"The Coin Machines Merry-Go-Round"

By Bill Gersh

HERE'S WHAT CAN BE DONE ABOUT OPA REGULATION 429

This past week The Cash Box received a great deal of commendation for the article which appeared in our August 3rd issue analytically explaining OPA's new regulation on "used consumer's durable goods" known as Maximum Price Regulation 429 and thereby un-scaring the scare that was caused by the appearance of the first, hurry news item in The Billboard. The trade is in agreement on the line of reasoning presented in this article. "But", asks one noted Philadelphia coinman who visited us this past week, "What are we going to do about it?" AND THAT'S JUST WHAT EVERYBODY ELSE SEEMS TO WANT TO KNOW FROM US AT THIS TIME.

This is not as difficult as it first appears. This industry must immediately appoint a committee from among its leaders, preferably one man from each section of the country, or from each state, to first meet for a few days in New York City for general discussion, and to make plans prior to going on to Washington where OPA's executives are reported to be more than happy to welcome such a committee and discuss what should be done to clarify MFR-429 for all local OPA offices. This is better and much speedier than filing a petition. Committees from many other industries have produced the desired results. It MUST be done PRIOR TO SEPTEMBER 1st, when this new regulation goes into effect. Until that time there is almost a full month for each man from each state to volunteer to get together into a committee and cure this matter right where it started from - OPA's Washington headquarters.

The reasoning on this MFR-429 as contained in this past issue of The Cash Box, leaders believe, will stand up before any group of men, especially those who originated and composed this new regulation at OPA's offices in Washington. It is understood that prior to placing price ceiling regulations upon an industry, a group from that industry is usually called in by OPA to help with the creation of such regulations. We don't know of anyone in this industry called in by OPA to help with this new regulation. (If you happen to know of anyone from this industry who was called in by OPA to help with the formation of this regulation MFR-429, we should like to know who it was.)

The time to act is NOW. INSTANTLY. We hope, in answer to this item, to receive telegrams from the leaders of this industry from every state advising us that they will meet with us in New York City in a "Wartime Conference" to help get together with OPA as a representative group from this industry and point out the flaws and the injury which this new regulation would work upon this business. SUCH ACTION MUST COME IMMEDIATELY. The group must meet in Washington with OPA prior to September 1st and once and for all settle the problems brought on if such a regulation is ever placed in effect.

If the leaders in this industry do not get together, if they do not now form a committee to meet with OPA in Washington, this new regulation will become law on and after September 1st, 1943, and subject to the many and varied interpretations of local OPA offices, and there is no doubt that it is going to work severe hardship upon a great many now actively engaged in this industry.

WE INVITE THE FORMATION OF SUCH A COMMITTEE AT A "WARTIME CONFERENCE" TO BE HELD IN NEW YORK CITY. THE EXACT DATE OF THE MEET WILL BE ANNOUNCED IN OUR NEXT ISSUE. WE HOPE TO RECEIVE THE NECESSARY NUMBER OF TELEGRAMS IN RESPONSE TO THIS ARTICLE TO BELIEVE THAT THERE ARE ENOUGH MEN INTERESTED IN THE FUTURE OF THIS INDUSTRY TO COME TO THE FRONT NOW WHEN THEY ARE SO GRIEVOUSLY NEEDED AND THEIR BUSINESSES ENDANGERED.
"The Coin Machines Merry-Go-Round"

WAR BONDS

Some weeks ago The Cash Box proposed that each and every coin machines man throughout the nation arrange for a sign to be placed on top of every coin operated machine on location reading, "BUY WAR BONDS". Such a tremendous multitude of signs appearing nationally would instantly win acclaim and respect for this entire industry. The cost is extremely reasonable. The average sign painter in any town can make up these signs in patriotic red, white and blue colors to fit the top of the backboard, the sides of a cigarette merchandiser or the top of any scale or any other machine.

If each pinball, each phono, all arcade equipment, each cigarette and candy merchandiser, every indoor scale, and the many other machines which comprise this industry featured such signs, "BUY WAR BONDS", the effect would be of tremendous cumulative value. There are also many slogans which could be adopted to elaborate on these signs where the space is available, "FOR A FASTER FINISH - BUY WAR BONDS", "TO BLACK OUT THE AXIS - BUY WAR BONDS". And dozens of others which the ingenuity of the men comprising this industry can be depended upon to originate.

The effect would be startling. In every location, throughout the nation, would suddenly appear those signs atop machines proclaiming the necessity for purchasing the very thing that is helping to finish this war so much faster. It wasn't only gain the respected attention of local communities (and probably much favorable press comment) but the news would speedily spread to the Treasury Department and would once again win for this industry, because it would be done of its own volition by the members of this industry, the acclaim and prestige which this industry deserves.

Remember, too, that the purchase of War Bonds is the one best way in which to accumulate the necessary reserve for the post-war era. We should, of course, like to see on every War Bond application that is made out by a coin machines man the wording, "Purchased under the auspices of the National Coin Machines Board of Trade". This would, without any doubt, win Washington's commendation for this (as yet) ethereal and much needed organization. It would help bring to the attention of the Treasury Department the fact that this industry is doing its full share to help win this war.

GETTING READY

The greater activity which is apparent throughout the industry is the result of the optimism which is gradually becoming noticeable as the war progresses with more solid intent. The men in this industry are eager and even anxious to get back to normal business action. This is as true of the smallest operator as it is of the largest manufacturers who are clamoring at the bit in their eagerness to present the plans and the products which they have blue-printed and mentally developed during this war period.

A great many problems are going to arise during the post-war era. These will range all the way from proper financing to complete change in methods of operation, as well as to a new and closer type of cooperation among all the members of this industry. The Cash Box proposal for a National Coin Machines Board of Trade, which is gradually gaining the support and favor of all the leaders in this industry, is now considered one of the most plausible and logical necessities. Closer cooperation will prove of even greater need when this war is won than it ever did before in the history of this industry.

Already certain distributors are saying that they will not want to represent manufacturers on the former basis which they worked. They want something that will place them in a more solid and staple position. They demand something which will give them complete distribution control in their territories and will allow them to profitably devote themselves entirely to the factories they represent. Such representation is logical. The most distributors are not exactly looking for a factory branch office they do ask that they be recognized in the true meaning of the word, "distributor". This may mean an entirely new post-war merchandising set-up.

The operator, too, wants better consideration than he formerly received. He wants the factories to work more closely with him thru their distribution set-ups so that when he contracts for equipment he will be more assured of success. Many operators are therefore working with all their might to insure their present locations remaining their locations, regardless of the hardship this entails at the present time, so that they will be set to greet the manufacturer in the proper fashion when he is again ready to deliver new equipment.

A vast army of other problems also confronts this industry. But, each and every day progress is being made. Each week it becomes more noticeable to all those present holding the fort of this industry that the trade is straining toward a finer business understanding and a closer relationship. They want most desperately to be properly geared for the post-war era. They need the complete support and all the guidance which the ingenuity and the intelligence of the leaders in this industry can give them.

It is a belief of The Cash Box that those men, who are striving so desperately hard to go ahead at this time will, because of their ingenuity and intelligence (which they proved to all industry during this war period) lead the way to a finer and more prosperous industry. Those men who continued on ahead during the war period have won great respect. They have proven that they could weather the storm of total war, could overcome the lack of mechanical help, the slowness of shipments, the varying type of machines shipped them in many instances, the lack of parts and supplies and other necessities.
"The Coin Machines Merry-Go-Round"

Yet, with all this they actually earned more, and have ever been capable of continuing to elevate the standard of this industry's business ethics. These men, therefore, deserve all the support and cooperation which can be tendered to them. And at this time, as everyone gets on the mark and sets to start the big post-war move, it is the hope of The Cash Box that these men, who held the fort, will be given every consideration first.

BIG CITIES TO LEAD POST-WAR ERA

A report just made by J. Walter Thompson Company is extremely interesting to all common. According to Arno H. Johnson of this firm, civilian population of metropolitan areas has increased over 2,500,000 since the 1940 census, despite the heavy drain on the civilian forces. On the other hand, this migration of people to the big cities, plus demand of the armed services, has lowered the civilian population of the areas outside of the metropolitan markets, the smaller cities, rural and farm districts by more than 5,500,000.

This study was based on Registrations for Nation Book 2 as of March 1, compared with the Federal Census of Population on April 1, 1940. During this period the indicated population changes included: a 4,200,000 gain in total U.S. population; a 2,800,000 decrease in civilian population; a 2,500,000 increase in 138 metropolitan markets of more than 50,000; and a 5,600,000 decrease in the rest of the country. The report also expressed the opinion that the major parts of these shifts in population are likely to become permanent and that the metropolitan areas as a group will represent a greater share of the national market after the war.

According to this report, it therefore seems that the greatest number of machines (which closely follow population centers) will be located in the larger metropolitan districts with even more play than over before to draw upon. This may bring about a trend to greater operator influx to these metropolitan markets as well as create a new type of quota distribution set-up for the distributors.

ANOTHER JOB FOR TODAY

The report on the shift of U.S. population, preceding this item, brings into sharp relief the fact that this industry must act today to cure one of its most ironically sad situations. The large cities, because of the fact they have gained so much in population, should be re-opened to the amusement games of this industry so that this division can profit from this greatly increased population today and especially during the coming, prosperous post-war era.

This population shift has mainly been to the six big war states. These are:
First, California with over $12 Billions in war contracts; second, New York with over $11 Billions in war work contracts; third, Michigan, with also over $11 Billions of war contracts; fourth, Ohio, with over $9 Billions; fifth, Pennsylvania with over $8 Billions and sixth, Illinois with over $6 Billions in war contracts.

California is operating and in very good shape. So is Pennsylvania. But, in New York State, New York City, the largest city in the nation, is down. In Michigan, Detroit is closed except for certain types of arcade machines. The largest city in Ohio, Cleveland, is closed tight. And in Illinois, the center of the coin machines manufacturing industry, Chicago, is closed to all apparent understanding.

This is a job for today. A job which has possibilities for success while greater liberality and keen search for revenue is being demonstrated by authorities. These are the cities where amusement games manufacturers can enjoy great profits when they are ready to return to coin machines production. It is therefore good business to now open the cities where the largest possible volume of machines will be sold.

To allow such territory to get away now, while the possibility of re-opening is better than it has been for a long time, means a great loss of volume production as well as a loss of much revenue for all this industry. It especially means loss of prestige and respect, for officials in other cities always point to these largest metropolitans as doing without the amusement games of this industry.

Eventually all this industry will have to get together in the matter of closer cooperation to insure its continuation as a part of the amusement world. Now is the time to start the ball rolling by attempting thru every possible means to open these outstanding metropolitan centers to the operation of certain amusement equipment so that this important and highly profitable territory will be there awaiting the arrival of the new equipment that will be produced after the war.

PAT-OFF-THE-BACK DEPT.

From C. J. Fendrick of Denver, Colo., "Thank you for the splendid work that you are doing in your magazine for the benefit of the trade, and wish you the best of luck and success in your enterprise. You certainly are covering the front from A to Z. I can say frankly, of all the coin magazines I have read and subscribed to, you certainly are doing your utmost to keep the distributors and operators fully informed on every thing. For your information, I have been in the merchandising and vending machine business, as well as being a distributor, for over 40 years and I am satisfied that if you can get the Board of Trade worked out along the lines you propose, it will be one of the best things to ever happen for distributors and operators."
Odd Coins

Bally IS DOING A JOB
FOR THE ARMY AND NAVY IN '43

Ballyhoo to bullets! Those three words tell the story of Bally—and all American industry. Bally—and all American industry—was organized to serve the decent, healthy desires of peaceful America. But Bally—and all American industry—is now a fighting force in the vast battalions of democracy. Members of the coin-machine fraternity who recall the simple days of Ballyhoo may be proud of Bally's big job in the battle of production. Building vital war products for the Navy and the Army Air Forces. Bally is helping to speed the day of victory and peace.

ASK FOR Bally's POST-WAR FLASH NO. 1

Bally engineers are busy building battle equipment today. But they are also sailing away plenty of ideas for post-war coin-machines... games that will bring back the boom days of Ballyhoo and Bumper... vending machines that will open vast new opportunities to coin-machine operators.

Operators and distributors who want early information on Bally's post-war equipment are urged to place their name on a special mailing list now being compiled for Bally's Post-War Flash No. 1. Address Post-War Planning Department, Bally Factory—now!
S COOP

**IMPORTANT**

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

**CODE**

CHECK THIS CODE CAREFULLY. BECOME ACQUainted WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. Means price went up.  
3. Means this machine just added to list.  
4. Means prices went up and down same week.  
5. Means prices remained same as in past week's issue.  
6. Means no prices quoted for this machine this week.  
7. Means no prices quoted for this machine for past two weeks.  
8. Means no prices quoted for this machine for past three weeks.  
9. Means no prices quoted for this machine for past four weeks or longer.
