Be it battle-weary boys on the fighting fronts or their folks who wait at home, tensions lift and spirits rise whenever someone calls, "Let's have a tune!" Not even the cacophony of war can dull the magic power of Wurlitzer Automatic Phonograph music. It's a name now devoted to making instruments of war whose "music" will in no way be tuneful to Axis ears.

SPRING COIN MACHINES INDUSTRY

1944 Presents a GRAND SPRING SEASON
THIRD WARTIME CONFERENCE?

Ever since the Second Wartime Conference, which was convened at the Hotel Morrison in Chicago last November, many have written regarding advance planning for a Third Wartime Conference to be held sometime in '44. This is, naturally, extremely interesting to all in this industry. These men believe it will prove to be a most necessary and outstanding conference for, as they explain, a great many problems have not yet been solved nor even clarified.

The eventual solution of OPA's dual regulations for this industry, it is generally hoped, will come to a head soon. Some new regulation, or some new arrangement for both regulations now in force should result from the meetings of the advisory committee of coin machines men with OPA's officials. The taxation problem is growing in importance daily. There are a tremendous number of post-war problems. And a great many other inter-industry problems which, as these men explain, can probably be best solved at such a conference.

The Second Wartime Conference, they claim, led the way to a new sort of meeting and thereby opened the eyes of a great many in this industry. These men realize that The Cash Box underwent much hard work and great expense to bring about this Second Wartime Conference. Therefore they present a plan which they believe will take most of the effort from the shoulders of this publication. They propose the following.

That committees of five men from each territory in the nation be created to bring as complete representation as possible from their territories to a Third Wartime Conference. That a small admission fee be charged so that this money can be used to offset the necessary expenses. That these territorial committees come together in a meeting prior to this conference.

They further suggest a plan to divide the nation into the following territories. The New England states. The North-East, composed of New York, New Jersey, etc. The Central-East, Pennsylvania, Delaware, Maryland, etc. The South-East, North and South Carolina, Georgia, Florida, etc. The Midwest, Illinois, Ohio, Michigan, etc. The Central-South, Kentucky, Tennessee, etc. The South, Alabama, Louisiana, etc. The Southwest, Texas, Arkansas, etc. The Mountain states, Colorado, Nevada, etc. The Northwest, Oregon and Washington. The Central Pacific Coast which would contain the upper part of California with headquarters in San Francisco, and the Southern Pacific coast taking in the lower portion of California with headquarters in Los Angeles.

The consensus is that the trade will know sometime later this summer whether such a conference will be necessary. There is now much doubt that the war will finish this year. There is also the belief that a great many more problems will arise for this industry because of this. There was also the fear, at the time, that if the National Service Act would have gone into effect that many of the men now in this industry would be forced out of it and that therefore many of the territories where coin equipment is now in operation would be forced to close down due to the fact that the men themselves and their helpers would have had to enter into agriculture or war work. While the National Service Act now seems shelved in committee it can still pop up should any serious reverses come about in the present war theatres.

Just what the future holds for this industry would be one of the most prominent questions raised at such a meet. There is also a suggestion that outstanding officials of OPA and WPB be present to speak at this conference. There should also be present, these men believe, noted economics experts to lecture on the coming post-war era. Some have recommended other speakers, ranging from government agencies to university professors, each with his own idea as to what the trade would like.

It would also be interesting, some of these men say, to bring back the Army and Navy officers who addressed the Second Wartime Conference and hear their reaction to the work which this industry has achieved in donating equipment, after a full year has gone by. There is also a belief that a great many present would again like to hear some noted news commentators. Others believe that since '44 is a presidential election year that leading national politicians can be prevailed upon to prophesy for the future of business generally. To say the least these are ambitious plans. These men seem rather anxious to hold this Third Wartime Conference. They all are agreed
that the Second Wartime Coin Machines Conference proved profitable to all who attended; and in more ways than one.

The Cash Box, as always, likes to answer all its subscribers. Therefore this Spring Special was chosen to answer all those men who had written in about this need for a Third Wartime Conference. It is at present the belief of The Cash Box that a Third Wartime Conference should not be held. This belief is based on the fact that transportation and hotel accommodations are becoming much more difficult to obtain.

If this situation changes sufficiently for the better this coming fall, and such announcement is made by ODTC officials, then a Third Wartime Conference can be further discussed. Also the present manpower shortage is making itself felt more and more acutely each day. This makes it almost impossible for a great many who would like to be present from attending such a meet. The Cash Box suggests that those men who are so enthusiastically eager to arrange for a Third Wartime Conference contain themselves until sometime this coming fall when, if conditions permit, this can be further discussed.

SPRING '44

The general belief is that this Spring season will prove one of the best in the history of this business. This belief is based on the fact that people have more money than ever before to spend, and having gone thru a nerve wracking, harrowing winter, that at the first signs of warm weather they are going to react with greater fervor than ever to all sorts of entertainment.

It is also generally believed that more people will be seeking means for relaxation this Spring. This is based on the fact that the average man and woman has become imbued with the idea that the war is going to be soon won, and are now willing to loosen up somewhat from the mental strain under which they have labored.

The average arcade owner is cleaning up his place and repainting it in brighter colors than ever before. Even the machines being revamped are featuring gayer and more colorful combinations. The belief is that gay colors will run riot, not only in clothes, but throughout all entertainment. The public seek gay colors after a drab winter. This was very noticeable this past winter season in Miami as well as in the western winter resorts. The effect of these gaily colored arcades will mean so much more patronage.

Slot men, too, look to this Spring season with enthusiasm. They feel that the resort spots are going to prove profitable. Many have contacted owners of such spots and are already making arrangements for installations. The average slot man is of the belief that this Spring and Summer will be his best seasons in many years, regardless of how good past seasons have been to him.

Music machines men are also planning for a great Spring season. They feel that the play which they have been getting, and which is greater than ever before in their history will be but average when compared to the terrific action they predict for their equipment in resort spots this Spring and Summer. They say that people will seek out music. They also believe that with less orchestras to handle the resort crowds that the phonos are going to get extremely heavy action. They do not believe there will be a resort spot, regardless of how small, that will be without an automatic phonograph this coming Spring and Summer season.

Amusement games men also look forward eagerly to this Spring and Summer. Pin game play has been picking up right along. These games will once again get their full share of the expected spending spree. They also point to such items as guns claiming more attention from the players than ever before. Automatic bowling alley games are expected to get a really big share of the play this season. Consoles will be placed wherever possible. These latter are being depended upon for the best season in their history.

In fact, every division of the trade is eagerly looking forward to this Spring and Summer season of 1944.

CLEAN-UP TIME

Spring is always clean up time. Therefore this is the time to clean up the nefarious practices which seem to be the methods of a few firms engaged in this industry. This is the time. The post-war era is rapidly approaching. The men engaged in this industry realize that they must now prepare themselves for the entrance of new blood.

Leaders estimate that more than 9% of this industry within 24 months after the war is over will be composed of new blood. These new members of this industry will want to look upon this business as something that is sure and safe and solid and on which they can base their investment for many years to come.

There is no doubt that the equipment which will be introduced after this war is over will run into more money than was ever formerly paid. This fact alone means that new blood, which will be attracted to this business from an investment stand-
"The Coin Machines Merry-Go-Round"

point, will of necessity have to be substantial business men. Such men will not enter into an industry where they find bad business practises. Any such actions will surely discourage investments of any sizeable sum.

To this end the men who are now engaged in this industry must dedicate themselves - the removal, like cancer, from this trade of all bad business practise. As well as the ousting of such firms that endanger its future growth and development. To be most certain of continued, good, constructive growth, the leaders of this trade should at this time bring about a complete clean-up in this business, individually, and as well as in a group, and thereby prepare the ground for the coming new blood growth of this business.

MUSIC AIDS PRODUCTION

It is interesting at this time, as a follow-up to the article which appeared here a few weeks ago regarding the post-war factory possibilities for automatic music, to look over this report of a survey made by WPB in 76 war plants, employing 97,000 workers, on the question, "Does music increase production in your plant?"

Over 57% of these plants answered "yes". 30% were "uncertain". 1% answered "no". And 12% refused to give an opinion.

The above figures are remarkable. They give some idea why many operators have been able to sell complete remote installations to war plants. To the average installation made by coinmen in war plants was of old mechanisms in steel cabinets with continuous play feature controlled in most cases, by the office of the personnel manager of the plant.

Eventually many such systems are going to give trouble. They are very worn and should not be expected to stand up over a long period of time. In addition, the play they are getting in the average factory subjects them to greater mechanical abuse than ever. On regular locations these mechanisms would last longer, because the play is not so continuous.

The factory field as locations for automatic music is open to the inventive genius of the music machines division of this industry. There is no doubt that many operators will find a way to work with such factories. The lesson of music as an aid to general production is well sold to these people. This should now be made a profitable part of general music machines operation by manufacture of the proper equipment.

70%-30% COMMISSION BASIS IMPERATIVE

A sudden swing to the 70%-30% commission basis, for a great many months urged upon this industry by The Cash Box, is now apparent in many territories. Letters arriving at the offices of The Cash Box advise that more and still more men now realize the need for this commission basis to protect themselves for the post-war era.

One of the factors that proved most stimulating for the 70%-30% basis with locations (instead of the old 50%-50% basis) was the March 15 income tax payments. This Federal tax was what many firms regarded as a tax on the men engaged in this industry. As they now realize that more and more of their earnings are going into tax payments. And this Federal tax is of course in addition to the local taxes that are steadily creeping down upon this industry everywhere in the country.

The one and only protection the coinmen have at this time is to as rapidly as possible arrange for the 70%-30% commission basis with their locations. This extra 20% commission means the difference between profit and loss on most locations today. To most coinmen it means covering the overhead cost to service locations these days. And with prices of parts and supplies, and the general cost of living what it is, coinmen now need this additional 20% commission. To the average coinman it means anywhere from $2.00 to $5.00 extra income per location per week.

To a man with even 50 locations this may mean about $150.00 more gross per week. This money, if saved, can act as the necessary financial reserve for the post-war era. It can also help in the case of increased general taxation. At the same time it means assurance, when the war is over, and things start humming once again, with new machines coming in at higher prices than ever before, that coinmen who will adopt the 70%-30% commission basis will be better protected and surely better able to meet whatever notes they will take on because they will be paying the location only 30% instead of the 50% still being paid by a great many.

The Post-War Market

In a survey just completed by The Cash Box, the following facts came to light. These are extremely revealing. Especially in view of the fact that they are based on the coming post-war market, to which everyone looks with such great eagerness. This survey is based on reports received from a cross section of the men comprising this industry throughout the country.

MUSIC

Greatest post-war growth, according to all reports received, is expected in the field of music equipment. The leadership which has been so well established by this division of the industry during and even prior to this war period, will continue in every respect. With the end of the war, there is a terrific demand for new music equipment. The average music man has consoled himself in the belief that even if only the last known models appear right after production starts again, that sales will be many times greater than expected.

He eagerly looks forward to revolutionary developments in music equipment. He believes that each of the known music equipment manufacturers is completely prepared to present amazing innovations in new music equipment. The profit potential is so great that the demand will be six or seven or even more new music equipment manufacturers. Some of the older music equipment manufacturers will also enter a very noticeable demand for new telephone music. Many believe that the manufacturers will bring out something totally new in this regard. They believe that the demand for automatic music will be even higher than expected.

Most of the music men are interested in complete, new phonographs. Some believe that the demand will be very high for the new phonographs. The reason for this is also a belief that many changes will occur in distributor and jobber arrangements for the post-war era.

AMUSEMENT

According to the column questioned in this survey, the next in line for greatest demand and growth in the post-war market, would be the amusement division. The ammunition manufacturers, who are at present doing revamp work report that they are willing to toss this task over to the manufacturers. There is a demand already for new Ferd and second-hand amusement machines. Most of the manufacturers believe that the manufacturer will want advantage of this war period inflation to sell more machines to high prices for his equipment. He believes that a great many new manufacturers will enter into the amusement games division. He claims that the average manufacturer and many to eager to see new types of machines, but is willing, right after the war, when production again gets started, to buy the last known better machines that were manufactured in the latter stages of the war, and mature additional equipment in large advance orders for these.

It seems that the average amusement machine manufacturer is also looking to the manufacturers in this division to bring him many new and simplified types of machines at an attractive price. He also believes that a unit price reduction would mean a great increase in the number of machines.

The machine that is expected to have the greatest operating success after the war, he expects to create much new blood for their field.

MERCHANDISERS

Next in line of popularity is the demand for various types of automatic merchandisers. The cigarette machine leads in this division in sales of new machines. The machine that is being offered in this field for varied types of multiple, fully selective vendors as well as automatic vending machines. Many manufacturers believe that the amusement division of the industry is in for tremendous popularity. They believe that the demand will be extremely great right after the war. They are willing to see new types of machines, but is willing, right after the war, when production again gets started, to buy the last known better machines that were manufactured in the latter stages of the war, and mature additional equipment in large advance orders for these.

ARCades

The arcade men look forward to a loss right after the war of many of the same manufacturers who are in this field. Most of these manufacturers have a very prominent location, and the arcade man is located, and the arcade man is looking for a return to partial domestic production when the war in Europe finishes.

COUNTERS

There isn't as much enthusiasm apparent for the small counter games as there was during the pre-war era. This is mainly attributable to the high Federal license fee of $750. There is no doubt tho, that purchases would prove very good in this field if this tax could be reduced or eliminated entirely. The men still believe that the counter, where the cash register is located, and especially on the bar of the average tavern is still the finest location for these types of games.

All believe that the average location owner likes counter games. The claim is that these have always been able to bring in many extra pennies, in addition to their other usual amusement equipment in the location. Many claim that the reason for heavy counter games, to be the old story of the extra pennies in the pockets of the public because of Federal tax and sales taxes which are almost national today. These extra pennies, the men claim, are bound to continue in circulation and that the manufacturers of counter games, manufacturers, believe, should get together to greatly reduce this Federal tax, so that counter games will be manufactured as soon as production is again allowed.

PRODUCTION

It is also well to report here that the average man in this survey believes that coin machines will be among the very last products allowed to be manufactured. As is well known and openly reported in the press, WPB officials have been first calling in the manufacturers owners of amusement machines and asking for possible reconversion to partial domestic production. WPB hasn't as yet even called in the automobile manufacturers. If this Federal agency continues on this basis, these column believe that coin operated machines manufacturers will be far down the very bottom of the list that will be called in by WPB to allow for a return to partial domestic production when the war in Europe finishes.

MISCELLANY

The average coinman is looking forward eagerly to seeing revolutionary new types of machines introduced. Many are planning to enter into the distributing field. Others are working hard to solidify their present setup. Many hope that the manufacturers will grant them first deliveries of the new products because of the leadership which they have established during the war period. Present manufacturers, are naturally the choice for the lines of those manufacturers they formerly represented. Many have concentrating entirely on operating want the manufacturers to give them a chance at distribution, ships, for they feel that the large number of locations they already have available will help put any good product over the top in their territories.
"Talking Out Loud"

- Beginning with this Spring Special (1944) issue, The Cash Box introduces a brand new page for its subscribers. It will contain news, general items of interest, excerpts from letters, or whatever you desire to contribute to this (your) page. If you've got something on your chest you want to talk about, or are seeking someone or something, this is your opportunity to tell the rest of the trade all about it. (Bill Gersh)

ARTICLES

"Why don't you invite someone to write some articles for you? We all know pretty well what a fine fellow like you thinks. Why not, for a change, or invite some folks of different thought to contribute one or two pages for each issue?"

E. D. Bronaugh, Dallas, Tex.

(Dear Ed: We believe this suggestion, like others you have sent us, is extremely sound. We're hoping to hear from cartoonists, on appearance of this item, take about a few extra minutes to spare, to spend those minutes to write for the benefit of all this industry. It'll be happy to print all good and constructive articles.)

PEEPS

"As the originators and largest distributors in the industry of motion picture film produced exclusively for exhibition in coin-controlled motion picture machines, we want to go on record as being heartily in accord with the theme of your editorial and "Cointoon" directed at certain coin machine men who are attempting to introduce and promote certain pictures for use in the so-called "peep" machine. Like you, we feel that there is a great future for the coin machine men to operate machines of this type provided that the pictures exhibited in the machines are in good taste and not found to be objectionable by the various censorship authorities.

"We believe that the word 'peep' when applied to the machine in itself invites investigation and criticism by censorship authorities, and have therefore for our own use adopted the name "peeko" and feel that others in the industry should avoid referring to these machines as "peep shows", and adopt a more dignified name.

"We would like to have 500 copies of your "Cointoon" for distribution to our customers, as we feel that it is a timely warning, which if circulated may help to avoid future difficulties."

R. P. McNamara,

Snouders Distributing Corp.,
Chicago, Ill.

MORE ON PEEPS

"At this time, Bill, I want to commend you on the remarks in the last issue of The Cash Box pertaining to use of certain types of film in Peep machines — think that your thoughts are very timely and pertinent to the situation.

Warren H. Taylor,

Mills Sales Co., Ltd.,
Oakland, Calif.

(The above are but two of dozens of letters, cards and phone calls received since publication of our editorial and "Cointoon" on the use of questionable films in the Panorama conversion.)

70% - 30%

"Some interest is evident here among a few of the local operators in connection with the policy you have been advocating of reducing commissions paid to locations on phonographs.

"I am fully convinced that we can reduce the commission 10% to the location but some difficulty is being encountered at the beginning of the attempt in convincing those few with whom I have talked that it is a workable proposition. They cannot seem to overcome the fear that some operators will not agree to cooperate and they fear that some operators will agree at the outset and then fail to live up to the agreement.

"In order to avoid these few of us who are interested now it will be appreciated if you will give us all the information you have available that will be of use to us. We would like to know in some detail how this matter has been handled in other territories and how the various difficulties which were encountered were overcome.

"The entire coin machines industry should and must be, forever in your debt for the guiding influence you have been exerting in these trying and difficult times. It is not the time comes when this industry can function as an integrated unit the problems which have heretofore confronted us from so many different standpoints will assume their rightful proportions of relative insignificance."

O. J. Mulliswine, Jr.,

Mullicane Amusement Co.,
Savannah, Ga.

FRED'S BACK

"Hello Bill:

"For heaven's sake get a new picture of yourself on the first sheet of The Cash Box. You look like hell in it. I did appreciate your letter very much and many thanks for the good cheer contained therein. Been here in Sacramento just two years and have done mighty well. Have four places with no partners in them. I have been in the business all along, but in a quiet way, Bill.

"Go ahead and save me space for the big Spring Special issue. I don't know exactly what I will do in it, since we have an outstanding glass for the Air Raider, a fine changeover for the Sky Fighter and of course our Drive Mobile conversion. I believe we can fill one of your fine coast stock pages.

"As stated, Bill, I have done well. Have some mighty swell "Phydiums" as I call them. The name is registered in several states. Who could think of a better name for a recreation center? Not "peep", not "soundies", not "joeyland", etc. Those names to me are hokey. Put on a campaign to sell the arcade owners on "Phydium".

"After all my many years of experience in this business, I think The Cash Box is a perfect idea. It's the "Blue Book" of the trade and after the war is over, will be bigger and better than ever."

Fred C. McCullough, General Products Co.,
Sacramento, Calif.

(If you're sure looking for you for some sensational products now, that you're back in the manufacturing business again, Fred. Yes, sir, from now on we look forward to another "Contact" or "Life-A-Line" or "Pameco Parlay" or "Pacific Baseball" or some other game that will again change the tides.)

MOVING 'EM FAST

"I am moving quite a bit of equipment and am stark to say we can give The Cash Box credit for it. I certainly appreciate what you fellows have done in our behalf. We only advertise what we have on hand and we handle what our present space and force can do. However, we are reordering our offices and working toward doing more and more business by organizing our fixtures, etc., for it.

"We have some pin games we are not using. Would be glad to donate these to the armed forces for hospitals, recreation, in our vicinity of the state. Please have the proper officials contact me in this area."

Chas. W. Hughes,

C. H. Hughes & Co.,
Laboy, Ind.

(If you have information as to any army hospitals that require games for recreation purposes, preferably located in southern Indiana, contact Charlie Hughes.)

WE'LL BE SEEING YOU

"In forthcoming issues, as the weeks go by, we'll be happy to have you and the trade present your views on this page. There are a great many interesting items all around you. Send a few of them in — now."

THE CONFIDENTIAL PRICE LISTS
AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY
ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVE., NEW YORK 16, N.Y.

FOREWORD
Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD
The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

CODE
CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN SAME WEEK.
5. MEANS PRICES REMAINED SAME AS IN PAST WEEK’S ISSUE.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS.
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS.
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER.

IMPORTANT
Machines underlined mean these were most active in trading this past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

1000 SLOTS

Pace (preferred), Mills or Jennings. A-1 factory facilities—repair work exceeds all others. We make them new inside and out. Plenty names satisfied customers. Estimates given before work done.

"ONE CUSTOMER PAID US $700.00 MORE ON 20 MACHINES THAN HE WAS OFFERED BY OWNER OF SAME LOT. HE WANTED OUR REBUILDING SKILL AND OUR NAME TO BACK HIS PURCHASE."

Sell now at high prices — old machines worth only 10c on dollar when new models come out.

WILL PAY, DEPENDING ON TYPE AND CONDITION, $100 TO $125 FOR PACES RACES—BROWN CABINETS.

$40 TO $75 FOR PACE SLOTS AND PACE CONSOLES. GIVE MODEL, QUANTITY, SERIAL NUMBERS AND DENOMINATIONS.

No Delay—Spot Cash Same Day Machines Are Received

Our advice—sell now for cash or we will allow 25% over cash on credit memo applied on new machines when war ends and we go into production.

Big supply Races Motors, Brakes, nearly all Races Parts—also nearly all Parts for all Pace Slots. Over 400 rebuilt like new Races and Slots on our floor.

Buy service and satisfaction from Pace instead of grief and trouble from wild-catters.

Immediately after the war, Texas and the Southwest will once again resume its major importance in the coin machines picture. Manufacturers who are planning ahead can look to this territory to take a very large portion of their entire production. These manufacturers can arrange now for the type of distribution which will bring them the sales necessary to their success in this territory. RUTHERFORD ENTERPRISES have developed a most outstanding organization in the Southwest during this war period. Not only is RUTHERFORD ENTERPRISES in a position to efficiently and intelligently and financially handle distribution for outstanding manufacturers but will, because of its grand and closely knit organization, assure the continuation of a large and steady outlet. Five offices are ready to serve progressive manufacturers. Five offices that think and act as one. Five offices with the vision and daring and tireless effort of youth. Five offices that are ready to give their most complete efforts to making successful any product they will distribute. Manufacturers are invited to investigate the advantages RUTHERFORD ENTERPRISES can offer them — NOW — before the post-war business era starts.

Ten years ago the "Bally" organization amazed the amusement world with "Fleet"—the pin-game which shot balls from miniature cannons. Today the men and women of the "Bally" factory are busy building battle equipment for the fleet of the U.S. Navy. And to the fighters of the fleet, the entire "Bally" organization now pledges to "pass the ammunition" in an ever-increasing flow.
