"The Coin Machines Merry-Go-Round"  
By Bill Gersh

POST-WAR ERA A "NATURAL FOR COINMEN"  

In keeping with the meeting of the manufacturers at the dinner and entertainment in Chicago on April 26, 1944 for the members of the C.W.I. and the trade press, and like all others in this coin operated machines industry, The Cash Box has been studying the forecasts of the nation's leaders for the coming post-war era. These predictions and the figures that are being presented with them, are carefully considered only in the light of the business and the possibilities they express for the post-war expansion of this business. After complete and due consideration, and as an adjunct to the great many articles which have already appeared here, The Cash Box has come to the conclusion, and boldly takes the stand, that the coming post-war era will prove a "natural" for coin operated equipment of every type.

According to leading economists, as well as the nation's industrial leaders, there will be more people at work after the war, than in any other peace period in the history of the nation. Statisticians have learned that 85% of the women now engaged in war plants and other factories throughout the country want to remain at work. This 85% is largely composed of single women. The greater majority of the married women, many of whom have husbands in the armed forces, feel that they want to return to domestic life the moment the war is over. These women workers will only be an addition to the great amount of labor that will prove necessary, according to the industrialists, and this will also assure the nation the lowest peacetime unemployment in its history.

Naturally, with more people at work, the equipment of this industry, whether in the amusement, merchandizing or service divisions, will earn more. This is important to all coinmen. The coinmen realize they will probably have to pay more for new equipment, because of increased labor and materials. But they feel that the difference to make up for far and above this income. With people at work in unusually large numbers money will flow freely. And probably with some of the taxes to directly pay for the war cut off, or at least pared down, there is also no doubt that profits, too, will be greater.

The backlog of orders in the auto industry alone is truly amazing. As one noted auto manufacturer publicly stated, "If I could build 9,000,000 autos during our first production year after the war, I'd sell them." This same is true of the electrical appliance, home furnishings and many other fields (as reviewed sometime ago in The Cash Box) and which again means that money most definitely will flow freely. The greatest spending spends in all the history of this country. In fact, leading industrialists claim that each day the backlog of orders will be included, and that it may take all of 25 years to catch up with demand. This is a rather broad statement, but was made by one of the nation's most noted engineers. This statement literally means that this country can look forward to a quarter century of tremendous prosperity after the war. Coinmen must realize that they, too, will share in this prosperity.

A new era is also coming on all raw materials. Where formerly many metals were used, the belief is that these may be replaced with cheaper plastics which will prove just as sturdy, will show up better, and will, at the same time, make life a lot easier for service and repair men. Whether these new materials will find their way into the coin operated machines field immediately after the war is as yet very doubtful. But there is no doubt that as manufacturing gets under way for this industry, new materials will begin to make their appearance, and changes will come about which will mean much better conditions for all coinmen.

In addition to all this, and as the readers of The Cash Box already know, the increase in the number of locations which will come about will speed the way to the greatest growth of this industry. Because of developments which were under way when the war started a great many new locations of all types were already assured for this trade. Shifts in population have created new cities throughout the nation. Many population shifts are coming after the war. Trailer camps by the hundreds are expected to blossom forth for a transient public. New villages and suburbs that are going to spring up as people get away from the heart of towns and cities mean so many more lo
"The Coin Machines Merry-Go-Round"

MAY 2, 1944

The Coin Machines Merry-Go-Round

ocations. And in addition to all this it must also be remembered that new types of machines will of themselves require new types of locations. Therefore as far as locations are concerned, this industry can look forward to a grand era of great location expansion after the war.

The Cash Box has also many times discussed the export market. There is no doubt that the British and Canadian markets could clear away every single machine the manufacturers could build their first full production year. There is also no doubt that a greater number of foreign orders will be coming here for machines of all types. The American soldier and sailor have carried the thrill of coin operated amusement to the farthest corners of the world. They have actually acted in the capacity of advance publicity agents for this industry. All present known types of machines and the many new and different types expected to be presented in the post-war era will play an extremely important role as far as the post-war export market is concerned. As the Cash Box predicted many, many months ago, coin machines salesmen will fly to Europe and Asia with as much nonchalance as they formerly evinced in making a trip from Chicago to New York. The export market will require special treatment and with the government already at work to aid exporters, so as to somewhat equalize the present financial balance there is no doubt that this coin operated machines industry is in for the greatest export boom in its history.

Expanded credit facilities are assured for the post-war era. Leading credit organizations have already delved deeply into the coin machines field. Results have assured them of the stability of certain types of equipment and there is no doubt that eventually almost every type of machine will find a credit sponsor. This means that the burden for cash outlay will be taken from the shoulders of those who have won fine business reputations. This easing of credit facilities means that the men in this business can meet any situation, rapidly and economically, and rest assured of their capitalization remaining intact to a certain degree. Greater and easier credit facilities are sure to help this industry to the greatest growth in its history. This is important. It is doubly important that all the industry cooperate to assure itself that its credit will not be impaired and that it shall continue ahead with the full courage of its convictions when the time does arrive, by maintaining and continuing to strive for the highest possible business standards.

Greater liberality is also assured coinmen for the post-war period. The present citizens and soldiers, as all coinmen know, are the voters, the fathers, the civic and industrial leaders of tomorrow, and they are already demonstrating greater understanding of and liberality to coin operated equipment. That is why The Cash Box continued to urge that the trade cultivate the player of tomorrow - the men of the armed services - for they will be the ones to be depended upon to show greater liberality towards the products of this industry, so that this industry can go further ahead. From all present indications there is no doubt that greater liberality is certain to eventually ensue for all in this industry.

More workers mean more players. More satisfied players means greater liberality for tomorrow. Continue to bring smiles and satisfaction to people everywhere, cooperate with the community in every way, and this industry simply must go ahead, further ahead than it has ever gone before, to the kind of an industry that those now engaged in this business have always dreamed about.

This industry ten years after the war is over will be unrecognizable to the average person now engaged in it. It will be expanded to the greatest size in all its history. It will contain more progressive business men than ever before. It will move with new and strangely different and probably better business methods.

This business is most definitely a business of tomorrow. It hasn't even started to grow. It hasn't yet passed the cradle stage. It needs daring, courageous, far seeing men with outstanding vision. There is opportunity for all in this business today - for this industry is a "natural" for the great tomorrow.

PLEDGE RECEIVES WIDE ACCLAIM

The pledge which appeared in the April 18 issue of The Cash Box to help bring more specific detail to the buyer regarding the condition of machines and merchandise prior to showroom or out-of-town sale, and to attempt to minimize and even eliminate shipping damage, received wide acclaim from all the trade. Signed pledges have flooded the offices here from every state in the union.

This, in itself, is sufficient proof that the average firm, buying or selling in this industry today, is anxious to cooperate so as to assure all others of their honorable intentions. Many are now specifying in advance, the exact condition of the machines or merchandise they are selling. They want the buyer to know just what he is buying so that there will be no future complaints. They are also doing the same thing in their own showrooms to those men who call to buy from them. By such honesty they are bound to win the respect and acclaim of all with whom they deal.
"The Coin Machines Merry-Go-Round"

A printed certification of the pledge will go forward very shortly to all those who have already signed and sent the pledge in. Those who haven’t signed the pledge as yet can still do so by referring to their April 18 issue.

RESULTS OF SURVEY NEXT WEEK

The next issue of The Cash Box will feature the results of the survey to determine a standard for jobber and distributor recognition. The tremendous number of returns which have come in are definite proof of the interest all the trade has in this survey. Not only leading distributors and jobbers themselves, but even manufacturers entered into this survey. The number of operators who answered almost equal the number of jobbers and distributors. Therefore a most complete cross section of the trade is represented for the first time concerning so important a problem.

The interest shown and the intelligent answers to the questions presented are a surety that the trade will find its standard contained in the collective results. Each answer received was for the betterment and advancement of this industry thru a finer and clearer understanding of the line of demarcation between the wholesaling and operating divisions of this trade.

It is understood that some are of the belief that the manufacturers may continue along former principles used in appointing jobbers and distributors. Yet the great majority are of the belief that the trade itself has indicated its desires in the answers given in this survey and that these are sure to bear the proper weight to gain the trade what it wants in this direction.

There is no doubt that the answers given in this survey and the result which these answers have brought about are sure to create great interest and much comment, from all in this industry. This is the time to arrange for a clearer understanding. The post-war era is rapidly approaching and to be properly prepared for it will mean faster and better action for all concerned.

NATIONAL TAX COUNCIL NEEDED

Some months ago The Cash Box discussed the need for a National Tax Council. A council of outstanding men financed by this industry who would be in position to maintain the necessary data, records, briefs, cases, histories, etc., etc., to help coinmen in any territory, when exorbitant taxation appeared imminent.

In Denver, this past week, a proposal has been offered in a city ordinance bill to increase the phono tax from $5. to $50. per year. Naturally such an increase is certain to prove of extremely ill effect to all those engaged in phono operating in that city.

And that would probably be only the beginning of headaches for the smaller towns surrounding Denver. Should Denver’s city council prove successful in obtaining so high and practically confiscatory a tax from its phonos, there is no reason why other cities in the same state and even in surrounding states, too, should not also be able to obtain this amount each year from each phono.

The Cash Box proposal for a National Tax Council was to help coinmen placed in such desperate position to instantly down any such confiscatory taxation. A National Tax Council would be in position to rush experienced tax men to Denver to work with leaders there in an effort to eliminate any such tax.

But Denver is only one city in one great state in this nation. There is no doubt anymore that the cost of this war and the cost of government have risen to almost undreamt of high peaks. Other coinmen through the nation fear that they, too, are going to feel this demand for more and still more revenue.

A National Tax Council becomes a vital necessity for this industry, especially to help smooth the path for its future growth and development. It is a well known fact in all industry that no business can proceed progressively if taxation is forced down upon it with so heavy a hand.

It is also a well known fact that the great majority of coinmen are more than willing to pay whatever taxes come into being to help win this war. But, what about the post-war period? This, then, is the time to prepare to halt the tax flood at its present stage by the creation of a National Tax Council to guard the interests of all those engaged in this industry. The time is NOW.
MONARCH PROPOSES DISTRIBUTORS' "E" AWARD

Al Stern and Roy Bazelon of Monarch Coin Machine Company, Chicago, propose that The Cash Box award all distributors with an "E" for excellence of service and equipment to their customers. Each distributor, beginning with May 1, 1944, will be awarded this "E" for the excellence of his service and equipment to his customers by The Cash Box. This "E" award is now being designed by a noted artist. It will be shipped completely framed and, if it is well considered, in time, the most outstanding award that can be apportioned to any distributing organization in this nation.

This "E" will only be awarded after the distributor turns in 15 letters of commendation from as many different customers whom he has sold telling of the excellence of his service or equipment to these customers. These 15 original letters must be sent to The Cash Box, all at one time. These letters must be dated on or after May 1, 1944. Upon receipt of these 15 letters commending the distributing firm on the excellence of its equipment and/or service, copies will be made and retained by The Cash Box. These copies will be placed on file in case any future questions may arise as to the granting of this award. The originals will be immediately returned to the distributor.

There is no doubt that if every distributing firm in the nation will strive to obtain this outstanding "E" award, that this is certain to help cure a great many of the present evils which have infested this industry during this tragic war period.

George V. Coats and Roy Bazelon of Monarch Coin Machine Company, Chicago, for this marvelous, unselfish suggestion, which is certain to prove of great value to all engaged in this industry, The Cash Box takes great pleasure in giving in Honorable Mention Award.

DENVER BILL TO BOOST JUKE BOX LICENSE FEE

An ordinance to boost juke box license fee from $5 per year to $50 has just been drawn by City Attorney Lindsey at the request of Councilman Fross and was filed with Secretary George Cox of the city council.

Councilman Rosenthal who was in the juke box business in Cheyenne up to about 3 months ago declared that the proposed $50 tax would be exorbitant. He did charge that hundreds of juke boxes are evading the present license fee.

According to Denver's records 430 juke boxes were licensed in 1943. So far this year licenses have been taken out for 330.

"There are at least 700 of these music boxes in Denver," Councilman Rosenthal stated. "Having been in the business I know what I'm talking about. They are shifted from one place to another. There should be some way of tagging them so city license inspectors can tell whether a license has been paid on a certain machine. But a $50 license fee would be excessive."

In July 1941 Denver fixed an annual license fee of $10 per machine, but a month later this was voted down to a $5 fee.

GRAND OPENING FOR PUGET SOUND APR. 29

On Saturday, April 29th, George E. Schnabel, Vern Preston and A. J. Sandtner, will officially open their new quarters at Puget Sound Novelty Company, 114 Elliott Ave., West, Seattle, Wash., to all West Coast and all the rest of the nation's operators. There will be a buffet luncheon served to all who will be present.

George Schnabel writes that the firm plans to give the trade the most outstanding offices and showrooms in the country and this first official grand opening leads right into the new post-war era for them. They are of the opinion that they can give the kind of service and equipment that the trade has always wanted.

So, if you're in the mood for a bite and the more the merrier, show yourself and get acquainted with these three musketeers.

Pfc. BECK LEADS THE WAY

Joe Beck of Mitchell Novelty Co., Milwaukee, Wis., writes that his brother Pfc. Ed Beck, and his former partner, now in the Army at Tonopah Air Field, Tonopah, Nev., has taken first place in his camp with the purchase of $7,000 worth of War Bonds.

"The Desert Bombard," which is the Tonopah Air Field paper, writes about Ed, "For a Pfc. to spend $7,000 for War Bonds seems to be just a bit out of proportion to the base pay of a Pfc."

"But we have such an oddity in the shape of one, Edward A. Beck, who distributes his efforts between the officers' club and base quartermaster, Pfc. Beck is the top Bond buyer of the base and has materially equipped the figure in the Base Bond Drive."

Joe explains, "It may interest you to know that Ed is in charge of about 25 slot machines and 4 phonos in his camp. He is the only Private who makes a Captain's pay in the Army. He has some special working agreement as to his cut on these machines. He doesn't own them, but gets a percentage of the money for the Bond Drive."

MAJ. JACK MOORE BACK

Jack R. Moore of Portland, Ore., who reached the position of Major in the armed forces is back again. He writes, "One of the very first things I did on my return from having served with the armed forces for two years is to write to you, and to at this time include a survey form for a post-war plan.

"It's going to be back in harness again, although I find considerable changes have taken place while I've been away. Personally, I'd rather be here, than a never-never."
Due probably to the approach of the warmer weather, buying and selling activity took a decided spurt...HYNIE ZORINSKY, H.I. Vending & Sales Co., Omaha, Nebr., running a sale of slots, consoles and 1-balls...BARNEY SUGERMAN, ARE GREEN and HERMAN PERIN, Runyon Sales Co., Newark, N.J., offers boxes and cable...JULIAN JOHNSTON, Johnston & Bice, Winter Haven, Fla., selling arcade equip...AL KOONDEL, New England Sales, Lowell, Mass., offers consoles...E. (Make it "Official"—Mention "The Cash Box" when answering ads.)
"A MASKO"

THE NEW LIQUID RUBBER THAT ELIMINATES "SHORTS"

Did you ever have a "short" on your four bells or three bells or any other console or pin game??

Did a nickel ever fall out and land on two wires and cause a tube to go empty, or give free plays, or blow a fuse??

If this has never happened to you —- boy, you’re really lucky!!

If it did, and you know what a headache this was — get a can of "A MASKO" today!!!

A MASKO is a liquid that you apply with a brush to all soldered connections...it hardens in a few minutes...and good bye "shorts"...if you want to remove it at anytime...just pull it off with your fingers...it pulls off like thin rubber...it IS RUBBER....PRE-WAR, TOO...it’s transparent and you can use it for a hundred other things...a single can of "A MASKO" will short-proof 50 to 100 consoles, or what have you. Send $5.00 for a complete can today...money back if dissatisfied in any way whatsoever...SAVE TIME...SAVE SERVICE CALLS...SAVE MONEY...

(Make it "Official"—Mention "The Cash Box" when answering ads.)
THE CONFIDENTIAL PRICE LISTS
AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY
ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVE., NEW YORK 16, N.Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter, The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN SAME WEEK.
5. MEANS PRICES REMAINED SAME AS IN PAST WEEK’S ISSUE.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS.
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS.
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER.

IMPORTANT

Machines underlined mean these were most active in trading this past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

Copyrighted 1944 by The Cash Box, 381 Fourth Ave., New York 16, N. Y. Production in whole or part forbidden without written permission from the publishers.

*These Prices In Effect for One Week Only*
The U.S. Court of Appeals of the District of Columbia ruled (April 17, 1944) in the case of the Washington Coin Machine Association vs Harvey G. Callahan, Assistant Superintendent of Metropolitan Police, in an appeal taken from the local district court (argued March 14, 1944) Judge Groner giving the following opinion:

"These machines are lacking in the essential elements necessary to make of them gambling devices or gambling machines. There is no element of gain or loss, financial or otherwise, involved in the transaction.

"One may not suppose that a person desiring to gamble would put up money in the hope of obtaining tokens which can be used only to produce insignificant humorous sayings. The amusement feature of the machine does not make the machine a gambling device. It arouses interest and perhaps attracts customers to the machine in much the same way as advertising would, but this is lawful.

"The only chance connected with the operation of the machine is that wit or humor may momentarily brighten up the vacuous minds hunting amusement."

It is also understood that Judge C. J. Groner, who gave this decision which captured the fancy of the various presses located in Washington at this time and who rushed it over the Washington newspapers, will in a few weeks also rule on the legality of tokens in machines, but not for redemption. Washington columnists eagerly look forward to his decision in this regard.

In the meantime the news that Washington, D.C., is again open to free play games has flooded this already overcrowded city with operators from as far away as Florida and many from New York City. Word comes thru that all these are getting ready to set pins just as fast as they can obtain them. Such eastern centers as New York, Newark, N.J., Philadelphia, Pa., Boston, Mass., and many other cities heard the news first and operators from these spots rushed to Washington seeking locations. This grand rush to operate in Washington is bringing chuckles to the District of Columbia ops who know the rigors as well as the many restrictions and especially the locations that proved worthwhile when pins ran last.

The entire case goes all the way back to 1936 before Judge Donahue in the Court of Equity. At that time the judge ruled that pin games were games of chance, and therefore gambling devices. (He meant the one-balls that were in operation in Washington at that time.)

In 1938 when free play pins made their appearance, Washington's ops placed them out cautiously, expecting this old ruling to apply to them, but the police did not molest the games. In 1942 the District Attorney came out with an opinion that these free play pin games were illegal and ordered the police department to pick them up on sight.

The ops went into city court and obtained a jury trial, after one storekeeper was arrested, to fight this order. The jury disagreed with the police department at this trial, but this was only on that one particular game which had been picked up.

Another game was immediately picked up by the police department and the ops then demanded an injunction restraining the police from molesting their machines. They lost the suit for this injunction in the District Court.

In 1943 the coin machines association of Washington took an appeal from this loss to the U.S. Court of Appeals of the District of Columbia on obtaining an injunction. This is the decision which has just been announced.

For a moment the frantic long distance phone calls that came in from everywhere in the country to The Cash Box were starting something of a rampage. Many misinterpreted the press release in this case which appeared in their daily newspapers by just reading that, "Free Play games have been termed not gambling by the U.S. Court of Appeals". Many columnists therefore believed that this decision came from a high Federal court and would affect the entire country.

This is not a Federal decision covering the nation. It is instead a decision for the District of Columbia from the U.S. Court of Appeals for that district only.
