TAKE IT EASY!
"The Coin Machines Merry-Go-Round"  
by Bill Gersh

TAKE IT EASY!

Last week's article brought great response from the trade. Most coinmen are of the belief that they should start their post-war plans into instant operation.

It seems, tho, that there is one big obstacle in the way of these coinmen getting started immediately. And that is just how to get their post-war plans into operation when they don't as yet know where they stand. By this, many of this trade's wholesalers mean, that tho they have been in contact with certain manufactorys, they have as yet received no answer as to whether or not they will continue to handle the products of these factories.

Operators are just as puzzled about where to begin. They claim that at present their routes require little change or further supervision, with the possible exception that they could use more manpower. And this, they realize, won't become fact until there is a general release of manpower throughout the nation so that they can hire the number of people they will require.

The wholesalers believe that they have the greatest problem. Many are ready to spend large amounts of money to modernize their present quarters. Others are even willing to construct entirely new and complete buildings. Some would like to know whether it would pay them to put on more men. A few are of the belief that it might be best to wait until they actually see the first new machines on the market and then decide their future course.

All this is proof sufficient in itself that the trade is eager, and even anxious, to get into instant post-war action. The average coinman wants to know a little something about what he can expect in the post-war period. The announcements made by the nation's leaders have him all confused. He would like to hear from the factories in this industry as to just when they believe post-war production will become fact.

This is an extremely difficult question to answer. The factories would like to please the average coinman and tell him all about what he can expect. But they, too, do not as yet have the information they need to make any announcements regarding their own plans.

In short, everything at present tends toward one of the most confusing eras this business has ever been faced with. Some even believe that this will bring about much misunderstanding.

The only present answer to this jumbled-up start to post-war, since the announcements by James F. Byrnes, former War Mobilization and Reconstruction Director, is for this trade, and probably for all business men, to await developments. And wait with greater calm than ever before exercised.

The trade must realize that the manufacturers are just as eager to get back into the swing of former products production. The best method to follow at this time is for the members of this industry to continue with what they are now doing and wait for official announcements from the manufacturers.

These announcements will come in due time. The manufacturers are faced with a great many problems. Being engaged in war work at this time they must proceed along the basis that this war work is their only business. When, and if, the government calls back their war work, they will then be advised as to their position for reconversion.

This, too, brings up many problems. Most factories have government owned machinery on their premises and these must be cleared away so that their own machines can have the room to turn out whatever they will need. At the same time, and most important, they must have definite knowledge of when and where they can obtain the materials
to manufacture with, and in what quantities.

In addition to all this they must at all times comply with present government agencies rulings regarding manpower, materials, etc., etc.

No manufacturer would like to find himself idle and forced to maintain a large staff of employees. The average manufacturer also realizes that the moment he releases his employees, even if for a short period layoff, he will have his hands full trying to get them back again.

All these are but a few of the many problems facing the manufacturer as regards his turning to reconversion and getting set for former products production.

The manufacturer would first like to satisfy the great back-log demand for all types of equipment in this field by building the last models he made when the war stopped him. This would prove of great benefit to the industry.

Once having trained his employees from war work to the work necessary to make coin machines, he could gradually proceed, as materials and manpower become available, to turn to the post-war products, which the engineers in his experimental department have been working on for sometime now.

Therefore, the complaints received from operators and from the wholesalers in this industry that they would like to immediately get started into post-war action, but are being held back in this move by not hearing from the factories, must be taken with much, much more than a grain of salt.

The factories in this industry will be among the happiest in the world to be able to announce their post-war plans, the moment they can officially do so. They are eager to get back into action. But they do not believe in making premature announcements and causing any disappointment on the part of their many friends in the trade. Nor would any manufacturer want anyone to enter into any sort of expense, however small, because of premature and unofficial statements.

**RESORTS LOOK FOR BOOM SEASON**

Resort coinmen believe that the Summer of 1945 will prove one of the greatest boom seasons experienced by this industry.

The belief among arcade men is that the average person is today in that frame of mind where he will seek diversion. Many are also of the belief that the war will be over as the resort season gets into swing and that this, too, will add to the crowds who will flock to the vacation spots.

It is already reported from various resort areas that reservations for in advance of the season have been made. Some resorts expect the largest crowds in all their history.

Many are preparing for what they believe will be the last great fling of the general public at resort centers prior to the post-war period when the boom of business will take up the time of the average man and woman.

Not only arcade owners, but also those operators who bring machines to resort areas, and among these are many coinmen who haven't operated in resorts for the past few years due to lack of manpower and gas, are of the belief that 1945 is the year when collections at resorts will reach an all time high.

There is already a flood of operators to the vacation spots taking up as many locations in advance as they can possibly handle. Some are even arranging for combined operations with fellow coinmen. In this fashion they expect to overcome the lack of manpower which they feel will continue acute even after V-E day.

Group games are coming back into popularity in such centers as Atlantic City. Other spots along the Jersey shore, which have been running group games for sometime, believe that this season will surpass all former seasons in popularity for this type of equipment.

Slot men have been getting around the resort areas for the past month, according to reports received. The resort runs have always been one of the big stand-bys of these men. This year they really expect to "go to town" as one of them reports.

The resort season of 1945 is therefore opening early and opening with tremendous optimism and enthusiasm. Big boom times are again ringing in the ears of the resort coinmen.
THE RECORD PROBLEM PERSISTS

A few weeks ago The Cash Box asked the trade whether it was getting more records. As yet no answers have arrived to indicate that the condition in record distribution has so much bettered itself that this industry is now satisfied it is receiving a fair and equitable share of the quota of records being manufactured by the "big three", namely; Victor, Decca and Columbia.

As is also known, investigations are being conducted by both Victor and Columbia. These are the first two of the "big three" record manufacturers who came to the front to answer the many complaints received by The Cash Box from music operators everywhere in the country bitterly relating that they were no longer receiving an equitable share of records from their record distributing outlets.

To this date Decca Record Corporation has ignored the trade, and has not answered. This is the same statement The Cash Box was forced to make in its April 10, 1945 issue, The Cash Box has tried constantly to arrange contact with Decca but has been unsuccessful. It now seems that Decca has no one in sufficient authority at its New York offices to answer whether or not they believe that the coin operated music machines trade is receiving its just and equitable share of records from their branch offices throughout the country.

Because the record problem persists, and has reached such proportions, it has brought one new record manufacturer after another into the field. These new manufacturers know that the coin trade is not getting records. They also know that they can now capitalize on this desperate situation. And that they are taking advantage of this opportunity is well known. Operators are willing to purchase any sort of records to assure their locations the necessary music.

Whether these new manufacturers will last into the post-war and adjustment era, which will follow the post-war period, is something that only time will tell. Important to the average coinman is the fact that some few of these newly formed record manufacturers are strictly promotional in character.

Rumors now rife in the trade are to the effect that some of these firms are simply issuing notification of records they "intend" to manufacturers, if and when they can get enough cash deposits to cover the cost of such manufacture. Already some music coinmen are stuck with deposits, it is reported, and have been waiting for many weeks to receive what they ordered.

The trade can easily realize, therefore, how serious this record problem has become. Coinmen want to continue to deal with the reliable record firms. But these firms are shunting off the operator, and their distributors and branch offices are pushing him around from pillar to post.

The average music operator has no chance to defend himself. He must order where he can. He is therefore forced to purchase from 75% to 90% of his records from retail stores, and what is even more, he usually orders from cities hundreds of miles away from his headquarters, paying considerably over what they should cost.

The Cash Box is trying with all its might to obtain information from members of the coin operated music machines industry as to what has happened since publication of the letters received from Victor and Columbia. Should these investigations of their distributor organizations prove a force - there may be another course open to the trade. However, it is not the purpose of this publication, nor is it the purpose of the members of this industry to be destructive in any fashion whatever. Instead, all offer constructive criticism completely to bring about harmony to rectify whatever unfortunate conditions existed in the past.

It is therefore up to the music operators themselves, throughout the nation, to carefully watch the present record situation. If they believe that nothing has been done to help cure this condition then the one and only thing for them to do is to come together in groups, locally or statewide, and to place their complaints and their information in such forms so that these can be used to best advantage.

The Cash Box likes to persist in its belief that the complaints which have already been brought into the open, and which are today well known to the "big three" record manufacturers, will bring about equitable distribution on its own strength, as well as their consideration to the men in this industry who helped the record manufacturers rise to their present exalted position.
SUGGESTS NEW TERM BE "SELF-SERVICE" — AS "SELF-SERVICE MUSIC", ETC.

There will be employment for many millions of Americans in old and new industries.

What has been known as the "coin-machine business" should visualize the tremendous opportunity self-service offers and should prepare itself for this, our chosen field. We should educate not only America, but also the world to the advantages of self-service — with or without coin operation. We have the technical knowledge of these devices and the coin-controlled devices, which will be the important component part. We are skilled in electric circuits, so that the self-service shopping world of the future will be push-button operated.

All the help which can be derived from refrigeration, electronics, and the smart mechanical design, may be used to expand our industry many times; but we must work hard on the problem. We must create, from the many opportunities which are reviewed above, a product which will be worthy of acceptance and use. We must expand our thinking and our plants. We must put creative salesmen in the field. And, there is no reason why this, our self-service industry, should not be one of the real leaders in rehabilitation and employment of many more men than our industry has ever employed in the past.

Remember, we owe a deep obligation to the millions of boys who have been fighting to preserve our freedom. Let's do something about it!

TAX RELIEF EXPECTED AFTER V-E DAY

WASHINGTON, D. C.—It is reported that there is a growing sentiment among Congress today to call for immediate business tax concessions to help industry recover from the problem when the war in Europe ends.

The joint Senate-House committee on taxation has been working for months with Treasury experts on post-war tax plans. It was indicated that at least some of its recommendations would be released within a few weeks.

Rep. Frank Carlson (R. Kans.) has introduced legislation that would make 10% excess profits tax refunds available to business 60 days after the end of the war. Under existing law those refunds would become available two to five years after the final end of the war.

Another proposal reported under consideration would permit an accelerated depreciation allowance for business firms in computing costs.

Personal income taxpayers will probably receive no concessions until the war is entirely over.

DOYLE FLORIDA
DIST. FOR ROCK-OLA

MIAMI, FLA.—Frank Q. Doyle of Frank Q. Doyle Associates, this city, has been appointed the distributor for Florida of the Rock-Ola Manufacturing Corp. Doyle has had many years experience in the music machines field, and plans on expanding his current large staff so that his organization is completely capable of handling the mass operator 100% when machines are once again being manufactured.

SHORTAGE OF FREIGHT CARS

For the first time since 1929, a shortage of freight cars has developed within the past week, here in the northwestern and central western states where many are needed for grain shipments. Gen. Ayers estimated the problem may clear up during the summer.

The present shortage is most severe in the northwestern and central western states where many are needed for grain shipments. Gen. Ayers estimated the problem may clear up during the summer.

RICHARD K. LAW

The appointment of Richard K. Law as Advertising Manager of Mills Industries, Inc., has been announced by Gordon R. Mills, Vice President in Charge of Sales. Mr. Law assumed his new duties April 2.
CHICAGO - These past few weeks have been like convention times with coinmen from all over the nation coming to town...Leo Weinberger up from Louisville, Ky. to visit a specialist...Charley Rosen, still serving in Uncle Sam's Navy, around the Sherman lobby and getting a real thrill shaking hands with old friends...Phil Bogen steps off after a trip thru Michigan...Don Kennedy of Packard Mfg. Corp., Indianapolis, Ind., seen at the Celtic having breakfast, and reports Packard busier than ever with war work.

and Mrs. Tommy Grand of Advertising Fosters....Cliff Emile and Angelo Dolaport
of Rex Amusement, Syracuse, N.Y. meeting friends at the Sherman....Rudy Greenbaum,
formerly of Packard Mfg. Co., now with WMC at Kansas City, in town at the Palmer
House.

NEW YORK CITY — On Tuesday, April 17, Teddy Platt, new partner of Supreme Enterprises
Inc., of Brooklyn, N.Y., visited a group of his fellow friends, carrying a bottle
of wine in one pocket and a "IV" mail letter in another. Teddy filled up the glasses
of his friends and then asked them to wait until he read the letter. "First, ex-
plained Teddy, "I want you all to know that early in February the Army notified me
that Murray, my boy, was missing in action. Until I received this letter, I haven't
heard a word from anyone".

Blatt then read the letter. It was from Murray, and informed his friends that he
had just received a German prisoner of war camp by the advancing American
soldiers, and he was on his way home. Teddy's friends raised their glasses, and
downed the drink.

Lee Rubinow races to catch a train to Miami, Fla., where he will be for the next
few weeks on business....Dick Steinberg, on furlough until May 12, visits his
friends....Senator Homer E. Caphart's photo appears in a cross-word puzzle in a
local paper, and the first vertical word is "recast". It appears that when you think of music, you think of "Cape"....Rumor has it that the newly
organized Supreme Enterprises, Inc. are getting ready to open offices in Manhattan....
Joe Hanne, Hanna Distributing Co., Utica, N.Y. visits around, and tells that he has
just won the music and pin game routes of Ralph Gertner, Utica, Ed Wayner,
Utica, John Dolan, Utica, and Morris Harris of Schenectady.

Earl Winters, formerly Sales Manager of International Mutoscope, visits the office.
Earl was recently honorably discharged from the Army....Bill Alberg leaves
for a Chicago trip....Charley Wertheimer, Boston, Mass. flies back home, after a

Sam Virgin, local operator, passed away April 12.....Henry Fox of Jackson, Miss.
tends to make the Crescent City his residence some time in the fall.....Carol Ruth
Barnett, the very efficient secy. at F.M. Blalock's F.A.B. Distributing Co. has a
close pal Sally Adams, who'll do anything for her.

LOUISVILLE, Ky. — Ralph E. Bigdon of Indianapolis, Ind. former District Representa-
tive for Wurlitzer in this territory, and more recently associated with Packard Mfg.
Co., stopped off in Louisville last week and visited with many of his old friends.
Ralph at the present time is selling communication systems to war plants, but expect:
to be back in the business just as soon as hostilities cease.

SLOT ROLLING HITS VETS' CLUB

CHICAGO — The appellate Court ruling of March 27 that police have a right to con-
fiscate gambling devices whenever they find them, and that the courts should order
the devices destroyed, was followed out this past week. In the first decision to
apply to this ruling, a slot seized April 19 at the James H. Lewis Post of the Vete-
rans of Foreign Wars was ordered destroyed by Judge Francis J. Sorrelli.

THREE SIDED WEIGHTING: CASH TICKET

HOLLYWOOD, CALIF. — Nat Pendleton, movie actor, reports that when he weighed himself
on a penny scale the other day, the card he received had photographs of three movie
croners — Crosby on one side, Haymes on the other and Sinatra on the edge.

MIAMI, FLA. — Magic and games both were in the press this past week. In a court
hearing to nullify the city ordinance which limits music machines to one for each
265 persons, the city commissioner claimed the ordinance was adopted to limit the
noise of the machines....Due to the recent crusade against "gambling machines" the
press estimated that 1,400 pinball machines and consoles in Dade County (900 of which
are in Miami) were "out of order". The latest legal opinion is that the Supreme
Court ruled back in 1942 that even payoffs in five games were illegal. Some of the
skeptics are wondering why gambling houses continue to operate.

TEXAS — Pickens Harper of Brownwood was recently killed in an auto accident, and his
father, who was his partner, sold out to Messrs. Hooks and Carlisle, former owners of
Oasis Novelty Co., Ranger, Tex. "Jimmie" and "Cadillac" Jones bought all the ma-
chines in Graham and Olney, Tex. From Oasis Novelty Co. and turned them over to Bob
Platt, manager of their route at Jacksboro.

Look To The GENERAL For LEADERSHIP

NO SUBSTITUTE FOR EXPERIENCE
The GENERAL — or to be more accurate, the 3 GENERALS who head this organization — formulated their policies as the natural outgrowth of many years of actual experience in every phase of the coin machine business. It is because we can appreciate the operators needs and his problems that we have steadfastly maintained the policies that experience has taught us will prove of greatest value to the people we serve.

THE CONFIDENTIAL PRICE LISTS
AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED
EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter, The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
