps you should go heavy on local news. Show in your program schedule that you're going to do this. If it's an agricultural region, get in touch with the county agent, find out how you can help him give farmers the kind of information they need. If you're in a good ole mountain part of the country, like the one we're located, and people like good ole mountain music, then plan to have a large segment of that in your programming. While you're doing this, you're beginning to talk to some of the owners of the stores and businesses, the bank, etc., to make sure that you can gain sufficient revenue to meet your expenses.

You have to give at least estimate of your cost of operation and you'll want to know it, anyway. Charts with this article show you the actual monthly operating cost of our two stations, which should give you a fairly good yardstick.

Salaries in some parts of the country are much higher than in others, and don't forget in planning for your station that you come under the Interstate Commerce Act and that the Federal Wage & Hour Law applies to you. In other words, you can't get a high school kid and work him for 50¢ an hour; you've got to pay a minimum of $1 an hour and time-and-a-half.

Your attorney also will be most helpful in the preparation of the various exhibits, including the financial statement, your programs, your statement of how you're going to operate, and a few little things that you should know, such as the rules for political broadcasts, especially important this election year. You should know something about things like lotteries and games of chance, which are verboten on radio, so
that you don't put a Bingo game in your schedule.

My recommendation is to set up a local corporation and get yourself a charter and by-laws. Take a local attorney in Homeville and have him drafted. He'll be a great help in organizing your corporation. Get some leading local businessmen to serve on your board of directors, even though they may have only a very small interest in the station. Of course, if you could get them to take a larger interest in the station, it would be even better. You can protect your job by hanging onto 51% of the corporation. In that way, you are a local entity. One thing you should remember, in case there's any conflict over your application or some other group wants the station, the local people who apply usually get the license over outsiders who are coming in purely for an investment. Of course, if you have no opposition, it makes very little difference whether you're local or straight from Madison Avenue.

By this time, you've already spent a good deal of money, running around and entertaining people and perhaps getting options on sites. All of this you can put under the heading of preliminary expense, and it can run pretty big, too. And, remember, everything is subject to the Commission's approval. Don't ever build or do anything toward the construction of a station until you have received that construction permit. The Commission doesn't like that . . . and isn't apt to give you the permit.

What does it cost to prepare an application and get the various exhibits together, and get your engineer to find you a spot? I've had numerous charges under various conditions, but let's take WWIT. An engineering firm charged $350 to make a search and recommend a frequency. The same firm charged $900 to prepare all the exhibits needed in the engineering section, and to fill in the engineering section of the application. My attorney, after we had received the construction permit, sent in a nominal bill for $900. Now, remember, I did all the running around. If you want these people to come to the spot and do a lot of work for you at Homeville, then you can perhaps double both of those bills.

Finally, the voluminous copies of the application and the exhibits have all been put together neatly in your attorney's office and carelessly you carry it over to the office of the Secretary of the FCC. Now begins "the sweating out period," which could be an embarrassing period for you, with a fine job in Los Angeles, Chicago or New York. It is known to your employers that you have applied for a radio station, no doubt with the idea of running it yourself when you get it, and you become, shall we say, of less interest to them. It would be safe to say that you should allow a minimum of at least six months from the time of filing your application until the actual construction permit is authorized by the FCC. It can take a good deal longer, but it probably won't take less time than that because of the tremendous number of applications before the Commission at all times.

The various parts of your application will be carefully examined by the experts of the Commission. The engineering department will want to make sure that the recommendations of your engineer are in accordance with the standards of good engineering practice; the legal department will go over your legal qualifications and, of course, the auditing department will have a look at your balance sheet and the other financial information you've given. I'm not too sure who looks at the program plans, but somebody must.

During the sweating out period, you'll be busy making numerous commitments for your new station, subject to the granting of the construction permit. No doubt you'll sign up with either AP or UP. You'll get together with one of the equipment manufacturers and go over exactly what you'll need in the way of equipment for your station. You'll make arrangements, possibly, with one of the transcription libraries and decide what sort of library you'll rent or purchase, and you'll look into the possibility of getting phonograph records for your record library. All of this has to be done some time, preferably in the sweating out period, so you can get into full gear the day you receive that telegram from the FCC telling you that as of this date the construction permit has been granted, so forth and so on.

One thing not mentioned earlier was the amount of land required on which to
Jac LeGoff asks small businessmen:

"HAS A BIG BUSINESS EVER ASKED YOUR ADVICE?"

**Denzil Watkins, Standard Oil Dealer, St. Louis, Missouri:**
"This is my third year at this meeting where Standard Oil dealers discuss sales and service problems with company executives for three days. Nine dealers, who are elected by other dealers at regional meetings, give the company advice, which is always very carefully considered. The result is better service and better products!"

**Manuel Mislove, Standard Oil Dealer, Milwaukee, Wisconsin:**
"One of the smartest things any big business can do is to consult the people who come in contact with customers. That way, it can find out first-hand what the public needs and what its sales people need to keep customers coming back. Standard Oil does just that. The company asks our advice and acts on it. And our customers benefit."

**Roy Wilson, Standard Oil Dealer, Brainerd, Minnesota:**
"This was my first opportunity to talk to top executives at Standard Oil about problems that are very important to dealers—products, sales and service. It's a wise company policy to talk over such matters with the men who meet the public. Actually we helped plan the meeting by first outlining the matters we wanted to discuss."

**W. H. Ehrenberg, Standard Oil Dealer, St. Joseph, Mich.:**
"Under the dealer advisory plan, I represent many Michigan Standard Oil dealers who elected me to meet with company officials. That's certainly an example of a big company asking for advice from small businessmen. Did you know that Standard Oil's popular plan for guaranteed radiator protection came out of a dealer-company meeting?"

**What makes a business a good citizen?**

Constantly improving products and services for its customers. Several years ago Standard Oil established a program for a dealer advisory council to meet annually with us in Chicago and tell us, first-hand, how they and we can better serve our millions of customers. These men are selected by their fellow-dealers for their high qualities as independent businessmen—and they tell us! We listen and we act whenever an improvement in products or services seems mutually practical. This seems to us a fine example of large and small business giving each other a helping hand and benefiting you, our customers, in the process.

**STANDARD OIL COMPANY (INDIANA)**
build a broadcast station. Let's take this from the minimum standpoint. Assuming that you could buy land in any shape that you wanted it, you've got to have sufficient land in order to run radials in the ground from the base of your transmitter out as far as your antenna is high. Now, the height of your antenna depends on the frequency of your station. For example, let's take WWIT, which has a daytime frequency of 570 kc. This requires an antenna height of 250 ft. This means that radials going out from the base of the tower every five degrees for the complete 360 degrees, must stretch out 250 ft. in all directions, requiring roughly five acres of land. Our station in Hendersonville, WHKP, is a 250 watt on 1450 kc, with a tower height of only 175 ft. So you're not going to be able to put your station in the middle of the heart of town; even if you could purchase the land, it would cost you too much money. You'll probably get out into the country a little way, along the side of the road. Maybe some kindly farmer will let you bury the wires under his pasture; it has been done.

One bright and shining morning, you receive a collect telegram from the secretary of the FCC announcing that Homeville Broadcasting Station Inc. has been granted a construction permit (and the file number is in there, too) to build a radio station on a frequency of 1450 kc with a power of 250 watts and with the assigned call letters of WXXX. You have six months from that date to build your broadcasting station. Of course, if you run into a great many difficulties and can't get it completely done in that time for any good reason, the Commission will give you an extension. But this is not for you; your whole ambition is to get on the air immediately; time's wasting, money's going out the window and you want to see some of that mazola coming in.

This is a time for feverish action, for expediting your equipment installation, for timing each move in the construction. Somebody told you about those ground radials and, of course, before you build your building you want to run them so they can run under the building in straight lines; so that probably the first thing you'll want to do is to get your tower in and get your ground radial system in as the building is also progressing. You'll want to get enough of your building up before your equipment arrives so that you'll have a nice place to keep it out of the rain and not have to pay for a lot of storage and re-hauling. Some good close timing here can save you a lot of money and a lot of worry.

In the meantime, you've picked yourself a target date for completion, and you've told everybody through the local bugle that they're going to have a wonderful radio station in the very near future.

Now you have been busy looking over prospective employees to work in your radio station, and are beginning to interview people and make plans. You don't want 10 people on the payroll two months before you're on the air; on the other hand, you don't want them to arrive the day before you open so that they're unfamiliar with the equipment and haven't had a chance to go over your program plans.

Also, from that revenue angle, you have made up your rate cards, gotten your contracts together, gotten information concerning your market. Probably the first person you hire will be your top salesman, who'll arrive on the scene and begin to talk to the good local people about taking advertising. This is the exciting part.

There's one more fellow that you probably have on your payroll very early, your chief engineer. In all probability, he'll be the only engineer you'll have, and again, he'll probably also be an announcer, because people cost money and the more people you have employed, the less opportunity you'll have to make Homeville Station pay off.

Then one day your engineer will tell you that although things are only three-quarters built, he's got all the equipment in place and he's wired up to the antenna and the engineer's checked his antenna resistance, and he has permission for tests. These tests can be made only after midnight. Finally all the kinks are worked out of the transmitter and that great day arrives and you receive permission from the Commission to go on the air with program tests.

What Does It Cost?

What does it cost to run a radio station? Here again (see page 76) I am using our own figures at WWIT. There probably are many, many more efficient operators than we are, and possibly some few who are worse, so I take these to be a good average of what you can expect in the way of overhead. You will note that a major part of the overhead is salaries. Perhaps we are a little lazy but we don't believe in putting in too many hours, and as long as we can make a fair profit and not have any person in the over-worked category, we prefer this.

I have one friend who operates a full-time 250 w independent with total personnel of five... the five consist of a manager-sales manager in one person, who also pinch-hits...
"I’m a regular and persistent reader of Advertising Age"

says WESLEY I. NUNN
Advertising Manager
Standard Oil Company (Indiana)

"Because you cover everything of importance to advertising men thoroughly and promptly, I am a regular and persistent reader of Advertising Age.
I read not only a surprisingly large percentage of the editorial content of most issues, but also make it a point to look at the advertisements, many of which intrigue my full readership."

Advertising content and editorial content both get intensive readership in Ad Age by most of the decision-makers who are important to you. "Getting together" with news, trends and developments in AA's advertiser columns as well as AA's editorial columns is important to advertising management today—not only to those who activate important market-media decisions, but to those who shape-up these decisions.

Take Standard of Indiana, for example. Broadcast plays an important part in Standard's promotion program, both in radio and television. Standard has consistently ranked among foremost spot advertisers, and while exact figures are not available, its expenditure for spot TV alone during a three-month span in '55 ran over $182,000.*

In addition to Mr. Nunn's copy, some 13 more paid-subscription copies of Ad Age go to Standard of Indiana every week, where they get read, quoted and discussed by sales, advertising and management executives. Further, 280 paid-copies go every week to Standard's agencies, BBD&O and D'Arcy Advertising.

Add to this AA's similar penetration of advertising agencies with a weekly paid circulation of almost 9,000, its intense readership by top executives in national advertising companies, its unmatched total readership of over 124,600 based on 32,500 paid subscriptions, and you'll recognize in Advertising Age a most influential medium for swinging broadcast decisions your way in 1956.

*Estimated by N. C. Morenburg Co. for Television Bureau of Advertising

WESLEY I. NUNN
Before his 20-year tenure as advertising manager of Standard began, Mr. Nunn already had some 17 years of varied business experience. In addition to being advertising manager for a second oil company and sales manager of a third, he also worked in an advertising agency and operated an automobile agency.

A director of The Advertising Council, Mr. Nunn is past president of the Chicago Federated Advertising Club, past board chairman of Assn. of National Advertisers and the Advertising Federation of America. In 1955, he received Distinguished Service in Advertising awards from the Milwaukee Advertising Club and Syracuse University.
### BALANCE SHEET IN HENDERSONVILLE

- Other: 723.71

**TOTAL EXPENSES:** $57,335.37

---

We recommend that you not consider a market of less than $20 to $30 million retail sales as a profitable one. We are going to hear lots of arguments from people who are making vast sums of money in many smaller markets, but, still, this figure is the result of our personal experience.

Where does the money come from? First, let me tell you where it doesn't come from. It does not come from a network affiliation. Stations in the size markets we have been talking about do not receive payment for their advertising from the networks. If they have a network, they probably are paying in the vicinities of $250 a month for the network service and the lines. This class of operation is called a bonus station with the network, and although they cover a lot of territory, they are purchased as additional markets to larger stations located elsewhere. If you have a daytime station, in all probability you cannot get a network, and our advice would be don't even try because you need that time for sale.

#### Whence Cometh the Money

Where does the money come from? It comes from Main Street. You'll receive very little revenue from national advertisers. Occasionally, someone like Lincoln-Mercury or Liggett & Myers or Procter & Gamble will run a saturation campaign and buy every radio station in a particular section, but this is a little gravy that you won't receive too often under the present selling set-up. You will get some regional business if you go after it. Accounts like BC Remedy and Stanback buy a great number of local markets when they can prove to their advertising managers that you are giving them some coverage that they are not getting too well from the regional stations.

Up and down Main St. Yes, you'll walk that road many a mile and it's a pleasant road to walk. A large percentage of your revenue will come from cooperative advertising, where the distributor or factory splits the bill with the local dealer. Many fine, well-known products will be on your station because you've convinced the dealer that he would like to advertise over your station, and he has received authority to spend so much money on your station with a split between the distributor and himself. Accounts that purchase this type of advertising for the local dealer and usually furnish the station the copy are Westinghouse, General Electric, many of the stove companies and even mattress companies. You'll learn about this very fast.

Another good suggestion would be that you subscribe to NARTB. The few dollars a month that you pay to have your station become a member of NARTB are well invested, not only for your own practices, but on the air from time to time, one announcer-engineer and two regular announcers. There's also a girl in the office, and believe me, all of these people stay mighty busy. If a couple of them happened to be sick one day, it would be rough, and it has been rough at times. But this particular operator has a very efficiently run operation for its overhead. The market is so small—$15 million retail sales—that it could hardly support more than this staff and come out in the black.

**Page 82 • May 14, 1956**
as a wonderful industry lobby as well. NARTB has a wealth of information which it sends you at the beginning and which will tell you a great deal about the operation of your station; a suggested rate card structure, suggested log sheets, types of contracts and a lot of valuable information, particularly to your program and sales staff and, of course, a great deal of information useful to your engineer, along with the rules of the FCC which he should have at his finger tips.

Our daytime station, WWIT, has no network affiliation. Our full-time local station, WHKP Hendersonville, is affiliated with ABC. We would, under no circumstances, consider going independent in Hendersonville for a number of reasons. One is that we broadcast from 5:45 a.m. to midnight and, if we had no network, we would have to add at least one member to our staff to keep the station's programs moving. Also, we have plenty of time for sale when the network is not using it and we feel that the rest time that an announcer gets while we're carrying a network program should make for a better show when he does hit the air. Also, there is the matter of prestige. Hendersonville is a growing community with many people from other parts of the country going there to settle. They are familiar with the programs of the ABC network from whence they came and we feel that this station is rendering them a real service by giving it to them in their new home; and, of course, everyone knows that for big news breaks and for outstanding productions, no local station can compete with the productions of a major network.

If you were purchasing a going radio station, how would you arrive at a fair purchase price? There are so many variables that my first advice would be to get in touch with one of the good station brokers who have very complex formulas in arriving at the fair purchase price of a radio station. If the station has a record of making good money, it is very easy to arrive at a figure. On the other hand, if the station is barely getting along or even fairly deep in debt, it becomes more complex. Not too long ago I was involved in the purchase of a station that was pretty heavily in debt and had shown no earnings over a period of several years. However, I wanted the station because of its location and because I felt that I could do something with it. After a lot of thought, we figured that the station was worth its maximum annual gross minus its indebtedness, which came to about 50% of the actual investment in the station for equipment and other considerations.

Margin of Profit

It is difficult to operate a Homeville radio station for much less than about $50,000 a year and the low rates that you get for your time with an overhead of $50,000 to $60,000 a year and a revenue of $65,000 to $75,000 there's a good margin for profit on an investment of not more than $50,000. Remember this, you are probably on the payroll, as owner, and are having a lot of fun while all this is going on.

Most of the figures used for annual gross and annual expense are from WHKP in Hendersonville, a settled station, rather than from WWIT, which has not yet been on the air long enough to have its feathers settled. We have chosen December 1955 to show the operating statement for the two stations. December is usually a better month than others, since there is a good deal of Christmas business in it.

In the Homeville radio station, public service pays off with dollars. Go after programs from your Ministerial Association, work closely with your Chamber of Commerce, when your Community Chest drive comes along, be in the middle of it. Don't let anything happen that you don't have either a mike or tape recorder there or a representative to tell the story. Be a "joiner" make everybody on the staff join. At WHKP we have two members of Rotary and one of the Lions and are very active in the Chamber of Commerce. We have a past governor of the Moore, three members of the Elks and we're busy with about everything along this line. I've just retired as president of the Chamber of Commerce; my associate, Kermit Edney, has just retired as president of the Kiwanis Club. Kermit also was president of the Apple Festival, chairman of United Appeal drive, and has just been named "Man of the Year" both by the local Veterans of Foreign Wars and Junior Chamber of Commerce.

If we've left out a lot of things that you would like to know more about, "Come up and see us sometime." We'll be glad to chew the fat with you. And if, after reading the foregoing, you still want to be a Homeville broadcaster, all we can add is, "Come on in, the water's fine."
“BABY SPECTACULARS”
Open for AA Spots!
(5 MINUTE SPOTS AVAILABLE)

NBC’s Spectaculars are seen live on the Pacific Coast, 3 hours earlier than New York time. Class AA participations are open once-a-month from 7:30 - 9 p.m. Sundays, 8-9:30 p.m. Mondays and 9-10:30 p.m. Saturdays.

CBS RADIO SPOT PROMOTES TWO

MILTON F. ALLISON has been appointed eastern sales manager, and Thomas H. Peterson, western sales manager, for CBS Radio Spot Sales, Gordon F. Hayes, general manager, is announcing today (Monday).

MR. ALLISON  MR. PETERSON

Radio Spot Sales in Chicago for the past five years, succeeds Mr. Hayes who two weeks ago was named to fill the post left vacant by Wendell B. Campbell’s resignation [B+T, May 7]. Mr. Peterson will continue to operate from Chicago. Mr. Allison was account executive with Radio Spot Sales from 1949 to last May when he became assistant to the general sales manager. Mr. Allison will headquarter in New York.

Sandison WITI-TV Sales Head

J. GRANT SANDISON has been named general sales manager of WITI-TV Milwaukee, J. I. Meyerson, station general manager, has announced. Mr. Sandison has been associated with WISN and WTMJ, both Milwaukee, and prior to that was with the Edward Petry & Co. Boston office. WITI-TV is scheduled to begin commercial operation May 21 on ch. 6.

KYSO-TV, WKY-TV Schedule Off-Air Pickup, Rebroadcast

WKY-TV (ch. 4) Oklahoma City, KYSO-TV (ch. 12) Ardmore, Okla., and NBC have devised a plan whereby the Ardmore station will pick-up, directly off-the-air, and rebroadcast selected network and local programs from WKY-TV, P. A. Sugg, WKY-TV executive vice president and manager, and Albert Riesen, general manager of KYSO-TV have announced. The Ardmore outlet is planning to be on the air by July 29.

KYSO-TV said the method of operation is “unique in that the Ardmore station is separately owned and will not be serving as a satellite or ‘slave’ station.” Negotiations for the KYSO-TV-NBC extended market plan affiliation and the WKY-TV pickup arrangement have been in progress for two years.

WTVT (TV) Plans New Studio

WTVT (TV) Tampa, Fla., has purchased the site for a new studio in St. Petersburg, Fla., according to W. Walter Tison, vice president-general manager. Located at 4th St. and 83rd Ave., construction will begin this summer. WTVT is a CBS basic affiliate on ch. 13.

Publishing Co. Names Payne

WILLIAM O. PAYNE, manager of KGU Honolulu and director of the All Islands Radio Network, has been elected vice president in charge of broadcasting for the Advertiser Publishing Co., owner of the Honolulu Advertiser, KGU, and one-half owner of KONA-TV Honolulu.

Mr. Payne is president of the Hawaiian Association of Radio and Television Broadcasters.

KMA Shenandoah, Iowa, and KMTV (TV) Omaha, Neb., staged a cocktail party in New York, following the American Women in Radio & Television convention in Boston [B+T, May 7], to introduce KMA’s Doris Murphy, women’s director, and Bettie Tolson, KMTV (TV), publicist, to agency and representative people. Among those present at the affair were (l to r): Martin Kane, Ogilvy, Benson & Mather; Mrs. Murphy; Ann Janowicz, OB&M; Dan Quinn, Doherty, Clifford, Steers & Shenfield, and Bill Maife- feld and Nick Madonna, Edward Petry & Co.

Rambeau
Hix Named KOA Manager

ROBERT S. HIX, for the past three years sales manager of KOA, Denver, has been named manager of the station, it was announced last week. Prior to going with KOA, Mr. Hix served as executive vice president and general manager of the Missouri Valley Broadcasting Corp., St. Joseph. Previously he had been general sales manager for KFH Wichita, Kan., and helped establish KAKE Wichita.

WABC-TV Increases Air Time

WABC-TV New York, ABC owned, is extending its programming schedule 6½ hours on weekends; 2½ to be added to its Saturday log and three Sunday. The new schedule goes into effect May 26, when sign-on Saturday is moved back from 11:30 a.m. to 8 a.m. and on Sunday from 11 a.m. to 8 a.m. According to Robert L. Stone, WABC-TV general manager, the move is being made to meet the competitive trend among New York tv outlets toward earlier viewing hours, to open up new periods for sales and to increase its tv service to the community.

STATION SHORTS

WTIM Trenton, N. J., moved to Brunswick Ave. and Lake Drive.

KKOK St. Louis opened new studios at 1600 N. Kingshighway Memorial Blvd. to public at grand opening party last month. Estimated 400 guests toured facilities and dined on patio and lawn. Station plans series of gatherings and tours to show new plant.

WNIB (FM) Chicago announces opening of new studio in lounge of city's Carnegie Theatre, 1010 N. Rush St. and installation of high fidelity telephone circuit connecting with transmitter in Midwest Hotel at 6 N. Hamlin St. Service is designed to provide patrons with fm service while awaiting start of motion pictures.

KSTP-TV Minneapolis-St. Paul using new six-bay antenna 600 ft. above ground, said to increase coverage by 200,000. Station says new antenna is highest structure in area.

WTAO Cambridge, Mass., reports April sales 53.3% higher than April 1955.

KRUX Phoenix, Ariz., has added third mobile unit for local coverage, supplementing 24-hour newsroom and wire service.

REPRESENTATIVE PEOPLE

Bertram C. Finch, Charlotte, N. C., manager of The Brantham Co., N. Y., appointed to firm's junior board of directors.

William P. Codus, research assistant, U. of Chicago, and Joseph P. Alley, salesman, KGLO Mason City, Iowa, to N. Y. sales staff, Weed & Co., radio representative.

Martin V. Zazuilo, editorial staff, Radio-Television Daily, named assistant to manager of radio promotion and research, Peters, Griffin, Woodward Inc., N. Y.

Robert Spielmann, sales staff, George P. Hollingbery Co., N. Y., appointed account executive on N. Y. radio staff of NBC Spot sales.

STATION PEOPLE

Norman Stewart, sales manager, WSOK Nashville, Tenn., promoted to vice president and station manager. William D. Salmon, sales staff, named sales manager.

Bill Morgan, sales manager, KLIF Dallas, Tex., appointed general manager of station.

Jimmy Childress, Carolinas station owner and manager, to WAYS Charlotte, N. C., as acting general manager, replacing James P. Poston, on leave of absence because of illness.

Richard J. Monahan, commercial manager, WAVZ New Haven, Conn., elected vice president and member of board of directors. He has been with station six years.

Dave Stockwell promoted from announcing staff to assistant station manager of WEAW-AM-FM Evansville, Ill.

R. E. Shireman, coordinator of operations, KCRG-AM-TV Cedar Rapids, Iowa, to WISN-TV Milwaukee, as local sales manager.

Dick Harris, promotion manager, KOA-TV Denver, transferred to station's local sales staff.

Rex Munger to program director of KRUX Phoenix, Ariz., Bartell station, from same post at WAPL Appleton, Wis., also Bartell outlet.

T. Edwin Pulley Jr., formerly sales manager, WHUM Reading, Pa., to sales staff, WRCV-TV Philadelphia.

Bert Downing, assistant manager of merchandising for Crosley Broadcasting Corp., named merchandising director, KYW-AM-TV Cleveland, Ohio.

Bill Scott, formerly account executive with George W. Bolling Co., N. Y., station representative, to WABC New York, in similar capacity.

A. C. Lloyd, former president, WENT Groversville, N. Y., to sales staff of KTRK-TV Houston, Tex.

Barbara Hall, WHCU-AM-FM Ithaca, N. Y., named director of women's programs, succeeding Gertrude Glover, resigned.

Bob Chase, disc jockey, WOWO Fort Wayne, Ind., to sports director.

David Smith, manager of market research for Buchanan & Co., N. Y., named to headquarters research staff of Westinghouse Broadcasting Co., N. Y.

Bob E. Lloyd, disc jockey, WGHF Hartford, Conn., to WHEC Rochester, N. Y.

C. J. Barrington, KDYL Salt Lake City, to KXLY Spokane, Wash., sales staff.

Bob Peterson, WTRW Two Rivers, Wis., to announcing staff, WNAM Neenah-Menasha, Wis.

Jack Guinan, news and sports director, WARM Scranton, Pa., to announcing staff, WTOP Washington. Ann Powley, WTOP radio, to WTOP sales service manager, succeeding Eleanor Lanigan, resigned to join NARTB, Washington. Ruth Perley, secretary,
named to replace Miss Powley as traffic director. Craig Wozney to WTOP as building engineer. Eva McKenney to station switchboard.

Gordon Owen, Salt Lake City radio-tv personality, to do two shows daily on KDYL there.

Joe Parker, announcer, KSMO Salem, Mo., to KLK Jefferson City, Mo., as newscaster and announcer.

Brooke Johns, retired vaudeville entertainer and former Ziegfeld Follies star, to emcee weekly children's show on WRC-TV Washington. Bobo Newsom, former big league pitcher, to WRC-TV for twice-weekly baseball show.

John J. Richards, film department, WEWS (TV), Cleveland, appointed film director.

Al Brightman, basketball coach, Seattle U., to KTVW (TV) Seattle-Tacoma as variety show m.c., succeeding Wally Aelskog, resigned to devote full time to radio activities in Yakima, Pasco and Walla Walla, all Washington.

Austin F. Merrill, floor director, WKRC-TV Cincinnati, Ohio, named producer-director.

Paul G. O’Friel, assistant secretary and personnel-labor relations director, DuMont Broadcasting Corp., to Westinghouse Broadcasting Co. as special assistant to industrial relations manager.

Patte Preble, vocalist and fashion model, to staff of WICS (TV) Springfield, Ill.

Judy Connors, singer, WTVN-Columbus, Ohio, resigned to join Billy May orchestra as featured vocalist.

Frank Hengerer, stage manager and technical assistant, KTRK-TV Houston has named George P. Hollingbery Co. its national representative, effective today (Monday). Completing the arrangements are (l to r) Harry Wise, Hollingbery president; Willard Walbridge, KTRK-TV vice president-general manager, and George P. Hollingbery, board chairman of the rep firm.

Steve Henry, announcer, to WDAY Fargo, N. D. Bill Moher, announcer, WDAY-TV, appointed to WDAY radio sales staff.

Evelyn Robinson and Dolores Parker, to WOV New York for midnight show, from Harlem’s Palm Cafe.

Harold P. Kane, general manager, WJOC Jamestown, N. Y., elected to city Board of Education, representing first time local broadcaster has held post.

Hal Fredericks, Chicago radio-ty personality, to WDSU New Orleans as program director.

Arthur J. Barry, president and general manager, WEDK Poughkeepsie, N. Y., is author of *Alie Dear*, to be published May 25 by Pageant Press Inc., N. Y.

Ken Albridge, disc jockey and sports director, KHMO Hannibal, Mo., father of boy, James Alfred, April 6.

W. Robert Murray, staff announcer, WTRF-TV Wheeling, W. Va., married April 21 to Patricia Lee Carnahan.

James Gates, director, KTTV (TV) Los Angeles, father of girl, Stephanie Dale, April 15.

Al Ackerman, sports director, WOOD-TV Grand Rapids, Mich., father of boy, Michael John, April 8.

Margie Klein, continuity department, WIRE Indianapolis, married April 28 to M. J. Silberman, Indianapolis.

John Stegall, sales service, KFJZ-TV Fort Worth, Texas, father of boy, Greg.

Barry Sherman, manager, WSCR Scraton, Pa., father of boy, Jan Michael.

Tom Estes, program director, WEGA Newton, Miss., father of girl, Pomela Denise.

Johnny Schneider, weather reporter, WTTM Trenton, N. J., father of girl May 2.
GOVERNMENT

FCC CONFRONTS TV NETWORKS WITH 12-PART QUESTIONNAIRE

Commission's network study staff to lay comprehensive list of questions on network returns next week. Plans are for a like interrogatory of affiliates in near future. Extensive financial data sought.

THE FCC's network study staff has prepared a 12-part questionnaire for television networks and is sending a group of three members to New York next week to have the networks try it on for size.

The questionnaire—which seeks dollars and cents figures on such items as network's compensation to affiliates as well as payments by advertisers to networks for time, programs and other services—will be followed in short order by a similar interrogatory for network affiliates, it was understood.

The FCC's prospective request for information follows by a month a similar questionnaire sent to all network affiliates by the Senate Commerce Committee. Answers to that survey were requested by May 7 (see separate story, page 90).

In addition to compensation, the draft of the FCC's questionnaire asks for criteria used in allocating payments where two affiliates overlap in coverage, investments in tv network operations, a listing of all talent contracts, and reasons for cancelling affiliations.

The staff's emissaries, who will meet with the three video networks beginning May 21, are H. H. Goldin, Warren Baum and Jesse Markham.

The proposed questionnaire is as follows:

FEDERAL COMMUNICATIONS COMMISSION
Network Study Group
Washington, D. C.
May 7, 1956

TV NETWORK QUESTIONNAIRE

1. Indicate for each television affiliate, the following information:
   a. Call letters.
   b. City and State.
   c. Channel number.
   d. Current station card rate.
   e. Homes credited to each affiliate, in determination of station rate.
   f. For the 8-week period beginning April 1, 1956:
      (1) Total converted or equivalent or unit hours credited to the station for compensation purposes.*
      (2) Gross network time sales of the station.**
      (3) Net compensation to the station.***

2. Supply detailed statement of criteria employed in rate determination, including:
   * In calculating total hours, fractions of an hour within each time class (A, B, C) should be treated as their fractional proportion of a full hour within that time class. Class B and Class C hours should be converted by using the ratios (75% and 50%) shown in the network's rate card. Participating announcements should be credited with the same fraction of an hour used in crediting compensation for these announcements to the station.
   ** Including participation.
   *** Net compensation after deduction of: free, waived, or converted hours; payments by station or debits to station for interconnection costs; failure to cover waived or free hours; or for sustaining programs; payment of ASCAP, BMI, SESAC fees; and all other similar charges.

4. Indicate for each sponsor on network in 1955 the following information:
   a. Name of sponsor.
   b. Major business activity.
   c. Gross (or net) payments to network for one.
   d. Gross (or net) payments to network for programs.
   e. Gross (or net) payments to network for other services. Specify nature of services.

5. Describe each type of discount offered advertiser. Indicate ratio of discounts to billings for groups of advertisers, viz., smallest, average, and largest network advertisers.

6. Indicate investment in tv network operations, 1950-55, showing separately major categories of investment, including talent. Indicate nature and magnitude of current financial commitments extending through future years.

7. List all talent under exclusive or primary contract, 1953-55.

8. For each tv program supplied by network in 1955, supply information with respect to following:

Expenses Revenues
Prior to going on air
First year
Second and succeeding years

9. Provide information for selected sponsors with respect to the following:
   a. Length of time these advertisers have sponsored current programs in current time segments.
   b. Length of time these advertisers have sponsored current programs for different time segments.
   c. Length of time these advertisers have sponsored different programs in current time segments.

10. Describe operation of “first refusal” rights in affiliate contracts with respect to:
    a. Latitude permitted affiliate to carry program on a delayed basis and to select alternative time period.
    b. If affiliate unable to carry program, indicate whether network typically seeks to obtain clearance from another station in locality. Indicate circumstances under which network would not seek such clearance where such other stations are able and willing to carry program.
    c. If other stations in community carries network program, indicate circumstances under which primary affiliate may recover program.

11. Provide following information with respect to each television station affiliated with your network since January 1, 1952, but not currently affiliated:
    a. Call letters.
    b. City and State.
    c. Station license.
    d. Channel number.

* Including the following categories of programs: Network produced; produced by others; produced by network in association with others.

NETWORK HEARING TO RESUME TODAY

Six witnesses definitely named to appear today and tomorrow before Senate committee with likelihood of several station operators being added to the list of witnesses.

THE SENATE Commerce Committee resumes hearings today (Monday) with testimony continuing through tomorrow mostly from industry witnesses who are unhappy about present network affiliation or other policies and practices.

The Senate committee also announced last week it has set a target date for the week of June 11 for testimony by networks and their affiliates, with the likelihood that the three tv network presidents—ABC's Robert E. Kintner, CBS' Frank Stanton and NBC's Robert W. Sarnoff—will be the star witnesses.

A staff member also indicated that hearings on several political broadcasting bills may be sandwiched in between this week's and the planned June 11 sessions—perhaps sometime during the week of June 14.

Today's witnesses are announced last week:

Bill Hoover, KTEN (TV) Ada, Okla., who indicated he will talk on tv satellite operation and will propose that a tv station must show its coverage out to the 100 uv/m contour.

Peter Rondo, David Steinberg and Mrs. Lucille Ashworth, all of New York City, but otherwise unidentified. It was understood Measor, Rondo and Steinberg represent independent interests which produce sets, props and scenery for tv shows.

Tomorrow's witnesses: Murray Carpenter, WTWO (TV) Bangor, Me. (ch. 2), which has an affiliation with CBS, and Benedict Gimbels, WIP Philadelphia, who proposed in the FCC's current reallocation proceedings that a vhf ch. "5-A" be assigned to Philadelphia and other cities. WIP is a Mutual Alliance.

Two or three other tv station operators may testify tomorrow, a committee staff member said, but these were not firm last week.

The Senate group earlier last week had scheduled Spyros P. Skouras, ABC's, special counsel to the Senate Commerce Committee, and Mr. Skouras notified the committee he could not appear because of other business, but may appear at later hearings, it was said.

Meanwhile, more than 250 questionnaires were returned to the Senate committee by its May 7 deadline and the answers of network tv affiliates are being scrutinized by the special television staff in preparation for the network phase of the hearings in June.

Where there is good cause, Kenneth Cox, special counsel for the inquiry told B&T last week, short extensions have been granted. This has been true only in a few instances, he noted. The 250 replies represent all the important network affiliates, he said.

After the staff has had an opportunity to study the responses, Mr. Cox said, a statement may be issued summarizing those answers which lend themselves to quantitative analysis. Many questions call for opinion, he pointed out, and cannot be considered as a vote.

The questionnaire went out last month (B&T, April 16) to all network affiliated television stations, contained 29 all-embracing questions. They ranged from giving the FCC power to regulate networks to inquiries regarding film buying.

SELECTIVE DEINTERMIXTURE PROCEEDINGS TAKE SHAPE AT FCC HALF-DAY MEETINGS

Commissioners are understood to have studied 168 metropolitan areas with desire to provide at least three comparable facilities in as many top markets as possible. Final plans to be formulated tomorrow at FCC meeting.

A SELECTIVE deintermixture plan—as a possible interim measure—was slowly, but apparently, taking shape at the FCC.

At two half-day meetings last week, the commission staff was understood, went down a list of the 168 metropolitan areas and voiced their individual opinions on deintermixing each one.

The result, it was understood, was a number of shifts looking toward some all-uhf markets and some all-vhf markets. Basic premise was the desire to furnish at least three comparable facilities in as many top markets as possible.

FCC meets again tomorrow (Tuesday) to take final steps on this plan preparatory to the issuance of a further notice of proposed rule-making. It is also expected the commission will begin considering a number of other, long-range proposals—such as the area plan whereby the entire East would become uhf at the end of a 10-year transition period [B+W, May 7].

At the same time, there were two other allocations events last week.

The first, seen as a straw in the wind, was the Commission's approval for ch. 12 KFRE-TV Fresno, Calif., to begin program tests. Comrs. Rockel H. Hyde and Robert T. Bartley dissented. KFRE-TV was one of the grants made by the FCC despite petitions on the part of area uhfs to make Fresno an all-uhf city.

This action believed to be an indication that the Commission does not intend to deintermix where there is an operating tv station.

Decision Last November?

It also led one highly placed FCC official to declare privately that it looks as if the Commission decided what to do last November—when it turned down all deintermixture proposals and established the overall allocations review.

The second was the meeting—the first since January—of the Senate Commerce Committee's engineering committee. This group, chaired by Sen. Warren G. Magnuson (D-Wash.), chairman of the Senate committee, which would recommend a long range "audit" of television allocations principles—preferably by an independent, scientific, non-industry organization (MIT, Stanford U. were mentioned as possible organizations). The retention of uhfs if possible was also supported, it was understood.

It is recommended, it was understood, that Congress appropriate sufficient funds to permit the FCC to contract for such a study.

Ralph Harmon, Westinghouse Broadcasting Co., was named chairman of a subcommittee to draft this plan. It is to be submitted at another meeting scheduled to be held in New York this week.

Besides Dr. Bowles and Mr. Harmon, others present at last week's meeting were William Dutcher, NBNC, and Donald Lodge, CBS; consulting engineers T. A. M. Craven, A. Earl Cullum Jr., C. M. Jansky, Stuart Bailey and Haraden Pratt; Robert Wakeman, DuMont; Don Fink, Philco. Absent was Edward F. Kenehan, FCC Broadcast Bureau chief. Frank Marx, ABC engineering vice president, was a member of the original committee, but resigned several weeks ago.

If the Commission musters a majority in favor of the selective deintermixture plan, the staff will be asked to prepare the submission of another rule-making proposal. Here, however, is there a split within the staff. One group feels that it is necessary to take official notice of each of the more than 500 comments and reply comments filed earlier this year in the allocations proceeding. This would require several weeks staff work before the required notice could be issued. The other feels that since the allocations proceedings would still be open—in that the Commission was still studying long-range plans—this detailed, legally-cautious approach is not necessary.

WNHC-TV PROTESTS DUAL-EXAMINER USE

New Haven station contends Cunningham does not have authority to appoint two examiners for same hearing.

NEW SYSTEM of appointing two hearing examiners to sit on hearing cases—started by Chief Hearing Examiner James D. Cunningham two weeks ago in the FCC-WGTH-TV Hartford, Conn., and NBC-WKBN-TV New Britain, Conn., cases [B+W, May 7]—has caused something of a legal furor.

Last week, WNHC-TV New Haven, which is objecting to both network purchases, filed a petition for review of that order with the FCC. Represented by former FCC Chairman Paul A. Porter, the station said the New Haven station claimed that Mr. Cunningham does not have the authority to appoint dual examiners; that even if he does, his designation of himself to sit with the appointed examiners was too late, and finally that there is no good reason for this departure from past FCC practice.

Under Mr. Cunningham's move late last week was WKBN-TV.

Mr. Cunningham's position is that the dual examiner principle is in the interest of expedition and efficiency. His viewpoint is that if one examiner becomes ill, for example, the hearing can be continued with the second examiner presiding. In fact, Mr. Cunningham has ordered dual examiners in three other hearing cases—two in June on two protest cases involving am radio stations in Stockton, Calif., and Salt Lake City (Dockets 11700 and 11502) and in mid-July in a competitive Michigan radio hearing case (Docket 11697-B).

At the Stockton and Salt Lake City cases, Mr. Cunningham has assigned himself to sit with Examiner H. Gilford Irion in the Stockton case and with Examiner Thomas H. Donohue in the Salt Lake City case.

In the Michigan case, he named Examiner Hugh B. Hutchison to sit with Examiner Jay Allen Kyle.

The $600,000 purchase by NBC of ch. 30 WKBN-TV will be before Messrs. Cunningham and Kyle. The $650,000 purchase by CBS of ch. 18 WGHT-TV will be before Messrs. Cunningham and Herbert Sharmarian.

Opposing the two-transfers—largely on grounds of monopoly—is WNHC-TV. Also opposing the NBC-WKBN-TV transfer is ch. 53 WRAT-TV Waterbury, Conn. WNHC-TV is affiliated with CBS and ABC; WRAT-TV with ABC.

KTVQ (TV) Renews Request To Use Educational Channel

RENEWED REQUEST to utilize reserved educational ch. 11 Tulsa, Okla., until the educational permittee is ready to commence operation was filed with the FCC last week by dark-since-December KTVQ (TV) Oklahoma City (ch. 25).

KTVQ's original petition to use the Tulsa facility until educational KOED-TV is ready to go on the air [B+W, Feb. 20] was denied by the FCC. The proposed channel-switch was strongly opposed by the Joint Committee on Educational TV and the Oklahoma Educational TV Authority (OETA), KOED-TV permittee.

KTVQ, which went off the air last Dec. 15 under court order and following continuing uhf license problems, told the FCC that if OETA's opposition to temporary use of the Tulsa channel reportedly has been withdrawn.

KTVQ said that, if granted special temporary authority to switch to the educational channel, the station would use the tower and transmitter of deleted KMPT (TV) Oklahoma City (ch. 19) and operate for the duration of the KTVQ construction permit or until KOED-TV is ready to go on the air, whichever comes first.

KTVQ asserted that it was not trying to get "its foot in the door" as has been charged by educational critics of its channel-switch proposal. The station described its plans as "a temporary expedient only for the purpose of bridging the gap" until the conclusion of the overall allocations proceedings and the hoped-for establishment of "competitive, three-station service in Oklahoma City."

New Chance for WHOI

ACTING with dispatch, the FCC last Wednesday gave a "new lease on life" to WHOL, Deln- town, Pa., granting that station's request to switch operation from 1230 to 1600 kc. The Commission action came the day before WHOL was scheduled to surrender the 1230 frequency to WEUX Easton, Pa. [B+W, May 7].

BOXSCORE

STATUS of tv cases before FCC:

AWAITING FINAL DECISION: 11
Corpus Christi, Tex., ch. 10; Miami, Fla., ch. 10; Norfolk-Portsmouth, Va., ch. 10; Peoria, Ill., ch. 9; Seattle, Wash., ch. 7; Springfield, Ill., ch. 2; Jacksonvile, Fla., ch. 12; Raleigh, N. C., ch. 5; Hartford, Conn.; Columbus, Ohio, ch. 12; Paducah, Ky., ch. 6.

AWAITING ORAL ARGUMENT: 8
Boston, Mass., ch. 5; Charlotte, N. C., ch. 9; Indianapolis, Ind., ch. 13; New Orleans, La., ch. 4; Orlando, Fla., ch. 9; St. Louis, Mo., ch. 11; McKeenport, Pa. (Pittsburgh), ch. 4; Buffalo, N. Y., ch. 7.

AWAITING INITIAL DECISION: 4
Hattiesburg, Miss. (Owensboro, Ky.), ch. 6; San Francisco-Oakland, Calif., ch. 2; Pittsburgh, Pa.; Toledo, Ohio, ch. 12.

IN HEARING: 7
Beaumont-Port Arthur, Tex., ch. 4; Biltu, Miss., ch. 13; Cheyenne, Wyo., ch. 4; Mayaguez, P. R., ch. 7; Greenhedge-Kamchi, ch. 10; Lead-Deadwood, S. D., ch. 5; Coco Bay, Ore., ch. 16.
MASSING RETIRES FROM FCC POST

Veteran of 25 years with the Commission, assistant secretary plans to enter public relations field in Washington.

WILLIAM P. MASSING, assistant secretary of the FCC since 1932 and a veteran of a quarter century as an FCC staff executive, will retire today (Monday). He plans to enter the public relations field, specializing in communications in Washington.

Mr. Massing retired voluntarily after 35 years of continuous government service, the last 25 of them at the Federal Radio Commission and its successor, FCC. He served successively as chief of the broadcast section of the License Bureau, chief of the License Division, and, in March 1952, became assistant secretary. He also served several stretches as acting secretary during vacancies in that post.

Regarded as one of the best informed men in Washington on communications generally and broadcasting in particular, Mr. Massing several years ago was urged by his friends to seek appointment to the FCC when a Democratic vacancy occurred. He asked that his name be withdrawn, preferring to continue on the staff.

Mr. Massing was born in Crawfordsville, Ind., Dec. 13, 1890. He served in the Army in World War I, afterward studying accounting, and entered the U. S. Coast Guard in 1925. On March 31, 1931, upon being honorably discharged from the Coast Guard, he joined the Federal Radio Commission to begin his government career in communications.

Mr. Massing plans a vacation with Mrs. Massing before announcing the opening of his Washington public relations office. He resides at 6233 31st Street, N. W., Washington.

Orr, Anello, L'Heureux Get New Posts at Commission

MARSHALL S. ORR, chief of the Law & Enforcement Unit, FCC's Safety & Special Radio Services Bureau, last week was appointed assistant bureau chief, succeeding Joseph M. Kittner, who resigned last month to join McKenna & Wilkinson, Washington, D. C., law firm [BT, April 16]. With time out for military service during World War II (he was discharged as a colonel), Mr. Orr has been with the FCC since 1934.

The Commission also announced that Douglas A. Anello, attorney-advisor in the Safety & Special Radio Services Bureau since 1946, has been named to succeed Mr. Orr as chief of the bureau's Law & Enforcement Unit. In a third appointment, the FCC named Robert D. L'Heureux to the post of Commission Security Officer in addition to his present duties of assistant to FCC Chairman George C. McConnaughey and liaison with Congress.

R. I. Governor Vetoes Anti-Radio-Tv Bill

GOV. DENNIS J. ROBERTS of Rhode Island vetoed a bill (H 748) last week which would have banned microphones and television cameras from courts and other public proceedings in the state.

He said he saw no need for a law so rigid that it must take precedence over the authority of a court to control its own proceedings.

The vetoed bill was sought by several broadcaster groups. In addition to the Radio-Television News Directors Assn. and NARTB, President Harold E. Fellows [BT, May 7], the Radio-Newswrel-Television Working Press Assn., New York, made a similar plea last week.

"Either we safeguard the right of the American people to be informed, or we undermine our basic American heritage," President Larry Racies wired on behalf of the latter. "Either the whole press has free access to public events, or no segment thereof can ever be fully assured of such access. Further, the newsmen of radio, newsreels and television have conclusively demonstrated that coverage of courtroom proceedings can be effected by them without endangering courtroom decorum or the proper conduct of such proceedings..."

FCC Postpones Am Grants

TWO am grants, one for a new station in Utah and one for a power increase for a California outlet, were postponed by the FCC last week pending a hearing on questions of interference. The March 7, 1956, grant of a construction permit at Salt Lake City, Utah (1470...
With the combination rate of KDUB-TV and KPAR-TV, advertisers capture most of the West Texas audience — a population and buying income greater than most "big" markets! Check this TREASURE ISLAND combination — it's unbeatable.

Combination Set Count April 1, 1956: 184,619.

Defendants Denied Review In Ettore Boxing Film Case

REFUSAL of the U. S. Supreme Court to review an adverse lower court ruling holding the Philco Corp., Chesebrough Mfg. Corp. (Vaseline) and Clayton Inc., advertising agency for Chesebrough, responsible for damages through the showing of the 1936 Joe Louis-Al Ettore fight film on television is expected to raise a host of troublesome questions regarding the telecasting of films of past public events.

The high court last week denied a petition by defendants for a writ of certiorari.

The suit, brought by Mr. Ettore, is for damages claimed in the showing of his 1936 fight with Joe Louis on the Greatest Fights of the Century film program over NBC and carried on then WPTZ (TV) Philadelphia in 1949 and again in 1950. The suit was dismissed for lack of action by the Philadelphia district court but was reversed by U. S. Circuit Court early this year [BST, Jan. 30]. Philco then owned the ch. 3 station (now NBC-owned WRCV-TV). Chesebrough sponsored the program through the Clayton agency.

The appeals court, on a two-to-one decision, held that when Mr. Ettore signed film rights to the 1936 fight (for $500) television was a new medium and not known, thus not included in the film agreement.

The Supreme Court's action thus sends the case back to the district court, which will have to determine the amount of damages due Mr. Ettore. Industry legal authorities feel that the ruling and the prospective amount of damages may jeopardize telecasts of past news and other public events where television rights were not specifically included in the film rights. The defendants are all protected by insurance.

Four Hearing Aid Firms, FTC Sign Trade Consent Decree

A CONSENT DECREE involving alleged trade practices of four West Coast hearing aid firms was approved last week by the Federal Trade Commission. The Oregon Hearing Center, Portland; the California Hearing Center and the Western Hearing Center, San Francisco, and the Washington Hearing Center, Seattle, had been cited by the commission for their alleged bait advertising and misrepresentation of product.

The agreement prohibits the firms from engaging in the advertising practices complained of by the FTC, but does not constitute an admission by the parties that they have violated the law.

Dickinson, N. D., Vhf Granted

FIRST TV station for Dickinson, N. D., was granted by the FCC last week with ch. 2 there going to Dickinson Radio Assn. (KDIX). Two other Dickinson channels, 4 and 7 (educational), are still available. KDIX plans 25.88 kw visual power with antenna 837.7 ft. above average terrain. Construction costs were listed at $266,224; first year operation costs and expected first year revenue were both set at $144,000.

MERCHANDISING ANGLES MUST BE COVERED: STONE

Producer-packager and merchandising promoter warns Yale Law School students that any phase of a program or series may become part of merchandising campaign and they must protect themselves against all eventualities.

YALE LAW SCHOOL alumnus Martin Stone, producer-packager and president of Stone Assoc., New York, in an address at his alma mater warned the prospective lawyers that they must guard every merchandising angle in connection with all phases of a program or series.

Mr. Stone said "every puppet, costume, every prop, its title . . . may possibly be picked up and merchandised; and you must cover the rights in your agreement." He is responsible for the Howdy Doody merchandising campaigns and for that of Television Programs of America. Before that he established Ka-gran Corp., now an NBC property.

Describing the "rate of payment" as the most important part of a licensing agreement, Mr. Stone conceded that the generally accepted formula is 5% of the wholesale selling price. He cautioned, however, that "this does not apply to every situation. Food, for example, will not generally bear a 5% markup . . . Novelty items will take more than 5%.

The licensing agent—intermediary between the show and the manufacturer—customarily receives 50% of the license fee for his services, Mr. Stone revealed.

Selecting a licensing agent is not the simple matter it may appear to be, he said. "When you go into a comic book proposition, for example, you will find that there are as many as 30 different publishers. You must know who the best comic book manufacturers are. You must know what terms these kind of people are willing to talk about. You must know the standard which they seek to achieve in comic books. You must know what their own position is at the moment in terms of their need for characters, and these vary from time to time." The problem occurs in merchandising other items, he continued.

"A licensing agent must also negotiate the terms. This is a long, drawn-out business. If you are too anxious, you can, of course, give yourself away for nothing; if you know the strength of your position you will negotiate for the terms that you desire.

"Another very important part of a licensing operation, and one which is underestimated, 1 think, is the origination of designs and packaging. This is where ideas pay off in the licensing business. "Most of the ideas do not come from the licitables; they are interested in a Howdy Doody or a Jackie Gleason or a Lassie or whatever it may be, but you must, in many cases, originate the item. . . . You must not always wait for the licensee to come to you. You must go to him with your ideas, with your
You hear a lot of complaints these days about high taxes. And rightly so.

But most people who complain about the tax bite are referring to their income tax. Ever stop to think about some of the other taxes you pay that aren't quite as obvious—yet they run up the bill just the same?

The taxes, for example, that you pay business as part of the cost of every product you buy.

Take, for instance, property taxes in Santa Barbara County, California. Last year they amounted to $11,897,300. Union Oil paid 5.15% of that $11,897,300. Add what the other 34 oil companies in the county contributed, and the petroleum industry accounted for 26% of the county's property tax.

I said the petroleum industry. Actually, the money came from the customers of the industry as part of the cost of product. And it's the same in every business.

That's why, every time any taxes are increased, it's really your taxes that are raised.

In the end, it all comes out of your pocket.

Dewey Shepherd speaks with more than casual authority. He manages Union Oil's tax department, and is responsible for paying our taxes to some 800 government agencies.

Today your total tax bill for government is approximately 30% of national income. This is more than a week of every month you work, and it doesn't promise to get any cheaper.

It seems to us that this kind of taxation is confiscatory. And whether it means to or not, it can cripple the free competitive economy on which it depends.

YOUR COMMENTS ARE INVITED. Write: The President, Union Oil Company of California, Union Oil Building, Los Angeles 17, California
origniations, and with your packaging arrangements.

"This requires not only an art staff, but men with ideas. You must then survey value. You must be sure that the price represents a good price for the article. You must shop it. You must talk to the buyers. You must discuss with them their problems. Chain store problems are different from department store problems.

"These are all part of a successful merchandising campaign. You must tie up with the stores, and you must give them promotional ideas. You must arouse their enthusiasm for your ideas. . . ."

BMI Political Package
Set for June Distribution

PROGRAMMING material for the national political campaign and election this year will be distributed to stations early next month by Broadcast Music Inc. The "political package" will consist of a five-hour programming, according to BMI.

To be made available will be scripts, time signals, station breaks, photographs of famous presidents, and copies of campaign songs in the author's own writing from BMI's Americas Archives.

The package includes a half-hour show, "The Rise of Political Campaigning"; seven 5-minute programs using recorded voices of past presidents; five 15-minute programs, "Famous First Ladies"; a half-hour documentary, "The First Election"; seven 5-minute programs, "A Presidential Cavalcade"; a half-hour program for TV which includes photographs; a half-hour program with holographs and photographs called "Famous Campaign Songs"; time signals; station break announcements and other materials all keyed to "get out the vote."

Smolen Heads AAP Publicity

APPOINTMENT of Jay Smolen as head of advertising, promotion and publicity at Associated Artists Productions, New York, was announced last week by Bob Rich, general sales manager, as part of an expansion program at AAP in connection with its distribution of the Warner Bros. library of feature films and shorts. Mr. Smolen, who joined AAP last Monday, most recently served as manager of advertising and promotion for the NBC Film Div.

PROGRAM SERVICE SHORTS

RCA Recorded Program Services, N. Y., has sold Town & Country Time to KTRK-TV Houston, WDAP-TV Kansas City, KTSN-TV El Paso, WMDJ-TV Marquette, Mich., and WTQV (TV) Dothan, Ala.; The World Around Us to KHOL-TV Holdredge, Neb., and WMDJ-TV Marquette, Mich., and Foy Willing & the Riders of the Purple Sage to KTRK-TV Houston, WCAX-TV Burlington, Vt., and WMFD-TV Wilmington, N. C.

Gordon McLeod, vice president of KLIF Dallas, Tex., and other McLeod stations, has given permission to Armed Forces Radio & Television Service to broadcast The Old Scotchman's Scrapbook radio series featuring "voices of the past." The 316-episode series, created and narrated by Mr. McLeod, was first heard over KLIF in 1952. Arrangements for AFRTS to use the series without cost were made through C. P. McGreger Sound Studios, Hollywood.

JAN.-MARCH TV COST $116.69 MILLION

Networks' gross time charges for first quarter of this year are 18% above same period year ago when DuMont was competing with ABC, CBS, and NBC, PIB report shows.

GROSS TIME CHARGES of the tv networks totaled $40.6 million in March, or an increase of 17% over the total grossed for that month a year ago, according to Publishers Information Bureau data. First quarter total for all three networks was $116.69 million.

For the first quarter of 1956, the networks increased their totals 18% although the now-defunct DuMont Television Network was operating in that period last year. ABC-TV racked up a 78% increase for the quarter with a $19.55 million gross billing for the three months [CLOSED CIRCUIT, April 30]. CBS-TV and NBC-TV totals increased with a similar percentage for the quarter, CBS-TV being 13% ahead and NBC-TV 12% ahead of last year's period.

In March, CBS-TV increased its gross billing by 12% over the month's total in 1955, and NBC-TV went up 13%. March also was the most lucrative month in the January-March gross billing for all the networks. CBS-TV led the three networks in both the March total and in the three-month aggregate.

The full PIB table of gross time charges for network television with March and first quarter comparisons follows:

* Revised May 10, 1956.
** Effective Sept. 15, 1955, DuMont Television Network changed from national network to local operation.

NBC-TV, Big Ten Almost Set Regional Football Schedule

NBC has reached an agreement "in terms" with the Big Ten for rights to its regional football schedule this fall—subject to ratification by the conference.

Report of the sale came after a meeting of NBC and Western Conference officials Monday and in the wake of NBC-TV's announcement of a complete sellout of NCAA's national eight-game television schedule to four advertisers. (See adjacent story.)

While neither the network nor the Western Conference revealed price of the tv rights, it was understood the Big Ten will receive somewhere less than $350,000 for the five-game schedule ($70,000 per game)—or as much as it realized from last year's rights to CBS-TV.

It was reported that the Sunbeam Corp., among others, was interested in sponsorship.

"Warner Bros. Presents" To Continue on ABC-TV

CONTINUANCE of Warner Bros. Presents on ABC-TV was announced jointly last week by Jack L. Warner, head of the film company, and Robert E. Kintner, ABC president.

During the forthcoming summer months the program will show repeats of films previously used and this fall will resume the use of new films.

Seven new "Cheyenne" stories now are in preparation for early filming, with Roy Huggins and Richard L. Bare continuing as producer and director, respectively, of the series.

$5 Million Time Sales Recorded by NBC-TV

WITH ITS SIGHTS on new business this fall, NBC last week announced new sales amounting to more than $5 million in gross billings in its daytime tv schedule. One part of the new business starts as early as next month.

Topping the sales is the sellout by the network of its 1956 schedule of eight intercollegiate football games (National Collegiate Athletic Assn. contests). Zenith Radio Corp., Chicago, through BBDO, Chicago, is the latest advertiser to sign. Zenith Sunbeam Corp., through Perrin-Paus Co.; Bristol-Myers Inc., through Young & Rubicam, and U. S. Rubber Co., via Fletcher D. Richards Inc., are participating sponsors of each game. Sunbeam and U. S. Rubber also have signed for a quarter each of five regional NCAA football telecasts.

Another sale in the $5 million billing is Brillo Mfg. Co.'s sponsorship for 30 weeks of two participations weekly on Matinee Theatre (Mon.-Fri., 3-4 p.m. EDT), starting Sept 6. Also beginning on that date, Brillo will sponsor a quarter-hour weekly of NBC-TV's planned new daily (noon-12:30 p.m. EDT) audience participation program (reportedly to be titled, It Could Be You, and tentatively beginning next month). J. Walter Thompson Co. is Brillo's agency.

Also of interest is H. Frey, NBC-TV vice president in charge of sales, also announced that the Brown & Williamson Tobacco Co., through Russel M. Seeds Co., had signed for a quarter-hour portion of the new audience participating program on alternate Fridays for 52 weeks, starting June 18.
‘Parson to Person’

A NEW title for a 15-minute weekly religious program of the interview type was selected last week when Religion in the News changed its name to Parson to Person on WKCR Waukegan, Ill., and the host is the Rev. R. Clabourne Johnson, minister of the First Baptist Church in Waukegan. According to CBS, the Rev. Johnson sent a request for the privilege of using the title to Edward R. Murrow, CBS newsman and conductor of the Person to Person show on CBS-TV.

CBS, which noted the Rev. Johnson had been looking for an appropriate title of his show and had suggested Person to Person (a change to which Mr. Murrow acquiesced), pointed out that “one of the favorites in a series of cartoons prompted by the Person to Person program shows two men of the cloth rushing into a producer’s office. The caption reads: ‘We’ve a novel idea for a Sunday television show. It’s called Parson-to-Parson.’” The original cartoon and caption appeared in B’T’s issue of March 1, 1954, and was drawn for B’T by Sid Hix.

Kefauver Faces Stevenson
On ABC-AM-TV Next Monday

A POLITICAL DEBATE—or at least a “discussion”—between Adlai Stevenson and Sen. Estes Kefauver (D-Tenn.), principal contenders for the Democratic presidential nomination, will be carried exclusively on ABC Radio and ABC-TV next Monday at 10-11 p.m. EDT, the network reported last week. They said the debate would be originated by WTJ (TV) Miami with an as yet unselected ABC news commentator as moderator.

ABC President Robert E. Kintner several weeks ago offered to make the 10-11 p.m. period available on May 24 or some other date mutually acceptable to the two candidates and NBC at about the same time offered its facilities but did not specify a date or amount of time (B’T, April 16). NBC authorities said late last week that they would provide news coverage of the May 21 event.

WTJ has been credited by Kefauver-for-President headquarters—which insisted it was not a “discussion”—with being the first to suggest a Kefauver-Stevenson “discussion of the issues.”

WISC-TV to Be CBS Affiliate

WISC-TV Madison, Wis. (ch. 3), will become a secondary interconnected affiliate of CBS-TV about July 1 and will replace WKOW-TV Madison (ch. 27) as CBS-TV’s primary affiliate in that area on Sept. 29, network authorities reported last week. WISC-TV, which is not presently on the air, is licensed to Radio Wisconsin Inc. Ralph O’Connor is general manager.

Convention Crew Size
Largest Yet, Says CBS

CBS NEWS will employ “the largest force of men and equipment in communications history” to cover the 1956 presidential nominating conventions for “the largest mass audience in the history of man,” CBS officials reported last week.

Sig Mickelson, CBS vice president in charge of news and public affairs, said CBS News’ basic plans for coverage of the conventions by CBS Radio and CBS-TV have now been completed after 20 months of work. More than 325 reportorial, production and technical personnel will work directly on the convention assignment, he said.

The Democratic convention opens in Chicago on Aug. 13 and the Republican conclave in San Francisco on Aug. 20. It will be the third time that television and the ninth that radio has covered the nominating conventions in detail.

“It is quite possible,” Mr. Mickelson said, “that some 120 million persons will see or hear part of either or both conventions on home television receivers and radios—by far the most fantastic audience ever assembled to witness a single event.” By comparison, he pointed out, approximately 10 million saw the conventions on television in 1948 and around 60 million in 1952.

He estimated that CBS News will use 22 tons of equipment in covering the two conclaves, with from 10 to 12 tons of this to be flown in three chartered planes from Chicago to San Francisco after the Democratic convention closes. Plans call for it to be dismantled, re-packed to San Francisco, set up there and in operation within less than 24 hours.

In the catalog of equipment, Mr. Mickelson hinted, may be one or more of the revolutionary new video tape recorders unveiled by Ampex a few weeks ago (B’T, April 16, at end). CBS, first purchaser of the Ampex VTR, ordered three units that are slated for delivery in August.

Use of New Camera

CBS-TV also will use a new television camera in covering the conventions. Mr. Mickelson said details would be announced later.

He also reported that CBS-TV viewers would have, at any given moment, the best picture of some 300 TV cameras—counting those handled by the all-network pool as well as those operated by CBS-TV separately—covering all phases of the convention story in San Francisco, Chicago, New York, and Washington.

Other equipment to be used by CBS News, he said, includes new “no hands” telephones, high-speed electronic calculators, and new CBS-designed walkie-talkies.

The most complex phase of the operation will be the inter-communications. In each convention city this will include an 80-position master telephone switchboard and two smaller boards connecting more than 150 telephones at 50 different locations in the convention hall and the party headquarters hotel. Twelve teletype printers will link various centers in San Francisco, Chicago, and New York, and three full-time private lines will connect CBS convention headquarters in each city with CBS headquarters in New York. In all, about 25 miles of communications wire will be needed in each city.

Westinghouse Electric Corp. will sponsor coverage of the conventions, an interim “bridge” series between conventions and the Nov. 6 elections, and the victory returns on 175 CBS-TV and 202 CBS radio stations. Ketchum, MacLeod & Grove, Pittsburgh, represents Westinghouse for the TV and radio broadcasts and will share with McCann-Erickson, New York,
the responsibility for the commercials. Under Mr. Mickelson’s overall supervision, the following are in direct charge of CBS News’ convention coverage: Elmer Lower, director of special projects for CBS-TV News and Public Affairs, who is general manager of the networks’ convention coverage; John Day, CBS director of news, who will act as managing editor for the CBS News team, and Paul Levitan, executive producer for the conventions.

Director of convention broadcasts for CBS Radio is Robert A. Skedgell, CBS News executive producer for radio. Don Hewitt will function in a similar capacity for CBS-TV.

Walker Even though veteran “anchor man,” will hold down that spot again for CBS-TV viewers. Another veteran, Bob Trout, will be anchor man for CBS Radio listeners. Some 25 other CBS newsmen including Edward R. Murrow, Eric Severeid, Charles Collingwood, Douglas Edwards, Bill Downs, Wells Church, Alan Jackson, and George Herman will join them in presenting news and analyses.

R. G. (Tommy) Thompson, CBS-TV director of technical operations, and Davidson Vorhes, CBS Radio’s manager of technical operations, will supervise the technical phases for their respective networks.

While the main news crew is in Chicago covering the Democrats, a skeleton team will be in San Francisco covering the Republicans’ pre-convention maneuvers. This group will be headed by Malcolm R. (Mac) Johnson, recently named assistant director of CBS News for television, who will be assisted by Sam Zellman, chief of the CBS News west coast television bureau.

Construction crews will start work on the various studios, newsrooms, control rooms, and the like approximately six weeks in advance of each convention. Space requirements in each convention city were estimated at a minimum of 15,000 square feet of off-the-floor working space and from 150 to 200 hotel rooms.

Introductory Rates Set For New ABC Radio Show

SPONSORSHIP information on ABC Radio’s Mysterytime program (Mon.-Fri., 7:30-7:55 p.m. EDT) was released in a presentation outlining costs for segments, discounts and programming data.

The series, which will feature a different program classification each evening, offers a special introductory rate through Aug. 31, under which one to 12 one-minute segments will cost $900 each; 13 to 51, $850; 52 to 103, $800; 104 to 155, $750; 156 to 259, $700, and 260 or more, $650. A client may combine ABC Radio’s morning segment programs with Mysterytime for frequency discounts on both morning and evening segments.

Programs within the series are: Mike Malloy, Private Eye; The Adventures of Sherlock Holmes; Masters of Mystery; Mystery Classics; and Police Blotter.

NBC, CBS Plan Seaway Show

NBC and the Canadian Broadcasting Corp. are working together to present the story of the St. Lawrence Seaway Project on NBC-TV’s Wide Wide World program of June 3, NBC Chairman Sylvester L. Weaver Jr. and CBS Chairman A. D. Dutro announced last week. The program (4-5:30 p.m. EDT) will be carried by CBS as well as NBC. The Seaway story will be the last WWW program of the current season, and the first to be devoted entirely to a single subject.

ELEVATION of Jules Dundes, general manager of KCBS San Francisco, to charge in advertising and promotion, and the appointment of Henry Untermeyer, WCBS New York sales manager, to succeed Mr. Dundes, were announced last Wednesday.

The appointment of G. E. (Buck) Hurst, contact man with sales development at CBS Radio Spot Sales, New York, to succeed Mr. Untermeyer as WCBS sales manager, is being announced today (Monday) by General Manager Carl Ward.
Talent Assoc. Ltd.,
NBC Sign Contract

A RADIO-TV program producer and packager—Talent Assoc. Ltd.—has signed a long-range program development project with NBC.

The independent firm is owned by David Susskind and Alfred Levy. The contract provides for long-term exclusive radio and tv services and facilities of the firm and the owners in the creation and production of programs for the network. The agreement reportedly is for a minimum of two years with $1.5 million the value of the services to be provided. The contract also contains options for additional service for five years.

Talent Assoc. will create and produce dramatic and musical comedy programs for both 90-minute and two-hour color spectaculars, furnish NBC with a number of new tv series and produce network programs other than those created by Talent Assoc. for NBC.

According to Mr. Levy and Mr. Susskind, Talent Assoc. will share with NBC any income from tv plays produced by their firm and later adapted for motion pictures or the legitimate theatre. In those programs created for NBC by Talent Assoc., both will share equally in the ownership of the properties.

The firm, in existence since 1948, currently produces Armstrong Circle Theatre on NBC-TV, and the list of programs with which it has been associated includes Goodyear Television Playhouse, Philco Television Playhouse, Mr. Peepers, Justice and Appointment with Adventure, all network shows.

Talent Assoc. also is producing shows for the legitimate stage and is active in feature film properties.

Clampett Wins Injunction

PRODUCER Bob Clampett won an injunction last week from Los Angeles Superior Court Judge John Ford preventing Stan Freberg and NBC from telecasting a puppet called “Grover,” which Mr. Clampett claims is an imitation of his “Cecil, the Seaside Serpent” on the Time for Beany program. Mr. Clampett in March filed a $2 million suit against Mr. Freberg and the network. “Grover” appeared on the NBC Comedy Hour but has not been telecast since the suit was filed. Mr. Freberg formerly was associated with Mr. Clampett.

Harry Trigg to Be Promoted
In NBC’s Central Division

APPOINTMENT of Harry Trigg as networks program manager of the NBC Central Div. is expected to be announced momentarily.

Mr. Trigg, networks program supervisor of NBC Chicago, will replace Alan Beaumont, who was transferred to NBC New York in a directorial capacity.

Kirk Logie, formerly with the Armour Research Foundation (an adjunct of the Ill. Institute of Technology), succeeds Mr. Trigg as networks program supervisor. He has been identified with Chicago radio-tv productions on other stations, including WBBM Radio’s Ear on Chicago.

CPRN, Pacific Conference
Sign 2-Year Exclusivity Pact

NEGOTIATIONS were completed Wednesday between the Pacific Coast Conference and the Columbia Pacific Radio Network on a two-year pact calling for complete and exclusive radio coverage of all football and basketball games as well as all spring sports at the conference universities. The agreement was described as without precedent.

Joint announcement of the contract was made by Al Masters, chairman of the Pacific Coast Conference Radio & Television Committee, and Bert S. West, general manager of KNX-Los Angeles and the Columbia Pacific Radio Network. The new contract goes into effect with the 1956 fall semester and runs through the spring of 1958.

fine friend of the family

Millions of families follow the Great Gildersleeve on TV and they buy plenty.

Especially family products like food, beverages and drugs. GILDY is already in well over 100 markets including New York, a 7-station market, where it beats all its time period competition.* and Houston-Galveston, a 3-station market, where it has a 26.2 rating.*

GILDY may still be available in your market. Call NBC Television Films.

Berman Replaces Gottlieb, Named to Higher CBS-TV Post

NAMING of Lester Gottlieb, director of daytime programs, CBS-TV, as general executive for the network's program department, and of Bertram Berman of Procter & Gamble to succeed him, was announced Thursday by F. B. Roper, CBS Jr., executive vice president for network programs. Mr. Gottlieb, who will serve in a general creative capacity with all program product, reports to Mr. Roper. He started with CBS in 1948 as a producer, was appointed director of CBS Radio programs in 1951 and in that same year became vice president of the department. Mr. Berman for the past five years has been executive producer for Procter & Gamble production department, and prior to this he was production manager for Herb Shriner and earlier in his career had been in production at WSAI and WLW in Cincinnati.

CBS News Names Two

TWO appointments by CBS News were announced Thursday by John F. Day, director of News: Malcolm R. (Mac) Johnson, CBS news editor, Washington bureau, has been appointed assistant director of news for TV, headquarters in New York, effective June 1, and James E. Roper has been named to succeed Mr. Johnson in Washington. Mr. Johnson, a veteran war and overseas correspondent, joined CBS as a news editor March 1955 and was news editor of the Washington bureau since May 1955. Mr. Roper currently is a State Dept. reporter for the Washington Star.

KHSI-TV, NBC Affiliate

KHSI-TV Chico, Calif., has reported that effective July 31 it will no longer be affiliated with NBC TV. Mr. Jolliffe, RCA outlet president of the station licensee, said the growing demand for network program time had reached the stage where KHSI-TV could no longer meet the demands of NBC and the other two networks it carries. The station is continuing its affiliation with ABC and CBS.

NBC-TV Signs Sol Hurok

IMPRESSARIO Sol Hurok, whose NBC-TV productions this past season included The Sleeping Beauty and Festival of Music, both on Producers' Showcase, has signed a new one-year contract with the network, Thomas A. McAvity, NBC-TV vice president, announced last week. Mr. Hurok will continue to create and produce other spectaculars of classical and semi-classical nature.

Europe on 'Wide Wide World'

PLANS to use European pickups for NBC-TV's Wide Wide World through kinescopes will be discussed on May 23 at a meeting between Davidson Taylor, NBC vice president in charge of public affairs; Barry Wood, director of special events, and heads of the European Broadcasting Union (Eurovision) in Gardone, Italy. The first program is scheduled to be carried on Wide Wide World in October, and will be entitled Autumn in Europe.
CBS INC. MARKS RECORD FIRST QUARTER

Net income comes close to $4.5 million, representing an increase of 14.6% over the like period in 1955.

CBS INC.'s consolidated net income for the first-quarter of 1956 was the highest in its history, chairman William S. Paley reported to the board last week. He placed the total at $4,462,783, a gain of 14.6% over the figure for the first quarter of 1955.

Consolidated net revenues and sales for this year's first quarter were up 13.7% over the comparable period in 1955, reaching a total of $88,406,663.

First-quarter earnings this year were at the rate of 60 cents a share on the currently outstanding class A and class B stock payable June 8 to stockholders of record at the close of business May 25.

Samuel R. Dean, Treasurer

Capehart-Farnsworth Co.

Bought by Ben Gross Corp.

SALE of the home entertainment manufacturing portion of Capehart-Farnsworth Co. to the Ben Gross Corp. (electrical appliance distributor), New York-New Jersey, was announced last week by International Telephone & Telegraph Corp.

Under the agreement as announced by IT&T President Edmond H. Leavey, the television, high-fidelity phonograph and radio business of IT&T's division has been purchased by the Gross firm. IT&T retains the Capehart-Farnsworth plant and home office at Fort Wayne, Ind., for use in expanding research, development and manufacturing operations of Farnsworth Electronics Co., another IT&T division.

Included in the sale are the registered Capehart trademarks, and certain other assets including the radio, hi-fi phonograph and cabinet plant at Flora, Ind.

Ben Gross will be licensed on a non-exclusive basis under certain U.S. patents based on inventions made within the Capehart-Farnsworth organization with ownership of the patents retained by IT&T.

According to IT&T's announcement, the Gross firm indicated it will continue to make products with the Capehart trademark. Disposition of present inventory and other details will be made later.

Memorial Foundation Formed

Honoring Late Maj. Armstrong

A GROUP of friends of the late Maj. Edwin H. Armstrong, developer of fm, have formed the "Armstrong Memorial Foundation Inc.," it has been announced. Purpose of the corporation is "to honor the memory of Major Armstrong by helping to perpetuate the principles that guided him in a life devoted to basic research in electronics."

In its work the foundation plans to aid in the continuation of the basic research that was carried on by Maj. Armstrong at the Columbia U. Marcellus Hartley Laboratory by contributing voluntarily to the education and training of engineers and scientists capable of doing basic applied research in electronics and related scientific fields.

The corporation will make grants of money and property to the Columbia U. School of Engineering, grant scholarships, fellowships and other forms of assistance to undergraduate or graduate students at the school, and grant money to other institutions, persons or groups not affiliated with Columbia U. for scientific purposes, including the preservation or commemoration of the inventions and research of Major Armstrong.

Offices of the new foundation are at Room 209, Philosophy Hall, Amsterdam Ave. at 117th St., New York 27.
MURROW PAY TOPS IN BROADCAST FIELD

GE President Cordiner comes closest to newsmen's $316,076-plus salary. Monetary remuneration of other officials revealed in files of Securities & Exchange Commission at Washington, D. C.

EXECUTIVES in broadcasting and related industries may be looking with envy toward newsmen Edward R. Murrow's $316,076-plus salary of last year (At Deadline, April 9), judging by their own monetary remunerations on file with the Securities & Exchange Commission, Washington, D. C.

General Electric President Ralph J. Cordiner's 1955 salary of $247,515, plus a stock allotment of $1,996,011. In addition, James B. Hunt, president, $152,514, plus $77,500 in salary of last year; and Arthur Hull Hayes, president of IBM, $157,489, plus $27,000 incentive compensation.

For the fiscal year ended April 30, 1955, Ampex paid its officers and directors $91,877.41, plus a $95,068 management fee paid to Ayala Assoc.

President and Board Chairman Allen B. DuMont received $50,000 from DuMont Labs. DuMont owns 38,601 common shares, 200 preferred and has an option to buy an aggregate of 35,000 common by 1965. William H. Kelley, vice-president-general manager, was paid $45,000 and Vice President Irving G. Rosenberg, $40,000. The company's directors and officers were paid $230,192.

The salary figures were taken from reports filed at the SEC, which is required of all organizations listed by the New York Stock Exchange.

Sylvania Buys N. H. Plant To Make Transistors, Diodes

PURCHASE by Sylvania Electric Products Inc., New York, of a plant in Hillsboro, N. H., to expand the company's manufacture of transistors and crystal diodes was announced last week by C. W. Hosterman, general manager of Sylvania's Electronics Div.

Mr. Hosterman reported Sylvania is the "largest producer" of crystal diodes, small devices used for signal detection and switching in television, radio and electronic computers, and is a "leading producer" of transistors, tiny devices used in portable radios and other applications because of their ability to amplify electrical energy.

"This year, there will be a major upswing in semiconductor manufacturing," Mr. Hosterman said, adding, "Last year the industry sold 3.75 million transistors for $12 million. This year the industry expects to sell a 9 million rate worth about $25 million."

Germanium and silicon types of diodes and transistors will be manufactured at Sylvania's new plant with operations expected to begin June 1. A total employment of 350 to 400 is seen when the plant is in full operation.

Tv 'Station' Aboard Aircraft Announced by Philco Corp.

POSSIBILITY of transmitting tv images from the earth's stratosphere—beyond the range of military and aircraft guns—was reported Thursday by Philco Corp.'s Government and Industrial Div.

Development of a compact and complete, self-contained telecasting "station" carried by a single-seat aircraft was carried out for the U. S. Air Force at the aerial reconnaissance lab of Wright Air Development Center, Dayton, according to Philco. It makes obsolete, company spokesmen said, the air-to-ground tv relay systems via slow-circling planes, as used by NBC-TV's Wide World in its Havana and Bimini pick-ups late last year.

Through development of a "unique transistor circuitry," Philco said that USAF jet reconnaissance planes may easily revolutionize the history of tactical warfare. Its first public exposure was scheduled last week for yesterday's (Sunday's) Wide World telecast remote from Elgin Air Force Base in Florida.

WCYB-TV Buys Equipment

WCYB-TV Bristol, Va., and the General Precision Laboratories Inc., Pleasantville, N. Y., have signed a contract for a station package to include three camera chains and a GPL 3-vision color film chain. Also included in the package, delivery of which is scheduled for about July 1, is 1,055 General Electric 35 inch color receiver and antenna. The price reportedly is in excess of $300,000.

McKinney to Zenith Post

APPOINTMENT of Charles McKinney, formerly with Magnecord Inc., as advertising manager of Zenith Radio Corp. was announced Thursday by Erik Isgirg, vice president and advertising director of the set manufacturer. Mr. Isgirg also indicated Zenith plans to expand advertising-promotional activities "in line with current management thinking of this expansion, it was learned, will involve television advertising. The post of advertising manager has been vacant at Zenith the past few years.

Hoffman Sales Rise 35%

HOFFMAN Electronics Corp., Los Angeles, shows a 35% increase in sales and 50% increase in net profit for the first quarter of 1956 compared with the same period a year ago, President H. Leslie Hoffman reported to stockholders April 27. Sales for the period ended March 31 were $12.16 million compared with $8.99 million for the first three months of 1955.

Motorola Sales Near Record

MOTOROLA Inc., Chicago set manufacturer, has reported sales of $53.2 million for the first quarter of 1956—the second highest figure in its history—while earnings dipped slightly to $2.01 million. Sales rose 3% from $51.8 million recorded for the first quarter of 1955. President Paul W. Gehrig also announced that Motorola plans to launch volume production of portable television sets later this year.

Admiral Reports on Quarter

ADMIRAL Corp. last Tuesday reported sales of $48,663,959 and profits of $1,310,336 (55 cents a share) for the first quarter of 1956, reflecting a sales dip and profit rise from the same period in 1955. During the first quarter of 1955, the company reported sales of $50,034,396 and profits reached $1,238,176 (52 cents a share), according to John B. Harris, executive vice president and treasurer of Admiral Corp.
WEYAND SEES GROWTH
OF TV VIDEO TAPE USE

Minnesota Mining & Mfg. vice president sees "broadly expand-
ing market" for television sound and picture signals on a single tape during annual stockholders' meeting.

DEMONSTRATIONS of video tape recorders "signal the approaching age of magnetic recording of television sound and picture signals on a single tape-a broadly expanding market for this already substantial item," a Minnesota Mining & Mfg. executive asserted last week.

Louis F. Weyand, executive vice president in charge of sales for Minnesota Mining, told the firm's annual stockholders' meeting Tuesday that magnetic tape represents one "of the new markets which are opening for established products."

Mr. Weyand cited earlier video recorder showings by RCA and Bing Crosby Enterprises and recent demonstrations by Ampex Corp., before and during the NATB convention in Chicago (B&T, April 16), noting out Minnesota "Scotch" brand tape was used in each instance.

Minnesota Mining reported 1956 first quarter sales of $75,706,190 - a 20% jump over the $63,382,946 for the same period last year and a figure second only to Minnesota Mining's 1955 fourth quarter of $79,147,713. Earnings for January-March this year were $8,632,518 ($1.04 a share) compared with $7,452,170 ($0.91 a share) the same months in 1955. Net income before federal and Canadian income taxes amounted to $17,424,518 as against $15,296,170 for the same quarter last year. A total of 8,309,816 common shares were outstanding at quarter's end.

The prospect looms for a reduction from the present $160-$200 price range of the 109 instrumentation tapes once Ampex and other video tape recorders become standardized within the industry and competition among tape-makers asserts itself. The more popular tapes now, some manufacturers report, are the one-half and one-and-a-half inch sizes for computers and one-quarter inch for audio recording. The emergence of color video tape recorders poses another cost problem, they said.

Motorola Foresees Boom

MOTOROLA Inc. plans to produce between 50 million and 75 million transistors and related products and hopes to reach a sales peak of $400 million by 1960, Paul V. Galvin, its president, said last week. He also reported that a majority of Motorola products will be produced by skilled workers within the next four years. Addressing Motorola's annual stockholders meeting in Chicago Monday, Mr. Galvin said his firm will turn more and more to military projects and plans to diversify its electronic product range.

Tyson Elected DuMont V.P.

DONOVAN H. TYSON, controller of Allan D. DuMont Labs, has been elected a vice president of the firm, DuMont President David T. Schultz announced Thursday. Prior to joining DuMont in January, Mr. Tyson held a number of top corporation posts, among them, controller of Sylvia Electric Products Inc., treasurer of Botany Mills Inc. and vice president and treasurer of Minute Maid Corp.
DU Mont Hopes to Show Profit by Year's End

David T. Schultz, president of the firm, addressing annual stockholders' meeting, says company was in red during first quarter but plans to stage comeback.

DESPITE operation in the red for the first quarter, Allen B. DuMont Labs is determined to make a comeback in the black, perhaps by the end of this year, according to President David T. Schultz.

Mr. Schultz' declaration, made at an annual stockholders' meeting held last week at Clifton, N. J., was echoed by Paul Raibourn, a director and a member of DuMont's financial committee. Mr. Raibourn also is vice president and director of Paramount Pictures Corp.

 Asked directly by a stockholder to comment on DuMont's future, Mr. Raibourn said that in "one or two years, DuMont will be back where you stockholders can be proud of it." Mr. Raibourn noted that DuMont grew very fast in the years 1949 through 1955, and thus it was "reasonable" to expect some difficulty in management during such rapid growth. Some of these troubles, he said, have beset all of the tv industry. Mr. Raibourn described the situation now, however, as very "optimistic" for DuMont to make a profit comeback.

Mr. Schultz, a former top executive of Raytheon who joined DuMont's operation last January, reviewed the past, current activity and future prospects of the company. He observed that DuMont's major reorganization last year was completed with the liquidation of the DuMont Television Network and the spin-off of the broadcast equipment, WPTO (now Washington and WABD TV) New York, as a separate DuMont Broadcasting Corp.

Looking toward the future, Mr. Schultz thought the DuMont operation would emphasize such facets as Electronicon (tv-film system), government business and Vitascan (color tv broadcasting equipment unit), among others. He said a build-up of government contracts would be one of the avenues to increasing volume.

Asked about the Ampex Videotape recorder development, Mr. Schultz said the effect of the recorder on Electronicon could not be forecast since, in the long-term, a prediction would be predicated on the path taken by Ampex. He explained that should Ampex sell in competition with the filming of features, Electronicon may become an important adjunct. At present, however, he noted that the Ampex tape machine has been earmarked primarily for delay broadcast uses in tv.

Stockholders approved the re-election of nine board members, including Chairman of the Board Allen B. DuMont, in Europe and thus not attending the meeting. Other directors are: Barney Balaban, also president and director, Paramount Pictures Corp; Armand G. Efr, with investment banking firm; DuMont Vice President Thomas T. Goldsmith Jr.; William H. Kelley, vice president and general manager of DuMont's consumer products division; Messrs. Raibourn and Schultz; Percy M. Stewart, with an investment banking firm, and Edwin L. Weist, with a New York law firm and also associated with Paramount Pictures as a director.

MANUFACTURING PEOPLE

Frank Genochin, Kaar Engineering Corp. (radio-telephones, radio equipment), Palo Alto, Calif., named sales manager, replacing Jim Hastin, now firm's sales representative for Hawaii, stationed in Honolulu. John Bradley named assistant sales manager.

Howard W. Hibbahan, formerly sales vice president, Norcor Mfg. Co., Green Bay, Wis., appointed manager of marketing, tv receiver department, Hotpoint Co., Chicago.

John M. Barker, Magnavox Co., Fort Wayne, Ind., named regional manager in San Francisco.

Frank D. Langstroth, former assistant general manager, Magnavox Co., to government and industrial div., Philco Corp., as field assistant manager.

Charles W. Markham, manager of specialty sales, Motorola Inc., Chicago, to CBS-Columbia, radio-tv set manufacturing division of CBS Inc., in similar position, headquarters in Chicago. Frank B. DeMayo, formerly associated with real estate management, investment and consumer finance organizations in executive capacities, to administrative staff of CBS-Columbia, Long Island City, N. Y.

Tv That Pierces the Darkness

RCA's new low-light television camera tube, demonstrated for the first time during the dedication of RCA's new Moorestown (N. J.) engineering plant May 4 [BWT, May 7], impressed observers with its ability to pierce almost total darkness.

In the demonstration, the image of a girl in a room with the lights off—she was invisible to observers seated 15 feet away—was picked up and projected, bright and well-defined, on a television receiver in the room.

The tube, known as a wide-paced image orthicon, was described to the Institute of Radio Engineers' convention several weeks ago [BWT, March 26]. It had not been publicly demonstrated, however, before the Moorestown dedication.

In answer to questions, officials said the tube would be much better than current tubes in covering, for instance, court proceedings and other special events indoors. It is said to be 5-10 times more sensitive than other RCA tubes developed heretofore and to be able to televise scenes and objects under light conditions as low as those of a moderately cloudy moonlit night.

The tube is being used experimentally by the military services and also will be made available commercially. It plugs into a standard tv camera.

Along with many other new developments shown at the Moorestown ceremonies, RCA authorities described, but did not demonstrate, an electronic light intensifier called the "Cat Eye," which they said is capable of seeing objects in seemingly total darkness and produce sharp and clear television pictures.

They noted that the Air Force, which demonstrated the Cat Eye some weeks ago, said it enables airmen to see in the dark with almost dayligh t clarity and is expected to become a valuable reconnaissance aid to the Air Force.

WHTN-TV

IT'S A SELLER'S MARKET, but we can give you the BIGGEST BUY yet!
TIME: Now, while we're still new ... with radio to offer low cost per impression ... choice availabilities are still open.
PLACE: Huntington — Ashland — Charleston and Portsmouth Markets. The rich, prosperous, tri-state area of more than 1,250,000 population conservatively measured from mail responses.
SCENE: WHTN-TV with the largest transmitting antenna in the world ... 316,000 watts of power for maximum effective coverage ... a built-in audience of more than 200,000 sets ... popular basic ABC network programs, outstanding local live shows and top-notch films.
ACTION: Get on our "bandwagon" and go-o-w with us! After only one month of maximum power, Channel 13 showed 36.8% audience increase over the first audience report.
CALL US: Huntington, West Virginia, Jackson 5-7681, or your representatives: Edward Paty & Co., Inc.
MANUFACTURING SHORTS

RCA, Camden, N. J., reports shipment of 12-section, superturnstile antenna to KELO-TV Sioux Falls, S. D. (ch. 11); three-section, superturnstile antenna to WESH-TV Daytona Beach, Fla. (ch. 2); six-section superturnstile antenna and 6-kw transmitter to WRGP-TV Chattanooga, Tenn., (ch. 3); 25-kw transmitter to KSBJ-TV Salinas, Calif. (ch. 8), 10 kw transmitter to WDMV-TV Hattiesburg, Miss. (ch. 9); six-section superturnstile antenna to WISCTV Madison, Wis. (ch. 3), and 2 kw transmitter to WESH-TV Daytona Beach, Fla. (ch. 2). Firm also reports shipping 3-Vidicon color film camera and 10 kw transmitter to KRIS-TV Corpus Christi, Tex. (ch. 6), and 50 kw transmitter to KGUL Galveston, Tex. (ch. 11). RCA also announces two new am transmitters type BTA-1MX rated at 1 kw and type BTA-500MX rated at 500 kw. Typical measurements indicate distortion averaging 1.7% at 15,000 cycles with ±1 db audio response to 15,000 cycles.

Westinghouse Electric Corp. announces construction will begin later this year on new plant in Bloomington, Ind., where switchgear distribution apparatus will be manufactured.

Shure Bros. (microphones, acoustic devices), Chicago, moved to 222 Hartrey Ave., Evanston, Ill.

Nems-Clarke Inc. (electronic equipment), Silver Spring, Md., has acquired new building, adding 20,000 sq. ft. of production space.

Davies Labs. Inc., Riverdale, Md., announces two new tape transports featuring wide flexibility available for reels to 10½ in. and tape widths from 14 to 2 in. in 14 in. increments with wide choice of tape speeds. Type 102 transport utilizes single or multiple spools of hysteresis synchronous motors to drive capstan. Type 103 utilizes one or two single, dual or triple speed hysteresis synchronous motors to drive capstan up to six speeds. Units take multi-channel recording heads.

Sylvania Electric Products Inc., Buffalo, N. Y., names Radio Trade Supply Co., Des Moines, Iowa, as distributor for 61 counties in Iowa.

Collaro Div., Rockbar Corp., Mamaroneck, N. Y., announces new Collaro record changer model RC-456 for four-speed operation at 78, 45, 33½ and 16½ rpm. Changer incorporates features of three-speed predecessor, including automatic intermix and idler disengagement. Price has been lowered to $34.50, attributed to expanded production facilities abroad.

Allen B. DuMont Labs' International Div. has established European headquarters in Milan, Italy, at Corso Venezia 51. James Segre, DuMont's European representative, will make his office at that address.

Hoffman Electronics Corp., L. A., announces early shipment of new Featherlite Model 1144, portable TV receiver. Unit has 14-inch screen, weighs 26 pounds and measures roughly 14x11x15 in. Hoffman light shield, designed for sharper picture, is incorporated with 14-tube chassis, said to perform 23 new functions. Suggested retail price is $129.95.

Dynamics Corp. of America, N. Y., has acquired Eldico Corp., Mineola, N. Y., producer of sideband radio transmitters.
NEGOTIATIONS have been completed between Allen B. DuMont Labs and WVET-TV Rochester, N. Y., for the purchase of DuMont's Multi-Scanner for film and slide reproduction. Slated for immediate delivery, the Multi-Scanner will be installed in the Rochester station's newly-expanded studio operation. Signing the contract are (l to r) Kenneth Peter- sen, sales manager for DuMont's Transmitter Sales Dept.; Ervin F. Lyke, president of Veterans Broadcasting Co., which operates WVET-TV, and Frank O'Connell, sales representative for DuMont.

General Electric Tube Dept., Schenectady, N. Y., in line with trend toward production of smaller and more portable tv sets, announces development of new line of tv receiving tubes said to reduce heat 25%. Tubes, drawing 450 milli-amperes of heater current, operating at 117 volts and using only 53 w, will account for lower priced sets, firm says.

General Precision Laboratory Inc., Pleasantville, N. Y., has arranged with Altec Service Corp., N. Y., for nationwide, franchised service for GPL industrial tv equipment. Arrangement will permit purchasers to contract for regular service and parts replacement.

Baldor Assoc., Cambridge, Mass., announces transistorized mixer-amplifier for remote-record-
AWARDS

Va. AP Broadcasters Present Awards for News Coverage

NEWSCASTING AWARDS, established to increase competence in the newscasting of member stations, last week were presented for the sixth year by the Virginia Associated Press Broadcasters convening at the National Press Club, Washington.

A special award was given to Phil Ellis, WPTF Raleigh, N. C., for that station's newscasting during last year's hurricanes.

The Virginia awards were divided into two classifications; metropolitan for areas with two or more stations, and non-metropolitan for those with only one station. Eighteen stations submitted 63 entries. List of award winners:

Comprehensive
Metropolitan: 1. WRNL Richmond, Roger Mudd; 2. WCYB Bristol, Walter Crockett; 3. WBOF Virginia Beach, Leo Hoarty and Wade Williams.
Non-Metropolitan: 1. WEVA Emporia, Denzel Gordon; 2. WSLS Roanoke, Jim Shell.

Commentary
Metropolitan: 1. WCYB Bristol, Walter Crockett; 2. WDBJ Roanoke, M. Carl Andrews.

Local & State
Non-Metropolitan: 1. WBOF Virginia Beach, Leo Hoarty and Wade Williams; 2. WRAD Radford, Bob Brad; 3. WSVS Crewe, Frank Watkins; 4. WBOF Virginia Beach, Leo Hoarty and Wade Williams.

Farm News
Metropolitan: 1. WTON Staunton, Jim Wooddell; 2. WRNL Richmond, Bob DeBardelaben; 3. WDBJ Roanoke, Sharps' Farm Report; 4. WCYB Bristol, Frank Raymond.

Women's News
Metropolitan: 1. WTAR Norfolk, Mildred Alexander; 2. WSYB Bristol, Alice Friberg; 3. WSLS Roanoke, Betty Bond.
Non-Metropolitan: 1. WFTR Front Royal, Drayton Norcom (Mrs. Ken Gordon); 2. WAYB Waynesboro, Maxine Huffman; 3. WMEV Marion, Miss Karl Bundy; 4. WEVA Emporia, Sallie Whitlock.

Sports
Metropolitan: 1. WRNL Richmond, Frank Messer; 2. WTAR Norfolk, Blair Eubanks; 3. WSLS Roanoke, Ed Thomas; 4. WTON Staunton, Jim Wooddell.
Non-Metropolitan: 1. WHLF South Boston, Roy Marsh; 2. WRAD Radford, Don Greene; 3. WSVS Crewe, Don Greene; 4. WAYB Waynesboro, Al Charles.

Outstanding Engineer Award
Nominations Open, ETK Says

OPENING of nominations for 1956's "Outstanding Young Electrical Engineer" by accredited colleges, the American Institute of Electrical Engineers, the Institute of Radio Engineers and private engineering employers, has been announced by the Eta Kappa Nu

on the way to Sesac Subscribers

The SESAC Library's all-new CLASSIFIED AND ALPHABETICAL CATALOG

A handy, handsome reference volume embracing a complete Classified and Alphabetical Index to the entire repertory of the SESAC Transcribed Library . . . over 5000 selections of "the best music in America"

Another service of the SESAC Transcribed Library . . . America's most complete Program Service at lowest cost.

SESAC 475 FIFTH AVE. NEW YORK 17, N. Y.
 CELEBRATING OUR 25TH ANNIVERSARY
 Producers of the Famous Sesac Transcribed Library

When you are in New York stop by 444 Madison Ave. for your current issue of B&T or call PLaza 5-8355.
**AWARDS**

Assn., national electrical engineering honor society.

Awards will be made to any engineers (not necessarily EKN members) who are under 35 and hold B.S. degrees in electrical engineering, on "a basis of social and civil accomplishment as well as technical achievements." Deadlines for the review of social and civil accomplishment may be obtained from A. B. Zerby, executive secretary, Eta Kappa Nu Assn., P.O. Drawer 447, Dillsburg, Pa. Judging will be held in late autumn.

**KVVO Wins ‘Sweepstakes’ Over 64 Other Stations**

KVVO Tulsa, Okla., has been named the winner of the Nutrena Mills Inc. (poultry and livestock feeds), Minneapolis, Minn., "Fifty-Grand Sweepstakes," a contest in which 65 radio stations in a 24-state area participated to introduce a new chicken feed. The prize was prime beef.

WCCO Minneapolis, KWKH Shreveport, La., WHO Des Moines, Iowa, and KELO Sioux Falls, S. D., were given special recognition for outstanding achievement in the contest.

The contest began Oct. 18, 1955, and ended Jan. 31, 1956. During that time, 15,000 people in the KVVO area alone showed their interest in the promotion. The object of the campaign was outlined to the stations and then they were on their own as far as method was concerned; they had Nutrena salesmen to consult with. Judging was done on the basis of tonnage sold, spot frequency, potential of territory covered by station signal, competition, overlap, etc.

Nutrena's agency is Bruce B. Brewer & Co., Kansas City.

**AAW, Hollywood Ad Club Plan TV Awards in June**

FOURTH ANNUAL television commercial awards will be presented by the Advertising Assn. of the West and the Hollywood Advertising Club at the AAW convention in Los Angeles, June 24-28.

Awards will be given for one minute or less commercials and for any length live, kinescoped or filmed. A special sweeps award will be presented to the commercial judged best of these winners.

Entry forms are available from the Hollywood Advertising Club, AAW headquarters, 425 Bush St., San Francisco 8, or from local advertising clubs throughout the West. Deadline for entries is June 1.

**Award Winners Announced In ‘Lone Ranger’ Contest**

WINNERS of The Lone Ranger 23rd anniversary $10,000 cash award contest for radio and television promotion managers have been announced in Hollywood by Jack Wrather, president of The Lone Ranger Inc.

Jack W. Schumacher, WICU-TV Erie, Pa., was winner of the top award of $2,500; Don Beedle, KVTY (TV) Sioux City, Iowa, took second place and a $2,000 award, and Chuck Olson, WREX-TV Rockford, Ill., third and $1,500.

Sponsors of the contest were General Mills and American Bakeries, who also sponsor the radio and TV Lone Ranger shows; Warner Bros. (in conjunction with the release of the feature "Lone Ranger' film production), and The Lone Ranger Inc.

Other prizes included $1,000 to Graham Jeambeary, KRTN-TV Des Moines, Iowa; $500 to Bob Peel, WHEN-TV Syracuse, N. Y.; $500 to Margaret McDonald, WBAP Fort Worth, Texas; $250 to W. E. Pendleton Jr., WMAZ-TV Macon, Ga.; James B. Chenoweth, WABT (TV) Birmingham, Ala.; Dorothy Sanders, WLWD (TV) Dayton, Ohio, and George Feldman, WFIE-TV Evansville, Ind.

Ten awards of $100 each went to Dick Westman, KUTV (TV) Salt Lake City; A. Richard Robertson, KSL-TV Salt Lake City; Billie Wise, KTRK (TV) Houston; Dale Cowle, KDAL-TV Duluth, Minn.; Fred E. Walker, WTTM Trenton, N. J.; Robert G. Fott, WCBT-TV New York City; Roy C. Pederson, WDAY-TV Fargo, N. D.; Tom Hennessey, WJBF Augusta, Ga.; Bill Walker, KBTV (TV) Denver, and William C. Rucker, WHER-TV Memphis.

This year's top winners also were top winners in last year's Lone Ranger 22nd anniversary award contest, with Mr. Beedle placing first and Mr. Schumacher second.

**WSJS-AM-TV, WMUU Win News Awards in Carolinas**

TOP AWARDS for excellence in radio and television news operations were presented to WSJS-AM-TV Winston-Salem, N. C., at the annual awards banquet of the Radio & Television News Directors Assn. of the Carolinas, held May 5 at Winston-Salem.

Winner of the excellence award for news work by radio stations of 1 kw or less was WMUU Greenville, S. C.

Runner-up in the television category was WFMY-TV Greensboro, N. C., and in the 5 kw or above radio class, WBBB Burlington, N. C., and WJMJ Florence, S. C. Runner-up in the 1 kw class was WBAW Barnwell, S. C.

**AWARD SHORTS**

Dr. Frank N. Stanton, president, CBS, to receive American Marketing Assn. 1956 Parlin Award May 15 "in recognition of distinguished achievement" in advancement of marketing.

Donald H. McGannon, president, Westinghouse Broadcasting Co., named Fordham alumnus who has distinguished himself in field of communications during past year.

Phil B. Adesso, Radio & Television Broadcasters Assn., given award of merit by United Fund. PRBTA President William B. Caskey, vice president and general manager of WPEN Philadelphia, received award for association.

Sylvester L. Weaver Jr., NBC board chairman, presented with Dartmouth College Club's "Distinguished Service to the Community" award.

Edgar Bergen, CBS personality, honored by leading broadcasting executives and performers on occasion of his 20th year as radio star during luncheon in New York held under auspices of Radio & Television Executives Society.

S. George Gallu, producer of CBS-TV's Navy Log (Tues., 8:30-9 p.m. EDT), appointed "honorary admiral in the television industry" by Navy Secretary Charles S. Thomas in special Naval citation for contribution to greater public understanding of Navy.

WMAR-TV Baltimore film department for second year took all three prizes in news film category of Baltimore Press Photographers contest. Station cameramen honored were Edmund J. Eisenheimer, first prize, and Charles Purcell, second and third.

WMRN Marion, Ohio, received fourth consecutive public interest award from National Safety Council for contributions to accident prevention.

Margaret Mary Keenney, educational director, WCAU Philadelphia, won first prize in radio scripts at "Adlander's" luncheon of Philadelphia Club of Advertising Women. She submitted Career Forum, WCAU show in its 11th year.

WCAU-AM-FM-TV Philadelphia cited by United Community Campaign for support given drive last fall.

Frank Staymaker, weatherman, WOOD-TV Grand Rapids, Mich., cited by local Fraternal Order of Eagles in civic service award for work in preparing area for April 3 tornado.

Edythe F. Meilrose, WXYZ Detroit, named Detroit's Advertising Woman of the Year by Women's Advertising Club of Detroit.

Edgar Bergen and Charlie McCarthy, CBS, congratulated in L. A. City Council resolution on contribution to entertainment during 20 years in radio.

Ed Sullivan, CBS-TV, winner of second annual award by Jewish Big Brother Assn. of Boston.

Ray Perkins, disc jockey, KJIM Salt Lake City, recognized by American Heart Assn. in award for service on disc jockey committee.

ROYAL COMMISSION HEARS SUGGESTIONS
ON HOW TO RUN CANADIAN RADIO-TV

Labor Congress, CBC and CARTB present briefs during first week of hearings. Labor group advocates divorcing broadcast ownership from that of other media, charges 'news monopoly.'

IF THE FIRST week's hearings at Ottawa are an indication, the Canadian Royal Commission on Broadcasting is going to receive a wide variety of ideas as to how radio and television should be controlled and programmed in the future. During the first week of hearings (April 30-May 5), the commission heard briefs from and questions from the Canadian Broadcasting Corp., the Canadian Assn. of Radio & Television Broadcasters and the Canadian Labor Congress.

The Canadian Labor Congress advocated the breaking up of multiple ownership of independent radio and television stations and divorcing ownership from that of other media. In some cities, the labor leaders pointed out, ownership of newspapers, radio and television stations was by one company and there was no competition. The labor unions charged this brought about a news monopoly.

The labor brief also charged that the CBC did not adequately enforce its regulations on independent stations and urged that CBC continue to control radio and television in Canada. It urged the CBC to market its programs abroad and use its own talent on all stations, with an import tariff to be placed on foreign film and recorded programs to encourage Canadian talent use.

The labor brief suggested that CBC be financed by a rising annual parliamentary grant to start at $15 a year for each tv set and $2 a year for each radio household. This would amount to $41.3 million to start, to which would be added CBC commercial program revenue for a total of about $50 million to start. Sales of tv and radio sets in the years ahead would add about $4 million a year to the statutory grant. Capital outlays should be paid out of the national treasury, it said.

The three commissioners—R. M. Fowler, chairman, Edmond Turcotte and James Wheaton, respectively—showed that they had a firm grasp on the problem by their questions and those of the commission counsel.

After the CARTB had presented its brief (BROADCASTING, May 12), General Manager Al Ouimet predicted that an independent authority as requested by the CARTB to regulate both CBC and independent stations, would impose more control over independent stations than was at present exerted by the CBC. He told CARTB officials that they are asking for a regulatory board, such as the railways have, when the railways would lie nothing better than to be rid of their regulatory body. He pointed out that such a board, after six months, would be no different than the CBC board of governors and would cost the government more money. CARTB Executive Vice Pres. Jim Allard stated that such an independent board could be paid for by the transmitter fees now charged stations, amounting to about $293,500 a year. This would now go to the CBC.

Fred Lynds, CKC-W-AM-TV Moncton, N. B., president of CARTB, answered questions of the commission regarding private radio and tv networks, which CARTB wants, by stating that the CARTB had never thought of applying for permission to set up a network. (The CBC regulations state networks cannot be operated without CBC consent in each individual case.)

CBC General Manager Al Ouimet told the commission that inadequate facilities were swelling CBC operating costs. Not knowing in advance the revenue it would have for operating in a year, CBC has been unable to do any long-term planning. Thus it has tv studios all over Toronto and Montreal, instead of having them in one or two central locations.

COLOR CONVERSION COST

Mr. Ouimet also told the commissioners it would cost about $2 million to convert present tv studios at Montreal and Toronto to color use, and about the same amount to convert CBC and independent transmitters on the tv network for color. He emphasized that once CBC gets into color tv, it will have to produce its own programs from the start, rather than depend on U.S. network imports.

Every time a new independent tv station goes on the air, it costs the CBC $100,000 a year for program distribution costs, CBC Chmn. A. D. Dunton told the commission. Commission Chmn. Fowler suggested that CBC charge independently-owned stations for tv programs.

Thus, if a second tv station is licensed in one of the larger market areas, it would buy a franchise for programs from the CBC at a price which would be profitable to the CBC.

Mr. Dunton told the commission this idea had never been considered. He stated that by law the CBC could force the stations to carry all CBC programs, but it had never been necessary. He felt it was not necessary under present circumstances to regulate the stations for the CBC programs. On the other hand, Mr. Dunton explained that if CBC programs were not available, there would have been fewer applications for independent tv stations, especially in the smaller areas.

Messrs. Dunton and Ouimet both stated that there was an unsatisfied demand for spot announcement advertising on Canadian tv, but not for programs. Canadian-produced tv commercial programs were partially subsidized by the CBC because costs to advertisers had to be kept competitive with newspaper and other media. A second tv station in a major market like Toronto or Vancouver would do well with spot announcements and imported programs, Mr. Ouimet explained.

The commissioners were skeptical about the plea of the CARTB that radio and tv stations...
should be given the same freedom from government regulation as the press. They questioned Mr. Allard at length about news content and entertainment content of programs. Comr. Stewart said: "You are blowing up this news. I get the impression from you that the entertainment is incidental to the news. How much time is given to news? I would think it would be very small." Comr. Fowler added, "you are taking this element of information and spreading it over the whole area."

CARTB suggested cutting CBC's rising costs by reducing it to a program production agency, without ownership of stations, or having it become an operator of individual stations and no network, or having it operate network stations only for artistic productions, or having the CBC become a non-operating body with government subsidy for developing such organizations as orchestra and drama groups.

CBC's Dunton pointed out that CBC could become self-supporting if it sold more commercial time and produced less Canadian programs. Imported programs from the U.S. could be obtained at far less cost than that of producing Canadian programs on radio or tv. CBC would like to see Canadian programs on radio and tv networks increase from the present 55% to 66%, he said.

5.7 Million Tvs in Britain

AS OF APRIL 1 the total licensed television sets in Great Britain was 5,739,593. Sets are increasing at a pace of 90,327 monthly. Dealers' reports indicate the set selling pace is on the decline due to the London government's anti-inflation policy of tight restriction on set rental and installment plans.

BBC Report Shows People Prefer ITA Competition

AUDIENCES having the choice between British Broadcasting Corp. and Independent Television Authority programs prefer the commercial ITA broadcasts. This is the essence of the latest BBC Quarterly Report on Viewing Trends.

Below is the average level of evening viewing among the "adult British television public" during the first quarter of this year:

<table>
<thead>
<tr>
<th>Audience of all kinds</th>
<th>Audience of those with choice of program</th>
</tr>
</thead>
<tbody>
<tr>
<td>BBC</td>
<td>16.5</td>
</tr>
<tr>
<td>ITA</td>
<td>23.9</td>
</tr>
<tr>
<td>Total</td>
<td>39.6</td>
</tr>
</tbody>
</table>

Overall figures for the period (January to March) indicate viewing has increased from a level of 14.9% in the corresponding period of 1955 to 17.0%. The later percentage gives 15.4% to BBC and 1.6% to ITA.

In absolute figures, the tv viewing public (average adult evening audience) increased from 5.6 million to 6.4 million. A gain of 200,000 is credited to the BBC audience. It is estimated that ITA audiences averaged over 600,000 adults between Jan. 1 and Feb. 18 and almost 700,000 during the rest of the quarter.

The potential British (adult) audience total rose from 12.1 million to 15.7 million from the first quarter of 1955 to the first quarter of this year, according to the BBC survey. The potential audience for the commercial ITA programs, according to the same source, has been estimated at about 1.9 million at the beginning of the quarter when only the Croydon ITA transmitter was in operation. The figure rose to three million at the end of the quarter, after the Lichfield ITA transmitter had been added.

BBC Testing Color Tv, Technical Director Reveals

SIR HAROLD BISHOP, director of technical services of the British Broadcasting Corp., after his return from the U.S. spoke before the Radio Industries Club, London, on color tv in America and on British color prospects.

Sir Harold said the BBC had an open mind on what system would be adopted. He believes it is the responsibility of the TV Advisory Committee on which the BBC, the Post Office, and the trade is represented to recommend the most suitable system.

He cited some "accusations" that the BBC is spending public money on pushing a compatible 405 line color tv system. He said that was a "misrepresentation" of the facts and that the BBC is exploring all aspects of color tv for the information of the TAC. In cooperation with the industry, the experiments would cover all bands and standards besides the 405-line system. Sir Harold revealed, adding that it would be "a long time" before a decision will be reached.

British Union Criticizes ITA For Use of American Films

EQUITY, British labor union, in its quarterly report again hit Independent Tv Authority for using tv films from the U.S. Complained Equity: "American film material is cheaper than presenting live or films of programs made in Britain. This is precisely what we feared would happen. The quota agreement is therefore one of the most important that we have ever made. It is essential that it be maintained."

The quota agreement referred to is between ITA and 14 British unions on the use of imported tv films in British commercial tv broadcasts. ITA chief Sir Robert Fraser and union delegates agreed on meeting every three months to discuss use of imported tv films by ITA program contractors.

Nielsen Toronto Branch Plans Canadian Service

A NIELSEN Canadian broadcast measurement service is in the making, Dean Prather, president of A. C. Nielsen Co. of Canada Ltd., Toronto, has announced.

According to advance plans set up at Toronto meetings held by Nielsen's network representatives of leading Canadian advertisers, agencies, stations and networks, Nielsen has developed "a tentative course of action for the progressive introduction of . . . meter-based service into the Canadian broadcasting picture."

The blueprint calls for Nielsen to work out a "detailed proposal" for the first phase, which will consist of radio and tv audience measurements of the Toronto market, and an outline of Nielsen's approach to the measurement of additional markets. Eventually, it was explained, a national service will be developed for Canadian radio and tv broadcasting.

The proposed Toronto service is to be based on metered measurements, using a combination of Nielsen's Audimeters, Recordimeters and other techniques now in operation in 30 markets in the U. S.

INTERNATIONAL PEOPLE

Heery E. Karpus, with E. W. Reynolds Ltd., Toronto agency, since 1950, has been appointed vice president in charge of radio and television.

Peter McDonald, chief of tv operations, Canadian Broadcasting Corp., Vancouver, has been moving June 1 to Toronto CBS program headquarters to handle program planning and production.

Doug A. Grout, general manager of James Alexander Ltd., Toronto station representative firm, to sales manager of radio program division of S. W. Caldwell Ltd., Toronto, Ont.

Don Neim, program director of CHFX Peterborough, Ont., and CKGB Timmins, Ont., to program director of CKWS-TV Kingston, Ont.

Jack Burgardt to chief announcer of CHIC-TV Hamilton, Ont.

Barry Penhale, CKEY and CKFV Toronto, Ont., to promotion manager of CKSO-TV, Sudbury, Ont.

George Collins to commercial announcing staff of CKCK-TV Regina, Sask.

Barry Nicholls to commercial promotion manager of CHCT-TV Calgary, Alta.

R. J. Fry, 72, Winnipeg, member of board of governors, CBC, died in hospital at Ottawa May 2 following heart attack. He was in Ottawa to attend CBC meeting.
**NBC SEeks Opera Material**

A SIX-WEEK European tour has been planned by Samuel Chotzinoff, producer, NBC Opera Company, who was slated to leave New York by air Saturday for England, France, Holland and Italy. In Europe, Mr. Chotzinoff, whose brother, violinist Jascha Heifetz, will accompany him on the first leg of the trip, will attend opera performances and hold conferences with composers in search of possible new commissions for NBC operas.

**Mayor Joins KWK-TV Talent**

A SERIES launched by Mayor Raymond Tucker of St. Louis on KWK-TV to acquaint citizens with city administration has evolved good response from viewers, the station reports. Titled Meet Your Mayor, the weekly 10-minute television program has developed a more personal interest among viewers in municipal problems, on the basis of letters, telephone calls and personal comments, as well as TV ratings, KWK-TV claims. On the program, Bob Smith, secretary to the mayor, asks questions on civic issues.

**Four-Way Motorola Tie-in**

MOTOROLA Inc. is participating in a tie-in campaign with Simmons Co., Shwayder Bros. Inc. and Greyhound Corp., to promote its new portable radio line. Keystone of the consumer promotion campaign is an advertisement titled "Vacationland USA" and showing a Simmons Beautysleep, Samsonite luggage and a Greyhound bus. Layout shows actor Dick Powell and family in vacation scenes from his new motion picture, "You Can’t Run Away From It." Under tie-in arrangement, a Motorola portable radio is shown in double-spread illustrations.

**CBS Lists Cavalcade Stops**

CBS News’ 12-man roving radio and TV reporting team—“Campaign Cavalcade”—which is covering the 1956 election story, got rolling again last fortnight, leaving New York for stops at principal campaign centers on a schedule that goes through the first week of June. The unit’s reports are being presented on CBS News’ regularly scheduled programs and on CBS Radio’s Campaign ’56, broadcast Tuesdays, 9:30-9:55 p.m. EDT. First stops were Albany, N. Y., followed by Oberlin (Ohio) College for a mock convention. Ohio Gov. Frank Lausche was interviewed in Columbus May 6 and on May 7 the unit was in Kentucky covering the political scene in that state. Other whistle stops are: Today (Monday), Cody, Wyo.; May 13, Atlanta; May 14, Florida primary; May 16, coverage of Texas’ political scene, followed by a temporary “split” of the unit, one half covering Florida’s May 29 primary and the other half traveling to California for coverage of the June 5 primary for which the Florida segment will rejoin the Cavalcade.

**WIBW Promotes Radio Week**

WIBW Topeka, Kan., is staging a promotion for National Radio Week that should leave few segments of the community unaware of this week’s significance. In three separate contests for primary pupils, junior high and high school students, WIBW has youngsters scavenging the community for the largest quantity of workout radio tubes, for the oldest working radio set and for the oldest working car radio. Students bringing in the most or the oldest by Friday win new sets and will appear on WIBW Saturday. Meanwhile, the station is supplementing air promotion with a plan whereby each WIBW employee, whenever he makes a purchase, leaves with the merchant a business card advertising radio week and the station call letters.

**‘Viewpoint’ Proves Popular**

SUNDAY listeners to WSOC Charlotte, N. C., are registering approval of an unusual approach to news commentary as reflected in the station’s Viewpoint program. Viewpoint panelists, representing spiritual leaders from three faiths, each week take an item in the news and discuss the moral aspects of it, whether it’s “Should Eisenhower Run Again,” “The Arab-Israeli Border Question” or a matter of purely local interest. Heat discussion results more often than not, with the question left open at the end of 25 minutes. WSOC hopes through its public service program to stimulate thinking and to illuminate facets of the news that are often overlooked.

**CBS to Cover Preakness**

CBS-TV will telecast the Preakness Stakes on May 19 (5:30-6 p.m. EDT) and CBS Radio will carry the event from 5:45-6 p.m. EDT, the networks report.
WDVA SUCCESSFUL BABYSITTER

AN UNUSUAL concept of service was rendered by WDVA Danville, Va., when the five-day American Automobile & Appliance Show came to town. The station took a large space in the middle of the warehouse where the show was held and converted it into a nursery, where it acted as babysitter for parents attending. Broadcasting from an outside Mother Goose "shoe," WDVA lured its littlest listeners into an area that hept up a merry-go-round and all the playground trimmings, lollypop trees, balls, even a cradle and trained nurse. Not a single kid lost a parent, WDVA reports.

KFJZ-TV GETS STORK SUPPORT

CHANNEL 11 KFJZ-TV Fort Worth, Tex., has thought of a lot of ways to exploit its place on the dial. 1D's and letterhead feature a pair of slant-nosed gentlemen who have become familiar to viewers as a pair of animated "ones." But it remained for General Manager Charles Jordan's daughter, Mrs. James Phillips, to make the most dramatic contribution of all. She gave birth to a son April 26 at 11:11 a.m. KFJZ-TV's grateful promotional department had copies of the birth certificate made to convince skeptics.

DISNEY THEME FOR ROSE SHOW

WITH THE HELP of Walt Disney Productions, the Portland, Ore., Rose Festival this year will interpret the theme "Disneyland in Flowers" during the June 6-10 festivities. The Disney organization is developing float and decoration design for the parades and pageants and all music under Disney copyright has been made available for the event. Homer Welch, NBC producer, is producing the show in the City of Roses for the fifth consecutive year.

WLS COMPARES AM, TV COSTS

The May edition of WLS Chicago's Standby newsletter makes a pointed comparison between radio and television for its "major coverage area." Newsletter reads in part: "We started a year ago with the same idea and we think WLS has something to offer you something to think about seriously, too. We added up the minimum number of television stations it takes to cover the WLS Major Coverage Area and found an advertiser needs 35 of them! But that's not all. The total cost of a quarter-hour program on them, once a week for a year, is $6,513.80 per program! A minute of time costs $3,356.90 for each minute!" The letter then goes on to suggest to advertisers that they check the station's sales department or its representative (John Blair & Co.) "on the cost of comparable coverage on WLS."

$64,000 Stickup

TWO TIPS—both by WLYC Williamsport, Pa., newscasts—helped police capture a 21-year-old parooe who robbed the Williamsport National Bank of $64,000.

The radio station is located in the bank building, and it was only a matter of minutes after the robbery occurred before WLYC newsman Bob Karnon was on the air with a description of the bandit. The description led to the suspect's identification by his employer. Later a woman listener reported to the station that she had seen a youth answering the suspect's description boarding a freight train in nearby Nesbit, a suburb of Williamsport.

Rapid work by local, state, and FBI law enforcement officials resulted in capture of the youth and the return of the bank's money.

PHILCO CLOSED CIRCUIT SET

PHILCO Corp., Philadelphia, and ABC-TV, will jointly produce a special 60-minute closed circuit telecast in about 100 cities tomorrow (Tuesday) as part of an introductory campaign for Philco home laundry equipment which will be tied with Philco's sponsorship of ABC-TV's 1956 election year-political campaign coverage.

The production, originating from New York, will star John Daly, ABC vice president in charge of news, special events, public affairs and sports and head of the network's political coverage this year; tv personality Arlene Francis and cartoonist Al Capp. It will be fed via two-way audio loops to Omaha, Atlanta, St. Louis and Denver, thence to wayside ABC affiliates. ABC said last week Philco hopes to reach 25,000 dealers with the telecast.

RAB PITCHES FOR POLITICIANS

POLITICAL candidates—or anybody else interested in influencing the public—will find radio "the low-cost vote-getter that will sell your ideas to all the voters." This is the theme of a four-page folder issued by Radio Advertising Bureau last week to its members and interested agencies. The folder points-with-pride to radio's almost total coverage; its ability to "pinpoint the voters you want"; its personalized appeal; its saturation possibilities, and, among other features, the ability of users, through radio, to "force voters to hear what they won't read or watch."

KJAN SALES SATURATES STREET

ONE HUNDRED AND ONE local Jaycees became time salesmen for a broadcast day on KJAN Atlantic, Iowa, selling 154 special packages, at $10 each and accounting for one of the station's best sales days, when extra receipts were added to regular accounts. The Jaycees, after operating the station all day on their own, took home a third of their billings to add to the organization's national convention fund.

WOOD-AM-TV AUTO SHOW SET

AUTOS dating back to 1904 are registered for the second annual WOODland Antique Automobile Tour May 19 and 20, undertaken jointly by WOOD-AM-TV Grand Rapids, Mich., and the Western Michigan Antique Car Club. Sponsoring radio and tv coverage of the two-day event are Dodge Div. of Chrysler Corp. with Spitzer Motors of Grand Rapids and Nap Sol Refining Co. for its Zephyr Gasoline. Crosley tv and radio sets go to winners in several categories, including "car having the most hard luck" along the 130-mile route.

WLOF SIGNS 100 REPORTERS

TO GET May 8 election reports to its listeners before the voting machines had cooled, WLOF Orlando, Fla., recruited a reporting team, 100 strong, from the Boone High School civics class. With enthusiastic support from their teacher, who gave class credit for the reporting duty, students were able to turn over WLOF identification cards checked voting machines for totals just before polls closed and sped the information to the station.

WADS BACKS RADIO WEEK

WADS Ansonia, Conn., a relative newcomer to the airwaves, lost no time in staging a big National Radio Day program. To coincide with today (Monday) was a dedication ceremony featuring local officials and tape recordings from U. S. congressmen representing the area, with proceedings broadcast on WADS at 6 p.m. Thursday. We take this opportunity to the week to hold open house for listeners, and local radio dealers are featuring special radio displays in their stores.

WRIT PRE-Sells SPOT NEWS

EXTENSIVE news coverage on WRIT Milwaukee is paying its way. The station has sold all remote and telephone newscasts to local automobile dealer, Walter Laev Ford. The station uses two mobile units, a panel truck and station wagon equipped with police and sheriff's radio receivers and two-way shortwave radios for spot reports. These are augmented by "beeper" phone calls to points as far away as Monte Carlo for the Kelly report, to Rome for Gina Lollobrigida and the American Embassy in Moscow.

BROKER INCREASES WDRC TIME

SHEARSON-HAMMILL CO., Hartford, Conn., brokerage firm, has been so pleased with reaction to a thrice-weekly market news program on WDRC Hartford that it has increased the schedule to five nights a week and signed a 52-week contract. The marketcast is handled by the station's news department and features direct teletyped market comments from the sponsor's New York office.

Hearing Cases . . . .

FINAL DECISIONS

KGO-FM Field, Olathe—FCC granted application of Shell Oil Co. Inc. for fm station KGO-FM Field to move transmitters to location 31 miles from Field, increase height of antenna to 1000 ft., and make it a network in a commercial & religious programming basis; Grant of license made in accordance with Part 17 of Rules In- cluding "HAC" markings and such other markings as may be recommended by Air Coordination Committee. Effective date for granting tower of KGO- FM Field shall be limited to 6 months after KGO-FM commentates operation at its new site under program test authorization; and that, until existing tower is dismantled, marking and lighting of existing tower shall be maintained as now required by provisions of its existing license. Announced May 4.

KKBX-AM Field, Calif.—FCC waived Secs. 1372 (b) and (c) of procedural rules to permit immediate consideration of application of Allentown Bestg. Corp. for new am station to operate on 1600 kc, 500 W D. in Allentown, and, by separate actions (1) granted said application with engineering conditions including acceptance of any interference that may be caused by subsequent grant of application of Colonial Bestg. Co., Elizabethtown, Pa., and (2) granted authority to July 8 to operate WHEL Allentown on 1900 kc, 250 W (D), in order to continue exist- ing service. (On April 9 Supreme Court denied Allentown Bestg. Corp.'s petition of certiorari in case of Commission action in 1953, on remand from U. S. Court of Appeals, in granting competing application of Easton Publishing Co. for 1290 kc facility in Easton, Pa.)

OTHER ACTIONS

Pine Bluff, Ark.—Hearing Examiner James D. Cunningham ordered that application of KBBP Pine Bluff, Calif., for change of location, was denied on the ground that the proposed station would create an area of multiple coverage. Filed May 8.

KSTM Stockton, Calif.—KRM Fresno, Calif.—FCC granted petition for reconsideration filed by KARM to extend of postponement effective date of the March 7 grant to May 8 to increase in D power from 1 kw to 5 kw, continuing operation on 1560 kc, 1 kw. N. D-2, by KARM, in order to make determination in hearing June 29. Made KARM party to hearing.

WXYX Sarasota, Fla.—Hearing Examiner James D. Cunningham ordered that hearing concerning application of KEXX-AM WXYX, for new station to operate on 1490 kc, 500 w D. in Bradenton, and request for further hearing on additional issue set forth in Commission Ap- prhearing conference will be held on May 28. Filed May 1.

Routine Roundup . . .

Statler, Los Angeles.

WDEE Marks 20th Year
WDEE & radio station representatives, observed its 20th anniversary last week with a
surprise party at its New York headquarters for Joseph J. Weed, the company's founder and
president. Mr. Weed was presented with an Old English wall barometer by the New York
staff of WDEE & Co. and WDEE Television Corp. Today the Weed radio and television
firms have a staff of 102 operating out of eight major cities, according to a company spokes-
man.

RTES Fete 'Grand Old Opry'
WSM-AM-TV Nashville's 'Grand Old Opry'
(ABC-TV and NBC Radio) will be honored by the Radio & Television Executives Society
at a special luncheon in New York May 21. Principl-

By Radio's No School Today program has observed its sixth birthday.

U or V, They're Both TV

This is NOT a technical journal, and our editors and writers pretend to no scientific knowledge of television signal curves or coverage contours.

But they do know a television picture when they see one.

One of our most experienced people, J. Frank Beatty, spent considerable time looking at pictures in places like Ligonier, Ind., and Tunkhannock, Pa.

They were uhf pictures.

Our man couldn't tell them from vhf pictures.

Television wasn't the only thing Mr. Beatty did in researching his two-part piece on the uhf markets of South Bend-Elkhart, Ind., and Wilkes-Barre and Scranton, Pa.

He talked with many televiewers, with tv set dealers, with advertisers, agencies and telecasters.

He found out things that signal curves won't tell you.

He found out that uhf can be made to work in both flat and rugged terrain.

He found out that the public doesn't care whether its tv is uhf or vhf; to the public they're both tv.

He found out that uhf has some problems that vhf doesn't have, but that none of them is as severe as the bairish gossip about uhf would indicate.

He found out that some of uhf's problems are directly traceable to the step-child status it has unhappily acquired in the television family. These, we suggest, would be cured if uhf were made a full member of the family, equal in position to vhf.

It will take positive action, beginning at the FCC, to install uhf in a position of security in the television household.

That uhf is entitled to such a position has been proved in those areas where uhf is operating without vhf competition. That uhf is needed to provide a fully competitive national tv system is beyond doubt.

We like the uhf pictures we have seen. There should be more of them.

Invitation to Destruction

The FCC Network Study Group, it appears, would have the television networks destroy themselves and their affiliates too.

As you will detect in a story elsewhere in this issue, the privacy of doing business in television is to be invaded. All trade secrets would be laid bare to competitors in the printed media. No phase of the economics of this new and miraculous medium, which has done so much to maintain the nation's economy in a few short post-war years, would be spared the public gaze.

The FCC may naively believe that it can keep such data to itself. But like those "confidential" statistics collected by the Commission and given to Sen. Bricker at his demand, this new information, if supplied, would find its way into the public prints and into the hands of competitors set upon raiding tv business.

A draft questionnaire prepared by the FCC staff titled "Tv Network Questionnaire" has been served the networks for review. It will be discussed with each of the three networks, separately, during the week of May 21. This questionnaire, we understand, is to be followed by another to all affiliate stations, this to enable the gleeful FCC operatives to compare the network answers to those supplied by their affiliates—a sort of entrapment process.

We will be mightily surprised if the networks, or any one of them, agree to supply the FCC's staff with all of the information wanted. We know of no specific legislative mandate to the FCC, or any other agency of government, to disclose information that could be used against telecasters by their competitors. There's serious question whether the FCC has the authority to collect those annual statistics from networks and stations, solicited with the commitment that their confidentiality will be respected, but which were released in distorted fashion a fortnight ago by Sen. Bricker in his vitriolic attack upon CBS and NBC.

The FCC, we assume, will argue that if it is to make a study of purported monopolistic trends in television, it must have full economic data available to it. Certainly it should have basic network-affiliate contracts, details on option time and how it works, and other related data (most of it already in its files). But should it get into such business aspects as criteria used in rate determinations, volume discounts to advertisers, talent contracts and costs, production costs, and other data which falls strictly in the categories of private contractual relations?

The new invasion comes hard on the heels of the Bricker diatribe, the disclosure [BET, May 7] of an intensive FBI investigation in New York and Hollywood of purported antitrust violations by the networks, the Senate Commerce Committee's own exhaustive questionnaire to tv network-affiliated stations to air their complaints, replies to which were due last week, and the confidential gum-shoeing of several House committee staffs. The urge to get into the television investigation act has obviously reached epidemic proportions.

Release of confidential information, collected with the understanding that no individual station or network data would be disclosed, is a breach of faith. Collection of private contractual data which, if made public, could injure if not destroy a new medium by aiding and abetting its competitors is, we think, immoral and illegal.

Broadcasters are individuals. They have constitutional rights. The first law of nature is self-preservation.

The networks should decline to give their trade secrets to the FCC or any other agency of government in the absence of a specific instruction from Congress or until there is clarification by Congress as to what should or should not be collected.

Studio Lobby

Why, broadcasters will ask, are our national legislators so ill-informed, if informed, on broadcasting? Why, particularly when no political candidate these days can hope to be successful without using radio or television or both?

The answer will be found largely in the broadcasters' own derelictions. Instead of having an announcer or a production man escort the candidate (or the congressman) to the microphone or camera when he buys or is given time, the station owner or manager should do the honors. That would give the broadcaster the opportunity to get acquainted, indoctrinate the candidate on the station's operations and on the vagaries of the broadcasting business and of its regulation.

J. Leonard Reinsch, executive director of the Cox radio and television stations, and radio-tv advisor to the Democratic National Committee, said it loud and clear at the recent NARTB convention in Chicago. He advised stations to develop close contacts with candidates, reminding that "all congressional investigations are headed by congressmen and senators who were candidates in 1954, 1952 or 1950." That means that broadcasters, in a span of two to six years, have the opportunity of talking with and selling all members of the Senate and all members of the House one or more times, in their own offices and studios, when they aren't plagued by office pressures and should be receptive to learning about broadcasting in its own environment.

To which might be added that it's good business to maintain contact with all candidates; one of them is bound to be the winner.

Broadcasting • Telecasting
Creative Selling in an Expanding Market!

In the St. Louis area Creative Selling can and does replace the older idea of just "supplying a demand".

As a market the St. Louis Area is the scene of intense activity with new highways, new housing projects like the above, and now the expansion that will come from recently approved bond issues of $110 million in the City; and another $40 million in the County.

In St. Louis and the vast surrounding area KWK-TV has become tops* among TV audiences . . . the dominant influence television-wise for selling the expanding St. Louis Market.

KWK-TV St. Louis channel 4

represented nationally by THE KATZ AGENCY, INC.
