**New Commission Basis Imperative!**
THE CASH BOX

LAST MINUTE NEWS BOX

VOL. 6 NO. 24 MARCH 6, 1945 SERIAL NUMBER 180

WHEN THE CLOCK STRIKES "12"

NEW YORK - The 12 PM curfew placed into effect by War Mobilization Direc-
tor James F. Byrnes created much comment among coinmen this past week.

Originally this was supposed to have been an 8 PM curfew, as reported by The
Cash Box in its Feb. 6 issue. This industry, therefore, has much to be thankful for
that the 8 PM closing hour did not go into effect.

A rapid trip thru some of the Eastern cities right after the announcement,
as well as phone calls to the Midwest and West by The Cash Box, resulted in the
conclusion that this midnight curfew would, in general, not effect the take of the
average coinman in too great a degree.

The average tavern locations cater, to a great extent, to neighborhood trade.
This being the case, the play drops almost completely after midnight. In war work
centers where some spots have been getting play after midnight there may be a
noticeable drop. But not enough locations will be affected, the general consensus
is, to really hurt the take too greatly on an average.

The general belief seems to be that if this midnight curfew will help to
step up civilian morale to a high pitch then it will be more than worthwhile.
Opinions vary as to the saving in electricity, coal, manpower, etc. Most believe
this to be of very little moment.

In the belief that this may be an opening move by the prohibitionists, cafe,
cabaret and tavern associations have wired Byrnes asking that they be allowed
to remain open to their regular hour and instead close for a full day (in fact for
29 consecutive hours) which would effect a greater savings in fuel and manpower.

Mayor LaGuardia of this city, on returning from a visit to Byrnes (Thurs.
Feb. 22) asked that the cabaret and tavern men remain calm because New York, being
the entertainment center of the nation, special conditions would have to prevail.
At the same time he suggested waiting until WMC director, Paul V. McNutt issued his
report.

As is well known to the trade some territories already have a midnight curfew
on phones. At first it was believed that this would tremendously hurt the take.
Instead, it seems, the public came in earlier and got their drinking and entertain-
ment in before the curfew hour.

New Jersey coinmen report that some of their communities have had a midnight
curfew for sometime and that the public have become accustomed to it. Caldwell, N.J.
has had a 12 PM curfew since the repeal of prohibition in 1933. Coin machines in this
community are doing well. Little Ferry, N.J. has also had a 12 PM curfew and just
this past year voted to remain open later. Midnight closing will have little effect
here.

Coinmen who have Broadway locations in this city report that they expect a deep
drop in their take. This is to be expected. Yet it is believed that the drop will
not too seriously affect their averages. Not many coinmen have too large a number of
locations in the "roaring forties" area exclusively.

The same condition is expected to prevail in other metropolitan centers such
as Chicago, Detroit, Cleveland, etc. California has been closing earlier and there-
fore is not expected to feel this curfew too seriously.

In London, England, there is an 11 PM curfew for pubs. What's more, most of
these do not open until 2 PM. It is well known in the trade that British coinmen
would like to buy as many machines of all types as they could possibly get, regard-
less of this curfew.

Possibly one of the best answers in regard to the effect this 12 PM closing
will have on the trade is what The Cash Box heard in Baltimore this past week while
discussing this closing hour with a group of coinmen. One distrib, after listening
to an operator complain about this closing hour said, "If you feel that this will
seriously affect your collections, why not sell me your route,"

The operator's answer was an emphatic and very definite, "Oh, no!"
NEW COMMISSION BASIS IMPERATIVE

Of all the necessities in this coin operated machines industry, in preparation for the forthcoming post-war era, a new commission basis is absolutely necessary so that operators will be assured of financial soundness when new equipment is again produced in volume.

Every operator who was connected with this industry prior to the war, remembers what the term "machine poor" meant. Only the war saved a great many of the coinmen in this industry from being included in this category.

Therefore, prior to running into such a period once more, this industry is being urged by the Cash Box, just as it has been for a great many, many months, that to insure itself sound financial continuance during the post-war period, to change its present inequitable commission basis to an entirely new set-up in favor of itself.

To begin with, the average location in this industry that is now on a 50%-50% commission basis, does not deserve so high a percentage of the gross intake. The average coinman will admit that his overhead has increased better than 30% during this war period. With taxes what they are at present, and sure to continue on the same level for many years after the war, and also with the fact that labor, materials and supplies costs have tremendously increased, it is extremely foolish to continue on a 50%-50% commission basis with the average storekeeper.

The average location, furthermore, never did deserve such a commission basis. This was only brought about by the extreme competition that existed in this industry during the first flush of the pin game era. It is simply a carry over from the old slot and pin game commissions. (As far as slots, consoles, pin games and practically all amusement machines are concerned, this sort of commission basis can more or less endure the rigors of present operating, the even in the case of this equipment such commissions are not considered good business by a great many.)

While money is being spent freely, as it is today, and with the anticipation that it will continue to be spent freely by the public for a year or so after the war is over, this 50%-50% commission basis will probably endure. But, when conditions return to normal, and with general overhead away beyond what it ever was before, with the new equipment sure to be much higher priced, then certainly such a commission basis should be changed to a more profitable one for the operator.

The Cash Box has constantly recommended that a 70%-30% commission basis be arranged for by the men in this industry now, and carried over into the post-war period. This means that the additional 20% which the operator will be obtaining from the average location will go toward the payment of notes that will surely come into being, toward the increased overhead that is already here and that will make itself even more felt after the war if any expansion moves are made, and especially to cover the increased cost of labor, supplies and parts.

Music operators admit that they are today purchasing over 75% of the records they need from general retail outlets and that they are paying top consumers' prices for these records. This alone is a tremendously increased overhead cost - just on their records alone. They must arrange to assimilate all these additional costs or take a bad beating in the long run. And such a beating will once again place them in the category of being "machine poor".

It is admitted that there are some unusually good locations where the 50%-50% commission basis can still apply. These average about 1% of the locations in any community. This means that after this 1% the rest are just average to good locations. When a quantity of machines are placed the average income sometimes falls to an alarmingly low point. This is due to the fact that so many small producing locations must be included with the better 1% of the spots. But, no such alarming drop will occur if a 70%-30% commission basis is placed into effect by the operator.
"The Coin Machines Merry-Go-Round"

It is certainly puzzling to hear from so many outstanding coin men in the nation that The Cash Box suggestion of 70% to the operator and 30% to the location is one of the best ideas ever advanced to this industry. Yet, with the exception of only a few territories which have already accepted this suggestion, no others seem to have followed, even tho' they handsomely praise this plan.

The majority also realize that at this time, with the average location owner more or less dependent on "outside income" because of lack of his own merchandise, this change to a new commission basis is more easy to place into effect than it will be when the war finishes. When the new blood enters into the picture it will create keen, and perhaps even hurtful, competition. Now is the time, not after the war.

This is the time to get a 70% to the operator and 30% to the location commission basis under way. Only in that fashion will the average coin machines man be able to survive competition, higher taxation and overhead, higher cost of equipment, and yet remain in a financially liquid and sound condition.

This is the time to call together all others in your territory and ask them to consider this proposition. They, too, want to save all that they possibly can. They, too, want to be prepared for this coming post-war period.

Any good accountant can step up to a blackboard and show reluctant men that at 70%-30% they are not demanding too much from the average location. Surely the men in this industry are out to earn profit. Surely they want to protect their financial investment after the war. Surely they will then admit that this is the commission basis they should, and actually must, adopt before the war finishes and competition gets under way against them.

If ever this industry had the opportunity to institute a new commission basis, this is the time. Those men who have vision, and who intend to remain in this business after the war is over, should make it their greatest effort at the present time to get a 70%-30% commission basis under way in their territory. Not only will this mean their own future and better welfare but it will mean the future better welfare of all the industry.

THE RECORD MFRS HAVE NOT ANSWERED

The record manufacturers have not come forward to answer this industry. They have paid no attention to the fact that the men in this coin operated music machines industry have actually brought their case into the open before them and presented their complaints frankly, honestly and aboveboard.

Not one word from the record manufacturers as to why the average music machine operator must purchase over 75% of the records he needs from local retail stores and pay top consumers' prices for these records.

No answer to the fact that some of the coin machines men who are purchasing these records from retail stores are men with whom some manufacturers have dealt from nine to eighteen years and during that time sold them at "dealer's" prices.

No answer to the fact that the distributors are being tremendously favored above these older and larger volume users. Some of these dealers are favored to such an extent that many operators are told to go to them to purchase their records by the distributor, the agent and even the branch offices of the record manufacturer.

This was openly brought out in the letters of a great many men in this business. A few of these letters appeared in the February 27th issue of The Cash Box. A great many others are on file in The Cash Box offices.

Why hasn't the record manufacturer come forth and answered the questions about his present method of inequitable distribution? Why hasn't he stated just what is in his mind regarding his future method of sales to this industry?

He knows that the men in this business must purchase the records of Bing Crosby and certain other stars that he features, whether they like to or not. Knowing this, is he now so inflated with his importance and ego that he feels it unnecessary to even answer the men of this trade? Or does he think so little of the men in this business that he does not believe it necessary to answer them?

A great many in this coin operated music machines industry have proposed that a boycott be placed into effect. Others have recommended that a record company solely
for the members of this industry be created. This latter course seems to be the major-
ity opinion. The average music coinman is of the belief that such a record company
is can be made successful by the 400,000 jukeboxes now in operation in the nation.

The belief of The Cash Box is that these record manufacturers are chasing a will-
'o-the-wisp in their exaggerated belief in the future home market. They seem to have
forgotten that the real instigator and actual creator of their present home market was
the juke box.

They seem to have forgotten, too, that the juke box, playing each record for 5¢
was heard by a great many people in the location and thereby acted as a tremendous
promotional advertisement for them. This started the general public's urge to buy
records. This helped to create their present market. This actually gave them a new
lease on life. But, it is a short-term lease, as they once before learned.

The Cash Box still feels that the higher-ups in the record manufacturing industry
know very little of what is going on in their branch offices, among their distributors
and agents today. Just because these people are constantly demanding larger and larger
quantities of records (and this is because the present record won't stand up long
enough to get slow action) may have lulled them into the belief that these outlets of
their are doing the right thing by this trade.

This is the time for all the music machines men in this industry to come forth
and openly and strongly protest the present viciously inequitable distribution system.
These complaints must go to the top men in each of the "big three" firms to start with.
If this doesn't get the desired results from these firms then this industry will cer-
tainly have to choose a new method for itself to better assure itself the records it
needs.

FREE DEPOSIT INSURANCE

Many months ago The Cash Box advised its subscribers that they could obtain free
deposit insurance from this publication for any deposits which they sent to advertis-
ers in this medium for machines or merchandise advertised therein.

This is the one and only publication in all history which is willing to insure de-
posits up to $100. for monies sent to its advertisers.

To obtain this free deposit insurance the sender simply first asks The Cash Box
whether it is okay to send the deposit to any certain advertiser. On receipt of a let-
ter from The Cash Box that it is okay, the sender can go ahead with the full under-
standing that should his $100, or any part thereof be lost, that this money will be
returned to him by The Cash Box.

The Cash Box has been extremely careful in choosing its subscribers. Many are
surprised at times to learn that certain firms will not be accepted as subscribers to
this publication. The Cash Box believes that it has America's finest coin machines
men from coast to coast as its subscribers. These are the men who actually lead this
industry.

SPRING SPECIAL - 1945

With the Russians in the outskirts of Berlin, with the Allies breaking thru the
Westwall, with the Japs being gradually pushed back to their home islands, a great
many new and startling surprises may be forthcoming this Spring of 1945.

The Cash Box will wait for the last moment to bring this industry the latest bit
of news that may be forthcoming regarding any announcements from Washington as to what
may happen should the war in Europe come to a sudden close this Spring.

There is no doubt that should the European conflict suddenly end that WPB and a
great many other governmental agencies will have to suddenly make decisions of great
moment for the benefit of all industry.

There may be a return to former products production even sooner than many expect
at this time. Whatever happens, there is no doubt that the forthcoming Spring Special
issue of The Cash Box will prove a very important one for this trade. It will proba-
ably contain the first news flashes of what changes can be expected. It may even give
this trade its first glimpse into its future prospects for post-war. Therefore, it
will be an issue that everyone in this industry can look forward to with keen interest.

And, in such an issue, this is one time the trade can liberally identify itself
for post-war consideration.
"Talking Out Loud"

TRADE WANTS NATIONAL GOVERNMENT LEVEL
Distributors And Jobsber Seek National Forum. Help Believe Move Can
Adjust Future. Hope For Revision Of ODT Ruling to Allow
Industry To Get Together Prior To Post-War Production.

NEW YORK—Commen throught the nation are of the belief that a national meeting, prior to production getting
under way once again, would be of tremendous benefit

National Forum To Iron Out Problems
It is well known that distributors and jobbers believe that a national
forum for the members of their division of the industry should long ago
been given. Many distributors urged that publicity be given to this idea. Such an item appeared in The Cash Box
and the response was unusually good.

The distributors and jobbers are of the belief that a great many ill's,
which beset their division of this trade during the pre-war era, could be
ironed out prior to the post-war era getting under way. They also believe
that such an annual national forum would benefit all the industry. They
cite that as the sales factors in the trade have much to do with general conditions.

Ops Want National Meet
The ops, too, believe that a national meet would be of very great
importance to them. They feel that this is the time for operators to better
understand each other's problems. Only by getting together in a business
meeting, they claim, especially before the post-war production era gets
under way, will they be able to iron out a great many problems which have
to weigh heavily on the trade during this period.

They also want to have a better understanding of governmental agency
rulings. They also seek to more solidly establish the thought of just who and
what an operator is so that sales to storekeepers will halt.

Help Post-War Manufacture
All believe that a national meet would be of great interest to the
manufacturers. They state that not only will they have a better understanding
of the temperament of the trade, prior to starting production again, but
that he will also be able to gauge his post-war possibilities. This, they feel,
will add to the importance of the average manufacturer for most of them
have tremendously increased their manufacturing facilities.

ODT Ruling
As is well known the present ruling of ODT (Office of Defense Trans-
portation) February 1, 1945, was to eliminate any meets of any kind.
As ODT suggests to those who decide to call a meeting to ask themselves
first, "Will this help win the war?"

The trade believes that such a statement is of good moment at this
time, but with all the nation looking to the future of industry, especially
the manufacturing divisions, that any other conditions, such as war
prices, should not be the case. ODT, they feel, should announce at the
earliest possible moment revision of this ruling when transportation suffi-
ciently eases so that industries can get together to plan for the future.

ODT Ruling

Announce Sales Outlets
Among distributors, jobbers and operators is also the belief that with very
sales outlets as yet officially made known by the manufacturers, such a meet
might help settle this problem, too. They believe that this will allow many of the manufacturers to decide on territorial arrangements.
This, they claim, is of great importance, especially right after the war
is over, so that all the industry will know just whom their distributors are
for post-war purchasing.

Extremely Important
One noted distributor writes, "A national meeting devoted to the best
interest of this industry's future will not only help the men in this business
but will help the plans for all business. We can only proceed to hire new
people and arrange for expansion when we know just what our future
prospects are. A national meeting is extremely important."

British Will Meet
There are some who are of the belief that such meets will be held in
England even before they are held here. They claim that the British
government is encouraging all industries there to get together as soon as
possible to arrange for plans for the future. They feel that this will help
make for post-war production. This is something that is definitely true for
the European and other markets.

What are your ideas in regards to a national meeting of this industry prior to the start of
post-war production?

Look To The GENERAL For LEADERSHIP

SYMBOLOF SERVICE

Don't think for a moment that we adopted the symbol of a "general" for its top-ranking importance. To us, the GENERAL symbolizes faithful service and creditable performance of a particular job. Consequently, it becomes a constant reminder to us of our obligation to our customers... of the need for maintaining the quality standards that have won the GENERAL a reputation for dependability.

THE CONFIDENTIAL PRICE LISTS
AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY, BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
