CHICAGO NEW YORK ATLANTA DETROIT LOS ANGELES SAN FRANCISCO SEATTLE
to Houston ... The vast, dynamic Oil, Gas, and Petro-chemical industries have made Texas' largest city the "Oil Capital of the World." Their presence is vital to the spectacular Houston economy, supporting an important share of the city's families. Vital to Houston also is the service KTRK-TV brings to all of the Houston families who depend on us in ever greater numbers for news, public service and family entertainment. 

KTRK-TV Channel 13

THE CHRONICLE STATION
Mr. Clair R. McCollough
President and General Manager
Station WGAL-TV
Lancaster, Pennsylvania

Dear Mr. McCollough:

On behalf of the 40,000 students and over 1,100 public and nonpublic school teachers in the Lancaster viewing area I wish to extend sincere thanks and appreciation for the cooperation of Station WGAL-TV in televising the science program during the past school year.

It is gratifying to know that your station will again provide students and teachers with public service time during the coming school year. You may be interested to know that, with the two programs your station is planning to show, we estimate that close to 85,000 students in the public and nonpublic schools in the twenty-county area will be viewing these telecasts during the school year 1959-1960. This increase is due to the fact that we are offering a science program for the intermediate school (Grades IV, V, and VI) and a speech improvement program for the primary grades.

It should be gratifying to you to know that as far as we have been able to ascertain the science series which reached approximately 40,000 children last year was one of the most comprehensive projects which had been undertaken by any commercial television station in the nation.

You certainly are to be commended for your complete cooperation in making the public service features of your station available for school instruction purposes.

Sincerely yours,

Charles H. Boehm

These weekly programs are two of the many educational series regularly telecast by WGAL-TV.
Fm for NBC? • What might be most radical innovation network-level radio has seen in years is under preliminary study at NBC. It would be special broadcasting service for physicians (and would be in addition to NBC Radio’s regular network service). Beyond fact that such a thing is under study by small staff — and that explorations haven’t yet gone far enough to indicate what decision may be—NBC authorities aren’t talking. But deduction buttressed by semi-educated speculation from other sources suggests it would involve fm, probably multiplexed, to receivers located in doctors’ offices. Hugh M. Beville, as vp for planning as well as research, presumably heads up medical-radio staff assigned to think it through.

Tourist trade • Soviet Premier Khrushchev, it’s learned, has compiled list of things he wants to take back, based largely on what he observed at American Exhibition in Moscow. Close to top of list is Videotape recorder, which popped his eyes when he saw instantaneous playback of his animated debate with Vice President Nixon (Broadcasting, Aug. 5). There’s at least one problem: Ampex VR-1000 is on Dept. of Defense restricted list and would have to be cleared for export.

Tv’s secret stations • At least 1,000 unauthorized vhf boosters are operating in West—nearly twice number of legal television stations in whole nation. That’s opinion of Harold G. Cowgill, chief of FCC Broadcast Bureau, who just returned from month’s survey of community antenna and booster operations in several western states. Mr. Cowgill and James B. Sheridan, Broadcast Bureau economist who accompanied him on tour, actually plotted 150 boosters in Montana alone.

Extent of booster development astonished Broadcast Bureau surveyors. “Sometimes I had the feeling there was a booster behind every hill out there,” Mr. Cowgill said. Most installations are cheap (well under $1,000 for complete rig, including antennas, converting-amplifying gear, pole and wiring). They receive one vhf signal, retransmit it on another vhf channel with little power. Early models boosted signal on same channel, but this proved to have technical bugs. Mr. Cowgill will submit report to FCC in two weeks or so, is working hard to come up with recommendations on what he says is one of most perplexing problems he has encountered.

Out of the park • NBC-TV may have troubles to iron out in its coverage of World Series if, as seems probable, either Los Angeles Dodgers or San Francisco Giants win National League pennant. Because of time differential, West Coast games would not start until 4 p.m. or 4:30 p.m. (EDT) and could well run into beginning of prime evening news time. NBC’s sports department is aware of possible predicament but acknowledges: “We just haven’t come to any decision as yet.”

Personal and private • Best guess on eve of NAB Telecode Board’s Sept. 15-16 meeting in New York is that watered-down summary of personal products investigation will be made public, minus sponsor or product names. Special subcommittee studying deplasques, corn cures, under-arm items, razors and similar personal specialties meets day ahead of full board. Other topics concerning code enforcers are overcommercialism (backdrops and desk signs), plus sex and violence in programming.

Drop-ins • Don’t write off possibility of Congressional hearings (Senate or House or both) on FCC’s failure to provide additional tv services in less-than-three-station market. It’s being talked up on Hill and it’s no secret that ABC is particularly unhappy about FCC’s inertia in providing new services, notably where no great violence would be done to mileage separations under existing criteria. Kenneth Cox, Seattle attorney who has served as special counsel of Senate Commerce Committee, soon will return to Capitol in connection with allocations and related tv inquiries.

Robert H. Hinckley, ABC executive committee member and board member, who retired last July as network’s Washington vice president, was back last week and spent considerable time on Capitol Hill. While FCC has taken steps looking toward drop-ins in under-served vhf areas (Fresno, Bakersfield, Birmingham, Columbus, Ga., Hattiesburg - Baton Rouge) and has instituted preliminary studies in such critical markets as Providence, Louisville, Syracuse and Grand Rapids-Kalamazoo, there’s no prospect of any additional service getting underway this fall season.

Sour note • There’s been unpublicized hitch in harmony that seemed to exist between ASCAP and All-Industry Radio Music License Committee after their agreement few months ago on terms for new ASCAP radio music licenses—but it may be smoothed out by this week. ASCAP has come up with proposal that committee claims was not part of deal agreed upon before Federal Judge Sylvester Ryan and awaiting formal signature (in accord with ASCAP consent decree procedures). Proposal would make talent charges part of station revenue base on which ASCAP fees are computed unless they’re billed separately to advertiser and are in addition to rate-card time charges. It’s estimated that, if accepted and enforced, proposal could cost radio stations $1 million per year, or about $300,000 more than payments made in 1957 even though new terms otherwise anticipate 9% reduction in total radio payments.

Another ASCAP proposal which committee is resisting as being outside earlier agreement would bring violations of ASCAP licenses under court jurisdiction. This means that if station fell behind in payments to society, ASCAP could file suit in New York and station management or counsel would have to appear in New York to defend procedure that could become expensive nuisance. All-Industry Committee, headed by Robert Mason of WMRN Marion, Ohio, with Emanuel Dannett as chief counsel, was to appear along with ASCAP authorities before Judge Ryan Friday afternoon. (Sept. 11) for discussions including this and talent-charge proposal.

Geneva progress • While reports from International Telecommunications Union sessions at Geneva are spotty, it’s learned from informed observers that engineering sessions are well in hand despite efforts of Russia to assert voting control through recognition of Soviet satellites. These were successfully resisted by Western nations led by FCC Comr. T. A. M. Craven, chairman of U.S. delegation, as were other oblique moves to go beyond previously agreed-to agenda. Geneva sessions began last month.

As agenda stands, only matter of interest to U.S. broadcasters pertains to international (shortwave) area and proposed reallocation among have-not nations. Tv allocations per se are not involved because these are regional in character, but question of lack of uniformity in transmission standards might arise in light of impending global transmissions. U.S. uses 525 lines, Great Britain, 405, and most of European continent 625 lines.
Is advertising keeping up with the customers?

The brain that can find a lost meson or send a monkey into space is going to get pretty fidgety if it tunes in advertising that was aimed at a less informed and more naive generation.

But mental maturity isn’t confined to a few thought leaders any longer.

The number of persons, ages 5 to 24, who are in school has risen from 26 million to more than 45 million since 1940. During the same period, the percentage of people over 25 who have completed four years of college has nearly doubled. And it is estimated that by 1970 there will be 11 million college graduates in this country.

If advertising hopes to sell to the consumer of the “Grown-up Sixties”, it needs to do a little growing up on its own hook.

In the Sixties, more than ever before, advertising that talks down to people will wind up beneath their notice.

BROADCASTING, September 14, 1959
WEEK IN BRIEF

Rx for triple-spotting: imagination • It's not how many commercials are piled up in sequence that's important, it's how good they are. This creative competition is good for advertising, according to James W. Young, creative director, M. Belmont Ver Standig Inc., Washington, because a bad commercial won't sell even when standing alone. Mr. Young talks about the problem in this week's Monday Memo. Page 17.

BBDO on network tv • The appeal, advantages and use of a medium as seen through one top agency's "eyes and ears" department. Page 35.

New account to SSC&B • Lipton is agency's new cup of tea. It's worth between $3.4 million a year in billing. Page 40.

It's foods by $148 million-plus • That's the total in gross time billing compiled by foods advertisers in the first half of 1959. TVB totes up the figures. Page 40.

Tv tape at local stations • Syracuse, U. study questions vtr equipped stations on video tape's uses, advantages and problems. Page 46.

Dominicans file MBS suit • Gen. Rafael Trujillo's government goes to court to recover $750,000 it claims it paid Alexander Guterma and Hal Roach Jr. to obtain a "news" outlet via MBS. Messrs. Guterma, Roach and Garland L. Culpepper plead not guilty to grand jury charges they failed to register under foreign agent law. Page 48.

What labor law means • New legislation gives broadcasters protection against blackmail picketing and secondary boycotts. An analysis of first major labor legislation in more than a decade. Page 60.

More talk than action • First Session of 86th Congress follows customs of predecessors by doing a lot of talking about broadcasting legislation but taking very little action; only one bill, the equal time amendment, passes both houses. Page 64.

No baseball pay tv planned • Baseball's Ford Frick tells House Antitrust Subcommittee that his office has not negotiated with pay tv sponsors; hearings completed on sports bills with antitrust exemptions tabled in House until next session. Page 88.

A matter of typing • Slowness in transcribing grand jury minutes may force postponement of scheduled October testimony of some witnesses in House Legislative Oversight unit's investigation of tv quiz programs. Page 90.

NTA's new "brainchildren" • To build up daytime viewers, NTA is offering tv stations a double-barreled concept—a 54-hour live programming format and installation of tv receivers in out-of-home locations in supermarkets and other traffic-building centers. Page 100.

YOU KNOW WHERE YOU'RE GOING

Any way you look at it... A Storer station is a cinch for increased sales. Take the case of the Big Three Buyers of airtime: Colgate, Procter & Gamble and Lever Brothers. Between them and their advertising agencies, hundreds of research people are employed. They microscopically examine everything they buy. And all three buy consistently on Storer stations, Radio and TV. What better guide to best results? What better proof that you know where your sales are going when you buy Storer? You can bet your bottom media dollar, with Storer they're going up!

A CALENDAR OF MEETINGS AND EVENTS IN BROADCASTING AND RELATED FIELDS

(*Indicates first or revised listing)

Sept. 13-16—Assn Canadienne de la Radio et de la Television de Langue Francaise, annual meeting, Alpine Inn, Ste. Marguerite, Quebec. Reservations through Andre Davio, CKAC Montreal. On agenda will be discussion of Board of Broadcast Governors’ proposed regulations (BROADCAST-ING, Aug. 10).

Sept. 16-19—Michigan Assn. of Broadcasters, fall convention, Hidden Valley, Gaylord.

Sept. 17—Assn. of Motion Picture Producers & Laboratories of Canada, Montreal.

Sept. 17—Assn. of National Advertisers sales promotion workshops at Chicago Federated Adv. Club and Women’s Adv. Club of Chicago. Nine different clinics are scheduled in such areas as radio-tv, copywriting, publicity and public relations, promotion, marketing and merchandising, media, art and layout, direct mail and industrial advertising. Tuition for 1959 advertising workshop is $22.50 for single eight session clinic in each category; additional clinics, 35 each, advance registration being handled at OFAC headquarters, 36 S. Wabash Ave., Chicago. Fred A. Buchen, O.F.A.C. consultant, is general workshop chairman.

Sept. 17-18—Republican National Committee’s executive group on arrangements for 1960 GOP political convention, Sheraton-Hilton Hotel, Chicago. Group will inspect auditorium and hotel facilities and meet with radio, tv, newspaper, periodical and other media representatives in formal hearings on their particular convention requirements.

Sept. 17-18—Institute of Radio Engineers, engineering symposium, Sheraton-Plaza Hotel, Boston.

Sept. 17-19—Mutual Adv. Agency Network, second in series of three-day workshop-business sessions under new format calling for three (instead of four) annual meetings, Bismarck Hotel, Chicago. Also annual awards meeting.

Sept. 18—American Women in Radio & Televis Chicago chapter social event (splash party, cocktail party-buffet supper) opening 1959-60 season, Sheraton Towers Hotel, Chicago. Fee: $4.50 per person.

Sept. 18-20—Eighth Chicago stereo/hi-fi show, Palmer House, Chicago. Public can hear stereo music being recorded. More than 100 U.S. and European manufacturers’ products on display. Attendance of 35,000 expected.

Sept. 18-20—Southwest stereo/hi-fi show, Hotel Adolphus, Dallas, Tex.

Sept. 20—UPI Broadcasters-Telecasters of Louisiana, organizational meeting, Hotel Francis, Monroe.

Sept. 21—AP Radio & TV Assn.’s board of directors annual meeting, AP Bldg., 50 Rockefeller Plaza, New York.

Sept. 21-22—Louisiana Assn. of Broadcasters, Francis Hotel, Monroe. Speakers include Ed Fitzgerald, J. Walter Thompson Co., Chicago, Charles H. Tower, NAB personnel-economics manager, who will speak on “Labor Problems and Solutions in Broadcasting” and Fred A. Palmer, Worthington, Ohio, sales consultant, on “Put Your Best Foot Forward.”

Sept. 22—NAB Board Convention Committee, Conrad-Hilton Hotel, Chicago.

Sept. 22-24—Electronic Industries Assn. fall conference, Hotel Traymore, Atlantic City, N.J.

Sept. 23—Comments due on FCC proposals to add vhf channels to Fresno, Bakersfield and Sacramento-San Francisco. Reply comments due Oct. 8, Dockets 11759 (Fresno-Bakersfield) and 17546 (Sacramento-San Francisco-Reno).

Sept. 23-26—National Sales Executives-International sales-marketing congress, Berlin, West Germany.

Sept. 24-26—AFA 10th District convention, Hotel Texas, Fort Worth.

Sept. 25-26—North Dakota Broadcasters Assn., Valley City.

Sept. 28—Start of eight-week workshop series sponsored by Chicago Federated Adv. Club and Women’s Adv. Club of Chicago. Nine different clinics are scheduled in such areas as radio-tv, copywriting, publicity and public relations, production, marketing and merchandising, media, art and layout, direct mail and industrial advertising. Tuition for 1959 advertising workshop is $22.50 for single eight session clinic in each category; additional clinics, 35 each. Advance registration being handled at OFAC headquarters, 36 S. Wabash Ave., Chicago. Fred A. Buchen, O.F.A.C. consultant, is general workshop chairman.

Sept. 28-30—Board of Broadcast Governors hold public hearings on new broadcasting station application changes and power increases at Board of Transport Commissioners hearing room, Union Station, Ottawa.

Sept. 29—Wisconsin FM Clinic, fourth conference, Center Building, U. of Wisconsin, Madison.

Sept. 29-Oct. 3—Affiliated Advertising Agencies Network international convention, Somerset Hotel, Boston.

Sept. 30-ct.—Illinois Broadcasters Assn. annual meeting, St. Nicholas Hotel, Springfield.

Sept. 30-Oct. 2—National Assn. of Broadcast Employees & Technicians, constitutional convention, Sheraton-Blackstone Hotel, Chicago.

OCTOBER

Oct. 1—Oral argument before FCC on protest by Philco Co. against license renewals of WRCV-UA-AM-TV Philadelphia, owned by NBC, Philco claims RCA-owned stations are unfair competition since stations are identified with RCA, a competitor to...

Why the bowl of cherries, Tom?

"Life is really a bowl of cherries in the Fargo area, these days, for advertisers on WDAY-TV—our new 1206' tower is giving our advertisers 96% more coverage area ... a 60% larger audience ... and retail sales volume increased by 100%!

"You can imagine what this means to our dozens of top national advertisers. They were happy, even before we gave them this tremendous bonus. Now most of 'em say WDAY-TV is the best buy in America!

"As a matter of fact, the Market Data Section of Standard Rate & Data shows that Fargo is the No. 1 Retail-Sales-Per-Household Area in the United States ... with an average purchasing power of $5,970, as compared with the national average of $3,944!

"Yes Sir, that's a bowl of cherries—tremendous extra audience, among people with tremendous extra buying power. What more could you want?"

Yours,

Tom Barnes

BROADCASTING, September 14, 1959
Protocol regiments embassy parties, determines who sits below the salt. WMAL-TV's entire audience occupies the place of honor: in front of a tv set.

Taxi drivers, "a most reliable source," are authority for many party rumors. WMAL-TV, with on-the-spot camera-mike units, presents news as it breaks.

Embassy gatherings are sometimes planned to gain the attention of one diplomatist. WMAL-TV gains the attention of great numbers of citizens with top entertainment from ABC, plus local personalities like Louis Allen, Del Malkie, Pete Jamerson and Bill Malone.

Embassy parties are gay affairs, possibly because they offer so much for so little.

WMAL-TV is nice that way too . . . its programming is arranged to give advertisers sensibly-priced one-minute spots in most time classifications.

Washington Means American Leadership

Your Katz man will tell you about the New Orleans trend.
Rx for triple-spotting: imagination

Triple-spotting today . . . maybe quadruple-spotting tomorrow.

Multiple-spotting is growing by leaps and bounds and advertising men should be embarrassed to complain about it. Indeed, it should constitute heresy to complain about competition in a creative field.

Doesn’t it sound strange to hear those who shout the loudest against “regulative interference” in advertising suggest that there should be some regulation of the ways the broadcasting industry isn’t already regulated? I don’t think television or radio stations need any further regulating, by edict or by advertiser-pressure.

While television and radio may be undernourished with entertainment and overfed with commercials in some instances, in my opinion these relatively infrequent instances shouldn’t occupy the advertising industry’s attention to the extent that it does—certainly not to the extent our own failures should occupy our attention.

What’s Really Desired • Let’s draw an analogy between programming and commercials. Radio long ago discovered that while folks said they wanted “live” shows, they would really rather hear Guy Lombardo’s familiar records than listen to Lombardo or any other band in an indifferently produced show. TV programming has gone to the West, just as radio went to the recording studio, because people there know how to produce entertainment that has continuity (a blessed word long missing from the world of show business).

Let the columnists decry the disappearance of bumbling, loosely-knit “live” tv shows . . . where Moe was Joe’s guest one week and Joe was Moe’s guest the following week . . . where audience patience and six figures of a client’s money were widely separated by six minutes of a conga line in which nobody could dance the conga. One thing about Hollywood: when Mister Dillon shoots a sinner, the gunshot and the gun reach the eyes and ears simultaneously, which is generally more than could be said for many live productions.

Let those who will complain long and loudly about the “injustice” of triple-spotting. Poorly produced, unimaginative commercials wouldn’t be any better standing alone than were erratically produced shows.

In fact, it is possible that being “sandwiched in” between two good commercials may even win viewers for an advertiser’s not-so-good slides. Just as newspapers and other print media don’t produce ads for advertisers buying space, or sell a half-page with a guarantee of no other ads on the same page simply because the advertiser’s agency doesn’t use compelling copy, art and typography, neither is television going to be so “pressed.”

Trend for the Better • To prove how wrong adversaries of triple-spotting can be, watch the current trend toward more and better advertising production. And in my opinion, good commercials aren’t necessarily the costliest. It was no surprise to me that a west coast tv station planned a 30-minute show of “commercials only.” A midwestern radio station aired a quarter hour “commercials only” program for years . . . with a waiting line of advertisers.

I’m not surprised that our Wilkins Coffee “muppet” commercials attained record-setting ARB ratings and the demand that their schedules be published in newspapers never subsides. Yet these little 8-second “muppet” commercials are on the tail end of some of the worst spots you ever laid a bloodshot eye on. Furthermore, the station ID has to be hurried in on top of them.

Why do viewers in our area know our “muppets” as well as Marshall Dillon? They not only tickle the funny bone but give folks an emotional closeness to an advertiser who can laugh at himself. For example, one puppet points a cannon at the other and demands, “Okay buddy . . . whaddya think of Wilkins Coffee?” The puppet replies, “Never tasted it,” he is boomed into eternity and the protagonist for Wilkins Coffee turns the cannon to the audience and asks patiently, “Now, what do you think of Wilkins Coffee?”

Sympathetic Identity • Again, when National Bohemian’s empathy-provoking “little man” appears with an enormous necktie and says wistfully, “the taste . . . that’s what you’ll like about National Bohemian,” and an off-stage voice challenges him with “where’d you get the necktie?”, bringing the retort “The sponsor gave it to me,” one realizes that the ad man’s capacity for understanding people has finally been awakened.

Bert and Harry tossing around everything on the subject of Pie’s Beer . . . the Lestoil character saying “now, this is a dirt . . . I, too, was once a dirt”—this is imaginative, creative; this is advertising at its best.

“They don’t sell,” you say? Don’t you bet on it! Look down the national and local ARB ratings at the most highly preferred radio and television commercials and try to find even one client who could be called a “village half-wit” saleswise.

It’s not how many commercials that counts . . . but how good. Imagination—not regulation—should be advertising’s prescription for the triple-spotting ailment.

It's not how many, but how good.
IN MEMPHIS...

It Takes WDIA

AMERICA'S ONLY 50,000 WATT NEGRO RADIO STATION
to Complete the Picture!

40% of the Memphis Market is NEGRO—and you need only one medium to sell it—WDIA!

WITHOUT WDIA . . . YOU'RE MISSING 40% OF THE MEMPHIS MARKET!

And here's why this is a market you just can't afford to miss:
1. Negroes in the Memphis Market have totaled up yearly earnings of $616,294,100!
2. They spend 80% of this big income on consumer goods!
3. And before they buy, these Negroes listen—to WDIA!

MORE THAN JUST A RADIO STATION . . . WDIA IS A POWERFUL ADVERTISING FORCE IN MEMPHIS—AMERICA'S 10th LARGEST WHOLESALE MARKET!

Let us send you proof of performance in your field!

'Payola' in the record business

EDITOR:

Congratulations. A well handled, beautifully written article on a most elusive problem (page 35, Aug. 31). Hope it helps to erase the stigma of "payola" from the broadcast industry.

Chuck Blore
Vice President and Program Director
KFWB Los Angeles

Must pay for records

EDITOR:

At my station, KENY, as well as other stations in the area, we have to pay the distributors and manufacturers to get music to promote for them. I have arranged to get some free releases — the incongruity is that the small companies are cheerful about sending us everything, but Columbia, RCA Victor, Capitol, Decca, Coral, MGM and Mercury, just to mention a few; the older, established companies, want us to pay for them.

Most of the stations in the large cities won't play anything new. A distributor in Seattle told me that. It has to be top 40. It's the grass roots stations that expose and start the ball rolling on most of the records . . .

I would like to see sufficient nationwide support of free records for every-
Fact #1: WTOP is a 50,000 watt station.
Fact #2: WTOP has earned more quarter-hour wins than all the other stations combined in the Pulse 20-county study of the Greater Washington area.
Conclusion: the IMPORTANT station remains...
You darn right
It's big, Smidley.

An' I'm not talking about square miles. Check the figures if you must, Smidley. You'll find there are more drug sales in the Cascade network market than Dayton, Ohio. More gas station sales than San Francisco. And on and on. Then, just remember, the Cascade four-station network alone reaches the entire market and that beats the daylight out of a four, three or even a two-station market.

body. It would do the industry good.

Paul Schuett
Program Director
KENY Bellingham, Wash.

Radio, copy & retailers
EDITOR:
Back-to-back home runs! That's exactly how I'd term the score of your two most recent MONDAY MEMOS ("How often must you change radio copy?"
by Joseph Stone, J. Walter Thompson Co., page 29, Aug. 31; "Retail dollars await the 'effective sell'

The Casey Stengels of this business could certainly use more of these scores as effective radio sales tools in both landing accounts and sustaining the effectiveness of the account's message and impressions.

Carl Meyers
WGLI-WTFM (FM) Babylon, N.Y.

World wide exposure
EDITOR:
... As a result of an article in Broadcasting Aug. 24 on Trand Assoc. and its five minute radio show Celebrity Talk, Armed Forces Press, Radio & TV Service has asked to be put on the subscription list.

This means that in addition to the 279 stations already covered by this show, some 180 more stations on an international basis will be added.

WAKR DOMINATES AKRON

In Akron, WAKR is first by far. *First* in audience . . . in advertisers . . . in local appeal! WAKR's lead in Akron is so great that no other station even comes close. And, don't let anyone tell you that Cleveland stations influence Akron buyers . . . it just ain't so. The latest Hooper Index for Akron, April-May, 1959, shows that from 7 A.M. to 6 P.M., Monday through Friday WAKR has 55% coverage of the Akron market . . . more than all other Akron stations combined. To increase your sales in Akron, America's 44th market with an estimated population of 496,200, call your McGavren man for up-to-the-minute data.

Fred Albrecht, Pres. of Akron's largest food chain, discusses the next Acme Food store with Roger Hudson.

Dave Bell, District Manager for Peoples Service Drug Stores reviews Fall ad plans with Hudson.

On the spot telecast of the finalist for the All American Soap Box Derby.
FOR FACTS YOU CAN USE ABOUT AKRON

...ask the man who knows!

As a service to stations represented by Daren F. McGavren Co., a McGavren man visits each market and works at the station level in all phases of station operation, visiting retail stores... talking with wholesale distributors... Getting first-hand knowledge of local industries and studying market data in detail.

We feel that this is the only way to be sure that your Rep knows your local story as well as the rating picture. At the end of his "in the field" training the McGavren man prepares a full report on the market and your station. The report is sent to all McGavren offices and to all Time buyers.

Roger Hudson becomes local salesman for a week, and gets feel of WAKR impact in Akron.

Ken Keegan, V. P., Gen. Mgr. and Roger Hudson discuss local and national sales activity.

Staff meeting coordinating station operation with representative.

Koby delivers the audience in San Francisco! So when you tell your story on Koby, you give your products and services maximum sales push. Koby listeners are a loyal audience—and they’re in a buying mood. That’s why sales soar when you buy Koby!

LET PETRY put you on the Koby bandwagon—the most effective vehicle for reaching more of the San Francisco market.

(Incidentally, when you’re in Denver, stay at the Imperial Motel, 1775 Sherman downtown, convenient.)
Typical of a man who would not settle for anything but the finest is Mr. Marshall W. Rowland, president of the Rowland Broadcasting Company. Mr. Rowland purchased a Gates BC-5P-2, and his comments are valid testimony to the hundreds of Gates 5 KW AM transmitters in operation across the nation:

"As owner and manager of WQIK, I have never seen such enthusiasm as shown by my entire staff (including our engineers). The new sound, the quality, plus the coverage we are now getting with our new Gates equipment can be described in only one word. TREMENDOUS. Not one minute of air time has been lost by any of our new equipment. This, combined with the excellent tone quality we're now getting from our new Gates 5 KW transmitter really surpasses any of our expectations."

Let us tell you the complete story of the new Gates BC-5P-2... truly a new distinction in AM broadcasting. Write today for detailed technical information... yours for the asking.

**Gates Radio Company**

Subsidiary of Harris-Intertype Corporation

QUINCY, ILLINOIS

*Over 50% of all new 5 KW transmitters purchased since January 1, 1959 were manufactured by Gates. Statistics compiled through August 31, 1959, from 5 KW sales records maintained by Gates, which are assumed to be accurate.*
Whether you sell autos or weenies, ask your PGW Colonel for details on the terrific sales job being done for advertisers by the powerful *50,000 Watt Selling Voice of WRVA-RADIO . . . Virginia's largest single advertising medium.
Senate bill legalizes illegal tv boosters

FCC Thursday (Sept. 10) extended "grace" period for vhf boosters now operating without licenses to Dec. 31 on heels of Senate approval of bill to legalize existing illegal operations. Commission originally had ordered illegal operations to go dark by the end of this month but in last week's announcement FCC said it needs more time to study problems posed by proposals to license stations.

The Senate passed by voice vote late Sept. 9 S 1886 which would authorize FCC to license vhf boosters previously constructed without authorization. The bill, introduced by Sens. Frank Moss (D-Utah) and James Murray (D-Minn.), also authorizes the Commission to sanction operation of boosters without a licensed operator on duty at all times.

Actual language of S 1886 was supplied in the form of an amendment by the Senate Commerce Committee as a substitute for the original text. As introduced, the Moss-Murray measure would have required cvt systems to get permission of a station before rebroadcasting its signal and to carry the programs of a local station.

These requirements were stricken from S 1886 and now are contained in a committee bill, S 2653, reported to the Senate floor last week. S 2653 also places cvt systems under direct Commission regulation and defines them as broadcasting stations, not common carriers (Broadcasting, Sept. 7).

FCC had recommended last April enactment of the provisions of S 1886. The bill now goes to the House, where similar measures are pending before the House Commerce Committee. Chairman Oren Harris (D-Ark.) said the committee has no plans to report the bill this session.

CBS gets licenses

Licenses of CBS-owned WBBM-AM-FM-TV Chicago were renewed Thursday (Sept. 10) by FCC without prejudice to such action as Commission may take on (1) conclusions and recommendations of Network Study Staff, (2) related studies and inquiries now being conducted and (3) pending antitrust matters.

Comr. Robert T. Bartley dissented. Still pending are license renewals of NBC-owned Chicago stations, WMAQ and WNBQ (TV) (Closed Circuit, Aug. 3).

House subcommittee may air DBA plea

FCC Chairman John Doerfer was called to Capitol Hill last week to discuss in executive session the plight of daytime stations before the House Commerce Communications Subcommittee. Indications are that that body will hold public hearings sometime next year.

Petitions by the Daytime Broadcasters Assn. for longer winter hours (6 a.m. to 6 p.m.) have been turned down twice by FCC with the latest refusal coming early in July (Broadcasting, July 13). DBA took its case to a Senate Foreign Relations Subcommittee and was successful in getting a postponement in ratification of the Mexican broadcasting agreement, which would foreclose the daytimers' hopes (Broadcasting, Aug. 31).

Comr. Doerfer appeared before the congressmen with charts showing why FCC thinks it cannot grant the daytimers' request because of nighttime interference. However, a subcommittee spokesman said that so many station operators have complained to members of Congress that the subcommittee feels a hearing should be scheduled to explore all possibilities.

Two bills are pending before the subcommittee, headed by Rep. Oren Harris (D-Ark.), which would authorize daytime stations to operate from local sun-rise to sunset or from 6 a.m. to 6 p.m., whichever is longer. They are HR 6576, introduced by Rep. George Shipley (D-Ill.), and HR 6868 by Rep. Morgan Moulder (D-Mo.).

Stripped of teasers

FCC Thursday (Sept. 10) denied request of NAB that stations be permitted to conduct "teaser" advertising campaigns without identifying sponsor each time. Commission said such advertising would be inconsistent with Sec. 317 of Communications Act which states:

"All matter broadcast by any radio station for which service, money or any other valuable consideration is directly or indirectly paid, or promised to or charged or accepted by, the station so broadcasting, from any person, shall, at the time the same is so broadcast, be announced as paid for or furnished, as the case may be, by such person."

NAB pleaded that effectiveness of such ads are destroyed by sponsor identification and that teasers are "designed merely to stimulate interest in future announcements" which do identify product or sponsor (Broadcasting, May 25).

WDOT, KFHA sold

Station sales reported Thursday: WDOT Burlington, Vt. • Sold by Val Carter and associates to Fortune Pope and others for $140,000. Mr. Pope owns WHOM-AM-FM New York and publishes Il Progresso Italiano Americana.

KFHA Tacoma, Wash. • Sold by Adlai C. Ferguson Jr. and Robert E. Hall to KFHA Inc. (Paul R. Smith, 61%, president; William A. Searle, 19.2% and two others) for $100,000. Mr. Smith is vice chairman of Fletcher, Richards, Calkins & Holden Inc., New York agency. Mr. Searle is general manager of KGLC Miami, Okla. Robert Smith, brother of Paul Smith, will manage KFHA under new ownership. Station is 1 kw daytimer on 1480 kc. Jack L. Stoll & Assoc. was broker.

Agency name change

Change in name of Mogul, Lewin, Williams & Saylor Inc., New York, to Mogul, Williams & Saylor Inc. is being announced today (Sept. 14) by Emil Mogul, president and chief executive officer of agency. A.W. Lewin, who had been board chairman, left company several months ago.
NAEB SHOOTS HIGH
Tv educators discuss future requirements

Members of the National Assn. of Educational Broadcasters, meeting in Washington last week, discussed existing and projected state and regional radio and tv networks in terms of their usefulness to meet the educational requirements of the ever-expanding number of school-age children.

Although the educators were worried, as always, about money to advance their educational broadcasting projects, they were full of plans about how they will use $2.7 million worth of Ampex video tape recorders to support Dr. Kenneth Orphan's planned networks. Several machines have been delivered of the 50 donated by the Ford Foundation and all 44 existing educational tv outlets are expected to have them by the end of the year.

NAEB conferees heard from Hartford Gunn Jr., WGBH-FM-TV Boston, how the first interstate, interconnected (two-station, off-air) tv network is operating between Boston and Durham, N.H. (WENH-TV). A regional, four-station educational fm network also is in operation in the Northeast, with three more stations planned.

Philip Coombs, Fund for Advance ment of Education, discussed the fund's preliminary studies on how to make more tv signals available to a given area so more televised courses may be transmitted simultaneously.

Revive 'Airborne Tv' • Among possibilities being considered to overcome the spectrum shortage in a given area, he said, are (1) "airborne tv"—an airplane receiving as many as six uhf signals while in flight and rebroadcasting them, because of its height, to a radius of 150 to 200 miles; (2) narrow band transmission.

There were several reports on existing state radio and tv networks with plans envisioning multi-state educational tv networks.

Reporting on their respective states were Christiansen, director, U. of Florida; Raymond D. Hurlbert, general manager, Alabama Educational Tv Commission; Richard B. Hull, Ohio State U. radio-tv director, and William G. Harley on Wisconsin's educational fm radio network.

Discussing plans for educational tv regional networks were William Bow den, tv coordinator, Southern Regional Education Board (Florida, Georgia, Alabama); Loren B. Stone, manager of the U. of Washington's (KCTS-TV) Seattle, on the West; Jack McBride, NAEB vice president, on Midwest tv; Lawrence Frymire, manager, Michigan State U.'s WKAR-AM-FM East Lansing, on Midwest radio; Dr. John Schwarzwalder, director, Twin City Area Educational Tv Corp., U. of Minnesota, on a planned six-state, 10-station educational tv hookup.

The NAEB conference opened Wednesday (Sept. 9) with a welcome from Arthur S. Flores, secretary of Health, Education & Welfare.

NAEB members discussed the problems of the increasing number of education-age children, how to raise more funds, costs of equipment and broadcast operations, and how to improve educational broadcasting by use of video tape, fm-off-air relays, tv microwave, satellites and translators, closed circuit tv and community antenna systems. The sessions ran through Friday noon (Sept. 11).

Virginia firm buys Jansky & Bailey Inc.

Acquisition of the Washington consulting engineering firm of Jansky & Bailey Inc. by Atlantic Research Corp., Alexandria, Va., was announced Thursday. Price was undisclosed, but it is understood the transaction was multimillion dollar deal.

Atlantic Research is fast-growing research and development company specializing in space and astronautics programs, with emphasis on development of solid propellants fuels for rocket power. Company is headed by Dr. Arch Scurllock. Dr. Arthur W. Sloan is the second man in the organization.

Transaction was through General Communication Co., Boston, which in 1955 bought the radio-tv and communications engineering firm. Atlantic Research also acquired 16% of General Communication stock, with options permitting it to acquire more than 25% in five year's time.

Key personnel of Jansky & Bailey, including founders C. M. Jansky and Stuart L. Bailey, will remain. They are also acquiring stock interests in Atlantic Research. Jansky & Bailey was founded in 1930. Personnel now numbers more than 120. Current operations are at an annual rate of approximately $1.5 million.

ARC's annual business currently is in excess of $10 million. The company employs over 650 people and in recent months acquired the Prewitt Aircraft Co. in Philadelphia and the A. M. Martin Co. in Los Angeles.

RTNDA considers Canadian affiliate

Recommendations of a three-man steering group, set up at a meeting of Ontario and Eastern Quebec news editors last June 3, have been submitted to Canadian newsman and will be explored at a meeting during the RTNDA parley. Key member of the group is Hugh Brenner, CFPL London, Ont.

Consensus of many Canadian news men is that the U.S.-dominated RTNDA "leaves something to be desired," in terms of serving Canadian interests. According to Mr. Brenner, Canadian news directors desire their own organization, as a separate autonomous RTNDA affiliate, for meeting such key issues as freedom of information and equal news access (Canon 35) as may arise. He stressed it would continue to work closely with, and Canadian newsman would retain individual memberships in, the U.S. organization, which claims about 30 on its rolls.

Already set for the RTNDA convention are radio and tv workshops, including telecast of a mock trial in a Louisiana civil trial, along with presentation of the annual awards (BROADCASTING, Aug. 3). Among scheduled speakers at the parley, to be held at the St. Charles Hotel, are FCC Chairman John C. Doerfer on Broadcast news and Rep. John E. Moss (D-Calif.) on Freedom of Information. Prof. Baskett Mosse, Northwestern U.'s Medill School of Journalism, has reported a five-fold increase in the number entries submitted for the N.U. - administered RTNDA awards competition.

Among highlights of the Oct. 15 session are a scheduled report by John F. Lewis, WBAL Baltimore, from re-
Channel changes proposed by FCC

Allocations matters announced by FCC Thursday:
- Proposed to assign ch. 3 to Corpus Christi, Tex., in addition to present chs. 6 [KRIS-TV], 10 [KZTV (TV)], 22 [KVDO-TV], *16 and 43.
- Proposed to add uhf channels for educational use in Alabama as follows —Andalusia, change ch. 29 to *29 (in addition to present reserved ch. 2 there); Birmingham, change ch. 48 to *48 (in addition to present reserved ch. 10 there); Clanton, substitute ch. 14 for present ch. 77; Demopolis, change ch. 18 to *18; Dothan, change ch. 19 to *19; Florence, add reserved ch. 21 (from Gadsden); Muscle Shoals, add reserved ch. 24 (plus reserved ch. 7 there now); Opelika, change ch. 22 to *22; Skylacauga, add reserved ch. 15 and delete present ch. 24; Tuscaloosa, add reserved ch. 14.
- Dismissed petitions by Fisher Broadcasting Co. and Tribune Publishing Co. to limit the use of ch. 3 in Salem, Ore. Both petitioners are competing applicants for ch. 2 in Portland, Ore.
- Denied petition by ch. 12 KTVH (TV) Hutchinson, Kan., to shift ch. 12 to Wichita, Kan.

Sen. McCarthy hits program cancellation

Sen. Eugene J. McCarthy (D-Minn.) took floor of Senate Thursday (Sept. 10) to protest plans of WMAL-TV.

Army declares "war" on KSAY

The U.S. Army declared "war" on a radio station last week. At issue are "hot" cranes.

Judge Advocate General of the Army on Thursday filed petition with FCC asking that license of KSAY San Francisco not be renewed. Formal request asks that a hearing be held to force the Grant Wrathall-owned station to do something to relieve a technical problem at Oakland Army Terminal.

It seems that KSAY's antenna array is near enough to the Army depot so that when giant cranes are in certain positions they become "hot" through induced electrical current. This has been happening since the 10 kw daytimer KSAY went on the air (on 1010 kc) early in 1958.

FCC log week

Composite week for stations whose licenses expire in 1960 and who must file program log analyses in connection with renewal and other applications announced Thursday by FCC. All dates are 1959 except Sunday, which is 1958. Dates are: Monday, Feb. 2; Tuesday, March 10; Wednesday, April 29; Thursday, May 21; Friday, July 17; Saturday, Sept. 5; Sunday, Dec. 14, 1958.

Washington to drop Sunday afternoon Celebrity Parade in favor of "day-old football game." WMAL-TV will cancel five-year-old program, featuring Joseph McCaffery interviewing prominent guests. Sept. 27 in favor of videotaped play-by-play of Saturday afternoon football.

"Steps should and must be taken to assure that our broadcast media exercise in full that responsibility to serve the public interest, a responsibility they incur when they are licensed to broadcast," Sen. McCarthy said. He maintained he was not advocating program censorship, but that when a station license renewal comes up, the FCC should raise the question "of whether a station actually is operating in the public interest."

Previously, Sen. Mike Mansfield (D-Mont.) had praised Mr. McCaffery and Celebrity Parade in decrying fact show was being dropped. Sen. Mansfield noted show is one of most popular among lawmakers and that over 40 members of present Senate had been interviewed by Mr. McCaffery. Program is sponsored by Retail Clerks International Assn.

Option 'straddle' endorsed by SRA

Stick with your "straddle" proposals, Station Representatives Assn. told FCC Thursday in filing reply comments in Commission's proposed ruling which would cut back option time to 2½ hours and would count any network program which begins in option time and extends beyond (or vice versa) as all option time.

Reply comments to FCC's proposals are due tomorrow. Comments were filed July 30.

SRA said its response was based on comments filed by networks and affiliates regarding straddle time proposals. Gist of SRA point is that station has no alternative in selling uncalled op-

Sarnoff to keynote BPA convention

Robert Sarnoff, NBC board chairman, will deliver keynote speech at opening day luncheon of Broadcasters' Promotion Assn. convention in Philadelphia Nov. 2-4, it was announced Sept. 10 by Charles A. Wilson, sales promotion and advertising manager of WGN-AM-TV Chicago and BPA president.

Other plans for fourth annual conclave at Warwick Hotel are nearing completion under convention program chairmanship of James M. Kiss, WPEN Philadelphia. Other opening day speakers: Wrede Petersmeyer, president, Corinthian Broadcasting Corp. Stations ("Relating Promotion and Public Service"); Frank Shakespeare, general manager, WCBS-TV New York ("How to Win Awards"); Max Buck, manager, WRCA-TV New York, and Emil Mogul, president, Mogul, Williams & Saylor ("How to Manage the Merchandising Maelstrom"); R. C. (Jake) Embry, vice president, WITF Baltimore ("How to Create a Station Image"); Henry J. Kaufman, president, Henry J. Kaufman Ass., and David Kimble, account executive, Grey Adv. Agency ("How to Make Trade Ads Pay Off").
Pet foods makers urged to use radio

The inherent waste in pet food advertising today can be eliminated by greater use of radio in order to reach the actual prospects—pet owners—with brand advertising, said Robert Alter, manager of sales administration, Radio Advertising Bureau Inc., in his address Thursday (Sept. 10) before the Pet Food Institute meeting in the Drake Hotel, Chicago.

Although the pet food industry’s sales will total some $350 million in 1959, Mr. Alter stated, surveys show only 41% of U.S. homes own dogs and only 29% own cats, making it difficult to target brand messages. A pet foods radio campaign can be pre-checked to reveal with accuracy the percentage of actual buyers of pet foods that radio can reach within given time periods, he said.

Pet food advertising, the RAB executive declared, must be carried by a medium that is functional in three ways: (1) by market area; the growth of the pet population is directly proportionate to the growth in suburban areas where home ownership is highest. (2) By purchaser, pointing out that 80% of pet food purchases are made by women and that radio reaches them during the crucial hours before they buy. (3) By creative approach, which Mr. Alter demonstrated with a series of taped examples of outstanding pet food radio commercials.

**Business briefly**

**Candy campaign** • Peter Paul Inc. (Peter Paul Mounds, Naugatuck, Conn., is reported to be launching spot tv campaign in undetermined number of northern and southern markets end of September using minute participations in children’s programs. Agency: Dancer-Fitzgerald-Sample, N.Y.

**On the bandstand** • New advertisers signing sponsorship of Dick Clark’s American Bandstand on ABC-TV (Mon.-Fri., 4:30 p.m. EDT) include following: Best Foods Div. of Corn Products Inc. for Nucoa margarine starting Oct. 12 through Dancer-Fitzgerald-Sample; starting same day, Speidel Co. via Norman, Craig & Kummel for watchbands, men’s jewelry and bracelets; Philco Corp., through BBDO, starting Nov. 18 for radios and phonographs; Seven-Up Co., starting Nov. 20 through J. Walter Thompson Co. and Plough Inc. starting May 19, 1960, through Lake-Spiro-Shurman Inc., Memphis, Tenn., for Coppertone sun tan products, Mexsana Powder and Solarcaine.

**Tennis, anyone?** • Union Oil Co., L.A., through Erwin Wasey, Ruthrauff & Ryan will sponsor broadcast of 33rd annual Pacific Southwest Tennis Tournament on 22-station regional tv hook-up, 3:4-3:00 p.m. Sept. 20 and 4-6:30 p.m. Sept. 27.

**Aluminum spots** • Young & Rubicam, San Francisco, has engaged Freberg Ltd., L.A., to create two one-minute and two 30-second tv commercials for Kaiser Aluminum Foil for use on Maverick starting with its Oct. 18 broadcast on ABC-TV, starting Sat. 10-12:30 p.m. Additional campaign to start Feb. 1, 1960, calls for three one-minute tv spots plus six one-minute radio spots to be used in key metropolitan areas.

**Noxzema in twelve** • Noxzema Chemical Co. (skin cream and lotion), Baltimore, breaks with spot tv campaign in 12 major markets using 5-10 spots per week starting Sept. 21. Drive will run 10-13 weeks. Sullivan, Stauffer, Colwell & Bayles, N.Y., is agency.

**Coty campaign** • Coty Inc., N.Y., for its lipstick is starting spot tv drive that will cover 20 major selected markets cross-country with about 15 spots per week and will run from four to five weeks starting Oct. 1. Agency: BBDO, N.Y.

**Socony buying spot tv** • Socony Mobil Oil Co., N.Y., has set spot tv campaign in about 50 markets starting Oct. 1, using prime time station break announcements. Agency: Compton Adv., N.Y.

---

**WEEK’S HEADLINERS**

Amos T. Baron, general sales manager of KCOP(TV) Los Angeles, appointed director of sales for television of Broadcast Div. of Naft Corp. He will continue in his KCOP post in addition to his new duties. Mr. Baron was formerly general manager of KABC Los Angeles. Al Browdy, chief engineer of KCOP, named director of engineering and industrial relations for both radio and tv of Naft’s Broadcast Div. Dan Miller, account executive with KCOP promoted to local sales manager succeeding John S. Hansen, appointed general manager KPTV(TV) Portland, Ore. (WEEK’S HEADLINERS, Sept. 7). Naft Corp. is licensee of KPTV and awaiting FCC approval of transfer of KCOP and radio station KOBY San Francisco.

Richard E. Krafve, group vp—commercial, of Raytheon Co., Waltham, Mass., elected executive vp. Under company’s organization plan, Mr. Krafve joins President Charles F. Adams and Senior VP Percy L. Spencer to make up three-man Office of the President. He joined Raytheon in March of this year, was previously vp of Ford Motor Co., Dearborn, Mich. Prior to that he had served in various executive posts with Ford, helping to decentralize company’s manufacturing and directing defense operations.
RESULT: more sales-power per dollar

Most motormakers feel Television was born for their special benefit. And with good reason...for nothing else matches Television's dramatic power to present beauty in motion.

Along with heavy network investments, Detroit makes effective use of Spot Television to focus selling power on especially responsive markets. Their decisions in placing spot demand up-to-the-minute data on markets and stations—data instantly available through Blair-TV's Detroit office.

Blair-TV operates on this basic principle: that alert, informed representation is a service vital not only to stations but also to all Advertising and to the businesses dependent on it for volume and profit.

From the first, our list has been made up of stations and markets we felt in position to serve most effectively. Today these stations are located in 25 of America's greatest markets. Together they cover 56 percent of its population, virtually 60 percent of its effective buying power.

In its area, each of these stations stands as a powerhouse of selling force. To help advertisers and their agencies make most profitable use of that force, is the constant objective of our entire organization.

BROADCASTING, September 14, 1959
SWING TO DAYTIME TV BUYING?

Growing bullishness at BBDO is leading clients to day schedules

An intense, continuing study of daytime network television has been under way at BBDO for several months. It has already resulted in an expansion of daytime investments by some of the agency's clients.

The growing interest of BBDO in daytime network tv is considered significant. The agency was fourth among all agencies in broadcast billings last year. It placed $73 million in television, two-thirds of it in network.

A two-fold reasoning is behind the BBDO-inspired-and-conducted analyses of network daytime tv: (1) the agency's management thinks there may be opportunity for its clients in the medium because of the flexibility of buying daytime schedules and (2) clients can be brought into tv for the first time through this avenue, or if already in nighttime, they can be encouraged to supplement or augment with daytime sponsorships.

Already, BBDO's efforts are bearing fruit. Philco Corp. has bought into the afternoon American Bandstand (Dick Clark Show) on ABC-TV. At an estimated $85,000 cost, Philco will promote record players and transistor radios to the teen-age audience. This purchase, through BBDO for Philco's Radio and Phonograph Division, is short-term and seasonable (six quarter hours).

The Philco buy runs from mid-November through Christmas, a first result of BBDO's newly-instituted method of compiling details on daytime tv and circulating the information to its key executives.

Reasons for Study • Why get up a head of steam on this subject? "The [advertising] business has become so big, so complex and involved, that it is necessary to keep account men appraised on developments," explains William J. Hoffmann, who supervises the daytime network tv operation at BBDO. He also is the agency's director of network radio.

It is Mr. Hoffmann's job to keep abreast of the medium and turn out reports to agency account or media people, as well as, when requested, to provide a fill-in for client and agency executives, acting as a liaison between

How BBDO rates networks • Here's a brief, generalized evaluation of each television network's daytime status as presented in BBDO reports and in subsequent interviews at the agency:

• ABC-TV: Does not "at least now" compare in ratings or share of audience with the other two networks but it's coming up fast. Cited: re-runs of nighttime shows like Restless Gun, Gale Storm Show, Bob Cummings Show. The network offers franchises, low prices, but these "will go up soon." In audience participation programs, ABC-TV delivers "between 1 and 2 million homes, depending on the program." Its American Bandstand featuring Dick Clark (see picture) delivers a teen-age audience almost equal that of the average nighttime program "but at a fraction of the cost."

• CBS-TV: Is nearly sold out in daytime for fall. But On the Go and several other shows are available for periods shorter than the usual 13-week minimum. Network is strong in daytime dramatic serials in the afternoon, "delivering approximately 3-4 million homes per broadcast, depending on the show." BBDO calls attention to the Woman daytime specials, the next of which, "Is the American Woman Losing Her Femininity?", is set for Sept. 17, 2-3 p.m., with Esther Williams (see picture) as hostess.

• NBC-TV: Is strong in morning "game" shows, some of which reach as many as 3.8 million homes. Morning bloc is built around programs like The Price Is Right featuring Bill Cullen (see picture). NBC-TV has some problems in the afternoon, but that schedule should be strengthened by such new offerings as Split Personality and House on High Street.

All three networks offer attractive daytime rates and flexibility, in the view of BBDO. These can be used to advantage for advertisers with several different kinds of problems—to supplement nighttime exposure, to reach the specialized daytime audience, to break into tv when nighttime costs are beyond the advertiser's means.
account executive and media buyers.

When should the advertiser consider daytime network tv? BBDO is aware that there can be any number of reasons but the agency, nevertheless, finds a pattern.

BBDO's reports emphasize that daytime network tv is ripe for the picking for an advertiser who seeks any of the following: young housewives, large families, an extension of a nighttime tv effort, network frequency in television that's perhaps prohibitive in the nighttime, as additional tv advertising in between occasional evening specials or as messages for women as against the mixed audience.

As Mr. Hoffman explains, daytime tv is a selective medium appealing to the adult female in the home. It should hold an fascination for the advertiser who seeks those women who are influential in either buying or in using the product. This objective contrasts with the nighttime buy seeking both men and women, a massive audience or a buy in the terms of prestige, with consumer a win-dealer.

What Daytime Has • BBDO is painting this broad picture of the medium: for the advertiser primarily interested in reaching women audiences, daytime network tv offers "an excellent variety of efficient, relatively low cost opportunities." The average daytime tv show audience has approximately 65% "adult females" while large and young families account for the heaviest viewing. (Nielsen, says BBDO, indicates 25% of the average daytime audience falls within the 16-34-year-old age bracket, of which 87.2% watch an average of more than 12 hours weekly.)

The programming appeal, continues the agency, is to women, citing the preponderance of programs in the audience participation, game, dramatic serial and personality categories along with a new trend to re-runs of former network nighttime hits.

BBDO is telling its clients that even the nighttime tv advertiser can use network tv in the daytime hours with success. For example, it's a vehicle to supplement and carry over the popularity of a nighttime special. Daytime advertising can remind the audience of both the product and the program special and it can take advantage of frequency.

An advertiser usually schedules a nighttime special at a peak advertising period, often as a focal point of a tied-in advertising, merchandising or promotional push. If the advertiser spreads his specials, promotional tv peaks are created over the period of a year. Daytime can move in to fill up the gaps by reminding viewers of the product and of the advertiser's shows.

Case History • BBDO client E. I. du Pont de Nemours & Co. illustrates the theory in practice. The company sponsors Show of the Month on CBS-TV in prime evening time and in daytime sustains its advertising impact on the strength of seasonal demands for products marketed by its various divisions. (For example, its men's and women's wear division during the Easter season will participate in American Bandstand on ABC-TV and Today on NBC-TV.)

A nighttime advertiser sponsoring a program on an alternate 26-week basis over 52 weeks might similarly contract on the same network in the daytime hours thus earning a full 52-week discount of about 10% on both schedules. Consequently, this discounting brings down the cost for both the nighttime and daytime sponsorship.

BBDO's clients already engaged in this procedure include U.S. Steel and Lever Bros. Armstrong Cork Co., which has the 26-week Circle Theatre on CBS-TV nights, reportedly may follow suit. Another BBDO client in daytime network tv is General Mills and Minnesota Mining & Mfg. Co. is expected to follow.

Series of Reports • Over a few months, starting in June, Mr. Hoffmann's office has issued several "white papers" which are usable as a springboard toward further evaluation. Among the subjects covered: Participations, personality shows, promotion and merchandising of specials, daytime specials, short-term opportunities and the teen-age audience (via American Bandstand).

These periodic bulletins supplement a first report, issued within the agency as a memo last June 15, on the status of the medium.

The tv medium has matured, Mr. Hoffmann observes. "It has adopted flexibility," that is "loosened up" for those advertisers who want to buy tv on a short-term basis or at low cost.

Essentially, BBDO explains, daytime tv rates of CBS-TV and NBC-TV are 50% of the nighttime hourly rate. Each daytime quarter hour is at 40% of the daytime hourly rate, with each added quarter hour sponsored thereafter coming to about 20% of the daytime hourly rate. On ABC-TV (where "Operation Daybreak" still is in effect), the rate is about $7,200 for time and talent per quarter hour compared with the one-time gross $27,000 per quarter-hour rate on CBS-TV and NBC-TV (though if bought along with a nighttime schedule, the quarter hour on these two networks reduces to about $15,000 in time and talent).

Individual Care • Mr. Hoffmann stresses, however, that daytime sponsorship is not, and should not, be a "blind entry." Shows are evaluated for the client with the product to be advertised in mind. The audience that the show will attract also is studied. Usually, the agency seeks compatibility of product with show and it may be that personal selling becomes a factor.

In the final analysis, it's the client's objective that counts. Does he want to "reach heads" in the daytime hours and thus go for the highest-rated show, or does he want something else that is not so strong on ratings but aimed for a particular audience.

Exploring prices still further, BBDO in a summary of only a few weeks ago again found a welcome sign for the short-term advertiser. It's "sometimes possible," BBDO notes, to buy quarter-hour schedules on all three tv networks for less than 13 weeks.

As examples: ABC-TV offer of a single quarter hour (3 minutes commercial time) at $9,743, a price that plummets to $7,219 for each quarter hour when seven or more quarter-hour periods are purchased.

CBS-TV has Jack Linkletter's On The Go program currently available without talent cost for 26 weeks at a cost per commercial minute of less than $4,400. Mentioned similarly are NBC-TV's offerings on a less than 13-week rate. (Also see how BBDO summarizes the general status of daytime tv at each of the three networks in a report on preceding page.)

Daytime tv specialist • William L. Hoffmann has been assigned by BBDO to the specialized study of daytime network television. He has been on the assignment since June, has already issued a number of special reports which are being used by the agency and its clients.

SINGING SALESMEN
Teen vocalists sell National Shoes

Ever hear of Jeannie Thomas, Dick Roman, Laurie Loman or Tommy Mara? If not, your teen-age daughter and son will reassure you they're "real cool" and "the analysts" at the National Shoe Co., New York, and its agency, Mogul, Lewin, Williams & Saylor, New York, agree wholeheartedly with them.

Jeannie, Laurie, Dick and Tommy are what officials at MLW&S call "rock 'n' roll vocalists"—singers whom the younger set idolizes. During a recent strategy session concerning the National Shoes account, Milton Guttenplan, MLW&S senior vice president and account supervisor and Myron Mahler, senior vice president and creative director of air media, exchanged ideas on the teen-age market for shoes and on the most effective way of reaching this big and important audience.

The result: Sponsorship by National Shoes of two to three one-minute announcements per week on WNEW-TV New York's Alan Freed's Big Beat daily program with (and this is the twist) commercials to be delivered by "rock 'n' roll vocalists," who are known to teen-agers, and who might be available for personal appearances at National Shoes outlets. This strategy is designed to attain sponsor identity for a participating advertiser.

The first commercial, spotlighting Jeannie Thomas, was presented on Big Beat on Sept. 2, and others were scheduled for last week. The commercials are taped at WNEW-TV and, whenever possible, Armando Noel, producer of Big Beat, attempts to arrange for an in-person appearance of the vocalist on the show at the same time his or her commercial is scheduled.

On other occasions, the lead-in to the commercial is a well-known record of the personality's. Mr. Noel works closely with Sanford Semel, tv director at MLW&S, in selecting appropriate talent to deliver the commercials and they attempt to choose vocalists who are near the top rung of the "rock 'n' roll" ladder during any given period.

Mr. Guttenplan is already pleased with preliminary results. He acknowledges that the young singers are not "polished announcers or salesmen" but they do generate "believability and sincerity" that teen-agers recognize. One immediate aftermath is that National Shoes, starting in October, will slot "Rock 'n' Roll" radio commercials in 37 markets in the northeast and hopes to persuade local stations to integrate announcements with the personality's records.

The agency also plans to arrange for in-person appearances by "rock 'n' roll vocalists" at National Shoes outlets in the various areas.

TV CAN SELL IT
Higher electric rates, pet foods sold via tv

Whether it's cat food or higher electric rates, television can sell it. Leading executives in both these fields got the message last week from Norman E. Cash, president of TVB.

Addressing the Public Utilities Advertising Assn. of Milwaukee on Sept. 9, he cited the American Gas Assn.'s successes in tv and also advised utilities companies to get behind color for their own financial good. Before the Pet Food Institute in Chicago the next day he hailed television as the easiest way for an individual producer to get ahead in this violently competitive field.

Tv Power Bill • Mr. Cash said the four-state area represented at the Milwaukee utilities meeting—Wisconsin, Minnesota, South Dakota and Iowa—currently pays $25 million a year to utilities companies for power to drive its television sets. If these were color sets, he added, the bill would be $14.5 million higher.

Advise public utilities firms to go more heavily into direct promotion and sale of appliances, including color sets, he quoted Ernest Laws, advertising manager of the Philadelphia Electric Co., a heavy promoter of appliance and home entertainment instruments, as praising the impact of color in PEC's home economics and promotion programs. Mr. Lewis also was quoted as predicting that "Through the united effort of the tv stations, electric utilities, manufacturers, distributors and dealers, color tv can and will become the universal system of [tv] broadcasting and reception."

The TvB head singled out AGA's success in reversing slumping sales patterns by promoting gas appliances on television, and added: "With the local use of television by many companies tv is fast emerging as the basic selling medium to accomplish the sale of more appliances, to encourage consumption of power in periods when industrial plants are not operating at full capacity and to make the public aware of the necessity of raising rates to keep pace with rising costs."

Tv Biggest • At the Pet Food Institute, Mr. Cash complimented this industry for its acumen in putting more than 50% of its advertising budget into television. He estimated the total budget would come to $26-$27 million this year, with $15 million in tv.

Ralston-Purina, whose Dog Chow rose from obscurity to No. 1 in the dry-feed end of the business in two years, was cited as an outstanding success in the basic cereal business.
First, by far, in Philadelphia—in every rating service ... and still climbing! The Happy station; that's what they call us. 50,000 watts going for you and the big accent is on sell! Let us help you get those sales up.

Call Katz or Jim Storer in Philadelphia at LOCust 3-2300 today, for availabilities.

a STORER station: National Sales Offices

story for both market planning and television selling. In 1958, he noted, 85% of its budget was in television and this year, with a total budget close to $3 million, tv again is getting the bulk.

Mr. Cash also had a word of advice for the producers of pet food commercials: "Get more emotional involvement into them," he said; otherwise the full impact of television will be missed.

Radio selling tops with top advertisers

With few exceptions, leading U.S. advertisers are including radio in their advertising expenditures this year, according to a tabulated report issued last week by Radio Advertising Bureau.

RAB points out that 90.6%, or more than 9 out of 10 of the top 100 advertisers in 1958 put money in either spot and/or network radio advertising during the first six months of 1959. (Four of the top 100 advertisers are liquor companies and therefore banned from broadcast media.)

Compared to the first nine-months of 1958 (the only previous data available), when 85% of the top 100 used radio, this current midyear total reflects a 5.6% net increase.

Other radio upsurges noted by RAB: (1) the number of brands using spot and network radio increased 17.2% during the second quarter, compared to the first quarter of 1959; (2) the number of companies using radio increased 12.9% during the same period.

Lipton names SSC&B

Young & Rubicam, New York, which had serviced the Lipton account for 22 years will continue to handle Lipton soup mixes. As the account shift was announced last week, Lipton began placing a new spot tv campaign through Y&H starting in mid-October, just before the agency changeover becomes effective.

SSC&B made room for Lipton in August (AT DEADLINE, Aug. 10) by resigning the Salada-Shiriff-Horsey Ltd., Toronto, account estimated at close to $2 million. The agency said a "growing conflict" among Salada tea products and those to be marketed by other SSC&B clients was the basic cause of the resignation. The Lipton account is estimated to be $3-4 million.

FOOD FIRMS BUY TV HEAVILY

TvB reports $148 million for half of '59

Foods advertisers pull the most weight in national television. Statistics based on the first six months of the year and detailing the extent of foods' gross tv expenditures are released today (Sept. 14) by Television Bureau of Advertising. The bureau has access to compilations by Rorbaugh for spot tv and by Leading National Advertisers: Broadcast Advertiser Reports for network.

Combining spot and network, the tv spending rate by national (and regional) foods advertisers now comes to nearly $300 million a year. This surpasses all other media combined in expenditures from the foods classification, says Norman E. Cash, president of TvB. The bureau based its prediction on expenditures of national foods advertisers in newspapers, magazines, radio and outdoor.

For the first half of this year, tv gross time billings from foods advertisers hit an excess of $148 million compared with $119 million in the first half of last year, or an increase of 24.4%. During that period, the advertisers spent $89,806,000 in spot, an increase of 36.9%, and $58,288,152 in network, or 9.6% more.

General Foods High • TvB's rundown reviews the top 10 among foods advertisers in network television. Leading the group is General Foods with more than $10.2 million. General Mills is second with over $6 million; Standard Brands is third with over $3.7 million. A fourth place advertiser is National Biscuit with a little over $3.2 million; cereal-maker Kellogg Co. is fifth with a little more than $3 million.

Sixth through tenth place is filled by advertisers spending amounts ranging from $2.7 million down to $2.2 million for foods. They include: Lever Bros., Pillsbury Mills, National Dairy Products, Campbell Soup and Procter & Gamble.

Mr. Cash points up a few basic reasons for foods success on television saying, "For new products, tv acquaints the public rapidly. For established products, television keeps the product in the forefront. And for local or regional companies, television makes it possible to achieve a national market."
Tribal chieftain to world conqueror—by the power of positive salesmanship, Timu-jin—The Genghis Khan—

united innumerable mongol tribes under a single horse-tail banner, then led them in a victorious sweep to the gates of Vienna. His salesmanship was a dominant force in the medieval world for more than a generation. Warrior, yes, but above all The Genghis Khan was a Salesman. Domination by the power of positive salesmanship is the key word of Balaban policy in every market. WII is a dominant force in St. Louis—a powerful voice to sell your products and services with maximum impact and positive efficiency. Above all-WII is a Salesman.

Buy RADIO when you buy WII. Buy BALABAN when you buy Radio. Buy WII when you buy St. Louis and you. Be the people who BUY WII. WII, St. Louis. THE BALABAN STATIONS in tempo with the times. John F. Box, Jr., Managing Director. Nationally by Robert E. Eastman.
**Business briefly**

**Time sales**

Magazine radio push • Curtis Publishing Co. (Ladies Home Journal), Phila., is spreading a two-day advertising push (Sept. 20-21) on ABC Radio and CBS Radio in promotional campaign for its October issue. Buys include Don McNeill of ABC Radio, Arthur Godfrey, Art Linkletter, and serials Ma Perkins, Dr. Malone and Helen Trent on CBS Radio. BBDO, N.Y., is Curtis' agency.

More spots, more stores • Robert Hall Clothes Inc., N.Y., is to follow up its “Back-To-School” radio/tv spot schedule on 278 stations with further use of air media in new drive to run through Christmas. Including addition of 30 more stations, Robert Hall fashion news and promotions will be heard in more than 10,000 radio announcements and 1,500 tv spots each week in 150 cities. Total broadcast budget runs 15% over fall of 1958. Special local radio-tv activities will spotlight openings this month of new stores in 11 cities. Agency: Arkwright Adv. Co., N.Y.

**Hotels on radio** • Handlery Hotels is placing spots on 25 radio stations in California, Oregon, Washington and Honolulu for 26 weeks as part of its fall-winter advertising. Agency: Beaumont & Hobman Inc., San Francisco.

**Fruit for Christmas** • Mission Pak, L.A., will launch a $350,000 tv-radio “Pre-Christmas” campaign Nov. 15 in California, with 90% of the budget being allocated to the Los Angeles and San Francisco markets. Stanley Pfautz Assoc., Beverly Hills, Calif. is the agency.

**Tidy tape buy** • Tidy House Products Co. Shenandoah, Iowa, will sponsor Polka Parade on what is reportedly the largest regional station group to date in video tape syndication: 34 midwestern markets. Program originates at KTLA (TV) Los Angeles, where it is sponsored locally by Clougherty Packing Co., L.A., (Farmer John meats). Since this sponsor uses integrated commercials during the local telecast, KTLA is producing an additional half-hour version for Tidy House for its household cleansers. Guild, Bascom & Bonfigli, S.F., is the agency.

**Culver’s $8 million**

Alberto Culver has added new lustre to its hair care advertising by grooming itself with additional network tv properties.

The Chicago-based company (VO-5, Rinseway, Command for men) last week purchased participating sponsorship in NBC-5’s Lawless Years and ABC-5’s Black Saddle, Bob Cummings Show and American Bandstand, while also increasing its spot tv schedules in major markets. The buys boosted A-C’s broadcast advertising to “well over $8 million” (over $5 million network, $3 million in spot). Alberto Culver now has part of 14 network tv programs, 10 of them daytime shows.

In 1955 the account, handled by Geoffrey Wade Adv., Chicago, spent a mere $100,000 for advertising, all in print. A year later it switched almost exclusively to tv utilizing what President Leonard Lavin describes as the “rifleshot” technique and “ricocheting” results.

**Standard’s $10 million**

D’Arcy Adv. Co., Chicago, will shortly submit a $10 million advertising budget, about half in broadcast media, to Standard Oil Co. of Indiana for calendar 1960. An estimated $5 million will be for sports telecasts, radio and tv weather and news programs in a 15-state regional marketing area represents about same sum as for 1959.

Standard has purchased half of NCAA regional football telecasts on six NBC-TV stations in Michigan this fall.

HOW STATIONS ARE USING VTR

Utilization, advantages, problems reported in survey by Syracuse U.

Does the purchase of a video tape recorder result in new business and clients for a TV station? Of 56 stations answering a survey conducted by the Syracuse U. Television Center, (Lawrence Myers, research director) 45 (or 81%) responded in the affirmative.

The survey (researched by Philip H. Burrell of WSYR-TV Syracuse, N.Y., as part of his work for a Masters degree) was based on the results of questionnaires mailed to all VTR-equipped stations. A 62% return was received.

Of the respondents, 45% regularly run at least one of 15 syndicated TV tape programs. Most used of the syndicated shows are Divorce Court (11 stations), Juice Box Jury (6 stations) and Magic Circus (4 stations). Syndicating local shows on a national or regional basis is contemplated by 38% of the stations, while 13% (6 stations) report they are already syndicating local shows.

Delayed Network Shows • Network shows are taped for delayed broadcast by 30% of the network affiliated stations. However, 35% of the network affiliates report they have had requests to video tape a program denied by their networks. The majority of network shows taped for delayed broadcast have been in the news and special events fields.

Several stations maintaining sound-on-film equipment report that the addition of VTR has drastically curtailed the use of motion-picture equipment. Sound-on-film is now used almost exclusively for news coverage while VTR is used for commercials and interviews.

VTR facilities of 81% of the stations are available for outside contract tape work. These stations have published rate cards for the service, ranging from a low of $25 an hour to $460 per VTR hour. Average hourly rate is $192 per hour.

Union problems resulting from VTR tape practices have been experienced by 15% of the stations. Dominant causes include limitations imposed by the musicians union, jurisdictional problems and disputes over payments to announcers and talent. Talent fees or residuals are paid to announcers for repeated plays of TV commercials by 64% of the stations.

Tape Exchange • Approximately half of the VTR-equipped stations exchange taped programs and spots with other stations. Less than half (41%) maintain a library of their video tape programs.

At the time of the survey (July 1959), 4% of the stations had three or more TV tape recorders, 32% had two, and 64% had one. Additional machines are in the plans of 74%. A portable model, when it becomes available, might be purchased by 31%, while 43% are undecided about portable VTR.

VTR’s chief advantages are (1) improved scheduling and flexibility of crew and facilities, (2) better production control and elimination of errors and (3) expansion of “live” local programming via tape. Effects on working hours include shorter work hours for talent, more productive working hours and cuts in weekend scheduling.

With only one station equipped with color tape facilities at the time of the survey, 49% plan the addition of color TV tape in the near future.

Night school

Executives at KOOL-TV Phoenix are thinking of starting a course in video tape for public officials. Such education is necessary, they feel, after a harrowing experience trying to convince an official of the state labor department that they were not violating state labor laws in using children in a commercial broadcast in the late evening hours. Trying to explain by telephone that the children were not in the studio at the time although they appeared to be, that the spot had been taped during daytime hours, that taping is like filming, to a skeptical state employee was an experience they’d like not to go through again.

New FM group slates organizational meet

Three areas in which FM has been most noticeably shorthanded—research, sales and marketing—will be explored this week when the new National Assn. of FM Broadcasters holds its organizational meeting in Chicago.

Election of a board of directors and officers will be first on the agenda when

Ask a Hollingbery Man!
the two-day session starts Friday (Sept. 18) morning at the Palmer House. The organization is successor to Assn. of FM Broadcasters, set up last spring as successor to FM Development Assn.

Speakers for the Friday afternoon session include Alfred Politz of the research organization bearing his name; Arno Johnson, vice president and senior economist of J. Walter Thompson Co., who is scheduled to discuss marketing, and Art Belfare, vice president in charge of radio-tv copy for BBDO, on a creative approach to selling fm. The Saturday (Sept. 19) agenda includes a report by Dr. Sydney Roslow, director of The Pulse, on fm audience research, and a luncheon address by Harold E. Fellows, president of NAB.

The association, authorized by the AFMB board as AFMB’s successor, currently is in the hands of an organizational committee composed of William B. Casky, WPEG Philadelphia; Lawrence Gordon, Beam Cast, Buffalo; T. Mitchell Hastings Jr., Concert Network Inc., Boston, who is serving as organizational coordinator; Frank Knorr Jr., WFKM (FM) Tampa; Fred Fabell, KITT (FM) San Diego, and William Tomberlin, KMLA (FM) Los Angeles.

Reservations and registrations may be made through NAFMB, One Park Ave., New York 16.

RAB starts drive for auto dollars

Radio Advertising Bureau, New York, sees a big sales opportunity in this year’s automobile competition. Accordingly, it is furnishing more than 1,000 member stations with material to present dealers at new-model time.

It may turn into the biggest radio campaign ever aimed at a single group of advertisers, RAB thinks, and says chances for new auto billing have never been better. With the automotive big three introducing “compact” cars, dealers—in both standard domestic and foreign makes—are prepared for a hard-fought season, RAB members are reminded. The bureau goes on to list such dealer difficulties as low profit percentage on sales and dealer mortality.

RAB’s answer to these problems is a 24-page presentation “Radio: Miles Ahead for Auto Dealer Advertising.”

The title assumption is documented with data on radio’s full-market reach, delivery of the decision-making male, excellence in the important suburban market and ability to reach “the auto dealer’s best prospects, present car owners, right while they’re driving their outdated model.”

DOMINICANS FILE MBS SUIT

Seek to recover $750,000 from Guterma et al

The Dominican Republic has gone to court to recover the $750,000 it claims was paid to Atlan, the Guterma and Hal Roach Jr. for the use of MBS as a “news” disseminator and says it holds a collateral guarantee in the form of a stock certificate purporting to represent all of the network’s outstanding stock (Broadcasting, Sept. 7).

The damage suit names Messrs. Guterma, Roach and Garland L. Culpper as former officials of Mutual, plus the network itself, Hal Roach Studios and Mutual’s Radio News Service Corp. It was filed Sept. 4 in the U.S. District Court at Washington, D.C., concurrently with Messrs. Guterma, Roach and Garland L. Culpper’s appearance before District Court Judge Luther W. Youngdahl there to plead innocent to charges of a federal grand jury that they had “sold” the network to Gen. Rafael Trujillo and his government for use as a propaganda vehicle and had failed to register with the Justice Dept. under the Foreign Agents Registration Act. Their trial is scheduled Nov. 16.

Mutual, however, denies that the stock certificate could be valid since all legal certificates are locked up in its safe in New York. Mutual has had two changes of ownership since the Guterma group was in control earlier this year—Malcolm Smith and then Robert F. Hurleigh. Mr. Hurleigh is making an effort to salvage the network with the financial backing of industrial-investor Albert McCarthy. Mr. Hurleigh is to continue as owner pending resolution of a voluntary bankruptcy proceeding and a 10-cents-on-the-dollar settlement.

Agreement Not Fulfilled • The Dominican Republic’s damage suit, filed by Washington attorney Edward L. Carey, claims that Messrs. Guterma et al., made an agreement with the island republic early this year under which Radio News Service Corp. was obliged to transmit “news, news items and commentary” to Mutual and its affiliated stations. The suit contends this agreement has not been carried out.

The Dominican suit claims a collateral guarantee was given—a stock certificate for 1,100 shares in Mutual, issued to Hal Roach Studios, endorsed by “Hal Roach Jr.” with the signature guaranteed by the “New York Trust Co.” The certificate was believed to represent all of MBS’ outstanding stock.

Mr. Roach sold his Hollywood tv-movie studios last May to Mr. Guterma’s Scranton Corp. in an undisclosed part-cash, part exchange-of-stock deal.

The grand jury indictment alleges propaganda material actually did get on the air earlier this year. The Dominican, however, deny that “propaganda” was involved and contend only legitimate news was to be aired, with the network reserving the right to accept or reject the material submitted.

Conspiracy Alleged • The grand jury indictment charges Messrs. Guterma, Roach and Culpper with failing to register Mutual under the foreign agent law and also charges Messrs. Guterma and Roach with personally failing to register. The indictment alleges that the trio “conspired” to enter into an agreement with officials of the Dominican Republic to cause Mutual to be used to disseminate propaganda “under the guise of bona fide and genuine news.

items" and to conceal payment of $750,-
000 for such use. All three defendants
have denied these allegations.

The grand jury indictment also
named as "co-conspirators" Mutual it-
self, Radio News Service Corp. and
Otto Vega, a Dominican official.

District Judge Youngdahl set bond
for Mr. Gutermu at $5,000 despite pleas
of Justice Dept. Counsel for a $25,000
bond on the ground the higher amount
was necessary to discourage Mr. Gutermu
from leaving the country. Nathan
B. Lanvin, Justice attorney, said Mr.
Gutermu already was in a "sea of
trouble" from other federal indictments.
Bond for Mr. Roach was set at $3,000
and Mr. Culpepper $2,500.

In New York Sept. 9 Mr. Gutermu
pleaded innocent in another federal
court to an indictment charging that he
and five others, including Lowell M.
Birrell (now in Brazil), conspired to
violate the anti-fraud laws in the sale of
United Dye and Chemical Corp. stocks.

Meanwhile the Securities and Ex-
change Commission postponed to Oct.
12 a hearing scheduled last week on
whether or not to suspend or with-
draw the listing of F.L. Jacobs Co. on
the New York Stock Exchange. The
firm, controlled by Mr. Gutermu and at
one point the owner of Mutual itself,
was charged with failing to submit re-
quired SEC financial reports. Jacobs
Co. now is in bankruptcy reorganiza-
tion.

Rival employs claim
KRLA debut prizes

KRLA Pasadena, splashing into the
Los Angeles market under its new Don-
ad R. Cooke ownership with a double
wave of big-prize listener contests (AT
DEADLINE, Sept. 7), last week found
competitive station employees claiming
both major prizes.

KRLA spent three days billboarding
its debut Sept. 3, airing only promo-
tional announcements. Then on the
opening day it heralded a $10,000 con-
test to find on the city streets its new
personality Perry Allen. The prize
money was to become less each day as
clues to his whereabouts became easier.
On Sept. 4, for example, KRLA aired
this announcement: "Go out on the
streets of Los Angeles today. Take a
hint: go to a Los Angeles restaurant,
look for a guy in a bow tie and say,
'KRLA 1110 L.A.' And if you say this
to me, the newest member of KRLA's
ever lovin' 1110 men, Perry Allen, you'll
be richer by $9,000 in cash. So go."

Unexpected meeting • At just about
that time, Charles Arlington, newsmen
of KFWB Los Angeles, and Joseph
Zingelli, salesman at WISK Minneap-
One stop shopping...

Shopping for time and talent on the CBS Radio Pacific Network's a snap. You buy a lot of stations with the ease of a one station buy. What's more, you enjoy supermarket convenience and a choice variety of top brand radio names.

Say you want to cover the West. You want to reach women. Or men. Or both. It's simple with our one stop shopping plan. Pick the shows you want — Art Linkletter, Harry Babbitt, Frank Goss News, the Daytime Serials, Gunsmoke and other great weekend dramas. Pick the times you want. Mornings, afternoons and evenings. You can get real impact with real economy! If the ringing cash register is music to your ears, the CRPN can play your melody. Ask your CRPN or CBS Radio Spot Salesman for the details.

Represented by CBS Radio Spot Sales
lis, found Mr. Allen. But the scene was not a Los Angeles restaurant. It was in a studio of WKBW Buffalo where Mr. Allen was completing his work before leaving to join KRLA.

Queried by Broadcasting last Wednesday, Robert M. Purcell, president of WISK as well as KEWB San Francisco and KFWB Los Angeles (radio stations owned by Crowell-Collier Publishing Co. whose broadcast division Mr. Purcell heads), said that he had been listening to KLRA "as a matter of course to check on the programming of this new station and see what kind of competition it might offer KFWB.

"I was astounded when I heard them say to look for Perry Allen in Los Angeles when I knew he was in Buffalo," Mr. Purcell continued. "So I called Charlie Arlington who was in Minneapolis helping to set up the news operation of WISK and instructed him to go to Buffalo immediately to claim the $10,000. He and Zingelli took a plane to Chicago, caught another to Cleveland and hired a limousine to take them to Buffalo. Picking up a reporter for the Buffalo Evening News and a photographer, they went to WKBW, saw Mr. Allen and delivered the requisite message and asked for the money."

Surprise Reaction • "As I get the story, Allen didn't quite know what to do, so Arlington telephoned KRLA and talked to Jack Cooke and said he was from Southern California and asked for the prize." Zingelli also got on the phone and identified himself as a salesman for WISK. Mr. Cooke suggested that they both fly to Los Angeles with Allen for a big publicity splash.

Mr. Purcell continued, "perhaps I should've let them do it and pulled the rug out from under them at the airport. Instead, they were told of Arlington's connection with KFWB and we sat back to see what would happen next. When nothing happened, I instructed our attorney to make an official request to KRLA that they deliver $10,000 to KFWB. This he did earlier this week."

KRLA is owned by Donald Cooke, station representative, who last week was in his New York headquarters. His brother Jack Kent Cooke, who was in Los Angeles, is a Canadian broadcaster, owner of CKFJ Toronto. He disclaimed any official connection with KRLA and referred questions to E.V. Schulz, KRLA general manager.

On Wednesday afternoon (Sept. 9) Mr. Schulz issued a statement which explained that one of the new deejay personalities, Perry Allen, had not yet arrived at the time of KLRA's debut. It said that "to promote Mr. Allen's arrival in Los Angeles and his new KRLA radio show, we began a 'Find Perry Allen' contest, directed to KRLA..."
CHANNEL IMPACT. Now, America's leading creators of radio and TV musical productions, offer TV stations a new, powerful means of channel identification... C.R.C.'s CHANNEL IMPACT I.D.'s. listeners in our coverage area. A cash prize of $10,000 decreasing daily as clues to Mr. Allen's whereabouts became easier, was offered to the first KRLA listener in Southern California to find Mr. Allen ...

After Mr. Arlington had claimed the prize, Mr. Schulz stated, "we learned that he is an employee of Crowell-Collier Pub. Co., owner of KFWB ... that Mr. Arlington had not been in Southern California while the KRLA 'Find Perry Allen' contest was running ... that Mr. Arlington had received telephoned instructions from his employers to go to Buffalo from Minneapolis in order to find Perry Allen. Since it is now clear that Mr. Arlington did not himself hear or listen to KLRA while the Perry Allen contest was being broadcast, and that he went to Buffalo under the direction and control of his employers, the Crowell-Collier Pub. Co., we have referred the entire matter to our attorneys for their legal opinion."

The Other Contest • In addition to the "Find Perry Allen" contest, KRLA had also been exhorting its listeners to find the "golden key" to the station's new 50 kw transmitter and broadcasting clues to the key's location. Prize for finding the key started at $50,000 and was lowered as clues became more explicit.

This prize reached the $5,000 mark Labor Day, when the key was found near Marineland by Patricia Beer, wife of William Beer, newsreel cameraman at KJH-TV Los Angeles.

Changing hands
Announced • The following sale of station interests was announced last week, subject to FCC approval:

• KFI - Klamath Falls, Ore.: Sold by the estate of W. Don Miller to Doug Anderson, George McConnell, Mark Hanan and Riley Gibson for $145,000. All buyers are associated in the ownership of KXOA Sacramento, Calif. Mr. Gibson, who arranged for acquisition of KJFI, will manage the station upon FCC approval of the purchase. KFI is on 1150 kc with 5 kw daytime and 1 kw nighttime power.

APPROVED • The following transfers of station interests were approved by the FCC last week (for other Commission activities see FOR THE RECORD, page 123).

• KRKD - AM-FM Los Angeles, Calif.: Control sold to Trans American Broadcasting Corp. by Albert Zugsmith, Frank Oxarart and John D. Feldman for $1,250,000. Trans American is headed by Robert A. Yeakel who is also a 24% owner. Others in the

Heed the Call of the New Figure!

There's a NEW Number Two – WAM-E (Whamm-y) 5000 W. on 1260

Our TIME BUYER friend has had a bit of a shock. His ideas about the Miami radio market have been blasted wide open by a hard hitting, promotion and merchandising minded new station which in just seven months has roared to second place in Miami. Hooper says we're a dominant NUMBER TWO now with an average Monday through Friday 17.8% share of audience (52% more audience than the #3 station).

Pulse gives us a 12% share, 6 a.m. to 6 p.m. Monday through Friday. And Whamm-y is NUMBER ONE when it comes to cost per thousand. We deliver thousands more listeners per dollar than any other station.

So-o-o-o, MR. TIME BUYER, take a second look at the Miami market and you'll see WAM-E. Or have a chat with our National rep, Daren McGavren; our Regional rep, Clarke Brown, or Station Mgr., Murry Woroner.

United Press International news produces!
Tough nuts to crack call for “AutumnAction”

Fall promotion plans for your product got you up a tree? Don’t bury the problem and wait till winter. If yours is a big-ticket item, health or food product, consider these facts about ABC’s great “AutumnAction” promotion...

1. Your commercial is next to editorials on your type of product, to build listener “wants” — leaving all your commercial time for selling your brand. You get support in other time spots, too.

2. You get ABC’s “4-Most” Marketing Plan, a complete, coordinated merchandising package, covering all market groups essential to the successful promotion of your product.

That’s “AutumnAction” in a nutshell. And all for the lowest cost per thousand in any national medium. (You can continue your campaign to Christmas at a discount for the extra period.) For full information on “AutumnAction,” write or call:

ABC RADIO NETWORK
7 W. 66th St., New York 23, N. Y., Susquehanna 7-5000

A reprint of the above illustration, suitable for framing, is available on request.
day luncheon of the INBA fall meeting in Springfield’s Hotel Leland Saturday (Sept. 12). Afternoon panels were devoted to discussions on handling particular news stories and whether radio-television news is meeting “today’s challenge.” Among panelists were Frank Jordan, NBC Central Div. (WMAQ and WNBQ [TV]); Bill Miller, WTAX, and Robert Brown, WMAY, both Springfield. Spizz Singer, WTAX farm director, discussed his recent tour of Russia.

Election of officers and other business were scheduled for Sunday (Sept. 13), along with a luncheon talk by M. L. Harney, superintendent of Narcotic Control Division, State of Illinois’ Department of Public Safety. United Press International held its semi-annual meeting and joined with Associated Press in hosting hospitality suites. Illinois Lt. Gov. John H. Chapman was special guest at the Saturday evening banquet for INBA members.

**MBS starts briefings**

Southern affiliates of MBS last week heard testimony by visiting station managers on the Mutual “news-plus-low-option-time operating formula.” The first in a series of regional affiliate sessions drew 80 station owners from seven Southern states to Atlanta’s Dinkler-Plaza Hotel Thursday (Sept. 9).

On the rostrum: Sam W. Sloan of WOHO Toledo, who said MBS newscasts helped him make more than $20,000 in new sales since July 1; Irving Lichtenstein of WNBA Newark, N.J., whose staff has sold several news strands since Aug. 31; Harvey Hudson of WLNE Richmond who finds Mutual offers “the most service at the least possible cost,” and Fred E. Walker of WTTM Trenton, N.J., heard on tape to the effect that in two weeks following affiliation with MBS, sales were up 16.3% and 20.1% over comparable weeks last year.

**THE PCP PLAN**

**CBS affiliates meet has it high on agenda**

CBS Radio’s nine-month-old Program Consolidation Plan is expected to be one of the main topics when the network’s affiliates convene in New York next week, and convention planners have arranged an agenda to accommodate the subject.

President Arthur Hull Hayes, long on record as expecting PCP to get the network into the black, will present a panel of station executives to discuss “How We Operate Under PCP” at Wednesday’s (Sept. 23) opening session. He also plans to introduce the 18 new affiliates signed since PCP went into effect Jan. 5 (in which time approximately the same number of other stations have discontinued the plan).

The PCP panelists will be Odin Ramsland, KDAL Duluth; Larry Haeg, WCCO Minneapolis; Lee Fondeva, KL Denver; Tom Dillahunty, KOSY Texarkana, Tex., and C. Robert Thompson, WBEN Buffalo.

**Godfrey, Stanton speakers**

Principal luncheon speakers for the two-day convention will be Arthur Godfrey on Wednesday and CBS Inc. President Frank Stanton on Thursday. The banquet Wednesday night will include entertainment by Pat Buttram and Bob & Ray, CBS Radio stars. Tina Robbin and the Goofers, a comedy quartet, will also perform.

David Schoenbrun, CBS News Paris correspondent, will address the affiliates Wednesday afternoon on “World Affairs” and introduce a special “CBS News Around The World” presentation with remote pickups.

A closed meeting of affiliates will open the second day’s sessions at 10 a.m. It will be followed by a question-answer period with network officials. Presidents of the various divisions of CBS Inc., and...
CBS news correspondents from the U.S. and overseas will be guests at the final luncheon.

Frank Fogarty, WOW Omaha, heads the committee planning the convention, to be held at the Waldorf-Astoria with attendance of approximately 300 expected.

The convention will be preceded by a meeting of the Board of Directors of the CBS Radio Affiliates Assn. on Tuesday (Sept. 22).

**Media reports**

KTLA (TV) plans • The new fall schedule at KTLA (TV) Los Angeles calls for 117 1/2 hours of programming a week, of which 84 1/2 hours (72%) will be live. Jim Schulke, vice president in charge of Paramount Television Productions and general manager of KTLA, announced that 33 hours of filmed programming includes only six hours of theatrical motion pictures during evening hours. Virtually all of the station's new live shows also will be video taped for syndication through Paramount Television's distribution department.

CBS-TV agency shift • CBS-TV is moving its advertising account, estimated at more than $1 million a year, to BBDO after some 12 to 14 years with McCann-Erickson. The appointment was announced Wednesday (Sept. 9) by network President Louis G. Cowan. He gave no reason for the move but said it was effective immediately. CBS Radio's advertising is handled by Doyle Dane Bernbach.

XETV (TV) relocates • XETV (TV) Tijuana-San Diego will move from Park Blvd. to new, enlarged quarters on the second floor of the El Cortez Travolator Hotel, San Diego, by Oct. 1.

NBC additions • WQDY Calais, Me., and WMOA Marietta, Ohio, have joined NBC. WQDY is on 1230 kc with 250 w, owned by St. Croix Broadcasting Co.; John H. Vondell Jr., vice president and general manager. WMOA is on 1490 kc, 250 w, owned by Marietta Broadcasting Co., R. Sanford Guyer, general manager.

Summer gains • Radio Advertising Bureau Inc., N.Y., swelled its membership roster by 113 stations during the months of June, July and August, it was announced last week by Warren J. Boorom, RAB vice president and director of member service. The total represents a 68% gain over the same period a year ago. Reaching the 1,000 station mark in June, RAB expects to meet its goal of 1,150 station members by the end of 1959, Mr. Boorom added.

WGN-TV rate card • WGN-TV Chicago has issued Rate Card No. 18. Some of the data: Increase of Class I and II for spots to four (Class A, B and C) and those for programs from three to four (Class A, B, C and D).

Ladies' choice • American Women in Radio and Television Inc., N.Y., formerly located at 301 Madison Ave., has moved its national headquarters to 75 E. 55th St.

**Rep appointments**

• KGHL-TV Billings, Mont., appoints Devney Inc., N.Y., as national sales representative.

• KCMK (FM) Kansas City, Mo., names Good Music Broadcasters Inc., N.Y.

• KIEV Glendale, Calif., names B-N-B Inc. Time Sales for West Coast.

• WLAM Lewiston, Me., appoints Everett-McKinney Inc., N.Y.

• KNDS Hanford, Calif., names B-N-B Inc. Time Sales, L.A. for West Coast.
GOVERNMENT

THE LABOR BILL AND RADIO-TV

It promises relief from pressures unions have put on sponsors

Important new safeguards against blackmail picketing and secondary boycotts, problems that have haunted broadcasters for years, are provided in new labor legislation passed by Congress.

The labor bill (S 1555) was on President Eisenhower's desk late last week awaiting his signature.

Passage of the bill followed some of the most explosive hearings and pressure lobbying in Washington history. The hearings were sparked by racketeering revelations before the investigating committee headed by Sen. John L. McClellan (D-Ark.) and by less spectacular House and Senate committee investigations into labor-management relations problems.

In its final form, the legislation included most of the provisions voted by the House. These provided language dealing with loopholes in the Taft-Hartley Act by which unions were able to apply economic weapons against sponsors—neutral parties in broadcast labor disputes.

Both Sides Benefit • The legislation provides protection for both broadcasters and union members, according to Charles H. Tower, NAB personnel relations-economics manager. "The Taft-Hartley law contained a ban against secondary boycotts," Mr. Tower said. "At the time the law was enacted in 1947 it was clear that Congress intended to do away with all secondary boycotts.

"Loopholes began to appear in the law's boycott protection. One of these seriously affected broadcasters by allowing unions to put certain types of economic pressure on sponsors. In secondary-boycott lingo the sponsor is a secondary or neutral employer when the station becomes involved in a primary strike. Economic pressure on such a neutral is a secondary boycott."

 Asked for an example of the way this secondary boycott operates, Mr. Tower said: "Radio station WWW (fictional) becomes involved in a primary collective bargaining strike. The striking

Meet the writers of the new labor legislation

Two members of the House of Representatives drew up the legislative language that gives broadcasters, along with all American business and industry, protection against blackmail picketing and secondary boycotts: Phil M. Landrum (D-Ga.) and Robert P. Griffin (R-Mich.).

They took the lead in hearings before the House Education & Labor Subcommittee, at which Rep. Landrum presided. They led the floor debate as the House overwhelmingly voted legislation providing real relief as against a Senate bill that was mostly silent on picketing and boycotts. Finally, they held their ground in the Senate-House conference where final language was set.

Youngest of the pair is Rep. Griffin, 35, serving his second term in the House. A lawyer, he comes from the Michigan district that includes Muskegon and Traverse City. This district is heavily industrialized, serving the automotive industry around Detroit. Nearly half of its voters are union men.

Not Anti-Union • He gets red-necked when union lobbyists describe the new law as a union-busting bill sponsored by the National Assn. of Manufacturers. "Our job was to find what corrections were needed and to come up with suitable amendments to the Taft-Hartley Act," he said. "This is a constructive law which meets the minimum needs laid out by President Eisenhower and Secretary of Labor James P. Mitchell."

Rep. Griffin carried the brunt of the House and conference fight on boycott-picketing provisions. This critical language almost broke up the Senate-House conference. Last-minute rewriting and earnest leadership saved the conference and probably the whole effort to enact desperately needed labor legislation.

Rep. Landrum's role as chairman of the House investigating subcommittee was an important factor in the legislative campaign. Like Rep. Griffin and a vast majority of House members, he resisted the blatant and subtle maneuverings and pressures of union lobbyists in his desire to plug gaps in the labor laws.

Aged 49, Rep. Landrum is in his fourth House term. On occasion, he is heard referring to himself as "a country lawyer from the North Georgia hills."

REP. LANDRUM

They led the crusade for new labor legislation

10-SECOND SPOTS — PRACTICAL AND PROFITABLE WITH AN AMPEX

Spot commercials pay off. And even 10-second spots become practical with an Ampex Videotape* Television Recorder. Here's how these Ampex exclusive features make it possible...

- **TAPE TIMER** Locates the 10-second spot on a reel...measures in hours, minutes and seconds...lets you set up 2, 3, 5 or 7 second cue-in for programming the 10-second spot.

- **2-SECOND START** Recorder is in full, stable speed fast...permits even a 2-second cue with a safety margin.

- **WAIST HIGH TAPE DECK** Permits loading of next commercial in seconds...reels lie securely without locks. Table top provides extra work space.

- **AUTOMATIC BRAKE RELEASE** Makes reels free wheeling...tape pulls easily for fast threading — without tape stretch or crease.

Write, wire or phone today for an Ampex representative — or ask for the new, fully illustrated brochure describing the new Ampex VR-1000B. Whatever you want to know about the advantages and profits in TV tape, get the facts from Ampex. AMPEX HAS THE EXPERIENCE.
WNTA Radio brings high fidelity to commercial radio with "LISTENING MAN'S FILTER" BLONDER-TONGUE AUDIO BATON

One of the nation's fastest growing AM and FM stations has scored an outstanding success with its listeners by bringing high fidelity sound to commercial radio. WNTA refers to the secret ingredient responsible for this as the "Listening Man's Filter". WNTA station manager, Irv Lichtenstein recently announced that the "Listening Man's Filter" is actually the Blonder-Tongue Audio Baton.

The station's chief engineer, H. L. Dabrowski, described the Audio Baton as follows: "L-M-F, the "Listening Man's Filter" (Audio Baton) is an electronic device that emphasizes or de-emphasizes certain critical frequencies throughout the audio spectrum. It is a very refined form of tone control without the limitations of the average tone control device. The usual device tends to mask frequencies, other than those for which it is set, in the audio spectrum. L-M-F allows complete control of nine frequencies individually without any of the masking difficulties encountered in the past."

Not only does WNTA Radio use the Audio Baton during its daily broadcasts, but every hour on the hour, it dramatically merchandises this new sound...by demonstrating the difference between a musical selection played with and without the Baton. The difference is so striking that enthusiastic listeners have applauded it as a step forward to better musical broadcasts. Engineers, too, have deluged WNTA Radio with requests concerning the identity of the "Listening Man's Filter". Now, the secret is out—it's the Blonder-Tongue Audio Baton.

Perhaps you, too, would like to improve the quality of musical broadcasts or recording at your station, the Audio Baton is a low-cost solution. Only $119.95.

SOLD THROUGH DISTRIBUTORS, OR WRITE DIRECT FOR FURTHER DETAILS.

New law in brief

Secondary Boycotts • All employers, including broadcasters, get more protection against boycotting of neutral parties (sponsors, for example).
Blackmail Picketing • A coercive picketing designed to force employers to choose a union is greatly restricted.

No Man's Land • There is no longer a no-man's land where National Labor Relations won't take a case and the states cannot.

Representation Cases • Regional NLRB directors now have the power to decide such cases as well as conduct hearings.

Reporting • Employers as well as unions must file certain types of reports.

Rights of Unions • Members of unions now have a guarantee of fair play in internal union affairs.

Economic Strikers • They will vote along with their replacements during a 12-month period following the strike.

union goes to a retail store that buys time on WWWWW and threatens to organize a customer boycott against the store unless it stops its WWWWW advertising.

"This is a secondary sponsor boycott. It is a secondary boycott, pure and simple, because it involves economic pressure (or the threat of such pressure) directed towards a neutral employer to force him to stop doing business with the station.

"This type of secondary boycott was not covered by the language of the Taft-Hartley Act. That law prohibits the inducement of employees to refuse to perform work. It does not prohibit the inducement of customers to refuse to buy."

Depends on Interpretation • Mr. Tower was asked if the new law will take care of this problem.

"We hope and believe that it will," he said. "Criticize it, will take care of certain types of secondary pressure directed at a sponsor. There's no way of stating flatly how far this relief will go in the case of broadcast stations. The exact amount of protection will depend on the way courts interpret the new law and the decisions of National Labor Relations Board."

How will this protection work? "Even under the Taft-Hartley Act," Mr. Tower said, "a union could not induce the employees of a sponsor to refuse to perform work merely because the sponsor did business with a struck station. But the new law prohibits other types of economic pressure on a sponsor such as a picket line in front of a department store's customer entrances.

"It will also prevent harassing tactics such as switchboard jamming and telephone threat campaigns. We also believe the law, if properly construed, will prevent all types of inducement of consumers to refuse to buy from a sponsor who does business with a struck station."

The new law gives protection to economic strikers (employees who strike over wages, hours or working conditions). "Economic strikers will now be allowed to vote in a representation election," Mr. Tower said, "even though they have been permanently replaced provided the election takes place within 12 months after the beginning of a strike."

"Under the new legislation union members receive certain safeguards in regard to disciplinary actions by their unions as well as the right to be heard at meetings and the right to vote in a fairly held election."

No-Man's Land • Mr. Tower explained the new review language this way, "Several months ago the NLRB, in setting up jurisdictional standards, declared it could not takes cases involving radio or tv stations doing less than $110,000 a year. Before passage of the new law, such stations had no place to go in terms of a forum that would handle either elections or unfair labor practices. The new law allows the states to act in such cases."

He added, "broadcasters as businessmen and citizens, and employers both have a real stake in a democratic and honest labor movement. The new law provides advantages for both management and personnel."

Management's position in collective bargaining will be helped, according Mr. Tower. "The law will not radically affect management-labor negotiations," he said. "Rather it is designed to eliminate some types of coercive tactics used by unions in setting up new bargaining units. This will not affect legitimate organizing activities."

"The effect should be to make unions more democratic but they still have all their basic rights to bargain collectively—and do an aggressive job of it."

"Organized labor now realizes that an aroused public will rise to demand correction where abuses prevail."

"It's both a good and a moderate law. The bulk of the language represents an attempt to guarantee democracy in unions and to make life difficult for gangsters and hoodlums who find their way into labor organizations. It's designed to strike at force and corruption in organized labor."

THE 86TH: MORE TALK THAN ACTION

In Congress' first session: much broadcasting activity, only one bill

The 86th Congress, nearing adjournment, has amassed this record on broadcasting matters:

- It introduced more than 250 bills affecting radio-tv.
- It collected thousands of pages of testimony at hearings on broadcasting subjects.
- It passed one measure of historic significance, amending the political broadcasting law to exempt all kinds of news programs from equal time rules.

(For an account of what still another action—the labor bill—means to broadcasting, see page 60.)

The session began last January amid predictions that it would smash the records of its immediate predecessors in investigations of broadcasting (BROADCASTING, Jan. 5). Although there was a radio-tv matter before one committee or another almost weekly, these expectations never quite materialized.

Several major broadcasting matters slated for public scrutiny never reached the hearing rooms. These included such subjects before the Senate Commerce Committee as the ratings investigation of Sen. A. S. (Mike) Monroney (D-Ala.), a continuing tv-allocation study begun five years ago, and a promised look into the Chicago network-labor squabble.

In spite of the 1958 disclosures of the House Legislative Oversight Sub-committee, nothing was done by either body about the 20-odd bills introduced to correct alleged failings in the Commission and regulated industry. No public sessions were held on pay tv, although Rep. Oren Harris (D-Ark.), chairman of the House Commerce Committee, held several private meetings with the FCC and successfully stopped plans for an all-out test.

Sen. William Proxmire (D-Wis.) made known his plans to introduce a bill abolishing the FCC but as yet it has not been placed before Congress. Sen. Warren Magnuson (D-Wash.), chairman of the Senate Commerce Committee, did nothing publicly about the several FCC reform proposals lodging in his committee, including one drafted “ripper” bill.

The Senate did pass Sen. Magnuson's bill (S 1965) which would keep a commissioner in office after his term expired and until a successor could be appointed by the President and approved by the Senate (BROADCASTING, Aug. 10). The House has taken no action on the bill. Several other communications bills were passed by the Senate with the House taking no action.

The One Action • The only measure acted on by both bodies, S 2424, exempts newcasts, news interviews, news documentaries and on-the-spot coverage of news events from Sec. 315 (equal time demands) of the Communications Act (see below).

In prior Congresses, a network regulation bill had been lodged in the Senate but last February, Rep. John Bennett (R-Mich.), introduced a bill (HR 5042) in the House to give the Commission direct licensing power over the networks (BROADCASTING, March 2).

Congressional adjournment will not give broadcasting a respite, however. Both Commerce Committees have announced investigations into the tv quiz scandal with the House Oversight Subcommittee planning public hearings the week of Oct. 6 (see below). Late fall hearings are a probability for a special small business subcommittee established to investigate the availability of tv programming to small advertisers (BROADCASTING, March 23). This subcommittee is headed by Rep. Charles Brown (D-Mo.).

Major industry matters aired during the first session of the 85th Congress follow:

Equal time • The only change in broadcasting regulations the 86th Congress has made to date was one of vital concern to radio-tv news coverage. S. 2424, as passed by both houses, exempts newcasts, news interviews, news

IN THE HOUSE OF REPRESENTATIVES
June 28, 1959

Referred to the Committee on Interstate and Foreign Commerce

AN ACT
To amend the Communications Act of 1934 in order to provide that the equal-time provision with respect to candidates for public office shall not apply to news and other similar programs.

1. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that section 315 (e) of the Communications Act of 1934 is amended by inserting at the end thereof the following:
2. “Appears... of news events, shall not be deemed to be one of a broad-

WEEKS OF HEARINGS

MAJOR BILL

BROADCASTING, September 14, 1959

64 (GOVERNMENT)
WHDH-Radio reaches an audience of over one million five hundred thousand families. On the following pages is an IMAGE STUDY of more than one million unduplicated families who listen to 50,000 Watt WHDH every week.
This is a New Era of Radio.

There are now three radios for every family in the United States — car radios in seven out of ten automobiles — ten million portable radios — a staggering total of 146,200,000 radios that reach an audience EVERYWHERE.

Yet in this New Era of Radio there is a vast difference among radio stations. It is a measurable difference. It is a difference that is the result of management, programming, personnel and attitude. It is a difference that attracts a different audience to different stations. It is a difference of tremendous importance to advertisers. To measure this difference and to determine the character of the WHDH audience, Pulse, Inc. has recently completed an Image Study Of The New England Radio Audience.

The study was conducted in the WHDH 25 county coverage area where during the past seven years 663,800 Pulse interviews have been completed. These interviews have consistently shown WHDH to have the largest audience of any New England station.

It was this area that formed the basis of the recent WHDH study "Radio's Five Years Of Great Change" published in the summer of 1958. The extensive interest in our original research was the determining factor in our decision to further "Probe In Depth" the character of the more than one million five hundred thousand families who listen to WHDH. Of the 8,000 families surveyed in the 1959 WHDH area study, a representative sample of 1,000 men and women 15 years of age and older were interviewed in depth. This research was undertaken to answer the question generally asked as to what kind of people listen to any given radio station. The results of this study, the first of its kind ever undertaken, are shown on the following pages.

CONCLUSION

For more than a decade WHDH has conducted all facets of its broadcasting business in an effort to reach the largest, most responsible audience possible. We feel the results of the Pulse Image Study shown on the preceding pages have borne out the success of this endeavor.

To an advertiser, WHDH offers not only the LARGEST radio audience in New England but a more mature, dynamic audience with money to spend and the desire to live better. The WHDH audience buys new products, takes pride in its ownership of homes and cars, travels, enjoys sports, and forms a responsible, receptive audience to radio advertising.

documents and on-the-spot coverage from Sec. 315 of the Communications Act.

The "who's who" of broadcasting descended on Washington in large numbers during both House and Senate hearings on several bills reversing the FCC decision that a candidate is entitled to equal time when his opponent appears on a news show. The furor started last February when the Commission made its ruling in the Chicago mayor's race (Broadcasting, Feb. 23).

Members of Congress and broadcasters decried the decision as one which would keep the American public ignorant of vital election issues through a forced cutdown of radio-television coverage. Rep. Glenn Cunningham (R-Neb.) introduced the first bill (Broadcasting, March 16) reversing the 4-3 FCC ruling.

President Eisenhower called the decision "ridiculous" and FCC Chairman John Doerfer plumped for outright repeal of Sec. 315 (Broadcasting, March 23). A score of other legislators soon joined Rep. Cunningham in introducing corrective legislation, with Sen. Vance Hartke (D-Ind.) urging a change going far beyond a reversal of the Chicago-Lar Daly decision.

Sen. Hartke was the prime force behind efforts to get hearings on the legislation, with Sen. John Pastore's (D-R.I.) Senate Commerce Communications Subcommitteee beginning a 5-day airing in June (Broadcasting, June 22). That same week, in the face of stiff opposition from the Justice Dept., FCC reaffirmed its equal time ruling.

Rep. Harris' House committee held hearings the week after Sen. Pastore closed his, with both chairmen promising broadcasters a change would be made. Senate passage followed late in July (Broadcasting, Aug. 3) and the House approved a slightly different version three weeks later (Broadcasting, Aug. 24), both on voice votes.

The conference that followed turned into a stormy session with Rep. John Moss (D-Calif.) objecting to language in the report making it clear that such programs as Face the Nation and Meet the Press would be exempt from equal time demands. Rep. Moss refused to sign the conference report and led an unsuccessful fight against the amendment when the conference version was before the House. It passed 142-70 on Sept. 2 and the next day the Senate again approved by a voice vote (Broadcasting, Sept. 7).

Community antennas and boosters • Senate activity in community antenna and booster legislation began in the first week of the new Congress and continued until the final days. Although no legislation was passed by either body, Hill "pressure" succeeded in getting the FCC to back down several times on efforts to force "illegal" vhf boosters off the air. (Community antenna systems serve subscribers by wire. Boosters are unauthorized vhf repeaters, of simple design and low cost, which pick up, amplify and re-broadcast, the signal of a distant authorized station.)

Last January, a Senate Commerce Committee staff report, authored by special counsel Kenneth Cox, hit FCC for its "haphazard manner" of handling problems related to providing tv service to sparsely populated areas (Broadcasting, Jan. 12). The report maintained the Commission has the authority and must exert control over catv and that the FCC should take immediate action to legalize boosters.

Periodic outbursts were made on the floors of both houses against FCC edicts telling the boosters to go dark. Sens. Frank Moss (D-Utah) and James Murray (D-Mont.) introduced $1886 to legalize vhf boosters. Sen. Mike Monroney (D-Okla.) sponsored legislation (S 2303) which would place catv under FCC control.

The committee held hearings on the two bills in July (Broadcasting, July 20), with a stream of broadcasters, catv operators and present and former members of Congress testifying. The FCC has resisted all efforts to give it jurisdiction over catv, maintaining community antennas are a common carrier and not a broadcasting service. The catv operators asked for federal regulation but denounced proposals which would require them to receive permission from a station before repeating its programs—a condition sought by most tv station operators who testified.

Sen. Magnuson's committee favorably reported both bills to the full Senate a fortnight ago after adding far-reaching amendments to the catv bill (Broadcasting, Sept. 7). Thirty-nine catv and booster bills were introduced in the House but no hearings were held in that body.

Spectrum investigation • A tug-of-war over who, if anybody, would conduct an investigation of frequency space assignments continued between the legislative and executive branches of government. The White House proposed that a committee appointed by the President conduct the study (Broadcasting, Feb. 9). This proposal met immediate and violent Hill opposition and Rep. Harris asked for, and secured, $150,000 from the House for a study by his Communications Subcommittee. Congress has two motives in pushing for a spectrum investigation:

(1) A desire to make more vhf space available for tv.

(2) An accounting of what space is
SALESMANSHIP
SHOWMANSHIP
SCHOLARSHIP

MAKE A BARTELL SCHEDULE A CAMPAIGN

Six stations in six cities. Each with a snap, a sound, a "feel" jigsawed within its own community. Yet each has a quality of creativity that is akin to all others and common only to Bartell Family Radio.

SALESMANSHIP is ingrained in every air personality and a part of the Bartell station acceptance that puts every campaign in orbit.

SHOWMANSHIP is in the production that arrests, sparks and entertains.

SCHOLARSHIP is inherent in the thought, planning and pre-testing of every unit of sound that is broadcast.

These qualities are contagious! From station level to Group headquarters, to each Adam Young office, you'll find more than receptivity—or even sympathy—you'll get good ideas! (Ask Needham Louis & Brorby in Chicago.)

assigned the military and how that space is being utilized.

Many congressmen, led by Rep. William Bray (R-Ind.), feel that much government space is being wasted while at the same time the military hopes to appropriate additional frequencies now used by broadcasting and other non-government services. They fear a White House investigation will be "stacked" in favor of the military.

Rep. Harris’ subcommittee held a two-day panel discussion on the spectrum last June (BROADCASTING, June 15) with participants from the industry, government and military. Several favored the creation of a new authority to make both government and non-government assignments. Under the Communications Act, the President is charged with the responsibility of allocated space to the government while the FCC makes all other assignments.

Following the panel, Rep. Harris introduced a new bill (HR 8426) which would establish a Federal Allocations Board with authority to divide the radio spectrum among all users—government and non-government. (BROADCASTING, Aug. 3). He said hearings would be held on this measure but a date has not been announced.

Legislative oversight • After its headline investigations of a year ago, the House Subcommittee on Legislative Oversight was relatively quiet during the past eight months. This uneasy calm will likely be shattered, however, when the subcommittee begins its Oct. 6 hearings into the TV quiz scandals (see story, page 90).

The subcommittee began the year with its report on the 1958 investigations, which recommended sweeping changes in many FCC functions and activities (BROADCASTING, Jan. 5). Rep. Harris, subcommittee chairman, introduced HR 4800 carrying out many of these changes but no action has been taken. The chairman has announced that hearings will be held on the bill early next year.

Over 20 other bills dealing with ex parte contacts, improper influence, FCC procedures and other corrective legislation were introduced as a result of the Legislative Oversight disclosures. All still are lodged in various committees.

The oversight subcommittee was officially revived in February with a $200,000 appropriation. New members appointed included Reps. Walter Rogers (D-Tex.), William L. Springer (R-Ill.) and Steven B. Derounian (R-N.Y.). Robert W. Lishman was reappointed chief counsel.

Late in July, Rep. Harris announced the subcommittee’s TV quiz investiga-
WSM-TV's recently completed tower (tallest in the Central South) is merely one more step in an engineering policy which constantly asks one simple question:

"What does it take to send a better picture to more people?"

As partial answer to this continuing quest, WSM-TV has given the Nashville market a unique series of engineering firsts . . . micro-wave relays, key effects equipment, zoom leases, color equipment, live remote units . . . The list is long. The results impressive. The Central South has come to count on WSM-TV for clearer, more professional telecasting . . .

Ask Hi Bramham or any Petry man how better engineering adds volume and tone to the WSM-TV symphony of sales. It's hi-fi listening if you want to ring cash registers in the Nashville market.
KHRUSHCHEV’S THIRD VISIT

When Mr. Khrushchev sets foot on American soil for the first time, you will be two long steps ahead of him. Thus far, you know more about him than he does about you. You have seen him in different moods and circumstances. You know how he walks and talks and laughs and looks. And on the basis of this eyewitness experience you have been able to form an impression of how he thinks.

Your first meeting with him was on the memorable FACE THE NATION interview in the Kremlin, broadcast over the CBS Television Network on June 2, 1957.

The decision to present this broadcast was an extremely important one for electronic journalism. For it was clearly predictable there would be people who would consider that enabling Mr. Khrushchev to face our nation was a propaganda victory for the Communist world. It was decided, nevertheless, that the American people, in Thomas Jefferson’s words, could be “safely trusted to hear everything true and false and form a correct judgment between them.”

It was an event that was acclaimed almost without exception as the most useful, enterprising and extraordinary achievement in the history of electronic journalism.

Your second searching look at Mr. Khrushchev occurred only last July when all the television networks brought you his rough and tumble tour of Moscow with Vice President Richard M. Nixon. Though you might have read every word in your newspaper that passed between Mr. Nixon and Mr. Khrushchev—you could never have understood them so clearly as when you observed every gesture, expression and inflection of their voices.

During the next two weeks you will have a third opportunity to penetrate the nature and personality of the leader of the Communist world.

As Mr. Khrushchev travels through our cities and towns and factories and farms, we hope he receives as clear and objective an impression of us as we will receive by reading our free newspapers and watching him on our free television screens.

Whatever comes of this historic visit, network television will make its unique contribution by providing the kind of information and understanding that can only result when people can see for themselves.

CBS NEWS will report Mr. Khrushchev’s visit fully on 35 regularly scheduled network news broadcasts. The network will also break into its schedule with special broadcasts whenever important events demand immediate coverage.

Seven of these special broadcasts will be sponsored by the Firestone Tire and Rubber Company as part of a series of 14 that began with the President’s recent visits with the heads of state in Europe and will conclude with his projected trip to Moscow.

In joining forces with CBS NEWS, Firestone can be confident that it is working with the most experienced and celebrated news organization in television today.

By helping the American people become an eyewitness to history, Firestone is one of a growing number of important American companies who recognize that good citizenship and good business can proceed from a single act of sponsorship.

tion, just hours before the Senate Commerce Committee made known its plans to explore the same fertile field (Broadcasting, Aug. 3). Both committees received court authority for access to secret New York grand jury testimony.

Sports antitrust exemption • Both arms of Congress again wrestled with legislation exempting professional team sports from antitrust laws—and, as in 1958, broadcasting was outspoken in opposing the bills which would authorize a blackout of radio-tv coverage.

The first of many bills similar to those which died in the 85th Congress were introduced early in the new session. Most would authorize a blackout of radio-tv coverage within 75 miles of the location of a team on the days that team plays at home. In addition, the bills gave the four sports—baseball, basketball, football, and hockey—an unqualified exemption from antitrust laws in certain geographical areas. It was this provision which caused great concern among broadcasters late in the session (Broadcasting, Aug. 17).

Sen. Estes Kefauver (D-Tenn.), chairman of the Senate Judiciary Subcommittee, introduced a bill placing the sports under antitrust laws and then spelling out areas of exemption. The FCC would be responsible for ruling that a sports blackout would be in the public interest under the Kefauver bill.

Hearings were held by the Kefauver subcommittee in late July (Broadcasting, Aug. 1) and as a result a new committee bill was drafted excluding baseball. Sen. Kefauver pointed out that baseball already has been ruled exempt by Supreme Court decisions and that more study is needed before a bill can be drafted including that sport. The latest bill was approved by the Antitrust Subcommittee and now is before the full Judiciary Committee.

Three days of House hearings were held on sports legislation early this month by the Judiciary Antitrust Subcommittee, headed by Rep. Emanuel Celler (D-N.Y.). During these hearings, emphasis was placed on the radio-tv provisions of the six pending House bills.

FCC housekeeping • Last winter, the FCC sent several recommended changes in the Communications Act to Congress. The Senate passed five of them, plus a sixth compromise bill between the FCC and the Federal Communications Bar Assn. (Broadcasting, Aug. 31, 24). The bills now are before the House Commerce Committee awaiting approval by that body, whose chairman has given no indication whether the bills will be taken up next session. The measures which passed the Senate:

S 1735 — repeals commissioners' authority to accept honorariums.
S 1736 — removes the provision that certain documents and applications must be sworn before being filed with Commission.
C 1737 — authorizes FCC to levy small fines in the common carrier, safety and special fields for violations of its rules.
S 1738 — gives commissioners more latitude in use of the review staff.
S 1740 — clarifies FCC authority to regulate rates of common carriers in their use of microwave for radio communications just as wire services are regulated at present.
S 1898 (Federal Communications Bar Assn. proposal) — establishes a "pre-grant" procedure for protesters to follow. S 1898 was accepted by the Commission after the FCBA agreed to withdraw its opposition to S 1738.

The FCC also had recommended that all extra contacts be banned (S 1734) but this measure was passed over because of an investigation into the same subject by the Senate Subcommittee on Administrative Practices & Procedures. The Communications Subcommittee of the Senate Commerce Committee held hearings on all the bills in June (Broadcasting, June 15).

Senate oversight • Last February, the Senate Judiciary Committee established a permanent Subcommittee on Administrative Practices & Procedures amid rumblings it would constitute the Senate's answer to the House Legislative Oversight Subcommittee (Broadcasting, Feb. 16).

The subcommittee, its enabling legislation said, was to conduct "a full and complete study and investigation into the same subject by the Senate Subcommittee on Administrative Practices & Procedures. The Communications Subcommittee of the Senate Commerce Committee held hearings on all the bills in June (Broadcasting, June 15).

During the subcommittee's first and only hearings to date on extra contacts, Sen. Dirksen caused an uproar when he said off-the-record conversations with commissioners are the "most natural thing in the world." The hearings were on S 2374, an American Bar Assn. proposal to ban off-the-record contacts with commissioners, and S 600 to establish an office of Federal Administrative Practice.

No action has been taken on either bill and the subcommittee has not announced a future course of action.

International treaties • The North American Regional Broadcasting Agreement fared no better during the first session of the 86th Congress than in every other Congress since 1950.

Ratification by the Senate was held

up because of opposition by the Daytime Broadcasters Assn. to the U. S. treaty with Mexico, signed in 1957. A special subcommittee, headed by Sen. Wayne Morse (D-Ore.), held a one-day hearing in July (Broadcasting, July 13).

In the subcommittee, tabled any action because of DBA efforts to obtain longer winter broadcast hours on Mexican clear channels, prohibited under the 1957 treaty (Broadcasting, Aug. 10). Sen. Morse said further hearings would be held early next January and that the subcommittee would make a definitive recommendation soon thereafter.

Educational tv • First hearings on broadcast legislation in the 86th Congress were held on evt in late January by the Senate Commerce Committee. The bill in question, S 12, would allocate up to $1 million to each state for evt on Mexican clear channels, prohibited under the 1957 treaty (Broadcasting, Aug. 10). Sen. Morse said further hearings would be held early next January and that the subcommittee would make a definitive recommendation soon thereafter.

Senate passage of the bill came in April with the only opposition coming from the administration for budget reasons. The Senate had passed the similar Senate Foreign Commerce and Sen. Magnuson had promised early action in the 86th Congress so the House “would have plenty of time.”

The reluctant House, however, failed to share the Senate’s enthusiasm. After brief hearings by the House Commerce Committee, the bill was tabled until that body could make its own field study of evt. Several members of the committee plan to tour several cities and stations this fall under the leadership of Rep. Kenneth Rogers (D-Ala.), one of prime House backers of the proposal.

Other measures • Listed below are the major radio-tv-FCC bills introduced in the 86th Congress not mentioned above. Over 50 were introduced in the Senate and just over 200 in the House, many of them not relating to broadcasting alone. There also were many bills similar in nature—over 35 relating to catv-boosters and 15 to equal time. All of the bills introduced in the first session will remain in committee and alive for consideration during the second session beginning in January.

S 1640 (Sen. Williams, D- Del.)—to strengthen the law with respect to bribery and graft (in Judiciary Committee).

S 1641 (Sen. Williams)—to prohibit former government employees from representing private clients in matters before their former agency (in Post Office & Civil Service Committee).

HR 51 (Rep. Boland, D-Mass.)—to repeal excise tax on uhf sets (in Ways & Means Committee).

H J. Res 130 (Rep. Harris, D-Ark.)—to prohibit, except for technical tests, pay tv by radio or wire (in Commerce Committee).

HR 311 (Rep. Abernethy, D-Mass.)—to exercise power to control radio-television stations from requirements of the Fair Labor Standards Act (in Education & Labor Committee).

HR 2524 (Rep. Walter, D-Pa.)—to repeal a Supreme Court decision that individual states may tax firms doing business in intrastate commerce (a similar proposal passed both houses of Congress).

HR 480 (Rep. Collier, R-Ill.)—to repeal excise tax on communications (in Ways & Means Committee).

HR 1977 (Rep. Udall, D-Ariz.)—to revise the federal election laws (in Administration Committee).

HR 1998 (Rep. Wright, D-Tex.)—to prohibit use of subliminal advertising on tv (in Commerce Committee).

HR 2221 (Rep. Siler, R-Ky.)—to prohibit advertising of alcoholic beverages in interstate commerce (in Commerce Committee).

HR 6676 (Rep. Shippy, D-Ill.)—to allow daytime stations to operate from 6 a.m. to 6 p.m. during winter months (in Commerce Committee).

HR 7714 (Rep. Foley, D-Md.)—to require that tv services in a district of Columbia be licensed by federal government (in District Committee).

HR 8259 (Rep. Blatnik, D-Minn.)—to place certain restrictions on the advertising of cigarettes in interstate commerce (in Commerce Committee).

Lamb wins dismissal

A suit asking $500,000 in legal fees from Edward Lamb, Toledo industrialist and broadcaster, and Dispatch Inc., one of his corporations, has been dismissed by Toledo Common Pleas Judge Thomas J. O’Connor. Suit was filed by Russell W. Brown, attorney who formerly was a member of law firm of McGrath & Brown. Mr. Lamb claimed he had paid the law firm in full and submitted receipts.

Judge O’Connor in dismissing the action (Aug. 28) remanded it “irresistible, vexatious pleading without merit.” Suit was based on the lengthy 1954-57 FCC proceeding involving Lamb station licenses. Dan McCullough, attorney for Mr. Brown, said he will appeal dismissal.

Mr. Lamb’s stations are WICU-AM-TV Erie, Pa., and WMAC-TV Massillon, Ohio.

SPORTS HEARING

Frick says no pay tv in baseball’s plans

Baseball Commr. Ford Frick told the House Antitrust Subcommittee that he has had no negotiations with anybody looking toward charging a fee to view baseball telecasts in the home. Commr. Frick’s statement came on the opening day (Sept. 4) of hearings by the subcommittee on radio-television provisions of several bills which would exempt professional sports from the antitrust laws (Broadcasting, Sept. 7).

He said he knew of no talks by individual clubs with pay tv promoters and denied specifically that National Telemeter had presented a baseball-pay tv plan to his office. Mr. Frick denied any knowledge of a letter from Telemeter Vice President Paul McNamara to Rep. Emanuel Celler (D-N.Y.), subcommittee chairman, relating to pay tv discussions with individual clubs.

Under questioning by Herbert Maletz, subcommittee counsel, the commissioner said that Irving Kahn, president of TelePrompTer Corp., had approached him (Mr. Frick) on the possibility of placing the World Series on pay tv. Mr. Frick said he told Mr. Kahn that under no circumstances was he interested “at this time” in such a plan.

Mr. Frick said that this was the only discussion he ever had with anybody on pay tv. He also denied that his office had a 1955 survey made on the feasibility of pay tv but admitted there may have been “one little question” on the subject in the study.

Radio-television contracts are the concerns of individual clubs and he never interferes in such matters, Mr. Frick maintained. He said radio-television has increased interest in baseball but at the same time has cut attendance.

Conflict of interest • Paul Porter, attorney for the baseball commissioner, also is legal counselor for Telemeter, it was pointed out by the subcommittee. Mr. Porter denied that he has ever talked pay tv with any baseball club in his capacity of International Telemeter attorney.

Rep. William E. Miller (R-N.Y.),

BROADCASTING, September 14, 1959
Buildings...Color...and

NATIONAL STEEL

Going up—the horizon-hugging Trimline, newest product of our Stran-Steel Division, newest demonstration of National Steel's consistent leadership in the development of fine steel buildings. Leadership that has also brought to pre-engineered structures an outstanding hallmark: factory-applied protective coating in color—in long-lasting Stran-Satin blue, green, rose, bronze, white, gray or any combination.

But there's more to Stran-Steel buildings than meets the eye. Take the low-cost, low-upkeep new Trimline—designed for supermarkets, warehouses, bowling alleys and the like. Its low-pitch roof lowers heating and cooling costs. Its safety engineered framework stands up to extremes of stress and strain. Its column-free interior gives optimum space for the dollar. A Stran-Steel building is your best buy for economy, beauty and service.

Want More Facts on Stran-Steel Buildings?
For complete illustrated literature on □ commercial, □ industrial or □ farm buildings in beautiful Stran-Satin color, write today to Stran-Steel Corporation, Department NSF-13, Detroit 29, Mich.
one of the sponsors of the legislation and a member of the subcommittee, said that the testimony of C. Robert Thompson, general manager of WBEN-AM-TV Buffalo, N.Y. (BROADCASTING, Sept. 7), had convinced him that a change should be made in TV blackout provisions.

As now drafted, many of the pending measures provide for a TV blackout within 75 miles of a minor league team on the day that team plays at home. Mr. Thompson pointed out that there are four minor league teams (in three different leagues) within 75 miles of Buffalo and this would result in a daily blackout of major league TV.

Rep. Miller said this should be amended so that the restriction would apply only to days when the Buffalo team played at home.

Following three days of testimony, Rep. Celler adjourned the hearings subject to the call of the chair. He said that there were still several witnesses who had asked to be heard (CLOSED-CIRCUIT, Aug. 24) and would be called at a later date. No more hearings are planned for the first session of the 86th Congress, which means that no action on the bills can be taken before next year.

AFL-CIO charges stations with bias

The AFL-CIO last week charged WTTG (TV) Washington and WNEW-TV (both Metropolitan Broadcasting Corp. stations) with “prostitution of the concept of public service broadcast” in airing a program, Special Report on Labor Corruption, on Aug. 25.

The labor group declared that newsmen Matthew Warren, in his interview of Sens. John L. McClellan (D-Ark.) and Sam J. Ervin (D-N.C.), put questions to the senators that were “one-sided, based on premises that were false and were not designed to seek out the truth.”

AFL-CIO asked the FCC to carry out an “immediate and full investigation” and that the complaint be put in the respective FCC files of the two stations. The union said it felt it was “likely” that the National Assn. of Manufacturers “or some other like body” subsidized the broadcasts on the two stations. AFL-CIO noted that WTTG made kinescopes of hearings by the McClellan Committee last year which were distributed by NAM free to a number of TV stations, most of which were censured later by the FCC for failing to identify NAM as the organization furnishing the kinescopes. When Walter P. Reuther, president of United Automobile Workers and an AFL-CIO vice president, appeared before the Senate committee, WTTG stopped televising the hearings, the union charged.

AFL-CIO said the McClellan-Ervin interview discussed certain of the exposures by the McClellan Committee and legislative proposals supported by the two senators. The senators urged adoption of the House-passed Landrum-Griffin bill in preference to the Senate-passed Kennedy bill, AFL-CIO said, and the discussion was supplemented by film clips “designed to heighten the dramatic impact.” “Misstatements of facts” by the senators were allowed to stand unchallenged and the film clips were not designed to provide information for viewers, but rather to aid in “propagandizing one point of view on a controversial issue,” the union said.

An FCC spokesman said the complaint will be investigated.

TV QUIZ HEARINGS

Stenographic chores block definite plans

Just how far the House Legislative Oversight Subcommittee is able to go in its hearings on the TV quiz scandal, scheduled to begin Oct. 6 (At Deadline, Sept. 7), may hinge on a group of stenographers in New York.

Rep. Oren Harris (D-Ark.), subcommittee chairman, said last week that transcribing of the secret grand jury testimony, which a New York court ordered turned over to the subcommittee (BROADCASTING, Aug. 3), has been progressing slowly. Because of this, the congressional investigators have not been able to look at the jury testimony of some of the witnesses they plan to call in October and their appearance may be put off.

The chairman said he hoped to conclude the hearings in one week, with both morning and afternoon sessions scheduled in Washington. The subcommittee is interested in charges that some contestants on the TV quiz shows were supplied with answers in advance. The programs were highly successful for several months but most faded from the scene soon after the New York grand jury began its inquiry a year ago.

A complete list of witnesses for the October hearings has not been compiled as yet, Rep. Harris said. They will include former contestants, program producers, network officials and representatives of the FCC and Federal Trade Commission. He said that no subpoenas have been issued to date but that they will be if any prospective witnesses balk at testifying.

Rep. Harris pointed out that both the FCC and FTC have denied jurisdiction in this area, which he said

KTTV (TV) contestant yells ‘foul’ to FCC

An unhappy contestant last week charged that he submitted the correct answer to a question in a quiz contest conducted on the air by KTTV (TV) Los Angeles on Aug. 22, but that so many other people also answered the question correctly that the station drew lots to select a single winner.

Chester Matson of Palm Springs, Calif., who said he formerly was a broadcast time salesman, claimed he answered correctly a question on the KTTV program, Cavalcade of Spots. But because of the many other correct answers, he said, the station “resorted to lottery” to determine the single winner. Mr. Matson said he feels all who answered correctly should have received the prize—a $50 U.S. savings bond.

An FCC spokesman said Wednesday that although he has not seen the complaint—which Mr. Matson said he made to the FCC—the Commission’s standard procedure in such matters is to write a letter to the station asking for its version of the facts in the case.

Duopoly rule cited

The FCC last week told the parent company of one radio-tv station that it could not elect to its board a man who is a director of the company which is the majority stockholder of another radio-tv station in the same city.

In a letter to Paul C. Buford, president of the Shenandoah Life Insurance Co. (WSLS-AM-FM-TV Roanoke, Va.), the Commission said that it could find no justification for a waiver of the duopoly rule which forbids ownership of more than one broadcast property in the same city. Shenandoah Life Insurance Co. wished to elect to its board of directors Stuart T. Saunders, a director of the First National Exchange Bank of Roanoke. The bank is majority owner of WDBJ-AM-FM-TV that city.

FCC Chairman John C. Doerfer and Comr. Robert E. Lee dissented to this interpretation.

TV stations sued by catv operators

Charges of conspiracy to restrain trade have been hurled at a group of western broadcasters by two community television systems and an intercity, microwave system seeking FCC permission to follow tv signals to a catv operation in Twin Falls, Idaho.

In a treble damage $1.5 million antitrust suit, Cable Vision Inc., Twin Falls, Idaho; Helena TV Inc., Helena, Mont., and Idaho Microwave Inc. have charged that eleven tv stations and associated interests have engaged in "unfair" and "illegal" means.

The suit was filed in U. S. District Court in Boise, Idaho, two weeks ago.

Named as defendants were: KSL-TV, KTVT (TV) and KUTV (TV), all Salt Lake City; KID-TV Idaho Falls, KLIX-TV Twin Falls, both Idaho; KXLF-TV and KOPR-TV Butte, KMSO-TV Missoula, KOOK-TV Billings, all Montana, and KWRB-TV Riverton, KTWO-TV Casper and KFBC-TV Cheyenne, all Wyoming.

Also named in the suit were E. B. Crane, George C. Hatch, A. L. and Gordon Glassman, William C. Grove, Mildred V. and Joseph P. Ernst, and A. J. Mosby.

The suit charged that the defendants—
- attempted to induce local and state governments to deny additional franchisees and "sought to influence" state and local governments, the FCC and members of Congress.
- Put pressure on Mountain States Telephone & Telegraph Co. to refuse needed pole line rights.
- "Aided and abetted" the construction of unlicensed vhf boosters.
- Disseminated "false and misleading" advertising, publicity and propaganda about catv operations.
- Threatened litigation.

One of the basic charges is that the broadcasters "by agreement with network, program packagers, producers and syndicators," have imposed "unreasonable and unlawful" restraints on broadcasting of programs and reception by the public. The complaint alleged that these practices include "first call" rights, "must buy and minimum buy"
Competitors say, "It can't be done!"

provisions and participation in "option time" agreements in network affiliation
contracts.

The complaint also asked the court
to rule that broadcasters have no copy-
right rights in their TV signals.

The matter of property rights in a
broadcast is the subject of a separate
legal action brought by the three Salt
Lake City TV stations against the catv
operator in Twin Falls, Idaho (BROAD-
CASTING, May 14).

Miami, Orlando cases
face further delays

The Miami ch. 7 and Orlando ch.
9 re-hearing cases — on which hearing
proceedings are to be held up pending
retrial of former FCC Commr. Richard
A. Mack and his friend Thurman A.
Whiteside — may be delayed even fur-
ther, since Mack-Whiteside defense
maneuvers are considered likely to
delay the start of the criminal con-
spiracy trial, now scheduled for Nov. 3.

FCC Associate General Counsel
Edgar W. Holz, assigned to conduct
the ch. 7 and 9 cases, was asked by the
FCC to request Special Hearing Ex-
aminer Horace Stern to postpone hear-
ings until the end of the criminal trial
(CLOSED CIRCUIT, Sept. 7), and the
former Pennsylvania Supreme Court
chief justice agreed last week and said
the hearing will be held in Philadelphia.
Both the ch. 7 and ch. 9 rehearings are
thus being held up to avoid prejudic-
ing the trial, since both cases involve al-
egations of ex parte activities during Mr.
Mack's tenure on the FCC.

The Mack-Whiteside defense has
appealed to the U.S. Appeals Court
in Washington on grounds it was illegal
for the U.S. District Court in Wash-
ington to set a new trial. The Justice
Dept., which is prosecuting Messrs.
Mack and Whiteside on charges they
conspired to obtain the FCC's 1957
grant of Miami ch. 10 to Public Service
TV Inc., has asked the appeals court
to dismiss this defense move.

Mr. Whiteside's attorney has filed an
objection to the Justice motion and Mr.
Mack's attorney is expected to file a
similar objection today (Sept. 14).
The defense attorneys are asking oral argu-
ment, which Justice opposes.

Mr. Whiteside's attorney also has
moved in the district court to strike
its order for a new trial, holding that
court has no jurisdiction over the case.
Argument on this point was to have
been held last Friday (Sept. 11).

If these Mack-Whiteside moves fail,
defense attorneys plan to move for a
change of venue to Florida for the
retrial.

The first Mack-Whiteside trial began
last April and ended in July with a
hung jury (BROADCASTING, July 13).

WBC seeks Daly action

Westinghouse Broadcasting Co. last
week asked the FCC to "reconfirm" its
Aug. 14 denial of a petition by Lar
Daly, perennial political candidate, for
"equal time" on all the radio and TV
networks and on 23 TV stations to "an-
swer" programs on these facilities
for which Mr. Daly claimed, editorialized
on the recently-passed bill to exclude
newcasts from the equal time provisions
of Sec. 315 of the Communications
Act.

WBC said the FCC's denial of Mr.
Daly's petition "clearly and consis-
tently sets forth applicable law and FCC
policy" on the question and that Mr.
Daly has brought forth no new facts in
his petition for reconsideration of the
FCC ruling.

Government notes

Coos Bay vhf • FCC Hearing Exami-
ner J. D. Bond on Sept. 2 issued an
initial decision looking toward granting
the application of Pacific TV Inc. for a
new TV station on ch. 11 in Coos Bay,
Ore. Eugene TV Inc., sole owner of
Pacific TV Inc., is licensee of KVAL-
TV Eugene, Ore.

Translator decision • The FCC has
announced the Feb. 6, 1957 grant of appli-
cations for construction permits for two
TV translator stations to Palm
Springs Translator Station Inc. The sta-
tions, K70AL and K73AD, will operate
on chs. 70 and 73 in Palm Springs,
Calif. The Commission also granted ap-
plied to modify the construction permi-
t to increase power and make
changes in the antenna system.

Propaganda offensive • A call for "in-
tensification" of U.S. broadcasting be-
hind the Iron Curtain, which would
present the "truth about America" was
issued by Sen. Stuart Symington (D.-
Mo.) in a speech to the AMVETS na-
tional convention in Grand Rapids,
Mich. He said, "We have not made full
use of our creeds and religious convic-
tions as a weapon in this Cold War.
Through broadcasts, we could do much
either in emphasizing the strength of our
faith." Sen. Symington said U.S. psy-
chological warfare expenditures of $150
million annually were inadequate when
compared to Russia's "multi-billion dol-
lar" efforts.

BROADCASTING, September 14, 1959
This is Pittsburgh

Roy Face, great Pirate hurler... typical of the fresh young spirit that's put Pittsburgh way out in front.

Sterling Yates, Atlantic Weatherman, goes on for KDKA-TV five nights a week with the liveliest presentation of weather ever. He helps keep the big audiences in the tri-state area watching KDKA-TV.

Wayne Klotsky, construction man on the new Gateway Center project and one of the 4.5 million people in KDKA-TV's big orbit of influence.

There's no middle ground for Pittsburghers. Sell 'em, and they go all out. The fanfare for the Pirates is one example. KDKA-TV's following another. Year after year, it's the No. 1 station there. Let us show you how to create more fanfare for your product in Pittsburgh.

KDKA-TV Pittsburgh

WESTINGHOUSE BROADCASTING COMPANY, INC.
ITC SALES REPORT
50% increase over TPA's 1958 figures

Independent Television Corp. has ended its first year's operations (as of Sept. 1) with $13,989,787 in gross revenue, a 50% increase over the previous year's sales of Television Programs of America which ITC purchased last year.

In a report released today (Sept. 14), Walter Kingsley, ITC president, also counted off these advances:

ITC is providing 1,200 hours of programming a week to stations and advertisers in the U.S. and 188 weekly half-hours throughout the rest of the world.

The company "has been operating in the black since Jan. 1" after three months of organizing sales and staffing. Each quarter of the first year's operation showed a "marked increase" over the previous one.

During the last half of this year, ITC sold The Gale Storm Show—Oh! Susanna to ABC-TV for $2.5 million (Warner-Lambert Pharmaceutical Co. is the sponsor); Fury was renewed in its fifth year by General Foods and Bordens and five new syndicated properties were released to tv. These include Cannonball now in 105 markets; Sergeant Preston of the Yukon in 95 markets; Jeff's Collie in 167 markets; Brave Stallion in 102 markets, and Ding Dong School in 75 markets. Mr. Kinksley said ITC will add four more to its list within six months.

Arrow Productions (re-run division) has 11 programs in its sales program and was 21% ahead in the first six months of this year compared to last year's comparable period. ITC is owned jointly by The Jack Wrather Organization, Beverly Hills, and Associated Television Ltd., London.

MP-TV to update SRT sound effects

MP-TV Services, affiliate of Radio Recorders of Hollywood, has acquired the sound effects library of Standard Radio Transcriptions and the SRT library of commercial aids and jingles, according to a joint announcement from G. Howard Hutchins, president of Radio Recorders, and M. M. Blink, president of Standard Radio Transcription Services.

From the SRT base sound effect library of 214 double-faced 10-inch 78 rpm and 10 10-inch 33 rpm microgroove discs, MP-TV plans to create a new sound effects library. New effects, such as turbo-jet planes, rocket missiles, etc., will be added each year. Within three years the company expects to have a complete new microgroove sound effects library. Records will be available through retail record shops in major markets. Sunland Music Co. is now setting up a distribution system that includes Canada, Mexico, Puerto Rico, Australia and England as well as the U.S.

MP-TV also plans expansion of the supply of more than 400 tracks of commercial aids and jingles. This material covers commercial spots for accounts in 22 categories of business, plus tailor-made weather reports. Station_ID's will be added, as well as time signals, recorded on an open-end basis to permit their use by local advertisers in various communities.
"Gobbledygook"

—the technical jargon policyholders do not find in letters from MONY

To help keep letters brief, readable and clear, MONY regularly reviews all of its correspondence—a practice started 16 years ago. MONY also maintains an up-to-date correspondence manual for use by employees. This serves as a guide to content, style and tone and shows how to avoid “gobbledygook.” MONY even retains a nationally known authority to conduct periodic correspondence clinics.

The result? Greater understanding of Mutual Of New York’s services and benefits by everyone who receives letters from MONY.
WBC names panels for program meeting

The program and participants in the third annual Westinghouse Broadcasting Co. Public Service Programming Conference at Palo Alto, Calif., Sept. 21-23, were announced last week by Richard M. Pack, WBC programming vice president and producer of the conference.

Approximately 400 owners of stations, program managers, educators and public officials are expected to attend the conference on the campus of Stanford U. The keynote address will be delivered by Donald H. McGannon, WBC president.

An agenda of 12 panels is set:

"Creativity and the Individual and His Ideas." Panelists: Marc Connelly, Pulitzer Prize-winning playwright; Dr. Frank Baxter, professor at the U. of Southern California and tv program lecturer; Robert Foreman, executive vice president in charge of creative services, BBDO, New York; Martin Manulis, executive producer in charge of 20th Century-Fox Television Productions; Fred Friendly, executive producer for CBS, and Saul Bass, designer-producer.

"Segmented Public Service and Public Service Within Commercial Formats." Panelists: Don McCune, producer and host of Captain Puget on KOMO-TV Seattle; Sunnie Jennings, co-producer and hostess of Home Fare on WRGB (TV) Schenectady, N.Y.; Robert L. Rarson, program operations manager for WBTV (TV) Charlotte, N.C., and Dale E. Hart, program manager of KOTV (TV) Tulsa, Okla.

"Editorialization." Edward Breen, president, KVFD Fort Dodge, Iowa; Bruce Palmer, news director, KJWT (TV) Oklahoma City; Ben Strouse, president, WWDC Washington, D.C.; John McClay, general manager, WJZ-TV Baltimore and William Whiteley, director of public affairs, KNXT (TV) Los Angeles.

"Radio and Television News Techniques." Panelists: Gabe Pressman, reporting reporter for WRCA-TV New York; Clark Pollock, program director, KTVT (TV) Sioux City, Iowa; Wanda Ramey, news reporter, KPIX (TV) San Francisco; James Schulke, vice president, KTVA-TV Los Angeles; Martin Ross, program manager, WPTR Albany, N.Y.; Jerry Landay, news director, WNBZ Boston; Martin Weldon, director of news and special events, WNEW-AM-TV New York. and William Small, news director, WHAS-AM-TV Louisville.

Other sessions will be held on the techniques of tv production; "Meaningful and Creative Research," the various types of operations among radio stations; broadcasters' relationships with national service organizations and international television. Mr. Pack will announce the participants shortly.

N.Y. to resume boxing inquiry

The New York State Attorney General's office was scheduled to resume questioning of witnesses last Friday (Sept. 11) as part of its inquiry to determine if the state's antimonopoly laws were violated in the disposition of the television, radio and motion picture rights to the recent Ingelmar Johansson-Floyd Patterson heavyweight championship bout.

Martin Baron of the attorney general's staff reported that the investigation probably will continue through this week. On Sept. 3, the interrogation of several witnesses was completed, including William Rosensohn, promoter of the bout; Irving B. Kahn, president of Tele-Prompter Corp., which was awarded the radio, tv, film rights for $300,000; Monroe Riskin, an assistant treasurer of Tele-Prompter, and Vincent Veleva, an attorney, who gained control of the Rosensohn Company after the bout.

New York Attorney General Louis Lefkowitz described the objectives of the investigation in these terms:

"In essence, we are seeking to see if any competition was eliminated and whether people or firms or corporations were prevented from bidding, not only for the fight itself but for the ancillary rights, consisting of the movies, the radio and tv."

There have been reports that Theatre Network Television, a closed-circuit tv outfit, had offered to pay $450,000 for the ancillary rights to the championship fight. Mr. Baron disclosed that Tom Gallery, NBC director of sports, had said his company was interested in those rights but had not been given the opportunity to bid.

Mr. Baron declined to reveal the names of witnesses who were to be called during the resumption of the inquiry. He said there had been "several new developments" since the questioning of witnesses on Sept. 3 but could not discuss them at this time.

BROADCASTING, September 14, 1959
NTA STOREVISION

Designed to service out-of-home tv viewer

Ely A. Landau, board chairman of National Telefilm Assoc. disclosed details of a new company operation called NTA Storevision Inc. and a 54-hour live programming service called "Day Watch" last week.

Storevision will equip away-from-home locations with tv sets, license tv stations for receivers and programming service, and provide counsel on over-all operation. He said Storevision has licensed stations in nine cities (in addition to NTA-owned WNTA-TV Newark).

Starting on Nov. 1, WNJA-TV will program "Day Watch" on a Monday-through-Saturday basis from 9 a.m. to 6 p.m. The programming, according to station officials, will not exceed one minute in length and will include news bulletins, constant time reports, illustrated weather news, menu suggestions and best buy lists.

Storevision will have tv receivers installed in 400 major supermarkets and 300 laundry centers.

Advertisers will have to purchase a schedule calling for at least 54 ten-second announcements for each week, one an hour. This will cost $2,160 but "charter" advertisers will be able to purchase this time for $1,080—a 50% discount, a company executive said.

ASCAP surveys need updating: Justice

The methods used by ASCAP in monitoring radio and tv music performances are virtually obsolete, the Dept. of Justice has said.

The government allegation was made in a 30-page brief filed two weeks ago in U.S. District Court in New York. The Justice Dept. document was filed in support of a proposed amendment to the 1950 consent decree and is now under study by federal Judge Sylvester Ryan.

At issue are the internal organization and income distribution methods of ASCAP.

In commenting on ASCAP's survey practices—and these results are used to base distribution of income to members—the Justice Dept. charged that ASCAP put a premium on network performances and does not adequately take into account the "thousands of performances daily" over local radio and tv stations.

ASCAP logs each commercial network performance and multiplies it by the number of affiliates, the government said. In contrast, it added, ASCAP logs less than one-fourth of 1% of the total local broadcast hours.

Every radio performance is multiplied by 20, Justice said, and every tv performance by 60.

Quarter of Income: License fees from radio and tv account for only one-fourth of ASCAP's domestic income, the Justice Dept. pointed out, but ASCAP distributes almost two-thirds of its income on the basis of network performances.

ASCAP samples 32 radio stations and 22 tv stations for a three-hour period per station, the government pointed out. The results are taped. The same 22 metropolitan markets (not identified) are used daily, Justice said. A roving corps of 14 monitors sample other areas.

The present system, the government averred, samples only about one out of every 500 music performances on local radio and tv.

The new survey plan, prepared by Joel Dean & Assoc. and reviewed by Bureau of Census experts, calls for a 50% increase in the size of the local radio samples and more scientific selection of stations. It also contemplates a survey of other media. It is due to be placed into operation early in 1960.

Ziv's 'Man Dawson sold in 91 markets

ZIV Television Programs, New York, has sold This Man Dawson in 91 markets. On the latest sales report:

Anheuser-Busch, which bought the police series for its home market of St. Louis; Brown & Williamson, co-sponsoring with Lincoln Income Life Insurance in Louisville; H. P. Hood & Son (milk, ice cream), Boston; Sego Milk for seven markets in the Mountain states; Tendercrust Baking, Amarillo; Vietti Foods in Nashville; Dresser Packing, Columbia, S.C.;

Super Food Stores, Shreveport, La.: Household Finance for Philadelphia and Schenectady - Albany; Alabama Farm Bureau Insurance Co. for Birmingham and Montgomery; Gate City Savings, Fargo, N.D.; Security Federal Bank, Nashville, Tenn.; Iowa Electric Light & Power Co. for Des Moines and Ames; South Carolina Electric & Gas for Augusta, Ga.

Standard Oil of Indiana for Kala-
"Our clearer signal is invited into hundreds of thousands of Detroit area homes like these" says John Pival, Vice-President of Television WXYZ, Inc., Detroit.

"The new 1,073' taller tower by Dresser-Ideoco helped improve our signal, broaden our market coverage."

"Now there are 1,879,500 families in our sales area" reports John F. Pival, WXYZ-TV Vice-President. "Our stronger signal, broadcast from the new tall-tower height of 1,073', markedly improved signal quality and expanded our coverage area. Our grade B coverage now extends south to Toledo, west to Jackson, northwest to Flint, northeast to Port Huron. WXYZ-TV is a welcome guest in homes throughout our $8.1 billion retail sales market."

A taller tower by Dresser-Ideo can pay off for your station in these two ways. Your clearer signal wins greater audience loyalty... greater coverage expands your market area. Each of these gains attracts advertisers.

Dresser-Ideo is far and away the leader in tall towers. We've built more than half the 1000'-plus television towers in service today. That's in addition to hundreds of smaller towers for TV, radio and microwave communication. This experience saves you both time and money. John Pival reports, "Dresser-Ideo delivered our tower on schedule, everything was organized so that the entire job went along at a fast pace. There's no wiser investment than an experienced tower designer-builder." You, too, are assured of this money-saving, time-saving attention to detail when you work with Dresser-Ideo. Talk to your station equipment representative or write us direct. And ask for Tower Catalog T-57.

**ANNOUNCING GREAT NEW SEQUEL TO "THE SPACE EXPLORERS."

**NEW ADVENTURES OF THE SPACE EXPLORERS.**

Even more thrilling, more timely than "The Space Explorers."

Rejoin the stars of "The Space Explorers," Young Jim Perry and Professor Nordheim, in thrilling new adventures in the distant reaches of outer space.

With technical supervision by Dr. Franklin M. Branley, Associate Astronomer of the American Museum—Hayden Planetarium. "NEW ADVENTURES OF THE SPACE EXPLORERS" cannot be compared to any other space or science-fiction motion picture. Never before has there been a drama so authentic in its portrayal of adventures in outer space! Never before so brilliant a series of fully animated cliff-hanger episodes! "NEW ADVENTURES OF THE SPACE EXPLORERS" is heartwarming, realistic, so timely for your all-out exploitation.

**TOTAL OF 208 CARTOON CLASSICS SERIALS NOW AVAILABLE** to hypo your program ratings. Only in this thrill-packed cliff-hanger series of 5½ minute episodes do you get full animation plus high entertainment plus enrichment overtones, plus school tie-in promotion plus an impressive proven record. Order now!

Produced by RADIO AND TELEVISION PACKAGERS, INC. Distributed by BANNER FILMS, INC.

557 Madison Ave., New York 22 Wire or call collect Charles McGregor, Plaza 5-4811

mazoo, Mich. (added to its original purchase of Indianapolis): Sun Oil for Richmond; Fuller Ford, San Diego; Case Tractor, Oklahoma City; Redd Pest Control and Bevis Construction Co. in Jackson, Miss., and Bowden Bros., Davenport-Rock Island.

The series was also purchased by 31 stations.

**Creemens suing Community Club.**

George Creemens Adv. Inc., Des Moines, has filed civil damage suits against Community Club Services Inc., New York, and its president, John C. Gilmore. (Both companies conduct "proof of purchase" radio-ty merchandising campaigns.)

One suit asks $5,000 plus $4,999.99 exemplary damages for Mr. Gilmore's alleged slander of Creemens' business reputation. The second suit says Mr. Gilmore "willfully and maliciously" interfered with Creemens' copyrighted "Cash Club" contracts with Miller Supermarkets (a division of National Tea Co.) and KIMN Denver. For this Creemens asks $6,093.18 to reimburse lost revenue.

A CCS official said "there is no basis for this suit. Our attorney in Denver is handling the matter."

**9-MONTH SPANISH CLASS**

KGLO-TV Mason City, Iowa, started a 38-week telecourse in Spanish last Tuesday (Sept. 8).

The series is underwritten by seven county boards of education, with schools buying their own tv sets. Nearly 3,000 sixth-graders are expected to participate.

**TV Elementary Spanish** (Mon.-Fri. 9:30-9:40 a.m.) is conducted by Salvador Siqueiros, El Paso, Tex., who was hired by the school board. KGLO-TV is not charging the board its regular time rate, but only for the cost of additional personnel and operating live cameras.

- **Program notes**

**Mt. Idy origination** • Charley Weaver's *Hobby Lobby* starts on ABC-TV Sept. 30 (Wed., 8:30-9:00 p.m. EDT) for Mogen David Wine Corp. Cliff Arquette, originator of the Weaver character from "Mt. Idy, Ohio" will present guests in hobby demonstrations. The tv show is based on the radio *Hobby Lobby* which Don Fedderson Productions bought from the originator, Dave Ellman. Agency: Edward H. Weiss & Co., Chicago.

**Domestic drama** • NBC-TV has scheduled *House on High Street*, series based on cases in domestic relations courts, Mon.-Fri., 4-4:30 p.m. EDT, starting Sept. 28, replacing *Truth or Consequences. House on High Street* is a Delco production in association with NBC, Roger Gimbel executive producer and John Haggott producer.

**HORSE SHOW** • My Friend Flicka starts on ABC-TV Wed., Sept. 30 (5:30-6 p.m.) in the network's weekday afternoon strip of cartoon, action and adventure shows (others in the slot are *Rin Tin Tin* Mon., Tue., Fri., and *Rocky and His Friends* Thurs.). General Mills has bought sponsorship in the strip through Dancer - Fitzgerald - Sample. Stars of *Flicka* are Anita Louise, Gene Evans and Johnny Washbrook. The series is based on Mary O'Hara's book.

**Desilu renames center** • Desilu Productions Inc., Hollywood, Calif., has renamed Motion Picture Center there "Desilu-Cahuenga." The new name follows the tv production company's policy of naming its studios after the street location. Desilu owns 93% of the Motion Picture Center stock. Desilu-Cahuenga has nine sound stages and covers seven acres. Some products filmed there: *Danny Thomas Show, Love & Marriage and The Lucille Ball-Desi Arnaz Show.*

**Religious scripts** • To stimulate new religious program material, the Union Theological Seminary and NBC are sponsoring a competition for a new play on a religious theme. Robert E. Seaver, director of the Program in Religious Drama, which was inaugurated in 1956 by a Rockefeller Foundation grant, directs the project. The play on a religious theme cannot run longer than an hour, must be unpublished and written since last Jan. 1. Prizes: First, $250; second, $100; third, $50. Deadline is Jan. 1, 1960. NBC reserves rights to the play's first tv and radio performance while the Seminary's program in religious drama has first stage performance rights. The Seminary's address: 3041 Broadway, New York 27.

**More school time** • The eight school systems participating in the Delaware-Maryland-Virginia tv classes originating at WBOC-TV Salisbury, Md., are extending etv time to 1½ hours a day. Starting Sept. 16 the fall term will have four classes between 1:30-3 p.m.

**DAILY SLOT** • *The Thin Man*, a Friday night fixture on NBC-TV for three seasons, moves to weekday afternoons, following purchase by the network of 72 episodes from MGM-TV at $1 million for a year. The comedy-mystery series starring Peter Lawford and Phyllis Kirk will be seen starting Sept. 21 at
Have you heard what the WeeReBel said to Kenyon & Eckhardt?

“We have the highest per family income in Georgia.”

You’ll miss the highest per family income in Georgia, if you don’t put Columbus on your schedule. Metropolitan Columbus’ family income is $6,855 annually compared to the Georgia figure of $5,002. And 83% of the families in this high-income area own TV sets. They view WRBL-TV the most! Check HOLLINGBERY for availabilities on WRBL-TV and WRBL Radio.
Radio urges kids: go back to school

Two local radio stations in two different points of the country have conducted "Finish High School" campaigns directed at their teenage audiences. WIND Chicago both broadcast appeals by air personalities. Show business celebrities and government officials also participated. WMCA's campaign, which ran through Sept. 10, was an effort to reduce the yearly (26%) percentage of students who do not graduate from the city's high schools. Gov. Nelson Rockefeller, Mayor Robert Wagner and recording stars Pat Boone and Jill Corey aired appeals to the station's teenage audience.

2:30-3 p.m. EDT., Monday-Friday.

Ziv's 'half-sales' • Ziv Television Programs, N.Y., reports that it has achieved a "sell-off" in 54 of the 59 markets in which the American Tobacco Co. (Lucky Strike cigarettes) had contracted for half-sponsored of Lockout and This Man Dawson half-hour tv series. To complement American Tobacco's half-sponsorship in the 59 markets, sales were completed to 40 stations, which will make series available for local sale, and to 14 advertisers, Ziv TV said.

Audio affiliate • Pathescope Productions, N.Y., has affiliated its industrial film department and tv commercial services with Audio Productions. The companies will carry on under the Audio banner, with the exception of Pathescope's educational division which will retain that name.

Marco Polo for Interstate • Interstate Television (subsidiary of Allied Artists Productions Inc., Hollywood, Calif.), is to produce 39 segments in a Marco Polo tv series.

Psychology and shows • Does a play have more meaning for audience, critics and actors if a psychoanalyst explains it first? Yes, substantially more, was the answer the M-R (motivational research) Theatre, Hollywood, and the Communications Div. of the U. of Southern California learned in an experiment. After testing an act from Terence Ratigan's "Separate Tables" on two different audiences, selected by invitation, Oliver McGowan, head of M-R Theatre and originator of the experiment, reported that greater interest and understanding was exhibited by the group which had a pre-showing psychological explanation from analyst Dr. Bar- net Sherin. He feels the experiment could save time and effort for tv directors, as well.

WIND initiated a saturation drive of 40 to 50 spot announcements urging teenagers to "start school when school starts." Basis of the drive was alarming statistics released by school officials which show a 40% decline in enrollment between the 10th and 12th grades.

The climax of WIND's campaign was a $200 prize for writing a "back to school" essay, which was presented at the Pan American Games in Soldier's Field. Messages were also recorded by state and local officials. Gov. William G. Stratton, Mayor Richard J. Daley and Sens. Everett Dirksen (R-Ill.) and Paul Douglas (D-Ill.) participated.

WGD-TV teleclasses • WGD-TV Lancaster, Pa., has started Talking Town (Tues. 9:30-9:45 a.m.), 32 programs in primary grade speech improvement Oct. 6. Today (Sept. 14) WGD-TV kicks off 30 elementary science lessons (Mon. 9:30-9:45 a.m.). The courses are in cooperation with the Pennsylvania State Dept. of Public Instruction. About 85,000 children will watch the series.

Radio-tv IDs • Custom Identifications Inc., 24-64 45th St., Long Island City 3, N.Y., has available animated, musical IDs for radio-television stations. The corporation succeeds the former Station Identification Inc., which specialized in radio IDs. Custom Identifications is headed by Manny Lits, formerly vice president of Station Identification Inc. Telephone: Yellowstone 2-0200.

50 stars in Hawaii • KPOA Honolulu sponsored the ceremonies for the raising on the first 50 star flag at the local Punchbowl National Cemetery. In attendance were the king and queen of the island's Aloha Week, Mayor General Fred W. Makinney, adjutant general of Hawaii and David Mendelsohn, president of Radio Hawaii, KPOA's owner.

'Midnight' on market • MCA-TV, N.Y., is making Johnny Midnight, half-hour mystery film series, available for regional and local sponsorship. An early customer is P. Ballantine & Sons, which, through William Esty agency, has bought the new show for 26 markets covering most Eastern states. Johnny Midnight stars Edmond O'Brien.

A GENERAL ELECTRIC STATION
Raytheon expects half billion earnings

Raytheon Co., Waltham, Mass., will approach half a billion dollars in sales in 1959, according to Charles F. Adams, president of the electronics firm. The rapidly-expanding company has prime contracts for the Hawk and Sparrow III missiles, radar and sonar equipment and has plans for sky stations to hover miles above the earth (Broadcasting, Aug. 10).

Mr. Adams noted that both sales and earnings in the first half of this year were at record levels and predicted that "1959 should be the best year in our history."

EIA to hear report on spectrum study

Progress of an Electronic Industries Assn. subcommittee studying spectrum allocation will be reviewed Sept. 22-24 at the EIA's autumn conference, to be held at the Traymore Hotel, Atlantic City. Military and consumer products committees along with other electronic industry units will meet during the conference.

James D. Secrest, EIA executive vice president, said the special tv film showing how the electronics industry functions will be previewed at Atlantic City. The film was prepared jointly by EIA and National Assn. of Manufacturers and will be sent to the 265 tv stations for NAM's Industry on Parade.

H. Leslie Hoffman, of Hoffman Electronics Corp., will discuss frequency control legislation as chairman of EIA's Spectrum Committee. This group plans to file comments and recommendations with Chairman Oren Harris (D-Ark.), of the House Commerce Committee, author of frequency control legislation.

David R. Hull, Raytheon Mfg. Co. vice president and EIA president, will preside at a Sept. 24 meeting of the association's board. Marion E. Pettigrew, Sylvania Electric Products, will preside at a meeting of the Consumer Products Division which will hear reports on the current autumn promotion for tv receivers. The promotion began Aug. 15 and ends Sept. 15.

Ampex ships vtr to six etv outlets

The Professional Products Div. of Ampex Corp., Redwood City, Calif., shipped Videotape recorders to six educational tv stations at the beginning of the month. They are part of the $2.5 million Ford Foundation grant to the National Educational Television & Radio Center, Ann Arbor, Mich. (Broadcasting July 27) to provide 43 tv recorders to etv outlets.

These are the first to receive recorders under the grant: KUHT (TV) Houston, WUFT (TV) Gainesville, Fla.; WTBS (TV) Detroit, KTCA-TV St. Paul-Minneapolis, WMVS-TV Milwaukee, and WOSU (TV) Columbus, Ohio.

Stations that were to receive recorders last week include WQED (TV) Pittsburgh, WTTW (TV) Chicago, WYES Tampa and WETV (TV) Atlanta.

• Ralph A. Barnes appointed news di
Check these advanced features that make Standard Electronics your best buy in FM TRANSMITTING EQUIPMENT

Compact, accessible design

saves as much as 45% of the space required by other transmitters of the same rating. All parts are readily accessible for easy servicing.

- Provision for multiplexing as standard equipment, with 30 to 15,000 cps on both main and subchannel for FM/FM stereo broadcasting.

- SERRASOID® modulator for inherent stability—permitting unattended remote operation—simple design and operation, low first cost and upkeep.

- Built-in PATCHOVER protection, pioneered by S-E in TV, now available for the first time in FM to keep you on the air despite emergencies. Impedance matched units permit connecting driver direct to antenna in seconds in event of trouble in amplifier.

- Semiconductor rectifiers, with unlimited life, cost tube replacement costs, power consumption, heat dissipation, space requirements.

- ADD-A-UNIT expansibility, another TV-proven feature, now offered exclusively by S-E to let you start with an economical FM transmitter, later add an amplifier when you're ready to boost power.

- All-around economy, with SERRASOID exciter using fewer, receiving type tubes; final amplifier of 5 kw transmitter using only one tube, at 1/2 the cost of the tube complement of other 5 kw transmitters.

Features like these give you outstanding value in S-E transmitters, amplifiers and exciters for FM. For complete information, check the coupon or call your Standard Electronics engineering representative:

UTILITY MONITORS

V-86C-14" V-98A-17" V-98A-21" V-92A-24"

DESCRIPTION

The Foto-Video Monitors are highly reliable display units for broadcast and closed circuit use. They are designed for the continuous presentation of 800 line picture information with high brightness.

The Video Amplifier, Deflection Generator, High Voltage Supply, and Low Voltage Supply, consist of individual plug-in-chassis for optimum accessibility. The front panel is removable for cleaning the picture tube face and safety glass.

The high gain, wide band video amplifier incorporates DC restoration to maintain black level regardless of picture content. Silicon semiconductor rectifiers provide very reliable DC power with a minimum of heat.

NAB committees

Two committees for the 1959-60 term were announced last week by NAB President Harold E. Fellows — Membership and Board Convention Committees.

Co-chairmen of the Membership Committee are Mr. Rogers and BEN SANDERS, KICD Spenser, Iowa. Other members are JOSEPH E. BADINGO, Westinghouse Broadcasting Co.; JOHN S. BOOTH, WCHA Chambersburg, Pa.; JOSEPH M. HIGGINS, WTHI Terre Haute, Ind.; BOYD KELLEY, KTRN Wichita Falls, Tex.; MR. MCAEANDREWS; C. WREDEN PETERSMeyer, Corinthian Broadcasting Corp.; HUGH O. POTTER, WOMI Owensboro, Ky., and Mr. Walbridge.

Listen, admen, and you shall hear—plenty! That WJRT is the single-station way to reach the other big Michigan market. That you get Flint, Lansing, Saginaw and Bay City with one buy and a grade “A” or better signal. That you’re right where things happen with WJRT’s inside-out coverage of mid-Michigan and its nearly half-million TV households. If you’re aiming at Flint, Lansing, Saginaw and Bay City, WJRT is your bull’s-eye buy. Come on in—it’s open season on sales.

Another thriller-diller from WJRT—

“One if by land!
Two if by sea!”

“And four if by
WJRT, Ponsonby—
the efficient way to
cover Flint, Lansing,
Saginaw and
Bay City.”

with CBC for 14 years in both production and administrative fields, was director of CBC's English-language tv network when he resigned. Mr. Rugheimer, assistant director of tv network and previously its commercial representative joined CBC 11 years ago on the Scandinavian shortwave service, has been tv news director for network.

- **Guy F. Herbert**, retired executive vp of All-Canada Radio & Television Ltd., Toronto, named executive consultant of Trans-Video Productions Ltd., that city.

---

The Senate has approved President Eisenhower's appointments of J. Smith Henley and Carl A. Weinman, both prominent in the broadcasting industry, to federal judgeships. Mr. Weinman was appointed district judge for the southern district of Ohio. He is secretary-treasurer and director of WSTV-AM-FM-TV Steubenville, Ohio, and director of WPTF Pittsburgh.

The new judge holds an L.L.B. from Michigan U., is a member of the Ohio and American Bar Assns. and has written legal articles for various magazines. He was a common pleas judge for Jefferson County, Ohio, for 12 years.

Judge Henley was named roving judge in the eastern and western districts of Arkansas, actually appointed in February 1958 (Broadcasting, March 3, 1958). He joined the FCC's general counsel's office in 1954 and the next year was named associate general counsel. He left that post in 1956 to head the Office of Administrative Procedure in the Dept. of Justice.
FANFARE

KDKA-AM-TV slaps Pittsburgh's Face

Baseball's Elroy Face has been "de-faced" by KDKA and KDKA-TV at a time when the Pittsburgh Pirates ace pitcher is just two games away from a modern record for consecutive wins.

It happened when the Westinghouse stations in Pittsburgh spun the promotion wheels just a bit faster by arranging for the reliever (with 17 wins and no losses this year) to participate in the annual baseball game between KDKA-AM-TV and the Pittsburgh Press. Game was played in Forbes Field prior to a regular contest between the Pirates and Philadelphia Phillies.

Unlike many other press-broadcaster games, this one followed a carefully prearranged script that entailed seltzer water squirting meless; custard pie bárages; curvaceous girls in the first and third base coaching boxes to divert base runners; arguments with paper mache bats; painted peaches for baseballs, and countless other gimmicks.

Script climax was arranged for Elroy Face to take over pitching chores for the press team in the last inning of a scoreless game. Then Sterling Yates of the broadcasters team tapped a weak grounder to the infield which proceeded to boot the ball back and forth and finally into the Phillies dugout while the winning run circled the bases against Elroy Face. The Pirates ace was led "sobbing" from the field, dabbing his eyes with a special nine-inch sponge.

For weeks prior to the game, gag stories and pictures were carried in the local press (283 inches in all) while the contest was given on-air plugs by KDKA-AM-TV.

Copies of the game script with details of the gimmicks are available from KDKA-TV.

No funeral bills in WARL's mail

An offer of a free funeral to listeners killed in auto accidents over the Labor Day holiday brought over 100 applicants to WARL-AM-FM Arlington, Va. And, three days after the holiday, cards and letters were still being received. Fortunately, for the station and listeners alike, the station is receiving no funeral bills. One application came from Houston, Tex., as a result of nationwide publicity given the promotion. The free funeral offer, to dramatize the need for safe driving, was made by the four stations of the Continental Broadcasting Co. (Cy Blumenthal stations): WABB Mobile, Ala.; WCMS Norfolk, Va.; KCKN Kansas City, Kan. and WARL.

Where were the Boy Scouts?

A "courtesy cop" from WHEN-AM-TV Syracuse, N.Y., had time to reward shoppers for acts of courtesy. The stations dressed an actor in a Keystone Cop costume and armed him with 50 one-dollar bills and instructed him to distribute the dollars to shoppers who performed acts of courtesy.

The bargain hunters were evidently more intent on saving money than winning it, however, as very few were helping old ladies across busy streets or opening doors for package-laden women. After his 10-hour tour of duty was passed, the "courtesy cop" was put on overtime, and before the day was over he managed to find 50 courteous shoppers.

Programming-safety promotion

Over the Labor Day weekend, strategically placed road signs promoted both traffic safety and the impending ABC-TV affiliation of KOMO-TV Seattle, Wash.

The signs contained safety messages from ABC-TV personalities, such as "Rin Tin Tin says watch for us dogs," and "Lawrence Welk says drive safely friends."

* Drumbeats

Flaming beauty • The St. Louis Fire Dept. and KPLR-TV, that city, are searching for a red-haired beauty to serve as "Miss Flame" during next month's Fire Prevention Week. The winner will be selected on the basis of her hair color, poise and personality. She'll be the fire department's official
An open invitation to the Steel Union:

Join us in a forward step

Steel companies are spending billions of dollars to modernize mills, methods and products.

But America, the world’s greatest steel user, can never enjoy the full benefits of this multi-billion dollar program until the steel companies’ labor agreements are as modern as the machinery in the mills.

The steel companies extend this invitation to the Union:

Join us in taking a forward step to help reduce wasteful, out-of-date practices; help pave the way for increased production, improved productivity, and resulting savings which can be shared by employees, stockholders and the public — without contributing to inflation.

Specifically, we have asked the Union to cooperate with us in:

1. Improving the language and the spirit of the labor agreements to bring them up-to-date with modern operations and to reduce causes of misunderstanding and friction that have developed in the past;

2. Protecting thousands of innocent workers by discouraging irresponsible acts of a lawless few who engage in unauthorized or “wildcat” strikes;

3. Retarding further inflation by dropping the experimental cost-of-living adjustment clause in the 1956 agreements. This clause, intended to spare steelworkers from the effects of inflation, has proven to be itself inflationary and thus self-defeating. All of the 17¢ an hour added to wage rates under the clause since 1956 would be retained.

These contract changes, accompanied by a cooperative attitude on the Union’s part, would, we believe, pave the way to enable the companies to generate new economic progress to be shared with their employees.

Accordingly, in return for agreement on these contract changes we have offered to negotiate a non-inflationary two-year agreement providing an increase in pension and insurance benefits this year, and a modest increase in wages next year.

Such an agreement would place the steel companies in a stronger position to compete with other materials and with imports of foreign-made steel... It would give employees improved benefits, higher wages and greater job security... It would help hold the line against inflation.

This proposal does not threaten the basic rights of Union members in any way.

The companies recognize that the Union has a responsibility—and a legal right—to represent the interests of its members. The Union, on its part, should recognize that the companies have the right and obligation to manage their plants to the maximum benefit of employees, shareholders, and the public.

In these modern times, with great progress already achieved and even greater progress visible on the horizon, cooperation—not opposition—is the mark of real leadership.

Only with a cooperative attitude on the part of the Union and its leadership can the steel industry fully meet the needs of America and help curb inflation.

We urge the Union to join us in taking this forward step.

THE STEEL COMPANIES COORDINATING COMMITTEE
375 Lexington Avenue, New York 17, New York

This advertisement sponsored by REPUBLIC STEEL a member of the committee

Republic Steel makes many versatile fabricated items. Metal Lumber®, for instance, is strong, sturdy steel angles with ingeniously placed slots so that they can be bolted together to form shelving or stands or framing. They can be unbolted and reassembled for other uses. Metal Lumber is only one of hundreds of versatile products from Republic's world's widest range of standard steels and steel products.

Inflation means a backward step for everyone
hostess at various fire prevention functions. Contest rules do not bar participation by those whose hair is red through artificial means.

Gesundheit • Daily prizes are being awarded to the “worst hayfever sufferer” to turn up each day at the studios of WINS New York.

Beauties galore • WRCA-TV had more than 3,000 contestants for its “Miss Channel 4” beauty pageant. Prizes for the beauty contest, which WRCA-TV claims was the largest of its kind, included a South American trip, a $1,000 treasure chest of jewelry and guest shots on WRCA-AM-TV.

The loudest youngster • Jack Dorr, promotion manager of WBNS-TV Columbus, Ohio, won the Lone Ranger’s second annual “Hi, Ho, Silver” contest by corralling “America’s Loudest Child” in competition with 50 other TV stations. His prize is a three-day trip to Hollywood. The “loudest child” was nine-year-old Larry Hutcheson who won three days in Disneyland, with his mother.

Dummy waiter • Basil, dummy and air personality, and his sidekick, ventriloquist Rod James, barnstormed western Washington in the KTVW (TV) Seattle-Tacoma “Snak Wagon,” dispensing goodies and entertainment to kiddies. The station estimated that 5,000 youngsters throned the traveling delicatessen on its 15 trips; nearly 1,000 homes were visited. Sponsors this year of the annual “Snak Wagon” were: Archway Cookies, Dr. Pepper, Phillip Morris Cigarettes, TV Guide, Chex Chlorophyl Mints, Sioux Honey, Nalley’s, Brown & Haley Candy, Hamilton Theatres and the Tacoma Star.

Hula holiday • WSB Atlanta’s air personality Jerry (Music Man) Vanderventer was host on a two-week tour of Hawaii Aug. 16-30. The trip, promoted by the station, was arranged in conjunction with Northwest Orient Airlines, with 32 passengers accompanying the disc jockey, who was special emissary of Georgia’s governor and carried letters to Hawaiian dignitaries inviting them to Atlanta’s annual Southwestern Fair in October.

Flamingo frolics • A flamingo, apparently dissatisfied with his contract, fled from a bevvy of TV commercial makers at Cypress Gardens, Fla., and took off on a 10-mile flight. WGTO, that city, alerted the citizenry to be on the lookout for the pink fugitive, who was finally apprehended at a gas station by a state trooper. The policeman called the station which dispatched its flamingo-catcher in an air-conditioned station wagon in time to complete the commercial.

Trumpet time • KEX Portland, Ore., is co-sponsoring a concert by Louis Armstrong and ensemble at the local Paramount Theatre this evening (Sept. 14.) Also on the bill: “The KEX Solid Seven,” septet of station disc jockeys led by Barney Keep. The Solid Seven debuted at an Armstrong concert several years ago and now appear regularly on the local convention, civic and fraternal meeting circuit.

Space sickness? • KICN Denver d.j. Tom Looney, managed to stay suspended from a crane 40 feet above ground in an air-conditioned station wagon for two weeks. However, he had to return to earth ahead of his ballyhooed goal when the power system went out and Mr. Looney became ill from the heat. A doctor summoned to the scene, refused to climb up to the sick spaceman, so the perspiring d.j. abandoned his floundering “spaceship.”

**77%** smoke cigarettes: higher than average for all programs

- **82%** have teenagers children
- **40%** above average
- **68%** using auto

The network rating alone is no measure of the tremendous total value!

| MINIMUM RATING 100 | 16.4 | 14.3 | 15.6 | 16.9 | 17.5 | 18.8 | 18.9 |

**IT IS NOT NECESSARY TO HAVE A BIG RATING FOR BIG SUCCESS!**

Pulse QUALITATIVE NETWORK facts for SALES results! Plainly illustrating that not HOW BIG but HOW SMART makes for profitable buying! Pulse qualitative data like these for ALL network programs. Subscribers also receive FILMS standings in the 22 top markets—126 quarter hour, half hour, and hour SPOT FILM PROGRAMS reported for February, 1959!

100,000 DIFFERENT FAMILIES ARE INTERVIEWED MONTHLY THROUGHOUT THE U.S.

- **minimum samples:**
  - 20,000 different families per daytime TV strip
  - 5,000 different families once-a-week TV program

Charted above is a single, highly successful show. Not an impressive network rating, true, but a block-buster for selling help, market by market. Pulse subscribers get this vital information monthly, for all programs. Every important category of products being covered, with adequate repeats to measure progress. Brand tabs are available on order!

Effective with April reports for all markets and network, Pulse interviewing will be conducted daily all month—365 days a year of interviewing in America's key markets! This is the qualitative assistance leading advertisers want. You can put it to work, not just for time and program buys, but for advertising, selling, promotion, basic marketing.

Complete details on request. Please write or phone JUdson 6-3316.
Beer-liquor ad code weighed by Canadians

Prohibition of radio and television advertising in Canada is understood to be in the code of the Assn. of Canadian Distillers, which was presented in a brief to the ten provincial liquor commissioners at a meeting held at Murray Bay, Que. In addition, drinking scenes on tv should be allowed, the brief stated as showing "proper and moderate use of the product."

The distillers however want product advertising in newspapers and magazines to combat the heavy inundation of such advertising in U.S. publications coming into Canada.

North Ireland tv

Over half of the population of Great Britain and Northern Ireland can now watch commercial television, according to a report by Television Audience Measurement Inc.

There are more than 26 million viewers of the commercial video product in more than 7 million homes, it was reported. When commercial television first began, in the autumn of 1955, there were less than three-quarters of a million viewers in less than 200,000 homes.

Holding rate line

Southern Tv (England) has announced that it will not increase its rates for the next half-year as other British program contractors have stated they would (BROADCASTING, Aug. 24). British advertisers were reported to be in strong disagreement with the tv rate hike. Graham Dowson, Southern Tv sales director, stated that his organization will not increase its rates for the next seven months "at least."

New Nassau studios

ZNS Nassau, Bahamas, opened its $115,000 studios and offices Aug. 31. The building, in Nassau's Centreville district, includes two studios, a master control room (doubling as a third studio) and another control room that may be used for tape or disc recording while the other is in operation. ZNS, on 1540 kc, soon will increase power from 5 kw to 10 kw.

Abroad in brief

RCA-Victor to JWT • RCA-Victor Canada Ltd., has appointed J. Walter Thompson Co., Toronto and Montreal, to handle its advertising as of Jan. 1.

Kenyon & Eckhardt, Toronto, has handled the account for about three and a half years.

September debut • CJSSTV Cornwall, Ont., has set target date of late September for the start of operations. The new ch. 8 facility will be represented in the U.S. by Weed & Co., N.Y.

Million-dollar Toronto studio • Robert Lawrence Productions Ltd., Toronto, Ont., on Oct. 6, will open its new $1 million studio at 38 Yorkville Ave. in downtown Toronto. It will be one of the most highly integrated production plants in Canada. The new studios are designed to permit making tv programs and theatrical features. There will be 25,000 square feet of space, with film and tape facilities strategically located between two main stages. An independent sound company, Eastern Sound Co. Ltd., will offer complete sound recording facilities on the premises.

Teaser spots

A 21-year-old girl will take off an article of clothing each week for 13 weeks in a variety series on ITV (British commercial tv). The blonde stripper from Germany says she will intersperse her act with jokes. "I want the whole thing to be amusing," she explains. The program's producer-director says "the show is scheduled to run 13 weeks. I don't know how many items of clothing [she] wears, but we're hoping everything will run out."
Armchair critics • Kate Atiken, Canadian broadcaster and a director of the Canadian Broadcasting Corp., has started a survey of CBC programs among 2,000 viewers and listeners across Canada, the panel to be picked by mayors, reeves, service clubs and other organizations. The amateur critics are to be asked to keep a record of criticism of programs and state their preferred categories: music, drama, sports, variety or talk. CBC’s audience research department will handle the answers and tabulate the results. Actors’ unions and professional survey firms are up in arms about the amateur survey for different reasons. The actors are afraid CBC may void their contracts if the armchair critics turn thumbs down on their programs. The survey firms feel that such a survey is not based on proper techniques for a cross-section of the audience.

Russians wanted cash • Four members of a Russian festival dance troupe refused to appear on Canadian Broadcasting Corp.’s early evening interview program Tabloid, at CBTL Toronto, on Aug. 25 when they were told they had to each pay $10 union dues and would not receive their $50 pay till after they got back to Russia. The troupe, in Toronto for a three day series of performances, had been asked to have four stars appear on Tabloid for an interview. When they learned that union regulations required they had to pay $10 each and that CBC would not mail their pay unless paid within 14 days, they turned the offer down. The union, Assn. of Canadian Radio & Television Artists, refused to waive the work permit requirement and CBC could not get payment through faster. CBC producer Ted Pope, in charge of Tabloid, was not informed of the difficulties until it was too late to get the four artists. He offered to pay the $40 union fees himself if necessary.

Now... Anaconda Aluminum Foil brings tempting dishes from the world's finest chefs right into your home

The rigid foil containers above have two things in common: All were made to hold baked or frozen food. All were made of Anaconda Aluminum Foil. In 1958 alone, Anaconda produced hundreds of millions of aluminum foil containers of all shapes and sizes.

Versatile aluminum foil brings so many advantages to the food field. It makes packaging far more convenient and attractive, besides being moisture-proof, taste-proof, odorproof and lightweight. The list of products packaged better with aluminum grows steadily longer. Take frozen foods, a prime user of foil: last year, frozen foods alone rang up total sales of close to four billion dollars. By 1965, economists tell us, Americans will be buying five to six times more! Truly, this foil-inspired packaging revolution is just getting started.

Joining vigorously in the development of America’s aluminum future, Anaconda has blended all its aluminum facilities into one new subsidiary, Anaconda Aluminum Company. The result is an integrated organization embracing almost every phase of aluminum production—from alumina to pig and ingot through to the fabrication of commercial products such as foil, coiled and flat sheet, rod, bar, structural, tube and extruded shapes.

In addition, substantial quantities of wire ingot are supplied to another Anaconda subsidiary, Anaconda Wire and Cable Company, for the production of a wide range of aluminum wire and cable electrical conductors.

Anaconda’s growth in aluminum is a typical example of a development program that seeks to offer better products and services to both industry and consumer.
OUR RESPECTS TO...

Robert Mumford Purcell

"I'm proud of our programming at KFWB," Robert M. Purcell, president of this Los Angeles radio station and director of the broadcast division of Crowell-Collier Publishing Co., declared last week.

I'm... proud that our 'contemporary radio' format provides for effective public service programming as well as for the most popular music.

"Yes, I'm proud of the childish voice saying 'I'm Janie Jones and I'm six years old and I go to Greenleaf School, so please drive carefully so I can stay alive.' It's terse, easy to hear and hard to forget, much more effective with today's radio audience than the 15-minute or half-hour public service shows of yesteryears.

Let's Communicate • "We in radio today are not only in the entertainment business, we're primarily in communication and in my book the message from Janie Jones truly communicates."

Bob Purcell's radio book is a big one, starting back in 1926, when, at the age of 14, he sang into the microphone of WHAM in his native Rochester, N.Y. (The city's official records show that Robert Mumford Purcell entered the world on May 11, 1912). His progress from singer at WHAM to president of KFWB followed no direct up-the-radio-ladder route, however. It included such by-paths as a doorman's job at the Paramont Theatre in Syracuse, N.Y., to help defray his expenses at Syracuse U.

Type Casting • "With my height—6 feet, 5 inches—I made a good doorman" Bob recalls. But he didn't stay on that job very long. In 1931, 5:30 p.m. was the usual end of the workday and theatre admission prices changed at 6 p.m. Bob got the idea of printing pay envelopes with a notice that their recipients could get into the Paramount at afternoon prices up to 6:30 p.m. As a result he was promoted to assistant manager, but he lost that job when he won an amateur contest at the rival RKO Keith-Orpheum Theatre. The conductor of the orchestra there was also staff conductor at WSYR Syracuse and he got Bob a job there as an announcer-singer-salesman, at $15 a week, not bad for those depression days.

Transferring to the Westminster Choir School with the idea of becoming a choir director ("I soon dropped it, too sanctimonious"), Bob sang bass in the school's traveling choir (I'd made the first team, so to speak") and studied for a straight B.A. with a major in music. But times were tough and 1933 found him in Chicago working as a Barker for "Chyrene, the Girl with the X-Ray Eyes" at the World's Fair, plus handling the midnight-to-six shift at WEDC, foreign-language station.

This led to Bob's first full-time, regular-pay staff job in radio, at WCFL Chicago, where among other duties he conducted one of the earliest deejay shows, Make Believe Danceland. He stayed with WCFL for eight years. Then, while on vacation in Los Angeles, he went to work for the Earle C. Anthony stations KFI and KECA (this was before the FCC's anti-duopoly rule) as writer-director-producer and special events reporter, a post he remembers fondly for the chance it gave him to see international diplomacy at work at close range when he covered the first United Nations Assembly meeting in San Francisco in 1945.

Into Tv • Came now a five-year period of freelancing, during which Bob Purcell wrote and produced and directed countless radio programs and announced, acted and sang in countless others. Meanwhile, television had appeared on the broadcast horizon and aroused Bob's interest. So, in 1949, he joined the staff of KTTV (TV) Los Angeles as a director-writer-announcer, more for the experience than the $75-a-week salary. ("They let me continue some of my radio work and play bit parts in motion pictures, so I could get by." Soon, he was made program director and, subsequently, director of operations of the station.

When he left KTTV it was to form a consultant firm, "Robert M. Purcell Television," which handled administrative, legal, labor and creative problems for such diverse accounts as Hoffman Radio & Television, United States Air Force, General Electric broadcast equipment division, the tv workshop of Pasadena Playhouse and Massachusetts Bay Telecasting, applicant for channel 5 in Boston, whose grant to WHDH-TV (Boston Herald-Traveler) is now being reviewed. (He holds a 5% interest in MBT.) At this time, he also became half-owner and president of KEYD (now KEVE) Minneapolis.

Back to Radio • In October 1956, Mr. Purcell was appointed assistant for radio and television to Paul Smith, then president of Crowell-Collier, with plans for the acquisition of a major group of broadcast properties. Before the end of the year, Mr. Smith had resigned, having brought only one radio station into the C-C fold, KFWB Los Angeles, of which Mr. Purcell became general manager. In June 1957, he was elected president of KFWB Broadcasting Corp., wholly-owned C-C subsidiary. On Jan. 1, 1958, he brought "color radio" to Los Angeles, introducing a format of "modern" programming so well suited to Los Angeles ears that KFWB skyrocketed to the top of the rating charts. This spring, Mr. Purcell negotiated the purchase of KLX (now KEWB) Oakland, Calif., and WISK Minneapolis for Crowell-Collier and has become president of each of these stations as well as of KFWB. He is also director of the C-C broadcast division, which plans its further expansion to the full extent of station ownership permitted by the FCC, in television as well as radio. (With the addition of WISK to the C-C stable, he sold his interest in KEVE.)

Bob Purcell lives with his wife, the former Jane Lindberg, and two Siamese cats in a Hollywood apartment. His two daughters by a previous marriage, Linda, 21, and Paula, 19, are both in college. His hobbies range from guitar playing and folk singing to Chinese calligraphy.

The main job: to communicate...
EDITORIALS

Rep pep

An oft-debated question is whether the exclusive national representative is more productive than the branch office in the sale and development of national business. Newspapers and magazines were grappling with this problem, with inconclusive results, long before radio and television became competitors for the national advertising budgets.

The recent announcement that five major newspapers have joined in setting up a selling organization in key markets to create new business is a new manifestation of newspaper dissatisfaction with old-line general representation. It may be significant, too, that three of the five papers (Milwaukee Journal, Washington Star and St. Louis Post-Dispatch) are owners of thriving radio-tv properties. One of the others, the Philadelphia Bulletin, last year sold WCAU-AM-FM-TV to CBS for $20 million.

It is true that in times past the representation issue has arisen in both radio and tv. But it is no earth-shaking problem now. Exclusive national representatives in both radio and tv, for the most part, are both creative and resourceful in their development of new spot business.

Long ago, the sales representatives of the broadcast media learned that if they were to thrive they would have to do more than merely take orders. They invested in solid research. Hardly a week passes without the development by one or more organizations of a new campaign involving a new approach which may benefit the clients of others as well as his own.

It is this brand of creative selling that is keeping broadcast spot gains ahead of the print media. Then there's the natural advantage of representing live, vibrant entities that with each passing day grow in stature and public acceptance.

The labor miracle

A scant six months ago there were few in Washington who could see any hope that Congress would provide protection for business in the field of secondary boycotts and blacklist picketing. Broadcasters have been especially vulnerable to these labor practices, made possible by confused court decisions and interpretations by the National Labor Relations Board.

But a miracle happened—a miracle that had the momentum of shocking union tactics as revealed by Sen. McClellan's investigating committee and effectively reported by live broadcast pickups.

Important protection to all business and industry is provided in the secondary boycott language of the Landrum-Griffin House bill, most of which went into the final conference bill sent to the White House. NAB has been working seven years on behalf of this relief. President Harold E. Fellows and Charles H. Tower, labor-relations economist, took key roles in the effort to obtain legislative help.

But the influence that puts over this type of legislation must come from the public—the voters back home. Broadcasters worked hard, led by Ward Quaal, WGN-AM-TV Chicago, chairman of NAB's Labor Advisory Committee, and Leslie C. Johnson, WHBF-AM-FM-TV Rock Island, Ill., a member of the committee.

Members of the House were deluged with letters and wire from voters as well as from union sources. Their overwhelming vote for relief-giving legislation amazed many in Washington who realized that a big majority of Congressmen had been elected last year with union support. Four factors were mainly responsible for the sur-

prising House vote—public indignation, President Eisenhower's radio-tv talk, the back-firing of the wildest labor pressure-tactics within memory and the sheer merit of the legislative proposals.

Mr. Tower put it this way, when the final conference report was adopted by both House and Senate, "The legislation comes as close as a labor law can come to the will of the people."

Mutual victimized

All broadcasting is injured because of the latest disclosure of alleged transgressions by Alexander L. Guterra during his short reign as owner of Mutual. A grand jury has indicted the promoter and his associates for the ugliest of all journalistic sins—a sell-out whereby the network would be used as a propaganda outlet for the Dominican Republic and its dictator, Generalissimo Trujillo.

At this point it is only an indictment. It remains to be determined whether Mr. Guterra and his associates are guilty or innocent. Even if they are exonerated, however, a good deal of damage will have been done. The mere fact that three principal executives of a national network were formally accused of a crime will itself provide a talking point for critics of broadcasting.

Mutual has survived two changes in ownership since the multi-indicted Guterra moved in. It was on the verge of settling bankruptcy proceedings when the grand jury acted. Whether the network can recover from this latest blow is a serious question. It certainly deserves a better fate because its present ownership and management seem determined to provide the kind of service desired by its affiliates.

If there is one lesson to be learned from the Guterra-Mutual debacle it is that broadcasting is a profession. It subsists and develops when in the hands of broadcasters. Promoters, manipulators and those looking for a quick financial gain do not belong.

"Paw's moonshine has improved a heap since he's been studying chemistry!"
