"The Coin Machines Merry-Go-Round"

By Bill Gersh

SECOND ANNIVERSARY.

This issue marks the completion of the second year in the history of The Cash Box. Much water, in that time, has passed beneath the bridge created by this medium to span the void between the despair and pessimism that was rife at the time of its inception, just after the outbreak of the war, and the faith and belief in this industry continuing on to an even greater industry which has been so clearly expressed by this publication since its very first issue.

The Cash Box looks back on its first two years in the sincere belief that it has been of good, constructive and helpful value to all the trade. Its policies have proven true of their purpose. It shall and will continue to ever better serve this industry. As it enters into the promising dawn of its third year, The Cash Box believes, for the edification of all concerned, that it should review some of the high-lights of its past two years.

FIRST WARTIME CONFERENCE

Among the very first calls to the trade issued by The Cash Box was for the First Wartime Conference it sponsored at its own expense at the Hotel Waldorf-Astoria in New York City. Here The Cash Box gathered together, in very, very short time, due to the emergency of that moment, the leaders of this industry from many cities to discuss OPA's Maximum Price Regulation 429, as it affected this industry. The men met in solemn and interested study of this problem for two days. On the third day the committee that was chosen by the gathering went on to Washington and met with OPA's officials. This was the opening session which helped OPA to better understand this industry and its problems. It was also believed that this first, voluntary meeting with OPA helped greatly in the appointment of that government agency's Industry Advisory Committee.

NATIONAL BOARD OF TRADE

Another outstanding proposal was the suggestion that a National Board of Trade be created for this industry. This would be the common meeting ground for all the present trade groups, for all associations and independents. It should contain all the operators, jobbers, distributors and manufacturers. It would not be an association. It would instead be the one unit to help this industry, by being comprised of all the industry, to greater national recognition. It would be a non-profit organization. It should be composed of chosen leaders of the industry serving on a voluntary basis. It should be headed by a nationally known and highly respected figure. It would be the place where the press and the allied industries could bring their questions. All national problems would be discussed and properly handled for the general betterment of this trade by such an organization. It is the one outstanding necessity which could more greatly cement relationships among all elements comprising this business. It would be, as first stated, the common meeting ground for all the industry.

NATIONAL TAX COUNCIL

No greater need in this industry than the creation of a National Tax Council composed of leaders from every state in the union and directed by a board of hired tax specialists. As is well known every industry is today planning to somehow bring about more equitable taxation when the war is over so that private enterprise will once again dare make risk investment. This industry, like every other, has its tax problems. In addition, this trade is faced with a great many inequitable taxes which have been created over a period of years due to the fact that there did not exist a group in this business that could band themselves together so as to meet and overcome such problems when they arose. Tax experts are necessary today to the life of all business. In this coin operated machines industry they are a paramount necessity. The creation of a National Tax Council which has been so strongly urged for some time is imperative to the continued good progress and growth of this industry.

NATIONAL CREDIT BUREAU

Almost from its very first issue The Cash Box has been sponsoring the creation of a National Credit Bureau for this industry. This becomes ever more important as time goes on. There is no doubt any more in the minds of this trade's leaders that such a
bureau, giving credit information for the benefit of all this industry, would also help to clear away any malpractices which might exist. In its humble way The Cash Box has been acting as a credit bureau of sorts for sometime now. A credit bureau would require competent men who would devote all of their time, with the cooperation of all engaged in this industry to give them such information as may prove necessary, to the greater growth and better welfare of all engaged in this business. The Cash Box continues to strongly urge that a National Credit Bureau be created now, before the war is over.

DONATIONS OF EQUIPMENT
The campaign instituted by The Cash Box to help obtain donations of equipment of all sorts for the armed forces had more than one viewpoint in sight. This is a great necessity, especially today, as more and more soldiers and sailors return from the battlefronts wounded and maimed, and can use jute boxes and games of all sorts to relax and entertain them so as to help them to faster recovery. These donations react for the benefit of the trade itself. If this industry can gain the affection and support of these men, who will be the fathers, the voters, the judges and civic leaders of tomorrow, greater liberality is sure to result for this industry. These facts, in addition to the goodness and greatness of heart which is concurrent with such donations, was the reason why The Cash Box so urgently asked the members of this industry to donate equipment to benefit the armed forces. Let it be recorded for this industry here and now that it splendidly responded to this request and that today, at base hospitals, USO's, at various Canteens, aboard ships, at PX's, at the battlefronts and in Clubs offering sanctuary and entertainment to the armed forces are found the equipment of this business, to entertain, to relax, and to bring a bit of home to the brave men fighting this war.

70%-30% COMMISSION BASIS
Another proposal of The Cash Box so as to meet rising taxation, to once and for all arrive at a more economically sound and profitable operating basis, was the suggestion that commissions be set at 30% to location owners and 70% to operators. Everyone will agree that general overhead and operating costs have risen much more than 30% since outbreak of the war. All will agree that increased labor and materials costs, as well as higher operating overhead, will remain after the war, too. All will also agree that with taxes continuing to rise that this new and better commission basis must of necessity come into being. The 70%-30% commission basis is therefore the answer to a great many problems. Furthermore, and especially at this time while the war is still on and domestic production is as yet far away, the financial reserve which can be built up because of such a commission basis will prepare the trade for any eventuality after the war. This is an absolute necessity. It is gradually winning more and still more support everywhere in the nation. Some territories have already adopted this basis. Others have gone down to a 60%-40% arrangement and eventually intend to get down to 70%-30%. Those who have adopted this commission basis find that because of the war and because of the fact that all other costs have risen, the average location owner agrees with the need for such a commission arrangement. This commission arrangement will prove more important than ever when the war is finished. It will be the answer to the difference between profit and loss.

SCHOOL FOR MECHANICS
The latest proposal of The Cash Box was for the creation of a school for training mechanics now, while the opportunity is here and while new equipment is as yet far from production. To bring to such a school those men who have already been discharged from the armed forces, as well as technical high school students and others who would find, after graduating, that a lucrative position awaited them in this industry, there is no doubt anymore of the need for such a school. The trade heartlessly demands it and is willing to support it. It will surely mean the saving of thousands of dollars for all in this industry.

JOBBER & DISTRIBUTOR RECOGNITION
For many weeks The Cash Box conducted one of the most important surveys in the history of this industry to help determine a standard for jobber and distributor recognition for the post-war era. The results of this survey occupied an entire issue. The survey itself continued on for six weeks and was directed to everyone in this industry, whether subscriber or non-subscriber. This survey brought forth some highly important facts which have since caused much thought and comment on the part of leaders in this industry. It opened the eyes of all in this trade as to what the men at present engaged in this business want of the wholesaling division of this business when the war is over. This survey and its results remains one of the highlights of progressiveness.

THE PLEDGE
Some weeks ago, due to the fact that many were neglecting to be more specific about the condition of equipment they were offering for sale, and also in view of the fact that many were packing shipments in extremely crude and poor fashion, The Cash Box offered the trade a pledge to specify in advance exactly the condition of the equipment offered for sale, either on the premises or for shipment, and to so pack equipment
that damage would be minimized or eliminated. This pledge met with instant approval. Those who signed it received a certification of the pledge with their firm name especially printed thereon suitable for framing and display in their showrooms. This pledge is repeated here for those who may want to type it on their letterheads, sign it, and mail it to The Cash Box to receive the certificate for their showrooms:

"I pledge to give complete, true and fully specific information regarding the condition of all machines and supplies I offer for sale, either on my premises or prior to shipment, and so crate my shipments that damage will be minimized or eliminated."

HONORABLE MENTION AWARD
Immediately after its first few issues The Cash Box created its Honorable Mention Award. This has since become a most treasured achievement for the members of this industry. This award is only given to those individuals in this industry who do something which brings or reflects honor upon all this business and do so unselfishly. There is no doubt, that in addition to those who have already received the Honorable Mention Award many others will, as time goes by, also obtain it when their work to help benefit this industry becomes known.

SECOND WARTIME CONFERENCE
The Cash Box sponsored the Second Wartime Conference of this industry (again at its own expense) and held it at the Hotel Morrison in Chicago in November, 1943. It was arranged for the purpose of greatly encouraging the war effort among columnists. It brought together the men who now comprise this industry and better acquainted them with each other. It succeeded in its purpose. It not only brought the leaders of this industry together to formulate more than one great friendship but these friendships have since endured and created general better understanding of each others problems. It was the Second Wartime Conference which most definitely brought many new ideas to this industry for future meets. It may even have been the model for what the men engaged in this industry may want for tomorrow. It was the type of meet which those who attended claim this industry should sponsor annually.

ARTICLES OF INTEREST
A great many articles have appeared in the meaty, brief, fearless and digested form used by The Cash Box which greatly benefitted this industry. The story on the use of off-color film in movie machine conversions met with the approval of all the leaders in this industry. The article on more quiet action being adopted for this was not the time to flaunt this business in the public's face also won much praise. The article warning the trade that minors were again starting to play certain types of equipment and that this should be halted received many wires and letters of condemnation. The fact that locations were again beginning to purchase direct and that this would weaken the backbone of this business just appeared. The many other items that have been published would be entirely too numerous to mention at this time. Suffice it to state that each and everyone of these met with good comment from the industry.

INTERPRETATION OF OPA REGULATIONS
Possibly one of the most outstanding items ever to appear was the complete interpretation of OPA's dual regulations for this industry. Also, in addition to this, the reprinting of the March 1942 price lists in compliance with OPA's GMP and which are in use today by the wholesalers in this industry. This interpretation is reported to remain in this industry as a classic. It is believed that it helped create much better understanding. The fact that better cooperation exists today between this industry and OPA's officials is also in large measure due to this interpretation.

CONCLUSION
In conclusion let it be here recorded that The Cash Box will continue to strive for the general betterment of this industry. It will continue to fight hard against any wrong. It will fight harder than ever for what is right. It will continue to help blaze a path toward national recognition and for greater prestige and respect for all engaged in this business. Its editorial purpose is to help raise the standard of this industry to the highest possible plane -And to keep this industry on that high plane when it is reached.

It believes that this business is as yet only in its infancy. Yet, even as an infant, it is reaching out for the sun of recognition. Because of this fact The Cash Box asks all those who are now engaged in this industry to continue to work and fight harder than ever and to continue by better business methods to raise the level of this trade to such a peak that it will be recognized by all American industry as the most outstanding division of the entertainment, merchandising and service fields.

A position it so rightly deserves.
Flood of Letters Praise Suggestion Want School Started Now

In all the two years' history of The Cash Box there has never before been such a spontaneous flood of praise for any suggestion offered as there has been for the idea that a school for training mechanics be started now.

The trade has gone all out for this suggestion. Letters with ideas and condemnation continue to flood the offices of The Cash Box and telephone calls and wire messages have been purchased. Some of the letters received cover the subject very thoroughly. Here and there are those who believe in and like this, in itself, is a worthwhile sign. One noted coinman is asking where instructors will be obtained for such a school. Offers already made by noted engineers and mechanics to act as instructors take care of this.

Here are a few of the many letters which have been received: A few were chosen at random.

You really have something in this idea. You will recall at the time of the last coin machines show that National Slug Ejectors of St. Louis, for the first time, were planning to hold a show session on the adjustment and construction of these machines, which are used in phonographs, vending machines, etc. For some reason or other they never got around to the school, but at least it showed a step in the right direction.

The manufacturers are really the ones who should get behind this idea as it concerns them. They should see the necessity, and many of them are in the market, and recent developments send their shipping clerks to a special course on creating and shipping machinery.

"This suggestion is one of the most progressive, as has been aptly proven thru this wartime period. I for one do have clipping to subscribe to a school to the extent of paying tuition for as many coin machines as I will need in the future. With proper personnel available, the inducement to invest money would be enormous and their equipment would be greater than otherwise."

"I would love to do this, if only in part, in order to support this school which those who use its facilities would necessarily have to pay for this service by fees."

"Manufacturers should also create equipment and provide protective meters and protected cash box equipment to comply with the law."

Ben Rodin, Merchandising Co., Washington, D. C.

"A very constructive idea. If the coin machine business is to make strides and continue to grow, then the good mechanics are of absolute necessity."

Al Schlesinger, Square Amusement Co., Poughkeepsie, N. Y.

"It would be getting rid of a great many headaches if there were more coin machines on the market that could happen."

"Excellent idea. I have a young man here who is very intelligent and a good mechanic but with a school course such as proposed he would without any doubt become a crackjack. A 1 master mechanic. I could hire him more than we pay him for machines from such a school."

"We started a school on cigarette vending and during the past four months I have trained an instructor who is now on duty in a demonstration shop. We specialize in National but cover all others makes thoroughly.

For the cigarette machines business I believe the overall earning power is a little too low to warrant a school. For a distance part of the country and keep him supplied, it would be better, and worth the money, to send a company man off to such a school. Of course cigarette machines are compared to other types of equipment."

Ed. Brown, Dallas, Tex.

"I think this is a very good idea indeed."

Joe Westerhaus, Westerhaus Amusement Co., Cheviot, O.

"I think such schools should be located in about 5 or 6 places in the country. New York, Chicago, Dallas, Los Angeles and Miami. I think the manufacturers should help to support such schools for I believe it would be worth supporting to the school by sending 3 or 5 man. Prominent persons and others responsible for school should not be overlooked, for those who feel they cannot leave their business."

H. M. Jones, Joe's Coin Machines, Stephenville, Tex.

"I will be more than glad to send each new man I employ to this school and pay his tuition of every penny where a good coin machine mechanic can (and don’t believe they don’t) ask any salary he wants and others with 5 or 10 days, I think they could learn more in 30 days at school than in 3 years of experience."

"My service men have learned the hard way. I think it would be a fine thing for every company to have a school where, at a reasonable cost, they could send, inexperienced men to learn this business under competent instructors."

C. L. Clinton, Clinton Music & Vending Co., Dodge City, Kans.

"The more you can do to make it easier for coin machine dealers to get mechanics, the better."

It would be impossible to print all the letters, wires, etc., received in regard to the fact that a school for training coin machine mechanics gets started, nor do I believe it would be necessary. The reason is, the first move in this direction from one of the industry’s progressive men.

BARBERSHOP QUARTETS

This may have nothing directly to do with coin operated equipment of any type but it is a rather well known fact in many quarters that coimcions consider themselves rather good warblers in quarters when it comes to old time songs.

The nation's barbershop quartets will be getting together about June 17 in their national meet at Detroit.

Those coinmen who feel that they can do a job with "Sweet Adeline" or "My Wild Irish Rose" or even "Pistol Packin' Mama" and some of the others that I should make reservations to be present.

Who knows — maybe one of the coinmen quartets will come home with national honors? Or a smooth full anyway.

For the first time in a great many years the Ashley Company of Chicago, one of the largest coin operated vending machine firms in the country, is making an attempt to buy a crusader who is desirous of putting out all types of amusement machines on the conception, as he stated, "These persistent violations of the law are the cause of the need for this move, and it is not the case to be a case of individuals obeying laws that suit them. There is an orderly process of changing the law if these individuals think it is wrong, but until that time the law, this right gambing because it is a moral sin."

The above statement was given to the press by Rev. James S. Pemberton of the Ballard Methodist Church of Ashbury Park, N. J.

He attempted to have the prosecutor's office in Ashbury Park put the skee balls and roll down poker games. The treasurer of the firm further stated that he had made the effort to close them down temporarily. He asked, instead, that the method of making these coimcions be brought before the court as a test case.

An injunction was instantly secured restraining anyone from molesting these coinmen and the case is to appear before the local court on June 8.

It is to be remembered, this operation firm reports, that these machines have been in operating all types of amusement machines and have never been used for any type of gambling purposes. These machines never made any money.

The belief is that if this case isn’t taken into court and legality proved for these machines that they would spread all the way down the Jersey shore. The operators of these machines are from this case to once and for all silence such crusaders. They have planned their case very carefully they report and believe that they will win.

5TH WAR LOAN

The flood of fine letters we have already received, because of the letter which appeared in our last issue of "Talking Out Loud", written to us by S/Sgt. Mill Cohen of Ohio Specialty Co., the letter is as follows:

"If reading this letter these writers decided then and there to purchase more War Bonds in this way and all their friends should be informed that they had originally intended to. The drive starts June 12 and continues thru July 8, S/Sgt. Mill Cohen’s letter arrived at a most opportune moment. As The Cash Box reached the trade, this letter from a hard fighting soldier in Ireland brought great attention. The fact that this could happen struck many of our boys forth into the Eternal City."

It is with great confidence that The Cash Box has reason to believe that this industry will make a tremendously great showing in this 5th War Loan Drive. At the same time it is the fond hope of the management that this will be even more strongly. The coinmen in the various cities, towns and villages throughout this country have shown this one time to make a concerted showing which will gain for them the greatest prosperity. The hopes are again for this sale in the Cash Box is also certain that once again all coinmen who are member should be out and ready to go away over the top by urging on their location owners and the patrons of their locations, to purchase War Bonds.

If you didn’t take the time to read S/Sgt. Mill Cohen’s letter from last issue of The Cash Box — do so now. Go back to that letter in this issue of "Talking Out Loud" page. After you read it — we’ll leave the reason why you will be more than very happy to see more and still more War Bonds. (Let your friends and locations read, too.)

I MET A KID FROM YOUR HOME TOWN

The other day, I met a kid from your home town. They had just brought him back. He was pretty badly shot up. One hand was missing. And the other seemed more or less lost to him. He was so young. He had such a fine appearance — tall and straight and manly. And sort of sad in the way men become sadly wise during those flaming, scorching moments when their soul goes thru hell. I met this kid from your home town — in a hospital.

I talked to him, a bit awkwardly, for I felt he knew so much more than I did about life. He had gone thru that great adventure — for his country — for me — for you. I met this kid of 19 and somehow I felt he was far up above me. That he could, if he cared to, make me feel mighty small. That he knew — the things you and I had yet to learn — about suffering — and death. And this kid from your home town — was the kid that had gone out there to fight for me — and you.

I looked about the kid’s surroundings — that hospital ward. And there were many more like him. Their expressions and the way their lips were tightly drawn — told me that I had walked into something that was sacred. I felt out of place. Awkward. Clumsy. As if I had crept into the most holy of all holy places with muddy boots. It was so quiet.

As we talked — I asked that kid — the kid from your home town — whether . . . perhaps . . . didn’t he believe . . . that maybe a juke box or a game or two in this ward . . . would kinda help. And as he nodded his head his face lighted up with a most radiant smile. The kind of smile that must have made those little girls in gingham — in your home town — want to kiss him. And, by golly, I just blindly rushed out of there. I rushed to get that kid — the kid from your home town — everything and anything that his heart desired.

And, believe me, if a juke box or a game or two could light up those youthful features with so radiant a smile — I was going to beg or borrow or steal — that juke box or game or anything else he wanted. So — I’m begging — believe me, I am. To ask you to help me get that kid — the kid from your home town — that juke box and that game — just to help me — and you — to keep that smile there on that kid’s face — all of the time.

THE CONFIDENTIAL PRICE LISTS
AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY OTHER WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past two weeks, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the two week period; Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST TWO WEEKS
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS
7. MEANS NO PRICES QUOTED FOR PAST SIX WEEKS
8. MEANS NO PRICES QUOTED FOR PAST EIGHT WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading these past two weeks.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

AUTOMATIC AMUSEMENT COMPANY
1508 FIFTH AVE., PITTSBURGH, PA. (PHONE 1373-1374) HARRY ROSENTHAL, MGR.
In the Engineering World — They call it . . .

"FACTOR OF SAFETY"

... when an engineer designs a bridge he figures out just how strong each piece of steel should be to support the weight that particular piece must carry—then instead of specifying merely that strength, he specifies a strength 15 times as great!

... that's for safety's sake to take care of unforeseen emergencies!

In the AMUSEMENT World — They call it . . .

JUST PLAIN QUALITY

... Mutoscope machines have been famous since 1895 for having that "QUALITY". On numerous occasions we have had to resist suggestions such as, "You don't have to make it so good"—"make it cheaper and sell it for less"—"It doesn't have to last 20 years"—etc., etc.

It took the WAR — to Convince...

EVERYBODY

Today we are glad we refused to give in to that "Cheaper It" pressure and we know every operator of PHOTOMATICS, SKYFIGHTERS,—yes, and even of 30 year old Mutoscopes—is glad too that we put that extra "Factor of Safety" into Mutoscope Machines.

The Skills we have developed in doing War Work since 1941, and the new machinery we have invested in, will be evident in the new Mutoscope Quality Products that will be offered to you after the War is over!

MR. MANUFACTURER

... continued progress during these trying and difficult days, we fully believe, is a most certain sign of the progressiveness, ingenuity and tenacity with which a firm is endowed. We attribute the progress we have made during this war period to these attributes. Our firm is today recognized as the leader in our state. This leadership, backed by the years of experience we have gained, we place at your disposal. WHEN YOU ARE READY TO APPOINT A DISTRIBUTOR FOR YOUR PRODUCTS IN THE STATE OF NEW JERSEY — ALL WE ASK IS THAT YOU GIVE US FAIR AND DUE CONSIDERATION. Allow us to show you why we are fully prepared to bring you a bigger volume business than you have ever before enjoyed from the State of New Jersey.

Du Grenier

Challenger

Early 19th century, America sought peace—needed it—found it! America didn’t look in vain because in 1807 Fulton produced one of our first great gifts to the world—the Steamboat.

Today, America looks to the Post War period—ponders hazily—conjectures crazily! We believe in America’s future—we’re working 100% for it now. And we tell you this: DuGrenier has created the “CHALLENGER”—a cigarette merchandiser for the Post War Automatic Vending Machine Industry.

Just as the Steamboat solved the problem of marine transportation in 1807, the DuGrenier “CHALLENGER,” because of its simplicity, dependability, and accuracy, is the answer to the cigarette machine operator’s immediate Post War need in 1947.

We offer you the opportunity to participate in the coming cigarette merchandising era NOW!

DID YOU EVER HAVE A "SHORT" ON YOUR FOUR BELLS OR THREE BELLS OR ANY OTHER CONSOLE OR PIN GAME?
DID A NICKEL EVER FALL OUT AND LAND ON TWO WIRES AND CAUSE A TUBE TO GO EMPTY, OR GIVE FREE PLAYS, OR BLOW A Fuse?
IF THIS HAS NEVER HAPPENED TO YOU — BOY, YOU’RE REALLY LUCKY! IF IT DID, AND YOU KNOW WHAT A HEADACHE THIS WAS — GET A CAN OF "AMASKO" TODAY!!

AMASKO is a liquid that you apply with a brush to all soldered connections...it hardens in a few minutes...and GOOD BYE "SHORTS"...if you want to remove it at any time...just pull it off with your fingers...it pulls off like thin rubber...IT IS RUBBER...PRE-WAR, TOO...it’s transparent and you can use it for a hundred other things...a single can of "AMASKO" will short-proof 50 to 100 consoles, or what have you. SEND $5.00 FOR A COMPLETE CAN TODAY...money back if dissatisfied in any way whatsoever...SAVE TIME...SAVE SERVICE CALLS...SAVE MONEY...ORDER NOW........

EVERY MACHINE YOU BUY FROM MIKE MUNVES IS A BARGAIN

"When you buy equipment today, you should realize that it has been in existence for over 3 years. Ordinarily this equipment would be obsolete. But these days, you have to depend upon the seller to recondition the machines so that they bring you PROFITS — not grief.

Every machine that leaves my building works perfectly and is clean. Maybe the price is slightly higher — but as you know, parts are hard to get and are expensive, and good mechanics get premium salaries.

For over 32 years my customers have received only the best, and today we try a little harder to give them only equipment that will satisfy 100%.

IN THE LONG RUN EVERY ARCADE MACHINE YOU BUY FROM ME IS A BARGAIN!"

TRIMOUNT COIN MACHINE COMPANY
40 WALTHAM STREET, BOSTON 18, MASS. (ALL PHONES: LIBERTY 9480)
NOW AVAILABLE TO THE COIN MACHINE INDUSTRY!!

Kleer-Flo PROCESS
FOR CLEANING MECHANICAL PARTS

Your COIN MACHINE MECHANISMS and PARTS deserve a bath instead of a brush-off! Here's a new war-time development available to the Coin Machine Industry for the first time—formerly sold only on high priority to War Plants, U. S. Army and Navy—thousands now in use! It BATHES and CLEANS Phonograph Mechanisms, Slot Electors, Coin Slides and Slot Mechanisms THROUGHLY—IN ONE OPERA-

Here's What It Does!
★ Makes all mechanisms and parts look and act like new.
★ Magicly removes all grease and dry, encrusted "location" film.
★ Makes all sticky parts and mechanisms free for action.
★ Cuts service time to a few minutes for a complete mech-

SIX months ago the Army and the Navy honored the men and women of the “Bally” plant with the famous Army-Navy “E” Award for excellence in production. Now the “Bally” organization has earned and won a second honor—a white star added to the Army-Navy “E” flag, indicating renewal of the original award. “Bally” engineers and workers continue to prove daily that their skill—developed in peace-time production of coin-operated games and venders—is a valuable asset to America in time of war. And “Bally’s” performance in war production is a forecast of “Bally’s” performance in the victorious peace. Lion Manufacturing Corporation, Chicago, manufacturers of “Bally” games and venders.
