WE LIKE TEACHER... TEACHER LIKES US

Usually a note from teacher means trouble. Not in this case. We got a letter from D. A. Van Valkenburg, Asst. Professor of Business Administration at Taylor University... and he was complimentary! This is what he said:

"I wanted to let you know why WJR has always been about the only station I have listened to regularly, and the reasons I appreciate it.

"1. GOOD news coverage. I like your regular 15-minute programs. Most other stations cover only the 'headlines'...

"2. GOOD music. We need more and more of your fine musical programs. Having a 'fine arts director' is excellent. I enjoy not only your 'classical' music, which few stations ever use, but also your 'sane and sensible' popular music...

"3. GOOD sports coverage. Having always been a Tiger fan... I appreciate a 'power station for night baseball.' I appreciate your carrying the Lions football games, too.

"4. GOOD programming. I consider WJR to be a 'reputable, class, progressive' radio station..."

What more can we say? If you'd like to talk to a receptive, heads-up adult audience in the money belt of the Great Lakes, ask your Henry I. Christal rep for the facts on WJR.
To Houston

... is the growth that has been experienced over the last dozen years which makes it the most remarkable metropolitan area in America. Billions in building and population surge well past the two million mark attest to the past and present vitality—the future economic opportunity.

Vital to Houston too is KTRK-TV, keeping pace with this growth as it offers ever-increasing quality of television service.

CLOSED CIRCUIT

WGN spreading — WGN Inc., Chicago (WGN-AM-FM-TV), is in process of making its first acquisition of broadcast property outside Chicago. Deal is expected to be closed this week for established am-tv facility in another midwestern market. WGN is paying several million dollars cash. Stations it's buying are major network affiliates in both tv and radio. Ward L. Quaal, WGN vice president and general manager, is pursuing expansion plans in other parts of country too.

Payroll peakers — Word is out to Internal Revenue Service offices to pay particular attention to tax returns of radio and tv station personnel. First concrete action along these lines took place last week when IRS agent called on southern station and asked to see payroll books. He told management this was according to directive from national headquarters.

This stems from payola scandals that erupted last fall. At that time, IRS had observers sitting in on congressional hearings. There's no doubt, either, that information dredged up by Federal Trade Commission and by FCC has been relayed to tax hounds. National IRS headquarters in Washington reported in answer to inquiry that earlier this year instructions went out to all regions to pay particular attention to broadcast personnel returns. How this is handled is up to individual regional and district offices, it was indicated.

NBC gratitude — For their performances during political conventions which won network top ratings, half-dozen key men in production and direction at NBC News, as well as Huntley-Brinkley air team, have received tangible recognition from NBC. Huntley and Brinkley, it's understood, were awarded more than their contracted fees, while others benefited in assignments or trips.

Senate opening — Sen. Warren G. Magnuson (D-Wash.), chairman of Commerce Committee and spokesman in all matters pertaining to broadcasting, is looking for new top assistant. Irv Hoff, his right bowser as administrative assistant, has resigned effective Sept. 1, prior to joining Sugar Refiners Assn. as Washington representative. But during September he will be working for Democrats in finance area for election campaign. Mr. Hoff's successor probably will be from state of Washington and will be versed in that state's problems and politics.

Watch this — There's sleeper legislation pending at this boffal congressional session of concern to community media. It's Senate-passed Munday bill (S 3736) which has innocuous title of "Creating a commission to be known as the Commission on Noxious & Obscene Matters and Materials." It's primarily aimed at pornographic booklets and literature but could extend to motion pictures, tv, radio and all other communications media. Measure is now pending before House Committee on Education & Labor and pressure is on among reform groups for hearings at this short session.

Measure would establish 17 member commission, la Hoover Commission, to determine means to combat such traffic and report to President and Congress by Jan. 31, 1962. On group would be one broadcaster member, along with representatives of other media as well as public.

Bookshelf — Advertising Council may have "best seller" in its new booklet on public service programming paying tribute to volunteer agencies (see EDITORIALS, page 114). NAB, it's learned, has ordered 2,100 copies for nationwide distribution, and those relatively few others who have seen booklet, released today, are singing its praises. Author was Gordon Kinney of Council staff.

Conelrad idea — Receiving greatest acclamation from broadcasters at Gettysburg, Pa., annual Conelrad meeting weekend of Aug. 6 was suggestion by John Sherman, WCCO Minneapolis-St. Paul, that AT&T be required to furnish gratis lines for use of each state defense network during alert and immediately thereafter. Subject received thorough airing but no definite action was taken.

Conelrad meeting drew 180 representatives of broadcasters, common carriers and private relay operators. FCC defense commissioner Robert E. Lee announced at meeting that all government agencies had approved NIAC plan for handling flow of civil defense information to broadcasters on national basis.

Kahn's pay tv — Irving Kahn, TelePrompTer president, is still moving ahead in his belief in future of pay tv on community antenna systems. He's just about closed deal to acquire his fifth catv property, in Eugene, Ore. Eugene catv has about 4,000 connections. There are 7,700 subscribers in his present stable of four (Silver City and Farmington, New Mexico; Rawlins, Wyo., and Liberal, Kan.).

Some time ago Kahn was negotiating to buy group of 11 catvs in Arizona (with one in California). This = Antenna-Vision Inc. chain—in Christmas, Clifton-Morenci, Globe-Miami, Holbrook, McNary, Ray-Sonora, Safford, San Manuel, Snowflake and Winslow, all Arizona, and Big Bear, Calif. They total about 10,000 connections.

Cronkite ad libs — Whether it's significant or not, CBS News has something different going. Newsman Walter Cronkite, subbing for vacationing Douglas Edwards, has thrown away scripts, is using only notes and ad-libbing nightly news reports on CBS-TV. When inevitable question is asked, CBS authorities deny move was prompted by NBC Huntley-Brinkley walk-away with political convention ratings. Actually, they say, it's something veteran Cronkite has wanted to do for years. On theory he has repeatedly proven he's master ad libber, they're letting him do it.

AFA address — Advertising Federation of America has packing cases ready for move to Madison Avenue to be announced soon by AFA board chairman James S. Fish, advertising vice president of General Mills. Shift from present quarters on New York's West Side to long-term lease in center of ad business underscores shelving of plans to transfer headquarters to Washington as was once contemplated. New address is 655 Madison Ave. and attractions include more space and new conference room-reference library, which association hopes will attract more visitors. Move is scheduled some time after middle of next month.

While AFA's announced postponement of old plan to move to Washington, and new lease in New York, seem to put off any transfer for matter of years, there is still school of thought within organization that eventual move to capital is inevitable and probably will come to pass in future. For present, AFA Washington office remains at present Associations Bldg. address.
WLOS-TV...  
King of the Carolina Triad!

WLOS-TV reigns supreme in this rich, six-state area... ranks first in every day part! Every day of the week, from 9 a.m. to midnight... an average of 34,000 homes per quarter-hour! That's what WLOS-TV delivers, according to the March ARB for Greenville-Asheville-Spartanburg. And that's 108.6% more homes than station "C" and 21.4% more than station "B"! So if you're looking for coverage, for audience, for impact, make sure your message goes out to the Carolina Triad from the South's highest tower, WLOS-TV. Get the complete story from your PGW Colonel.

WLOS-TV  
Serving  
GREENVILLE — ASHEVILLE — SPARTANBURG  
A Wometco Enterprise

Represented by Peters, Griffin, Woodward, Inc.  
Southeastern Representative: James S. Ayers Co.
How many years for a tv spot? - Coast Federal Savings & Loan Assn. of Los Angeles went on the air seven years ago with filmed spots showing a live rabbit that plunked money into a toy bank. No one bothered to estimate the life expectancy for the commercial. But the viewers fell in love with Mr. Bunny and raised a clamor whenever a change was attempted. Now a new bunny and a new spot have come along. They had to. The old film master just plain wore out from making so many prints. Patricia Burns Perkins, assistant advertising director of Coast Federal, tells about it in this week's MONDAY MEMO. Page 20.

SRA booms single rate - Representatives association urges all stations to drop the "general" and "retail" rate distinctions in favor of a single rate for both classes of business. Page 27.

Political buying begins - Major parties get organizations ready for the autumn campaign; timebuying gets underway; party officials are working on plans for the Nixon-Kennedy on-the-air debates. Page 32.

That hole on Magoo - It comes from General Electric's thousands of bulbs, sales for which the cartoon character has lit the way. He'll be campaigning in the fall backed by $1 million fund. Page 34.

CBS Radio's cutback - Affiliates board and network officials reach agreement on a plan to eliminate daytime serials and some other programs; introduced 10-minute newscasts on the hour and five-minute news on the half-hour. News, public affairs and personality programs would become the backbone of the network's regular schedule. Page 46.

The story of RPI - Radio Press International, a trail-blazer in the field of independent voice news services for radio, is now keeping the listeners of 52 stations posted on national and world events. Page 52.

Rebuttal for tv's critics - Jesuit's thesis analyzes tv's current program fare and finds that the common complaints on shows aren't entirely founded. Page 60.

$5 million for $31,000 - Jerrold sells its nine community antenna systems to H&B American Corp. Charles L. Glett, tv pioneer, is named president of H&B and of the subsidiary to run cary operations. Page 66.

Fight Miami and Boston decisions - North Dade Video Inc. and Boston Herald-Traveler file petitions with the FCC to reconsider ex parte verdicts. National Airlines, whose WPST-TV Miami must go off the air Sept. 15, is expected to file a federal court appeal. Page 76.

Something they'll swallow - Pastore Senate unit, after hearing the broadcasters' side of the story, is sending payola bill to the floor in a more palatable form: minus license suspensions and with a modified forfeiture provision. Page 80.

Suspension in jeopardy? - Rep. Harris tells Arkansas broadcasters that several members of the House have expressed opposition to pending measure suspending Sec. 315 for presidential campaigning. Page 88.

FCC ORDERS CAMPAIGN PROBE
Details on handling of politics must be filed

Questionnaires seeking detailed information on political broadcasts in all categories, plus monies received, are being mailed by FCC to all licensees and national networks. All stations—with separate answers required for am, fm and/or tv combinations—and ABC, CBS, MBS and NBC must reply by Dec. 5.

FCC is mailing questionnaire under mandate of special watchdog subcommittee of Senate Commerce Committee, which was formed to keep close watch over stations during 1960 campaign (BROADCASTING, June 20). Questions cover period from Sept. 1 to Nov. 8, date of general election.

Subjects covered include (1) general station policy with respect to political broadcasts; (2) editorials supporting candidates and steps taken to air "reply" statements; (3) use of stations by candidate or his representative, including whether appearance is sustaining or paid and amount of mony received; (4) appearances of candidates only on network and local programs and announcements, and (5) total amount of time devoted to individual candidates, including offices sought, party represented and whether appearance was exempt from Sec. 315.

Stations and networks were told to detail all requests for time which they had denied. Also, detailed breakdown of actual appearances, whether announcements, programs of less than five minutes and more than five minutes. Aspirants for all offices, from President to justice of peace, are covered.

In separate questionnaire to networks, FCC ordered them to list call letters and cities of all stations which turned down sustaining political programs. Networks were also charged with giving affiliates complete breakdown of network total political programming time by parties.

Each licensee will be sent two questionnaires—one to be returned to FCC and second for station's file. In covering letter, commission reminded stations of their responsibility under Sec. 315 to "... afford reasonable opportunity for the discussion of conflicting views on issues of public importance."

Political survey was compiled by Hyman Goldin, chief of FCC Economics Div., after consultations with members of Washington legal fraternity and networks.

Free air trips start CAB probe

Three foreign airlines have been charged with bartering free trips to Europe for plugs on radio and tv and in newspapers.

Complaints filed with Civil Aeronautics Board were directed at German Lufthansa, French Air France and Belgium Sabena.

Practice violates U.S. regulation which requires that air carriers charge money for transportation and services rendered.

In listing details, CAB enforcement office said airlines had deals with following among others:

- Lufthansa—Eugen Geissler, producer of German Hour, KSTL St. Louis, Mo.; WDLB Marshfield, Wis.; WKFM Chicago, Ill.; CFCF Montreal, Que.; WNEW New York.
- Air France—Richard S. Robbins Co., New York, for advertising, publicity and/or promotional services on The Price Is Right television program; Albert Black, Lido Beach, N.Y., for advertising and/or publicity on Play Ball television program.

Court asked to halt Miami expiration

National Airlines went to court Friday in attempt to prevent its Miami ch. 10 from going dark Sept. 15.

It told U.S. Court of Appeals in Washington that FCC erred in issuing July 14 decision vacating 1957 grant to airline subsidiary and issuing permit to L. B. Wilson Inc., only one of four Miami ch. 10 applicants found untarred by ex parte brush.

Commission has no authority to take such actions, owner of WPST-TV Miami told court, because case was remanded to determine whether any hanky-panky took place and whether grant should be voided—not to issue final orders on its own.

Court told FCC to hold hearings and make recommendations on what it found and what it proposed to do, National Airlines said.

At the same time, airline company petitioned FCC to stay effectiveness of its July 14 order pending outcome of court appeal.

Also on Friday, L.B. Wilson Inc. asked FCC for 90-day special temporary order to permit it to begin construction immediately and to be able to begin operating by Sept. 15 in order to maintain continuity of ch. 10 service in Miami.

FCC had ordered WPST-TV off air by Sept. 15.

L.B. Wilson asked for STA because FCC grant was based on seven-year old application. Changes that have occurred since then, L.B. Wilson said, have required acquisition of new antenna site, equipment changes, etc. Wilson request also indicated meagre 0.3-mile shortage in mileage separation from site proposed by several Largo, Fla., ch. 10 applicants and its own. Mileage separations between its site and existing stations meet requirements, it stated.

Earlier in week, North Dade Video Inc., also original Miami ch. 10 applicant, asked FCC to reconsider July 14 order which found that it too was tainted by off-record activities (see page 76).

Satellite in orbit relays Ike's voice

They're bouncing radio signals off 1,000-mile-high reflector following successful launching of first passive satellite balloon from Cape Canaveral Friday morning.

Echo I, 100-ft. diameter, aluminized balloon went into orbit after being ejected from Thor-Delta rocket.

Voice of President Eisenhower was relayed via 10-story-high reflector within hours after launching. Reception was "loud and clear" according to reports. Collins Radio used satellite for transmissions between Texas and Cedar Rapids, Iowa. U.S. Army is reported ready to launch active repeater satellite soon.

Payola report due

Senate Commerce Committee late Friday had obtained assent of 16 of its 17 members to report payola bill (story page 80) to floor today (Mon-
day) or tomorrow, with amendments added by Pastore subcommittee to knock out license suspensions and to modify forfeiture provisions. Chairman Warren G. Magnuson predicted easy passage of bill in Senate.

**Agencies affiliate**

Affiliation agreement was announced Friday by Edward H. Weiss & Co., Chicago-based agency, which bills $15 million, and Allmayer, Fox & Reshkin, Kansas City. Coincidentally, Thomas J. Lipton Inc. announced its Wish-Bone Div. account would move from AF&R to Weiss, along with S. Jerome Resh-kin, executive vice president, who con-tinues as account supervisor. Kansas City agency has handled Wish-Bone advertising for past nine years.

**Business briefly**

L&N set • Lennen & Newell is odds-on bet to be named today (Aug. 15) as agency for Cities Service Co. (petro-leum products), major eastern regional account. Company is heavy in spot radio (estimated $1 million in 1959), uses spot tv to lesser degree (about $150,000 in 1959). Ellington & Co. has been agency for past 13 years.

Norelco drive • North American Phillip-ses Co., N.Y., which for entire year 1959 spent over half-million dollars gross for spot tv, will break in Septem-ber with “over $1 million campaign” in spot television for new electric Norelco shaver with “floating head,” which has been on sale only since July 1. Norelco will be in minimum of 157 stations in 138 markets on weekends only, also may use network tv and radio spot. New campaign will run until Christmas. C.J. La Roche, N.Y., is agency handling Norelco’s campaign.

**WEEK’S HEADLINERS**

**Eugene H. Alnwick**, sales director, MBS, resigned Friday. Mutual President Robert F. Hurleigh in announcing accept-ance said resignee had not yet been selected. Mr. Alnwick noted he planned to continue in advertising field, though not in network radio. He began selling for Mutual in 1957 and became sales director in July, 1959. His past associations include Dancer-Fitzgerald-Sample, Compton Adv. and C.J. La Roche.

Mr. Alnwick

George J. Abrams, president and chief executive officer of Cosmetics & Toiletries Div. of Warner-Lambert Pharmaceutical Co., resigns. Mr. Abrams said last week he expects to affiliate with an advertising agency or manufacturing firm—“an advertiser”. Mr. Abrams spent four years at Revlon, leaving firm in Februrary 1959 when he was advertising vp. Before his Revlon post, he was vp of advertising and sales at Block Drug Co., and earlier was with Eversharp Inc., Anacin Co. (now part of American Home Products) and National Biscuit Co. Mr. Abrams at Warner-Lambert had responsibility for Richard Hudnut, DuBarry and Sportsman lines.

Mr. Abrams

**Forrest Owen**, vp and general manager of Los Angeles office of Wade Adv., transfers to Chi-cago headquarters as executive vp. Paul Mc-Cluer, executive vp of Chicago operation suc-ceeds Mr. Owen in Los Angeles. Mr. Owen joined Wade in 1944 as radio director, moved to Los Angeles office in 1946, then to New York in 1946 to open agency’s new office there. He returned to Los Angeles in 1956 as vp and general manager. Mr. McCluer joined Wade in 1951 and was named vp and board member in 1959. Previously, he had been with NBC for 20 years, serving as sales manager since 1941.

John Elliott Jr., vp and director of BBDO, N.Y., to Ogilvy, Benson & Mather, N.Y., as senior vp and member of executive commit-tee, which is made up of some half-dozen agency seniors. Mr. Elliott had been with BBDO around 10 years and was management supervisor on duPont account. OB&M does not make public executives’ account responsibilities, but Mr. Elliott is joining agency at time when it is aligning staff to service new Shell Oil account.

Mr. Elliott

**William M. McCormick**, vp and director of sales at WOR New York, named president of Yan-kee Network Div. of RKO General Inc. (owned by General Tire & Rubber Co.), and general manager of WNAC-AM-TV, WRKO-FM Boston, effective Aug. 22. He succeeds Norman Knight, who asked to be relieved to devote time to public affairs and public service both in and out of broadcasting field and to private interests (he is president and sole stockholder of New England stations WHEB Portsmouth, WTSV-AM-FM Claremont, and WTSL Hanover, all New Hampshire, and WEIM Fitchburg, Mass.). Mr. McCormick joined WOR in 1946 as account executive, moved up in sales posts, for three years (1954-57) serving as regional sales manager with responsibility for New England, Philadelphia and New Jersey. He was elected vp and director of sales in 1959, having become sales manager of WOR division in 1956. Mr. Knight has headed New England operation for RKO General since 1954.

Mr. McCormick

Robert Liddel, head timebuyer at Compton Adv., New York, promoted to associate media director, one of four at agency. He is taking over network negotia-tions for Compton, function which previ-ously had been split up between media director (Frank Kemp, vp) and pro-gram director (Lewis H. Titterton, also vp). Mr. Liddel started with Compton in 1952, handling media detail and moved up through buying department until he became top buyer of radio and tv last year.

Mr. Liddel

Storer Broadcasting Company has learned that responsible, responsive audiences are the keys to success in broadcasting. We've learned that the best way to develop such audiences is to operate in the public interest.

We've learned, too, that before you can sell a product or an idea, you first must earn your position within the community, both as a good neighbor and as a broadcaster of integrity.

For 33 years Storer stations have had responsible, responsive audiences. We are appreciative of this continued interest and confidence; and we will do everything within the bounds of good taste and highest community service to keep them.

Remember When It Used To Be True That
"You Can't Satisfy Everybody"?

That was before the Encyclopaedia Film Library became available to the program director — before Trans-Lux Television Corporation put a choice of 101 program ideas, from over 700 film subjects, at his beck and call. Now, neither the mechanical-minded moppet, nor the budding batting champion, need look further than the channel where EB Films are shown.

The EBF library contains subjects that appeal to every taste, on every audience level. Some are largely educational, many are solely entertaining; most, you will agree, provide perfect "edutainment."

You can live with the insistent clamor for upgrading TV generally, and for high-type public service programming specifically, by integrating EB Films into existing formats and by creating new programs for this purpose.

*In the days before Trans-Lux pioneered EBF, the answer to the problem might well have been, "You can't satisfy everybody."*

Sure, you have to look at statistics when you’re buying TV time. That’s all right with us at WJAC-TV because both A. R. B. and Nielsen rate us tops in the Johnstown-Altoona market.

But there’s more to the story than cold figures ---people buy products, and people overwhelmingly favor products they see on WJAC-TV. Mr. Roman Pijanowski, Advertising Manager of The Peoples Natural Gas Company in Johnstown, knows this, and he says:

“Although my company does not sell gas appliances directly to the public, we know, from talks with appliance dealers and home builders, that people buy gas dryers, furnaces, gas lights, water heaters, ranges, refrigerators and incinerators because they see them on WJAC-TV.”

Statistics ... yes, we have them. And we have sales success stories, too. Both prove that WJAC-TV is the station to buy in the Johnstown-Altoona Market!

get the whole story from

HARRINGTON, RIGHTER AND PARSONS, INC.
WPIX-11 IS THE “Network Station” for Spot Advertisers in New York! Audiences have learned to expect network quality entertainment every night on WPIX-11. Advertisers know that of all seven New York stations only WPIX offers so many opportunities to place minute commercials in prime evening time in such network quality programming. And Nielsen has proved that WPIX audience incomes, home ownerships, jobs, etc. are the same as on the leading network station! You'll never find “mail order” or over-long commercials on WPIX-11. You will find important looking programs, only the best advertisers and a proved quality audience... on a station that has a healthy respect for the rate card. Where are your 60-second commercials tonight?
A. C. Nielsen recently studied his entire New York sample, both Audimeter and Recordimeter-Audilog homes, and found "no significant difference" between the kind of people who watch WPIX 11—New York's leading independent station—and New York's leading Network station. The Nielsen "WPIX AUDIENCE PROFILE" study provides a direct comparison of audiences for the prime qualitative categories of: FAMILY INCOME - HOME OWNERSHIP - AUTOMOBILE OWNERSHIP - SIZE OF FAMILY - AGE OF HOUSEWIFE - OCCUPATION, HEAD OF HOUSEHOLD from 7:00-11:00 PM, seven nights a week. Qualitatively they are equal, as Nielsen states: "NONE OF THE COMPARISONS YIELDED A SIGNIFICANT DIFFERENCE!"
MONDAY MEMO
from PATRICIA BURNS PERKINS, assistant advertising director, Coast Federal Savings & Loan Assn., Los Angeles

How many years for a tv spot?

How long should a tv spot run? That's a simple enough question and it would seem simple enough to answer, probably by saying that it should run as long as it's attracting attention, arousing interest, achieving identification and generally doing a job for the advertiser.

But in real life it's not that simple. How can you tell how long is long enough? Coast Federal has just put a new commercial on tv in Los Angeles in place of one that may have achieved the longest time-in-use record ever chalked up. And even now we aren't quite sure whether to mention with pride or with faint apology that our Coast Federal rabbit has been putting silver dollars in a coin-bank replica of our 9th and Hill St. building for more than seven years while a trio merrily sang "If it's safety you want most, open your savings account at Coast!" to the tune of "Pop Goes the Weasel." This was not on a now-and-then basis or on a single channel but year-in, year-out on three network channels, with much extra scheduling four times a year in "reinvestment" periods.

Whether this antiquity is actually unique we don't know (we'd be interested in rival claims!). We do know that our change to a new spot has created much comment. But the really important question to us is whether viewers will be as strongly and favorably impressed by the new spot as they were by the old one.

Rabbit Reasoning • When the Coast bunny first took to television I wasn't around, so I'm not sure what success was anticipated for his debut. I do know that he created a response beyond any anticipation and that this response never ended. In the week after the new commercial replaced the old one we were still answering letters from fans who wanted to settle neighborhood arguments about the seven year old commercial with first-hand information as to whether the bunny was really alive and, if so, how he was trained to do something so un-rabbit-like. Thousands of account holders are in our records as having brought their savings to Coast because of "rabbit." This succinct data shows up because all personnel know what it means and, besides, the space in our records for entering the reason for choosing Coast is small.

There is no question that our rabbit-tv spot has been the most highly identified tv commercial for any savings and loan association in this market. It is quite possible that it has been the most highly identified tv commercial for any business or product in this market. Literally millions of Southern Californians can tell you that Coast Federal is the savings and loan with "that cute rabbit" on television.

All of which helps to explain why Coast kept on using the same spot for so many years. We did have other spots. We had a "dancing dollars" commercial and a "flying carpet" commercial. When we used them, alternating with the rabbit, protests arose. People wanted to see the rabbit all the time. Then we had numerous revisions of the rabbit spot—such as breaking into the coin-depositing sequence to show the building in a cross section with small, separate rooms holding small, separate rabbits to tell the story of Coast branch offices. People didn't like it. They liked the rabbit putting coins in the bank.

So it is simple fact that Coast kept the same spot so long because every time a new one was considered or made it brought up the serious question of whether it could possibly do as good a job as the spot in use.

Reason to Change • The folks at Telepix Corp., who had filmed the rabbit-with-coins spot, at last began to warn us repeatedly that something had to be done because they couldn't assure us of good prints from the old footage and the sound track was getting scratchy. We gave in. We said we would make new spots, but only if we could get something as good as we had. Which of course was the same old problem but with new urgency. We were firm that we wanted another rabbit act and though we were encouraged to consider animation or even the possibility of a mechanical rabbit, we insisted on a live rabbit. The scarcity of live rabbits doing amazing things appropriate for advertising one of the largest savings and loan associations in the country became a serious problem.

Then a fortunate set of circumstances developed. Fulton Shaw, the man who trained our original rabbit, came to California to run Old MacDonald's Farm as a part of Knott's Berry Farm, the well-known tourist attraction at Buena Park. Mr. Shaw had a number of beautiful rabbits. Phone calls were made. Conferences arranged. Everyone had ideas—folks from Coast; from Gumpertz, Bentley & Dolan, Coast's advertising agency, and from Telepix.

New Bunny, New Trick • So it happened. We have new tv commercials with a real, live bunny who amazingly arranges alphabet blocks to spell C-O-A-S-T while a trio merrily sings "If it's safety you want most, open your savings account at Coast." In some spots he gets the letters arranged in sequence, in others he gets them out of sequence, but they always spell Coast. There are several endings, but the ending that is exciting almost as much comment as the spelling act itself is the one where the bunny twitches his ears in a very special way.

People are writing and calling us to say, "I like the one where the ears twitch. How did you ever get a rabbit to do all that?"

How long should a tv spot run? We're still minus an answer. But we do know seven years was not too long for the first Coast Federal rabbit.

Coast Federal's tv bunny ran 7 years
Absinthe Frappé

...Old New Orleans Favorite

WWL-TV...new New Orleans Favorite

Romper Room, WWL-TV's standout morning show, delivers the audience at the lowest cost-per-thousand of any kid show in the New Orleans market—even lower than afternoon kid shows.

It makes sound sales sense to catch the kids in the morning before mom goes to shop—not in the late afternoon, when she has already completed her day's shopping. ARB (April, 1960) shows Romper Room leading all competition with a 9 rating.

Catching customers
EDITOR: Recently a prominent advertising agency executive labeled the radio medium a "catch-all."

I don't know exactly how he meant it but suspect that he may have inadvertently expressed a definition of the medium which is very pertinent to understanding its values and uses.

Spot radio is unquestionably the catch-all medium.

It catches-all the men in the morning while shaving, dressing, driving to work. It catches them on-the-go when other media cannot reach them.

It catches-all the housewives mostly in the kitchen when they are using household products.

It catches-all the teenagers (the headwaters of your market) in their rooms, cars, beaches.—Robert E. Eastman, Robert E. Eastman & Co., New York.

Selling local radio
EDITOR: Through the years we have systematically converted merchants who use handbills or circulars into users of KMAR by employing the following method: After every circular mailing we salvage all the circulars discarded at the post office or on the street and return them to the sponsor. This has invariably resulted in the reallocation of the circular budget into a KMAR schedule. Every merchant has appreciated this service because of the money he has saved and the business he received as a result of his KMAR advertising.—Si Willing, General Manager, KMAR Winsboro, La.

Roy Rogers sells for Nestle
EDITOR: Our good client, The Nestle Co., and a number of our Roy Rogers’ manufacturing licensees have decided that they would like to have reprints of [the feature article on Roy Rogers Show, page 78, July 18] in the hands of their sales staff—particularly in connection with the contest with which the article refers at some length. We would, therefore, appreciate permission to reproduce the article intact.—Edward L. Koenig, Jr., President, Roy Rogers Syndication Inc., Beverly Hills, Calif.

In South Florida, the nation's fastest-growing area-market, WTVJ—among all media—delivers the largest daily circulation! Only WTVJ will give your schedule complete coverage of this dynamic growth area. Obtain the facts of WTVJ's exclusive, total coverage of South Florida from your PGW Colonel.
Radio Station WWJ in Detroit, the world's first commercial broadcasting station, celebrates its 40th Anniversary on August 20.

Pioneer electronics inventor Lee DeForest who designed WWJ's first transmitter—20 watts—has stated, as reported by Time and Newsweek Magazines: "On the night of August 20, 1920, the first commercial broadcast station in all the world was opened." The station has been on the air regularly every day since that time.

Other WWJ programs during 1920 included:

August 31—Returns of local and state primary elections. That hundreds of listeners heard the returns in their homes was duly documented by The Detroit News the following day.

September 1—WWJ Radio was the source of music for a dancing party at a private home.

September 6—Result of the Dempsey-Miske fight, broadcast within seconds of receiving the bulletin from wire services.

September 22—First "vocal concert" by radio. Miss Mabel Norton Ayers sang several solos accompanied by phonograph music.

October 5—Scores of the World Series game (Brooklyn vs. Cleveland).

November 2—National election returns (Harding vs. Coolidge), broadcast over a period of four hours.
While we are forty years old, we consider ourselves younger every day. Our present concept of TOTAL RADIO keeps the station in tune with the times—and with present-day listeners.

TOTAL RADIO is for the total population. It features Detroit’s most complete radio news center which presents the total news—comprehensive, balanced and believable.

Listeners of all ages get their share of entertainment and information from WWJ’s popular music, concert music, classical music, sports and weather reports and special features.

Advertisers, of course, benefit from this broad-gauge programming, and find it perfectly planned for moving merchandise in the nation’s Fifth Market.
Thanks to some homework reading, an HR&P salesman came across a story in one of the food trade papers about a drug company that had developed something new. This was a product making it possible to freeze fresh fruit, without discoloration, in your home freezer. The decision to market in a new field, however, brought up many problems the drug company had not faced before.

The HR&P man called its ad manager and his agency to present spot TV as logical for the job — and to ask if he could help in the overall marketing effort.

Turned out he could. They welcomed his ideas on test markets and stations (from the HR&P list, of course). Besides developing effective spot TV schedules, he said he'd also be glad to line up brokers in those markets... supply them with merchandising material for their salesmen... arrange for mail-pull tests... and, in general, hold the new product's hand until it got started. Which it did, in a prompt and prospering manner.

**Result:** within a year, this advertiser bloomed from two test markets to 37 markets. What's more, the schedule was expanded from six to 13 mid-Summer weeks! Our man's initiative paid off for HR&P stations and for the spot TV industry.

We admit that things like this don’t happen every day, but neither are they unusual in our shop. That’s one reason why we put such a premium on creative flair and resourcefulness in selecting our sales staff. Another is because, representing one medium only, we need place no artificial limitations on the creation of new business for the spot TV industry. Uniquely, we can afford to be creative both ways.

Carter Knight,
Boston office
NOW A BIG PUSH FOR SINGLE RATE

Rep association says national-local differences are obsolete

The solid weight of the Station Representatives Assn. was thrown behind the one-rate movement in spot radio and television last week.

The association's members unanimously recommended that all television and radio stations wipe out the distinction between "local" and "national" or "retail" and "general" rates and adopt a single rate policy for all spot broadcasting.

The move, being made public today (Aug. 15), represented the most sweeping single endorsement the single-rate movement has received in years of controversy. SRA's membership of 20 rep firms, including many of the leading companies in the business, represent 350-400 tv stations and about 850 radio stations. Many non-members of SRA also support the one-rate concept.

Individual Decision = SRA endorsement does not mean that stations necessarily will follow suit. That decision is up to the stations individually, as SRA took pains to point out. But observers agreed that SRA's stand should carry more weight than any single endorsement among the many that have built up among stations and station groups over the years.

The historic problem in applying different rates for "national" and "local" business is in deciding which advertisers are eligible for which classification. Many national and major regional advertisers traditionally seek through their local distributors or other local outlets to get the local rate, which is lower than the national.

In its variations this situation becomes complicated and stations often find it difficult if not impossible to enforce the national rate in all cases where they think it should apply. The problem worsens when competing advertisers insist on the same deal.

In the process, agencies frequently say they're embarrassed to find that clients have been able to make better deals directly with stations than the agencies themselves could make through their normal dealings with station reps. In some cases national agencies claim they have lost control of their budgets — and their commissions — because clients elected to deal either directly or through local agencies.

Equal Treatment = This sort of situation is cited by one-rate advocates as best evidence of the dangers of separate rates. Agencies as well as stations and station reps have taken this position, the most notable example being N.W. Ayer & Son.

Earlier this year Ayer officials called leading reps together and — while not asking for a single-rate policy, and indeed indicating later that it would be unrealistic to hope for such a policy — made clear that if stations grant local rates or off-card deals to one advertiser, Ayer would demand the same concessions for any similar clients it serves (BROADCASTING, June 6, et seq).

This line of argument has won many stations over to the single-rate system over the years. However, though no accurate count is available, the number of stations that have and rigidly enforce a one-rate policy is thought to be a relatively small minority. Many stations contend that the rate differential is justified and not too hard to apply, but for the most part they are less vocal than those who wish to change the system.

SRA's statement recognized that some stations feel they cannot do or do not wish to switch to a single-rate system at this moment. These, it said, might consider "a transitional rate card" on which "retail" and "general" advertising would be defined as clearly as possible. But the statement also emphasized that a single-rate policy could ultimately be beneficial to "every station."

Definitions a Problem = The SRA position was drafted by the radio and television trade practice committee, headed by Edward P. Shurick of Blair TV and Wilmot H. Losee of AM Radio Sales, after repeated efforts to write out clear-cut distinctions between "retail" and "general" advertising had failed to satisfy committee members and other SRA leaders. Approved by all members of the association, which is headed by H. Preston Peters of Peters, Griffin, Woodward as president and chairman, the recommendation was mailed late last week to all U.S. television and radio stations.

In recommending "a like charge for like services," the SRA statement said this "is, in fact, the intent of a clause in the AAAA contract which most agencies employ and to which broadcasters agree when they accept advertising on AAAA contract terms."

SRA said "we know of no advertising medium which has been able to adopt a dual rate policy without being discriminatory. Stations which employ both a 'retail' and a 'general' rate card have rarely succeeded in clarifying who

All for one = Key figures in the adoption of the Station Representatives Assn.'s sweeping endorsement of the one-rate policy for all spot broadcasting were (l-r in picture above) H. Preston Peters, president of Peters, Griffin, Woodward, who is president and board chairman of SRA; and Edward P. Shurick, executive vice president of Blair TV, and Wilmot H. Losee, vice president and general manager of AM Radio Sales Co., as chairman of the association's television and radio trade practices committee. SRA's stand evolved out of "intensive study" by the trade practices group and was endorsed unanimously by SRA's 20 members, who include a majority of the most prominent companies in the station representation business.
One way to keep rates separated

WHTG Asbury Park, N.J., thinks it has developed a simple way to define eligibility for local and national rates and has thus eliminated one of the principal arguments for single rates for all advertisers.

The station explained its rule last week in a letter rejecting a request for local rates for the New York District Ford Dealers' Advertising Assn. The request came from Carl E. Rhodes, J. Walter Thompson account representative for the Ford dealers.

Here's how Mrs. Theo Gade, owner of WHTG, explained the policy. The station's rule of thumb for distinguishing between local and national advertising is this: "If there are two or less places where the product or service can be obtained [in the station's coverage area], the local rate applies. If there are three or more places where the product or service can be obtained, the regional-national rate applies."

A local bottler that has three or more outlets pays the regional-national rate. So does a local bank with three or more offices.

Good for All • SRA took the position that "the adoption of a single rate standard would serve the best interests of advertisers and broadcasters alike. Many who have adopted the single rate card idea have increased both local and national revenue by developing carefully planned discount structures, preemptable availability plans, special service features and other refinements. The rule of like charge for like services, if employed by radio and television, can strengthen the position of all broadcast media to the eventual benefit of every station."

For these reasons SRA unhesitatingly suggests that rate schedules be re-examined towards establishing, if a station does not already have one, a single rate policy. Stations which have a two-rate policy which their management feel cannot be changed to the single rate at this time may wish to consider a transitional rate card as an intermediate step towards the single-rate policy.

"These stations and those management who cannot now alter their dual rate position can relieve the broadcasting industry of confusion and embarrassment by making every effort to employ clear and unambiguous definitions of what is 'retail' and what is 'general' advertising. These definitions should, of course, be published as part of the rate schedules to which they apply."

In addition to approving the recommendation and sending it to all stations, SRA members also were asked to contact their own client stations individually in behalf of the proposal.

Signers • SRA member firms are AM Radio Sales Co.; Avery-Knodel; John Blair & Co.; Blair TV; Blair TV Assoc.; Broadcast Time Sales; Harry E. Cummings, Jacksonville, Fla.; Bob Dare Assoc.; Devney O'Connell; Robert E. Eastman Co.; H-R Representatives; H-R Television; The Katz Agency; Daren F. McGavren Co.; The Meeker Co.; Art Moore Assoc., Seattle; Peters, Griffin, Woodward; Radio-TV Representatives; Adam Young Inc. and Young Television Corp.

GILLETTE CHANGES AD PLANS

Triple spot threat brings cancellation

The Gillette Co. has quietly abandoned its plan to run back-to-back commercials for its Toni and Paper Mate subsidiaries because of the spectre of triple-spotting (CLOSED CIRCUIT Aug. 8).

Though it had already sent out some of the two 30-second commercials, one of its divisions took a flat stand against the practice, primarily because the plan stirred up controversy among several station representatives.

A Toni spokesman said Wednesday that "Toni has always been opposed to triple-spotting and we are not going to change our position." He acknowledged the plan had been abandoned and that Toni had been "abashed" upon ascertaining station representative reaction.

Under the plan, stations would have been asked to carry the two 30-second spots in place of previous 60-second Toni commercials, thus subjecting themselves to multiple spotting pressures. Though both companies, Toni and Paper Mate, are owned by Gillette, the products (hair preparations and writing pens) are unrelated, it was pointed out.

Previously, a spokesman for North Adv., which handles the Toni account, acknowledged the plan was under consideration but denied it would lead to triple-spotting. He suggested there was little difference whether one company or different companies bought the spots even though the products were not related. Paper Mate agency is Foote, Cone & Belding.

Report cites agency public service work

The Advertising Council has published a two-year report, "Smokey Bear Loves Advertising Agencies," subtitled "True Stories About Advertising Agencies and Their Talented Men and Women, or Another Two Years of Lighting the Torches for America and Putting Out Her Fires."

The 21-page report summarizes public-service efforts and results for these campaigns: Forest fire prevention (Foote, Cone & Belding and more recently Liller, Neal, Battle & Lindsey for the south), better schools (Benton & Bowles), United Community Campaigns (BBDO), mental health (Sullivan, Stauffer, Colwell & Bayles), stop accidents (Campbell-Ewald), contribute-work-vote (Foote, Cone & Belding), religious overseas aid (Fletcher Richards, Calkins & Holden), aid to higher education (N.W. Ayer), polio S.S. Hope (Young & Rubicam).

WHO radio continues to dominate Iowa radio audience!

"Voice of the Middle West" serves America’s 14th largest radio market

SURVEYS have measured the Iowa radio audience for 23 consecutive years. A new 93-County Area* Pulse Survey proves — as have all the others — that 50,000-Watt WHO Radio is again Iowa’s most listened-to station.

Iowa radio families have again given WHO Radio a "clean sweep" with first place in every week-day quarter hour surveyed. Competition came from more than 85 other stations serving this area. In fact, 50,000-Watt WHO Radio’s audience outstrips that of the next two stations combined during the three major week-day broadcast segments (6 a.m.-Noon, Noon-6 p.m., 6 p.m.-10:30 p.m.).

But these ratings tell only part of the story. They represent only 72% (625,000 of 865,350) of the radio families residing within WHO Radio’s NCS No. 2 coverage area — America’s 14th largest radio market. And in all this area, WHO Radio is an important voice!

WHO Radio reaches more people, more often and at less cost than any other station or combination of stations in Iowa. And, for a qualifying food or drug advertiser, WHO Radio offers Feature Merchandising services — operated and controlled by trained WHO Radio personnel. See your PGW Colonel about reaching all of Iowa plus lots more with WHO Radio!

*Iowa PLUS" consists of the 137 counties in Iowa, Missouri, Illinois and Nebraska in which NCS No. 2 credits WHO Radio with 10% penetration.

PARTIES’ AD STRATEGY SHAPES UP

Paid time will run into millions despite free network debates

Multi-million-dollar buying of political broadcasting time was started last week by the two major parties. The plans for paid advertising were being made in the knowledge that the presidential candidates will have unprecedented access to free air exposure in debates on all networks.

Working with the national television and radio networks, representatives of nominees Richard M. Nixon and John F. Kennedy appeared to have reached tentative agreement that the heralded Nixon-Kennedy debates would be (1) live, (2) on all radio and TV networks simultaneously and (3) unsponsored. But there was no indication how many there might be or when they would start.

The networks’ individual offers added up to a total of close to 20 hours of debates and interviews featuring the two nominees but actually there may be as few as two debates plus one or two programs in which Messrs. Nixon and Kennedy will submit jointly to questioning by newsmen. But the final answer hinged on meetings to be held between Nixon and Kennedy representatives early this week in Washington to see where their respective campaign schedules might be made to dovetail.

Pros at Work — While top-level consultants to the candidates faced up to this question, the advertising agency organizations working with and under them were staking out paid-time television availabilities for their nominees.

First time purchasers centered on five-minute network programs—acquired as in 1956 by shortening regular half-hour and hour entertainment shows to accommodate the political inserts—and on half-hour network periods. The spot schedules, which will be heavy as the nominees move from state to state, remain to be determined. And to conceal their strategies as much as possible, both sides are talking as little as possible about specific plans, network as well as spot.

While the clearest factor to emerge in the parties’ advertising plans was that television would be the prime medium, plans for the vaunted free-time debates between Messrs. Kennedy and Nixon moved a little further out of the nebulous area. But these, too, needed much more work to make them clear-cut.

Representatives of the nominees and of the networks—ABC, CBS and NBC radio and television and Mutual radio—held their first meeting last Tuesday (Aug. 9), agreeing that “live debates” are “desirable.” Beyond that and a brief statement that the nominees’ representatives would now meet and see how many joint appearances might be feasible, the official announcement on results of the session offered no details.

It was learned, however, the agreement also specified the appearances would be on all networks, radio and television, at the same time. This agreement automatically ruled out appearances via video tape (except possibly for taped delays to overcome time-zone differences). The insistence on live appearances stemmed from a desire to prevent deletion of fluffs or inadvertent errors by either candidate.

The Kennedy and Nixon advisers hoped they would be able to reach agreement at their session this week on times and places in time for another session with the network representatives in about 10 days.

Participating in last week’s meeting were Leonard Reinsch of the Cox stations, communications consultant to Sen. Kennedy, the lone Democrat present; Herbert Klein, Vice President Nixon’s press secretary, along with Fred Scribner, Undersecretary of the Treasury and a member of the Nixon strategy board; Ted Rogers, TV and radio consultant to Mr. Nixon, and Carroll P. Newton, head of the advertising agency for the GOP campaign; John Daly, ABC news vice president; Sig Mickelson, president of CBS News; Lester Bernstein, NBC corporate affairs vice president; Joseph Keating, Mutual programs and operations vice president, and Norman Baer, Mutual news director.

Waiver Necessary — It was made clear at the meeting that the networks’ free-time offers depend upon Congressional waiver of Sec. 315 of the Communications Act so candidates of smaller parties will not be entitled to equal time. The Senate already has approved the waiver and the House is expected to follow.

In the paid-time area, one of the first orders was sent by the Republi-

Continued on Page 36

Planning debates — Representatives of networks and of the presidential candidates met Aug. 9 in New York for the first talks about broadcast debates between the candidates. They reached tentative agreement that the debates would be live, unsponsored and simultaneously on all networks. But the dates and the number of appearances remain to be set.

Before going into the meeting the key figures posed for photographers. In picture above are (l-r) John Daly, vice president, news, ABC; Fred Scribner, Undersecretary of the Treasury and member of the Nixon strategy board; Sig Mickelson, president, CBS News; Joseph Keating, vice president, programs and operations, MBS; Lester Bernstein, vice president, corporate affairs, NBC; Herbert Klein, press secretary to Vice President Richard M. Nixon, and J. Leonard Reinsch, executive director of the Cox stations and communications consultant to Sen. John Kennedy.

General Electric bets a million on Magoo to win

A million dollar's worth of tv time will be thrown behind the autumn campaign on behalf of General Electric's favorite candidate — Mr. Magoo, animated spokesman for GE's light bulbs.

The largest block of time yet bought will carry the Magoo message to the precincts through 269 tv stations in 129 markets. A total of 14,000 spot tv commercials will be sponsored over a four-week period starting Sept. 19.

One-minute announcements, 20-second spots and IDs will present the cartoon character as he solicits votes for GE's lamp division. The Magoo platform—"The soft-white bulb for better light."

The little fellow with the genial visage and the worst case of near-sightedness on the air will shake hands with water-pump handles and smooth babies in his "Ballot For Bulbs" campaign in a typical 20-second commercial he quips, to a poodle in a woman's arms, "It's easy to see whose baby you are" and enters a police station in the belief it's a fine place for a campaign speech.

Salesman Magoo — After Mister Magoo had been given a test run last spring, Marty King, advertising manager of the GE lamp division, described the campaign as "the best tie-in and sales-getter General Electric has used in its advertising history."

The spring test was based on a three-week campaign of 20-second IDs in Fort Wayne, Cleveland and Pittsburgh. GE's agency, BBDO New York, had suggested Mister Magoo as the company searched for a livelier message than had been used in its extensive network radio and tv campaigns. In particular, it was felt, needed a more exciting vehicle.

GE figured it should be able to build up sales through saturation spots, perhaps in the Lestol manner. It already had a distribution and permanent merchandising system.

After the three-city test, Mister Magoo was given point-of-purchase displays tieing-in with commercials appearing in a 125-market saturation run that lasted three weeks. From now on Mister Magoo will be featured in spring and autism tv schedules backed by "push-through merchandising on top of good advertising."

The spring testing was checked by Schrewin Research. The verdict: good company recognition. In a sampling made later during the actual placement of Magoo commercials (using a 2,000-phone call sample and a check that included 375 stores), recognition of Mister Magoo scored in one-half of those interviewed, while GE earned a 35% recognition.

According to Mr. King, part of the GE bulb success came from a realization simply that "selling bulbs was like selling Jello, a Revlon lipstick or a Lestoil. What we needed to instill was 'local excitement.'" And that's the tenor of Magoo selling.

Female Audience — Since 70% of the electric bulb market is traced to women purchasers, most of the "Ballot for Bulbs" campaign will be minutes placed near daytime programs. But last spring GE found that though dealers heard about Mister Magoo, they hadn't seen him. This will be rectified in the fall with some 20s and IDs in prime evening time.

In this energetic GE push which will aim toward the traditional bulb outlets of drug, variety, hardware and food stores, dealer contests will be held along with establishment of tie-in displays.

Already there's been a bit of fun that GE hadn't planned on. During the Democratic convention last month CBS-TV cameras picked up a demonstration for Adlai Stevenson. In the background but flying high waved a "Magoo for President" banner. Westinghouse Electric, a director competitor of GE's, sponsored the CBS coverage.

GE contrives carefully for attention. At a Battle Creek, Mich., store (CutRate market) last spring a direct tie-up with the Magoo commercial campaign included a 40-foot GE bulb display set up along one whole wall. In the three-week tv campaign the store sold $4,000 worth of bulbs, or 25% of its annual bulb volume.

The Magoo commercial concept is the creation of Art Bellaire, vice president and associate copy director in charge of tv and radio at BBDO, who conceived the idea of making a salesman out of the familiar UPA animated character. Dick Mercer, vice president and creative group supervisor at the agency, and Mr. Bellaire have written the commercials. UPA Pictures produces the films with other credits going to Bill Pues of UPA and Eddie Dillon, an art director at BBDO.

Mister Magoo, an effective means of personalizing the soft-white bulb featured by GE, has his larynx flexed and his hair trimmed for what may be one of the brighter spots of the fall political maneuvering. GE's counting on him to sell its bulbs.

can National Committee to ABC-TV for the 11 p.m.-to-midnight period on election eve (Nov. 7). Other plans of both parties were unavailable. To a considerable extent the plans are being held up until it is known how much free time will be allotted to the Nixon-Kennedy debates.

On ABC-TV, in addition to the election eve purchase, the GOP reportedly has placed orders for approximately eight five-minute segments in October, all in daytime periods. The Democrats have placed an order for a half-hour on Sept. 20 which would preempt Wyatt Earp at 8:30 p.m. and a half-hour on Sept. 29 at 10:30 p.m. (apparently preempting Silents Please, a summer replacement).

NBC-TV also is receiving orders for five-minute segments. So far more than a dozen such orders apparently have come from the Democrats and a few less from the Republicans. The first of these will start in late September. Here, too, most segments are adjacent to popular daytime shows, the few in the nighttime clipping five minutes off such programs as Perry Como and The Price Is Right, to name two programs on NBC-TV.

CBS-TV has orders for five-minute segments and half-hours from the political parties but details were unavailable. The five-minute segments will be filmed or taped, or contain a mixture of both.

Costs - CBS and NBC indicated they will sell the nighttime five-minute programs at about 10% of the hourly rate, while ABC-TV apparently plans to bill incumbent advertisers for five-sixths of the time cost for shows that are clipped, and charge the party one-sixth.

The two organizations: For the Democrats, Guild, Bascom & Bonfigli, official agency for the Democratic National Committee; for the Republicans, a special task force agency, Campaign Assoc., set up specially for the presidential campaign.

How They Function - Each agency works under the umbrella of the party's campaign high command. The Democratic party command includes Pierre Salinger, Sen. Kennedy's press secretary; J. Leonard Reinsch, Cox stations executive director, who is communications consultant to Sen. Kennedy and to vice presidential candidate Lyndon B. Johnson; Jack Christie, radio-tv director of the Democratic National Committee and with whom Mr. Reinsch will work closely; Roger Tubby, an editor who served as a press secretary to former President Truman; and Sam Brightman, who handles public relations.

The Republican counterpart command includes Herbert Klein, Mr. Nixon's press secretary and a three-man team including Richard Bean, Los Angeles public relations manager of Lockheed California Div.; James Flow- ers, King Features, general news, and Peter Kay, of Mr. Klein's paper, San Diego Union, general assignment.

Robert Finch, executive assistant to the vice president, is campaign director supervising strategy and planning, and serving as liaison between the Nixon staff and the campaign organization headed by Leonard Hall, campaign chairman. Mr. Hall is a veteran in Republican politics and is a former chairman of the Republican National Committee.

James Bassett, Los Angeles newspaperman, will work with the campaign organization in scheduling and organizing. The function of this group is comparable to the Democratic planning unit.

For campaign purposes, the organizational lines include:

Democrats - Aside from the agency team, Jack Denove, former BBDO executive and now in the film business in Hollywood, is advertising manager of the Kennedy campaign. He will split his time between New York and Washington, as will GB&B executives Gilbert L. Burton, vice president and general manager and account supervisor on the Democratic National Committee account, and Reggie Schuebel, the agency's vice president and director of network relations, an experienced time-buyer who will head the buying function for the Democrats. Miss Schuebel is expected to have two or three time-buyers working with her in Washington.

Mr. Burton and Miss Schuebel will have an agency group on the account including: Maxwell (Bud) Arnold, creative director; William Wilson, executive producer; Sam Hobbs, assistant art director on the account, and Richard Arnold, copy chief.

Republicans - Carroll P. Newton, a vice president and director at BBDO (with the agency some 30 years), heads Campaign Assoc. and thus the Republican account. In past years the account had been serviced at campaign time through BBDO.

Mr. Newton, a director of radio-tv at BBDO in the early days but more recently associated with account supervision for some years (U.S. Steel, B.F. Goodrich, Continental Can, California Oil), had been active in GOP political campaigns for the agency since 1952. He's assisted at Campaign Assoc. by a BBDO account executive on California Oil (Chevron), Ed Wetzel.

Three other principals: Ted Rogers, who operates his own tv production company in Hollywood (he's principal advisor on tv and overlords on network and regional tv appearances, advance field men and all films for tv recruiting, fund-raising etc.); Bassett, who will be involved in the scheduling and organizing of some of the scheduling aspects of the campaign, and Ruth Jones, whose reputation in time-buying initially was made on behalf of Procter & Gamble (through Benton & Bowles starting in 1952 and later Compton in 1953). She is the top time-buyer for the GOP, working out of the New York headquarters. Miss Jones is an associate media director and broadcast supervisor of station relations at J. Walter Thompson, New York.

The GOP-Nixon media team includes John Steer, a Kudner copy supervisor who will head up a copy writing group; Gene Wyckoff, an independent film producer, who will write, produce or direct as needed; Bruce Allen, Lennen & Newell tv commercial film producer, who will serve as tv advance man on the road arranging tv appearances and work on commercial production (there'll be six or eight others in similar functions), and Paul Keye, an account executive with Hixon & Jorgensen, who will work in Washington as a liaison agent. Messrs. Rogers and Bassett also are based in Washington.
Oh, boy! — my Pulse says
45% MORE WIMMIN!

Yes, the latest 55-county Pulse Area Report (March 1-28, 1960) again proves WDAY Radio to be the most-listened-to station in, around, or near Fargo!

45% more women! Monday thru Friday, WDAY Radio has 166,400 women listeners!

67% more men, too (though we really don’t care nearly so much about them)! WDAY Radio has 114,660 men listeners!

But don’t think there’s anything unique about this situation. It’s been going on for years and years and years. Ask PGW for all the facts!

THE CASE FOR ANIMATED TV SPOTS

An expert argues that cartoons can sell things live actors can't

The little animated man in the commercials is continuing to win awards and influence sponsors.

Most recent example came from the Advertising Assn. of West which selected the top TV commercials produced in the West during the past year (Broadcasting, July 4). There were five classes: 60-second spots, 20-second, ID's, program commercials and color commercials. The five first place awards for the best spot in each category all went to animated commercials.

"That's as it should be," commented Bill Scott of Jay Ward Productions, where he is co-producer of Rocky and His Friends, cartoon program sponsored by General Mills twice a week in its across-the-board late afternoon half-hour period on ABC-TV. "Cartoon commercials ought to be best because this is the only mass medium where the advertiser has absolute control of every second of time and every square inch of screen and so has complete control of everything the audience sees or hears from start to finish."

"Cartoon characters have one major shortcoming in comparison with live performers," he admitted. "They can't act. They can't look the viewer straight in the eye and make a believable pitch. But cartoon characters can make him believe things a live actor can't.

More Latitude • "There are only so many ways you can photograph a bottle of beer, only so many ways an actor can show his satisfaction after sipping it. But the Burgie man, by flubbing the commercial, can make folk's love him and pity him and identify with him more strongly than they do with any live actor and some of that affection inevitably attaches itself to the product as well."

"What do you do with fats? Grease—and that's all shortening is when you come right down to it—what can you do to make that appealing? Well, Snowdrift answered that question with a foppish character dripping with superiority. On his first TV appearance he described himself, with deadly accuracy, as 'an identifiable character' and commanded his viewers to think of Snowdrift whenever they saw him. 'When you don't see me you may think of anything you please,' he condescendingly concluded. 'That's fair enough, isn't it?"

"Some months later, appearing in a yachting cap, he stated that Snowdrift is 'superb for kitchen or galley.' Then staring imperiously at the audience, he went on, 'You do have a yacht, don't you?'"

"The one field of broadcast advertising that seems to have been overlooked by the animators—or perhaps it's the other way round—is politics," Mr. Scott observed. "And this is very strange, considering the preeminent position of the political cartoons in newspapers. The only use of the TV cartoon in politics that I know of was one titled 'Hell Bent for Election' that UAW-CIO used to support Roosevelt in 1944 and that was a wrong use as the cartoon was so slanted that the only people it had any appeal for were those who had already decided to vote for FDR."

"Yet, there's no doubt that political cartoons on TV could be very effective. People will look at a cartoon almost automatically as soon as it comes on the screen and a party or candidate might capture the attention—and votes—of viewers who started out opposed and who would not ordinarily watch, listen to or read an appeal from this man or party.

Could Humor Backfire? • "I can't believe that many practical politicians have shied away from the TV cartoon as being too emotional a device. Perhaps they're afraid of destroying the serious image of a party or a candidate by what is generally considered to be a humorous medium. That would make somewhat more sense. Yet our armed forces have made good use of cartoons in their training programs and even the State Department has used them to get over serious but complicated messages that were difficult to present effectively by the more conventional means of communication."

Mr. Scott said that it takes six weeks from assignment to delivery for a one-minute commercial and calls on the services of a staff of five or six persons. For a five-minute cartoon, the time requirement is six to eight weeks, with a staff of 30. To turn out a half-hour series, where titles and other elements can be reused in many segments, takes a staff of 150 eight to ten weeks, and the same staff will spend six months in producing a one-hour cartoon special, with no repeats. A feature film for theatrical use, running an hour and 25 minutes, usually takes 18 months.

Costs • An animated program or commercial costs more than live action, he said, with an average half-hour cartoon series this fall costing around $40,000 per program. This is not an exorbitant sum, he commented, when one realizes that a half-hour program comprises 39,000 individual hand-drawn pictures.

A good one-minute animated com-

A case in point • The flying squirrel, Rocky, and his friend, Bullwinkle, the smiling moose, are two of the chief characters of Rocky and His Friends, children's cartoon series on ABC-TV which General Mills has just renewed for another year at 5:30-6 p.m., Thursday and Sunday (new time). As is seen above, the frisky pair also star in the commercials for GM cereals. Both program and commercials are the creations of Jay Ward Productions.
mmercial today costs $8,000-9,000 and Mr. Scott predicted that the price will go up to around $11,000 within the next two years. One reason is a shortage of animators. The entire cartoon output— theatrical films, tv programs and commercials, industrial films—is the work of slightly more than 1,000 people, many of them veterans who started with Disney 20 years ago or more. Unless some way is found to restore the glamour to cartooning that it had then to attract more artists to this field, advertisers wishing to use animated tv commercials or sponsor original cartoon programs may find themselves standing in line waiting to be served and paying the kind of prices that occur when demand exceeds supply.

Mr. Scott does not look for more cartoon commercials in the months ahead, but he does look for better ones. There will be more humor, more soft sell, more sophisticated appeal, he believes, and not so many hard sell spots delivered in the piping voices of danc-
ing cartoon children. "We'll see more characters like the L&M caveman," he predicted, "fewer animals like the Hamm's Bear bear."

The change is coming, he asserted, because agencies are waking up to the fact that creating a story board based on a radio commercial and giving it to the cartoon producer making the lowest bid for the job is not the way to get a commercial that will move merchandise. "Cartooning, good cartooning, is a creative activity," he declared, "and the best results are obtained only when the cartoonist has a hand in creating a character appropriate to the product and the kind of appeal its manufacturer wants it to make to the buying public."

Business briefly

Dazzled = J.L. Prescott Co., Passaic, N.J., has appointed Hicks & Greist Inc., N.Y., to handle advertising and sales promotion for its Dazzle Fluff fabric softener. William P. Davis, account supervisor, reports the forthcoming campaign will include spot tv in major markets of northeastern U.S. (product's present distribution area).

Small fry order = Wagner Baking Corp., Newark, N.J., is warming up business for Mrs. Wagner's pies via 13-week spot tv push on various children's shows in New York, Chicago and Cleveland; Agency: Charles W. Hoyt Inc., N.Y.

Warm with radio = Monticello Drug Co. (cold preparation), Jacksonville, Fla., is preparing for fall and winter cold season with 100-market spot radio buy. The campaign includes 150 to 300 spots per station with staggered sched-

Cartoonists in their element = Jay Ward Productions, the two-year-old corporation which produces Rocky and His Friends, is an aggregation of 125 actors, directors, writers, animators, musicians, artists, designers and editors, headed by Jay Ward (at left in caricature above) and Bill Scott, co-producers of Rocky.

Jay Ward, executive producer, was also co-producer of Crusader Rabbit, which introduced animation to television away back in 1947.

Bill Scott is a top writer in the cartoon field. His credits include scripts for Mister Magoo, Gerald McBoing-Boing and Bugs Bunny. His tv career dates back to Time for Beany, a puppet show which was a top favorite with west coast audiences pre-1950, and he since has written and produced many industrial films and tv spots.

The Ward staff has collected a total of 72 awards, including nine Oscars and seven prizes from film festivals in Cannes, Venice and Edinburgh. Ready for release at JWP are two new half-hour cartoon series, Super Chicken and Hoppity Hooper, a satirical comedy cartoon-and-puppet show called What's Gnu? and an hour-long Yuletide special, Magic of Christmas.

Also in advertising

- Winters Assoc., New York, is a new advertising agency organized by Peter Theg, former national sales manager of Bartell Broadcasting Corp. The new agency, which will concentrate on accounts heavy in radio and tv, will headquarter on the penthouse floor of the Times Tower (at Times Square in New York). Winters currently is buying a radio and tv campaign for dan-d Industries, manufacturer of men's toilet-

Spots will run on some 20 stations on the eastern seaboard. Mr. Theg has been in sales and station management and had been a consultant as well as general manager of WILD Boston and WMTV (TV) Madison, Wis.

- BBDO's intake of additional Pepsi-Cola billings continued last week, the pleasant lingering effect on the parent company's April appointment of the agency. Pepsi bottling firms over the nation since then have been switching ad budgets to BBDO. Latest last week was a Pepsi bottler in Winston-Salem, N.C., considered to be a billing plum because it's one of the largest in the company.

- VeriKleen Products, Garden Grove, Calif., has appointed Adams & Keyes, Los Angeles, as agency for the company's line of carpet cleaners, spot removers and other household products. A Southern California tv campaign is planned for fall.

BROADCASTING, August 15, 1960
New agency devoted to co-op advertising

Cooperative advertising, often treated as a stepchild by the commission-oriented minds and closely watched by federal regulators, now has its own agency to deal with complexities of the business. Lester Krugman, at one time advertising vice president for National Telefilm Assoc. and more recently publisher of the Cooperative Advertising Newsletter, has sold his monthly letter and founded Cooperative Advertising Specialists in New York.

CAS will offer a comprehensive service to manufacturers covering creation, administration and merchandising of co-op programs. The fee to the advertiser will be 15% of expenses. Commissionable business will not be affected, Mr. Krugman says, and he expects to coordinate efforts with other agencies retained by clients. The new firm was not ready last week to release a client list.

Cooperative advertising is estimated at $2 billion in annual expenditures by Mr. Krugman. Through supermarket and other retail schedules, cooperative money has become increasingly significant in local radio. In television co-op accounted for 15% of revenue in 1958, Mr. Krugman said, going from an estimated 10% the year before. However, broadcasters are not getting what they should from co-op because of a lack of aggressiveness, deficiencies in proof of performance and rate card dealing, the specialist believes.

His agency is at 554 Fifth Ave., New York 36 (Telephone Circle 6-6670). The newsletter was bought by American Press, New York, publisher of a trade magazine for weekly newspapers, and Mr. Krugman will act as consultant.

Diploma sponsors

An experiment in locally-sponsored public service programming has proved successful for WREX-TV Rockford, Ill. The station enlisted 13 Rockford business and industrial firms to serve as co-sponsors with WREX-TV of the graduation exercises of the city's two high schools. It was the fourth time the station had telecast the graduations, but the first time it has sought sponsorship. A bank, several manufacturers and a dairy cooperated to bring the two programs to the public of Rockford.

Who's game • Floor-covering prospects had better beware. Sandran is loose in the television jungle with a newly-acquired weapon, animation. Viewers who may have managed to resist Sandran's customary straightforward attack now will be subject to subtler stalking by a big new personality, an animated elephant.

The 60-second safari story, produced by agency Hicks & Greist, begins to unfold next week on the network but will get heavier play in 30-40 markets where manufacturer Sandura Co., buys time cooperative-ly with distributors and dealers.

The animation, an unusual approach in this product class, takes a new technical tack to build sales appeal for the elephant character, Sweetie Baby. The hunter—he's out for Sweetie Baby's hide—is painted in the usual manner on film, but the elephant is cartooned first on paper, which is torn away before transfer to the film, to give appearance of extra dimension and movement. Sandran, introduced in live-action pictures (left) is used by Sweetie Baby to show the hunter that there is something tougher than elephant hide.

Sweetie Not in Olympics • Sandran is not forsaking altogether its traditional straight-sell, however. Hicks & Greist has produced a new live-action film spot "The Sandran Decathlon," for eight prime-time minutes the client has bought during CBS-TV's Olympics coverage starting Aug. 26. This commercial also will be supplied locally.

While Sandran generally has relied on straight product presentation on tv, Sweetie Baby will not be the first elephant in the act. An early Sandran commercial on Steve Allen's old NBC-TV Tonight show was a street stunt where elephants, steamrollers and other heavy-duty talent trampled the product in the street.

The agency team responsible for the new cartoon commercial includes executive producer Richard Rendely, writer Pete Nord and Art director Len Glassor. Ven Herndon is the Hicks & Greist account executive. Elektra films, New York, executed the spot, Pablo Ferro directing.

Floor cover concerns bigger tv customers

A significant development in television advertising at mid-summer is a growing activity on the part of two floor-covering companies to undertake extensive sponsorships in promoting their new lines.

Armstrong, sponsor of the nighttime Circle Theatre on CBS-TV on alternate Wednesdays, will hike its daytime television this fall. Starting in early September it will add sponsorship in The Verdict is Yours and Brighter Day to daytime Art Linkletter's Houseparty it now has on CBS-TV. It is increasing tv to advertise vinyl accents, a rotovinyl floor covering. Armstrong and BBDO feel this will account for the largest daytime effort made by Armstrong or any other floor covering advertiser.

The other active advertisers: The Sandura Co. of Jenkintown, Pa. until recently Sanduran participated in three daytime tv shows and the NBC-TV Jack Paar Show for Sandran vinyl floor covering and occasionally for the more expensive crown vinyl line. Sandran's fall network budget has been concentrated by its agency, Hicks & Greist, N.Y., on eight prime minutes of Olympic coverage on CBS-TV and a sixth of
In 1775 when the two signal lights gleamed from the old North Church belfry, Paul Revere rode like a firebrand into the quiet night to warn all waiting Middlesex County that the British were coming. And... when the British came, the Minutemen were waiting for them, muskets cocked... the message got through. Balaban stations travel like a firebrand, too, with your message... riding straight to win for you on the Balaban policy of original programming, exciting personalities and real selling "know-how". The news of your product, or your service is carried straight to the buyer with the Balaban Stations... couriers par excellence!
Radio has sales arms, Georgians are told

Radio is armed right now with all the sales weapons it needs "to take tens of millions of national and retail advertising dollars away from the other principal advertising media," the Georgia Assn. of Broadcasters was told last Tuesday (Aug. 9). Speaking at the group's meeting at Jekyll Island, Ga., Kevin B. Sweeney, president of Radio Advertising Bureau, also said radio's present selling facts are sufficient "to double billings within the next five years."

Summarizing radio's advantages over other media for most advertisers, Mr. Sweeney pointed to the inroads made by radio on newspaper readership and tv viewing. "Radio now receives nearly twice as much time daily from U.S. adults as newspapers and magazines combined," he said. At the same time, Mr. Sweeney said, "more adults are listening to radio than viewing tv during 12 of the 18 hours of the broadcast day. And radio's margin over tv in these 'buy-time' hours is growing every year."

Agency App'tments

- Coty Inc., N.Y., named Daniel & Charles Inc., N.Y., to handle several new, and as yet, unnamed, products.
- Turtle Wax Co., Chicago, appoints D'Arcy, Co., that city, to handle its $200,000 account, including car waxes, cleaners and other products previously serviced by Bozell & Jacobs. D'Arcy already handles Parti-Day Div. account of Turtle Wax Inc.
- Manning's Inc., S.F., appoints Compton Adv. as advertising and marketing counsel for all divisions. These include Manning's Coffee Co. (a wholly-owned subsidiary), the Restaurant Div., the Bakery Div. and the Food Service Management Div. Manning's has restaurants and cafeterias in four western states.
- Miss Pat, L.A. (Women's fashion sportswear), appoints Hixson & Jorgensen, that city, to handle national advertising and sales promotion.
- Elgin Watch Co. Ltd. names Kenyon & Eckhardt of Canada Ltd. Ed Ferree, K&E vice president in charge of the Toronto office, appointed account supervisor.

Radio Advertising Bureau, New York, has gone trouble-shooting in the retail record store field and come up with a report to help stores hold onto their stake in a $462 billion business shared increasingly with chain stores and record clubs. Radio can help out, RAB says, with blanket coverage of adults (prime long-play and album customers), big coverage of suburbia (reaching 83.6% of outside-city families weekly in an area that accounts for nearly two-thirds of the country's population) and with 97% weekly coverage of the $75 million pop-single teenage market. There are 6,000 independent record stores and 15,000 supermarkets selling records today, RAB reports. In the split market, record clubs are doing 20% of the business, and supermarkets 17%.

B/G/F buys in Dunlop

Bishopric/Green/Fielden Inc., Miami advertising agency, has acquired "a substantial stock interest" in Gerry Dunlop & Assoc., agency based in Jamaica, B.W.I., President Karl Bishopric announced. "With a division in Jamaica, we'll virtually be on the doorstep of our Caribbean advertisers who sell in the United States," he said. In addition, Mr. Bishopric asserted, American clients with Caribbean interests will benefit from the merger and Dunlop clients will reap such benefits as use of B/G/F's radio-tv-film department.

Dunlop adds 36 accounts to the Florida agency's roster. B/G/F's annual billings have run around $4 million and with the addition of Dunlop and Radcliffe Adv., Jacksonville, which the agency opened in February, Mr. Bishopric said, will top $5 million annually.
All the props...

AND THE AUDIENCE, TOO!

In Shreveport, KTBS-TV shoots the works to put the sharpest, strongest picture before an ever-widening number of people. By last count* KTBS-TV sent its picture into four states to reach 1,361,300 people who spent $1,337,264,000 in 1959. Clearly, KTBS-TV has the power to produce profits and does so for its customers. Ask them, or the representative from Katz.

Get the Full Story from HARRINGTON, RIGHTER & PARSONS
Details of a programming cutback to what is essentially a news-public affairs and personalities format were being prepared by CBS Radio last week for submission to its affiliates this week or next.

The plan was approved by network officials and members of the CBS Radio affiliates board at a meeting at Ponte Verda Beach, Fla., last Monday and Tuesday. In essence the changes that would be made in the current Program Consolidation Plan format of operation are those that had been disclosed earlier: Elimination of daytime serials and some other entertainment programs, introduction of 10-minute newscasts on the hour and the addition of five-minute news and analysis programs on the half-hour (BROADCASTING, Aug. 8).

Officials declined to release details until they have been completed and submitted to all affiliates, (who are slated to act on the proposals at their annual convention Sept. 28-29 in New York), but authoritative sources said the results probably would be as follows:

- The new 10-minute newscasts on the hour would be divided, for sales purposes, between network and affiliates. The first 7½ minutes of each would be reserved for network sale. Affiliates could substitute and sell local news in the last 2½ minutes or could carry the full 10 minutes.
- The five minute news-analysis shows to be added on the half-hour would be reserved for network sale.
- In addition to seven daytime serials, programming to be discontinued probably would include the venerable Amos 'N' Andy Music Hall (which CBS Radio at least once before considered dropping, but apparently found it too much in demand), the weekend Gunsmoke and Suspense series and the Kingston Trio.
- All news and public affairs programs currently on the schedule will be retained including Lowell Thomas across the board and Edward R. Murrow on Sundays as well as the quarter-hour World News Roundup and World Tonight seven times a week; the two-hour morning block of personality shows, consisting of Arthur Godfrey, Art Linkletter, Garry Moore and Bing Crosby & Rosemary Clooney; the weekend Have Gun, Will Travel and Yours Truly, Johnny Dollar adventure series; the 35-minute Mitch Miller Program (which may be moved from Sunday evening to Saturday); the Camera on Sports, Phil Rizzuto ad Bob Richards sports features, and such seasonal series as the New York Philharmonic Orchestra, Cleveland Orchestra and World Music Festivals.

Oldtimers Out Three of the seven daytime serials slated for abandonment are Right to Happiness, Young Dr. Malone and Second Mrs. Burton which have been on the air for close to 20 years. Another, Ma Perkins, has been on for about 27. The more recent ones are Couple Next Door, and Whispering Streets and, youngest of all, Busy Seller, a dramatization of books, which replaced the veteran Romance of Helen Trent a short time ago.

The new programming plan, assuming it wins affiliate approval and goes into effect, will be the second major change by CBS Radio in two years. Its current PCP, which not only reduced the volume of programming fed to affiliates but also substituted programming for cash as the primary means of compensating stations, was announced to a surprised convention of affiliates in late October 1958 (BROADCASTING, Nov. 3, 1958).

Network officials apparently are determined that no affiliate will be surprised by the new plan at the September convention. They hope to be able to get details to all CBS Radio stations within the next week or so, giving the affiliates time for homework before convention time. The substance of the plan was drawn up by the executive committee of the affiliates board.

John S. Hayes of the Washington Post stations, chairman of both the affiliates board and its executive committee, headed the station contingent at last week's meeting. President Arthur Hull Hayes, executive Vice President James M. Seward and Station Relations Vice President William A. Schudt Jr. represented the network.

**Disney to NBC appears certain**

Walt Disney is coming to NBC-TV. That much appeared certain last week as reports persisted that the network is continuing to negotiate with Mr. Disney for his services.

What could not be ascertained was the direction the talks were taking. An early report of the network seeking the Walt Disney motion picture and short subject backlog for tv presentation could not be confirmed. NBC-TV also was suspected of exploring a possibility of a working arrangement with Mr. Disney whereby he would provide new tv properties. ABC-TV's contract with Mr. Disney runs out in about another year. (The contract between ABC-TV and Walt Disney Productions provides his exclusivity with that network.)

**Laymen view radio-tv**

At their July convention in Minneapolis members of the Lutheran Laymen's League passed a resolution deploiring "the prevalence of immorality, violence and bad taste in publications, motion pictures, television and radio programs and in the mass media generally." However, the resolution commended the producers of acceptable works in these media "for recognizing and discharging their moral responsibilities in this respect."

It was recommended by the League that both houses of Congress take up the matter with local and state representatives and try to find methods of dealing with media improvement. The work of preventing "these offensive influences" should begin in the members' homes, according to the statement.
Timebuyer Yorick is returning from lunch. Preoccupied with latest Washington Nielsen*, he almost steps into a hole that a man is digging outside the agency. Curious, he asks the digger how deep the hole is (our people do anything for these problems).

“Guess,” replies the artist, “my height is exactly five feet ten inches.”

“Well, how much deeper are you going?”

“I am going twice as deep,” replies his adversary, “and then my head will be twice as far below ground as it is now above ground.” (Actually, the digger is a nuclear physicist whose analyst has prescribed diversionary exercise.)

How deep will the hole be when finished?

_Dig up the correct answer and win a copy of Dudeney’s “Amusements in Mathematics”—Dover Publications, Inc., N. Y. Don’t shirk just because you’ve already won—repeaters will receive additional VALUABLE prizes._

* June Nielsen shows WMAL-TV on top 6 p.m. to midnight, Sunday through Saturday. You don’t have to dig to uncover this fact.

SAG-AFTRA MERGER REJECTED

SAG members vote 82% against Cole plan

Disposing of any possibility of a merger between the American Federation of Television & Radio Artists and the Screen Actors Guild for the foreseeable future, SAG members in a secret ballot voted by a majority of over 82% to reject the David L. Cole plan for such a merger. Simultaneously, the SAG membership approved an alternative plan of positive cooperative action between the two talent unions by a 92% margin.

Results of the mail referendum were made public (Aug. 14) by George Chandler, SAG president, who noted that "this is the first nationwide referendum of actors on the question of merger and the results are most significant."

SAG members, in New York, reportedly overwhelmingly in favor of the merger, voted against the Cole merger plan by better than two to one (659 for rejection to 323 for acceptance), compared to an 88% opposition to merger by the SAG members in Hollywood and elsewhere outside on New York (3,303 against to 539 for the merger).

On the proposal of the SAG board for cooperation between SAG and AFTRA, the entire SAG membership, including New York, voted approval by 92%. New York registered an 89% majority (915 "yes" votes to 109 "noes") and the rest of the country voted 3,663 "yes" to 277 "noes."

This proposal calls for "joint formulation of contract proposals and joint negotiation and administration of all collective bargaining contracts in the field of tv commercials (live, taped and film) and also in the field of taped entertainment programs; exploration of the possibility of full interchangeability of membership cards in these fields; cross-crediting of pension and welfare benefits and a continuing study looking for other areas of positive cooperation between SAG and AFTRA."

WICE forms P&R unit

The formation of a new production and recording division to meet the specialized needs of New England radio advertisers and agencies has been announced by WICE Providence, R.I., Sherman "A." Strickhouser, WICE program director and head of the new unit, stated that the P & R division will work in association with a WICE talent bureau now being established.

The new facility will create, produce, record and duplicate individualized commercial announcements.

The film extra's new contract: how it works

A 10% hike in minimum salary scales, a health and welfare fund, six months' retroactive payment, adjustments in special categories and changes regarding commercials are the salient points of a new four-year contract negotiated by Screen Extras Guild with the Alliance of Television Film Producers and the Assn. of Motion Picture Producers (At Deadline, Aug. 8).

The new pact is retroactive to June 1, 1960, and runs to June 30, 1964. Minimum salary scales for all extras working in theatrical and tv films, commercial films and industrial and other types of films are increased 10% as of June 1 for the first two years of the contract and an additional 5% for the last two years. Examples of the immediate increases are: general extra players from $22.05 per day to $24.25; dress and riders from $29.04 to $31.94; silent bit extras from $61.33 to $67.46.

A health and welfare plan for extras will be established by an initial contribution of $50,000 pro-rated among all producers of theatrical or tv or industrial or other films, with subsequent employer contributions to be on an equivalent percentage basis with that of the Screen Actors Guild health and welfare plan.

SEG had asked for a retroactive adjustment from the expiration of the previous contract (April 2, 1959) and when the employers balked at such payments for so long a period compromised on a six-month settlement of $1.20 a day, based on 15 cents an hour. Period for which this adjustment will be paid is April 2-Oct. 1, 1959, a time when more extras were employed than during the six months just past.

Adjustments in special categories of extra work include: wet work from $4.25 to $5; body make-up and special business from $7.75 to $8.50; auto allowance from $12 to $14; interview allowance from $1.50 to $2.

Changes were agreed to in provisions covering commercials which have not yet been reduced to writing. Terms of the pact are subject to ratification by the SEG membership and the boards of the producers' organizations. The announcement that agreement had been reached was made jointly by Jeffrey Sayre and H. O'Neil Shanks, SEG president and executive secretary, respectively; Richard Jencks, ATFP president, and Charles S. Boren, AMPP executive vice president, heads of the negotiating committees of their organizations.
FILLING THE INDIES’ NEWS VOID
RPI voiced news feeds 52 independents with on-the-spot tapes

At 4:05 p.m. EDT last Tuesday (Aug. 9) program engineers at 43 stations in the continental U.S. began taping a 24:30-minute news report consisting of 20 individual news capsules from Munich, London, Bonn, New York, Washington, Hong Kong, Cape Canaveral and Boston.

At 4:55 p.m. five Canadian stations began taping a similar feed, with additional material of interest to that country.

At 5:10 p.m. three West Coast stations began taping an updated version of the 4:05 report.

At 6:30 p.m. an engineer on Swan Island in the Caribbean taped news reports in both English and Spanish.

Voiced Feeds All of these reports originated in the New York transmission center of Radio Press International, one of the first, and at this stage the most extensive, independent voiced news services. The performance Tuesday afternoon is duplicated twice each day Monday through Friday (the other report at 7:05 a.m.), with similar afternoon feeds on Saturday and Sunday plus a 10-minute news round-up on Saturday. They are part of the news budget RPI delivers to 52 stations every week—a budget that reached 1,044 items in July and now averages 180-200 items every week of the year.

Numerically, that 52-station lineup represents just one more station than RPI had when Straus Broadcasting Co. (WMCA New York, WBNY Buffalo) took it over in November 1959. Actually, it represents much more. For between last November and last week, the list had dwindled to 14 (in March), and the service had seen lean days and raised considerable doubt that voiced news services could last at all. Judging from the current health and enthusiasm of RPI, those doubts have been alleviated.

The idea of voiced news services was a logical development of the growth of independent radio—with thousands of stations springing up all over the country after World War II, many operating on music-and-news formats without network affiliations. A crying need for all these stations was for news beyond their local areas—and beyond that brought in by existing wire services. (Network-affiliated stations, too, are RPI subscribers, although the primary appeal is to independents.)

The voiced news service was developed to fill that breach. In the words of Michael J. Minahan, general manager of RPI, it was developed to give stations “the news they wanted, in the manner they wanted it, at times they could use it.”

The Organization Like most news-gathering organizations, RPI is built around a superstructure of full-time reporters and editors in key news centers plus a periphery of stringers. Correspondents ready to file news as it develops in other places. At RPI this reduces to a core of about 70 correspondents who file regular reports, augmented by another 400-plus stringers who can be called on as news needs dictate.

Unlike conventional news services, the voiced service adds the element of sound—with the inherent complications of getting it and transporting it from place to place. It is one thing for a correspondent in Hong Kong to file a written report by cable. It is quite another for a voiced service to carry the sound of a correspondent or a news event back to a station in Chambersburg, Pa. Until the advent of the voiced news service, the independent station did without.

WCBG in Chambersburg did not do without last Tuesday. Instead, its listeners heard an RPI correspondent report on what was happening in Laos two hours before—at the same time they heard what Lyndon Johnson had to say about the President’s defense program and what the British foreign secretary had to say about NATO.

The Hookup This is how the report on Laos got to Chambersburg: RPI correspondent Robert Elegant in Hong Kong got the story by telephone from a stringer in Laos. His report was carried via shortwave from Hong Kong to Singapore, to Karachi, to Paris, to London and then from London by undersea cable to RPI in New York. The report was taped and inserted into RPI’s 4:05 p.m. report, which Chambersburg re-taped and had ready to insert into its local newscasts.

While correspondent Elegant’s report was coming in, several dozen others were trafficked into the New York distribution point. All had been edited in the field into capsule stories ready for insertion into local station newscasts—RPI does not file newscasts, it files only the news itself.

What the Station Gets This is what the program engineer in Chambersburg taped at 4:05 last Tuesday: First he heard the voice of RPI’s Irv Chapman in New York reading the “Billboard”—a list of the news that would follow in the afternoon transmission plus the time each item would take. The first four of that transmission’s 20 items went like this:

“Cut No. 1. From the New York Stock Exchange, William McCreery reporting. 1 minute and 1 second. Today’s Wall Street report.”

“Cut No. 3. From London, Noel Bernard reporting. 52 seconds. Belgium resents UN criticism.”

“Cut No. 4. From Bonn, Omer Anderson reporting. 52 seconds. U.S. Army unit on maneuvers.”

After RPI delivered its report, the subscribers took it from there. Editors at the individual stations determined which of the news elements they wanted to use, and when. They might have...
decided to use the Lyndon Johnson statement in connection with a wire report describing Senate action that day—or more likely in connection with another RPI report that afternoon which had Washington correspondent Frank Wilson describing the day's action. Whatever they used—or didn't—the choice was theirs. (RPI finds that subscribers, on the average, use 80 per cent of the items filed.)

**Actuality Reports** - Among the 20 reports RPI subscribers taped that afternoon were seven "actuality" reports—that is, the actual voices of the men who made that afternoon's news. In that particular transmission only one was from overseas (British Foreign Secretary Lord Home reaffirming Britain's allegiance to the NATO alliance.) Six others were from Washington, including Senators Goldwater, Mansfield, Johnson, Keating and Clark discussing Republican and Democratic maneuvers in the second day of the special Congressional session.

Actuality reports are a big part of RPI's budget. In July, 450 of the 1,044 news reports were actuality broadcasts. Over a period of time RPI says about 38% of its news budget consists of actuality.

**What RPI Provides** - To get this option on the news, subscribing stations pay RPI from $25 to $300 a week, depending on the station and the market, plus the line costs to bring in the reports. There are major market as well as smaller market stations on the RPI list, including such stations as WTOP Washington, WHDH Boston, WERE Cleveland, KMPC Los Angeles and KSFO San Francisco. Subscribers are guaranteed a minimum 100 news items a week—they regularly receive almost twice that many.

Most of RPI's subscribers in the east are connected via conventional "C" lines. A few—those farthest from New York—simply call in by telephone and take the reports on a "beeper" basis. The basic line contracts call for one hour each morning and one each afternoon seven days a week. At present there are no Saturday or Sunday morning feeds, but these will be added soon.

The recent resurgence of RPI can be traced in some part to one of Mr. Minahan's guiding principles—give the stations more than you're contractually obligated to, but don't promise them a minute more than you can deliver.

Thus RPI stations received 1,044 reports this July while they were guaranteed only 400-plus. They received nightly feeds on news from the political conventions in Los Angeles and Chicago in addition to regular coverage (paying extra phone costs, but no additional service charge). Also, beginning last Monday, RPI subscribers got a daily 1-minute Wall Street report they'd never been promised, plus a weekly 5-minute financial wrapup not in their contracts. On the days when President Eisenhower holds a news conference, subscribers get the complete tape in addition to the afternoon report.

**How They Sell** - Mr. Minahan has another rule in selling his RPI service: no audition tapes. If a prospective subscriber wants to hear what the news service delivers, he is welcome to call up and be plugged into the line. If he happens to call on a dull news day, "that's the breaks—the professional will know the score." For the most part this policy has been successful. Mr. Minahan can cite a number of instances when such a call was followed by a letter saying "send me the contract."

Besides the service itself, Mr. Minahan and R. Peter Straus, president of Straus Broadcasting and of RPI, both admit they have other things going for the organization. One is the basic need independent stations have for voiced news, accelerated by a "crisis climate" that is demanding increased station performance in the news and public affairs area. As Mr. Straus puts it, an independent station out to improve its news service "can add two guys at City Hall—but then what?" Another factor helping RPI get off the ground is the increased appetite for international news, making today's events in Brazzaville of acute interest to the citizens of Chambersburg. At least 30% of RPI's news file now is international.

There are other ways for stations to get this news, but RPI feels it has peculiar advantages over other sources. There are conventional wire services, which most stations have, and there are radio networks, not available to all stations. RPI feels it outdoes the wire services on two counts: (1) It carries the actual sounds of the news, (2) whereas the local newsmen or disc jockey can handle local news adequately, he can't speak with authority on national or international events. RPI sees its advantage over networks in that a subscribing station can get the news it needs without committing itself to program material it may not want.

Messrs. Straus and Minahan don't feel they've yet accomplished all they want to do. But they are certain they're on the right track, and that "if we fail, it will be because we fail—not because there isn't a need for the service.
RADIO SUBURBIA — IT'S

! So says Variety (July 6, 1960, page 29), and so says WELI, at the opening of its free community trampoline center, just built by the station at its Radio Towers Park transmitter site in suburban Hamden, Conn. WELI's on the jump to keep pace with Connecticut's skyrocketing suburban population. WELI's full-throated 5000 watts comes in loud, clear, and welcome throughout all New Haven County, all Middlesex County, half of Fairfield and Hartford Counties—and Suffolk County, Long Island, too! Try BIG buy WELI—it's bigger than ever before! WELI / 960 / 5000 watts / THE SOUND OF NEW HAVEN

NAFBRAT best show awards announced

National Assn. for Better Radio and Television chose Small World, CBS-TV, as the television program of the year for 1959, and Ford Star Time, NBC-TV, as the best new tv program of the year, the organization revealed last week in announcing its awards for outstanding programs on tv and radio.

Three special awards were made: for Look Up and Live, CBS-TV religious series; Hidden Revolution, CBS radio program, and to the Standard Oil Co. of New Jersey for sponsoring Play of the Week and for keeping its hands off the program content of this tv series.

Regular awards, made by NAFBRAT for 1959, included, for television: drama: Hallmark Hall of Fame (NBC); entertainment: Bell Telephone Hour (NBC); adventure and travel: Bold Journey (syndicated); family situation: Father Knows Best (CBS); comedy: Art Carney Show (NBC); education: Our American Heritage (NBC); news analysis: Howard K. Smith (CBS); interviews: Small World (CBS); popular music: Perry Como's Music Hall (NBC); classical music: Leonard Bernstein & the New York Philharmonic (CBS); public service: Eye-Witness to History (CBS); children's program: Captain Kangaroo (CBS); teenagers' program: G.E. College Bowl (CBS); daytime program: Continental Classroom (NBC).

For radio: entertainment: Family Theater (MBS); news: Edward P. Morgan (ABC); education and information: Hidden Revolution (CBS); music: Metropolitan Opera (CBS); children and teenagers: College News Conference (ABC); interviews and discussion: Face the Nation (CBS); daytime program: Couple Next Door (CBS); public service: Image Series (NBC); agriculture: National Farm and Home Hour (NBC).

$2 million studio planned in Phoenix

Phoenix Film Studios, which recently produced the theatrical film, "Four Fast Guns," in Phoenix, Ariz., is preparing to build a $2 million studio for theatrical and tv film production in a 40-acre lot eight miles north of Phoenix. The company, whose stock is owned by some 450 residents of Phoenix, plans to produce about eight or 10 pictures a year on its own and to invite independent producers to use its facilities.

Kenneth Altose, president of Phoenix Film, said that the first units to be constructed will be a 12,000-square-foot sound stage and associated build-

TV CULTURE

Hausman says quality shows on tv plentiful

There's more cultural programming on television than you think—and viewers ought to take advantage of it.

That was the message delivered to educators last week by Louis Hausman, director of the Television Information Office. Speaking Tuesday at a week-long educational television workshop at Western Michigan U. in Kalamazoo, Mr. Hausman maintained that if television has a problem in this respect it is "hardly one of paucity, but rather of an embarrassment of riches."

He supported his contention with a list of tv productions of literary classics, biographies, music programs and world news actualities. In addition, he struck out at "the oft-repeated allegation that nighttime television is nothing but mischief, mayhem and murder."

During a typical week, he said, 95% of evening time in markets served by all three networks presented viewers an alternative to westerns, mysteries or adventures. Moreover, he continued, during 42% of the time "that alternatives would have included general drama, special music, sports and public affairs programs—that is, something other than comedy, variety, panel or audience participation shows."

Educators, Mr. Hausman said, "have a responsibility to approach television positively; the viewer, to become informed with respect to the medium and to make some effort to understand what makes it run. Out of such understanding grows intelligently critical evaluation which cannot fail to improve the uses to which television is put in informing and educating the public..."

As you and your families and your students do more discriminating television viewing, as you demonstrate that there is an effective demand for the best of what television has to offer, there will be more of the best to see."

Promoting Quality = He outlined projects in which stations cooperatively are promoting the quality programming on their schedules, and also reported on two TIO programs designed to help teachers use television more effectively.

One is a resources book being prepared by a committee of the National Council of Teachers of English, which is designed "to help teachers understand television as a communications medium and as an art form, as well as provide suggestions on how they can make use of what is available in English literature and language arts classes." This book is to be published this fall and distributed to the 60,000 members of NCTE.

A second project being promoted by TIO is a 15-week course for teachers, "Television In Today's World," to be conducted next spring in cooperation with the New York City Board of Education. The course is planned as a pilot project which subsequently can be given by local broadcasters in other cities.

Questions answered in pay tv booklet

The questions most frequently asked by potential viewers about pay tv are answered in a new booklet published by Hartford Phonovision Co.

The questions range from "What is subscription TV?" to "Will there be advertising on subscription tv programs?" The answer to the latter question, as published by the RKO General subsidiary, is "definitely not."

All together, 18 questions are answered by the firm which proposes to institute pay tv on WHCT (TV) Hartford, Conn. (BROADCASTING, June 27). The booklet stated that arrangements are now being considered by Hollywood's stop studios for bringing to Hartford pay tv the best of new motion pictures...feature films of the calibre of Ben Hur, Can-Can and From the Terrace.

The brochure also explains costs to the viewer of pay tv and notes that only a few "unique attractions" might run above $1.50 per showing.

IT'S THERE IN HOURS...AND COSTS YOU LESS!
Critic's of TV linger long on three popular notes in their lament on programming: quality is low, there is an excess of westerns and other program stereotypes, the little better TV programming that does exist is relegated to periods when audiences are low.

But are these complaints justified?

No, according to an inventory of TV programs in Los Angeles compiled by the Rev. James A. Brown, S.J., and reported in a term paper for a seminar in the analysis of telecommunication content at the U. of Southern California. First, Father Brown set up 17 program categories, including drama, which he subdivided into six kinds of TV dramatic shows, and comedy, which he broke down into three subcategories.

Next, he tabulated all TV programming of the seven Los Angeles stations during the week of April 30-May 6, using the regional edition of TV Guide as his source.

The findings:

- Virtually every conceivable kind of TV program is seen in Los Angeles.
- More than half of all program time is given over to dramatic programs, with westerns far from dominating the scene and, in fact, ranking lower than comedy in amount of broadcast time.
- News, special events, public issue and institutional programs and those providing general information add up to 14% of all air time.
- Children's programs get 6.7% of the total.

While proving that Los Angeles television offers better as well as inferior programs for public viewing, that tabulation of absolute program time (measured by quarter-hour program units), left unanswered the assertion that few of the good programs ever get aired in prime time. So Father Brown made a second tabulation, this time weighting the program units in accordance with the sets-in-use at their time of broadcast according to Nielsen data. Programs broadcast in A time, when sets-in-use were at the 50%-70% level, were given four units each; programs in B time (35%-50%) got three units apiece; C time (20%-35%) programs got two units and D time (0%-20%) one unit.

Again the facts confounded the critics. The alleged concentration of Westerns in prime time was simply not there. Westerns occupied 8.1% of the total broadcast time measured by absolute clock quarter-hours. When they were weighted in accordance with the audience value of their time of broadcast, they accounted for 8.5%, a rise of only 0.4% of the total. This was true of practically every program type; they all came out at just about the same percentage point in the weighted table as in the absolute time table.

The two types of program with the widest difference were news and sports coverage. Both are aimed (at least in part) at adult males; both are broadcast Brown finds the implication that "possibly the viewers of Westerns actively seek out such programs wherever they are scheduled in the broadcast day. Complaints against this type of programs are perhaps voiced by the more vocal critics whose very complaining renders the Westerns odious by association with the repetitiveness criticism."

Since all types of programs are found throughout the entire broadcast day, the implication is that "broadcasters are rendering a reasonably diversified service in the 'public interest, convenience and necessity'. . . . It seems proper, therefore, to demand that the audience exercise a positive critical faculty by (a) taking the trouble to learn when desirable programs are being broadcast and (b) selecting the specific programs which they consider more valuable or rewarding or legitimately entertaining.'

The study also compares live programming with filmed programs and the 1960 Los Angeles data with facts about TV programming collected in other years and other cities.

Why did Milt Caniff sketch this portrait of the Early Worm?

Nearly everyone in Central Ohio has a special fondness for the Early Worm. This month, his 20th anniversary on WBNS Radio, Milton Caniff speaks for all of us when he pens this salute, "Congratulations from an old friend."

The Early Worm (Mr. Irwin Johnson) has been mixing good talk and good music to get Central Ohio up on the right side of the bed ever since he left OSU’s French department. That was 22,775 broadcast hours, 341,625 records and 150,000 public service announcements ago.

Irwin’s community responsibility has never ended when he signed off the air. Even though he broadcasts nearly 30 hours each week, he has found time for more than 1,000 public appearances, most of them for charity, and his civic participations range from Columbus Boys Club to the Humane Society. Scores of awards have come to him from his own profession, including Billboard, Downbeat, Radio-TV Mirror and Who’s Who in Radio-TV.

Listeners love him, sponsors stand in line to buy his show, and we’re proud to have him aboard.
WBEN-TV Buffalo, N.Y., and to WNBC-TV New York.

“UA 39” features went to WVUE (TV) New Orleans, WTOC-TV Savannah. “Lucky 7” to KRIS-TV Corpus Christi; KHVH-TV Honolulu; WINK-TV Ft. Myers; WTVJ (TV) Miami; WOC-TV Savannah, and KOTV (TV) Tulsa. “United Artists post-48s” were sold to WNEW-TV and WOR-TV both New York, and WPTV (TV) Palm Beach, Fla.

Interpol Calling (Independent Television Corp.)
Sold to KJL-TV Fresno; KOVR (TV) Stockton, and WSAV-TV Savannah.

ABC RADIO
Affiliate meetings to get program plans

Programming plans for “the new ABC Radio,” which won the endorsement of key affiliates two months ago (Broadcasting, June 27), will be submitted to all affiliates of the network in four regional meetings starting next Monday (Aug. 22) in New York.
The other one-day meetings will be held Aug. 24 at the Sheraton-Charles Hotel in New Orleans; Aug. 26 at the Executive House in Chicago and Aug. 29 at the Fairmont Hotel in San Francisco. The New York meeting will be held at the Plaza Hotel. Officials said 90% of the affiliates had indicated they would attend one or more of the sessions.

Robert Pauley, ABC vice president in charge of the radio network, said the meetings would consider only new program plans but also “the firm, new direction being taken by the network in other areas.”

New program plans, submitted to the network’s Select Affiliates Committee in June, included a 55-minute across-the-board daytime program called Flair, which would mix popular music recordings and short features and has been tentatively set to start Oct. 3 in the 1:55 p.m. spot; extension of five-minute newscasts at 55 minutes past the hour to an every-hour basis; increased emphasis on sports and greater use of the morning Breakfast Club program as a showcase for new talent. The network’s new programming policy is aimed primarily at the young adult and especially the young housewife audience.

Mr. Pauley will head the ABC Radio delegation at the regional meetings. He will be accompanied by James Duffy, national sales director; William T. Rafael, national program director; Earl Milin, national director of station relations; Frank Atkinson, manager of station relations, and Jack Mann, director of sales development and program coordination.

Program notes

Europe beckons: National Educational Television & Radio Center, N.Y., in association with WGBH-TV Boston, will produce two tv programs in Europe next month, the first overseas-produced program in NET’s eight-year history, it was announced. First two programs in Mrs. Eleanor Roosevelt’s Prospect of Mankind series, will be video taped at BBC studios in London, where guests Bertrand Russell and Hugh Gaitskell will describe “the British attitude towards Communism.” The second hour-long, monthly pro-
INTER-SYNC*

TELEVISION SIGNAL SYNCHRONIZER

HOW TO GET MORE FROM YOUR AMPEX VTR

Ampex provides the perfect answer... Inter-Sync! Now a VTR with Inter-Sync becomes a smooth part of your production team. Use it in production as you would a camera, a film chain... or any picture source. Inter-Sync locks the VTR to station sync... electronically synchronizes the recorder with any signal source — live, film, network or slides. Here’s what you can do —

ONE RECORDER? With a furniture store account, for example, pretape a series right in your studio showing the new fall line. Loan company: tape a location shot of “customer” borrowing cash. Real estate: tape a tour through a new, development home. Then, during playback with Inter-Sync, you can wipe from tape to price slide — or lap dissolve to live announcer. No more dead air! No roll over!

Inter-Sync lets you “host” the late-late movie — and reruns — with sm-o-o-th lap-dissolve transitions between the film and your announcer on tape. No loss of mood — no abrupt changes.

TWO RECORDERS? Mix live or film with tape using key wipes or dissolves, then record on second unit. Use dissolves or special wipes between playback of two tapes. Take it from there...

THREE RECORDERS? Comfortable transitions are difficult to anticipate in production. Add them later — at your leisure — with Inter-Sync! Record each production segment on tape; then put one segment on one VTR... another segment on second VTR. Lap dissolve for smooth transition and record on No. 3. But these are just a few ideas... drop us a line and we’ll supply complete details on all the marvels of Inter-Sync. This important optional feature is only one example of the continuing flow of major new developments you can always expect from Ampex — the Jack-of-one-trade... tape recorders.

FOR ENGINEERS ONLY:
This Ampex Model 1000 synchronizer provides both horizontal and vertical locking (line-by-line and frame-by-frame). The speed of the two-way locking process is particularly noteworthy; a total of approximately 3½ seconds, well within the 6-second roll-in time most stations use. Vertical framing is speeded up by first using the sync pulses off the tape control track to reference to outside sync (subsequently switching to the actual vertical sync pulse). The capstan servo system resolves the inside and outside sync by smoothly adjusting the tape speed. Horizontal line-by-line locking is accomplished by precise readjustment of the head drum speed about every 5 degrees of rotation. Since the head drum rotates at 14,600 rpm, this means speed adjustments are made 945,000 times a minute. A unique drum servo system with push-pull action acts through the head drum motor with almost instantaneous results. Send for a 12-page Engineering Department Bulletin for complete details.

Ampex tapes are made and played around the world

VIDEO PRODUCTS DIVISION - AMPEX PROFESSIONAL PRODUCTS COMPANY
934 Charter Street, Redwood City, California

*TM AMPLEX CORP.
Labor on Labor Day ★ A special half-hour documentary film on the history of the labor movement, produced at the expense of the AFL-CIO, will be presented on ABC-TV at 5:30 p.m. EDT Sept. 4, the day before Labor Day. Titled "Land of Promise," the film has been produced by Joel O'Brien Productions, New York, and stars Melvyn Douglas. George Meany, AFL-CIO president, said the network was presenting it as a public service.

Sterne's sports ★ Portraits and Profiles, a new sports show for radio, will be produced and distributed by Program Sales Inc., N.Y. The series, which stars Bill Sterne, consists of 130 five-minute episodes. The spots will feature stories behind famous sports personalities and events of the last forty years.

Otto predicts ★ Don Lasser of WICH Norwich, Conn., has announced that The Otto Graham Show will be distributed nationally for the second consecutive year. Coach Graham predicts the outcome of top college and professional football games during the course of the 13-week taped series which runs Sept. 12 through Dec. 5. There are two versions available: a weekly quarter-hour set for three-minute local participations; and six weekly 60-second spots. The show has already been sold for the 1960 football season in over 100 exclusive markets.

Time for Astaire ★ NBC-TV has scheduled the all-new full-hour Fred Astaire show, Astaire Time, for Sept. 28 (Wed. 10-11 p.m. EDT). Also appearing in the show will be Barrie Chase, David Rose and his orchestra, jazz leader Count Basie, and other personalities to be announced. Chrysler Corp., via Leo Burnett Co., Chicago, will sponsor. Mr. Astaire's two previous award-winning TV programs also were presented by Chrysler.

TV cartoons ★ Bray Studios Inc. and Durham Telefilms Inc., both New York, announced jointly last week their organizations have joined forces to lease to tv stations the Bray Library of Cartoons, consisting of almost 100 black and white sound shorts which have not been seen on TV in about 4 years. In addition, Bray and Durham plan to produce a minimum of 100 new color cartoons beginning early next year.

Investment news ★ Radio Press International, N.Y., voice news service, has announced the addition of a daily stock market report direct from the New York Stock Exchange. The new RPI financial service includes a weekly five-minute roundup program for weekend broadcast. Both programs are prepared in cooperation with the New York Stock Exchange.

Pro team on Tv ★ Sports Network Inc., N.Y., which last fall had a lineup of 85 TV stations for its coverage of all games in the Cleveland Browns pro football schedule, has announced plans to televise the team's 1960 schedule on a minimum 25-station network, consisting of stations in Ohio, Indiana, Kentucky, West Virginia, western Pennsylvania and the Northeast region of the U.S.

Heart study ★ Metropolitan Broadcasting Corp.'s WNJE-TV New York is planning a public service series of hour-long medical documentaries, the first of which will be offered next Sunday (Aug. 21, 9-10 p.m. EDT). Entitled "A Question of Life," the series opener features two heart specialists who will present answers to some 25
We think so! DATELINE SHREVEPORT, a station-produced public-service program that focuses attention on local current events and happenings of interest in the area, has been commercial for two years!

Following the Early Edition News, DATELINE SHREVEPORT is KSLA-TV’s “feature page” complementing our regular news coverage with items of current interest to our viewers.

This “commercial” public service program has gained the confidence and loyalty of viewers that is reflected in the ratings as well as the results advertisers tell us they get.

DATELINE SHREVEPORT is just part of KSLA-TV’s successful six years of continually building a better medium for a continuously growing audience.

Harrington, Righter & Parsons, Inc., can fill you in on all the dynamic details... including ratings!
specific questions concerning the causes, symptoms and methods of preventing heart disease. The telecast is in association with the National Health Education Committee. A second program, on mental health, has been completed but no broadcast date has been set.

**Triple play** — WCAE Pittsburgh, last week became a fulltime 24-hour-per-day operation with a new music and news format. News coverage has been expanded to include 10-minute newscasts on the hour, every hour, in addition to Commentator John B. Hughes’ thrice-daily analyses and regularly scheduled news roundups. “Quality sound” music will be presented and classical music programs now heard on WCAE will be retained.

**Longer version** — A new 30-minute version of the Sacred Heart radio program, which is now broadcast in its 15-minute form over 1,019 stations throughout the world, is being offered stations for once-weekly scheduling. The taped program includes 10-minute doctrinal talks by diocesan priests or members of an order, short prayers and a number of musical selections. Stations interested in audition tapes or literature should write to Sacred Heart Program headquarters, 3900 Westminster Place, St. Louis 8, Mo.

'MacBeth' set — The two-hour color film of "MacBeth," shot on location in Scotland and England this summer, will be seen on NBC-TV’s Hallmark Hall of Fame, Nov. 20 (Sun. 6-8 p.m. EST). Producer-Director George Schaefer completed the film in 40 days of shooting at Hermitage Castle, Scotland, and at Elstree Studios in London. Maurice Evans and Dame Judith Anderson star in the Shakespeare classic.

---

**THE MEDIA**

**JERROLD UNLOADS CATV SYSTEMS**

**H&B American Corp. purchases all nine of them for $5 million**

The burgeoning community antenna industry has a new multiple owner—the $9 million H&B American Corp., Los Angeles company in the home building and steel forging business.

H&B paid $5 million for the nine catv systems owned by Jerrold Electronics Corp., Philadelphia, it was announced last week.

Changing ownership were the following catv systems, serving an estimated 31,000 subscribers:

- Ukiah, Calif.; Ventnor, N.J.; Flagstaff, Ariz.; Pocatello, Idaho; Dubuque, Iowa; Florence, Ala., and Richland, Walla Walla and Wenatchee, Wash.

In addition to the sale were two microwave systems—one under construction to bring New York City signals to Ventnor; the other bringing Spokane tv programs to Walla Walla. These two transfers must receive FCC approval.

Concurrently, the organization of Transcontinent Communications System was announced. This is a wholly owned subsidiary of H&B for the purpose of entering the electronics communications field, David E. Bright, H&B board chairman and chief executive officer, announced.

**Glett is President** — Mr. Bright also reported the election of tv pioneer Charles L. Glett as president of H&B and of the communications subsidiary. Mr. Glett until June was vice president of National Theatres and Television Inc. in charge of NTT’s tv operations. NTT owns WNTA-AM-FM-TV New York and until last month WDAB-AM-FM-TV Kansas City, Mo. It also owns a community cable company in Williamsport, Pa.

Mr. Glett was vice president of CBS Television in charge of west coast operations; vice president of Don Lee in charge of television; executive vice president of RKO Teleradio Pictures (now RKO General Inc.) and general manager for production and studio operations for movie-maker David O. Selznick.

Mr. Bright stated that TCS will be the instrument through which H&B will diversify into all phases of electronic communications including television, radio, space communications and catvs.

H&B is a publicly held company and is listed on the American Stock Exchange. It closed at 2¾ on Wednesday.

The company owns the General Trading Co., St. Paul; Quick-Way Truck Shovel Co., Denver, in a joint venture with Fairbanks-Whitney, and Big Boy Manufacturing Co., Los Angeles. It is heavily engaged in home building and steel forging.

H&B was founded in 1956 and was primarily engaged in the manufacture and distribution of aircraft parts. In 1957 it acquired Big Boy Manufacturing Co., which makes barbecue equipment and accessories as well as fuel for barbeques.

In June 1959, U.S. Chemical Milling Corp. bought the aircraft division of H&B American Corporation.

In 1959 H&B acquired General Trading Co. and Quick-Way Truck Shovel Co. General Trading distributes automotive supplies and heavy hardware in the North Central states. Quick-Way manufactures and distributes heavy earth-moving machinery on an international scope.

Consolidated net earnings for the fiscal year ending July 31, 1959 were $148,053. For first six months of 1960 it reported a deficit of $217,440.

**Stockholders Must Approve** — The sale of the nine Jerrold-owned catv systems is subject to stockholder approval, Milton J. Shapp, Jerrold president, stated.

The sale is not related in any way to the recent antitrust decision, a Jerrold spokesman said. Under the decision, issued by Philadelphia Federal Judge Francis L. Van Dusen last month, Jerrold was forbidden to acquire new catv systems without court approval, but the government’s request that Jerrold be forced to divest itself of its catv operations was denied (Broadcasting, Aug. 1).

Mr. Shapp stated that Jerrold will apply the $5 million from the sale of its community systems to an expansion program which contemplates the acquisition of community cable, test equipment and communications companies.

Jerrold was established in 1949 and is a principal manufacturer of catv equipment. It acquired its first cable companies in 1955 when it bought the Ukiah, Calif., and the Key West, Fla., systems. It sold the Key West system in 1959, realizing $284,000 profit on the transaction. The sale to H&B disposes of its remaining holdings in catv companies.
The sage of Emporia was one of the heroes who made communications what it is today. He'd have relished running WPTR.

Its informal, individualistic spirit, its up and go, its entire modus operandi would have suited him to a T. Like White, WPTR believes that the primary function of any media of communications is to communicate. That's why (the music is an integral part of our programming) news comes first.

To cover the news WPTR receives reports from correspondents around the world. The amount of contributors is fantastic—almost a million! At the local level 5 mobile units work round the clock. When it's helpful there's even a helicopter available which broadcasts traffic and highway road conditions and covers other important events. The quality of this news is evident 48 times a day. That's how often newscasts are scheduled. News in depth is on the hour. Commentary—at least 12 times a day. Editorials when necessary.

When you couple this with a public service drive for every worthwhile cause that comes along, you've got responsible broadcasting at its very best. And from an advertising standpoint—responsive listenership second to none in this 2,000,000 plus market.

Perhaps that's why local sponsors give it more advertising than the next three stations combined—and why it carries more total advertising than the next two put together. Represented nationally by Robert E. Eastman & Co. In New England—by Foster & Creed.

CBS INC.'S UPS AND DOWNS
Sales ahead of 1959 but earnings slump

CBS Inc.'s sales were up but earnings during the first half of the year were down compared to the same six months of 1959.

CBS Board Chairman William S. Paley last week reported consolidated net income for the first six months was $12,669,169 this year, against $13,318,871 last year; sales totaled $231.8 million as against $215 million in last year's half, an 8% increase. Current earnings, he said, are equivalent to $1.51 a share compared to the first half of 1959 when earnings were equal to $1.59 per share.

CBS Inc. includes the CBS-TV and Radio networks and owned stations, Columbia Records, CBS Labs, the news division and CBS International as well as CBS Electronics.

At the CBS board of directors meeting last week, a cash dividend was announced of 35 cents per share on common stock payable Sept. 9 to stockholders of record at close of business Aug. 26.

The first half-year CBS report:

CONVENTIONS
Sindlinger finds
GOP out-audenced

Helped by a 17% gain in tv ownership, the nationwide television audience for both political conventions this year was far greater in number than the audience for the quadrennial sessions of 1956. The market analyst firm of Sindlinger & Co. reported last week the results of its field staff interviews, which showed a gain of 135% for the Democratic Convention's daily audience, while the gain for the Republican Convention's daily audience was 114%.

However, viewership was not equalized between the two conventions last month. Sindlinger figures show an average total of 13,706,000 more Americans watched the Democratic convention than stayed up to view the GOP televised sessions. A total of 79.2% of all adults, or about 91 million, watched the Democrats (compared to a 33 million daily average in 1956) and a total of 67.2% of adults with television, or 77 million, viewed this year's Republican convention (compared to 31 million viewers daily four years ago).

During the week of July 4-8, prior to the Democratic convention, the number of adults who watched tv during the evenings totaled 69.1%, or 89,575,000. This breaks down to 68.4% of all males and 69.7% of all females. Viewing increased slightly during the Democratic convention but declined during the GOP conclave. Sindlinger's survey in 48 states showed that during Democratic convention male viewing each evening increased to 70.1%, or 43,784,000, and female viewing increased to 70.3%, or 47,256,000.

During the GOP convention, the report stated, male audience dropped to 53% each evening or 33,103,000; female audience declined to 65.8%, or 44,231,000. Sindlinger notes that the overall convention decline in tv viewing came from the males.

Clarke Brown to Weed
as southern affiliate

Clarke Brown Co. will become southern office for the Chicago-based national firms of Weed Radio & Television Corps. on Oct. 1. Mr. Brown, president of the Dallas regional representative company has announced. Brown at that time will end a similar association of the past six years with H-R Representatives.

With the Weed affiliation, Mr. Brown, president of the southern firm, also announced last week a corporate officer exchange between the two representatives and absorption of the Weed Atlanta office into the Brown organization.

Mr. Brown becomes a vice president of Weed Radio Corp. and Weed Television Corp. and Cornelius C. Weed Sr. has been elected a vice president of Clarke Brown Co. Richard M. Walker becomes manager of the Brown Atlanta office and Mrs. Jean...
Williams, Weed secretary there, remains in the combined organization. Jack Eisele, Brown vice president and Houston manager, has been appointed director of midsouth operations and also will direct the firm’s New Orleans office.

**NTA ‘GIFT’ SHARES**

60% of its stock distributed by NT&T

National Theatres and Television seems determined to shed the “television” part of its name. The tv portion was added in August of last year following the acquisition of National Telefilm Assoc. by National Theatres Inc. in a diversification move by the theatre chain organization.

Charles L. Glett, NT&T vice president who, as head of its subsidiary National Television Investments, guided the company’s expansion program into tv fields, left in June to assume similar responsibilities for H & B American Corp. (see story, page 66). WDAF-AM-TV Kansas City, which Mr. Glett brought under NT&T ownership in the spring of 1958, has been sold. So has KMSP-TV Minneapolis, which came to NT&T along with NTA. A month ago, the NTA operation, which had been moved to Minneapolis to aid in integration with the NT&T headquarters in Beverly Hills, was returned to New York.

Last week, the NT&T board voted to distribute nearly 60% of its NTA holdings as dividends to NT&T stockholders on the basis of three shares of NTA stock for each 10 shares of NT&T. NT&T will distribute 844,875 shares of NTA in this way, will retain ownership of 620,511 shares of NTA, which will have 1,627,572 shares of common stock outstanding including about 10% which were never acquired by NT&T.

Because NTA is licensee of WNTA-AM-FM-TV New York, the plan to distribute its stock is subject to FCC approval. B. Gerald Cantor, NT&T president, said in announcing the plan. Accordingly, the dates of record and distribution cannot be set until the FCC acts, he commented, but assuming the action is favorable the record date will be 10 days after the date of the ruling and the distribution date some three weeks later.

The NT&T board has decided not to make any further exchange offer to acquire the additional common stock or warrants of NTA, Mr. Cantor said. The change in the financial structure of the two companies was brought about principally by extending and funding certain of NTA’s indebtedness to NT&T and accepting equity securities of NTA for the balance of the company’s obligations. In June, NT&T reported that the first half of the 1960 fiscal year, there has been a loss of $2,669,000, or 96 cents per share, attributable to NTA, which was charged with $5,527,000 for the period to provide for amortization of its inventory of tv programs.

**WSAZ interests buy more publishing stock**

The Huntington Publishing Co. has bought out all the stockholdings of Mr. and Mrs. Walker Long and the estate of the late Col. J. H. Long.

The company publishes the Huntington (W. Va.) Herald-Dispatch and Advertiser and owns controlling interest in WSAZ-AM-TV Huntington.

The purchase, which involves 37.5% of the stock of the Huntington firm, was reported to total over $2 million. It also includes real estate.

William D. Birke, president of the publishing company, announced the transaction last week.

WSAZ properties are 89% owned by the Huntington Publishing Co. and

---

**Who kept shop?**

If the news staff of WGY-WRGB (TV) Schenectady, N.Y., seemed to be below its full complement in the first week in August, it was not due to vacations but to the far-flung assignments the local stations’ reporters were covering. One newsman spent the week in Europe accompanying Secretary of Agriculture Ezra Taft Benson on a special fact-finding tour of agricultural centers. A three-man news team went to New London, Conn., for three days to film two half-hour stories on nuclear submarines. On Thursday a film feature on the New York State fish hatcheries was filmed in Rome, N.Y. And on Friday a feature story on the New York State Fair was prepared in Syracuse. The weekend found two men shooting underwater film of two British ships, sunk during the French and Indian Wars, recently discovered in Lake George; another two-man team filming an interview with violinist Isaac Stern in his New York City apartment, and a third team covering the 100th birthday celebration of painter Grandma Moses in Manchester, Vt. Meanwhile, back at the newsroom, all available hands were pressed into service to deliver the normal weekly quota of radio and tv newscasts.

---

**SUSPENSE**

An ideal selling climate results when a program creates intense audience attentiveness. And, for 15 years, Suspense has been fulfilling this objective as it presents tales of terror uniquely suited to radio’s imagery. Part of a Sunday line-up of Gunsmoke, Johnny Dollar and Have Gun, Will Travel, advertisers find their messages develop a special impact in such a sales setting. In all radio, Suspense is the kind of company you keep…

---

BROADCASTING, August 15, 1960 69
11% by Mrs. Eugene Katz, wife of the president of The Katz Agency. Because of the radio-tv stations, the entire transaction must be approved by the FCC.

WSAZ was founded in 1923 and operates on 930 kc with 5 kw daytime and 1 kw nighttime. WSAZ-TV, on ch. 3, began operating in 1949. Both stations are affiliated with NBC.

The transaction was negotiated through Vincent J. Manno, New York broker.

**Changing hands**

ANNOUNCED *The following sales of station interests were announced last week, subject to FCC approval:*

- **KYSN** Colorado Springs, Colo.: Sold by Kenneth E. Palmer, John C. Hunter and Robert Donner Jr. to KYSN Broadcasting Co. for $300,000. KYSN Broadcasting owners comprise Donald Harding, formerly with CBS Chicago; William Firman, eastern sales manager, CBS Radio Network; Robert Meskill, general manager, WKID Urbana, Ill., and Jerry Glynn, vice president, AM Sales Co., Chicago. Same group owns WKID. Mr. Hunter is a major stockholder in KOWB Laramie, Wyo. KYSN is on 1460 kc with 1 kw daytime and 500 w nighttime. Hamilton, Landis & Assoc. was the broker.
- **KGHS** International Falls, Minn.: Sold by H.S. George to Dan Ganter for $45,000. Mr. Ganter is an employee of KTRI Sioux City, Iowa. KGHS is 100 w on 1230 kc. Broker was Blackburn & Co.

**L.A. broadcasters win city tax exemptions**

The city council of Los Angeles has adopted an amendment to the municipal code exempting broadcasters from the city’s gross receipts tax. The amendment gives radio and tv stations, studios and networks tax exemption for receipts not only from time sales but also from revenues derived from the production and packaging of programs or commercials or providing any element of a program or commercial, including services or facilities. The announcement of the exemption was made by Deane F. Johnson of the Los Angeles law firm of O’Melveny & Myers in a report to the Southern California Broadcasters Assn. on Thursday (Aug. 11).

The exemption, which puts Los Angeles broadcasters on a parity with the city’s newspaper publishers, does not extend to revenue from syndicated programs or commercials produced on film or tape, Mr. Johnson stated. This is the so-called motion picture tax which applies primarily to the motion picture studios and which is limited to a maximum of $1,500 a year regardless of total volume, he said. Neither does the tax exemption extend to pay tv operations, when and if they enter the Los Angeles scene.

Income from the rental of station facilities for use outside of radio and tv programming and broadcasting, such as rental of a station’s studio to a phonograph recording company, would not be tax exempt, Mr. Johnson reported. Nor would income a station might derive from operating a commissary for its employees or from a soft drink or cigarette vending machine be tax free. But all normal broadcasting operations will be, he said.

Although the Los Angeles gross receipts tax dates back to the mid-40’s, no attempt to apply it to broadcasters occurred until 1955 following court decisions which, for the first time, permitted the right of municipalities to tax certain aspects of broadcasting operations under certain conditions. Previously broadcasting had been held to be an interstate operation not subject to municipal taxation or regulation. Since that time, the broadcasters of the city have been attempting to secure an exemption similar to that which the newspapers got in 1949 when the city attempted to apply the ordinance to them.

Faced with the twofold problem of securing exemption from the tax in the future and from its retroactive application to years not barred by the statute of limitations, the L.A. broadcasters have been successful on both counts, Mr. Johnson stated. The amended ordinance grants them exemption in the future and the city attorney has assured them that he will not attempt any retroactive application.

**NAB committees set five Sept. meetings**

Four NAB committee meetings will be held in Washington in September. A fifth, Freedom of Information Subcommittee, will meet in New York.

A member of the NAB Policy Committee will attend each of the Washington meetings. The committee is headed by Clair R. McCollough, Steinman Stations. Other members are G. Richard Shafto, WIS-AM-TV Columbia, S. C., and Merrill Lindsay, WSOY-AM-FM Decatur, Ill.
Here today . . .

The case of the shrunken TV tower has been solved. WOOD-TV Grand Rapids, Mich., had erected a sign calling attention to the station's 1,000-ft. tower, but the observer saw only a 20-ft. antenna. It was not a matter of a shrinking tower, nor was it misleading advertising. WOOD-TV had leased the land for its thousand-foot, erected the sign and then decided on a more suitable location. The minature model belonged to a gravel company with radio-equipped trucks. The station had leased the site to the gravel company but had forgotten about the sign. After a series of "double takes" by tourists and residents, however, the station was reminded of the billboard and removed it.

Bar Assn. to discuss lawyers' roles on TV

Is it "professionally and ethically improper" for a lawyer to play the role of an attorney on television? Ever since a Los Angeles County Bar Assn. advisory ruling earlier this year, the matter has been studied by the American Bar Assn.'s professional ethics committee but no formal action has been taken. The rule is certain to be discussed, however, at the National Conference of Bar Presidents meeting which is scheduled before ABA's annual convention in Washington, D.C. Aug. 29-Sept. 2.

A panel session has been set including Grant B. Cooper, president of the Los Angeles County Bar Assn., and Herman F. Selvin, former president. Specifically, they will discuss the bar's ruling that appearances of lawyers, whether identified by name or not, violate the canon against advertising and that such lawyers generally did no public credit to the profession.

Thus, Canon 27 plus Canon 35, which bars radio-vt access to courtroom procedures, are expected to highlight the calendar of bar events.

The Los Angeles bar asked the State Bar of California to concur in its advisory ruling and to petition the state supreme court to adopt it as a rule of court, thus making it official and statewide. The state bar board heard pro and con arguments July 25 but has written no final decision. Meanwhile, the Los Angeles rule is merely advisory for lawyers in that city.

ABA acknowledges that the L.A. ruling has "stirred up a hornet's nest," with some lawyers and southern Cali-
RISING SALES IN SAN DIEGO KFMB-TV SENDS MORE PEOPLE AWAY FROM HOME (TO BUY) THAN ANYTHING!

KFMB © TV SAN DIEGO
facilities might be improved. He cited the general feeling that preliminary planning for future convention broadcast coverage has “traditionally been confined to network and large chain radio-tv representatives,” with no reflection on the work of the radio-tv correspondents Gallery of the House under Robert Menough, and Mr. Small stressed:

“As the attendance at recent conventions shows, there is every four years an increasing number of local radio-tv news staffs from around the country. This trend makes it obvious that this increase will continue. Since the total number of people listening to these local stations may have already exceeded the audience of some of the networks, I would think that the parties would find it in (their best interests) to give these individual stations full consideration that they might best cover your national convention.”

Mr. Small promised to supply the national committee chairman with copies of the RTNDA survey. He has accordingly asked RTNDA members who attended to pass along “your ideas for improvement in 1964.”

New etv in Dallas

Non-commercial educational KERA-TV Dallas, which is scheduled to go on the air Sept. 12, will be the 48th affiliate of National Educational Television Network. The Texas outlet, with live color facilities, joins KCTA-TV St. Paul-Minneapolis, as the only etv stations to broadcast in color, according to National Educational Television & Radio Center, New York. The network provides stations with eight hours of programs weekly.

Media reports

Gerity moves = Gerity Broadcasting Co. (WNEM-TV Bay City-Flint-Saginaw, and WABJ Adrian, both Michigan) has relocated its New York office at 1271 Avenue of the Americas. New telephone: Circle 7-4560. The company was previously located in temporary quarters at 18 E. 48th St. after moving from 101 Park Ave.

AB-PT dividend = American Broadcasting-Paramount Theatres Inc., N.Y., reported Monday (Aug. 8) the third-quarter dividend of 25 cents per share on both outstanding common and preferred stock, payable Sept. 15 to holders of record on Aug. 19.

Cuban risks = Assignments in Cuba continue to hold risks for U.S. broadcasters. In Cuba to cover the seventh anniversary of Fidel Castro’s revolutionary movement for Radio Press International and the Herald Tribune Radio Network, Mort Dean, WVOX New Rochelle, N.Y., program director, was picked up by Cuban police when he attempted to tape record a meeting of the leftist Latin American Youth Congress. Although no charges were preferred and no questions were asked, Mr. Dean was held in a Havana jail for 2 1/2 days before his release. He returned to WVOX, a Herald Tribune Network affiliate, Aug. 8. Mr. Dean’s experience is the latest in a series of Cuban efforts tooust American newsman from the country.

Promotion assistance = The Zakin Co., N.Y., has been named advertising and promotion agency for the Herald Tribune Radio Network. The stations are WGHQ Hudson Valley; WVIP Mt. Kisco; WVOX New Rochelle, and WFWY Mineola, all New York.

Tv tape clinic = WFBM-TV Indianapolis held a television tape clinic for 75 advertisers, agency executives and other guests. Manager Don Menke conducted the clinic, demonstrating the facility of tape and the dependability of the machines. The use of special effects through skillful editing was displayed.

Adds aircraft to facilities = WTAQ LaGrange, Ill., has acquired a Piper Commanche, equipped with three transmitters and five receivers for emergency purposes and direct “from the air” broadcasts, and containing a full complement of flying instruments.

The station reports it will make craft available to local Chicagoland area law enforcement officers and to civic groups. Three licensed pilots include Charles Sebastian, WTAQ president.

New transmitters = Ground has been broken and construction started on a new transmitter building for CBS’s KNX Los Angeles. The structure will house a new 50 kw unit built by General Electric plus a 10 kw unit by Continental. The building will surround KNX’s 500-ft. antenna and will also house an emergency gasoline-powered generator system. The new transmitter installation will be in operation about Nov. 1.

Audience profile = KQV Pittsburgh has issued a study of the automobile audience and mass transit in the Pittsburgh area. It is intended as an aid to timebuyers in evaluating the “car audience,” according to the station. It lists the average numbers of automobile passengers and mass transit passengers headed towards home, work, shopping, school and social recreation during each hour period of the day in that area. Also included are totals and a diagram of the area covered by the survey. The booklet is titled “The Plus Audience.”

Power of the Word = An editorial broadcast by commentator Fred Nahas over KXYZ Houston caused prompt City Council action to correct an injustice. Detective J.B. Savelle was shot in the arm while on duty; complica-

Combined forces • WADK Newport and WYNG Warwick, both Rhode Island, have formed a group to be called the Rhode Island Prestige Group. According to WYNG Manager Milton Miller and WADK Manager Arnold Lerner, the group offers "a combined high income bracket listening audience to advertisers." Mr. Miller recently sold WADK to Key Stations. John E. Pearson, Co., N.Y. will represent the group nationally as well as each station separately.

New format • A new program format has debuted on KABC Los Angeles. Five new daytime shows were added to the schedule of the ABC-owned station. The format encompasses music, a listener opinion show, a new women's program and other new features. Announcement of the format change was made by Ben Hoberman, general manager of KABC.

New office • John Box Jr., managing director of Balaban Stations, has announced opening of the group's New York office at 580 Fifth Avenue. He said the office will have direct teletype connections with all stations in the group. Telephone is Judson 2-7945. Balaban Stations are WIL St. Louis, WRIT Milwaukee and KBOX Dallas. Executive offices are in St. Louis.

Revenue • Operating revenue of Gross Telecasting Inc. (WJIM-AM-TV Lansing, Mich.) totaled $1,199,842 and expenses $640,449 during the first six months of 1960, leaving net income of $295,515, according to President Harold F. Gross. Comparable figures for the first half of 1959 were operating revenue $1,261,601, expenses $663,156 and net income $304,431. Dividends of $190,000 were paid for the first half of 1960, leaving $105,515 retained in the business.

'Open House' in Milwaukee • WISN-TV Milwaukee unveiled a live daytime format of music, variety and interviews July 11 with Open House on 12, dedicated to the proposition of "fun-for-everyone" and conducted by host Fred Niedermeyer and hostess Lynn Honeck. Program is aired Monday through Friday, 1-2 p.m. (CDT), and features news and newsreel, figure exercises and audience participation with cash as well as interviews with celebrities.
The huge new Homelite Plant at Greer, S. C.—manufacturers of chain saws, pumps and generators, employs hundreds of Carolina Piedmont area residents.

The rich, teeming area of the Lower Piedmont is endorsed by more and more industry of the "Blue Chip" variety. They locate their plants here in WSPA-TV's "backyard," and they bring their large payrolls to pump ever new power into the lifefstream of the prosperous population . . . Here is a marketing area bursting at the seams . . . and WSPA-TV directly influences the buying habits of over $1 1/2 billions of payroll dollars in this fastest growing of all markets. The Spartanburg-Greenville Supermarket offers an opportunity for sales that cannot be ignored!
GOVERNMENT

MIAMI, BOSTON REBUTTALS

North Dade Video, 'Herald-Traveler' ask
FCC reversal of July 'ex parte' rulings

The FCC was confronted today with two petitions seeking reversal of the commission's July 14 orders in the Miami ch. 10 and the Boston ch. 5 cases.

The petitions were filed by North Dade Video Inc., one of the applicants for the Miami channel, and by WHDH Inc. (Boston Herald and Traveler), holder of the ch. 5 grant in Boston.

Expected over the weekend was an appeal to the federal court by National Airlines whose WPST-TV Miami was ordered off the air by Sept. 15.

Other applicants in both cases—the first in which charges of off-the-record representations were investigated and rehearings held before special examiner Horace Stern—indicated they did not plan to contest the FCC's July 14 orders.

The FCC found all Miami applicants guilty of ex parte representations except L. B. Wilson Inc. It not only voided the 1957 grant to National Airlines, but it issued a permit to L. B. Wilson Inc. for the ch. 10 facility.

L. B. Wilson Inc., which owns WCKY Cincinnati, was told it would receive a first term license of only four months. A broadcast license usually runs three years. This short term permit was issued, it was learned, to provide a chance for other applicants to contest the ch. 10 license when it came up for renewal.

In the Boston case, the commission found that WHDH and Massachusetts Bay Telecasters Inc. had engaged in border-line conduct. It vacated the 1957 grant to the Boston Herald & Traveler station, but granted it special temporary authority to continue pending the outcome of a new hearing.

It said that the purported conduct of WHDH and Massachusetts Bay would be counted against those applicants in the new proceeding.

The North Dade petition asked the FCC to reconsider its finding that the activities of the late Walter Compton, an official of the company, and Washington attorney Robert F. Jones, former FCC commissioner and former Ohio Republican congressman, were sufficient to taint the North Dade application.

Perjury is Implied — It attacked the FCC finding that the Compton-Jones activities indicated an "evil design." The commission finding, North Dade said, imputes perjury to Mr. Compton and Mr. Jones. "This is a scandalous verdict on the record before it," North Dade stated.

North Dade reiterated that Mr. Compton employed Mr. Jones to counteract pressures by other applicants on congressmen and senators, not to see any commissioners.

Pointing to the commission's decision in the Boston ch. 5 case, North Dade said that the FCC found an attempted "pattern of influence" because of the meetings between Robert B. Choate, publisher of the Herald-Traveler and then FCC Chairman George C. McConnaughey but did not completely disqualify WHDH as it did North Dade.

It asked that it be permitted to remain as an applicant and to contest with L. B. Wilson for the ch. 10 facility.

WKAT Miami was the other Miami applicant found to have engaged in behind-the-scenes activities by the FCC.

The Herald-Traveler petition, which also asked for a stay of the commission's July 14 order, attacked the FCC on two counts:

First, that the commission did not have the authority to rescind the ch. 5 grant to WHDH because the case was still in the hands of the U.S. Court of Appeals in Washington.

And, second, that the commission's interpretation of the intent of the meetings between Mr. Choate and Mr. McConnaughey was "erroneous, ir-reconcilable with the record and not based on substantial evidence."...

WHDH said it was "ludicrous" to assume that Mr. Choate tried to influence the then FCC chairman at two social luncheons by conveying such a favorable impression of himself that Mr. McConnaughey would be influenced in the Boston case.

The meetings took place because of Mr. Choate's interest in a pending congressional bill relating to the ownership of radio-tv stations by newspapers, WHDH said. At neither of the meetings was ch. 5 discussed, it said.

MANUFACTURING Bell telephones is the major function of Western Electric’s plant in Indianapolis. The girls above are working on the final assembly of telephone dials. Western Electric also has major manufacturing locations in 12 other cities where we make cable, wire, switchboards, relays, and many other different kinds of telephone equipment and apparatus for the Bell Telephone System, as well as defense products for the Government.
For 78 years Western Electric has been the manufacturing and supply member of the Bell System. Working with Bell Laboratories and the Bell telephone companies, Western is an integral part of the team which provides this nation with the world’s finest telephone service.

The Bell Telephone System operates nearly 58 million telephones in the United States. Western Electric’s job is to back them up with the many kinds of materials and equipment needed to make them work well.

Telephone instruments—over 8 million new ones this year—are just part of the story. Behind them are complex switching systems, radio relay and carrier equipment, millions of miles of wire, cable and all the other apparatus necessary to link these phones into an efficient, dependable unit. This monumental job is possible only because of the close teamwork in the Bell System among Western Electric, Bell Laboratories, and the Bell telephone companies.

Besides manufacturing, Western Electric performs three other important jobs in helping provide good telephone service. Western purchases many supplies and equipment in addition to what it makes...distributes both purchased and manufactured items to the Bell companies...and installs switching equipment in telephone central offices.

A perfect example of Bell System cooperation is the way Western Electric works with Bell Laboratories. The research achievements by the Laboratories—the transistor, coaxial cable, radio relay, Direct Distance Dialing, etc. — provide us with the basic means for keeping the Bell System in the forefront of communications technology.

Western Electric will continue to depend upon close teamwork with the other members of the Bell System to assure the dependable, reasonably-priced, ever-improving telephone service America has come to expect.

Western Electric
MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM

Purchasing for the Bell System by Western Electric provides the telephone companies with a wide variety of high quality products at low cost. W.E. buyer (left) discusses telephone set cartons with a representative from Inland Container Corp.

Installation of Bell telephone central office switching equipment is performed by Western Electric’s flexible force of skilled installers. Above, an intricate frame of switching equipment is hoisted into position by W.E. installers in a central office.

Distribution is handled nation-wide by W.E. from 32 centers which store enough equipment to meet normal requirements and service emergencies of the Bell companies. These centers also serve as repair shops for reconditioning telephone equipment.

National Defense work in many vital areas has been assigned to us because of our Bell telephone experience. W.E. makes guidance systems for missiles (such as Nike Hercules, above) and has coordinated strategic projects including DEW Line, SAGE, and the communications aspects of BMEWS.

Broadcasting, August 15, 1960
PAYOLA BILL COMPROMISE COMING
Pastore orders easing of forfeitures and vetoes suspensions

It looked last week as if broadcasters might get something more than half a cake for their solid opposition to the controversial license suspension and monetary forfeiture features of the payola bill (S 1898).

At the end of the payola bill hearing Wednesday, Chairman John O. Pastore (D-R.I.) of the Senate Communications Committee ordered his staff to re-draft the legislation within 24 hours.

The purpose of the re-draft:
- Knock out the whole subsection on suspensions.
- Provide a one-year "statute of limitations" on offenses and a maximum forfeiture of $10,000. Authorize such forfeitures only where violations are "willfully or repeatedly" committed and give a broadcaster the opportunity to reply to FCC charges before that agency imposes the forfeiture.

A subcommittee spokesman said Thursday Sen. Pastore hopes to bring the amended bill before the Senate early this week for agreement on amendments added by the House June 28, plus the changes planned by the subcommittee. He said he didn't know whether the parent Senate Commerce Committee would meet to report the amended bill or would agree on it "informally" (the committee has no other business before it at present). Senate action would have to be by majority vote and the bill would be competing with other legislation for Senate attention. The House would have to agree to the Senate amendments before enactment and if it didn't, a compromise would be sought.

Impressed by uncompromising broadcaster opposition to the license suspension feature of the bill at the Wednesday hearing, Sen. Pastore exacted concessions from FCC Chairman Frederick W. Ford that his agency doesn't really need the license suspension power; that it can get the results it wants by revoking licenses, issuing cease-and-desist orders or imposing monetary forfeitures.

Penalize Public
- The main argument against the license suspension power—that suspension would penalize the public as well as the broadcaster by discon-

Future guide to sponsor identification

To help broadcasters and others in determining whether a given type of situation would require a station to make an announcement under Sec. 317 of the proposed bill (S 1898) covering payola and free plugs now under Senate consideration, the FCC, if the bill is enacted, will incorporate a list of typical situations in its rules.

FCC Chairman Frederick W. Ford revealed this plan Wednesday during testimony before the Senate Communications Subcommittee on other phases (license suspensions and monetary forfeitures) of the bill.

The list of typical situations where the Sec. 317 requirements would or would not apply was drawn up and provided to the House Commerce Committee last spring by a group of broadcast industry representatives helping the committee draft this part of the bill. The list was included in the committee report last June 13 after Mr. Ford said such inclusion would help the FCC in determining congressional intent in "drawing the line" under the proposed Sec. 317. Following is the text of that part of the committee report that may become incorporated in FCC regulations.

A. Free records
1. A record distributor furnishes copies of records to a broadcast station or a disc jockey for broadcast purposes. No announcement is required unless the supplier furnished more copies of a particular recording than are needed for broadcast purposes. Thus, should the record supplier furnish 50 or 100 copies of the same release, with an agreement by the station, express or implied, that the record will be used on broadcast, an announcement would be required be-

1 In view of the attention which has been given to the problem of free records, they are treated herein as a special category. It should be noted, however, that the same principles apply to records as to other property or services furnished for use on or in connection with a broadcast.

2 A question has been raised with respect to a situation where a distributor furnishes to a station free of charge an entire music library with the understanding, express or implied, that only its records would be played on the station. To the extent that such an arrangement may run afoul of the antitrust laws or may consti-tute an abridgment by the station of its licensee responsibility, an announcement under sec. 317 would not cure it.

cause consideration beyond the matter used on the broadcast was received.

2. An announcement would be required for the same reason if the payment to the station or disc jockey were in the form of cash or other property, including stock.

3. Several distributors supply a new station, or a station which has changed its program format (e.g., from "rock and roll" to "popular music"), with a substantial number of different releases. No announcement is required under section 317 where the records are furnished for broadcast purposes only; nor should the public interest require an announcement in these circumstances. The station would have received the same material over a period of time had it previously been on the air or followed this program format.
tinning the station's service—found Mr. Ford with no ready answer and he agreed.

Chairman Ford said the commission is agreeable to an amendment to place a "statutory limitation" on the forfeiture provision so a broadcaster wouldn't be forced to pay up to $1,095,000 (at $1,000 per day) when he seeks renewal of his three-year license. He said he'd rather see the suspension provision dropped than have no bill at all, bringing the retort from Sen. Pastore that he didn't want testimony to appear as if "diplomatic blackmail" was being used. "You'll get your bill," he promised.

Taking each offense for which sus-

tensions are proposed in the bill (false statements, conditions warranting ref-

usal to renew license, willful or re-

peated failure to operate as set forth in license, repeated violations of the Communications Act or FCC rules and violations of lottery, fraud and obscenity statutes), Mr. Ford acknowled-
ed a cease and desist order or forfei-

ture would serve the same purpose as a suspension. He also agreed with Sen. Pastore that refusal to obey a cease and desist order should call for revocation, not a lighter sanction.

He agreed "willful or repeated" is more appropriate than "negligent or intentional" in describing offenses which would warrant a forfeiture. This was after Sen. Pastore said that in his own opinion negligence is a tort (civil) measure-

ment rather than a criminal one.

Chairman Ford also suggested the bill be amended so that FCC sanctions for refusal to obey a cease and desist order would be authorized only after such order is final (unappealable).

Could Be Sued • Mr. Sinclair testified license suspension would punish the public, especially if the station is taken off the air during some kind of emergency where service is critically needed. He said under the "negligent or intentional" provision, a suspended station possibly could be sued by an advertiser for breach of contract because of an innocent violation.

A station also could be fined even in connection with public service pro-

gramming if it were charged with some offense of which it was unaware under the bill's present provision, he said.

Mr. Woodland said suspension of station service in some areas would deprive the public of its only broadcast service. Suspension might kill off some stations which are operating marginally or with a loss, he added. He thought also that some broadcasters might be tempted to lower their standards in the belief the penalty would be something less than revocation.

Mr. Wasilewski said suspension could cause a station to "lose face" in its commu-

nity and thus lose advertisers and listeners, resulting in the death of the station and consequent loss to the public.

He charged the FCC has had the cease and desist power for eight years and has seldom used it in broadcasting: that only the Interstate Commerce Committee has been given suspension powers and that these haven't been used in 25 years. Suspensions shouldn't be used to experiment in the communica-

tions field, he said. He said NAB had no opportunity to express its views on suspensions in the House because the amendment was added in a House Commerce Committee executive ses-

sion.

Laws Unused • Mr. Baker said it can hardly be argued that additional powers such as suspensions and forfeitures should be authorized when existing powers (cease and desist orders and FCC authority to take rule and law violation cases to court for fines) have been largely unused.

Messrs. Rea and Beelar said ABA is concerned about procedural safe-

guards in the imposition of money penalties and asked that the legisla-

tion require (1) a clear statutory speci-

fication of the offense subject to the money penalty, (2) provision for ade-

quate and fair procedures, including notice to the accused and opportunity to answer or take corrective action before the penalty is imposed and (3)

CONTINUED on page 84
Future sponsor identification guide

stipulate payment for the identification.

8. An automobile dealer furnishes a station with a new car, not for broadcast use, in return for broadcast mentions. An announcement is required; the car constituting payment for the mentions.

9. A Cadillac is given to an announcer for his own use in return for a mention on the air of a product of the donor. An announcement is required since there has been a payment for a broadcast mention.

C. Where service or property is furnished free for use on or in connection with a program, but where there is neither payment in consideration for broadcast exposure of the service or property, nor an agreement for identification of such service or property beyond its mere use on the program

10. Free books or theater tickets are furnished to a book or dramatic critic of a station. The books or plays are reviewed on the air. No announcement is required. On the other hand, if 40 tickets are given to the station with the understanding, express or implied, that the play would be reviewed on the air, an announcement would be required because there has been a payment beyond the furnishing of a property or service for use on or in connection with a broadcast.

11. News releases are furnished to a station by government, business, labor and civic organizations, and private persons, with respect to their activities, and editorial comment therefrom is used on a program. No announcement is required.

*In each of the examples listed under this heading, an announcement would appear to be required under the Commission's Mar. 16, 1960, Public Notice.

12. A government department furnishes air transportation to radio newscasters so they may accompany a foreign dignitary on his travels throughout the country. No announcement is required.

13. A municipality provides street signs and disposal containers for use as props on a program. No announcement is required.

14. A hotel permits a program to originate on its premises. No announcement is required. If, however, in return for the use of the premises, the producer agrees to mention the hotel in a manner not reasonably related to the use made of the hotel on that particular program, an announcement would be required.

15. A refrigerator is furnished for use as part of the backdrop in a kitchen scene of a dramatic show. No announcement is required.

16. A Coca-Cola distributor furnishes a Coca-Cola dispenser for use as a prop in a drugstore scene. No announcement is required.

17. An automobile manufacturer furnishes its identifiable current model car for use in a mystery program, and it is used by a detective to chase a villain. No announcement is required. If it is understood, however, that the producer may keep the car for his personal use, an announcement would be required. Similarly, an announcement would be required if the car is loaned in exchange for a mention on the program beyond that reasonably related to its use, such as the villain saying: "If you hadn't had that speedy Chrysler, you never would have caught me.

18. A private zoo furnishes animals for use on a children's program. No announcement is required.

A university makes one of its professors available to give lectures in an educational program series. No announcement is required.

20. A well-known performer appears as a guest artist on a program at union scale because the performer likes the show, although the performer normally commands a much higher fee. No announcement is required.

21. An athletic event promoter permits broadcast coverage of the event. No announcement is required in absence of other payment by the promoter or agreement to identify in a manner not reasonably related to the broadcast of the event.

D. Where service or property is furnished free for use on or in connection with a program, with the agreement, express or implied, that there will be an identification beyond mere use of the service or property on the program

22. A refrigerator is furnished by X with the understanding that it will be used in a kitchen scene on a dramatic show and that the brand name will be mentioned. During the course of the program the actress says: "Donald, go get the meat from my new X refrigerator." An announcement is required because the identification by brand name is not reasonably related to the particular use of such refrigerator in this dramatic program.

23. (a) A refrigerator is furnished by X for use as a prize on a giveaway show, with the understanding that a brand identification will be made at the time of the award. In the presentation, the master of ceremonies briefly mentions the brand name of the refrigerator, its cubic content, and such other features as serve to indicate the magnitude of the prize. No announcement is required because such identification is reasonably related to the use of the refrigerator on a giveaway show in which the costly or special nature of the prizes is an important feature of this type of program.

(b) In addition to the identification given in (a) above, the master of ceremonies says: "All you ladies sitting there at home should have one of these refrigerators in your kitchen," or "Ladies, you ought to go out and get one of these refrigerators." An announcement is required because each of these statements is a sales "pitch" not reasonably related to the giving away of the refrigerator on this type of program.

The significance of the distinction between the identification in (a) and that in (b) is that in (a) it is no more than

HOW THE FINE PROVISION WOULD WORK

Here's the procedure that would be followed in cases where the FCC imposed monetary forfeitures on a broadcaster under amendments being drafted by the Pastore subcommittee and FCC staffs, with drafting help from witnesses:

The FCC would notify the licensee of its intention to impose a forfeiture, specifying the rule or law allegedly violated; the broadcaster would be allowed to reply, denying the charges and asking that they be dropped and spelling out his reasons therefor; if the broadcaster denied the charge and the FCC still intended to impose the forfeiture, it would so notify him and he would be allowed to request cancellation of or reduction in the amount of the forfeiture; if the FCC refused this request the agency would then so notify the broadcaster and impose the fine (payable to the U.S. Treasury); if the broadcaster refused to pay the fine, the FCC then could take the case to a federal court for collection; the court would hold a de novis trial; namely, a "new" trial which would make findings on both the violation alleged and whether the forfeiture were excessive.

*Of course, in all these cases, if there is payment to the station or production personnel in consideration for the exposure, an announcement is required.
RCA's NEW
1 KW FM
Transmitter
ideal choice for
truly economical
FM operation!

SINGLE TUBE POWER AMPLIFIER keeps operating costs low. Actually there are only three basic elements in this new 1 KW transmitter: the standard RCA FM exciter, the power supply, and the single PA stage. Combined with RCA's complete line of FM antennas, the BTF-1D should be your first choice for truly economical FM operation.

STEREO MULTIPLEXING or dual subchannel operations are economically obtained by adding RCA subcarrier generators. The BTF-1D always produces a full fidelity signal with low distortion and noise for both conventional and multiplex operation.

A BUILDING BLOCK UNIT, this new 1 KW transmitter can easily be expanded to 5, 10, or 20 KW just by adding higher power amplifiers.

YOUR NEAREST RCA BROADCAST REPRESENTATIVE will gladly help you select the best equipment for your installation. See him for the details, or write to RCA, Dept. KC-22, Broadcast and Television Equipment, Building 15-1, Camden, New Jersey.

EASY TO SERVICE: Easy access to all components from front and rear. The exciter unit tilts out as shown from the front to expose all components. All tuning controls are on the right front panel.
the natural identification which a broadcaster would give to a refrigerator as a prize if he had purchased the refrigerator himself and had no understanding whatever with the manufacturer as to any identification. That is to say, in situation (a), the broadcaster purchased the refrigerator he would have felt it necessary, in view of the nature of the show, adequately to describe the magnitude of the prize which was being given to the winner. On the other hand, the broadcaster purchased, for example, a refrigerator, has made the type of identification in situation (b), thus providing a free sales “pitch” for the manufacturer.

24. (a) An airplane manufacturer furnishes free transportation to a cast on its new jet model to a remote site, and the arrival of the cast at the site is shown as part of the program. The name of the manufacturer is identifiable on the fuselage of the plane in the shots taken. No announcement is required because in this instance such identification is reasonably related to the use of the service on the program.

(b) Same situation as in (a), except that after the cameraman has made the foregoing shots he takes an extra close-up of the identification insignia. An announcement is required because the closeup is not reasonably related to the use of the service on the program.

25. (a) A station produces a public service documentary showing development of irrigation projects. Brand X tractors are furnished for use on the program. The tractors are shown in a manner not resulting in identification of the brand of tractors except as may be recognized from the shape or appearance of the tractors. No announcement is required since the identification is reasonably related to the use of the tractors on the program.

(b) Same situation as in (a), except that the brand name of the tractor is visible as it appears normally on the tractor. No announcement is required for the same reason.

(c) Same situation as in (b), except that a closeup showing the brand name in a manner not required in the nature of the program is included in the program, or an actor states: “This is the best tractor on the market.” An announcement is required as this identification is beyond that which is reasonably related to the use of the tractor on the program.

26. (a) A bus company prepares a scenic travel film which it furnishes free to broadcast stations. No mention is made in the film of the company or its buses. No announcement is required because there is no payment other than the matter furnished for broadcast and there is no mention of the bus company.

(c) Same situation as in (d), except that a bus, clearly identifiable as that of the bus company which supplied the film, is shown fleeingly in highway views in a manner reasonably related to that travel program. No announcement is required.

(c) Same situation as in (a), except that the bus, clearly identifiable as that of the bus company which supplied the film, is shown to an extent disproportionate to the subject matter of the film. An announcement is required, because in this case by the use of the film the broadcaster has impliedly agreed to broadcast an identification beyond that reasonably related to the subject matter of the film.

27. (a) A manufacturer furnishes a grand piano for use on a concert program. The manufacturer insists that an enlarged insignia of its brand name be affixed over normal insignia on the piano. An announcement is required if an enlarged brand name is shown.

(b) Conversely, if the piano furnished has normal insignia and during the course of the televised concert the broadcast includes occasional closeups of the pianist’s hands, no announcement is required even though all or part of the insignia appears in these closeups. Here the identification of the brand name is reasonably related to the use of the piano by the pianist on the program. However, if undue attention is given the insignia rather than the pianist’s hands, an announcement would be required.

Payola compromise bill is in sight

other safeguards to avoid FCC pre-judgment of guilt and imposition of double penalties for the same offense and to afford opportunity for a fair hearing.

AFM’s Mr. Ballard proposed that the bill be amended to include a requirement that sound tracks and background music recorded by musicians in other countries and carried on U.S. radio and TV programs be identified on the air as foreign in origin and that members of the general public be allowed to intervene in application proceedings before the FCC. He also asked that Congress express its sense that broadcasters have a duty to foster “the arts.”

Sen. Pastore said such proposals, though they may have merit, have no chance of being added to S 1898 during this short session of Congress and that a more complete investigation should be made at some time in the future.

ACLU’s Mr. Speiser urged passage of S 1898 as is. He said he’d like to see the suspensions and forfeitures left in the bill as they are. The FCC’s procedures have been inadequate, he said. He also felt mandatory hearings should be required locally for license renewals and that stations be required to inform listeners of the broadcasters’ obligations under the provisions of the Communications Act.

Statements opposing the suspensions and forfeitures, as presently proposed, were filed by the following broadcasters, radio-television organizations and individuals representing state associations:

Invitation = ABC said license suspension power would be “an open invitation” to the FCC to use this sanction as a “club” where it disagrees with a station’s overall programming but is unable to point to a specific violation of rules or statutes. This, ABC said, is the “entering wedge” to censorship
and thought control and the first step to "government absolutism."

CBS noted the FCC apparently has never used its cease and desist powers until this year. License suspension, CBS said, would deprive the public and the advertiser of service as well as the broadcaster. There is no need for the suspension power, anyway, CBS said, because the rest of § 1898 should correct the abuses with which the House Legislative Oversight Subcommittee has been concerned. On forfeitures, CBS said imposition of money penalties is a task traditionally left to the courts and "we believe it should remain there."

NBC said it has no opposition to FCC power to impose money forfeitures, but thinks the bill is deficient in procedural safeguards. No fine should be imposed without notice and hearing, with the right to appeal the decision, NBC said.

On suspensions, NBC said the penalty to the public is greater than that to the broadcaster and is worse than revocation, because in the latter case a new licensee can begin operation to replace the old service, whereas suspension results in a lapse of service. Suspensions and forfeitures are duplicative of each other, though suspensions are worse for the public, NBC said.

**FTC cites success in payola campaign**

Reports that the Federal Trade Commission had come to the end of its high geared campaign against payola in radio and TV (BROADCASTING, July 25) were confirmed last week.

In a news interview, FTC Chairman Earl W. Kintner said that payola "has been pretty well stamped out" due to the agency's activities in bringing unfair trade practice complaints against record manufacturers and distributors. He expressed the view that record makers and distributors had "fallen in line," but warned that if the practice cropped up again the commission would renew its drive.

The FTC also announced last week that consent orders had been entered into with four record manufacturers and two distributors which prohibit the under-the-counter practice.

In addition to being charged with making payola payments to disc jockeys and other employees of broadcast stations, Specialty Records Inc. also was charged with paying off to a radio station.

The consent orders require that public disclosure must be made if records are played on the air because of payment to employees or stations.

**Carter tells FTC ad license is must**

"Photographic license" in television commercials is necessary, Carter Products Inc. told the Federal Trade Commission last week, answering a government false advertising complaint against its shaving cream product, "Rise."

The FTC challenged a Rise TV commercial on June 15 (BROADCASTING, June 27). The government agency claimed that the commercial showed a man shaving with a competing product which appeared to dry out on his face and cause him discomfort. When he used Rise it appeared to remain moist and creamy. The competing lather, FTC
said, was not a shaving product at all but a special formulation prepared for the demonstration.

Denying that the demonstration was deceptive, Carter asserted that “The members of the purchasing public, who also constitute the viewing audience, are not so naive or easily misled so as not to realize that certain photographic license must be taken in many instances in order to represent various situations within the time and other limitations imposed by television commercial photography.”

The company called attention to special effects required to be used in TV demonstrations of hair waving products, cake and dessert mixes, cosmetics, laundry soaps and detergents “and a host of other products.”

The challenged TV commercial has been permanently withdrawn, Carter Products said. It asked that the complaint be dismissed. In addition to the company, the FTC complaint was directed at its advertising agency, Sullivan, Stauffer, Colwell & Bayles, and the account executive, S. Heagan Bayles.

**UNDER ITS WING**

**FCC to help boosters come legally to flock**

A bureaucratic government agency with a heart and the ability to understand the problems of the little man.

If that definition does not fit the average broadcaster’s private opinion of the FCC, that agency showed last week that it is willing to meet the vhf translator (or booster) operators more than halfway. The commission said that it will send representatives into the field to explain what steps are necessary for the vhf operations, previously termed illegal, to come into the good graces of the law.

Vhf translators were authorized July 28 by the commission, which also provided for “grandfather” recognition of those stations built illegally (BROADCASTING, Aug. 1). Beginning Aug. 23, three representatives from the commission will be in the Far West for 10 days to explain what steps are necessary to meet the new vhf translator needs.

Dee Pencock of the general counsel’s office and engineer Mac Parker from Washington and one man from various FCC field offices will make the trip. Their tentative itinerary: Aug. 23—Prescott, Ariz.; Aug. 24—Pueblo, Colo.; Aug. 25—Casper, Wyo.; Aug. 27—Miles City, Mont.; Aug. 29—Great Falls, Mont.; Aug. 30—Wenatchee, Wash.; Sept. 1—Redmond, Ore.; Sept. 2—Pocatello, Idaho; Sept. 3—Salt Lake City.

The commission said that it apprises that operators of presently unlicensed boosters are not familiar with FCC rules and procedures, that their stations are located in remote areas and that they will need a reasonable time to convert to the new rules. Consequently, the FCC staffers will meet with the operators in their locale to distribute copies of the translator rules, necessary application forms and instructions for completion of the “simple” interim authorization form. Messrs. Pencock and Parker also will explain steps which must be taken to comply with regular licensing requirements and answer related questions.

**The Requirements**

Principal points of the new rules provide that:

1. A maximum of 1 watt power will be authorized and provision must be made for on-off control and automatic cut-off.
2. Application for interim operation of those vhf boosters already constructed, using present power and facilities, must be filed by Oct. 31.
3. Application for a license indicating compliance with the vhf translator rules must be filed by Feb. 1, 1960.
4. All vhf translators must be in complete compliance with the rules by Oct. 31, 1961. Operation thereafter will be permitted only under a regular license.

The translators must not cause interference to regular tv stations and must receive permission of the stations repeated. Commission engineers estimate that actual effective radiated power of the translators using directional antennas will reach 10 watts and send a signal approximately 15-20 miles. Their interference range, however, will cover up to 100 miles, it was pointed out. Interference problems among the vhf translators must be resolved by the licensees themselves.

James Beamer of Livingston, Mont., president of the Tri-State Repeater Assn., is arranging the western trip by the commission staffers.

**Move to 70 channels would take 5-10 yrs.**

A proposal for “a gradual changeover” to an all uhf, 70 channel television system which would include pay tv, has been presented to the FCC by the American Civil Liberties Union.

The ACLU policy statement, adopted by its board of directors, was contained in a letter to FCC Chairman Frederick W. Ford last week. The proposal recommends that the change-over to all uhf should take place over a five to ten year period, retaining existing vhf facilities until the change is completed.

The proposal, ACLU said, is based “upon our conviction, that under the First Amendment, the public is entitled to view a wide diversity of programs in the public affairs, religious, educational, cultural and informational fields ... available to all possible types of broadcasting” including subscription and pay television. A 70 channel uhf system “provides all types of programming,” ACLU said. “For the government to deny the public a wider choice of TV fare than it now has,” the union asserted, “would be an unpardonable confession of defeat.”

The letter enthusiastically endorsed the commission’s New York uhf study (BROADCASTING, April 25).

**Don’t Wait**

The ACLU asked the commission not to wait until “every technical difficulty” is solved before asking Congress to pass enabling legislation. “We entertain the hope,” the union asserted, “that the commission is now envisaging a changeover to a 70 channel uhf system....” A period of from five to ten years would give set owners and manufacturers time to adjust to uhf and would allow time for further research.

In a related development, Blonder-Tongue Labs Inc., Newark, N.J., a major manufacturer of uhf converters, told the commission that its uhf test program, which is limited to 100 receivers of superior quality, “will probably do no more than confirm the already available technical facts.” The company said that the problem is not one where “we have to establish technical feasibility of uhf, but whether the low public esteem into which uhf has fallen can be overcome by this new test program.”

The company asserted that an extensive publicity program and programming of new forms of “high grade entertainment not now available” would capture an enthusiastic New York audience during the test.

Commissioner Lee again stressed last week that the New York uhf study was “a technical test, not a program test.” He said that current plans call for the use of network programming and “possibly” some independent as well.

The commissioner said that as far as the goals of the study are concerned, “if we get nothing more than improvement in receiving equipment for existing use from the New York project, it will still have been worth the effort.”

**African problem**

The countries of the free world must help the new nations of Africa establish modern communications, Francis Colt DeWolfe, chief of the State Dept. telecommunications division, told a national symposium on global communications a fortnight ago. He said the International Communications Union soon will have 20 new members from Africa.
with its capacity for total Communications—ITT is helping to shrink our rapidly expanding Universe!

Communications can be briefly defined as the business of getting information from Here to There—and from There to Here. Every improvement in Communications brings Here closer to There. And that's the business ITT is in—narrowing the gap between Here and There, whether There is a nearby city or a nearby planet.

ITT is the worldwide communications and electronics organization. ITT is muscled by 7,200 scientific idea-exchangers and 130,000 other employees in 24 countries. And they're all gap-closers, the lot of them. Because of them, Here is practically on top of There, and Today is breathing down the neck of Tomorrow. And our world is smaller, and richer, for it.

None it. If it's a Communications system other than smoke signals, the ITT organization is set to invent it, develop it, equip it or oversee its installation anywhere in the world. When it comes to research and development of electronic complexities like trans-satellite television, worldwide... when it comes to air and marine communications equipment and systems... when it comes to data processing and data transmission systems or military-space electronics... when it comes to bringing Here closer to There and thereby making our world smaller... you come to ITT.

International Telephone and Telegraph Corporation, 67 Broad Street, New York City 4, New York.
HARRIS ON 315
Warns of opposition in House to suspension

S. J. Res. 207, which would suspend Sec. 315 for the 1960 presidential campaign, faces the opposition of "a number of members of the House," Rep. Oren Harris (D-Ark.) warned last Saturday (Aug. 13).

Speaking before the Arkansas Broadcasters Assn. in Little Rock, the chairman of the House Commerce Committee said that many of his colleagues had "... expressed their misgivings to me with respect to this resolution." However, he said in his prepared text, that because of the "difficult problems" involved in writing permanent legislation, "it might be best" for the equal time provisions of the Communications Act to be suspended for the present presidential campaign.

"Then," Rep. Harris said, "we could see how things work out and try again during a later Congress to write permanent legislation." He did not explain the type of "permanent legislation" he had in mind. "Admittedly, the present Sec. 315 still produces some undesirable results, as was demonstrated by the recent Lar Daly appearance which constitutes a clear abuse of the equal time requirement," he stated.

"I believe, even under the present law it should be possible for the FCC to call into question the good-faith character of the candidacy of those permanent candidates for any office at all who indulge in the habit of becoming candidates for the thrill of getting free time on radio and tv."

Rep. Harris' committee is scheduled to meet informally on S. J. Res. 207 this week, with the House resuming its session today (Monday) following the convention recess. It is scheduled to go to the floor for action next week. The resolution passed the Senate in late June.

Suspension and Revocation - The Arkansas Democrat also discussed several other communications bills pending before Congress, with emphasis on S. 1898. Although this measure bears a Senate designation, most of its provisions were drafted by Rep. Harris as a result of the investigations of the Legislative Oversight Subcommittee, which he also heads.

The most controversial of its provisions authorizes the FCC to suspend and fine broadcast licensees (see story, page 80). Rep. Harris said that the threat of suspension and forfeitures is desirable because it may serve to bring about better industry-wide observance of codes of good conduct.

"Broadcasting in the public interest requires ... voluntary adherence to industry codes of good practices worked out by responsible members and organizations of the industry on a voluntary, cooperative basis," he said. "The threat of revocation has proven ineffectual to secure voluntary cooperation by (recalcitrant) members in the broadcasting industry because the threat of revocation has not been very real."

On other matters, Rep. Harris said that his committee may hold more hearings on pay tv next year and that action may be taken by the next Congress on spectrum control legislation. "... if the incoming President helps us to knock some departmental heads together," he said that the FCC would be called to testify on bills pending to extend the hours of daytime stations and that he would make a "sincere effort" to solve this problem.

Socialists 315 bid vetoed by Comr. Lee

The Socialist Labor Party is not entitled to "equal time" for its presidential candidate, an FCC board composed of one commissioner — Robert E. Lee — ruled last week.

Commissioner Lee wrote Arnold Peterson, national secretary of the party, that the radio-tv networks and WNEW New York were within their rights in refusing to grant the party free time because they had carried the acceptance speeches of the Democratic presidential and vice presidential candidates. The broadcasters had denied the Socialist Labor candidate free time on the grounds their broadcasts from the Democratic convention were coverage of a "newsworthy event," which were exempted by Sec. 315 of the Communications Act.

The fair presentation provision of the act relates to issues, Commissioner Lee said, and without passing on whether "issues" had been given equal treatment he stated that no showing has been made that the networks and WNEW failed to comply with Sec. 315.

Committees readied for N.Y. uhf study

Members of the General Advisory Committee, composed of members of the television industry engaged to help in the FCC New York uhf study, met with the commission's Chief Engineer Edward Allen last week to set up industry committees in specific research areas.

The committees — receiver, transmitter, analysis, observation and measurement — will contain an approximate total of 80 industry members and will be headed by FCC personnel. No industry names have been disclosed, but an FCC spokesman said that "invitations have already been sent out as the result of agreement reached between the chief engineer and industry advisory over who shall participate."

The spokesman said that the names of industry representatives who will serve on the various committees will not be disclosed "until all invitations have been acknowledged."

The commission has, however, announced the members of its staff assigned to head the committees. Arnold Skrivseth, assistant chief, technical research division, will head project activity under the direction of Mr. Allen. Jules Deitz and George Waldo, both of the technical research division, will head the receiver and analysis committees respectively. Dan Hutton, FCC engineer, will head the observation and measurement committee.

A meeting of the transmitter committee, which will discuss problems inherent in installing the antenna atop the Empire State Building, has been scheduled for next week. A main stumbling block has been the possibility of interfering with existing tv signals atop the building by installing the uhf antenna.

Proxmire follows up on Capitol incident

Sen. William Proxmire (D-Wis.) last week introduced legislation which would prohibit the FCC from giving a civic participation preference on uhf station application because one or more of its principals are members of Congress. He offered an amendment to S 1734, which deals with hearing cases before the commission and currently is pending on the Senate calendar.

The senator became incensed six weeks ago when it was disclosed that a hearing examiner had awarded a preference for civic participation to Capital Cities Television Corp (WTEN TV) in a comparative hearing for ch. 10 Albany (Broadcasting, June 27). In detailing this preference, the examiner said that "it cannot be ignored" that five Capital Cities minority stockholders are members of congress.

Sen. Proxmire would add the following sentence to Sec. 308(b) of the Communications Act: "In considering the application made by any person for any construction permit or station license, the hearing examiner shall consider as a factor favoring the granting of that application the fact that such applicant is a member of Congress or the fact that any member of Congress has any direct or pecuniary interest in the applicant."
For reliable, low-cost, unattended TV relaying...

PHILCO TV MICROWAVE SYSTEMS

... for industrial and educational use, for community TV and S-T-L relay

Philco microwave provides stable, broad band transmission—equally applicable to closed circuit TV for educational and industrial use, and for community TV and S-T-L relay of NTSC compatible color or monochrome signals, plus full audio channel. With 1 full watt output, built-in metering and test circuits, fully automatic standby

... Philco systems assure dependable, unattended, continuous operation. And, of course, Philco microwave TV relay systems are "tailor-made"—designed, engineered and installed to meet each specific requirement with maximum efficiency and maximum economy.

Why not discuss your specific requirements with Philco engineers? Inquire, too, about:

• Operates in 5500 mc to 7125 mc bands • Highly reliable, unattended operation • Simplified maintenance • NTSC compatible color or monochrome • 1 full watt output • Full 15 KC audio channel multiplexing • Automatic standby • Built-in metering and test circuits.

PHILCO
Famous for Quality the World Over
Fresno assails FCC for deleting its uhf

The city, county and school district of Fresno, Calif., last week accused the FCC of "arbitrary and capricious" action in deleting that city's only uhf channel. Making Fresno all uhf would deprive its citizens of high-quality uhf service and impose additional expenses upon them, the three petitioners complained in a joint petition for reconsideration.

Last July 8, the FCC made Fresno an all uhf market by deleting ch. 12 and adding ch. 30 from Madera, Calif. (At Deadline, July 11), KFRE-TV, now licensed on ch. 12, was given until April 15, 1961, to shift to ch. 30. Also operating in Fresno are ch. 24 KMJ-TV and ch. 47 KJEO-TV.

In the petition last week, Fresno city and county said that the rulemaking was instituted so that the city's two uhf stations could compete effectively and continue operations. "Four years after the initiation of the proceedings, these stations are still on the air and no intimation has been made that they are not able to effectively compete with the existing vhf station," Fresno stated.

The "fallacy" of the FCC approach is best illustrated by the fact that the FCC, in moving to deintermix the California San Joaquin Valley, is unable to determine what to do with chs. 12 and 10, the petition said. Rulemaking now is underway, with comments due Sept. 6, to delete ch. 10 from Bakersfield, making that city all uhf also.

Proper action, Fresno maintained, would be for the FCC to reduce channel uhf mileage separations in zone II from 190 to 170 miles, current separation requirements in the eastern half of the U.S. "Only in this way can Fresno and the San Joaquin Valley be treated in the same fair, equitable and efficient manner as the commission has treated all other areas of the U.S.,” the petition concluded.

They also asked for—and were promptly turned down by motions Commissioner Robert E. Lee—a stay of the Fresno decision pending final determination of rulemaking to make Bakersfield, Calif., all uhf. Commissioner Lee ruled that the petitioners had failed to show that "irreparable injury” will result if the stay is denied.

EQUIPMENT & ENGINEERING

STEREO STUDY

Engineers complete tests of fm systems

Radio engineers have completed testing six stereophonic systems of fm broadcasting and are correlating their charts, it was announced last week.

The tests will be handed over for correlation and presentation to a committee of the National Stereo Radio Committee of the Electronic Industries Assn. This committee is headed by Norman Parker of Motorola Inc.

After review by this committee, the data will be submitted to the FCC.

The six fm stereo systems which were field tested at the request of the FCC are those of Electronics Music Industries Ltd., Crosby-Teletronics Corp., General Electric Co., Zenith Radio Co., Multiplex Development Corp. and Calbest Electronics Co.

The tests measured transmission and reception of the systems. They also evaluated monophonic receiver compatibility. Three signal levels were used—1,000, 200 and 50 microvolts input to receiver.

A specially prepared musical program was test broadcast for subjective evaluation on both stereophonic and monophonic receivers.

All transmissions were made over a special experimental station using the facilities of KDKA-FM Pittsburgh.

The tests were under the direction of Panel 5 of the NSRC. Chairman of Panel 5 is A. Prose Walker, NAB engineering chief. Two FCC observers were present throughout the tests—Harold Kassens, Broadcast Bureau, and John Robinson, Chief Engineer’s office. FCC Commissioner Robert T. Bartley was present on the final night of the tests.

Color tv fast-growing, RCA tells tv dealers

Color television has passed the $100 million-a-year point, John L. Burns, president of RCA, told the Institute of Management of the National Appliance & Radio-TV Dealers Assn. in Washington last week.

That figure covers current retail volume on color receivers, tubes and other equipment, servicing and local independent broadcasting. It took six years for color tv to arrive at that point, Mr. Burns said, contrasting the record with 12 years taken by the American automobile industry to reach $100 million, 25 years for the aircraft industry and 40 years for the petroleum industry.

RCA’s president listed recent color milestones in sales, technology and programming and went on to outline the next 15 years as a period of unprecedented growth for home electronics generally.

BROADCASTING, August 15, 1960
FM radio production double 1959 figures

Radio manufacturers almost doubled the number of fm radios made in the first six months of 1960 compared to the same period in 1959. This was evident in first six months’ production figures—442,535 fm radios made in January-June this year compared to 223,423 in same period last year—issued by the Electronic Industries Assn. last week.

Also increased was the manufacture of tv sets with uhf tuners—244,847 for half year 1960 compared to 180,443 same period last year.

Gains in the manufacture and retail sales of all elements of radio and tv receivers were also noted by EIA. The six-month figures follow:

<table>
<thead>
<tr>
<th>Period</th>
<th>Television Production</th>
<th>Television Sales</th>
<th>Radio Production</th>
<th>Radio Sales</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jan.-June 1960</td>
<td>2,963,044</td>

<td>3,158,881</td>
</tr>
</tbody>
</table>

Note: Tv production includes tv receivers with uhf. Total radio production figures includes 3,323,092 auto radios as well as 442,535 fm sets. Radio sales excludes auto radios.

Zenith profits up as production rises

Zenith Radio Corp. reaped net consolidated profits of $5,309,465 (1.79 per share) on combined sales of $118,263,821 for the six-month period ended June 30, according to a report released Wednesday by Hugh Robertson, board chairman.

Profits jumped from $4,901,721 and sales from $106,862,800 during the same period last year. The company also reported net profits for itself and subsidiaries of $1,454,336 and sales of $50,118,845 for the second quarter of 1960. Quarterly figures for 1959 were $1,577,830 and $47,642,024, respectively. Sales for both the first six and last three months this year, primarily in civilian products, reflected new records for those periods.

Mr. Robertson reported a 13 1/2% increase in unit factory shipments of Zenith tv receivers for the first half of 1960 and a 71% boost over those of two years ago. Factory shipments of radio receivers rose 24% over the same period in 1959.

Meanwhile, Zenith was beset last week with a strike of some 6,000 employees affiliated with the Independent Radionic Workers of America. They struck the company’s four Chicago plants on Tuesday, leading to intervention by the Federal Mediation and Conciliation Service. The strike is said to be the first in Zenith’s 40-year history.
Broadcast Advertising

Walter M. Swertfager, formerly senior vp at Lennen & Newell, N.Y., joins Geyer, Morey, Madden & Ballard, that city, as senior vp and member of management group. Mr. Swertfager Swertfager began career with Vacuum Oil Co. prior to its merger with Socony. He was associated with Lord & Thomas, as account executive; director of advertising, sales promotion, merchandising and pr at Seagram Distillers Corp., and assistant manager of N.Y. office of Ward Wheelock Co.

Allied Fields

Mary Jane Morris, formerly secretary of FCC, and brother John Chester Morris establish law offices in Grand Rapids, Mich. (404 Fountain St., NE), and in Washington, D.C. (on Capitol Hill). Miss Morris, only woman to serve as FCC secretary, resigned April 1 (Broadcasting, April 4).

International

Harve Kirck, for past eight years announcer at CHUM Toronto, Ont., to feature newscaster of CHCH-TV Hamilton, Ont.

Monte Hutton, supervisor of broadcast services division of All-Canada Radio & Television Ltd., Toronto, Ont., to retail sales staff of CFCF-TV Montreal, Que.

R. C. Marvin, senior supervisor of J. Walter Thompson Co. Ltd., Toronto, Ont., promoted to vp.

Deaths

Irwin A. Olman, 52, founder and president of Olman & Bronner Inc., Chicago regional and local account agency, died of heart attack while competing in Lincoln Park Tennis Club's doubles championship Aug. 7. He founded agency 19 years ago in St. Louis, moving headquarters to Chicago in 1948.

Jack F. Horler, 67, director of radio and tv for Baker Adv. Ltd., Toronto, Ont., died Aug. 3 while on business visit to New York. He had been director of agency's radio department since 1938. Among survivors is son, Hugh Horler, radio-tv director of MacLaren Adv., Ltd., Toronto.

Jack Zwilling, 43, staff photographer for NBC press department, died Aug. 5. He had been in ill health since major operation last February.

Allan Lewis, 52, sales manager of WGR-FM Buffalo, N.Y., died Aug. 7 in that city. Before assuming present position, he had been salesman and chief announcer for WGR.
WINS SAYS MUMMY KNOWS BEST

But 'Times' didn't know about 'Egyptian' stone tablet that was station handiwork

New York newspapermen may be forgiven if they sensed a slight tug on one leg last Thursday (Aug. 11)—or even a sandbag over their heads. That was when they discovered that the "Egyptian Hieroglyphics Mystery" they'd written about turned out to be of the type you can buy at every drugstore and dime store. It was a blank Egyptian stone tablet which the Brooklyn museum expert said was of the type which the Brooklyn museum expert had been left with after the staid New York Times had been delivered to show at Benton & Bowles.

WINS Manager Hap Anderson, who had been notified of the Times' request by Eric Young, curator assistant in the Dept. of Egyptian art at the Metropolitan Museum of Art, said the Times should have called him in a more thorough way the Times called anyone—especially when they learn that the story they'd written about turned out to be a complete package. It included all the data and script. It also included competitive media information, coverage maps, rate cards, etc.

WINS said its "hieroglyphics"—which the Brooklyn museum expert had been able to translate—were designed at the station's request by Eric Young, curator assistant in the Dept. of Egyptian art at the Metropolitan Museum of Art.

WINS also said it would give the thoughtful cabbie a $100 reward for returning its stone.

RAB member stations receive selling tools

Radio salesmen at Radio Advertising Bureau member stations are receiving a new kit of tools to better illustrate their selling points. Bearing the title, "Sound Selling in the Sixties," RAB is sending out slide presentations consisting of 30 color slides and a complete script. It includes competitive media data and new radio research.

Documented in the slide show are facts pointing out that "radio leads tv in total adults reached throughout the shopping day; radio's dominance over newspapers in suburban coverage; radio's phenomenal growth pattern, and increases in out-of-home listening." Other highlights: Listening habit studies by The Pulse Inc. (showing over 90% of the people in eight major consumer groups listen to radio during an average week); comparison of radio vs. tv and newspaper advertising costs, and studies among supermarket and service station customers showing that radio gets more than 60% of the time people spend with media in the pre-shopping hours. RAB member stations are urged to localize "Sound Selling in the Sixties" by adding 35 mm slides of their own, featuring air personalities, coverage maps, rate cards, etc.

Spotty propaganda

The "East-Men" of Robert E. Eastman & Co., New York, have a new propaganda campaign going, using spoken and written media to promote another medium they like, spot radio.

The word goes out each week in a "keep talkin' it up" bulletin from Mr. Eastman to all hands in the firm's seven offices and to station clients of the representative firm. A typical fact of the week: "Housewives listen to spot radio 16:46 hours weekly." Account men slip it into the day's conversations. All correspondence has it blazoned across the bottom in red. Stations are encouraged to broadcast it, put it on their own mail and get salesmen and staff to say it as much as pos-
sible. The project is part of a continuing image-building effort at Eastman. For the past three months the firm has mailed bi-weekly personalized letters to 1,400 agency and advertiser executives, promoting spot radio.

**First mailings begun in democracy contest**

First steps in 14th annual Voice of Democracy broadcast scriptwriting contest were taken Aug. 5 with mailing of contest kits to every broadcast station and Veterans of Foreign Wars post in the U.S. Next action will be to mail the material to the 28,000 high schools participating in the competition, based on five-minute scripts on the theme, "I Speak for Democracy."

The contest is sponsored by NAB and Electronic Industries Assn. and state broadcaster associations in cooperation with Veterans of Foreign Wars. It is endorsed by the U.S. Office of Education and is on the approved list of the National Assn. of Secondary-School Principals.

**Date with Frankie**

William B. Williams, WNEW New York personality, pulled 129,837 postcards in two weeks from couples competing for an Atlantic City outing with Frank Sinatra. The "Chairman of the Board" contest, so named for Mr. Williams' nickname for Sinatra, was called the station's most successful draw.

The mail has been exceeded only once in station history, by a round-the-clock promotion last Thanksgiving that got 144,897 entries in a week, vying for 24 transistor radio awards.

"The Chairman of the Board" drawing was plugged only on the two Williams shows, 10 a.m.-noon and 6-8 p.m. daily, Monday-Saturday. Three couples picked in the drawing last month were driven to Atlantic City in Rolls Royces for an overnight stay and a Saturday night with Mr. Sinatra.

**Key to a lease**

WINS New York staged a spectacular game of chance in the city to climax an "Urban Renewal" contest. The station had collected 20,000 old keys sent by listeners hoping to win a year's lease on a new apartment. To pick the lucky key, WINS sent up a blindfolded "Miss Park West Village" in a 20-story crane manned by five steeplejacks likewise blindfolded.

The choice was made from a field of keys tagged by the station (the bill for tags came to $500) and spread out at the address of a new development at 97th St. and Central Park West. WINS promoted the contest daily for a month, recording some spots at the site during construction. The promotion preceded a fall advertising campaign by Park West Village, a Webb & Knapp development.

**Nobody loves her**

Providing an excellent outlet for listeners' deepest hostilities, WIP Philadelphia has sponsored a "mother-in-law" contest with a trip to the "shark-infested" Carribean for the winner's mother-in-law and friend. Each day the station broadcasts the voice of a battle-axe mother-in-law stating "My son-in-law is a ...." Listeners are asked to supply the missing phrase and the one who actually reproduces the words in the station's strongbox eliminates his mother-in-law—for a while at least. Over 2,500 entries have been received with some 50 being read over the air each day with the senders' names. Entries have ranged from "My son-in-law is a real stinker" to "My son-in-law is a WIP listener."

**Tv prod to retailer**

A method of arousing the interest of retail stores in tv is to show them what other stores are doing, Television Bureau of Advertising has told its members. To help stations along, TyB circulated a full listing showing which department and specialty stores use television and whether programs or spot.

At the same time, the index denotes the "buying office" if the store in question is one of a department chain. TyB suggests stations find out in advance the name of the buying office for the local prospect if it's a part of a chain and then indicate tv activity of competitive stores.

**Drumbeats**

*Parting remarks* The final editorial of departing station owner Milton E. Miller of WADK Newport, R.I., resulted in action by the city council. Mr. Miller suggested that the city name an area or street after vacationing President Dwight D. Eisenhower. The city council acted on the suggestion and named a park area in downtown Newport, "Eisenhower Park." Dedication ceremonies, aired on WADK, presented the President and Mrs. Eisenhower as guests of the city. Mr. Miller, now owner of WYNG Warwick, R.I., also appeared as a guest during the ceremony honoring the President.

*M-H's back* Marv Henry, a young disc jockey at WLOL Minneapolis who decided to go West in 1951, returned
Eyes of KFWB are upon you - KFWB Hollywood proved its five disc jockeys have the artistic touch in a promotion that gave its listeners a lot of laughs and a lot of fun. The station, in conjunction with Foster & Kleiser Co., that city, staged a design-a-sign contest among its disc jockeys with trip to Las Vegas as bait. Listeners were advised as to the progress of each competitor and to the location of his billboard. The winning entry, shown here, was designed by Jim Hawthorne, president of the Disc Jockeys Assn. Singer Patti Page and various local advertising personnel served as judges for the "art" competition.

Last week to a hero's welcome, Mary, who made a name for himself in various television shows including 77 Sunset Strip, Alfred Hitchcock Presents and Lux Playhouse, was promoted by WLOL simply as M-H is coming. Mailings were sent out to agencies, accounts and prospective accounts with such outstanding results, WLOL said, that the station began an overall saturation campaign that ended with a city-wide parade and a lucky listener (now $50 richer) who identified Mary, ending the secret of his identity.

Vick Victor - After rating all TV stations in the U.S. for merchandising ability, the Vick Chemical Co. chose the PM (product movement) plan of KTTV (TV) Los Angeles as the best merchandising program in the country. Through its agency, Morse International, Vick presented Chuck Martin, KTTV merchandising manager, with a commemorative plaque.

Anniversary - WTVW (TV) Evansville, Ind., will feature an open house, 5,000 free orchids, 20,000 souvenir fortune cookies and stagecoach and train rides for children when it celebrates its fourth anniversary August 20 and 21.

Home Show - KSAN San Francisco staged a four night successful home and food show following an individual mailing of 34,000 newsletters to Negro residents in the San Francisco-Oakland area. The newsletters, in addition to information pertaining to the show, contained lucky numbers worth $100 which were announced over KSAN night and day.

Off and Running - Capital Cities Broadcasting Co. (WTEN [TV] and WROW, both Albany, N.Y., WPRO-AM-TV Providence, R.I., and WTVD [TV] Durham, N.C.) played host to more than 250 advertising and broadcasting officials at its 6th annual "Day at the Saratoga Races." Agency personnel was flown to Albany from New York and Boston via four chartered planes, then to Saratoga Springs Race Track by bus for luncheon and an afternoon of money-winning. An outdoor cocktail party at nearby Shaker Ridge Country Club climaxed the day.

Second Series Blast - Roughly 9,000 stations, agencies and manufacturers last week received expended 12-gauge shotgun shells from MAC-TV, New York. A note tucked into the shell proclaimed the arrival of 39 half-hour episodes of Shotgun Slade, making a total of 78 filmed units available for regional and local sponsorship.

Busy Switchboard - A telephone poll to forecast the popularity of new recorded music drew a response of 89,506 calls in 68 hours, according to KRLA Los Angeles. Fifteen record distributors, representing most of the major labels, cooperated with the station in the poll. Three of the new releases were played each hour for 68 consecutive hours for a three day period. Listeners were invited to express their opinion of them.

Balaban Cup - Approximately 60 power boat pilots took part in WIL St. Louis' third annual Balaban Cup races at Creve Coeur Lake last month. The Balaban Cup is presented by WIL to the leading point-getter of the day. Three successive victories secures permanent possession for a pilot, but to date there have been no repeat winners.
Purchases minority interest in network

ABC's International Div. has acquired a minority interest in a new Venezuelan television network, Corporacion Venezolana de Televisión S. A., which will be composed of stations in Caracas (ch. 4), Valencia and La Guaira (ch. 9) and Barquisimeto (ch. 11). The acquisition is being announced today (Aug. 15) by Leonard H. Goldenson, president of ABC's parent American Broadcasting-Paramount Theatres, who currently is on a month's tour looking toward expansion of ABC's interests in South America (CLOSED CIRCUIT, Aug. 1), and Diego Cisneros, president of the CTV network. Renny Ottolina, Venezuelan tv star who for the past four months has had a show on ABC's WABC-TV New York, will be general manager of the CTV Caracas plant. This will be the network's headquarters and is slated to go into operation about Oct. 1 with three studios, new offices, large carpentry workshops and a fully-equipped mobile unit.

Mr. Goldenson saw the arrangement as one which not only would contribute ABC's technical and programming knowledge to Venezuelan television but might also lead to "an eventual flow of Latin American talent" to the U.S. He hailed Mr. Ottolina's stint on WABC-TV would be "the forerunner of a trend."

ABC's role also is "an investment in human understanding and a closer bond of friendship between this country and Venezuela," he said, asserting the ABC International Div. "will lend all possible assistance to CTV as its people work to expand the entertainment, cultural and educational values of television offered to the people of Venezuela."

TV advertising in Venezuela "is becoming more and more of a necessity," he said. "With over 325,000 sets in the country already, television is on the road to becoming the creative cultural and commercial force in Venezuela that it is today in the U.S."

ABC's other South American interests include a minority share in an Ecuador tv station, control of a five-nation Latin American tv network and minority interests in the five stations making up that network. In its investments in foreign stations ABC as a matter of policy acquires only minority interests, leaving control with the local owners.

Abroad in brief

Satellite. CKAM-TV are the call letters of new channel 12 satellite station at Campbellton, N.B. License for the satellite station to CKCW-TV Moncton, N.B., was originally recommended for location at Upsilon Lake, N.B. Station will have 141 kw video and 77 kw audio power and antenna will be located on highest mountain in the Canadian Atlantic coast area, 2,800 feet above sea level. Station is represented by Stovin-Byles Ltd., Toronto, Ont., and Young Canadian Co., New York.

Appointments. CICH-TV Halifax, N.S., newly licensed channel 5 station, has awarded contract for equipment, tower and antenna to Canadian General Electric Co. Ltd., Toronto, Ont. Paul Mulvihill & Co. Ltd., Toronto, has been appointed national representative.

P&G promotes. Procter & Gamble Co. of Canada, Toronto, Ont., is first major Canadian company to start a campaign to promote its television programs. Firm has retained Toronto public relations organization Tisdall, Clark and Lesly Ltd., to handle the campaign to draw more attention to its television programs. To date this has been left to the Canadian Broadcasting Corp. and individual stations. Frank Duckworth, is handling the campaign for the public relations firm of which he is vice president.

New call. CFTK is call of new 1 kw station on 1140 kc at Terrace, B.C. Station is due to go on the air this fall, and will be represented by Radio Representatives Ltd., Vancouver, B.C.

Africans in training. The National Academy of Broadcasting, Washington, D.C., reports that nearly 20 young men from Nigeria have made application for the fall semester through the American consulate and the Attorney General's office. The new country is planning to expand its radio and tv facilities.

L.A. date change
A change in date, from Oct. 5 to Oct. 10, was announced last week for the FCC's programming inquiry in Los Angeles, Calif. As originally scheduled (BROADCASTING, July 25), the hearing will be held at 10 a.m. in the courtroom of the U.S. Court of Appeals, Ninth Circuit, 312 N. Spring St., Los Angeles. Chief Hearing Examiner James D. Cunningham will preside at the hearing. Commission counsel will include Ashbrook Bryant, chief of the Network Study Staff, and assistant chief James Tierney. A number of Hollywood tv film producers are expected to face the scrutiny of the commission in this third phase of a programming investigation begun in February 1959. Other hearings were held in New York and Washington.

Wire us collect for the full story. Address: Western Union, Special Service Division, Department 8-B, New York, N.Y.
OUR RESPECTS TO...

Joseph Lawrence Floyd

Natural trademarks being what they are, it was pretty predictable that a promotion-minded Dakota booster would make a distinct dent on Madison Avenue when he started pounding buyers' ears in the early 1950s.

The big-city advertising machine that sells soap or cereal with equal competence was meeting its match—a singular, self-made selling champ out of the farmlands of South Dakota.

The new contender in the Manhattan market place sported horn-rimmed glasses, bristling mustache, a characteristic cigar, and a voice that boomed: "I'm Joe Floyd. I consider myself a helluva salesman." Mr. Floyd was in town to line up programs for KELO-TV Sioux Falls, S.D., in 1953 at a time when advertisers were waiting for more sets and consumers for more shows. Today, buyers know the Floyd trademark considerably better.

KELO-TV is the heart and core of South Dakota's KELO-Land which also includes satellites KPLO-TV Reliance and KDLO-TV Florence (Watertown), as well as KELO radio, all owned by Midcontinent Broadcasting Co., of which Mr. Floyd is president and one-third owner. He also is vice president and stockholder of other BFR Stations properties—WLLO-AM-FM Minneapolis (33 1/2 %), KSO Des Moines (20 %), and newly-acquired WKOW-AM-TV Madison, Wis. (20%).

Running & Thinking ★ It may be said that Joseph Lawrence Floyd came by his promotional savvy obscurely if not modestly. Born in Minneapolis Oct. 3, 1911, he was graduated from high school there in 1931. As a theatre usher at 15, he found he could fill up empty seats by running much and thinking hard. Show business took precedence over further education (1 1/2 years at the U. of Minnesota) and he hatched a "depression-proof" idea for a barnstorming tour: auctioning off feminine apparel worn by pretty models to an eager audience.

Continuing his climb, Mr. Floyd became assistant manager of a Minneapolis theatre owned by E.R. Ruben, now one of his broadcasting associates, along with N. Lawrence Bentson (the three initials comprise BFR). Mr. Floyd became manager of Sioux Falls' Granada theatre under Mr. Ruben in 1933.

Mr. Floyd arrived at a view on the importance of film attractions that pretty well sums up his promotional flair for tv today: "No matter how weak a movie may be, there are always saleable values in it which can be ferried out and dramatized."

Who's in Town? ★ By that time he started to pry into people's buying moods (on some nights the streets would be jammed, while on others, "you could shoot a cannon up and down the street"). He also acquired more promotional know-how, determined to beat out entrenched opposition in advertising and gimmickry. Among his promotions: chances on automobiles or trailer coaches, and new homes; girls in tights, swinging from the Granada marquee; an airplane taxiing down city streets to the theatre with a can of film. Messers. Floyd and Ruben expanded their enterprises, getting a local undertaker to finance a larger show-house; setting up a bowling-recreational center, and adding a chain of six drive-in theatres through the Dakotas.

It was almost inevitable that broadcasting would prove the next lure for Messrs. Floyd, Ruben and Benton. Actually, Joe Floyd had brushed against the medium in producing Blind Date, a Hollywood theatre idea conceived by a longtime associate, Clifford Gill, head of the Beverly Hills (Calif.) agency bearing his name, which handles Midcontinent advertising. Mr. Floyd took the format to NBC Radio and produced the program nationally with others.

BFR Lineup ★ The BFR principals acquired KELO-AM-TV in 1952, KDLO-TV in 1955, KPLO-TV in 1957 and WKOW-AM-TV only this summer (Broadcasting, June 27) (affiliations: all CBS and ABC).

Mr. Floyd's association with Mr. Gill (not to be confused with station executive Cliff Gill) goes back a number of years and is credited with providing the idea for the familiar advertising name, KELO-Land. The enthusiastic Mr. Floyd already was having a rough time on Madison Avenue in 1953 and things weren't improving when Mr. Gill posed a riddle: "What can your station give the advertiser that no other station in the nation can offer?" Mr. Floyd pleaded ignorance. "You, Joe. You can sell the blazes out of any product," he was told.

That is precisely what Mr. Floyd has done through the years, garnering advertiser money and generating station growth in a market that recently has added a competitor (KSOO-TV on ch. 13) to his established ch. 11.

Fitting the Pieces ★ Mr. Floyd is constantly on the go throughout KELO-Land and puts company executives on their mettle when he's at home in Sioux Falls. Says he: "Merely being strong in various facets of station operation is not enough. They have to mesh. You've got to put things together."

One example of this talent was establishment of KELO-Land by "pushing back the walls" of the KELO-TV signal and setting up KDLO-TV and KPLO-TV to create a single, homogeneous, and larger market. With the satellite hookup, Midcontinent claims coverage of 73,496 square miles, including 103 counties in five states, and an audience of over 265,000 tv homes for advertisers.

Now well aware of the Floyd trademark and station coverage claims, agency buyers no longer ignore the rich midwestern market anchored in the South Dakota area. And, in case they forget, Mr. Floyd can be expected to remind them anew with spectacular stunts such as BFR's annual World Series baseball parties for New York and Chicago agency buyers.

Mr. Floyd married the former Donna B. Broach in 1936. They have a son, Joe Jr., a student at Denver U., and two grandchildren. The family has a cabin on Lake Okoboji in Iowa, where Mr. Floyd achieves relaxation almost as easily as he tackles a hard sell or merchandising idea.

At the lake Joe Floyd presides over a barbecue pit, pilots his cruiser or just basks on his back in the lazy blue resort waters. His friends say the ever-present cigar can still be seen, tightly clenched between his teeth, exemplifying his supreme confidence that he "can sell the blazes out of any product."
EDITORIALS

A truer view

THE Advertising Council has published a little book with a big title that is worth anybody's reading time.

The book is called "True Stories About Advertising Agencies and Their Talented Men and Women, or Another Two Years of Lighting The Torches for America and Putting Out Her Fires." It describes in a few words, but all of them meaningful, the 19 nationwide campaigns that volunteer agencies have conducted under the auspices of The Advertising Council in the past two years. The campaigns range from forest fire prevention to getting out the vote.

We hope the book is given wide circulation, particularly among the politicians and others who later have been belaboring advertising as the domain of the unprincipled, the money-hungry and the cynical. If the critics read it, they will at least be somewhat moved. For the stories in the book show the good that advertising and advertising people are doing—at no reward save the satisfaction of being identified with useful causes.

At the end of the book is a short passage that describes "The Man from Madison Avenue." Here is what it says:

"Nearly every big national public drive conducted in America since the start of World War II has had, working busily behind the scenes, good people from a volunteer advertising agency. The statistics of this unsung labor of love are pretty staggering, and do violence to the stereotype of the slick advertising man circulated by columnists and circulation-minded authors.

"The man from Madison Avenue may have his faults. But he turns out to be an astonishingly decent fellow and a better citizen of his country than most of the brickbat-throwers.

"And every day, in some city or town in America, it happens—the man who is expert in communications is asked by friends and strangers to push another good community cause toward its goal. Far from Madison Avenue and Michigan Boulevard, talented advertising agency folks join up regularly, to aid local public service projects with their special skills.

"So we recommend the true stories—these few examples—told herein to authors, columnists and all who look down their noses at advertising. The heroes of these stories are, indeed, men and women 'who in the words of Alexander Pope] do good by stealth, and blush to find fame.'"

Half a loaf

THE Pastore-Harris amendments are headed for enactment at this bob-tailed session of Congress. They will be a compromise in which neither broadcaster nor regulator gets all he wants.

There will be no suspensions up to 10 days for violations of the FCC's interminable regulations—as the FCC and House Committee Chairman Oren Harris fervently hoped. That was made clear by Senate Commerce Subcommittee Chairman Pastore in the opening moments of last week's hearings. Here, concerted opposition of broadcasters paid off.

But the outlook is bleak as to fines. They won't be the $1,000 per day per infraction as the House and the FCC urged. There will be "refinements" limiting liability and probably spelling out a schedule of forfeitures depending on the magnitude of the violation.

There seems to be the notion that the government has to hit broadcasters in the pocket-book. This, even though Sen. Pastore painstakingly observed that "99.44% of the country's broadcasters" are dedicated people and that a tiny minority has caused the calamitous troubles of recent months.

The FCC has never used its cease and desist or its revoca-

tion authority as Congress intended. By giving it the middle-ground to fine, Congress will make of the FCC a police court as well as a traffic court.

The good may overshadow the bad in the Pastore-Harris amendments, now that the suspension provision is to be booted out. Certainly the outlawing of quiz-rigging and payola is a plus. Clarification of sponsor-identification to end the temporary-license chaos precipitated by the FCC's literal application of Section 317 is essential. The pre-grant procedures and the provision to root out payoffs and strike applications are necessary.

For some time broadcasters have known that it's tougher to do business with Uncle Sam. Arrogance of program controls as enunciated in the FCC's policy last month, plus its new Complaint and Compliance Division with its Gestapo implications made this evident. The fine authority now in the legislative sights will give the FCC an additional powerful bludgeon. We can only hope that it brandishes it wisely and sparingly.

Reps and single rate

BUYERS and sellers of broadcast time have been grumbling about "local" and "national" rates ever since—it sometimes seems—the invention of the local distributor. Pleas for a single rate embracing both local and national business have been made loud and often, in many cases have been heeded and in many others rejected or simply disregarded. Last week the plea was made again, this time by a voice that, while it may not be universally heeded, can hardly be ignored.

The members of the Station Representatives Assn., including some of the leading reps in the business, abandoned their traditional hands-off policy in this controversy and voted unanimously to recommend that all stations adopt a one-rate system for all spot broadcasting. Their argument, briefly, is that "local" and "national" or "retail" and "general" cannot be defined in a way that will not discriminate against some advertiser.

This argument is not new, and there are broadcasters who disagree with it. We do not presume to tell stations what policy they should adopt, any more than SRA presumes to tell them whether the one rate it recommends should be higher or lower than what they are charging now. We do say that the problem will not go away by itself. Stations would be smart to use the SRA recommendations as a cue to give the whole question careful study. Whatever the decision, it should not be made by default.

"It's for the sleepy heads on the late, late show. We fire it before every commercial."
... and this is Albuquerque, the FASTEST GROWING CITY in the NATION!

Today, no timebuyer can afford to ignore the billion-dollar Albuquerque market anymore than he would ignore the other cities listed above.

Young, active-buying families moving to the nation's leading "growth area" have given Albuquerque these impressive national rankings:

65th in Total Retail Sales
64th in Population
69th in Total Net Effective Buying Income

Two years ago, Albuquerque was the nation's 90th market in Total Retail Sales ... today it is 65th!

Two years ago, KOB Radio was the leader in "homes reached" in Albuquerque. Today it still is! Your first buy—your best buy—in this important market is KOB Radio.

So: Adam Young Inc. has increased billings by 217% in four years.

Young Presentation only begins with "where" and "when" of radio spot sales. The "how" is equally—if not more—important. The point is illustrated by our newest concept, the "Featurette," which combines a spot with a miniature program of two minutes or less.

"Featurette" typifies Adam Young Inc.'s creative approach to selling and to representation. If you are an advertiser interested in applying "Featurette" to your marketing problem... or if you are a radio station interested in this brand of creative representation, write, wire or phone:

ADAM YOUNG INC.
where creativity is the catalyst for growth
