BROADCASTING, July 27, 1959
**Network questioners** • Meeting being talked up by some key NBC Radio affiliates in Midwest, with indications it may be held this week or early August. There’s speculation about proposal that NBC Radio change to straight or modified form of program service, a la plan proposed by Radio World Wide. But insiders say this is “not necessarily” so. They’re said to be concerned over what they consider “incompatibilities” in network and local operations, with some thinking that NBC Radio programming aims too much at smaller-station level and not enough at major-market operations. Network sales formats also apparently causing dissatisfaction.

**Craven's chance** • House Speaker Sam Rayburn is all for community antenna tv systems—at least one which brings Dallas signals into his hometown of Bonham, Tex. Mr. Sam’s personal view, expressed privately last week, is that it is well worth installation charge and monthly fee to bring signals 90 miles into his home. Especially telecasts of sports programs, Speaker emphasized.

**No action** • Rep. Oren Harris (D-Ark.), chairman of the House Commerce Committee, will not hold hearings this session of Congress on many pending community antenna and booster bills. His decision is independent of any action Senate may take, with its Commerce Committee having completed several days of testimony spread over four weeks. Latest cable bill was introduced last week by Rep. John Moss (D-Calif.), member of Rep. Harris’ committee.

**Added starter** • Appointment of FCC Vice Chairman Rosel H. Hyde as vice chairman of American delegation to Plenipotentiary Conference of International Telecommunications Union in Geneva is imminent. Comr. T.A.M. Craven leaves this week for Geneva as chairman of Radio Conference (diplomatic). Chairman of latter is Francis Colt de Wolf, chief of Telecommunications Div. of State Dept.

*By virtue of absences of Comrs. Craven and Hyde, FCC, after it reconvenes about Sept. 2, will function with only five of its seven commissioners, perhaps until end of year. Comr. Craven will be absent until conclusion of conference, scheduled to end about Christmas. Comr. Hyde will leave in early Fall to participate in Plenipotentiary Conference which is scheduled to begin in mid-October.*

**Military front** • Lack of news on status of FCC’s conferences with military on release of some vhf frequencies to be added to tv allocation has been interpreted widely as indicating lack of success. FCC Comr. Frederick W. Ford, who heads FCC-OCDM liaison, has felt impelled to release public statement to indicate status. This may happen this week. Import of statement: Progress.

**RWB leaders** • There’s talked up Network chairman of Craven (tech.), chairman of American Network, of using three vhf channels. Would Commission accept? FCC wants 25-35 contiguous channels to add to present 12 vhf, but there is inkling, that FCC may agree to accept minimum number whatever it can get.

**Fm news relay** • Radio Press International, New York, whose expansion of station subscribers to its voiced news service is slowed by line charges, may find from tests this week more effective and cheaper way to reach distant points. On Wednesday and Thursday (July 29-30) RPI will experiment with early morning (6:05 a.m.) transmission over specially organized fm network in southeastern section of country. Nine fm stations from Roanoke, Va., to northern Georgia and west to Tennessee will carry transmission as programming, as required by FCC regulations. Some 100 am stations are expected to pick up and tape fm broadcasts for use in their own news programs later in day. If test proves successful regular service via fm relay has target date of Aug. 17. Fm hookup arrangement could foreseeably extend to West Coast. By not using telephone lines, savings to stations will approximate $25 per week.

**Iffy order** • FCC’s order last week to consider “feasibility” of breaking down all 24 clear channels is more bark than bite. First, it provides for rule making proceedings, which are tedious in extreme, and four commissioners who voted for proposal reserved right to reach different result after staff prepares document, which won’t be in its hands until after Labor Day. Commissioners initially voting for new move were Bartley, Craven, Lee and Cross but two of them reached conclusion on what is described as “iffy” basis.

Three who opposed action (Chairman Doerfer, Hyde, Ford) did so mainly because they felt nothing should be done until Senate acts on NARBA treaty and parallel Mexican agreement on use of any broadcast band. They contended that only demands for new am stations are from populous areas and that “white” areas wouldn’t benefit. Moreover, some feel clear channels, should be “stockpiled” for use in national emergencies. Because Comr. Craven will be in Geneva until Christmas (see above) Chairman Doerfer changed his vote to favor rule making to carry out will of majority, but with statement for record that he had not changed his views.

**Reward for trying** • Major significance seen in Commission’s announcement last week it had instructed staff to draw up papers granting Beaumont, Tex. ch. 12 to Television Broadcasters Inc. (operators of now dark ch. 31 KBMT [TV]). Commission apparently was swayed by fact owners N.D. Williams and R.C. Reed tried to make go of uhf; KBMT begun operating in 1954, went off air in 1956. Examiner’s initial decision last year recommended Brown Telecasters Inc. (principal owner being oil-gas-lumber-real estate-banking tycoon E.W. Brown Jr.). Also applying was KJET Beaumont. FCC thus indicated it will give sympathetic “priority” to those who tried uhf but couldn’t cut mustard.

**Spectrum bosses** • Whether it ever sees light of day, bill proposing three-man Federal Spectrum Authority to coordinate and manage allocations of radio spectrum for both government and private use has been drafted by Chairman Oren Harris (D-Ark.) of House Commerce Committee. Measure is promised on result of two-day panel last month participated in by FCC, military, common carrier and broadcasting representatives, which tacitly agreed on need for revision of existing authorities whereby president allocates for government services, sight unseen, while FCC distributes what’s left to private users.

Presumably Chairman Harris is as saying reaction to bill before determining course. Delegation of four broadcasting representatives (Harold Fellows, NAB; Lester W. Lindsey, Assn. of Maximum Service Broadcasters; Joseph H. Ream, CBS, and F. M. Russell, NBC) among those thus far consulted.
REACH HER FIRST IN DETROIT with WJBK-TV's MORNING SHOW MOVIE!

Children off to school . . . husband off to work . . . a cup of coffee and now a Good Movie! The “Morning Show” is the first feature film of the day in Detroit, Monday through Friday at 9:00 AM. Every show is a top-flight feature from UNITED ARTISTS, SCREEN GEMS, NTA, RKO, and coming soon, PARAMOUNT.

WJBK-TV puts you right in the picture in 1,900,000 television homes in Detroit and southeastern Michigan. Help yourself to a 9-billion-dollar sales potential in the nation’s fifth market.

Storer Television
WEEK IN BRIEF

The merchandising special comes of age • There is more to successful advertising in today's competitive marketplace than merely telling the viewer what you have to sell. To get action at the retail level, the advertiser must use his TV vehicle as the merchandising spearhead in a completely integrated all-media campaign and follow through effectively right to the point-of-sale. The principles and a case history are provided by Robert R. Newell, president of Cunningham & Walsh, New York, in this week's MONDAY MEMO. Page 29.

Spot buying faces changes • Shortage of 60-second TV availabilities may force agencies to turn heavily to 20-second lengths, think more in terms of long-term commitments once again. That's conclusion drawn from findings of new monitoring study by Broadcast Advertisers Reports. Page 35.

Smokin' up the air with menthol • Preparatory campaigns on radio, TV and other media for new Spring and Alpine cigarettes presage an outburst of activity for mentholated, filter-tip lines. Page 38.

Does advertising pay and how? • Charles G. Mortimer, president of General Foods Corp., chimes in with a "yes" and tells company stockholders that advertising helps develop a large and dependable volume of sales to keep plants running efficiently. Page 38.

Who is Al McCarthy? • The first account ever printed of the new angel of Mutual network. An operator with worldwide real estate interests, he's a quiet man whose story has never before been told; also, the only published portrait of this little-known but powerful head of many corporations. Page 48.

Another clear-channel proposal • FCC instructs staff to try another tack on clear channel case—duplicate all Class A stations with Class II stations. New notice of proposed rule-making won't be out till September. Page 60.

Saga of Voice • No prime time for 25-year-old favorite; Firestone executive recounts doleful tale to FCC examiner looking into television network program practices. Page 68.

Sen. Dirksen throws roadblock • Path of bill banning ex parte contacts during first round of hearings by Administrative Practice & Procedures Subcommittee becomes rocky. ABA and Justice Dept. witnesses urge passage of measure. Page 70.

Boston Ch. 5 Briefs • Greater Boston, DuMont, WHDH and Globe file briefs and proposed findings in remanded ch. 5 proceedings. Massachusetts Bay and Justice Dept. file late on Friday deadline. Page 74.

Competitive TV in Canada • Dominion abandons proposal of just one television station per city, signaling scramble for facilities in top markets. Also, parliamentary committee maps reforms to tighten operations of Canadian Broadcasting Corp. Page 90.

Columbia’s Salt Lake station buys imminent

Purchase of KDYL-AM-FM and KTVT (TV) Salt Lake City by Columbia Pictures Corp. from Time Inc. T-L-F broadcasters, in negotiation for past weeks (Closed Circuit, July 20), was awaiting signature of principals late Friday (July 24) in New York. Price was $3.1 million plus, final price dependent on net quick assets at time of actual transfer. Transaction is subject to FCC approval.

Weston C. Pullen Jr., executive vice president for T-L-F, was handling that company’s side of deal; Norman Louvau, general manager of Columbia’s station operations, handled buying side.

Salt Lake stations are licensed to Intermountain Broadcasting & Television Corp. which purchased them in 1953 for $2.1 million. Then and until last week, Intermountain was owned 80% by T-L-F, 20% by G. Bennett Larson, stations’ general manager. Mr. Larson’s 20% interest was purchased by T-L-F last week. That sale is not subject to FCC approval and price was not disclosed. Mr. Larson has not announced his future plans.

Purchase is first for Columbia in radio-tv field, presumably not last. Company last year bought in Mr. Louvau, ex-sales manager of KRON-TV San Francisco, as general manager of station operations for its Screen Gems subsidiary, with assignment to find and purchase stations up to FCC limit. Midway in negotiations for Salt Lake stations Mr. Louvau, his title and duties were transferred to parent Columbia Pictures Corp., which will establish new stations division to operate Salt Lake properties and others which may be acquired.

In process of negotiation was reported purchase of ch. 9 KMSP-TV Minneapolis from National Theatres by 20th Century-Fox for reported $3.5 million. Like other picture company transactions, this is understood to also include film rights to feature film packages as part of payment. 20th Century, it is reported, is seeking maximum quota in tv station ownership.

Spyros Skouras, 20th Century-Fox president, is now in Europe. On his return, it is expected, he will make announcement of Minneapolis purchase.

Sales filed at FCC Friday:

KFNF Shenandoah, Iowa, to Nicholus and Victor J. Tedesco (50% each) by Don Searle, William A. Martin, H.A. Searle Jr., K.C. Titus, W.A. Mosier, J. Herbert Hollister and Helen Searle Blanchard for $125,000. Messrs. Don Hansen, H.A. Searle Jr. and Mr. Hollister and Mrs. Blanchard also own KMMJ Grand Island, Neb., and KXXX Colby, Kan., and Mr. Hollister owns KCOL Ft. Collins, Colo. Tedesco brothers each own 50% of WISK St. Paul, Minn. (sale pending FCC approval). 20% of KCUE Red Wing, Minn., and 37% of WCOW Sparta. Wis. KFNF is on 920 kc with 1 kw day and 300 w night.

KRRK King City, Calif. by James H. Rose and associates, to Robert C. McVay for $28,000 announced Friday. Broker was Paul H. Chapman Co. KRRK is on 1570 kc with 250 w day.

Justice Dept. findings filed in Boston ch. 5

Justice Dept. Friday (July 24) recommended that both WHDH Inc. (winning applicant) and Massachusetts Bay Telecasters be disqualified in Boston ch. 5 (earlier story, page 74). Justice views, along with those of MBT, maintaining WHDH grant should be set aside as an applicant disqualified.

were filed Friday at FCC as proposed findings following rehearing of Boston decision.

“Both WHDH and MBT should be disqualified," Justice stated. "These two applicants ceased to depend upon the merits of their cases and sought discriminatory and favored treatment by attempting to influence the Commission in a matter other than the recognized and public processes of adjudication.”

Accordingly, Justice brief continued, the grant to WHDH "must be set aside as void ab initio and this comparative proceeding should be re-opened.”

MBT held former FCC Chairman George C. Mcconnaughey should have been disqualified from voting because of off-record contacts made with him by WHDH and for other reasons and concluded he may have been improperly influenced and may have improperly influenced other FCC members.

MBT said information furnished FCC by Justice Dept. on status of antitrust charges against WHDH is grounds for setting aside grant because other parties weren’t notified. WHDH “consistently” tried to obtain favorable decision by “extra-judicial means.” MBT said he held contacts by its officials with Washington officials and with Mr. McConnaughey should not reflect adversely on it from comparative standpoint.

Catv, broadcasters argue before FCC

Conflict between FCC’s common-carrier and broadcasting duties was pointed up Friday in oral arguments before Commission.

At issue were protests filed by broadcasters against privately owned common-carrier microwave systems that pick up distant, big-city tv signals and deliver them to commuters in small cities—thus doubling or tripling local broadcasters’ competition for audience.

Involved are FCC grants to Mesa Microwave Inc. to feed Jacksonville, Fla., signals to Tallahassee, and San Antonio signals to Laredo, Tex.; East Texas Transmission Co. to feed Dallas-Fort Worth signals to Tyler, Tex.; Carter Mountain Transmission Corp., to extend its present system to feed Casper, Wyo., tv signals to Thermopolis, Wyo., and to increase number of channels in feeding Riverton and Lander, Wyo., and Montana Microwave seeking to serve Helena, Mont.

Protesting these grants (Commission approved these applications last April, denied several protests, but U.S. Court of Appeals remanded last May) were WCTV-TV Thomasville, Ga., KLTV- TYler. KWRB Riverton, KGNS-

CONTINUES on page 10
**AT DEADLINE**

**CONTINUED from page 9**

TV Laredo, and KXIJ-TV Helena.

Among major questions brought up by lawyers and questioning Commissioners (all present except Comr. T.A.M. Craven), were:

- Should FCC extend economic protection to local broadcaster? Should FCC also extend economic protection to microwave relay company?
- Common carrier rules provide FCC must certificate common carrier if it extends offer to serve all who ask for service. Commission has policy also of inquiring as to need for service.
- Do these microwave carriers meet test of common carriers since they serve only single catv customer, which often is same interests as microwave carrier company?
- Does Commission have right to inquire into content of traffic carried by microwave system?
- Should not this problem be met at local, catv level—rather than at microwave level?
- If Commission revokes catv permit (FCC does not have jurisdiction over catv systems, but there is legislation pending which would give it this authority), does that not lead to premise that FCC could order local broadcasters to carry certain shows for which public has shown preference (through payments to catv)?

Arguments for broadcasters were made by Vernon L. Wilkinson, Edward F. Kenihan and Fanney N. Litvin. E. Stratford Smith represented microwave systems and Arthur A. Gladstone, FCC’s Common Carrier Bureau.

**Informed electorate**

CBS was slated to carry its fight against Sec. 315 and FCC’s interpretation of it to public yesterday (July 26, 6-6:30 p.m. EDT) in special CBS-TV program highlighted by editorial delivered by President Frank Stanton. History, meaning and FCC applications of Sec. 315 were to be sketched by newsman Howard K. Smith in report leading up to Dr. Stanton’s editorial. Dr. Stanton was expected to stress vital importance of informed electorate—and impossibility of radio-tv’s using its abilities and contributing its share until broadcast blackout imposed by equal-time law is removed.

**Business briefly**

- Seven-Up Co. (beverage), St. Louis, reported signed by ABC-TV for alternate-week half-hour of Walt Disney Presents (Fri., 7:30-8:30 p.m. EDT), effective in fall. Agency: J.M. Mathes Inc., N.Y.
- Midas Automobile Mufflers, Chicago, and Hamm’s Beer, St. Paul, sign for segments of CBS-TV coverage of Professional Golfers Assn. championship matches (Aug 1, 5:30-6:30 p.m. EDT): Aug. 2, 5-6:30). Bozell & Jacobs, Chicago, is agency for Midas; Campbell-Mithun, Minneapolis, for Hamm.
- General Electric Co. Major Appliance Div., Louisville, through Young & Rubicam, N.Y., will sponsor The Fabulous Fifties on CBS-TV Jan. 17, 1960 (8-9 p.m. EST). Produced by Le- land Hayward, 90-minute special will depict past decade in music, comedy, drama and dance. Mild controversy between CBS-TV and NBC-TV started when latter network announced title of Ford Motor special next season also would be The Fabulous Fifties. Pro- ducer of Ford specials, Hubbell Robinson Jr., last week said title will be changed.

**WEEK’S HEADLINERS**

WENDELL B. CAMPBELL, formerly vp, RKO TeleRadio Pictures Inc., in charge of Pacific coast sales for RKO radio and tv properties, appointed managing director of new Storer station, KPOP Los Angeles, effective Aug. 1. Mr. Campbell began broadcasting career in 1938 as account executive with CBS Radio Sales. He has been general and sales manager of KMOX St. Louis, manager of WCWO Minneapolis, and later vp, CBS Radio in charge of radio spot sales. He joined RKO TeleRadio Pictures in 1956 as vp and general sales manager of Mutual Broadcasting System (then RKO-controlled), was named vp of Don Lee Div. and general manager of KFRC-AM-FM San Francisco.

GUSTAVE NATHAN, formerly director of sales development for WNBC (TV) and WKNB, both New Britain, Conn., as of today (July 27) becomes manager of Herald Tribune Radio Network. It was announced by Martin Stone, president of VIP Radio Inc., Mt. Kisco, N.Y., which operates network. Mr. Nathan, who will be headquartered with Mr. Stone at 595 Madison Ave., New York, will have general administrative responsibility over four stations as well as network sales and management. Stations are: WYFY Min- eola, WVOX New Rochelle, WVIP Mt. Kisco and WQHQ Saugerties, all New York. From 1948 to 1955 Mr. Nathan was station manager and sales manager of WCWO Water- bury, Conn. He then joined WKNB as commercial manager and in 1955 became director of sales development when uhf station WKNB-TV, later WNBC, was started. Mr. Stone also announced RICHARD K. DOAN, director of Herald Tribune Network, will continue in that position in charge of network programming. Herald Tribune Network stations are owned jointly by Mr. Stone and Plymouth Rock Pub- lications Inc. (John Hay Whitney), which also owns New York Herald Tribune, Parade Magazine. Mr. Whitney is partner in J.H. Whitney & Co., majority owner of Corin- thian Stations (KOTV [TV] Tulsa, WISH-AM-TV Indianapoli, WANM-AM-Fort Wayne, KHOU-TV Houston and KXTV [TV] Sacramento).

Leslie T. Harris, vp, production of CBS Films Inc., N.Y., has resigned to join new International Television Production Div. of Independent Television Corp., with headquarters in London, effective Aug. 1. Mr. Harris will work closely with Asso- ciated Television Ltd., which has interest in ITC, in development of co-production and co-financing transactions with U.S. networks and sponsors for tv programs to be filmed in England and other overseas countries and dis- tributed internationally through ITC. Mr. Harris joined CBS Films in 1953 as vp and general manager, previously had been director of radio-tv for Colgate-Palmolive Co., na- tional program director with NBC Radio and director of radio with Benton & Bowles.

FOR OTHER NEWS OF PEOPLE SEE FATES & FORTUNES
IT COMMUNICATES!

It takes only one wave of a checkered flag to signal the winner as thousands of horsepower race down the straightaway. That's communication. And it takes only one word from WOOD-TV to send hundreds of thousands of WOODlanders racing straightaway to their stores. That's real communication. There's plenty of buying power, too in Western Michigan — where everybody is a WOODwatcher. Make your client a winner. Check Katz for details.

**DATEBOOK**

A CALENDAR OF MEETINGS AND EVENTS IN BROADCASTING AND RELATED FIELDS

(*Indicates first or revised listing)

**JULY**

*July 28-31—Senate Judiciary Antitrust hearings on legislation to exempt professional sports from antitrust laws. Room 318 (Caucus Room), Senate Office Bldg., Washington.*

**AUGUST**

Aug. 3—Comments due on FCC proposal to revise television network control system cutting down on option time, eliminating so-called program packages. Commission requests that comments also refer to same revisions in radio network rules. Docket 12,859. Postponed from June 22.

Aug. 4—Argument in Ninth Circuit Court, San Francisco, on request for temporary injunction against FCC by Montana Microwave (common carrier relaying freight signals to Helena, Mont., community tv system). Litigation is against FCC order staying grant to Montana Microwave pending outcome of protest proceeding filed by KXLJ-TV Helena.

Aug. 16-17—Montana Broadcasters Assn., Rainbow Hotel, Great Falls.

Aug. 16-18—Georgia Assn. of Broadcasters, summer meeting, Jekyll Island.

Aug. 16-18—Georgia AP Broadcasters, Jekyll Island.

Aug. 18-21—National Assn. of Educational Broadcasters, seminar for radio station managers, U. of Wisconsin, Madison.

Aug. 18-21—Western Electronic Show & Convention (Wescor), Cow Palace, San Francisco. Dr. Herbert F. York, Defense Dept. director of research and engineering, will speak Aug. 21 at luncheon to be held at Fairmont Hotel. (Corporation meeting at Fairmont, Aug. 19.)

Aug. 20-22—South Carolina Broadcasters Assn., Holiday Lodge, Myrtle Beach.

Aug. 23-24—UPI Broadcasters of Connecticut, Rhode Island, Maine, Vermont and New Hampshire aboard aircraft carrier Wasp at sea; board destructor at South Boston Naval Annex for transfer to Wasp 100 miles out; return to Boston.

Aug. 28-30—West Virginia Broadcasters Assn., Greenbrier, White Sulphur Springs. FCC Comr. Frederick W. Ford and Howard H. Bell, NAB assistant to president, will speak.

*Aug. 29—Mississippi Broadcasters Assn., sales management conference, Heidelberg Hotel, Jackson.*

Aug. 29—Oklahoma Broadcasters Assn. summer meeting, Lake Murray Lodge, Ardmore. Judge John Brett, presiding judge of Oklahoma Criminal Court of Appeals, will render decision in favor of court broadcasting, will address luncheon. Ben Sanders, KGCD Spencer, Iowa, will conduct sales clinic.

**SEPTEMBER**

Sept. 3—North Carolina AP Broadcasters annual meeting, Charlotte.

Sept. 4-5—Texas AP Broadcasters, 1959 convention, Rice Hotel, Houston.

Sept. 10—Advertising Research Foundation seminar in operations research, on 13 consecutive Thursdays starting this date. Further information from ARF.

Sept. 11-12—Country Music Assn. Board of Directors, Springfield, Mo.

Sept. 11-13—Southwest stereo/hi-fi show, Shamrock-Hilton Hotel, Houston, Tex.

Sept. 12—AP Broadcasters of Ohio, Columbus.

Sept. 16-18—Michigan Assn. of Broadcasters, fall convention, Hidden Valley, Gaylord.

Sept. 17—Ann. of National Advertisers sales promotion workshop at Hotel Sheraton-East, New York. Program on “incentive selling methods” to include panel discussions, case histories and presentations by recognized authorities. Horace Barry, merchandising manager, The Nestle Co., is program committee chairman.

Sept. 17-19—Mutual Ad. Agency Network, second in series of three-day workshop-business sessions under new format calling for three (instead of four) annual meetings, Bismarck Hotel, Chicago.

Sept. 19-20—Southwest stereo/hi-fi show, Hotel Adolphus, Dallas, Tex.

Sept. 21-22—Louisiana Assn. of Broadcasters, Francis Hotel, Monroe. Speakers include Ed Fitzgerald, J. Walter Thompson Co., Chicago, and Charles H. Tower, NAB personnel-economics manager, who will speak on “Labor Problems and Solutions in Broadcasting.”

Sept. 22-24—Electronic Industries Assn. fall conference, Hotel Traymore, Atlantic City, N.J.

Sept. 24-26—AFTRA 10th District convention, Hotel Texas, Fort Worth.

Sept. 27-29—Assoc. of Independent Metropolitan Stations, Hotel Roosevelt, New York.

Sept. 29-Oct. 3—Affiliated Advertising Agencies Network international convention, Somerset Hotel, Boston.

The John Trumbull painting of the committee appointed to draw up the Declaration of Independence stands as a symbol of the strength and integrity of our forefathers. These characteristics are the wonderful heritage of Storer Broadcasting, too.

Strong and respected in the communities each Storer station serves, a Storer station is synonymous with broadcasting at its finest.
WDBJ is one of the best buys in television... anywhere!

WDBJ-TV covers 53 counties... where there are over 400,000 television homes, $2 billion in retail sales. You can buy into this rich market economically and effectively, for WDBJ-TV furnishes highly rated shows at comparatively low cost to you.

For example, Anne Howard's PANORAMA, most popular women's show in the area, has an average daily rating of 14.7, and delivers viewers for only 82 cents per M on a 10 Plan; $1.05 on a 5 Plan.* Powerful sales-producing merchandising support provided, too!

It will pay you to take a closer look at PANORAMA and other "best buys" offered by WDBJ-TV.

*All rates based on March, 1959 NSI

LANG-WORTH FEATURE PROGRAMS, INC. 1755 BROADWAY N Y 19, N Y
TELEPHONE: JUDSON 6-5700

OCTOBER

Oct. 4-6—AFA 7th District convention, Roosevelt Hotel, New Orleans, La.
Oct. 5-9—Society of Motion Picture & Television Engineers, 86th semi-annual convention, Statler-Hilton Hotel, New York.
Oct. 5-9—11th annual convention and professional equipment exhibit, Audio Engineering Society, Hotel New Yorker, New York. Technical papers from many nations have been submitted for presentation, covering newest theories, developments and achievements in the audio field, including stereo.
Oct. 7-9—Canadian Section, Institute of Radio Engineers, annual convention, Automotive Bldg., Canadian National Exhibition, Toronto, Ont.
Oct. 12-15—National Electronics Conference, 15th annual meeting and exhibit at Hotel Sherman, Chicago, with expectancy of 15,000 attendance and some 250 display booths. Sessions will be held on antennas and propagation, audio, circuit theory, communications systems, computers, microwaves, space electronics, television, transistors, and communication and navigation, among other topics.
Oct. 14-17—Radio-Television News Directors Assn., 14th international convention, St. Charles Hotel, New Orleans. Among speakers will be FCC Chairman John C. Doerfer and Rep. John E. Moss (D-Calif.), who will discuss broadcast news and freedom of information, respectively.
Oct. 15—Beginning of the eight annual NAB Fall Conferences. For full list of dates and places, see special listing on page 18.
Oct. 15-16—Central Region annual meeting, American Assn. of Advertising Agencies, Drake Hotel, Chicago.
Oct. 18-21—Western Regional Convention, American Assn. of Advertising Agencies, Biltmore and Miramar Hotels, Santa Barbara, Calif. Agenda includes day of closed sessions for member agency management delegates and day-and-a-half of open sessions.
Oct. 22-23—Audit Bureau of Circulations, annual meeting, Drake Hotel, Chicago.
*Oct. 22-23—Kentucky Broadcasters Assn., fall meeting, Phoenix Hotel, Lexington.
Oct. 29-31—New Jersey Broadcasters Assn., fall meeting, Nassau Inn, Princeton.

NOVEMBER

Nov. 2-4—Broadcasters Promotion Assn. convention, Warwick Hotel, Philadelphia. Robert W. Sarnoff, NBC board chairman, will be keynote speaker. Other speakers: H. Preston Peters, Peters, Griffin & Woodward, Adam J. Young, Adam Young Inc., and James T. Quirk, TV Guide. Jim Kiss, WPEN Philadelphia, program chairman, said agenda will provide maximum exchange of ideas. Panels will be restricted to two participants.
Nov. 4-5—Eastern Annual Conference, American Assn. of Advertising Agencies, Biltmore Hotel, New York. Seven specialized workshops and management events are scheduled.

BROADCASTING, July 27, 1959
All television is good in Minneapolis-St. Paul. Four sharp stations fight for every viewer. Competition is keen and constant. But the difference between good and great shows up like this: Of the 50 station breaks with the most viewers on all Twin City television*, WCCO Television has 50% more than all the three competing stations combined. Of the top 100 spots, WCCO Television again has more than all competition put together. 

* Nielsen Station Total Audience, April, 1959
Beautifully simple, exceptionally reliable 5-10 KW transmitter by CONTINENTAL

The type 315B/316B AM transmitter offers a "plug-in" power package—conversion from 5 to 10 KW without major circuit changes. Less than 1% carrier shift—output independent of power line regulation. Special long-life selenium rectifiers throughout for minimum warmup time. All aluminum, frameless cabinets give maximum harmonic reduction take small space. Specifically designed for practical unattended operation. Easily installed anywhere—virtually maintenance free!

America's Leading Business Brokers

Interested in buying or selling Radio and TV Properties?

When your business is transacted through the David Jaret Corp., you are assured of reliability and expert service backed by over 36 years of reputable brokerage.
Community service is a most important facet of a radio station. That’s why, in addition to strong public service programming and vigorous support of civic activities, KNX stages a continuing series of events in its Columbia Square home. The most striking of these displays is the KNX Armed Forces Week each May. This year 75,000 Southern Californians saw the latest in space age weapons and probes. No less significant was our Youth Science Fair featuring the exhibits of outstanding high school students selected from over 200 Los Angeles County high schools. Last year during the Christmas season, choral groups from all over the Southland came to sing for highly appreciative KNX listeners. A man is known by the company he keeps. So is an advertiser. That’s why it pays to keep company with KNX Radio...Southern California’s #1 radio station for community service.

PLAYBACK
QUOTES WORTH REPEATING

Pitfalls of stereotype programming

Sameness in radio programming can be suicidal, warns Fred Ruegg. Speaking July 13 at a meeting of the Idaho State Broadcasters, the general manager of KNX Los Angeles offered these constructive criticisms:

So, what can we do? Well, there are several things I think we can and must do. The most important of which is we must quit copying each other. It seems to me that if the Top 40 operation has become the No. 1 station in a community, the competitive answer is not to copy what he is doing but to find something that is better . . .

I know that new ideas are the scarcest commodity in the business. But there are new ideas, and they're worth pursuing . . .

. . . But above all things, dare to be different! Dare to take chances! Find a new and unusual disc jockey personality. Or try a talk program. Who says that music is the only successful program ingredient? Of course not all new ideas will work, but some of them will.

I have great faith in radio. I am convinced that if we can give the people what they want, they'll listen—and they'll even leave their television sets to do it.

Art needn't be long hair

Addressing the International Design Conference at Aspen, Colo., last month, Jerry Schnitzer, executive vice president of Robert Lawrence Productions, New York, said that TV commercials have antagonized the American public by failing as art. Mr. Schnitzer went on to give this challenge to film men:

"The theatrical film industry has failed to accept the challenge of the television commercial as an art form. It has failed to conceive that anything of any artistic merit could fit into the limited confines of 90 feet of celluloid. And, it has failed, for all it's worth, to see that advertising and film are compatible.

I submit that the filmed commercial can be and, in notable instances has been, art. And if it is ever going to mature as a vital means of communication, it will do so as an art form under the aegis of film men.

Admittedly, it sounds like a preposterous notion: arty commercials. Yet few people here will dispute the pretensions of other advertising forms to artistic consideration. If we are willing to acknowledge that the design of magazine and newspaper advertising can reach the heights, why not admit a

similar potential for the filmed commercial? . . .

What are the requisites? The motion picture, unlike advertising in other media, must tell a story. Unlike still photography, it must tell its story with dynamic movement. Unlike radio, it must tell its story visually. As long as a film is true to these basics, it can be communicative art, and the filmed commercial can do all of these things.

REPRESENTED BY THE KATZ AGENCY / BASIC ABC IN PITTSBURGH
MONDAY MEMO

from ROBERT R. NEWELL, president, Cunningham & Walsh, New York

The merchandising special comes of age

In the fast moving world of television, it's become increasingly important to satisfy the clients' need to sell viewers. Too many times, a show has attracted a large, but a "do nothing" audience. In these days of ever intensified competition for the television viewer's eyes and ears, it's not enough to merely sell the viewer. You have to sell him aggressively and dramatically that your clients goods and services are the very best for his need.

At Cunningham & Walsh, we have originated and developed a new tool for today's advertiser. This is the completely integrated selling campaign, using a television special to spearhead a merchandising promotion that features a traffic building device. It means coordinating all media to implement the commercial impact of the television special . . . using the same theme in television and radio spots, billboards, magazines, newspapers and, most importantly, at the point of sale. Too often, the media are coordinated but the last-minute reminder in the form of point-of-sale merchandising material is forgotten.

Action at the Retail Level • One of the strong attributes of the promotion should be a traffic building device or a premium. Used successfully, the integrated merchandising promotion can really pay off for the client at the retail level in terms of consumer sales action. It's one of the very few ways where you can dramatically demonstrate to your client that the advertising really works . . . that people do watch, listen and read the ads and then do something about it.

In order to successfully accomplish this goal of action at the point of sale, we must stress the merchandising use of television. This means purchasing a show, not for the show's sake alone, but as part of a well designed and concentrated merchandising push.

Let's set up some ground rules:
1. The special must be planned at least nine months in advance in order to properly merchandise the campaign centered around the show to the client's sales force, distributors and dealers.

2. The merchandising premium or forcing device should have a direct relationship to the show in order to provide complete integration. For example, a record premium announced on a musical show featuring the music of the principal performer starred on the show represents an almost ideal forcing device.

3. The merchandising premium should be featured in all media. The coordination of a flight of spot radio and spot television announcements immediately following the television special gives added emphasis. Likewise, the use of the featured performer in magazine, newspaper, outdoor and broadcast advertising further complements the over-all plan.

Selling the Salesman • And, let's not forget the all important sales and dealer organizations of the client. They should be alerted to the promotion and given various tie-in devices for their own participation. This is the last link in the successful knitting together of the merchandising promotion that's kicked off with a major television special. By educating and exciting the men in the field about the attributes of the promotion, you can get more mileage from your advertising dollars than ever before.

Cunningham & Walsh has created and successfully used this integrated form of special show custom tailored to the needs of its clients. We have several of these merchandising specials in the works for the fall. This is a new and flexible advertising tool to increase sales. The public taste is changing. The television show that hypnotizes the viewer but doesn't get him to act may not justify the high cost and certainly does not utilize the high sales effectiveness of today's television.

Dick Clark special • Cunningham & Walsh used a merchandising special June 28 (Sunday 9:30-10:30 p.m., ABC-TV) for Bowling Products Group of American Machine & Foundry. The Record Years featured Dick Clark (l.), McGuire Sisters, others. "Forcing device": free bowling book.

The big pay-off • C&W found the book offer a big success, distribution topping 2 million. Here a teenage bowler gets her copy, talks it over with bowling proprietor Louis Feibel, T eenage, N.J. He was one of over 3,000 dealers who received AMF display kits, used 12,000 in mail campaign alone.
THE PGW COLONEL SAYS:

"The facts of Spot Broadcasting are often its best salesmen—but a lot of the best people don't know the facts."

Within the last year, PGW has carried the story of spot broadcasting to 55 advertising centers from coast-to-coast. We presented the facts of our medium to advertisers, to agencies and to people on the local scene concerned with the sale of nationally advertised products.

We believe in presenting the facts everywhere to get business. Don't you?

THE SPOT SQUEEZE IN TELEVISION

Minutes and 10-seconds are now so popular that availabilities in those lengths are getting scarce; results may be swing to 20-second format, long-term franchise buying, higher tv rates

Signs of a major—and enforced—turnabout in agencies' approach to national spot television buying appeared to be taking form last week.

Instead of one-minute announcements, currently by all odds the most heavily used spot unit, the less frequently favored 20-second length may of necessity become the primary target of television buyers this fall. The reason: minute availabilities are getting scarce.

This means that, first, the agencies must reorient not only their own thinking but also that of their clients. In effect, they would have to do much of the job they did earlier in selling clients on the advantages of the one-minute announcement over the shorter spot in terms of both length and comparative cost. Or at least they would have to apprise clients of the new situation.

**Franchise Buying** • Observers also think it may mean a departure from the current in-and-out system of spot buying and a return—in some form—to long-term "franchise" buying.

A third result could be eventual increases in spot rates by the stations.

Buttrressing this sort of thinking was a report issued last week by Broadcast Advertisers Reports which showed a whopping 55.7% increase in the use of 60-second spots since 1957—but a lag in the sale of 20-second announcements.

The inferences drawn from these figures, supported by buying experience, were that in major markets 60-second availabilities are already scarce and will be even scarcer by fall.

By this reasoning, advertisers already having or able to find the longer lengths will feel compelled to hold onto them through long-term contracts, rather than give them up and risk being unable to get them back when wanted for another flight.

For advertisers not able to buy the 60-second announcements they want, such a situation would require concentration on 20-second announcements—and, according to some observers, an inclination to buy these too on more of a long-term than in-and-out basis.

**Agency Action** • At least one major agency already has undertaken a quiet reorganization of its spot-buying approach to take the changing situation into account. Aware that the market in minutes is growing tighter, it is looking to 20-second announcements as its best bet in further buying—and indiscriminating its clients in this new thinking.

This agency, and others, also are talking once more about the importance of franchises and how to acquire them.

---

### Minutes and 10-second spots: most in demand

These tables show how the volume of 60-second and 10-second spot commercials (local and national non-network) has increased in the past three years in major markets. For each market these are reports of off-the-air monitoring during one week in February-March of each year, as compiled by Broadcast Advertisers Reports.

**SQUEEZE**
Some are considering “spot pools,” in which long-term orders would be placed and the time then divided among clients. The purchase of quarter-hour and half-hour programs for use as spot carriers for different advertisers is another possibility being considered.

The possibility that the growing demand for spot announcements to raise program coverage volume was generally considered unlikely—until 1957. There was no breakdown on usage of other lengths in prime time, but BAR officials said prime-time ID’s were up somewhat. Full-minute availabilities in prime time are virtually nonexistent.

Dog foods barking up the right tree

Advertisers of dog food and other pet products will feed more than $15 million into TV during 1959. Estimated expenditures, which represent an increase of some 30% over 1958, were announced last week by Television Bureau of Advertising, New York.

Nine national advertisers in the first five months of 1959 spent $2,858,593 on network TV for pet products. And in spot TV during the year’s first quarter a total of $2,441,000 was spent.

Leading the pack on network TV, with $640,328 in gross time billings in five months, was General Foods’ Gaines dog meal. Running behind were Ralston Purina’s Dog Chow ($590,800) and Quaker Oats’ Ken-L dog foods ($414,302). Barking loudest on spot TV again was Gaines with gross time billings in the first quarter totaling $677,310. Some 27 other regional and national advertisers in the classification also entered spot TV, TVB’s survey shows.

Rambler radio spot push is increased

Rambler Div. of American Motors Corp., following up its June sales record which vaulted it into third place in all automobile sales, last week broadened its advertising in radio and print to capitalize on the sales gain. From April 24 through June Rambler conducted a saturation spot TV drive on Friday nights as an incentive to Saturday buying (Broadcasting, May 4).

Today (July 27) Rambler goes into high gear on radio with an eight-week national spot campaign based on a “Share Our Success” theme. One-minute commercials are scheduled on a high-frequency basis in prime morning and evening traffic time in more than 80 markets. NBC’s Monitor will carry 20 announcements each weekend in its continuing 52-week Rambler schedule.

ID Income

The nation’s spot TV advertisers spent 11.1% of their money on ID’s in 1958—$56,825,000 out of $511,770,000. Leading the lot was Lever Bros., with $4,246,770 spent for the 10-second entries.

This breakdown came from Television Bureau of Advertising last week along with a list of the 189 companies (and their brands) which spent over $30,000 each on ID’s. The top five after Lever were General Foods, $2,992,560; P. Lorillard, $2,015,700; Philip Morris, $1,533,040; J. A. Folger & Co., $1,286,140, and Bristol-Myers, $1,093,510.

TVB’s 1958 tabulation found the number of ID buyers in the over-$50,000 class up from 159 in 1957, with dollars up from $48,856,000. In 1956 there were 155 who spent $46,806,000.

to 3,843 in 1959. This finding was coupled with the figures on 10-second announcement (ID) usage—which like 60-minute spots have risen sharply in popularity—in support of the thesis that 20-second announcements will represent by far the biggest available market for advertisers this fall.

Ten-second spots increased by 45% in the six cities between 1957 and 1959. On a market-by-market basis, however, these gains were spotty, ranging from 6% in Chicago to 142% in Detroit.

BAR pointed out that national advertiser neglect of 20-second announcements had in fact been even greater than the relatively minor 6.3% increase would indicate. Actually, BAR officials explained, the monitoring records show that local advertisers have been buying more 20-second announcements than in the past because of a shortage of 60’s. Thus a good part of the overall increase comes from local rather than national buyers.

Overall Gains • There was no claim that the BAR statistics revealed a new development in buying patterns. From their own day-to-day experience, agencies have come up against the tightening of the 60-second market and at least some 30% cases have documented it with studies of their own. The BAR report thus was seen more as proof than discovery.

The study also pointed out the overall increase in announcement business, 1959 vs. 1957. In the six cities the overall gain in the three types of announcement—60, 20 and 10-second—amounted to 41.2%. By city, the increase stretched from 23% in San Francisco to 76% in Detroit. These figures include all non-network commercial announcements, national and local, but do not count spot or local sponsorship of programs.

BAR’s figures cover all periods of the broadcast day. In prime time alone, the study found advertisers using 10% fewer 20-second breaks than they did in 1957. There was no breakdown on usage of other lengths in prime time, but BAR officials said prime-time ID’s were up somewhat. Full-minute availabilities in prime time are virtually nonexistent.
WHO-TV's spectacular library of film packages—loaded with award-winning movies—means "box office" for YOU, in Central Iowa!

Three times each weekday, thousands of viewers—men, women and children—watch film features on WHO-TV. WHO-TV programs these films in choice, low-cost time periods, and their ratings (Monday-Friday) are tremendously higher than those of competition, according to ARB for March 16-April 12, 1959:

<table>

PGW can give you all the details on WHO-TV and what "box office" in Central Iowa means to you. Ask your Colonel!

**ARB SURVEY**
METROPOLITAN DES MOINES AREA
(March 16-April 12, 1959)

WHO-TV is part of Central Broadcasting Company, which also owns and operates WHO Radio, Des Moines
WOC-TV, Davenport

WHO-TV
Channel 13 • Des Moines

Col. B. J. Palmer, President
P. A. Loyet, Resident Manager
Robert H. Harter, Sales Manager
Peters, Griffin, Woodward, Inc., National Representatives
Smoke signals last week indicated that the highly competitive cigarette field will be pushing new mentholated, filter-tip products on radio and television and in other media in upcoming months.

The first companies into the marketplace with new products are Philip Morris Inc. with Alpine and the P. Lorillard Co. with Spring which were introduced last week with preliminary campaigns on television, radio and in the printed media. Other major companies seem headed for the menthol-filter tip free-for-all in coming months. All have similar products in various stages of development and market-testing.

The most ambitious effort is Philip Morris, which last week announced details of a "multi-million dollar campaign" on behalf of Alpine, including "the heaviest tv schedule ever run for a new cigarette brand." Included will be spot commercials and participation in the company's present network tv shows, with others to be added as they start in the fall.

Tv Schedule for Alpine • Neither Doyle Dane Bernbach, New York, nor Philip Morris would give an estimate at this time of the amount of money to be spent in tv but said it would be "considerable." Commercials on behalf of Alpine will appear on such regularly-sponsored Philip Morris programs as CBS-TV's To Tell The Truth, Reckoning, Rawhide, Douglas Edwards and the News, Perry Mason, ABC-TV's Tombstone Territory and NBC-TV's Loretta Young Show. New programs in the fall that will spotlight Alpine are CBS-TV's The Many Loves of Dobie Gillis and NBC-TV's The Trouble Shooters.

The advertising theme for Alpine in all media will be: "Alpine combines in one cigarette two of the features smokers are now demanding—high filtration and a light touch of menthol."

Lorillard's Spring went on sale last week in Philadelphia and Providence with national distribution to be effected as soon as possible. Advertising for Spring began last week in the two markets and will spread to other localities as distribution expands. Through Lennen & Newell, Spring will be promoted via radio and television spot announcements and newspaper ads. The major approach is: "Spring, the cigarette which 'air-conditions' the smoke," and emphasis is placed on the "amazing electronic process created by Lorillard research."

Other Entries • Philip Morris and Lorillard are the initial two companies to market and promote the new mentholated, filter-tip cigarettes, but other companies have similar products in various stages of development: Brown & Williamson is market-testing its new Life cigarette in the Rochester area and the Belair cigarette in Texas; American Tobacco Co. is reported to be completing plans for launching a product called Richmond.

Philip Morris has still another menthol cigarette called Mayfield, which has been on the market in Washington and Oregon for a year and promoted there via radio, tv and newspapers. There are no immediate plans to place Mayfield into national distribution.

$96 MILLION KITTY General Foods chief explains ad strategy

Advertising was praised generously by Charles G. Mortimer, president of General Foods Corp., White Plains, N.Y., at the company's annual stockholders' meeting in New York last Wednesday (July 22).

He devoted a considerable portion of his address to an examination of "the reasons for and the results of" the $96 million that GF spent on consumer advertising and promotion in the fiscal year ended last March, described as "the best year we have ever had."

Mr. Mortimer raised and answered the following questions: "Does advertising pay, and how?" He reported that in the past fiscal year, the $96 million expenditure was about $9 million more than the year before, an increase of 10%. But net earnings rose 11.9%.

Diversified Advertising • The advertising includes not only television and magazine presentations but all the dollars we spend to stimulate and promote the sales of all the individual

One for two • Howard Weissman (right), vice president and director of marketing for Philip Morris Inc., holds two cigarettes to symbolize the copy theme of the company's new Alpine cigarette—"You get two kinds of cigarettes in Alpines." Holding the new filtration, lightly mentholated cigarette are (1 to r): Allan Bick, brand manager for Alpines, Ned Doyle, vice president, Doyle Dane Bernbach, and Roger Greene, vice president—advertising Philip Morris.

38 (BROADCAST ADVERTISING)
Don’t Just Sit There—Say Something!

When an advertisement just sits and says nothing, people are likely to just sit, too—square on the hands that should be reaching for their wallets.

This doesn’t happen when the right idea gets together with words that get under the skin, and pictures that get back to the retina.

An ad that says something makes people say:

Papa: “Honey, we could use that!”
Mama: “Dear, I wish we had that!”
Junior: “I want it, I want it, I want it!”

If you want your advertising to make people talk like this, you’d better make sure your advertising talks to people.
GF brand name products, all we invest in radio and poster advertising, the cost of display materials for use in retail stores, package premiums, prize contests, coupons and various consumer promotions."

(GF spent almost $32 million in TV between 1958 and 1959, according to the Television Bureau of Advertising. A comparable figure for radio is not available but GF is an active network radio advertiser.)

Mr. Mortimer offered the following observation on the amount of advertising required to accomplish stated objectives:

"One thing our long experience has taught us is that the surest way to spend on advertising is not to spend enough to do a job properly. It's like buying a ticket three-quarters of the way to Europe; you have spent some money, but you do not arrive."

He asserted that advertising "pays" by developing "so large and so dependable a volume of sales" so that GF can keep its plants running "at the highest efficiency in terms of processes and machine operations."

Mr. Mortimer reviewed the highlights of the past fiscal year, during which, he said, earnings rose 44 cents per share from $3.98 to $4.42. In the current fiscal year's first quarter, ended last June 30, earnings amounted to $1.20 per share, compared with $1.05 last year, he noted.

Equitable Life buys six NBC-TV specials

Equitable Life Assurance Society of the U.S., N.Y., will sponsor six Sunday specials on NBC-TV during the coming season, Equitable President James F. Oates Jr. will tell 14,000 of the company's agents, meeting this (Monday, July 27) morning in Madison Square Garden, New York, in celebration of the company's centennial. In its debut, Equitable Life will be opposing two of TV's most popular series, Maverick on ABC-TV and The Ed Sullivan Show on CBS-TV, with its NBC-TV specials to be broadcast at 8:30 p.m. The first one is scheduled for Oct. 18. The series will be titled Out of American Heritage and will be produced in conjunction with the magazine of that name. Each program will deal with significant events in the life of a great American. The series will be produced by Milberg Enterprises, with Mildred Freed Alberg, former executive producer of the Hallmark Hall of Fame programs, as production head.

Foote, Cone & Belding, New York, is agency for both Equitable Life and Hallmark.

Radio best sellers

In an effort to enlarge its library of 3,500 taped radio commercials Radio Advertising Bureau, New York, is conducting a national drive to collect outstanding examples being used by retail advertisers. RAB is offering cash payments for tapes or discs of the radio messages. The best of the new commercial collection will be made into master reels which will be available as "idea stimulators" to RAB stations for use in sales presentations and to stimulate more creative use of radio.

• Business briefly

Time sales

- Westclox Div., General Time Corp., La Salle, Ill., will sponsor pre-Christmas TV special, Miracle on 34th Street, scheduled for Nov. 27 (8:30-9:30 p.m.) on NBC-TV. Telecast version of Oscar-winning 20th Century Fox movie will be produced by David Suskind of Talent Assoc., N.Y. Agency: BBDO.

- Gillette Safety Razor Co., Boston, has ordered sponsorship of NBC's radio-TV coverage of baseball's second All-Star Game to be played Aug. 3 in Los Angeles (6:45 p.m. to conclusion, EDT). Dual coverage will be feature of Gillette's Calavade of Sports series. Agency: Maxon Inc., N.Y.

- Standard Oil Co. of Indiana, Chicago, and Western Air Lines Inc., Los Angeles, will sponsor 1959 College All-Star Football Game on ABC Radio Aug. 14 (9:30 p.m. to conclusion). Agencies: BBDO for Standard Oil and D'Arcy Adv. for Western.

- B.F. Goodrich Co., Akron, and Bell & Howell Co., Chicago, have signed to co-sponsor six of CBS-TV's series of 12 programs entitled CBS Reports, hour-long information programs produced by CBS News. Series starts in October in prime nighttime hours. Orders placed through BBDO for Goodrich and McCann-Erickson for Bell & Howell.

- National Carbon Co., N.Y., in behalf of its Prestone anti-freeze and Ever-ready products, for third year has signed for NBC-TV's World Series Special scheduled for Sept. 29 (9:30-10:30 p.m. EDT), eve of start of annual baseball classic. Previous year's telecasts were half-hour shows. Agency: Wm. Esty Co., N.Y.

- Futorian-Stratford Furniture Co. (Stratolounger reclining chair), Chicago, is placing 70 one-minute TV spots on Dallas, Tex., stations KRLD-TV and WFAT-TV the first half of October. Spots in the experimental campaign will name stores where the Stratolounger may be purchased at a reduced price. Additional markets for the campaign are being considered. Agency: Garfield-Linn & Co., Chicago.

- Remington-Rand, N.Y. (typewriters), signed sponsorship of NBC-TV's cross-country survey of problems facing nation's schools scheduled as Back to School special on Tuesday, Aug. 25 (8-9 p.m. EDT). Agency: Compton Adv., N.Y.

- Carling Brewing Co., Cleveland, will sponsor four-hour-long comedy specials starring Phil Silvers on CBS-TV next season. First special set for Oct. 17 (9-10 p.m. EDT). Agencies: Benton & Bowles, N.Y., and Lang, Fisher & Stashower, Cleveland.

• Also in advertising

- Jobs Unlimited, New York, advertising personnel service directed by Jerry Fileds, has purchased the Walter Lowen Placement Agency, reportedly the oldest such firm in the world. Effective today (July 13) the Lowen offices in the Graybar Building will be closed and business transferred to JU's headquarters at 16 E. 59th St.

- Glenn Adv., San Antonio, has moved its offices to 1101 Majestic Bldg. Glenn also operates offices in Houston, Dallas, Fort Worth, El Paso and Los Angeles.

This is Forest Cooke, WHBF-TV program director in conference with members of production staff.

His Decisions are Based on 30 Years Experience in Building Audiences for WHBF—and its Advertisers

From the era of wonderment at the magic of radio some 30 years ago, Forest Cooke has lived intimately with broadcast programming. During this span, “Cookie” has developed a sound sense of balance as related to a broadcaster’s responsibilities to its home town community.

To anticipate and satisfy the entertainment desires and needs of a continuously growing audience requires perception and taste. Valuable indeed are the Cooke guide posts that avoid the pitfalls of faddism yet provide WHBF with progressive, modern programming that wins broad community acceptance.

WHBF leadership with excellent stature and acceptance continues to be built on sound programming with wholesome family appeal.

Advertisers who prefer to be ushered into Quad-City homes, under this type of association, should ask us for suitable availabilities.

THE 42-HOUR VIEWING WEEK

Nielsen study shows high average tuning distributed throughout each day of seven

A new study by A.C. Nielsen Co., Chicago, indicates that in the average U.S. home almost 42 hours are spent with the tv set during a typical winter week.

Based on findings for the week of March 1-7, 1959, the study shows that more than 95% of all U.S. tv homes (42,064,000 households) use their tv sets at least once during a typical winter week.

The weekly viewing is distributed throughout the day. Nielsen reports, with mornings accounting for 12% of all tv viewing hours; afternoons, 27%; evenings, 57% and post-midnight, 4%. Nearly half of all U.S. tv homes use their sets after midnight, with 21,120,000 viewers watching an average of three hours and 14 minutes a week between that hour and 6 a.m. The Nielsen summary:

LISTENING HABITS

Audience out of home growing, study shows

Out-of-home radio listening during the past winter reached an all-time high for that period of the year and registered a gain of 7% over the 1958 level, Dr. Sydney Roslow, director of The Pulse Inc., has announced in releasing the results of a survey conducted by the research organization in 28 major markets.

During the past winter, he reported, out-of-home listening added 26% to the in-home audience. Dr. Roslow said the study was conducted largely in January and February 1959, but also reflects figures obtained in some periods of December 1958.

The survey shows that between 6 a.m. and midnight, an average of 4.5% of all radio families reported listening in automobiles, at work or in other places away from home, as compared with 4.2% in the winter of 1958. If these figures are projected nationally, Dr. Roslow pointed out, the winter out-of-home audience added an average of 2,216,284 families to the radio audience during any given quarter-hour of the day.

“The increased significance of this segment of the listening audience is emphasized by a comparison with the winter of 1951,” Dr. Roslow commented. “At that time, out-of-home listening in the seven markets checked by The Pulse added only 13.7% to the ‘in-home’ audience as compared with 26.3% currently in 28 markets.”

Other data revealed by the survey: the level of out-of-home listening during the winter, (4.5%), is only slightly below the summer 1958 level of 4.9%; the highest level of out-of-home listening was in Boston, New York, and Los Angeles, where 5% of the families reported away-from-home listening; Boston was the leader in terms of the percentage added by out-of-home listening with 29.9%. The 28 markets surveyed by The Pulse last winter contained 19,208,500 radio homes, comprising 39% of the U.S. total, Dr. Roslow said.

Tv, newspaper roles unique, study relates

How well did television cover the 1956 national political conventions? And what were the essential differences in coverage between tv and the press?

Some other related questions and answers are contained in an article in the U. of Chicago's 1959 version of Studies in Public Communication released last month. Included among the subjects is a comparison of press and tv coverage during the 1956 conventions by Philip Shabecoff, a graduate of the university's Committee on Communication and now with the New York Times. His article is an abstract of an unpublished master's thesis written in 1957, when the university released its first communications study.

Among his findings: (1) "The press tended to be selective in its coverage and television panoramic. (2) The newspapers tended to stress politically significant events; television tended to stress dramatic events. (3) The newspapers were to a greater extent concerned with personalities and with issues.

(4) Television coverage tended to devote greater attention to the non-political activities occurring in and around the convention hall. (5) There was little real duplication of coverage by the two media . . . The coverage by newspapers and television was unique for each in its own way and necessary for an understanding of the news.”

Concludes Mr. Shabecoff: "It's not as much a question of "which is the better medium" as it is of "in what areas does each medium excel?"

Political pool plan given for next year

ABC will handle the video pool for tv network coverage of next year's Democratic presidential nominating convention, NBC the video pool for the Republican convention and CBS the audio pool for both.

The pool assignments were determined, as in the past, by lot and will apply to all convention-floor coverage. In addition, each network will have its own off-the-floor studios. The Democratic convention will be held in Los Angeles starting July 11 and the Republican convention in Chicago beginning July 25. This will give the networks approximately a week to shift their gear although the cost of transporting the tons of equipment will be no less than in 1956, when the shift from Chicago to San Francisco had to be made virtually overnight.

Broadcast news facilities at Los Angeles' Sports Arena, where the Democratic convention will be held, and accommodations at the Biltmore Hotel, which will serve as headquarters, were reviewed by representatives of the three tv networks with Los Angeles' Reinsch, executive director of the Cox radio-tv interests and also executive director for the 1960 Democratic convention and special assistant to Democratic National Chairman Paul Butler, at a meeting in New York July 15. Network representatives appeared pleased with the arrangements.

Network studios in the Biltmore headquarters will be located on the fourth floor. Space for station coverage also is being provided, as in the past.

Network representatives at the meeting with Mr. Reinsch included Don Coe, eastern news director of ABC; Sig Mickelson, vice president and general manager of CBS News, and Bill McAndrew, vice president in charge of NBC News.
PGW SEMINAR
32 stations attend
New York talkfest

A two-day seminar on station management was held in New York last Wednesday and Thursday (July 22-23) under the auspices of Peters, Griffin, Woodward Inc. for the 32 radio stations the company represents.

The seminar, which centered around the theme of "Spot Radio's Time Is Now," attracted 75 executives from PGW and its stations, advertisers and agencies, many of whom offered suggestions on effective approaches utilized by them in the different phases of broadcast operations.

H. Preston Peters, president of PGW, welcomed the various station officials at the opening session. The seminar was under the leadership of Robert H. Teter, PGW vice president and director of radio.

Balanced Music • During a panel discussion on station programming, Ray Stanfield, managing director of WIST Charlotte, stressed that WIST attempts to achieve "balance" in music programming by broadcasting popular music, new songs, classical numbers and rock 'n' roll. He conceded that the station has not attracted a following in the over-50 group because of broadcasting of rock 'n' roll in moderation, but contended that its musical approach appeals to the 18-45 age group, which is responsive to the station's advertising.

Robert J. McIntosh, station manager of WWJ Detroit, outlined the news operation at his station, and stressed the point that "integrity" and "integration" are the two key elements in WWJ's news approach. He explained that "integrity" aspect by saying the station has earned a reputation for "believability" because of its insistence on fair play and the appointment of "full value" to news stories that it broadcasts.

The community service philosophy of WMBD Peoria was outlined by Harold C. Sundberg, station manager, who emphasized that such programming is integrated at WMBD into the over-all programming structure.

Production Techniques • Alan J. Bell, assistant to the director of PGW radio research, presided over a demonstration of production techniques developed by various stations throughout the country.

A lively session on ratings featured Frank Minehan, vice president and director of media for Sullivan, Stauffer, Colwell & Bayles, New York, and Benjamin G. Leighton, timebuyer for Campbell-Mithun, Minneapolis. Mr. Minehan came to the defense of ratings but stressed they must provide "an unbiased, honest evaluation of what a medium offers as a channel through which we can efficiently sell our clients' products." Mr. Leighton conceded that "ratings help" an agency select a particular station but beyond this, recommended that media personnel be supplied with qualitative audience analysis of a station.

Ralph Head, executive of Sales Communications, Inc., a subsidiary of McCann-Erickson, urged stations and their representatives to provide "specific merchandising assistance" rather than "some merchandising assistance."

Other speakers included George G. Higgins, vice president in charge of sales for KMBC-KFRE Kansas City; Mr.; John A. Thompson, vice president, sales manager of PGW; Lee Vanden-Handel, radio account executive, PGW; Don Frost, PGW account executive; E. L. Deckinger, vice president and media director, Grey Adv.; Richard P. Jones, vice president and media director, J. Walter Thompson Co.; Frank J. Tes- sin, PGW radio's office manager, San Francisco; Vincent Plano, PGW director of radio research and promotion; William Dekker, vice president and media director, McCann-Erickson; Wendell Moore, advertising manager, Dodge Div., Chrysler Corp.; Charles Roeder, vice president, operations, WCMB Baltimore; Art Bagge, PGW radio sales manager; Russel Woodward, PGW executive vice president; Marsh Blackburn, station broker and Edward P. Harrell, manager of broadcast media, Shell Oil Corp.

Nielsen stock goes up

An upbeat stock analysis of A.C. Nielsen Co. was issued last week by McDonnell & Co., New York brokerage house. The firm, whose first public offering was announced last November, was rated to produce a 15% earnings growth annually, with sales to double in the next five years. The stock has ranged upward from $30 to $52 this year.

The analysis estimated 1959 earnings at $2.10 per share. Referring specifically to the broadcast division, which operated at a loss until 1957, McDonnell & Co. said that although its growth rate may contract, its profits should increase.

First tv for Bahakel

WABG-TV Greenwood, Miss., first tv station in the Cy N. Bahakel group, plans to start regular programming Sept. 15, according to manager Don Neil. The CBS-TV affiliated station will operate on ch. 6 with radiated power of 30 kw, from a 387-foot tower. Other stations in Bahakel group are: WXEL Waterloo, Iowa; WLBJ Bowling Green, Ky.; WOOD-AM-FM Lynchburg and WRIS Roanoke, both Virginia; WJKIN Kingsport, Tenn., and WKOZ Kosciusko and WABG Greenwood, both Mississippi.

The club

The Radio & Television Executives Society will launch a campaign next month to raise funds to build a social center for broadcasting executives in New York City.

Frank J. Pelegrin, RTES president and executive vice president of H-R Representatives, said, "Our aim is an attractive Broadcast Executives Club with all the facilities to provide services of the highest standards — dining rooms, bars, conference rooms, viewing rooms, etc."
**Aiming for the limit • Management of the Star Station Group (KOIL Omaha, KICN Denver, KISN Portland, Ore.) met last week in Denver to discuss sales and expansion. Seated (1 to r): Charles Vais, manager of KISN; Don W. Burden, president, Star Stations; Charles Crabtree, KICN manager; standing (1 to r): Bill Stewart, vice president of the Star Stations; Bob Cooper, assistant to Mr. Crabtree, and Steve Shepard, manager KOIL. The meeting was devoted to sharpening sales-programming techniques and to considering what properties the group will acquire in its aim of buying the maximum stations allowed by the FCC.**

---

### TV STATIONS YIELD 14%; AM 6%

The profit margin for television stations declined slightly last year but radio's profit fell off noticeably.

An analysis of typical tv and radio station income and expenses for 1958 and the previous year shows tv profits down from 15.1% to 14.3%; radio down from 9.1% to 6.5% (Broadcasting, Aug. 8, 1958).

Tv revenue, on the other hand, increased slightly at the typical station whereas radio was down a little.

Figures compiled by the NAB broadcast personnel-economics department, headed by Charles H. Tower, reveal a marked increase in the cost of operating a typical tv station and a very slight drop in radio costs.

Highest profit margins at tv stations were found in markets of more than 1,000,000 population and at stations with an income over $2 million. Lowest profit margins at tv stations were found in markets of under 25,000 population and at losing stations with incomes under $300,000.

In the case of the typical radio station, NAB found highest profit margin in cities over 2,500,000 population having over $1 million income. Lowest margins were at stations in markets of 50,000-100,000 population and those with incomes under $50,000.

NAB's study of typical or median (middle) stations is based on returns from 231 tv stations and 947 radio stations.

### Nixon's USSR trip has many radio-tv men

Broadcasters were among more than 100 newsmen who joined the trek to the USSR to cover Vice President Nixon’s trip.

Representing the networks were Charles Beckman, CBS; John Charles Daly, ABC; Bruce Hoertel, CBS; G. Bradford Kress, NBC; John Langenegger, NBC; Edward P. Morgan, ABC; Paul Niven, CBS, and Ray Scherer, NBC.

Station men planning to cover Mr. Nixon's activities in Moscow were Richard G. Chilcott, WMNM Fairmont, W. Va.; Herbert E. Evans, WRFD Worthington, Ohio; Harold Jackson, KVTX (TV) Sioux City, Iowa; Dean Jeffers, WNAX Yankton, S.D., and Rudy Koenig, WTTM Trenton, N.J. All stations belong to People's Broadcasting Corp., also represented by Charles R. Day of WGAN-AM-FM Cleveland, who plans to travel the entire trip with the vice president.

Gunnar Back will represent the radio-tv division of Triangle Publications. Newsreaders with Hearst-Metrotone and Fox Movietone News are Lewis Cass, Robert Hewitt and Edmund Reek Jr. Christopher Serpell is covering the trip for the BBC and Peter Von Zahn for the North German Broadcasting Co. Everet F. Baumgardner, Paul Garvey, Hugo Johnson, William F. McGrory and Joseph O'Donnell are the contingent from the U.S. Information Agency.

Thompson H. Mitchell, president of RCA Communications Inc., is serving as special communications advisor with the vice presidential party during the tour. He joined RCA President John L. Burns at the public opening of the Moscow Fair Saturday (July 25).

### Storer profits up

Storer Broadcasting Co. reported a net profit after taxes, of $2,714,549 (or $1.09 per share) for the first six months of 1959. Included was a capital gain of $582,417 (after taxes) on the $830,000 sale of WAGA-AM-FM Atlanta, Ga. Excluding the capital gain, earnings for the first half of 1959 were $2,132,132 (86 cents a share) compared to $1,729,620 (70 cents a share) in the first six months of 1958.

Storer stations are WGBS-AM-FM Miami; WJBK-AM-FM-TV Detroit; WSPD-AM - FM - TV Toledo, Ohio; WAGA-AM-FM-TV Cleveland; WITI-TV Milwaukee; WAGA-TV Atlanta; WWVA-AM-FM Wheeling, W. Va.; WIBG - AM - FM Philadelphia and KPOP Los Angeles.
The million dollar buyers of broadcast advertising at the top 50 tv-radio agencies pick Broadcasting...

AS THE BEST MEDIUM FOR A STATION'S ADVERTISING TO REACH THEM

They named Broadcasting

nearly 2-to-1 over Publication "B"

better than 10-to-1 over Publication "C"

by 39-to-1 over Publication "D"

and 59-to-1 over Publication "E"

whereas (alas) Publication "F" wasn't even mentioned once!

HOW DO WE KNOW? These are the findings of a brand-new readership study by American Research Bureau, Inc., conducted among the most important executives responsible for broadcast advertising decisions at the 50 biggest TV-radio agencies in America. If you want to know the full facts about their TV-radio business publication preference: send for a copy of "What Do the Million Dollar Buyers Think?"—just off the press.

1735 DeSales Street, N.W., Washington 6, D. C.
MUTUAL'S ANGEL IS A HEAVYWEIGHT

Here's an exclusive run-down on a big man with big business interests who has picked MBS as his newest building project

Meet Al McCarthy.

Few broadcasters have had the chance but they will pretty soon.

He's the financier behind the newest reorganization of Mutual network—a man of many attainments, vast holdings and unsuspected influence.

The business know-how and resources of Albert Gregory McCarthy Jr. offer the main hope that the quarter-century-old network can be converted from a money loser to a going concern.

Many people around the world have met Al McCarthy, but few have learned to know him well. Somehow he has managed to avoid the spotlight.

Mystery man? Not at all. But he's an interesting paradox—little known despite his global activities, a huge hulk of masculinity who can't help dominating any group he is in, yet who seldom is mentioned in print.

Anti-Publicity • There's only one known record of an interview with Al McCarthy—the telephone conversation on which part of this story is based.

Most of the information presented here came from helpful comments by some of his admiring acquaintances.

Mr. Mac, as his friends like to say, doesn't hate reporters. He just doesn't want them to write about him.

The reason: His private business is his own affair. What's he worth? "That's my business." What about the elements of the corporate structure he controls? Same answer.

If he wants to buy a big piece of real estate in Tampa or Seattle and put up a hundred or a thousand houses or apartments, he can't for the life of him figure why this should be anybody's business but his own.

The best word for Al McCarthy's business empire is "vast." It's more than vast; it's far-flung, widely dispersed and obviously profitable.

This successful businessman believes a business should be run for profit. That goes for Mutual Broadcasting System, which he hopes to have in the black before winter under the operation of Robert F. Hurleigh, president.

His Personal Assets • Much of his success in developing a chain of properties is attributed to a nimble mind, a fantastic memory for figures and details, ability to find out what motivates those he contacts and a knack of sorting out galaxies of facts and placing them in perspective. The traits are common, but not usually found in this combination.

His own concept: "I just sit around and dream. People give me ideas and I simply nod my head."

This is oversimplified and not at all accurate. He doesn't just sit around.

Alley of swank • Abutting the back side of the new Senate Office Bldg. on Capitol Hill is a tony cluster of two-story apartments housing some of Washington's better-known legislators. Once a slave-trading and bawdy-house district, it has been remodeled into a quaint garden-type group of a dozen dwellings. Its operator—Albert Gregory McCarthy Jr.

Probably the only money-losing unit in the McCarthy portfolio of corporations, the development is known to the post office as Schotts Court but the McCarthy-designed grillwork over the entrance includes a huge legend—Schotts Alley.

Tucked in the notch of the L-shaped development is Blarney House, a two-story reception facility used for Al McCarthy's parties. Invitations to Blarney House are among the most coveted in social-minded Washington, and a guest list may have a heavier protocol plateau than a diplomatic reception. The parties are on the informal side—cozy, friendly and even noisy in contrast to the usual stiff decorum of the average affair in the Potomac social whirl.

The list of tenants in Mr. McCarthy's alley includes Sens. Norris Cotton (R-N.H.) and Karl E. Mundt (R-S.D.); Reps. James C. Oliver (D-Me.), William B. Widnall (R-N.J.), E. Y. Berry (R-S.D.) and B. Carroll Reece (R-Tenn.), and ex-Sen. George H. Bender (R-Ohio).
He moves—as fast as airplanes carry him, 5,000, maybe 10,000 miles a week. His headquarters is the nearest telephone, a desk, one of his many apartments around the nation (Tampa is his legal residence) or an airplane.

It's true that people around him—Chester Ferguson, Tampa attorney, or his son Gregory—make suggestions. But Mr. Mac has plenty of his own ideas. A nod of his head is not a minor ritual. It's a careful though often swift decision that may involve millions.

His Personal Traits • Mr. Mac (“I was born in New York City, March 9, 1906, a fish day”) is mild in manner and soft-spoken. His hair is thinning and on the grayish side. He keeps breaking out into a puckish grin that may serve as substitute for a short speech. He listens well and doesn't talk unless he has something to say or a question to ask. Sometimes he looses a torrent of words replete with collections of figures and rapid appraisals of facts and situations.

His Irish temper shoots sparks when he's irked. A story is told of the time he felt he had been roughed up by a regional revenue agent. He stormed into Washington, the tale goes, demanded and obtained independent audits by three nationally known accounting firms for Treasury consideration.

Mr. Mac's friends always speak highly of his integrity and his insistence that business enterprises should make money. They describe him variously as gentle, kind, tenacious, intense in likes and dislikes, on-the-ball, a cold fish if you cross him, brilliant, unassuming and aggressive.

A Start in Law • He practiced corporate and financial law nine years in New York after graduating from Fordham College and Law School. A single idea kept recurring as he handled the intricate and detailed affairs of corporations: Why not make some of this kind of money myself? He quit the active practice of law to begin buying and building his own companies.

How'd he get into Mutual network? “Bob Hurleigh talked me into it. He convinced me the service to this group of independent stations was meeting an important need and required only time, good management and capital and time to put it in the black.”

Along with Mr. Ferguson, he is willing to see if the largest of all radio networks can be restored quickly to economic, programming and journalistic efficiency. He considers Mr. Hurleigh, director of Mutual's news operations and top network executive, one of the best broadcast newsmen in the nation.

Mr. Hurleigh developed the recent Mutual concept that a news operation should center in Washington, the news capital of the world. The Hurleigh technique is based on fast, frequent contacts with news sources, hourly news roundups, liberal use of tape and beep interviews with news figures—all backed by supplementary interpretive reports and panel discussions.

Too Many Networks • Those who have talked with Mr. Mac report he has faith in radio networks if the structure is put on a sound basis that conforms to the 1959 broadcast economy. He is described as believing that radio networks are one too many, and no one would be surprised if he tried to buy up ABC, CBS or NBC radio.

He believes that radio must get a larger share of the broadcast dollar and he's out to demonstrate that it can. Mr. Hurleigh has long contended radio must offer an entirely different type of service from the drama-music-news programming of the pre-tv era.

Politically Mr. Mac is a Democrat with a private-enterprise approach. He takes a dim view of the New Deal theories of government control.

Around Washington, Capitol Hill knows him socially as a genial and generous host. He has the Capitol flanked on three sides by his Capitol Properties office, another office building tenanted by the U.S. Immigration & Naturalization Service and fashionable Schotts Alley (see picture).

The modest empire-builder is the friend of high officialdom and of many
persons without special rank. He has more fun than anyone at his parties; he knows the names, experience and potential influence of everyone who comes with the beverage preferences and, it's said, the approximate number of drinks each guest has consumed.

Mr. Mac prefers to call Tampa, Fla., his headquarters. He maintains a residence there where friends are frequent guests. The nearest thing to a home is the nearest bank of telephones. He's a constant telephonier, contacting staff people and businessmen wherever he has properties.

Father and Son • He derives great satisfaction from a new operating procedure in his business empire—a close liaison with his son, Albert Gregory McCarthy III, a 1957 graduate of Georgetown Law School (after undergraduate training at Fordham). The younger McCarthy has been named MBS secretary-treasurer.

The McCarthy business setup includes ownership-management roles in Tampa Bay Garden Apartments (being sold to government); Burien Garden, Seattle, Immigration Bldg., Schotts Apts, D.C.; new Shannon Shamrock, Ireland, hotel; office building project in Anchorage, Alaska, projected hotels in Rome and Puerto Rico; apartments in San Mateo, Calif.

The elder McCarthy is tall—6 feet 5, give or take an inch—and portly. His son is shy a bit of his height but still over 6 feet. "Gregory is fitting into the organization," the father said. "He knows what's on my mind and what I'm likely to do, and I know what he's thinking and the way he operates."

Mr. Mac came from a long line of New York McCarthys. His ancestors were active in New York politics, their attainments including chief of Tammany Hall and New York police commission. As a boy he was somewhat lost in a large family, developing an intense desire to become a man of influence. He achieved his desire, but doesn't figure he needs the constant publicity that professional politicians require. On the other hand he cherishes recognition of his commercial attainments by those he likes and respects.

Gregory has presented him with two grandchildren and his daughter Denise, wife of Lt. Carl Hattler, a West Pointer, has borne two more. This big, often brusque man softens in a hurry when the youngsters are around.

Albert Gregory McCarthy Jr. is new to radio, but radio won't be new to him for many days. Already he can speak expertly of such industry topics as Sec. 315 and he is familiar with the niceties of network economics.

He's 100% businessman, except for a musical hobby. An Ascap member, he wrote the lyrics for such songs as "Fiddleskirt" and "Casually."

"Leave the figures to me," he'll often say. His statistical mind works like an electronic computer.

He now has a new challenge—trouble shot Mutual network—and he loves it. Valued Counsel • Behind the scenes in the corporate structure of Albert Gregory McCarthy Jr. is his attorney and MBS partner, Chester H. Ferguson, member of the high-ranking Tampa (Fla.) law firm of MacFarlane, Ferguson, Allison & Kelly. He is MBS board chairman and has a financial interest.

Mr. Ferguson's firm handles the accounts of two broadcast stations—WFLA and WDAE, both Tampa—and the Tampa Tribune. He attended U. of Alabama, Mercer U. and U. of Florida, receiving his law degree at the last-named in 1930. He is a member of Omicron Delta Kappa fraternity; Florida Bar; Tampa-Hillsborough County and American Bar Asns. His birthplace was Americus, Ga. (1908).

He married the former Louise Lykes, whose family is identified with the Lykes Bros. Steamship Co. on whose board he serves. He also is a director of Pasco Packing Co. He has two children and has been a practicing attorney since 1930. Hobbies include gin rummy at the Tampa University Club.

WOR New York keeps its Mutual affiliation

In a surprise move, WOR New York signed a new affiliation agreement with Mutual last week although earlier reports had indicated strongly that the station would disaffiliate after the termination of the present contract on Aug. 8.

Under the new agreement, WOR will carry a total of 60 network newscasts, plus special events, sports and public affairs programs fed by Mutual. Though WOR officials declined to explain reasons for the move, it was reported that the proposal offered by Mutual under which the stations will carry only a stipulated number of news and other types of programming was a decisive factor. The station, it was said, will be paid in cash up to a certain point, rather than under Mutual's usual arrangement of providing two five-minute newscasts per hour, with the station selling one and Mutual the other.

No announcement has been made as yet of the plans of the four other RKO General Teleradio stations which are affiliated with MBS and whose contracts expire Aug. 8.

A meeting of Mutual's creditors is scheduled for tomorrow (July 28) before U.S. Referee Asa Herzog in New York. The network has filed a petition for voluntary bankruptcy under Chapter 11 of the Bankruptcy Act (Broadcasting, July 6 et seq.). Mutual has liabilities of $3,195,607.

All for a dollar a year • This modern brick building will be occupied by educational ch. 48 WCET (TV) Cincinnati after Aug. 1. The studios and facilities have been turned over to WCET by the Crosley Broadcasting Corp. (WLWT [TV] Cincinnati) on a dollar-a-year basis. Built in 1947 at a cost of $500,000 for WLWT, the building contains 10,000 sq. ft. of space. Uberto T. Neely, WCET general manager, told Crosley officials that he could find "no record of any other commercial teletaching company which has contributed as much or more to your organization to the cause of educational tv."

WTVT
CBS Radio affiliates review PCP's progress

Commendation of CBS Radio's controversial Program Consolidation Plan was voiced by the board of directors of the CBS Radio Affiliates Assn. last week after a two-day meeting in which PCP's first six months were reviewed.

Charles C. Caley of WMBD Peoria, Ill., chairman of the affiliates board, said on behalf of the group that "PCP has demonstrated its strength in assuring to audiences, affiliates and advertisers the continuation of national network radio service." Authorities said the statement was based on a review of CBS Radio audiences in individual markets and on a national basis, introduction of new entertainment programs, and evaluation of more than 60 special public affairs programs furnished to affiliates during the last six months.

In its meeting, held Monday and Tuesday in New York, the board heard CBS Radio President Arthur Hull Hayes forecast heavy sponsorship of network programs this fall. He said there was particular demand for sponsor participation in Arthur Godfrey's return to his daytime program after recuperation from his cancer operation.

Dr. Frank Stanton, CBS Inc. president, and Mr. Hayes headed the network group which met with the board. Others included department heads and other key officials.

The board also reviewed plans presented by Frank Fogarty of WOW Omaha, convention chairman, for the sixth annual meeting of the entire affiliates association, to be held Sept. 23-24 at the Waldorf-Astoria Hotel in New York.

Corwin fm network shoots for early '60

A five-station California fm "network," whose service area will cover 70% of the state's population, is expected to be in operation by the first of next year, Sherrill Corwin has announced. Mr. Corwin is head of the Metropolitan Theatres Corp., licensee of KFMU (FM) Los Angeles, and is sole owner of KFMW (FM) San Bernardino (now program testing) and holder of permits for the other three stations; KFMX (FM) San Diego, KBAY-FM San Francisco and KGUD-FM Santa Barbara.

All five stations will be equipped with the latest RCA equipment and will operate with 30 kw, except KGUD-FM, which will have somewhat higher power. All will have multiplex equipment, with the second channel available for background music or some similar service (an arrangement has already been made for Muzak to use KFMW's subcarrier in San Bernardino), and when multiplex stereophonic standards have been set, they will go into that operation. Currently, KFMU and KCBH (FM) Beverly Hills broadcast a double-fm stereo concert each Sunday afternoon; KFMW has begun fm-am stereo broadcasting with KPRO Riverside, and KGUD-AM-FM (Mr. Corwin also owns KGUD-AM) also plan to offer stereo programming (before 6 p.m. as KGUD is a daytime station). KFMU will supply the other four stations with somewhat less than half of their programming (40-50%, except in San Francisco where it will be somewhat lower), partly to make use of the experienced fm announcers employed at KFMU, partly as an economy. ("Like all fm operators we try to economize wherever we can," Tom Baxter, general manager, said. "The only place where we don't is on equipment, where we insist on the best because all we have to sell is superior sound.") These "network" programs will be transmitted to KFMU by relay and "bicycled" to the other stations on tape.

All stations will have the same commercial criteria as KFMU, Lee Ellis, sales manager, stated. "Raucous jingles, loud shouting commercials, absurd claims and, most of all, multiple commercials won't be permitted. We will broadcast only four commercials per hour." Mr. Baxter added: We're on record with this policy and will continue it even after an fm station is able to get more than four commercials an hour.

KPFK (FM) on air

"Commercial-free" radio was slated to come to southern California yesterday (July 26) with the air debut of KPFK (FM) Los Angeles (Broadcasting, June 15). The station is supported by voluntary (tax deductible) subscriptions. So far, about 2,000 have subscribed the $12 that entitles them to a year's KPFK Portfolio, a complete listing of its programs.

KPFK is on 90.7 mc with 75 kw. Address: 5636 Melrose Ave., Los Angeles 38. Telephone: Hollywood 7-7183. The new station is owned and operated by Pacifica Foundation (KPFK [FM] Berkeley, Calif.) with Terrell T. Drinkwater as manager.

KING tapping taste

KING Seattle, Wash., has sent more than 100,000 persons in its coverage area a questionnaire to find out their musical tastes.

The survey is being conducted in cooperation with International Business Machines Corp. Dr. Stuart Carter Dodd, director of the U. of Washington's Public Opinion Lab, is serving as consultant on the project. Those receiving questionnaires are asked to listen to excerpts from 10 records broadcast on KING that are representative of five categories of popular music.
MEMO TO MARTY NIERMAN:

ARB and Nielsen have just completed new audience surveys of the Omaha market. ARB also has a new survey of Lincoln, Nebraska’s second largest market.

KMTV is the dominant Omaha station in all three books.

OMAHA ARB May-June — In the four-week average, KMTV leads all other Omaha stations from sign-on to sign-off in share of sets-in-use.

OMAHA NIELSEN June — KMTV delivers more television homes in more quarter hours than any other Omaha station.

LINCOLN ARB April — KMTV leads in twice as many quarter hours as the other Omaha stations combined.

Specifics? Look at Jack Paar. Look at KMTV’s 10:00 p.m. News. In both Omaha and Lincoln ARBs, most people prefer Paar and news to the best movies competition can buy, (no matter how much they cost). In Omaha, Paar leads in 27 of 30 quarter hours and his total rating points are more than the combined points of all other programs in the same period. In Lincoln, Paar on KMTV leads in 28 of 30 quarter hours.

KMTV’s 10:00 p.m. News is Omaha’s highest-rated evening news and delivers an average rating double that of competing movies.

Take your choice of books. But call Marty Nierman, Executive Vice-President, Edward Petry & Co., or any other Petryman before you buy Omaha.

OMAHA IS KMTV
One station left testing fm stereo mx

A combination of lack of interest and a jaundiced eye at the FCC has reduced from 9 to 1 the number of fm stations experimenting with multiplexing stereophonic broadcasts.

The remaining outlet is Zenith Radio Corp.'s WEFM (FM) Chicago, which feeds a storecasting system only and doesn't sell its time. Its experiments are carried on from midnight to noon and 4-5 p.m. daily under special temporary authorization from FCC.

WFDS-FM Baltimore's STA for similar multiplex stereo experiments expired July 15. Although WFDS-FM has requested renewal of its STA, FCC officials say the station's report on its experiments will have to contain useful information not already known if it gets renewal. The other seven fm outlets have discontinued experimental stereo multiplexing either because of lack of interest or because they failed to provide new information, the FCC said.

As for am experimental broadcasts, there are only three stations with STAs—all in New York City: WCBS, WRCA and WABC, the last conducting its experiment under a system devised by Philco Corp.

The FCC currently is accepting comments on stereo broadcasting systems, with a Dec. 11 deadline, as a basis for possible rulemaking to standardize multiplex stereo.

Knorr gains control of Michigan stations

Acquisition of positive control of Knorr Broadcasting Corp. by its founder and president, Frederick A. Knorr, was announced last week. Mr. Knorr and associates are buying the interests of Harvey R. Hansen and William H. McCoy. The consideration is in excess of $1 million each.

Knorr stations are WKMH Dearborn, WMKF Flint, WSAM Saginaw, WKHM Jackson and WELL Battle Creek, all Michigan. It also owns one-third of the Detroit Tigers baseball team. Messrs. Hansen and McCoy will continue to serve as president and director and as secretary and director respectively of the Tigers.

Among the new stockholders will be Charles J. Sitta, president of Michigan Spot Sales Inc. (a Knorr company); John J. Carroll, general manager of WKMH and Walter S. Patterson, general manager of WKHM.

Transcendent split

Directors of Transcendent Television Corp., New York, are recommending to stockholders a 2-for-1 split of the presently authorized shares and an increase of 500,000 in the number of authorized shares, making a total of 1,520,000 authorized shares. Stockholders will meet in early August when the recommendations will be presented for approval.

Transcendent stations are WGR-AM-TV Buffalo and WROC-TV Rochester, both New York; KFMB-AM-TV San Diego and KERO-TV Bakersfield, both California; 60% of WNEP-TV Scranton-Wilkes-Barre, Pa., and 50% of WSQA-AM-TV Harrisburg, Va.

Changing hands

ANNOUNCED • The following sale of station interests was announced last week, subject to FCC approval:

• KMCM McMinnville, Ore.: Sold by Yamill Broadcasters Inc. (McMinnville News-Register) to Jerry Carr and John Courcier for $80,000. Broker was Edwin Tornberg & Co. KMCM operates on 1260 kc with 1 kw.

APPROVED • The following transfers of station interests were approved by the FCC last week (for other Commission activities see For The Record, page 94):

• WLAC-AM-TV Nashville, Tenn.: Sold 24% working control of Life & Casualty Insurance of Tennessee (parent company of WLAC and 50% owner of WLAC-TV), to Murchison Bros. (Clint W. Murchison Jr. and John W. Murchison) for $40 million. Murchison Bros. also controls Lamar Life Insurance Co., licensee of WIDX-AM-FM Jackson, Miss. WLAC is on 1510 kc with 50 kw, directional night and is a CBS affiliate. WLAC-TV is on ch. 5 and is affiliated with CBS-TV.

• KPTV (TV) Portland, Ore.: Sold to Naifi Corp. (Kenyon Brown, president of broadcast division) by George Haggarty for $3.75 million. Mr. Brown has interests, along with Bing Crosby, chairman of the board of Naifi Corp. broadcast division, in KDOC, KALO, KFAC, KCTV, KFOX-AM-FM Long Beach, both California. Mr. Brown also has interests in KGLC Miami, Okla.; KANS Independence, Mo.; KSON San Diego and KITO San Bernardino, Calif. KPTV is on ch. 12 and is affiliated with NBC-TV. Comr. Robert Bartley dissented.

• KSXO San Diego, Calif.: Sold to Gordon Broadcasting of San Diego Inc. by San Diego Broadcasting Co. (C.A. Smith and associates) for $500,000. Mr. Gordon owns KBZU-AM-FM Mesa, Ariz. KSXO is on 1130 kc with 5 kw day, 1 kw night, directional night and day.

• WMIC Monroe, Mich.: Sold to S60 Broadcasting Corp. (Ross Mullholland, Richard E. Jones and others) by McIntyre Broadcasting Co. for $398,000. Mr. Jones has interests in KXLY-AM-TV Spokane, Wash. and KELP-AM-TV El Paso, Tex. WMIC is on 560 kc with 500 w, day, directional.

• WAMV East St. Louis, Mo.: Sold to Hess-Hawkins Co. (Louis Strick and Joseph Calderon) by advertising execu-

**Media reports**

- Venard, Rintoul & McConnell Inc., radio-tv representative, has moved its Chicago office to larger quarters on 26th floor at same address, 35 E. Wacker Dr.

- WOOD-AM-TV Grand Rapids, Mich., held a public service programming seminar for representatives of more than 70 community organizations two weeks ago. Topics included importance and results of public service programs and campaigns, technical requirements for radio-tv stations, how to plan a program and station requirements for program length, announcements and material acceptance.

- Peters, Griffin, Woodward, N.Y., has expanded quarters at new address for representative firm’s southeast headquarters in Atlanta. New location: 1372 Peachtree St. N.E., suite 106. Phone: Trinity 5-7763.

- WLOS-TV Asheville-Greenville-Spartanburg, S.C., has opened its Greenville office in the Poinsett Hotel. The office will serve as headquarters for regional sales coordinator Tom Burkhard and WLOS-TV’s South Carolina news bureau, headed by bureau chief Harold Ludwig.

- KSFR (FM) San Francisco is feeding classical music to KJML (FM) Sacramento. This was the first step in the formation of a Pacific Concert Network. KSFR’s good music format includes a modern jazz show (Fri. and Sat. midnight-3 a.m.). PCN’s top rates: prime evening time—one 60-second spot for $13, discounting to 260 60-second spots for $8.31 each. Address: 10 Claude Lane, San Francisco 8.

- An office in Hollywood has been opened by Ayres, Allen & Smith, San Francisco station representative. Under direction of Henry M. Stanley, the new office is at 1548 N. Highland Ave., Hollywood 28. Telephone: Hollywood 2-4939. Assisting Mr. Stanley with station relations is Betty Ward, formerly of Foote, Cone & Belding.

- H-R Television and H-R Representatives have moved into larger quarters at 321 Bush St., San Francisco.

- The Military District of Washington and the Dept. of the Army held a special retreat review ceremony July 19 in honor of NAB. President Harold E. Fellows was to receive the Army’s citation to the association for “valuable contributions to the Army and the nation.”

- Daren F. McGavren Co., station representative, will open a new office, its seventh, in St. Louis on Aug. 1. Jack Hetherington, formerly with the Adam Young representation office in St. Louis, has been named manager. The address is 317 North 11th St.

- KFOX Long Beach, Calif., will drop its current popular music format, switching to all western and country music Aug. 3. The change was announced by Cal Perley, vice president in charge of all Kenyon Brown radio stations (KFOX is owned by Mr. Brown in association with Bing Crosby and Kevin Sweeney), who said it followed a thorough study of the area.

- On July 19, WTAG-FM Worcester, Mass., joined the WQXR Network which carries music programmed by WQXR New York. Affiliated with the Worcester Telegram and Gazette, WTAG-FM is the 14th station to join the good-music hook-up. The station will carry 65 hours of network programming each week, according to Herbert L. Krueger, vice president and general manager of WTAG-AM-FM.
Since January of this year, more than 3,000 new homes were built each month in the Land of Profitunity!

The families moving in—many of whom are new residents—need everything from tacks to toasters. There is a need for every product and service!

Add to the new residents the 1,594,700 persons already living in the WFLA-TV sales area and you get some idea of the opportunity for sales—and profit—in the Land of Profitunity!

NEW YORK
The FCC has had second thoughts on the clear channel case.

It announced last week that it had instructed its staff to draw up a new proposed rulemaking notice which would, if enacted, permit the assignments of a "limited" number of unlimited time Class II stations on all 24 Class I-A, unduplicated clear channels.

These Class II stations, the FCC said, would be not less than 10 kw in power. Their locations, it added, would be determined on the basis of need in areas without primary service.

Class II stations are unlimited time stations (or they can be daytime only stations) on the 45 clear channels. They must protect the dominant Class I station at nighttime, but at the same time they must accept any interference they might suffer from the dominant station.

The latest move brought a negative comment from a clear channel spokesman. Reed T. Rollo, counsel for the Clear Channel Broadcasting Service, said last week: "I'm afraid it means duplication of all clears at distances that would preclude forever higher power."

Last year, the FCC proposed to duplicate, with a second 50 kw, Class I station, five of the 24 Class I-A clear channel frequencies and to permit the assignment of Class II stations on these plus seven other Class I-A frequencies. It said the question of higher power would be taken up later (Broadcasting, April 21, 1958).

Bare Majority • The vote to instruct the staff was close, it was understood.

Four of the seven commissioners voted in favor of this move.

The official document is not expected to be issued until September, following the FCC's August vacation.

No mention will be made, it is understood, of any power boosts for the clear channel stations. At the time the clear channel proceedings began in 1945 before the FCC, the clearers urged that they be permitted to increase their power to 500-750 kw.

Response to the FCC's 1958 proposal, in general, was negative. The clear channel stations, the networks and the Clear Channel Broadcasting Service objected. CCBS pointedly asked why the Commission had not suggested higher power for the clear channel stations.

In last year's proposal, the Commission suggested that five of the I-A frequencies be duplicated at specified places:

-660 kc (WRCA New York) in Montana
-770 kc (WABC New York) in a western state to be determined; 880 kc (WCBS New York) in Wyoming; 1100 kc (KYW Cleveland) in Arizona; 1180 kc (WHAM Rochester, N.Y.) in Idaho.

The Commission said also that at a later date it would allow Class II stations on these frequencies at underserved locations. It also listed the following other seven clear channel frequencies for immediate Class II assignments:

-670 kc (WMAQ Chicago), 720 kc (WGN Chicago), 780 kc (WBBM Chicago), 890 kc (WLS Chicago), 1020 kc (KDKA Pittsburgh), 1120 kc (KMOX St. Louis), 1210 kc (WCAU Philadelphia).

More Stations • It was estimated then that under these conditions there could be anywhere from three to six Class II stations on each of the above 12 frequencies. Using the same basis for all 24 Class 1 frequencies, as expected to be proposed by the Commission, this could result in from 72 to 144 new Class II stations.

The Commission announcement made no mention of the companion daytime skywave case. This involves technical findings that skywave service begins about two hours before sunset and continues for about two hours after sunrise. The clear channel stations are protected, nighttime, from sunset to sunrise.

Clear channel stations were assigned
We know what our neighbors in Baltimore and Maryland want to see on television and we give it to them—good! Seventy-five live local shows conceived and custom-tailored to Marylanders' taste.

You name it and WBAL-TV has it—has it—live! News live! Weather live! Sports live! Depth interviews live! Panel shows live! Children's shows live! And to further gild the lily, WBAL-TV produces frank, honest and, in many cases, startling reports on subjects of local interest such as the Baltimore Police Department, the School System and alcoholism in Maryland.

This is the kind of outstanding service WBAL-TV delivers to its viewers in addition to the top flight NBC Network programming you know so well. That is why we say buy WBAL-TV in Baltimore where your clients' commercial message is always surrounded by the best.

Always the best show in town. Always the best buy in town. We tower 1040 feet above sea level to serve you better.

Ch.11-NBC Affiliate Represented Nationally by Edward Petry & Company/Associated with WBAL-Radio 1090
in the early days of radio in order to serve remote areas of the country. This is done through the skywave phenomenon by which a broadcast signal can travel out hundreds of miles from the transmitter. The signal at night bounces off the ionosphere—a layer of ionized particles about 30 miles above the earth—and can be received at great distances.

During the day all broadcast stations are confined to groundwave coverage, about 100 miles, since there is no ionosphere in existence.

The clear channel case began in 1945 when the FCC opened up the question whether to duplicate the clear or permit them to use “superpower,” or both. There are now 45 clear channels. Class 1-A frequencies contain only one station on each frequency at night. There are 24 Class 1-A frequencies. Class 1-B frequencies contain two clear channel stations on the same frequency, separated virtually by a continent. There are 21 Class 1-B channels, but since seven of these frequencies are shared with a foreign country, there are only 35 U. S. Class 1-B stations.

**WCKY is on the GO IN CINCINNATI**

We’ve taken to our wheels this summer! We’ve gone right out to visit our listeners . . . and they love it! The bright red WCKY Mobile Studio broadcasts a full week at high traffic count locations from 6:30 to 10 AM and 4 to 6 PM, with Leo Underhill handling the morning broadcasts and Paul Miller (shown here) broadcasting afternoons. Decked out in red blazers and straw hats for high visibility, Leo and Paul greet motorists, tell them about traffic delays in the Cincinnati area, and play that good music for which WCKY is famous. From the waving hands, blinking lights and honking horns, we’re sure nearly everyone in Cincinnati is attracted to our remotes, and listening to WCKY. And the lucky advertisers who sponsor the remotes are happiest of all!

If you have a product which needs to get going in Cincinnati, then you need WCKY—the station on the GO. Call Tom Welstead at WCKY’s New York office or AM Radio Sales in Chicago and on the West Coast.

FCC votes 4-3 on KHOU-TV renewal

The FCC moves in mysterious ways sometimes.

Last week the Commission approved, by a 4-3 split vote, the license renewal of KHOU-TV Houston, Tex. This is one of the Corinthian stations and no one even knew that the renewal was in question. Seems the Galveston Chamber of Commerce sometime ago complained to the FCC that KHOU-TV was slighting Galveston in its programming. KHOU-TV once was KGUL-TV, assigned to Galveston. The FCC staff compared programming information in renewal application with Galveston Chamber’s complaint, and judged it had no substance. Under regular procedure, however, it bucked the renewal up to Commission level.

Majority of FCC accepted staff’s judgment; three dissenters—Comrs. Robert T. Bartley, Frederick W. Ford and John S. Cross—thought Commission ought to write to station giving gist of complaint and ask for the station’s version. The majority felt information was already in the renewal application and answered the complaint.

KHOU-TV’s present license expires July 31.

U.S. Chamber urges interstate tax limit

The U.S. Chamber of Commerce last week recommended that Congress approve legislation which would prohibit states from taxing income of companies not maintaining a place of business within the taxing state.

Testimony to this effect was given by the Chamber’s John Dane Jr. before the Senate Finance Committee, which conducted hearings last week on three bills exempting interstate firms from state taxation when their business
"Listen to this, Bill", said the WeeReBeL as he sat on the desk to chat with Bill Hinman, Lambert & Feasley, Inc., New York.

Have you heard what the WeeReBeL said to Lambert & Feasley?

"We're a combination hard to beat..."

within a state is limited to sales and other marketing activities. The Supreme Court has ruled that a state may tax the portion of the income of companies operating in interstate commerce which is derived from the taxing state (Broadcasting, March 2).

Mr. Dane, a Boston tax attorney and chairman of the Chamber’s taxation committee, said that the urgent need is to bring a measure of certainty into the tax liability of interstate corporations. “So long as every corporation selling outside of its state is in doubt of its . . . liabilities, a serious restraint is being imposed on the development of the American economy,” Mr. Dane stated.

Reasons Why • He made these specific points in urging Senate approval of the intent of the pending bills:

(1) Such legislation would go a long way toward eliminating the interstate tax dilemma of small and medium companies having a permanent place of business in only a few states.

(2) The risk of taxation on more than 100% of a company’s income would be greatly reduced. Such excessive taxation could come about through lack of uniformity in tax laws of individual states.

(3) Such legislation would not conflict with the Supreme Court decision as both firms involved (neither related to broadcasting) in the court’s ruling had an office in the taxing state.

The committee heard testimony on the bills from senators and several other witnesses, none connected with broadcasting or related businesses.

A special House Judiciary subcommittee, headed by Rep. Edwin E. Willis (D-La.), plans to hold hearings on the same state taxation subject in “late fall,” a spokesman said last week. Several bills prohibiting a state from taxing interstate commerce also are pending in the House, the latest of which (HR 8336 by Rep. H. Allen Smith [R-Calif.]) was introduced last week.

Fm weather service advocated by Green

A new kind of fm service has been proposed by Sen. Theodore F. Green (D-R.I.). He suggests that a nationwide network of fm stations, to be operated by the U.S. Weather Bureau, be established to broadcast weather forecasts and storm warnings on a 24-hour a day schedule. The fm network would also be used for civil defense announcements in national emergencies.

In describing his proposal, Sen. Green said, “The annual national economic loss to our citizens resulting from inadequate dissemination of storm warnings and forecasts is staggering, and some corrective action should be taken by Congress without further delay.” The Rhode Island senator has been advocating improved storm warning services since 1954 when several tropical hurricanes devastated sections of New England.

In a letter to FCC Chmn. John E. Doerfer, Sen. Green inquired about procedures involved in assigning the necessary fm frequencies to the Weather Bureau. He also indicated that hearings may be necessary to establish regional needs for the fm weathercasts and to determine where and when the proposed stations should be established.

The senator said manufacturers of portable transistor radios have indicated that fm receivers, not larger than a pack of cigarettes, might later be produced at very low cost if public interest in the proposed weathercasts becomes great enough.

WAFB-TV goes vhf

A second vhf tv operation for Baton Rouge, La., was authorized last week, less than two months after the FCC deleted ch. 9 from Hattiesburg, Miss., and assigned it to Baton Rouge. (Broadcasting, June 8).

WAFB-TV, now on ch. 28 was granted a special temporary authorization to switch to ch. 9. The temporary authorization will remain in effect until the Commission takes final action on applications for regular operation on the vhf channel. WAFB-TV and Community Broadcasting Co., licensee of WIBR Baton Rouge, have applied for regular operation on ch. 9.

In granting the special temporary operation, the FCC said WAFB-TV would receive no effect or preference in any comparative hearing because of expenditure of funds as a result of its temporary operation. Comr. John S. Cross dissented in the action, which was opposed by WIBR.

Microwave rule

The FCC last week made part of its rules a policy of long standing concerning specialized microwave common carrier companies. It amended Sec. 21.709 to require information concerning the financial interrelationships between common carriers which pick up tv signals and deliver them to community tv systems and the catv systems which are their customers. This information will be used, the FCC said, not only in judging original applications, but also at renewal times.

There are about 50 microwave systems furnishing common carrier service to about 100 cable companies. All their licenses expire Feb. 1, 1961. Renewals will be for the regular five year period.
How much is “public power” costing the people of your state?

Every American is taxed to pay for federal “public power,” and the cost to people in your state has run into the millions.

Federal government electric power systems have already cost the nation’s taxpayers $51 billion. The list on the right shows about how much of this has been collected in each state.

If the “public power” lobbyists succeed in their plans for getting the government still deeper into the electric business, the cost will soar to $15 billion. The cost to your state will be almost tripled.

Yet this spending for more and more “public power” is completely unnecessary. America’s hundreds of independent electric light and power companies are ready and able to provide all the low-price electricity the nation needs—without depending on taxes.

These companies have doubled the supply of electricity in the past 10 years, and will double the present supply in the next 10.

Federal “public power” keeps growing because most people don’t realize they are paying for it. But informed Americans can stop it.

Will you help spread the word?

SEC. 315 BILLS NEAR TO VOTE

Equal time amendments exempting news
house fears of radio-tv 'discрetion' 

The House Commerce Committee last Wednesday (July 22) joined its Senate counterpart in approving a bill amending Sec. 315 of the Communications Act—but not before three separate sessions of closed-door debate which caused concern among Washington industry representatives.

A thrice-changed version of HR 7985, originally introduced by Chairman Oren Harris (D-Ark.), finally was approved in a form recommended by Rep. John Moss (D-Calif.). The favored language:

"Appearance by a legally qualified candidate on any bona fide newscast (including news interviews) or any on-the-spot coverage of news events (including but not limited to political campaigns and activities incidental thereto) where the appearance of a candidate on such newscast, interview, or in connection with such coverage is incidental to the presentation of news, shall not be deemed to be use of a broadcasting station within the meaning of this subsection."

Final vote on reporting this language was 25-1, with one member voting "present" and seven members absent. However, it was pointed out that this is not an indication of all-out approval by those who voted to report the bill, with several members reserving the right to object to the floor. As one member put it:

"We are afraid of what doors might be opened in giving broadcasters the right to decide what candidates make news." While he said he voted to report HR 7985 to the floor, he still had strong reservations as to whether the bill should become law. Several other members were reported to have the same misgivings and this is borne out by the lengthy debate of the committee.

Rep Moss' amendment replaced language which would exempt "appearance by a legally qualified candidate on any news cast (including news interviews) or any on-the-spot coverage of news-worthy events." This language, itself, constituted an earlier amendment to the Harris bill deleting "panel discussions or similar type programs" approved by the Communications Subcommittee (Broadcasting, July 13).

Intent Same • Rep. Harris said there is "virtually little difference as to intent" between the Moss amendment and the bill as approved by the subcommittee. "I think it is not as limiting now to broadcasters," he said, and that the bill will place Sec. 315 back to where it stood before the FCC's decision that candidates are entitled to equal time on newscast.

Also last Wednesday, Sen. John Pastore (D-R.I.) introduced the bill (s. 2424) as approved by the Senate Commerce Committee two weeks ago (Broadcasting, July 20). This bill exempts "any newscast, news interview, news documentary, on-the-spot coverage of news events or panel discussion" from Sec. 315. It also provides for a three-year congressional study of the exemptions to determine if broadcasters have been abusing the granted exemptions. The House bill does not contain this provision.

Committee Chairman Warren Magnuson (D-Wash.) said Thursday that he has discussed the equal time bill with Sen. Mike Mansfield (D-Mont.), majority whip, and that "we expect to bring the bill to the floor of the Senate [this week] and pass it. . . . Time is of the essence in getting the bill passed."

Temptation • In an accompanying report, the Senate committee stated: "The committee is not unmindful that the class of programs being exempted from the equal time requirements would offer a temptation as well as an opportunity for a broadcaster to push his favorite candidate and to exclude others. That is a danger. The committee clearly recognizes this to be a definite obstacle but feels that the alternative to standing pat and maintaining status quo could lead to a virtual blackout in the presentation of candidates on the news-type programs."

Because of this "pitfall," the report stated, the provision for a close study was included to "serve as a warning to all broadcasters that the discretion being granted them and the manner in which they employ it will be carefully screened."

In a separate statement included in the report, Sen. Vance Hartke (D-Ind.) said he felt "very strongly that the need remains" for Congress to define qualified candidates and to exempt broadcasters from political libel. Sen. Hartke's bill, S 1858, contains both of these provisions in addition to the committee-approved exemptions.

WNBC (TV) sale hit

WHYN-TV Springfield, Mass. (ch. 40) last week asked the FCC to designate for hearing the proposed sale by NBC of WNBC (TV) New Britain, Conn. (ch. 30), to Connecticut TV Inc., one-third owned by WWLP (TV) Springfield (ch. 22), WWOR-TV Worcester (ch. 14) and WRLP (TV) Greenfield (ch. 32), all Massachusetts. The proposed sale of WNBC and WKNB New Britain for $1.04 million was filed last month (Broadcasting, June 29).

WHYN-TV said it competes with WWLP and that joint ownership of WNBC and WWLP, WWOR-TV and WRLP will create an overlap which violates FCC rules, adding that there would be a "presumption" of "package rates" by the WNBC-WLWL group.

Hawaiian petitions against KPOI denied

The FCC has denied a joint petition by KPOA and KULA, both Honolulu, which had requested revocation of the license of another Honolulu outlet, KPOI (Broadcasting, June 22, et seq.). Charges leveled against KPOI (formerly KHON), which were answered in a subsequent KPOI opposition document, involved veteran broadcaster John D. Keating and alleged violations of FCC rules and policy.

The KPOA-KULA petition pictured Mr. Keating as the man behind the KPOI ownership scheme through his relationship with WINS New York Manager Jock Fearnhead, who purchased KPOI this spring for $125,000. Mr. Keating, at that time owned 25% of WINS.

Changes in Mr. Keating's broadcast interests were granted by the Commission last week. In a stock transaction, Mr. Keating acquired sole ownership of KDAY Santa Monica, Calif., while partner J. Elroy McCaw acquired sole ownership of WINS New York. There will be joint ownership of KALA (TV) Wailuku and KONA (TV) Honolulu, both Hawaii. KONA had been another factor in the KPOA-KULA attack on KPOI. Mr. Keating will be employed as a consultant to WINS for 80 months at $1,000 per month.

WTOH-TV wants ch. 5

WTOH-TV Toledo (ch. 79 permittee) last week asked the FCC to start rule-making to drop in ch. 5 there and give the station special temporary authority to operate it. The proposal would involve switching ch. 5 at Cleveland with ch. 12 in Erie and would result in a minimum co-channel separation of 130 miles for ch. 5, WTOH-TV said. WTOH-TV said it is afraid to build a ch. 79 station because of competition from Toledo vhf's WRTOS-TV (ch. 11) and WSPP-TV (ch. 13). The proposal includes show-cast orders to WEW (TV) Cleveland (ch. 5) and WICU-TV Erie, Pa. (ch. 12).

Broadcasting, July 27, 1959
There's a world of difference between just taking a picture and that "quality touch" possessed by the photographer who paints with the magic of the lens.

This same quality reflection is also apparent in the operations of today's better radio and television stations.
THE LAST DAYS OF FIRESTONE

Sponsor tells FCC of network troubles, but says it considers incident closed

The Firestone Tire & Rubber Co. was once offered first sponsorship of a new ABC property—Disneyland, but turned it down because the management of the Akron, Ohio, tire company was wedded to the Voice of Firestone.

This, and other tidbits on the recent rocky road of the 31-year-old concert music radio and tv program, was put into an FCC record last week by Charles B. Ryan, Firestone director of merchandising and advertising.

Mr. Ryan testified last week in Washington before FCC Chief Hearing Examiner James D. Cunningham in the Commission’s investigation of tv network programming practices. Three weeks ago the investigation heard advertising agency executives in New York tell their experiences with tv networks (Broadcasting, July 13).

In addition to Mr. Ryan, whose testimony made up the bulk of the one-day hearing, others who appeared were Alfred J. McGinness, manager of national advertising; Joseph H. Thomas, vice president and general counsel, and Howard Barlow, longtime musical director of the Voice of Firestone.

The Firestone executive noted that the company had not initiated the investigation but was appearing under FCC order. “We have no axe to grind with any network,” he added. “We have most cordial relations with the networks.”

Disneyland Offer by Kintner • The Disneyland offer was made in 1954 by Robert Kintner, then ABC president, when ABC made a presentation to move the Voice of Firestone to that network. This was after NBC preempted the Monday 8:30-9 p.m. time slot which had been occupied by the Firestone program since 1928.

Mr. Kintner, according to Mr. Ryan, offered Firestone “first crack” at the then new program. Mr. Ryan said he was interested, but Firestone’s management was adamant that the Voice of Firestone should be continued—and in prime time.

ABC agreed to give Firestone the historic Monday night half-hour, with only one condition, Mr. Ryan said: a non-cancellable, 52-week contract each year.

Firestone continued in this time period until the 1957-58 season when it signed a 39-week contract.

It lost the Monday night time in the 1958-59 season when ABC put Bourbon Street Beat into the 8:30-9:30 p.m. slot.

The Voice of Firestone began on NBC Radio in 1928, Mr. Ryan recounted and remained in the Monday night 8:30-9 p.m. time period until June 1954. Firestone invested $40 million in the program, Mr. Ryan said.

In 1943 Firestone sponsored Tele-news on NBC-TV and in 1948 it sponsored Americana, also on NBC-TV. In 1951 it put Voice of Firestone on tv, following the signing of an agreement between the American Federation of Musicians and the network on the use of live music on tv. The Firestone program went into a Monday night 8:30-9 p.m. period.

Godfrey ‘Clobbering’ Voice • It remained in this period until 1954, Mr. Ryan said. In that year, Sylvester L. (Pat) Weaver, NBC president, told the company that it would have to vacate the period for the upcoming Sid Caesar Show, Mr. Ryan recalled, because it was being “clobbered” by Arthur Godfrey on CBS. No comparable prime time was offered, Mr. Ryan said, because Mr. Weaver felt Voice was a low-rated show. Various other time periods were offered, Mr. Ryan said, including 30-36 weeks free on Sunday afternoon. NBC also offered Firestone the co-sponsorship of the Sid Caesar Show.

Mr. Ryan said he told Mr. Weaver and Robert Sarnoff, then vice president of the NBC, that he was “astonished, shocked and disappointed” at their action in removing the Voice of Firestone from its regular time period.

He said that he had assumed that Firestone had a firm reservation for the Monday night period on NBC because, he said, Niles Trammell, NBC president in the early days of television, had assured the company that by getting into tv early it could ensure use of the time slot.

Inherent Right • Mr. Ryan said Firestone felt it had an “inherent right” to the Monday night period “on a historical basis, an investment basis, contribution to good balanced tv programming and also because we ourselves had developed the 90-station live network rather than NBC and had made a very considerable investment in that and also because of the commitments of Niles Trammell. . . .”

Both Mr. Ryan and Mr. McGinness took issue with NBC’s attitude that the Voice of Firestone was a low-rated show. Mr. Ryan said that in 1950 Firestone hired the Psychological Corp. to check its radio audience. This survey of 10,000 interviews, Mr. Ryan said, showed that 19.2% said they listened regularly and 35.6% said they listened occasionally.

Mr. McGinness told of receiving 100,000 requests for a reprint of a Voice of Democracy speech presented by one of the winners in 1959 on the Voice program. Mr. McGinness stated that this convinced him that “Nielsen and other rating services are inadequate. . . .”

Voices of Firestone that bared their story to the FCC

68 (GOVERNMENT)
Daly buckshotting equal time requests

Candidate Lar Daly was back before the networks again last week demanding equal time—and getting turned down.

He asked NBC for time equal to that devoted to Sen. Hubert Humphrey (D-Minn.) on Today July 17 (Broadcasting, July 20) and to New York Gov. Nelson Rockefeller July 19 on Meet the Press, alleging both are Presidential candidates. NBC officials turned him down on both counts on the grounds neither are officially candidates.

He also sent a letter to Mutual President Robert Hurleigh serving notice he would demand equal time if Sen. Humphrey appeared on Mutual’s Reporters Roundup as scheduled yesterday (July 26). Mutual spokesmen said Thursday that the letter had not been received, but that any such demand would be refused on the ground that Sen. Humphrey has not announced his candidacy. They also noted that Mr. Daly had been interviewed on Mutual last week and had warned that Vice President Richard Nixon is a candidate for President, and that broadcast remarks by Mr. Nixon concerning his current visit to Russia could also be the basis of equal-time demands.

Mr. Daly, interviewed on Mutual’s The World Today Thursday, said he definitely is a candidate for the Presidency but “I haven’t decided yet for what political party.”

McCarthy Irked • Sen. Eugene McCarthy (D-Minn.), prime pusher of Sen. Humphrey for President, was more than a little piqued at CBS last week for canceling the latter’s appearance on Face the Nation (Broadcasting, July 20). Cosponsor of legislation to amend Sec. 315, Sen. McCarthy said “if this CBS ruling is an indication of the manner in which radio and TV stations are interpreting existing laws, I am of the opinion no attempt in clarification would be effective.”

He called for a “full-scale” Senate investigation of the CBS decision prior to any action on amending the equal time law.

Beaumont grant near

The FCC last week tentatively approved the grant of ch. 12 in Beaumont, Tex., to TV Broadcasters Inc., which once operated ch. 31 Beaumont as KBMT (TV). The proposed grant, if made final, would reverse Examiner Charles J. Frederick’s initial decision last Aug. 11 which favored Brown Telecasters Inc. The third applicant was KPBX Broadcasting Co., which operates KJET Beaumont. Two on-the-air vhf outlets in Beaumont are KFDM (TV) (ch. 6) and KPAC-TV (ch. 4).
**EX PARTE: ITS DEFINITIONS**

Depends on who you are, Dirksen says, leading opposition to ABA reform bills

A Senate subcommittee held three days of hearings last week on two administrative procedure bills, one designed to outlaw backdoor contacts with the FCC and other agencies, and the two-man majority was "starlit" when the lone Republican member expressed his views on unofficial conversations with the agencies.

Sen. minority leader Everett Dirksen (R-Ill.) during testimony last Wednesday (July 22) told his colleagues to "look at the practical aspects of the matter." He said that he has in the past and will continue to contact members of government departments and agencies whom he knows personally.

"That is the most natural thing in the world," Sen. Dirksen said.

He also discussed advantages of Washington's cocktail parties in meeting and cultivating contacts.

Dirksen made these observations during hearings of the Judiciary Subcommittee on Administrative Practice & Procedure. The three-man body is chaired by Sen. John Carroll (D-Colo.), with freshman Sen. Philip Hart (D-Mich.) the remaining member.

The subcommittee was taking testimony on S 2374, an American Bar Assn. proposal which makes it a crime to make improper ex parte contacts or representations to commissioners and hearing examiners, and S 600 which establishes an office of Federal Administrative Practice.

**Democratic Support** Following his criticism of the day before, Sen. Dirksen attacked S 2374 Thursday on the Senate floor and received the support of three Democratic colleagues. "Are we to be put on the carpet because we represent our constituents, make inquiries and find out what the status of matters is?" the Illinois Republican asked.

He continued: "I go to parties like anybody else. I might see the commissioner of this agency or that agency at some party. I guess at times I have asked about certain cases... Is there anything so heinous or horrendous about that? Until there is a mandate in the law... which says it is wrong and that I will be put in jail for doing it, I am going to continue to do so." And, he emphasized if such a law is passed, "I shall have outlived my usefulness in the public life."

**FCC splits 'ex parte' hair**

The FCC is going to draw a fine line between two types of rule-making proceedings—and bar ex parte representations in one of them.

One will be the usual, regular, overall rule-making and the other one in which "special consideration" is required.

The regular rule-making will continue as it does now. The Commission said that it may consider any information that might be available to it before final action is taken.

But, in the second instance—the "special consideration" one—the Commission said that it would make its decision only on the record. It added, however, that it may consider relevant information coming to its attention before the issuance of the rule-making notice. Involved here, it is understood, will be cases where there are conflicting claims to a valuable privilege.

The revision of the long-standing practice was announced last week in a notice of proposed rule-making to amend Sec. 2.121-2.121 of the Commission's rules. Comments on the proposals are due August 24, with replies due 10 days later.

The move was made necessary, it was explained, by the opinion of the U.S. Court of Appeals in the Sangamon Valley case, issued last May. In this case, involving the Commission's move of ch. 2 from Springfield, Ill., to St. Louis and the concurrent change of the Springfield station to a uhf channel and of KTVI (TV) St. Louis to ch. 2, the court raised its eyebrow at what it termed "private conversations" between Harry Tenenbaum (KTVI co-owner) and FCC commissioners. The off-the-record approaches were first made public by the House Legislative Oversight Committee.

Current practice before the FCC bars all ex parte conversations with commissioners or staff in adjudicatory cases (where two or more applicants are seeking a grant), but does not forbid this type of off-record representation in rule-making cases.
Now...**pick an effect**

**from more than 150 possibilities!**

Here's the ultimate in convenience for selection and presentation of program effects—the all new RCA Special Effects System. Key circuitry for each effect is contained in plug-in modules. Any ten effects may be pre-selected—simply plug ten modules into the control panel. Each module has illuminated symbol showing the effect it will produce. Slide an effect out—slide another in—it's just that easy. You get just the right effect to add that extra SELL to your programs and commercials.

**Simplified Control**—Push-buttons put effects selection at your fingertips. Push the buttons below the illuminated symbol and you are ready to go "on-air." Wipes and transitions are controlled by a standard fader lever for simple foolproof operation.

**Unlimited Variety**—The complete complement of 154 special effects includes wipes, split-screens, picture insets, block, wedge, circular and multiple frequency patterns. In addition, the system will accept a keying signal from any camera source to produce a limitless variety of effects—inset letters, drawings, trademarks; self-keyed video insets, and traveling mattes.

**The Best Effects with Less Effort**—Mix color and black-and-white. Enjoy exceptionally clean transitions...the most exciting effects ever conceived! And get them with the least amount of effort possible.

Ask your RCA Broadcast representative for complete information. Or write to RCA, Dept. WE-22, Building 15-1, Camden, N. J. In Canada: RCA VICTOR Company Ltd., Montreal

**RADIO CORPORATION of AMERICA**

Broadcast and Television Equipment, Camden, N. J.
doors of the agency are closed to him,” the Justice spokesman said.

John F. Cushman, director of the Justice Dept.’s office of administrative procedure, said that his office “can and does perform useful functions” and that it would be a step backward to abandon it. His present office, he said, is charged with seven of the nine duties outlined for the proposed new body in $600.

“As long as the operation is run on a relatively small scale, there are a number of advantages in retaining the present set up,” he said. Mr. Cushman’s office, with a five-man staff (including the director), was established in December 1956 following a recommendation made by the second Hoover Commission.

Some Rulemaking Too • Donald C. Beelar, partner in the Washington law firm of Kirkland, Ellis, Hodson, Chaffetz & Masters, presented the principal ABA case for passage of S 2374. He is chairman of the association’s special committee on the Federal Administrative Practice Act and immediate past chairman of the section of administrative law.

He said that some agency rulemaking proceedings should fall under S 2374 and cited the Sangamon Valley tv case. “This proceeding, although rulemaking in form, was a controversy between particular individuals with regard to a specific television assignment and it was certainly adversary in character,” Mr. Beelar said.

In such cases, he pointed out, the FCC would be required to announce at the beginning of the proceeding whether the case falls under the ex parte rules. “We in the American Bar Assn. . . believe that S 2374 represents the minimum of a legislative program for dealing effectively with the problem of influence and pressures,” Mr. Beelar said.

John D. Randall, president-elect of the ABA, said that "conditions are ripe" for enactment of legislation outlawing backdoor pressures. "If the agencies are to continue their courtlike functions, we must adopt legislation which will adequately protect the integrity of these agency hearing proceedings," he said.

Three other witnesses, John B. Gage, Ashley Sellers and C. Frank Reifsnyder, testified for ABA on behalf of the two bills under consideration.

Justin N. Feldman of the New York City Bar Assn., speaking in favor of the bill to set up an administrative practice office, said it is “abundantly clear” that there should be a centralized office to coordinate the activities and the dissemination of information under the Administrative Procedure Act. "There is no other way . . . by which we can obtain the required degree of uniformity throughout the Executive Branch with respect to the appointment and assignment of hearing commissioners . . . and the admission to and control of practice before such agencies,” he said.

Representing the Federal Trial Examiners Conference, Joseph Zwerdling said that body “strongly supports the creation of an independent Office of Federal Administrative Practice.”

The hearings were recessed following Thursday’s session subject to the call of the chair.

**KPDQ gets stay of KPAM transfer**

The FCC has entered the battle between two religious broadcasters in Portland, Ore.

The Commission granted a protest by John W. Davis, licensee of religious-programming KPDQ Portland, to the extent of postponing last May’s sale grant of KPAM and KPFM (FM) Portland, pending an evidentiary hearing. The Commission further ordered the two stations to be returned to their sellers within 30 days. KPAM-KPFM were sold by Stanley M. Goard and others to Gospel Broadcasting Co. (45% owned by Baptist minister F. Demcy Mylar, 20% by Emil Boesch, and others) for $200,000. The FCC granted the sale without a hearing (Broadcasting, May 25).

KPDQ is fighting the KPAM-KPFM transfer on grounds of “economic injury.” KPDQ has claimed it would suffer financial injury in loss of advertising and commercial religious programs and other sources of revenue. KPDQ has charged, among other things, that the KPAM service area overlaps the service area of KRWC Forest Grove, Ore., owned 50% by Mr. Mylar.

**Sports bill hearing**

National Football League Comr. Bert Bell and other spokesmen for that sport will be the lead-off witnesses when Senate hearings begin tomorrow (Tuesday) on two bills giving professional team sports antitrust exemptions (Broadcasting, July 20).

The hearings, scheduled to run four days, will be held by the Antitrust Subcommittee of the Senate Judiciary Committee. Sen. Estes Kefauver (D-Tenn.), sponsor of one of the bills (S 886), is chairman. The other measure, S 616, gives much broader exemptions, excluding a blackout of radio-tv sports, and is co-sponsored by three senators. The Kefauver version would leave a possible sports blackout up to the FCC.

On Wednesday (July 29) Baseball Comr. Ford Frick and other baseball
Mohawk Business Machines Corp.
944 Halsey Street
Brooklyn 33, New York

Gentlemen:

Being a "Doubting Thomas" is so much a part of me that when
I come across something that not only lives up to, but exceeds,
expectations and advertising claims, well, I find it difficult to
contain myself.

I always thought my Mohawk Model 300 was a great value, and
I still do; after all, it did me yeoman service. However, my
new Mohawk "Professional 500" is without peer -- it's just the
greatest!

I simply cannot get over the superior playback quality. Altho,
in our studio we have magnificent recording equipment worth
many thousands of dollars, I feel that, in comparison as to
quality and dollar-value, my new Mohawk "Professional 500"
leaves little, if anything, to be desired.

All my "on-the-spot" work will be done with my Mohawk
"Professional 500".

November 25th, 1958

figures will testify. Thursday's witnesses will include Baltimore Oriole Manager Paul Richards and Earl Mann, president of the Atlanta Crackers, while William Shea and Branch Rickey, proponents of a third major league, are scheduled to testify Friday.

Mr. Mann has put his Atlanta Crackers up for sale, because of lack of attendance. He charged that major league clubs do not realize what they are doing to minor league teams with telecasts into the minors' territories.

The hearings will begin at 10 a.m. each morning in Rm. 318 of the Old Senate Office Bldg.

**CH. 5 BRIEFS**

**Revocation urged in Boston TV case**

Two more briefs by participants in the court-remanded Boston ch. 5 rehearing were filed by last Thursday (July 23) and three others were scheduled to be filed the next day (July 24).

The *Boston Globe*, intervener, filed on Tuesday and applicant Greater Boston TV Corp. on Thursday. Allen B. DuMont Labs, Massachusetts Bay Telecasters Inc. and WHDH Boston, all applicants, and the Justice Dept., as amicus curiae, were to file Friday.

GBT asked disqualification of WHDH and MBT and a demerit against DuMont and held two former FCC members (George C. McConnaughey and Richard A. Mack) should have disqualified themselves from voting in the April 1957 grant to WHDH. DuMont urged disqualification of all three other applicants or that their contacts with FCC members be considered as comparative factors against them, also holding Comrs. McConnaughey and Mack should have been disqualified. The *Globe* also said the two former FCC members should have not voted. WHDH felt the 1957 grant to it should not be set aside. FCC's Office of General Counsel filed the previous week (Broadcasting, July 20).

The briefs were filed on orders of Special Examiner Horace Stern, who held hearings last February in the court-remanded proceedings. The rehearing had been delayed pending the end of the Mack-Whiteside criminal trial.

Briefs available by last Thursday:

Greater Boston Position - Greater Boston asked revocation of the ch. 5 grant and "absolute disqualification" of WHDH and Massachusetts Bay Telecasters Inc. as applicants because they "improperly attempted to influence the FCC decision." GBT said that while DuMont should not be disqualified, the fact that Dr. Allen B. DuMont and Mr. McConnaughey lunched together during the adjudication period should reflect adversely against DuMont from a comparative standpoint.

GBT held Mr. McConnaughey should have disqualified himself whether or not his vote was decisive because he was subjected to "improper influences," because his influence on other FCC members cannot be determined and because he "misrepresented" to other FCC members the status of a Justice Dept. probe of antitrust charges against the *Boston Herald Traveler* (WHDH).

Greater Boston charged WHDH President Robert Choate with being "less than candid" and "deliberately evasive" in testifying before the House Oversight Subcommittee and the FCC rehearing about his luncheons with Mr. McConnaughey. The luncheon meetings, GBT continued, could be considered as *per se* evidence of culpability.

GBT also held that contacts by MBT Vice President-Director Forrester A. Clark with a number of highly-placed Washington officials and with Mr. McConnaughey—done at the direction of
As Comprehensive A Review of
INFRARED
as Security Restrictions Will Allow!

The turning point in the practical application of infrared to military problems was during World War II when the Allies discovered the German Army was using infrared for secret signaling between infantry troops, for the surveillance of Russian tanks supposedly secure in the darkness, and for the detection of Allied night bombers which confused radars by the use of chaff. The turning point for the commercial application of infrared came about the same time when the American synthetic rubber program required rapid analysis of the C₄ fraction in butadiene production. Since this could best be achieved through infrared spectroscopy, commercial infrared spectrophotometers for chemical analysis began to appear in 1943.

Today, despite great advancements in the application of infrared to military and commercial uses, it appears to be only on the threshold of its full realization. That's what makes infrared such an exciting and challenging topic to investigate.

SEPTEMBER PROCEEDINGS OF THE IRE EXPLORES ENTIRE INFRARED FIELD

This special INFRARED ISSUE of the Proceedings of the IRE is the first unclassified American publication to bring together in one place the bulk of the basic information on infrared physics and technology. The material is current, authentic, and much of it recently declassified. It was prepared under the auspices of the Infrared Information Symposia (IRIS), an organization sponsored by the office of Naval Research and under joint-service direction.

This comprehensive review of a rapidly growing science—infrared—is only one of the many services offered members of the IRE. Non-members of the Institute of Radio Engineers, however, are invited to reserve a copy of this vital issue by returning the coupon below, today.

PARTIAL CONTENTS OF THIS INFRARED ISSUE:

Preface, by Dr. Arthur R. Laufer.

Infrared, a New Frontier of Physics and Technology, by Dr. Stanley S. Ballard.

A History of Infrared, by Dr. Warren N. Arnow and Dr. E. Scott Barr.

The Physics of Infrared, by Dr. Lewis E. Larmore.

The Infrared System, by Dr. Sidney Passman.

Applications, by Dr. Paul J. Ovrebo and Dr. R. Bowling Barnes.

General Bibliography, by Mr. William Wolfe.

Judge Horace Stern's failure to recommend absolute disqualification of Public Service TV Inc. in the Miami ch. 10 case, WHDH said.

The brief said all applicants (and the Globe) contacted FCC members directly or indirectly and that if all conversations with commissioners during adjudication are to be considered, these contacts cannot be ignored. WHDH felt that Globe officials had acted as "emissaries" for GBT and that DuMont and MBT had made direct contacts with Mr. McConnaughey. Globe in Same Tenor • The Boston Globe held that Messrs. McConnaughey and Mack should have disqualified themselves from voting.

The Globe, asking for a new decision "free from suspicion," held that Mr. McConnaughey allowed winning applicant WHDH and Massachusetts Bay Telecasters Inc. to make off-the-record presentations before the award and became prejudiced in favor of the former through "several" ex parte contacts. The Globe's brief, second filed since the reopened ch. 5 case resumed (Broadcasting, ch. 13), charged Mr. Mack with bias against the FCC's diversification policy and with wrongfully failing to act on a Globe petition as motions commissioner during the newspaper's attempt to intervene in the ch. 5 case.

The newspaper competitor of the Boston Herald Traveler (WHDH) said Mr. McConnaughey met with WHDH President Robert Choute for luncheon "at least" three times and heard off-the-record presentations in behalf of WHDH, thus violating law, FCC rules and the sense of fair play and exhibiting a "reckless disregard" of his responsibilities. He also violated the law and disqualified himself when he had lunch and heard another ex parte presentation by Forrester A. Clark, vice president of MBT, the brief said.

The brief said Mr. McConnaughey also should have disqualified himself for considering, off the record, information he received from a telephone conversation with Victor Hansen, head of the Justice Dept.'s antitrust Division, on the status of Justice's investigation of antitrust charges against the Herald Traveler, made by the Globe. Besides that, the brief said, Mr. McConnaughey also misstated to other FCC members the substance of the telephone call. Mr. McConnaughey testified during the ch. 5 rehearing that Mr. Hansen told him the charges against WHDH were groundless and Justice had dropped the probe. This conflicted with testimony by Mr. Hansen in the same hearing that he told Mr. McConnaughey Justice at that time found discrepancies in the charges, but was continuing its investigation.

**Government notes**

- WTWT (TV) Tampa, Fla. now may identify itself as Tampa-St. Petersburg. Comr. Robert Bartley disssented in the FCC action, which waived Sec. 3.652(a) of the rules.

- The FCC last week granted an increased power to KJBS San Francisco. The station will be permitted to broadcast with 50 kw during daytime hours in which it does not interfere with KYW Cleveland. Operating on 1100 kc, KJBS is presently licensed for full-time operation with 1 kw. Comrs. R.E. Lee and Frederick Ford dissented.

- The FCC last week denied a motion by WTWW (TV) Evansville, Ind. (ch. 7 permittee), to terminate the Commission's deintermixture proceeding which would shift ch. 7 to Louisville and require WTWW to operate on ch. 31. Comr. Frederick W. Ford was absent.

- The FCC last week directed its staff to prepare a document looking toward granting the application of George A. Brown Jr. for a new tv station on ch. 13 in Bowling Green, Ky. The proposed action would reverse an initial decision of Sept. 8, 1958, which looked toward granting the competing application of Sarkes Tarzian Inc. (WTTV, WTVT [TV] Bloomington and WPTA [TV] Roanoke, both Indiana).

- The Assn. of Maximum Service Telecasters has entered the Tampa-St. Petersburg ch. 10 case, in which five of the six applicants for the channel have again requested the FCC to authorize short co-channel mileage separations in order to utilize existing transmitter sites in the area. AMST referred to Tampa-St. Petersburg as an example of an area which "does not present a . . . critical shortage of facilities." According to AMST, the separation would be some 35 miles below the required 220 miles from ch. 19 WPTV-AM St. Petersburg, WTSF-TV Inc., Tampa Telecasters Inc., Suncoast Cities Broadcasting Corp., and Bay Area Telecasting Corp.

- FCC General Counsel John Fitzgerald and Paul McDonagh, administrative assistant to Chmn. John Doerfer, were named last week to represent the Commission on a special Advisory Council on Administrative Practices established by the Legislative Oversight Subcommittee (Broadcasting, July 20). Robert Lishman, chief counsel of the subcommittee, is chairman of the council.
Adaptable to either radio or television studio control, the Gates "Yard" is compact, facility loaded, and styled for the modern broadcaster.

On all standard consoles there are 3 preamplifiers with input switching for 6 microphones, and with space provided for 5 additional preamplifiers. This means it is possible to have a maximum of 11 microphone inputs. Thus, flexibility is offered for every type of station.

Other outstanding features are: 8 mixing channels key selected into the program or monitoring bus that will accommodate many combinations of microphones, turntables, tape playbacks and projectors with provisions for network and remote lines; a self-contained cue amplifier and speaker for turntable and projector channels; an ultra-linear 10 watt monitoring amplifier that provides true high fidelity sound; and a regulated power supply for uniformity of performance.

And don't overlook the low, compact silhouette for good over-the-top vision; dual muting relays with space for 3 more where needed; step type attenuators for all mixing channels; and low impedance mixing throughout.

Servicing of the Yard is extremely simple.

More than just another console, the Yard is an electronic era product that is a pace-setter for the broadcast industry.
NEW DJ ASSN.
Milwaukee meet produces results

Three dozen disc jockeys, representing radio stations scattered from Seattle to Miami and Los Angeles to New York, met in Milwaukee July 18-19 and organized the Disc Jockey Assn.

The new organization's purpose: to improve audience public relations and enhance the stature of the disc jockey as a "good citizen" and a "professional entertainer."

DJA plans to have a board of directors of 56, representing regions within six geographic sections of the country. Of those present in Milwaukee, 17 were named directors and signed articles of incorporation which are to be filed soon in New York state by Ben Starr, Broadway attorney for music publishers and music personalities who volunteered his services to DJA. Mr. Starr was named first honorary member of DJA in appreciation.

DJA headquarters will be in San Francisco at the office of Executive Secretary Bill Gavin, independent music program consultant, 114 Sansome St. (Phone Exbrook 2-7027.) Annual dues are $10.

Disc Firms Ineligible • Active membership will be limited to the professional disc jockey or "music programmer" (agency, production firm or independent) with at least two years' full-time experience and applications will have to be approved by the national board. Station managers will be eligible for active membership but record company representatives and those in other allied fields will not be eligible. DJA, however, plans to form "advisory committees" of record manufacturers and station management.

The 1960 convention of DJA is to be held concurrently with the Storz Stations' disc jockey convention, or independently if the third annual Storz Stations' meet is not held. The Milwaukee meeting stemmed from organizational efforts during the last Storz convention held at Miami Beach (Broadcasting, June 8, 1).

Interim officers elected to head the new DJA included: president, Jim Hathorne, KDYJ Santa Monica, Calif.; first vice president, Scott Muni, WMCA New York; second vice president, Bob (Coffeehead) Larsen, WRIT Milwaukee; third vice president, Fred Hohl, WAME Miami; fourth vice president, Charles Austin, KVLK Little Rock, Ark.; vice president for public relations, Robin Seymour, WKMH Dearborn, Mich., and secretary-treasurer, Bill Gavin, San Francisco.

A motion was entertained that the first public service effort of DJA be a national campaign by disc jockeys in behalf of mentally retarded children, but this was tabled on the ground that a decision to employ station facilities for any such specific purpose is the function of management and ownership, not that of station employees — the disc jockeys.

New partners for 'You Asked for It'

Kenyon Brown (president of KCOP (TV) Los Angeles), Bing Crosby and associates last week acquired the interest of the Wayne Steffner estate in the tv package, You Asked for It. They become partners with Cran Chamberlin, co-creator and partner with Mr. Steffner, who produced the show for more than six years prior to his death in 1957. The Brown-Crosby-Chamberlin group plans to distribute You Asked for It through its Syndication Div. which is headed by Henry R. Flynn. The series has run for 8½ years on ABC-TV, sponsored by Skippy (peanut butter), Div. of Best Foods (Corn Products Co.), New York.

Desilu stockholders get good profit news

Net profits of Desilu Productions Inc. for the first quarter of the fiscal year starting May 3, 1959, are estimated to be at least equivalent to the profits of $249,500 or 22 cents per share for the entire last fiscal year. The second quarter will be even better, President Desi Arnaz told the company's first annual stockholders meeting, held Tuesday (July 21) at Desilu's Hollywood studios.

Gross income for the current season will not be less than $23.5 million, Mr. Arnaz reported, calling this an increase of $3 million or 15% over the last fiscal year. He and other officers declined to estimate the net for the coming year beyond the first half. The president did stress that estimated profits for that period do not include anticipated profits on the company's backlog of shows, which "is being increased during the current season by an additional 60% to a total of 944 half-hours of filmed product."

Desilu has not been in a hurry to put its programs out for re-use, preferring to wait for the most propitious time, stockholders were told. This is particularly true of the foreign market, which Martin Leeds, executive vice president, said has doubled in the past two years.

An exception was the sale of the new hour series, The Untouchables, being released in Australia this season in addition to its use here on ABC-TV. The series brought a top price in Australia, Mr. Leeds said, and Mr. Arnaz noted that, as production will not start until August, "we've sold this program before we've even started to make it." The "pilot" of this series, broadcast in two one-hour episodes on last season's Westinghouse Desilu Playhouse on CBS-TV, will be shown in theatres abroad under an agreement now being negotiated, Mr. Arnaz said, adding that theatre showing in this country may follow.

Desilu plans to continue its policy of paying quarterly dividends of 15 cents per share of common stock, but no dividends have been declared on the Class B stock owned by himself and his wife, President Arnaz reported.

In answer to a question about pay tv, Mr. Leeds said that the officers of Desilu are watching developments and will especially keep an eye on the Canadian test of Paramount's Telemeter system to begin this coming winter (Broadcasting, June 22). If if looks like a profitable market for the Desilu studios, they'll provide product for pay tv, he said.

PROGRAMMING

The American Federation of Musicians on Thursday (July 23) filed a petition with the National Labor Relations Board office in Los Angeles for an election to certify AFM as the collective bargaining representative for musicians employed at the major motion picture studios. The filing came a year and a week following the NLRB election which gave the Musicians Guild of America the right to bargain for the musicians at the major studios (Broadcasting, July 14, 1958). In its petition, AFM claims that the MGA contract with the studios cannot bar an election because it permits an employer to pay dues to MGA for a musician who has not joined MGA, a type of payment prohibited by federal law.

AFM's move is an idle gesture and a futile one, according to MGA President Cecil Read. The MGA contract, he said, is a bar to any new representation for at least two years and the specific clause cited as illegal in the AFM petition was eliminated from it some months ago. Furthermore, he added, as recently as June 30, NLRB ruled that the MGA contract is valid and legal.
Although old age has certain drawbacks, the unpleasant picture you may have of it is out of date. Today, many of our senior citizens—and there are more than 15 million of them aged 65 or older—enjoy travel, recreation, good health and many other satisfactions.

To live usefully and happily after retirement, you should start planning—long before your 65th birthday—for your health, economic security and the active role you’d like to take in your community.

For a healthy old age, be sure to have regular health examinations, eat sensibly, practice good health habits and develop interests for your leisure time.

Regular medical check-ups can be your most important safeguard against the chronic or degenerative diseases which occur most commonly in the middle and later years. Your health check-ups may disclose trouble while it can still be “nipped in the bud”—or its progress delayed.

Plan your diet around a variety of foods. Meat, milk, eggs, poultry, fish, vegetables, fruits, bread and cereals—in suitable amounts—will help keep your body in good repair and your weight in check. Always avoid fad diets.

Habits of exercise, sleep and recreation can make a big difference in how you feel. For instance, regular exercise helps keep your muscles in tone and your circulation active. Your doctor can help you work out a plan for living to conserve your physical and mental resources.

Chances for happiness are slim at any age unless your leisure is occupied with satisfying activities. So, develop hobbies or take part in community affairs to stimulate your mind and keep you in touch with people of all ages.

Your chances of living to a ripe old age are good. That’s why you should look ahead and plan wisely for the years to come. And as time slips by and “the future” becomes the present, you will find it is bright—because you have made it so.
Wolper to syndicate public affairs shows

David L. Wolper, president of Wolper Inc., Hollywood, last week revealed plans to produce a series of eight hour-long public affairs specials for local and regional sponsorship. Mr. Wolper's first documentary, *The Race for Space*, is nearing completion and will be ready for sale to advertisers about Sept. 15, he said.

There are many large regional advertisers, Mr. Wolper remarked, who feel that sponsorship of half-hour film series do not offer the type of "prestigious" association they want for their products. "They obviously cannot benefit by sponsoring network specials and there is none available to them unless a station independently produces them," he stated. Advertisers such as banks and other financial institutions are particularly interested in specials in the public affairs classification, he said.

*Race for Space*, Mr. Wolper said, will be a two-part series of one-hour length each, consisting of rocket development films from Russia and the U.S. Dept. of Defense together with filmed interviews with people in both countries who have been or are now associated in the rocket industry. The problems posed by the conquest of space and matters requiring international agreement will be examined in the second part.

Mr. Wolper, who co-founded Flamingo Telefilm Sales Inc. in 1948 and later sold his interest, estimated the total production cost of *Race for Space* in the $150-200,000 bracket. The Russian films were purchased through Soverxport films, official distributor of government films, he said.

'Omnibus' may fall from network slot

The future of *Omnibus*, a network tv program, for seven years, was uncertain last week.

NBC-TV officials denied reports that the Sunday, 4:30-5:30 p.m., time slot, which *Omnibus* has filled the past two seasons, already has been sold. But spokesmen acknowledged that at least one-half sponsorship of the program must be sold to insure return of the program. To date, *Omnibus* has not obtained any sponsors but an official of Robert Saudek Assoc., New York, which produces the show said "there are at least three interested advertisers, but we have to make sure the time slot is available."

An NBC-TV spokesman conceded that there are several advertisers willing to sponsor a golf program in the *Omnibus* time period but insisted the time slot is still open. He reported that both the NBC-TV sales department and Robert Saudek Assoc. are trying to sell *Omnibus*, but indicated that the golf show would be substituted if at least one-half sponsorship is not obtained for *Omnibus*.

'Quietest' AFTRA meet

A convention described as "one of the quietest in many years" was held by the American Federation of Television & Radio Artists July 23-25 in St. Louis. The main topic discussed at the meeting was strategy for negotiation of the Phonograph Recording Code in October—the only one of many AFTRA contracts that expires in 1959. Separate committees were formed to consider the problems created by production abroad of radio-tv programming and to examine the status of taped programs syndicated in local tv markets. (For newly-elected officers, see page 84).

'Dawson' in good start

Ziv Television Programs Inc., New York, sold its new series *This Man Dawson* in 31 markets during first week of production, according to Len Firestone, syndication sales manager. Regional buys include: American Tobacco Co., through BBDO, as alternate week sponsor in 11 markets; H.P. Hood & Son Inc. (dairy products), via Kenyon & Eckhardt, in eight New England markets; Weidemann Brewing Co., through Tatham-Laird, in Cincinnati, Dayton, Columbus and Indianapolis; Dow Brewing Co., placed through Vickers & Benson Ltd., in Buffalo and Watertown, N.Y., and Standard Oil Co. of Indiana and R.G. Dunn Cigar Co. as co-sponsors in Detroit. Station sales reported are: KSTP-TV Minneapolis-St. Paul; KOB-TV Albuquerque; WTVY (TV) Decatur, Ill.; KGNC-TV Amarillo, Tex.; KSYY-TV Wichita Falls, Tex., and WDSU-TV New Orleans.

Cuban, Major League baseball video-taped

A series of 90-minute video-taped Cuban baseball games is expected to be distributed to about 25 U.S. markets this winter. Syndicator Max Cooper & Assoc., Chicago, so far has sold the series in New York, Chicago, Los Angeles, San Francisco, Provo-Salt Lake City, Pittsburgh, Milwaukee, Richmond and Houston.

Taped Major League games also will be telecast nationally. Following the World Series, Peter DeMet Productions, Chicago, will present 26 one-hour games alternating between the American and National leagues.

- Program notes

- Cluster Enterprises Inc., Baltimore, producer of *Strikes 'N' Spares, Pin Busters* and *Duckpins* and *Dollars* bowling shows, has set the series up for nationwide syndication. The expansion will follow the pattern set by the company's *Romper Room* (tv kindergarten) which is telecast in 75 U.S.-Canadian markets.

- Ziv Television Programs Inc., N.Y., in its first six weeks of selling *Lock-Up*, new syndicated film series starring MacDonald Carey, reports a total of 157 markets have been sold for the 1959-60 season.

- Radio Recorders, L.A. has distributed the first release of its new audio air check service, (BROADCASTING, May 11) to 25 subscribers. Shipments enclosed samples of programming of KNUZ Houston, KOL Seattle, WYDH Boston and WTXI New Orleans. Trial during completion of suit of Robert Saudek and Larry Greene against Radio Recorders, alleging that the firm's sample record contained material created for KFWB Los Angeles and infringed the plaintiff's copyright (BROADCASTING, July 6, June 15) is scheduled to be heard (today) July 27 in U.S. District Court, L.A.
1800 minutes of individual programs at your finger tips with Collins Automatic Tape Control. Each modular rack holds 120 tape cartridges. Spots, ID’s, opening and closing themes, complete programs . . . individually labeled, completely accessible. Contact Collins Radio Company for further information.
Broadcast Advertising

- Barbara Lappin Pearl, formerly
Mr. A. J. Mosby, President, KMSO-Television

Mr. Mosby praises Northwest's capable graduates: "We have employed several graduates of the Northwest Schools, the latest being our present Studio Director, Mr. Lynn Paoli, who is doing a fine job for us in set production and photography."

Studios of KMSO-TV in Missoula

One of a series of salutes to successful radio and TV stations across the nation... and to the Northwest Schools graduates who have contributed to their success.

NORTHWEST SCHOOLS SALUTES...

KMSO Channel 13
MISSOULA, MONTANA

KMSO-TV serves a rich merchandisable area with 250,000 forward looking people ready to do business with you. KMSO is the most powerful station in all Montana, transmitting 191,000 watts from a 285 ft. tower atop 6,850 ft. TV Mountain—over 3,000 feet above the valley terrain! Established July 1, 1954, the station operated entirely from the mountain top transmitter, then, in 1956 a beautiful new studio building was built in the down town section of Missoula. Last fall a 3 Network Microwave System was installed, providing all Western Montana the finest selection of programs to be had anywhere.

- **Brice Howard,** formerly producer with NBC-TV, named manager of WMSB (TV) East Lansing, Michigan State U.’s educational tv station. He assumes duties from Dr. ARMAND L. HUNTER, who remains director of broadcasting. Lee C. FRISCHKNECHT
PLENTY OF "REMOTES" keep the station's mobile unit on the go. One reason for the high ratings of WOSU-TV's sports and other outdoor telecasts, is the fine performance of G-E camera tubes under varying light conditions — from noonday sun to dense late-afternoon stadium shadows.

HAROLD D. GORSUCH, Chief Engineer, Station WOSU-TV (Ohio State University), Columbus, Ohio

Says:

"G-E camera tubes share credit for the nationwide success of our recorded TV programs!"

"WOSU-TV kinescopes its studio programs for coast-to-coast in educational work. High standards of picture sharpness apply. We've found that superior definition in image orthicons is essential when showing the exhibits that go with a lecture. Here students must view clearly, in order to follow the subject being taught.

"Live TV is almost 40 percent of our programming; this share is growing. We can't afford 'stickiness' in our camera tubes, with closeups of educational displays following one another rapidly. "You see me here holding a G-E image orthicon that's given 750 hours of first-rate performance, and will log plenty more judging from others owned by WOSU-TV."

* * *

The same high tube quality is available to your station. Phone your nearby G-E tube distributor!

- SUZANNE MATHIAS, account executive, television division, Barkas and Shalit Inc., pr firm, N.Y., appointed director of special promotions.

- GEORGE R. DARCY and ROBERT H.
Comdr. Murrow?

CBS newscaster Edward R. Murrow, who started a year's leave of absence July 1, applied last week for a commission as commander in the U.S. Naval Reserve. He asked for classification as an information specialist. One immediate speculation was that he wanted to satisfy a long-time interest in atomic submarines, perhaps eventually do a television study of that subject. He was described as an old friend of Admiral Hyman Rickover, generally acclaimed as the father of the atomic sub.

BUSH, both formerly with Rumrill Co., Buffalo, N.Y., have formed own pr and management consulting firm, Darcy & Bush Assoc., Address: 339 East Ave., Rochester, N.Y.

• REV. L.K. ZANK, news director of WMIC Monroe, Mich., under name of Ken Lawrence, to director of pr and promotion with Dr. Walter A. Maier Memorial Lutheran High School Assn., L.A.

• BOB EDGINGTON, formerly news director of WHLS Port Huron, Mich., joins WOWO Fort Wayne, Ind., as news-caster. MARJE ANN DEEGAN to WOWO as writer-director from Waldschmidt & Krick, advertising agency, that city.

• DANNY DEEVER joins sales staff of KMO Tacoma, Wash.

• MARSHALL NANNI joins WXHR (FM) Boston as sales representative.

• PAT FITZGERALD, formerly with WNDU-AM-TV South Bend, Ind., JERRY HEALEY, of WIND Chicago, and FARRELL SMITH, of WHOT Campbell, Ohio, air personalities, to WHK-AM-FM Cleveland in similar capacity.

• CLYDE HATTON, formerly program director of KOMY Watsonville, Calif., to KOBY San Francisco as announcer.

• FRED D. NIEDERMeyer joins WINS-TV Milwaukee as account executive.

Programming

• JERRY FRANKEN named director of public relations of National Telefilm Assoc. Inc., N.Y. Mr. Franken was formerly assistant to president of Gros-Krasne-Silberman, which was acquired by NTA in February. HARRY ALGUS remains company's press director.

• JOHN DAVIDSON, spot sales manager, Ziv Television Programs Inc., N.Y., named sales manager, south eastern division, Atlanta headquarters. For Radio and TV Stations

RCA’S NET PROFITS JUMP 44% $19.4 million reported for ’59 first half

RCA boosted its sales to $633.7 million in the first half of 1959, 17% over the 1958 level, and net profits after federal income taxes rose 44% to $19.4 million, it was announced last week by David Sarnoff, RCA board chairman and John L. Burns, president.

After allowances for preferred dividends, earnings per share were reported 50% higher than in the 1958 six-month period (to $1.29 from 86 cents).

Sales during the second quarter of 1959 were placed at $311.9 million compared with $264.2 million in the comparable 1958 period. Net profits after federal income taxes totalled $6.5 million, as against $4.5 million for the same period last year. Common share earnings in the three months ended last June 30 were reported at 41 cents a share, compared with 27 cents in the corresponding 1958 period.

The consolidated statement of income follows:

BROADCASTING, July 27, 1959
Ampex vtr's for 43 educational stations

National Educational Television & Radio Center, New York, has placed an order with Ampex Corp.’s Professional Products Div., Redwood City, Calif., for $2.5 million worth of video tape recorders.

Funds for the purchases come from a $2,706,000 grant to the center from Ford Foundation (Broadcasting, June 29). Deliveries to the 43 NETRC member stations start next month and will be completed in October.

In addition to equipping the stations, Ampex will install tv tape recorders in the center’s facility at Ann Arbor, Mich., for duplication of etv classes.

George I. Long Jr., company president, says “at Ampex we long have believed that the vtr would be as useful for education as for entertainment. The Ford Foundation’s contribution and the Center’s program has brought this day nearer.”

Transmitter business

KFI Los Angeles, KDKA Pittsburgh and CJAD Montreal have ordered new transmitters from Continental Electronics Manufacturing Co., Dallas.

KFI’s transmitters include Continental’s new Type 317B 50 kw and Type 316B 10 kw. The latter is for standby and Conelrad. KDKA’s order is for a Type 315B 5 kw unit for standby and Conelrad. These transmitting plants will operate unattended. CJAD Montreal is installing its second Continental 10 kw auxiliary transmitter. Orders for 12 am transmitters and 16 remote control systems are being processed at Continental.

- Technical topics
- Camera Equipment Co., N.Y., announces a new tripod unit, the Ceco Pro Jr. Fluid head. The fluid within the head is a highly molecular silicone polymer unaffected by temperature ranges from 20° below zero to more than 120°F; price: $300.
- Nems-Clarke Co. (division of Vitro Corp. of America), Silver Spring, Md., reports its business for the first six months of this year was $5,145,000 as compared with $2,719,000 for the same period in 1958. Nems-Clarke designs and produces a line of proprietary communication and telemetry equipment.
- RCA Electron Tube Div., Harrison, N.J., has introduced a new tv camera tube for both color tv cameras and black-and-white cameras. Called the RCA-7513, the new image orthicon features precision construction to provide pictures of high photographic quality and realism in both color and black-and-white tv, according to C.E. Burnett, manager, industrial tube products department.

Giant step toward shrinkage • “Pretty soon they’ll be doing it with nothing but air.” This sums up the impression of observers at the unveiling of General Electric’s newest development last week in New York, the “tunnel diode.”

The device amplifies, generates radio-frequency power and can be used for switching. Dr. Guy Suits, GE director of research, predicted its use soon in tv receivers, communications equipment, high-speed computers, nuclear controls, satellites and space vehicles.

Smaller than a transistor, the tunnel diode has been operated as high as 2,000 mc and is expected to perform as high as 10,000 mc. Electrical charges move through the device with the speed of light, making it 10 to 100 times faster than the fastest transistor, according to GE, and thus ideal for computer switching. It also withstands nuclear radiation better than any other component, GE said. The device uses solid state conductors, like silicon, germanium, gallium arsenide, allium antimonide and indium antimonide.

In the pictures above, the tunnel diode is shown nestling inside a paper clip (l ) and an entire transmitter using a tunnel diode is compared to a half-dollar (r ).
Canada's restrictive policy of one tv station per city goes out the window Sept. 15.

The announcement to that effect last Monday (July 20), though not a total surprise, is expected to touch off major scrambles for television facilities in most of the Dominion's major markets. Heaviest demand will be in Toronto and Montreal, at present served only by Canadian Broadcasting Corp. tv outlets.

The current policy, that permitted CBC-TV to maintain exclusive service to most of the principal cities in Canada, has long been criticized by private broadcasters and others.

Revenue Minister George Nowlan said that applications for competitive tv will be accepted by the Dept. of Transport. After technical review, the bids go to public hearings before the Board of Broadcast Governors. In turn, the BBC submits its recommendations to the government.

It's expected that the first of the new competitive tv outlets will be able to go into operation next summer.

Other Changes in Prospect • The announcement also comes at a time when the Canadian Parliamentary Committee at Ottawa is recommending that the Canada Broadcasting Act be revised to staff the CBC posts of board chairman and president with separate officers. It is also suggested that the CBC be more aggressive commercially, charging sponsors closer to the actual cost of programs than it has heretofore.

The suggestion came July 16 as the government committee made its recommendation in favor of a wholesale shakeup at CBC (BROADCASTING, July 20).

On commercial programming the committee stated that "where there is a program field such as sports, where the demand is high, the CBC should not compete in buying the telecasting rights, but should allow such events to find their own level in the market, merely offering time and production facilities at a reasonable profit to the CBC."

This would entail a reversal of present practice whereby CBC bids for exclusive tv rights to sporting events and then obtains sponsors. The committee would leave it to commercial concerns to bid for the broadcast rights and then have the CBC provide men and equipment for a fee to broadcast the event.

Anti-Monopoly • The committee was not convinced that the CBC's basic function of providing a national program balance required the CBC to establish a tv production monopoly. It recommended that the CBC give immediate consideration to a policy of encouraging the production and presentation of network programs by outside commercial interests. This would reduce CBC costs, increase revenue and encourage the development in Canada of new talent and production agencies.

The parliament group suggested that CBC, instead of spending vast sums on extension of tv programming hours, should use its capital expenditures to extend tv services within the next five years to communities as small as 5,000 population, which are now unserved or poorly served by CBC radio and television.

A formula has to be worked out for providing an upper limit to the amount of money CBC can obtain from the national treasury, the committee suggested.

It recommended the appointment of a senior officer with clear authority and responsibility for supervision of all production. This is now divided among three supervisors.

The committee consisted mainly of members of the Conservative party, which has majority in the government.

Members of the opposition parties, Liberal and Cooperative Commonwealth Federation, did not approve of the report. They felt that CBC producers' charges of political interference had been sidetracked and that the committee was interfering in internal affairs of the CBC.

CBC Statement • Meanwhile, CBC in its annual financial report, announced record figures for last year. Revenue from commercial radio and television programs reached $32 million in the fiscal year ending March 31, 1959, CBC has reported to Parliament. This was an all-time high, as were expenditures of $87,315,000. CBC received $51.6 million in grants from Parliament in the fiscal year, had some income from miscellaneous sources and exceeded its budget by $103,565. The Canadian treasury made up the deficit.

While the CBC did not give any breakdown this year for expenditures on radio and television, it is estimated that radio accounted for about $16 million of total expenditures, with tv accounting for $71 million. Expenditures in the current fiscal year, ending March 31, 1960, are expected to reach $100 million.

A new feature of the financial report, reflecting changes in CBC financing which came into effect last Nov. 10, showed a net figure of $31,671,212 which CBC officials described as Parliament's capital investment in the CBC, or its actual physical worth. Under the new financing set-up, the CBC must turn over to the Canadian treasury any excess of working capital above $6 million as repayment for government loans totalling $26,878,891.

CBC has estimated this excess of working capital at $4,079,766 and has already made an interim payment of $4,075,492. If Finance Minister Donald Fleming accepts the CBC es-
BBG ok's power boosts, new radio-tv stations

A rash of power increases were approved at the fourth public hearing of the Board of Broadcast Governors at Ottawa, Ont., July 7-9, along with recommendations for new radio, television and satellite stations.

The BBG deferred decision on establishment of the first fm network requested by the Canadian Broadcasting Corp. for CBM-FM Montreal, Que.; CBQ-FM Ottawa, and CBL-FM Toronto. It granted CBC the right to program separately for the fm stations but stated that it wanted further time "to consider and develop its policy with respect to fm network broadcasting."

New am stations were recommended by the BBG to the licensing authority, Dept. of Transport, Ottawa, for William M. Brennan for 1 kw day and 500 w night on 1420 kc at Peterborough, and for J. Irving Zucker for 5 kw day and 2.5 kw night on 1280 kc at Hamilton, both Ontario.

Satellite am stations were recommended for CKCQ Quesnel, at Williams Lake, both British Columbia, with 250 watts on 1240 kc, and for CIJP Riviere-du-Loup, for 250 w on 1340 kc at Cabano, both Quebec. Low power 40 w repeater stations were recommended for the CBC at Digby, N.S.; Kedgwick, N.B., and Wedgeport, N.S., on 990 kc; Meteghan, N.S., on 1490 kc; St. Quintin, N.B., on 1230 kc; Weymouth, N.S., on 1550 kc, and at Yarmouth, N.S., on 1230 kc.

A new fm station was recommended for W. E. Bellman at Vancouver, with 18.95 kw on 103.3 mc. CJBR-FM Rimouski, Que., was given a power boost from 570 w to 20 kw on 101.5 mc.

A new television station was recommended at Lloydminster, Alta., to CKSA Television Ltd., with 14.63 kw video and 7.3 audio power on ch. 2 with antenna at 730 ft. above average terrain. Tv licenses were denied to two applicants for Prince George, B.C., and deferred for New Carlisle, Que. The BBG also deferred satellite tv stations requested by CKX-TV Brandon, Man., at four locations in the northern part of the province. A tv satellite was approved for CFCY-TV Charlottetown, P.E.I., at New Glasgow, N.S., with 175 w video and 87.5 w audio on ch. 7 with antenna 424 ft. above average terrain.

• Abroad in brief

250 w station on 1230 kc, operated by R. Bruce Armstrong. It began broadcasting July 1.

The Meyers menu • An impromptu poolside luncheon organized in St. Louis by a visiting station representative two years ago has grown into an annual affair. Here enjoying this year's picnic spread of Howard B. (Howdee) Meyers, vice president of Venard, Rintoul & McConnell, Chicago, are (l to r) Robert Thies, D'Arcy Adv. assistant account executive on Anheuser-Busch; J. Dolan Walsh, assistant media director of D'Arcy, and Robert McGinley, Gardner Adv. field representative for the Busch Bavarian account. The third annual VRM picnic attracted 29 guests to the Chase Hotel pool. They included charter picnickers of 1957 who since have been transferred out of town but arranged to get back for the July 15 event.

Consumer class at KMOX-TV

KMOX-TV St. Louis, Mo., holds a weekly Sunrise TV Auction (Sat. 10-10:30 a.m. CDT) for about 30 children. The show is sponsored by the American Packing Co. (Sunrise meats) through Ridgway Adv. Co., both St. Louis. Each week children come to KMOX-TV studios to put in play-bids for toys, games and sports equipment.

Preliminary returns

A three-month "Dream Home" contest is boosting sales for WCOL Columbus, Ohio, at the rate of 15% weekly, it has been estimated at midpoint in the promotion by Station Manager Collie Young. The contest, conducted in conjunction with Columbus builder Huber Homes Inc., offers a $25,000 house and is being backed with maximum air promotion. It is a record effort for Columbus, WCOL claims. How it works:

For a month prior to contest opening, WCOL broadcast teaser spots, building up to 96 a day (one every 15 minutes, 24 hours). As things officially got underway, the saturation schedule was maintained to promote entries. Additional time was set aside to give word clues from a list of 1,000 entries. Contestants write statements of why they would like to live in the WCOL Dream House. The word clues are slotted next to commercials on an irregular basis.

Entry blanks are being distributed by station sponsors. An initial printing of 20,000 entry blanks was exhausted in three days.

To promote additional traffic to the prize house, monthly drawings are being held for other prizes.

• Drumbeats

• Sponsors of WSAZ Huntington, W. Va., are giving away more than a million dollars to customers sent by the station. The gifts are not in legal tender but in WSAZ "Happy Money," created to exploit the station's claim to be "the most happy station." Shoppers get back in WSAZ Happy Money an amount equal to what they pay for merchandise. On Aug. 15 they will be able to use the paper to bid on merchandise at WSAZ's "Happy Days Auction" at a local theatre.

• Taking account of youngsters in the summer audience, WRCV-TV Philadelphia is aiming two public service campaigns at them: a bicycle safety project (in cooperation with the AAA) and pet-care briefing (in cooperation with the SPCA).

• WBAL Baltimore has turned the telephone message-recorder idea into a contest promotion: "You're on the Air." Listeners dial a special number, from which contestants write statements of why they would like to live in the WCOL Dream House. The word clues are slotted next to commercials on an irregular basis.

Donor ‘drive’  
KISN Portland, Ore., used its mobile units to transport blood donors following an appeal for blood from local hospitals. A depletion in plasma stock was delaying five surgical operations. KISN told listeners to call the station for transportation to the blood center. Three news units kept blood-takers busy for six hours.

get taped instructions from a station personality and then repeat a station slogan for the recorder, adding name and address. Tapes are played back during the day and listeners asked to call WBAL upon hearing their voices in order to qualify for a prize. The follow-through percentage is high, WBAL says.

• A gasoline station next door to studios of WAMI Opp, Ala., had rough going when the operator got sick. He managed with the help of an assistant, but when the assistant was called away to National Guard camp, it was hard to find someone to fill the tanks. One day when no replacement could be found, Beri F. Moore, WAMI manager, and his staff stepped in. They made an all-day radio production of it and reported one of the biggest days ever recorded for the filling station.

• KIVA-TV Yuma, Ariz., staged an international observance of Independence Day on its regular Mexico Musical weekly program. Mayors of Mexicali and several Arizona cities exchanged broadcast greetings and military music of two nations was featured in addition to a Mexican-U. S. flag ceremony at the Yuma Marine base.

• John G. McManus, account executive at Doyle Dane Bernbach Inc., N.Y., won ABC Radio’s top prize in a contest to promote the broadcast of the Patterson-Johansson heavyweight championship fight last month. Guessing within 30 seconds of the actual third round knockout time, Mr. McManus won a week’s trip for two to Nassau. ABC reports more than 600 entries from agencies and advertisers. Twenty-five runners-up got pairs of boxing gloves. The title-bout broadcast itself drew an audience of 21 million listeners, ABC said.

• Winners of the second annual St. Louis Representatives Invitational Golf Tournament were Casper Yost, president of Ridgway Advertising, with low gross honors and Don Amos, D’Arcy Advertising, with low net honors. More than 80 client and agency executives attended the all-day affair. The tournament is an annual event sponsored by St. Louis Broadcast Representatives.

• WHIL Boston-Medford, Mass., and WMCA New York are among those stations which have reported efforts to publicize the dangers of plastic bags (BROADCASTING, July 6). For every five bags mailed or brought, WHIL, a listener could get a free popular record. More than 12,000 bags have thus far been collected by that station. During June WMCA scheduled public service announcements throughout the day to alert listeners to the hazard. One WMCA advertiser, a laundry, changed its commercial copy to announce its discontinuance of plastic bags. The station received some 2,500 entries in a contest keyed to the campaign.

• KLIN Lincoln, Neb., broadcast three tunes simultaneously and offered listeners $1,200 for identifying the tunes. KLIN says the six-week “Melody Mix-Up” contest brought thousands of entries.

• KWSC Pullman, Wash., announced the State College of Washington’s educational outlet, has sent a revised edition of its 78-page Washington State Pronunciation Guide to the state’s radio-tv stations. The booklet gives pronunciations of 39 counties and 2,156 cities and towns. A supplement to the free guide with the pronunciation of rivers, dams, lakes, etc., will be issued later this year.

• Johnny Green, news director, KPHO Phoenix, Ariz., went to Juneau, Alaska, July 4 to pass Arizona’s “Baby State” title to Alaska in behalf of his station. KPHO carried a 70-minute broadcast of the Admission Day ceremonies direct from Juneau as part of its 12-hour salute to the new state.

• KOII, Omaha, Neb., ran a “Name in Lights” contest in which listeners were asked to send in reasons why they would like to see their name in lights. The winner, a 14-year-old boy, had his name on the marquee of a local theatre for 24 hours plus a season ticket to the theatre.

• WGY Schenectady, N.Y., received more than 10,000 matchbook covers after four appeals broadcast by d.j. Tony Carvell. He asked for the covers in behalf of a listener who collects them.

• Frank Malone, d.j., WTOB Winston, Salem, N.C., raised a truckload of discarded items for Goodwill Industries by climbing a 386-ft. tv tower in a downtown shopping center and threatening to stay there until a Goodwill truck below was filled. The d.j. took a mi-

crophone with him and stayed up eight hours.

- WDKO Cleveland, Ohio, is producing Business Builders, daily five-minute vignettes about how local businesses have achieved success. A Cleveland manufacturer of aluminum and steel structures sponsors the series.

- Milwaukee golfers who hit a hole-in-one before Sept. 1 will be given a gold-plated golf ball by WITI-TV there.

- Advertisers of WBZ Boston are getting additional circulation this week (July 27-31) via loudspeakers at Pleasure Island in Wakefield, Mass. All broadcasts between 10 a.m. and 8:30 p.m. are originating from special studios near the park’s main entrance.

Throughout the week WBZ personalities are conducting a series of daily contests on location.

- Twenty-eight Los Angeles stations are carrying Heart Assn. announcements transcribed by members of the Los Angeles Dodgers baseball team.

- “Wall-to-wall music” will be a distinguishing feature of WRCN New York starting today (July 27). Realigning its music and news programming to include some 15 hours per day of music, WRCN chose the wall-to-wall slogan for listeners to identify a new “easy to listen to” concept. The station’s personalities will play only records that are fully demonstrated to give a full-dimensional sound, it was reported.

95 (FOR THE RECORD)

BROADCASTING, July 27, 1959
[TV] ch. 42, Birmingham, Ala. to assign third commercial vhf channel to Birmingham, to drop channel 6 and channel to Montgomery by deleting ch. 4 from Columbia, S.C., and Birmingham, Ala. by deleting ch. *2 from State College, Miss., and deleting ch. 4 from Selden and placing it in State College, Miss. for commercial use, and deleting ch. 5 from Selma and placing it in State College, Miss. for educational use in State College. No show cause orders were in effect; additional procedures which may be necessary can be instituted by Commission.

By memorandum opinion and order, denial of petitions by WTVW (TV) Springfield, Ill. and WTVT, Des Moines, Iowa, proceeding involving application by Jefferson County Bocx. Co. for new station to operate on 1700 kc., D, in Pine Bluff; dismissed as moot of serious fiber motion made in 1958. Commissioner John Cross not participating. Supplemental record to be requested. Decision released Sept. 2, 1958, proposed to grant Jefferson, only remaining applicant.

By memorandum opinion and order, Commission denied and reversed pending requests to enlarge issues in proceeding involving applications by Granite Bay Bocx. Co. for new station on 1000 kc., 250 w., in Mountain View, Calif. and Cumberland Pub. Co. to increase power of WSFH (AM) from 1 to 5 kw. in Mountain View, but added issues relating to program service. Commissioner John Cross dissented.

By order, Commission denied petition by Douglas H. McDonald, trustee, permittee of WTVW (TV) Evansville, Ind. to terminate proceeding involving shifting ch. to Evansville, Ky. and requiring WTVW to operate on ch. 7 in lieu of ch. 10. Commissioner Fred Moore dissented.

By order, Commission denied petition by Andrew Television Theatres Inc. for extension of time from Aug. 3, to Sept. 15, to file from Sept. 15 to Oct. 15 for replies, in proceeding concerning proposed changes in broadcast rules with respect to option time and right to complete construction. Order released July 21.

By memorandum opinion and order, Commission denied petition by Capital City Tele- vision Inc. (KKLX-TV ch. 12), Helena, Mont., to discharge restrictions and to designate for hearing matter of application for license to operate microwave facility for extension of present microwave system from Missoula to Butte, Mont. Commissioner H. Hyde dissented. Order released July 22.

By memorandum opinion and order, Commission denied and reversed petition by Southway Bocx. app., plaintiff, for new station to operate on 980 kc., 500 w., in Chula Vista, Calif. and reaffirmed its previous determination that San Diego is legally and financially qualified to operate proposed station. Order released July 7.

By memorandum opinion and order, Commission dismissed hearing status petition of Ethel Woodward Williams, et al., seeking relaxation of condition to increase daytime power of WAYX Weymouth, Mass. to 1 kw., deleted first paragraph of order released Jan. 16, 1959; granted ch. 4 to town of South In (WQLI), Dublin, Ga., to file comment but denied application to intervene in proceeding petitioned by Norman D. Protzman (WMAP), Madison, Wis. for ch. 4. Order released Feb. 25.

Equipping a Radio Station?

RCA Magnetic Disc Recorder Is A Great New Tool for Broadcasters!

It makes possible fast recording and playback of commercials and announcements. Extremely simple to operate, it minimizes the skill required to produce a professional recording. Erasable magnetic discs have a long life, equal to or greater than tape, thus production costs can be reduced. Whatever your equipment requirements, see RCA FIRST!

Write for descriptive liter- ature to RCA, Dept. WD-22, Building 15-1, Camden, N. J.

How to put in a full day's work ... before breakfast

Quaker Oats has to get its work in before breakfast or it's too late. So Ad Director, Robert Macdonald, developed a philosophy anyone can use—"Do it now! Do it yesterday! But don't put it off until tomorrow!"

It's a formula that looks to the future and, for that reason, leads very naturally into selling more than just product.

Develop a personality:
Mr. Macdonald feels that incorporating public interest messages in product advertising is an excellent way to prepare today for tomorrow.

"It helps develop a friendly, likeable corporate personality," he says. "And this is just as important as building a favorable franchise for consumer product. A favorable corporate image makes it easier to get credit in financial circles, to attract reliable personnel and makes our own shareholders and employees feel that their company is unselfishly interested in the nation's welfare."

"And," adds Mr. Macdonald, "do it now, or it will be more difficult later."

What was done?
Mr. Macdonald asked his top management to get behind the Advertising Council ... to incorporate Council public service projects in all advertising of Quaker Oats products.

Figures from October '56 through January '59 show how massive the program has been.

Newspaper circulation carrying Quaker Oats ads in support of Council causes was 130,585,940; magazine circulation, 244,713,016; home impressions on TV and radio were 259,357,600 on network programs alone.

You can benefit, too.
You can help your company build a more favorable corporate image. Include Advertising Council drop-ins in your regular advertising; use a Council advertisement instead of "Compliments of a Friend" in your yearbook advertising; see that Council campaign posters are on bulletin boards in all your offices and plants.

The advertising materials—reproduction proofs, newspaper proofs and mats, posters, copy for radio and TV spots, etc.—are free. The current campaigns are:

- Aid to Higher Education
- Better Mental Health
- Better Schools
- Crusade for Freedom*
- Forest Fire Prevention
- Red Cross*
- Register, Contribute, Vote*
- Religion in American Life
- Religious Overseas Aid
- Stop Accidents
- United Fund Campaigns*
- United Nations*
- U. S. Savings Bonds

*Not year-round campaigns

For more information send in the coupon below, or call the Advertising Council branch office nearest you. Branches in Chicago, Los Angeles and Washington, D. C.

THE ADVERTISING COUNCIL, INC., 25 West 45th Street, New York New York
Please tell me how to tie in with the Council.

OUR RESPECTS TO...

John Taylor Reynolds

"As manager of an independent station, I live in a different world than the man in charge of a network-owned station or even a station affiliated with a tv network," John T. Reynolds, general manager of KJH-TV Los Angeles, comments.

"Sales is a major problem for all of us, but we independents have an even larger one—programming. Each week contains 120 hours to be filled with material that's entertaining and exciting enough to keep viewers tuned to channel 9 in sufficient numbers to make advertisers and agencies anxious to buy our time.

"With no network to draw on, we've got to depend on our own imagination and creativity for our program ideas and when we come up with one that pleases viewers and attracts advertising it's a very satisfactory experience, particularly as it doesn't always happen that way."

**Sports to Movies** • To be successful, a tv station must create an image for viewers to identify it by, Mr. Reynolds believes. KJH-TV started out as a sports station, carrying the lion's share of Los Angeles sports telecasts. As rights to major sports events became over-costly for an independent station, he developed a "neighborhood theatre" image, with Channel 9 Movie Theatre broadcasting a single feature picture at the same time each night for a full week. Tried and dropped elsewhere, the format has succeeded so well in Los Angeles that the program is now ready to enter its sixth year with no end in sight.

Last year, Mr. Reynolds began to develop an image of KJH-TV as a "personality station" and succeeded very well with his chief personality, Oscar Levant, until illness forced the vituperative piano player to leave the air. This spring, he brought to Los Angeles an innovation in tv station IDs, using gay musical jingles radio-fashion behind the visual presentation to accentuate KJH-TV's image as a station for young moderns, with programs that are fun and exciting to watch.

"Nothing we've ever done has created as much comment as our new ID approach," Mr. Reynolds says. "People tell us they like our jingles; the kids are singing them. Identity is the main thing we have to sell to the public, to the advertiser and agency, and these IDs seem to be doing it."

To match the improved sound, KJH-TV is preparing to change the visual presentation of the IDs from static slides to films using live actors.

John Taylor Reynolds was born May 26, 1921, in Mattoon, Ill. He moved at an early age to St. Louis, where he spent his boyhood and his vacations from the New Mexico Military Institute and Washington & Lee U. World War II took him to Victorville, Calif., as an Air Corps aviation cadet, sent him to Sacramento for training as an instructor and then back to Victorville to teach newer cadets how to fly.

**Here We Come** • Discharged with the rank of first lieutenant in the fall of 1945, John headed straight for Los Angeles, where he got his basic training in advertising with General Advertising Agency. He had advanced to production manager by the fall of 1947 when he left the agency and Los Angeles to take his wife and their newborn son back to St. Louis. A year there was enough to make the Reynolds family realize that its real home was now Southern California, so back they went.

During the St. Louis sojourn, John had his initiation into broadcasting as a salesman for KXOK. Here, he decided, was the field for him, so on his return to Los Angeles he looked around for another radio salesman's job and found one at KJH. Not long after that, KJH's owner, the Don Lee Broadcasting System, got permission to turn its experimental tv station, WOXA, into a commercial operation with the new call of KTSL and John became part of a two-man tv sales staff.

"There were then all of 18,000 tv sets in the area," he recalls, "and tv time was tough to sell. The general attitude was that there were enough advertising media already and there was a question as to the need for tv. The encouraging buyer would ask us to come back when we had some circulation to talk about."

**Taste & Networking** • In the fall of 1950, General Tire & Rubber Co. bought Don Lee's regional radio network and its two owned stations, KJH in Los Angeles and KFRC in San Francisco. The tv station was purchased by CBS and its call changed to KNX to match that of KNX, CBS-owned radio station in Los Angeles. Young Reynolds moved to CBS-TV with the station, moved back to Don Lee in 1952 when it bought KFI-TV and renamed it KJH-TV, as sales manager. Both tv stations occupy the same building, which also houses KJH, and John comments that he's the only man in television who changed jobs from one station to another and back without leaving the building.

No one could say that he was in a rut, however. In 1953, John Reynolds was promoted to general manager of KJH-TV and two years later he was appointed vice president of the Don Lee Division of RKO Teleradio (now RKO General), parent company of KJH-TV.

John lives in the San Fernando Valley with his wife, the former Jane Lawry of St. Louis, whom he met in the eighth grade and married in 1942, and their two children, John Jr., 14, and William Campbell, 8. John's evenings are largely spent poring over the contents of a bulging briefcase brought home from his office, but weekends give him time for his two favorite forms of outdoor sport, surf fishing and skeet shooting.

He is a member of Phi Delta Theta, Sierra Gun Club, Television Pioneers, Academy of Television Arts & Sciences and Hollywood Ad Club.
EDITORIALS

Whose fight is it, anyway?

SOME readers have lately accused us of harping to the point of boredom on the subject of Sec. 315.

These are readers with a single-minded interest in the commercial side of broadcasting. They would find us livelier if we invented an acceptable way to wedge more advertising into a disc jockey show or created a sound effect more arresting than a siren.

This editorial will only bore them again.

It is written for other readers who believe the rate card is important but not quite equal in stature to the Magna Charta or the Bill of Rights.

There is a fight being waged for revision of Sec. 315, the law governing political broadcasting. It is an important fight, and its outcome will determine whether broadcasting can mature into a responsible journalistic force.

According to a reliable compilation made by CBS, nearly 400 editorials urging reform in the political broadcasting law have been published by metropolitan newspapers in recent months. To our knowledge no more than half a dozen stations and the CBS network have broadcast editorials on the same subject. Nor have substantial numbers of broadcasters taken any other action to advise congressmen of the valid need for changes in the law.

So far in the fight for corrections in Sec. 315, the newspapers have shown they deserve the broad freedoms they already enjoy. It remains, in the closing weeks of this session of Congress, for all broadcasters to show whether they deserve even the limited freedom which the amendment of Sec. 315 would give them.

Takeoff and landing

So far, television’s massive public relations “image” project is on schedule. The temporary committee which was given the assignment of implementing the highly sensitive plan has succeeded in negotiating the necessary first step—getting an agreement out of the three tv networks to participate.

Several tasks remain, not the least important of which is to find the right man to direct the headquarters organization to be established in New York. Three separate subcommittees of the new nine-man “temporary” committee headed by Chairman Clair R. McCollough, Steinman Stations, have their assigned tasks of (1) picking the director whose appointment must be confirmed by the NAB TV Board; (2) handling budget, solicitation of funds and business matters, and (3) programming.

The delicacy of the committee’s assignment is apparent. There is discord within the ranks of tv broadcasters, largely over NAB’s handling of public relations affairs. There are those who are loath to pay multiple dues to trade associations for the kind of lobbying and public relations functions they feel could be handled if the basic trade association performed in tempo with the times.

As we have said before, no matter what its structural organization, the McCollough committee’s assignment transcends the handling of the pure “public relations” program. Inevitably, the entire financial, organizational and functional operations of NAB will fall within its orbit. Indeed, the mandate given the initial five-man McCollough committee a few weeks ago by the TV Board used these precise terms in defining its investigatory scope.

For several years, because of our vital concern with the welfare of broadcasters and their customers, we have urged reappraisal of the disjointed trade association activities of broadcasters. About $4 million annually is going into the trade associations’ till, much of it admittedly beneficial, particularly in sales exploitation.

Since broadcasters are curious, an investigation is indicated. The “temporary” committee is well qualified. We think the inevitable conclusion will be a “federation,” with the core a radically altered hard-hitting NAB functioning on two fronts—government relations (lobbying) and public relations. All other groups, including state associations, would contribute to the new NAB and be represented on its board.

Firestone’s punctured voice

LAST week the Voice of Firestone expired as a cause celebre. A spokesman for the Akron company told an FCC hearing that his company had no axe to grind with any network; that “we have had most cordial relations with the networks,” and that his appearance was at the request of the FCC and was not initiated by his company.

The story began five years ago when NBC-TV, because of the requirements of competitive programming, proposed a change in schedule for the then “long hair” musical program. Firestone demurred, amid great tumult from the critics, the intelligentsia and the solons on Capitol Hill. There were even White House recriminations and knitted brows at the FCC (which has no direct control over programs or networks).

Then, without missing a beat, Firestone shifted to ABC-TV, the struggling third network.

All went well until Firestone earlier this year cut back its ABC-TV schedule from 52 to 39 weeks, breeching its agreement. ABC-TV then exercised its option to recapture the 9-9:30 p.m. Monday slot for more competitive programming. Although it offered Firestone other prime time, as did NBC-TV, Firestone turned the offers down. And down came the wrath of the critics, the intelligentsia and the solons upon ABC-TV for “dropping” Firestone.

So Firestone itself punctures the wheel that has given the critics a free ride into print—space eagerly given by newspapers and magazines to whom broadcast business anathema.

Firestone has a 30-year investment in radio and tv.

Prudent business dictates that Firestone will be back, either via spot or network. It should not lose the benefits derived from the continuity of more than a quarter-century of quality programming, particularly when its competitors are big users of air time.

"We're thinking about a tv show, nothing live, of course."

BROADCASTING, July 27, 1959
This man of many parts is Walt Bodine. Officially, he is Director of News and Special Events for WDAF Radio and TV. But that's a little like labeling Albert Schweitzer a first-rate organist, and letting it go at that. ✠ Walt does "direct" our news and special events, which means organizing, scheduling, editing, instructing, polishing and reviewing the work of one of the largest broadcast news staffs anywhere. The fact that he does all of these things expertly is a matter of record and common knowledge in mid-America. ❧ But Walt's great talent probably comes nearest the surface in his writing and delivery of "Bodine's Bailiwick", a daily feature on WDAF Radio. It's impossible adequately to describe the humor, the poignancy, the depth of insight and the infallible good taste that Walt puts in the "Bailiwick". You'll have to hear it for yourself. ✠ Walt Bodine is personally responsible for a big segment of the New Sound from Signal Hill. His work is always representative of the fresh, interesting, responsible broadcasting that more people are listening to every day throughout our six-state Heartland. Ask our good reps for more details.
