I never knew phonographs to stand up like Wurlitzers. They keep my collector busy but not my service men.

Same here and believe me it's taught me a lesson. When you buy Wurlitzers you've bought the best. I'll operate Wurlitzers exclusively after the war.

DON'T SELL YOUR INDUSTRY SHORT!
"The Coin Machines Merry-Go-Round"
by Bill Gersh

DON'T SELL THIS INDUSTRY SHORT

Have faith in your business. Don't sell this industry short!

Momentary lulls within this trade mean absolutely nothing!
The public has proved their acceptance of the products of this field.
They want and like coin operated equipment - of all types.
The public is what you must worry about - not whether inner-industry sales are slower or faster, prices lower or higher than before.
The public is creating one attendance record after another since the ban on horse racing was lifted.

They're again jamming nite spots and nite games since the curfew went out of being.
They're patronizing the equipment of this industry more than ever before - and THAT'S WHAT COUNTS.

Don't sell this industry short!

Get into action NOW! Prepare for the biggest boom play in all coin machine history.

Get every location you possibly can handle! Get machines out and get them working. DO IT NOW!

HAVE FAITH! This is the time to roll along with the awakening of the American industrial colossus - the nation that will be supplying the world with merchandise of every kind - and employment will boom to new high levels while labor will be earning AND SPENDING the biggest pay checks in its history.

TIME IS SHORT! There is only a very short time before America again awakens to its industrial greatness - when it can again produce for peace.

BE PREPARED! Buy all you can now and use this equipment as "location holders" until new machines can be had. BUT GRAB THOSE LOCATIONS AND HOLD THEM CLOSE TO YOU!

It's the location that counts - not the fact that new or used machines are being featured in the spot.

DON'T SELL THIS INDUSTRY SHORT!

THIS IS THE BUSINESS where you'll coin more per dollar invested than any other in the nation - consistently - and over a longer period of time!

ACT QUICK and act NOW! The public wants to play coin controlled amusements.
Wants to buy from coin operated vending equipment. Wants to listen and dance to juke box music. Get these machines working NOW! Put them out. Make your territory - YOUR OWN!

THIS IS THE TIME FOR ACTION! This is not the time to worry about "if and when" new equipment will be produced.

YOU may not like a great many of the new machines you'll see. Then, why wait?
Why let competition set in on you? Why let yourself be surrounded by new blood?
GET GOING! Time is running out!

DON'T SELL THIS INDUSTRY SHORT
Once again the question of price comes to the fore in the music field. The average coinman wonders whether he can consider present prices out of line, in line or below the line, as compared to what post-war machines will cost. This price problem is one that has arisen in all divisions of this industry almost from the first days machines were produced in volume.

Music men seem to be taking the price situation more to heart than anyone else in this business. Their argument is based on the fact that slots, consoles, pin games, arcade equipment, and all other amusement devices can be rapidly amortized. "But", they claim, "when it comes to music - that's different".

These men are therefore questioning the present price situation with an eye to the future. This is not just the contention of the music machine operator himself, but it goes up the ladder in this field to the music jobber, distributor, manufacturer, loan firm and even the banker. In short, every step of the way there is today in this coin operated music machines industry the question of, "What price music?".

Well, what about prices? Are they too high? Are they low? Generally, the trade agrees that present prices of used equipment are out of line. But what the trade overlooks is that prices of its equipment, like prices of all other commodities, are based on the economic law of supply and demand. Yet, supply and demand, of its own accord, does not completely control price in this field. What does actually control price is whether the men in the trade find that they can amortize the equipment they purchase and, at the same time, profit after a reasonable period of time. In the music field the average amortization period is considered to be 18 months.

Therefore, since the men in this division of the trade are willing to pay the prices now being asked for used machines, it is to be considered that they have learned, in most cases, that they can amortize this equipment and actually profit from it over a reasonable period of time. There is where the price problem rests - on the fact that machines can be amortized over a reasonable period of time and can, at the same time show a profit to the purchaser.

Most music men believe that they must gauge the price they can pay for a phonograph by the average take they enjoy. They base this take on an 18 months period. In this fashion, they claim, they will realize a profit and not be caught short with the machine when they want to trade it in.

By this they mean, and they figure that the national average today on phonos is $7, per week, they cannot pay more than $550 for the best phonos on the market. In short, it will take them 18 months to take in this $550 on this $7 average to pay for this machine. They can either sell the machine and take the sales price as their profit or continue to run it for another 6 to 12 months and consider this income as their profit.

But all this is based on the fact that what might hold true in one man's territory might not be true in another's. In short, if a music man in one territory is earning far and above this mythical national average of 37, then to that man perhaps the cost of $700 per unit is not too much. He not only feels that he can amortize this cost within a reasonable period, but that it will also bring him profit for a long time afterwards.

The bankers in this industry, who usually set the loan valuation on equipment, may have a formula of their own for gauging how much they can loan on machines. It is generally understood that they loan on the market price of the machine against the income of that machine on the route deducting taxation costs.

They have been more or less forced to adopt such a formula, otherwise they might be caught very short in a great many areas. The the market price of a machine might be $600 - the income from that machine, in a certain territory, averaged over a period of time, might be but $4. Therefore where they might be able to loan one man more on a route where this same $600 machine is earning a $15 average they can't loan as much to the man where this unit earns an average of but $4.

The price problem has always been a most difficult one for this trade to solve. It is based, in this industry, on what the machine can earn. For example, the most beautiful machine in the world featuring a platinum cabinet, genuine rubies for all lighting, and diamond encrusted turntable, wouldn't be worth a thin dime to the men
in this business if that machine couldn't bring in profits. Similarly, a machine manufactured from an old cardboard box, using staples and pins to hold it together, but earning big profits, can almost command its own price.

This was one big lesson learned during this wartime period. Machines of older vintage than some of those last introduced to the field, before the war started, are calling for greater prices than the latest equipment. Why? Simply because they proved to be better money-getters on location. And that's where the test comes in the price situation as regards this filed: What does the machine earn on location?

Some operators now liberally admit that certain manufacturers could have asked a lot more for their equipment than they did, simply because the equipment earned such handsome profits on locations.

But the manufacturer has no advance way of basing the price of his product on what it will do on location. He still must base his price on his experimental, his fluctuating labor cost, his materials and promotional costs, etc., etc., and to this he must add a decent profit, so that he will be able to continue in business and build more and even better equipment for the trade.

Therefore, too many a manufacturer might have afterwards been able to get two and even three times what he charged for certain machines, he still must continue to charge a nominal price. And this price is only considered nominal when the operator learns what the machine will earn for him on location.

Where one man yells about the price being too high, another believes the price to be exceptionally reasonable. Where one man says the manufacturer should have obtained more for his machine, another claims that the manufacturer is an out and out robber. Therefore, there is only one method on which price can be based in this field, whether on new or used equipment, aside from the economic law of supply and demand, and that is on what the machine will earn on location.

No machine, new or used, is overpriced that can amortize itself within a given period of time. The average phono operator usually sets his amortization period as 18 months. He obtains loans on this basis. He depreciates most of his machines on that basis. He continues his business, not on what he earns immediately, but on whether his earnings will be such that they will clear off the cost of the equipment within or on the date he sets.

Therefore the juke box operator who does clear off what he paid for a machine in 18 months (and remember that during this time he is usually drawing a very handsome living from his business) has not overpaid for that machine. But if he doesn't amortize the cost - then he has overpaid, as far as he is concerned only.

The price problem can only become a serious factor when everyone in the trade, from coast to coast, reports to any certain manufacturer that the product he has presented is not bringing in enough to amortize itself in a given time period, and that because of this is not worth the price placed on it. Then this manufacturer is the worryer. Not the operator, nor the jobber, nor the distributor.

These latter can usually clear themselves off fast. They can take their licking on the first samples they purchased, and get out from under. But the manufacturer has to consider all the work that went into that product before it even reached the production stage and what that cost him, aside from the actual manufacturing cost. This is really loss. In some cases, in pre-war days, this loss was so great that many a manufacturer was forced to fold up right afterwards.

It is therefore a more or less ironclad rule that there is no method of ascertaining the price of any product in this field until that product has been tried and tested on location. The results on location will be the answer to whether the price is right or wrong. The phono man in this business who yells about high prices, must simply consider themselves in a position where their territories cannot handle higher priced equipment. They must purchase only that sort of equipment which is priced within the earning capacity of their locations.

But because these men cannot handle higher priced machines, this does not prevent others throughout the nation who can handle them, from issuing price quotations for these same machines far and above anything these former want to pay. This is how market prices come into being. Many in this trade must place themselves in the category of operating equipment that is priced on an income earning standpoint. And to therefore set a formula for pricing machines in advance of location tests would be nothing short of phenomenal.
NEW YORK—A large number of the nation's columnists are of the belief that the Decca dealers will arise who will sell direct to locations not reached by the post-war period gets under way.

This belief gained momentum some months ago when the first false signs of possible peace-time production were indicated.

Entertainment columnists who have been thinking of this problem, advise that they have heard rumors relative to the fact that certain large manufacturers outside this industry have been planning to work thru their present dealers to sell directly to locations on a time payment basis; such price structure has somewhat along the lines of the automobile dealers.

As one noted columnist says, "There is no reason why such machinery can't be sold direct to such locations to fill the sales job. If they already have the dealer outlets, can they designate the one who will take the risk of not having another firms and arrange for sales of such coin operated equipment as music machines direct to the locations in the dealer's territory."

Of course, for giving complete service direct from the dealer right in the territory, and allowing the present dealers to keep their commission on the machine from receipts, there is a certainty that many locations will go for such a plan.

"Why should it be any more difficult for a dealer to create a service force than it is for any operator?"

"The dealer can service the phonos with records and needles just as he can with the linotype or the presses and the receipts and give the keeper whatever share the contract will allow him and the balance will be applied towards the advances he has made."

Surely the keeper is going to like this a lot better than the present arrangement, he now has with his operator, where he never gets to own the machine.

"I am fully convinced that such direct selling manufacturers, working thru dealer-set-ups, are sure to become a strong force in the post-war era. This is one reason I am urging all my friends to get back of the plans which The Cash Box has presented so that we shall be able to put up the kind of battle which will prove necessary to protect our livelihood."

"Of course through the trade claim that direct selling filled time and again in the past, they do not of course, then making such statements, that there never before existed complete conditions such as now exist throughout the nation which are daily contacting and serving retailers. And these organizations would jump for joy to be able to sell something like an automatic phonograph, fast install in the locations in their territory."

It is the hope of The Cash Box that every location which operators now have is under contract to that companies who are legally protected from such actions.

NEW YORK—While expectations run rampant as to the possibility of average price beverage dispensing business becoming the most outstanding of the merchandising machine field, there is also creep- ing into discussions among column- men the possibility that the bottlers of soft drinks and milk will prob- ably be the ones who will really thrive with beverage vending ma- chines.

Columnmen explain that the bev- erage machine, the regular milk an- average bottle. He already knows the business and he knows the local- ity in which he is operating. It is not that his men are servicing spots where one case or even less is be- ing sold once a day, but per day and per week. Yet his drivers will stop and make such sales for them have become accustomed to this small profit business.

Naturally, they explain, when a driver is also given the job of selling to service a beverage vendor which will sell 500 and more drinks a day, he is literally in heaven. He has never before enjoyed such pro- fits. Furthermore, they explain the profit, the regular milk can be averaged at $80. On a $10,000 investment the average goes well over the 95c mark. At the same time no commissions are incurred and the return on the investment doesn't reach the 1,000 mark in a set period of time. And the average profit is going up on spots where over 50,000 drinks are sold a month and up.

The days of 1c and 1½c com- mission per drink are all over. The large bottlers who are already in the beverage vending machine business instantly eliminate such commissions. The smaller beverage machine operators have followed suit. The claim is that the bottler is enjoying the big profit from beverage dispensers. He doesn't fear the cost of amortizing the unit. In the long run it is much cheaper for him to work thru beverage dispensers.

The same, they claim, is true of the milk vending machines. Where- as the average operator, because of the health laws, is forced to serv- ice the machines every 24 hours, the milk dealer finds he enjoys such servicing methods anyway, and because he can see trend- ing on the selling well, especially in spots where he can't sell his product, he may see the one to most greatly benefit from automatic milk dis- pensers.

But with all this, there is still a tremendous demand from the field for the beverage dispensing unit. Many operators are planning to enter into this business as soon as these machines become available.

LONDON, ENG. — American manufacturers who have been fighting here since V-E day to be allowed to once again ship their merchandise to Britain, are being turned down by the Board of Trade every time they present.

The American manufacturers have explained that it took them almost a generation to develop the British market, and that since they haven't been able to export any merchandise here for the past five years, and unless they can do so very soon, all this missionary work and the expense they have under- gone to cultivate the British market will be wasted, and they will have to start all over again from scratch.

At the present time all argu- ments presented by the American manufacturers have been to no avail. An American insist that the great scarcity of American dollars for exchange would definitely harm them and, therefore, they are with- holding any export licenses. In the meantime, this gives the British manufacturers an open hand in this market. With no competition, they are rushing in products.

Among the proposals made by the Americans to get around the dollar problem is a suggestion that they be allowed to sell goods here for sterling, let the sterling remain on deposit here until such time as British feel that they can permit the funds to be converted to dollars. This suggestion has been met with the statement that such an arrangement would merely be building up additional dollar obligations that Britain would have to meet at a later date.

Naturally, the coin machine in- dustry in the United States is in the fight which the larger American manufacturers are putting up here in the effort to obtain export licenses to ship merchandise to Britain. The in- dustry is of the belief that the British market will prove one of the most lucrative and most profitable for all types of coin operated equip- ment. The distributors who are gathering together used equipment for export should have been much con- cerned about this delay.

DECCA CLEARS UP SPARKS' COMPLAINT

SOPERTON, GA.—R. N. Sparks, Sparks Specialty Co., Seeburg dis- tributor in this city, writes, "I notice in the current issue of The Cash Box you have published the copy of my letter to Decca and, in turn, I have received a very nice letter from them this morning which I think you should also publish, if you see fit, as this letter is very cooperative. Let's all hope that they are going to wake up and give us a little better service."

The following letter from R. N. McCormick, Southern Division Manager of Decca Distributing Corp., New Orleans, is the one to which Mr. Sparks refers: "Thank you for your much for your letter, May 30 directed to our Atlanta branch, copy of same having been referred to the writer by our home office."

"We appreciate very much the constructive criticism you have rendered in your letter, as we are most anxious to serve all our cus- tomers in the most efficient, satis- factory manner. It is then that we have no use for our Perco Per- no needles, certainly return them to our Atlanta Branch office."

"The Atlanta Branch has been instructed to ship your quota of records regularly, of the types you want and can use. They will ship you no supplies of any kind unless you order them.

"The reason for this is the question of your present stock of Perco Per- no needles and the fact that we are no longer shipping them. You may obtain them from any coin distributor, however, in the entire country and it is not expected that such supplies will be available for some time."

OPA CONVERSION PRICES EXPECTED JULY 1

WASHINGTON — Coin machine manufacturers are eagerly looking forward to the new conversion pricing policies which will be made public on July 1 by the Office of Price Administration. Such regulations being made in the consumer durable goods division will be completed and analyzed at that time. (Coin machines are classified as "con- sumers durable goods" by OPA.)

Pending completion of these studies no clue is being given whether or not price increases over the 1942 level will be granted. It was indicated that the standards which have been set up for derivation of the need for price in- creases will be used in conjunction with data which the surveys dis- closed.

Many industry executives claim increases in costs of component parts will prevent retaining the 1942 base. In analyzing costs of their finished products for conversion, certain manufacturers stated that the cost of components range from 25% to 100% over the last pre-war year. It was indicated that it is im- possible to retain the 1942 level.
"THE CASH BOX" - AD LAYOUT SHEET

Type your ad for next week's issue of "THE CASH BOX" in space indicated below and mail in time to reach us no later than Friday at 5 P.M. Be sure to type your firm name, address and phone number on bottom of ad. To get results be specific. Ads will not be repeated unless so specified in advance. If in doubt - air mail your ad.

This space is free. Enclose $5.00 for each additional section into which your ad extends. Each section is 7 inches long by 1 inch high.

For example, an ad extending into this section would cost a total of $25.00.

Full page ads completely printed - size: 13" high by 7½" wide. Printed on coated stock using all line cuts and halftone cuts up to 120 screen you furnish.

$125.00

Half page ads completely printed - size: 6½" high by 7½" wide.

$65.00

No box no. ads - or blind ads accepted. The cash box subscribers are the most active traders in the industry and are entitled to bona fide ads.

Notice: This is not a Full Page. Full Page (Not Printed) Measures 7" wide by 13" high. (No cuts or illustrations can be used.)

Reprints of your ad (regardless of size): 100 - $5.00; 200 - $7.50; 500 - $12.50; 1,000 - $17.50.

The Cash Box, 381 Fourth Avenue, New York, N.Y.
All phones: Murray Hill 4-1725
CHICAGO — R. E. "Smitty" Smith, O.J. Jennings' roadman for the past 25 years, had a very happy reunion recently when his 3 sons all returned from overseas on furlough. Altho the furloughs were not timed alike, they overlapped, making it possible for all 3 boys to get together for one day while home. . . . Clarence Coan, formerly of Coan-Slettland, Madison, Wis., is now a special representative for O.J. Jennings & Co., for their refrigerated beverage and dairy coin machines. He is now completing a tour throughout the east and reports tremendous interest in these new vendors.

Rollin H. Stewart, Central Distrib. Co., Indianapolis, was a recent Chi visitor and seen over at the Jennings plant looking over their post-war line of machines. He plans to expand his coin machine activities upon completion of his big war work program. Besides large operating interests Mr. Stewart has been personally engaged in directing his huge war work activities and intends to get into the manufacturing of automotive and coin machines for post-war. . . . Leo Balfy, Jennings representative, is recuperating from a recent illness, and has a very clever sign prominently displayed on his desk, 'Gone fishing'.

Gil (Empire) Kitt and his very attractive wife have gone east to visit Gil's parents and plan to bring them back to Chi for a visit. . . . Harry (American Amuse) Brown off on another hungry trip to Pittsburgh this time, while his traveling rep, Mac Churvis and Mrs. Churvis are at last on their way to California to become grandparents. . . . Delbert Weath of V.J. Distrib. Co., St. Louis, in town and making the rounds of the manufacturing plants here. . . . Frank LeMaskin tries to move some of those heavy slots out of the way with his foot and breaks one of the bones. He's now hobbling around with the aid of a cane.

Bill Frey in town this past week together with 'Fappy' from Key West. . . . Howard Fee (remember the famous Fee Whirlwind?) in town and visiting around with coimmon. . . . Henry Fox of New Orleans and Jackson, Miss. back in town once more and this time buying heavier than ever. Henry claims he makes more on each trip to the Windy City. . . . Lou (Advance Automatic Sales Co.) Wolcher passes thru town on his way to New York, but is expected back very soon. . . . Al Evans of Evans Sales & Service Co., South Bend, Ind., in town looking things over at first hand.

Al Stern dashes out of town on a buying spree and hopes to return with many a carload of equip. . . . Horrie and Eddie Ginsberg together again at their Atlas Novelty Co. offices and busy as can be. . . . Al Sebring of Bell Products Co., doubling between his present quarters and his new locations directin the decorating and remodeling and wearing down plenty of shoe leather in the process. Al claims that everything will be in tip-top shape when he moves. . . . Rex Shriver back at Evans looking like his old self once again, but still taking it easy after his long siege of illness.

WISCONSIN ANTI-GAMBLING BILL AMENDMENTS

MADISON, WIS. — The Governor now has the new anti-gambling bill awaiting his signature, and there is no doubt that he will sign it. But certain amendments have been added and many coimmen here do not believe that this bill now has the meat in it to hurt as much as when originally introduced.

Amendments permit Circuit Court to dismiss actions upon request from District Attorneys and not requiring the approval of the Attorney General. State beverage tax agents shall report violations to the district attorney who must take action within 10 days. This saves much of the trouble wherein originally D.A. could not dismiss any charges and was forced to go to Attorney General.

Coinmen believe that these amendments make things a lot easier. Reports were held up by this publication until these amendments went thru therefore changing entire aspect of this new anti-gambling bill.
July 3, 1945

The Cash Box

EASTERN CHATTER - Ben Becker, who has been negotiating for the past weeks to purchase OK Machines, Inc., Ridgefield, N.J., took possession on June 18. Ben is well known throughout the trade for many years, having been connected with some of the foremost manufacturers and distributing firms...Al Bienel of Springfield, Mass. (former distributor for U-Need-A-Pak vendors) phones to comment on the future of vendors, and at the same time passes along his best wishes to Leo Willens of U-Need-A-Vendors, Inc. who have taken over the tools, dies, etc. of the former company, and are now manufacturing merchandise vendors.

Mack Postel, Chicago, who is visiting around New York, took time off to run over to Union City, N.J. to look over the new cigarette machine U-Need-A Vendors, Inc. are making, and is highly enthusiastic over one of the added features, which Mack claims is the most needed improvement in cigarette machines...Ensign Jack Fitzgibbon, Jr. writes his dad that he has earned two battle insignias the the part he took in the invasion and defense of Okinawa...Lou Wolcher, Advance Automatic Sales Co., San Francisco, Calif., in town for a few weeks, and then on to Chicago...Al Douglas (David Mfg. Co.) also arrives in town.

Collis Irby of Walbox Sales Co., Dallas, Tex. and Bill Thompson of Wichita Falls, Tex. spend some time in our offices discussing post-war biz...Dick and Tony Parina of R.A. Parina & Co., San Francisco, Calif.; Louis Rizman of Medford, Mass.; and Fritz Baehr, Wilbur Suchard Co. get together with Julius A. Levy local manager for Arthur H. Dugoniver, Inc., and Burnhardt "Bip" Glassgold, General Sales Manager for the cigarette manufacturer, who comes in from Haverhill, Mass., and everybody has a good time...Sgt. Leo Rosenberg (Bay Ridge Music Co., Brooklyn, N.Y.) finishes up his 30 day furlough, and altho he has accumulated 120 points, reports to Ft. Bragg, N.C. for further assignments.

Dewitt (Doc) Eaton, newly appointed Sales Manager for the new management of the Automatic Instrument Co., visits in the big city...Barney (Shugy) Sugarman of Runyon Sales Co., Newark, N.J. heard telling one of the leading phone manufacturers' district managers that "his organization today is the largest and most efficient in the East, covering the entire state of New Jersey, and entering two other states"...Bernie Goodman, Symphonola Music Co., Hoboken, N.J. (one of Runyon's sub-distributors) renovating his large quarters into a "modern showroom".

Charley Katz (Metro Distributing Co.) plays host to Mrs. Marty Olson and her son Marty, Jr. of Winona, Wis. and Frank Rosenberg of Middletown, Conn. Leon Berman, the other half of Metro away traveling thru the New England states...Ed Rawreby, leaving for New York, gets cancelled out of plane from Boston, and rides in on the midnight train with his old friend Governor Morris Tobin of Mass. who wishes him the best of luck in his new business...Before leaving Boston, Ed's Associated Amusement Co. entertained the following visitors: Joe Friedman, Friedman Music Co., Dorchester, Mass.; N. Spiller, Knapp Music Co., Roxbury; S. Sylvester, Stoneham; Edgar Beale, Reindlale, Dan Harvey, Welham; Bill Conte, Fisco Sales Co., Haverhill; and Sid Walbarst of New England Exhibit Sales, Boston...Mike Munyes and Phil Gould, representing the big city and Charley Wertheimer and Ed Rawreby from the "Seam" town fight it out in Gin Rummy.

AMUSEMENT DEVICE IN PRODUCTION

NEW YORK - George Posner of the Pilot Trainer Sales Co., this city, advises that their amusement device "Pilot Trainer", which was introduced to the trade several months ago is now in production.

"We are now manufacturing "Pilot Trainer", and have advised all operators, arcada owners, concessionaires, and park owners who have placed orders with us that they will receive their first shipments within 90 to 120 days and possibly much sooner," stated Mr. Posner. "The lifting of the WPB restrictions on various types of material necessary to the manufacture of our sensational new amusement device has enabled us to go into production immediately, and because of the large demand, we are filling orders in the rotation in which they are received", George concluded.

The "Pilot Trainer", the new amusement device introduced to the trade some months ago, gives the person riding it all the sensations and thrills of piloting an actual airplane in flight. Mr. Posner has displayed the device at the Parks and Carnival convention in Chicago, and at various expositions throughout the country, and has had visits from many operators throughout the country who have come into New York to see it on display in his showrooms.
MINNEAPOLIS • It's a really beautiful day here in Minneapolis! The sun is shining. The first time we've again seen the sun in about two weeks. Therefore the outlook is brighter. • J. Sardella of San Diego was in Minneapolis visiting the Harrison boys, and taking a complete month's vacation up North. He spent 2 weeks in Brainerd trying to do some fishing and he endured rain most of the time spent there. • "Snooks" Harrison is home on leave for 10 days. Seems as if Snooks is helping to run the Navy these days. He's home on leave just about every 60 days.

Clyde Newell, formerly connected with the industry in the Twin Cities, is now on his own and free lanceing around. Clyde advises that any of the ops in the state who want some servicing done on their machines - he'll do it. • Bernard Johnson of a South High School colored athlete is home on a hospital furlough. Bernard has been in the air force for 3 1/2 years as electrical engineer and has 58 missions under his belt. He and his crew were shot down over Bastogne and spent 18 months in a P.O.W. camp. Bernard now has a silver plate in his knee and expects to be discharged. After which he will go to work for Col. Jimmy Stewart's brother's airplant.

Bob Britetz can't be stopped from talking since he caught that 13 lb. Northern while fishing up at Lake Mills Lacs. He even has two witnesses to prove his story, he says. • Bob Collins former Twin Cities op, now with the army in Italy sure is anxious to get home again. Bob lacks 2 more points to fulfill his dream, tho, and hopes that the new reduced point system will help him out. Claims idleness is worse on the nerves than actual combat duty. • Harry Johnson of Mitchell, S.D., was in the Twin Cities living the "Life of Riley" - just vacating.

Charley Gumm of Bloomer, Wis., seen making the rounds here. Looks like Charlie is going back into the pinball biz again after his year and a half retirement. • Nate Kaskowitz of Eau Claire, Wis., has done a remarkable job in the steel machinery business during this wartime period but expects now to devote his time to enlarging his coin route. • John McMahon was in town doing some buying. He is on hospital leave from Ft. Leavenworth. • Some ops seen around town this past week: J. E. Waddell of Chaska, Minn.; Roy Stone, Rice Lake, Wis.; Jake Geisert, Eau Claire, Wis.; Frank Seriani, Omen, Wis.; Clayton Norberg, Mankato, Minn.; and J. A. Rooney of Chippewa Falls, Wis. •

NEW ORLEANS, LA. • What some people won't do for a pal. H. C. Gascon, from Addis, La., who is presently working for Uncle here, drove your gal, Sel to Canal Street because it was raining and he smiled about it despite the fact that gas is so tighty rationed that it took all of 15 minutes to drive those 6 short blocks. (Maybe Sally has got somethin', huh?) • Les Griffin, Mississippi Vending Co., Jackson, Miss., in town just chewing the rag a bit with Joe Villers about thisa and thata in the coinbin. (Sailors call it 'scuttlebut').

Our deepest sympathies to the family of E.C. Keathley of Matchez, Miss., who lost his life in an auto accident on June 13. • Also sincere condolences to J. H. Woodruff and family (he's F.A.B. mechanic) whose son, Jack, passed away June 17. • Sam Selley, prominent op from Hattiesburg, Miss., in town looking things over. • Abe Kaliff and Leslie (Slick) Wade also put in an appearance in the Crescent City this past week. • Al Mendez (one of the rare species, a Wurlitzer district mgr.) showed up this past week with his usual smiling mouthful of teeth. • E. B. Stewart of Jackson, Miss., expected here this coming week. • Loom Tremer returned to his home in Mobile, Ala., after about a month's stay in town on biz.

WPB DISCLOSES 101 CRITICAL SHORTAGES
WASHINGTON, D.C. • Regardless of the loosening of controls on July 1, WPB disclosed a list of 101 items and groups of items that are already, and expected soon to be in very short supply. This list was submitted to WPB by the newly appointed joint committee for critical materials and products. • Included in this list, and of interest to this trade, are lead, lumber and rubber transformers, radio tubes and cadmium.

RECORD SPORTS CROWDS MEAN GOOD PLAY
NEW YORK • Records set by the public at all sports functions not only indicates continued public devotion to amusements, but is expected to have a very fine effect on
coin machine play, according to leading coinmen. These men eagerly look forward to new machines and hope that the manufacturers will pattern them after the sports that are attracting such large crowds.

DE WITT EATON NEW PHONO SALES MG R.

CHICAGO - The new management of the Automatic Instrument Co., this city, announced the appointment of De Witt Eaton as Sales Manager in charge of all music equipment and related items, this past week.

Mr. Eaton, known as "Doc" by hundreds of coinmen is very well acquainted with the coinfield. He was last seen in the field as Eastern Regional Director for the Backley Music System. During the war he was connected with the Office of the Secretary of War in Washington.

In line with the rapid expansion of this new A.I.I. organization Mr. Eaton announced the appointment of Fred Barbee as his assistant. Fred has wide experience in the coinbiz having been a district manager for Wurlitzer. He has also been in the auto field for some years.

Mr. Eaton stated in regard to his new position and the policies of the firm, "While the company is not yet ready to announce its complete policies and products, it is definite that sales of our equipment will be made thru channels established and accepted through the trade."

HONORABLE MENTION AWARDS

MINNEAPOLIS, MINN. - Honorable Mention Awards of The Cash Box are going to Henry H. Greenstein of Hy-O Amusement Co., this city, and also to "Doc" Baron, of this city. Their work among the coinmen here resulted in one of the most successful campaigns of Minneapolis' leading Jewish charity calendar.

Such efforts gain the attention, respect and acclaim of the outstanding citizens in any community. They help tremendously to cement better relationships for this industry. And such reports usually gain wide, national circulation to help benefit coinmen throughout the country.

PAYROLLS DROP 7 PERCENT

NEWARK, N.J. - Expectations here were that payrolls would drop about 30% with elimination of the 40 hour work week and overtime work. Instead the Clearing House here reports that the payroll drop averaged less than 7 percent. It is therefore believed that this same small loss will prove true in most other war work areas where overtime work will be cut off and a 40 hour week placed into effect.

Some coinmen here report that cutting down on overtime work hours will mean greater play action for them. Small average drop in payrolls will also help hold up collection averages, they claim.

WILL SHOW "LONDON'S FOLLY"'AI LEX., K.Y.

READING, PA. - Lew London of Leader Sales Co., this city, noted coin machine man, will be showing his horse at the national horse show to be held in Lexington, Ky., on
July 4. Many coinmen are planning to be present. All believe that Lew's horse, "London's Folly", has a very good chance to win the national championship at this show.

**NAMA HELP TO VETERANS GETS BIG STORY IN 'NEW YORK TIMES'**

AS REPORTED IN JUNE 12 ISSUE OF "THE CASH BOX"

**NEW YORK** - Prominent coin machine leaders urged all manufacturers to help create jobs for veterans and to so arrange this help that the vets would be fully protected. This was reported in the June 12 issue of The Cash Box. This report was a follow-up on the fact that such plans had already gained wide publicity for other industries.

The NAMA (National Automatic Merchandising Ass'n) at a meeting of their publicity committee in the Biltmore Hotel, this city, Thursday, June 21, reported to The New York Times (which paper made their story the feature of its business page)(that, "they were arranging for plans to protect returning veterans, anxious to start a business, from exploitation by unscrupulous vending machine promoters". The plans were outlined by Nathaniel Leverone, president of NAMA (who is also chairman of the board of the Automatic Canteen Company of America).

NAMA also outlined a new public relations program which sets up a nationwide code of ethics and explains the industry's merchandising methods and sales objectives in relation to other means of merchandising candies, nuts, cigarettes, soft drinks, chewing gum, etc.

Mr. Leverone reported to The Times that his organization represents members who own approximately 2,000,000 vending machines. He also stated that most of the machines were now in war plants and service force training camps.

He stated to the Times, "While the outlook for new production, due to the scarcity of tin and sheet steel is not encouraging, we feel that we can, in the meantime, do a good public relations job. We have adopted a code of ethics which pledges our members to sell nothing but merchandise of the best quality, full weight and full size at a fair price. Those of us who handle service machines, such as scales, locks, lockers, have pledged precision accuracy. In all cases our machines must be geared to return the purchaser's coin when empty. Occasional failures, by the way, are responsible for some heavy breakage."

"We have already run into some cases where veterans have been taken advantage of by unscrupulous promoters of coin operated machines who give the impression that owners have nothing much to do but sit back and watch the money roll in. It will be our purpose to point out that there is hard work attached to the business which requires definite qualifications in addition to ample capital. To do the job right a man must have some mechanical knowledge, some knowledge of the products to be sold, and definite business training which emphasizes the part which overhead, maintenance, obsolescence, deterioration and plain wreckage play in automatic merchandising. We are going to get after the 'double-your-investment-in-a-month' boys."

Mr. Leverone also stated that NAMA had a job to make clear to unreceptive communities that vending machines performed useful non-competitive functions obtainable in no other way, and were not a threat to the small merchant.

This unusually fine story, appearing in so noted a newspaper as The New York Times, is going to prove of tremendous value to all the automatic merchandising industry throughout the nation. This is the sort of effort which has been urged on all the other divisions of this industry by The Cash Box ever since its inception.

The Cash Box takes pride in the fact that it made a recommendation that such an announcement be made by all the manufacturers as a group under the status of a "National Board of Trade", thru a "Public Relations Committee", which The Cash Box has long urged be created, and made this announcement directly concerning the returning veterans to protect them, to bring them to this industry in such fashion that they would grow with the trade and help it to reach new heights, many months prior to this announcement just made by the NAMA.

The Cash Box now eagerly looks forward to the manufacturers of music and the amusement machines also gaining for themselves greater acclaim and respect by just such an announcement of their own. And such an announcement should most definitely come from one central coin machine organization, a National Coin Machines Board of Trade, which would be the common meeting ground for all organizations and all men of this profession.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUainted WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

VICTORIOUS 1945 TURF CHAMPS"  
(FROM 'STONER TURF CHAMPS')
Steady, ever-increasing production of vital war products, already acknowledged four times by our government, tells the story of Bally in this great war. It means that Bally is helping to arm our fighters on far-flung battle fronts. And too, it demonstrates that in the future as in the past, you can bank on Bally games and vending.
