KNORR BROADCASTING CORP.
You are looking at the fastest growing Industrial Market in the World
... the GREATER WHEELING MARKET

Ohio Bell Telephone is in the midst of a $500,000 expansion! The Manufacturers Light & Heat Company is spending $750,000 for new gas facilities! The Pennsylvania Railroad is extending track to service the new Olin-Mathieson Aluminum Plant at a cost of FOUR MILLION DOLLARS! These, and many more expansions are taking place RIGHT NOW in the Greater Wheeling Market, America's fastest growing market. In fact, even conservative estimates set a figure of 450 MILLION DOLLARS in proposed expenditures in the Upper Ohio Valley in the next three years!

In this rich industrial area with an annual spendable income of TWO BILLION DOLLARS, comprising 312,400 TV Homes, WTRF-TV has, by every accepted method of audience measurement, been proved the most popular TV station by a wide margin. Current Pulse figures show TWELVE of the top 15 "once-a-week" shows and SEVEN of the top 10 "multi-weekly" shows are on WTRF-TV!

Another Award for WTRF-TV

WTRF-TV has won a 1956 "PowerStyle" Chrysler, first prize in the nationwide "It's a Great Life" promotion competition. This is the SIXTH first place award in national station promotion contests won by WTRF-TV in less than 24 months.

Telepulse Report - Dallas Metropolitan Area
April, 1956

Owners and operators of KRLD - 50,000 Watts, The Dallas Times Herald Station, Herald Square, Dallas 2, Texas.

JOHN W. RUNYON, Chairman of the Board — CLYDE W. REMBERT, President

REPRESENTED BY THE BRANHAM COMPANY
ALL’S NOT LOST • Don’t write off entirely overall crash programs for uhf development, despite failure of NARTB, RETMA and ad hoc committee to finalize project [B&T June 11]. All are agreed, it’s understood, that far-reaching research program is essential first step. It’s now question of scope and financing. Neither group, however, was disposed to go along with ad hoc committee original proposal that million dollar study be instituted going into social and economic as well as technical research to be handled at Massachusetts Institute of Technology (at which Dr. Edward Bowles, committee chairman, is professor).

MISGIVINGS over Bowles’ ad hoc committee proposal were expressed in inner broadcast circles because it’s felt that it would go back conceivably to such fundamentals as whether there should be American plan of commercial broadcasting or some other method of control and operation. This is viewed as far beyond mandate from Chairman Magnuson of Senate Commerce Committee who had in mind getting benefit of technical opinion as to how best utilize available television spectrum space to provide competitive nationwide service. It’s now expected ad hoc group will recommend to Senate Commerce Committee, in report to be submitted by month’s end, that research program be undertaken as starting point.

11th HOUR • Twice-a-week hours of network television and radio—all three tv and most radio networks—will be filled with paid political broadcasts Nov. 5, night before elections, if plans of two major political parties work out. Republican National Committee is buying 11 p.m. to midnight, and Democratic National Committee reportedly is asking for full-hour before that. BBDO, New York, is agency for GOP; Norman, Craig & Kummel, New York, for Democrats.

AT LEAST SOME Negro-audience stations, being queried by Republican National Committee for availability for nine-week pre-election spot announcement campaign [B&T, May 21], are disturbed by what they describe as “suggestions” that they should “not slant” political news but play it fairly as between GOP and Democrats. They take it as unwarranted assumption that they’re politically one-sided.

PROMPT FOR PAY • Not unexpectedly, CBS Radio is getting quick acceptances from affiliates on its plan to restore part of past years’ cuts in compensation during year starting Aug. 25 [B&T, June 11]. And enthusiasm of stations is pleasing network officials as much as speed of their responses. Though new contract amendments weren’t mailed out preceding weekend, meaning affiliates didn’t receive them until Monday or Tuesday, total of 101—all that had been heard from—had returned (or promised) signed agreements by Friday. These represent 62.95% of network’s total rate card. With 85% of total rate card necessary to put plan into effect, those promised and in hand represent 73% of volume needed by this Friday’s deadline.

THERE’S MORE than meets eye in meeting called Friday of NBC Radio Affiliates to be held in New York June 29. Announcement of meeting came after high level discussion between NBC brass and Lester W. Lindow, newly appointed committee chairman. Plan for session had been in works long before CBS Radio announcement of increased compensation to affiliates [B&T, June 11, see editorial, page 130].

DELAYED • Senate Commerce Committee met last Wednesday in regular executive session but did not act on nomination of T. A. M. Craven to serve seven-year term on FCC beginning July 1. Action was deferred, it’s understood, because one Senator asked for opportunity to read record of June 7 hearing before Senate Communications Subcommittee prior to consideration and particularly since there’s still time before term of Conn. E. M. Webster expires June 30. Special meeting called for Thursday (June 21) with confirmation regarded as virtual certainty.

EDWARD JARRETT, chief clerk of Senate Interstate & Foreign Commerce Committee, shortly is expected to take leave of absence to accept appointment as chief aide to J. Leonard Reinsch in handling of Chicago Democratic National Convention. Mr. Reinsch, executive director of Cox radio and tv stations, fortnight ago was named assistant chairman of Democratic Committee and convention manager [B&T, June 11, 4]. Mr. Jarrett’s appointment was requested of Chairman Magnuson (D-Wash.) of Senate Committee by Paul M. Butler, chairman of DNC, and is expected to be effective about July 1.

TROUBLE IN WIND • Jurisdiction dispute brewing between IBEW and IATSE locals in Hollywood over representation of cameramen on tv film lots may wind up in Washington before AFL-CIO executive council for arbitration. IATSE has entrenched at major movie studios for years; IBEW in radio-tv. IBEW Local 45 there is openly making play for independent tv film but IATSE Cameramen’s Local 659 is protesting.

ONE of the ideas being considered by those working on revision of program categories in FCC renewal forms (see story page 94) is to have stations report on program activities in narrative form. This would be radical change from present practice which requires stations to specify in percentage figures amount of entertainment, educational, religious, agricultural, etc., time broadcast.

PUBLIC PLUNDER • Those treasure hunt activities rocking Minneapolis and Omaha radio circles gave rise to this quick last week: that Minneapolis and Omaha are the only cities in the U. S. where listeners are being paid more than talent.

COMMERCIAL sponsorship of Hollywood’s sacred Oscar awards on tv has been constant thorn in side of movie industry which considers it theatre property and money shouldn’t mingle any place but boxoffice. Plan whereby studios themselves will pick up tab for annual NBC-Tv shows will be put before industry this summer by Academy of Motion Picture Arts & Sciences.

REVAMP COMING • Weekday, NBC’s daytime program which has been controversial issue with affiliates virtually from its start, currently is undergoing rigid reexamination. There’s strong likelihood of complete change in format in next few weeks.

CBS-Tv Hollywood is considering 90-minute versions of two of its half-hour film series as candidates for exposure next season on new Playhouse 90 venture. Gunsmoke and Cavalry Patrol, both produced by Charles Marquis Warren, may get unique enlargements. Cross-publicity value is one factor involved.

KAYE IN MARKET • Sammy Kaye, bandleader and star of own radio-tv show, interested in buying several independent radio stations. Wheeling and dealing would be in addition to his swing-and-sway bandleading.

MUTUAL OFFERS TO SPLIT ALL PROFITS WITH AFFILIATES IN NEW NETWORK PACT

MBS Friday unveiled new "share the wealth" concept in connection with proposed network-affiliate plan by which stations would derive percentage of all network profits (after operating costs) based on percentage which station rate bears to total rate card of network. Plan was unfolded at regional meeting of midwest Mutual affiliates in Chicago by John Poor, executive vice president of network.

Network also offered two additional proposals for affiliate contracts, slated to become effective Nov. 1. First, its block music program, so hot in network's recent marketing drive, was to be made available at cost of $2,500. Second proposal, effective Nov. 1, is "automatic" plan, under which affiliates are urged to buy or adapt equipment, making it possible to integrate network shows with local spots or breaks for evening and weekend programming hours. Stations may choose or reject plan. MBS officials suggested use of "silent sensing strip" with tape recorder (viz., Ampex) and record changer assembly (like Seeburg's). Stations could pre-record cut-in announcements and breaks. Mr. Poor said unit would cost about $2,500 but could be put together for less.

Mutual affiliates informally differed on merits of proposed new contract, which calls for them to "preciate" 16 hours of network time weekly in return for 15 hours of weekly free programming (without talent costs) for local co-op sale, with 35 hours weekly total option time period. One broadcaster said he felt proposal went beyond that, to the extent of selling programs and not spots. Others expressed interest in plan and MBS executives reported favorable reaction. List of "preciate" and co-op programs (those for local sale) in news drama and special feature categories also outlined for affiliates similar to types reported on eve of NARTB convention (BW, April 16).

Mr. Poor and other executives described new network plan as "realistic radio" concept, with "as fair and honest a contract as any network ever offered." He said that with the "share the wealth" plan a $1 to $2 million revenue after operating costs "is not fantastic."

CHOTINER DESCRIBED AS INVESTIGATOR, NOT INFLUENCER, IN FRESNO TV CASE

SENATE Investigations Subcommittee investigators have been told that Murray Chotiner, California lawyer who was Vice President Richard Nixon's campaign manager in 1952, was briefly engaged as investigator—with explicit understanding that he was not to attempt to influence outcome of case—by lawyer for winning applicant for ch. 12 Fresno, Calif.

Mr. Chotiner told reporters June 7 he had been subpoenaed to give subcommittee his records "pertaining to certain television companies," but he did not identify them further.

B&T learned Friday that subcommittee investigators have been given this report by W. Theodore Pierson, attorney for KFRE Fresno, which won ch. 12 there.

In fall of 1956, after FCC examiner had recommended grant to rival applicant, KARM Fresno, KFRE's President Paul Bartlett advised Mr. Pierson he had decided to withdraw from case, but did not identify reason.

B&T learned Friday that subcommittee investigators have been given this report by W. Theodore Pierson, attorney for KFRE Fresno, which won ch. 12 there.

TIME'S NOT FREE, KINTNER TESTIFIES

THERE'S no such thing as "free" tv network time for political candidates, ABC President Robert E. Kintner told Senate Commerce Committee Friday during hearings on committee's probe of networks and uhf-vhf troubles. If network donates time to political parties it is making financial contribution to them, he said.

Kintner's remarks came after Chairman Warren G. Magnuson (D-Wash.) said Republicans have lot of money and Democrats little. Sen. Magnuson said he thought it's problem where networks can "help," and asked: "You wouldn't go broke on a couple of hours [free time], would you?" He added that Congress will "have to take some action" on political time bills "before we get out of here."

Mr. Kintner said best networks can do is make sure both parties have equal access time and if party doesn't reserve tv time beforehand, there's little network can do.

ABC president said he didn't believe color tv would pay national sales for about six months in the fall of 1957, with perhaps 4.5 million color sets. He thought tax exemptions on all-channel sets would help uhf.

Although ABC wants government action to assure three outlets in top markets, Mr. Kintner said, it's only as alternative that network would ask that existing outlets be made available for some ABC programs.

Mr. Kintner also expressed these views: "Everybody talks about the power of networks but nobody talks about power of stations"; ABC screens its advertisers beforehand for possible bait-switchers; ABC believes in network's right to editorialize but isn't prepared to do so just now.

Key to network-affiliate relationship, Mr. Kintner said, is that affiliate in signing contract takes "affirmation" not affiliation in network's programming. He didn't think independent producers should have same access to outlets as networks because latter provide "national programming."

Neither did he think network program performance should be subject to FCC review, but that station licensees should have responsibility. He felt if ABC lost one of its five owned stations it would "have a devastating effect on us."

PEOPLE

ROLAND P. CAMPBELL, vice president of advertising, Andrew Jergens Co., Cincinnati, returns to Post Cereals Div., General Foods Corp., White Plains, N. Y., as advertising manager, after four years absence.

NORT WYNER, assistant to Emil Mogul, president of Emil Mogul Co., N. Y., to Monarch Wine Co. (Manischewitz), Brooklyn, N. Y., as advertising and sales director. Monarch is Maxwell account.

BILL STILES named general manager of KL RJ-TV Las Vegas, Nev. He previously was commercial manager of KZTV (TV) Reno, Nev.

JOE DRILLING, business manager, named general manager of KJEO-TV Fresno, Calif.

BOB CRANE, early morning personality on WICC Bridgeport, Conn., to KNX Los Angeles July 15 replacing RALPH STORY. This fall Mr. Story plans to enter tv film production.

Radio Is 'Primary Medium' Pardoll Tells Broadcasters

RADIO should sell itself as "primary medium it is" rather than as secondary medium, Arthur Pardoll, director of broadcast media, Foote, Cone & Belding, New York, told District of Columbia and Maryland Broadcasters at convention meeting in Ocean City, Md., Friday. Mr. Pardoll urged industry-sponsored survey of listening habits as radio's greatest current need. He urged greater attention to programming and better presentation to agencies and accounts.

Free access by radio and television to Maryland state legislature proceedings, as well as city and other state and local council proceedings was advocated by Sen. Louis Goldstein, president of Maryland Senate, who told meeting he would introduce legislation to this end in current assembly session. He suggested that if it worked in Maryland, it could be adopted by all states and possibly Congress.

Alvin Q. Ehrlich, vice president in charge of radio and tv, Kal, Ehrlich & Merrick, Washington, urged stations to establish package prices on daily, weekly, monthly and yearly discount schedules. He admonished against double and triple spotting.

Closing Saturday session was addressed by Joseph McDonald, treasurer, NBC, on "Political Sale"; Thad H. Brown, WATV Robinson, NARTB; Leland S. McCarthy, Washington, Better Business Bureau, and Sol Taishoff, BT edito-publisher.

SAG Gets Shorter Week

SCREEN ACTORS GUILD Friday announced revision of existing contract with 300 producers of tv films substituting 5-day, 44-hour work week for 6-day, 48-hour week. Unchanged: $285 weekly minimum by established last summer. Saturday and Sunday become double time days. Theatrical movie studios went on 5-day week last March.

Moyers Seek Miami Am

APPLICATION filed with FCC Friday for new daytime station in Miami, Fla., on 1260 kc, 5 kw. Applicants are Keith Moyer (70%), his wife, Frieda (5%), and his brother Roger (25%). Keith Moyer holds majority interest in WTVM Taylorsville, Ill. (55%); WBBA Pittsfield, Ill. (55%), and WATY Robinson, Ill. (51%). Roger Moyer owns drive-in theatres and 39% of WATY. Proposed Miami outlet would cost $31,000 to construct, $48,000 to operate first year, application estimated. Expected revenue was listed at $36,000. Miami now has nine operating am stations.

Four Stations, $435,000 Involved in Newest Sales

SALE of WPAL Charleston, S. C., by George G. Weiss and associates to Spiegel-Fisher Broadcasting Co. for about $125,000 announced Friday, at same time applications for FCC approval filed for transfer of:

- WWPB Miami, Fla., from Paul Brake to William M. O'Neil for $160,000.
- WDXB Chattanooga, Tenn., from Joseph Bloom and associates to French Inc. (Carlson S. and son, Stephen C. French) for $100,000.
- KSHO-TV Las Vegas, Nev., from Moritz Zenoff and associates to Speidel-O'Neil for $160,000.

Purchasers of WPAL (1 kw daytime on 730 kc to WJ Joe Speidel III and Albert T. Fisher Jr., owners of WOIC Columbia and WQOK Green ville, both S. C. Transaction negotiated by Blackburn-Hamilton, station brokers. Sale is subject to usual FCC approval.

William M. O'Neil, buyer of WWPB (250 w on 1450 kc), is son of William O'Neil, president of General Tire & Rubber Co., and brother of Thomas O'Neil, president of RKO Teleradio Pictures Inc. (General Teleradio radio-TV stations, controlling stockholder in MBS, and owner of RKO Pictures). Sale is to WSKP Inc., 100% owned by Ohio Music Corp. (75% owned by Mr. O'Neil and 25% by Jack W. Lemmon, formerly associated with Mr. O'Neil in ownership of WJW Cleveland). Payment is $36,400 in cash with remainder over five year period.

In Chattanooga transaction (250 w on 1490 kc), elder Mr. French is 22.4% owner and vice president of H-R Representatives, station representative firm. He will resign from H-R post. He also owns 33½% of WATO Oak Ridge, Tenn.; 10% of WJAF Lafayette, Tenn. Younger Mr. French is manager of WNOE New Orleans. Payment is $40,000 cash, re-

minder to be paid over five year period.

BALD ADMISSION

CONFESION that Hollywood stars are using tv "promotion and news" as pure commercials for movie box office is baldly spelled out in full page trade advertisement by Paramount last week citing Bob Hope NBC-TV spectacular yesterday (Sun.). Ads said spectacular plumbing "That Certain Feeling," "hits the peak of the most intensive drum beating ever done by any star for a motion picture. Additional millions of ticket buyers will be turned toward box office. . . "

EXECUTIVE CHANGES being announced today (Mon.) by CBS involving tv network, KNXT (TV) Los Angeles and CBS Television Spot Sales. James T. Aubrey, general manager of KNXT and Columbia Television Pacific Network, takes over newly-created post of manager of network programs, CBS-TV, Hollywood. Succeeding Mr. Aubrey is Clark George, tv spot sales' general manager. Mr. George's post in New York is being filled by John Schneider, eastern sales manager of CBS-TV Spot Sales.

New shift is designed to strengthen CBS-TV's Hollywood organization during current growth, indicated Alfred J. Scalpone, vice president in charge of network programs, Hollywood. Mr. Aubrey's appointment follows recent merger version of denim and network programs in Hollywood.
the week in brief

KEEP THIS IN MIND FOR FALL TV TIME BUYING—
TV coverage of the Nashville market will take a giant step forward when WSM-TV completes its new tower, now under construction.

COVERAGE!

Target Date: Sept. 30, 1956

It will be not only the tallest tower in the South, but also much more than "just another tall tower"! It's an entirely new kind of tower, using a new style antenna and a new type of steel that's lighter, stronger, more resistant to corrosion. It embodies new principles of creative design built-in by scientists from the Massachusetts Institute of Technology and other top-flight electronic experts. It will give not only unsurpassed long-distance coverage, but will also eliminate the blind spots that cluster around the foot of many other tall towers. One of the technical journals has already characterized it as "the prototype of the tall TV tower of the future". It will, in other words, do a coverage job that no currently existing tall tower can possibly do.

And of course you already know that WSM-TV has been telecasting at maximum power longer than any other TV station in this market... and has always led the other two TV stations in share-of-audience, no matter whose survey you prefer.

WSM-TV

Channel 4 Nashville, Tennessee
NBC-TV Affiliate
Clearly Nashville's #1 TV Station
IRVING WAUGH, Commercial Manager
EDWARD PETRY & CO., National Advertising Representatives

WSM-TV's sister station — Clear Channel 50,000-watt WSM Radio — is the only single medium that covers completely the rich Central South market.
IN REVIEW

FLIGHT

ANOTHER tv milestone seems to have been passed during the hour of 10-11 last Monday night. We predict that this year's Studio One Summer Theatre will be unlike any other "summer replacement." Certainly, from all indications, it would appear that Producer Bob Her-ridge and Director Francis Mortari (the team that gave us the highly-successful experimental Camera Three on CBS-TV this past season) intend to rid tv of that ridiculous notion that all summertime viewing be restricted to inane and milk sop entertainment.

In presenting John Steinbeck's "Flight," the tender and moving story of Pepe Torres, the Mexican peasant boy who wanted to be a man so badly he was killed and was killed in return for the "privilege," Messrs. Mortari and Herridge let in some cool and refreshing sum-mer air, so to speak.

Here was experimental television on a com-mercial level; tragedy set to the sweet, trans-continental music provided by AT&T; poetry, as it were, stylized through the big camera eye, supplemented by magnificent acting, beautiful dancing and profound narration.

Though we are full of admiration for the principal players, notably, Gerald Sarracin, Vivian Nathan, Mario Alcaldé and the John Butler ballet troupe, particular credit must be paid the people at Westinghouse, McCann-Erickson and CBS-TV, who had the nerve and foresight to hand Summer Theatre over to the talented team of Messrs. Mortari and Herridge.

Production Costs: Approximately $30,000.

Sponsored by Westinghouse Electric Co. through McCann-Erickson Inc., N. Y., on CBS-TV, Mon., 10-11 p.m. EDT.

"Flight" by John Steinbeck, adapted for tv by Robert Herridge; producer: Mr. Herridge; director: Francis Mortari; narrator: Ted Pehorn; cast: Gerald Sarracin, Vivian Nathan, Mario Alcaldé, Miriam Colon, Jose Perez, Maria Reid, Robert Carliote, Carmen DeLavallade and the John Butler dancers.

THE CAMERA BUG

Likes to say, "One picture is worth a thousand words"; has taken thousands of pictures, none of them worth one word. Started with two-dollar box camera, has come a long way since. Only man in the Camera Club who can make photos of the Statue of Liberty look like action shots. Has several interesting close-ups of his own left thumb. Wife against the whole thing.

But nobody's against the results WTOP Radio gets for Washington advertisers—results that are no surprise when you consider these facts: WTOP offers (1) the largest average share of audience (2) the most quarter-hour wins (3) Washington's most popular personalities and (4) ten times the power of any other radio station in the Washington area.

20 YEARS OF PROGRESS WITH AMERICA

HOW FAR labor has come since the days when the goal was "the full dinner pail" was never better demonstrated than in the tv program put on by the UAW to celebrate its 20th birthday. What the UAW President Walter Reuther and the other speakers emphasized was the union's major achievement was not better wages and hours but the transformation of the factory worker from a faceless number on a time card to a human being, with security and dignity, both on the job and afterward when he retires with the pension his union has won for him.

Human dignity was also the theme of the sketches, dealing with an older worker to whom the union meant chiefly that he was now called union brother instead of dumb Polack and with a younger worker who lost his job because of his sentimental refusal to work at the machine at which his father, years before, had lost his hands (the UAW fought it through and won his job back, of course).

If the program played up UAW achievements with more pride than objectivity—well, what does one expect at a birthday party?

Production Costs: Approximately $10,000.

Sponsored by U. A. W. through Henry J. Kauf- man & Assoc., Washington on NBC-TV Sun., June 10, 3:30-4 p.m.

Producer: Sherman Dryer; director: Marin Haode; script Sherman Dryer and Lewis Carliner.
Mr. H. G. Curtis
United Press Associations
P. O. Box 613
Boise, Idaho

Dear Hugh:

I am writing you to tell you that United Press service has been very satisfactory, and we appreciate the cooperation and help you have given us when we asked for Snake River Valley league basketball scores, and also wish to thank you for the response for additional regional news which we asked for prior to that time. It is a pleasure to work with an association that is interested in giving us news coverage to fit our immediate area.

We have been asked many times why we chose United Press service for our new station at Rupert, KAYT, especially when our competitive radio stations all had United Press. We find that the fact that our competitive stations have chosen United Press is all the more reason why we also should have United Press, and then to work towards surpassing our competition in their news service by utilizing the best news service to a better advantage. There are so many ways in which to dress up and individualize your newscasts off of the wire service to make yours different from your competitor. I can see no reason for trying to avoid having the same news service.

In 1952 when I took over KWEI in Weiser, we cancelled the news service in operation at the station at the time, and took United Press in preference -- namely because of its regional coverage and service. National news is not as important as regional news. I might say another reason why we chose United Press is because we feel it is a news service designed especially for radio stations, and we feel that United Press is a radio news service in our news service than we are in being different from our nearby radio neighbors.

When you are down around Rupert, be sure to stop in and see our new station.

Sincerely,

INLAND BROADCAST COMPANY

Mervin V. Ling
President
COMMUNITY PROJECTS

An integrated public service year-round activity based on specific community needs judged to be most important by the consensus of a carefully-selected cross section of local citizens.
The Storer Broadcasting Company has appointed a full-time Community Projects Director at each Storer market whose duty will be to coordinate and direct those projects deemed most important to the life of the community. The plan is intended to assure proper perspective and balance in the handling of community problems and to give each project the benefit of the most enlightened use of both radio and television. The joint radio-television campaign in behalf of each project is then created with the same care given commercial accounts.

Case History — Building Materials

Doubles Sales!

Doubling sales volume in 3 years is a king-sized achievement for an established product—even in mushrooming Southern California. Sakrete reconstituted concrete products did it, using just one basic piece of consumer advertising: a daily noontime newscast on KBIG.

"KBIG has been the motive power of our steady rise to the best year in our history in 1956," says John O'Connor, general manager of Associated Products Corporation, Puente, California. "During the period of our relationship, Sakrete business has doubled, and this year to date is substantially ahead of even peak 1956. We are being forced to double our bagging capacity to meet increasing demand."

Sakrete dealerships have climbed in all eight Southern California counties served by KBIG. "Southern California is big, thinks big, acts big" writes Ray Prochow of Glenn Advertising Agency. "KBIG, covering all Southern California at the lowest cost-per-thousand listeners, is just what we need to do a BIG job for this client. ... which is why we're giving you the overwhelming bulk of our budget in 1956 as we did in '55 and '54."

KBIG can cement your relationships with Southern California's 7 million, too.

Jingle Hit Parade

EDITOR:

No one has recently asked the question in Open Mike, "Do listeners like commercials?" Ours do! Here's how we are finding out.

For this month, Monday through Friday, 11:05 to 11:30 a.m., we are scheduling The Singing Jingle Hit Parade. Sure, it's commercial—we play the current listing of the singing jingles of current KTFS advertisers. To hypothesize the listeners' interest, we carry on a "running table" of jingle popularity. Yes, "fun" is what it winds up being; truly so!

Votes from listeners for their favorite are accepted only on our control room phone. Votes are allowed for a jingle during a single program, only after the jingle is aired, and until the end of the program. Personally, I answered 97 phone call votes on this one line, from 11:13 a.m. (the time the "poll opened") to 11:29 a.m. Pretty darned good, I'd say. ... responsiveness at its best. Unless something goes away. . . .

It's likely this program will continue beyond the month of June. No prizes are awarded, "there is just the satisfaction of having voted for one's favorite jingle."

Necrological Etiquette

EDITOR:

... We have gone about making of regulations setting limits to the broadcasting by our member stations on the occasion of death of Emperor or Premier. But as you know, it is regrettable that our only five-year old association has no precedent for reference on this point.

We think, there may be some information able to be taken as precedents in your country on the occasion of the death of the late President Roosevelt which you might be able to provide, such as: (1) sorts or quality of program permissible or impermissible for broadcasting; (2) date or period of time for broadcasting permissible programs; (3) way of dealing with the relations on the sponsorship between sponsors and stations on that occasion; (4) other related matter.

We would appreciate any information concerning the above items very much . . . Saburo Sakai, Secretary General National Telecasters in Japan

[EDITOR'S NOTE: How U. S. broadcasters observed the death of President Roosevelt was reported in B-M. April 16 and 23, 1942. BBC's treatment of the death of King George VI was covered in B-T, Feb. 11, 1952. Copies have been sent to Mr. Sakai.]

Operation Cake

EDITOR:

... Thanks for the wonderful story and picture on "Operation Cake" on the Ed Sullivan eighth anniversary show. Everybody at Kenyon & Eckhardt was delighted with the nice news break, but credit was given me when it should not have been. The idea came from the brain of Lou Tripodi of Hal Davis' promotion department. I was only one of the many minions who worked on the idea.

Wauhillau Wa Hay, Promotion Dept. Kenyon & Eckhardt, New York

Don't Pay to Play, DJ

EDITOR:

I have been watching, with great interest, the discussion going on in Open Mike concerning the question of whether radio stations should have to pay for records from the manufacturers.

I agree with Mr. Mullen [June 4] and Mr. Shefrin [May 7], and I don't think that I am the only DJ that feels the same way. I personally think the companies are in the wrong, and when I first started writing this letter I was all set to say "Let's organize," but after thinking it over I don't think that I could find time to consolidate the people who feel an end can be put to the practice by unified action.

Perhaps there is someone who would like to start the organization; until that time I think about the only other action that can be taken is not to plug the records of those companies that do charge for playing their discs.

U. of North Carolina

Data Have; Data Has

EDITOR:

I have long been an admirer of the excellent English used in your news and editorial columns. But a soloism appears on page 27 of your April 30 issue in your story entitled "Bricker Lowers the Boom."

In one sentence you say, "The Commission has . . . used these data," which is correct. In the very next sentence you say, "Data has never been released . . . ." Shouldn't it be "Data have never been released"?

Ralph S. Silver, Jr., National Sales Mgr. WLEC Sandusky, Ohio

[EDITOR'S NOTE: The grammar books rule that data, as a plural noun (singular: datum), takes a plural verb. Common usage makes data singular. B-T, looking both ways at once, fell into a double error and lost its consistency.]

All-Uhf Markets

EDITOR:

Congratulations on a well written story on uhf. I enjoyed reading both sections of it and feel that you covered the story very thoroughly. I hoped that you will not stop here, but will continue to study the situation in other parts of the country and do your best to turn up new facts and figures which will show how well uhf is doing.

EDITOR:

I have read with great interest your report regarding the all-uhf markets . . . Congratulations on your good work.

Top billing coast-to-coast...

MILDRED WRENN

on all accounts

ONE of the Bay Area's strongest supporters of the advantages of radio and tv advertising is Mildred Wrenn, media director and timebuyer for Richard N. Meltzer Adv, San Francisco. "There's nothing quite so immediately effective and economical for a food, service or retail account as a well-placed radio or television campaign," Miss Wrenn says. She should know. Miss Wrenn prefaced her current agency experience by several years of work in virtually all phases of radio and tv station operation.

At Meltzer, Miss Wrenn presently buys localized radio newscasts on a national basis for American Building Maintenance Co. and radio spots in 11 western states for Harrah's Clubs at both Reno and Lake Tahoe, Trewax Co. (home and auto wax), Brooks cameras, Gray Lines (tours and charter buses) and Avis-U-Drive (auto rental).

"I'm so sold on radio," Miss Wrenn recalls, "I once actually tried working as time salesman for a Sacramento station, but the San Francisco city lights and my many friends were just too far away."

A vibrant redhead and full of energy, Miss Wrenn is a native of Phoenix. She took her journalism major at the U. of Arizona. Miss Wrenn began her professional advertising career in San Francisco shortly after VJ Day at Pacific Coast Adv. But she soon returned to Phoenix as "girl Friday" at KOOL there, helping the engineers, setting up traffic and billing systems, selling advertising, writing commercials and helping in programming.

Next she joined KLAS Las Vegas as a copywriter and assistant program director.

Moving to the Pacific Northwest, Miss Wrenn took a brief whirl in Seattle as Red Crass publicity director and as copywriter for Hildleston, Evans & Merrill Adv. and Rhodes Bros. Dept. Store. In 1950 she was lured back to San Francisco by a two-week assignment at KPIX (TV). She stayed eight months.

After KPIX, Miss Wrenn joined Russell, Harris & Wood (now Brooke, Smith, French & Dorrance), San Francisco, as media director. She remained with this agency three years and then transferred to Botsford, Constantine & Gardner there in the same capacity.

She joined the Meltzer agency as media director in November 1955.

After having lived in San Francisco for the major part of the past 16 years, Miss Wrenn considers herself a native by adoption. She lives in the Marina where she can watch the ships come and go. One of her favorite pastimes is to browse around the North Beach sector or the Chinatown alleys. Her hobbies include golf and horseback riding.

SUCCESS is at the end of a long road of service and salesmanship. In a way, it is like the distant convergence of the rails in a train track. Once you get there, the goal has moved ahead of you to offer still another challenge.

Ask John Cohan, president, general manager and major stockholder of KSBW-AM-TV Salinas-Monterey, Calif., and he will tell you the experience is common to everyone, especially those who come up the hard way," he has won the goal many times but never rested.

Perhaps that is why his friends think of him as the proverbial human dynamo. Mr. Cohan thrives on a 14-hour day and seven-day week. He burns up a lot of time traveling on station business or as a director of Radio Advertising Bureau and chairman of its membership committee. He burns up more hours as a national vice chairman of COR or in connection with other public service activities. He makes a minute count.

This may be why some find it hard to keep up with a boss who sets such a pace. But the results are evident in the business success and public service record of the stations. His co-workers share in the more tangible rewards, too, through the KSBW profit-sharing plan.

Mr. Cohan is expanding his broadcast interests. He and Jerome Kantro, Salinas lettuce shipper, are partners in the purchase of KVEC-AM-TV San Luis Obispo, Calif., for $450,000 from Christina M. Jacobson and Les Hacker, approved by FCC Thursday. In partnership with John Mowbray, salesman in the San Francisco office of George P. Hollingbery Co., Mr. Cohan is applicant for a new radio station at Ridgecrest, Calif., on 1400 kc with 250 w fulltime.

Mr. Cohan displays strong faith in the vitality and future of radio. "You can't beat radio for music and news," he says. "Television is the magazine of the air," he adds. "It's tops for drama and sports."

John Colley Cohan was born in Palestine, Tex., on Feb. 8, 1912. His father was a Baptist minister. When he was but 12, young Mr. Cohan got his first taste of the advertising world as a printer's devil in the "back shop" of the Palestine Daily Press, then newly founded by oilman-publisher C. C. Woodson. He worked for the paper through high school, even writing society items in addition to selling ads and subscriptions.

"The biggest lesson I learned was if you make the calls you make the sales," Mr. Cohan recalls.

Mr. Cohan received his B.A. from Baylor U. in 1932, working part time to help pay the way. He made his first stop in journalism, switching to pre-medical on urging of family and friends and ended up with a chemistry major. But in his second year he became advertising manager of the college's daily newspaper, a project obliged to pay its own way or come out of the editor's pocket. He also found time for drama, not the least among his interests.

After college he returned to his first love, advertising. He joined Houston stations KXYZ and KPRC in sales and programming for two years and then taught-school for two more years at Elkhart, Tex. Then devoted to later work he produced numerous school shows, including the 1937 East Texas Centennial which had a cast of 1,700. After this event, "I went to Hollywood as God's gift to the radio and movie business and the charm and the hard work," he remembers.

He obtained production and promotion work at KEHE Los Angeles (now KABC) and in 1938 transferred to Smith & Bull Adv. there, a veteran agency in the radio field. In addition to account executive, he soon became writer and producer of low-budget radio shows using such currently high-budget Hollywood talent as Nat "King" Cole, Freddie Martin, Hoagy Carmichael, Perry Como, Phil Silvers, Roy Rogers, Gene Krupa, Russ Morgan and many others.

In 1943, after a brief writing assignment at J. Walter Thompson Co. in Los Angeles for RCA Victor's program on the Blue Network, Mr. Cohan returned to Texas as sales manager of KNET Palestine. The next year he went back to Hollywood as radio director of Hillman-Shane Adv. and in 1947 became sales manager of KNKS Hanford, Calif. During his Hollywood sojourn he also freelanced as a movie ghost writer and managed a state political campaign.

Mr. Cohan in 1951 bought into KSBW, becoming a major stockholder with W. M. Oates, who was one of the station's founders. Two years later Salinas Broadcasting Corp. was expanded to include other local people and to put KSBW-TV on the air, first as share-time and then full-time after absorbing KMBY-TV Monterey.

Interested in building the agricultural strength of his market, Mr. Cohan in 1952 founded John Cohan Adv., devoted to promoting the progress and stability of the growers and shippers of perishable lettuce, carrots and melons around Salinas. Their nationally advertised trademark is C 7 and 98 growers and shippers have participate, shipping over $75 million in produce annually. They use radio and tv exclusively.

Mr. Cohan married Helen Henry of San Francisco in 1947. They have one boy, Christopher. A past director of the Salinas Chamber of Commerce, Mr. Cohan is a founder and member of the executive committee of Monterey County Industrial Development Inc.

AMERICA'S LARGEST GROUP OF INDEPENDENT RADIO STUDIOS
The way they spend money in Washington these days is a sight to behold. Washingtonians are buying and retailers are selling at a rate unmatched in the Capital's history.

In the last five years, metropolitan Washington's annual retail sales have increased by more than half a billion dollars ... an increase bigger than the total retail sales of Richmond, Salt Lake City or Charlotte today. Last year alone, Washington retailers' sales were $177 million greater than for the previous year!

Advertisers are wide awake to Washington's buying boom and equally alert in the selection of media that sell best ... WRC and WRC-TV, Washington's leadership stations. In five years, local and spot advertisers have increased their total billings 55% on WRC and tripled their billings on WRC-TV. The trend continues. This year, advertisers have increased their first-quarter investment on both WRC and WRC-TV substantially over last year!

To bag the biggest sales in the great and growing Washington market, more and more advertisers are going with the biggest guns in Washington's selling boom ...
NETWORKS UNITE TO PROTEST GOVERNMENT CONTROL THREAT

- Stanton, Sarnoff, Kintner take fight to Senate committee
- They argue for retention of option time and must-buys
- Regulation could destroy networks, kill main tv service

THE THREE television networks last week brought up their biggest guns in their defense against proposals to put networks under government regulation. Presidents of all three appeared before the Senate Interstate & Foreign Commerce Committee to argue for a continuation of the present system of networking and against threats of government control.

The essence of their arguments:
- The present system works to the advantage of the public, the advertiser and the television stations.
- It is a wholly legal system containing no elements of monopoly or restraint of trade.
- But it could be expanded, and more competition created, if the artificial restraints of the present TV station allocations were corrected.
- To impose regulation on the networks or to deprive them of such basic practices as option time and must-buys would be to gravely endanger their future and that of the whole television business.

The testimony of two networks chiefs, Frank Stanton, CBS president, and Robert W. Sarnoff, NBC president, was in the main a summary of lengthy statements which had been submitted earlier to the committee [B&T, June 11 and May 28, respectively]. Both explained, in detail, the functions and characteristics of network television, giving the committee a basic lesson in the intricacies of networking as a preliminary to pleas to be let alone.

The third president, Robert E. Kintner of ABC, joined in the vigorous defense of present network practices, but he placed special emphasis on the need for an FCC re-allocation to provide at least three, and desirably more, comparable facilities in major markets.

The appearance of the network presidents last week was their first in their defense since anti-network charges began piling up in the committee a year and a half ago. Here are the major accusations and proposals for change against which the networks were defending themselves:
- The Plotkin report, prepared by Harry M. Plotkin, Democratic counsel to the Senate Commerce Committee's TV investigation. This report, urging radical restrictions on networks and a reduction in multiple station ownership limits, was released by Chairman Warren G. Magnuson (D-Wash.) early last year [B&T, Feb. 7, 1955].
- The Jones report, prepared by former FCC Comr. Robert F. Jones who was majority counsel to the Senate Commerce Committee's TV investigation under the committee chairmanship of Sen. John W. Bricker (R-Ohio) in the 83d Congress. Sen. Bricker released the Jones report, which is considered a strong argument for network regulation, two weeks after the Plotkin report was issued [B&T, Feb. 21, 1955].
- The Bricker bill, authored by Sen. Bricker, introduced in the 83d Congress, reintroduced this year. It would give the FCC power to regulate networks.
- The Moore testimony, delivered last spring by Richard A. Moore, president of the successful independent, KTTV (TV) Los Angeles. Mr. Moore argued to the Senate committee that option time, must-buys and other network practices were strangling competition from independent producers. He and his associates contended these network practices were violations of the antitrust laws [B&T, April 2].
- Mr. Stanton appeared last Tuesday and Wednesday, Mr. Sarnoff Thursday and Mr. Kintner Friday.
- Their appearance brought out heavy attendance of members of the Senate committee, the most to sit at any recent broadcasting hearing. Present at various times during the sessions through Thursday were: Sens. Magnuson, Bricker, John O. Pastore (D-R.I.), Charles E. Potter (R-Mich.), Sam J. Ervin Jr. (D-N.C.), James H. Duff (R-Pa.), John M. Butler (R-Md.), William A. Purcell (R-Conn.), Frederick G. Payne (R-Md.) and A. S. (Mike) Monroney (D-Okl.), Sen. Everett M. Dirksen (R-Ill.), not a committee member, was present during part of Dr. Stanton's testimony.

Dr. Stanton asked the committee to consider his oral statement in conjunction with four documents which CBS submitted to the Senate; a supplemental memorandum of 143 pages plus 66 pages of appendix describing network practices and answering all major charges made against networks [presented in an extensive summary in B&T, June 11]; a legal memorandum concluding that CBS-TV activities are not violating antitrust laws; a defense against Sen. Bricker's report alleging a network monopoly, and an answer to the statement of Richard A. Moore, KTTV (TV) Los Angeles president, who testified against option time, must-buy and other network practices last spring.

Dr. Stanton's oral testimony was a summary of all the documents. In it he outlined the functions and services of networks and insisted on their essentiality.

"To curtail or destroy the network's unique quality of instantaneous national interconnection," he said, "would be a colossal backward step.

"It would be to make the United States much more like Europe than America. In fact, it would be a step in the direction of the Balkanization, the fragmentation, of the United States."

Dr. Stanton listed the "charges and proposals" which have been presented to the committee and answered them one by one:

Revenues and profits: Dr. Stanton said the proposal to regulate networks is "based largely" on the charge that CBS-TV and NBC-TV do the lion's share of television business. Network revenues, he said, were irrelevant to the question, because network expenses are huge and revenues must be also. "We do not apologize," he said, that CBS-TV has been profitable since 1952. He pointed out that CBS-TV's profits in relation to sales were lower than those of all independently owned TV stations as reported by the FCC in 1954.

Monopoly: It doesn't exist in TV, said Dr. Stanton. To the contrary, competition is keen.

Insistence on the use of network-produced programs: CBS-TV does not favor the programs they produce; its policy is "to place the right program—regardless of its source—at the right time."

Networks and small market stations: Contrary to charges, networks do not ignore small market outlets. Dr. Stanton quoted a letter from Frank C. McIntyre, vice president and general manager of KLIX-TV Twin Falls,
efforts, its discount structure and its Extended Market Plan" has increased the average day-
time lineup of stations for commercial programs from 72 to 85. The average evening lineup from 87 to 121, the network states, noting "it is to the advantage of the
network to sell as large a number of its affiliates as possible." The Bricker chart showing that the CBS and
NBC tv networks and 73 of their Zone I affili-
ates had in 1954 a larger net income than all
tv networks and stations is "without meaning,"
CBS reports. Noting that Zone I, with the
heaviest concentration of population, accounted
for about 58% of all U. S. tv homes then, and
that the 73 stations selected were those carrying
41% or more of the networks' commercial
shuffling, the Bricker's testimony engages in
arithmetical legendarium; first, it subtracts
only enough of the profitable stations so that
the remaining profitable stations can be lumped
with those which are not profitable in order
to arrive at a total loss. Second, the comparison
involves apples and pears since it lumps stations
and networks together on both sides of the
ledger." The Bricker report analyzed the incomes
of neighboring CBS-TV affiliates in Omaha-Lin-
coln, Neb., Kansas City-St. Joseph, Mo., and
for the loss of circulation even if it were as-
sumed, contrary to the fact, that the smaller-
market stations would reach the population
who would respond by buying fewer ads. Such a
process would inevitably make television a less
attractive advertising medium . . . . In all
likelihood, the consequence would be to divert
many national advertising dollars away from
newspapers and radio stations into other media.
This, obviously, would harm all of television—
small stations as well as large ones." The
criticism of tv network practices as re-
stricting the freedom of the press and advertising
was made by Mr. Moor of KTTV (TV) Los Angeles, received a detailed
answer in a memorandum prepared for the
committee by CBS and submitted as supporting
Dr. Stanton's testimony.
Concerning the charge that network option
was to carry an unreasonably
large amount of network programming, CBS
reports that during the week of May 19, on
all CBS-TV affiliates 58.1% of all hours sub-
ject to network option and 47.4% of all even-
ing hours subject to network option were
available to non-network programming. For
CBS-TV basic-required affiliates the percentages
of option time available for non-network pro-
gramming were 38.4% of all hours and 30.4%
of evening hours.

The availability of these hours to non-net-
work programming has led affiliates
referred to annual interconnec-
tion cost. Here are the yearly
bills which each network pays AT&T:
NBC-TV $14,000,000
CBS-TV 13,500,000
ABC-TV 6,000,000
Total $33,500,000

ABC-TV President Robert E. Kintner
told the committee that "any charges
should be reviewed carefully to determine
whether or not they are justified."

CBS-TV President Frank Stanton,
in answer to a question, said he naturally
wished the charges were less but that he
was not quarelling with them.

NBC-TV President Robert Sarnoff
made no comment beyond citing the
figures as an item of overhead.

Tacom-Bellingham, Wash., to show that in
these areas, where the signal of the major
tv market steady into the stations, especially
that of the smaller market, in all three cases cited,
it gets the biggest share of the business.

"The disparity in the amount of CBS Tele-
vision Network programming carried by the
smaller of each pair of stations, and in their
resultant revenues and profits, is not due to net-
work practices but rather to advertiser orders
which in turn hinge largely on the nature and
strength of the primary-station, or "1" stations,
CBS states. "It is utterly illogical to condemn networks as
monopolies because in television, as in other
fields of commerce, revenues flow to larger
population units in greater volume than to
smaller units." Cutting back the coverage of large-city sta-
tions by reducing their power and antenna
heights would serve only to deprive many
viewers of some or all of their present tv pro-
gram services, CBS argues, and because "the
larger the circulation supplied by a single unit
the lower the cost-per-thousand to the adver-
tiser," tv as a medium would be "fractionated." The dollars which an advertiser would save be-
coming lost in the low rating resulting from the
reduced coverage area would not be nearly
sufficient to buy enough stations to compensate

Leeway in Option Time

Practically, CBS notes, an affiliate "has more
leeway to reject a network service after it has
gotten than it has to reject a non-network
service," as it is not penalized financially for
dropping the network series (beyond its loss of
the advertising revenue), whereas "when a sta-
tion orders a syndicated film series it usually
must pay for all programs in the series whether
or not they are brought to the station." Deny-
ing that network practices have harm-
ful effects on film producers by limiting their
chance to get tv time, CBS states that "a ma-
Jority of the programs broadcast on the CBS-
TV network are not directly competitive to
syndicated film programs broadcast in from
35 to more than 175 cities and a table showing
that a cross-section group of CBS-TV affiliates
twice as many film series on the aver-
age as do the non-network tv stations of
New York and Los Angeles are given as "evidence
that syndicated film distributors have a large
market for their product." A memorandum affirming the applicability of the antitrust laws to the television broadcast activities of CBS, prepared by the New York
law firm, Cravath, Swaine & Moore, and con-
cluding that these activities do not in any re-
card violation of the antitrust laws, are de-
tail Sections 1 and 2 of the Sherman Act and
Section 3 of the Clayton Act.

"Section 3 of the Clayton Act provides that
it shall be unlawful for any person, in inter-
state or foreign commerce, or in the
commodities for use, consumption or resale
within the United States or its territories, or
fix a price charged therefor 'on the condition,
agreement or understanding that the lessor or
supplier thereof shall not deal in or sell the
goods . . . . or other commodities of a com-
petitor or competitors of the lessor or seller,
where the effect of such lease, sale or contract for sale or such condition, agreement or understanding may be to substantially lessen competition or to tend to create a monopoly in any line of commerce.'

"Section 3 clearly does not apply to the television broadcast activities of CBS. Section 3 applies only to Commodities; the television broadcast activities of CBS involve only service or trade or commerce among the several states or with foreign nations which is competitive with other advertising media."

Nor, says Cravath, Swaine & Moore, does CBS violate Section 2 of the Sherman Act, which provides "Every person who shall monopolize, or attempt to monopolize, or combine or conspire with any other person or persons, to monopolize any part of the trade or commerce among the several states, or with foreign nations shall be deemed guilty of a misdemeanor . . . ."

CBS, the memorandum states, "clearly does not monopolize, and there is no evidence that it is attempting to monopolize, the national advertising market, the segment of the national advertising market occupied by television advertising, the market for television station time or the market for television programs, nor does it monopolize or attempt to monopolize "any part of the trade or commerce" in any of these areas."

As to "actual monopoly," there is no suggestion of combination or conspiracy among the TV networks, but "vigorous competition in every phase of the business," the memorandum points out.

According to Section 1 of the Sherman Act, "Every contract, combination in the form of trust or otherwise, or conspiracy in restraint of trade or commerce among the several states or with foreign nations, is declared to be illegal." The memorandum points out that there is no evidence of any combination or conspiracy among the TV networks or the CBS-TV affiliates.

Noting further that "the term 'restraint' in the Act was not meant to include restrictions reasonably related to a legitimate business function," the memorandum analyzes the affiliation contracts, network option time, must-buy policies, program practices and ownership of stations and finds them all reasonable business practices not constituting legal "restraint" of any kind.

SARNOFF'S DIRECT TESTIMONY

Mr. Sarnoff's testimony was a sequel to a lengthy "Statement of Facts" submitted by NBC to the committee last month (and extensively reported in BWT, May 28). In that statement, the network charged that a group of film syndicators had backed Mr. Moore's attack on network practices and were out to destroy networks so they could expand film market.

"It is our position," Mr. Sarnoff said last week, "that the network service should not be artificially curtailed—as certain film interests have urged, for their own benefit . . . Film distribution could not possibly be an adequate substitute for the comprehensive national communications service rendered by networks."

Mr. Sarnoff, like Mr. Stanton, dealt with several of the principal charges made against networks and proposals for changes:

1. Program control: It is the duty of a network to exercise control over its programs, but NBC-TV gives no preference to its own shows.
2. "The idea also seems to be around that program production is profitable for a network."
3. "Actually in 1955, our commercial programs cost us $8,600,000 more than we received from the advertisers for these programs. When you add to this our other costs for furnishing a program service—such as the cost of sustaining programs, program staff and program development—our total unrecovered program cost in 1955 was $24 million."
4. Network regulation: To regulate networks is to "take the first step down the road to government control."
5. Advertiser A and Advertiser B should occupy a particular network time period," said Mr. Sarnoff, "or whether a network should sell Program X or Program Y to an advertiser . . . This could not be done without putting the government into the broadcasting business."

Regulation of networks, he said, "would certainly make them an unprofitable medium for the advertiser."

The present competitive system, said Mr. Sarnoff, is the "best safeguard for maintaining and improving the television service which networks furnish to the public."

Any group can enter the network field if "it is willing to undertake the costs and risks."

"This opportunity existed for DuMont, which entered the field early," Mr. Sarnoff pointed out. "When DuMont presented a popular program like the Bishop Sheen series, it got the clearances it needed, in competition with the other networks. And if it had undertaken development of an over-all effective program schedule, it would be a major competitive factor in the network business today."

The biggest problem in TV is the scarcity of stations, he said. "This is the root of the problem in TV. He urged "that the Congress and the FCC focus on this central problem and take affirmative steps to bring about its solution."

He reminded the committee that NBC had urged upon it and the FCC the necessity of making effective use of the uhf channels.

"We hope," he said, "that this vital objective will not be obscured or diverted by attacks on network operations which could have such a beneficial effect on the public—at a time when a basic facilities problem is calling for constructive solution."

KINNTNER'S DIRECT TESTIMONY

Mr. Kinttner defended present network practices, but the main emphasis of his testimony was directed to the allocations problem.

"I believe," he said, "that the major attention of the Senate committee and of the FCC should be directed to the scarcity of stations, because with its solution, alleged monopolistic practices in the industry will disappear, just as

YELLOWSTONE Park's geyser, Old Faithful, spouts more often but no less regularly than Sen. John W. Bricker (R-Ohio) in the latter's often-repeated demands for FCC regulation of the networks.

Last week, he was at it again. On Tuesday, at the end of CBS President Frank Stanton's first day of testimony before the Senate Commerce Committee, Sen. Bricker released a statement confronting Dr. Stanton with testimony in 1941 before the same committee by the CBS president's boss, Board Chairman William S. Paley. Mr. Paley had testified: "I think that radio networks should be licensed by the Commission."

Commenting on this and similar 1941 testimony by Mr. Paley, Sen. Bricker said: "It is perhaps significant that CBS was fighting then for dominance and was not in its present position of importance in the industry."

The Ohioan held his fire during most of Dr. Stanton's testimony, but when NBC President Robert W. Sarnoff took the stand Thursday, Sen. Bricker interrupted testimony on affiliation switches to put forth his network regulation philosophies. Afterward he somewhat heatedly charged that he "has attacked the networks, but, instead, has only "criticized" their employment of "certain practices."

Why, Sen. Bricker asked Mr. Sarnoff, is the operation of a network in the public interest just like that of an individual station? A station, he reasoned, is in the nature of a public utility. "The networks," he told Mr. Sarnoff, "have the power of life or death over the advertiser and the station. Why there isn't public interest involved, I can't understand."

Mr. Sarnoff said he felt the networks should not be regulated "because I think there is nothing better than the free enterprise system."

Sen. Bricker said there should be some regulation over the "arbitrary discretion they (networks) exercise or could exercise."

"Are you suggesting that the government should decide which advertiser should get on (a program)?" countered Mr. Sarnoff.

Sen. Bricker answered in the negative, but felt the government ought to lay down rules. "The time may come," he said, but "I don't think public utility operation of networks is necessary at the present time."

Mr. Cox questioned Mr. Sarnoff on why he objected to having networks file certain phases of its operations with the FCC.

The NBC president said he saw "nothing to be gained" by this. The broadcast industry already "lives in a goldfish bowl," he added. He didn't think affiliation contracts should be made public because they are a "private matter," and there is "no entitlement to affiliation."

Telling Mr. Cox that whether or not a station thinks it can justify itself in arguing against disaffiliation before the FCC, Mr. Sarnoff said he felt a network should be "free."
"TV NETWORKING is a business of great risks, heavy financial commitments and low profit margins."

Thus NBC President Robert W. Sarnoff last week prefaced his testimony regarding the economic aspects of his field. He went on to these specifics:

Risk: NBC often has $100 million at risk.
Commitments: $80 million for NBC capital costs projected over the next five years, $13 million for color tv development alone.

Profits: Cumulative profit for nine years (1947-1955) for NBC was less than one-half of one percent.

The chart above shows NBC-TV net profits and losses year by year since tv began to grow commercially.

The table below is the nine-year sales-profit record Mr. Sarnoff disclosed to the Senate committee last week.

they disappeared in radio when the factor of a too limited number of radio stations was removed.

"It seems to us a serious indictment of governmental processes when this subject has been under intensive investigation for at least two years without adequate solution."

What is needed, he said, was (1) speedy grants of pending applications (some dating back eight years) in such cities as St. Louis, Boston and Pittsburgh to provide at least three comparable facilities and (2) re-allocations to put at least three comparable facilities in such cities as Providence, Birmingham and Louisville.

"The point becomes brutally clear," said Mr. Kintner, "when remembering that of the major markets only two have more than four vhf outlets, and only seven have four or more. Only 26 have at least three vhf assignments. Thirty-two of these major markets have only two vhf assignments, and 18 have only one such assignment."

Mr. Kintner drew an analogy which he felt would strike home to Senators. In ABC's view, he said, the present facilities restriction was "the equivalent of running for office in the state of Pennsylvania with the entire Pittsburgh population being able to vote for your opponent, but no one being able to vote for you."

Mr. Kintner said he could think of no better way for the Senate committee to create competition in television than to issue "a strong Congressional mandate to the FCC, not only to speed up the granting of television stations already allocated, but also to revise new allocations plans whereby three, four or five competitive television stations can be established in the larger markets of the country."

Scarcity is Problem

The demand for network regulation and monopoly charges against networks "are directly traceable to this scarcity of outlets," he said. "If the scarcity problem is solved— and it can be solved—the problems that confront us now will be fully and effectively met without the need of additional governmental intervention or regulation."

Mr. Kintner summarized the history of ABC and said the network was "proud of the progress that it has made in becoming an important third force in the television industry."

The network now has the capital, the support of the public, the affiliated stations, advertisers and agencies, and "we hope we have the know-how" so that "over the next two years we feel that we can achieve competitive equality with NBC and CBS," said Mr. Kintner.

This, of course, depends on government action to "end the scarcity of television stations," he added.

In Mr. Kintner's view, criticism of networks falls into three categories: that networks unduly and arbitrarily control programming, that through option time they dominate affiliates and through buying requirements restrict the operation of television.

Program control: Mr. Kintner said no single organization has enough creative ability to produce more than a fraction of the programming needs of a network. But although it welcomes programs from outside sources, ABC-TV insists on controlling key programs to protect its program structure and on exercising general supervision over all shows.

Option time: It is "absolutely essential," said Mr. Kintner. "Only option time gives the network the ability to assure advertisers that programs will be placed in desired markets at the desired times, making possible an efficient and productive advertising buy."

But option time does not work a restrictive hardship on stations, he said. Critics of option time "fail to give weight to the right of any
Stanton's appearance the next day and asked STANTON minimum network purchase that lic Show through Young CBS -TV this fall, with we flow medium CBS -TV's -15 Thursday, 9:30 36 Thursday, 9:30 90 105 90 36 41.

CBS -TV's network, for example, "failing" to put on the 90-minute show to bolster the CBS -TV schedule. The format, he said, is ideal for adapting many books, plays and other material, and has "been a gleam in our eye" for many years. Dr. Stanton said that a prospective station operator has his choice of where to locate his facility. "There's no law keeping a man in a particular market," he said. The CBS executive added that, although networks have no direct influence over an affiliate's local and national spot rates, the rate paid by the network does have an indirect influence on the station's other rates. Answering a question from Sen. Cox, Dr. Stanton said that CBS has determined the coverage of two network affiliates which overlap each other, "whacks it down the middle" between the two if other things are equal. But if a station is added on a per program basis—such as an outlet getting started late or one in a small market—the network pays the station in terms of what the latter contributes to the network.

RADIO-TV'S ADAPTABILITY TO CHANGES IN TODAY'S SELLING STRESSED AT AFA

Westinghouse's Donald H. McGannon and CBS-TV's Merle S. Jones, speaking before Advertising Federation of America convention in Philadelphia, cite how media is responding to changing marketing and merchandising procedures.

The qualities of radio and television are ideally suited to serve advertisers in today's changing trends in marketing and merchandising, the 52nd annual convention of the Advertising Federation of America was told last week.

Donald H. McGannon, president of Westinghouse Broadcasting Co. and Merle S. Jones, executive vice president of CBS-TV, spoke for radio and television, respectively, at a luncheon panel during the Philadelphia convention on Tuesday. Representatives of seven other media also participated on the panel, which appraised the question: "How will media meet the challenges in marketing?"

Radio "has been for years where business is now going—that is everywhere," Mr. McGannon said, referring to the decentralization process by which businesses more and more are establishing branches in suburban areas. He continued:

"In this modern process of decentralization, as you know, the plans for building usually start with a search for an area which will accommodate not only a store or office structure, but also a large parking lot for customers. Now what other medium enjoys the luxury of its own parking lot within slingshot distance of its client's threshold? For that's what it amounts to, and the point is of some significance. When you see 500 automobiles parked outside the branch of a department store, you probably are seeing also as many radio receivers."

The existence of these parking lots demonstrates that people still drive to do their shopping. And while driving, they are listening—but they can't be looking at television or reading newspapers or magazines or, in most of those suburban areas, scanning outdoor posters. This is not too derogatory of the effectiveness of any of these other media, but to point up a unique quality that is radio's alone—and upon which radio will not only survive, but prosper and achieve heights not previously believed attainable."

Closer Cooperation

Mr. McGannon suggested that "closer teamwork between the broadcaster and the advertiser" could step up radio's effectiveness in moving merchandise. "Since the merchant has the kind of people generally, he can hope to attract, and the broadcaster knows the habits of his audience, the two together could profit by comparing notes about people: the broadcaster through establishing the fact that he can find more people like those who shop in the store presently, and the advertiser who would like to meet them—on a friendly and permanent basis."

Radio's ability to hold "the attention of the busy as well as the idle, plus mobility and saturation, should be of particular interest to the merchant who is trying to find the center of traffic and then attract that traffic to his place of business," he asserted.

Mr. Jones said television is "making a unique contribution" in helping business conform to changes in marketing by reaching so many people at a time when the market of effective buyers is increasing so rapidly, by moving the point of sale from the sales counter to the living room, and by monopolizing so much of America's new-found leisure time."

Where the "primary burden of selling" fell upon the sales clerk prior to automation and tv, Mr. Jones said, "today television is the primary sales clerk of American business—the most direct, accurate and fastest link of information and persuasion between the producer and consumer."

The consumer market has grown to the point where "today virtually everyone is a customer for practically any product—and tv is superbly designed to gain access to this new and vastly enlarged market," he continued. Business also has gained through tv from the "marked increase" in leisure time, he added, pointing out that the average tv family in January spent six hours a day watching television while the year-round average now is approximately 35 hours a week.

Television also has "wiped out" the time lag that used to occur in "diffusing the knowledge and use of the newest techniques, products and styles of American industry" to the entire public, Mr. Jones asserted.

Other highlights of the AFA convention, held Sunday through Wednesday at Philadelphia's Bellevue-Stratford Hotel with approximately 1,000 delegates on hand from 120 advertising clubs in the U.S. and other countries:

Walter Weir, vice president of Donahue & Co., warned against the "cult of so-called hardsell" in advertising, contending that claims in copy should be moderate if it is to "bring about the necessary stage of creating belief in the whole complicated business of closing the sale."

Dr. Virgil D. Reed, vice president and research director of J. Walter Thompson Co., said the mass market is now in the middle rather than the lower-income group—and "the middle is spreading fast."

Howard Pyle, deputy assistant to President Eisenhower, stressed that the skill of advertising people is "terribly important" in the cold war of ideas. He also presented to Ben R. Donaldson of Ford Motor Co., chairman of AFA, Franklin medal authorized by Congress for presentation to groups for distinguished service during the year-long observance of the 250th anniversary of Benjamin Franklin's birth.

In the above summary, monitored occurred the week ending April 28, 1956.

The Hooper Index of Broadcast Advertisers is a measure of the extent to which a sponsor's commercials are seen or heard. Each commercial is assigned a number of "commercial units," according to its length.* This number is then multiplied by the audience rating attributed to that commercial.** When each commercial has thus been evaluated, the results for all commercials of each sponsor are added to form the HIBA. For further details of preparation, see the basic reports published by C. E. Hooper, Inc., Broadcast Advertisers Reports Inc. and American Research Bureau Inc. Above summary is prepared for use solely by Broadcasting & Telecasting. No reproduction permitted.

* "Commercial Units": Commercials are taken from the monitored reports published by Broadcast Advertisers Reports Inc. A "commercial unit" is defined as a commercial of more than 10 seconds but usually not more than one minute in duration. Four "commercial units" are assigned to a 30-minute program, and in the same proportion for programs of other lengths.

** Audience rating of television, both national and local, are those published by American Research Bureau Inc. Those for radio are the ratings of C. E. Hooper Inc. In the case of station breaks the average of the ratings for the preceding and following time periods is used whenever feasible; otherwise, the rating is that of either the preceding or following time period, normally the preceding. In the above summary, monitoring occurred week ending April 28, 1956.

Page 32 • June 18, 1956
BECASE its news staff and facilities are identical to those of award-winning WHO Radio, WHO-TV can claim news coverage that's matched by few television stations, anywhere.

Our News Bureau is headed up by Jack Shelley, one of the industry's top newsmen and winner of many radio-television citations. His staff includes 11 full-time news specialists—each with a degree in journalism and many years' experience—and all trained to take on-the-spot pictures, stills and movies. In addition, WHO-TV calls on 85 "local" correspondents for supplementary coverage throughout Iowa.

WHO-TV news facilities include two AP, two UP and two INS wires—plus direct, 24-hour teletype circuit from Des Moines Weather Bureau.

Unexcelled news coverage is only one of many reasons why WHO-TV is one of Iowa's top advertising values. Let Peters, Griffin, Woodward, Inc. tell you about the others.

- WXEX-TV delivers 16.9% more TV homes than Station B—17.3% more than Station C.
- WXEX-TV gives you a bonus of better than 2 TV homes with every 12 homes you buy.
- Station B is now operating on interim low power and tower. On this basis, the Grade B area of WXEX-TV delivers 58.3 more TV homes than does Station B.

*Service contours of stations considered are for maximum power and tower calculated by Kear & Kennedy (consulting radio engineers, Washington, D.C.) from information on file with FCC, and based on latest available ARF figures updated to June 1, 1956.

THE 15% COMMISSION: TRADITION ON TRIAL

A B•T STATUS REPORT ON THE OLDEST ISSUE IN ADVERTISING

By Rufus Crater

Broadcasters are the innocent bystanders in a quiet struggle over an advertising way of life—the media commission system of compensating agencies.

The issue is not a new one, but rather a renewal of a very old one that pre-dates broadcasting and broadcasters by many years.

In short, advertisers want to change—or at least "re-evaluate"—the present system whereby agencies not only get their prime compensation from media, but do so in direct proportion to the amount of the advertisers' money they allocate to those media. Generally, the agency's share is 15%. Advertisers feel that agencies serve them, not media, and that they should therefore have a more direct control over what their agencies are paid, should be able to know what they are getting in the way of agency services and not have to pay for any services they don't want—and should have the right to buy directly from media at the same net rates that agencies get.

Agencies on the other hand maintain that the present system, in effect for more than half a century, has established the independent nature of agencies, has enabled them to achieve a degree of creativity not possible otherwise, makes available to all advertisers the services of a vast corps of experts that only the very largest advertisers individually could afford, advances the cause of advertising generally, and is, in short, the best system that has yet been devised.

Moreover, agencies seem morally certain that what the advertisers really want to do is cut their pay—an objective which advertisers have repeatedly disowned.

Lately there have been signs that the present debate—which broke out into the open last fall—may eventually end in a compromise truce.

Recent advertiser speakers on the subject, while still insisting that advertisers should have the final say on how much and for what their agencies are paid, have seemed to seek on a slightly more conciliatory tone. Whether this is a general trend and will continue remains to be seen, but at the moment there is speculation that at least some critics of the present method might be willing to accept a modified commission system as a basis of compensation, provided certain "safeguards" and "controls" can be worked out to their satisfaction.

In a similar mood, some agency officials—while still outspokenly against a scuttling of the media commission method—have acknowledged privately that there may be areas of bookkeeping and accounting, for instance, that might be "tightened up." These agency men point out that they don't like "unbusinesslike operations" and "wastefulness" any more than advertisers do, implying that they would be glad to sit down with their clients to try to work out mutually satisfactory solutions.

The debate has gained its main momentum since the American Assn. of Advertising Agencies last February became the first of the defendants—including American Newspaper Publishers Assn. and other non-broadcast media groups—to sign a consent decree settling its phase of the antitrust action filed by the Justice Dept. the year before. But there are differences of opinion as to just what effect the consent decree actually had in reviving the issue.

Agency people claim advertisers have used the decree as an "excuse" to bring up the subject again, since the court settlement clearly cast no doubt on the commission method as such. Advertisers maintain that the system had been worrying them long before the government got into the act.

If the consent decree made anything plain, it was that the final decision on this phase of the issue will be reached in individual negotiations. What the decree did, so far as this point is concerned, was forbid AAAA to try to "fix, establish or stabilize" agency commissions, or require any agency to refrain from rebating or splitting agency commissions. The decree specifically stipulated that its terms were not binding on AAAA members acting individually.

It is this individual approach—that of an advertiser getting together with its agency to review its own compensation set-up—that advertiser speakers and the Assn. of National Advertisers are publicly recommending. Bristol-Myers is one company that has made plain its intention to undertake such a study (see Donald Frost speech, page 42), and ANA says "other forward-looking" members, "working with their agencies," are taking similar steps.

Both AAAA and ANA have committees working on the compensation subject. It is the "primary assignment" of AAAA's regular Committee on Advertiser Relations, which is headed by Harry Harding of Young & Rubicam, New York, as chairman, and William Marsteller of Marsteller, Rickard, Gebhardt & Reed, Chicago, as vice chairman. ANA named a special study committee, headed by John B. McLaughlin of Kraft Foods, last month to examine the question.

There is some dispute about the role media will play in the outcome.

Henry G. Little of Campbell-Ewald, Detroit, who at the time was retiring as chairman of the AAAA, told the AAAA convention in April that "in any event, media will determine the issue now and in the future, as they have done in the past. Media will decide individually what they wish to do; to whom they will allow commission, if any; under what circumstances; how much they will allow, and what their rates will be" [B•T, April 30; also see excerpts page 40].

Mr. Frost of Bristol-Myers, on the other hand, has said that "it will be the advertisers working in close harmony with their agencies..."
LIFE AND TIMES OF THE COMMISSION SYSTEM

1840's: Volney Palmer starts first advertising agency, charges 25% commission to media to buy their space for clients.

1880's: Agencies begin offering services, prepare ads for clients as inducement to buy space.

1915: Infant ANA goes on record against commission method of reimbursing agencies.

1918-19: Infant AAAA, on the other hand, advocates uniform 15% commission from publishers.

1924: Federal Trade Commission brings complaints against system, charges restraint of trade.

1930: FTC drops its complaint.

1933: James Webb Young releases celebrated report concluding 15% method is best for all advertising interests.

1955: Justice Dept. brings antitrust action against AAAA, ANPA, others.

1956: Defendants sign consent degree, making 15% system a matter of individual negotiation.

To conduct a study. His report—which concluded that the media commission system was the most practicable in the interests of both advertisers and media (see text of conclusions, this page)—also included a study of the growth of agencies and advertising, as did other reports, studies and histories of and since that time.

The first "agent" is generally identified as Volney B. Palmer, who started off in the 1840's in a business that was more akin to that of the present day newspaper (or station) representative than that of today's agency. Advertisers in those days had trouble discovering the names, much less the rates, of newspapers in distant areas. Newspapers didn't even care greatly about selling space.

Capitalizing on this fortuitous situation, Mr. Palmer got together a list of newspapers and their rates and held himself out as the agent of those papers that would designate him as such. Advertisers loved it. The newspapers, delighted with this found money, paid him 25% commission on his sales.

(Another precedent, which has continued with perhaps even less change through the years, also was established at the Palmer "agency." About 1848 the manager of his Boston office walked off withMr. Palmer's list of papers and rates and started business for himself.)

Subsequently there came a period of heavy trading on rates. Agents would contract with newspapers for space at the lowest price they could get, then re-sell to advertisers for as much as they could get. Competition often was bitter. In this period two new features were added. Generally attributed to George P. Rowell, who commenced operations about the time the Civil War was over and who later figured as a historian as well as practitioner of advertising, these features were the discount for cash and the agent's guarantee that the publisher would get his money whether the advertiser paid or not.

Not until later—about 1880-1890—did agencies begin to offer "services." They resisted the idea of writing the copy to fill the space they sold to advertisers, for example, but gradually it came to be that an advertiser "bought easier" if he could see what his ad would look like.

The amount of agency commission meanwhile fluctuated over the years and opposition to "house agencies" and rebating to advertisers was building up. Newspaper publishers in the early 1890's went on record against allowing agency commissions to advertisers. After the turn of the century there developed the habit of agencies representing only non-competitive clients. About the time of World War I, agencies began to expand their field of operations to include other media as well as newspapers and magazines. Radio and television joined the list as they emerged.

Meanwhile, the AAAA was formed in 1917 and adopted standards of service and practice. A year or so later its committees were advocating—successfully—the cause of a uniform 15% commission from publishers.

Even before that time, advertisers were speaking out against the media commission system. ANA went on record against it in 1915, short time after the organization was formed, and for several years in various quarters there were recurrent efforts to break the system down. In 1924 the Federal Trade Commission filed a complaint against AAAA and several newspaper groups, accusing them of conspiracy in restraint of trade, but dismissed the charge in 1930.

It was about this same time that the last big debate over the compensation system developed. Mr. Young's report is widely credited with having settled the issue at that time, although advertisers commissioned a "rebuttal" to Mr. Young and continued to challenge the validity of his conclusions.

What are the alternatives to the media commission system? In the current debate, advertisers have proposed none—not yet, anyway. In the 1930's, however, Mr. Young found three principal possibilities suggested by advertisers: (1) a fee to be agreed upon between advertiser and his agency; (2) a sliding commission scale that would exceed 15% for small accounts and come under that figure for large accounts, and (3) a standardized scale of prices for various types of work, with the advertiser free to pick the services he wants.

Although the media commission system is regarded as standard, it has not been universal. Emil Mogul, of the agency bearing his name, proposed a year or so ago, for example, that agency compensation might be tied directly to client's sales, so that the agency would be paid in proportion to the success of the advertising it prepares.

The late James M. Cecil of the old Cecil & Presbrey agency also maintained, several years ago, that the system of compensation should be changed because the high cost of running a television department made the present method of payment inadequate.

But the best known—and certainly the oldest—exception to the media commission practice is N. W. Ayer & Son. Long ago—about 1875—F. Wayland Ayer, a founder of the agency, decided that he was serving the advertiser, not media, and that accordingly he would give his clients the benefit of the best buy he could get from media. His charge to the advertiser would be the net charge to him, plus a commission for agency services. This has been the standard Ayer procedure through the years, with the present Ayer commission about 16½%.

As for the broadcasting media's entry into the current structure of advertising practice, Mr. Young's 1933 report said:

"Shortly after the development of radio broadcasting as an advertising medium, broadcasting station owners elected to do business under the agency method and established an agency commission. This brought this important medium within the scope of agency planning and led to the development of specialized radio departments as part of agency service."

Broadcasters themselves undertook at one point to establish an agency recognition bureau. Such a bureau, to protect stations in their credit dealings with agencies, was voted at the 1934 NAB (now NARTB) convention and the subject was much discussed—pro and con—by broadcasters in succeeding years. It was finally laid to rest following the arrival of Judge Justin Miller as NAB president shortly after World War II. Judge Miller's action was attributed a fear of antitrust implications—a fear that later proved well founded when the Justice Dept. filed its case against other media groups but not broadcasters.
ADVERTISERS GET BIG TIME RESULTS WITH WFAA-TV!

Meet "Miss Elaine," of WFAA-TV's Romper Room — soon to complete its first year for Safeway Stores (Dallas Division.) Crowds form early, stay late, when she makes one of her frequent personal appearances. And with the important role played by the younger set in today's grocery shopping, here again is visual proof that advertisers do get big-time results with WFAA-TV! THE AGENCIES MAINTAIN

LET'S KEEP THE STATUS QUO

AGENCY officials have been much less discursive, publicly, than advertisers in talking about the commission system.

A statement issued by President Frederic R. Gamble of the American Assn. of Advertising Agencies, coincident with AAAA’s signing of the consent decree settling its phase of the government’s antitrust suit on Feb. 1, contained this reference:

"... The commission method of compensating agencies, which can continue to be followed, is a great incentive method. It enables agencies to be rewarded in proportion to the use made of their creative work and encourages them to do their utmost to make advertising pay the advertiser. When advertising pays, everybody wins—the general public, the advertiser, the medium, and the agency.

"The judgment does not affect the way that individual agencies (whether AAAA members or not) conduct their businesses in relation to media (from whom they receive commissions for the development, service and payment of advertising) or in relation to advertisers (whom they serve by making their advertising succeed)...."

In another of the first agency statements after the question was revived—specifically, in his statement accepting election as chairman of the board of AAAA on April 26—Robert D. Holbrook of Compton Adv. had this to say:

"... There always have been and probably always will be those who do not understand advertising or the agency business. The recent settlement of the antitrust action with respect to AAAA as an association may, even without cause, provide inspiration for those who want to attack the media commission method which makes possible the independent advertising agency.

"I am sure, however, that the independent agency business has made good friends among media owners and advertisers who recognize the essential nature of the service performed by independent advertising agencies. They realize the need for the independent thinking, the creative skills, and the ability to handle countless details which the independent advertising agency alone can deliver."

A day later, on April 27, after ANA Chairman Edwin W. Ebel made his closed-session appearance before the AAAA convention, Mr. Holbrook observed:

"... It always has been the aim of all the officers of the AAAA to approach our important business matters with open-mindedness. No subject can be of such continuing and far-reaching importance to all our members as the subject of compensation methods. The vigorous and thorough inquiry into all phases of this subject will be the primary assignment of this committee [AAAA’s regular Committee on Advertiser Relations].

"We have, of course, studied this subject continuously, completely apart and separate from any other discussions that may have stemmed from the recent consent decree signed by AAAA."

TWENTY YEARS OF SUCCESS CAN’T BE WRONG

ONE of the most eloquent defenses of the media commission system was made during the AAAA convention by Henry G. Little of Campbell-Ewald, Detroit, in his speech as retiring AAAA chairman on April 28:

"The advertising business, operating under the media commission method, has advanced so far in the last 20 years that it seems fully to have justified the conclusion reached by Mr. [James W.] Young, that the media commission method of advertising agency compensation, while not perfect, is the most practicable, one for maintaining the true and long-run interests of all advertisers and all media.

"In any event, media will determine the issue now and in the future, as they have done in the past.

"Media will decide individually what they wish to do; to whom they will allow commission, if any; under what circumstances; how much they will allow; and what rates will be.

"In return for these commissions, agencies will continue to render many services to media and the cause of advertising.

"Agencies develop new business for media, developing new advertisers and helping them to grow. If agencies did not do this for media, who would? Not the advertiser, certainly. Most advertisers have no great desire to help competitors into the world!

"Agencies also reduce mortality among advertisers among the medium’s customers. A number of years ago, before most business paper publishers had adopted the commission method, Architectural Forum made a careful study of agency-placed advertising in comparison with that placed by advertisers directly. They found that agency-placed advertising was more consistent, more regular, continued longer, grew faster—findings that carried great weight among other business publications.

"Agencies also advocate the idea of advertising, as best for most businesses. It is as Norman Vincent Peale once said about religion: ‘It is not my duty to argue for the faith; it is my duty to declare the faith!’

"The fact that agencies are the advocate of advertising may make some advertisers mistrustful. It should not—not so long as advertising is so important in mass marketing. There are times when every successful company can thank its stars that the agency is prejudiced in favor of advertising; there is many an advertising manager, and sales manager, who can be grateful that the agency’s prejudice is there to support him. And this is basic in the agency’s service to media.

"Agencies simplify credit operations for media. Also, because they take the financial responsibility for payment of commissions, they carry the cost of most credit losses in national advertising.

"Several years ago, a 4-A study showed that our member agencies had developed and placed about $15 billion worth of advertising in the previous 20 years. On this volume, agency credit losses were $5.1 million or 1/30th of 1%. Media credit losses were only about $250,000—only 1/600th of 1%, as compared with credit losses around .1% for all U. S. industries.

"There are other savings, too. Agencies reduce media costs for the preparation of advertising, and they reduce costs in following up advertising materials for publishing and broadcasting schedules. If it were not for the agency, all of these costs—including the credit and collection costs—are burdens that media would have to bear, and which would be wastefully duplicated and compounded from medium to medium. They are costs that the advertiser would eventually have to pay, if the agency were out of the picture.

"But the agency’s great service to media, and to all in advertising, is the agency’s dedication to successful creative work—to the overruling idea of creating advertising that sells.

"Agencies do more than advocate the general idea of advertising. They create specific advertising for specific advertisers, which is an essential element in the sale of space and time.

"The agency serves and works with all media but is neutral among them. It recommends whatever media are best likely to make the advertising succeed.

"And successful agencies have learned to do everything in their power to help advertising succeed. Their ideas do not spring full-grown. Agency recommendations are laid on a ground-
BUT THE ADVERTISERS SAY

IT'S TIME FOR A CHANGE

KICKOFF for the current debate was delivered by Gilbert H. Weil, general counsel to the Assn. of National Advertisers, in the course of a speech at ANA's 46th annual meeting in New York last Nov. 2:

"... In the simpler days of our industry, the business between an advertiser and its agency was carried on between one dominant individual in each of the companies...

"But that was possible only under those conditions... Understandings, activities, and programs, which were at one time settled in a matter of minutes by two men across desk or table, now require consideration by subcommittees, committees, departments, and finally 'top brass'... Today the people who must make the decisions are responsible to other officers of their company, to boards of directors, and, ultimately, to stockholders..."

"The wide inventory of services which today's agencies can offer to advertisers seems to me to require extremely thoughtful attention, and carefully written definition in two areas of the advertiser-agency relationship. In the first place, since every advertiser does not want 100% of every service that an agency can possibly render to it, the parties should decide which services are to be furnished and to what extent. Secondly, the arrangement is on an unrealistic, and, hence, unjustified basis if the remuneration that the agency is to receive is not fairly correlated to the services that it is to render..."

"... Now the major emphasis of an agency's workload is in the service of its client, the advertiser. Its activities do still redound to the benefit of media in several important and legitimate aspects. That is undoubtedly true, even today. But at present they are collateral rather than primary objectives..."

"The gravitation of agency services toward the advertiser has moved so far by now that the advertiser has a realistic, substantial, and a legitimate interest in the subject of how much of the money he pays to a medium is rerouted to his agency, and for what..."

"The range and variety of services an agency can offer an advertiser is so extensive, both in kind and in degree, that some understanding is needed between them in their individual relationships as to the nature and extent of the work that the particular advertiser expects to receive, and the particular agency to render. And because of the wide area for variance in the work to be performed as between different advertiser-agency pairs, sound business principles would seem to call for some interdependency between the work to be done and the reward to be reap...

"Today, when so much of the value of some services an agency may supply may not receive ample recompense from a percentage of media billing, either because the services do not relate to or result in space or facility purchases, or, if they do, the medium involved is one with a relatively low billing rate, there is a restlessness amongst agencies concerning the traditional basis of compensation, and we find, more and more, a demand on their part, and a willingness amongst advertisers where circumstances warrant it, that additional fees be negotiated for specific services.

"Conversely, where agencies are called upon to render relatively little by way of effort in comparison with large amounts receivable by them from certain media—such as tv or super-circulation periodicals—whose invoices are verging upon expression in light years, the advertisers are growing restive, and they are more and more demanding and receiving adjustment of the inequities, either in the form of additional services by the agency without further compensation, or by the franker means of rebates..."

DETERMINE SERVICE FOR THE INDIVIDUAL

THE COMMISSION issue was a fundamental part of two closed-door panel sessions at ANA's Spring Meeting March 14-15 at The Homestead, Hot Springs, Va. Edwin W. Ebel, of General Foods, chairman of the ANA board, gave these views as panel moderator:

"... The commission system is no longer immutable either as a practical or ethical matter. Without a fixed compensation system each of us can determine the service that is fitting to our individual needs. The service is more important than the fee. We have a chance to improve on the commission system...

"Any new fee plan will require the advertiser to distinguish between the quality of available skills—the skills that go into marketing and advertising planning and preparation...

"The commission system, which just grew into being, has served advertising well for a long time. Let's not go hastily tearing down arrangements which have been satisfactory until we are sure we have a better one to take its place..."

ANA CHAIRMAN EBEL took the subject directly to agencies at the American Assn. of Advertising Agencies' convention at the Greenbrier, White Sulphur Springs, W. Va., on April 26. In a closed-session speech which later was released in part, Mr. Ebel made plain that advertisers want the right to buy directly from media at net rates—and to compensate the agency directly (and adequately). He called for "a calm, intelligent, objective, business-like inquiry" into the whole commission question by advertisers jointly with their respective agencies:

"The idea of a confidential partnership is spreading. The agency—instead of being a vendor for the medium owner—is now a confidential advisor to the manufacturer, with access to his sales figures, profit figures, and future plans. This is a relationship between agency and advertiser—not between agency and media...

"... the advertiser should be the one to determine the worth of advertising agency services... but in any case, the agencies must have confidence in the clients' wish to compensate them fully and fairly... for the work they do...

"... What the agencies must do is largely a matter of expressing their open-mindedness on this subject of compensation...

"The most important consideration should be the preservation of a climate conducive to creativity—because there is a greater need for brilliant and creative advertising today than there ever has been before...

"... I'm sure I voice the feelings of the majority of the members of ANA when I say the advent of the AAAA's and American Newspaper Publishers Assn.'s consent decrees terminating the Justice Dept.'s anti-trust suit against those groups, among others, and the reasons that these decrees materialized plus the suits still to be settled, challenge every advertiser to take a fresh look at the commission compensation system, and evaluate the full value of his agencies to him...

ADVERTISING THAT PAYS NO BARGAIN TABLE ITEM

MORE LIGHT was thrown on advertisers' objectives at the annual west coast meeting of ANA at Pebble Beach, Calif., on May 16. ANA President Paul B. West said at that time:

"Because advertising is such a potent selling force; and because it has been proved that good advertising, consistently maintained, is the surest road to profitable sales; and because of competition in the market place, the companies which will come out on top will be those who have the soundest agency relations, and who trust the kind of creative advertising that sells most successfully by compensating their agency for the full value of its creative service.

"There are no short cuts and the means of providing the proven fundamentals of good advertising—advertising that pays over the long run—will not be found at the bargain table...

"This is the reason why the ANA Board advocates that individual advertisers and their

Broadcasting • Telecasting

June 18, 1956 • Page 39
work of research—analyzing the product or service, the competition, the market, the potential of distribution, of all the media available. These ideas are part of long-range plans, working toward definite goals. They derive from constant experimentation in technical approaches. They draw on the experience of many different advertisers. And they are presented to the client with the unique advantage of the agency's outside, independent, objective viewpoint.

Agencies evolve, then, around ideas—analyzing, planning, creating. It envisions a team of specialized and above all creative people.

"The advertising media of the United States had this need in mind when they set about individually, long ago, to experiment with various ways of compensating the agency.

"Over many years, by trial and error, they found the answer in the commission method.

"For the commission method is a great incentive method.

"The incentive for the advertising agency is the ability, under the commission method, to be the only one, the agency's creative work in proportion to the results that are made of it. If the results are successful for the advertiser, they also are successful for the agency.

"It attracts a creative type of businessman and a particularly creative type, one who is willing to take the risk that his agency won't get paid at all if its creative work isn't. The agency gets paid only if the advertising appears and after the agency has collected from the advertiser.

"Also, because the agency is rewarded in proportion to the use made of its creative work, the agency owner is encouraged to hire the best creative people he can find. He is not led to stick to "second-string" or, to take too much in profit for himself.

"This means that the finest possible creative organization is put behind the service and development of advertising.

"And just as creativeness—in ingenuity and invention—is the basis for our production miracles, so is creativeness in mass selling, in advertising, the hub and hub of our marketing success.

"The media commission method provides a pool of potential dollars—an unlimited potential—waiting only successful creativity by advertising agencies in order to claim them.

"The commission gives the agency the incentive to do everything in its power to develop the growth of the client's business and hence the growth of the advertising appropriation.

"Because the commission method is in the control of media, the emphasis is kept on creativity. The relationship does not degenerate into 'horse trading' between the advertiser and the agency, at the expense of creative quality.

"And because the commission is allowed by media to agencies direct, the agency is enabled to enjoy an independent status, to make recommendations objectively, to be the advocate for advertising, to render a creative performance that is not made to order, that is not driven by petty and narrow interests.

"Now I know that most of you are familiar with Gresham's Law, that 'bad money drives out good' because people know the good money, pass along the bad. Bad money (or cut rate service) does not triumph over good money (or full rate service). Experience is just the opposite. Full rate service wins over cut rate service. The quality of the agency service has been the determining factor in the agency's success and in the success of the advertiser.

"Experience has shown this time and time again. "Experience has shown that the media commission method of compensating advertising agencies has worked to the advantage of media, advertisers, agencies and the economy, in bad times and good, depression and prosperity. "I believe we should be grateful to the far-sighted advertising media people who developed it. I believe that each of us owes a debt to those 'who built the house we live in'. "I believe, as I know you do, in the future of our economy.

"I believe that mass marketing makes mass production possible. "I believe that advertising is the spark plug of mass marketing. "I believe that advertising agencies are the spark plug of advertising.

"And I believe the media commission method is the spark plug of the agency's creative contribution."

A MEDIA SPOKESMAN TESTIFIES FOR THE 15%

A MEDIA guest on the AAAA convention program also upheld the commission system as the best available. He was Marvin Pierce of McCall Corp., who told the convention on April 28:

"The miracle of advertising—what a wonderful and powerful force it is—... I would like to hazard a different guess as to the reasons for the absence of any formidable challenge to the [commission] method since 1934. In that year radio was still in its infancy as an advertising medium and television was still in the laboratories. The competition of the depression increased the demand for extensions of agency service. When these extensions were once established, they became a permanent part of agency performance.

"With the growth of radio and the advent of television, a whole new group of specialists has been added to agency staffs. Able men have been attracted to the agencies to handle planning and copy, 10-second spots and spectaculars, to conduct research into markets and into motivations, to determine proper media.

"The agency system is more much more attractive to these men today than formerly because of the variety of their work and because of the greater security of position, an agency than elsewhere. An advertiser today must have flexibility in his choice of several media—magazines, newspapers, television, radio and outdoors. He must be able, as the exigencies of his business demand, to switch from one means of communication to another completely, or with varying emphasis. But the manufacturer who is spending most of his appropriation in television today, and in magazines tomorrow, cannot hope to attract and hold the specialists in every line best-suited to conduct his advertising business.

"In my opinion, it is the recognition on the part of advertisers of the widening and deepening of agency services, and of the availability of thoughtful and effective manpower in the agencies, that has brought about what seems to be the present relatively tranquil acceptance of the commission basis for agency compensation.

"Let me conclude with the statement that although efforts to change the method, which has been maintained for over half-a-century, have been made with the thought of lowering costs to advertisers, it seems to this observer that reduction of costs, at least in magazines, has been accomplished through the existing advertiser-agency-publication relationship.

"I do not say that the commission method of compensating advertising was alone responsible for the creation of this greatly increased volume. I do say that in my opinion it is more than mere coincidence that the method and the volume expanded together, and I do say that I know of no other system of compensation that would have been half so satisfactory to all of us.

"The agency, through the knowledge of the certainty of its compensation, has been able to attract and hold thoughtful and competent men and to expand its services. The advertiser has been able to call upon those men and their services with all the flexibility he needs in the choice of media and of agencies. The magazines have been able to provide their readers with editorial material consisting of the considered thought of authorities in their fields and calculated constantly to raise our standards of living.

"I favor the present system of compensation for advertising agencies until a better one comes along. If it does come along, I think we will all welcome it. But it must demonstrably be a better one for all of us. It must be such that it attracts intelligent young people to our business. It must be one that does not retard the growth of small agencies, small advertisers and small publications. And above all, it must be one which makes a measurable return to the well-being and economy of the country."

DECREE DOESN'T CALL FOR DRACtic ACTION

AAA's position was wrapped up by President Frederic R. Gamble in a statement issued May 28, after the last of the defendants in the last of the latest antitrust suit had followed AAA's earlier lead and signed consent decrees:

NOW THAT all the defendant associations in the antitrust action have settled their parts of the action, a statement may be in order about what the settlements mean, as published statements by some executives of client companies and the Ann. of National Advertisers.

"It remains true, as I said at the time of the 4A settlement, that there is no need for anything drastic to happen to any part of the advertising industry. Only the associations that were involved in the action are affected and only and not in any way relate to the compensation arrangements among individual agencies, media and adver-
The Rugged Courage

The rugged courage of such heroes as Robert E. Lee, J.E.B. Stuart, "Stonewall" Jackson vitalizes the inheritance behind our expanding, industrial South. Today's economic growth stems similarly from the courage and vision of modern leaders who link the traditions of the old South and aggressive progress of the new.

WRVA-TV—Richmond's own (and newest) television station—forges another bond in this strengthening chain. Closely tied to Richmond tradition for over 30 years through long-respected WRVA Radio, WRVA-TV continues the finest standards of creative leadership, imaginative programming, community service through experienced, competent and responsible management.

WRVA-TV belongs to Richmond. Its highest aim will be to earn the continuing loyalty of Richmond viewers.

Represented nationally by Harrington, Righter and Parsons, Inc.

individual agencies review their client-agency relations in the light of the current basic changes in the scope and function of agency service—and regardless of whether media see fit to grant agencies a commission or not—appraise the real value of the agency services required to accomplish the company's objective; and, instead of excluding the matter of compensation as heretofore under the 15% commission system, definitely consider it as a prime responsibility of the advertiser.

"... the most significant development of all." Mr. West concluded, "is the fact that under this impetus, forward looking ANA members, working with their agencies, are already taking steps to do exactly that . . ."

23-YEAR-OLD ANSWERS MAY NOT APPLY TODAY

ANOTHER speaker at the Pebble Beach meeting on May 16 was John B. McLaughlin of Kraft Foods, chairman of the ANA Special Study Committee on Agency Compensation:

"... Because somebody may jump to the conclusion that the sole purpose of this [ANA special study] committee will be to change the agency-compensation system and attack its validity, let's quickly endeavor to clarify the purpose of the committee and try to bring this situation into proper focus.

"First let me say what we are not going to do: we are not going to attempt to either destroy, change or champion any particular method of agency compensation. Nor are we going to enter into discussions on the larger area of agency-client relationships. We already have a committee in ANA, chair- manned by Don Frost, of Bristol-Myers, which is effectively studying this broader subject. The new "Study Committee" has been created for the sole purpose of studying the specific subject of methods of agency compensation, because of the terrific interest currently aroused in the subject by the consent decree. And, our work will be confined to this one problem. Of course, the problem must be studied in the light of the effect it has on good and productive client-agency relations.

"Because the signing of the consent decrees and the whole government action were dramatic news—many people seem to think of it as the sole reason for advertisers' interest in the subject and are assuming that the 'clients' are seized with this opportunity to change the present system and swing the big stick. We don't think this is at all true. Prior to the consent decree, advertisers had been 'blocked' from 'doing anything about it'—now the problem has a possibility of solution through individual negotiation.

"For this we have to face the fact that this question of agency compensation and this, of course, involves the question of buying direct from media at net rates, did not spring into effect on the first of February, or even last May. It's something advertisers have been thinking about for a long, long time. Actually, many an advertising manager, or director, has been under pressure from his top management for many years that he didn't have. And the recent legal fireworks have again started top management's queries all over again . . ."

"... Henry Little [of Campbell-Ewald, Detroit, 1955 chairman of the 4As] may be absolutely correct in his statement of the continued validity of the Young study. On the other hand—he might be wrong. Many people in both the advertiser and the agency areas feel that conditions are not the same as they were '23 or 24 years ago—and we should not assume that what may have been a good system then is still a good system now. It may be, but at least let's review, study, and take a second look at it . . ."

"... I can assure you that there are many advertisers who do not accept the simple statement that the 15% commission system is 'good for advertising'—that it promotes the use of advertising. A long time ago, it may have been true—today—no. Advertising is now an established and accepted function in our business economy—as are banking and financing.

We believe that the successful and productive employment of advertising by industry to the tune of nine billion dollars annually will do more to promote the use of advertising than a compensation system with which many advertisers are not completely happy.

"Advertisers are looking for an answer in terms of what would be best for all—the primary consideration, of course, being what is best for the building of our businesses. But they want a solution that will adequately and properly compensate for services rendered by advertising agencies, as well as media . . ."

The road has been cleared to discuss honestly, frankly, and in a wholesome manner, prescribed notions—calmly—in a businesslike manner, financial relationships without criticism, resentment, or any necessity for feeling unethical. There are many services today for which we compensate our agencies, which in no way involve their dealings with us. Let us examine these—evaluate—and agree to their price—not for the purpose of necessarily reducing the agencies' compensation, but more with the view of seeking a method of compensation that is more in keeping with today's sound business practices . . .

WHAT'S THE BEST WAY FOR BRISTOL-MYERS?

A THIRD SPEAKER at the ANA Pebble Beach meeting was Donald S. Frost of Bristol-Myers, who spelled out the steps his company planned to follow in reviewing the compensation question with its three agencies (BBDO, Young & Rubicam, and Doherty, Cliford, Steers & Shenfeld):

"... At this moment, I am not really certain if we want to make any change, or if so, what revisions in the method of compensation should be formulated . . ."

"Let's face it, there are many important and relevant advantages in the existing system to the agency, to the media, and to the advertiser in the 15% commission system . . ."

"... We are going to make a complete and

the truth about...

**BTA-500—50 KW AMPLIPHASE**—New "Ampliphase" design greatly reduces number of tubes and power costs, assures lowest operating cost of any 50 kw AM transmitter. Takes less than 80 square feet of floor space. Requires no under-floor trenches, reduces installation costs.

**BTA-250M—250 WATT BIO-LEVEL**—Provides the quiet operation desirable for control room installation. Simple one-control tuning. Distortion-free "Bi-level" modulation, excellent frequency response. Uses only 10 tubes of three tube types. An ideal "economy package.

**BTA-1M/500M** (shown with left-wing phasing cabinet) — Features low power consumption. Uses only 15 tubes in the BTA-1M, 14 in the BTA-500M, and only four types. Single-control tuning assures ease of operation. Modulated by RCA's famous "Bi-level" technique. Complete transmitters housed in an attractive and practical lightweight aluminum cabinet.

**BTA-1M/500MX**—Designed for high-fidelity operation, transmitters BTA-1MX (1kw) and BTA-500MX (500 watts) offer single-control tuning, desirable Bi-level modulation, low power consumption, fewer tubes and fewer tube types. Minimum floor space required...approximately 6 square feet.

**REMOTE CONTROL EQUIPMENT**—RCA Remote Control Equipment provides facilities to switch program lines, adjust plate or filament voltage, operate a line varic control on emergency transmitters. Control Conelrad switching, operate power contactors and reset manual overload breakers from any desired control point, regardless of transmitter design or power.
FOR 25 YEARS RCA broadcast transmitters have been widely acknowledged as the best. During this period they have been the transmitters most often chosen by those stations which wanted, and could afford, the very best. Thus they early became, and have remained, the standard to which all others are compared.

Unfortunately, some stations have believed that they could not afford such quality—no matter how much they wanted it. Today any station can “afford” one of these top-quality transmitters. In fact, it is hard for us to see how a station can afford not to buy one.

Why is this so? Simply because today RCA transmitters cost only a very little more than the lowest-priced (sometimes no more). And the small extra original cost (if any) is more than made up for by these two facts:

1. **RCA transmitters are generally less expensive to operate.** This is so because in almost every power class RCA transmitters either use less power, or have lower tube cost (in some cases both).

2. **RCA transmitters almost always have higher resale value.** This becomes very important when you go to higher power, or if you should decide to sell your station.

What is the moral? Simply this: don’t jump to the conclusion you can’t afford RCA. We believe you can, and we would like an opportunity to prove it. Call our nearest AM Specialist (see list). He will be glad to go over your situation with you, give you the benefit of his (and RCA’s) broadcast equipment knowledge, and leave with you a complete and fair proposition. With such facts at hand you can make a correct decision. There’s absolutely no obligation. You owe it to your station to find out. Act now!
No 'laissez faire' in modern management

Another forum at which advertiser views were spotted out was ANA's third annual budget conference, held June 7 in New York. ANA President West told that meeting:

"... The sound policies and efficient practices demanded of management under present-day conditions, whether it be general management or advertising management, will not condone a laissez faire attitude which has been too prevalent in the past. Advertising management must be accountable for the amount of services it gets from the agency and the final authority on how much the company will pay for the required agency services and the basis on which it will pay for those services. By the same token, it is the agency's prerogative, as an independent, outside purveyor of skilled professional services, to determine what services it will provide the advertiser and at what cost...

"Under any honest appraisal, many past practices will not stand up too well to careful scrutiny in the light of sound management concepts... I will grant them to tell me what is involved in producing the services we need—and what it costs them to provide these services. In some cases this may require new costing and accounting procedures on the part of the agencies, but I feel that the reformation is necessary in a proper consideration of the particular service involved.

"In other words, I do not believe we can afford to continue on the basis of what amounts to giving the agencies a blank check equal to 15% of our total appropriation without knowing more about what we are getting in return for this expenditure than we do today. Or putting it another way—am I in complete agreement with an advertiser who put it this way: our particular interest is not so much what we pay for what we get as it is what we get for what we pay...

"...I do not expect our agencies to have their heads in the sand. I fully expect that they are going to discuss the question with us fairly and objectively. I fully expect that they will realize we are approaching them not in order to get cut-rate service, but only in the desire to establish our joint effort on a more efficient, more economical, more realistic, more business-like platform.

"If they believe that continuation of the present system is the proper basis for operation, we expect them to say so—and to justify it.

"We expect them to justify it not on the grounds of precedent—not just because that's the way it's always been—and that no one has anything better to offer. No—we want them to justify it on the basis of facts and analysis, to point out why in their estimation this is the best way for us to work together... if they believe it is. And I might add that their point of view has to be an extremely important consideration in any agreement we might enter into. They must be each running a business—an important business to them, to us, and to other clients as well. Just as we expect them to approach the problem as it applies to us—so must we approach it with an understanding of how it applies to them as well.

"And at this point I expect the agencies to explore with us the advantages and disadvantages of other methods of compensation in order to assist in making up our minds regarding the desirability of a change.

"Along these same lines, I do not expect our agencies to base their case on the fiction that they are working for the media and, therefore, should be paid by the media on a basis established by the media. As far as we're concerned, our agencies are working with and for Bristol-Myers Co.—and if that policy is to be carried on, they should work for the media, and we'll get ourselves another agency that we'll be damned sure is working for us.

"I really don't mean to sound tough, but this is a point that always gets me, and I've been more and more of late. This business has changed—the relationship of advertiser and agency and change has changed, the relationship of agency and media has changed. Let's all get it and put it—objectively—on the basis of today's conditions..."
Black Bear

Ursus Americanus

Buffoon of Michigan's North Woods, the Black Bear is one of the state's top tourist attractions. The young are born in a rocky cave, hollow tree, dense thicket, or in a bed beneath the snow.

Original sketch by conservationist Charles E. Scholer

Put your money where the people are

The bare facts are that the Bruin Family hasn’t a nickel to its name, never listens to the radio, never buys soap, toothpaste, or anything else you advertise.

Enjoy the Black Bear when you visit Northern Michigan. But when it comes to radio advertising, put your money where the people are—on WWJ, first in Detroit in experience, acceptance, and audience-pleasing personalities.

70 per cent of Michigan’s population commanding 75 per cent of the state’s buying income is within WWJ’s daytime primary area. In the Detroit area alone, over 3½ million people drive nearly 1½ million cars and spend over $5 billion annually for retail goods.

HERE are the views of one of advertising's senior citizens on the newly revived issue of how advertising agencies should be compensated. They were written in 1933 by James Webb Young, then a U. of Chicago professor who formerly had been a vice president of J. Walter Thompson Co. and who now is senior consultant at JWT as well as former chairman of The Advertising Council.

Mr. Young's study was commissioned by a group of advertisers, agencies and media, and was published by the U. of Chicago Press under the title "Advertising Agency Compensation in Relation to the Total Cost of Advertising." It is widely accepted as the most thorough appraisal yet made of this controversial subject.

Assn. of National Advertisers, then as now desirous of seeing advertisers get more direct control over what they pay agencies, challenged his conclusions at the time and undertook to rebut them, but they prevailed nevertheless. Advertisers today maintain that the situation has changed materially since 1933, making Mr. Young's conclusions less valid now than then. Agencies on the other hand maintain that they are still eminently correct. Mr. Young himself told B&T last week that he had reviewed his report in the light of today's debate but found no reason to revise the views he expressed then. Here, reprinted with Mr. Young's permission, is a slightly condensed text of the "conclusions" from his report:

THE HISTORY of the advertising agency clearly shows that no advertiser, publisher, or agency-owner deliberately and planned to set up the agency structure as it exists today.

Instead, this history exhibits perfectly the process by which, as one student of society describes it, every social institution grows, namely, "that the men (involved in it), each struggling to carry on existence, unconsciously cooperate to build up associations, organization, customs and institutions which, after a time, appear full grown and actual, although no one intended, or planned, or understood them in advance."

The advertising agency came into existence and developed in association with the periodical publishing business. But its history makes clear the fact that no publisher created it. It would appear truer to say that the agency created the modern publisher, by taking what was originally a by-product of the publishing business and making its sale so valuable that the entire economy of publishing was changed.

In particular, no publisher planned or created either the method or the rate of agency compensation in force at any given time. These always grew out of agency experience, and each individual publisher accepted or rejected either the one or the other, as his own profit experience or competitive conditions dictated. As that experience has, at times, disclosed a long-run value to the publisher in a given course of action or development he has, individually or collectively, affirmed and supported that long-run and general view against the short-run and individualistic view. But such publisher "legislation" with regard to agency compensation always took place after the fact, when agency practice had disclosed the profit trend.

Not since its very earliest days does the advertising agency appear, in the real sense of the term, as the "agent" of the publisher. Men who enter the agency business have always done so, typically, as independent entrepreneurs, risking their own capital and seeking a profit in their own ways, in competition with other ways. In selling what they had to sell, or in performing what they undertook to perform, they have served the interests of both publishers and advertisers when either found it profitable to engage them to do so. They have never had any franchise from either.

In his search for a profit the agency operator or advertising man has tried many ways of finding it. He has sought it by promoting the sale of advertising space alone; by offering a creative advertising service alone; by offering advertising counsel alone; by working for some one advertiser alone. And he has tried these ways at all periods and in all sorts of prices.

Of all the methods tried, that which consistently proved most productive for a certain sort of man was found in promoting and facilitating the use of the periodical publisher's space. Out of this activity grew the advertising agency.

It was a part of this experience that the agency mechanism developed the greatest efficiency where its price basis was stabilized, its choice of media the most impartial, and its competition for the advertiser's patronage on the basis of creative service rather than price. The demonstration of this by leading agencies led the publisher to recognize that he had a vital interest in supporting and encouraging one type of agency operation as against another.

This publisher support accelerated the development of the agency as we know it today. Crystallizing in the publisher's recognition standards, it protected the agency in its development of new advertisers; furnished a check on experience in the agency business; set a public-opinion standard for agency compensation; encouraged the expansion of agency service; and weeded out the men who could not compete in the delivery of that service.

The individual advertiser's interest is in the final cost of advertising to him. In this final cost there are two major factors: the price of the publisher's space and the use the advertiser makes of that space. In terms of true cost, that is, results, the use made of space is the most important of these two cost factors.

The price of the publisher's space, that is, his advertising rate, depends at any given moment on a complex of interrelated factors. But in the long run the governing factor will be the total available volume of advertising. As volume increases, the publisher's rate will tend to go down; and as volume decreases, his rate will tend to go up.

These results will be delayed, and even reversed at times, by competitive and other factors affecting the publisher's price, but in the long run volume will determine the advertising rate.

The individual advertiser, therefore, has an interest at stake in the maintenance of the total volume of advertising. This interest is long run and indirect, where the publisher's is immediate and direct, but it is none the less real. It would be important to follow that the individual advertiser has an interest also at stake in the total advertising volume promotion and protection activities of the agency—unless these activities conflict with the advertiser's more direct interests in the effective use of space for himself.

The possibility of such a conflict is expressed in the idea that the agency's counsel is vitiated: (a) by the fact that it has an incentive to sell advertising as a whole; (b) by the fact that not all forms of advertising are equally profitable to the agency to sell.

This idea has some basis in fact. There are undoubtedly cases where such a conflict has worked to the disadvantage of the advertiser.

However, there exist within the agency, and in agency competition, powerful checks and balances to any short-range view in serving the individual advertiser. The agency has its strongest incentives, not in the immediate profit to it from a given kind of advertising, but in maintaining the confidence of each advertiser and in doing all in its power to make a successful and satisfied user of advertising.

That these incentives work in an overwhelming majority of cases is testified to by advertisers. Few advertisers have any criticism of their agencies as a service mechanism. They consider it as one necessary and valuable for their business; they value the services received from it; and many believe they could not supply

themselves with such services as efficiently or as cheaply in any other way. The specific services which they receive show that many agencies, at least, operate in fields in which there is either no direct profit incentive or a limited one. And the majority of advertiser-agency relationships are on a basis of intimacy and confidence.

That the agency is primarily an advocate of advertising as a method of securing results may be accepted as basic to its operations. This is its function, and it appears to be most valued by advertisers as a whole when it devotes itself strictly to this function. As an advocate it cannot claim complete impartiality; it can only claim that it has the usual business incentives to advocate wisely.

Within its functions as an advocate of advertising the agency has some limitations as to forms of advertising. Its strength is that it has fewer of these than any other advocate.

What is probably true is that, by and large, the agency does not study and develop the possibilities of non-commissionable advertising. In these, either no organized medium exists, or the publisher competes with the agency in creative service, or the advertiser has been unwilling to supply an incentive for the agency.

Inequitable Distribution

The major question raised about the advertising-agency structure, and the only criticism of it made by any considerable number of advertisers, is that it operates to distribute its costs inequitably among advertisers.

At all levels of expenditure, from the highest to the lowest, there are advertisers who are satisfied with agency compensation in their own case. The majority of advertisers have no criticism on this score. But also, at all levels of expenditure, there are advertisers who feel that their agency receives an excessive compensation for the services performed in their case, and the percentage of such advertisers is substantial in groups with expenditures above $500,000.

However, even some advertisers who are satisfied with agency compensation in their own case hold the view that what the advertiser buys from the agency is personal service. They see it as a defect in the structure that, having bought this service, the advertiser is asked to pay for it, not a price determined by the quantity and quality of the thing he buys, but a price determined by the quantity of another thing [space], which has no necessary direct relation to what he wants and buys from the agency.

As a corollary to this, some advertisers feel that the agency is tempted to offer, and the advertiser to accept, services which are unneeded or could be secured cheaper elsewhere, and that this leads to extravagance and waste, and hamper the advertiser's freedom of choice in securing the service he wants.

The table of agency profits by accounts shows clearly that high rates of net profit are currently produced by some accounts at all levels. Therefore, at any given moment in any given agency, there are accounts on which the rate of profit is high as measured against the current service to the individual advertiser. It is, therefore, natural for such advertisers to consider their costs of operation, measuring them as they do in terms of their individual service only.

In this sense the distribution of agency costs is inequitable: currently and directly some advertisers get more service than they pay for; some get less.

This same type of inequitable or uneven distribution of costs runs through other parts of the advertising structure, although they are not so discernible as in a direct comparison between agency service and income for a given advertiser. Thus the agency commission is unevenly distributed as between individual periodicals publishing to the large consumer, more than it costs at times to service advertisers in his publication, and the small publisher paying less.

Similarly, a whole class of publishers may at times be said to carry in their rate the cost of the agency's work in developing the use of a new and competing medium.

It may be clearly seen that this uneven distribution of agency costs to advertisers does not occur on a volume of expenditure basis. These are the conditions of uneven distribution in individually small accounts and there are losses on some very large accounts. At all expenditure levels there are both losses and profits from current operations on individual accounts. It is seen that the causes of these variations are many, and volume of expenditure is only one factor in the result.

The only exception to this appears to be where expenditures run above $3 million on a single product. In such cases the volume factor appears to outweigh all other variables and to produce a consistently high rate of net profit. It is possible that this weight of the volume factor begins to operate when expenditures on a single product go above $1 million, but from the evidence available this is not sure.

Thus the question of what is the best rate of compensation for the use of advertising appears to be too broad to be answered by this study. At any rate, the concept of an all-round rate for the use of advertising appears to be far more necessary than to advertise, and the publisher can afford to sell service alone.

The fact that some advertisers will buy advertising space without urging, and that some will provide themselves with skilful services for the use of space, appears beside the point. In some forms and through some mechanism the publisher will always attempt to stimulate the use of his space with creative advertising conceptions, and to minimize the hardships of its use by providing more service for the inexperienced. The cost of this will be borne somewhere in the publisher's price structure and be paid in part by all advertisers, as in other merchandise where service in its use is a necessary part of its sale. This will create a service organization with which other organizations selling service alone will be unable to compete.

Nothing Sacred About 15%

There is nothing sacred about this [15%] rate, and it has varied from time to time, and from 25 to 10%. At all times it has been set primarily by agency practice and has been accepted or rejected by individual publishers as they saw fit.

The question of what is an excessive income in any given case is difficult to answer. That is, the question of what the agency operations there do occur occasional combinations of circumstances which produce incomes which might be called excessive is probably true. That the agency structure as a whole, or on the average, tends to produce excessive incomes for its personnel does not appear true, when the hazards involved, the talents employed, and the contributions made are considered.

The question whether this total cost of 15%
Now you can telecast high quality color, economically. GPL has made its 16mm. telecast projector more outstanding than ever by adapting it to either single-vidicon or three-vidicon operation. Either way you get the bright, clear pictures for which this projector has long been noted in studios all over the country. What's more, you can change over earlier GPL 16mm. models to color at a very moderate cost.

Among the many features of the new projector are color 3-2 intermittent with 30% application time and single phase synchronous motor. There are separate drive and take-up motors, both self-lubricated.

The newest GPL 16mm. telecast projector, like preceding models, is ruggedly built and highly economical to operate. Lamp life is extended by reduced stand-by voltage that eliminates thermal shock. The sound system, of course, remains unexcelled.

Both Nielsen and ARB! They show that “Panorama Pacific” has more viewers...higher ratings...a bigger share of audience than any other Pacific Coast network early-morning show. And within reach of the eight CBS Television Pacific Network stations carrying the show are 93% of the Coast’s television families. Perfect way to cover the Coast at one fell swoop!
could be more equitably distributed among advertisers is a pertinent one. It appears that any attempt to distribute it by a so-called "sliding scale" based on volume alone would produce at least as many inequities as the present method. As between two advertisers, each expending $100,000, one would still need, demand, and get more service than the other. Likewise, any attempt to distribute these costs on the basis of pieces of advertising material prepared, and other service factors, is defeated by the variable factors in each individual agency's costs. Only by offering the advertiser a plan in which he may choose which services he would buy, and what quality of skill in those services he wanted, could a charge more nearly approximate to the cost of each advertiser's service be made. Under such a method of charging, some advertisers would gain immediately and currently. But such a method would also return agency service to a price-competitive basis, with the deterioration in that service which has always resulted from agency-price competition. It would reduce the agency's freedom to create and protect advertising and to judge what services were needed to do this. This would result eventually in a lower volume of advertising and a higher advertising rate or it would throw back on every individual publisher a creative cost which would inevitably appear again in his rate structure.

There does not appear to be any other basis for agency charges than the one now made as long as the promotion necessities of publishers call for the maintenance of a pool of service for all advertisers and all publishers. So far as the individual advertiser and individual publisher is concerned, the cost of this service would appear to be an item of unallocatable overhead which can only be distributed more or less arbitrarily in proportion to volume.

There remains only the question whether from the distribution of these costs, by the general rules above, the small group of advertisers with expenditures exceeding $1 million on a single product should in any degree be exempt.

In advertisers of this class there is the same difference of opinion about agency compensation as is found in other cases. Some are entirely satisfied with it in their own case; some are not. There seems to be a widespread suspicion that most of the very largest advertisers place their business at less than card rates. All the evidence is to the contrary.

They Do Get Extras

What is true is that the very large advertiser receives a quantity and quality of service, collateral and direct, in excess of that received by most advertisers. He often receives without extra charge collateral services for which other advertisers pay, and sometimes receives them in large degree. He always receives the maximum abilities of the agency personnel.

This type of advertiser also usually receives the most valuable, though intangible, contributions which agencies make. With few exceptions, such advertisers are in the group whose products are most dependent on the creation of selling ideas expressed in advertising copy. The highest type of advertising skill is exerted in their behalf.

The rate of net profit on these accounts is high and the rewards therefrom to the ablest agency personnel are high. Some advertisers consider these rewards too high for what they receive; some equally large advertisers do not.

The difference in views seems to depend largely on how an advertiser values the intangible quality factors in advertising service, for which no standard of measurement is possible.

Because such advertisers are few in number and do not represent a very high percentage of the total advertising volume, it is probably true that some modification could be made in the distribution of service costs to them without seriously impairing their own direct services or the service to advertisers as a whole.

But it must be pointed out that there are many smaller advertisers whose accounts produce as high rate of net profit, and who on other grounds than volume have as good claims for relief from part of the general cost burden. Further, that large publishers can equally claim the justice of carrying a lower percentage of the services costs in their rate.

It would seem that the flat rate, in which all publishers and all advertisers carry in proportion to volume a share of the total direct and indirect costs of the advertising service structure, is either right for all advertisers and publishers or wrong for all.

The conclusion of the examiner is:

That the method of advertising agency compensation now in force is the most practicable one for maintaining the true and long-run interests of all advertisers and all publishers.

That the rate of compensation is not excessive for the structure as a whole.

That all advertisers and publishers should bear, in proportion to volume, a share of both the direct and the indirect costs of the structure.

Unlike this gentleman, we consider it foolhardy to plunge into anything without first having all the facts in hand.

When we make sales calls, intelligent advance preparation stands behind them. It's a ruling premise of successful representation for successful television stations.

Knowledge of advertisers' problems and station background is not only important, but necessary to the salesman eager for and interested in getting the most for the stations he represents.

All this — plus hard work and conscientious effort for a limited group of stations — add up to an outstanding calibre of performance. What it means in profitable results is, we think, worthy of examination by others.

Admiral Corp. Appoints
Henri, Hurst & McDonald

APPOINTMENT of Henri, Hurst & McDonald Inc., Chicago, as agency for the bulk of its radio, TV and other advertising was announced by Admiral Corp. Thursday [AT DEADLINE, June 11].

Edmond I. Eger, Admiral vice president for advertising, said the agency would handle newspaper, magazine and printed materials for Admiral’s electronics and appliances divisions as well as broadcast media. Admiral is spending about $17 million on overall advertising this year, according to Ross D. Siragusa, its president. Henri, Hurst & McDonald succeeds Russel M. Seeds Co. [B&T, June 4].

While no radio-TV plans were reported at this time, it was confirmed that Admiral is dropping Bishop Fulton J. Sheen’s Life Is Worth Living on ABC radio-TV and is buying participations on NBC-TV’s Today and Tonight, with purchases estimated in some quarters at about $2.5 million.

Compton In New Quarters

COMPTON ADV., New York, moves into its new quarters at 625 Madison Ave., today (Monday) where it acquires double the space it had heretofore. The new offices were needed because of the rapid growth of the agency which in two years has outgrown the available space at 261 Madison. As explained by Compton’s President Barton A. Cummings, the agency, which in the past two years had a billings rise of 36%, increased personnel to 500.

The agency, meanwhile, also was expanding in Los Angeles, acquiring the floor space of the now-defunct Biow Co.’s office in Hollywood and that of W. H. Hunt & Assoc., which Compton absorbed early in the spring.

Ford Sets Summer Series

RE-RUNS of filmed programs from the 1955-56 Ford Theatre on NBC-TV will form the basis of two series to be carried on NBC-TV this summer. The Ford Summer Theatre will be telecast on Thursdays (9:30-10 p.m. EDT), starting July 5 under the sponsorship of the Ford Motor Co., Dearborn, Mich., through J. Walter Thompson, New York. The second series, still untitled, will be presented on Saturdays (9:30-10 p.m. EDT) under the alternate week sponsorship of the Purex Co., Southgate, Calif., through Weiss & Geller, Chicago, and Whitehall Pharmaceutical Co. through Ted Bates & Co., New York.

THE BIG MR. SIX IN THE WEST

Represented Nationally by CBS Television Spot Sales
FREE PLUGS SUPPORTED, SAYS COSMETIC COMPANY

Helene Curtis Industries says several radio and tv stations have reacted favorably to Purse Spray gratis publicity.

SEVERAL radio and tv stations have expressed favorable reaction to a concerted plan by Helene Curtis Industries, Inc. to slip free plugs for its new Purse Spray product into women's programs, it was reported last week.

The plan came to light when at least two station operators protested the solicitations as out-and-out free time bids and suggested that the company purchase spots for suggested 45-second scripts extolling the product.

The suggested plugs were contained in promotion letters circularized to about 90 tv and 1,600 radio stations by Troy Knowles, public relations director of Helene Curtis Industries. He reported expressions of interest from 15 or 20 television and 50 radio outlets, indicating they would be prepared to go along with the free product plugs. The plan apparently was developed without the knowledge of the agency involved—Earl R. Ludgin & Co., Chicago.

There were no indications Thursday that Helene Curtis had purchased any spot radio or tv for the new product, although the firm is a substantial network tv advertiser.

Contacted by B&T, Mr. Knowles said: "Thousands of companies are doing the same thing. The question of free versus paid time assumes that the only thing newsworthy is on a commercial. Development of Purse Spray (a purse-sized hair spray that fits into a woman's handbag) is news. It is similar to product announcements sent to women's editors of newspapers. We are trying to develop a list of women's editors on radio-tv stations who would be interested in such a newsworthy product."

In his communication to broadcasters, Mr. Knowles suggested: "If you have a local woman's show that uses beauty items, we'd like to send you our news releases from time to time. That is, of course, provided the emcee would like to receive them. Enclosed is a sample of the type of material we will be sending out. A suggested 45-second script and a fact sheet on our newest product, Purse Spray."

Mr. Knowles claimed that "we have recently undertaken the public relations activities of all Helene Curtis divisions . . ."

Refers to 'Crank' Letters

Mr. Knowles acknowledged frankly he had received some turndowns and dismissed these as "crank letters from little radio stations which are starving for business." On the other hand, he said, quite a few expressed interest, particularly tv stations "from whom there was not a single crank letter." He added that stations were not obligated to participate in the plan and "as far as they know, I'm a potential time-buyer." The "crank letters," he suggested, were not from broadcasters who wanted to sell him time anyway and merely wanted to irritate him.

Mr. Knowles said circulation was limited in radio to those stations with approximate "750 w power" and those who would be expected to employ women's editors or directors. He said responses are still coming into his office.

One midwest broadcaster, in replying to Mr. Knowles, enclosed his rate card and noted his station carries no free product plugs. He expressed hope "your campaign to plant free time on radio is a failure." He noted pointedly his station is in business to make money.

Another midwest station operator cited its audience coverage claims and suggested Helene Curtis "spend money" to reach that audience. He felt the company could get its product to the people "for less money than you can mail out promo sheets." He cited coverage claims for a woman's program on his station.

Hazel Bishop Drops Whiteman; Series May Be Picked Up Later

BEFORE it could get on the air, the "new" Paul Whiteman Show has been dropped at least temporarily by Hazel Bishop Inc. for its Once-A-Day Cosmetics in the Tuesday 8:30-9 p.m. EDT NBC-Tv slot. Substituted is This Is Show Business, created by Irving Mansfield, who also will produce the new series that will start June 19. The "old" This Is Show Business was on CBS-Tv until about three years ago. The program features variety acts and panel discussions.

Raymond Specter Co., Hazel Bishop's agency, said only that Mr. Whiteman and the agency had mutually decided "to delay the commencement of the series until early fall" because they felt the new Whiteman show "has such great potentialities." The agency also noted that negotiations are in progress with two major networks for the Whiteman program. This was the second time within two months that plans for a summer program starring Mr. Whiteman had been shelved. Originally, ABC-Tv had been thinking of placing the orchestra leader in a new series that would have begun April 26.
CONCENTRATION pays off...

It certainly does when you focus on your prospects through the one medium that consistently kindles action in our four-billion-dollar Industrial Heart of America.

Tri-State Appliance Company, distributor of Temco heating equipment, found out! After using WSAZ-TV – along with newspapers and radio, too – for four years, this advertiser saw the major share of its sales consistently developing from television.

So, starting last September, Tri-State Appliance's entire advertising budget went to WSAZ-TV – and only WSAZ-TV – for a concentrated campaign of eight spots each week.

That was all it took to touch off a blaze of results. "Because of this concentrated advertising," says Tri-State's general manager, "we experienced a 100% increase in our sales over the like period of the previous year." Dealers are delighted.

Same type of campaign planned for Fall, 1956.

No need for us to be modest. Similarly warm praise comes from many advertisers who know how WSAZ-TV can light a fire under their sales in its 101 rich counties. Spark some results for yourself by calling the nearest Katz office.
**ENTERING** network television for the first time, the Douglas Fir Plywood Assn., Tacoma, Wash., has signed for sponsorship on NBC-TV's Home show (11-12 a.m. EDT). Present for the contract signing (l. to r.): Victor Kaufman, vice president, Condon Co. advertising agency, Tacoma; John Ritchie, Douglas advertising director, and Walter G. Tolleson, NBC.

**Sponsors Keep NBC-TV Time**

PUREX Corp., South Gate, Calif., and Speidel Corp., Providence, R. I., will continue to occupy the Saturday, 7:30-8 p.m. EDT time slot on NBC-TV throughout the summer, having substituted *Down You Go* for *The Big Surprise* beginning last Saturday. *Down You Go* previously was seen on ABC-TV, Thursday, 9:30-10 p.m. EDT. Agencies are Norman Craig & Kummel (Speidel) and Weiss & Geller (Purex).

**Four CBS Radio Programs Bought by General Foods**

GENERAL FOODS Corp. (Kool-Shake beverage mixes), White Plains, N. Y., has signed for eight-week sponsorship of four CBS Radio daytime dramatic shows, it was announced last week by John Karol, vice president in charge of CBS Radio network sales. Through Foote, Cone & Belding, Chicago, General Foods began weekday sponsorship June 6 of seven and one-half minute portions in *This Is Nora Drake* (2:30-2:45 p.m. EDT), *Young Dr. Malone* (1:30-1:45 p.m.), *Road of Life* (1-1:15 p.m.) and *Romances of Helen Trent* (12:30-12:45 p.m.).

Mr. Karol also reported that two other daytime dramatic programs are scheduled to return to CBS Radio. They are *Right to Happiness* (Mon.-Fri., 2:05-2:15 p.m. EDT), and *Pepper Young's Family* (2:45-3 p.m. EDT), both starting July 2. Daytime serials in new time periods are *Aunt Jenny* (1:15-1:30 p.m.) and *Second Mrs. Burton* (2:15-2:30 p.m.).

Mr. Turner helps drive home a point!

Hadley Turner is the president of Turner & Cook in Southfield, Massachusetts. He's shown here hefting one of the special rawhide mallets his firm makes for Western Electric. Making them was all in the day's work for Turner & Cook which has worked with rawhide since the middle 1770's.

The point? Simply this: Year after year, we at Western Electric rely heavily on the special skills and experience of other companies to help us do our job as manufacturing and supply unit of the Bell System. We count on this help so much we're constantly trying to uncover sources of supply. The payments we make to these companies benefit the communities in which they are located.

Last year we did business with 30,000 firms (90% of which had less than 500 employees) in over 3,000 cities and towns, in every state. And for their help we paid out roughly a billion dollars (about 55% of our 1955 gross receipts). These dollars helped pay workers, taxes, rents and many other business costs in communities all over the country . . . from Southfield to San Diego. Perhaps in your community, too.

Morrow Staffers Join HH&M

EIGHT members of Tim Morrow Adv. Inc., Chicago, have joined Henri, Hurst & McDonald Inc., same city, along with Tim Morrow, founder and creative head [AT DEADLINE, June 4], Martin Zitz, HH&M president, has announced. As new HH&M vice president, Mr. Morrow will continue to service eight clients from his agency. Also joining HH&M are Kay Whitehead, media; Robert Peota, production: Ted Carton, copy, and five others. Henri Hurst & McDonald reportedly billed about $8 million in 1955.

TO REACH THE HOME-FOLKS, RIDE THE “LOCALS”

Looking for an outstanding local personality to take your television message to the five-city WTAR-TV market? Andy Roberts, singing star with such big names as Jimmy Dorsey, Gene Krupa and Sauter Finegan and now a Monday-Friday mid-day feature on WTAR-TV is your boy.

It’s “theatre-in-the-round” with Andy Roberts and his combo surrounded by enthusiastic fans both in the studio and in their homes.

Available for “Class C” participations:

General Foods Spots Back ‘Register and Vote’ Drive

PUBLIC service and product publicity have been combined by General Foods Corp. in serving the Advertising Council with 60, 20 and 10-second tv film spots for the council’s “Register and Vote” campaign.

GF, through its agency, Benton & Bowles, last week announced that it’s giving the council a series of spots featuring Spring Byington, star of the food manufacturer’s December Bride show on CBS-TV. Benton & Bowles, currently the volunteer agency for the council’s “Better Schools” drive, suggested the Byington spots as a means of serving the public while at the same time promoting the CBS-TV-Maxwell House show. In addition to bearing all production costs, GF will furnish 500 free prints of each tv spot to the council for tv station-network distribution.

Of note is that none of the films mention either sponsor or program, but rely instead on the audience’s identification of Miss Byington as the star of her own show. The sponsor also said that it will extend similar facilities to other council campaigns, such as the Red Cross and anti-forest fire drives.

Electronics Investment Fund Ends First Year With Gains

GROWTH of 25.9% in net assets—from $9,150,000 to $11,522,046—in its first year of operations ended last April 30 has been reported by Electronics Investment Corp., an investment fund which first began continuous offerings of its shares to the public May 13, 1955. Net asset value increased from $4.57 to $4.93 a share.

According to Charles E. Salk, EIC’s president, the fund now has more than 13,000 shareholders. The fund observed that the electronics industry gross product totaled $200 million at the end of World War II and anticipated a 1956 volume of $1.08 billion, nearly $1.2 billion above last year. Noted too were “exciting developments” such as video tape recording, and the prospects for still more, i.e., “final tests in color and wall television.”

Nielsen Official Outlines Progress of Audience Survey

THE PROGRESS of audience research since the first such survey was made for radio was outlined by E. P. H. James, vice president of A. C. Nielsen Co., in a speech last week before the Chicago Junior Chamber of Commerce.

Mr. James described methods by which radio and tv listening and viewing habits of American families now are measured and recorded by precision electrical and electronic meters. He showed his audience a copy of the first radio audience survey, made for NBC in 1928.

Mystik Plans Tv Campaign

MYSITIK Adhesive Products Co. (Mystik tape), Chicago, is drawing up plans for a tv spot campaign to promote its color cloth tapes this fall. Agency is George H. Hartman Co., Chicago. Mystik completed a joint radio-tv spot drive in selected markets May 1 and will use newspapers in 26 cities to supplement its television campaign. Specific radio-tv plans have not been worked out yet. The advertising program was announced by Harry Feuer, newly-appointed advertising and merchandising director for Mystik, with target date of Sept. 9.
RAYTHEON
KTR SERIES
TV MICROWAVE LINKS
FOR RACK MOUNTING

To meet your need for permanent TV relay installations, Raytheon now provides its famous KTR series links for fixed as well as portable use. Retaining all of their fine performance features, the KTR-100 and KTR-1000 (100 mw and one watt) are now available rack mounted for the 6000 and 7000 mc bands.

A new accessory system offers remote control of important transmitter and receiver functions and also includes an alarm circuit. Both rack-mounted and portable units can be operated with waveguide extensions. A ferrite isolator eliminates long-line effects, thus permitting indoor operation and maintenance of the entire equipment, with the antenna system separated from the radio equipment by as much as 100 feet.

In nearly 200 television stations*, Raytheon KTR links provide monochrome or color with simultaneous program audio transmission at lowest cost with greatest reliability. With the addition of rack mounted units, Raytheon now serves you with the most complete line in the industry.

PORTABLE KTR UNITS
FOR REMOTE PICK-UPS

The ultimate in simplicity and portability, Raytheon KTR equipment for portable use consists of only four compact units with a total weight of 162 lbs. Portable units are available for all bands—color or monochrome with audio channel—if desired.

*Names on request.

TV, MUSIC AND SOFT SELL: SMASH SCORE IN ST. LOUIS

They called them incompatible, but six years of success for the Laclede Gas Co.'s 'Musical Showcase' would indicate otherwise. Here's the story of how imaginative, prestige programming has paid off in incalculable goodwill for an institutional advertiser.

AN UNUSUAL local tv phenomenon occurred in St. Louis with the telecasting of the 200th Musical Showcase presentation, a locally sponsored and produced show. Two hundred telecasts of any local show is unusual, but even more so when the program boasts a symphony orchestra as the core of its music format.

The idea of Musical Showcase, sponsored by the Laclede Gas Co. of St. Louis, goes back to 1938, even before television had made an appearance in St. Louis. Laclede had just come back under local management, and the men behind Laclede's advertising and public relations program set a goal for themselves of more closely identifying Laclede as a public minded utility and, even more, a citizen and a part of the community. Twelve years later, on Oct. 8, 1950, the first Laclede show was telecast over KSD-TV. It has continued on that station every Sunday evening, except for summer vacation months, for the past six years.

Why a musical show—especially on tv where music formats seemed to be dead ducks because of the limitations they place on video? Laclede thought otherwise. The original advertising problem was to find the best way to reflect the character of the utility . . . to introduce and to mirror its personality. The medium had to project the voice and the interests of the utility—and by connotation, establish it as a "big" citizen, interested in the welfare of the community.

Laclede's advertising agency, D'Arcy, took on the job of producer, and, with a format considered to have poor visual appeal, and on an unheard of level, and speaking with a "low pressure" selling voice, and offering "high brow" music, the show got off to a start. What happened? The pay-off came immediately—in the form of letters and telephone calls from hundreds of St. Louians, commendations from tv people, educators, and many civic minded individuals and groups—plus a tremendous rating that showed thousands of Smiths and Joneses in St. Louis were watching the show every Sunday night.

Six years have changed the show, but the basic format stays the same. The first telecast was actually a televised concert. Harry Farbman, assistant conductor and concertmaster of the St. Louis Symphony, conducted a sixteen piece orchestra comprised of members of that symphony, and Frank Eschen, the "dean" of St. Louis announcers, introduced the individual compositions.

The orchestra now numbers 24 members, and at times is supplemented to the extent of 36 members for special shows. Mr. Farbman still conducts the orchestra, and Mr. Eschen acts as the show's main mc. But out of the original format have come several basic patterns for the present shows. The "Pops" program may feature compositions by the old masters, interspersed with popular composers such as Rodgers and Hammerstein, or Copeland, or Leroy Anderson. Another type of programming requires the talents of exceptional artists of national concert stature. For these shows, such artists as Thomas L. Thomas, Nadine Connor, Dorothy Maynor, Eugene List, Camilla Wicks and others have been brought to St. Louis. A third format is thematic. These shows present a particular mood, the music of a foreign nation, folk music, or special groups of musicians or singers, such as The Oberknirchen Children's Choir or The Arizona Boy's Choir.

In addition to the three formats above, several "special" shows are presented while

MAESTRO HARRY FARBMAN

the orchestra is on tour with the St. Louis Symphony. These are the Musical Showcase jazz presentations. In the past, the show has featured Eddie Condon, Ralph Sutton and Errol Garner, and in February of this year it presented a "Jazz Festival" in three parts. Lurlean Hunter and the Johnnie Pate Trio presented a half-hour of "Subtle Sounds" as Part I of the festival. Part II featured the Dave Brubeck Quintet in a program of "progressive" music, and Muggsy Spanier and his group blew their way through "Dixieland" as Part III of the series.

What kind of a selling job is the show doing? The statistics say the weekly viewing audience is between 500,000 and 750,000 persons. The average tab for each listener per show is accounted at around 94 cents. You might ask what kind of selling job you can do at that price. The answer, from Laclede and D'Arcy, is unanimously, "Splendid!" In St. Louis and the surrounding area nine out of ten women cook with gas. In St. Louis, "gas" and "modern" mean the same thing. Over its six years, the Laclede Show commercials have introduced and demonstrated every modern feature of nearly every major make of range and gas appliance. Besides the success reflected in sales and the maintenance of the lead over other types of cooking, Laclede and D'Arcy measure the show's worth by the tremendous amount of confidence the show has inspired in its widespread audience. The confidence in the name and the character of Laclede has spread over to demonstrations of confidence in the utility and its varied services.

Laclede's commercials are of the soft sell variety, and are used to demonstrate all domestic gas appliances, and for service hints and information. Besides appliances and the services of the utility, commercial time is also given to the support of many community projects and drives, and to Laclede's own special promotions such as poster contests on civic themes, The Bildor's Home Show, Laclede's teen age cooking contest (the "Chef Blue Flame Club") and major promotions such as the Mrs. Missouri contest Laclede sponsored in 1954. From the latter, Wanda Jennings of St. Louis emerged as "Mrs. America" of 1955.

Although the commercials are soft sell, the preparation is detailed. When only 1/2 minutes of a half-hour show are devoted to commercial use, a lot of clarity in demonstration and benefit sell has to be refined and put into slick binding. In a music format the commercial cannot be allowed to lose the audience or stifle them. Laclede's commercials are given by a quietly attractive young housewife with a casual, easy delivery. There are no prices or brands mentioned. The commercial is an invitation to consider the advantages of gas, the modern servant, in cost, in saving time, and in ease and dependability. In short, commercial production has been carefully bound between rows of flowers laterance.

Commercial production is carefully planned. The production staff includes three agency writer-technicians who consult with the Home Service Dept. of Laclede to assure a woman's view toward appliances. Video effects such as space staging with lights, miniature appliances, and close-ups of food demonstrations are used to enhance video interest as well as to present informative messages with maximum illustration.

Because Laclede is interested in results that indicate listenership for its commercials, several times a year the commercial offers such give-aways as cook books and Christmas carol books. In the past year, both of the former offers were given away in June of 5,000 each, the entire stock, after the second announcement. Besides give-aways, the commercials often outline the services of Laclede's home service unit. Free advice on all phases of homemaking, from recipe preparation to cleaning spills on ranges, is constantly offered. A steady ringing of the home service telephones has brought them of the commercial's effectiveness.

Overall show planning starts in the summer, and individual shows are usually two months in planning and preparation before they reach the cameras on Sunday nights. One of the greatest production problems is
THE ORCHESTRA: Cramped in space, but not in repertoire, it's proved in six years that serious music can make good local TV fare, attested by St. Louis' enthusiastic acceptance.

GUESTS like pianist Eugene List supplement the Lacalede orchestra.

VOCAL GROUPS, too, play an important part in Musical Show-case. The Obernkirchen Children's Choir of Obernkirchen, Germany, was a highlight of the 1955-56 season on KSD-TV's popular Sunday evening show for Lacalede Gas. Co.

EVEN DANCES are not beyond the program. This interpretive number illustrates effective yet simple staging and lighting.

COMMERCIALS get their due of inventiveness. This danced-through spot demonstrated the ease of cooking with gas.
mustard...

No excuse for overemphasis... no alibis for downright "goofs" and "fluffs." Use film and calmly scissor out the offending footage! Little or no time lost! Relatively small expense! What's more, once you're satisfied with your show, you can pre-test it—know in advance that it will produce the reaction you seek. Yes, there are many advantages when you USE EASTMAN FILM.

For complete information write to:

EASTMAN KODAK COMPANY
Rochester 4, N. Y.

or W. J. GERMAN, INC.

Shoot it IN COLOR... you'll be glad you did.

rehearsal time. Air time is 9:30 p.m. Camera dress is as 8. Individual segments of the show are rehearsed from 4:30 Sunday afternoon. From the time dress rehearsal starts there are 1\(\frac{1}{2}\) hours to integrate the show that is finally telecast. To minimize on-camera rehearsal, the D'Arcy staff rehearses any symphony soloists, local dancers or singers during the week of the show. Since concert artists usually arrive in St. Louis the day of the show, they are rehearsed by Mr. Farbman with the orchestra on Sundays at 5:30 off camera. At 7 while the orchestra takes a break, the D'Arcy staff meets with the tv studio technical staff, the choreographer, costumer, and make-up artists to clear up production details. The commercial is rehearsed both prior to the show, and from 7:15 until it is in correct production. The orchestra is recalled at 7:45 for final camera check, and by dress time the show is packaged and paced into production. Between dress and air time staff members work to smooth out rough spots and correct time discrepancies.

Another major problem, studio space. The KSD-TV studio is 50' x 24', and is broken by two large pillars that add to the difficulties of getting the most out of the cameras. To overcome these space limitations, focused perspective sets, gobos, scrims, space stage lighting and wide angle shots are relied upon. A special platform has made impossible "down" shots possible despite the lack of a Houston crane, and unusual camera angles, multiple-image lenses, a zoomar lens, supers and mirror shots provide interesting variety while the orchestra is playing. Camera men have been schooled in instrument identification, making possible constant camera action during orchestral selections. The dance is at times used to illustrate movement and feeling of musical numbers, and in this regard pre-plotted of actual dance space, plus forced perspective devices have enhanced this part of the show.

Dancers in the Act

A typical show integrating dancers with orchestra would be the "Meet Morton Gould" program of this season. Gould's music is orchestrated for small groups, and is classical in form, but pleasant listening for the average viewer. As the show got into the planning stage it was decided Mr. Gould should appear and play his own music, and even conduct one of his own compositions. The orchestra was supplemented in order to multiply the string section for the spiritual, "Motherless Child," and the Lacedancers choreographed a stylized dance to the "Blues" number in Gould's "Interplay." Then an interview between Harry Farbman and Morton Gould was fitted into the show. Dancers had previously rehearsed to recorded music, and were then rehearsed with the orchestra and Mr. Gould, the day of the show. From then on in, the orchestra, guest, dancers and staff followed the usual rehearsal schedule until air time at 9:30.

What is the measuring stick of the show's success? It is difficult to weigh the intangibility of public relations, but you can see steady indications of the presence of good public relations. Besides its commodity, Laclede's biggest product has been itself. Its salesman, Musical Showcase, has consistently demonstrated public service, as well as contributed to the community's cultural scene. The station's enrolled Laclede not only to tell about service, but to give it, and television has enabled the utility to attain a degree of warmth, real-ness and personal-ness no other media could approach. Written requests for give-aways, thousands in attendance at Laclede's booth at home shows—the steady ring of telephones in home service division, and thousands of requests for recipes and for suggestions—all are computable evidence of success. On the other hand, excellent consumer relations, increased sales, cooperation from manufacturers and distributors, and community respect, are the climate of success Laclede has sought and found through Musical Showcase.

Laclede's president, Judge Robert W. Otto, sums up his feeling about Musical Showcase by saying, "We set out to give St. Louis something it could be proud of, and have succeeded in this aim by giving it the best music, in recent years, St. Louis has accepted the Laclede Gas Co. not only as an institution serving the Greater St. Louis area, but as a part of St. Louis."

Esty Elects Johnson

MITCHELL JOHNSTON, member of William Esty Co.'s tv department in New York since 1951, last week was elected vice president and director of tv programming. He succeeds Sam Northco, who was appointed assistant to the president on the R. J. Reynolds Tobacco Co. (Camels, Winston's, Salem's, Cavalliers) and account executive at Salem cigarettes.

SPOT NEW BUSINESS

Car-Skin Products Inc. (car polish), Flemington, N. J., preparing six-week radio spot announcement test, effective today (Monday) on about 20 stations in Virginia, North and South Carolina. Agency: Zlowe Co., N. Y.

Loblaw Supermarkets in Canada has started sponsorship of half-hour Guy Lombardo Show on 13 tv stations in Ontario, where company's outlets are located. Agency: F. H. Hayhurst Co. Ltd., Toronto.

NETWORK NEWS

General Electric Co. (Television Div.) will sponsor G. E. Summer Originals, diversified dramatic presentations, on ABC-TV (9-9:30 p.m. EDT) starting July 3. Agency: Young & Rubicam, N. Y.

State Farm Mutual Auto Insurance Co., Bloomington, Ill., will sponsor Hank Weavers Corner, sports commentary, on five stations of ABC Western Regional Television Network each Wednesday (7:45 p.m. EDT), starting July 4. Program follows ABC-TV's Wednesday Night Fights series. Agency: Needham, Louis & Brorby, Chicago.

NETWORK RENEWALS

Gospel Broadcasting Assn., Pasadena, Calif., through R. H. Alber Co., L. A., has renewed The Old Fashioned Revival Hour (Sundays, 4:30 p.m. EDT) on ABC radio.

ADVERTISERS & AGENCIES
TELEVISION AND AUTOMOBILES: THE IDEALLY-SUITED COUPLE

TELEVISION and automobiles were made for each other, according to George Wolf, vice president and director of radio-television at Ruthrauff & Ryan agency. In a speech in Detroit last week before the Michigan Council of American Assn. of Advertising Agencies, Mr. Wolf said that Detroit defaulted network radio to the package goods industry—with the result that there is no really important success story for network radio in automobile history—and he warns against such a default in network tv. A condensed version of Mr. Wolf's speech follows:

I KNOW that there are people here in Detroit who are determined to try to do without television, or with a lot less television, and there's no scarcity of reasons—why being advanced—reasons why Detroit should start moving away from network television.

I've heard and read about most of the arguments against network television as a primary medium for selling cars and none of them—at least to us—seem to stand up against this: Everything that is happening in the selling end of the automobile business points to the need—the increasing need—of the television medium to sell cars. And not as a supporting medium, but as the primary advertising medium.

There seems to be a deadly ratio in effect: Higher production goals for more and more cars each year, and each year car selling practices seem to get worse and worse.

Many dealerships have become more and more like discount houses: Fire sales, panic sales, blizzards. That's what seems to be the popular conception of today's retail car selling operation.

This deterioration in selling practices isn't limited to the automobile business; it's taking place everywhere in retailing. The discount houses, the self-service store, the supermarket, they're all forcing a revolution in retailing.

I don't have to tell you who the forgotten man is in this revolution. You've heard it 'til you're sick of hearing it: the salesman. If any of you have been in a discount house recently, you know that the caliber of sales personnel is very low. And what's one of the biggest problems today in the car-selling business? Weakness in the dealer-sales groups. New dealers who've really never had to sell until recently—old dealers who are too tired to sell, or have forgotten how. All this isn't news, of course.

Then, there is the sale to be made? How is the sale to be made? On price—discounts alone? By gimmicks, alone?

Detroit defaulted network radio to the package goods people, with the result that there is no really important success story in network radio in auto history.

But things are different today. Television and automobiles were made for each other. Television is a demonstration medium—radio isn't. I submit that one dedicated television car salesman, like an Ed Sullivan for example, can do more to surmount today's selling practices and sins of car selling on the local level and can create more brand preference than any other single medium of advertising available today.

What is car advertising supposed to do besides make the local dealer happy? Get customers into the showroom and then out on the road for a demonstration.

And what does television do? Takes the showroom into the living room and then takes the prospect out on the road for a demonstration.

It seems to be obvious that the drift to the kind of selling that is becoming standard in much of retailing is progressively sharpening the need for a demonstration medium like television.

But television isn't automatic. You can't bug it like plasma. It's a challenge. And it takes plenty of managing. It takes a lot of judgment to buy television correctly and a great deal of continuing supervision and creative work to realize its fabulous potential as a demonstration medium.

I'd like to conclude with a little story told to me by Ken Beirn, who recently joined our agency. In fairness to Mr. Beirn, he did use this story to illustrate a different point. But I do think the story illustrates how we feel about automobile advertisers and television:

There were once two automobile frogs. Let's call one the disillusioned-with-television advertising frog and the other was the never-say-die frog. Well, one day they happened to fall in a pitcher full of cream that looked suspiciously like today's automobile market. The disillusioned frog looked the situation over and concluded it was curtains—he'd never get out of this one. He shrugged and sank to the bottom and drowned. The other frog set his teeth and swore he'd get out of there. He was going to put everything he had into it—everything television. He just kept on paddling and fighting until a funny thing happened. He just churned that cream into butter and walked out of that pitcher . . .

AAG SHORTS

White Stag Mfg. Co. (sportswear), Portland, Ore., and Roy S. Durstine, S. F., have announced termination of advertiser-agency relationship as of July 1. Agency will complete arrangements and services for the current fall selling and forthcoming ski season.

Wolfcott & Assoc., L. A. public relations counseling firm, affiliated with Albert Frank-Guenther Law Inc., financial advertising and public relations agency. Former will serve as Southern Calif. financial public relations representative for N. Y. firm which has branches in Boston, Phila., Washington, D. C., Chicago and San Francisco. F-L will represent Wolfcott clients in those cities.

AGENCY APPOINTMENTS

Trimfoot Co. and Farmington Industries Inc., Farmington, Mo., name Frank Block Assoc., St. Louis, for all shoe divisions.

Trans-Texas Airways to Tracy-Locke Co., Houston.
Here is a really new Five! So full of new features you will be sure to request the attractive brochure awaiting you. — Proposed new FCC regulations have been coped with. For example, 99% of usable sideband power is confined to the proposed stipulated bandwidth while the entire RF power amplifier output coupling system including power tube is 100% electrically enclosed and forced air cooled. Result is spurious radiation at a new low. Ultra linear audio driver adds continued reliability in day to day low distortion.

Lowest cost tube complement and lowest primary power consumption of any Five made today. Only 3 power tube types positively means lower spare tube inventory. Each of the three cubicles is completely independent electrically and mechanically. If floor space is at a premium, place one cubicle at right angle or even opposite. Of course, independent cubicles demand independent cooling so this new Gates "Hi-Watter" Five becomes the coolest Five in all the business.

Price? — When designed right, the price is right. Gates manufacturing engineering has cut off hours and added quality — Yes—the price is very much lower—the actual meaning of Gates "Hi-Watter", more watts per dollar investment.

GATES RADIO COMPANY - Manufacturing Engineers Since 1922 - Quincy, Illinois, U. S. A.
Archibald McG. Foster, vice president and account supervisor (on Brown & Williamson Tobacco Corp.), Ted Bates & Co., N. Y., elected to agency's board of directors.

Robert Humphreys and Louis Scott, L. A. office of Foote, Cone & Belding, elected vice presidents. Mr. Humphreys joined agency in 1951 and is account group manager for six FC&B clients in L. A. Mr. Scott joined agency in 1950 and is account executive for Sunkist Growers.

Peter M. Stewart and William H. Weber appointed vice president and account executive and vice president and art supervisor, respectively, to K&K & Eckhardt, N. Y. Mr. Stewart formerly was senior account executive on Lincoln account, Young & Rubicam, Detroit. Mr. Weber has been with K&K since last January, after eight years with Lennen & Newell, N. Y., as vice president in charge of art for various Colgate products.

Walter F. McNiff, account executive with San Francisco office of K&E, named manager of that office. Ruth Fredricks, media director, L. A. office of Ruthrauff & Ryan, to K&E there as assistant to media director. John Wayne Jones, formerly president, Minute Mount Corp., N. Y., to K&E N. Y. promotion department as content and premiums specialist.

Robert Footman, account executive, Guild, Bascom & Bonfigli, Inc., San Francisco, elected vice president.

L. Louis Petersen, formerly Denver and South Chicago district manager for Procter & Gamble, named coordinating account executive on White King Soap Co. account in L. A. office of Erwin, Waskey & Co. Ray Scales, former public relations manager WKY-AM-TV Oklahoma City, to Oklahoma City office of Erwin, Waskey & Co. to head new public relations department.

Norman W. Glenn, vice president and director of radio-tv, Doherty, Clifford, Steers & Shenefield, N. Y., to Young & Rubicam here as account supervisor in radio-tv department.

Robert B. England, Victor G. Blackiston and Evelyn McFarland, formerly with Wilson, Markey & England, S. F., to Grant Adv. that city. Mr. England is account supervisor, Mr. Blackiston creative director and Miss McFarland research staff.

George Norris, Foote, Cone & Belding, to Tatham-Laird Inc., Chicago, as account executive on Procter & Gamble Fluffo account.

Russell C. Westover, Jr., President of Ray Oil Burner Company, tells the secret of

“How to make hay without sunshine!”

"Make hay at midnight or in a rainstorm? Sure—why not?
"Modern farmers have found a way. They cure it a few minutes after cutting—in big dehydrating plants!
"But there’s one catch. Profits could disappear in a hurry if the fires go out. That’s why they use Ray Oil Burners.
"And that’s why Ray uses Air Express!

"In addition to his own stock, any Ray dealer in the country can draw on our ‘super stockroom’ of 40,000 different parts. It’s only a few hours away by Air Express!
"It has helped build our reputation for fast service. And it saves money! 10 lbs. from San Francisco to Portland, Ore., costs $3.78 by Air Express. That’s $1.37 less than the next lowest-priced complete, door-to-door air service.”
growing up is so easy with
Regardless of whose equipment you are presently using,* you can boost power efficiently by adding S-E amplifiers without having to dispose of or replace any of your original units. You'll find that station growth becomes a practical, reliable and economical evolution when your equipment decision is Standard Electronics ADD-A-UNIT Amplifiers!

Now, you no longer need fuss with transmitter room layouts and "worry-through" your equipment decision when you are ready to boost power! Now, too, you can grow the easy way with completely self-contained S-E ADD-A-UNIT Amplifiers!

Gone is the problem of placement, operation and maintenance of external blowers, pumps and transformers. All components are conveniently and accessibly located entirely within the cabinet! The compact 44" wide frames fit through doorways, into elevators, thru any conventional opening or passageway. You can position ADD-A-UNIT Amplifiers in a straight line, "U", "L", or even in a split arrangement to utilize your floor and wall space most effectively. ADD-A-UNIT is right for you in any stage of your station growth.

Write for specifications, indicating your power requirements.

*Says J. D. Lawhon, WMAZ-TV: "...(Competitor) and S-E have made an ideal combination, both for simple installation and operating ease..."

Plugging Paramount

WHILE Paramount Pictures has lined up considerable free publicity coverage on radio and tv for "Funny Face," now being filmed in Paris \( B\&T, \) June 11, the studio also was set for national coverage yesterday (Sunday) and some promotion on NBC-TV for "That Certain Feeling," a new motion picture starring Bob Hope. A 90-minute live spectacular, the program was sponsored by U. S. Rubber, through Fletcher D. Richards, New York; The Maybelline Co., via Gordon Best & Co., Chicago; National Savings & Loan Foundation, through McCann-Erickson, New York, and Skol, via J. Walter Thompson Co., New York. Mr. Hope in the m.c. slot was to show how a movie is made in Hollywood with behind-the-scenes looks at motion picture production. Steve Allen was slated to act as narrator and guide during the spectacular. The movie selected for the program: "That Certain Feeling." Actual film clips from the movie were to be shown in addition to various inside looks at how the people who put the movie together work. "That Certain Feeling" also was to receive a plug via a guest interview with Bob Hope on Lux Video Theatre last Friday, 10-11 p.m. EDT on NBC-TV and the showing of a clip from the picture.

Dean M. Lierle Jr., formerly with Clinton E. Frank Inc., and Roger Torkelson, Gamble-Skogmo, auto supplies, to copy department of Needham, Louis & Broby Inc., Chicago, as writers. Gerritt J. Beverwyk, formerly art director at Campbell-Mithun Inc., to art department of NLEB.

George H. Miles Jr. and Mrs. Miles, heads of their own former soft goods merchandising firm, and Virginia Cummings, head of Miles publicity staff, to N. Y. office of Arndt, Preston, Chapin, Lamb & Keen Inc., Phila.

Nancy Goodwin, copywriter, McCann-Erickson, N. Y., to Franklin Bruck Adv., N. Y., as radio-tv copywriter.

Howard M. Paul, formerly writer at Tatham-Laird, Chicago, to creative staff of Charles O. Puffer Co., Chicago agency.

Tim Canty, divisional business representative of United Press in Michigan, to Bozell & Jacobs Inc., Chicago agency, on public relations staff.

Raymond L. Craig and Sylvester Nemes to Aubrey, Finlay, Marley & Hodgson Inc. Chicago, as copywriters on International Harvester accounts.

Vincent R. Bliss, president of Earle Ludgin & Co., Chicago, appointed to board of directors of Advertising Research Foundation. He was named to fill unexpired term of late Fergus Mead of the Buchen Co., Chicago agency.

Malvin Broby, vice president of Needham, Louis & Broby Inc. and retiring president of Chicago Council on Foreign Relations, elected to council's board of directors. Judith Waller, NBC Chicago public affairs representative, also elected to board.

CHARLES B. STRAUS JR., creative supervisor, Cunningham & Walsh, N. Y., on Towle Silversmiths, Jaguar, James Beam and other accounts, elected a vice president of agency.

Frank Tuttle, Bruce B. Brewer & Co., Kansas City and Minneapolis agency, named tv director of agency's Minneapolis office. Roger Hickok, Brennan Adv. Agency, Houston, Tex., to Brewer, Minneapolis, as assistant account manager, Jesse K. Lair, Brewer copywriter, named copy group head.

Donald E. Davison, Bendix International Div., N. Y., named west coast manager for division, with offices in Burbank, Calif.

Herbert E. Moore, regional sales manager, Spirella Co. (foundations), Niagara Falls, N. Y., to Comstock & Co. Adv., Buffalo, as media and research director.

Kieran Kilday, formerly art director for McCann-Erickson, to Tracy-Locke Co., Houston, Tex., agency in same capacity, succeeding Wallace R. Hall, transferred to agency's Dallas office. Don Chamberlin named assistant account executive in T-L Houston office and Russell Bond to merchandising department in Houston.

Clark M. Agnew, executive producer, Lennon & Newell, N. Y., to Donahue & Coo Inc., N. Y., to head agency's creative tv activities.

Allen Hahn, The Biow Co., to Joseph Katz Co., N. Y., as senior copywriter.

James J. McLaughlin, account supervisor, Erwin, Wasey & Co., Chicago, rejoins Dormeyer Corp. (electric cooking equipment), same city, as merchandising manager, newly-created position. He formerly was advertising manager of firm.

Mary Afflick, producer-writer, Tatham-Laird Inc., Chicago, promoted to commercial group supervisor.

Max Levine, public relations director, Hess Bros. department store, Allentown, Pa., to Ritter-Lieberman Inc., Allentown agency, as director of new public relations and publicity division.

Ralph Breslitz, Ogilvy, Benson & Mather, N. Y., to C. J. LaRoche & Co., that city, as art director. Peter Tomlinson, Quality Bakers of America, to LaRoche as tv artist.

Jordan H. Krinstein and Ruth Maisel, W. E. Long Co.-Independent Bakers' Cooperative, Chicago, promoted to associate art director and assistant art director, respectively.

Ken Kearns, The Biow Co., N. Y., to Grey Adv., N. Y.

Ray Blackwell Jr., to media department, MacManus, John & Adams, N. Y., effective immediately.

AFTER being simulcast on ABC Chicago stations for several years (nearly 22 on radio and seven on tv), Morris B. Sachs' Amateur Hour moves to WGN and WGN-TV same city effective June 24. Completing arrangements for switch of Sunday full-hour variety show are (seated) Mr. Sachs, Chicago clothier and city treasurer, and, standing (I to r) Frank P. Schreiber, vice president and general manager of WGN Inc. (who has resigned effective Aug. 1); Norman Heyne, long-time Amateur Hour producer and partner, Wesley, Heyne & Cucca Adv. agency, and Ted Weber, WGN-TV sales director. Program moved from WBKB (TV), ABC outlet, and WLS, network affiliate.
The Santmansk
Or why you never got so much for your money

"Whenever a customer complains to me about the price of gasoline, I call my wife.

"She's worked right with me and kept our books since we leased our first Union Oil station on this same corner in La Canada, 20 years ago.

"And—as Myrtle says—gasoline hasn't gone up nearly as much as other things you buy. You pay 205% more to build a house today than you did in 1936.

220% more for a low-price 2-door sedan. 125% more for a suit of clothes. 325% more for a pound of sirloin steak.

"Yet if you leave out the tax, Union's premium gasoline has gone up only 70% in that same time. Fact is, the tax has gone up more than the gasoline—100%! And two gallons of Union's new Royal 76 will do the work of three gallons of our old product.

"You get a lot of service for nothing, too. We wash your car's windshield. We check water, oil, battery and tires. We provide clean rest rooms and free maps for your convenience.

"Fact is, you never got so much for your money as you do today when you say, 'Fill her up!'"

In 1956 it costs Union Oil 250% more than it did in 1936 to build the kind of service station Charles and Myrtle Santman operate in La Canada, California.

Yet in spite of continually rising costs like this we have been able to keep prices down, while constantly expanding our service and improving our product.

We have accomplished this by plowing profits back into better facilities, by research, by eliminating waste and improving efficiency.

We have had to do this to meet the competition of the many other oil companies serving your needs.

NEW ELECTRONICAM REDUCES SHOOTING TIME

Du Mont's Video-Film System incorporates both Mitchell 35 mm film camera and TV camera

First to use a video-film system in major TV film production is Jackie Gleason's popular show "The Honeymooners." In going "live on film," Jackie Gleason makes use of the new Du Mont Electronicam System, which combines advanced TV techniques with highest quality 35mm photography.

Heart of the Electronicam System is a completely new type of unit, blending a Du Mont TV camera and a specially adapted Mitchell 35mm camera using a common lens system. It gives the producer full advantage of the best techniques of motion picture production while enjoying the time saving and broadened creative scope available in video's electronic practices. Savings in shooting time and costs are substantial.

The 35mm Mitchell cameras used as integral parts of the Electronicam System produce consistently superior black and white films, as well as color films which are unequalled for uniformity of quality. Mitchell cameras today serve not only in the television industry, but also are the predominant choice in the production of governmental, industrial, research and educational films, as well as being standard equipment for major studios throughout the world.

Complete information on Mitchell cameras is available upon request on your letterhead.

*85% of professional motion pictures shown in theatres throughout the world are filmed with a Mitchell

FROM the monthly audience surveys of American Research Bureau, B&W each month lists the 10 top syndicated film programs in 10 major markets, selected to represent all parts of the country with various degrees of competition. Despite all precautions, occasional variations will occur in these tables, due to use of the same program name for both a syndicated and a network series and the practice of some stations of substituting local titles (such as "advertiser" Theatre) for real program names.

California Studios Space Leased by Kagran Corp.

THE KAGRAN CORP. has completed arrangements to lease for two years three stages and office space of the California Studios in Hollywood, it was announced last week.

Alan W. Livingston, Kagran president, said that his company also has an option to lease more space at the studios if and when additional facilities need to be expanded.

Plans call for filming pilots and other shows, such as Life of Riley and the new Wally Cox series, *The Adventures of Hiram Holiday* on the lot, Mr. Livingston said.

Warner Plans New Series

WARNER BROS. last week announced that a new dramatic series, "Conflict," would alternate next fall with "Cheyenne" on Warner Bros. Presents (ABC-TV, Tuesdays, 7:30-8:30 p.m., EDT). Six writers currently are at work on "Conflict" with production slated to start this month. Warner Bros. Presents will continue under the direct supervision of Jack L. Warner, studio production head, with William T. Orr as executive producer.

Israel Production Planned

PLANS were announced last week for the production in Israel of a new half-hour color TV film adventure series, *East to Adventure*, which is expected to be ready for release in the fall. The series will be distributed by RCA Recorded Program Services, New York. It will be produced by Orion Productions, New York, with Ted de Leon as producer and Sobey Martin as director. It is believed to be the first U. S. TV film series to be produced in Israel.

Official Expands in Europe

EXPANSION of European production facilities of Official Films Inc., New York, is being planned to accommodate the company's new costume-adventure series, *East to Adventure*, which is expected to be ready for release in the fall. The series will be distributed by RCA Recorded Program Services, New York. It will be produced by Orion Productions, New York, with Ted de Leon as producer and Sobey Martin as director. It is believed to be the first U. S. TV film series to be produced in Israel.

FILM PEOPLE

Jerome Kates, producer-director for MacManus, John & Adams, N. Y., named to sales staff of George Blake Enterprises, N. Y., producer of tv commercials and industrial films.

Ed Aaronsoff, member of publicity staff of Universal-International Pictures, N. Y., for four years, appointed publicity director of MCA-TV Film Syndication Div., N. Y.

Ralph Morgan, 72, veteran stage and screen actor and founder of Actors Equity and Screen Actors Guild, died June 11 at his home in Manhattan. He retired in 1952.

Mrs. Mignon Levee, sales executive with Sterling Television Co., N. Y., mother of girl, Lisa Drew, June 1.

Only STEEL can do so many jobs so well

They Call It "Curling." Scottish soldiers introduced this game in Quebec, just before the Revolutionary War. The 40-pound granite stones are slid down a 140-foot sheet of ice, frequently with a "curling motion" that curves them around other stones. In the picture, members of the New Liskeard Curling Club, Ontario, sweep the ice ahead of the oncoming stone. Miles of USS National Pipe lie beneath many of the rinks, carrying the brine that freezes the ice.

First Atomic Power Plant is being built near Shippingport, Pa. This tremendous project uses thousands of tons of concrete—all reinforced with steel bars and mesh from U.S. Steel Supply.

Trailers That Won't Wear Out. It's true. No trailer made from Stainless Steel has ever been known to wear out, because Stainless is far stronger than other metals, and it will not corrode and weaken. The great strength of Stainless allows compact design. The trailer shown here, for example, has sides made from thin sheets of Stainless, corrugated into walls that are only one inch thick. Consequently, it can carry much more cargo than ordinary trailers.

This trade-mark is your guide to quality steel.

Ziv Television Programs, N. Y., has announced sale of its Cisco Kid and Mr. District Attorney series to Electronio-TV Tokyo for airing on stations in Tokyo and Osaka. Programs, which will be made available for sponsorship by Japanese advertisers, are said by Ziv to be “first American-made film programs scheduled for telecasting in Japan.” Japanese subtitles will be used.

Television Programs of America, N. Y., has sold Stage 7 tv film series to National Brewing Co. of Michigan (National Bohemian beer), Detroit, for showing in Richmond, Norfolk, both Va.; Lancaster, Pa.; Orlando, Fla.; Green-ville, S. C., and Montgomery, Ala. American Home Products Corp. (Chef Boy-ar-Dee), N. Y., through Young & Rubicam, N. Y., has expanded its markets on Stage 7 to include Wilkes-Barre and Harrisburg, both Pa.

Joyce International Pictures, L. A., planning tv film series titled The Kat-Up Kids, featuring child actors in takeoffs on established tv shows. Albert Joyce is producer, with casting directed by Lynn Stalmaster and first two scripts written by Al Martin, who wrote "Our Gang" comedies for Hal Roach. July 1 is production date.

Walt Fraher Productions, N. Y., plans to begin production this summer on new half-hour tv series, Confessions of a Scoundrel, based on biography of Guido Orlando, international press agent.

Dudley Television Corp., Beverly Hills, Calif., announces August production date for Crime & Punishment, new half-hour tv series in color based on outstanding legal cases, with introduction by Jake Ehrlich. Several films in series to be produced in England through Dudley Pictures International (Great Britain) Ltd.

Screen Gems Inc. is scheduled to begin production today (Monday) on a 90-minute film program, The Country Husband, which will be used during the 1956-57 season on CBS-TV's Playhouse 90 series. Screen Gems, which will produce eight films for the series, claims it is “first company in history to produce a series of 90-minute film programs.”

Muscular Dystrophy Assn. of America offering station identification free loan new 13:35-minute color film, "Where the Green Grass Grows." Film, narrated by Alexander Scourby, shows group of dystrophic youngsters enjoying normal camping experience for first time. MDA address is 1790 Broadway, New York 19.

American Medical Assn. to release shortly film dealing with traffic safety and made at recent AMA convention demonstrations of auto crash research. Ford Div. of Ford Motor Co. is co-sponsor of film, produced by Medical Communications Inc., Newark, N. J., with technical assistance by Sturgis-Grant Productions, N. Y.

Van Prang Productions, N. Y., Detroit and Carol Gables, Fla., tv film producer, announces new executive producer, to be headed by Hugh Stanley Hole, formerly of firm's N. Y. head-quarters.

Several is is produced on "Where the Green Grass Grows." on 1956 series, claims following charges brought by Local 47 President against Maury Paul, whom the Reid fac had ousted from office. The revolt within Local 47 stemmed largely from dissatisfaction over the music performance trust funds, with the local contending that it contributed a large portion of the total monies paid into the funds through royalties on mechanized music but received only a share-and-share-alike return.

Some seven hours of debate preceded the vote of the convention to sustain the International Board's rulings against the leaders of the dissident west coast faction. The defendants made these points in appeal before the International Board from diverting the recording industry into the MPTF to increase the voting power of locals at convention to more than 10 votes; to limit use of funds collected by and belonging to the federation; to deprive the executive board of its power to hear appeals, and to prohibit the International Board from diverting funds from payments for transcriptions.

Mr. Petrillo reported that nearly $3 million will be distributed by these funds this fiscal year to musicians, according to an annual report made available to the MPTF, which included nearly $5.6 million, which included nearly $15,161,000 for musicians last year. Mr. Petrillo also reported that nearly $3 million would be expended from these funds this fiscal year to musicians, according to an annual report made available to the MPTF, which included nearly $15,161,000 for musicians last year. What Makes Columbus A Market?

Last year, in Columbus, Ohio, $51,000 people spent $146 billion dollars on food alone.

Each week, 7 major Columbus shopping centers serve over a million consumers, and...

Each day, the influence of WBNS-TV's commercials is reflected in the sales volume of $3,774 food, drug and variety stores.

WBNS-TV is 1st choice with advertisers and viewers in mid-Ohio, where both market and WBNS-TV are too important to overlook.

NARTB BOARDS MEET IN D. C. THIS WEEK; RADIO, TV CODE REVISIONS ON AGENDA

Schedule is for TV Board session Wednesday, Radio Board Thursday and combined meeting Friday. Amendments to industry's voluntary codes scheduled for consideration as over-commercialization charges continue to be heard from all sides.

Changes in both the TV Code and Radio Standards of Practice will come before the NARTB combined boards starting Wednesday when their directors meet in Washington for the week-long session.

With charges of over-commercialization heard from all sides, the boards will consider amendments to the industry's voluntary codes. These changes are designed to promote adherence by radio and TV stations and networks and to clear up confusion.

The TV Board will take up two amendments submitted by the NARTB TV Code Review Board. The first would modify the TV code to allow on-camera producers and distributors as affiliate subscribers, greatly broadening the code's impact on programming at the source.

A second amendment is designed to clarify the language covering back charges and over-commercialization, specifically the impact of the code's interpretation powers granted under the law.

Conm. Doerfer described Sec. 315 (political) of the Communications Act as impractical and said its impact on charges and time have a utility aspect. He contended the mandatory aspects of the rule, requiring equal time, for example, should be stricken out and a "rule of reason" substituted. Let's trust the broadcaster and give him a chance to handle political matters according to his public service concepts, he suggested. The broadcast interference is abused, appropriate steps can be taken.

Harold E. Fellows, NARTB president, called for balanced programming and reminded that "broadcasting starts with the audience and not the station's social and political claims."

Eighty delegates were registered at the meeting, speakers included Oliver Graning, AP assistant general manager; Ken Gordon, WFTV Front Royal, Va.; Tom McBride, WWJR Indep. TV; Kenneth Brodney, UP foreign correspondent; Calvin T. Lucy, WRVA Richmond, legislative committee chairman. A panel discussion included Mr. Lindberg, Donald G. Heyne, WINA Charlottesville, and Mr. Chisman.

ORGANIZATION PLAN SET FOR AMST MEET

Plans for formalizing the organization of the new Assn. of Maximum Service Telecasters, formed June 1 in New Orleans [B&T, June 4], will be a major business of the AMST executive committee Thursday when it meets in Washington, D.C. The executive committee, comprising the temporary officers and board members who were elected at the New Orleans meeting to serve until a formal election is held following the establishment of an official permanent form of organization, is expected to decide this week whether the group should legally become an association or a corporation.

The appointment of two committees which will make reports and recommendations to the executive group on Thursday was made last week by Jack E. Bloom, New Orleans, general manager, KPRC-TV Houston, temporary president of AMST. One is the engineering committee, which has been asked to draft plans for a project that would encompass a nationwide field study of the station coverage and such other points as improved antennas and receivers, and also to recommend the appointment of an engineer or engineering firm to carry out the overall engineering program of AMST. The other is the legal committee, which will make recommendations for the retention of legal counsel for the new organization.

John H. Devitt, president, WSM-TV Nashville, is chairman of the engineering committee. Its other members are Thomas Howard, Jefferson Standard Broadcasting Co., Charlotte, N.C.; P. A. (Buddy) Sugg, WKY-TV Oklahoma City; George Storer Jr., Storer Broadcasting Co.; Harold See, KRON-TV San Francisco, and W. C. Wearn, WPBC-TV Greenville, S. C.

Robert D. Swetey, executive vice president and general manager of WDSU-TV New Orleans, is chairman of the AMST legal committee. Other members are Harold Stuart, KVNO-TV.

FACING THE RADIO BOARD are such subjects as the FCC petition for extension of remote control to all radio stations, an evaluation of radio circulation techniques, membership and conventions, and the code committee, which will meet Thursday to hear reports from station representatives.

New Code Rulings

New code ruling adopted a fortnight ago, include a finding that the language covering advertising "acceptability" (Par. 10) dealing with personal products not usually acceptable in mixed social groups, should be applied to products covering hemmorhoid treatment and those used in connection with feminine hygiene. The board also held that commentaries and film excerpts from theatrical releases containing "advertising copy" (Par. 10) in such cases should be counted against the allowance for advertising copy. G. Richard Shafii, WITV-Columbia, S.C., will report on the code group.

To promote adherence to the Radio Standards of Practice, the Radio Board will take up suggested identification techniques for broadcasters. These would include visual symbols for use in station promotion, printed material and advertising. Also being considered are proposed sural identifications for use on the air. Walter E. Wagstaff, KIDS Boise, Idaho, will report for the standards committee.

The semi-annual meetings open Tuesday morning with an indoctrination program for new board members elected at the annual meeting in April will hear on the air. The finance committee meets Tuesday afternoon and the by-laws group Wednesday afternoon.

The TV Board convenes Wednesday morning at the Mayflower Hotel. Radio directors meet Thursday and the combined boards assemble Friday. The Radio and TV Boards each will elect a chairman and vice chairman.

Topics on the TV agenda include membership, FRC proceedings, community antennas, AT&T tariffs, TV conference project, plant for Television Week (Sept. 23-29) and a discussion of the industry convention and regional meetings.

Virginia Assn. Names Pryor New President

EMERSON J. PRYOR, WDAN Danville, was elected president of Virginia Assn. of Broadcasters Wednesday at the opening of the association's two-day meeting, held at Williamsburg. He succeeds John L. Cole Jr., WHLF South Boston.

Other officers elected were Carl L. Lindberg, WPIK Alexandria, vice president, and Milton B. Henson, WREL Lexington, secretary-treasurer. Board members are: Charles P. Blackley, WTON Staunton; Thomas P. Chisman, WVEC Hampton; Earl M. Key, WKEY Covington; Robert H. Smith, WCBY Bristol, and E. S. Whitlock, WPTW Richmond. FCC Comm. John C. Doerfer warned broadcasters about over-commercialization, saying Washington, D.C., as a city where it is found though most stations are doing a good job. The mere fact that a station renewal was granted, he said,

 doesn't mean that questions weren't raised during consideration. He said the Commission is searching for criteria, "a floor below which you can't go," in evaluating station service but the problem involved the interpretation of powers granted under the law.

John H. Devitt, president, WSM-TV Nashville, is chairman of the engineering committee. Its other members are Thomas Howard, Jefferson Standard Broadcasting Co., Charlotte, N.C.; P. A. (Buddy) Sugg, WKY-TV Oklahoma City; George Storer Jr., Storer Broadcasting Co.; Harold See, KRON-TV San Francisco, and W. C. Wearn, WPBC-TV Greenville, S. C.

Robert D. Swetey, executive vice president and general manager of WDSU-TV New Orleans, is chairman of the AMST legal committee. Other members are Harold Stuart, KVNO-TV.

Page 86 • June 18, 1956

MR. PRYOR
"We shot a hurricane and got a Peabody Award
... thanks to the speed and latitude of Du Pont 931!"

—says William L. Cooper, Jr., Film Director, WJAR-TV, Providence, Rhode Island

“Our coverage of Hurricane ‘Carol’ earned the coveted Peabody Award and three other national awards. Our ability to record this tragic event was largely due to the high speed and wide latitude of Du Pont 931 Motion Picture Film,” says William L. Cooper, Jr., of WJAR-TV.

“When the hurricane hit, we filmed the disaster in the face of gale-force wind ... rain and salt water ... difficult lighting conditions. After every 100 feet of exposure, we'd open our cameras and wipe the water from the inside ... no question ... we were shooting under impossible conditions, yet the film performed perfectly.

"During the storm, all electricity was out ... over 5,000 feet of Du Pont Film had to be hand-developed and washed in muddy, oil-streaked water. But, even under these primitive photographic conditions, the film turned out exceptionally well ... the pictures were clear and well defined ... Du Pont 930 and 931 had far exceeded our greatest expectations! I feel that no other film could have taken the punishment and come through with such remarkable results!"

Mr. Cooper continues, "We like the soft tones we get with Du Pont Film which are so necessary for really fine TV reproduction. And these films always give consistently fine results. With rapid reversal Du Pont film, our processing machines can be operated at extreme temperatures, too. Processing and drying of film can be done in about five minutes —ready for projection."
Tulsa, and George W. Norton Jr., WAVE-TV Louisville.

In addition to organizational, engineering and legal affairs, the executive committee will also consider plans for a membership drive. As decided at the New Orleans meetings, at which some 65 tv stations were represented, AMST membership is open to any station, uhf or vhf, "rendering maximum service by operating at the maximum effective radiated power permitted by the rules and regulations of the FCC."

The objective of AMST, as set forth by the New Orleans assembly, is "to assist the appropriate government authorities and the industry in assuring television service for the people of the United States, and to follow the intent of Congress in the Communications Act of 1934 as amended." In the pursuance of this goal, AMST also adopted the requirement that "each member must operate in the best interest of the people (urban and rural) in its total service area."

Dues were set by the New Orleans meeting at the highest quarterly rate of any member station prior. Belief was expressed that these dues, amounting perhaps to $35,000-$45,000, would finance regular AMST operating expenses, with other projects such as the proposed engineering field study, being underwritten by special assessments on the AMST membership.

TELECASTERS 'WARNED' ABOUT PROPERTY RIGHTS

NARTB Television Vice President Brown, speaking at National Community Television Assn. convention, says if video executives 'sleep' on these rights they may lose them.

SPECTRE of a law suit to enforce the property rights telecasters have in their programs and their signals was raised last week by Thad H. Brown, NARTB television vice president, in a speech before 400 representatives of community television systems.

Mr. Brown's remarks were made at the opening session of the National Community Televisiion Assn. convention in Pittsburgh's William Penn Hotel June 12-14. Audience observers also heard Burton Hantf, Screen Gems director of business affairs, and Harold Cowgill, Common Carrier chief, FCC.

Telecasters have property rights in their signal and in their programs, Mr. Brown declared. If telecasters "sleep" on these rights, they may lose them, he said. Unless community tv operators acknowledge this, Mr. Brown warned, the courts must decide.

"It comes right down to this," Mr. Brown declared. "The bone of contention, in a word, is the matter of property rights and your use without a fare-you-well for personal gain of the work of the broadcasters to be their absolute property right. It relates not only to the right but to the premise and the manner in which the most of you have gone about effecting your operations and asserting your position."

Mr. Brown declared he did not doubt that telecasters would approve the pickup and distribution of their signal and programs without charge. He also foresaw the day when "valleys" would be served by off-the-air satellites, boosters and translators.

Mr. Hantf, making much the same legal argument, indicated that film distributors would expect payment for the use of their product on community tv systems.

Mr. Cowgill discussed the three major questions under consideration by the FCC regarding community tv systems: (a) interference from broadcasters and other services from cable company equipment, (b) relationship of antenna systems to television from an allocation viewpoint, and (c) whether community tv systems are engaged in commerce.

Rebuttal to these points was made by E. Stratford Smith, NCTA executive secretary and general counsel. Essence of Mr. Smith's remarks was that there was no infringement on property rights because antenna systems were furnishing a service, not selling programs. The public is entitled to receive telecasts, Mr. Smith emphasized, and community tv systems furnish the service that brings the signals to the viewer. It does nothing that the viewer could not do for himself if he wanted to spend the money, he averred.

The NCTA member selected Bill Daniels, Casper, Wyo., cable company operator, president succeeding Martin F. Malarkey Jr., Pottsville, Pa., multiple community tv operator. Other new officers: George Barco, Meadville, Pa., vice president; A. L. Meade, Laconia, N. H., secretary; Randolph Tucker, Stamford, Conn., treasurer. Elected to the board of directors were the following new members: Lloyd Calhoun, Hobbs, N. M.; Larry Boggs, Ardmore, Okla.; Oliver Runnels, Williamsport, Pa.; Bruce Merrill, Phoenix, Ariz.; Ralph Shepler, Elkins, W. Va. Mr. Malarkey was also named to the 23-man board.

Election of New Directors Announced by NAFBRAT

ELECTION of two new directors and 12 incumbent directors is being announced today (Monday) by the National Assn. for Better Radio & Television, Los Angeles.

New directors elected to the board for a three-year term are Morton Edwards, editor of Two to Five World News, a publication designed for parents with children from two to five years old, and John D. Henderson, librarian of the Los Angeles County Public Library.

Incumbent directors: Mrs. A. Stanley Adams, Kappa Gamma Pi; Dr. Richard Atkinson, author; Benedict Cottle, former FCC general counsel; Clara S. Logan, founder member; and current president of the association; Mrs. Ellwood J. Munger, California Federation of Women's Clubs; Dr. John Schwarzwalder, manager of KUHT, University of Houston; Gilbert Seldes, radio-television critic; Robert Lewis Shayon, radio-television editor; Dr. Charles Siepmann, chairman of Communications Dept. of New York University; Dr. Dallas Smythe, research professor of communications, University of Illinois; Jerome Spingarn, lawyer; Dr. Norman Woelfel, director of teaching aids laboratory at Ohio State University.

NAFBRAT is a non-profit corporation, founded in 1940 and dedicated to the advancement of specific listener-viewer interests in radio and tv.

Ford Foundation Fund Plans Twenty Creative Study Grants

APPLICATIONS are being accepted by the Ford Foundation, established by the Ford Foundation, for 20 study grants exclusively for creative persons in mass communications.

Individuals, writers, editors, producers, performers in the press, magazines or educational films as well as mass communications faculty members—will be selected for their work and their promise in order to engage in the study or training of their own choosing. Purpose of the grants, the amount depending on the program, "is to broaden and better the contribution of the media to liberal adult education," according to C. Scott Fletcher, president of the fund, who announced the opening of the Leadership Training Awards Program for Mass Media in 1947-58, the last of its kind. Deadline for receipt of applications—obtainable from Leadership Training Awards (Mass Media), The Fund for Adult Education, 320 Westchester Ave., White Plains, N. Y.—is Oct. 31.

TV UNIQUE MEDIUM, HEBREW GROUP TOLD

Limitations of medium as well as specialized demands stressed by ABC's John Daly, other speakers at fourth annual Rabbinical Television Workshop.

TELEVISION is a unique medium with limitations, as well as needs, it was pointed out by Dr. John Daly, the fourth annual Rabbinical Television Workshop, meeting last week at ABC-TV's New York studios, was told. The conference was sponsored jointly by the New York Board of Rabbis and the New York Chapter of the American Jewish Committee.

Network speakers and leading clergymen in the religious tv field took part in the program which, in general, made these points, among others:

- The clergyman who uses tv to reach the people has an audience whose time and attention are being sought by other video programs.

With this in mind, the clergymen must speak directly to the people and not their problems.

- In educating divinity students, seminars should include courses in religious tv.

Both John Daly, ABC's vice president in charge of news, special events, sports and public affairs, and the Very Rev. James A. Pike, dean of the Cathedral of St. John the Divine, emphasized the need for instruction at the level. Among the clergymen who were not "crash course" for divinity students in all denominations would help those entering the clergy to be equipped to transmit religious concepts successfully to the youngest television audience.

Need for Good Programming

Mr. Daly also asserted that religious programming must meet the high standards of a very competitive medium in order to obtain a place on the program schedule and then attract and hold its audience "which is certainly more discriminating and demanding than the general audience."

Speakers at the workshop, attended by 35 rabbinical leaders, noted that an effective pulpit speaker is not necessarily effective before the tv camera. Dean Pike, who has his own tv show, noted that some of the most distinguished people "turn out to be lemons on tv," explaining that some excellent speakers freeze up or change in personality when before the television audience.

All of the speakers—clerical or secular—held to the preaching of religion on tv in a personal manner, through conversation to the family and on the personal problem level, or, as suggested by Fred W. Friendly, co-producer of CBS-TV's See It Now, through the documentary technique. Mr. Friendly and Robert Weitman, CBS vice president in charge of program

Page 88 • June 18, 1956
development, urged clergymen to get away from the studio and dramatize their messages.

Mr. Weisman forwarded ideas of visiting army camps or the "hinterland" where one could illustrate a point with actual persons rather than with actors. Mr. Friendly thought the religious tv producer should take his camera out into the world and thus interpret today's problems and events in religious terms, by perhaps visiting hospitals or the race track to illustrate certain moral values.

Stockton Helfrich, NBC's continuity acceptance director, was a luncheon speaker. He told the religious leaders that his department often makes a contribution on the "positive" side rather than only the negative (via script censorship) by pointing out wherever possible how ideas can be substituted to enrich the program.

In addition to discussing the network program, Mr. Helfrich also commented on his department's chores on commercials and various phases of the work such as its policy on references or treatment of minority groups.

Actual practical techniques were discussed by a network panel made up of Wiley Hance, ABC manager of public affairs; Dr. George Crothers, CBS director of religious tv, and Doris Ann, NBC's supervisor of religious tv. George Hamilton Coca, ABC news commentator, was the panel moderator.

Other participants included Rabbi Harold H. Gordon, executive vice president of the New York Board of Rabbis and Rabbi David Golovensky, vice president of the board, who presided over the two-day session.

Discussed was a proposed ABC-N. Y. Board of Rabbis "tv manual" for use of rabbinical students, and for religious leaders who wish a better acquaintainship with television.

AAW AD-ORAMA SESSION WILL HEAR MRS. PRIEST

Strouse will deliver keynote address to 53rd annual convention of advertisers, meeting in Los Angeles June 24-28.

ONE THOUSAND delegates are expected to attend the 53rd annual convention (Ad-Orama) of the Advertising Executives Sales of the West, convening June 24-28 in Los Angeles' Statler Hotel.

Ivy Baker Priest, Treasurer of the U. S., will be the principal speaker at the first luncheon session June 25. Mrs. Priest will speak on "The Government's Official View of Advertising in Today's Economy." Norman Strouse, president of J. Walter Thompson Co., New York, will deliver the convention keynote address.

John Kemp, AAW president, will preside at the beginning session. Opening-session speakers, in addition to Mr. Strouse, include Nelson Carter, president, Advertising Club of Los Angeles, and Robert Sample, general chairman of the Ad-Orama convention committee.

Convention Program Chairman Russell Z. Eller, advertising director of Sunkist Growers, announced that the convention program includes, besides the various speakers, a fashion show, an "Ad-Orama Pageant" and a speaking contest in which seven young men and women will compete for the N. W. Ayers award on the subject, "What is Advertising's Obligation?"

The delegates will be conducted on a tour of CBS Television City June 26, with Howard S. Meighan, CBS vice president in charge of the western division, as host. Other principal speakers scheduled for the convention:

Dr. Robert Feemster, chairman of the executive committee, Wall Street Journal, New York; J. V. K. Harger, advertising manager of the Cutter Laboratories, Berkeley, Calif., on "Our Big Emergency;" William G. Werner, director of public and legal services, Proctor & Gamble, on "Four Guideposts in Advertising;" George P. Hitchings, chief economist of the Ford Motor Co., on "What's Ahead for Business;" John Karol, vice president, CBS; Don Belding, chairman of the executive committee, Foote, Cone & Belding, New York, on "You Shout So Loud I Can't Hear You;" Dore Schary, vice president and production manager, MGM; Hal Stibbins, president of Hal Stibbins Inc., Los Angeles; Henry Mayers, president The Mayers Co., Los Angeles, and the final address of the convention will be by Earl J. Glade, former mayor of Salt Lake City and advertising veterans in the Rocky Mountain region.

TvB Schedules Showings

THREE major showroomings of Television Bureau of Advertising's overall tv presentation for advertisers and agencies were scheduled last week by TvB's Oliver Treyz, president. First showing is slated for the Sheraton-Cadillac Hotel in Detroit on June 28. The other two will be held July 10 at the Coooncra Grove, Hollywood, and on July 12 in the Gold Room of the Fairmont Hotel in San Francisco. The presentation, with only some modification, will be the same that was made at NARTB's convention in Chicago and last month at the Waldorf-Astoria in New York [B+T, May 28]. Mr. Treyz and Gene Accas, TvB's director of operations, will conduct the showings.

**ALLOCATIONS VERSICT: IT STILL PENDS**

FCC defers decision at last week's meeting. Ironing out several lesser kinks may delay final ukase for several weeks. Indications still point to uhf.

THE FCC had second thoughts on its allocations decision last week—and put off action until another meeting, scheduled for today (Monday).

The reasons for the additional week's mulling were varied. According to informed sources, they included the desire on the part of several commissioners that some of the deintermixture actions be taken concurrently (through show cause orders) with issuance of the general, overall report [BT, June 11]; the plea by staff members that the Commission set out standards for approving or disapproving deintermixture actions and uhf drop-ins; and also a plea by one commissioner that the Commission in its report indicate what is planned to do with the low band uhf portion of the tv spectrum.

Basic plan of the Commission, according to best sources, is to announce that it believes that the shift of all tv to uhf (or in a major area of the country) sometime in the future is the best solution. It also would indicate, it is understood, that some deintermixture petitions and uhf drop-ins might be acceptable. The Staff was instructed to draw up orders involving deintermixture in such cities as Pocoria, Ill.; Springfield, Ill.; Evansville, Ind.; Corpus Christi, Tex.; Hartford, Conn.; New Orleans, La.; Raleigh, N. C.; Warsaw, Ind.; Miami, Fla., and Springfield, Mass. C.

This is not to say that deintermixture is assured for all these cities. Key reason for setting up these cities, it is understood, is to give the Commission a rundown on standards for deintermixture as they would apply to individual cases.

The meeting last Tuesday also heard FCC General Counsel Warren E. Baker plead with commissioners to hold up issuance of a final report on allocations until it first established criteria for deintermixture and drop-ins. He alluded to the appeals court decision in the Corpus Christi, Evansville and Madison cases, issued two weeks ago [BT, June 11], which upheld the Commission's judgment on how deintermixture was to be handled. Mr. Baker predicted court trouble unless standards were established.

The Staff upheld the FCC's right to deny the score or more petitions for deintermixture, which it did last November, on the ground that the uhf-uhf problem was national in scope. It also upheld the FCC's denial of petitions by uhf station for change in delay issue of pending vhf cases in prospective deintermixture cities until the allocations proceeding is completed and its refusal to allow these uhf outlets to intervene in the uhf hearings.

Another proposal, by Comr. Robert E. Lee, was understood, that the Commission should issue some of the pending vhf final decisions, but with the channel underdetermined—to be indicated at the conclusion of the allocations proceeding. The legality of this procedure was questioned by staff attorneys, who expressed doubt that this could be considered a grant in the legal sense.

It was Comr. Bartley, it is understood, who recommended that the final report should indicate what would be done with the lower portion of the uhf band if tv were to be moved entirely to uhf.

Thus, although there seems to be no major question regarding the Commission's basic approach to ending its allocations proceeding—along the lines of a full or geographic move of tv to uhf, plus some deintermixture and drop-ins, and the authorization of five million watts maximum power for uhf—the ticklish question of standards for deintermixture and drop-ins is certain to be the rub of today's meeting. Presumably this may extend the completion of the proceeding and issuance of a final report and order for several additional weeks.

**Court Upholds FCC Grant To KCRA-TV Sacramento**

WITH one dissent, the U. S. Court of Appeals in Washington upheld the FCC's April 1955 grant of Sacramento, Calif., Ch. 3 to KCRA there. The appeal had been unsuccessful to applicable Sacramento Broadcasters Inc. (Lincoln Dollar).

The court held that the Commission chose correctly when it voted the Ch. 3 facility to KCRA on past broadcast performance. Sacramento Broadcasters claimed that the FCC violated proper standards in arriving at its decision. It petitioned the FCC for a rehearing to examine KCRA's record of promise versus performance, but the FCC denied that request.

The court majority called the case a "trying one." Judge David L. Bazelon, the dissent, said the Commission should have granted the request for rehearing.

**Evansville Plea Denied**

FCC last week denied a petition by WGBF Evansville, Ind., for a rehearing on the Commission's June 13 tv grant of Ch. 7 Evansville to Evansville Television, Inc. (TV-Rex Schepp). Comrs. Rosel H. Hyde and Robert T. Bartley abstained from voting.

**FCC Begins Its Hearing On W. Va. Tv Grant, Sale**

HEARING got underway last Thursday on the two-year-old ch. 12 (tv) grant in Clarksburg, W. Va., to WBLK-TV that was $370,000 sale of WBLK-AM-TV Clarksburg and WPARG-FM Parkersburg, both West Virginia, by News Publishing Co. to WSTV Inc. (WSTV-AM-FM-TV Steubenville, Ohio).

The grant was issued in February 1954 and was protested by Clarksburg Publishing Co. (Clarksburg Exponent and Telegraph). The FCC at first refused to accept the protest on the ground that the newspaper was not a qualified protestant, but the U. S. Court of Appeals in Washington reversed the FCC and ordered it to accept the protest and give the newspaper a full hearing. The newspaper claims the WBLK-TV grant involves concentration of control since WBLK-TV is controlled by News Publishing Co.—which also owns 34% of WTRF-TV Wheeling, W. Va. News Publishing Co. publishes Wheeling Intelligence and News-Register, Fairmont Times and West Virginia, Point Pleasant Register and Williamson News, all West Virginia.

The FCC itself set the sale of the Clarksburg and Parkersburg stations to WSTV interests for hearing. Questions of overlap between the tv stations in Clarksburg and Steubenville. Also involved in the transfer case is the position of community antenna systems in Clarksburg and vicinity which have been feeding WSTV-TV signals to its subscribers.

The hearing is being held before FCC Hearing Examiner Elizabeth C. Smith.

**Program Imbalance Questioned**

THAT old devil program imbalance came up again last week when the FCC majority voted to reduce the licenses of KTOJ, Oklahoma City, Okla., and KTUL and KRMG both Tulsa, Okla. Comr. Robert T. Bartley, however, voted to defer action on all three and Comr. Lee disented to renewal of KTOJ's license. It is understood that Comrs. Bartley, Lee were concerned with alleged program imbalance. A month ago, the Commission renewed the licenses of 17 stations which had been deferred pending investigation of purported lack of agricultural, educational and religious programs [BT, May 28].

---

**Wants Competitive V**

HERE's a vhf station preferring that an additional uhf be assigned to its area rather than the uhf outlet. The station is ch. 10 KERO-TV Bakersfield, Calif., which last week filed an opposition to a petition by ch. 12 KFRE-TV Fresno, Calif. that an additional uhf channel be assigned to Bakersfield, about 100 miles distant. KFRE-TV filed its rule-making petition last April.

In its opposition, KERO-TV recommended that Fresno be deintermixture (made all uhf) and that a vhf channel be moved to Bakersfield to replace ch. 29 there (now assigned and in use by KBAK-TV). This recommendation is similar to one made two weeks ago [BT, allocations proceeding] by KFRE-TV. KERO-TV also claimed that KFRE-TV was seeking an additional uhf in Bakersfield so that it could win that channel and thus "dominate" the southern end of the San Joaquin Valley. This would economically injure not only the Bakersfield stations, KERO-TV said, but also others in the area.

KERO-TV is affiliated with CBS. KERO-TV is affiliated with NBC and CBS, and uhf KBAK-TV with ABC.
QUESTIONS of ownership and financial misrepresentation of KAKJ (TV) Reno, Nev., were raised by the FCC last week. The Commission ordered a July 13 hearing on KAKJ's application for additional time to construct its proposed ch. 4 facility. The FCC said that it had obtained information that Robert C. Fish is not the sole stockholder in the applicant as was reported to the Commission, and that a syndicate was formed for the purpose of obtaining the KAKJ construction permit and other broadcast interests. The Commission alleged that one George H. Bowles is the principal figure behind KAKJ, and that there are other syndicate members. KAKJ received its grant in April 1955.

Pittsburgh, Spartanburg

APPEALS from FCC decisions in two television and one radio case were heard last week by the U. S. Court of Appeals in Washington. The TV cases involved the grant of ch. 11 Pittsburgh, Pa., to WWSW Inc. (WICT [TV]) and the ch. 7 WSPA-TV Spartanburg transmitter move from Hogback Mt. to Paris Mt. The am case involved a facilities change for WJET Erie, Pa., from 1570 kc daytime to 1400 kc unlimited with 250 w power.

The Pittsburgh appeal was made by ch. 16 WEN5 (TV) there, after the FCC refused to accept its application for the vhf facility. This occurred when WWSW and WIAS, both Pittsburgh, merged their competing applications for the vhf channel. The Commission also refused to entertain a protest by WEN5 against the grant on the ground that the grant was made after a hearing, whereas protests only could be filed against grants made without a hearing. Involved in a hearing before the FCC is a rehearing on the grant, in which WENS allegations of ownership changes and premature construction are submitted. The opposite view was expressed by the FCC's Broadcast Bureau and WCLE. Edward Kenehan, arguing for the Broadcast Bureau, said that if the FCC were to deny grants on economic grounds, the Commission would be engaging in public utility type regulation.

Validity of Economic Injury Question Argued Before FCC

THE legal authority of the FCC to deny broadcast applications on grounds of economic injury was argued before the Commission last week, following briefs submitted on the questions involved [BT, June 11]. Briefs and oral argument were called by the FCC in order to clear up the legal and policy questions of the economic injury protests [BT, May 21]. Oral argument last week was on a protest by WBAC Cleveland, Tenn. (Robert Roussaville), against a new grant there to WCLE. WBAC charged that Cleveland couldn't support another station. A similar oral argument also was scheduled to be held the same day in the Harlan, Ky., "economic injury" case (WHLN protesting against a grant of WKYV), but WKYV withdrew its application.

WBAC said the FCC must consider the economics of a market when making a grant. The Commission has the legal authority and should exercise it in denying applications when conclusive evidence exists that a grant would cause one or both stations to fail, WBAC said. The opposite view was expressed by the FCC's Broadcast Bureau and WCLE. Edward Kenehan, arguing for the Broadcast Bureau, said that if the FCC were to deny grants on economic grounds, the Commission should be engaging in public utility type regulation.

**Appeals Court Reverses FCC**

U. S. Court of Appeals reversed the FCC last week by ordering the Commission to permit WNHC New Haven, Conn., to intervene in a hearing on the request of WAVZ New Haven to change from 1 kw daytime to 1260 kc to 1 kw unlimited. The FCC granted the WAVZ request last November and denied a petition to intervene by WNHC (250 w on 1340 kc), stating the complaint was conjectural and speculative. The court's decision was unanimous.

**ATAS to Hear Magnuson**

CHAIRMAN WARREN G. MAGNUSON (D-Wash.) of the Senate Interstate & Foreign Commerce Committee is slated to speak at the June 26 luncheon of the New York Chapter of the Academy of Television Arts & Sciences, to be held at the Harvard Club in New York. An open forum will follow the talk, according to Faye Emerson and Henry S. White, co-chairmen of the activities committee.

---

**Farm News is THE BIG NEWS Right now!**

**KMA Has Two Full-Time Experts on the Midwest Farm Beat!**

Merrill Langfitt

Jack Gowing

KMA's two full-time farm directors, Merrill Langfitt, and Jack Gowing, are Ag College graduates and both were born on Iowa farms. They know what farmers need to know in these news-making days. PULSE, Inc. found in their survey last November that 46.7 per cent of the farm families in KMA's area prefer KMA for farm programs (second station, a 50,000 watt, had 21.3 per cent preference.)

These two voices of the Midwest farmer travel more than 75,000 miles each year in KMA's land, by plane, train and station wagon to make certain Corn Country farmers get the info they want... and you get the big, loyal audiences you want.

In this huge, heartland of the Farm Empire, the average time spent in programming for farm shows on 18 leading radio stations was 8 1/2 hours per week. KMA, of course, was the leading station, with 22 hours of farm programming each week, serving the farmers best in the richest farm market in the nation.

Langfitt and Gowing each have a half-hour show; they combine to produce a 15-minute show each day; and each has a market show (which also scoops the rest of the radio coverage in the area).

Farmers now more than ever before are depending on the two most popular personalities in electronic journalism now covering the Midwest farm beat. If farmers are your best prospects—here is your opportunity to cash in a large, loyal audience.
Swaine & Moore, CBS attorneys, New York, made a brief statement on time option and must buy practices. A network, he said, is not in business to offer all sorts or kinds of advertising facilities. It is offering a network—a minimum of stations to cover the whole country. He said he felt this to be a "reasonable restraint." Mr. Bromley said he was confident option time and must-buy policies "will be sustained here."

Mr. Bromley, under questioning from Mr. Cox, said there is no analogy between the network practices and the Griffith motion picture exhibition case. "Even you wouldn't suggest there's a conspiracy," he said. Neither are there any tie-ins, as in the movie case, he added.

Dr. Stanton, asked by Sen. Potter whether CBS encounters any trouble from the advertiser when the network wants to take a "stinker" program off the air, said the sponsor is just reasoning that NBC-owned tv stations reach some 27% of all U.S. tv sets and said he would furnish to the committee the percentage of audience covered by NBC-owned tv outlets, compared to coverage of the network's affiliates.

Discussing programming, Mr. Sarnoff told Sen. Bricker and Mr. Cox that while the network does not consult with all affiliates regarding planned network programs, these plans are brought up at meetings of the network executives and the NBC Affiliates Advisory Board representing all affiliates. Here, he said, NBC gets "general reaction" as to affiliate programming needs.

The NBC president said it was "not true" that the network began its spectaculars to offset threats of pay television or keener competition from independent producers as against NBC-produced programs. Frankly, he said, the spectacular-type shows were begun to clutter the network schedule and to introduce new things such as color tv. He felt, also, that the spectaculars are "here to stay."

Mr. Sarnoff admitted some advertisers and agencies were not happy about having regular shows interrupted once every four weeks by spectacular-type shows, but that many now are asking for participation on the spectaculars and willingly buying network time for the three remaining weeks. He told Sen. Bricker that affiliates' reactions had been "most enthusiastic" to the new formats, and that most affiliates were glad to carry these shows, citing the 67 million tv audience reached by the first "Peter Pan" telecast.

The NBC chief said none of the spectaculars extend into non-option time (past 10:30 p.m.) and that if they or other programs did, the network would not try to force the affiliate to clear them.

Affiliates, he said, have the right under their contracts to reject an option-time program if in the station's opinion it is (1) "unsatisfactory or unprofitable," (2) contrary to the public interest, (3) if the outlet wishes to substitute another program of local or national interest or (4) if the station is committed to use a program from another network.

He told Mr. Cox that NBC network has a legal right under option clauses to require a station to use a given program but doesn't invoke this right "in practice," although, he said, "we seek to convince him" to use the NBC program.

NBC, Mr. Sarnoff said, never has refused to renew an affiliation because of a station's refusal to clear a network program.

Mr. Cox asked about NBC's position in the WTVR (TV) Richmond, Va., case, and testimony before the Senate committee by Wilbur Havens, WTVR president (8B, May 21). Mr. Havens testified that NBC refused to renew its affiliation with WTVR in 1955 because the station rejected some NBC programs and called for higher rates from the network because of claimed increased coverage.

The NBC president replied that Mr. Havens was in difficult must to do business with? A basic issue, Mr. Sarnoff said, was Mr. Havens' claims for WTVR coverage, which, he said, would have "eliminated" areas where NBC had coverage by other outlets. Mr. Sarnoff said he had been told that the same geographic overlap claims exceeded the "population of Virginia."

Mr. Sarnoff admitted that associates at NBC had advised that WTVR's rate should be raised, but didn't recall the exact circumstances. He had "no particular knowledge," he said, of reports that WTVR's network rate ($625) and its national spot rate ($875) had the largest "spread" of any tv station in the country.

"The difficulty," Mr. Sarnoff said, "was in
what he (Mr. Havens) thought and what we thought." One must think of the "realities of business," he added, continuing that Mr. Havens "though he had more (circulation) than we thought," this he said "is not unique" in business.

The NBC president told Sen. Bricker that if a station consistently refused to take a certain program, NBC would try to persuade the station otherwise, but if the station wasn’t convinced, "that would be the end of the matter."

NBC, he said, had never cancelled or declined to renew an affiliation because of an affiliate’s refusal to renew a program, but had done so for other reasons, such as a new station coming into the market, new management and other factors. As for the WTVR cancellation "coinciding" with affiliation with the new WXEX-TV Petersburgh-Richmond, NBC ended the affiliation at the end of the contract period, he said.

Mr. Sarnoff admitted that NBC has cancelled affiliations with uhf stations when new vhf became available in a market, saying advertisers usually want the vhf coverage.

Opening Thursday afternoon testimony on NBC’s production of programs, Mr. Sarnoff said that without considering time sales, NBC underwent an $8.6 million loss in 1955. He added that one reason some programs cost NBC more than advertisers paid for them was the network’s own "underestimate of the budget" for many shows. He said NBC does make a profit on production of "some" programs, however, and that it is "possible in some instances" that the network has made a profit from buying a program from an independent producer and re-selling it to an advertiser.

Rate Fixing Not Unilateral

On network rates to stations, he said, the network decides these by its own coverage measurements and other factors.

This rate-fixing, he continued, is not "unilateral," because the station can withdraw its affiliation.

Mr. Sarnoff told Mr. Cox that the network pays for AT&T interconnections for some stations and other stations pay for their own hook-ups.

Mr. Cox said there is some feeling that NBC contracts with affiliates intimate that the traditional first five hours which a station gives a network free serves to repat the network in part for bearing the costs of interconnections and other considerations. However, no corresponding reduction is made in these free hours when a station pays its own interconnection costs, Mr. Cox said.

Asked at this point whether he would object if affiliation agreements filed with the FCC were opened to public records, Mr. Sarnoff answered, "Yes, they are private agreements."

Asked if he thought all stations should get equal treatment, he answered that "all stations and markets are different," indicating, obviously, that these differences should be considered in drawing up individual contracts.

Sen. Magnuson said the FCC had assured the Senate committee that the FCC Network Study Group’s findings on this subject would be made available to the Senate committee.

Regarding the barring of affiliation contracts to the public, Mr. Sarnoff said this would put the government in business of deciding on private matters.

Asked by Mr. Cox if the FCC—without radically altering its Chain Broadcasting Regulations—could not alter option time provisions without changing the overall purpose of the regulations, Mr. Sarnoff said that would depend on "how it's done."

Mr. Cox, noted that the FCC regulations, when first adopted prohibited option time, but then were modified to permit three hours daily. Arguments by networks at that time that this time restriction would break up networks were "not too well grounded," he added.

The NBC president replied that circumstances have changed since then, and that arguments made then have no merit in today’s situation, that there is a difference in the size of the business and the importance of the medium and that TV is different from radio. Mr. Cox said he could see no essential difference except that the signal is put out by different means.

Returning to option time, Mr. Cox asked if affiliation cancellation is not the "ultimate" instrument the network uses in requiring an affiliate to clear its programs, rather than invocation of the option time clause.

Mr. Sarnoff said that this is not necessarily so, but "it could happen." He knew of no specific case, however, he told Sen. Magnuson.

Asked by Mr. Cox whether NBC—as long as affiliates do have some legal grounds for refusing a program in option time—can sell an advertiser an absolute number of stations, Mr. Sarnoff said the network can be fairly sure it will clear the requisite number of stations, based on experience and other factors. This is somewhat more difficult in non-option time, he added.

Mr. Sarnoff was questioned by Sen. Magnuson on whether an individual or firm can buy time for non-advertising purposes; i.e., for Through This Door Comes New Selling Power for You!

For 30 years WIBW has been the greatest single selling force in Kansas. Today, we entrench that position even more firmly with a broader, more exciting idea of programming.

New sounds, new techniques, radical departures from established patterns, have made WIBW the most-talked-about station in Kansas. The result is new audiences ... and most important—new selling power.

For the money-in-your-pocket story of how you can sell more—faster—with the new WIBW, just call your Capper man.

"legally propagandizing a cause," or in hopes that the program will attract an advertiser, etc.

The NBC head said the network normally will not sell time for non-advertising or controversial purposes, but that the network might deal with a number of others now originating in Los Angeles. He acknowledged that 'NBC has made a "slight" profit in some instances by furnishing its own scenery.

Mr. Sarnoff said NBC's Spot Sales Division is operated by the network's own stations set up; that the number of stations the division represents is not likely to increase; that it operates at a profit and that it operates in competition with network sales.

Ending his testimony, Mr. Sarnoff called "We would not be solving the television problem," with RCA's best possible facilities, at its own stations set up, as in his testimony before the committee. Whether the FCC completes examination of the charges made against the networks by Richard A. Moore, KTTV (TV) Los Angeles [BT, April 2], and by producers of scenery for TV shows [BT, May 21].

Stanley N. Barnes, Assistant Attorney General in charge of the Justice Department's Antitrust Div., has told Senate Committee Chairman Warren G. Magnuson (D-Wash.) that "material already in our files appears to be consistent with many of the statements" made in the Moore testimony.

Mr. Barnes' letter, dated May 29 and entered into the committee's hearing record last week, was written after Sen. Magnuson referred testimony by Mr. Moore and the scenery producers to the Justice Dept. for comment. Also entered in the record was a May 31 letter from the FCC, to which the Moore statements also were referred, saying the Commission has reached no "conclusions" on the Moore charges pending completion of the FCC's study of networks.

Mr. Barnes said he is maintaining his position given in testimony before the committee in February—that Justice wants to wait to see whether the FCC completes examination of its charge and Regulation for possible modification or enlargement—before comment on matters in which FCC and Justice exercise joint jurisdiction [BT, March 5].

"This need to await the recommendations of the FCC is particularly appropriate with respect to Mr. Moore's testimony on network practices, inasmuch as the FCC's Network Study Group is presently reappraising its regulations with respect to these practices," Mr. Barnes said.

Noting that Justice already has been "looking into" situations charged by Mr. Moore's testimony on network practices, Mr. Barnes said Justice is expanding its investigation to include charges made by scenery producers and Mr. Moore "in those areas where inquiry by the department would not conflict with the re-examination by the FCC of its regulations."

He noted, as in his February testimony, that

**SOUTHERN DISCOMFORT**

MAKING the rounds at Senate Commerce tv hearings last week was an informal proposal for a drastic revision of television allocations. In this one the Mason-Dixon Line would be used as a boundary. All stations north of the line would be vhf, those south of it uhf-all-hf.

**AFFILIATES GO ON STAND IN THIS WEEK'S ROUND**

**WITNESSES for the Senate Commerce Committee's hearings on network television practices this week, as announced by the committee staff, are:**

**Monday**

CBS-TV Affiliates

**Tuesday**

ABC-TV Affiliates

Harold Hough, WCAP-TV Fort Worth; Sarkes Tarzian, WTTV (TV) Bloomington, Ind.; Fred Houwink, WMAL-TV Washington. Others

**Wednesday**

NBC-TV Affiliates

**JUSTICE DEPT. TAKES ON MOORE CHARGES**

"there is a substantial area in broadcasting not regulated by the FCC and the Antitrust Division has primary responsibility for enforcing the Sherman and Clayton Acts."

FCC Chairman George McConoughay's letter to Sen. Magnuson said opinion time and must-buy practices are matters under "very serious consideration" in the FCC's network study and that Mr. Moore discussed them with the Commission before his testimony to the Senate group. The FCC, however, has reached no conclusions yet, he added.

**Joint Meeting Plans Study Of Commission Renewal Forms**

MEETING of a subcommittee of the Committee on Radio & Television Broadcasting, Advisory Council on Federal Reports, with Commission representatives on revision of FCC renewal forms is scheduled to take place June 28.

The meeting was called by Sen. Edward W. Brooke, WWDC Washington, as chairman of the broadcasters committee, following the naming of FCC staff representatives by Chairman George C. McConaghey.

Rev. Joseph N. Nelson, chief, renewal and transfer division; Millard F. French, chief, renewal branch, and James B. Sheridan, acting chief, economics division, all Broadcast Bureau.

Broadcasters on the subcommittee are Joseph Baudino, Westhouse Broadcasting Co.; Joseph Brechner, WGAY Silver Spring, Md.; Leon Brooks, CBS; George O. Sutton, Federal Communications Bar Assn., and Vincent Walewski, NARTB. Also a member of the subcommittee is David E. Cohn, Bureau of the Budget, which has jurisdiction over government forms.

The committee hopes to work out a revision in program categories which would make them conform more closely to actual present day operating practices [CLOSED CIRCUIT, May 28].

**USIA to Get $113 Million**

A SENATE-HOUSE conference committee last week settled on a $113 million appropriation for the U. S. Information Agency's operations for fiscal 1957. The measure now goes to the President, whose approval is expected. The amount is $22 million less than originally requested by the Administration.
Milwaukee Uhf Wants Pay-Tv Authorization From FCC

ANOTHER request to use a uhf station for subscription tv purposes was presented to the FCC last week when Lou Poller, owner of ch. 25 WCAN-TV Milwaukee (now dark), asked for authority to operate that station on a parttime pay-tv basis. A similar request by another suspended uhf station, ch. 67 WFMZ-TV Allentown, Pa., was denied by the FCC [B&T, March 6]. WFMZ-TV planned 55% paid, 44% normal operation. Mr. Poller's proposal calls for 25% paid, 75% normal.

The WCAN-TV pay-tv proposal was coupled with an application to assign the station's license to TV Exhibitors of America, which Mr. Poller heads and holds 100% of the voting stock. Suggested viewer costs would be 50¢ for a baseball or football game and $1.00 for a feature movie or Broadway production; probable price range would be 25¢ to $1.00, the application said. If the public would accept sponsorship of programs they pay to watch, such a plan would be considered, WCAN-TV said.

The station said it would provide, rather than sell, political time and twice yearly a "Citizens Day" would be held for the benefit of politicians. Viewers would earmark for specific candidates or parties the money they pay to watch a special feature film. Projecting such a plan on a nationwide basis, enough money would be raised to pay for the campaigns of each and every candidate from mayor to president, WCAN-TV stated.

Mr. Poller has been very active in behalf of uhf interests and is former president of the Ultra High Frequency TV Assn. More recently he has been active in behalf of the candidacy of Sen. Estes Kefauver (D-Tenn.) for the Democratic presidential nomination [B&T, Oct. 17, 1955].

WMAL-TV Head Sees Pay Tv As 'Completely Incompatible'

WMAL-TV Washington General Manager Fred Houwink—whose station cooperated with Zenith Radio Corp. in telecasting coded signals May 25 to June 23, 1955—has concluded pay television is "completely incompatible" with the operation of a "regular broadcasting station."

This was revealed in a letter written by Mr. Houwink Sept. 9, 1955, to the FCC, and entered in the hearing record of the Senate Commerce Committee last week.

Mr. Houwink said WMAL-TV offered to make the experimental telecasts in 1955 to find out for itself the facts about pay tv and to demonstrate the coded telecast techniques and results to NARTB delegates meeting in Washington for the association's 1955 convention.

N. D. Channel Application Revealed as Co-Op Effort

ANOTHER "co-op" effort to bring tv to a remote area is revealed in an application filed with the FCC for ch. 8 at Williston, N. D. A newly formed, non-profit corporation—with over 6,000 members—has raised enough money to build a tv station to bring service to that farming and ranching area. This proposal is similar to a plan which helped to establish KHPL-TV Hayes Center, Neb., satellite of KHOL-TV Holdrege, Neb. In the KHPL-TV case, more than 8,000 farmers raised $140,000 to get the satellite service [B&T, Oct. 3, 1955].

In Williston the Missouri Valley TV Corp. has raised almost $350,000 with over $100,000 more in pledges. The proposed ch. 8 outlet would be licensed to Meyer Broadcasting Co. and would operate as a partial satellite of Meyer's KFYR-TV Bismarck, N. D. According to the application, Missouri Valley would lend Meyer the costs of construction and guarantee the broadcasting company $20,000 annually for a period of five years.

Missouri Valley was organized by four prominent local citizens, including E. Krebsbach, vice president-general manager of KGCK Sidney, Mont. Others are Arley R. Bjella, member of Bjella, Jesteadt & Neff law firm and Missouri Valley president; W. S. Davidson, American State Bank, and George Schmidt, manager of the Williston Chamber of Commerce.

The proposed Williston outlet would be an NBC and ABC affiliate, the application stated. A private microwave relay system would be constructed between Bismarck and Williston to make possible the network service.

FTC Issues Rules on Insurance

The Federal Trade Commission last week issued its "Trade Practice Rules for the Accident and Health Insurance Industry," designed to prevent harmful practices in the advertising and sale of accident and health insurance. The rules, to become effective July 15, are the result of a conference between the FTC and the National Assn. of Insurance Commissioners and other exchanges, climaxd by a hearing on FTC proposals [B&T, April 30].

MILWAUKEE’S NEW WISN

PRESENTS

JACK DENTON SHOW

12:00-6:00 P.M. DAILY

The New WISN presents music, news, weather and sports . . . and now the cream of the ABC network . . . and everybody's feeling the results! Jack Denton spins the records now . . . all afternoon . . . for a market of 1½ million people in 15 rich counties! Jack's building his audience with entertainment and salesmanship . . . better put him to work for you on WISN's growing afternoon audience.

IT'S JUST A QUESTION OF TIME

ONE of the most popular sports in Congress these days is sending questionnaires to networks.

Last week another questionnaire went out, this one from the House Committee on the District of Columbia, which is acting on comparatively innocent legislation to determine when Daylight Saving Time will be observed there. In order to determine that end, Rep. Joseph P. O'Hara (R-Minn.) asked the networks some legitimate questions. "Does the bill affect the operation of any station owned by you?" for example. He asked other questions, too:

Why are you in the film distribution business? What percentage of your network revenue is derived from film? From live? Do you consider the profits which you are making in your network operation is (sic) marginal profit? Did you earn in 1955 more than 25% on your investment as of Dec. 30, 1954, in property used for network operations? More than 30%? 75%? (This same question was put as to owned tv stations and to network plus owned stations.)

Rep. O'Hara then warmed to his subject:

Do you think you are entitled to special consideration in regard to time changes for Washington in view of your earnings record and your dominant position in the television industry?

Have you made a study of the adverse effect that this bill would have upon the income of businesses and enterprises other than your own?

Should the committee give consideration to the inconvenience, dislocation, and confusion, which will result from extending daylight saving time, to the millions of people living outside the vicinity of Washington who have business affairs with members of Congress and government agencies, and many of whom are dispatched in traveling to and from Washington?

The networks and Rep. O'Hara might possibly disagree on what should be the simplest of his questions—No. 9: In this bill we are dealing with only one hour difference between New York and Washington—are we not?

Meeting Set for Tomorrow On Convention Seat Problem

TN an effort to iron out the problem of too many requests for radio-tv seats at the national convention in Chicago, the Democratic National Committee plans a media meeting tomorrow, 10 p.m., in Washington's Mayflower Hotel. Bill Shadel, CBS, vice chairman of the Radio-TV Correspondents Assn. conventions committee, will speak in behalf of the broadcasters.

The Republicans held an arrangements meeting June 8 in Washington, presided over by GOP's Meade Alsborn, vice chairman of committee in charge of arrangements. Bill Henry, NBC, chairman of the RTCA conventions committee, represented the Republicans.

The conventions committee reminded stations designing to bid for free seats at conventions to place construction orders as soon as possible to avoid overtime they'll be required to pay later.

GOP Convention Meet Set

QUESTION of whether the Republicans will shorten their St. Francisco convention to three days (instead of four scheduled) is due for discussion by the convention arrangements committee at a meeting June 22 in Washington. Movement to trim the convention, at which "cut-and-dried" nomination of an Eisenhower-Nixon ticket is expected, is motivated by desire to hold interest of television audience, it was reported last month by San Francisco Chronicle political commentator Earl C. Behrens (B&T, June 4).

Also to be decided at meeting: final plans for news credentials and coverage.

WVMI Favored Both Times

BOTH proposed decisions (by former FCC Examiner Harold Schilz in 1954 and Examiner J. D. Bond a fortnight ago) favored WVMI Biloxi in the Biloxi ch. 13 case (B&T, June 11). B&T last issue stated these initial decisions properly, but in a secondary reference erroneously termed the subsequent action as a reversal of the earlier proposal.

Early Answer

ALTHOUGH replies from the more than 200 community television systems to the complaint of a group of western broadcasters that antenna systems should be placed under FCC common carrier jurisdiction (B&T, April 9) are not required until July 15, about 10 of the mountain top entrepreneurs already have answered.

Gist of their replies is that they are not common carrier services, that they operate solely in intrastate, not interstate, commerce. They also maintain that community tv systems bringing services to those who otherwise would not be receiving this service and that their activities are in the public interest. If antenna groups come under FCC jurisdiction, they claim, should apartment houses, hotel, motel and other such group tv systems.

Those answering were operators of community tv systems in Conecuh, Pa.; Russellville, Ala.; Yreka, Calif.; Guymon, Okla.; Hailey, Tex.; Niagara Ws.; Sheffield, Pa.; Coulee Dam, Wash.; Paintsville, Ky., and Athens, Ohio.

GOVERNMENT

Stockholder Smith Protests Sale of WGMS-AM-FM

MINORITY STOCKHOLDER Lawrence M. C. Smith has asked the FCC to stop the $400,000 sale of WGMS-AM-FM, Washington to RKO-Teleradio Pictures Inc. Mr. Smith, who holds 16% of the WGMS stock and also owns WFLN (FM) Philadelphia, has charged that the Washington "Good Music" stations can be sold for more money ($420,000) to Nathan Strauss, WMCA New York. Mr. Smith also filed a court suit in Delaware to enjoin the sale to RKO.

Mr. Smith objected to a five-year employment contract offered by RKO-Teleradio to M. Robert Rogers and his wife. Mr. and Mrs. Rogers (41 1/2%) are general manager and station manager, respectively, of WGMS. Another charge is that under RKO ownership the "good music character" of at least one of the WGMS facilities will be abandoned.

WGMS told the FCC that the Strauss offer was made after the public announcement of the sale to RKO. Otherwise, and that Mr. Smith has said that he would not vote to accept a matching price from RKO if it could be obtained. Mr. Smith's objections are based on the fear of competition to his WFLN from a proposed Mutual fm network, which will use WGMS as the key station, WGMS said.

Founder of AWRT Retires From UN Post

MRS. DOROTHY MOORE LEWIS, founder of the American Women In Radio & Television (AWRT), retired Friday as liaison officer in the section for non-governmental organizations of the United Nations Secretariat Public Information Dept. after reaching the mandatory retirement age of 65.

Mrs. Lewis joined the UN in 1948 after a successful career in broadcasting and advertising. She devoted her first six years with the UN as coordinator of U. S. station relations, placing UN programs on hundreds of radio-tv stations throughout the country. She also served as editor of the monthly UN News for Women Broadcasters.

Dr. Chain Denies Charge Of Unfair Adv. Practices

CHARGES by the Federal Trade Commission that United Cigar-Whelen Stores Corp. encouraged and received special allowances from suppliers [B&T, March 12] were denied by the drug chain last week. United-Whelen termed the FTC complaint as "repugnant to" other antitrust laws.

The complaint was issued against United-Whelen and four suppliers. The suppliers were charged with giving special allowances to the drug chain for advertising on United-Whelen tv shows, while not making the same available to other customers. United-Whelen induced such allowances, the FTC said, knowing competitors were not entitled to receive them. An Alhambra Co., one of the suppliers involved, last week denied the FTC charges (B&T, June 11).

Hansen Gets Nomination

PRESIDENT Eisenhower nominated a 52-year-old Los Angeles judge, Victor R. Hansen, to be assistant attorney general in charge of the Antitrust Division. Judge Hansen, a member of the California Board of Regents, has been Los Angeles Superior Court judge since 1951. He was born in Minneapolis in 1904 and makes his home in La Canada, Calif. He is a Republican.

Judge Hansen would succeed Stanley N. Barnes, who has been appointed to the bench of the Ninth Circuit Court of Appeals in San Francisco.

Simplex Extension Granted

ONE-YEAR extension of the time during which fm stations may conduct functional music operations on a simplex basis has been granted by the FCC. The extension—until July 1, 1957—follows requests by 22 fm outlets to be allowed to continue simplex operation until satisfactory multiplex equipment becomes generally available.
**ABC-TV Fall Selling Hits Quickered Pace**

SELLING PACE of ABC-TV was given a lift last week with the signing of new business that represents some $7,750,000 in billings. Included was the first arrival in the ABC-TV camp of blue chip advertiser Procter & Gamble Co., Cincinnati, which alone will account for an estimated $2 million (including time and talent).

P&G (for Gleem toothpaste) picked up a 26-week sponsorship of *The Life and Legend of Wyatt Earp* (Tues., 8:30-9 p.m. EDT) starting next fall, and a 26-week schedule of participations (one each week) in *Famous Film Festival* (Sun., 7:30-9 p.m. EDT) which begins July 1 on behalf of Shasta shampoo. Agencies for P&G are Grey Adv. (Shasta) and Compton Adv. (Gleem), both New York.

Also announced was an alternate 26-week contract for *Wyatt Earp*, by General Mills Inc., Minneapolis, through Dancer-Fitzgerald-Sample, New York, on behalf of the advertiser's baking mixes, cereals and flour. The General Mills sponsorship adds an estimated $1.75 million in business. Pearson Pharmacal Co. (Sakritz, Eye-Gene and Endus), Long Island City, N.Y., meanwhile renewed its participation schedule in *Famous Film* for 13 weeks, starting June 24. Agencies are Donahue & Co. and Al Paul Lefton, both New York.

Formal announcement also was made of an alternating sponsorship for the film series, *The Danny Thomas Show*, scheduled to move to Monday (8-9:30 p.m. EDT) this fall, by Kimberly-Clark Corp. (Cellucotton-Dix—Kleenex tissues) and Armour & Co. (Dial shampoo, soap and liquid shampoo) [BT, June 4]. Both these buys represent nearly $4 million in business (time and talent). Foote, Cone & Belding, Chicago, is agency for both Kimberly-Clark.

**CBS Radio Convention To Be Held Sept. 11-12**

AFFILIATES and executives of CBS Radio will hold their annual convention Sept. 11-12 in New York, it is being announced today (Monday) by Arthur Hull Hayes, president of the network, and Kenyon Brown of KWFT Wichita Falls, Tex., chairman of the board of CBS Radio Affiliates Assn.

The session presumably will convene on a cheerful note, since the network's "increase" in the stations' rate of compensation will have gone into effect just a few weeks earlier [BT, June 11]. Under a one-year contract-amendment effective Aug. 25, the compensation reduction below pre-1951 levels, which has been 20% during the current year, is restored to 15%.

CBS Radio's new sales drive, aimed first at the 10 a.m. to 3:30 p.m. Monday-Friday periods and announced 10 days ago coincident with the plan to improve station compensation rates, is expected to figure prominently in the two-day discussions. Meetings will be held at the Hotel Pierre and will be open to all stations affiliated with CBS Radio.

An address by Dr. Frank Stanton, president of CBS Inc., will highlight the opening-day luncheon program. Other Sept. 11 activities will include a speech by President Hayes in the morning, presentation of the network's promotion and publicity plans for fall, and a closed meeting of the affiliates' association.

A management conference will open the Sept. 12 sessions. In the afternoon executives of four affiliated stations will present a panel discussion of various phases of their current operations. This will be followed by general questioning, after which network executives will join the panel members to answer publicity and promotion queries.

The affiliates' convention subcommittee is headed by F. C. Sowell of WLAC Nashville, Tenn., vice chairman of the affiliates board. Other committeemen working with network officials in planning the meetings are J. Maxim Ryder, WBRY Waterbury, Conn.; Donald W. Thornburgh, WCAU Philadelphia; Charles C. Caley, WMBD Peoria, Ill.; Arnold F. Schoen Jr., WPRO Providence, R.I.; Worth Kramer, WJR Detroit; John M. Rivers, WCSC Charleston, S. C., and Chairman Brown, an ex-officio member.

**Recipe for SUCCESS!**

To a great basic network (CBS), add a great affiliate network (ABC). Season with a strong array of local programs. Stir in plenty of Promotion and Service. Then add an active, intelligent sales force and a 4-year record of consistent preference ratings in Rochester!

**CBS-TV’s Sullivan Wins Injunction Over Buffalo’s**

APPELLATE DIV., New York Supreme Court, a fortnight ago issued a temporary injunction, pending trial, restraining a Buffalo, N.Y., radio and television repair store from using the same corporate name as that of CBS-TV personality Ed Sullivan. In reversing the decision of a lower court, the State Supreme Court questioned whether Ed Sullivan Radio & Tv Inc. could select diminutive "Ed" for use in connection with the surname "Sullivan" when it is undisputed that the name 'Ed Sullivan' is automatically identified by the general public with the appellant alone, insofar as radio and television are concerned.

CBS PUTS ACTION INTO POLITICAL SCIENCE

SCHOOL DAYS are being supplemented this year by hundreds of hours of living political science provided free and nationwide by radio-tv stations and network coverage of the presidential campaign and elections, many of the nation’s schools are keeping classwork and summer study to the actual action as it breaks on radio and on the tv screen.

To take advantage of this unprecedented coverage of primaries, conventions, campaign events and elections, containing supplementary reservoir of information that cuts across a large chunk of learning, including history, English, speech, journalism, political science, current events and core (combination of English, social studies and science), a group of professors at Columbia U.’s Teacher College has worked with CBS in preparing a 30-page printed booklet to be used as a teacher’s guide in the viewing and listening of political coverage at the junior high school level and up.

CBS station affiliates already have distributed more than 30,000 copies of the booklet to schools.

The booklet concentrates on primaries and conventions, containing supplementary activities for the spring and summer. As Volume I, it will be followed in the fall by Volume II, which will do a similar job on the campaign and elections. Since most classrooms either close down or curtail activity in the summer, Volume I suggests activities for that period during which the conventions will be held.

The data in the booklet spreads out in various ways and are all of which lead to stimulation of student interest. The guide neatly outlines historical background and other resource materials for teachers, suggesting activities adaptable to actual classroom needs.

At the same time, the booklet manages enough explanation and detail of radio-tv coverage (in this case CBS Radio and CBS-TV) to widen knowledge among teachers and their students of the broadcast media. For example, in the first volume are full-page reproductions of two paintings made for CBS by Lucille Corcos of New City, N. Y., a nationally prominent magazine artist. The illustrations depict radio-tv activities planned for both conventions, the Democratic at Chicago’s International Amphitheater and the Republican at San Francisco’s Cow Palace (see cut).

THIS SKETCH shows how CBS News will cover the Democratic convention in Chicago beginning Aug. 23. Involved: a staff of 325 news, production and technical personnel and approximately 22 tons of technical equipment. The GOP convention at San Francisco’s Cow Palace will have a similar coverage setup.

1. CBS News filter center, focal point for the flow of news including constant reports from 25 reporters and correspondents.
3. Control room and programming center, where director selects best television picture for viewers from 10 cameras feeds representing some 30 camera installations.
4. Production desk, where Sig Mickelson, CBS vice president in charge of news and public affairs, plans radio-tv coverage on minute-to-minute basis.
5. Glass-enclosed booth above floor behind speaker’s stand provides CBS Radio and one CBS-TV camera unobstructed coverage of auditorium.
6. Five pool cameras converge on speaker’s stand and convention floor, two from head-on position, one to left of floor, two others at right.
7. CBS mobile unit outside auditorium.

leisure are concerned.”

The court noted no direct competition at present between CBS-TV’s personality and the respondent but added “both operate in the same general field and this court has consistently held that it is not essential for parties to be in competition with each other in order to sustain an injunction.” The decision explained that the Buffalo establishment makes use of no word in its corporate title which would indicate it is engaged solely in the business of selling and repairing tv sets. CBS-TV commented Friday that the decision “could have future, far-reaching effects in similar cases involving big-name personalities.”

NBC-TV, Co-Op Sales Reach Record Volume

CO-OP SALES by NBC-TV hit their highest volume in March, making that month the biggest since the network first made co-ops available to stations in October 1954, NBC-TV reported last week.

NBC-TV attributed the new high in co-op business mainly to a local-national spot. According to a sales report, 53 affiliates sold 928 co-op participations in five programs for a 36% increase over February. The previous monthly high was 843 spots in March of 1955. When international shoe dealers bought extensive participations in "Pinkie Lee." The increase last March, however, was achieved without the international show order "and is the culmination of many station’s efforts to sell co-ops to local, regional and national spot advertisers," the network reported.

Of 53 stations reporting co-op business in March, 19 sold to national spot and regional advertisers, with 23 different non-local advertisers buying 252 spots. Among the national advertisers: Armour, Nestle, Coca-Cola, Kellogg, General Foods, Nabisco, Toni and Pine.

NBC-TV reported that "Mainline Theatre" was sold by 21 stations—one-fourth of those stations permitted to sell the program on a co-op basis (it was offered so beginning five months ago). The 21 outlets sold a combined total of 443 spots in March or more than double the number of the previous month. Other totals: eight affiliates sold 17 spots participations on "Today;" nine sold 137 spots on "Home;" 20 placed 117 on "Pinkie Lee;" six sold 59 participations on "Howdy Doody;" and 17 sold "Meet the Press" in March.

Top stations in the number of spots sold in March: KVOA-TV Tucson with 81; KMID-TV Midland had 71; WKJG-TV Fort Wayne and WATE-TV Knoxville tied with 61. Reporting more than 50 spots sold: KCB-B-TV Lubbock; KDKA-TV Pittsburgh; WBRZ-TV Baton Rouge, and KBEI-TV Medford. KBO-TV Albuquerque sold 57 for the first month in which it reported co-op sales; KTY-TV (TV) Springfield sold 16. NBC-TV reported $4,587 worth of local sales in NBC-TV co-op sales, bringing the station $2,106 in one-week revenue through co-op sales by WSLS-TV Roanoke and WNDU-TV South Bend.

Lewis in Three-Year Pact

CBS personality Robert Q. Lewis, whose network stock dipped recently when he lost his daytime tv program, last week received a dividend from CBS Radio in the form of an exclusive three-year contract with option for renewal. The report of the new pact was coincident with an announcement that Mr. Lewis will star in a new CBS Radio musical variety weeknight series starting Sept. 10. The Monday-Friday, 8-8:30 p.m. series will be in addition to Mr. Lewis’ Saturday, 11:05-noon "The Robert Q. Lewis Show.

BROADCASTING • TELECASTING
Three NBC-TV Programs Bill $3 Million in Week

NEW BUSINESS amounting to almost $3 million in gross billings was recorded during one week by NBC-TV's Home, Today and Tonight programs, it was announced last week by Roy Porteous, manager of sales for NBC-TV's participating programs.

Mr. Porteous reported that during the week ending June 6, participations were sold in the three programs, totaling 147 announcements for Today; 124 for Tonight and 56 for Home. He noted that Life magazine, through Young & Rubicam, New York, has ordered a total of 208 announcements on Today and Tonight, starting in July.

ABC-TV West Promotes Two

APPOINTMENTS of Frank G. Ralston as director of the ABC-TV Western Div. Film Dept. and of Don Van Atta as assistant coordinator at Walt Disney Productions for ABC-TV were announced last week by J. English Smith, director of national programming of the ABC-TV Western Div.

Mr. Ralston has been with ABC-TV since 1953 and has served as assistant film editor, chief film editor and, since May 1955, as assistant coordinator for ABC-TV at Walt Disney Productions. Mr. Van Atta, who succeeds to Mr. Ralston's former post, joined ABC Hollywood in July 1953 and has worked variously as assistant sales service manager for KABC-TV, production coordinator for ABC-TV Hollywood and assistant network program coordinator for You Asked For It.

Finance for Housewives

NO WOMAN can be "modern" unless she is as familiar with the news of Wall St. as she is with the news of politics and science. So says Mrs. Wilma Soss, a financial expert and president of the Federation of Women Shareholders in American Business, a non-profit association that combats so-called "financial illiteracy" among women. Mrs. Soss, a familiar figure at various stockholder meetings of the larger corporations—she has been vocal at both CBS Inc. and RCA meetings, for instance—will be featured on NBC Radio's Weekday program service, Wednesdays at 3:15 p.m. EDT, beginning June 20. Mrs. Soss observes, "We want to make finance fashionable. Our radio series will not only be about principles of investing, it will be both practical and inspirational for the housewife."

NBC Signs For Rose Bowl

NBC has signed a contract for exclusive television and radio coverage of the Rose Bowl game, it was announced last week by Victor O. Schmidt, commissioner of the Pacific Coast Conference; John Davidson, president of the Pasadena Tournament of Roses Assn., and John K. West, vice president of NBC's Pacific Div. The contract is similar to the current three-year pact ending with the Jan. 1, 1957, football game, except there is no definite termination date, but has an "open-end" clause, providing for the tv and radio coverage of at least two additional games after notice of termination by any of the contracting parties.

Network People

George Schick, associate conductor, Chicago Symphony Orchestra for six years, appointed music coordinator of NBC Opera Co.

Harry Wissner, sportscaster, General Teletel Radio and MBS, elected vice president of H. Gabriel Murphy & Co., Washington, D.C., insurance bond firm. Mr. Murphy is largest stockholder and treasurer of Washington Senators (baseball) and Mr. Wissner vice president and stockholder in Washington Redskins (football).
Resume of last year's slimmer profits in tv cited at RETMA convention in Chicago, GE's Dr. Baker elected president.

WITH intense competition and low prices, profit-picking has been slim for tv set manufacturers the past year, resulting in the demise of several old-line companies, while radio sales have increased, the Radio-Electronics-Television Convention, held at its thirty-second annual convention in Chicago last week.

Reverting to RETMA's set division, Henry C. Bonfig, president of CBS-Columbia, noted that tv receiver output and sales since RETMA's last convention in 1955 have remained high despite a "modest decline" in consumer sales. Mr. Bonfig also noted that color tv sales, "while still numerically small, greatly exceed those of a year ago and that "all inductions point to an upturn in the color tv set business during the second half of this calendar year."

Only other official comment on color was given by H. Leslie Hoffman, Hoffman Electronics Corp. and retiring RETMA president, who commented on association progress in black-and-white at the same time we are bringing forward the exciting new service of color." He said he saw no reason why monochrome tv "needs to be replaced by the advent of color" as he continues his opinion and progress in his annual report Thursday noon.

Dr. W. R. G. Baker, vice president of General Electric Co., a radio pioneer and RETMA engineering head since 1934, was elected new president of the association, succeeding Mr. Hoffman. He will continue as director of its engineering department. Re-elected were James D. Seest, as executive vice president and secretary; Leslie F. Muter, Muter Co., treasurer, and chairman of the finance committee; and Glen McDaniel, general counsel.

William L. Reynolds, RETMA staff attorney, was appointed assistant general counsel.

Mr. Bonfig pointed out the radio market has surpassed the previous year by a "substantial" margin, with 143 million sets sold the past year, a slight majority of them home receivers. Consumers have bought 7.35 million tv sets in the same period compared to 7.87 million the previous year for no means a bad record," Mr. Bonfig observed.

The value of "high priced" color tv sets may raise the dollar volume of total tv sales above last year's $1.12 billion at the factory level. He also cited the "emergence and immaterial popularity" of portable small-screen tv sets.

RETMA's board of directors took no official actions, or adopted no resolutions. It held preliminary discussion on plans for National Telecasting Convention, to be held in late June or early July. It also held its annual meeting.

Frank W. Mansfield, Sylvania Electric Products Inc. and chairman of RETMA's statistical policy committee, reported a new record high for sale of electronics equipment in terms of dollars last year ($5.5 billion as against $5.25 billion the previous fiscal year). He estimated radio would increase with 143 million units sold by factories during 1955-56 as against 125 million. Auto radios account for a significant portion of the sales boost, he added, with 6.4 million, a 12% gain.

In his annual report Mr. Hoffman described relations with FCC, Dept. of Defense and Congressional committees as "materially strengthened" and RETMA's reorganization a success. He cited RETMA's activity on various radio and uhf investigations. Mr. Hoffman suggested the association broaden its revenue base, a redefinition of its membership scope, stimulation of new engineering and design concepts for radio-tv, and a new trade identification—Electronics Mfrs. Assn.

Other reports at the convention, held at Chicago's Edgewater Beach Hotel and which drew several hundred representatives, highlighted these points:

- Worldwide competition for the electronics market has maintained strong, with exports up 10% for the first quarter of 1956 over the same period last year.
- Concurrent and tube segments of RETMA (receiving, picture, transistor) reported increased past fiscal year. Transistors were up at the factory level to 3.6 million units; receiving tubes to 483 million, and picture tubes to 148 million units.
- Twenty-nine manufacturers of electronic products failed business-wise this past fiscal year compared to 26 the previous year, but total liabilities cumulatively less.
- Also elected by the RETMA board were five vice presidents for separate divisions. They are: Robert S. Bell, Packard-Bell Co., set division; F. R. Lac, Western Electric Co., military products; H. I. Hoffman, Microwave Labs, technical products; Herbert W. Clough, Belden Mfg. Co., parts division, and R. E. Carlson, Tung-Sol Electric Tube Div. Elected directors for departments were: Robert C. Sprague, Sprague Electric Co., industrial relations department; Ray C. Ellis, Raytheon Mfg. Co., international department; C. Paul Young, Philco Corp., military relations dept., and Mr. Mansfield, statistical chairman, and directors also were elected for RETMA divisions.

GALVIN SPEECH POINTS UP ECONOMIC RESPONSIBILITY

Motorola president tells RETMA banquet that industry must face its challenge of continued growth. Calls for mature approach to educational needs future leaders.

INDUSTRY must face up to the challenge of continued growth and responsibility for its part in the nation's economic welfare by exercising "increased prudence" in the problems of "price wars" and the "caviller raiding of technical people" among companies, Paul V. Galvin, president of Motorola Inc., asserted Thursday evening.

Mr. Galvin addressed the annual Radio-Electronics-Television Mfrs. Assn. banquet at the Sheraton Hotel, Chicago, and was presented with the Medal of Honor for his outstanding service to the industry. He was introduced by RETMA President H. Leslie Hoffman, Hoffman Electronics Corp.

Mr. Galvin referred to three successive plaus teaus in growth of the industry—radio in 1920s; industrial, commercial and military electronics in the 1940s, and television in 1946—but claimed future situations will resemble an iceberg—"the biggest part of it is under the surface where you can't see it." He noted electronics contributes at least six billion dollars annually to the economy and said the figure will double in five years.

In moving up to the next plateau, industry must "place the general welfare above a fleeting questionable competitive advantage for the individual on occasion," Mr. Galvin said. He warned:

"Lower prices for electronics goods which result from engineering advances and manufacturing efficiencies are to be earnestly sought. But price cuts achieved either at the expense of reasonable profits for the investor or at the penalty of product quality for the consumer harm the industry and render a disservice to the nation's economy."

He also called for a "mature approach to the need for adequate qualified engineers, rather than the expediency of raiding" and cooperation with "higher education" to assure that specially qualified young people get the opportunity for the right kind of technical training. In this way, he suggested, a national solution to electronics problems "will sustain our international leadership." He charged that "expedited raiding" penalizes the defense program in such cases, postponing opportunities for innovations in consumer goods on occasion, and makes the professional engineer "a pawn."

Introducing Mr. Galvin, Mr. Hoffman lauded the Motorola president for his long RETMA service, his contributions in helping mobilize the electronics industry during World War II and his efforts to guide RETMA through reorganization and fiscal problems stemming from expansion of the radio industry to one embracing radio-television-electronics. Mr. Galvin was given a gold medal.

Hotpoint's First Tv Receiver
To Be Shown at Chicago Show

HOTPOINT Co., Chicago, will unveil its first television receiver during the mid-year International Home Furnishings Market in Chicago, starting this week in the American Furniture and Merchandise Marts. Details of the Hotpoint receiver, manufactured by Hotpoint Elec tric, were not released in advance of its exhibit.

Admiral plans to introduce its new 21-inch color table model ($499.95), while Motorola plans to show a color receiver and announce prices June 21. Also slated to be shown is Sears, Roebuck's new Silvertone color model at $595. Whether Admiral plans to announce price cuts on its color consoles ($895) was not ascertained last week. The manufacturer plans to introduce about 25 units by the year's end and also will show its 10-inch portable models. RCA recently announced a color set for $495 [BWT, June 11].

Highlights of the Zenith exhibition are expected to be its new Space Commander remote control tuner and new seven-transistor portable radios, shown to distributors the past fortnight.

Lieberson to CBS Inc. Board

ELECTION of Goddard Lieberson, president of Columbia Records, to the board of directors and as vice president of CBS Inc. was announced last week by William S. Paley, board chairman of CBS Inc. Mr. Lieberson, who has been with Columbia Records since 1939, was named president of the firm on June 4 [BWT, June 4].
NEW GE COLOR SET TO SELL FOR $495

Models, in price range with those of RCA and Admiral, to be shown at Chicago Merchandise Mart, which opens today (Monday).

THERE was little doubt last week that the color rush at the manufacturing level is on. General Electric Co., announced Thursday it will show its new (and first) 21-inch color model, the last expensive of which will sell for $495, at the annual Merchandise Mart which opens today (Monday) in Chicago.

GE thus will match competitively the $495 bottom level price for a 21-inch color tv table model set by RCA two weeks ago [B&T, June 11]. Admiral Corp.'s 21-inch color receiver is expected to retail this summer for $499.95. Still other manufacturers are reported to be ready to follow suit.

There are three color sets in all to be marketed by General Electric in its line, all 21-inch (table and two different consoles) and all including a year warranty on the picture tube and a 90-day warranty on parts. The GE sets will use the same picture tube.

In commenting on the new GE line, the firm's tv sales manager, Joseph F. Effinger, predicted that 1956 will establish color "positively in the minds of the public in anticipation of years to come."

General Electric also claimed to have simplified its color model to such a degree as to be very similar to conventional black-and-white television receivers. Like RCA, GE has cut down on the total number of tubes—24 in all—and has designed 80% of the circuits in printed form. The two additional tuning controls added, according to GE engineers, are to regulate color intensity and to adjust the hue or shade of the picture. Sets will be available in vhf or uhf-vhf combination.

In black-and-white, GE has 60% of the chassis in printed circuit and is mounted vertically at the side of the cabinet to reduce height of the receiver and places the control panel at the top right of the picture. All tuning controls are located vertically on the panel. A "minimum depth" of tv cabinets also is claimed with the use of the 90-degree deflection picture tube. The monochrome models are 11 in all, including three 21-inch tables, six 21-inch consoles and two 24-inch consoles, with the tables selling at about $150 to $200 and the consoles starting at about $200. Basic monochrome chassis uses only 15 tubes (including the picture tube), four rectifiers and detectors.

About one-third of the GE line is made up of portables, ranging in price from a low of $99.95 to a high of about $159. Picture size includes 9-inch, 14-inch and 17-inch.

GE noted that its 9-inch portable and the color models are the only ones not now in production and ready for immediate shipment.

RCA Color Service Deals Set

FOLLOW-UP to new sales push by RCA of its 1956-57 line of color tv receivers, with new bottom price of $495 [B&T, June 11], was announced last Monday. To be offered: "Full-range of consumer service contracts" for color sets at three prices. First contract, $39.95, includes installation, service and unlimited maintenance for 90 days; second, $69.95, similar 90-day provisions plus service thereafter at $7.50 per call with tubes and parts for full year, and third, $99.50, full year contract. Late last year RCA cut its full-year service contract price for color from $140 to the $99.50 level [B&T, Dec. 19, 1955].

DuMont Ships to WTTG (TV)

SHIPMENT of a new 25-kw transmitter to WTTG (TV) Washington (ch. 5) is set for today (Monday), Allen B. DuMont Labs reported last week. The new transmitter, which is being shipped along with associated equipment, replaces WTTG's present 5 kw transmitter and is expected to more than triple the station's effective radiated power.

MANUFACTURING PEOPLE

Charles A. Burton, general sales manager, lighting division of Sylvania Electric Products Inc., to Chicago office as regional sales vice president.

C. G. Mayer, RCA International Div. technical representative and manager of licensee relations in Europe, has been named managing director, RCA Great Britain Ltd., Middlesex, England, effective July 1. Transferred to Zurich, Switzerland, as general manager of RCA's Labs there was R. F. Holtz, former manager of engineering product development at International Div. headquarters in New York.

Dr. Rodolfo M. Soria, director of engineering, Amphenol Electronics Corp. (formerly American Phenolic Corp.—coaxial cables, antennas, radio components), Chicago, appointed vice president in charge of engineering.

Gail S. Carter, formerly vice president in charge of sales at Permo Inc. (coin phonograph needles), Chicago, appointed sales manager of Pentron Corp. (tape recorders), same city.

C. Arthur Foy, audio division manager in Chicago area, Ampex Corp., to sales promotion manager in audio division at firm's Redwood City, Calif., headquarters. Albert J. Mafross, manager of Ampex order service department, succeeds Mr. Foy as central district manager. Ralph H. Sprague, Ampex Chicago representa-
tive, named manager of new midwest district for audio division.

Earl M. Wood, plant manager, RCA Tube Plant, Lancaster, Pa., named manager for manufacturing at both Lancaster and Marion Ind., plants; Edward E. Spitzer, manager, power tube engineering, Lancaster, to manager of engineering at both plants; and Sidney White Jr., manager of power, pickup and phototube manufacturing, succeeds Mr. Wood as Lancaster plant manager.

George A. Svitak named to new position of national service manager of General Electric Co. television equipment section, Syracuse, N. Y. He will be responsible for program of advanced training for authorized GE service stations.

J. M. Slayton, television sales manager, O'Bannon Bros., Little Rock, Ark., to Allen B. DuMont Labs as district manager for southeastern region, Little Rock.

Myron Smoller, Amperex Electronic Corp., Hicksville, L. I., named advertising and sales promotion director. Other title designations: Arnold Peterson, distributor sales manager; Sol Gerzits, chief applications engineer; Charles Roodby, product manager of communication products, and Irwin Kudich, product manager in charge of semiconductor devices and special purchase tubes, Frank Agresti, technical sales engineer, Walter Sandberg, government contracts administrator, and George Elliot, sales office manager.

MANUFACTURING SHORTS

Audio Devices, N. Y., has issued new bulletin on Audiofilm, used for original magnetic recording of motion picture and television sound tracks. Bulletin is available free from company at 444 Madison Ave.

Pilot Radio Corp., Long Island City, has appointed new representatives for Pilot and Revelon, two lines of high fidelity recorders and systems and components: Appleton & Brereton, San Francisco; Les A. Morrow Co., Cleveland; and Dougherty Enterprises, Lakeland, T. H.

Bodde Projector Co., San Fernando, Calif., producing new walk-along attachment for all Bodde projector models. Attachment, allowing operator to start, stop or reverse moving background, and usable horizontally or vertically, can be adapted for 2,000 w and 5,000 w single and dual projectors. Stock film is available in 45- in. wide rolls of varying lengths.

Robins Industries Corp., Bayside, N. Y., has introduced Audio-File AF-50 storage unit for disc records. File is made of transparent plastic, self-closing containers suspended from side rods, allowing user to file records without index, and eliminating need for jackets or individual covers. Unit measures 13x14x14 in.

Califone Corp., Hollywood, announces Celebrity model line, one of several in 1957 line designed for classroom and dance group use. Celebrity incorporates built-in microphone on center drive at continuous variable speeds from 16 rpm to 78 and which uses no cones, idlers or other. Other Celebrity features are 5 w amplifier with 6-in. self-contained extended range speaker, new pickup counterbalanced upward to prevent falling on records, cork-top turntable, built-in 45 rpm adapter and new cartridge-needle arrangement for easy changing.

Wilcox-Gay Corp., Charlotte, Mich., has announced 1957 push-button Recordio tape recorder line, with two of 12 redesigned models priced at $99.95 retail. Two other new units are high fidelity, seven-speaker tape recorder with clock radio and convertible model for use as portable and as chairside console using legs.

Rek-O-Kut Co., Long Island City, offering for 20 cents new recording time table giving playing time in minutes for various cuts.

Allen B. DuMont Labs, Clifton, N. J., has entered new nine-14-in. and 17-in. models. DuMont also recently announced plans for "full-scale" entry into table radio field. Firm is adding five new am table models, including two clock radios, to its current line of two table radios and portable radio model.

Also from DuMont comes announcement of new type of aluminized black-and-white picture tube that is about two inches shorter than present models, incorporating short-length straight electron gun and eliminating iron trap. Shorter tube length will permit reduced cabinet depth and manufacturing economies result from elimination of iron trap magnet and centering magnet.

Jerrild Electronics Inc., Philadelphia (community antenna equipment), has announced gross income of $3.7 million after taxes for fiscal year ending Feb. 29, 1956. Net income was $169,422. This compares with last year's $3.4 million gross income and $189,733 net income. Jerrild's first fiscal quarter income this year was estimated at $1.1 million gross income compared to $780,000 in same period last year. Sixty percent of gross was from sale to community antenna systems, annual report said. Jerrild owns antenna systems in Ukiah, Calif.; Key West, Fla.; Pocciello, Idaho; Dubuque, Iowa, and other areas.

RCA, Camden, N. J., reports it has shipped live studio TV programs to Amsterdam and The Hague at continuous variable speeds ranging from 800,000 rpm for the smallest cuts to 3,000,000 rpm for the largest cuts.

Zenith Radio Corp., Chicago, has introduced new seven-transistor portable radio which is book size and has standard flashlight bulb. Model, Royal 800, has coil connections at 500 milliwatts, features full-size speaker and is housed in plastic cabinet. Suggested retail price is $87.50.

Standard Electronics Corp., Newark, N. J., reports orders for 25 kw vhf amplifiers from KDLO-TV and KGO-TV, San Francisco. Also, reports order for portable TV for NBC's San Francisco station KRON.

Kaye Labs, San Diego, Calif., producing new remote three-lens turret, model ARC-4, for use with Kay Lab industrial tv systems. Unit is designed for use where wide field of view is required and variable focal length lenses are inadequate because of slow speed.

Page 102 • June 18, 1956
GEOE AUTRY, ROBERT O. REYNOLDS BUY KSFO SAN FRANCISCO FOR $1 MILLION

Application for FCC approval may be filed this week. Commission approves sales of KVEC-AM-TV San Luis Obispo, Calif., to Valley Enterprises and WINT (TV) Waterloo, Ind., to Universal Broadcasting Co. Approval of sale of WHAM-AM-TV, WHFM (FM), KLRA sought.

SALE OF KSFO San Francisco by sole owner Wesley J. Dumm to Gene Autry and Robert O. Reynolds for $1 million was announced last week. Application for FCC approval may be filed this week. Other major ownership developments last week included the following:

• FCC approved the sale of KVEC-AM-TV San Luis Obispo, Calif., to Valley Enterprises Co. for $450,000, and the sale of WINT (TV) Waterloo, Ind., to the Universal Broadcasting Co. for $800,000.

• Applications were filed at the Commission for approval of the $5 million sale of WHAM-AM-TV, WHFM (FM) Rochester, N. Y., to Transcendent Television Corp., and the $162,500 sale of KLRA Little Rock, Ark., to Connie B. Gay.

Cowboy star Autry and Mr. Reynolds are owners of KMPC Los Angeles. Mr. Autry is also majority stockholder in Kool-AM-TV Phoenix and is part owner of KOPO-AM-TV Tucson. Mr. Dumm is president and chief owner of KSFO and was major owner of KPIX (TV) San Francisco until 1954, when he sold the outlet to Westinghouse Broadcasting Co. for $7.5 million. He has been identified with KSFO since 1933.

Independent Outlet

KSFO is an independent outlet, operating on 560 kc with power of 5 kw daytime and 1 kw night. It is expected to switch its national sales representation to Am Radio Sales after FCC approves the transfer. Messrs. Autry and Reynolds said they have no plans to alter the present programming format of KSFO, nor will the San Francisco station exchange talent or programs with KMPC. They said R. W. Wasingen will continue in his present capacity as executive vice president, and it is planned to continue operation with the present personnel intact. The sale was negotiated by Howard E. Stark, New York station broker. Price involves cash payment of $50,000, with the balance in notes to be paid to Mr. Dumm over a 10-year period.

The sale of KVEC-AM-TV San Luis Obispo from The Valley Electric Co. to The Valley Enterprises Co. was among ownership changes approved by the Commission last week.

Valley Enterprises principals are equal partners John C. Cohan and Jerome Kantro. Mr. Cohan is 26.63% owner of KSGB-AM-TV Salinas, Calif., 85% owner of John Cohan Adv., Salinas, and 50% partner in Ridgecrest Radio Co., applicant for new Am in Ridgecrest, Calif.

KVEC-TV operates on ch. 6 with 16 kw power. It is affiliated with ABC and CBS. KVEC operates on 920 kc, with 1 kw daytime, 500 w night, and is affiliated with MBS. Sellers were Christine M. Jacobson, 66.7%, and Leslie H. Hacker, 33.3%.

Also approved last week was the sale of WINT (TV) Waterloo, Ind., from Tri-State Television Inc. to Universal Broadcasting Co. Universal (C. Bruce McConnell) is licensee of WISH-AM-TV Indianapolis, Ind., owns WANE and holds cp for WANE-TV ch. 69 Ft. Wayne, Ind., and WHBU Anderson, Ind.

WINT operates on ch. 15, with 240 kw power and is affiliated with CBS and ABC. Principal sellers are R. Morris Pierce, 10.8%; Ralph Rehrer, 6.52%; Frederick Wolf, 10.87%; E. J. Sliney, 43.5%; J. Smid, 8.6%; John F. Patt, 14.5%, and others. Universal will surrender its WINT-TV grant in order to operate WINT.

Filed at the FCC last week was the $5.1 million sale of WHAM-AM-TV, WHFM (FM) Rochester, N. Y., from Stromberg-Carlson Div. of General Dynamics Corp. to Transcendent Television Corp.

Transcendent is a new entity in broadcasting, but includes several principals who hold broadcast interests. Just two weeks ago the Commission granted transfer of control of WSVA-AM-FM-TV Harrisonburg, Va., to Tudor Enterprises Inc., of which Transcendent owns 50%. Other 50% of Tudor is owned by former NBC executive Hamilton Shea, who serves as a Transcendent vice president.

Other Transcendent principals are Paul A. Schoellkopf Jr., 12.5%; David Chanin; Fred Schoellkopf III; J. Fred Schoellkopf IV; 12.5%; David Forman (12.5%), and Seymour Knox III, 4.2%. Other principal is General Railway Signal Corp., which has agreed to purchase 50% of the Class A stock and $1.9 million in debentures. It will also hold 200,000 Class B shares, permitting it to elect three of the nine directors of Transcendent.

The Schoellkopfs and Mr. Knox hold between 7% and 8% interest in WGR-AM-FM-TV Buffalo. General Railway Signal Corp., manufacturer of railroad signaling devices, also owns Electronics Inc., Newark, N. J., manufacturer of electronic tubes, and owns 50% of Railroad Accessories Corp., N. Y.

Balance sheet for WHAM properties as of Dec. 31, 1955, showed total assets of $1.9 million, current assets, $166,516, current liabilities, $200,074, and earned surplus, $52,331. Transcendent balance sheet as of May 15, 1956, showed total assets of $1.14 million, current assets $781,712, General Railway Signal Corp. is a $16.5 million company.

Immediately after FCC approval of this transfer, Transcendent plans to sell WHAM, WHFM (FM) to Riggs & Green Inc. Amount of resale has not been set, but Transcendent said it would not exceed original purchase price. Riggs & Green Inc. is licensee of KVOR Colorado Springs, Colo., and is equally owned by John S. Riggs and Robert Greene, who also own WAIR-AM-FM Winston-Salem, N. C. Mr. Riggs also is 26.6% owner of WELM Elmhira, N. Y.

Also filed last week was sale of KLRA Little Rock, Ark., from Arkansas Gazette to Washington (D. C.) country music impresario Connie B. Gay, owner of WTCR Ashland, Ky. Purchase price is $162,500. KLRA operates on 1010 kc, with power of 10 kw daytime, 5 kw night.

WMAL Names H-R Reps

H-R Representatives Inc. has been appointed national sales representative for WMAL Washington, effective July 1. On the same date H-R Television Inc. becomes representative for WMAL-TV.
KRCA (TV) MERCHANDISING PUTS CLIENTS ON PEDESTALS

'KEY VALUE' PRODUCTS GET PRIME DISPLAY ON STORE SHELVES

KEENLY AWARE that all the advertising in the world won't sell a product unless the housewife can find it on her dealer's shelves, KRCA (TV) Los Angeles is proving a practical voluntary merchandising plan which assures ample store display space for principal sponsors.

It is a simple operation that KRCA believes any radio or tv station in the country could follow in its own market with equal success.

The NBC owned and operated station finds that even in a major market like Los Angeles, its "Key Value" merchandising program can be supervised by one man, Harry Camp, merchandising manager. He estimates the total value of a year's merchandising at approximately $100,000, which includes reciprocal, production and administrative costs. KRCA officials find that the station gains this back many fold in both billing and goodwill from the station's advertisers.

This is how it works. In order to qualify, a product must spend at least $625 a week for 13 weeks on KRCA. It may buy programs, spots or station breaks. For this sum, the product is assured a major end-of-row or island display for one week in each of the grocery stores of the particular store group that is cooperating each month with the station.

In addition, the product gains in-store promotion through mobile wire hangers, shelf-strips and posters as well as "Key Value" mention in the store's newspaper advertising.

There also is extensive secondary promotion of the Key Value plan as well as other special promotion necessary for any unique marketing problem faced by a product.

What do the cooperating stores get out of all this? They cooperate purely on a voluntary basis, a different group each month. For permitting a Key Value team to come into their store, set up the displays and other promotion material, they receive commercial television time and Key Value promotion tie-in with all local KRCA personalities who have participating sponsor programs. KRCA arranges for all display work in the stores and provides all promotion materials at no cost to the stores. The retailer signs no contract. It's a gentlemen's agreement.

The Key Value team of four men who do the physical labor of dressing the store displays and promotions are another unique aspect of the KRCA project. They work for a bottled water distributing company, Sparkletts Drinking Water Corp., but are assigned virtually full time to the Key Value plan. Sparkletts has 180 trucks calling on 125,000 families in metropolitan Los Angeles.

Not only do the five-gallon water bottles bear Key Value promotion labels, but the trucks carry 3 x 4 ft. color cards promoting Key Value programs and personalities. Products are not specifically mentioned in the Sparkletts tie-in, but the delivery trucks and their drivers provide an immediate welcome to 125,000 homes if any sponsor wishes to give away samples of his product (quantities of 10,000 or more) to stimulate distribution and consumer acceptance—another "key value" of the Key Value plan.

You guessed it. Sparkletts does all of this for KRCA in return for commercial air time, but with KRCA providing all the promotional materials.

KRCA officials explained that stations in other markets might find a dairy, laundry or similar service available for tie-in if there is no large bottled water distributor.

How important are these merchandising bonuses for KRCA advertisers? The station says that in the period 1954-1956 an average of 238 stores cooperated each year—stores with a combined annual volume estimated at $440 million. They gave KRCA products 3,486 stack or end displays, 16,600 column inches in newspaper ads and allowed their stores to be dressed with 23,457 mobile hangers and 4,830 shelf strips during the 30-month period. Throughout the year the Sparkletts' truck cards and bottle labels, according to KRCA estimates, added another eight million consumer impressions each week.

KRCA worked out the Key Value plan in 1953 when it discovered the tremendous struggle that even a top national brand faces when it tries to gain preferential treatment in the modern market carrying 5,000 different items.

When a product accepts the KRCA Key Value plan to support its on-air advertising, the station's merchandising manager meets with a product representative to discuss the product's percentage and area of distribution at the KRCA station, shipment practices, sales and merchandising activities, as well as any problem such as poor acceptance in a given neighborhood. The Key Value promotion is suited to meeting these needs and is flexible enough to allow the advertiser to request additional special services at cost if desired.

Since a different store group is used each month, the merchandising manager calls on store executives a month in advance and submits the list of products to be featured. Dates are set for promotions in each store, as well as tie-in with the newspaper advertising. Bulletins are prepared for release to individual store managers.

After this meeting, KRCA writes each product representative to give him details of the plan and requesting him to contact the stores to ensure sufficient inventory. During the promotion, the displays are photographed and checked by the Key Value team. As a windup, KRCA submits an evidence report for the advertising agency.

"One thing must be kept uppermost in mind," Mr. Camp says, "unless a merchandising program is good for all participants it should not be attempted. KRCA's Key Value plan has increased sales for the client's product at the point-of-purchase, for the participating stores and has not only created new business for the station but has been a major factor in renewal of contracts."

KRCA's conclusion: A little tie-in promotion goes a long way to solving client's merchandising headaches and keeping sponsors happy.
WRCA-AM-TV Makes Organization Change

MANAGEMENT organization of WRCA-AM-TV New York was revamped last week, with separate station managers appointed for each. In announcing the change, Thomas B. McFadden, NBC vice president and general manager of the NBC owned stations, noted that the separate management structure for radio and TV would result in greater efficiency and an improved service of the stations' operation.

The new managerial positions have been filled at WRCA-TV by William N. Davidson, formerly assistant general manager of the combined operations, and at WRCA (AM) by Arthur Hamilton, formerly manager of production and business affairs of the stations. Frederick Acker, supervisor of business affairs under Mr. Hamilton, succeeds him as business manager of WRCA-AM-TV.

Jay Heitin, sales manager; Stephen Krantz, program manager; Sherman C. Hildreth, manager of technical operations, and Peter Affee, manager of operations, will report to Mr. Davidson at WRCA-TV. George C. Stevens, sales manager; Stephen White, program manager, and Mr. Hildreth (for technical matters) make up the WRCA staff reporting to Mr. Hamilton.

Under the new alignment, advertising, promotion, merchandising, publicity, news and special events will continue to service both stations. Mr. Davidson will act as general manager of both stations in Mr. McFadden's absence.

Victor Riesel on Radio, TV

LABOR columnist and commentator Victor Riesel of New York, who lost his sight after an assailant threw acid in his face, is going to do both radio and TV programs. His television show is slated for WRCA-TV New York, starting June 29 (Fridays, 6:30-6:45 p.m. EDT). He will interview guests from the field of labor. WMCA New York, meanwhile, plans a series of broadcasts featuring Mr. Riesel in interviews and comments on the problem of racketeering in labor unions. The series is slated for Sundays, 9:30-10:30 p.m. EDT. Leon Goldstein, WMCA's vice president, said the radio program would be recorded and syndicated to other stations.

WGN-AM-TV Names Petry

WGN-AM-TV Chicago has appointed Edward Petry & Co., Inc., as sales representative for 11-state west coast area, effective July 1. Stations also reported they are "organizing" to service Midwest from New York with own east coast sales staff.

Fetzer Co. Plans New Center To House WKZO-TV Facilities

PLANS for a new television center to house facilities of WKZO-TV Kalamazoo, Mich., were reported Wednesday by John E. Fetzer, president of Fetzer Broadcasting Co., in connection with the company's 24th anniversary observance.

Mr. Fetzer announced acquisition of property on Maple St. off Crosstown Parkway. Plans for the TV center are being developed under supervision of Carl E. Lee, vice president and managing director of Fetzer Broadcasting Co. The center will house equipment for studio origination of color programs, which WKZO-TV has been transmitting for two years, and studios designed to handle all types of TV shows, including audience participation.

The present building at the new site will serve as the nucleus for expansion. Programs originating in new studio will be relayed to WKZO-TV's transmitter north of Kalamazoo by microwave facilities. Plans also will provide for driving automobiles into studios and for staging of outdoor, live TV shows.

WOSU-AM-FM-TV Columbus Names Hull Radio-TV Head

RICHARD B. HULL, director of radio-TV at Ohio State University, Columbus, last week was appointed director of radio-TV broadcasting at Howard University, Washington, D.C. Mr. Hull succeeds Mr. James C. Fordham, who lost his eyesight, as director of radio-TV.

Mr. Hull is a former chief announcer at WOSU, KOAC Corvallis, Ore. (Oregon State College), and farm newscaster, WCCO Minneapolis. He is a past president of the National Assn. of Educational Broadcasters and is now a member of its board of directors and executive committee. He also was its first executive director of the Joint Commission on Educational Television and is now head of the TV group of the U.S. delegation to UNESCO.

WFBG-AM-TV Names Martin

APPOINTMENT of Thomas F. Martin as sales manager of WFBG-AM-TV Altoona, Pa., was announced last week by David J. Bennett, director of regional sales development of Triangle Publications Radio and Television.

Prior to joining Triangle's Altoona stations, Mr. Martin was executive vice president and general manager of the Hawley Broadcasting Co., owners of WEEU-AM-TV Reading, Pa., where he served from 1950 until early this year.

GIVEAWAYS CREATE FUROR IN MINNEAPOLIS, OMaha
Mid-Continent stations and WCCO offered $460,000 in prizes during contests that ended the past weekend.

TWO major cities—Minneapolis and Omaha—approached the weekend in a state of mild shock as radio listeners scrambled for a potential $460,000 in prize money.

Two Mid-Continent Broadcasting Co. stations, WDDY Minneapolis and KOWH Omaha, closed separate $105,000 treasure hunts today (Monday), last chance to find checks held by an insurance firm. The two stations have been broadcasting frequent clues supplied by the insurer which charged fees totaling 1/44th of the prize money.

WCCO Minneapolis ran a competing "Cashorama" contest offering a potential $250,000 in prizes to listeners who responded to WCCO phone calls by repeating key phrases heard on the air. The contest closed Saturday.

Todd Storz, president of Mid-Continent, told B&T its contest had drawn searching parties from as far away as Bellingham, Wash. Portable radios were carried by listeners and in Omaha the Sol Lewi Appliance Co. sold out its entire stock June 8, second day of the contest.

Some Omaha incidents: One of the twice-daily clues mentioned a street intersection brought a crowd of 7,500 within 20 minutes. A belief that the check was in the Commodore Hotel drew enthusiasts who tore a rug off the floor and ransacked a room—a $200 damage bill that KOWH cheerfully paid. And a bag of missing checks stolen in a recent drug store robbery was found under a bridge and turned over to police.

In Minneapolis it took 20 policemen to handle a crowd at Hennepin and Yndale intersection and trees everywhere were ransacked in search of the WDDY prize. In both cities phony checks were planted by pranksters.

Chambers of commerce, Mr. Storz said, were delighted "with the tremendous influx of visitors from near and far," and hoped the contests would become annual affairs.

WCCO officials chuckled, they said, when WDDY repeated such prize-winning slogans as "WCCO is always first with the news," in an effort to keep listeners tuned to WDDY. This practice was dropped, they explained, after a few days.

Cash awards offered by WCCO to those who could repeat the key phrase after it was broadcast varied from $1,000 to $5,000. Fifteen calls were made per day.

Wagner Named to Head Bartell Atlanta Office
MORTON J. WAGNER, executive vice president and manager of WMTV (TV) Madison, Wis., has been appointed manager of the newly opened Bartell Group eastern division office in Atlanta [B&T, June 4]. Gerald A. Bartell, president, announced last week.

Mr. Wagner also becomes general manager of WGEF Atlanta. His duties will include east coast representation for group purchases of the Bartell stations.

A FIVE-YEAR contract, representing more than $2.5 million in time and talent, is signed by Frederick S. Houwink (r), general manager of the Evening Star Broadcasting Co. and Connie B. Gay (l), chairman of the board of the Town and Country Network. The contract calls for the exclusive services in the Washington, D.C., area of Jimmy Dean and the Texas Wildcats on WMAL-AM-FM-TV Washington.

Advertising Co-Directors Named by RKO Teleradio

MRS. CARROLL A. ELLIOTT of McCell's magazine is joining RKO Teleradio Pictures as director of copy, and she and Arnold Roston, art director, will be co-directors of the advertising department.

The appointments were announced last week by Robert A. Schmid, RKO Teleradio Pictures vice president in charge of advertising and public relations. RKO Teleradio is the parent company of RKO Radio Pictures, Mutual, and attached because of separate corporate status.

The government filed liens totaling $21,762 in San Francisco and $3,415 in San Mateo County against Bay Radio Inc., KEAR licensee.

The money due the government is for payroll withholding and unemployment insurance taxes since 1954. The Internal Revenue office said the auction would not be held if the delinquent taxes are paid before 11 a.m. June 28.

Land, transmitter building and technical equipment will be auctioned at the transmitter site, Bayshore Highway, Baltmont, San Mateo County. The government also will auction office facilities and technical equipment located at KEAR's studios, 1550 California St., San Francisco. KXXR is licensed to Electronic Service Corp., also at 1350 California St.

Petey Names Maillefert V. P. in Charge of Radio

APPOINTMENT of William B. Maillefert as vice president and general manager of radio at Edward Petry & Co. is being announced today.

Maillefert has been with the Petry Co. since 1950 and has served as New York radio sales manager since July of 1954. The vice presidency in radio is a new post created as the first step in what is described as "an overall expansion of the Petry radio department."

Before joining Petry, Mr. Maillefert was president and general manager of the Veterans Broadcasting Co., owners of WVET Rochester, N. Y.

WGN Inc. Plans Film Festival

WARD QUAAI, new general manager of WGN Inc., Chicago, effective Aug. 1, will be principal speaker at WGN-TV's film festival and talent presentation for agency, film, and other representatives June 28.

Plans for the fifth annual presentation, announced Thursday by Ted Weber, WGN-TV sales manager, call for previews of selected first-run syndicated films to be available this fall, presentation of WGN-TV talent at a luncheon. WGN-TV will afford film producers and distributors an opportunity to make brief sound-on-film presentations for their products and features will be filmed by the Chicago Tribune station for integration in the overall presentation.

With addition of live talent on the program, WGN-TV thus is broadening the base of its annual film festival exhibition in line with WGN Inc.'s reappraisal of its position in the industry and greater identification with community interests.

Mr. Quaal, vice president and assistant general manager of Crosley Broadcasting Corp., rejoins WGN Inc. as successor to Frank P. Schreiber, who has resigned as vice president and general manager of WGN Inc. [B&T, June 11].

Taking key roles in this years program, aside from Messrs. Quaal and Weber, are Elizabeth Bain, WGN-TV film supervisor, and J. E. Faragban, program manager. Presentation will be held in the Boulevard Room, Merchandise Hotel from 10:30 a.m. to 3 p.m. Jack Brickhouse, WGN-TV sports personality, will serve as emcee.
EXECUTIVES and sales representatives of Plough Broadcasting Co. stations held a three-day meeting in Memphis early this month for a discussion of all phases of station operation and a tour of the parent Plough Inc. (pharmaceuticals) plant. Present (l to r): seated, Fred Harm, vice president and general manager, WJJD Chicago; Harold Kreistein, president, Plough Broadcasting Co.; Charlie DeVois, vice president and general manager, WMPS Memphis; Irvin Dierdorff Jr., program director, WCOP Boston; standing, Ed Nickey, vice president, Radio-TV Representatives Inc., Chicago office; Harold Burke, vice president and general manager, WCAO Baltimore; Peggy Stone, vice president of Radio-TV, New York office; Roy Whisand, vice president and general manager, WCOP, and Harry S. Goodman, president of Radio-TV, New York.

Workmen Finish Studios
As WESH-TV Goes on Air

WESH-TV Daytona Beach, Fla., went on the air last Monday with a newscast while workmen were still finishing the studio floors. The ch. 2 outlet transmits with 1.26 kw visual and .759 kw aural from a 349 ft. RCA tower. Walter Strouse, station manager, said the station would operate from 5 to 11 p.m. daily at the outset with 90% of programming on film. He said negotiations are being made for a network affiliation. WESH-TV is owned by Telerad Inc.

KSLA-TV’s Don George
Dies of Heart Ailment

DON GEORGE, president and general manager of KSLA-TV Shreveport, La., died June 5 in his Shreveport home of a heart ailment. The 48-year-old executive had been ill for about two years and just returned home from a local hospital the morning of his death.

Mr. George was active in many civic organizations, including chamber of commerce, Kiwanis, Salvation Army, Tuberculosis League and the Community Chest. He is survived by his widow, Eugenia, and daughter, Dolores.

WJAC-TV Begins Colorcasting

WJAC-TV Johnstown, Pa., which June 8 announced the installation of an RCA color camera, claims to be the first Pennsylvania station equipped to originate live color tv programs. WJAC-TV will telecast approximately three hours of local color weekly at the outset and by winter expects to broadcast about 100 hours per month in color, representing nearly 25% of its program schedule, according to General Manager Alvin D. Schrott.

Representative People

John B. Shelton, Chicago manager for Everett-McKinney Inc., elected vice president of firm.

Jim O’Grady, account executive, Young Television Corp., N. Y., promoted to assistant sales manager.

Charles E. Stoddard, former Blox Co. account executive, to The Meeker Co., N. Y., as sales executive.

Robert E. Gilbert, former program manager of WSUN-TV St. Petersburg, Fla., to WCCT (TV) Miami, Fla., as production manager.

Jim French, operations manager, KING Seattle, returned to disc jockey staff, replacing Bruce Vanderhoof, resigned.
The AUTO-ZOOM lens

for Vidicon TV Cameras

- 5 to 1 Variable Focal Length (10 to 1 with a simple lens change).
- Completely motorized. Zoom, focus and iris remotely controlled.
- Fills Vidicon format. No vignetting as with standard 16mm movie lens.

The AUTO-ZOOM TV16 is a high resolution, 5 to 1 variable focal length lens for use with Vidicon TV cameras. Its remote control, motor-driven focus and zoom permit smooth, steady tracking with sharp focus throughout the entire range. The AUTO-ZOOM lens system is fully corrected and suitable for color television work.

One Camera Does The Work Of Two - A single stationary TV camera equipped with the new AUTO-ZOOM lens can go from wide angle distance shot to telephoto close-up—smoothly, quickly, automatically . . . without loss of focus or change of lens. With AUTO-ZOOM, one camera provides the near-far coverage normally supplied by two cameras with conventional lenses.

Coupied with the new high quality Vidicon type cameras now coming on the market, the AUTO-ZOOM greatly extends the usefulness of low-cost industrial and broadcast TV equipment. The AUTO-ZOOM TV16 is a product of Perkin-Elmer, world leader in optical and electronic instrument research and development.

Ask your camera manufacturer for further information or write Perkin-Elmer for a descriptive brochure.

John Doremus and Dave Hindman, both formerly on KVOO Tulsa announcing staff, to WKY-AM-TV Oklahoma City in same capacity.

Merlin Kennedy, writer and performer on WDSU-TV New Orleans, assigned to station's sports and special events department as writer-producer.

Patricia Maldoon, copywriter, to WOW-AM-TV Omaha as continuity director. Del Donahoo, WHO Des Moines, Iowa, to WOW-AM-TV announcing staff.

Tom McCarthy, WKRC Cincinnati, to WCPO there for morning show.

Archie E. Deal Jr., WIRC Hickory, N. C., to WIST Charlotte, N. C., as staff announcer.

Lorenza (Larry) Fuller, who starred in the role of "Sportin' Life" in the world touring company of Porgy and Bess, returned after 18 months leave of absence to WLIB New York, to conduct Spirituals at Sundown program (Mon.-Fri., 7-9:15 p.m. EDT).

Charly Van named featured morning disc jockey at WHTM Hartford, Wis.

The Crystalettes, duet, signed by KTIA (TV) Hollywood for Orrin Tucker Show.

George Storer, president, Storer Broadcasting Co., named associate member of U. of Miami chapter of Alpha Epsilon Rho, national radio-television fraternity.

Robert Hix, manager, KOA Denver, elected vice president of Denver Sales Executives' Club for second time.

Ralph Reecy, news director, WTVJ (TV) Miami, Fla., elected to board of directors of U. of Miami Alumni Assn.

Dick Bode, cameraman, KTVW (TV) Seattle, named outstanding senior in radio-television graduating class at U. of Washington School of Communications.

Tal England, chief engineer, and Jack McPherson, announcer-disc jockey, WMIR Middlesboro, Ky., were graduated from Lincoln Memorial U., Harrogate, Tenn., this month. Mr. England was class salutatorian.

Al Perlmutter, special projects manager, WRCA-AM-TV New York news and special events, appointed instructor in broadcast news methods at New York U., starting with autumn semester.

Lee Taylor, announcer, WTVJ (TV) Miami, Fla., father of twin girls June 8.

Gordon Gray, assistant secretary of defense and former Secretary of Army, married to Mrs. Nancy Maguire Beebe, June 12. He is president of WSJS-AM-FM-TV Winston-Salem, N. C.

John Hall, maintenance engineer, KGO San Francisco, father of girl, Ann, June 2.

Jackie McDonald of McDonald Sisters singing trio on KTIA (TV) Hollywood, mother of girl June 5.

Bernie Carey, production manager, KING-TV Seattle, married to Sheila Musgrave.

From where I sit
by Joe Marsh

Just the Facts, Ma'am!

Having a red-hot crime wave in town, Specs McGuire and Buck Hanson were caught taking money out of parking meters—again. I was at Police Headquarters when a nice old lady rushed in to report them.

"It was dark but I saw their faces in the flashlight beam," she said breathlessly. "You can't trust anybody these days!"

She got flustered when Chief Benson explained that Specs and Buck are authorized collectors—working nights after their regular jobs. "Have to get 'em uniforms," said Benson. "Third time they've been turned in!"

From where I sit, we ought to guard against accusing anyone of being "wrong" just because that's the way it looks to us. For instance, I've heard people talk against a neighbor because they didn't approve of his choice of beverage! (They liked tea, or something, while he preferred a glass of beer.) Be sure you have a case before you lay down the law.

Joe Marsh

AWARDS

Bureau to present 30 awards in 10 categories, underscoring sales power of local radio.

RADIO'S sales power for local advertisers was underscored last week by Radio Advertising Bureau, which released the names of 30 winners—first, second and third place awards in 10 separate categories—of RAB's fourth annual "Radio Gets Results" contest.

The 10 represent the most important categories in a station's local billing, and according to Sherrell Taylor, vice president and director of promotion, RAB believes "these entries comprise the most impressive group of testimonial to radio's selling power ever amassed."

The individual stories will be released to RAB member stations on a continuing basis through the year.

Prizes are wall plaques to be presented to both the station and the advertiser. Also, a clock radio will be given to the person who submitted the winning entry in each category.

Winning Stations

The first, second and third place winners in each of the categories, including the local advertiser, follow:

- **Apparel:** First prize, WWDc Washington (Kopy Kat); second prize, KBIG Hollywood, Calif. (Kelly-Bilt clothes); third prize, WPEN Philadelphia (Ridgeway Stores Inc.).
- **Drug & Grocery Stores:** First prize, WKNE Keene, N. H. (O. K. Fairbanks Supermarket); second prize, WDVA Danville, Va. (South Main Produce); third prize, KTKO Oklahoma City, Okla. (Standard Food Markets).
- **Automotive:** First prize, WWDc Washington (Standard Pontiac); second prize, WMIK Middleboro, Ky. (Howard Chevrolet); third prize, KBIG Hollywood, Calif. (Avalon Motors Co.).
- **Home Furnishings:** First prize, KROW Oakland, Calif. (Jackson home furnishers); second prize, WPEN Philadelphia (Silo Discount House); third prize, KBIG Hollywood, Calif. (McManus Furniture Co.).
- **Department Stores:** First prize, WRFC Athens, Ga. (Gallant-Belk Co.); second prize, WHAM Rochester, N. Y. (Sibley, Lindsay & Curr Co.); third prize, WEJL Scranton, Pa. (The Globe Department Store).
- **Financial:** First prize, WEMP, Milwaukee (The Marshall Co.); second prize, WOR New York (Bache & Co.); third prize, WHTN Jamestown, N. Y. (First National Bank of Jamestown).
- **Housing Materials:** First prize, WMBD Peoria, Ill. (Crowley Brothers plumbing); second prize, WMIK Pineville, Ky. (Brandenburg & Gibson); third prize, KEX, Portland, Ore. (Henry Black & Co.).
- **Specialized Services:** First prize, KXX Seattle, Wash. (Standard Radio & Record Co.); second prize, WWDC Washington (Eddie Leonard Sandwich Shops); third prize, KBIF Fresno, Calif. (Imhoff's Yardstick Yardage Store).

Jewelry: First prize, KGBG Galveston, Tex. (Zales Jewelry); second prize, WMIK Middleboro, Ky. (Lefewers Jewelry); third prize, WKNE Keene, N. H. (Simon's Jewelers).

Miscellaneous: First prize, WHAM Rochester, N. Y. (King's Country Sausage); second prize, WMBD, Peoria, Ill. (Producers Dairy); third prize, WGBF Evansville, Ind. (Holland Custard & Ice Cream Co.).

AWARD SHORTS

William Worthy, CBS News stringer who was reported to be first American newsmen since 1947 to use Radio Moscow's facilities, paving way for accredited radio-tv correspondent Daniel Schorr, has become third CBS newsmen to win Nieman (Harvard U.) Fellowship in three years. Other CBS staffers honored in past years include CBS News Director John F. Day and London correspondent Alexander Kendrick.

WKNB-AM-TV New Britain, Conn., cited for outstanding service by Conn. Society for Crippled Children & Adults for station's aid to society's Easter Seal sales and for explaining how public can help handicapped.

Hulbert Taft Jr., president, WKRC-AM-FM-TV Cincinnati, received plaque from superintendent of schools for stations' "Neediest Kids of All" campaign.

KRON-TV San Francisco received award for Faith in Action series produced for Northern California-Nevada Council of Churches.

Paul Whiteman received gold clip and miniature golden phonograph record at party celebrating his 50 years in music. Host was Raymond Spector, agency president and board chairman of Hazel Bishop, sponsor of Paul Whiteman Show beginning tomorrow on NBC-TV.

Jack Stewart, news director, WADK Newport, R. I., presented with medal by Rhode Island American Legion, marking first time in 37 years state organization has made such award. Cited were Mr. Stewart's air activities as commentator and as moderator of Open Forum of the Air. Presentation was made at testimonial dinner held by United Veterans Council of Newport County.

James L. Howe, president of WIRA Fort Pierce, Fla., named Man of the Year by local Lions Club.

James C. Hargety, news secretary to President Eisenhower, presented with Washington Ad Club Award of Achievement.

James G. Damon of KRCB (TV) Los Angeles, Maurice Webster of KNX there and Station KJH Los Angeles received first annual public service awards of L. A. Office of Civil Defense.
KFKV Greeley, Colo., won first annual station award of Colo. Tuberculosis Assn. for outstanding service.

Jack Goodman, news director, KDYL-KTPT (TV) Salt Lake City, received U. of Utah Men's Press Club award for contribution to university and journalism department.

W. O. Pape, president, WALA-AM-TV Mobile, Ala., given Certificate of Appreciation by Natl. Recreation Assn. for contributions to community recreation movement.

WHLI Hempstead, L. I., cited by Nassau County League of Student Councils for service to community in presenting Teen Town Hall, discussion program.

Joseph V. Heffernan, NBC financial vice president, received Indiana U.'s Distinguished Alumni Service Award for "outstanding achievement . . . and significant contribution benefiting city, state and nation."

WMGM New York's Warm Up Time and Sports Extra programs cited by Northern New Jersey Local 669 of United Auto Workers (CIO-AFL) for "their contributions to goodwill and fostering the American ideal of fair sportsmanship and all-inclusive human dignity."

WNBF-AM Binghamton, N. Y., awarded certificate of appreciation by N. Y. State Assn. for crippled Children for stations' efforts in promoting Easter Seal appeal to benefit crippled children and adults of the community.

WMIK Middlesboro, Ky., received certificate of appreciation from local American Legion post and from 25th anniversary Ky. Mountain Laurel Festival.

Bill Adams, program director, WHEC-TV Rochester, N. Y., received citation from National Shut-In Assn. for cooperation through years.

William J. Ladyka, senior at U. of Detroit, and Paul H. Toeppe, alumni and account executive of Gililie & Beltai Agency, received Gold Mike award at annual luncheon of university's Broadcasting Guild.

The Lithuanian Program, broadcast Sundays on WRBS Boston, received Treasury Citation for patriotic service to Lithuanian community from Mass. Savings Bond Div. of U. S. Treasury Dept.

Susanne Sherwood, public service director, WTOF Washington, given Community Service Medallion Award by D. C. Optometric Assn. for efforts on behalf of area public service organizations.

---

**EDUCATION**

**Educational Center Plans $200,000 Headquarters Bldg.**

PLANS for the construction of a $200,000 headquarters building in Ann Arbor, Mich., by the Educational Television & Radio Center were announced last week by President H. K. Newburn. The center provides a development and program service for the nation's educational TV stations.

The L-shaped building is scheduled for occupancy Oct. 1 and will provide more than 8,500 sq. ft. of floor space. The center was established in 1952 by the Ford Foundation for operation through 1959. Twenty-one educational stations are affiliated with the center and two others are scheduled to join in the near future.

**Education TV Workshop Set**

A WORKSHOP in educational television will be offered at the U. of Detroit June 25 through July 20 under the direction of William J. Murphy, chairman of the university's Communications Arts Dept. Production techniques, program procedures and the use of photography as a production aid will be covered.

Students will work in the studios of WTVS (TV), Detroit educational station, and will receive two college credits for completion of the course.

**EDUCATION PEOPLE**

George Sister, public relations director, Memphis Street Railway Co., appointed publicity director of education station WKNO-TV Memphis, to go on air July 1.

David D. Limmer, recent graduate of George Washington University, to education station WHIL Medford, Mass., has awarded $250 scholarships to Sheila Finn of Medford High School and Sara Lewis, Malden High School. Station also announced third scholarship to be awarded next year to representative of Everett High School, Everett, Mass.
'Ding Dong' P-1A
FORMATION of a nationwide Ding Dong School Parent-Teacher Assn. was announced this week by Dr. Frances Horwich, supervisor of children's programs for NBC and creator-star of Ding Dong School (NBC-TV, Mon.-Fri., 10:10-10:30 a.m. EDT). During the last five minutes of her program, Dr. Horwich customarily talks to parents. Membership is open to anyone who works or lives with children. Members will receive a monthly bulletin, called "From Miss Frances' Desk," which will contain a variety of features of interest to children and parents. NBC-TV said it is expected that at least one PTA group will be established in each of the 109 cities in the U.S. in which Ding Dong School is telecast.

WIZM Clarksville, Tenn., gave scholarship at U. of Tennessee to Luron Lyle, Slideny, Tenn. Award represents first of annual presentations to be made to Montgomery County High School students by WIZM.

WKNO-TV Memphis, Tenn., announces Memphis State College and U. of Tennessee as first institutions to offer college credit courses on new education station planning to go on air July 1. Other institutions are expected to follow.

KFAB Omaha has given scholarships to U. of Nebraska College of Agriculture to top boy and girl 4-H speakers in station's 14th annual public speaking contest. Winners were David Spence, Gage County, and Marilyn Mendenhall, Cass County.

WBNS-TV Columbus, Ohio, has presented $1,000 Thomas Alva Edison Foundation Award to Ronald P. Caldwell, 16, of Caldwell, Ohio, for his high scholastic average and participation in extra-curricular school affairs. The scholarship, to be used for Mr. Caldwell's college education, is part of the Edison Foundation Award to WBNS-TV last December as "television station that best served youth in its community in 1955."

Marketing Research Councils has named twelve college students winners in third annual competition. Eight winners were given cash awards, ranging from $25-100 and four were awarded certificates of honorable mention. Winners were chosen on basis of papers submitted on various phases of market research.

---

INTERNATIONAL

CBC COMMERCIAL POLICY UNECONOMICAL, ADVERTISERS' BRIEF TELLS COMMISSION

ACA says that advertising costs in Canadian tv are more than twice as high as U. S. charges and cost of live production does not justify return. Toronto labor unions support present programming.

THE COST of producing live television shows in Canada is not yet justified by the commercial return, the Assn. of Canadian Advertisers said in a brief presented to the Royal Commission on Broadcasting during its Toronto sittings early in June.

The association, representing 169 national advertisers, reported that proportionate advertising costs in Canadian tv were more than twice as high as in the U. S., and in most cases were higher than comparable figures for other media. Representative total cost per 1,000 homes reached per commercial minute for a nighttime tv network program was approximately $2.50-$3.00 for the U. S., $5.00-$5.80 for English-speaking Canada, and $7.00-$15.00 for French-speaking Canada, it said.

At the time, complained the ACA, many advertisers cannot get national network time at suitable hours, or in the best markets at all. Advertisers were also placed at a disadvantage by Canadian Broadcasting Corp. policy, which demands that to secure network discounts, all the network must be taken. With no list of supplementary stations which the advertiser can take and pay for at his option, sponsors find themselves paying to reach audiences they do not want to reach, or spending money they could use more effectively in other media.

The ACA noted that the CBC has attempted to offset high prices by offering substantial network discounts and by offering separate but related inducements to individual advertisers. On the other hand, it continued, the CBC refuses to disclose its costs, denies the advertiser or agency an effective voice in the production or personnel of shows and rejects financial advantages to be gained by competition.

"In the result," commented the ACA, "the advertiser has no assurance that he is getting what he is paying for and is restricted to supporting only that talent which is recruited by the CBC. The development of Canadian television has proceeded on the topsy-turvy principle that trade and commerce, which are the center of our national economy, should be the one peril from which our national television broadcasting should be protected."

The ACA also complained that:

1. CBC tv monopolies in major centers such as Halifax, Quebec, Montreal, Ottawa, Toronto, Winnipeg, Regina, Calgary, Edmonton and Vancouver are inadequate to meet the demand for tv advertising.

2. There is insufficient control by agencies over the production of live commercials for which they are responsible.

3. Lack of definite regulations covering the content of tv programs and commercials is confusing both advertisers and agencies.

4. Agencies and advertisers are unable properly to estimate costs and conform to budgets because of delays in obtaining accurate cost estimates from the CBC. In many cases, the brief charged, final corrected billings were over six months late.

In another brief to the commission, the Toronto Musicians' Assn. urged that private Canadian tv and radio stations be required to devote at least 5% of their gross revenue to the employment of Canadian talent. At present, such stations do not do enough to encourage native talent, it stated.

Protest Free Music

The musicians expressed concern over the CBC policy of providing, without charge, thousands of hours of program material to private stations, on a network and non-network basis, which failed to employ local musicians. The CBC policy, it suggested, constituted a breach of contract.

CBC programming was supported in a brief from two federations of Toronto labor unions, urging that any non-network outlets in the Toronto area be operated by the CBC. The labor federations (Toronto & District Trade & Labor Council and the Toronto & Lakeshore Labor Council) criticized, however, the lack of adequate public relations in the CBC organization.

The U. of Toronto urged that more CBC time be allotted universities to carry out adult education programs. Adequate time, it suggested, should be from half-hour to six hours per week for each Canadian university during the six-month academic session.

The Canadian Wire Service Guild, representing newsmen working for favored extension of CBC news-gathering facilities abroad, both for radio and tv.

The Canadian Mental Health Assn. charged that some tv programs drive viewers to doctors for mental treatment. It said that psychiatry is frequently misinterpreted in tv dramas and that some programs seem "to capitalize on the public's fascination with the evil, morbid and twisted patterns of psychopathic behavior."

Following such programs, it said, clinics report an increase in calls from patients who have been disturbed and made worse by the programs.

SPONSOR PRESSURE NIL, ROYAL COMMISSION FINDS

Chairman Fowler answers to complaint of Canadian temperance group. Cooke renews offer to pioneer color tv.

THE Royal Commission on Broadcasting, after six weeks of investigating Canada's radio and television industry, has found no evidence of pressure by sponsors on Canadian broadcasters. Commission Chairman R. M. Fowler made this statement during the commission's Tuesday

BROADCASTING • TELECASTING
The temperance group had charged that lobbyists in Hollywood attempt to have the brand name on a bottle shown when drinking scenes were filmed, and warned that similar efforts might be made in Canadian radio and television.

Jack Kent Cooke, owner of CKKEY and CKEY radio stations in Toronto, announced in a brief made in 1953 to pioneer color TV in Canada on a private basis. Mr. Cooke, who has been unsuccessfully applying for a Toronto TV license since 1948, urged licensing of private TV stations wherever channels are available and called for the lifting of all but technical restrictions on private operators. A "big brother" broadcasting fabric, under which the people are given what certain bureaucrats conceive they should have rather than what the people demonstrate they want, is alien to our democratic way of life, he said.

Margaret Fletcher of the U. of Toronto's Institute of Child Study told the commission that pre-school youngsters are confused by programs for older children. She urged that standards of children's programs be evaluated by experts in the field of early childhood as well as by production experts and that timing of programs be given consideration in relation to daily routines observed in the average home.

The Labor Progressive (Communist) Party condemned the influx of CBC and private TV stations of U. S.-produced programs which "degrade culture" and "aim to cultivate in the minds of Canadians the false idea of American superiority."

At the conclusion of the Toronto sittings, Mr. Fowler announced that the commission would not sit again in Toronto in the fall, as originally planned, as it had been able to deal with all Toronto briefs. Any other Toronto representations will be heard in Montreal.

**UN Paris Meet Draws 40**

More than 40 delegates from countries throughout the world are attending a UNESCO meeting in Paris, starting last Wednesday and running through June 20, for the purpose of stimulating interest in television as a medium for promotion of international understanding among producers and distributors in television and film organizations.

Representatives from the U. S. include James Nelson, manager of programming for NBC-TV's Project 20 series; Maurice Mitchell, president of Encyclopaedia Britannica Films; Frederick Long, program manager of the U. S. Information agency, and Richard Bremer Hull, former director of radio-TV for Iowa State College who will join Ohio State in November (see separate story).

**6 Radio, 2 TV Requests Go Before CBC Governors**

APPLICATIORS to establish six new radio and two new TV stations in Canada come before the CBC Board of Governors June 22.

Am applications are from G. W. H. Millican for a 5-kw station on 910 kc at Calgary, Alta.; A. J. Messner, 1 kw on 1410 kc at St. James, Man.; K. R. Kelly, 1 kw daytime on 1540 kc at Burlington, Ont.; G. W. Burnett, 500 w daytime on 1470 kc at Welland, Ont.; Radio Gravelbourg Ltd., 250 w nighttime at Gravelbourg, Sask., and fm application from E. J. Pigott, for 282 w on 98.1 mc at Toronto (a similar application by Mr. Pigott was turned down in February).

Tv applications are from Northern Radio-Nord Inc., for ch. 4 at Rouyn, Que., with 50 kw video and 12.5 kw audio, and from Norman Roebuck, for ch. 3 at Yorkton, Sask., with 11.1 kw video and 5.55 kw audio.

**Canadian Newspaper Chain Seeks Multiple Ownership**

TWICE REFUSED the right to purchase radio and tv stations, Southam Co. Ltd., Canadian newspaper chain, has presented a brief to the Royal Commission on Broadcasting asking for relaxation of regulations barring multiple ownership of radio-TV stations. The brief stated that "under the present Canadian Broadcasting Corp. regulation, anyone who has, by successfully operating a radio or television broadcasting station, proved his ability in this field of mass communication, is automatically penalized by his very success. This is illogical."

Southam Co. owns CICA Edmonton, Alta., and part of CKOY Ottawa, Ont. A year ago the company was refused permission to purchase CKNW New Westminster, B. C., but this year was able to buy 40% in a syndicate which bought CKNW.

**Salzman Uses Italian Studio**

A FOUR-STAGE film studio in Italy has been acquired by Harry Salzman, tv film and feature picture producer, on a long-term basis for the production of television and theatrical films. Mr. Salzman, who was in New York last week, revealed that the Pisorno Studios in Tirrenia, Italy, is the site where he will screen Gaetano Gallant of the Foreign Legion. The film series, released through Television Programs of America, will be shown next season on NBC-TV under the sponsorship of H. J. Heinz Co., starting Sept. 16.

**Grey Cup Sponsorship Set**

MOLSON'S BREWERY has secured tv rights to the Canadian championship Grey Cup football game in Toronto Nov. 24 but because of regulations throughout the rest of the Dominion barring beer advertising, will sponsor the game only in Quebec Province. General Motors has purchased from Molson's the rights for the remaining provinces. Last year's championship game was seen by four million viewers, claimed to be the largest audience ever for Canadian television.

**CHUB Requests 1130 Kc**

CHUB Nanaimo, B. C., will apply for 1130 kc to be relinquished by the government in October. Station manager Chuck Rudd also will seek an increase from 1 kw to 10 kw, which would allow CHUB to serve Vancouver Island.
PROGRAMS & PROMOTIONS

'WIDE, WIDE WORLD' EXPANDS

LIVE TV coverage will reach north as far as Nova Scotia and as far south as Mexico City next fall via the roving cameras of NBC-TV's 'Wide, Wide World' program, according to Barry Wood, NBC's special events director and executive producer of the program. Also on the agenda, says Mr. Wood, are kinescopes of a European tour, including Paris, Rome, London and other major capitals "just to show what can be done someday." The European program will have diverse pickings, for example, the changing of the guard at Buckingham Palace, a Papal blessing in Rome, the Louvre in Paris, skiing in the Alps and a tulip festival in Holland. Mr. Wood also observed: "We may tackle the whole U.S.A. in two shows—divide the country into 24 states for each and let everybody see what his fellow-countrymen are doing on a given Sunday afternoon."

NBC-TV FOOTBALL SPECTACULAR

NBC-TV tentatively plans to present a special program in honor of football on Sunday, Sept. 9 (7:30-9 p.m. EDT) as part of its regular Sunday night spectacular programming. The salute to football, similar to the one NBC-TV carried in honor of baseball this spring, will originate in the Los Angeles Coliseum, with a cast including comedians Andy Griffith and Don Adams, actress Jane Russell and her husband, Bob Waterfield, former professional football player.

GOLD TO OFFER 'LUCKY MILEAGE'

FEATURE package "Lucky Mileage," prize format developed by Mike Gold Agency, Los Angeles, is to be offered stations and be sponsored nationally this summer following its current 13-week test on KPOP Los Angeles by Cromwell Oil Co. and 100 Golden Eagle service stations in Southern California. Cromwell is promoting its oil additive X-3. In a saturation spot campaign directed to the auto radio audience, the announcer reads three numbers and the motorists whose mileage has the corresponding last three digits can win a certificate for 10 gallons of gas by appearing at an Eagle service station within one hour. A five-mile leeway on meter is allowed. "Lucky Mileage" is copyrighted and cleared with lottery laws, the agency says.

WKZO-AM-TV BACK KIDS' DERBY

WKZO-AM-TV Kalamazoo is cooperating with Chevrolet Div. of General Motors Corp. for the third consecutive year on the annual Soap Box Derby for young boys in that city July 14, with winners to compete in the All-American Soap Box Derby finals in Akron (Ohio) Aug. 12. As part of the promotion, the Kalamazoo Optimist Club is presenting Soap Box Derby Workshop on WKZO-TV every Monday for youngsters in Western Michigan area. Bill DeDoe serves as emcee and Neil Schoenhals as race inspector, both offering interpretations of various rules and regulations.

WNYC SUPPORTS FASHION BID

NEW YORK-owned WNYC-AM-FM will carry a special program Wednesday (4:45-5:55 p.m. EDT) in connection with the dedication of temporary headquarters in New York for the Mayor's Committee for World Fashion Center. The committee has set up an office to promote New York City as an international fashion leader. A special feature of the WNYC program will be a commentary of latest fashions, all of New York origin, by fashion expert Eleanor Lambert.

'OUT OF YOUR MIND' ON WBMM

BEST-KNOWN works of famous writers, poets and playwrights as read by noted actors and actresses form the basis for new institutionally-sponsored series by Local Loan Co. on WBMM Chicago. Titled 'Out of Your Mind,' the show delves into topics with the "What-makes-us-talk?" theme as performed by such personalities as Tyrone Power and Alfred Drake and announced by Hal Stark, WBMM personality. The opening program covered questions of why people are disturbed by violent thunderstorms, eyesight, the "seeds of suicide" and others. Script is written by laurence Arnold, and the program is produced by Pat Weaver and aired Sunday, 4:30-5 p.m.

EDDY ARNOLD TAKES NEW TIME

ABC-TV's The Eddy Arnold Show moves to a new day and time period, effective June 27, when it will be carried on Wednesday, 9:30-10 p.m. EDT. The program currently is carried on Thursday, 8:30-9 p.m. EDT.

ROLLING STUDIOS FOR WHL

TWO converted Volkswagen buses, equipped as mobile units, have been purchased by WHI Hempstead, N. Y., for use on remotes and as "rolling studios" in the production of regular programs. Each has two turntables, a rack-mounted tape recorder, a sampling of the station's music library, a public address system and a portable power supply.

'MR. WIZARD' MOVES UP

NBC-TV's science children's show, Mr. Wizard, this Saturday moves from 5:30-6 p.m. to 12:30-1 p.m. EDT, and will feature several kinescopes of this past season during the summer months.

WHEC-AM-TV HERALD 125 YEARS

AN ACCUMULATION of 125 years of wealth—material and cultural—was featured in a WHEC-AM-TV Rochester, N. Y., June 3 simulcast, The Cavalcade of Music, celebrating the Rochester Savings Bank's 125th anniversary. Leading up to the special show's opulence was a diamond display, with music for the program provided by the bank's own orchestra.

HER FIRST OFFICIAL ACT

SHERLIE BARRISH, previously with National Telefilm Assoc., N. Y., has joined the sales staff of Official Films, N. Y., and currently is visiting 60 stations throughout country, driving sports car brazoned "Our Little Sherlie." and concentrating her efforts on Official's My Little Margie series.

'QUEEN' EXPANDS ON NBC-TV

NBC-TV's Queen for a Day (Mon.-Fri., 4:30-5 p.m. EDT), moves to a new time spot and expands to 45 minutes on July 2 (Mon.-Fri., 4:45 p.m. EDT).
IN COMMISSION and opened was the WICC Bridgeport, Conn., branch of the Wildenstein Galleries. The one-shot show, written by David Crow, was to feature masterworks by Manet, Picasso, Renoir, Saraceni, Carot, Degas and others, while background music was to be "provided by" Mozart, Ravel and Massenet. All paintings were on loan from New York's Wildenstein Galleries.

WICC GREETS ROAD TRAFFIC

WICC, Bridgeport, Conn., served as official greeter to motorists driving through the Greenwich, Conn., gate of the Merritt Parkway when the Information Center at the gate was opened officially by the Connecticut State Dept. Commission and Vacation Advisory Board. Motorists stopping at the center were given WICC cards, listing the station's daily schedule of newscasts, traffic reports, weather forecasts and sportscasts.

WBZ-TV SUMMARIZES THEME

WBZ-TV Boston has launched a summer-time promotion campaign, encompassing audience, sales and personnel, designed to call attention to the importance and value of television during hot weather months. The campaign is built around a new station slogan—"Summertime With You in Mind"—and includes jingles, outdoor advertising, and contests for viewers and for station personnel.

WROW INTRODUCES MANAGER

ADVERTISERS and agency heads of the Albany, N. Y., area convened at The Sheraton Ten Eyck Hotel in Albany on June 4 to be introduced to George Perkins, new station manager of WROW Albany. He joined WROW from WHDH Boston where he was program manager. Mr. Perkins reported at the luncheon on WROW's radio audience, while other executives of Hudson Valley Broadcasting Co. similarly reported on the operation of WCDA (TV) Albany and satellite WCDB (TV) Haga-man, N. Y. Speakers included General Manager Thomas S. Murphy and William J. Lewis, sales manager for WCDA and WCDB.

ROUND TABLE TALK

TWO executives of Westinghouse's KEX Portland, Ore., General Manager Herbert Bachman and Sales Manager Robert Rudy, held a sales conference with staff members of Peters, Griffin, Woodward, the station's representative in New York, via long distance telephone. The conference was held to give the New York salesmen information on a new KEX show.

A small loudspeaker made it possible for the New York audience, including WBC President Alexander W. Dannenbaum Jr., to hear what the men in Portland had to say. Also, a microphone built into the phone enabled them to ask questions of the KEX executives.

PLOUGH EXTENDS MUSIC-NEWS

PLough Inc., recently active in purchasing broadcasting properties, has extended what it claims to be a highly successful music-and-news program concept from its WMPS Memphis to WJJD Chicago. The format is described by Harold R. Kreelstein, president and general manager of WMPS, and Fred Harm, general manager of WJJD, as a basic departure in music-news programming, with emphasis on precision production.

WJJD, which Plough Inc. purchased nearly three years ago, put the format into operation yesterday (Sunday) after realigning its staff and retaining four disc jockeys as staff members.

The innovation, introduced on WMPS Sept. 12, 1955, raised the station's ratings and showed tangible advertising results within four months, backing up Mr. Kreelstein's belief that music and news are "the weaknesses of tv and the strength of radio."

'YOU ARE THERE' REALLY

CBS-TV's You Are There which has been transporting tv audiences back as far as 1,000 B.C. goes "modern" July 1 (Sun., 6:30-7 p.m. EDT) as it sends its reporters to cover the current Cypriot crisis touching Greece, Cyprus, Turkey and Great Britain. Host Walter Cronkite will be joined by Chief European Correspondent Howard K. Smith in describing the diplomatic and military phases of the struggle for Cypriot independence. You Are There is sponsored by The Prudential Insurance Co. of America, through Calkins & Holden Inc., New York.

NAVY CONGRATULATES SARNOFF

ADM. ARLEIGH BURKE, chief of naval operations, U.S.N., last week sent a message of congratulations to Robert W. Sarnoff, president of NBC, for NBC-TV's presentation on May 27 of Antarctica: Third World—The Race Against Night. Mr. Sarnoff replied expressing the hope that the network can arrange with the Navy for further coverage of "Operation Deepfreeze."

WMCA CIVIL LIBERTIES REPORT

CIVIL LIBERTIES will be spotlighted on radio tonight (Monday) when WMCA New York presents the first in a weekly 15-minute series of testimony before the Senate Subcommittee on Constitutional Rights. The series, excerpted from more than 200 hours of subcommittee hearings, was produced for WMCA "exclusively" by the Fund for the Republic. New Yorkers catching the series will hear witnesses called before Sen. Thomas C. Hennings (D-Mo.) and his colleagues on the committee, defining areas of infringement on civil rights.

PLATING NO. 23-1954-118

46,000 copies suface wrapped. June 18, 1956 • Page 117
‘TOUR-AIDE’ BIG HELP TO ALL

"TOUR-AIDE," a promotion conceived by KJAN Atlantic, Iowa, to conquer the summer slump, has helped the station achieve billings as big as last December’s.

The extensive but inexpensive Sunday plan grew out of a routine sales call on a small cafe owner. The client said he’d buy time on condition that KJAN persuade Sunday motorists to stop by his cafe. The idea was worked out by Robin A. Morgen, president of KJAN, taken to a sales meeting, with the result that KJAN now is sending tourists into cafes, dairy bars, motels and other businesses along Highway Six every Sunday.

With all Sunday afternoon from 1:30 to 6 p.m. devoted to Tour-Aide programming, KJAN set up refreshment booths at two ends of Highway Six, embracing nine Iowa communities. Billboards point the way to KJAN booths and tourists who stop are served free Cokes and ice cream by pretty Iowa girls. They also are given maps which point out Tour-Aide sponsor locations along the way and KJAN’s location on the radio dial.

Courteous and careful drivers are spotted from the booths, their licenses phonied to the disc jockey on duty and they are notified on the air to pick up prizes (10 gallons of gas, steak dinner, sun glasses) at the donor’s place of business on Highway Six. With swimming pools, drive-ins and service stations airing the show over public address systems, Tour-Aide sets the Sunday afternoon mood on Highway Six.

Sponsors, now numbering 56, buy into the show on a firm four-month basis. The fee covers one Sunday afternoon commercial, plus mentions throughout the show as prize locations are called. KJAN promotes the show daily on the air, furnishes maps and booth personnel, with local bakers and dairies providing booth refreshments and sponsors giving prizes, all adding up to negligible extra cost for the station.

Tour-Aide has attracted mail from 11 states and several Chambers of Commerce.

MORT ABRAHAMS TO SHOWCASE MORT ABRAHAMS, producer this past season of General Electric Theater, Star Stage and other programs, has been signed by Showcase Productions Inc. as executive producer on NBC-TV’s Producers’ Showcase, effective this fall. Showcase Productions packages Showcase as well as the Goodyear-Alcoa TV Playhouse, Mr. Abrahams said that he will launch "an intensive search" for original musical properties and other dramatic vehicles which "will recreate the brand of excitement viewers felt when the first spectaculars went on the air."

DOGS HAVE DAY ON WTTW (TV)

WTTW (TV) Chicago, non-commercial, educational station hasn’t gone to the dogs but is asking them out into the station. In preparation for a 12-week obedience training course on its Totem Pole children’s program starting June 26, WTTW is auditioning dogs of all "shapes, sizes and class distinctions" for possible appearances on the program. Six dogs will be selected each week to participate with their young training masters on the program, to be aired Tuesdays, 4:30-5 p.m., with Oscar Fransen, dog trainer.

ABC-TV SPORT SHOW READY PREMIERE of Greatest Sport Thrills, series of filmed highlights of the past year’s great U. S. athletic events, is set for this Thursday, 9:30-10 p.m. EDT on ABC-TV.

NBC-TV OLYMPIC SHOW SET NBC-TV will cover the Olympic finals of the U. S. track and field team in Los Angeles June 30, 5-7 p.m. EDT. Top three finishers in each event will represent the U. S. in the Olympic Games at Melbourne, Australia, in November.

NO REST FOR WGR-TV STAFF WGR-TV Buffalo, N. Y., was able to provide viewers with speedy, on-the-spot coverage of a rockslide which wrecked part of the Niagara Mohawk Power Co.’s Schoellkopf power station on Monday, June 8, largely because producer-director Al Cooper was one of the eyewitnesses. Immediately after the rockslide began at 3 p.m. EDT, Mr. Cooper searched for—and found—a man who had a film camera and knew how to use it. The film was taken and was rushed to WGR-TV’s studios in time for the station’s 6:30 p.m. news program. The station later provided additional film coverage from footage shot by its own staffs.

PRINT CAMPAIGN BY WTOP WTOP Washington is running a series of five full-page public service ads in behalf of U. S. Armed Forces recruiting programs. Object: to encourage public service-conscious companies to help balance the Armed Forces recruiting programs by the use of newspaper advertising because of the lack of public service advertising support by the large metropolitan newspapers on behalf of the Armed Forces." Each ad in the series, conceived as an extension of WTOP’s public service air activity, carries a testimonial by a station personality who served in the branch of service being promoted.

COLUMNIST LIKES WOKO SHOW RECOMMENDED for both “rounds” and "squares" by a disc-jockey-weary Albany (N.Y.) Times-Union columnist is the Player Piano Playhouse Saturday night show on WOKO Albany. Edgar S. Van Olinda, a columnist who misses the parlor instrument of yesterday, happened to hear the show—conducted by player piano hobbyist Bee Burger—and devoted an entire column to it. WOKO’s program department says it is the first time in recent years that a local show has rated so much newspaper space.

WTTV (TV) GOES TO COLLEGE THE cameras of WTTV (TV) Bloomington-Indianapolis enabled an unprecedented number of Indianaans to see graduates, post-grads and honorees of Purdue and Indiana Universities step up for their sheepskins this spring. Using its microwave remote facilities, WTTV telecast June 3 to a portion of the Purdue graduation ceremonies for the first time in university history. Indiana U. degrees were awarded before WTTV cameras June 11. WTTV and the institutions made the decision to televise because growing numbers of graduates make it all but impossible for everyone to see the ceremonies. Sponsor of both telecasts was Eli Lilly & Co.

WFMY-TV ACTS ON SURVEY "We asked you . . . you told us . . . here it is . . ." reads the cover of the latest agency mail from WFMY-TV Greensboro. The asterisk refers readers to a B&T article, "What Do Agencies Want Stations to Tell Them?" (Feb. 6) covering a survey by WFMY-TV. Based on agency response, the WFMY-TV market brochure now carries figures on population, families, effective buying income, retail sales broken down into six categories and gross farm income, all plus the station coverage map. Back cover of the market piece carries a subtitle, "the compendious* WFMY-TV story," with compendious* defined as "a brief, clean-cut statement of essential facts."

ONTARIO AMS SHARE NEWS NINE Ontario radio stations have started a co-operative taped news service in conjunction with Broadcast News Ltd., Toronto. Spot newscasts of interest to other stations are recorded by participating stations and sent on three regular daily transmissions to the other stations. No tape is sent to another station in the same city as the one originating the newscast. In the group on the "Tapex" circuit are CKOC and CHML Hamilton, CFPL London, CKVL Verdun, CIAD and CFCC Montreal, CFR A Ottawa, CKWS and CKLC Kingston.

NEGOTIATIONS • FINANCING • APPRAISALS
HERB PLAMBECK (I), farm director of WHO-AM-TV Des Moines, Iowa, and Ilea Emilionov, leader of a five-man Russian agricultural delegation visiting America's major farm areas, discuss a model of a modern U.S. tractor on TV-RFD. Mr. Plombeck was in the U.S. delegation that toured Soviet farms last year.

**WEEKDAY** COUNTS PEN PALS

TWO examples of audience responsiveness to NBC Radio's *Weekday* program were cited last week by the network. It reported that more than 71,000 letters were received after Mike Wallace and Virginia Graham asked listeners during National Radio Week (May 13-19): "Who are you and what are you doing at this moment?" Portable radios were offered for the best 15 letters. Another example of Weekdays audience-pulling power: Knox gelatine, sponsor of the "Daily Dieters" feature on the program, has received 31,733 requests for its instruction bookletlets for weight-conscious women. Some 50,000 books are paid for, the program is still going strong.

**RADIO FOR SICK LISTENERS**

CKEN Windsor, N. S., and CFAB Kentville, N. S., air a program weekly to hospital patients in their area. Production of the program is handled by students of Acadia University, who are paid for their work in the form of bur-saries. The program, *Acadia Hospital Hour*, consists of music, interviews, discussions on economics, quiz shows and light chatter. Hospital patients send in requests to stumped the university faculty members.

**CHAB TRIES THRIFTY PROMOTION**

CHAB Moose Jaw, Sask., has distributed to advertisers miniature Western Canadian grain elevators which can be used as savings banks. A green ribbon streamer tells the advertiser that there is lots of money in Saskatchewan grain elevators and that the way to it is CHAB.

**MYSTERY** BOX

LOCKED strong box, lollipops and tea bags were promotion devices sent to the trade by KJHI-TV Los Angeles to announce features of new program series on the Don Lee outlet. Key to the strong box, sent box, isolated mystery lights of Louis Quinn's weekday afternoon mystery variety series, *Quint's Corner*, while the lollipops signaled start of new kid cartoon host, "Fireman Joe." Tea bags symbolized tea time for the ladies with Charles Lind, new host on Sunday-through-Friday afternoon evening Million Dollar Movie Minnie.

Radio on the Rise

When CBS Radio announced a 6.25% increase in station compensation [B&T, June 11], it was important news to more than the network's affiliates. Here is a tangible dollars-and-cents sign that TV's rise as a major advertising medium does not mean radio's eclipse. Here is the strongest kind of evidence that, in the belief of CBS Radio, at least, the bottom has been reached by network radio and the upward climb begun.

Alone, the CBS Radio action is important. But it is far from the only evidence that things are looking up for radio. In recent weeks, the pages of this magazine have reported:

- Radio station sales at record prices: Crowell-Collier pays $2.35 million for KWF B Los Angeles, a city with more than 20 radio stations and a full complement of seven TV stations. Todd Storz buys WQAM Miami for $850,000, an all-time high for a regional station. Station brokers report more seekers for good stations than sellers.
- Radio set sales continue to climb: In the first four months of 1956, a total of 1,984,915 radio sets were sold, compared to 1,609,182 sets sold in the like period of 1955. And that's without counting automobile radios which are bought with the car and not over the counter.
- Spot business is good: Summer radio campaigns have been placed for Nescafe coffee, Tangee lipsticks, Star-Kist tuna, Gelvatex paint, Palrazor blades, Anna Myers foods, Cheerios, Jewell processed chicken, Dromedary cake mix, Hills Bros. coffee and Tetley tea (to cite only those plans most recently announced).
- Network business is improving: At the end of Monitor's first year, NBC Radio reported that this weekend program service had since its inception attracted more than 40 advertisers and grossed billings of well over $50 million. In the past month the network became a co-sponsor of three daytime serials on CBS Radio, to which Colgate-Palmolive Co. returns in September, also as a daytime advertiser. Perhaps these contracts, added to other new billings, were behind the network's decision to restore a portion of the cuts previously made in compensation to its affiliates.

A considerable part of the credit for radio's upward swing goes to Radio Advertising Bureau, whose presentations to individual advertisers of radio's overall revenues failed to equal those of the year before. Last year, sparked by a healthy uprising in local business, radio billings showed a gain over 1954 and a total second only to 1953's all-time high. Now, at midyear 1956, all signs point to gains on all fronts that will make this another record year, second to none.

The Other 'Commission'

In these days of network investigations, uhf-vhf crises, and other phenomena of both immediate and long-range consequence, there may be a tendency among broadcasters to give only fleeting attention to the rising debate over the commission method of compensating advertising agencies. There still being only 24 hours in the day, the tendency would be understandable. But it would also be unfortunate.

At the moment the debate is being waged primarily between advertisers (who started it) and agencies (who contend that this ground has been fought over before and settled long ago in the most satisfactory way for all concerned). For the immediate future, at least, it appears apt to continue to pit advertisers and agencies as the chief protagonists and/or negotiators. Whatever will come of it, we don't profess to know.

We do know, and have said before, that the interests of media—of whom broadcasters are an increasingly important part—are intrinsically tied up with the outcome. This is true whether the present compensation method is changed little or much or not at all. Broadcasters, along with other media, owe it to themselves to keep abreast of developments.

Elsewhere in this issue, B&T devotes several pages to a re-capitulation of the controversy and its long history, with key quotes from speakers on each side, plus generous reproduction of the prevailing "decision" that settled the matter in the past. The purpose of this extensive treatment is to inform, not to inflame or to sell the merits of either side. The purpose of this editorial, however, is to sell everybody possible on the importance of the deliberations that are going on, and to urge all broadcasters to take an active, informed, and continuing interest in them.

Broadcasting's Crying Need: II

In this space two weeks ago we cited the urgent need for a national public relations project for broadcasting.

We now renew that plea, after sitting in on a week of hearings before the Senate Commerce Committee on television networking. The abject lack of understanding on the part of some members of the committee, charged as it is with the origin of legislation dealing with the broadcast media, was frightening. Aside from the committee experts, most of the senators hadn't the slightest notion of how radio and television function.

This, we submit, makes even more essential and emergent the launching of a continuing public relations campaign. If the lawmakers themselves are not informed, how can they legislate in the best interests of an even less informed public?

This week the NARTB combined boards meet in Washington. Before the Television Board will be a proposal from its Television Information Committee recommending an adequately financed public relations program. It will urge a broad and vigorous project with the necessary creative talent in the right places. It will recommend this program as a fundamental function of NARTB itself.

We concur. We think it should be enlarged to include the broadcast media, and that means radio as well as television. It should have No. 1 priority, even if it means curtailment of other activities to remain within budgetary limitations.

Teeth: Real or False

The announcement by the Television Code Review Board that several code memberships were in jeopardy [B&T, June 14] is the strongest action taken against offenders since the code was adopted in 1952.

It is to be fervently hoped that no stronger action will be needed. Yet it is to be hoped with equal fervor that if stronger action becomes necessary to bring violators into line, the code board will have the courage to take it.

As we have said since the adoption of the code, it is an instrument of cynicism unless it is (1) enforceable and (2) enforced. If there is to be a code, members must adhere to it or be expelled. The alternative is to turn the code seal into a label of approval for any kind of broadcasting—good, bad or indifferent.
First in Houston with TV Experience...Over 700 Man-Years

The Golden Gulf Coast Market has been sold on KPRC-TV ever since it made Houston's first telecast in 1949. Today's excellence in market-wise programming, production, promotion, and engineering is the result of these years of experience. KPRC-TV remains first in the eyes of Gulf Coast viewers... mornings... afternoons... evenings... all the time, and over 700 man-years of experience is the priceless ingredient that makes it so.
Advertisers and their agencies know the radio stations represented by Adam Young, Inc. have been carefully pre-selected on the basis of:

1. Superior station management.
2. High audience delivered.
3. Ability to "move the goods".
4. At the right cost.

Because of this pre-selection and analysis, time buyers know that an Adam Young station will produce results.
