WHY WE NEED A PUBLIC RELATIONS BUREAU!
NEWARK, N.J. WORKING PINS AGAIN

Newark, N.J., is up on pin games once again. This was predicted by coinmen in this city. They claimed, at the time the favorable decision was handed down by the State highest court, the Court of Errors and Appeals, that pin games would appear in Essex County, and especially in Newark, largest city in the state, after the election.

With pin games once again working in Newark (on the old license fee of $4 per year) coinmen in this city and county are much enthused and hope that this run will continue on unmolested. As yet the actual licenses themselves have not been issued. The men are working on the applications which have been turned in to the license department and so far accepted.

SWANK N.Y. CLUB BEEFS ABOUT PINS

Members of the swanky Larchmont Yacht Club are up in arms over what they call "the mysterious appearance" of pinball games in this oldest organization of its kind on Long Island. Among the 700 social registrite members are such men as Jay Gould, Geo. E. Roosevelt, cousin of the President, Harold S. Vanderbilt, Gerard Lambert, etc.

The first pinball game appeared in the men's lounge on election day, members claim, tho they do not know how it got there, nor by whom it was ordered. A second machine also popped up on the premises while arguments were waxing hot over the first. Members of the club are indignant over the appearance of these 2 pinballs and the noise they are reputed to be making when played. TheyBeat so loud and long that the story made the N.Y. press and is bringing a laugh from all who read it.

HEAT ON AGAIN IN MILWAUKEE

Milwaukee is again having its hands full. The D.A.'s office is working now to drive out such innocent games as Hockey, Batting Practice, etc., which Milwaukee coinmen have never been troubled about before.

While the heat is on, some of Milwaukee's leading coinmen claim this is the time to once and for all take court action and settle the question as to just which machines are, or are not, legal in this community's interpretation of amusements. In the meantime, storekeepers have been warned by the D.A. to get the machines out of their spots and naturally this has hurt business all down the line.

BUYERS RUSH DOWN TO TEXAS

With some centers in Texas reported down, many coinmen from Chicago and other Midwest spots have dashed down to this great southwestern state in an effort to buy up all that they can. As yet no definite reports have some thru from the Lone Star State as to just how many cities are down, on that they are down, or whether the entire state is effected.

A.O.A. COMMITTEE MEETS

New York, N.Y. - At a meeting of an appointed committee of the ARCADE OWNERS ASSOCIATION OF AMERICA, Thursday, Nov. 30, a strong constructive program was laid down to present to the members who will have their regular monthly meeting on December 11 at the Park Central Hotel.

A concerted campaign to increase the membership throughout the country is scheduled to start in the near future, and in addition to completing the details for this effort, the committee has planned a streamlined progressive program for the association to work on. At the suggestion of McKim Smith, Atlantic City, N.J., this program will follow the editorial suggestions which have appeared in The Cash Box on numerous occasions...Public Relations book; Tax Council to cope with National matters; Better Business Bureau; Legal Assistance; and cooperation with all other allied industries.

The committee was chairmained by Ed. Haversby, of Boston, Mass., and New York City, and other members attending were McKim Smith, Atlantic City, N.J., Mrs. M. Webster, Staten Island, N.Y.; Max Schaeffer, New York City, Herman Brothers, attorney for the association; and Ben Smith and Joe Orleck in an advisory capacity. Joe Ash, Philadelphia, Pa. and Al Blendow, remaining committee members were unable to attend.
"The Coin Machines Merry-Go-Round"

by Bill Gersh

WHY WE NEED A PUBLIC RELATIONS BUREAU

For a long time now The Cash Box has been urging the trade to get together to create a Public Relations Bureau for the future good and welfare of all concerned with this coin operated machines industry.

There is no doubt of the great need for such a bureau. The taxation problem in itself requires that such a bureau come into existence to help lay the necessary ground work prior to any further proceedings toward more equitable taxation on the part of coin machines men.

The industry will greatly expand and greatly increase its operations during the post-war period. New territory will be required. Many new types of locations will be opened. Much ground work here, too, will have to be done. A Public Relations Bureau can do this sort of work well.

In addition, legislatures will be seeking for more revenue to prepare public works programs for returning veterans. These legislators, as always, will jump on this industry to grab as much as they can from this business for the deficits which will be created in their community budgets because of such programs. A Public Relations Bureau will be in a position to foster better understanding of this industry by these legislators, as well as by the public at large, and thereby hilt outrageous taxation.

At the present time the Federal Government is spending $2 for every $1 that it takes in in income and excise taxes. This is due to the fact that we are now spending $90 Billions per year and only taking in $45 Billions from income, excise and all other taxes. Estimates have been made that after V-E (Victory in Europe) day there will be a cutback of 40 per cent to 50 per cent in war production. Naturally, this may seem to some that the Government will not then require as much income. This has, however, already been proved to be an erroneous assumption.

Chairman George of the Senate Finance Committee and Chairman Doughton of the House Ways and Means Committee have already stated that taxes will continue in effect at their present rate thru 1945 and possibly until after the Japs are totally defeated. Even then, when the war in Europe ends, Government expenditures are expected to decline about one-third, to about $60 Billions. But, during this same period, the tax yield is also expected to be much lower because of the lower earnings which will accompany the cutbacks of war orders.

By the above the members of this industry can estimate the fact that a Public Relations Bureau will become a great need to help any National Tax Council which may be created, and to also help prevent, by a complete educational plan, the imposition of greater taxation upon the men in this business.

If a Public Relations Bureau is successful in doing just this one job, it will be worth whatever cost may be required to place some noted, national figure at the head of such a bureau for this industry.

It should be remembered that the baseball world eventually was forced to adopt just such a plan and elected the late Judge R. H. Landis to this position. The moving picture people, too, when they found they were too far out on a limb, were forced to get someone to coagulate their group and obtained the services of Will Hays. There are men who have sprung into national prominence during this war who would fit perfectly into such a position for this industry, and who could head a Public Relations Bureau that would prove invaluable to all the trade.

Another very important reason for the creation of such a bureau is the educational work which someone must undertake with the press of this nation. The newspapers are among the very first to jump down the necks of this industry. When a delegation of men come together to call on a newspaper publisher to discover his reasons for hitting so harshly and unfairly at the members of this trade, they are tremendously surprised to learn how really ignorant he is of the true facts. A Public Relations Bureau could cure this situation.
"The Coin Machines Merry-Go-Round"

A prominent, national figure, heading such a bureau, would be in position to take up any newspaper crusade with any publisher in the country and thru diplomatic and educational effort perhaps halt any further crusading actions. Many newspapers are reported to have used this business as a means to further their circulation. Others have used it as a "sensationalist" space filler. Because this business is unorganized it is easy prey for such people for it has no means whereby it can successfully fight such cruel actions. A Public Relations Bureau could do much to halt this sort of thing and, at the same time, bring about better understanding with the press of the nation.

There are crusaders, blue-noses and politicians all over the country who use this industry as a verbal football. The trade is not unaware of this and it doesn't fear these men, but these sort of people are attempting to gain themselves free publicity by blasting away at this business. They do convince some of the general public and this again starts the ball rolling against this industry. This has, many, many times in the past, been responsible for closing good territory to the equipment of this industry.

The men now in this business should also visualize what the effect will be on this industry when the trade enters into what can become its greatest expansion era during the post-war period. At such time equipment will become more prominent. Machines will appear everywhere. This is naturally going to be ammunition for the loud cannons of crusaders, politicians, tax seekers, etc., etc.

And when competition becomes keener among the men in this industry they, too, will bring themselves more to the attention of these very people who are ready to smash at them for selfish gain. Therefore some sort of organization must come into being to help save this situation. And only a Public Relations Bureau, headed by a nationally prominent figure, can do the job.

It should also be remembered that a great many metropolitan centers thruout the nation are closed to various types of equipment. There is no reason why these cannot be re-opened when the right time comes. But no one is in position to step in by himself or even with the help of only a few others, and attempt a drive for negative legislation, which is the most difficult and most expensive legislation.

Once a bill is pushed thru a city or state legislative body, the man who attempts to void that bill, or create another bill which will, at the same time supersede the first, has a most difficult and expensive task on his hands. Only a prominent, nationally recognized man, with the aid of a good organization, can even attempt such a job, and hope for success.

To enumerate the many other reasons for the need of a Public Relations Bureau for this industry would be useless if what has been already stated here doesn't drive the necessity for such a bureau home to the reader.

The Cash Box can point to a great, great many other reasons. But it feels that the members of this industry, those who subscribe to The Cash Box, are the true leaders of this business. These are the men most interested in the future welfare of this trade. These men will agree with The Cash Box that a Public Relations Bureau, headed by a nationally prominent person, is a great necessity for this trade.

DO YOU AGREE?

"CHANGE OR DIE"

People change, problems change, moods change - the world, in fact, is in a constant state of flux. Industries that fail to change with the changing times do not survive.

It has always been to the credit of the coin operated machines industry that it has been able to keep pace with the changing mood of the playing public. It has not kept pace with the change of progressiveness required in its own inner-industry councils.

Change is the most necessary and important factor for the continued success of this industry. This is the one facet in the jewel which makes this industry so attractive to heavier investment. It has not only met the requirements of the public but it has been able, by continued perseverance, to continue to meet public demand for the new, the novel, the different and the unique, all this even during wartime.

Perhaps all this can be attributed to the fact that this industry does not and will not, make any commitments unless it feels that these will be the culmination of all its desires. The men who are right on the firing line of this industry, the men who cover the locations, can instantly note any change which may occur in the mood of the player and quickly arrange to change the play to meet this new mood.
"The Coin Machines Merry-Go-Round"

But even of greater importance than the fact that the trade has recognized it must constantly change its equipment or fade out of the picture as an industry, is the fact that it must change its own tactics to continue as an industry, especially if it desires to be recognized, to win prestige, to gain respect in the eyes of the public and all other industries in the nation.

There are men in this industry, possibly just a few hanging on to the outer fringe of this business, without whom this industry can do very well. These are the men who have created the horse which has, at various times, befallen this industry. These are the sort of people who, when everyone else plays ball, play their own game. The result is, because of them, all the rest of the team loses.

It is a well known fact that only one small operator, buried away somewhere in the outskirts, is usually the man who causes an entire territory to close. But it is necessary today that that very man be weeded out of this industry for the preservation and profitable continuance of all the others.

A great many inner-industry tactics must change. Certain distributors and jobbers, who are believers in selling only to what they term "suckers", must be cured of this belief. These men should be more honest and call their "suckers" - the "storekeepers". They will then have applied the correct meaning to the word. These are the men who like to burn the candle at both ends by selling the storekeeper and the operator as well.

Moving picture distributors and jobbers do not sell film to grocery stores or drug stores - they have consideration and respect for the theatre owner and his investment in their industry. Nor does the grocery store, drug or cigar store know what the theatre owner pays for film.

But by such men in this industry openly advertising prices to storekeepers everyone knows what machines cost, and the operators of these machines are therefore left high and dry with very little defense for themselves when they find their own locations want to buy machines.

This must be remedied. This is one problem facing this industry, not only today, when machines are scarce and the law of supply and demand has placed products at a high peak - but for the post-war period, when such sellers can definitely ruin this business. Change or die. Get those prices away from the eyes of storekeepers.

Certainly it won't hurt if a storekeeper sees an ad on machines which entices him to ask for coin operated equipment for his place of business. But surely it isn't necessary to have him also know the lowdown price of that equipment. He doesn't tell the operator the lowdown price of his merchandise. He keeps that to himself as his own trade secret.

Therefore this industry, too, must arrange to keep its trade secrets and its problems to itself and not have every police precinct, every mayor's office and every government agency receiving weekly information.

Change or die. This is for the men in the industry to decide. And to decide now - while they can - before the post-war period, when they will be so busy trying to keep their heads above water that they won't know from which sides the water is being rushed in to drown them.

This is the time. This industry is a highly concentrated unit and the men can get together more quickly, more easily, to help effect the cure by the creation of a council to coordinate the desires of all the members of the industry regardless of their status.

THIS IS THE TIME TO ELIMINATE THE PUBLICATION OF PRICES TO STOREKEEPERS.

"Talking Out Loud"

WARTIME PROVES THEIR VALUE AND POWER. Manufacturers Concede Fact Distribs Have Continued Contacts With Operators And Jobbers While They Have Been Busy With War Work

Just think of those boys engaged in the great field of conversion who have stood their ground and have continued good con.

EYES OF DISTRIBS FOR POST-WAR

Foresee Distris As Major Force To Rebuild And Expand Trade For Post-War Period. Large Increase In Number Of Distris And Jobbers Expected. Many Distris Seek National Forum.

NEW YORK—Most outstanding fact which has come to light concerning manufacturers of coin operated equipment today recognize is the greater importance of the distributors. Many of them, restricting their contacts to operators and jobbers during this wartime period, have proved themselves most capable tact with operators and jobbers. Because of this they have been able to maintain a more reasonable factor of importance and value to the future of this trade.

It is also believed throughout the industry that certain manufacturers and distributors who have stood their ground during this war period. This has been coming to the fore since the days just before the war when many manufacturers arranged to have distributors who could fend for themselves in the crucial territories. This may prove an even more prominent practice when post-war era comes into being, is the belief of many distributors at this time.

Many new manufacturers are also expected to enter this field with renewed vigor. However, the trade does not meet the new distributors and jobbers, are today interested in getting into the post-war field. It is the contention that this period, which created wanted anything but good will for the distributors.

By a national forum, many distributor are a belief that they will be able to arrange a cure for a great many of their problems, and that the men who form this very important division of the field will be able to maintain a better understanding between each other and the manufacturer — the men who have been a problem to the distributors to help increase and expand this field. Many ops are a hint ouspicious of the honorable intentions of certain distributors, but generally the belief is that the result of distributors in the future will be in the hands of men who will have the belief that the new blood which will be brought into this field, after the war, will have to do a really solid nation.

This, say leading distris, is sure to be the case for they point to the fact that even ten machines today, and especially after the war, will bring in a machine. They prove to be a main topic for discussion in this forum, was the fact that there was a greater tendency toward "streamlined distribution". This was claimed to mean that distributors who进行了全国论坛，有观点认为这一市场将无力、得到一个更主要的流通政策，也将会与直接到客户，除此之外还必须符合与一般审批这些分销商在电器设备分发领域。

There is no doubt that a national forum of distributors in this industry would prove a valuable tool for the industry to improve and develop the field of electrical appliance wholesalers to their business.

It is also held by the average coin machine distributor that some sort of method for recognition must come into being which will bring about a more uniformm and accepted firm to help benefit the trade as well as the distributors. For the past time they have been free to operate as they wish. This lies in keeping with the survey made about two years ago by The Cash Box to reach a point of significance for the distribution sector, and which was published for the benefit of the trade at that time.

Opa Rules Matches Must Go With Cigs

NEW YORK—Daniel P. Woolery, OPA Regional Administrator, ruled this past week that the retailer who sells a pack of cigarettes must also sell a pack of matches. He also re-issued his circular of last week, that he has the matches. If the seller sells the matches separately, he is violating the OPA regulations.

This must prove of interest to all cigarette machine operators who also come under this same ruling. If they are required to sell a matched pack of cigarettes in March, 1942, and if they have matches, they must continue to give them free with the purchase of a pack of cigarettes today.

What Mr. Woolery forget to add to his ruling was—"provided they have the matches."

CORRECTION

In our ad in the November 28th issue of The Cash Box the statement "New England Distributors for Genco Manufacturing Company" appeared. That statement was an error. We wish to make it clear that, while we do have the parts and supplies listed in our ad, we did "not" intend to convey the impression that we are exclusive Genco distributors in our territory. Our position, in regards to Genco, is that of a leading jobber, the same as it was before the war.

OWL MINT MACHINE COMPANY

The A.B.T. Manufacturing Corporation, the home of the famous A.B.T. Chute-the-chutes, although engaged in war work is still the "House of Service". Due to the restrictions on civilian production, we cannot manufacture new coin-operated machines. However, we can help you to keep those prewar machines operating longer. If you need replacement parts or servicing call on us. We will assist you to our utmost.

When victory is ours, A.B.T. will again lead the field in manufacturing coin-operated machines. REMEMBER A.B.T. in postwar, but first remember to Buy War Bonds, the more, the better.

THE CONFIDENTIAL PRICE LISTS
AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

Copyrighted 1944 by The Cash Box, 381 Fourth Ave., New York 16, N. Y. Production in whole or part forbidden without written permission from the publishers.
