ARE YOU GETTING MORE RECORDS?
"The Coin Machines Merry-Go-Round"

ARE YOU GETTING MORE RECORDS?

At long last, after many weeks of bringing to the fore the anger of this trade against the "big three" record manufacturers, namely: RCA-Victor, Columbia and Decca, The Cash Box was able to publish, this past week, a letter from RCA-Victor to the effect that they were making a most complete check of their distributors in an effort to ascertain just where, and whether, there was any discrimination against the coin machines music operators.

A letter from Columbia Record Corporation's Mr. Paul Southard, who is vice-president of this firm, has also arrived. Mr. Southard advises that his firm have set up a comprehensive allocation system in each distributing point. He writes, "The reason we did this is because we fully appreciate that we must distribute our merchandise equitably or affect our reputation for fair dealing." Mr. Southard also advises that his firm have purchased an additional factory at King Mills, Ohio, and as soon as they can get this new plant into operation, they feel that the extra output will eliminate many complaints regarding lack of service.

As yet, The Cash Box has had no response from Decca Record Corporation. With Decca at present producing some of the best numbers they have ever recorded, the coin operated music machines man is anxious and even eager to hear from this firm. It is imperative that some sort of equitable distribution arrangement be made whereby the cointrade will feel that this record manufacturer, too, desires to most fully cooperate with it.

As far as the new Majestic Record Corporation is concerned, which is headed by New York's former Mayor Jimmy Walker, and which is a division of Majestic Radio & Television Company, no response has been received. The Cash Box immediately wrote to this new firm (created after the purchase of Eli Oberstein's Classic Record Company and placing Mr. Oberstein in this new firm as one of its executives) asking whether they have set up a program for distribution to the coin machines music trade. This firm is handling their records thru their present radio distributors and it is now believed that they will favor their own radio dealers. Many other of these smaller firms have been contacted but as yet no response has come from them. (It is also now rumored that because of the anger of the cointrade against the present record manufacturers that a new and extremely large record manufacturing firm will introduce itself within a few weeks).

Most important to all in the coin operated music machines industry are the "big three" record manufacturers. It is generally conceded that if these three come to the fore and institute a program for the coinman, that the smaller record manufacturers will follow suit. The fact of the matter is that the record manufacturers, as in the case of Victor and Columbia, are shipping their products to their distributors in the complete belief that their distributors are equitably distributing these records to both the retail stores and the music machines operators.

The entire bone of contention is now at the door of the distributor. That is why both firms are making a complete investigation of their distributing points. And this investigation was brought about by the many letters published in The Cash Box which were received from music coinmen from all over this nation and Canada.

The Cash Box is not stopping at this point. It believes and knows that sometimes such investigations fall far short of their mark. The manufacturer and his executives may be most sincere and earnest in their endeavor to rectify whatever mistakes have been made in the past and bring about a cure for whatever will arise in the future. Therefore, to make certain that the distribution situation definitely better itself for this trade, it will be up to the music coinman himself to note whether these investigations have bettered conditions for him as far as obtaining Victor and Columbia records are concerned.

Many surrounding factors must be taken into consideration. When The Cash Box
first complained to Decca regarding the fact that Savannah's coinmen had not received records for many months, and that the branch office of this firm in that territory had attempted to foist lamps and illuminaries on these coinmen without first obtaining orders from the merchants, each one of Savannah's coinmen suddenly received 200 records from Decca's branch office where they had formerly received nothing. This proved that they could have received records all along.

It also proved that coinmen are lax in cooperating with each other and coming to the front so that Decca's main office could help adjust their problem. As yet, tho, Decca has not written to The Cash Box in regard to its attitude for this entire industry. Whether they, too, are investigating their branch offices because of the many complaints music coinmen have made against them, and which were published in The Cash Box, so as to arrange for more equitable distribution to this industry, is not known.

But even this is only the beginning of this record problem. One noted needle manufacturer has just learned that operators are being loaded with his needles. His needles are distributed to coinmen by one of the record manufacturers. One noted music coinman reported to this manufacturer, thru The Cash Box, that he now has 5,000 of his needles on hand and is willing to sell these back to him at a loss of 62% on each needle. When questioned as to how he obtained so many of these needles, this music coinman answered, "Because I simply have to get records to operate my 700 machines."

It is also known to The Cash Box that many retail record store dealers have also complained to the record manufacturers. Their complaint was based on the theory that the record manufacturers were showing preference for the coin operated music machines trade. (At least this is what one of the noted "big three" record manufacturers reported to The Cash Box.) What was most interesting to The Cash Box was the fact that these retail record store men came together in a group in New York City and met with the record manufacturers in an effort to gain more equitable distribution for themselves. This is exactly what The Cash Box has been urging this trade to do.

Since The Cash Box has already received and openly published the letters of both Victor and Columbia, perhaps there is no need at this present moment for a meeting of coinmen. But, The Cash Box urges that music machines men, everywhere in the nation, now keep their eyes peeled to note whether these record firms have been capable of convincing their present distributors that they should give this trade more equitable distribution.

There are coinmen who are receiving a goodly share of records. There are others who received very few, if any at all. For example, one noted midwest music operator who has approximately 600 machines in operation, received only 15 of a very popular number. This number has now been manufactured for more than ten weeks.

But if this man did receive an equitable share, when he received these 15 records from this record distributor, as compared to the entire shipment of records which this distributor has received in these ten weeks, then, regardless of this small number of records, this could still be considered equitable distribution. Yet, it is extremely difficult to conceive that a distributor, whose territory includes the metropolitan Chicago area, would receive so few of so outstanding a number to give so prominent a buyer as this operator of 600 machines but 15 of that record. Still, The Cash Box asks all music coinmen to be fair and careful in their judgment as to what equitable distribution can mean.

There is no doubt that music coinmen have not been getting the number of records they need for their equipment, in comparison to the numbers they received even 12 to 18 months ago. The record manufacturers themselves now realize this. Under present restrictions, whereby they have been cut to a very low percentage of output, it is impossible to expect to receive the very same number of records from the record firms. But, there is a surity that whatever is being sold to coinmen is not of a fair and equitable number, as compared to former quantities of even a short period ago.

Some record distributors claim that they will not appoint any more dealers. Yet in every community, clear across the nation, new retail record stores are popping up at the fastest and greatest rate in all the history of the record business. (A survey is now being made by The Cash Box in one community and figures in this regard will soon be reported to the trade.) What is more, these record stores start right into business completely equipped with records. Not just albums, but also with the very latest recordings.

Therefore, there is inequitable distribution somewhere down the line from the manufacturer to the user. The further fact that the coinman is forced to purchase from 75% to 90% of his records from retail stores, which include dime stores, furniture, electrical appliance, drug and cigar stores, does not lend itself to logical reasoning. The average music man has always been in the "dealer" category. Today he is likened to a "consumer".
Many music operators, who were formerly classified as "dealers", have suddenly been advised by the distributors in their area that they are no longer dealers. Some who always received shipments of records on regular advance orders, are now being told that they must call in person for whatever they want. In short, in every fashion music operators are being shunted about and actually being advised that the best place for them to obtain records are at certain designated retail outlets. In fact, in one noted city, operators are paying under the table. In another they are being over-charged and are forced to keep quiet. In a third, fourth, fifth and up to many hundreds they have to loan trucks, tip porters, stand on their heads, buy candies, bring cigarettes, entertain, and do a hundred and one other ridiculous stunts to get records in a number anywhere near the quota which the record manufacturer has most sincerely allotted for them.

Now that both RCA-Victor and Columbia have come to the fore, and are attempting to cure whatever flaws might exist in their present record distribution, so that a more equitable share of records will go to the cointrade, much hope is now being held forth for the members of this coin operated music machines industry.

IT WILL BE UP TO THIS COIN OPERATED MUSIC TRADE TO CAREFULLY NOTE WHETHER EQUITABLE DISTRIBUTION DOES RESULT FROM THE INVESTIGATIONS WHICH BOTH THESE RECORD MANUFACTURERS ARE CONDUCTING. IT MEANS THAT EVERY MUSIC MACHINE MAN MUST SPEAK UP NOW AND TELL THE TRUTH ABOUT RECORD DISTRIBUTION IN HIS TERRITORY. SAVE THIS ITEM. WITHIN A FEW WEEKS SEND US YOUR ANSWER TO - "ARE YOU GETTING MORE RECORDS?"

IS AN INTERNATIONAL COINMAN ARISING?

This war, it is generally believed, has brought about the end of isolationism. It has also brought on international thought. Not only among the statesmen of the world but also among the plain peoples of every country.

The men and women who comprise the nations of this earth are now thinking far beyond their borders. Perhaps the airplane had much to do with this. Perhaps many other factors. But whatever has brought this about - it is also striking deep into the heart of every industry in this great industrial nation.

It is a known fact that this country, for many years after the war is over, will be working hard to help other nations get back on their feet again. The orders which have already poured in to the manufacturers of every conceivable type of merchandise in the United States are almost beyond calculation. The figure runs into billions of dollars. And this is only considered the first part of what will eventually result.

The same is true in this industry as far as future expansion is concerned. It has been said time and time again by men who know this business that the British coin machines market alone would use the entire first two year's production of the present coin operated machines. And this is only one of the foreign nations interested in purchasing coin machines as their peoples struggle back to normality and eventual prosperity.

Will the result therefore be that the average coinman, who has always regarded his own little territory as the world domain, become internationalized and begin to think in terms of buying and selling over many miles of earth and ocean?

This war nationalized the average operator. There is no doubt of this fact. Men in New England are selling to and buying from men in California. Men in Montana are dealing deep into Mexico. From New Orleans to New York and from Spokane back to Savannah - a most completely nationalized business hums for every coinman. Men who never before shipped a machine - are today buying, selling and trading equipment over distances they never before believed they would cover.

All this was brought about by the fact that as the industry became more and more highly concentrated and parts, supplies and machines became scarce, men went many, many miles out of their way to get what they needed. Of course the trade realized that when production again returns to normal that distributing factors will arise to cover the territories. In this way much national exchange is expected to halt. Yet, there are many who have learned to like this sort of wide coverage business and want to continue it.

There is an air of internationalism prevalent in this business. Many months ago The Cash Box predicted that salesmen would fly from New York to London with as much nonchalance as they formerly flew from Chicago to Los Angeles. This business is bound to internationalize itself. It has a tremendously fine head start over a great many other industries that never before did enjoy the advantages which this trade's products offer to foreign markets.
ATTENTION: DECCA, VICTOR, COLUMBIA—READ THIS LETTER

Gentlemen,

It is about some time one was doing something about the record situation. I've been wondering just how long our operators are going to set back and take the 'gaff' the Decca, Columbia, and Victor distributors are handing out.

"It really did my heart good to read the March 6th and 20th Issues, for I come from the would stand up and speak their piece about this terrible record situation. And brother, I mean it's terrible in this locality."

"But now, well that's a different story. Decca and Columbia have ent us 'off' entirely. We must buy from the retail stores. We still have to buy, but at least the jobber just what they send, about four records a month, and these are the usually poorest releases."

"We buy our records from all over the country. Send an average of ten orders a week to various record houses. Always have to pay retail prices, plus express charges, from coast to coast to New York state."

"For example. A short time ago, Decca made a record, 'Rum and Coca Cola' by the Andrews Sisters. The two music houses, here in Lewiston, received a total of two hundred and fifty of these records. We had to purchase the records at each store. We could have used eighty records. We had to send our friends in to buy. And order from all over the country. At the present time our location will do all the Rock-Ola's and Coke's on their machines."

"We will go 100% on a boycott. Personally, I believe the thing to do is form a company to make records exclusively for the operators. Let the operators buy shares to finance the company."--A. E. Condon, A. E. Condon Sales Co., Lewiston, Idaho.

Texas Tax Bills In Committee

New 5 Man Sub-Committee Studying 3 Proposed Bills. Ops Hope This The End.

AUSTIN, TEX.—After many weeks of hectic efforts on the part of Texas coinmen it is at last believed that the three proposed tax bills tremendously increasing license fees on all types of coin machines will now remain in the newly created five man sub-committee until this session of the legislature is over.

The first bill presented was to increase the yearly state license fee from $3.50 to $50.00. This alarmed all music men in this state for it meant that Counties and Cities throughout Texas could put the machines to as much, or more, as the state law, for their licenses. And this would mean an average of $75 per year per phonograph.

The second bill was in the process of being turned over to the 21 man tax committee in this state, another bill was introduced asking that the phonograph game license be increased from $30 to $100 per year and that merchandise vendee's be imposed at $2.50 to $30 per year.

This created a storm of protest from all over the state by merchandising machines and who pointed out that such a tax was definitely confiscatory. The legislation in this case would have cost us 9133 dollars. We drew the proposed $30 yearly fee on venders. This caused consternation in the tax committee.

To offset this a special three man tax committee was created to handle the coin machines situation. Before this committee could get the facts, another bill was introduced, seeking to obtain a yearly license fee of $60 on phonos plus 5 percent of the gross receipts, and a yearly license fee on pin games of $100 plus 15 percent of the gross receipts.

When this occurred an addition was made to the three man tax committee and five men are now on this special sub-committee to study the coin machines situation.

Because of the puzzle created by these three different tax bills, Texas coinmen are of the belief that the present session of the state legislature will be finished before these bills can be untangled.

Pinball Plane Is New Aid to Gunners

DAYTON, O.—Aerial gunners at Wright Field here are sharpening their eyes on the army's newest and fastest fighter plane, the Bell P-39 Air King, which has been turned into a "flying pinball machine" for this purpose.

Gunners students use bullets made of lead and plastic and which are designed to shatter into powder on contact with armor plate. They blaze away at the machine, which is set up to record on lights flashing in its cockpit and its propeller hub, just the same as they would flash on a pin game.

The machine, which was developed by the air service technical command, wants this latter accomplishment one day as the gunners are to find out what they will be able to do for that purpose."

Golombe Rock-Ola Distrib.

BOSTON, MASS.—Jerry J. Golumbo, who has just sold his interest as president of Trumount Automatic Sales Corp., this city, reports the creation of a new firm to be known as J. J. Golumbo and Company which will act as representatives for Rock-Ola distributors possibly in the future.

Jerry also reports, "We will also be trying to help manufacturers of coin-operated machines."

Westinghouse Optimistic About Record Future

NEW YORK—Westinghouse Electric will be able to learn all about coin operated machines used for teaching new mechanics the intricacies of coin operated equipment."

Why can't manufacturers make films showing how their new machines should be repaired?" Their films are just being turned off the films our mechanics will have to go back to the machines, as well as how to correctly handle and repair them."

IDAHO OFFICERS CLUB HAS HITLESS SLOTS

MOUNTAIN HOME, IDAHO—Interest of slot men throughout the country is growing as the slots located in the Officer's Club at the Army Air Base here.

The sign reads: "In case of air alert, go to this Building. From там, the slots will remain in the Officer's Club until the war is won—then they'll be good for hell."

Ops in this section vociferously deny this statement. They claim that these slots have been hit a few times and that they can get back on the line again.

MAC CHURVIS JOINS AMERICAN AMUSEMENT CO.

[CHICAGO] - Mac Churvis, well known throughout the country as a sales executive, joined the firm of American Amusement Co., Chicago, Ill., as Sales Manager. Mac intends to leave for a road trip, Co., will be traveling about for 60 days or so.

After receiving an honorable discharge from the navy some months ago, Mac served as Sales Manager for one of Chicago's leading distributors, picking up the threads that had been broken by his duties as a Chief Petty Officer for over two years.

TALL STORY OF THE WEEK

De Witt (Doc) Ekaton, formerly district sales manager for Buckley Music Systems and now Director of Personnel, War Department, Secy., Stimson's Office, visits The Cash Box, and tells about the newly developed coin changer to be released as surplus material after the war. "This coin changer, upon the insertion of a "bull" nickel, throws out two dimes, and a nickel. A price of a unit will be $10,000, purchases in quantities will range higher." "Doc" sighs deeply when talking coin machines. He will be back stronger than ever after hostilities cease.

HOT TIP FOR MUSIC OPERATORS

We hear that many progressive music operators are getting ready to place that perfectly appropriate record "There'll Be A Hot Time In The Town of Berlin" for that certain day.

MORE NICKEL CANDY FOR VENDORS

The War Food Administration reduced from 50 to 35 percent the amount of candy bars, rolls, and packaged candy being set aside for government purchase. Altho no increase was authorized in the amount of candy to be manufactured, the operators of candy merchandisers can now look for added deliveries.

TOLEDO UPS PIN AND GUN LICENSE

City of Toledo, Ohio, has just upped pin game and gun licenses from $50 to $100 per year. The same fees in this direction were felt by colman here they did not believe so great an increase would come into effect. No colman fighting increase.

IDEAL NOVELTY CO. OPENING IN CHICAGO

Carl F. Sipple, Ideal Novelty Co., St. Louis, Mo., noted colman, is opening offices in Chicago with Jack Rosenfeld, who is just out of armed services in charge. As yet no definite information as to where these new showrooms will be located.

ED BROWN HAS MECHANICS SERVICE SCHOOL

Ed Brown, National cigarette machines distr., Dallas, Tex., reports that he has been conducting a mechanic's service school for sometime now. He gives new men an intensive one week course that has won much praise. Ed reports that after the war he is going to increase this and will have one of the most outstanding mechanic's service courses ever offered for the benefit of cigarette machine ops.

A HAPPY ANNOUNCEMENT
THE AMERICAN AMUSEMENT COMPANY
ANNOUNCES with pleasure the addition to its organization in the person of Mac Churvis, well known coin machine man. We are happy to have “Mac” with us. He has made many friends in his dealings with coin men everywhere. Lots of luck “Mac”. We know that your experience and likeable personality will continue to be an asset to both ourselves and those with whom you deal.

An Important Announcement

... it is indeed with great pleasure that we take this opportunity to notify our friends — the coin machines industry — of our appointment as Exclusive Distributor for the post-war products of Rock-Ola Manufacturing Corporation.

... once again we assure every coin machine man in New England that we shall continue with our policy of fair and square dealing and will continue to offer only the finest of service and equipment — at all times — and under all conditions.

... from time to time we shall announce the additional products we will distribute for the leading manufacturers of coin-controlled machines. We invite you to visit with us at your earliest convenience and discuss present, as well as post-war, plans with us.

NOT A ONE-MAN SHOW

It's our belief that the coin-machine industry is not a one-sided endeavor. It requires a perfect meshing of gears... the manufacturer, distributor and operator working hand-in-hand to devise and plan what's best for the betterment of the business and we believe it's the distributor's job to act as the coordinating gear in this plan. Our files contain many a case-history that proves the soundness of such a policy.

THE CONFIDENTIAL PRICE LISTS
AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
