Beginning June 30, when NBC option hours changed, we experimented with scheduling our already owned RKO and 20th Century-Fox pictures at 5 P.M. We thought our Richmond audience—especially our adult audience—would go for the best in movies during the late afternoon. Now the ARB figures prove we were right. So we have added the fabulous MGM library! The figures should keep going up and up and UP. You're invited to go right along with them—on WXEX-TV, the Richmond area's basic NBC-TV station.

WHEELING: 37th TV MARKET

One Station Reaching The Booming Upper Ohio Valley

NO. 8 IN A SERIES:
NATURAL GAS

An outstanding contributor to the prosperous progress and the far-reaching future of the WTRF-TV area is the Manufacturers Light & Heat Company of the Columbia Gas System. Since 1945 Manufacturers has expended more than $165 million to improve its distribution of vital natural gas to the industrial giants which make the WTRF-TV area the Ruhr of America... gas, too, for heating, cooking and cooling to the 425,196 TV homes which comprise the WTRF-TV market, where 2 million people spend $2.5 billion annually. Manufacturers' $6 million annual payroll (estimated for the WTRF-TV area) helps make this a super market for alert advertisers.

Typical of Manufacturers progress is this new $4 million compressor station at the Majorsville, W.Va., storage field, a vital link in Manufacturers' natural gas distribution system. More than 30 billion cubic feet of gas are in underground storage at Majorsville.

For availabilities, call Bob Ferguson, VP and Gen. Mgr., or Nathan Smith, Sales Manager, atCelar 2-7727.

Radio advertising that pays off in the Southwest must start with KRLD, basic CBS outlet for Dallas and Fort Worth. KRLD, Texas' oldest CBS affiliate, with a wide variety of the best in programming, hold a unique place in the hearts of listeners of all ages...and especially those who hold the purse strings.

Over 70 varied programs of the best in radio reach more people, 24 hours a day, over KRLD than by any other Texas radio station (N.C.S. No. 2). Remember, too, that KRLD is the only full-time 50,000 watt station operating in the Dallas-Fort Worth area. More coverage...higher ratings...a wide variety of programming will get you more for your advertising dollar on KRLD Radio 1080 Dallas.
ANOTHER GO AT IT • FCC is going for broke on deintermixture. Instead of patchwork job, it is shooting for national policy on tv allocations, either all uhf, all vhf, or something in between. Deintermixture was considered at last week's meeting—first since its month-of-August recess—with decision that blueprint would be given staff this week on various alternatives as first priority project. Thus passed over at last week's Wednesday-Thursday sessions were long-postponed deintermixture proposals involving Columbus, Ga., Fresno-Bakersfield and Hattiesburg, Miss.—whether to make them all uhf islands or follow mixed uhf-vhf line.

Deintermixture alternatives, to be studied in light of current information and what may be gleaned from TASSO field work on vhf vs. uhf coverage, are: (1) moving all tv to uhf band over at last (considered prime time because it has been rejected several times in past decade); (2) regional deintermixture making entire geographical subdivisions all uhf or all vhf; (3) abandonment of uhf as last cause but with "breakdown" of existing vhf channels through use of directional antennas and reduced mileage requirement (requiring far fewer number of new stations on existing 12 channels; (4) watchful eye on spectrum study, however it may come, in hope of getting additional v channels from government.

ALL NOT LOST • As sequel to closing down of ch. 12 WVUE Wilmington-Philadelphi on Sept. 13, Storer Broadcasting Co. has disposed of most of its film product for a figure estimated at $1,750,000. Sold to CBS for ch. 10 WCAU-TV for approximately $1,250,000 was RKO feature-packed television package including certain other features, including selected NTA group. Other syndicated features are being disposed of in Philadelphia market. Storer originally purchased RKO package under sub-contract from Wbil-TV Philadelphia.

Now that videotele editing is nearing practicability with new semi-automatic splicer [story page 58], Ampex Corp. is training its development men next on mobility. During post-week factory at Redwood City, Calif., has gained bus van in which Ampex engineers are designing mobile videotele machine with full complement of power and sync generators. Rough price estimate: Two camera video-system, complete except for van, $125,000-150,000. Timetable: spring 1959.

BRIGHTENING DAY • ABC-TV's "Operation Daybreak" is opening wider. In extending weekly quarter-hours available to advertisers from 60 to 70 per week, ABC-TV already is approaching SRO status and network authorities now are considering even further expansion. Among new charter advertisers: Minnesota Mining & Mfg. Co., St. Paul, through BBDO, and Nestle Co., White Plains, N. Y., through Bryan Houston. Beat The Clock reportedly is additional program coming into "OD" leaving its daytime berth at CBS-TV.

Skatron TV, pay tv operator, expects to announce its future plans at news conference today (Sept. 8). Though Skatron is soft-pedaling advance word, speculation arises that company may have effected arrangements with certain telephone companies for special lines and facilities for its system. It's known that New York Telephone Co. has been making engineering studies on such possibility.

FM INTEREST • Sinclair Refining Co., which previously had staked claims to heaviest campaigns in spot radio history [ADVERTISERS & AGENCIES, Oct. 14, 1957], is taking new tangent in aural medium by invading Chicago fm field. Through its agency, Morey, Humm & Warwick, N. Y., company has bought sizable spot schedules on three stations—CBS o&o WBMM-FM, WFMT (fine arts outlet) and WFMF (Functional Music Inc.). Schedules vary but contract with WBMM-FM, which recently launched autonomous operation, calls for 25 announcements weekly through Dec. 31. Cities Service Co. also has been experimenting with fm in Chicago.

Some of mystery surrounding Dotto rigging complaint filed with FCC [NETWORKS, Aug. 25] in name of Edward Hilehinnie Jr. can now be revealed. Complaint was delivered to FCC in person, not by Mr. Hilehinnie or by Uncle Sam's mail, but by reporter for New York Post. FCC in due course will release text of complaint plus its conclusions after it receives staff report.

BOYCOTT PROBE • Surprise package of Senate labor investigating committee's late autumn schedule may be searching look into secondary boycott activities of unions, including methods used in broadcast cases to induce advertisers and agencies not to buy time on stations involved in collective bargaining disputes. Growing sentiment in business world for plugging of unintended loopholes in secondary boycott language of Taft-Hartley Act is said to have impressed Senate probers.

To expedite clearance of policy decisions, FCC Chairman John C. Doerfer has assigned new procedure whereby top staff executives will confer with Commission once monthly on establishment of priorities. First such meeting scheduled today (Monday) will deal with pending deintermixture-allocation issues.

WESTERN POLL • To give All-Industry Radio Music License Committee clue as to position of California's radio broadcasters on ASCAP contract renewals up coming at year's end, Calvin J. Smith, KFI-A Los Angeles, and member of negotiating group, is dispatching questionnaire to state's 250 stations. Questionnaire will cover suggestions looking toward equitable contract with ASCAP and bear on subsequent negotiations with BMI on contract renewals.

Federal Trade Commission is investigating practice of purported performing rights society seeking blanket fees from stations. Allegation is that repertoire is primarily from public domain, including many Negro spirituals. Organizations represented in initial FTC investigation and then re-entered business under new name.

OVERSIGHT DATE • While Legislative Oversight Subcommittee resumes public hearings Sept. 16, spotlight is likely to fall on FCC and broadcasting again until November. SEC matters are expected to require all of committee's time during scheduled two-week hearings, to be followed by an October hiatus for election campaigning. Investigators still have office reserved at FCC headquarters, but it has not been used since soon after Miami ch. 10 hearings were completed.

British commercial tv interests reportedly set to give Pulse Inc. assignment to make intensive qualitative study of television there. Study would deal with viewer interests in series of programs and shows, series and dailies, station image, etc. Aside from confidential special reports, it's understood, one of few comparable American studies would be that which Pulse does each year for WHHD Boston.

CIRCUIT REOPENED • First FCC speech of post-vacation season will be made this Wednesday by Comr. Rodel H. Hyde before Idaho Broadcasters Assn. at Weiser. Comr. Hyde will return to Washington promptly after address and on Friday assumes acting chairmanship with departure of Chairman John C. Doerfer for International Telecommunications Conference in Geneva, expected to run until mid-November.

RECORD CROWDS watching the Kansas City Athletics typify responsive, busy, growing Kansas City.

Kansas City has the pitch

Or should we say pitches! For Kansas City's a big-league town in lots of ways. The A’s fill up the ball park week after week. The Downtown Committee has given the retail district a shot in its wallet. Redevelopment of the North End is making national news.

And it won't be long before there's an area authority to preside over the booming, bustling 4-county, 2-state community that is Greater Kansas City. More than a million persons live here. They pack a walloping buying power of nearly $2 billion.

So stakes (and steaks, as you well know) are big in big-league Kansas City. And KCMO-Radio — 50,000 watts and basic CBS — has the leadership that can make your claim stick.

PEPSI PLANS ALL-NETWORK RADIO DRIVE

Four-network (in radio) user, Pepsi-Cola Co., N. Y., is embarking on extensive pre-broadcast buildup Sept. 10, seven days before it begins participation in all four radio networks—ABC Radio, CBS Radio, NBC Radio and Mutual. Starting Sept. 17, network "saturation" will run 14 weeks, through Christmas, with 498 million "commercial minutes" of radio time in order to reach and influence more than 100 million people in U. S. To be delivered via radio: Pepsi's new "Refreshment song."

According to John J. Soughan, soft drink company's advertising vice president, all four networks being used because "that's all the networks there are." Sept. 10 event to be New York-originated closed-circuit broadcast at 4:30 p.m. to some 1,100 stations affiliated with all networks and will feature Bob and Ray comedy team, and top Pepsi-Cola officials.

Con Lauds Cost-Per-1000 of TV, Notes Changes as Medium Grows

Though television certainly is desirable advertising medium and not prohibitively "expensive," its pattern has changed for advertisers because of rising costs, Fairfield M. Cone, chairman of Foote, Cone & Belding's Executive Committee, said Friday (Sept. 5).

In amplifying his remarks in New York Times Friday on tv's "high cost," FC&B veteran stressed he did not intend to sound "derogatory" to tv as advertising medium and in fact would recommend tv to clients (noting his agency handles more than $35 million of its clients' money in television).

But, Mr. Cone, said, some advertisers cannot afford tv on "old basis" of sole advertiser of half-hour show for 52 weeks. In tv's beginning, he noted, tv was bought that way but as costs went up, advertisers divided time and more recently has been for advertiser to place more products rather than single products in any given program.

Mr. Cone stressed that television as medium has changed for advertiser, cannot be bought or used in same way as before. But, he continued, tv is "magnificent medium" and has impressive cost-per-thousand.

President Norman E. (Pete) Cash of Television Bureau of Advertising noted that "every man is entitled to his opinion" but pointed to McCann-Erickson's newly-published "Turning of the Tide" report (Lead Story, Sept. 1) showing only evening television, among major media, is decreasing in cost to advertiser "by the criteria of reaching his customers." M-E's study found evening network tv cost-per-thousand declined 18% and nighttime spot tv's C-P-M fell 19% in eight-year period.

Davidson and Welpott Promoted To Vice Presidencies by NBC

Mr. Davidson first joined NBC in 1938, left in 1941 for J. Walter Thompson Co. and after Army service during war served with JWT, ABC, Benton & Bowles and Free & Peters (now Peters, Griffin, Woodward), returning to NBC in 1952 as eastern sales manager for Radio Spot Sales. He rose through spot sales and stations executive posts to become general manager of WRCA-AM-FM-TV in 1956.

Mr. Welpott joined NBC last June as general executive in Owned Stations and Spot Sales Div. He was named general manager of WRCV-AM-TV last month. Before moving to NBC he was vice president of WKY Television System Inc. and manager of its WKY-AM-TV Oklahoma City.

CBS-TV Will Spend $1 Million To Cover Summer Delay Cost

CBS-TV network will spend over $1 million for extra circuits and videotape operation for delayed delivery of network broadcasts to stations in standard-time areas in 1959 DST months without asking affiliates to defray any part of costs. Network picking up tab this year but 1959 facilities will be more efficient.

Plans were announced Friday by William B. Lodge, vice president in charge of affiliate relations and engineering. He said "It is a basic responsibility of a nationwide television network to devise not only the strongest possible programs, but also to arrange them for viewing at the most appropriate times and in the best possible sequence for public and advertiser attractiveness. It is equally the responsibility of a nationwide television network, having devised such a program structure, to transmit it to its affiliates."

This position on financing DST delays—shared by ABC-TV, for which it too will stick to no-charge DST policy—is in contrast to NBC-TV position (At Deadline, Aug. 18). NBC said cost of delivering high-quality pictures is such that, while network is willing to pay for equipment etc., standard-time affiliates—for whose benefits DST delays are run—ought to pay line charges (estimate: 5½% of network revenues of the 116 NBC standard-time affiliates).

Mr. Lodge said CBS-TV's 1959 DST plan, subject to availability of additional AT&T circuits, will amount to four simultaneous network operations: (1) initial live release in eastern and central DST markets; (2) one-hour delay to most standard-time markets; (3) two-hour delay to Pacific DST markets and (4) three-hour delay to Oregon and Washington, which remain on Pacific standard time. He said CBS-TV is planning $500,000 expansion of its Los Angeles videotape facilities.
FitGerald Succeeds Baker As FCC General Counsel

FCC announced Friday appointment of James L. FitGerald to be general counsel, succeeding Warren E. Baker whose resignation became effective Friday [Governess-\nment, September 1]. Also, FitGerald, 50, has been chief of FCC's opinion writing group, Office of Opinions & Review, since 1954 when he joined Commission. He served in legal position with Home Owners' Loan Corp., Federal Savings & Loan Insurance Corp., U. S. Housing Authority, Public Housing Administration and Housing & Home Finance Agency. He is graduate of U. of Washington law school and received master's degree in law from Harvard U. in 1934, and an S.J.D. from Georgetown U. in 1940.

Replacing Mr. FitGerald as chief of Office of Opinions & Review is Donald J. Berkemeyer, now-supervising editor, who was named chief consultant in that office. Native of Kansas City, 41-year-old Mr. Berkemeyer was graduated from Oberlin College in 1939 and from Duke U. law school in 1942. Served in Army during World War II, and upon release from military service in 1946 he joined FCC.

Berk Defends Claims by WAKR, Calls WCUE Charges Unfounded

S. Bernard Berk, president of WAKR Akron, Ohio, on Friday termed complaint of WCUE Akron filed with FCC (see page 82) "unfounded." WCUE claimed article in Akron Beacon Journal, 45% owner of WAKR, was false and misleading, particularly in claim that WAKR had more listeners than all other Akron stations combined and that WAKR had more adult, teen-age and children listeners in every time segment than any other Akron station.

"The facts are," Mr. Berk stated, "that WAKR has the largest audience of any local Akron station during every survey period, according to both the July Pulse and the June Hooper surveys." He also said that WAKR has larger average share of audience than three other stations combined from 6 a.m. to midnight according to Pulse, and from 7 a.m. to 10:30 p.m. according to Hooper. Time periods surveyed, Mr. Berk added, covered Monday-Friday.

Beacon Journal report of these surveys, Mr. Berk said "was in the main entirely correct and accurately reported the facts, containing only a slight error in inadvertently made and later corrected ..." Newspaper on Sept. 4 carried corrections in story reporting filing of WCUE protest with FCC.

Mr. Berk also said that statement that Pulse reported WAKR has more adult listeners, as well as teen-age and children, during every time period "is true and not a distortion of any kind." He said that newspaper correctly reported July 1958 Pulse survey.

Mr. Berk emphasized that WAKR pays Beacon Journal same rate for advertising as paid by other Akron stations. He continued: "... it is absurd to charge that WAKR enjoys any unfair competitive advan-
antage because of the minority interest owned by the Beacon Journal."

Grand Jury Probe Now Seen As Next Step in Quiz Furor

Entire tv quiz squabble (see story, page 50) may be brought to grand jury in New York in week or 10 days, "perhaps sooner," spokesman for District Attorney in New York, conducting probe into allegations of program rigging, told Broadcasting Friday.

According to spokesman, grand jury may be asked to "determine whether a 'conspiracy' or any other crime has been committed." Prompting this "contemplation" by D.A.'s office: Rash of charges and counter charges, and desire of investigators to put principals involved under oath before grand jury.

D.A.'s office denied it has extended its current probe from two "cases" now under-\nway—Dotto and Twenty-One. But should "anything substantial" come up as result of other informal "complaints" which have come to district attorney's attention, provers may well expand inquiry.

Further notoriety seems headed tv quiz games' way with report from Hollywood that Mirisch Co., independent production unit, is negotiating with Robert L. Fore-
man, head of creative services at BBDO, N. Y., for screen rights to his new novel The Hot Half-Hour, story of rise and fall of fictitious quiz program, being published by Criterion Books, N. Y.

FCC Hookup

FCC is getting itself wired for sight and sound. At last week's meeting, lipstick microphone was introduced as standard equipment in lieu of desk mikes. Some commissioners had trouble, particularly when they sought to whisper to neighboring colleague, with result that their whispers boomed throughout meeting room, attended by some 25 or 30 staff executives. One commissioner (Cross) nearly blew out system with prodigious noise and cough. FCC this week also auditioned slide projector for use of staff in displaying maps, charts and other visual data hereofore handled on antiquated easel or pass-around basis. Prospect was that visual aid also would be adopted as standard meeting prop.

Page 10 • September 8, 1958

People

Charles L. Glett, president of investment subsidiaries of National Theatres Inc., including WDAF-AM-FM-TV Kansas City, Friday elected to board of directors of parent company. He headquarters in Los Angeles, but directs policy of Kansas City properties. He was formerly CBS-TV network vice president in Hollywood.

Col. E. M. Kirby, former Army radio and television chief and prior to that NAB public relations director, on Sept. 15 joins United Service Organizations in New York as public relations and mass-assistance leg-\nament was made by Donald D. Hoover, president of Bozell & Jacobs, New York advertising agency, who headed selection committee.

Don Anderson, formerly with sales staff of KXAO Sacramento, Calif., and Alice Regal, director of library for Fuller & Smith & Ross, N.Y., have joined Radio Advertising Bureau as account executive in national sales and chief librarian, respectively. Mr. Anderson will promote radio to drug and cosmetic advertisers.

Raymond H. DieTrich, radio-tv producer and production supervisor for Young & Rubicam, San Francisco, has joined Los Angeles office of Erwin Wasey, Ruthrauff & Ryan as radio-tv producer.

John Spencer Palmer, 23-year-old announcer-reporter at WKPT Kingsport, Tenn., NBC affiliate, awarded first Earl Godwin Memorial Fellowship at Columbia U. School of Journalism. Award of one-year fellowship is sponsored jointly by NBC and parent RCA in honor of network's late commentator Earl Godwin.

Kbab in San Diego Area Sold; Kopy Alice, Tex., Transferred

Station sales announced Friday, subject to usual FCC approval:

• KBAB El Cajon (San Diego, Calif., sold by Louis Kornick and associates to Dandy Broadcasting Co. for $350,000. Dandy Broadcasting, which owns WPEO Peoria, Ill., and KQUE Albuquerque, N. M., comprises Kenneth Greenwood, Robert Sharon, Merritt Owens and Lee Vaughan. It was also announced that Leonard Lindmark, present general manager and 20% owner, would remain in same capacity with same interest. KBAB is 1 kw on 910 kc with ABC affiliation. Transaction handled by Blackburn & Co.

• Kopy Alice, Tex., sold by Jules J. Paglin and Stanley W. Ray Jr., to Leon S. Walton (owner of National Radio Representives Inc. advertising agency in Atlanta) for $150,000. Terms are $37,500 in cash, remainder payable over seven years. Kopy is 1 kw independent on 1070 kc. Robert Grimes, present KOPY manager, is being transferred to Mobile as manager of WGOK there, announcement said. Other Paglin-Ray "OK" stations are WBOK New Orleans, WXOK Baton Rouge, WLOK Memphis, KAOA Lake Charles and KYK Houston.
Announcement

WMBR-TV, Channel 4, Jacksonville, Florida, will change its call letters to WJXT Channel 4, effective Sept. 14, 1958
THE PAPER SAINTS

Mafia is a word which conjures up visions of vendetta, Murder Inc., swarthy Sicilians and implacable Americans. On Aug. 29, NBC News devoted 30 un-sponsored minutes to the question of whether Mafia deserves its fearsome reputation.

Is organized U. S. crime traceable to a Sicilian organization born in the 13th century? Moderator Frank McGee swiftly took the viewer from the rugged mountains of Sicily to the equated rugged streets of Cicero, Ill., in search of the answer.

Interviews with police officials of various cities added up to a disavowal of the Black Hand Society as an important influence in American crime. Perhaps the most startling statement was by William J. Keating, formerly in the New York District Attorney's office, who accused the Federal Bureau of Narcotics (a poor brother to the FBI) of encouraging the "specter of a Mafia" to dramatize demands for funds and attention.

It was not so much the production of the show, which leaned heavily upon film clips (several of them quite familiar), but the forthright declaration by NBC News about the Mafia that won the viewer's approval. The conclusion: the Mafia is a "foolish and distracting myth" propagated by Americans unwilling to admit that the fault of crime in this country lies with fellow Americans.

Production costs: Approximately $12,000. Sustaining on NBC-TV Friday (Aug. 29) 8:30-9 p.m. EDT.

Producer: Chet Hagen; director: Bob Priault; writer: Frank McGee; assistant writer: Paul Good.

VIRGINIA—PATTERN OF RESISTANCE

The case for network radio and the importance of maintaining good affiliate relations was considerably strengthened Sunday night, Aug. 31, when CBS Radio's Unit One attempted to blueprint in cold facts the gathering civil war over segregation. Regrettably, passions of the moment obscured the facts and raised the boiling point to a degree where calm analysis was hard to come by. The fault was hardly CBS', nor could it be construed as an act of deliberate sabotage by the partisans interviewed; this was no report on Galindez or juvenile crime—this was an excursion into the mind and into grooves of thinking that were cut years and years ago. Thus, what may have struck some viewers as deliberate cynicism ("The whites and the Negroes here have had a splendid relationship") were really remarks uttered in sincerity.

What did CBS Radio find the situation to be in Virginia? They found Virginians to be divided on the school issue but at the same time unanimously agreed that there shall be no Little Rock fracas in the Commonwealth. This much was sure—the rest wasn't. For example, not once in the 55-minute program did anyone really get to the root of Sen. Harry Byrd's theory of "massive resistance."

While CBS carefully avoided taking an editorial position, skillful editing brought the picture clearly into focus. The segrega-

tionists feel that integration would lead to what they term "inefficiency" and fear that such a plan would only rock the "splendid" status quo. The integrationists, to quote one of them, feel that "integration in the south is like Christianity—it's never been tried," and scoff at the use of the word "splendid."

They point out that the Negroes (representing 25% of the state's population) have no representative either in the state assembly nor on any of the city councils.

Still, when all was said, the listener somehow could not help but feel that something in this Virginia crisis has been overlooked, the proverbial "man in the street." The battle seems to be between the leaders of both factions at this time. Regrettably, blueprints are not drawn up by "the masses."

Production Costs: Approximately $5,000. Sustaining on CBS Radio, Sunday Aug. 31, 8-8:55 p.m. EDT.

Written & produced by Don Kellerman and Richard Siemianowski; associate producer: Robert Young; cooperating stations: WYRA Richmond, WTAR Norfolk and WTOP Washington.

SEEN & HEARD

CBS-TV's presentation of "Bellingham" Aug 25 on Studio One in Hollywood proved a rewarding experience, comparatively speaking—that is, compared to many of the feeble offerings on Studio One this summer. "Bellingham" projected an interesting— if far-fetched—story line. The title character of the tv play was a sedate English school teacher, who doubles as a top operator in a group dedicated to the assassination of key international figures "for the good of humanity." A dilemma is posed when a thief discerns Bellingham's secret while pilfering the schoolmaster's luggage. The resolution of this predicament was reasonable and logical, if not dramatic.

The strength of the drama was slow dialogue was distinguished on occasion. But the brightest spot of the offering was the superb acting performance by Kenneth Haigh in the role of Devry, the thief. Leo Carroll as Bellingham and John Abbott as Bellingham's superior in the organization also turned in highly commendable characterizations.

BOOKS

The Radio Relay League has revised and expanded its 1954 anthology of articles from its QST, the amateur league's monthly magazine. An introduction explains SSB and its history.

A wealth of articles follows, giving the A-to-Z of the subject, grouped under the headings of modulation, detection, filter system, receivers, phasing system, linear amplifiers and accessories. The indexed reference work was planned for the ham builder, designer and operator and carries generous illustrations, diagrams and a catalog section.
Some products call for TV commercials that sell *fortissimo*—with force and directness.

Others are better suited to the *pianissimo* approach—using commercials that sell softly, with ingrating indirectness, charm and mood. And being able to create both types is important.

It’s even more important to know when to use which, if you want your sales to end up *bravissimo*!

**Still in St. Louis**

**EDITOR:**

Regarding the opening of the new Petry Dallas office [STATIONS, Aug. 25], you state that "Fred W. Johnson, Petry TV salesman in St. Louis since 1957, will be in charge of Petry TV in Dallas." Unfortunately this is incorrect. As you accurately reported earlier in the story, Hugh O. Kerwin, head of Petry TV in St. Louis since 1955, will be in charge of the new Dallas office.

Fred W. Johnson remains in St. Louis and has been promoted to manager there.

**EDITOR:**

I thought you might be interested in the addition of the UN logo (see cut) to our stationery. The stationery idea was instituted by a jewelry firm in Providence, namely Anson Inc. We were so impressed with the idea that we added it to our stationery.

Soon you will see the same logo on the tail of all airlines as the original idea was the brain-child of Charles Dent, an airline pilot. We are probably the first broadcaster to have the logo and I sincerely hope the idea will spread. The United States Committee for United Nations is promoting this plan and we are trying to help all we can.

I hope you like the idea.

**Matter of Deduction**

**EDITOR:**

... I must challenge the statement made by WFIL [Philadelphia] in the Aug. 11 edition of Broadcasting [DATELINES] that "The theory that drug company executive Forrest Teel was killed by one of the sides of a 'love triangle' was aired first by WFIL... about 18 hours before the attempted suicide of Minnie Nicholas who police say is connected with the case."

The story is a physical impossibility:

1. 18 hours prior to the attempted suicide would place the time some 16 hours before Teel's death...
2. ... It was not until mid-morning, after...

an anonymous telephone call to the police, that a woman was involved. . . .
3. The only police sergeant who had any information on the case . . . gave no information to anyone. . . .
4. With the assumption that they aired a story 18 hours before Mrs. Nicholas was found, that would place the air time at 3 a.m. Philadelphia time. WFIL signs on at 5:30 a.m.

I would not have taken time to point out the obvious errors in the story had it not reflected a poor job of reporting on our own news staff, especially when the story broke in our own back yard. Our mobile news chief, Bob Hoover, was on the scene six minutes after police first arrived and with his staff covered the story from beginning to end. There may have been other media that kept up with us on the coverage, but no one—and I repeat—no one "scooped" us.

OUR RESPECTS

to Theodore Benjamin Cott

Twenty-five years ago, 16-year-old Ted Cott began his broadcasting career as a ticket taker on the Staten Island Ferry. But he never collected a single ticket.

There is logic behind the *non sequitur*, but it is characteristic of Mr. Cott that his entry to broadcasting was in circumstances that stretch the imagination. A phase that captures a large measure of Mr. Cott's personality is "creative imagination."

Throughout his 25-year business life, Mr. Cott has applied this ability with well-above-average success in the fields of programming, merchandising, sales and promotion while occupying top-rung positions at WNEW New York, the DuMont Broadcasting Corp., and NBC. He faces his most arduous challenge today: as vice president in charge of owned and operated stations for National Telefilm Assoc. (WNTA-AM-FM New York-WNTA-TV Newark and KSMP-TV Minneapolis-St. Paul), Mr. Cott is charged with directing the future of independent stations in fiercely competitive metropolitan markets.

The formidable task leaves Mr. Cott unaundated. One other dominant facet of Mr. Cott's personality is confidence in his ability. Some of his former colleagues picture him as "brash," but all attest to his unquestioned competence as a creative thinker and energetic (and sound) administrator.

Although it is still too early to chart WNTA-TV's progress in the few months it has been under NTA ownership, no one can challenge Mr. Cott's assertion that the station will be "provocative, personalized and off-beat." WNTA-TV gained some adherents when it got rights to 42 Los Angeles Dodgers-San Francisco Giants baseball games this year and earned rave notices (and strong sponsor support) for *Art Ford's Jazz Party*. He has brought together on the station a variegated group of personalities. Mr. Cott plans to telecast such attractions as a putting championship, chess tournaments and other events of community interest not usually exposed on tv.

Theodore Benjamin Cott was born in Poughkeepsie, N.Y., on Jan. 1, 1917, and was brought to Brooklyn when he was five months old. He attended public schools in that borough and the College of the City of New York for six months, but the depression in 1933 forced him to seek employment. When some volunteer radio programs he produced for New York-owned WNYC while a student at City College attracted the attention of Mayor Fiorello H. La Guardia, young Mr. Cott was recommended for a post with the station.

New York City regulations provided that full-time employees of the station must be at least 21 years old. There was no age requirement for the Staten Island Ferry, so Mr. Cott was hired as a ticket taker and assigned for duty with WNYC. He remained with the station for six years as announcer, producer and director and while there, he created the Symphonic Varieties musical program.

In 1939 he changed the program to a musical quiz titled, *So You Think You Know Music*, moved it to CBS Radio and became a free-lance producer. During the next four years, he served as producer-director for various programs.

In 1943, Mr. Cott joined WNEW New York as director of programming, and later was named vice president in charge of programming and operations. He was one of the main spark plugs in developing the station's basic patterns for music-and-news, out-of-home listening and public service programming utilizing commercial techniques. In his seven years with WNEW, the station got 45 major awards.

Mr. Cott joined NBC in 1950 and remained there for five years as vice president and general manager of the company's owned WRCA-AM-TV New York and later as operating vice president of NBC Radio. It was during his NBC tenure that Mr. Cott's merchandising skill was utilized most prominently in the "Chain Lightening," station-store promotion plan in the New York area.

He served 2½ years with DuMont Broadcasting Corp. as vice president and general manager, supervising the owned stations—WABD (TV) New York, WTTG (TV) Washington and the DuMont Sports Network—before he joined NTA in June 1957. His initial assignment at NTA was to set up the company's program for acquiring television and radio stations.

He has found time to write four books on broadcasting and show business; produce 33 children's record albums and teach radio at City College and Fordham U.

Mr. Cott was made a Chevalier in the French Legion of Honor in 1950 for his efforts in promoting good will between the U.S. and France through the medium of broadcasting. He is a vice president of the League for Emotionally Disturbed Children, and a member of the Lotos Club, the Broadcast Pioneers and the Radio and Television Executives Society of New York.

Mr. Cott married the former Sue Oakland of New York in 1956. By a former marriage, Mr. Cott has two children—Jonathan Henry, 15, and Jeremy David, 13.

HIGH COURT INTEGRATES NEWS MEDIA

- Oklahoma court of appeals says radio, tv are as free as press
- Bar association’s ban against radio-tv in courts held not binding
- Decision will be tough for anti-broadcasting lawyers to ignore

Broadcasting won a historic victory last week in its uphill fight to obtain access to courtrooms. The Oklahoma Criminal Court of Appeals held that:

- Canon 35 of the American Bar Assn. is obsolete and unrealistic, and
- Radio and television are entitled to the same courtroom rights as the press.

Oklahoma became the second state to give high-court sanction to electronic reporting of court proceedings when a three-judge appellate tribunal handed down its opinion Sept. 3. Two years ago the Colorado Supreme Court broke down longtime prejudices against broadcast coverage of trials by discrediting Canon 35 and its visual-aural bans.

The Oklahoma decision provided the second break for broadcasting in a fortnight. A week earlier the American Bar Assn., through its House of Delegates, had ordered a special nine-man committee study of Canon 35 and the effect of visual-aural reporting (June 1958).

In its decision the Oklahoma appellate court ruled on an appeal involving the rights of an individual who had been found guilty of burglary. The Colorado decision had been based on demonstrations and investigations by that court of radio and tv courtroom techniques.

Leaders in the long-range effort to report court proceedings with electronic tools joined Oklahoma broadcasters in hailing the decision as one of the most significant forward steps in broadcast journalism (see story next page).

Oklahoma has been the pace-setter in electronic reporting of trials. For several years it has been routine for broadcasters to cover trials and most district judges grant coverage permission unless defendants or jurors object. Broadcast personnel have an informal code of conduct and the arrangement has been generally satisfactory, with radio-tv coverage of newsworthy trials permitted in most of the courts.

Last week’s precedent-making decision was written by presiding Justice John A. Brett and concurred in by Justices John C. Powell and Kirksey Nix. The three-judge court unanimously affirmed the 15-year burglary conviction of Edward Lee Lyles, 27, of Oklahoma City. The defendant had appealed his conviction on the ground that film shots taken of him by WKY-TV Oklahoma City had violated his constitutional rights of privacy and Canon 35.

The WKY-TV film had been shot in the Oklahoma City District Court during a recess before the jury was selected. The defendant claimed a mistrial and appealed. His counsel had claimed prospective jurors in the courtroom at the time of the shooting might have been influenced by the incident. Scott Berner, WKY-TV cameraman, had taken the film in the court of Judge W. R. Wallace Jr.

Judge Brett’s opinion quickly disposed of the Canon 35 argument in this language: “The adoption of the canons of ethics by the courts did not give the canons force of law. They are nothing more than a system of principles of exemplary conduct and good character. . . . They are subject to modification in keeping with the constitutional rights of the people.”

In holding the defendant had no right of privacy in the case, the court said: “When one becomes identified with an occurrence of public or general interest, he emerges from his seclusion and it is not an invasion of his right of privacy to publish his photograph or to otherwise give publicity

---

IN THE WORDS OF THREE HIGH JUDGES

JUSTICE BRETT
JUSTICE POWELL
JUSTICE NIX

Freedom of the press as guaranteed by the state and federal constitutions is not confined to newspapers and periodicals, pamphlets and leaflets . . . but these provisions of free press extend to broadcasting and television. . . . The courts do not belong to the lawyers but are institutions by, of and for the people. . . . [The courts] must be open to the press and its prying eyes and purifying pen to report courtroom abuses, evil and corrupt influences which despoil and stagnate the flow of equal and exact justice. . . . Basically, there is no sound reason why photographers and television representatives should not be entitled to the same privileges of the courtroom as other members of the press. . . .

September 8, 1958 • Page 29
WHAT OKLAHOMA HIGH COURT DECISION MEANS

The decision of the Oklahoma Criminal Court of Appeals to permit controlled broadcast coverage of court proceedings is an outstanding step forward in the equal-access movement, broadcast leaders in the campaign agreed last week.

Robert D. Swezey, WDSU-AM-TV New Orleans, chairman of NAB's Freedom of Information Committee, described the decision as "a significant step forward in the growing awareness of courts of the role of modern electronic journalism in informing the public."

Harold E. Fellows, NAB president, observed that the court made it plain that trial coverage by broadcasters and newspaper photographers remains a matter for each presiding judge to decide. He called this "a gratifying recognition of the position of the broadcasting industry that the ultimate arbiter of the question of coverage by radio and television should be the presiding judge."

Edgar T. Bell, KWTV (TV), executive vice president-general manager and secretary-treasurer of Oklahoma Television Assn., said: "The decision offers a new pattern of judicial thinking toward television as a free medium of information. It is especially significant because it deals with a specific criminal case and the relation of television newsfilm reporting to it. No other court actions have been so far-reaching or all-encompassing in dealing with television as a disseminator of news from the courtrooms."

Norman Bagwell, manager, WKY-AM-TV Oklahoma City, said: "This is the most important legal decision on freedom of the press ever handed down in Oklahoma. For the first time the rights of radio and tv are clearly defined in a reasonable and intelligent manner. We will justify the court's confidence by continuing our cooperation with court officials and our decorum in the courts. We feel our pioneering efforts in courtroom coverage have been rewarded."

Bob Gamble, WKY-AM-TV news director, recalled that WKY-TV covered the first state felony trial in 1953. Referring to the "gentleman's agreement" between district, common pleas and county courts with Oklahoma County broadcasters, he said the courts knew media would meet conditions necessary to maintain decorum.

"We have our own policies that preclude coverage involving minors and psychotics under certain circumstances," he added. "It can be expected now that such an agreement will have little cause for being. The agreement was adopted, as one judge put it, 'to guide us in the dark.' With the appellate tribunal's decision the judge is more on his own."

Bruce Palmer, KWTV news director, described the decision as "more significant than Judge Moore's ruling in Colorado." The Oklahoma Supreme Court has not adopted ABA canons, he explained, though the Oklahoma Bar Assn. has recommended their adoption, except for Canon 35 during the pendency of its ABA review.

A survey undertaken a year ago by Dr. Sherman Lawton, U. of Oklahoma, at the request of WKY-AM-TV, showed an overwhelming majority of Oklahoma attorneys and judges in favor of film, photo and tv coverage of trials under proper conditions.

NAB President Harold E. Fellows organized a Freedom of Information Committee to lead the fight for equal access to court and legislative proceedings. The first major break came in Colorado when the state's Supreme Court, after a thorough study and a series of equipment tests, held that Canon 35 was behind the times. The high court set down a set of rules specifying that no witness or juror was to be photographed over his expressed objection and that media must have coverage permission from the trial judge, who can lay down any rules deemed appropriate.

In 1956, ABA assigned two committees to study Canon 35. A special canon revision committee of ABA's American Bar Foundation, headed by Philbrick McCoy, of Los Angeles, filed a report proposing minor changes in the code without removing the prejudicial bans against broadcast coverage of trials. This committee's report was considered last February by ABA's House of Delegates.

Robert D. Swezey, of WDSU-AM-TV New Orleans, and Elisha Hanson, attorney for organized newspaper interests, argued against the McCoy committee's recommendations in an unprecedented House of Delegates hearing. Traditionally the house is addressed only by its own members. Messrs. Swezey and Hanson, although ABA members, are not members of the house. The house deferred action on the McCoy report until the recent meeting in Los Angeles [TRADE ASSOCIATIONS, Mar. 3].

At Los Angeles the house decided to name a special nine-man committee to conduct a thorough study of visual-aural reporting, laying aside the McCoy report [TRADE ASSOCIATIONS, Sept. 1].

A second ABA group, the Bar-Media Conference Committee, had been assigned in 1954 to review the whole journalistic problem. It was headed by Judge Walter M. Bastian, of the U. S. Court of Appeals (D. C.). Judge Bastian held frequent meetings with media representatives, but his committee encountered ABA procedural snarls and its work was all but buried in the association's minutes.
to his connection with that event. The law does not recognize a right of privacy in connection with that which is inherently a public event.

The rights of radio and TV were clearly stated in this language:

"Freedom of the press as guaranteed by the state and federal constitutions is not confined to newspapers and periodicals, pamphlets and leaflets... but these provisions of free press extend to broadcasting and television. The courts make no distinction between various methods of communication in sustaining freedom of the press. Freedom of the press is not a discriminate right, but the equal right of news-gathering and disseminating agencies, subject only to the restrictions against abuse and injurious use to individual or public rights and welfare.

The courts, in certain unusual circumstances, may restrict the attendance of the public for various sound reasons which under proper circumstances, might include some press and television representatives, but they cannot under the constitution exclude newsmen or members of the judiciary which enables who discriminate, to the discretion of the judge, between various methods of preserving the public property. Those who see and hear what transpired can report it with impunity. There is no special privilege of the judiciary which enables it, as distinguished from other institutions of government, to suppress, edit, or censor events which transpire in proceedings before it.

TV and radio coverage was left by the decision to the discretion of the trial judge, as in the Colorado ruling. "The matter of televising or not televising, photographing or not photographing criminal trials and proceedings, subject to the hereinbefore suggested judicial standards, is within the sound discretion of the trial judge," the opinion stated. "Where court proceedings may be taken for reproduction, on sound track and television, without disruption or interference, not degrading to the court and without infringement upon any fundamental right of the accused, such agencies should be permitted so to do within reasonable rules prescribed by the court... Courts should not tolerate conditions of either distraction or disturbance to the proceedings and proceedings at all times be master of the forum."

Freedom of the press was strongly affirmed as a great but sometimes dormant strength and potential for good. "This right makes the press the most potent servant of the people in protecting all rights against acts that may weaken, fragment and corrupt, as well as a most prolific medium of instruction and education," the court held. "Freedom of the press is the fulcrum by which the standards of the world have been lifted to a higher level. Hence, we can understand why it has been many times held that these provisions of free press extend to broadcasting and television."

Judge Brett added this significant statement:

"To deny television the same privileges as are granted to the press would constitute unwarranted discrimination."

Media coverage of trials offers much to the courts and public alike, he observed. "It has been said without education the people perish. There is no field of government about which the people know so little as they do about the courts. There is no field of government about which they should know as much, as about their courts. Many members of the legal profession who advocate the dissemination of knowledge for every purpose in all other fields rebel at the thought of the people being informed concerning the operations of the lawyers' legal preserve.

"The courts do not belong to the lawyers but are institutions by, of, and for the people. In this modern age, it is well that the veil of mysticism surrounding our courts be removed and the people be confronted with reality. We are not afraid or ashamed and we maintain that cooperation of the press and television representatives, might include the public generally or entirely."

"It was said hereinbefore that cooperating stores went to the press and its prying eyes and purifying pen to report courtroom abuses, evil and corrupt influences which despoil and stagnate the flow of equal and exact justice." He cited the proverb, "One picture is worth a thousand words," and added, "Basicly, there is no sound reason why photographers and television representatives should not be entitled to the same privileges of the courtroom as other members of the press."

Oklahoma Television Assn., comprising all TV stations in the state, filed a brief as friend of the court when the Lyles case was appealed to the upper tribunal. The brief, written by John H. Johnson of the law firm of Johnson, Lytle & Soule, contended the WKY-TV film shots of the defendant did not violate his constitutional rights; did not unfairly invade his right of privacy; did not involve abuse of its discretion by the court. The brief contended Canon 35 language did not justify the presumption the defendant was prejudiced.

Chief Justice Earl Welch of the Oklahoma Supreme Court, said after the decision was handed down that his court obviously would take no action in regard to Canon 35 while it was being reviewed by American Bar Assn. The Criminal Court of Oklahoma has parallel jurisdiction in criminal matters.

ADVERTISERS & AGENCIES

FURNITURE TV BREAKTHROUGH SET

- Bold Action co-op campaign to break in 24 markets
- Plan jointly announced by Denver dealer Kohn, TVB

A $200,000 spot television campaign which its originator expects to lead into a new era of furniture selling on television, will be launched Sept. 22 by 24 leading furniture retailers in 24 important markets across the nation, backed by name furniture manufacturers.

By the time the campaign goes into its second 13-week cycle the number of participating stores will double, according to Robert S. Kohn, president of Bold Action Furniture Sales Inc., Denver. Mr. Kohn founded Bold Action to conduct such promotions after his American Furniture Co., also of Denver, met "outstanding" success by adding a saturation TV spot campaign to its regular newspaper advertising.

Plans for the 24-company drive are being announced today (Sept. 8) by Mr. Kohn and President Norman E. Cash of Televising Bureau of Advertising, which gave "immeasurably helpful" in organizing the plans, according to Mr. Kohn.

The pattern and frequency of the commercials will vary, he said. Details of the promotion were not disclosed, but officials said the $200,000 figure represented the approximate cost of the first 13-week cycle. The campaign has the cooperation of such furniture manufacturers as Simmons, Kroehler, Berkleine, Associated Factories, Artistic, Sam Moore and Western Table. Authorities said these companies would not contribute financially to the campaign but do participate to the extent they cooperate in special prices, to be featured only during this campaign.

The basic TV formula is to feature one furniture item each week, supplied by a manufacturer and shown via sound-onfilm. The films will be individually tailored to participating store advertising needs and video and audio will carry the store's name, location and other pertinent information. Mail and phone orders and credit buying also will be featured.

The commercial theme is "Breaking the Price Barrier." Commercials will open with a "price smashing" scene, followed by introduction of the particular week's item. Officials said that cooperating manufac-
turers "have combined their efforts with the participating group of stores to bring exceptionally outstanding values to the consuming public."

Newspapers will be used in the drive, it's understood, to this extent: After an item has been featured in television spots for a full week, it will then be played up in an ad in Sunday newspapers.

The announcement said Thomas J. Barbre Productions, Denver company specializing in film commercials, has devoted its entire facilities to this project for more than a month. More than 60,000 feet of film were needed to complete the entire package, the firm estimated.

"We anticipate that this Bold Action Plan will inaugurate a new era of furniture selling on television," Mr. Kohn said, "and we expect that by the time we go into our second 13-week cycle we will more than double the number of participating stores."

Bold Action expects to hold a series of meetings at Mr. Kohn's American Furniture Co. in Denver during October to explain the project to "many additional furniture dealers situated throughout the country, who have already expressed keen interest, in order to enable them to participate in the second 13-week cycle which commences on Dec. 22," the announcement said. It also noted that the 24 companies participating in the first cycle represent almost 100 outlets when brokers are included and that their combined sales volume approaches $100 million.

Two meetings were held in Denver—July 21 and Aug. 23—to indoctrinate management of the television stations being used in the opening drive. Officials said that although great distances were involved in many cases, all of the 24 stations were represented at one meeting or the other.

"Whereas all concerned with the program have extended themselves to their utmost to insure its success," Mr. Kohn said, "no single element in our program has been more willing to do its share than our television stations, whom we regard as our partners."

Mr. Kohn concluded: "We have had wonderful cooperation and assistance in launching our program from sources and persons too numerous to mention but in particular we want to thank KOA-TV and KLZ-TV in Denver, and Bob Hart, sales manager for KLZ-TV, for the many sacrifices made and great help offered in helping us to perfect and introduce this plan. We also owe a great debt of gratitude to TVB for their outstanding assistance in helping to bring our ideas to store groups and for enlisting the support and cooperation of participating television stations. TVB's expert market knowledge and valuable contacts throughout the country were of immeasurable help in launching this nationwide television campaign."

TVB President Cash said, "The constant movement of more and more retailers into television and the increase in advertising efforts establishes the pattern of the future as television brings cash-register results for retailers in today's hard-sell business climate. In addition, retailers find they can sell more goods to more people, faster and at less cost, with television than through any other mass salesman."

**BUSINESS BRIEFLY**

**TAFFY ON TV** • Gold Medal Candy Corp., Brooklyn, N. Y., for Bonomo's Turkish Taffy, has increased its fall advertising expenditures 100% and will this week enter 20 new markets—primarily in Midwest and on Pacific Coast. Tv spot campaign—utilizing local children's programming—is being placed through Emil Mogul Co., N. Y.

**CAMPBELL CAMPAIGN** • Campbell Soup Co., Camden, N. J., in line with current store-wide promotions celebrating Campbell Kid's birthday and anniversary of Campbell's three new soups, has purchased spot radio campaigns in 200 markets effectively immediately, through Dec. 1. After six-week jull, campaign will resume Jan. 1 until April 18. BBDO, N. Y., is Campbell's agency.

**MORE SWEETS** • Sweets Co. of America (through Henry Eisen Adv.), both N. Y., has increased its ABC-TV billing by signing for two segments of network's Mickey Mouse Club (Mon., Wed., Fri., 5:30-6 p.m.) effective Oct. 2. Sweets Co. has already signed for Tales of the Texas Rangers (Thurs., 5:50 p.m.) on ABC-TV.

**STILL IN SPOT** • Despite reports that Brylcreem was reconsidering its major investment in spot tv on 52-week basis, spokesman for manufacturer Harold F. Ritchie Inc. affirmed that advertiser is very happy with spot success but would not say no to any unusual network opportunity. Agency is Kenyon & Eckhardt. Meanwhile Wildroot Co. is set for eight week spot tv push in behalf of its Creme Oil buying 50 markets starting end of September through BBDO.

**STEREO SIMULCAST** • In unique arrangement, Plymouth Division of Chrysler Corp., through Grant Adv., has purchased radio time for stereophonic simulcast of its Plymouth Show starring Lawrence Welk in New York, Chicago, Detroit, Los Angeles and San Francisco. Simulcasts will begin Sept. 10 via ABC Radio in those cities on Plymouth's regular Wednesday, 7:30-8:30 p.m., show on ABC-TV. Company hopes at later date to expand stereophonic broadcasts via additional radio affiliates.

**LEVER BUYING** • Two of Lever Bros. agencies last week supplemented sponsor's NBC-TV activities with another $2 million in gross billing. BBDO, for Lever's Wisk, Lucky Whip and Air-Wick, has ordered 52-week schedule (two segments per week) on network's new County Fair daytimer (Mon.-Fri., 4:30-5 p.m., effective Sept. 22); J. Walter Thompson Co., for Rinso, Stripe toothpaste, Lux Liquid and PepsiCo toothpaste, has pacted for alternate Tuesday segment of Treasure Hunt (Mon.-Fri., 10:30-11 a.m.) and alternate Friday segment of...
Timebuyer radio listening measured

Timebuyers buy radio—but do they listen to it?

The answer—a hearty yes—was issued last week as Radio Advertising Bureau released the results of what it called the first survey of its kind ever made. Based on personal interviews with some 200 selected timebuyers in more than 185 agencies in 20 cities, the study showed:

- Timebuyers listen to radio an average of 2 hours 19 minutes a day.
- Half of them (50.4%) listen before 9 a.m. and almost half (48.8%) listen after 5 p.m.
- About one-third prefer news and popular music to other types of programming.

Results of the study were released by John F. Hardesty, RAB vice president and general manager, as the bureau’s third annual regional management conference series got under way Thursday morning at Ponte Vedra Beach, Fla.

“These figures,” Mr. Hardesty said, “show timebuyers on the average listen to radio far more than the advertising fraternity gives them credit for. For examination, compare the timebuyer’s 2 hours 19 minutes daily with working housewives, who listen less than two hours a day; and working men, who listen slightly more than two hours a day. Timebuyers even beat young homemakers—by two minutes a day.

“The point is that while other occupational groups have always been recognized as strong radio listeners, timebuyers have been slighted. Our survey proves they don’t make media decisions from cold statistics and coverage maps. They are thoroughly conversant with the medium.”

Mr. Hardesty also noted that the survey did not measure the “tremendous amount” of radio listening done by timebuyers on the job—listening to tapes and records provided by the station salesmen. This professional listening was ignored in the survey.

Here are the program preferences expressed by the buyers in all cities: news, 35% of mentions; popular music 31%; classical music, 16%; weather 6%; sports, 6%; personalities, 5%.

The results also were broken down to show the differences in listening habits as between New York timebuyers and those in other cities.

Buyers in New York agencies, for example, were found to listen to average of 2 hours 4 minutes a day as compared to 2 hours 40 minutes for buyers outside New York. And New York buyers are inclined to listen more in morning than at night while the reverse is true of other buyers. The report showed that in New York 52.9% listen before 9 a.m., 1.4% between 9 and 5 p.m. and 45.7% after 5 p.m. Outside New York 47.1% listen before 9, none between 9 and 5, and 52.9% after 5 p.m.

The Ponte Vedra radio management conference is one of seven such two-day sessions to be held by RAB this month. Some 60 member-station executives were present at the Ponte Vedra session, which also was attended by Mr. Hardesty and RAB’s promotion director, Miles David, member service director, Warren Boorum, and member service regional manager, Bob Nixman. The second conference in the series is slated today and tomorrow (Sept. 8-9) at Palo Alto, Calif., and the third is set for Thursday and Friday (Sept. 11-12) at Sequoyah State Park, Okla.

LUTHERAN LODGE

The silver in Lutheran Hour’s silver anniversary next Sunday (Sept. 14) is more than salutary; the Lutheran Laymen’s League, celebrating 25 years on Mutual (Sun., 1:30-2 p.m.) is spending at the rate of $1.3 million a year “selling” its No. 1 commodity—religion—to listeners here and abroad. Premiering on MBS in 1934, Lutheran Hour now is heard on approximately 600 Mutual stations (plus 60-old NBC Radio outlets) and uses paid time abroad as in Luxembourg and Tangier (Advertisers & Agencies, Oct. 29, 1956).

Huggis Baggis (Mon.-Fri., 2:30-3 p.m.). Placement by two agencies is for products serviced by other Lever agencies, and presumably these will share in commissions. Lucky Whip agency is Ogilvy, Benson & Mather; Air-Wick and Pepsodent agency is Foote, Cone & Belding.

ON THE TOWN • Carling Brewing Co.-Cleveland, has purchased half-hour of CBS-TV’s two-hour version of Wonderful Town to be seen starring Rosalind Russell Nov. 30 (9-10 p.m.) Carling agency is Lang. Fisher & Stashower, Cleveland.

HABIT-FORMING • Coffee and cigarettes will be the “trademark” of Ed Morrow’s Person-to-Person when it returns to CBS-TV Sept. 26—with two national advertisers. With P. Lorillard Co. (Lennen & Newell) already signed as far back as last spring, General Foods Corp. has joined cigarette maker as in this week’s preview sponsor. Via Bon-ton & Bowles, GF will plug Maxwell House regular-grind coffee, plus S.O.S. scouring pads. While the order for S.O.S. came through B&B, agency commissions go to Foote, Cone & Belding, which services that GF product. For the past three years, P-to-P has had one national advertiser—Time Inc. (Life)—and several regional ones, among them, American Oil Co. (East of the Mississippi) and Theo. Hamm Brewing Co., Minneapolis (Midwest).

RALEIGH RESTLESS • Brown & Williamson Corp. (Raleigh cigarettes) has been reported negotiating with CBS-TV for new network tv property to replace its sponsorship of NBC-TV’s It Could Be You and Queen for a Day when its contract runs out in October. Announcing autumn advertising plans for Raleigh filter tip cigarettes, Keys, Madden & Jones, B&W’s agency, reported company plans to continue its present spot tv campaign in 24 markets (three-five announcements per week). Brown & Williamson also will start Ziv Television Programs’ new Mackenzie’s Raiders series in 19 markets starting week of Oct. 13 [Film, Aug. 18].

SPORT SUPPORT • Union Oil Co. of California will start 76 Sports Club with Elroy (Crazylegs) Hirsch on CTPN Sunday 5-5:30 p.m. Oct. 5. Series formerly seen on ABC-TV features interviews with outstanding sports figures and other sports features. Young and Rubicam, Los Angeles is agency. As curtain raiser for 76 Sports Club telecast on CTPN, Union Oil will sponsor play-by-play coverage of finals of Pacific Southwest International Tennis Championship on same network Sunday Sept. 20, 2-5 p.m. Union Oil will also sponsor semi-finals preceding afternoon on KNXT (TV) Los Angeles only.

Advertising's challenge: Moving what mass production can make

A BROADCASTING INTERVIEW WITH HALSEY BARRETT, TVB

In one way or another Halsey V. Barrett has been selling television since shortly after World War II. After graduation from Hamilton College and Harvard Business School, he was with Wall Street's E. A. Pierce & Co. In 1939 he moved to WOR New York and from there in 1941 to WNEW New York. After the war he joined CBS. In 1948 he moved to DuMont as manager of spot sales for its owned stations, then into network sales. There he was credited with making daytime TV's first sale (to a mopwring company). Since 1955 he has been director of national sales for TVB.

Q: We have heard you say that American business needs to be put "in orbit." Could you tell us a little more definitely what you mean by that?

A: As I see it, the 20th Century delineates between the first half and the second half, almost at the midcentury mark. In the first half America was learning how to mass produce, how to produce goods in tremendous quantities. The young man in the 1920's who came along and helped Henry Ford with the production line, the assembly line, and the speeding up of the assembly line was a very important contributor to our economic progress. Now with "automation" coming in—and I realize the exact meaning is controversial, but it does mean an intensified production of goods and services—I think that at the midcentury mark we now enter the era of major importance on sales and distribution and marketing. The challenge of our economy today is to the selling of the mountains of goods we now make. In other words, if we are going to keep our economy sound, we must sell these tremendous mountains of goods and services which we are able to produce in this country almost with the flip of a switch.

Q: You mean we are out of our "industrial revolution"?

A: Yes, out of the first phase into the second phase.

Q: What is this second phase?

A: The second phase of the industrial revolution is a revolution of movement of goods, selling of goods and consumption of the tremendous product we now produce. If with automation coming in, these pipelines of American products start filling up and backing up, we could be in real trouble.

Q: Automation does in itself pose some problems?

A: I am told by some of my engineering friends that automation is a highly efficient method of producing great quantities of a product. However, you have to produce at a tremendous unit rate for automation to be economically practicable. If with a cutback of demand for a product, i.e., cutback in sales or improper distribution and marketing, if you have to cut back on your automation, the efficiency drops very fast, faster than under normal mass production procedures. Any slow-down and the red ink in your automation picture starts flowing quickly and freely.

Q: Even though automation in itself is not yet dominant throughout the industry, would you say the effects of this idea are being seen in the current softness in the economy?

A: I am told that its costs in the vicinity of $2 million to tool up for automation for an electric refrigerator. Now with the appliance business off in '57 and the first part of '58, once we get totally automated, that initial cost to tool up can be pretty expensive unless this automated factory keeps turning out the quantity of products to justify break even costs or better.

Q: What is the solution?

A: I am told again by economists that today about 50% of the cost of a product in our economy is the cost of the distribution of that product, i.e., transportation, middle men and selling.

Q: Would this be all products?

A: This is a generalization of typical American consumer products but it is a widely accepted generalization.

Q: I mean would this be more applicable to the hard goods or durable goods or packaged goods . . .?

A: I gather it is fairly typical of packaged goods. It may not apply exactly to appliances; it is a generalization with some variances one side or the other. This means today's distribution cost is 100% of the cost of the manufacture—which is what you get when 50% of the final price is cost of distribution. This cost for the movement of goods is disproportionately high. With today's modern communication and transportation methods and quick handling of equipment there are gross inefficiencies in old methods of distributing and selling products. These inefficiencies increase the end price of goods and are probably the inflationary culprit in our economy rather than production costs.

Middlemen often no longer perform the function which they very logically and necessarily did in the first half of the century when we didn't have fast systems of communication and transportation and effective methods of mass selling which we have today. How much does the costly middleman contribute to the actual movement of goods in this day and age of centralized inventories and speed of turnover of products? Today we don't need the intermediate warehouses of storage that we once did. By the same token, one of the large costs in the distribution of goods in this country is the retail sales cost. I think this sales cost very rightfully should be challenged. When you ask people how long it has been since they have been "sold" something at the counter in this country, it becomes obvious that retail salesmanship has gone.

The discount house and the supermarket are honest about it. They don't presume and don't pretend to have any salesmanship, impersonal salesmanship. But take a department store or a gasoline station or in many cases an automobile showroom and ask the customer what clerk exerted any sales influence, and they will say, "very little," if any. Customers often just shake their heads and are glad to get out of a retail store today without, as we say, being "snarled at" by some unpleasant clerk who is discontented, uninformed and doesn't exert any selling influence in the sales process. This is the selling "gaposis" we find in our economy today. Yet, it is the movement of goods and sales that are so important. What then are American corporations going to do to exert a selling influence on the customer and potential customer to make him want to buy his products, as against another person's products, or buy when it is a deferable purchase? More and more the role of advertising must take the responsibility that was formerly handled by the at-the-counter salesmanship. Yesterday, the country grocer did the selling and persuaded people to buy a certain product or certain brand.

Q: May I interrupt? What would you say
This is America's 14th LARGEST radio market

WHO alone gives you "Iowa Plus"!

Only thirteen areas in the U. S. give you a bigger one-station market than WHO's "Iowa Plus"!

And it's a GOOD market. Its farmers own more than 25% of all the Grade A agricultural land in America — average $11,500 of income per year. Yet non-farm income is TWO times larger than agricultural income in Iowa!

WHO's coverage area contains 61 other Iowa radio stations (and many outside the State). Yet Iowa's radio listeners give WHO a 22.6% share of all listening quarter-hours, daytime (and 28.4%, nighttime) — more than given the next FOUR stations combined, either day or night!

The cost of covering this great audience with WHO Radio (one 1-minute spot, Class A time) is $65. The same time on the next four stations costs $84, or 30% more, for less audience.

Let PGW tell you the whole story of WHO.

WHO Radio is part of Central Broadcasting Company, which also owns and operates WHO-TV, Des Moines; WOC-TV, Davenport

Peters, Griffin, Woodward, Inc., National Representatives

KWTV OKLAHOMA CITY

EDGAR T. BELL, General Manager
JACK DeLIER, Sales Manager
EDWARD PETRY & CO., Inc.
are the principal reasons why in-person salesmanship has died out?

A: Well, one is the manpower situation and the labor situation in this country. People are getting jobs in aircraft factories and in service businesses where they are not to enjoy better salaries than competent people at the retail counter. Retail clerks' wages do not attract the very best sales people, nor can retailers any longer justify paying them a salary which would be attractive because the whole system of buying is changing in this country. People are being pressed by advertising and don't want some individual to try to influence them at the point of purchase. This is a trend in our retail way of life.

Q: Do you think another influence might be the increase in the number of brands available to the consumer, particularly in supermarkets in the food line?

A: Yes, there is such a multiple choice and again because of the communication of advertising, people know the characteristics of what they are going to buy; they require less explanation as to what this product will do or why this product is what they want. They usually know the product before they come into the store and are motivated to come into the store by the impact and education of advertising.

Q: What can the manufacturer of, say, a refrigerator do today to increase its in-person sales?

A: This is the challenge of the appliance manufacturer just as it is the challenge of the Detroit automobile manufacturer. The executives in the automobile field in Detroit will admit that they don't think they can train competent salesmen at the dealer level to do the selling job that should be done by in-person selling.

Q: What is their alternative?

A: The alternative is to face up to this distribution revolution. They must depend more and more on advertising and in particular the most persuasive "in-person" selling medium, television. Television, when used properly and reduced to its simplest terms is no more than a Fuller Brush man, your best Fuller Brush man, with as many demonstration items as you want that salesman to have. The tv salesman doesn't knock on the door of 20 or 30 homes in one day or one evening and display his wares. Through the miracle of television your best salesman can go into the living rooms of 500,000, 5 million, 25 million homes all in one evening. This, reduced to its simplest essence, is the great power of television; it is the mass selling power of television. Just as we had the development of mass production in the first half of the century, the answer to our mass production is mass salesmanship, and television when used properly—and I emphasize "when used properly"—is truly mass salesmanship of mass production. It is the mass salesmanship answer to mass production in this country.

Q: Then the use of television, the use of national advertising, is the answer for the manufacturer?

A: Yes, by the breakdown of the selling process at the counter, and by the increased efficiency of telling about a product through television. Tv is the selling method, the selling technique, and the midcentury answer to preselling requirements.

Q: To what extent is the manufacturer doing this or not doing it now? That is, using national advertising?

A: This is why I question whether American business is really in orbit, and perhaps it is living dangerously. If we agree that we are in a selling economy, that we've got to move the goods and services we can produce, then I say with the breakdown of the-at-the-counter selling, advertising—and, fortunately for us, tv—has to do the selling.

According to a survey, such as one done by Printer's Ink, a study of 521 major American businesses showed the percentage of their advertising is 0.67% of sales. I feel that American business is woefully underspent in advertising today compared to the tremendous job that advertising has to do for the advertisers.

When you get into the category of smoking material, cigarettes, according to the 1956 survey—there is a little lag in these figures because they have to be compiled nationally. A third back—the tobacco and cigarette people are averaging 4.4% of their total sales going into advertising, into formal media. This is one of the highest percentage categories.

**Tv's your best Fuller Brush man**

but only 4.4% in a business where people generally admit today that the cigarette business is really an advertising business. The challenge of persuading people to buy your brand of the cigarette business. So, I say that even the cigarette business is woefully underspent in advertising, its chief mover of goods.

Then take a category like gasoline and oil. According to this survey of 521 major American companies the gasoline and oil category spends only 0.27% of total sales for advertising. Again if you are going to try to persuade people to use your brand of gasoline this seems not enough advertising and selling persuasion to do the job that we have to do to keep sales and movement of products vigorous today.

Q: How about automobiles?

A: This is one of the real provocative areas. We all know what happens all too often in the automobile showroom. Yet Detroit badly needs salesmanship and persuasion to get people to buy its products this year and next year too. Detroit gets the road money by increasing its advertising expenditures to a per-unit basis. Some automobile makers this year manufactured 000 less automobiles. Now, if they allocate $37.50 per unit for advertising, which is a fairly typical figure, this means that in an off year they are spending $3,750,000 less to move products. Detroit, by this system of gearing its advertising budget to units of sales, builds sales valleys for itself, because just at the time when they need more push to persuade people to buy their cars they cut back and exert no influence on the buyer. We are going to see some real reversionary changes in the marketing and distribution of an automobile and the methods of persuading a person to buy a specific automobile. Again according to the above-mentioned survey, automobile manufacturers spend only 1.3% of the sales value of the automobiles in advertising. This includes television and all major media, radio, magazines, and newspapers combined. Yet it is only a little over 1% of sales for today's most effective mass selling influence.

Q: How about soaps?

A: The soaps have realized the power of television advertising as a selling process and their proportion is much healthier than most other categories. They spend—on an average national basis—about 5% of the total volume of sale in advertising. Again soaps and cleansers are pretty much an advertising business, and what they do or don't do in advertising pretty well dictates what they sell. I question whether they are spending the optimum amount in advertising to move product, considering that on the supermarket shelves they are not getting anybody to persuade the customer to buy their product as against their competitor's product right next to it on the shelf.

Q: To what level do you think this percentage of advertising to sales should be lifted? If it is under 1% now, what level should we reach to do an effective job?

A: Two-thirds of one percent of sales is a sizeable amount of advertising dollars. Yet compared to our gross national product, which was $400 billion, $10 billion as against $40 billion worth of goods and services is too small. If we raised advertising to sales a third of one cent a year, I think it would be amazing to see what would happen to our economy and the gradual increase of our standard of living. If we incremented our overall advertising budget to persuade people to buy more products and more services and keep our standard of living spiraling upward, we would at the same time keep our pipelines of distribution and manufacture healthy. We are far from saturating this country with products that people need or would like to have. In the automobile category alone, over 50% of the automobiles on the road today are five years old or older! There alone, if through advertising and the proper persuasion of ad-
ADVERTISERS & AGENCIES

Advertising could get people to take more old cars off the road and buy new cars, this would be to the good of all concerned and be a real boost to our economy and an answer to the plight of Detroit today.

Q: What could help the manufacturer be the increased use of television—television used properly. Is that correct?
A: That is my point. There is often a misuse of television today. There are many commercials where the salesmanship is buried by overproduction. When the commercial does get the selling job—it may be a Light touch selling job—when the audience is whetted for the product or the urge to buy is put forth with the commercial—then I think television makes a unique sales contribution to the movement of goods.

Q: Back to the automobiles again. Do you think their use of television has been a proper use or the most effective use?
A: No, I think in many cases there have been millions of dollars misused on the part of the automobile industry in television. I think they realize it and are looking at television with a much harder look to make sure, to use their vernacular, that they get more miles per gallon out of their television dollars than they have in the past.

Q: Isn't it going to be a big selling job to convince advertisers that they ought to increase the advertising ratio to sales?
A: Cutting back on advertising is a habit of American business which is going to be hard to reform. But as somebody said, "You don't save time by stopping your watch." By the same token you don't build sales and improve your sales picture by stopping your promotional effort, your advertising. I am afraid that too many budgets in American business today fail to use modern marketing concepts—too many budgets are geared to unit of sales or sales volume, historically, rather than the approach advertising do we need, how many dollars do we need to move the goods.

Q: Somebody has to convince the manufacturer, and I assume here we are saying the television people will have to convince the manufacturer. I wonder just how should or perhaps how are the tv people doing this today. Number 1, are they doing it? Number 2, if they are, how are they doing it?
A: Well, most businessmen are impressed by good examples of businessmen they respect. When Procter & Gamble was voted the best managed company in America, it was putting $73,000,000, or 77% of its budget, into television. The president of Procter & Gamble, who is a pretty sophisticated marketing operator, said "We use television because it sells goods economically." I think this type of testimonial to television serves to impress other American business leaders as to what television is doing for sales. The fact that over 50% of the billings of the top advertising agencies in the country today stems from television alone is encouraging evidence of the awareness on the part of American corporations that television is a kingpin in the selling process in America today.

Q: Do you see any signs that manufacturers are following this line of reasoning and beginning to increase their budgets now?
A: Do you mean the overall budget?
Q: Well, overall budget and then television.
A: Despite the so-called recession in the early part of '58, budgets have held up well. I know that it is estimated that the billing for all advertising this year will drop slightly, but very slightly. I would think that probably gross national sales will probably slip in '58 a greater percentage than advertising itself. Another trend that I see is that in a period of certain cutbacks in advertising, television has proved its strength by going forward, with both network and spot television enjoying increases in 1958 when other media were suffering cutbacks.

Q: That's what you mean when you say that American business is not in orbit?
A: We are in the throes, whether we like it or not, of a marketing revolution. Look at your discount houses; look at your supermarkets; look at the dry goods and drugs that are being sold in supermarkets today. There is a tremendous ferment in the distribution processes in our country. It is the challenge of business to gear its method of distribution and marketing to the modern day and to be sure that with the lack of at-the-counter salesmanship they make sure they persuade people to buy their product by the new modern methods—namely, advertising and in particular mass salesmanship through television . . . pre-selling through television.

In our economy it's not the purchasing power that is the determinant of our purchasing. Our savings in this country are at an all time high. The American people have $262 billion in savings, which if they want to spend or are persuaded to spend, they can. So we would have purchasing power, but actual purchases; it is not production but consumption that is the health-giving key to our economy. People must consume the goods that we can make, and to do this we've got to make them want to buy what we are producing. There is where advertising, particularly television, plays its role and can put American business "in orbit."

Bristol-Myers Heads Radio Network Top 30

A profile of the business side of network radio, ranking its top 30 users, is offered in a report being released today (Sept. 8) by Radio Advertising Bureau.

It shows that Bristol-Myers is the user of network radio time as any other advertiser in the second quarter of 1958, followed by Ford and General Motors. This type of information has not been generally released, in this form, since the old Publishers Information Bureau discontinued dollar measurement of network radio advertising some years ago. RAB's report is in terms of network time used, not dollar investments, because of differences in rate structures.

The study, based on data compiled for RAB's massive "Spot and Network Radio Clients Report," issued last month as the first of an expected series of quarterly reports [Lead Story, Aug. 11], reflects network radio usage for the sale of a great variety of products and services. Said RAB President Kevin B. Sweeney:

"There's one big message that comes across from this list of top advertisers: Network knows no favorites among products to be sold. Network radio today is being used by marketers and manufacturers of virtually every type of product and service imaginable—from mufflers to eyeglasses."

In the rankings, the top three are followed by International Parts Corp., R. J. Reynolds Tobacco Co., Brown & Williamson Tobacco, General Mills, William Wright, Jr., Pabst Brewing and Plough Inc.

The RAB "Radio Clients Report," from which the network rankings were computed, showed that, counting both spot and network, network radio advertisers bought approximately two million radio announcements and 90,000 radio programs in behalf of 1,304 different brands during the second quarter.

Following is RAB's April-June ranking:

NETWORK RADIO'S TOP 30
1. BRISTOL-MYERS
2. FORD MOTOR
3. GENERAL MOTORS
4. INTERNATIONAL PARTS
5. R. J. REYNOLDS TOBACCO
6. BROWN & WILLIAMSON TOBACCO
7. GENERAL MILLS
8. WILLIAM WRIGHT JR. CO.
9. PABST BREWING
10. PLough INC.
11. EX-LAX
12. CALIFORNIA PACKING
13. COLGATE-PALMOLIVE
14. HUDSON VITAMIN PRODUCTS
15. AFL-CIO
16. AMERICAN MOTORS
17. LEWIS BROWN
18. IHERTZ
19. AMERICAN OPTICAL
20. LIGGETT & MYERS TOBACCO
21. LEVY BROS.
22. CARTER PRODUCTS
23. READER'S DIGEST ASSN.
24. MILES LABS
25. GENERAL FOODS
26. A. E. STALBEY MFG.
27. QUAKER STATE OIL
28. DUMAS MUNER CORP.
29. BEECH-NUT LIFE SAVERS
30. SWIFT & CO.

Listing, compiled by Radio Advertising Bureau, Inc. is based on the amount of commercial time bought by network radio advertisers during the second quarter of 1958. (Excludes religious broadcast time.)

M-E Div. Loses Menken Products

The Menken Co., Morrisstown, N. J., last week severed all connection with McCann-Erickson and affiliated companies. The toiletries firm earlier this summer reassigned the bulk of its M-E billing to Warwick & Legler and Grey Adv., but kept the Menken Spray Deodorant, Speed Stick and other "unidentified products" with McCann's Marchalk & Pratt Div. The latter portion, estimated to bill $1.75 million, now goes to W&L, bringing that agency's Menken billing to approximately $3 million. The switch becomes effective Dec. 1. Other W&L Menken products: Skin Bracer, Colgate and Gold Crest toiletries gift line. Grey's major Menken account are in the women's and baby products field.

Ralston Purina broadcast commercials
line up dogs and masters behind new chow

Chow lines of "eager eaters" seem to be
growing by leaps and bounds in many major
cities across country.

Over network television, a wire-haired
terrier is seen "choosing" and gulping
his favorite dog food in a railroad dining
car, in a Thunderbird at a drive-in, or in
an Oriental restaurant. "If your dog could
choose his own dog food," the announcer
begins, "he'd pick New Purina Dog Chow."

Judging by sales results, the national
marketing success Ralston Purina has
achieved with its newest product out of
"Checkerboard Square" could scarcely have
been better if your favorite dog had chosen
his own chow. It might have been less than
satisfactory, however, without the effective
use of broadcast media, particularly
network television.

Ralston Purina tested its newest pet produc-
tent in Little Rock, Ark., in February 1955
and had claimed national distribution by
April 1957. In succeeding months Purina
Dog Chow started nipping and yipping
at the heels of its half dozen or so more
established competitors in the dry dog food
field with all the fervor of a canine bounding
the neighborhood postman.

While touching all media bases, Ralston
Purina has been particularly active in tele-
vision (network and spot) and, to a lesser
degree, in radio. Until early this year it
spent a whopping 80% of its $3 million
plus Dog Chow budget on broadcast adver-
tising, with network tv getting a meaty 75% of
all media expenditures. It has increased its
network commitments for fall.

Concurrently with expiration of its 52-
week run with Broken Arrow on about 140
ABC- TV stations, Ralston Purina has set its
sights on the 1958-59 season with one-third
sponsorship of two properties—Rifleman
(Tues., 9-9:30 p.m. EST) with Miles Labs
and Procter & Gamble on 150 ABC- TV
stations starting Sept. 30 and Leave It to
Beaver (Thurs., 7:30-8 p.m. EST) with Miles
and a third sponsor to be announced on 85
ABC- TV outlets, starting Oct. 2. It also
plans to continue half-hour syndicated films
(Gray Ghost, 26 Men, etc.) in non-network
local markets. Gardner Adv. Co., St. Louis, is
the agency for Ralston Purina's dog and
other animal-poultry chows.

Oscar Norling, account supervisor for
Purina Dog Chow at Gardner, explains:

"Our network television campaign for
Dog Chow provides national coverage plus
the opportunity for longer selling messages
and effective demonstration techniques. We
also are using some spots to give us fre-
quency and flexibility as demanded by in-
dividual marketing requirements."

With Purina Dog Chow now nearing first
place after a mere three and a half years,
C. E. Glaggett, Gardner president, broadly
commends the "advertising heart" of his
client for consenting at the outset to a com-
pletely integrated advertising-marketing
program. "You have to have all four bases
covered to create a marketing success like
Purina Dog Chow," he observes, allowing
to factors as a "superior product,"
good and sound marketing and merchandis-
ing strategy, and solid creative work.

In a country which numbers one dog for
every seven or eight persons and an esti-
mated 41% ownership among all American
families (23 million for 172 million people),
dog food sales (dry and canned) represent
a $345 million annual business. Nor is there
evidence of any saturation in a field that
has registered outstanding sales gains the
past 20 years. In fact, total dog food volume
has mounted at a clearly faster rate than the
average for other grocery products.

Ralston Purina's brand has been getting
a steadily larger share of the $100 million
dry dog food market. While actual sales figures are not
disclosed, Purina Dog Chow is acknowledged in most
quarters to be the closest competitor to Gaines (Gen-
eral Foods) in the dry market, which includes 19 dif-
ferrnt brands.

Other statistics about dog food in the battle for shelf
space:

- Supermarkets and other

- dry goods stores alone sell over

- $300 million worth of dog food

- annually; sales have risen

- 500% dollarwise and

- 250% by weight since 1940.

- Dry food sales account for

- about $100 million each

- year in those stores, booming

- 14% from September 1956

- to September 1957 and are still going up.

- The dry share of total dog food sales

- in grocery, delicatessen and general country

- stores as of September 1957: 33.9% in

- pounds; 63.1% in "equivalent pounds"

- (canned type equals 30% of dry weight),

- and 34.9% in consumer dollar expenditures.

RP's new packaged dog food is funneled
through the Ralston Div. of Ralston Purina
Co. (which also handles its cereals and is
separate from the Purina Feeds Div.). Working
closely with W. P. Hays, advertising
manager of the Ralston Div., is a Gardner
"commercials" team comprising Ralph
Pasek, radio- tv department; E. A. Langan,
account executive; Dean Pennington, copy
director, and Mr. Norling as account su-
ervisor.

In 1956, during the painstaking market-
by-market expansion of Purina Dog Chow,
Ralston Purina Co. was spending an
estimated $4.4 million in national adver-
tising for all its products. It poured
$3.1 million in television—$2 million in
network and the remainder in spot, accord-
ing to figures compiled by N. C. Rorbaugh
Co. for Television Bureau of Advertising.
Last year, the corporation spent $3,782,699
in tv—$2,723,689 in network, $1,059,010
in spot. During the 1956 drive, RP allo-
cated $714,570 to spot tv for its Dog Chow
—by far the largest allocation for any
one of its several products advertising in that
medium.

The parent company boosted its over-
all 1957-58 budget in the summer of last
year to about $7 million, largely because of
the need to promote Dog Chow nationally
after gaining national distribution in April.
It allotted some $3 million for national
media, plus another $2 million for other ad-
vertising-marketing-merchandising activities.

In the transition to truly national cover-
age, the company altered its initial ratio of
60% tv-40% other media to 80% and
20%, respectively, for the 1957-58 broad-
cast season (39 weeks). The revision was
based on results accrued from the time of
the Little Rock test drive to the start of
national coverage in March 1957—five ex-
perimental and 50 major markets later—ac-
cording to Mr. Hays.

Spot tv was used in 91 markets during the
early phases of product introduction,
and in 37 in the last phase. The company
bought The Big Story over 93 NBC-TV
outlets to herald national distribution March
29, 1957. In looking for a fall property,
Gardner's research department team came
up with two important conclusions: (1)
any Dog Chow network tv series ought to
appeal to a whole family audience and (2)
markets with children have higher dog
ownership potentials. Thus, Gardner bought

THE DOG'S

the star in this Ralston Purina commercial

BROADCASTING
WHAT IS A TIMEBUYER?

A timebuyer is an epicure who displays good taste in his preferences, and when he brews up a delectable buy, his cup runneth over.

WHAT DOES HE DO?
He buys

WGBI radio

Scranton—Wilkes Barre

because the station has consistently increased its dominance over its combined market since 1925.

In the latest Scranton-Wilkes Barre Pulse, WGBI has 45 per cent more listeners than "Station B," and 325 weekly quarter-hour wins—305 more than its closest competitor.

Seaworthy... and worth seeing!
First (and still the best) Navy-in-action series, NAVY LOG is now sweeping into regional and local markets with the most distinguished service record in all syndication:

Three-year uninterrupted hitch on network television;

Exceptional sales action for such gold-braid sponsors as U.S. Rubber, Sheaffer Pen, Maytag and American Tobacco;

Press citations from The Billboard ("Superior dramatic series")... New York Herald Tribune ("Absorbing, loaded with suspense, full of realism")... and a hold-full more;

A 21-gun salute from the Navy Recruiting Service which votes NAVY LOG its top television source of enlistments;

"Superior" rating from viewers: a 25.1 total Nielsen on the CBS Television Network* (NAVY LOG has a ready-made audience of 22 million ex-service men and their families);

104 headline-fresh, authentic half-hour films stowed on board—provisions for two years' continuous sales duty.

NAVY LOG commands the high seal! Signal orders to the nearest office of CBS TELEVISION FILM SALES, INC. ©
ABC-TV's *Broken Arrow*, a series that has remained on tv through this summer.

The commercials not only appeal to children but feature them prominently in a general family-type pitch. The program claims a substantial audience and popularity among families with children. It's evident that the Ralston Div. and its agency attempted to use the same kind of results from *The Rifleman*, a Four-Star Productions series, and *Leave It to Beaver*, produced by George Gobel's Gomalcon Productions.

The purchase of *Broken Arrow* represented a kind of departure from the pet soft drink pattern by some pet food manufacturers. In this group have been Quaker Oats' Zoo Parade, Hartz Mountain Products' Capt. Hartz & His Friends, and others. Some exceptions: Albers Milling Co. with Burns & Allen for Friskies (a subsidiary of Carnation Co.) and Wilson & Co. with the MCA-TV syndicated film series, *Dr. Hudson's Secret Journal*.

Armed with what it believes to be the proper program formats, and the right balance of spot buys, the Ralston Div. will continue to rely, as it has in past months, on the theme that Purina Dog Chow "makes dogs eager eaters." Created by the Glidden Studios, its canines in situations designed to be lifelike and believable. Additionally, a new series of fantasy tv commercials, to give variety to the sales pitch, are being used in combination with the straight commercials.

The opening copy gambit—"If your dog could talk, with his own food, he'd pick Purina Dog Chow"—works for visual impact by showing a dog actually making a selection in an unusual situation. There is precedent in research here.

These fantasy commercials (like those featuring American and Oriental breeds seated in a railroad dining car, at a drive-in, etc.) always cut back to the regular "eager eaters" theme.

John H. Tinker Jr., senior vice-president in charge of McCann-Erickson's creative division, at a recent AAAA meeting called this type commercial one of the most believable he's ever seen. He sees the idea of dogs shopping? "The kids like it," he points out, "and they yield a powerful influence on what Rover eats." Copy goes on to explain that five out of six dogs prefer Purina.

Gardner research showed that "palatability is the strongest, most basic appeal to dog owners," and that two such commercials tested by Scherwin Inc., achieved some of the highest ratings ever racked up for dry dog food announcements.

In actual practice, according to Gardner, it was found the dogs were best left to their own devices—"tearing after" the Dog Chow. As a consequence, the basic tv films were actually constructed in reverse—some 12,000 feet of film was shot (enough for a full-length motion picture) and copy was written and added later. The practice of going to the dogs has brought believability.

Family appeal has been evident in Purina Dog Chow continuity from the outset, in both broadcast and print media. Copy was directed at those housed largely in single-family dwellings. The early campaign also utilized a heavy merchandising tie-in program, supplemented by a radio-ty saturation campaign "coping" free samples to consumers. This device helped crack the tough marketing program of invading already-crowded grocery shelves.

Although Ralston Purina had been producing a dog ration for sale in its franchise stores for several years, it is the latest manufacturer to use the dry dog food field with a new product. It followed such competitors as National Biscuit Co. (Milk Bone), Gaines Div. of General Foods Co., Albers Milling Co. (Friskies), Kendall Foods Div. of Standard Brands (Hunt Club and Fives), Kasco Mills Div. of Corn Product Sales Co., Quaker Oats (Ken-L products), and Swift & Co. (Pard Meal). Among canned dog food manufacturers: Armour & Co. (Dash), Rival Packing Co. (Rival), John Morrell & Co. (Red Heart) and Wilson & Co. (Ideal).

RP's original product, in the words of one executive familiar with the situation, was "a ration made to nourish working dogs properly and palatable to pets. Other lines are for pet dogs." Company chemists looked into the matter of dry dog food for something more palatable in the early fifties and came up with a kind of air-blown feed. It was tested on dogs in Purina kennels in St. Louis and other cities.

The company's Ralston division selected Little Rock, Ark., as the first major test area for "X-24" dog chow because it already had a distributor there in February 1955. The response was gratifying, according to Mr. Norling, partly on the strength of an aggressive introductory campaign. It bought tv announcements and newspaper space, offering consumers a five-pound bag of its new Purina Chow free for a coupon accompanying each one of nearly 250,000 mailing pieces. So successful were sales results that the Ralston Div. constructed a new dog food plant in Davenport, Iowa. It moved into other cities—notably Rochester, N. Y.; Columbus, Ohio; Memphis, Tenn., and Salt Lake City, Utah. Ralston-Purina decided to put up its packages in four sizes, assigning its grocery division the job of marketing the product through groceries.

The weekly pattern became a familiar one in each city: the first devoted to jobber and chain store contacts, the second to actual retail selling, the third to launching radio-tv-print campaigns, on a heavy concentration basis the first 13 weeks, then tapering off the remaining 39 weeks.

It was evident early in the city-by-city test expansion that food brokers could do a better job of distribution than Ralston Div. by building its own sales force. It appointed a nationwide network of 74 brokers to represent its grocery products, supplementing them with 25 of its own sales representatives. One of the sales points it carefully put across was the size of the Purina Dog Chow package—virtually double the bulk of competing dry dog food products.

Over and above marketing strategy, the biggest single factor Ralston Div. capitalized on was its famed checkerboard packaging design. Gardner describes it as "one of the most effective recognition devices developed in American marketing history" (a recognition that is demonstrable in the case of the parent company's cereal products). (The National Flexible Packaging Assn. thought so, too, and awarded the Purina Dog Chow bag the First Blue Ribbon Award for 1956 in the paper bag division.) The design is the result of coordinated teamwork between C. C. Fawcett, Ralston Purina art director and nationally known dog authority.

*including ties.
The dog field has been one of the most heavily-researched of any product group over the past 15 years. A. C. Nielsen Co. has been auditing the market and its potential since 1942 against such factors as population trends for children, possessions, pets by age range, purchasing power per capita, the accelerating shift toward suburban living and single-family units, the continuing trend toward products controlling health and convenience, and ever-increasing amounts of advertising in support of pet products of which the $345 million dog food market is a large part.

Said J. P. Napier, Nielsen executive vice president, in a talk last year before the American Pet Food Manufacturers:

"... The growth of the dog food market was as far from saturation (under 1955 conditions) as it had been in 1941 because for every added pound of pet food sold, another pound was added to the industry potential by favorable factors. . . . Total dog food (canned plus dry) has kept right on gaining. . . ."

Other points he made:

- The number of children in the 5 to 14 age brackets will continue to climb for another five years.
- Purchasing power per capita is at the highest point in history.
- Despite new types and brands of dry dog food, retail stocks have not gained as fast as consumer sales (about 9% annually compared to 11% in sales).
- Retail stocks of 19 dry dog food brands totaled 904 pounds in the average chain store as of June 1957; weighted average price per pound was 14.2 cents from September 1956-September 1957 against 15.4 cents for that period in 1950 - down 8%—while the overall consumer price index rose 16% (due partly to increased weighing of some large package sizes and price reductions).
- The leading 17 dry dog food brands showed a total of 49 consumer "deals" in grocery stores during May-June 1957, the bulk in money-saving offers and others in combinations, coupon inserts and toys.

Nielsen concludes from product research that while consumer promotions fail to change long-term trends and usually result in only temporary sales gains, they may be successful on "new products—if they are good—or on products of limited distribution and use," according to Mr. Napier. They may even be "advisable—or necessary—for an established product as a defensive measure against an aggressive competitor."

Mr. Napier made plain these conclusions relate only to share-of-market trends and are not meant to appraise deals according to whether or not a particular promotion was profitable (Nielsen data does include promotion costs.)

The Nielsen executive went on to suggest a low-cost census of the U. S. dog population—perhaps a sample of dogs and other pets in 2,000-3,000 homes. "In our estimation this would serve to sharpen both the sales and the advertising efficiency of all elements of the industry. At least, the important pet food industry would at last know who its customers and prospects are!"

By now, Ralston Purina seems to have a pretty good idea who its customers and prospects are and how to whet their interest in Dog Chow. Last January it conducted a children's contest on Broken Arrow and in farm and general publications. It asked viewers and readers to identify eight famous dogs (among them, Orphan Annie's "Sandy," Steve Allen's "Steverino," RCA Victor's "His Master's Voice") and complete a jingle. It offered over 1,100 prizes totaling $50,000 to winners of its "What's My Name?" contest last March—such loot as a $20,000 first prize, station wagons, hi-fi sets, transistor radios and even dog mattresses.

But such gimmicks generally have been secondary to a sound, aggressive merchandising-advertising program geared to the television audience. The sales theme is summed up by a dog owner in one basic TV commercial with an outdoor motif:

"I've been feeding Purina Dog Chow for more than a year now . . . and my dog still comes running for it. Purina sure knows what dogs like. They tell me there's no dog food like this one. These aren't the usual hard, tough pellets. They're light, crunchy chunks. You'd think they were chunks of meat to see my dog eat them. . . . Yes! . . . I'd say we're sold, aren't we, boy? Ever see such an eager eater?"

And, what's more, Rusty or Rover always manages to dash over to the right dog food.

TALKING over the new Marlboro campaign in England, including a saturation tv spot drive [At Dead-line, Sept. 1], are these tobacco industry associates (I to r): Dave Morris, managing director of A. Lewis, a major English wholesaler-retailer; George Harris, managing director of Marlboro's Philip Morris & Co. Ltd., England, and Marcus Glaser, president of Glaser Bros., California wholesaler. The British campaign is being handled by Coleman, Prentiss & Varley, London.
No Hotpoint Ad Changes Seen In Sales, Distribution Split

No change in basic advertising functions is contemplated as a result of the creation of separate sales and distribution departments at Hotpoint Co. last week.

Effective Monday (Sept. 1), the consolidated sales-distribution department was dissolved and John F. McDaniel, its general manager, was named to a similar post with the sales department. It will be responsible for all Hotpoint operations connected with Graybar Electric Co. and independent distributors. Robert C. Hawley, formerly regional manager of sales-distribution for General Electric's electric receiver-appliance division, Appliance Park, Louisville, becomes general manager of distribution, including responsibility for main office and branches of Hotpoint.

As before, Lee DiAngelo, overall section manager of advertising and merchandising, and Al Utt, advertising chief, will continue to report to Mr. McDaniel. Hotpoint appointed Compton Adv. Inc. to handle its combined $3.5 million (tv receiver-appliance-trailer) account last June and reportedly is studying possible full broadcast media plans [At DEADLINE, June 16]. The company, meanwhile, has introduced five new electric ranges for 1959 and announced plans for consumer, dealer and distributor sales programs in other media.

Merchant Wants Broadcasters To Share in Alaska Boom

There's gold in Alaska, plus oil and furs, and a pioneer per-inquiry advertising agency wants broadcasters to start the parade of hardy Americans into the area.

"Friends, since Congress made Alaska the 49th state, tens of thousands of people have decided to share in the boom which is already an established fact in Alaska," says a 90-second continuity written by Edwina A. Kraft Adv. Agency, Los Angeles.

And Mr. Kraft wants broadcasters to share in this new wealth by collecting 60 cents for every $1 copy of a book called "Alaska Life" bought by listeners. The book is published by Alaska Life Publishing Co.

"Mr. Kraft has more than two decades of per-inquiry and mail-order experience in selling plants and flowers by radio. "This pays the highest of any dollar deal we have ever released," Mr. Kraft's pitch to stations explains.

WCTU Leaders Indict Television

Charges that tv commercials are training children to accept drinking of alcoholic beverages as "a way of life" were made by Jean Hansen, general secretary of the Local Temperance Legion, in an address at the 84th convention of the National Woman's Christian Temperance Union in Washington last week. Mrs. Virginia Reum, director of the WCTU's radio-television department, criticized some tv western, cartoon and quiz shows as unhonorable fare for children. The WCTU supports measures in each Congress to prohibit advertising of beer and liquor in all media.

Kroger Account, Now Divided, Expected to Be United at C-M

Campbell-Mithun had the "inside track" Thursday for an estimated $1.25 million in new Kroger Co. business to be relinquished by Campbell-Ewald Co. Nov. 1.

W. J. Sanning, Kroger advertising manager, told BROADCASTING that Campbell-Mithun's Chicago office as a good bet to handle the remainder of the Kroger account, with an announcement to be forthcoming shortly. No other agency reportedly is being considered. C-M already services 11 of the 22 Kroger divisions, plus the manufacturing unit.

"Both Campbell-Mithun and Campbell-Ewald inherits the split Kroger account last Oct. 7 from Ralph H. Jones Co., Cincinnati. C-E has resigned its portion on grounds that serving only 11 of the 22 divisions in 21 states was "unprofitable."

Foote to Give Opening Speech In Chicago Ad Seminars Oct. 2

Emerson Foote, senior vice president and director of McCann-Erickson Inc., will kick off the Chicago Federated Advertising Club's 22nd annual fall series of workshop seminars with an address in the Sheraton Hotel Oct. 2.

Under the general title, "Sales Are Our Business," top advertising specialists will speak at eight sessions on copywriting, art and layout, production, industrial advertising, marketing, and merchandising, public relations and publicity, direct mail and radio-television. The production and radio-television seminars will be conducted each Wednesday starting Oct. 15, two days after the workshop officially opens.

Co-chairmen of the workshop are Fred Isserman, brand manager of the Tonic Co., and Ruth Wood, account executive at Needham, Louis & Brophy Inc. A. B. Stone, vice president of Henri, Hurst & McDonald, is chairman of CFAC's educational committee.

ARF Audience Concepts Group Adds Canter, Steele as Members

Stanley Canter, vice president and director of research, Ogilvy, Bensley & Mather, New York, has been named to the Audience Concepts Committee of Advertising Research Foundation. Along with appointment of Herbert M. Steele, sales promotion manager of the New York News, the committee's membership is increased to 14.

Dr. Wallace H. Wulffek, ARF board chairman and executive vice president of William Esty Co., reported the committee "has been progressing in its efforts on one of the toughest and most controversial problems in advertising today. "Seymour Banks, manager of media planning and research, Leo Burnett Co., is chairman.

The Next 10 Days of Network Color Shows (all times EDT)

**CBS-TV**

- Colorcasting schedule suspended for summer.
- Sept. 8-12, 15-17 (12:30-1 p.m.) *It Could Be You*, participating.
- Sept. 8-12, 15-17 (2:30-3 p.m.) *Haggis Baggis*, participating.
- Sept. 8, 15 (7:30-8 p.m.) *Haggis Baggis*, sustaining.
- Sept. 9 (6-9 p.m.) *Mr. Crane* (repeat of a *Matinee Theatre* presentation), RCA-Whirlpool through Kenyon & Eckhardt.
- Sept. 10, 17 (9-10 p.m.) *Kraft Mystery Theatre*, Kraft Foods Co. through J. Walter Thompson Co.
- Sept. 11 (7:30-8 p.m.) *Tic Tac Dough*, Warner-Lambert through Lennen & Newell and RCA Victor through Kenyon & Eckhardt.

**NBC-TV**

- Sept. 12 (7:30-8 p.m.) *Big Game*, sustaining.
- Sept. 13 (8-9 p.m.) *Perry Como Show*, Sunbeam through Perrin-Paus, American Dairy through Campbell-Mithun, Kimberly-Clark through Foote, Cone & Belding, RCA-Whirlpool through Kenyon & Eckhardt, Noxzema through Sullivan, Stauffer, Colwell & Bayles and Chemstrand through Doyle Dane Bernbach.
- Sept. 14 (7-7:30 p.m.) *Noah's Ark*, sustaining.
- Sept. 14 (7:30-8 p.m.) *Northwest Passage*, sustaining.
- Sept. 14 (8-9 p.m.) *Steve Allen Show*, Greyhound through Grey, DuPont through BBDO, Polaroid through Doyle Dane Bernbach.

QUIZ PROBE VIRUS MAY SPREAD

The hassle over allegations that two major TV network quiz programs were "rigged" continued last week amid indications the probe might spread to other quiz shows.

Conceded by the New York district attorney. The investigators have received a number of complaints about other shows.

As of now, the district attorney is concentrating on *Dotto*, which was killed over the Aug. 16 weekend by sponsor Colgate-Palmolive, and *Twenty-One*, accused of fixing by a contestant who won $49,500 by—claiming—giving answers prepared for him in advance.

The district attorney in time will take up the other complaints, it was acknowledged, and should any one of them appear to contribute to the probe of quiz practices, the shows involved will be studied.

The quiz rumpus took a sensational and florid turn in New York during the week. Court summonses and perjury charges and a tape recording purporting to contain a "confession" by a quiz winner were made public and presented to the district attorney.

Nearly all of the "action" last week centered on *Twenty-One*, the hit quiz show of the past season and a program whose integrity was defended stoutly by sponsor Pharmaceuticals Inc., producers Jack Barry and Dan Enright and NBC-TV.

The march of events was stirred with a statement by Barry & Enright Productions to the effect that former contestant Herbert Stempel (the $49,000 winner who was de-feeted on the program in December 1956 by Charles Van Doren) had attempted to blackmail the program producers.

Mr. Stempel promptly denied this charge. Mr. Stempel said he had signed the March 7, 1957, statement released on Aug. 29 by Messrs. Barry and Enright [AT DEADLINE, Sept. 1] because Mr. Enright had offered him a job on the production staff in *Tic Tac Dough* (another B&F quiz show on NBC-TV).

Mr. Stempel said the B&E statement mentioning blackmail was "entirely false and malicious." He said he never had attempted blackmail, but repeated his charge that *Twenty-One* was "fixed."

The next round was played in the form of a tape-recorded conversation which producers Barry and Enright asserted took place on March 7, 1957, between Mr. Enright and Mr. Stempel, who, it was said, did not know his voice was being recorded. A duplicate of the recording was submitted to the district attorney.

In the recording, a voice said to be Mr. Enright's was heard to say: "You came in [pause] with a blackmail scheme, Friday, and I think to describe it any other way would be involving the issue. It was a blackmail scheme. Did you get his consent? The voice (purported to be that of Mr. Stempel): "Uh, [pause] yes." The recording—which fills nearly 40 legal-sized pages of transcript—largely covered circumstances of debt and how prize-money was "piddled away" by the voice said to be that of Mr. Stempel. There are references also to psychiatric problems and treatment.

Next development was disclosure that $18,500 in two checks of $8,500 and $10,000 were advanced to Mr. Stempel while the contestant was still on the show and at the time winning more than $50,000. According to Mr. Enright, the money was advanced because the contestant had threatened to leave the show, his winnings were running high and interest was building up.

Of the tape recording, Mr. Stempel charged it was "doctored," that he had not replied "yes" to the question about blackmail and that he had in fact answered "no."

Meanwhile, the district attorney asked for financial and program records of both quiz programs and began studying these along with the cancelled checks and the tape recording.

During the week, the probes continued investigation of principals and witnesses involved in the *Dotto* and *Twenty-One* incidents. Thursday (Sept. 4), the attorneys questioned Jack Narz, former M.C. of *Dotto*, and a producer associated with Frank Cooper Assoc. which packaged and owned the *Dotto* quiz program.

Admen Hold Breath As Quiz Ratings Dip

Advertisers, agencies, networks—and of course the producers—are watching closely the latest quiz show ratings last week to see what effect, if any, the past two weeks' investigation and charges of "fixing" had had on these programs' audiences.

On the basis of the first few ratings they looked at, they seemed to be having trouble deciding what was meant by what they saw. But there were indications that some quizzes had taken sizeable dips—at least last week.

NBC-TV's *Tic Tac Dough*, which like *Twenty-One* is a Barry & Enright production fell far short of Sergeant Preston of the *Yukon* in New York City ARB ratings last Thursday night (Sept. 4)—whereas in August its rating was virtually double Preston's.

Later Thursday night, *The Price Is Right* fell behind *Playhouse 90*, which it had beaten substantially in ARB's August New York ratings.

These ARB ratings represent, for last week's shows, New York measurements via the new Arbitron instant ratings system, while the August figures were compiled via the ARB diary method. ARB had hoped also to secure Thursday night measurements on its seven-city network Arbitron, which is now being tested and slated to go commercial within a week or 10 days, but a short circuit knocked the multi-city set-up out of commission for three hours Thursday evening.

In New York Arbitron gave *Tic Tac Dough a* 4.5 rating in the 7:30-8 p.m. Thursday period against 11.1 for *Sergeant Preston*. In the ARB diary measurement in New York in August *Tic Tac Dough* led *Sergeant Preston* by 12.4 to 6.4. The set-in-use level was about the same in both measurements.

The New York Arbitron for *Price Is Right* at 10:10-10:30 Thursday night was 11.2 against 14.5 for *Playhouse 90*. In the August diaries *Price* led by 25.7 to 16.8. Officials noted, however, the set-in-use level was about 10 points lower Thursday than in August and said this would hurt *Price's* ratings.

The daytime *Price Is Right* last Wednesday had an Arbitron of 8.7 against 3.7 for the Godfrey show opposite. The August diaries gave *Price 9.0 against 2.3 for Godfrey*.

*Top Dollar*, which replaced *Dotto* when Colgate-Palmolive dropped the latter show in the abrupt move that preceded the current investigations, had a 5.0 Arbitron in New York last Wednesday morning. In the August diaries *Dotto* registered 5.8.

*Trendex* by Thursday had 20.2 ratings of September performances of two quiz shows—NBC-TV's *Twenty-One* and CBS-TV's *Bid and Buy*.

For *Twenty-One*, one of the programs being studied by the district attorney, these showed a substantial fall in both rating and share of audience since July but only a slight decrease since August. *Bid and Buy* showed a gain since July in rating but a slight fall in share, with slight declines in both rating and share since August.

The *Twenty-One* show, for example, showed a 21.0 rating in July, 15.6 in August and 14.9 in September. Its share dropped from 43.5 to 34.2. Meanwhile, the same period. Thus the biggest drop was between July and August—and the show measured in September was on the evening of Labor Day, when viewing patterns might easily depart from the normal.

For *Bid and Buy* the 20-city Trendex rating went from 12.6 in July up to 14.3 in August and down a bit to 14.1 in September. Its share moved from 30.7 to 33.4 to 30.2 in the same period.

Meanwhile, ARB's new Arbitron instant ratings system measured the minute-by-
Yessir—our Pulse is stronger than ever!

YUP, at the ripe old age of 37, WDAY-Radio is as frisky as ever—with a 1958 "Area Pulse" that pumps us all over our 55 counties, 215,900 radio homes!

As for many years past, 1958 Pulse figures again show that WDAY-Radio gets—

More than TWICE as many listeners as the No. 2 station!

More listeners than the No. 2 and No. 3 stations COMBINED!

More than THREE times as many listeners as the No. 4 station!

Truth is—WDAY-Radio just doesn’t have any real competition in the fabulous Red River Valley. Ask Peters, Griffin, Woodward!

PETERS, GRIFFIN, WOODWARD, INC., Exclusive National Representatives
minute audience of last week's Twenty-One both on a New York local basis and on the basis of seven-city network reports. Both on the network's high tune-in for the first few minutes and then a heavy switch away, leading observers to speculate that many viewers tuned the opening to see whether any reference would be made to the probe. (None was.)

The seven-city Arbitron gave Twenty-One an 11.8 for the entire half-hour, as against 17.3 for re-runs of I Love Lucy running opposite on CBS-TV. At the end of the first three minutes the two programs were neck and neck, Twenty-One at 12.6 to Lucy's 11.9. At the 28th minute of the period Lucy was up 9.7 to Twenty-One. ABC officials said the trend was similar in both the New York city local and seven-city network measurements.

CBS-TV Dips in July, ABC, NBC Billing Up

CBS-TV's gross time charges were off 1.4% in July compared to the same period last year, but all three TV networks combined were up 5.9% in July and 12% ahead for the first seven months of the year. The July figures, compiled by Leading National Advertisers-Broadcast Advertisers Reports, were released last week by TVB.

ABC-TV and NBC-TV gross billings were up a respective 11.6% and 13.2% in July, while total gross billing for all three networks was $41,059,274. The TV network total for the first seven months of 1959 was more than $324 million.

When asked about the apparent slight dip in billing for July, ABC-TV authorities responded Thursday (Sept. 4) that the network's billing last year was at a "higher level" and that 1957 was a "peak year." Though the figure was off in July of this year, "dollar volume at CBS-TV is still way above," it was emphasized.

A year ago, similar compilations showed all three tv networks off in gross time revenue for August, CBS-TV then suffering the least of the three. At that time, it was pointed out unanimously by the networks that the August 1957 dip in gross billing was caused by network coverage of the political conventions, which unusually swelled the August 1956 billing (AT DEADLINE, Oct. 7, 1957).

**Political ‘New Look’ Forecast by Mickelson**

The day of the demonstrative and vote-seeking political convention is numbered—at least on network television. That's the word from Sig Mickelson, CBS News vice president-general manager, who last week told the Overseas Press Club of America in New York that come 1960, there'll be a radical "new look" to convention coverage.

"There will be the 45-minute 'spontaneous' demonstration, the long-winded and time-consuming nomination speech and with it—the sometimes-boring but always-costly matter of keeping a "hot line" open in the event that something "exciting" might take place, Mr. Mickelson said.

Videotape recording, he asserted, will enable network news editors to pare pre-ballotting coverage to the bone and then keep commercial pre-emptions to a minimum. He admitted that at the present time, VTR editing techniques are limited to tele-scoping short "takes" by bridging them with "inter-positive interpolations," but said that by 1960, "the people out at Redwood City" (Amplex Corp. headquarters) will have successfully mastered the problem of cutting and splicing videotape.

"It is of utmost necessity for the networks to unshackle themselves of 'gavel-to-gavel' coverage," Mr. Mickelson told OPC, pointing to the "unfortunate pattern" of convention coverage six years ago. In 1952, he recalled, the networks were forced to share a number of single cable lines in order to reach single-station markets and compromised by agreeing to carry the entire conventions from beginning to end. Thus CBS, which had agreed to provide sponsoring Westinghouse Electric Corp. with an estimated 17 hours per convention, ended up scheduling a total of 130 hours between the Democrats and Republicans; again, in 1956, the dramatics and exhibitionism dragged on CBS' coverage to 60 hours.

"The cost to us in pre-emptions was staggering," he noted.

The "Mickelson Plan," as outlined, would condense a 45-minute speech or demonstration into no more than 90 seconds ("The viewer will soon get the idea . . .") and would wrap up the conclave in an hour-long program. However, the network would continue its activities on the convention site as if it were actually broadcasting it, so that "instantaneously"—should an unforeseen bit of excitement creep into the session—"we'd be able to throw our coverage up to the air, live." The broadcasting session would, "of course," be covered in its entirety.

What would such a plan mean to an advertiser, say Westinghouse? Mr. Mickelson opined that the sponsor probably would be guaranteed minimum coverage in advance and that it could count on a "certain additional amount of time" for which compensation would be arrived at after the fact.

 Asked whether such a system would not be "against the public interest," the CBS News head felt not. He said "most of the pre-balloting heat is spent in smoke-filled rooms, inaccessible to the tv camera" and that a network might well risk antagonizing the mass viewer by depriving him of the staple programming on which he has come to depend. He cited the reaction in Champaign, Ill., when WCIA-TV there canceled its regular commercial schedule to carry the UN general assembly debate on the Lebanon problem. Since management, he recalled, "reported receiving calls in the ratio of 12-to-1 protesting the cancellations." He added, however, that after the station executives went on the air to tell their viewers, in effect, "You may not like it but it's good for you and we're going ahead with it," reaction reversed itself to 20-to-1 in favor of the special CBS News coverage —on VTR "by the way."

"Television," he said, "is uniquely a live medium . . . we believe in live coverage where warranted. But we'll not waste the viewer's time with the rehash of deliberations in which the significant developments are only a small part of the proceedings."

Tape may also improve foreign news coverage on tv as it's now known, he explained, but added that this is still "virgin territory to be explored. We still don't quite know which course to take." He said there were two and cited as a possible example a summit meeting at Geneva's Palace of Nations. "We could take upon ourselves the staggering burden imposed by the logistics involved in transporting and installing our own electronic gear," or "we could install a videotape machine." The latter course—while affording CBS the luxury of speed and economy in eliminating costly film processing—would present "considerable difficulties" but in the long run might be "better." Explaining, he said that the problem is essentially one of "translating the European tv system to compatible (U.S.) terms. "Were CBS to focus its VTR eye on the picture provided by Swiss Tele-

Dominating Minnesota's Shipping!
Two students, who hold scholarships awarded by American business, stop to talk to Dr. Howard R. Bowen, president of Grinnell College, Grinnell, Iowa. (L. to R.) Dr. Bowen; Janet Rispert of Stillwater, Minnesota; and Roger Soderberg of Elgin, Illinois. Says Dr. Bowen: "With its help to colleges and students, business is assuring a future source of leaders—not for itself alone, but for every phase of American life."

WHY SHOULD BUSINESS HELP COLLEGES AND STUDENTS?

College educations cost more today, too! In fact, for many young men and women—and for their parents—the increasing cost of a college education has become a major problem. And small, privately-financed colleges also have found themselves threatened by rising costs. Yet it is vitally important to America's future that our young people be well educated.

To help promising students and small colleges, we and other American companies have taken steps to give financial aid. Standard Oil, for example, has made funds available which provide for 34 graduate fellowships and undergraduate scholarships in science and engineering. Four-year scholarships awarded through the National Merit Scholarship Corporation also are included in this program. Thirteen students now are attending school on these scholarships. Supplementary grants are made to schools chosen by the Merit Scholarship winners.

In addition, Standard Oil has made funds available from which $175,000 is paid yearly to aid privately-financed liberal arts colleges in the Midwest and Rocky Mountain states.

At Standard Oil, where so much of our planning concerns the future, we believe there are few things more vital to the survival of our democratic, free-enterprise system than a well-educated public. That's why we provide for substantial financial aid to both colleges and students.

What makes a company a good citizen? One way of judging a company's citizenship is by its concern for the future—not for itself alone, but for the country as a whole. With business and colleges working together to build a stronger, more secure America through education, a brighter future is assured for us all.

STANDARD OIL COMPANY
(INDIANA)

Dr. Laurence M. Gould, president, Carleton College, Northfield, Minnesota: "If it were not for financial help from business organizations, many capable students would be denied a college education. The far-sighted companies giving this aid are helping to conserve one of our most valuable natural resources."

Charles Rieck of Chicago, National Merit Scholarship winner, and physics major at Notre Dame: "Business is helping to make it possible for many people to continue their education. Its concern for students and colleges shows a real long-range interest in national welfare."
vision (625-line picture), "we'd somehow have to convert this to suit our 525 lines." Then too, he asked, "what about the legal angle—do we have a right to be there in the first place? What about the Swiss?"
Mr. Mickelson commented again on the proposal by NBC chairman Robert W. Sarnoff that the networks pool their special events coverage on a rotation basis [Networks, Sept. 1]. Mr. Mickelson was not "wholly" in favor of the Sarnoff proposal.

Culligan, Sugg Named NBC Executive V.P.'s

Matthew J. Culligan and P. A. (Buddy) Sugg were promoted to executive vice presidents of NBC at the monthly board meeting last Friday (Sept. 5).

Mr. Culligan is in charge of the NBC Radio Network and Mr. Sugg is head of NBC Owned Stations and Spot Sales Div. Both have been vice presidents. Their elections to executive v.p. were announced by Board Chairman Robert W. Sarnoff.

Mr. Sugg, head of the Oklahoma City Publishing Co. radio and television properties for many years, left that post last spring to join NBC in the owned stations and spot sales vice presidency. He entered radio at KPO San Francisco in 1929 as a control room engineer, later was supervisor of engineers for NBC in San Francisco until he was called to active duty with the Navy in 1940.

He rose to the rank of captain during World War II. Afterward, in December 1945, he joined the Oklahoma Publishing Co. as manager of WKY Oklahoma City and later assumed direction of the other stations built or acquired by the company (WKY-TV, WSFA-TV Montgomery, Ala., and WTVT TV Tampa, Fla.).

Mr. Culligan, formerly in film production and with Hearst and other magazines, joined NBC in 1952 on special assignment to the NBC-TV Today show, then young and doing poorly in advertising revenues. When Today became successful Mr. Culligan was promoted to sales supervisor of Today and Home, and then served successively as sales manager of participating programs, national sales manager of the television network and head of the NBC merchandising department, and subsequently vice president and director of sales for NBC-TV before being named to head the radio network in August 1956.

In announcing the meeting WGA pointed out that no residuals are at present made to British tv writers nor to American writers contracted in England.

The guild executives will also discuss

PERSONNEL RELATIONS

AFTRA WCKY Tactics Cleared by Examiner

Actions by American Federation of Television & Radio Artists and its Cincinnati local, to keep members and advertising agencies from making recordings for use on WCKY Cincinnati, did not constitute violations of the National Labor Relations Act, according to an examiner's recommended order to the National Labor Relations Board.

Examiner Charles L. Ferguson, of NLRB, held Sept. 2 that notices to AFTRA members, a survey of recording performances and other steps designed to keep advertising off WCKY were within the law except for an error by a local union officer.

Last Jan. 10 a temporary injunction restraining AFTRA from certain alleged secondary boycott activities was handed down by Judge John H. Druffel, of U. S. District Court, Cincinnati [At Deadline, Jan. 13]. The injunction was effective pending NLRB action.

NLRB's regional office in Cincinnati had asked the court for the injunction [Personnel Relations, Jan. 6], contending the union had ordered member employees working on advertising recordings not to make any recordings for broadcast on WCKY. The station and AFTRA had been negotiating several months prior to the strike, which began Aug. 28, 1957.

Examiner Ferguson reviewed specific AFTRA actions, finding no violation in efforts to influence Gil Shepard, talent for WCKY programs broadcast by Sixty-Second Shops and placed by Ad Frontiers, to cease WCKY performances. Mr. Shepard was described as a salaried employee of Ad Frontiers though he later was paid a talent fee by Sixty-Second Shops for broadcasts and personal appearances.

The examiner's decision held activities aimed at advertising agencies to keep business off WCKY do not violate the labor act. "None of the unfair labor practices alleged in the complaint (by WCKY) has been established by a preponderance of the credited evidence," he held in recommending dismissal of the complaint in its entirety.

At the time of the federal court action last January, C. H. Topmiller, WCKY president, had charged the union with threatening to bankrupt the station.

U.S., British Writers to Meet On Extension of WGA Standards

Minimum standards and working conditions for American and British writers for tv and motion pictures will be a major matter of discussion the end of this month when Evelyn Burkey and Michael Franklin, eastern and western executive directors of Writers Guild of America, meet in London with the heads of the British Screen & Television Writers Assn.

It's Simply a Matter of Dollars!

If you added together all the money spent last year by all the people in Cincinnati, New Orleans, and Charlotte, N. C., you would just about reach the whopping total of $2.5 billion spent by people covered by WOWO, the 37th Radio Market.

If you're buying top radio markets, you must include...
...reporting to WSRS News from Little Rock.

September 1957, Little Rock, Arkansas. The eyes of the nation were focused on a handful of Negro children attending Central High School behind the unsheathed bayonets of Federal troops. Newsmen by the hundreds poured in to feed the story to an eager public. And on the scene, keeping abreast of developments and often setting the pace was a radiotelephone-equipped NNN Corvette News Cruiser.

"Your informative, action-packed coverage...was excellent," wrote S. R. Sague, president and general manager of Cleveland's independent WSRS. "Send more," wired News Director Alan Jarison of Las Vegas' KRAM. "The feeds were of a generally excellent nature...Please inform us first on future events," said Marty Ross, News Editor of Albany's 50kw WPTR.

During the past eventful year, NNN men have trekked through rebel mountain hideouts in Cuba, reported missile tests from Cape Canaveral, followed teenage killer Charles Starkweather on a reign of horror in Nebraska and Wyoming. By speedy Corvette or Twin Bonanza airplane, NNN crews rush to the scene of major news. From Omaha, the geographical heart of the nation, NNN staff men keep attuned to minute-by-minute indications of headline-making events. Within hours, often less, a reporting team is at the locale and on the air with graphic, factual news and interviews.

More than forty stations in the United States and Canada are familiar with NNN service. Through experience that comes only with growth and engineering technology NNN now has the most unique and inexpensive method yet devised for the speedy transmission of news. Because of these advances more stations can be added, giving listeners in your area a vivid, on-the-spot account of news happenings, building, in the process, loyalty and higher ratings.

Listeners hear the newsman open and close each report with your call letters, adding to audience and prestige.

Here's the most gratifying news of all. Why chance a pig in a poke? No need to since all service is unconditionally guaranteed to be fast, accurate and colorful. And you are the judge. To quote an old restaurant motto, "You must be pleased or you must not pay."

No enterprising station can afford to be without this unique service. Remember, only NNN offers the experience of top-flight newsmen and a product that is unconditionally guaranteed. Drop us a line. The rates are tailored to your situation and will surprise you. For more information write, wire or phone Promotion Department, National News Network, 1908 California, Omaha 2, Nebraska.

elimination of price cutting to stymie “runaway” producers, an exchange of policing information on residuals and the solidifying of other rights such as copyright revision.

To further these objectives, top executives of the British and French writers’ organizations, plan to attend the WGA national council meeting scheduled for November in New York.

**Film Strike Averted By SDIG-FPA Agreement**

A strike by the recently-organized Screen Directors International Guild, New York, was averted when the Film Producers Assn. of America and the guild agreed on a proposed contract last week. The strike had been threatened to start Friday (Sept. 5).

The contract for some 300 freelance directors employed by FPA members covers minimum wages, status of apprentice directors, relations of owner-producer-directors with the guild and “general working conditions.” Avoidance of the strike means that tv commercial productions by 25 of 35 FPA members engaged in such work will continue unimpeded. Among tv commercial firms represented by FPA are Sarra Inc., Filmways, Elliot-Unger & El-liot, Transfilm, Shamus Culhane and Robert Lawrence Productions Inc. The three-year agreement now goes into effect.

The settlement caps a year-long struggle on behalf of the directors to seek recognition in the East. SDIG was formed last year by a number of New York directors after it was decided not to affiliate with the Hollywood-based Screen Directors Guild. SDIG says it has clamored for recognition by FPA for some seven months, but the latter organization, involved in arranging contracts with other unions, deferred negotiations until early this summer. On Aug. 21, the guild notified FPA by telegram that unless an agreement were signed by Sept. 5, it would stage a walk-out [At Deadline, Aug. 23]. Upon receipt of the telegram, FPA President Nathan Zucker rejected the strike threat; later, FPA, having been advised that SDIG had approved changes and modifications proposed by the association on Aug. 28, indicated a willingness to come to terms. Among them:

- A minimum pay scale for freelance directors of $275-$450 a week “depending on the category of direction,” e.g., from uncomplicated to what one FPA official calls “very, very complicated.”
- An owner-director need not join the guild as a matter of necessity.
- A producer may develop any number of directorial apprentices but cannot use such development as a means of locking out SDIG members; FPA apprentices are limited to a total of 10 minutes’ worth of direction or five full working days a year.
- Freelance directors must be SDIG members and if not, must join SDIG “within 30 days” of assignment.
- Owner-directors need not use SDIG talent if they themselves seek to do such work.

It was explained by an FPA official that these modifications concerning owner-directors were inserted to protect “those members of ours who both produce and direct film.”

Meanwhile, FPA executives, asked whether the Justice Dept. had acted on its talks with the Antitrust Div. concerning videotape [At Deadline, Aug. 23], indicated that nothing had yet been heard, that any reply would probably not be forthcoming “before two or three weeks.”

**More Live Music in Film Series Predicted in Wake of MGA Pact**

Increased use of live music on tv filmed programs is anticipated as a result of the new agreement between Musicians Guild of America and the major motion picture producers [PERSONNEL RELATIONS, Sept. 1]. MGA membership ratified the pact at a special meeting last Monday evening (Sept. 1) by a vote of 98 to 5. On Wednesday, when the agreement became effective, 20th Century-Fox called in a group of musicians for a scoring session, the first time a musician has been called to work at a major motion picture studio since the inception of the AFM strike last February.

The eight companies signing the new agreement have as subsidiaries a number of tv film production organizations which are also covered by the terms of the MGA pact. These include the tv divisions of Warner Bros. and Walt Disney, with MGM-TV, TCF-TV and Interstate Tv (Allied Artists subsidiary). Under the agreement, these companies can employ musicians for work on tv filmed programs at the rate of $55 per musician per three-hour session, an increase of $5 per man per session over the AFM rate. The MGA deal also requires a minimum of three hours work for each 13 half-hour programs on which live music is used at all. AFM has no such minimum requirement.

But AFM does require that any company using any live music on any tv film series must pay into the Music Performance Trust Funds a sum equal to 50% of the gross cost of the program, a requirement not demanded by MGA.

So, if 20 musicians were to be employed for a single session to score a single program of a tv series whose episodes averaged $35,000 in production costs, the producer using live musicians would spend $100 more in paying the men, but would save $1,750 in trust fund fees. MGA is confident that the elimination of trust fund payments will encourage much greater use of live musicians on tv films, 90% of which are currently scored from foreign soundtracks or from music previously recorded.

Tv film producers not associated with the major motion picture companies who currently have contracts with AFM are not in a position to sign MGA contracts until the expiration of the AFM tv film agreement early in 1959. Companies who have not previously used live musicians for their tv films and do not have AFM contracts are eligible to sign pacts with MGA at any time they desire the services of live musicians.

**It's Simply a Matter of People!**

If all the people in Buffalo (1,340,000), Providence (705,000), and Nashville, Tenn. (363,000) got together, they would almost total the big, bustling market reached by WOWO, the 37th Radio Market.

VIDEOTAPE GETS NEW TRICK, NEW FANS

Ampex markets a splicer; the clients keep climbing aboard

The threshold of film flexibility in videotape program production and editing—at least at the local station level at the outset—drew a big step closer last week as Ampex Corp. quietly began shipment of the first commercial production models of its semi-automatic tape splicer from its Redwood City, Calif., factory. The initial units went South to Texas to help produce a weekend football package Humble Oil & Refining will sponsor there.

While network officials in some quarters were skeptical that the splicer could produce the virtual 100% reliability of splice mechanically and electronically which they demand for network production requirements, Ampex officials felt the development is significant in that videotape editing will become practical on a day-to-day operational basis for the proficient station technician—a fact which certainly could not be claimed for the earlier wet-patch, hand-and-jig method still in general use.

Although the splicer does not pretend to be an "editor" in the sense of the familiar film industry editor-splicer, Ampex feels it is at least a reach in that direction and should further fire the creative imagination of both the live program packager and the film syndicator. Both have been held back by the videotape requirement for continuous, uninterrupted recording, but they are being stirred by the several videotape program pilots now making the rounds of Madison Ave. Nor have the packager and syndicator been asleep to the fact that TV film facility studios in both New York and Hollywood—especially New York—are fast tooing up with videotape equipment and for some months have been turning out considerable commercial spot and program product for advertisers and agencies.

One such pioneer studio is Telestudios Inc., New York, which is reported on the verge of an agreement with National Telefilm Assoc., signifying NTA is preparing for the day when videotape will be considered a serious competitor for the syndicated program dollar.

Probably the first film producer-distributor known to be actively making the big switch to tape is Guild Films Co., New York, which for several months has been

Videotape will help ABC-TV "maximize the use of its facilities" this fall when "Operation Daybreak" gets its major daytime live program schedule underway Oct. 1. For instance, Liberace probably will tape two or three shows at one session, cutting production and other costs as well as time. One of the summer live shows which originated via tape, Stars of Jazz, will continue on the fall schedule.

CBS-TV, which has had several major live series originating via tape during the summer, continues most of these on a tape basis during the fall and will add two more, For Love or Money and Pursuit. Those continuing via tape include Lamp Unto My Feet, Look Up and Live, The Verdict Is Yours, The Last Word and Captain Kangaroo. CBS-TV has seen numerous tape inserts in live drama shows this past season on such series as Playhouse 90, Climax and Studio One, but all such inserts have been intact segments devoid of breaks or editing.

There is one live show packager—David Susskind and Al Levy's Talent Assoc. Ltd.—which is already very much in the tape business. Talent Assoc. is packaging 87th Precinct for ABC-TV Sunday 9-9:30 p.m. from on-scene locations in New York with mobile truck live cameras microwaving continuous action sequences back to the network's central control for videotaping (CLOSED CIRCUIT, Sept. 1). The producer is Alex March who also is doing the live production of Swiss Family Robinson for Rexall on NBC-TV Oct. 12. He plans to tape in uninterrupted segments certain hurricanes and animal sequences for Robinson and is enthusiastic over Ampex splicer as a practical step nearer to the vital tape editing tool which would give the packager the complete production flexibility now possible in film.

News of commercial production of the Ampex splicer was learned in New York Thursday at the opening of the firm's product exhibit in Grand Central Terminal at the information center of Merrill Lynch, Pierce, Fenner & Smith. The first prototype splicer had been exhibited during the NAB convention in Los Angeles last April and it and a second prototype since then have been "field testing" in the hands of engineering and operations officials at KTTV (TV) Los Angeles, CBS-TV Hollywood and New York and NBC-TV Hollywood, among others. KTTV has been very active in local tape operation, is syndicating its Divorce Court show through Guild Films and has its own pilot tape series on Madison Ave. (STATIONS, July 21).

The complete splicer kit will market for $780, including shelf attachment to secure it on the front of the ampex videotape recorder console. The splicer makes automatic many of the delicate hand operations presently required to match together the tape segments at the precise editing point positions which can be "seen" on the tape with use of Ampex Corp.'s special Edive liquid.

CONTACTED later Thursday, Ampex national sales manager Bob Paulson said between 15 and 20 splicers will come off the line at Redwood City this month and at the

BROADCASTING

THIS IS HOW the new Ampex videotape splicer works (1 to r): (1) the intermediate prototype before tape is inserted; (2) the tape is inserted from both sides and overlapped for cutting; (3) the cutting guide is locked and cut is made; (4) ends of the tape are held aside as splicing tape is positioned; (5) pressure plate is applied to secure splice completing the operation.
The refreshing sound of KBIG isn't intended to "send" Junior.
But it does provide freedom from frenzy for "squares"...the mature people who can buy your product. Melodic popular music of today and yesterday, plus award-winning news, captures a 91% adult audience (Pulse, Inc.) in 234 Southern California market areas. And a campaign on KBIG averages 71% less cost than on stations with comparable reach.
It's the most profitable radio coverage you can buy!

National Representatives: WEED & COMPANY
rate of about 50 a month thereafter. He said the unsolicited order backlog is about 30 even though the firm has not yet announced the splicers are in commercial production. He felt the splicer will prove the break-through for the program syndicator and predicted all major programs and commercials would be 100% tape in three or five years.

All Ampex videotape recorders sold up to now have included as an accessory a simple jig form in which the engineer could place the tape when hand splicing. Although Ampex itself and some station technicians have mastered the technique using the jig, Ampex has admitted it required "dexterity" and could not be considered practical on a day-to-day operation basis in all situations. An imperfect splice causes the tape picture to roll or break up.

A labor relations angle was injected by Theodore Grenier, chief engineer of ABC's Western Div., who said that he is familiar with the Ampex splicing process, but that videotape is never spliced at ABC-TV. The Ampex VTR machines are operated by members of the National Assn. of Broadcast Employees & Technicians, while the personnel who handle film or any substitute for film are members of the International Alliance of Theatrical Stage Employees. Accordingly, Mr. Grenier said, "We combine commercial and program material which were taped separately by re-recording them onto a new tape. We never cut tape. We can dub but not edit."

TEXAS FIRST WITH SPICER

The new Ampex splicers will be put to work immediately in connection with delayed coverage of the Southwest Conference college football games for a 20-station network, starting later this month. The games will be originated by KPRC-TV Houston, KRLD-TV Dallas and WAAT-TV San Antonio, depending on which is closest to the game site [ADVERTISERS & AGENCIES, July 7] and will be sponsored by Humble Oil & Refining, through McCann-Erickson, Houston.

Jack Harris, vice president and general manager of KPRC-TV, which last week was awaiting delivery of one of the new splicers momentarily, said it definitely would be used in condensing taped coverage originated by KPRC-TV. The plan is to cover the games with four cameras, relay coverage to the studios and tape it, then edit the tape to 45 minutes for broadcast the following day (Sunday). Since Ampex officials said KRLD-TV and WAAT-TV were due for delivery of splicers shortly, it seemed certain that they would put them to similar use on the games they cover.

Mr. Harris expected to use the splicer extensively, pointing out that KPRC-TV already is heavy in tape work. For one thing, it already has taped 22 commercials for Humble Oil for use in the football coverage, and has been using videotape for a number of other commercials.

On the program side, the station's morning farm program is taped "about half the time" because the farm director needs to be out in the field early. Tape also solves another problem, Mr. Harris pointed out. The girl who is m.c. of KPRC-TV's late movie currently is appearing in the lead role in the new production of "Damn Yankees" and hence must be at the theatre at the time the program starts. This problem is solved by taping her program lead-ins in advance, enabling the station to benefit from the publicity of her stage work and yet letting her program appear on schedule until she reaches the studio to take over live.

KPRC-TV also is slated for early delivery of a color adapter for its videotape machine but Mr. Harris said plans for taping in color had not yet been definitely set.

VTR ON OTHER FRONTS

Last week, too, there was a flurry of activity in VTR planning on the periphery of network operations. Items:

- Metropolitan Broadcasting Co., owner-operator of WNEW-TV [until yesterday WHBO (TV) and WTTG (TV)] Washington (as well as WHK Cleveland), indicated that it would—"within a fortnight's time"—videotape in advance all weekend (non-film) programming on its New York outlet, thus beginning the station on a "semi-automation basis." The ch. 5 station already had put on tape all ID's and promotional spots, proclaiming its new call-letters, and will syndicate—on tape—its seven-part documentary, Portrait of the USSR, which it presented live this past summer. WNEW-TV further will make available to advertising agencies and film producers its two Ampex recorders "just as soon as we have established a rate card for such activities."

- National Telefilm Assoc., New York, film producer-distributor and operator of the NTA Film Network, seems likely within the next week to announce completion of negotiations with Telestudios Inc., Bellwether independent VTR production center. The stock merger, now in the works, would call for NTA principals (Board Chairman Elia Kazan, with 40,125 shares, President Oliver A. Unger and Executive Vice President Harold Goldman with 40,125 shares each) to swap stock with George K. Gould, Telestudios president, and Alfred D. Markham, executive vice president. The arrangement would give Telestudios "added strength, prestige and resources" of NTA, according to Mr. Markham, and according to NTA spokesmen, would provide NTA with a tailor-made tv commercial-closed circuit tv-videotape production house. NTA-owned and operated tv stations—WNTA-TV New-ark and KMSP-TV Minneapolis-St. Paul—each have ordered VTR equipment from Ampex and expect delivery "very shortly." As in the case of the expected NTA-National Theatres Inc. merger [FILM, Aug. 25] the Telestudios-NTA arrangement would be subject to Securities & Exchange Commission ruling inasmuch as both are publicly-owned corporations.

Telestudios, with a sprawling plant on New York's Times Square (1481 Broadway), has been working with videotape since last April, having originally gone into
COPPER (and modernized plumbing codes)
keeps a lot of money from going down the drain

Why do more and more plumbing codes sanction the use of copper for sanitary drainage lines? Why the fast-growing preference for copper soil, waste and vent lines among architects, plumbers, and homeowners coast to coast?

You'd suppose it's because copper is lighter, smoother, longer lasting. And right you'd be! But copper drainage systems cost less to install, too—as many builders will testify.

For one thing, copper tubes are furnished in twenty-foot lengths. That means fewer joints. And these connections are quickly, neatly and permanently made with solder-joint fittings. There's no threading or caulking, so labor is less.

Copper tubes eliminate rust build-up... smooth inside walls resist clogging... hence they can be smaller in diameter than conventional ferrous piping. This avoids expensive extra-wide partitions, cuts carpentry costs, effects substantial savings in floor space and headroom on many jobs.

For your protection, changes in plumbing codes are made slowly, carefully. Yet hundreds of communities throughout the country have investigated, checked and rechecked, and subsequently approved this relatively new application for copper in building construction. Is your community among them?

Look into it. And remember, this trend to copper drainage systems illustrates what Anaconda research is always striving for, throughout the entire Anaconda line... new ways to do things better... more value for less money.

Technical information on copper drainage tubes is available on request. Simply address Anaconda at 85 Broadway, New York 6, N.Y.
business two years ago as a tv production center equipped for closed-circuit programming and testing. Its executives claim a “first” in that it was Telestudios which produce the first network-shown videotape commercial—a one shot announcement for Florists Telegraph Delivery Assn., Detroit (Grant Adv.), shown last spring on CBS-TV’s Person-to-Person. Since then it has recorded on tape on week-to-week basis the Kellogg cereal commercials for What’s My Line?—also CBS-TV—for Leo Burnett Co.; an 80-minute sales presentation for the NTA Film Network; a film for Pillsbury Mills’ annual “bake-off” starring Eleanor Roosevelt (Campbell-Mithun); a tv pilot for Carl Eastman and Ernest Chappell’s Video Varieties Inc., packagers of Times Square Varieties, a pilot film for a Telestudios-conceived tv series, Spacemen USAF, which it intends to produce on videotape, plus a number of industrial films shot simultaneously on 16 mm film and videotape. (It had prepared a series of videotaped commercials for the Mennen Co., via McCann-Erickson, for use in the sponsor’s tv fights programs, but these commercials were never used and the agency found not enough tv stations were equipped to service VTR commercials.) Telestudios, which has on order the Ampex splicing apparatus—delivery expected “late this month”—also will beef up its VTR arsenal with a specially-ordered, custom built RCA wipe-effect amplifier.

So far, Telestudios is the only independent production center actively using videotape. But others are “raring to go.” Among them:

- Termini Videotape Services Inc., 1440 Broadway, New York, a companion company of Termini Film Editorial Services Inc. (tv and theatrical film processors). TVS uses the studio and plant facilities of WOR-TV New York, owns one of two operating Ampex machines (the other being owned by the station). President Anthony Termini indicates his firm, “merely a service organization,” won’t try to compete with Telestudios as a “packager.” Since receiving its Ampex console June 14, Termini has stuck to “experimentation,” but says it’s about to sign its first videotaped tv film order with a Dallas film producer. It, too, has on order the Ampex splicer. Delivery is expected on or about Oct. 15.

- Elliot, Unger & Elliot, 414 W. 54th St., New York, one of the first independent tv commercial and film production houses to install the Ampex equipment so far has limited its activities to making “pilot commercials” and a test film starring Hildy Parks (see box at right).

- Filmways Inc., 241 W. 54th St., New York, likewise so far has kept to “making test images.” Its officials indicate, however, that they are about to leave the testing stage for actual production. Like EU&E, Filmways has been principally engaged in regular 16 mm tv film commercial work.

- Guild Films Co., New York, long-time film producer-distributor, is jumping into tape with both feet. It has several show properties in production planning stage for videotape series and has started distribution of KTTV (TV) Los Angeles’ full-hour taped Divorce Court. In the Initial two weeks, Divorce has been sold to WPIX (TV) New York, WHDH-TV Boston and KING-TV Seattle.

Two other New York independent stations also are banking more and more on videotape. WPIX, for example, has ordered its first Ampex machine and expects to have it installed by Oct 1 in order to carry the premiere (first-run in New York) of Divorce Court.

(A sidelight was made known last week by the station: Its officials said that the Ampex Corp. had promised to feed Divorce Court out of its demonstration area at Grand Central Terminal Oct. 3 should the WPIX machine fail to arrive from Redwood City in time for that night’s premiere.)

WOR-TV New York is using VTR in yet another way: It is making available to its clients use of the Ampex recorder at no cost. Among those who have been using the Ampex console owned by the Yonkers (N. Y.) Raceway to record the trotting races there, then plays them back on its own machine. (The track officials use videotape to monitor race finishes, thus apparently have obsolet the usual flash camera device.) Among the advertisers which WOR-TV says are now showing or about to show their commercials via videotape on that station’s morning cartoon program are Miles Labs (Bacitaine) via Wade Adv. Assoc.; Taylor-Reed Corp. (Cocoa-Marsh) via Hicks & Greist; U. S. Rubber (Keds) via Fletcher D. Richards; Arnold Bakers via Charles W. Hoyt Co.; Good Humor Corp. via MacManus, John & Adams; Adell Chemical Co. (Lestoil) via Jackson Assoc., and the M&M Candy Div. of Food Mfrs. Inc. via Ted Bates & Co.

Ampex now has between 150-160 monochrome commercial production model videotape units in the hands of customers and its factory backlog currently calls for January delivery of new orders. It hopes this month to begin delivery of its initial prototype color units which will convert the monochrome recorders to color. ABC-TV now has 18 machines, CBS-TV has 23 with 6 on order, and NBC-TV 16 with 4 more to be added in November. Guild Films, New York, is understood to be the only film firm with a machine. No advertising agency has yet acquired one or placed an order, although many agencies throughout the country are actively using local station machines and those of commercial rental studios.

**Much to Say**

At least one tv network official had videotape on his mind last week, and said so. Sig Mickelson, CBS Inc. vice president and general manager of CBS News, advocated the new technique in addresses before the Overseas Press Club in New York (page 52) and the Indiana Broadcasters Assn. in Indianapolis (page 78).

An interview show is essayed by Elliot, Unger & Elliot in a projected videotape series. offering Lawrence Langner, president of the Theatre Guild, on the pilot of The Hildy Parks Show. At right Bill Unger (at console) reruns the tape for Miss Parks, Mr. Langner and Mike Elliot.

How to Sidestep the Darkroom

New uses for videotape seem to be found regularly. This is not the first time it’s been so used, but in the accompanying pictures it is being employed to make a pilot of a projected television series—The Hildy Parks Show, an interview program on which Miss Parks interviews notables. Shooting on the pilot tape was done in one evening, and the program was ready for showing to advertisers and agencies immediately. The pilot was made at the New York studio of Elliot, Unger & Elliot, the film commercial maker which claims to be first in its field to install Ampex videotape equipment (last April). Thus far the firm has taped one commercial for Lux which has not yet been broadcast, has done a number of “pilot commercials” for other clients who, like EU&E, want to get the feel of videotape and explore its possibilities through actual usage.

COURT TO TEST CATV 'PIRACY'

Community antenna services, living off borrowed tv programs, will be called into court next week (Sept. 17). The first major test of the property rights of broadcasters, whose signals are picked up free and then sold by CATV systems, will come in the U. S. District Court at Helena, Mont.

Ed Craney, veteran broadcaster and principal in Z-Bar Network and associated radio-tv stations, has challenged the "pirating" of his signals by Helena Television Inc., operator of a community cable system in Helena. He has asked the court for a temporary injunction pending legal consideration of his petition.

Mr. Craney charges that Helena Television picks up the programs of Z-Bar's KXLJ-TV Butte, 50 miles away, by means of a mountaintop antenna and then services some 1,800 subscribers hooked into its cable system in Helena. This is done, he charged, without KXLJ-TV's permission and despite its repeated demands that the "pirating" cease.

The cable service feeds KXLJ-TV's programs in Helena in direct competition with KXLJ-TV, Z-Bar's tv broadcast station in Helena, according to the Craney petition. KXLJ-TV rebroadcasts KXLJ-TV Butte programs with permission, receiving the signals by means of a microwave relay station licensed by the FCC. High mountains prevent Helena viewers from picking up the KXLJ-TV broadcasts directly.

Helena Television, the petition states, converts the ch. 4 KXLJ-TV signals to ch. 2 and charges subscribers $3.94 per month plus a cable connection charge of about $48. As a result, the petition continues, KXLJ-TV has difficulty attracting advertisers to its broadcast programs originating at KXLJ-TV, its sister station; cannot build up goodwill in the community and is damaged by "the piracy and rebroadcasts" by Helena Television.

Unless the cable system is enjoined from the "piracy," Z-Bar claims KXLJ-TV will lose the operation because of lack of revenue. The KXLJ-TV plant represents an investment of $100,000 and it has been losing money since the start of operations last January, it is explained, interfering with the station's public service.

Three formal demands were made on the Helena cable system to stop "pirating" KXLJ-TV programs, according to the petition. The last was made June 23, 1958.

The cable system is violating the Federal Communications Act, it is charged. First citation is Sec. 325(a): "No person within the jurisdiction of the United States shall knowingly utter or transmit, or cause to be uttered or transmitted, any false or fraudulent signal of distress, or communication relating thereto, nor shall any broadcasting station rebroadcast the program or any part thereof of another broadcasting station without the express authority of the originating station.

Cable service is provided without authority of KXLJ-TV and despite demands that it be stopped, the petition states, adding that the cable pickups even include broadcast warnings that programs cannot be retransmitted for profit and that performance and copyright fees have been paid by the originating station.

Second Communications Act citation is Sec. 330, which contains this definition: "'Radio station' or 'stations' means a station equipped to engage in radio communication or radio transmission of energy." Helena Television is equipped to engage in radio communication, the petition claims, and rebroadcasts KXLJ-TV signals over its channel in competing with ch. 2.

The term "broadcasting" is defined in Sec. 3(c) this way, according to the petition: "'Broadcasting' means dissemination of radio communication intended to be received by the public directly or by the intermediary of relay stations." The cable system's equipment, changing the frequency of signals from ch. 4 to ch. 2 and then delivering them by cable are cited in connection with Sec. 3(c).

Z-Bar asks the court to issue a permanent injunction preventing the cable system from delivering its signals to subscribers, with a temporary restraining order during court consideration of the petition.

Former Sen. Clarence O. Dill, Spokane attorney who was one of the authors of the original radio act, presented the petition for Z-Bar and KXLJ-TV in the court of federal Judge W. D. Murray. The petition notes that Helena cable subscribers will continue to get KXLJ-TV programs on their sets by free reception of KXLJ-TV's rebroadcasts during the period of a temporary injunction.

CATV Firm Fails to Halt Relay

The FCC last week turned down Montana Microwave, Missoula, Mont., which feeds a CATV system in Helena, Mont., in its bid for dismissal or designation for hearing, and granted the application of ch. 12 KXLJ-TV Helena for a private tv intercity relay system between that city and Butte. At the same time the Commission granted ch. 35 WIMA-TV Lima, Ohio, a private tv intercity relay system between Lima and Fort Wayne, Ind. In making the KXLJ-TV grant the FCC advised Montana Microwave of its July major policy decision allowing tv outlets to operate their own private intercity tv relay systems regardless of whether any commercial common carrier facilities are available [GOVERNMENT, Aug. 4].

Montana Microwave Order

FCC has denied a petition for reconsideration and protest by Montana Microwave, Kalispell, Mont., microwave common carrier serving the Missoula, Mont., cable tv company, against a June 18 grant for KSMO-Tv Missoula to modify its own radio relay bringing in Spokane, Wash., tv signals. The FCC said allegations of injury were speculative and that its July 31 order permits stations to have their own microwaves [GOVERNMENT, Aug. 4]. Montana Microwave, which also serves a cable company in Kalispell, claimed that improved KSMO-Tv microwave relay would permit

tions (as against a single Spokane outlet
now) thus jeopardizing business of the Mis-
soula cable company.

Rollins Says He’ll Seek
Ch. 12 if Storer Quits
The first bid for Wilmington’s ch. 12
(and the body isn’t even cold yet) was
made Friday by multiple broadcaster O. Wayne
Rollins, president of Rollins Broadcasting-Telecasting Inc., who announced that he
would apply for the Wilmington channel
“when the license is vacated by Storer
Broadcasting Co.”

Rollins stations include two in Delaware
—WAMS Wilmington and WJWL George-
town—as well as kHz and radio stations in Newark, N. J.; Chi-
icago, St. Louis, Indianapolis and Norfolk,
Va. The company is headquartered in Wil-
mington.

“It has always been my hope that Dela-
wore could have its own television service
with particular emphasis on local and re-
gional events,” Mr. Rollins said.

At the moment, Storer has asked the FCC
to permit WVUE (TV) Wilmington to go
dark on Sept. 13 pending its sale [At
DEADLINE, Sept. 1]. This request was re-
cieved by the Commission last week. Storer
also stated that if no buyer is found, it is
proposed to surrender the ch. 12 permit.

In his letter to the FCC, George B.
Storer, president and majority stockholder
of the company bearing his name, said that
his company had spent $4 million in buying
the Wilmington facility and $749,000 in
improving its facilities. This included moving
the transmitter from Wilmington to Pitts-
man, N. J., to more adequately serve Phil-
delphia. Mr. Storer said that as of July
31 the station has had an operating loss of
more than $2 million—average over $147,-
000 a month.

Mr. Storer bought WVUE and Philadel-
phia radio station WIBO-AM-FM in 1957
for $5.6 million from Paul F. Harron. Mr.
Harron bought the tv station from the
Steinman interests in 1955 for $3.7 million.

The application for FCC approval of
the $4.5 million purchase of ch. 6 WTTI-TV
Milwaukee by Storer was also filed at the
FCC last week.

It showed that the Storer company was
paying $4,462,500 for all 10,500 out-
standing shares of Independent Television Inc.,
licensor of the non-network affiliated ch. 6.
This figure out to $425 per share. Major
stockholders of WTTI-TV are Jack Kahn,
30%; Arthur Fleischman and Lawrence
Fleischman, each 14.75%; Sol Kahn, 8.8%;
Robert K. Strauss, 5.78%; Max Osnos,
13.3%; William A. Roberts, 7% and
Emanuel Dannett, 5.15%.

WTTI-TV balance sheet as of June 30
showed total assets of $1,102,925, with cur-
rent assets of $113,015. Total current
liabilities totaled $215,107, and long term
indebtedness $479,662. Deficit to the end
of 1957 was $678,103, and losses in first
six months of 1958 were $79,782.

WTTI-TV won its grant in 1955, in a
comparative hearing contest over WMIL
Milwaukee. The ch. 6 station is officially
located to Whitefish Bay, a suburb of Mil-
waukee.

In his letter to the FCC, Mr. Storer said
his company would be willing to accept the
transfer of control of the ch. 6 station sub-
ject to prior disposition of WVUE.

Storer’s requirement to dispose of WVUE
is necessary in order to meet FCC regula-
tions which forbid any one owner from
owning or controlling more than five vhf
television stations. Storer also owns vhf out-
lets in Detroit, Toledo, Atlanta and Cleve-
lund.

Final Order on 770 Kc,
But Record Stays Open
The FCC last week issued what appears
to be final orders in the nearly-two-decades-
old 770 kc case—but ordered the proceed-
ing to be kept open “for the purpose of
considering further adjudicatory mat-
ters. . . .”

The Commission ordered both WABC
New York and KOB Albuquerque, N. M.,
to operate on 770 kc, both with directional
antennas. It maintained the channel as a
Class 1 frequency. It also approved use of
50 kw at night, directionally, for KOB.

It said it would specify the parameters
(limits) of the directional patterns.

The case actually started in 1941 when
KOB, which began operating in 1922 and
had used several frequencies and powers,
was assigned 1030 kc with 10 kw in March.
Later in the year, the Commission on its
own motion granted KOB a special service
authorization to operate on 770 kc with
50 kw day and 25 kw night. ABC at that
time began proceedings to force KOB off
its Class 1-A channel—an opposition that
has run for 17 years.

During that time ABC won two appeals
court decisions—the first, in 1951, held
that the FCC was required to give ABC
a hearing on why KOB’s SSA should be
continued; and the second, in 1955, when
the same court held that ABC must be
protected at night. That last resulted in
KOB directionizing at night.

During this time the station was sold
twice: in 1952 to Time Inc. and the late
Wayne Cuy, and in 1957 to KSTP Inc.
(Stanley Hubbard).

Mountains of wheat - worth about $1.65 per bushel - mid-summer spectacular in Texas, Oklahoma, Kansas and Eastern New Mexico

How to share in the big money

The wheat's in. Even the fabled Big Oil Man from Texas is envious. The crop was that good.

Let us tell you what happened in the top 24 wheat-producing counties in Texas alone. (KGNC-TV covers all 24, plus 20 other counties in four states.) We planted 2,126,000 acres and harvested 59,528,000 bushels. Now, we've sold the wheat for $98,221,200.00, give or take a few cents. That's folding money! And it looks like a big year for grain sorghums, cotton and vegetables, too.

Nature's bounty has laid down a bonanza for you in an already-active market of 535,000 people. To stake your claim in this new Southwestern El Dorado, simply add to your list

Offices in Principal Cities
Hugh B. Hutchison issued an initial decision which recommended that 770 kc be changed to a Class 1-B channel [GOVERNMENT, Feb. 10]. That would have permitted both stations to operate on the frequency at night.

But, by maintaining the classification of the frequency as Class 1, the Commission is protecting the channel’s status in international agreements, it is understood. Under the present Class 1 status, no foreign country may use the frequency at night. If it were changed to Class 1-B, other North American countries could use 770 kc at night, although they would have to protect U. S. stations on the same frequency at the border.

The FCC in its proposed clear channel rule-making notice suggested that 770 kc be duplicated in the same manner as last week’s decision [LEAD STORY, April 21]. This proceeding is still pending.

**Early Comments Filed On Multiplexing Uses**

With the deadline for filing comments still nearly a month off (Oct. 2), almost a dozen replies had been received by the FCC through last Thursday on the Commission’s request for opinions on whether it should take action broadening its rules to permit more types of fm multiplexing service [AT DEADLINE, July 7]. Among the extended uses of multiplexing which have been mentioned are price quotations for supermarkets, doctor-paging service and traffic light control.

In its comments to the FCC, KDFC (FM) San Francisco declared itself against any limitations on the types of subsidiary communications an fm outlet may provide. The California station also wants fm stations to be able to use subsidiary communications for relay purposes with only “technical considerations” limiting the number of such channels. KDFC (FM) further feels there should be no specific sub-channel authorizations and the use of these channels should be permitted when the main channel is not in use. KDFC (FM) is against any FCC grant for subsidiary communications “which can be intercepted by the general public,” such as stereophonic broadcasting.

KCMS-AM-FM Manitou Springs, Colo., notes that economics will limit the types of subsidiary communications and the FCC won’t have to. KCMS-AM-FM agrees with opinions expressed by KDFC (FM) in regard to the use of relays, no limitation on channels, and no specific sub-channel frequencies being allocated. KCMS-AM-FM feels, however, that these sub-channels should not be used when the “main channel is not being modulated.”

George Marti, president of KCLE-AM-FM Cleburne, Tex., commented that subsidiary communications should be limited, relay uses should be allowed, there should be only technical limits placed on the number of sub-channels to be used, and these channels should have no time limit as to their use.

KGAF Gainesville, Tex., was against any limits on the types of subsidiary communications, in favor of relay utilization, against specific sub-channel allocations, and in favor of allowing the use of the sub-channels even when the main channel is silent.

Dwight Harkins, multiplex manufacturer in Phoenix, Ariz., supports some of the stations’ comments as to urging that no limit be placed on subsidiary operations, permission be granted for the use of relaying, no limit be placed on sub-carrier channels, and stating that fm stations should be allowed to engage in multiplexing even when the main broadcast channel is not being used. Mr. Harkins reports that he has tested over 45 stations and in no case has he found that multiplex has shown any effect on quality of the main broadcast channel.

In contrast to these views, Radiocall Paging Service of Oklahoma City, Okla., lashed out at the possible use by fm stations of their multiplexing operations for paging service. “The FCC should not under any circumstances let the fm industry supply paging service on their facilities.... Let’s not let paging be done by every Dick, Tom and Harry, as a sideline.... Let’s place each industry on its own feet.... Let’s help the paging pioneers....”

International Municipal Signal Assn. asked the FCC for permission to use multiplexing to control traffic lights. Electronics equipment manufacturers Heath Co. requested “further evaluation of the multiplexed system” before any decisions are made.

Originally, in its amendment to the rules three years ago, the FCC authorized only specific functional fm operations, involving specialized programming consisting of news, music, time, weather and the like [GOVERNMENT, March 28, 1955].

**Ike Signs Appropriations Bills, FCC Receives $600,000 Increase**

President Eisenhower has signed a second version of the independent offices appropriation bill, which gives the FCC $8.9 million for fiscal 1959 operation. This is an increase of $600,000 over the $8.3 million appropriated for fiscal 1958, ended last June 30.

During July and August, the Commission spent money, under a special congressional authorization, at the rate called for in the 1959 appropriation. The President vetoed the first independent offices bill because he objected to an appropriation for civil service retirement. Congress then repassed the measure without the civil service provision.

The FTC received $5.9 million for its fiscal 1959 operation, approximately the same as in 1958.

A supplemental appropriations bill, which earmarks $10 million for a USIA transmittor to be constructed in North Carolina and an additional $142,000 for FCC salaries and expenses, also has been signed by the President. The National Defense Education bill, signed last Tuesday (Aug. 2), appropriates $8 million to be used over a period of four years to study the use of radio, tv and other media in education. All three measures were passed by Congress just prior to adjournment two weeks ago.
Pulse
admitted
Alaska
3 years ago!

And Pulse outside the U.S.A. employs standard Pulse techniques originated 17 years ago—used in Alaska and 222 U.S. markets last year.

Naturally Pulse's trained interview specialists "speak the language"—have a special grasp of local conditions.

For Pulse interviewing in the home is done by women who live nearby. No phone calls, no mailings, no "traveling crews." Solid—mature, responsible probing.

Therefore, if you are interested in our newest, proudest 49th state, with its high standard of living, amazing income, startling growth, possibly Pulse can serve you.

With standard data for television and radio—or for special research assignments—the complete facilities of the Pulse International Division are at your disposal.

For instance, interviewing in Puerto Rico and Mexico is conducted by a Spanish-speaking staff; in Hawaii Pulse interviewers are adept in dealing with the 85% of the population that is non-Caucasian—Japanese, Filipino, Chinese, Hawaiian, etc.

We invite your inquiry, can serve you abroad with the same high standards that prevail in our U.S. operations.

GOVERNMENT CONTINUED

AT&T CALLED UNFAIR
BY NEWS ASSOCIATES

- New firm cites 'press' rates
- Seeks same deal for radio-tv

An infant news-gathering organization, News Assoc., on behalf of its radio station clients has tackled a giant among corporations, AT&T, in an effort to secure reduced "press" broadcast rates on long distance telephone calls.

In a Wednesday (Sept. 3) letter to the FCC, News Assoc., President I. Herbert Gordon claimed it is unfair for the printed word to receive telegram press rates while telephone coverage of news is at reduced press rates, while telephone coverage of news is at reduced press rates.

"In the whole complex of news flow, the broadcasting-television industry has been generally ignored as though it were a mere stepchild in the field of news, without either the stature or significance of printed publications," Mr. Gordon charged.

He cited an example of two reporters, one for radio, the other for a newspaper, covering the same story at the same time. The newspaper reporter files his story via telegraph at reduced press rates, while the radio man telephone a broadcast directly to his station and is charged the regular commercial rate, he said.

"The inequity is obvious. It needs correcting," Mr. Gordon said.

News Assoc. informed the Commission that it has hired Stanley B. Frosh, Washington attorney, to file a formal petition seeking to require AT&T to establish a reduced "broadcast news" long distance telephone rate.

Mr. Gordon said Thursday the preceding would be filed within the next two weeks. He said that at times News Assoc.'s station clients are charged more by the telephone company than by the news-gathering organization for individual telephone broadcasts.

News Assoc. was formed in late June by former employees of INS following the UP-INS merger. It got into the broadcast business when five stations asked for on-the-spot coverage of the Supreme Court's special session on Little Rock school integration. Special and regular Washington coverage has been provided to several other stations by News Assoc., headquartered in Washington's National Press Building.

Mr. Gordon said he would welcome suggestions from stations regarding the move to secure reduced broadcast rates from AT&T.

FCC Withholds Action on 3 U's
At Request of Malco Theatres

The FCC last week granted a request by Malco Theatres Inc., Memphis, to withhold action until Nov. 23 on the firm's pending applications to construct three new uhf outlets. Malco had written the Commission asking for a delay due to the "uncertainties as to the overall future of uhf . . . ."

The three channels in question are ch. 40 in Columbus, Ohio, ch. 65 in Kansas City, Mo., and ch. 68 in Davenport, Iowa. FCC action is being withheld on these facili-
ties provided that competing applications for some or all of them are not filed in the meantime. The Commission noted that its grant in this case is without prejudice to such action as it may take with regard to any application Malco might file for extension of time to construct those tv stations for which it now holds construction permits.

Malco now holds ch. 19 Oklahoma City, Okla., ch. 48 Memphis, Tenn., and ch. 54 Utica, N. Y.

School, Commercial Tvs
To Share Michigan Vhf

The first commercial-educational tv share-time operation was authorized by the FCC last week with the grant of ch. 10 Onondaga, Mich., to Television Corp. of Michigan Inc. and State Board of Agriculture. Comrs. T. A. M. Craven and Frederick Ford dissented and Comr. John Cross did not participate.

The precedent-making grant, which would see State Board of Agriculture handling the outlet's programming every weekday morning and early afternoon, 4½ hours each evening and four hours Sunday afternoon, with the commercial operators using the channel at all other times, denied three competing applications for ch. 10 in Parma, Mich. The unsuccessful applicants are Triad Television Corp., Booth Broadcasting Co., and Jackson Broadcasting & Television Corp.

State Board and TV Corp. of Michigan were favored for ch. 10 in Onondaga in an initial decision early last year [GOVERNMENT March 11, 1957]. At that time, FCC Hearing Examiner Annie Neal Hunting found that the two winning applicants were superior over their competitors on integration of ownership and management, broadcast experience, local residence, past operation of broadcast stations and awareness of community needs and most likely to effectuate their programming proposals.

State Board of Agriculture is the governing body for Michigan State U. On July 7, State Board surrendered its permit for educational ch. 60 WKAR-TV East Lansing, Mich. TV Corp. of Michigan is owned by Edward E. Wilson, 60%, and WILS Lansing, 40%, the latter principally owned by John C. Pomeroy and family.

complete one hand operation

GATES PROFESSIONAL TRANSCRIPTION TURNTABLES

You shift speeds to 78, 45 or 33 1/3 by simply moving the shift lever to the desired index point—then touch the button to either start or stop. Complete one-hand operation leaves the other hand free for cueing or control board.

Gates positive operating 3-speed transcription turntables are designed entirely for the professional demands of radio and television stations, advertising agencies and recording studios. These turntables are capable of unusual speed accuracy, low vertical and lateral rumble and utilize the direct "speed shift" approach to eliminate springs, multiple drive wheels or gravity methods of speed change.

The transcription chassis only (CB-100), and the CB-210 complete turntable are both in stock for immediate delivery. The turntables are available with or without the CAB-6 cabinet illustrated above. Place your order today.

for Norfolk's
Norfolk. Norfolk is also served by CBS-affiliated ch. 3 WTAR-TV.

Last July, the three competing applicants for Norfolk’s dropped-in ch. 13 reached a merger agreement, permitting WVEC-TV Hampton-Norfolk (now operating on ch. 15 there) to receive the grant. The other two applicants agreed to withdraw their applications. They are ch. 27 WTVQ-TV Norfolk and Virginiaan Television Corp.

"WVEC-TV is owned by Thomas P. Chim-
man and associates, WTOV-TV is owned by
Temus R. Bright and Louis H. Peterson (Mr. Peterson owns WNOR Norfolk). Virginian stockholders include some who own WBOF Virginia Beach.

The merger agreement provided that Virginian Television and Mr. Peterson will each receive a 10% interest in WVEC-TV. Mr. Bright will receive a five year management contract, totaling $150,000. Mr. Pet-
son also will receive $26,067 for out-of-pocket expenses in connection with the WTVQ-TV ch. 13 application. Virginian will be partially reimbursed with $45,430 for its out-of-pocket expenses. WVEC-TV also agreed to take over a $50,000 note by Mr. Bright to Mr. Peterson's WNOR.

It is also contemplated that Peninsular Broadcasting Corp., licensee of WVEC-TV, will spin off its WVEC radio station.

The merger agreement was submitted to Hearing Examiner J. D. Bond late in July, but approval was postponed to Sept. 3 when Broadcast Bureau counsel stated he was unable to agree without further study (Government, Aug. 4).

The FCC assigned ch. 13 to Norfolk last year in its deintermixture proceedings.

In allied actions the Commission authorized WVEC-TV to change its assignment from ch. 13 to ch. 21 on a temporary basis to avoid electrical interference and denied various petitions and applications by other Norfolk parties for temporary operation on the vhf channel.

Rep. Keating to Go for Senate

Rep. Kenneth Keating (R-N.Y.), at the urging of President Eisenhower and Vice President Nixon, has decided to accept the Republican nomination to run for the U. S. Senate. Rep. Keating is the ranking minor-
ity member of the House Judiciary Committee. He will be opposed by New York City District Attorney Frank Hogan, the Democratic nominee.

FCC Reports 65 Class IV Bids
To Go Above 250-w Power Limit

Sixty-five Class IV (local) am stations thus far have applied for power increases up to 250 w. The FCC said it would accept bids to lift the 250-w limit on some 900 Class IV's in a rule-making (AT DEADLINE, June 2) which took effect in July. Of the applications on file with the Commission, five are for 500, the rest for 1 kw.

FCC action, however, must await coordination with other countries because the North American Regional Broadcast Agreement would maintain the 250 w limit.

The current applicants:

burg, Miss.; WNIA Harrison, Pa.; KNUZ Houston, Texas; KQTY Everett, Wash.

1540 kc: WILM Wilmington, Del.; WOL Washington, WNEP Scranton, Pa.; WHED Canton-
villa, Ga.; WHTC Holland, Mich.; WFLY Ely, Minn.; RUDI Great Falls, Mont.; KOER Eugene,

SEC STOCKHOLDER SCORECARD

The following stock transactions by officers and directors of companies in the radio-tv and allied fields were reported last week by the Securities & Exchange Commission (common stock unless indicated otherwise):

Alied Artists Pictures—Roger W. Hurlock in June bought 2,500 shares, giving him a total of 17,400.

Borg-Warner Corp.—Robert S. Ingersoll in July increased his holdings by 200 shares, giving him 2,000 total; George P. F. Smith, also in July, sold 500 shares which left him with 400.

Allen B. DuMont Labs—Allen B. DuMont last June decreased his holdings to 28,301 shares by disposing of 4,600.

General Electric Co.—William S. Ginn bought 450 shares for 3,617 total; James H. Goss purchased 480 shares, giving him 3,024; Robert Paxton purchased 1,100 shares for 21,502 total, and Willard Sahloff bought 1,545 shares for 6,174 total. Ralph J. Cordiner decreased his holdings to 11,630 shares by selling 6,000 and Philip Reed sold 700 shares, leaving him with 9,000. All of the GE transactions were in July.

Guild Film Co.—Henry A. McDonald increased his holdings to 1,000 shares by purchasing 500 in July.

Loew's Inc.—Charles Braustin in July purchased 500 shares, giving him 2,500 total.

MagnaVO Co.—Richard A. O'Connor sold 1,000 shares of capital stock, leaving him 59,917 total.

National Theatres Inc.—Peter Colefax and T. H. Swod purchased the 1,000 and 200 shares, respectively, they held in firm. Jack M. Ostrow Corp. purchased 1,000 shares for total ownership of 81,000. All transactions were in July.

Philco Corp.—Charles S. Cheston in July increased his holdings to 2,500 shares by purchasing 624. Philco's profit sharing plan the same month disposed of 1,800 shares, acquired 11,802 for total ownership of 476,071.

Television Industries Inc.—E. H. Ezzes purchased 100 shares, his only ownership in firm; Arnold C. Stream purchased 300 shares for 1,000 total. Both transactions were in July.

United Artists Corp.—Robert W. Dowling holding company in June purchased 200 shares, his only ownership in firm.

Westinghouse Electric—John M. Schieffelin purchased 500 shares and Tom Turner 200, giving them total of 12,500 and 2,125, respectively, in July.

TPA Plans U.S.-Russia Film Swap

A deal is being worked out whereby a U. S. syndicated film distributor will swap its product with that produced by the state-owned Soviet tv industry, it was disclosed last week.

"Within the next 60 days," Television Programs of America Inc., New York, should know whether the talks in Moscow between Russian film officials and Manny Reiner, vice president of TPA's foreign operations, will have been worthwhile, the company announced Thursday. Mr. Reiner returned from the U.S.S.R. last Tuesday (Sept. 2).

While Mr. Reiner hedged considerably as to actual terms and properties involved, he made it clear the negotiations do not involve an exchange of cash "since the Soviets seem more interested in exchanging —bartering, if you will—their films for ours." Should Mr. Reiner's talks see fruition, TPA would be free to distribute either on network or syndicated basis—"a maximum of six entertainment programs" for which TPA would receive normal network fees but keep some of these monies. TPA would, in return, make available to the Soviet Committee for Radiodiffusion & Television (U.S.S.R. Council of Ministers) such TPA products as Lassie and Fury, which the Soviets would dub into Russian. (TPA in New York would distribute their film properties for U. S. consumption).

He indicated that none of the properties—American or Russian—would have "political value," and that therefore so far as TPA is concerned, it would not anticipate advertiser or general audience resistance to the Soviet-made programs.

"I made it clear to the Russians that cultural exchanges are fine, but that TPA is in business to make money. Apparently they understood," Mr. Reiner noted. He refused to divulge actual details of the film exchange program, but said "I think we have the makings of a deal.

At the same time, Mr. Reiner said he also hoped to come to "some sort of agreement" with the broadcast heads of various Soviet satellites about similar arrangements. While in Warsaw, Mr. Reiner talked with members of the television division of the Polish Committee for Radio Affairs, and in Prague, with the Czech Committee for Radio & Television. Spokesmen for TPA said "a specific agreement between Czech tv authorities and TPA has been worked out 'in principle' and now must be further implemented by a formal agreement.

Mr. Reiner also gave a general rundown of Soviet tv activities and his impressions of them. He found it "simply amazing" that theatrical films in Russia are released to video within weeks after opening play dates, but was told that there is nothing unusual in this practice. "After all," he reported one Soviet official as telling him, "it's the same management." Among some of Mr. Reiner's findings:

- Moscow's two channels commence daily operations at 7 p.m., sign off before midnight; Polish tv operates on a summer cycle of five days weekly and a regular (fall) schedule of six days weekly—also on an evening schedule; Czech tv signs off earlier but will go on a seven-day basis starting next January; the Moscow set count for 5.2 million population is about 1.2 million and a rapid growth in community antenna usage compared to Leningrad, where the viewer sees the familiar individual rooftop antennas; Russian made tv sets—ranging from 8-21 inches in size—sell for 800-2,400 rubles (or in dollar terms based on the exchange rate of 4-10-1, $200-$600 [B&W]).

- Network tv as it is known here is non-existent in the U.S.S.R. and none is planned for another two to three years. Some 60% of Russian tv fare is "canned," stresses public affairs and education and is government-produced, thus reflecting the party line.

- In the two satellites television is less somber in output and even embodies the quiz show, giveaway and melodrama. In Czechoslovakia, 70% of programming is live, but the total set count for that country is no higher than 250,000; Poland, with a present set count of 40,000 is building 11 new stations and this month will set up its first tv network.

50 Warner Features Set for AAP Tv Sale

Associated Artist Productions suddenly has inserted a new reel for tv's continuing play of pre-1948 feature motion pictures.

The company is announcing today (Sept. 4) that additional pre-1948 feature products—more than 50 Warner Bros. feature films originally among those films which rights were purchased by AAP in 1956—have been cleared for tv.

A good many features were held back up to this time because of negotiations on talent and union payments. AAP says it took "intensive activity on the part of lawyers, agents and company executives and union stewards" to get this far and "seven figures running well up in six figures" to clear the features for television. Included were payments to guilds and to estates or stars which had rights in perpetuity to motion pictures.

W. Robert Rich, general sales manager of
—that's what you get on WFAA RADIO! Here's a real oasis for the advertiser tired of the "exposure" type audience requiring 3 or 5 times the spots to do the selling job one spot should do! People dial WFAA to hear farm news...to hear drama and comedy...to hear authentic news happenings...to hear something musically different. These are the "attentive" ears—and there are more tuned to WFAA-820* than to any other station in Texas, according to A. C. Nielsen!

*shares time with WBAP

Radio Services of
The Dallas Morning News
AAP, announced the new film clearance. Though AAP acquired all rights to the Warner library, AAP said "in the cases of a number of the pictures there were certain bars to immediate television release. Obviously, Warner Bros. could not sell more than it owned, and arrangements had to be made by AAP individually with stars, copyright owners, the Screen Actors Guild and others who held rights with respect to those pictures."

Among the new titles released by AAP: "The Maltese Falcon" with Humphrey Bogart, Mary Astor and Sidney Greenstreet; "The Prince and the Pauper" with Errol Flynn, Claude Rains and the Mauch Twins; "The Life of Emile Zola" with Paul Muni; "Hollywood Canteen" with a number of Hollywood box office attractions; "Cry Wolf" with Errol Flynn and Barbara Stanwyck; "Desperate Journey" starring Errol Ford and Ann Blyth; "Face the Nation, Conquest and See It Now." Mr. Philley joined Ziv's Cincinnati office from Roy S. Durstine, New York, in 1948 and became sales promotion manager, sales manager and general manager of the radio division. He had headquartered in Cincinnati. Economee is a Ziv division devoted to renewal properties. Mr. Philley's resignation follows that of Alvin E. Unger, vice president in charge of Ziv Television Programs' Chicago office, who left the organization after 19 years' service because of a policy disagreement. [AT DEADLINE, Sept. 1].

**FILM SALES**

CBS-TV Film Sales will begin making available to all U.S. stations off-network availabilities of top-rated CBS public affairs programs. Network film sales will distribute free of charge—as public service and on a sustaining basis—such items as Face the Nation, Conquest and See It Now.

Associated Artists Productions reports renewal contracts for Warner Bros. cartoons and Popeyes with WCHS-TV Portland, Ore., and KCRA-TV Sacramento, latter station also renewing 400 Warner features. New sales included Warner cartoons and Popeyes to WLBZ-TV Bangor, Me.; Warner cartoons and KRTV (TV) Great Falls, Mont., to KXIR-TV Valley City, N.D., and KLI-Z-TV Denver; Popeyes to WABT-TV Birmingham, Ala., and packages of Gold Mine library to WIS-TV Columbia, S.C., WCKT (TV) Miami, WOL-TV Ames, Iowa, KGLH-TV Billings, Mont., WJTV (TV) Jackson, Miss., WNEW-TV (TV) Bay City, Mich., and WABD-TV (TV) New York.

Miles Co. of California will sponsor Rescue 8, half-hour tv film series produced by Wilbert Productions and syndicated by Screen Gems, on six west coast tv stations starting Oct. 1, advertising Alka-Seltzer, through Wade Adv. Agency, Los Angeles. Series, based on history of Los Angeles County Fire Dept. rescue squad, will be telecast for Alka-Seltzer on KRON-TV San Francisco, KBEZ-TV Sacramento, KSCA-TV Los Angeles, KGLH-TV Portland, Ore.; K-Radio-Seattle and KHQ-TV Spokane, both Washington.

ABC Film Syndication added 13 markets last week to second-year renewal roster of 26 MCT, half-hour series, bringing renewal total to 44, Phil Williams, vice president in charge of syndicate sales, reported. New contracts are with: WXYZ-TV Detroit; WGR-TV Buffalo; KTBS-TV Shreveport; WMAL-TV Washington, D. C.; KROD-TV El Paso; KOB-TV Albuquerque; WJAC-TV Johnstown, Pa.; WPTA (TV) Harrisburg; WFB-C-TV Cheyenne; KSBW-TV Salinas, Kan.; KOAM-TV Pittsburg, Kan.; WCSC-TV Charleston, S. C.; and WDSU-TV New Orleans.

KBEZ-TV Sacramento has purchased MCA-TV film syndication's package of Paramount features.

WFIE-TV Evansville, Ind., has purchased Trans-Lux Encyclopaedia Britannica Film Library, for five year period.

---

**POWER PLUS**

Be sure to write, wire or call for details on this Power 6 Plus package of post '48 films. These six power packed titles can be rounded into packages of any size with Governor Television Attractions' 300 additional titles.

Page 76 • September 8, 1958
Believable as the familiar schoolhouse and the bell that beckons youngsters back to books and lessons—that is WWJ-TV in Detroit. Eleven years of superior television service to southeastern Michigan have given WWJ-TV such dominant stature that every advertiser enjoys a priceless advantage.

Be sure this fall. Be sure to use WWJ-TV, Detroit's Believability Station.
NAB Initial Fall Meet
Upcoming Sept. 18-19

Southeastern broadcasters will join NAB officers and guest speakers on the program of the first NAB fall conference, to be held Sept. 18-19 at Biloxi, Miss. Members of panels and guest speakers were announced Thursday (Sept. 4) by NAB President Harold E. Fellows.

Programming opens the morning of Sept. 18 and winds up at the last day's luncheon. President Fellows will be luncheon speaker the opening day with William H. Thomas, radio-tv director of Fitzgerald Advertising Agency, New Orleans, addressing the second day's luncheon.

Taking part in a sales administration panel for radio delegates will be J. W. Hicks, WRDW Augusta, Ga.; L. M. Sep- eau, WSLI Jackson, Miss.; Joseph Sierer, Edward Petry & Co., Atlanta, and Hugh M. Smith, WCOV Montgomery, Ala.

Daniel W. Kops, WAVZ New Haven, Conn., will speak on news broadcasting at the radio panel. John F. Box Jr., WL St. Louis, will discuss music programming and Robert T. Mason, WMRN Marion, Ohio, vice-chairman of the NAB Radio Board, will report as chairman of the All-Industry Radio Music License Committee. The license group is conducting negotiations with ASCAP and BMI on renewal of music contracts.

Problems of radio staff operation will be discussed by Howard L. Brooks, WIBO Baton Rouge, La.; Ray Butterfield, WLOX Biloxi, Miss., and Wilton E. Cobb, WMAZ Macon, Ga. Charles Okell, of Charles Bruning Co., will open a panel on internal efficiency.

Dwight W. Martin, WAFB (TV) Baton Rouge, and George B. Storer Jr., Storer Broadcasting Co., will address tv delegates on cost problems. William MacRae, station relations director of Television Bureau of Advertising, will lead a panel, “Getting the Most for Your Sales Dollar.” A panel on tv station programming will include Kenneth L. Tredwell Jr., WBTV (TV) Charlotte, N.C.; George Harvey, WFLA-TV Tampa, Fla., and James Woodruff Jr., WRL-TV Columbus, Ga.

Second meeting in the fall conference series will be held Sept. 22-23 in Oklahoma City.

NAB staff executives who will speak and direct discussions at the eight conferences include John F. Meagher, radio vice president; Thad H. Brown Jr., tv vice president; Charles H. Tower, manager of broadcast personnel and economics; Donald N. Martin, public relations assistant to the presi- dent, and Vincent T. Wasilewski, government relations manager.

Rockefeller First RTES Speaker

Nelson A. Rockefeller, GOP nominee for governor of New York, will be the first speaker of the 1958-59 season for the Radio-Tv Executives Society, Wednesday (Sept. 10) at New York's Roosevelt Hotel. Mr. Rockefeller will inaugurate a series of monthly “Newsmaker” luncheons planned by RTES. Also slated: the RTES Production Workshop which on Sept. 18 will hold a demonstration of videotape at Teledstudios in New York, and roundtable luncheons, the first set for Sept. 24.

RTES to Begin Seminars Nov. 18

The 1958-59 series of timebuying and selling seminars conducted by the Radio and Television Executives Society of New York will start Nov. 18, not Sept. 9 as erroneously reported in broadcasting last month. The luncheon sessions will be held at New York's Hotel Shelton and probably will number 16, conducted on consecutive Tuesdays except during the Christmas-New Year holiday period. Bob Teter of Peters, Griffin, Woodward, station representative, is chairman of the seminar planning committee.

Chicago SRA Sets First Meeting

The first luncheon meeting of the new Chicago chapter of Station Representatives Assn. is slated for tomorrow (Sept. 9) with FCC Comr. Robert E. Lee as principal speaker. The luncheon will be at the Sherman Hotel at 12:30. Jack Davis of Blair-Tv heads the Chicago SRA chapter.

Indiana Politicians Advised to Use tv News

Too many political candidates overlook the advantages that television news coverage could give them in their efforts to win and hold public office, Sig Mickelson, CBS Inc. vice president and general manager of CBS News said in a speech prepared for delivery Saturday night (Sept. 6).

They concentrate on tv for personal appear- 
eses during campaigns, he said, but they miss “the way in which television can be of greatest value” by failing to use tv's full advantages as a news medium.

Mr. Mickelson was slated to deliver the speech at the Indiana Broadcasters Ass'n. "Conference on Hoosier Politics" Saturday night at Indianapolis.

"Many candidates," he said, "get in touch with a television station only when they want time on the air. When they have news to relate, do they call that station's news department? Some do, but I'm afraid too many do not. Too many think they have exhausted all news possibilities when they call the city editor of the local newspaper. . . ."

"A candidate can profit a good deal more by being covered frequently on news broad- casts than he can by a few broadcast appearances. It is infinitely better to be talked about on news programs than to do your own talking about yourself."

By helping radio and tv do a better news job, he said, "public servants are helping themselves as well."

Mr. Mickelson coupled his advice to office holders and candidates with a plea for them—and stations—to take steps to improve broadcast news coverage and to give radio and tv access to news events equal to that enjoyed by print media.

He called it "short-sighted" that "too many broadcasting stations who can afford a well-staffed and competent news operation are just not bothering to do so." News, he noted, can draw big audiences and is "a highly saleable property" if well handled, in addition to building prestige for the station and contributing to "a democratic process that depends entirely on a well-informed public in order to function effec- tively."

Mr. Mickelson suggested that one area where stations might improve their service is in special coverage of their Washington delegations. This, he said, "takes a little money" but need not be "a costly operation."

He cautioned politicians that television is "not a do-it-yourself medium," advising that "a good advertising agency" is essential for a successful tv campaign and that professional advice should be sought in other areas as well.

Sumbler, Swift, Biederman On Michigan Convention Panels

Panel leaders for the Michigan Ass'n. of Radio & Television Broadcasters annual convention Sept. 11-12 were announced last week.

Three sessions have been set for Thurs-
Available for the first time for television

Western Area, headed for Crippled Children radio-tv director of in Stowe, main speakers are Gerald A. Bartell, head of the Bartell Family Radio Group, and Sol Taishoff, editor-publisher of Broadcasting.

Business meetings and election of officers for 1959 will occupy the Friday agenda. The convention closes Saturday morning with the annual championship golf tournament. John C. Pomeroy, WILS Lansing, is program chairman.

New England Meet Leads Off AWRT's 1958-1959 Calendar

Leading off American Women in Radio & Television's calendar of regional events for 1958-59 will be a New England Chapter conference next weekend (Sept. 12-14) in Stowe, Vt., according to Nena Badenoch, radio-tv director of the National Society for Crippled Children & Adults, Chicago, and AWRT national president.

On the following weekend, National Western Area, headed by Josey Barns, KDYL, KTVT (TV) Salt Lake City, will host its first conclave in Salt Lake City since last spring's national convention in San Francisco.

The Sight 'n' Sound seminar of the Southern Area, comprising 11 southeastern states and the Virgin Islands, will take place in Columbus, Ga., Sept. 26-28. At the same time the Southwestern Area chapters will meet in Fort Worth, Texas.

The following is the remainder of the regional conference calendar: Heart-of-America six-state group will meet in Kansas City, Mo., Oct. 10-12; Pennsylvania conference will meet at Erie, Oct. 24-26; Indiana AWRT assemblies in Indianapolis Nov. 15-16, and Michigan conference will be in Detroit Jan. 23-25.

**Culligan Looks Ahead In West Virginia Talk**

Communications will be one of the “most dynamic” fields of the future, and radio and television stations and networks — even advertising — will be only parts of this overall industry or science. This forecast was made last weekend by Mr. Culligan, executive vice president in charge of NBC Radio, in a speech prepared for delivery at the West Virginia Broadcasters Assn. meeting (Sept. 5). The meeting was held at White Sulphur Springs.

"I am confident," he said, "that eventually such titles as marketing, merchandising, promotion, even advertising, will disappear, and that specialists in these fields will become known as communications experts. We have barely scratched the surface in developing and refining communications techniques."

Mr. Culligan told the broadcasters that "wonderful new tools of communications are being handed us constantly. We must learn to use these tools. We must study new techniques, new approaches, new methods of communicating with people. This constant search will be productive if we all join in concerted effort. More than anything, new ideas must be consistently channeled into our industry. The result will be, commercially, greater effectiveness for all of us as advertising media."

"But beyond this it will mean greater effectiveness in vital communications between groups and organizations which serve mankind . . . in education . . . in medicine . . . in science . . . in national defense . . ."

He called attention to RCA's work in closed circuit television, to NBC Radio's "hot line" facilities and their use by "some of the largest advertisers in the country" for instantaneous coast-to-coast meetings, and to NBC Radio's development of the "memory vision" concept.

Mr. Culligan, who is credited with coining the term "memory vision" — which he defines as "sound thinking" — played a number of recordings to illustrate the principle: sounds that create specific emotional and intellectual responses.

"Research has shown," he said, "that sounds and music can make people work more efficiently. Even the production of eggs or milk can be increased. People can be made to eat more. Standard Oil Co. of New Jersey discovered that the pepper the music the more gasoline the motorist will use — he'll press more erratically on the gas."

He said "it is our aim, of course, to translate this into commercial techniques in our commodity . . . . Moreover, as long as the better results will be and the more business radio generally is likely to get. Thus we feel that this campaign will benefit NBC by benefiting the industry."

He expressed appreciation to "the many highly creative advertising agencies, like us, are expanding their use of research and psychology in their attempts to maximize the sales effectiveness of new approaches to sound."

The State Dept., he continued, was "sufficiently impressed" by the memory vision concept "to invite us recently to a panel discussion of methods of improving communications . . . . sounds and music know no language barriers. They are universally understood, regardless of geography, regardless of culture or educational background."

**Louisiana Broadcasters Meet September 21-23 in Lafayette**

Louisiana Assn. of Broadcasters will hold its annual meeting Sept. 21-23 at Town House Motel, Lafayette. Jerry Hamm, KLKY-TV Lafayette, LAB president, will preside. A Sunday (Sept. 21) recreational program will be followed by two days of panels and talks.

After business meetings Sept. 23 the association will be addressed by Howard H. Bell, NAB assistant to the president in charge of special affairs. A farm programming session will be addressed by George Shannon of WWL-AM-TV New Orleans.

**Murrow, Gitlin Set Addresses To RTNDA Convention**

Commentator Edward R. Murrow and Irving Gitlin, public affairs director, both CBS, have been added to the agenda of Radio Television News Directors Assn.'s annual convention in Chicago Oct. 15-19.

Mr. Murrow will address the opening session Wednesday evening (Oct. 15), while Mr. Gitlin, executive producer of Out of Darkness and producer of The Search, both award winners, will discuss TV documentaries at the Thursday morning workshop, according to William Small, RTNDA vice president for program.

Mr. Gitlin is expected to include excerpts from such productions as The Twentieth Century, Kuwait, and Conquest as well as Out of Darkness. Over 200 radio-tv newsmen are expected to attend the 1958 convention at Chicago's
Nothing else like it
in Greater New York

NOTHING APPROACHES THE SOUND:
WVNJ originated the programming concept of
Great Albums of Music. It is the only radio station
in the metropolitan area that plays just
Great Albums of Music from sign on to sign off
every single day of the year.

NOTHING APPROACHES THE AUDIENCE:
The very nature of the music makes the audience
preponderantly adult. It's a rich audience, too.
In one of the wealthiest counties of America
(Essex—with its million plus population) WVNJ is
first in 27 out of 34 rated periods from
7 AM till midnight. It is tied for first in three more.
According to Pulse it has more listeners here than
any station in New Jersey and New York as well.

NOTHING APPROACHES ITS VALUE:
WVNJ delivers its adult, able-to-buy, greater
New York audience for less cost per thousand
homes than any other station in the market.
By every reasoning it's your very best buy.

WAKR-"BEACON JOURNAL" TIE HIT

- Rival WCUE asks probe of newspaper-broadcast activities
- Elliot says Akron paper lied in promoting its affiliated WAKR

The FCC was asked last week to make a searching re-appraisal of the relationship among newspapers and their owned radio stations and other stations in the same communities. And, a particular blast was leveled against the Akron (Ohio) Beacon Journal, which owns 45% of WAKR Akron.

In a letter to the Commission, Tim Elliot, president of WCUE Akron, cited an article in the Sept. 2 (Tuesday) Beacon Journal headlined "WAKR Leads Nation." Mr. Elliot said the article climaxed a long series of WAKR promotions and contains "false and misleading statements."

The article, written by the paper's radio-tv writer, stated: "During any period of the day or night—according to Hooper, Pulse and Nielsen—WAKR has more listeners than the other local stations [WCUE, WADC and WHKJ] combined." Mr. Elliot claimed this statement is "categorically untrue." Thus, he said, "the Beacon Journal is promulgating false and misleading information tending to promote the radio station with which it is associated and, in effect, to derogate the three other stations serving Akron."

Mr. Elliot branded as a "distortion of fact" a second statement in the article which claimed a Pulse report found that WAKR has more adult, teen and children listeners during every time period than any other local station. He said the July Pulse lists WCUE's audience composition from 6 a.m.-noon as 88.3% adult, WAKR's 81.4% adult, WAKR 69.1%.

"We believe this forcefully demonstrates the manner in which some newspapers frequently use their facilities to promote radio stations with which they are associated . . .," Mr. Elliot told the Commission. "We realize there are more appropriate channels into which to direct a complaint about false and misleading advertising. Nevertheless, the public-policy implications of newspaper ownership are so important that we feel this instance should be brought to the Commission's attention."

He said the amount of space the Beacon Journal, a John Knight newspaper, devotes to WAKR, compared with the space accorded other Akron stations, "causes one to wonder whether the Beacon and its associated station are jointing forces to secure a communications monopoly in and about our community by attempting to impair the other radio stations serving greater Akron.

We believe this is the point at which the FCC might find justification for a review of the entire relationship between newspaper-radio combines and the other broadcast interests in communities where such combines exist," Mr. Elliot said.

Mr. Elliot felt such newspaper-radio combinations tend to result in unfair competition. "Perhaps the Commission would wish to explore the advisability of attempting to eliminate such competitive advantages as are enjoyed by newspaper-associated stations through the very fact of such association," he surmised.

Even in the matter of newspaper advertising, Mr. Elliot charged, there is an element of unfair competition. "Some newspapers make a practice of charging an extra assessment for radio station advertising," he said. "In the case of WCUE, our extraneous assessment is 50 cents per column inch. Even though a newspaper-associated station might 'pay' for its newspaper advertising, it is simply a matter of changing money from one pocket to the other in the same pair of pants."

Following the Beacon Journal article, WCUE on Sept. 3 and 4 broadcast what it labeled "important facts for radio listeners.

The station stated: "In the past few days there has been much nonsense written and broadcast about the size of a certain Akron station."

"As WCUE listeners are aware, false and misleading information was printed in the Akron Beacon Journal earlier this week attempting to bulbdoze people into believing that the radio station closely associated with the newspaper has a virtual monopoly on the audience. These claims are, of course, untrue . . . ."

WCUE then gave a rundown of Akron's "four excellent radio stations . . . each one presenting a slightly different variety of radio fare," listing the kilocycles of each. "So we suggest you pay no attention to false listening claims published in the Beacon on behalf of its associated station," WCUE concluded. "Just shop around the dial . . . you'll always find something that pleases you."

New York Tvs Buy Arbitron

WNEW-TV (until yesterday WABD [TV]) and WOR-TV New York signed last week as the second and third local station subscribers to American Research Bureau's
television dollars reap
a rich, full harvest in WBEN-TV land

If you're looking for a place to plant

WBEN-TV CBS in Buffalo
THE BUFFALO EVENING NEWS STATION
New York Arbitron instant-ratings service according to ARB officials. WCBS-TV was the first subscriber [Closed Circuit, Sept. 1]. Negotiations were in progress to sign other New York stations for the service, which began their commercial operations Sept. 1.

WCCO to Buy Minneapolis Theatre

Radio City Theatre is to be bought from Minneapolis Amusement Co. by Midwest Radio-Television Inc. (WCCO-AM-TV Minneapolis), F. Van Konynenburg, the station's executive vice president, has announced. Midwest is exercising an option to buy the entire quarter-block at La Salle and S. Ninth St. that contains the 4,000-seat theatre and WCCO-TV studios, Mr. Konynen-

Court Awards $3,800 to Croghan

Arthur H. Croghan, former owner of KOWL, now KDAY Santa Monica, Calif., has been awarded $3,800 as full settlement in his suit against Jack L. Stoll and associates for his share of the brokerage firm's commission of $12,500 for the sale of KCBQ San Diego, Calif. Los Angeles Superior Court made the award Wednesday, concluding proceedings begun in August 1955.

NAME CHANGE

An old (as tv goes) set of call letters is out of the line-up. Metropolitan Broadcasting Co. yesterday (Sept. 7) changed the call letters of ch. 5 WABD (TV) New York to WNEW-TV New York. WABD stood for Allen B. DuMont, cathode ray tube inventor and president, Allen B. DuMont Labs. Metropolitan also owns WHK Cleveland and WTTG (TV) Washington (for Thomas T. Goldsmith, DuMont engineering vice president).

Plane Crashes Into KDOV Tower

The 405-ft. tower of KDOV Medford, Ore., collapsed after a guy wire was struck by a plane spraying nearby orchards. The pilot flew back to the airfield unharmed, but the station sustained an estimated $10,000 to $12,000 damage. KDOV, back on the air with a temporary tower, expects to have a permanent structure in operation within four weeks.

KMAQ Starts in Maquoketa

KMAQ Maquoketa, Iowa, commenced commercial operation Aug. 26. The new daytime, owned by Jackson County Broad-

DATELINES

New York—A mobile home was converted into a film processing laboratory by WSOCTV Charlotte, N. C., to cover the Southern 500 stock car race held Labor Day at Darlington, S. C. A 38-ft. trailer, lent by a Charlotte mobile home dealer, was equipped by the station with a portable processor, editing and projection facilities. Parked near the race track, the trailer also housed several of WSOCTV's crew the night preceding the meeting.

Film of the race was processed in the mobile laboratory within a half-hour of being shot. A plane took part of the edited and scripted film the 100 miles from the track to WSOCTV's studios; but due to a misunderstanding, did not return for the remainder of the coverage. Deadline for the film was the 6:30 p.m. newscast, so the crew took it into a station wagon and, splicing the film on the way, delivered the footage for the scheduled newscast. The show was sponsored by Wynn's Friction Proofing Products.

BROADCASTING

September 8, 1958 • Page 85
**CHANGING HANDS**

**ANNOUNCED** The following sales of station interests were announced last week. All are subject to FCC approval.

**KNAC-TV FORT SMITH, ARK.** • 51% of stock sold to Donald W. Reynolds by Harry Pollock for $350,000 for total 100% of station (49% purchased previously) [CHANGING HANDS, August 25]. Mr. Reynolds has surrendered his permit for ch. 22 KFSA-TV Fort Smith, retaining KFSA-AM-FM there. KNAC-TV is on ch. 5 and is affiliated with CBS. Private breach of contract litigation is pending in Fort Smith against KNAC-TV and Mr. Pollock brought by George T. Heinrich, former 50% owner of ch. 5 station. Mr. Heinrich contends he had right of first refusal on station sale. Mr. Reynolds also owns KOLO-AM-TV Reno, KLRJ-TV Henderson and KORK Las Vegas, all Nevada; KDAD-TV Laredo, Tex.; KHBG Okmulgee, Okla.; KBRs Springfield, Ark., and is publisher of newspapers in the Southwest. Mr. Reynolds surrendered the permit for ch. 10 KNDA-AM-FM Elko, Nev., last month.

**WRBS TUSCALOOSA, Ala.** • Sold by Better Radio Stations Co. (partners Dr. Fred M. Rosemore, Fayette, Ala.; Dr. Samuel J. Simon, Nashville, Tenn., and Stanley Besner, Miami Beach, Fla.) to Tri-Cities Broadcasting Corp. (KREL Baytown, Tex., and WBOP Pensacola, Fla.), owned by E. O. Roden, Booneville, Miss., and associates, who also own WBIP Booneville, WGCC Gulfport, and WTUP Tupelo, all Mississippi, for $82,000. Broker; Paul H. Chapman & Co. WRBS is 500 w daytimer on 790 kc, features Negro programming.

**WSHE, SHEBOYGAN, Wis.** • Sold to the Central State Broadcasting Co. by Mr. and Mrs. David A. Bensman for $80,000. Central State Broadcasting is owned by William E. Walker and Charles Dickoff, each one-third, and William R. Walker and John D. Harvey, each one-sixth. The interests held by the new owners include WBEV Beaver Dam, Wis., WRR Rockford, Ill., and KCLO Clinton, Iowa. WSHE operates on 950 kc with 500 w, day.

**WGWC SELMA, Ala.** • Sold to Judge W. E. Farrar by O. P. Covington, Hugh M. Smith and others for $65,000. Paul H. Chapman Co. handled the sale. WGWC operates on 1340 kc with 250 w and is affiliated with CBS.

**APPROVED** The following transfers of station interests were approved by the FCC last week. For other broadcast actions, see FOR THE RECORD, page 99.

**WCVS SPRINGFIELD, Ill.** • Sold to WPFA Radio Inc. from Harold L. Dewing and others for $285,000. WPFA Radio Inc.: Jerome William O’Connor, president; interest in KANS Wichita, Kan., and WBOB Terre Haute, Ind. WCVS operates on 1450 kc with 250 w and is affiliated with ABC and MBS.

**KMON GREAT FALLS, MONT.** • Sold to KMON Inc. by Montana Farmer Broadcasting Co. for $160,000. KMON Inc. stock is owned by Salt Lake City Broadcasting Co., licensee of KALL Salt Lake City, Utah, and interests in KOPR-AM-TV Butte, Mont., and KUTV (TV) Salt Lake City. KMON operates on 560 kc with 5 kw, directional antenna night, and is affiliated with ABC and MBS.

**WROD DAYTONA BEACH, Fla.** • Sold 80% of stock of parent corporation (Radio of Daytona Inc.) by Morton G. Bassett Jr. to Eugene D. Hill (interest in WKIS and WORZ [FM] Orlando), Mining Journal Co. (WDMJ-AM-FM Marquette, WJMS-TV Ironwood, Mich.) and Iron Mountain Publishing Co. (majority stockholder of WMIQ Iron Mountain, Mich.) for $50,000 plus agreement to cancel or forgive $51,139 indebtedness between Mr. Bassett, Radio of Daytona Inc., WROD and Daytona Beach Broadcasting Corp. WROD operates on 1340 kc with 250 w and is affiliated with NBC.

**MAXIMUM** ownership of radio-tv stations was reached by CBS Inc. Aug. 30 with the official transfer of WCAU-AM-FM-TV Philadelphia [STATIONS, Sept. 1; AT DEADLINE, Dec. 23, 1957]. The stations were acquired from WCAU Inc. for $20 million. Pictured (1 to r) at the signing: Robert L. Taylor, vice president, Bulletin Co. (parent of WCAU Inc.); Merle S. Jones, president, CBS-TV; Arthur Hull Hayes, president, CBS Radio, and Donald W. Thornburgh, president, WCAU Inc.
HOW'S BUSINESS?

Our Business Continues To Be Fine, Thank You. We’ve Just Completed A Pretty Good August, Handling A Considerable Amount of Financing And Appraisals. Negotiations In The Month Of August Were Nation-wide, And Included These Station Sales, Subject to FCC Approval:

WSRS, Cleveland, Ohio—$500,000

WOIC, Columbia and

WPAL, Charleston, S. C. (50%) $105,000

WCHV, Charlottesville, Va.—$200,000

KOMA, Oklahoma City, Okla.—$600,000

WDEH, Sweetwater, Tenn.—$75,000

KRAM, Las Vegas, Nev.—$275,000

WHBG, Harrisonburg, Va.—$80,000

KCMJ, Palm Springs, Calif.—$250,000

KBAB, San Diego, Calif.—$350,000

If Your Business Calls For Broadcast Financing, An Appraisal, Or Negotiations, We Hope You Will Contact Us.

CARE SUBSISTENCE • KING Seattle, attempted to provide a graphic demonstration of the importance and practicality of the CARE program. D.j. Frosty Fowler and his family lived for one week off a CARE food package and the produce of a CARE garden. The garden, grown with implements from a CARE farm tool package, was planted, cultivated and harvested by the KING d.j. corps, who kept listeners posted on the project.

AERIAL STOP LIGHT • WTRY Troy, N. Y., has found a new use for its flying mobile unit. When an auto went through a railroad track gate, the WTRY plane began flying over the tracks and radioed a WTRY ground unit at the scene every time a train was approaching. Police then halted all traffic until the train passed. The operation continued until the gate was repaired.

MORE EDUCATION • WIND Chicago used the theme “Go back to school... when school starts...” to carry on its educational campaign to impress upon students the importance of completing high school. Spot announcements were recorded by celebrities, and a contest with cash prizes, which asked youngsters to complete the sentence, “I am going back to school because...” climaxing the effort was a giant rally featuring show business personalities, including Mitch Miller, Edie Arnold, Lou Monte and Jennie Smith. Also, hand were Chicago Mayor R. J. Daley and Donald H. McGannon, president of Westinghouse Broadcasting Co.

RARE BLOOD FLOOD • KTBS-TV Shreveport, La., went to the aid of a hospital patient in urgent need of a rare blood type. Fifteen minutes after an appeal was aired, hospital authorities notified the station they had been flooded with volunteers. A local doctor stated, “I’ve never seen such effective response to an appeal of this type. Television has earned the appreciation of every medical person in this area.”

‘WALKING MIRROR’ • KYW-TV Cleveland purchased a “walking mirror” for the local chapter of the American Red Cross from money realized from 13-center viewer contributions to its Kutest Kiddie Contest. The mirror is an aid to crippled children in their efforts at learning to walk.

SAFETY MARATHON • WHOP Hopkinsville, Ky., conducted a 100-hour safety marathon during the Labor Day weekend. Broadcasting around the clock for a 100-hour period, WHOP’s two mobile news wagons constantly patrolled highways to select the “WHOP Safe Driver of the Hour.” Safety citations were awarded to 100 safe drivers as determined by local law enforcement agents accompanying station newsmen in the news wagons. The entire WHOP staff was dubbed by the local sheriff for the duration of the marathon.

SAFETY SHOCK • WBZ-TV Boston used a realistic approach in traffic safety reminders over the Labor Day weekend in an effort to shock viewers into realizing that death hovers over the highways on a holiday. Spots included scenes of a hearse being prepared for a funeral, hands tying a funeral wreath, manufacture of artificial limbs, tombstones, and an open grave, with an eerie voice asking, “Is he getting ready for you?” Spots closed with a shot of a tragic auto accident and the question: “Will you be one of them?” (the 12,406 dead or injured Americans on Tuesday morning).

PHILATELIC COLLECTION • WQSM Huntington, N.Y., waged a month long “Stamp Out T.B.” campaign in which it collected millions of used postage stamps. The stamps are being shipped to Norway, where the Red Cross will extract the dye from them, sell it, and use the money to fight T.B.

DUPLICATE RECORDS • WDRC Hartford, Conn., has contributed 200 popular records, mostly duplicates from its music library, to the Greater Hartford Tuberculosis and Public Health Society, for distribution to area tuberculosis sanitariums.

EDUCATION EDITORIAL • WKAB Mobile, Ala., is conducting an educational campaign to persuade high school and college-age listeners to continue their education. The editorial cautions the youthful listeners not to let the money earned on summer jobs confuse their thinking, and points out the extra-monetary rewards that come with a high school or college diploma.

MISSING PERSON • WLSI Pikesville, Ky., after one announcement located in 30 minutes a woman who had been the subject of an 11-year search by a Prestonburg, Ky., law firm. The lawyers held an Armed Forces leave bond purchased in 1945 by the missing lady’s now deceased husband. The bond, worth several hundred dollars, could be cashed only by the missing widow.

FLOOD RELIEF • WCAW Charleston, W. Va., collected over 10,000 clothing articles in a five-hour period, while broadcasting direct from the Municipal Auditorium emergency center during a flash flood.

DENNIS THE MENACE • KIOA Des Moines, Iowa, had a “Dennis the Menace” theme as part of a statewide traffic safety campaign. Spots describing missing and de-fective parts on the auto of an alleged highway driver Dennis the Menace were aired for five days. The listener compiling the most complete list of deficiencies won an automobile. Top man of over 3,000 entries correctly identified 100 of the 102 clues broadcast.

MORALE BOOSTER • KDUB-TX Lubbock, Tex., provided a lift to the spirits of a nine-year-old girl, confined in a hospital with a broken hip. To young D’Anna Alexander, the thought of 10 weeks in the hospital was unbearable when she found her nine-month-old baby sister couldn’t visit her. Convinced that the “people at KDUB-TV will let me see her,” the girl’s mother and youngest offspring appeared as guests on Dick Chaney’s 6:10 Feature Section, to the delight of the bright-eyed, pig-tailed third grader.
Leslie Leaving Ampex Corp. To Take ORRadio Manager Post

John M. Leslie Jr., engineering manager, Professional Products Div., Ampex Corp., Redwood City, Calif., has been named general manager of ORRadio Industries Inc., Opelika, Ala., J. Herbert Orr, president, ORRadio, announced last week.

At Ampex (an ORRadio minority stockholder), Mr. Leslie helped design audio-video recorders, engaged in product planning and general direction of engineering activities. He also had a large part in Ampex' magnetic tape evaluation program. (ORRadio manufactures and supplies videotape for Ampex instruments.)

Mr. Leslie is a member of Institute of Radio Engineers, Society of Motion Picture & Television Engineers, Audio Engineering Society and American Management Assn.

MANUFACTURING SHORTS

Kahn Research Labs, Freeport, L. I., N. Y., announces availability of new Symmetrapeak Model SP 58-1A to help broadcasters solve difficulty of maintaining optimum transmitter modulation with certain types of unsymmetrical audio waves, especially those of speech. Unit also serves to eliminate unbalanced peaks resulting from improperly phased microphones and switching between long-line telephone circuits and local program sources. Symmetrapeak is available on four weeks delivery at $265.

P. R. Mallory & Co., Indianapolis, has formed new semi-conductor department to make silicon rectifiers designed for use in tv and radio receivers. Components will use Mallory internal plastic containers instead of usual more expensive metal covers.

RCA Corp., N. Y., has sold RCA 50 kw transmitter, model BTA 50G, to WAPI Birmingham, Ala., for cost in excess of $100,000. Transmitter has guaranteed delivery of 60 days, and it is hoped, that it will be installed, checked-out and on air by Nov. 1.

Elgin Metalformers Corp., Elgin, Ill., has introduced three-dimensional, plastic miniatures of basic components of Encor Modular Enclosure System to assist engineers in planning assembly and arrangement of complex electronics, automation and instrument equipment. Modeled on 1-inch to 1-foot scale, miniatures are exact duplicates of components.

Age of Stereo will be theme of 1958 New York High Fidelity Show sponsored by Institute of High Fidelity Manufacturers Inc. Sept. 30-Oct. 4 at Trade Show Bldg., 500 Eighth Ave., New York. Other high fidelity shows are scheduled Oct. 10-12 at Benjamin Franklin Hotel, Philadelphia, and Oct. 23-26 at Wisconsin Hotel, Milwaukee.

RCA Victor, N. Y., has made available five "engineering developments in stereophonic sound," including diamond and sapphire pickup heads, tone arms and two types of tape heads, to other manufacturers for use as components in equipment other than RCA products.

Tellit Industries, Chicago, is offering portable automatic electronic prompting device called "TellExecutive." Speech is prepared on continuous fold manuscript paper with large typewriter. Device is controlled by speaker by means of switch held in palm. Cost (including TellExecutive, hand control and cowhide carrying case): $150.

General Electric announces it has opened expanded electronic tube and components sales office at 442 Peninsula Ave., San Mateo, Calif., to serve equipment manufacturers in Northern California, Oregon, Washington, Montana, Idaho, Utah and Nevada, as well as wholesale distributors in San Francisco, Sacramento and Fresno marketing areas.

Dresser-Idco Co., Columbus, Ohio, has published guide to antenna tower inspection and maintenance, called "Hip-Pocket Tower Check List." Pocket-size pamphlet can be secured by writing to Dresser-Idco Co., Tower Division, 875 Michigan Ave., Columbus 8, Ohio.

New Broadcasting Bill Passes Canada House

After two days of debate and defeat of a number of amendments by the Liberal and Co-Operative Commonwealth Federation (socialist) parties, Canada's new broadcasting legislation [INTERNATIONAL, Aug. 25] was passed in the Canadian House of Commons on Aug. 26 by a vote of 124 to 31. The CCF party supported the Conservative government party.

The bill now has to pass the Canadian Senate and be signed to become law by Governor-General Vincent Massey.

The new legislation will set up an independent regulatory board of broadcast governors to police broadcasting and reconstitutes the Canadian Broadcasting Corp. as a national broadcasting system. CBC will no longer have regulatory control over independent radio or television stations. This is the independent Canadian stations through the Canadian Assn. of Radio and Television Broadcasters have fought for during the past decade.

During debate on the government bill Liberal leader Lester Pearson endeavored to have the legislation changed so that Canadian stations could be members of a Canadian network, except for special public service programs. Revenue Minister George Nowlan, in opposing this, stated that he could not foresee the new board of broadcast governors licensing any stations to be part of an American network. (At present each of the four Canadian stations, through the Canadian Assns. of Radio and Television Broadcasters have fought for during the past decade.

After the broadcasting bill was announced, this statement was made by the broadcasters' association:

"The CCF-BSTB's board meeting that the framework of principle outlined in the bill, especially the clear-cut distinction between regulatory and operating functions, offers opportunity for strengthening the service provided to Canadians by both the CBC and the private broadcasting industry of Canada."

"We believe that in this framework there is opportunity for responsible and mature service that CCF-BSTB's membership is anxious and eager to meet, dedicated to the premise of providing the best possible broadcasting service to all Canadians."

The board meeting that the framework of principle outlined in the bill, especially the clear-cut distinction between regulatory and operating functions, offers opportunity for strengthening the service provided to Canadians by both the CBC and the private broadcasting industry of Canada."

The possibility of second tv stations in any Canadian cities is improved under the

Gunning for a killer!

Nuclear power can change the peacetime world. But nuclear radiation is a silent killer. Atom workers must be safeguarded by special devices... inspected frequently by ion-chambered “guns”, as delicate as they are accurate. These detection devices, like so many other sensitive instruments, are shipped by Air Express where speed is matched by velvet-glove handling.

Air Express... symbolized by the big “X”... can multiply the speed and handling ease of your shipments, too, no matter what you make. For Air Express gives you the only complete door-to-door air shipping service between thousands of U.S. cities and towns. Yet Air Express often costs less. For instance, to Air Express a 20 lb. package from Los Angeles to Detroit (1,960 miles) costs from $1.48 to $5.85 less than any other complete air shipping method. Investigate.

new legislation, but at the earliest no such stations can be expected until the fall of 1959, even if applicants are heard by the new board this winter.

Canadian Advertisers Backing Radio Lineup

Advertisers are taking renewed interest in Canadian network radio programming it is evident from fall sales by the Canadian Broadcasting Corp. Program revision earlier this year has resulted in increased daytime audience for network shows, according to Eugene Hallman, CBC supervisor of radio networks at Toronto national program headquarters.

With use of MBS' Baseball Game of the Day as a regular Saturday afternoon feature this summer on the CBC Trans-Canada network, a regular audience with sports interest has been built up. Heretofore Canadian sporting events went network only a few times a year for special championship games or events. Now the Baseball Game of the Day program is used to bring Canadian sporting news to listeners in addition to the specific game being broadcast. Spots have been sold to Bulova Watch Co. Ltd., Toronto; Colgate-Palmolive Ltd., Toronto; Whithall Pharmaceutical Canada Ltd., Toronto; and Sterling Drugs Ltd., Windsor, Ont. In addition, both CBC and independently-owned affiliates, have sold local spots to local as well as national advertisers on this program.

In past years CBC has carried Texaco Metropolitan Opera programs Saturday afternoons. With the switch of this program from NBC to CBS, the likelihood is that it will not be carried this season, since key CBS outlets at CFRB Toronto and CKAC Montreal are not CBC network stations. CBC currently is negotiating to carry NBC's Monitor Saturday afternoons this coming season, and will likely have some of same national network sponsors as for the Baseball Game of the Day program.

English-language noon-hour radio serials were dropped on CBC last year, but are due for a revival this season. Happy Gang, a noon-hour variety show which has been running for more than 20 years, will be back with two national network sponsors, Carnation Co. Ltd., Toronto, and T. H. Estabrooks Co. Ltd. (Red Rose tea and coffee), Toronto. In addition CBC plans to import the quarter-hour NBC show, Woman In My House, and the British Broadcasting Corp. program, The Archers, both serials. No sponsors have been approached, since the final decision has not yet been made.

CBC Farm Broadcasts, done on a regional network basis because of varying agricultural and fishing interests, are being sponsored on a regional basis across Canada, with the main sponsor to date the Goodyear Tire and Rubber Co. of Canada, New Toronto.

The early morning Preview (7-9:15 a.m.), on the national network with news direct from Europe and pick-ups from NBC, has been sold regionally to national advertisers.

The evening program, Assignment, on CBC's Dominion network, is having its first sponsors this fall, with the Bank of Canada, Ottawa, using the show for spot announcements on a Canadian government bond conversion campaign.

CBC plans to strengthen its radio networks with increasing amount of live music, including classical and semi-classical concerts, both mornings and afternoons. It plans to use the trans-Atlantic telephone cable to bring direct broadcasts of British and European operas and music festivals, and is negotiating to bring the San Francisco Symphony to its Trans-Canada network. CBC will continue this fall to repeat in the daytime some of its evening talks, panel shows and musical programs, since mail for this type of program shows its daytime popularity.

Mr. Hallman pointed out that "if the network is going to be successful it must be strengthened." To this end CBC has several new projects in mind, some of which will have to be sustaining for some time.

It is also hoped to export Canadian radio shows to the BBC, and CBC would like to pipe an hour of its best radio programs weekly to the NBC radio network.

ROK Recruiting Radio People

The Republic of Korea needs radio transmitter engineers, studio engineers and production specialists with approximately 10 years experience in their respective fields, it has been announced. Those selected, and their families, will be flown to Korea for a two-year tour of duty in the government-owned stations.

Living quarters and utilities are furnished in the Seoul American colony with post exchange, commissary, medical and entertainment privileges available.

Details are available from Engleman & Co., consulting engineering firm, 2489 16th St., N.W., Washington, D.C.

Argentina to Drop Control Over 34 Radio-Tv Stations

Argentina's Government has promised to return the country's 33 radio stations and single television station to private hands after protests arose over a government order prohibiting new commentators from discussing political, economic and labor subjects.

The government commission which supervises the nation's radio stations and tv channels issued the restraint order after several commentators had reported military conspiracies against the government headed by Provisional President Aramburo and circulated accusations of malfeasance against leaders of the preceding government.

Statements on the situation from commentators affected were made public in the press. The newspaper La Razón commented that there had been abuse of freedom of expression by some of the commentators. It also noted that stations have been used frequently by government spokesmen for propaganda purposes.

3 in Ecuador to Inter-American

Three stations in Ecuador have been added to the Inter-American Network, the Latin American portion of World Wide Broadcasting System, New York, Walter S. Lemmon, president, has announced. The stations, bringing the Inter-American Network total to 82, include Centro Radiofónico de Imabura, Ibarra; Radio Roxy, Riobamba, and Radio Ondas, Azuayas, Cuenca.

Action Delayed by L. A. County On C-C Toll Tv Application

The Los Angeles County Board of Supervisors Thursday (Sept. 4) postponed action until Sept. 18 on C-C toll terminal application by Homevision, Inc., for a franchise to install a closed circuit home television system in Antelope Valley, an unincorporated area within the county. The delay is designed to give the county officials time to study the dual questions of whether they want to grant such a franchise at all, if they do, whether it should be granted to Homevision.

The postponement came after vehement protests against toll-tv had been offered by Mrs. Fred S. Teasley, state radio-tv chairman of the California Federation of Women Clubs; Mrs. Fred Wilson, president of CFWC’s Sierra-Cahuenga district, and Julius Tuchler, chairman, Citizens Committee Against Pay T. Mr. Tuchler questioned the authority of the board to issue the requested franchise, argued that the proposed deal would give the county a 2% payment only on facilities receipts while, if they do, whether it should be granted to Homevision.

The postponement came after vehement protests against toll-tv had been offered by Mrs. Fred S. Teasley, state radio-tv chairman of the California Federation of Women Clubs; Mrs. Fred Wilson, president of CFWC’s Sierra-Cahuenga district, and Julius Tuchler, chairman, Citizens Committee Against Pay T. Mr. Tuchler questioned the authority of the board to issue the requested franchise, argued that the proposed deal would give the county a 2% payment only on facilities receipts while, if they do, whether it should be granted to Homevision.

The main reasons for not favoring a pay system were that it would be too expensive and they were satisfied with present programming. Those sampled who liked the idea of subscription tv said that they thought it would lead to better programs, first-run material, not being the shows they wanted most. Although two-thirds of the sample had heard of subscription tv, Dr. Heidingsfield believes that the issue is still confused in the public mind. He suggests that the FCC make no ruling on the matter until it has reviewed arguments of independent stations and the networks. Copies of the report may be obtained from Dr. Heidingsfield at Temple U., Philadelphia.

$763,437 Realized by C-C Fight

The Floyd Patterson-Roy Harris heavyweight title fight on Aug. 18 didn’t make the grade on closed-circuit tv, Irving B. Kahn, president of TelePrompTer Corp., New York admitted last week. However, he expressed encouragement over the fact that if an event of only moderate attraction could break even, it means “when you do hit, you really hit.” Mr. Kahn said that if he had sold live coverage rights to radio, it might have depressed the closed-circuit theatre attendance even more. The TelePrompTer president said 196,762 theatre admissions were sold, 37% of capacity, for receipts of $763,437, including taxes. He said that when all newsreel runs are completed, there is expected to be a net profit of “between $25,000-50,000.”

The closed-circuit audience was counted at 196,762. Earlier TelePrompTer had forecast a box office of 200,000 seats and “nearly a million dollars.” Of actual receipts, the champion’s share is around a quarter of a million dollars, Mr. Kahn said. He said that results point to a growing importance of theatre tv in sports events.

Pay T. Scorned in Phila. Poll

“Philadelphiaans do not seem to be in favor of pay television,” is the conclusion drawn by Dr. Myron S. Heidingsfield, marketing department chairman of Temple U., there, following a survey by his marketing analysis and research class. About 58% of people questioned were against pay tv; 24% were in favor and 18% took no position.

The main reasons for not favoring a pay system were that it would be too expensive and they were satisfied with present programming. Those sampled who liked the idea of subscription tv said that they thought it would lead to better programs, first-run material, not being the shows they wanted most. Although two-thirds of the sample had heard of subscription tv, Dr. Heidingsfield believes that the issue is still confused in the public mind. He suggests that the FCC make no ruling on the matter until it has reviewed arguments of independent stations and the networks. Copies of the report may be obtained from Dr. Heidingsfield at Temple U., Philadelphia.

SHOW CORP. OFFERS ‘BIRTHDAY BINGO’

Show Corp. of America, New York, recently-formed tv and theatrical packaging firm headed by C. Robert Manby, last week announced availability of a new local live tv program package Birthday Bingo, created by Satellite Productions, New York. The program features audience participation. Admissions are sold at random during telecast. Viewers’ birth dates make them eligible to participate. Satellite partners are William Mogle, Arthur Daly and Allan Ross. Show Corp. earlier was named to distribute the tv properties of KKO Television.

PROGRAM SERVICE SHORTS

Ampex Corp., Redwood City, Calif., has shipped videotape recorder to KCO (TV) Los Angeles.

Edward Gottlieb & Assoc., Ltd., international public relations counsel, has moved Paris office to 61 Avenue Hoche. Office services four major French industries.

Hal Roach Studios, Culver City, Calif., names Bill Watters & Assoc., L. A., to handle public relations on West Coast. Ed- die Jaffe Co., N. Y., will direct publicity in East.

Gilmark Features, N. Y., announces its “Tv Star of the Week” feature for tv sections of newspapers is available in mats for color reproduction. Dallas Morning News (WPAA-AM-TV) was first to sign for new mat service, according to Lou Shainmark, who formed Gilmark last spring. “Tv Star” is strictly a news feature, said Mr. Shainmark, based on leading stars selected from all networks and national programs.

WALTER F. GREENWOOD, marketing manager of General Electric Lectro Tech Dept., since 1964, appointed manager of marketing for GE Receiving Tube Dept.

SDF KRONIN, public relations director, Burke Dowling Adams Inc., New York-Atlanta, to similar post at Toy Mfgs. of USA Inc., N.Y.

EUGENE FIOREMONTE, formerly with Bendix Aviation Corp. and Nardus Ultrasonics Corp., Westbury, N.Y., as western regional sales manager.

TRADE ASSNS.

JOSEPH W. LEONARD, promotion manager for American Management Assn., appointed director of publicity and press relations, Assn. of Advertising Men and Women, N.Y.
**WDSU Increases Stereocasts With Six-Day Promotion Event**

WDSU New Orleans, which first began programming stereophonic broadcasts last May, and has currently programmed stereo selections three hours daily, has announced its week-long promotion to acquaint the public with the merits of this new sound transmission.

In cooperation with a local music store and London records, WDSU originated daytime and late evening programs from the store and broadcast approximately 27 hours of stereo programming in a six-day period. For in-person, on-air demonstrations the station duplicated its studio stereo facilities in the music shop and invited the public to attend via radio announcements to call or write for tickets. WDSU reports that evening attendance exceeded all expectations and that the daytime broadcasts which did not require tickets attracted capacity audiences. According to London's New Orleans distributor, 7,200 stereo packages were sold during the first five days of the event. Both the store and the record distributor reported increased sales as a result of the promotion, although both entered the sound promotion with WDSU on a demonstration-education basis, looking for future rather than immediate sales success, the station explained.

**Talk Record Set at WKBW**

A new record of 98 hours of continuous talking is reported to have been reached by a Buffalo, N. Y., housewife in a talkathon contest conducted by WKBW Buffalo at a Buffalo shopping center. The 25-year-old marathon talker was awarded more than $700 in cash and merchandise prizes for her feat.

**Listeners Hunt KDAY Treasure**

More than $10,000 in cash and gift certificates are being offered on September weekends in a listener contest entitled "KDAY Beachcomber Bonanza" conducted by KDAY Los Angeles. Starting with the Labor Day weekend, KDAY d.j.'s, dressed as pirates, are dropping 1,580 (station frequency) plastic "booty bottles" off shore at beaches from Zuma Beach to Newport Har-

**KERO Aids Employment Service**

As a public service and in cooperation with the Oregon State Employment Service, KERO Eugene is airing employer and employee job needs on a six times daily basis. The two-fold objectives of the service—listener interest and job placement—are being accomplished, according to KERO.

**WFBM-TV Offers Campaign Support**

To tie in with NBC-TV's "Vote for NBC" audience promotion campaign and the general political atmosphere of an election year, WFBM-TV Indianapolis, Ind., has launched its 1958-59 audience promotion campaign with the theme "Mr. Six, Favorite Son in Indiana."

During a two-week teaser campaign WFBM-TV personifies its channel number as the "successful incumbent" on a series of spots which show "Mr. Six" carrying a community placard and with recorded convention background audio naming the particular community and the number of "votes cast for Mr. Six."

The next slide shows a marked ballot with "Mr. Six" at the top of the slate. The third slide shows "Mr. Six" carrying the banner with WFBM-TV's standard ID. Following the teaser campaign, a community endorsement theme will promote specific programs—"Kokomo votes for Conomo," "Greenwood votes for Groucho,"—as examples.

**KIRO Debuts 'Reaction' Series**

Stricter traffic penalties issued by a Seattle, Wash., judge for teenage violators sparked the first program of KIRO Seattle's Reaction series presented by the KIRO Radio Public Affairs Dept. The show featured teenagers to get their reaction to the new regulations enforced on traffic violations. KIRO report-

**TOURING the streets of Huntington-Charleston, W. Va., this summer is the WSAZ-TV Huntington steamboat, "Television Queen," a replica of an Huntington old river steamer the J. T. Hatfield. This land-going version was designed and built by Lawrence H. Rogers II, president of WSAZ Inc., and the station's art and scenery department. The steamboat promotion theme is copied in WSAZ-TV station breaks with an animated replica of the craft, belching black smoke call letters from the chimney. The "Television Queen's" paddlewheel is operated by a hand crank; the smokestacks have damper doors in the bottom for insertion of smoke bombs, and the whistle and steampipes are fabricated from a common raw material—beer cans.

**Letter Seeks 'Lost Heirs'**

"The death in 1942 of Britian's shipping magnate, Angus Busch, during an air attack on London, revealed no claimants for an estimated $50 million estate . . . certain findings indicate strongly that you may have remote, nevertheless lawful, kinship to the deceased." This was the way a letter began from two Los Angeles jingle creators and addressed to executives in the radio-tv industry. The letter goes on to explain that after all taxes, court costs and attorneys fees are paid there will be only ten cents left for the heir, so you should invest that dime in a telephone call now to Circle 7-2700 (Hotel Warwick), and ask for Bob Sande or Larry Greene, who will help you "inherit" real money.

**WPTR D. J. Awards Knob Senders**

More than 1,100 radio dial knobs were sent to Jack Spector, d.j., on WPTR Albany, N. Y., after he suggested to his listeners that they prove their loyalty to WPTR by setting their radio dials precisely on the station's frequency and then pull off the knob and send it to him. In return, Mr. Spector centered on why adults are exempt from new regulations which includes the loss of drivers licenses for varying lengths of time. Reaction will be scheduled as the need arises to air views on problems in the area, the station announced.
promised to send a new record, with his autograph on the label, for each knob received.

**WOW Girls Aid Business Drive**

In a “Business is Good in Omaha” promotion, WOW-AM-TV Omaha, Neb., distributed blue and white metal lapel pins giving the slogan and the stations’ call letters. Fred Ebener, sales manager of the Meredith owned broadcasting properties in Omaha, designated sixteen girls appearing at Omaha’s Gaslight Club as official WOW girls to handle the pin distribution.

**WINS Hires ‘Youngest D.J.’**

WINS New York has hired “the youngest disc jockey in New York.” He’s 16-year-old Mitch Lebe, a senior at Lynbrook High, Far Rockaway, L. I. who will conduct a regular Saturday morning show. Young Mr. Lebe, a discophile with a penchant for tape recording, arranged for his own audition with station management last month.

**KFOX, KIMO Plug Rival Medium**

As a result of a Major Market Group (KFOX Long Beach, Calif.; KIMO Independence, Mo.) study on what news and features people want to hear, the stations agreed for the month.

**WIFE WANTED**

Are you a professional actress, fairly attractive and moderately young? If you meet these qualifications, and move fast, you can be George Gobel’s TV wife when his new TV season starts Sept. 23. “Actually,” George says in regard to qualifications, “she can be young and beautiful.” George’s distressing predicament was occasioned by the Sept. 2 marriage of Jeff Donnell (formerly his “spooky” TV wife Alice) to John Bricker, formerly a Kenyon & Eckhardt vice president in Los Angeles and presently an executive director of Outdoor Advertising Inc. in New York. Alice, or Jeff (Mrs. Bricker, that is) will move to New York. Prospective Alices, or their agents, are invited to mail pictures and background material to Gomalco Productions, Beverly Hills, Calif.
are airing news of TV programs being telecast on their areas' TV outlets. The two-minute announcements that highlight important TV programs being shown on local TV stations are part of a half-dozen other daily features aired by KFOX and KIMO.

**Viewers Pick WMAR-TV Reporter**

Viewers of WMAR-TV Baltimore at 8:30 p.m. Sept. 2 were asked to vote a winner from the ten finalists in the station's contest to pick a woman reporter to represent the women viewers of its daytime programs. All cards and letters postmarked before midnight last Thursday (Sept. 4) were counted in the balloting. The winner will be announced today (Monday) and Maryland's "Televisit Reporter" will leave the following weekend for a week of visits with CBS-TV programs and stars in New York. Finalists were selected by a board of judges on the basis of entry letters. Interviews with the stars and daily reports will be telegraphed to the Baltimore Evening Sun and WMAR-TV.

**Gobel Prize in WNBQ (TV) Contest**

An RCA Victor portable TV set and a round of golf with NBC-TV star George Gobel are in store for the winner of a contest conducted by WNBQ (TV) Chicago in connection with his visit to that city. Details were announced on Norman Barry's sports show and Tom Mercer's Movie 5 last month. Viewers were asked to complete in 25 words the sentence, "I would like to play golf with George Gobel because . . ." Aside from the winner, who gets a TV receiver and the opportunity to golf with Mr. Gobel at Highland Park's Exmoor Country Club, two runners-up will be awarded RCA Victor transistor radios. Mr. Gobel launches his new 1958-59 NBC-TV series Sept. 23 with a colorcast.

**Police to Use WPEN 'Copter**

A three-place 47-H helicopter has been bought by WPEN Philadelphia and fitted with broadcast transmission equipment. The 'copter will be used for twice-daily traffic reports, promotion of new traffic safety ordinances for the city's Dept. of Recreation and will be available for use by the Philadelphia Police Dept. or any official body requesting it. A WPEN newswoman accompanies the helicopter when it is being used during emergencies or special events. A contest in which the helicopter will be named is being conducted by the station.

**Admen Get WEEI Storm Warning**

"To Whip Up a Sales Storm in New England for WEEI Boston," is the message appended to the 1,200 hurricane maps sent to ad agencies and clients by the station. The map, 3,800 of which also were sent to schools, yacht clubs, police and fire chiefs in WEEI's area, advises of the Weather Bureau's new storm warning signals. WEEI has sent out hurricane maps for the past three years.

**Ziv Series Offers Word Game**

Local sponsors of Ziv television programs' MacKenzie's Raiders seeking to build store traffic will be aided via a new promotional angle devised by Ziv. They will work with the stations in airing an at-home viewer participation "word game" called "Raiders"—distributed by Ziv—in which contestants will be vying for a jackpot prize. The wrinkle: to become eligible and receive contest forms, viewers will have to visit the sponsoring stores.

nounced Aug. 29.

Hearing Cases
FINAL DECISIONS

By decision, Commission granted application
of Duquense Broadcasting Co. to modify license
of KVOA Denver, Colo.—as increasing as number of specified
hours of daytime operation on KVOA to 1,000
5 k.w.-15. Initial decision of Dec. 11, 1957 looked
forward to grant of application. Announced Sept. 3.

By decision, Commission granted application
of Gillespie Broadcasting Co. to modify license
of KNAF Fredericksburg, Tex., from 1,500
kc., to 1,500 kc., also ownership. Initial
decision of Aug. 25, 1957 looked toward denial of application. Announced.

By decision, Commission granted applications
of Cities Bestg. Corp. to Federal and State Board of
for New 4v stations—
operate on channel 10 on share-time basis in Omon-
deka. Midwest conditions that State Board of
Agriculture surrender its permit for educational
station WKRK-TV (on commercial ch. 10), to
Lansing, Mich., despite applications of Triad
Television Corp., of Southgate, Mich., and
Jackson Bestg., & Televion Corp., seeks the
same license. Radio and Parma, Mich. Initial decision of March 7, 1957 looked toward this action. This
is decision of Triad Television to apply for a
non-commercial time-share operation authorized by Commission, Com-
mission and Ford disapproved. Comp. Cross not par-
ticipating. On July 9, WKAR-TV surrendered
its permit for ch. 60. Announced Sept. 3.

By decision, Commission denied application
of Deep South Bestg. Co., for mod of cp of tv station
WJAK (ch. 4), Memphis, Tenn., to move its
transmitting station to location 5 miles from Selma and
increase power from 2,511 to 3,161 kw. Initial
decision of Dec. 13, 1956 looked toward this action. Comp. Cross not participating. An-
nounced Sept. 3.

By decision in proceeding on applications
of Albus B. Grant, Co., (ROB), Ahagarese, N. M., Commission took following steps to per-
mit bids on WABC, New York City, to operate simultaneously during nighttime hours and pro-
tected awarded in condition that the transmitting station of WABC will be 250
kw. using a directional antenna. nighttime with a
guaranteed operating power of 775 kw. A similar
operation can be obtained by applying for license to operate WABC on 775 kw. Initial

3 There have been, in addition, 177 television cps granted, but now deleted (33 vhf and 144 uhf).

Other Actions
Commission on September 3 directed preparation of documents looking toward:

Denying petition of Crawfordville Beasts, Inc., to reopen record and amend application in proceeding involving its application and that of J. E. Willis for new am stations to operate on 1410 kc, 1 kw, D. D., in Crawfordville and Lafayette, Ind., respectively. Initial decision of March 30 looking toward grant to Willis and denial of Crawfordville.

Granting application of Allegan County Beasts, for new am station to operate on 1560 kc, 250 w, B, in Allegan, Mich., and Booth Beasts, Co. to increase power of WJVA South Bend, Ind., from 250 w to 1 kw, continuing operation on 1380 kc, D. Initial decision of May 1 looked toward granting both applications.

Denying petition of WOV Bests, Corp. (WOV), New York, N. Y., for reconsideration of May 7 decision which granted application of WGLI Inc., for new am station (WGLI) to operate on 1560 kc, 1 kw, DA-1, uni. in Babylon (village), N. Y., but affording WVO an amended petition to state with specificity facts officially noticed by Commission which petitioner contends are false.

Denying petition by South Miami Bests, Inc. (former applicant) for new application in South Miami, Fla., and motion by Louis G. Jacobs to enlarge issues in proceeding on Jacobs application.

CAREER OPPORTUNITY

FOR TELEVISION RESEARCH ACCOUNT EXECUTIVE WITH A FAST-GROWING, AGGRESSIVE RESEARCH COMPANY.

We are looking for a man who has had some experience in the broadcasting field ... in either a station, network, agency, or representative firm ... and who has a working knowledge of the agency uses of TV audience measurement.

After training, his objective will be to help station and agency clients make more effective use of our television research services. He should be able to work effectively with all levels of people, be noted for his good judgment, and be eager to accept responsibility; his age between 28 and 50, and he must be able to start at a modest salary.

This position will locate in headquarters or branch office and involves a reasonable amount of travel in Eastern states. A real opportunity for the right man. If interested, please write and sell yourself. Include minimum salary requirements.

Commercials for television ‘specials’
don’t take much—just genius, guts, luck

The approaching television season with its extreme concentration on “special” shows has an entertainment potential unequaled in the medium’s brief history. And I have great faith that the potential will be realized.

At this writing, the networks have scheduled approximately 150 big-budget, high impact “specials” bringing to American viewers a glittering array of talent. At the height of the season three or four of these entertainment block-busters will be competing for public attention each week.

This competitive situation, I feel, is excellent for the public and healthy for the networks. However, for the advertising agencies, who will invest nearly a quarter billion dollars for their clients, the specials present an intrinsic challenge or, rather, a complex of inter-related demands.

With the air filled with high-powered entertainment and with each sponsor’s special of necessity widely spaced, how can the sales message obtain the memory-duration and depth it must have to achieve its purpose?

To us the special commercial is much, much more than “integration.” For instance:

Remember Victor Borge and his snow-covered Pontiac? With his wife and brother-in-law inside? Or, Phil Silvers discovering that the banner his cousin painted spells P-O-T-N-A-C? Or, the marvelous marriage of Irving Berlin music and commercial lyrics in “Annie Get Your Gun”?

Remember them? Many people apparently do, although those commercials and others like them have been in our film files for nearly a year now. Last season when they made their first and only television appearances, the reception in the form of letters, both to the networks and to Pontiac was remarkable and, we are told, unprecedented.

Syndicated critics, both newspaper and magazine, broke with tradition to favorably mention commercials and the sponsor. And we still receive requests for the film from interested groups.

I believe it is safe to say they have demonstrated memorability. Right now the MJ&A television department is at work on special commercials for the new series of Pontiac shows opening October 15—commercials we hope will equal or surpass last year’s.

It has been our experience at MJ&A that special commercials must have special handling from the moment the basic idea emerges. They call for specialized thinking by rather special people (hacks constitutionally are unable to think in unorthodox fashion). And unorthodox the idea and the treatment must be if it is to be remembered beyond the closing credits.

Special commercials sometimes call for a special budget—although those I have mentioned were brought in at average cost. But, whatever the cost—within reason, that is—they are worth every dollar when successful, validating the entire investment.

And the special commercial calls for a particular empathy, sympatico, good-feeling—call it what you will—between the star, the agency and the client. This state is difficult to define, but you are well aware when you do not have it.

Most important area of all, of course, is the client. Does he have the inclination to participate with very blue chips? Does he have a venturesome confidence in his agency? And does the agency itself have the courage of its convictions and the creative strength to make them come true?

When the answer to these questions is affirmative, and if, as Ernest Hemingway once put it, “The luck she is going very good,” then very little remains except hard work.

And of hard work there is rarely a scarcity, as you will perhaps agree.

Ernest Albin Jones, b. Jamestown, N. Y., June 18, 1915. B.A., U. of Michigan, '38. First “advertising job”: as college band manager, converted a musical salute to Ohio State from BUCK-I to BUICK for visiting General Motors brass, a fact recalled to this day by Harlow Curtice, then Buick general manager. Upon graduation became ad manager, Polish Daily News, Detroit; in February 1939 joined MJ&A as production assistant, promoted in 1941 to Dow Chemical Co. account executive; in 1945 to Pontiac account executive; in 1950 to vice president and manager of New York office; returned in 1953 to Bloomfield Hills as executive vice president, named president in 1955. Married in 1939 to former Marian Wellman, Mr. Jones’ family includes five children—Biff, 16; Christine, 11; Stephen, 8; Janet, 6, and Mark, 4—and resides in Bloomfield Hills.
Quizzical

It is not surprising that the newspapers are having a field day with all the charges and insinuations that are being batted back and forth in the current quiz show "scandal."

Perhaps television is lucky that some such episode didn't come sooner. It's also conceivable that television is lucky to have the episode coming up head of later. For whether any given quiz show is rigged or not, this bright glare of publicity should also illuminate two points that are so obvious that broadcasters may have tended to take them for granted.

First is the need to be circumspect—not just cursorily attentive, but actively, aggressively proper. Any bobble is going to be magnified out of proportion, just as the newspapers are blowing up the so-called popular quiz shows. Beyond that, the incident emphasizes the fundamental need for broadcasters to take responsibility for the programs they broadcast.

The fact that a show is owned and/or produced by an independent package does not absolve the network or station of its responsibility in carrying the program.

Getting to the key question in the investigation, it would be naive to think that producers of quiz programs do not take pains to pick, and would like better contestants who are audience-builders. Moreover it is possible to favor one contestant over another in little ways far short of furnishing questions or answers in advance, and no doubt this has been done on occasion.

But the producers themselves would be unbelievably naive to think that the audiences—at least till now—have not watched in the belief that the contests are on the level. They must know, too, that viewers who could not be apt to wait are, if they knew a quiz was rigged. Hence to rig one would be to risk disillusioning and alienating the audience and, whether it's illegal or not, would show incredibly poor business judgment.

The Hardest Sell: Self-Help

Vacation season is over. The sound of the gavel supplants the splash of the surf.

NAB fall conferences get under way next week. State meetings are upcoming everywhere. The Radio Advertising Bureau and Television Bureau of Advertising have scheduled clinics and meetings. And the various city radio-tv clubs and societies return to normal luncheon procedures after the normal summer hiatus.

There's plenty to talk about. Almost everybody learns something at these meetings. They are far better than they used to be, although even more streamlining and consolidating is desirable. Broadcasters benefit from the interchanges, and so do broadcasting's immediate customers among advertisers and agencies.

But what about the customers of the advertisers—the listening and viewing public? Patently, anything that helps the broadcaster logically inures to the benefit of the consumer. Yet he seems to be the forgotten man on most of the meeting agendas.

The complaint often made—and with validity—is that broadcasters, who do a magnificent job of selling the potency of their media to others, have never really sold themselves.

Obviously, there's a nuts and bolts job to be done. Both radio and tv need it; tv perhaps more than radio. Fundamentally, the fight is over the advertising dollar. If broadcasters can effectively sell for others, why not for themselves? Two tv stations recently reported [EDITORIALS, Aug. 4] that they found on-the-air promotion more effective for audience development than use of display space in their local newspapers. One tv station buys spots on two radio stations in its market for the same purpose.

C. Wrede Petersmeyer, the energetic head of the Corinthian stations, has proposed to the NAB tv board of which he is a member that NAB and Tvb get together on a promotion campaign for tv, on tv. He believes $100,000 judiciously spent for a professional campaign of filmed "commercials" would sell the medium as no other promotion could. He regards such a campaign articulating the values of tv as a pressing and immediate need. And he is joined in this view by other tv leaders. To date an ad hoc committee is studying the idea. Mr. Petersmeyer wants it to get under way last April—in time for the buying season now upon us.

Tv broadcasters are the Tvb and something akin to an undivided half of the NAB. Radio broadcasters are the RAB and have a similar proprietary relationship with NAB. It is their money and their right to call the shots.

At all these meetings upcoming certainly the pros (we can conceive of any cons) of self-promotion and perhaps cross-pollination between radio and tv, deserve highlighted billing—and action. Expertly contrived on-the-air spots are bound to sell the virtues of broadcasting just as they sell goods for advertisers.

The organizations are there. The time is there. The money is there, or easily raised. All that's needed is organized action.

Double Play

It is now clear that professional baseball is determined to obtain the legal means of conspiring to install itself as the first main attraction, indeed the motivating force, of subscription television.

As reported in this publication over the past two months, the moguls of baseball almost succeeded in beguiling the 86th Congress into passing a law exempting them from antitrust prosecution. If their lobbying—as skilful and intense as any in recent legislative history—had prevailed, the club owners would have been free to withhold all games from tv until a pay system came along.

Subscription television, in the belief of the baseball trust, offers the biggest money-making opportunity for baseball since the discovery of Babe Ruth. As authority for the eagerness with which the club owners anticipate the arrival of pay tv, we quote Paul McNamara, vice president of International Telemeter, a leading pay tv promoter. In a letter to Rep. Emanuel Celler (D-N.Y.), a foe of subscription tv and of the proposal to liberate baseball from the antitrust laws, Mr. McNamara acknowledged that officials of both big leagues had assured him they wanted subscription television.

Mr. McNamara's letter to Mr. Celler [GOVERNMENT, Aug. 25] confirmed what until then was only a logical suspicion of a conspiracy between baseball and subscription tv. The suspicion had been based on such perhaps circumstantial evidence as the fact that Paul Porter, attorney for baseball, is also the attorney for International Telemeter.

But the connection of baseball and pay tv is now a matter of record. Together, they constitute a powerful lobby with great influence at its command.

Not the least of that influence comes from the emotionalism which the U. S. public and its elected representatives attach to the "national sport." Not giving baseball what it wants is, to a good many fans, like not giving milk to a baby. The baseball-pay tv interests will trade on that emotional appeal. At the next Congress they will go to bat again. Meanwhile, free television cannot afford to sit idle. The true purposes of baseball's legislative gambit must be made clear to those who will sit in the 86th Congress.

The more the leagues and club owners maneuver around Washington, the less claim they have to be engaged in a clean-cut, all-American game. To judge by its present aspirations and activities, if baseball is a sport, so is the Mafia.

For fuller market baskets at the check-out

Join NBC Radio’s giant autumn promotion. OLD FASHION FEASTS—with modern trimmings.

Now... A broad-scale network radio editorial drive to build more sales for retailers and manufacturers. On Monday, October 20th, NBC Radio Network and its 200 affiliated stations launch a 6-week EDITORIAL campaign to start more American families eating three complete balanced meals a day. It’s another step in the developing association of NBC Radio and the food industry, following up the successful “Summer-time Is Outdoor Eating Time” campaign, and NBC’s broadcasts of the food industry story.

7 Days a Week, ‘round the clock, a saturation campaign of special features and announcements will be reminding listeners that Old Fashioned Feasts are easy to prepare. With modern “built-in maid service” and appliances that baby-sit, housewives today can win handily the same praise mother used to gain the hard way.

Morning, Noon, and Night, NBC Radio programs like BANDSTAND, and MONITOR and NIGHTLINE will provide entertaining features on serving full meals integrated into the programs themselves. NBC Radio’s top entertainers, all its promotional facilities and those of the 200 NBC Radio affiliates will be behind this tremendous ‘Old Fashioned Feasts’ sales push. And it’s timed to the season, when listeners are in the mood for family dining.

Heartier meals... fuller shopping baskets... bigger profits for you!

FOOD STORE RETAILERS: How many baskets in your markets reach the check-out counter half empty? Take advantage of the response this full-scale NBC Radio campaign will generate... tie-in and march those shoppers to YOUR stores. Contact your local NBC Radio affiliate.

MANUFACTURERS: No other food promotion in media history offers these advantages... powerful editorial backdrop, tested national-local strategy, complete merchandising campaigns. Call your NBC Radio Network representative for the eye-opening details.
