THE PUBLIC'S CHOICE

Best Selling LP's

The most popular long-play records with the public are those which the public itself buys most consistently over an extended period of time. Unlike the single record field, where hits zoom up and down like skyscrapers, the mark of a champion among LP's is its staying power.

The list that follows provides a true guide to the public's champions, and as such offers unlimited programming possibilities. Here are the LP's which, of the thousands on the market during the past year, were the ones the public endorsed most heartily by actual purchases. They are listed in rank order of sales made by retail stores in the full year between July, 1958, thru June, 1959.

Sales statistics were derived from The Billboard's continuing study of Record Sales from Retail Record Stores. These are based on cash-register diaries listing all sales, as maintained by a rotating panel of retail stores. The survey is made in accordance with scientific survey and sampling procedures as set forth and supervised by the New York University School of Retailing.

Fall LP Preview

Today's hottest artists have been busily recording new LP's to be released in the weeks ahead, on time to capitalize both on their popularity and on the pre-Christmas splurge. For your programming convenience, we have sought to learn what you can expect to be available in the way of new album releases before Christmas from the top talent whose biographical data appears elsewhere in this issue.

Wherever possible, we have included descriptive data about each LP. In effect, this feature is a guide to what may well become tomorrow's best selling LP's—in advance of their release. As such, it is an important checklist to use in planning future programming.

Today's Top Talent
—Who's Who and What's Hot on Wax

Juke Box Operators, in view of the increasing number of stereo juke boxes, will be especially interested in listings of available stereo singles and EP's in the record data column. Also, operators may profit handsomely when an artist is particularly hot by programming, not only his current big record, but also the same artist's earlier hit or standards. This info, too, is in the record data column.

Disk Jockeys will find that the information in this complete easy-to-use directory can be integrated with nearly every spin. The wealth of chatter in the brief biographical summaries is presented here alphabetically by artist for easy reference. And many fine programming ideas can be developed from the record info data.

HOW TO USE THIS FEATURE

Buyers and Bookers of Talent will need no diagrams to tell them how valuable this compilation is, or how to use it. They have continuously requested biographical data as well as for the personal managers and booking offices or leading talent. This feature should answer these requests.
A practical programming guide for deejays and juke box operators, built around the hottest talent on records today: everyone whose recordings appeared on The Billboard's record charts from May thru July, 1959.

SOLID NEW SMASH!!

BOBBY DAY

"UNCHAINED MELODY"

"3 YOUNG REBS FROM GEORGIA"

#257
The pick of the new releases:

SPOTLIGHT WINNERS
OF THE WEEK
Strongest sales potential of all records reviewed this week.

BOBBY DAY
THREE YOUNG REBS FROM GEORGIA (Kane, ASCAP)
— UNCHAINED MELODY (Frack, ASCAP)
"Young Rebs" is a topical tune about three modern
rebels who are more concerned with rockin' than Confed-
erate history. Day handles the tune smoothly. Frack's "Un-
chained Melody" is a good rockaballad treatment of the
tune. Both are nice.
