One of the most important features of the Constellation is the pick-up arm. Equipped with the finest astatic crystal for faithful tone reproduction (a Mills specification "must"), it is in the matter of record wear that it is truly unique. Adjustable from zero to any pressure desired, the operator can choose for himself the tone-arm pressure he prefers! Mills Industries, Incorporated, 4100 Fullerton Avenue, Chicago 39, Illinois.

The Standard: featuring the Mills Wide Range Tone Cabinet Speaker
List Price vs. Collections

By Bill Gersh

Just prior to World War II the average phono was listed at approximately $500 to the trade. It will also be recalled by the music machine ops of that period that collections from these phonos averaged around $5 and $6 per week.

Now, after World War II, automatic phonos are price listed around the $800 to $900 mark. But, present averages are anywhere from $10 to $20 per week.

Tho the price of the machines is almost double, collections are better than double former averages.

Of course, there are those who proclaim that in pre-war days the average music machine operator was well on his way to bankruptcy. Yet, the music field continued to grow. In fact, it outstripped every other division of the trade.

It is also well to remember, as another music op puts forth, that pre-war overhead was nothing like it is today. Comparatively speaking—it might be somewhat less than it is today, but not enough less to make a very marked difference.

The answer then, as well as the answer now, is that those men who applied themselves to the business of selling the public automatic music were successful.

The others, who dabbled about in it, because their competitors were in it, or because they believed that it might prove profitable when mixed with the rest of their equipment, or for whatever other reason they may have had for entering into the automatic music industry, found it unprofitable.

In short, then, the answer to the problem of music today as against the problems engendered in the music business during pre-war days, are almost similar in every respect.

Overhead is higher today — but collections are higher.

Machines cost more today — but earn more.

In fact, today operators have learned that automatic music is necessary to retail locations and these ops have also made it their business to obtain a greater share of the commission percentage split between themselves and the location owners.

From every standpoint, the automatic music op has developed into a better business man. This cannot be said (on as large a scale) for the operators of pre-war days.

Most of the boys then held onto music for whatever commission they could get at that time.

Studying the problem from all angles, the music operator of today is much better off than the pre-war operator. Tho his machines have increased almost 100% in cost, his collections have increased far more and, due to more businesslike operating methods, he has been able to increase his profits far, far above pre-war times.

Therefore, it is no longer a question of list price vs. collections, but, more a problem of greater effort, harder work and better business methods.
ROADSIDE SPOTS

LOOK FOR BIGGEST

BUSINESS BOOM

CHICAGO — With the news report just released by the Travelers Aid Society that it will increase its present force four times greater than it is in preparation for what this agency believes will be the biggest traveling season the vacation months have ever known in all American history, the coin machine trade once again comes in for some of the most profitable locations.

Not only has the Travelers Aid Society optimistically issued what it believes is a report that will probably cause much surprise in the nation, but the banks where "vacation savings funds" are gathered together during the winter months report that they have more money on deposit in vacation funds than ever before in their history.

Combining these two reports there is every reason to believe that this will be one of the travellingest vacation periods in the history of the nation. Not only are the train and plane people expecting to accommodate unusually large crowds of vacationers this year, but the roadways of the country are being prepared for what is believed to be one of the big post-war travel years which has been predicted for some many months.

This means, to the coin machine business, that the roadside spots will probably be among the most profitable this summer vacation season of 1947 than ever before in the history of this field. It also means that every operator in the nation should now begin to make arrangements for roadside locations so that he will be prepared when this traveling gets under way.

Executives of the Travelers Aid Society expect that a great deal of the vacation travel, which is expected to take place during the summer months, will be by automobile. These people predict more crowded highways than any time in the history of the country. They also believe that this will be a test of what traffic the highways of the nation can handle, and that the years to come will find even more cars on national highways than what is expected to take place during the summer season of 1947.

For many years coin machine operators have found the roadside stands among the most profitable spots in their territories. These were always good moneymakers and now with the reported travel boom sure to get under way there is no doubt that they will prove better than ever.

In former years some ops pulled machines off city locations to place them in the country and in roadside stands. This year, it is believed, most columnists will let their machines remain in city spots and will add to these with new equipment in the roadside locations. This should help tremendously to boost income for the operators and will, probably, bring about the beginning of what the coin machine industry has been calling, "the boom period."

Most important is the fact that the average roadside spot has turned into more or less of an eating "palace" and this has allowed for placement of better equipment than was used in former years on the old sort of stands that popped up on national highways everywhere in the country. With these larger and more elaborate spots the ops are in position to place the finest sort of equipment. This means that phonos, pin games, consoles, counter machines and almost every type of vending machine along with much other equipment which is suitable to certain areas should be used.

Ops report that the eating spots are the most profitable on the road. These are the places, they explain, where the traveler will stop long enough to get a bite or a complete meal and rest up before continuing his trip. "This means," one noted op stated, "that the average place on the road can accommodate much more than one type of machine and, usually, the place earns as much from its coin machines as it does from any other part of its merchandise sales set-up."

Operators are urged by coin machine leaders to prepare themselves for this great summer vacation travel which the Travelers Aid Society predicts will come into being and also which the bankers of the nation believe will see more spending than during any other vacation season.

From every standpoint this looks like one of the greatest years in history for the roadside location. Those ops who already have these spots tied up should arrange for the finest type of equipment. Other ops who are planning on such locations to open very soon should arrange to get equipment suitable to the places and also arrange for the finest machines possible to attract the greatest volume of patronage.
SCHOOLS FOR MECHANICS

Associations Plan to Set Up Schools for Mechanics to Help Ops. Ask Mfrs to Help by Sending Engineers to Teach Instructors. Report Vets Eager to Enter

"Schools for Mechanics" were suggested by The Cash Box four years ago.

CHICAGO — Manufacturers here report that they have been receiving notification from various leading operators' associations regarding the creation of "Schools for Mechanics".

This suggestion was first offered to the trade by The Cash Box over four years ago. At that time there was a dearth of mechanics in the field and the operators, as well as the jobbers and distributors urged that The Cash Box suggestion be immediately adopted so that "Schools for Mechanics" would come into being to help the operators to progress.

If the average operator wants to purchase more machines he must have mechanics to take care of them for him. The one and only way in which he can be sure to obtain good mechanics is either to offer greater salaries than anyone else in his area or to teach new men how to take care of his coin operated equipment.

The average operator just hasn't the time anymore to teach newcomers to the field how to take care of machines. He would much rather pay someone else to do the job. Also, many leading organizations have been approached by veterans' representatives to teach former soldiers and sailors the art of taking care of coin operated equipment.

Some leading jobbers and distributors as well as such associations as the Music Guild of America in New York, N. J. have arranged for programs whereby vets have been trained to be mechanics. Among the very first of the distributors to start such a plan was Hirsh Coin Machine Co. in Washington, D. C.

The ops' associations are asking the manufacturers to send them their engineers to teach instructors, they have chosen the various technical details of the different types of equipment on the market so that these instructors, in turn, can pass this information on to those newcomers whom they are teaching the intricacies of mechanics of the industry.

Certain manufacturers have stated that any man well equipped with an electrical education can quickly and easily pick up the various intricate details of coin operated equipment. His experience and knowledge, plus what he can learn from the average coin machine mechanic, will assure him being a proved and outstanding mechanic himself in a short time, they believe.

It is also interesting to note here that many ops have given up the idea of extending or enlarging their routes because of the fact that they did not have the mechanical personnel with which to add more machines to their present operations. This is greatly due to the fact that good mechanics are, as yet, extremely scarce and the average coin machine operator is forced to teach whatever men he can obtain as much of the rudiments he can give them in quick time to help his present mechanical force.

From all over the country there has come word that veterans would very much like to enter into the industry as mechanics. Some of the manufacturers have vets working for them at this time learning various trades such as apprentice tool and die makers, electronic experts, etc. But the average distributor, jobber and operator hasn't had the time nor the help to go into such a program, even the this was suggested to him in the past.

There is no doubt of the value of "Schools for Mechanics" for this industry from more than one standpoint, as has been written many times in the past by The Cash Box. A central school should be located in Chicago where the manufacturers could send their engineers to teach students. The manufacturer is more willing to defray the cost to have his engineers spend an evening or two per week to help with such schooling for he realizes what this means to his future equipment as well as the present machines he has on the market.

In addition to this central "School for Mechanics" there should also be schools located in various strategic centers such as New York, Dallas, Los Angeles, Seattle, Detroit, New Orleans, Boston, Baltimore, etc.

The phonograph manufacturers have been among the most progressive in this regard. They have always conducted schools for their distributors and operators and have urged that all mechanics be sent to them for a complete course in their equipment.

The vending machine manufacturers have also made it their business to teach their new operators all about their equipment.

Now the amusement machine manufacturers are turning to this sort of teaching. But, this does not mean that the average new man, who wants to enter this field as a mechanic, can do so by attending individual classes here and there throughout the nation. It is, therefore, better to have schools located in central and strategic cities so that he can get to them for complete teaching regarding the mechanics of all the equipment in the field.
MORE OPS AGREE

"BUST 'EM UP"

IS BEST PLAN

Admit Old Equipment Not Bringing Good Returns
Nor Gaining Favor for Industry. Ask that Broad, National Program be Started to Rid Trade of Ten Year Old Machines.

CHICAGO — As the idea to bust up ten year old equipment spreads thru-out the field, more and more ops have been writing in to The Cash Box to report that they, too, agree with this plan wholeheartedly.

It is surprising to note that the average op realizes what a detriment such old equipment is to the entire industry generally. Not only have certain leading magazines and newspapers begun to call juke boxes in this category, "screech boxes", but the operators themselves now agree that as far as tonal quality and attractiveness these machines are no longer of any comparative value to them as against the new machines.

Regardless of how hard an operator works to keep a ten year old machine in repair and looking as attractive as possible, it will never equal the quality, the attractiveness nor the interesting appeal of the new and modern machines which are being presented to the market.

In the pinball field the new machines are, of themselves, eliminating these ten year old games. They have proved that they can earn anywhere from 100% to 300% more than the old machines and, therefore, the ops are replacing them, for it more than pays to get such old equipment off location. The worst thing that can happen to an operator of pinball machines is to have such old games which absolutely lose the interest of the players and thereby lose the players to the games.

In the phono field, for some reason or other, ops have been hanging on to the old P-10's, 412's, 616's, 716's, 24's, 600's, 500's, Windsors, Monarchs, Rex, Royales, Dance Masters, Zephyrs and others in the ten year old category. Not one of these has the fine tonal quality of the new type phonos. Not one of these the attractiveness, the appearance, the interest nor the earning power.

It is, the ops who have been writing The Cash Box claim, a definite fact that the new machines will outearn the old equipment everytime. Furthermore, from the standpoint of depreciation alone it doesn't pay the operator to continue on with these old machines. He can no longer remove depreciation like he can from new equipment and this, in itself, is part of his profit factor which he should consider from a financial standpoint to arrange that only new machines cover his route.

Not only do more and more ops agree with the suggestion of The Cash Box that ten year old machines be bust up and removed entirely from the market, even from the possibility of export, but they hope that the leaders in the field will enter into a broad, national program to make this possible so that trade-ins will be arranged making it worthwhile to pull these old machines off locations and turn them in against new equipment.

Some of the country's leading distributors, both in the amusement and music fields, have been conducting a program along these lines for some time now. One noted distrub advises that pinballs he has been taking in trade are bust up right in his place and never again re-sold. A noted music distrub makes the same report.

Therefore, it seems that many in the field have adopted this plan on their own account, regardless of whether their competitors or others also take it up. This means that eventually the field will be rid of old machines. But, to assure this happening with greater speed for the benefit of the entire industry, a national plan should be arranged so that all distrubs would follow thru and get this sort of equipment off the market just as speedily as possible.

Those operators who have made arrangements to get rid of these ten year old machines have found that, on the average, their earnings have perked up and they have proved to themselves that the location owners as well as the general public favor the better new equipment and appreciate the change which the new machines make in the location.

To continue to hold the location owner's favor, respect and admiration, it is up to the operator to rid himself of equipment which is only holding him back in the location's estimation.

As more and more ops agree with the suggestion which The Cash Box has made that ten year old machines be traded in and bust up just as fast as possible the leaders in the field are reported to be following thru with ideas to help this plan get into the speediest possible action.
SOME operators say "more play per phonograph" is the way to boost profits.

Others say it's "more pay per play."

Wurlitzer believes it's a combination of both, and Wurlitzer backs up its belief with ACTION!

Action to the tune of the most powerful, far-reaching, play-promoting national consumer magazine, billboard and point-of-purchase advertising program ever known to this industry.

Action in the form of a full-dress drive to convert the public, the location owner, his employees, all operators and their phonographs to QUARTER-DIME PLAY.

Doesn't cut any ice which idea you favor. They both favor you. And they'll both hike your profits to levels you're entitled to under today's economic conditions. The Rudolph Wurlitzer Company, North Tonawanda, N.Y.

"April Showers"
"If I Had My Way"
GUY LOMBARDO ORCHESTRA
(Decca 23845)

- That the Guy Lombardo orchestra is a great many people's idea of danceable, Jimmy in ditties. Journey, among Ella render Gonna it title,^ stuff spots

- Only with that I'm going to be known as an active to the trade and the public. Another luscious ballad, it owes much to the fine personal attention it has been given.

"Sentimental Journey"
ELLA FITZGERALD
(BASIN STREET BOYS)
(Decca 23844)

- An item certainly worthy of top attention from the public is the re-issue of Ella Fitzgerald's famed "Sentimental Journey," which was a top item when with that too much of this year. That hers is one of the best interpretations of the haunting melody is a matter of record. And one can only no wrong by giving it a whirl. Musicmen with all the large cities of the nation are especially encouraged to place it in spots that cater to a more transformable audience. The fact is, "Guilty," already established among the nation's top hits, and is already able to snatch any position on its own before or after the top deck is introduced.

"I'm Gonna Write A Letter To My Baby"
"Joséfina"
RAY DURAND ORCH.
(Majestic 7223)

- Lookin' for combo kicks, you'll find with this crew! The Basin Street Boys render sentiments, lilting music with "I'm Gonna Write A Letter To By Baby!" You'll like the way the crew handles this rhythm number, which is just that deep throated chanting dominating all thru. Ditty has class for that, you can appreciate the coin play. It's slow stuff with the story weaving around the title, and add the picked up beat in the second chorus—you've got something. On the flip with "Joséfina", crew knocks out nobody but their baby "Joséfina". It's in that somber mood that sets the kids down. We peg the topside tune, and so will you.

"Meet Me At No Special Place"
"Ivy"
RAY McKINLEY ORCH.
(Majestic 7223)

- Ditty headed way up high is this current plug tune titled, "Meet Me At No Special Place" on the Ray McKinley orch. Ray chants the vocal on this one, in light manner, to rate this an extra exciting number for your phonograph. It's slow rhythm music done up brown by the most attractive of the band's vocal love. Ray's boys blend well in the back-ground to fill out this piece. On the other side with "Ivy"—this forthcoming ficker of the same name, choir-boy Teddy Norcross is our pickup. The band is leading, while the maestro throws in, a touch of Latin. "Meet Me At No Special Place" is the one you're gonna hear about.

"Peg O'My Heart"
THE HARMONICS
(Vinylace 1)

- In case you didn't know (and the further you are away from Chicago the less chance there is that you do), grab hold of a batch of wax labeled "Peg O' My Heart" by the Harmonics. It was not until this past week that this re-

- "You Know That It's Dreamtime"
CARRIE CAVALLARO ORCH.
(Decca 28552)

- Melody made by Carmen Cavallaro. It's a great success with all very enthusiastic audiences, according to all reports, and this wax product should help swell up the band's coffers. "You Know That It's Dreamtime," a click ballad keyd to some of the best of its kind. Carmen's piano sets a sweet mood for the voice, capably delivered by Bob Allen. The flip, "It's Dreamtime," is as well known both to the trade and to the public. Another lush ballad, it owes much to the fine personal attention it has been given.

"Gotta Get Me Somebody To Love"
"What Am I Gonna Do About You"
BING CROSBY

- Many months ago, this department pegged Bing Crosby's "Gotta Get Me Somebody To Love" as "The Week," and urged that this place it wherever Western-type melody ranked high, and it has proved this past time out, the flip has been released again, this time with a new background and a new touch at that. And once again we urge the trade to get next to the sides, and not only for your customers, it should be a good one in being featured in the click flicker Duet In The Sun, and, as a result, there are apparently very few more of this much demand created for it. Bing does a top notch job on the vocal, and the Les Paul Trio are great on the instrumental support. The flip features the same combo as the "What Am I Gonna Do About You," a click romantic ballad. You can make your own up as something worthy of heavy praise for all concerned. You won't go wrong by giving this disk a ride.

"Hi Do Ho Man"
"Necessity"
CAB CALLOWAY
(Columbia 37450)

- Long missing from the phonos, Cab Calloway comes up with one that might turn the tides and put the band on the boy again. "Hi Do Ho Man," with that Cab bowing away while his boys chant the name, might just get you a little advantage with this ditty. Jump beat that of the "Up Against The Wall", is a good one for the movie, for the trade.

"Toorie On His Bonnet"
"Saloon"
ELLYN KNIGHT ORCH.
(Decca 23854)

- Here's one that will match the pace with any of 'em. Chippie Evelyn Knight steps out here with a pair that will definitely drag the boys' hands out of their pockets. It's "Toorie On His Bonnet" and "Saloon," pair of sides that will fit like a glove in any—saloon. Plug tune, it is the title indicates, a light Irish melody which Evelyn pretty for the brass-aye Boys. Backside with "Saloon," has been a favorite for a long time; and the way our chanteuse does it makes it one that can't miss. You're look-

"Willie"
"Speaking Of Angels"
ELLIOT LAWRENCE
(Columbia 37720)

- Bright outlook for the wax horizon looms big with "Willie," as the Elliott Lawrence orch show pipe-liss Rosalind Patten to good advantage, and that has that teasing quality in her tonsils which makes you want a "Skylark"-like ditty. Ditty is topped off by some unique orchestration out of the Lawrence hit-arr, the chanteuse threatens to steal the thunder with "Speaking Of Angels" showers balladier Jack Hanter with a couple more for the first rate work with this romantic bit. Ditty won't stop traffic, but nevertheless deserves a fair hearing time. You'Il like "Willie."

"Midnight Masquerade"
"It's Dreamtime"
CARRIE CAVALLARO ORCH.
(Decca 28552)

- Melody made by Carmen Cavallaro. It's a great success with all very enthusiastic audiences, according to all reports, and this wax product should help swell up the band's coffers. "You Know That It's Dreamtime," a click ballad keyd to some of the best of its kind. Carmen's piano sets a sweet mood for the voice, capably delivered by Bob Allen. The flip, "It's Dreamtime," is as well known both to the trade and to the public. Another lush ballad, it owes much to the fine personal attention it has been given.

Only Records Considered Best Suited To The Requirements Of The Trade Are Reviewed On These Pages.
THE CASH BOX

Page 10

Week of April 28, 1947

THE CASH BOX

“The Man Who Paints The Rainbow In The Sky”

“Unless It Can Happen With You”

FRANKIE CARLE ORCHESTRA

(Columbia 37311)

“The Man Who Paints The Rainbow In The Sky” opens out as compared to “The Old Lamplighter,” insofar as style is concerned. It’s another memory stuffer and, as such, is bound to get better than adequate action. What’s more the Frankie Carle and his band, as the melody helps out more than a little bit. Marjorie Hughes, who warbles the ballad, is a very petite girl that all helping out to produce a better than adequate waxing. The flip, “Unless It Can Happen With You,” is another pleasant romantic ballad capable performance. Mercury.

“Mam’zelle”

“Meh-Zel”

MARSHALL YOUNG

(Rainbow 10014)

One the better versions of “Mam’zelle” to be heard around is done here by Marshall Young, and his 16-piece vocal novelty. Already established among the nation’s top romantic ballads, Marshall does it with high professional style, and this time his vocalists give the tune demands. In this he is well assisted by the usage of the name “Meh-Zel,” the new novelty (a recent Sleeper Of The Week) that is now getting a very big play on the Coast, which is being enthusiastically callypo to give “His Feet Big For De Bed” and “Jack, Jack, Jack.” Supported by the human sounds of the 16-piece vocal novelty, Marshall, in this rendition, ditty starts a move to wind up with plenty of zip and enthusiasm. Producer says it should do the better “Money’s worth” to be bought today.

“His Feet Too Big For De Bed”

“Jack, Jack, Jack”

ANDREW SISTERS

(Decca 63641)

The Andrews Sisters put in a strong bid to win big phonograph favor via the waxing of this great little pair of novelty-topped “His Feet Too Big For De Bed” and “Jack, Jack, Jack.” Supported by the human sounds of the 16-piece vocal novelty, the Andrews do it. The flip, “His Feet Big For De Bed” has the Latin beat, but the way the Andrews do it. the ditty emerges as a first class vehicle for action as a strictly American pop. If you’ve been seeking a good Andrews Sisters platter, this one should do better than merely fill the bill.

“The Whiffenpoof Song”

“The Sweetheart Of Sigma Chi”

ROBERT MERRILL

(RCA 10-1313)

For a long time we’ve been waiting for a great “Whiffenpoof Song,” and, for a very heavy proportion of phonos, this one may well be it. Featuring the voice of Robert Merrill, assisted by a first class male choir, the side emerges as a you-don’t-want-to-be-without-it item for any operator who has spots that cater to the high school and college trade, as well as customers who gather in taverns to reminisce and compare memory notes. Because this ballad is certainly a great vehicle for the more nostalgic, and because commencement time with its “old school tie” attitude is approaching, the side certainly should have a place among the locations named. The flip, “The Sweetheart Of Sigma Chi” is a well known ballad well suited for the same spots as the top deck and should prove an effective backing when the top side has been worn white. By all means give this disk careful consideration.

“Cu-Tu-Ru-Gu”

“Illusion”

XAVIER CUGAT ORCHESTRA

(Columbia 37319)

Xavier Cugat, probably the best known of those who provide music with a Latin accent, comes out this week with a delightful wax offering with a top ditty in “Cu-Tu-Ru-Gu” (Jack, Jack, Jack). If you are bound to hear plenty of call for this tune is definite. It is being heavily plugged in practically all areas and successfuly. On this version, Cugat’s men offer a pleasing arrangement, but not up to the standard set by Enri Mardiganre. Nonetheless, the side should do very well thanks to Cugat’s reputa­tion. The vocal, contributed by the Royal Tritons is strictly American, and that should give the interpretation wider acceptance. The flip “Illusion” is a very pleasing romantic ballad in Latin tempo and style. Done vocally by Dorothy Porter, it shows up as a promising item if adequately plugged.

“Their Feet Too Big For De Bed”

“The Call To Police”

JIMMIE LUNCEFORD

(Majestic 1122)

Novelty cookie offered ops this week shows Jimmie LunCEFORD and his boys in high style with the platter titled “Water Faucet.” Chanting the lyrics all thru the side is Jack Carruthers aided by a vocal four, who make pleasant lis­tening. Jack is the vocal lead of the sketch here a la “Richard,” which might set the tone. With the refrain echoed “Drip - Drip - Drip,” the ditty is one that race record lovers might like. On the backside we get another novelty, “Call The Police” shaped up fair. Aimed at race spots, ops to cater to this brand might find it to their liking. The flip is there for the asking, so go it.

“Those Things Are Love”

“I’ve Been Around”

TINY BRADSHAW

(Savoy 650)

Staff aimed at the race spots is this latest pair by the Tiny Bradshaw crew, which seems destined to be big things. Well loaded with possibilities is the pair labeled “Those Things Are Love” and “I’ve Been Around.” As romances Mia Cugat’s men take the pitch on both cookies. Topside sets the tempo of the flip with Tiny pitching woo on some real low down blues. Tenor sax walls away in the background to give the cookie a little extra juice. The flip is just what the cookie needs—it’s that good. On the backing with “I’ve Been Around” Tiny sets the tempo low and slow again, while his boys chip in to round out the side. “Those Things Are Love” should come in loud and ear.

BYRDE'S EYE VIEW
ROUND THE WAX CIRCLE
by
Byrde Gore

Lindy's, on 51st Street and Broadway, can properly be termed the midnight Command Post of the entire music business. Everybody goes there, to eat cheese cake, drink coffee and talk—especially talk. So one midnight during this past week we went there, took up a position in a forward area of the tremendous room, and, fortified with a bourbon and soda rather than the inevitable cheese cake and coffee, began our own little action to gather the stuff from which these columns are made.

In no time at all we had company. Irving Katz, an Apollo Records sales chief, sat down and began to spill news. He told us that Connee Boswell, recently added to the label's talent roster, had cut a thing called "Chi Baba Chi Baba," and everybody up there is hailing it as one of the best things ever cut under the Apollo imprint. Incidentally, Hy Siegel, Apollo proxy, has returned from the West Coast where he closed the final aspects of the pact with Charlie Barnet . . .

Next to show where Mr. and Mrs. Frank Obendorfer (he's the local MGM sales promotion chief) and we talked about Van Johnson's recording of "Good Night, Sweetheart," which MGM released this week. There was much difference of opinion as to the worth of the record. Frank, of course, boosting it. Having heard the platter, we realize why there might well be that difference of opinion. Lots better vocalists than Johnson are running around hungry, but, then again, Van's name as a drawing card can't be discounted.

Catching a late bite after his last show at this city's Hotel Commodore was Louis Prima, and with Louis was his manager, Max Schall. Of course we talked about records, and especially about a single record that Louis made recently for release sometime in July or August. The tune was written by capable Sunny Skylar, who will feature it as his first song when he opens his own publishing firm in the near future. We heard Louis' disking of it, and all we can say is that the trade is due for a big surprise.

Gathered at another table we spotted Ben Bert and Harry Lenstak, who manage The Ink Spots. Brushing off our queries as to what happened to their records, Ben advises us that he nacked The Ravens with the National label. The trio is now appearing in a Broadway theatre. In addition, Ben tells us he is seeking a unison distribution of his Hark Records, and would especially like to get more coverage in the South for his "race" line . . .

Over at the Georgia where the man in the white coat, obligingly assured us against discomfort from thirst, we were joined by Johnny Green, of the Stept, Inc. music pubbery. He handed us a copy of "Smoke Dreams," from which the firm expects big things.

And speaking of pubburies, we're told that one of the biggest in the Alley is about to go under . . . Which brings up the fact that the music publishers are moaning about the tremendous drop in sheet music sales, and the record manufacturers are doing likewise over what their own sales figures have been adding up to . . .

We hear that Ted (Heart-aches) Weems will offer "Violets" as his first release under the Mercury label. . . . Capitol execs are excited about Sam Donahue's forthcoming "I Never Knew," the oldie that's being featured as the background musical theme in the flicker "Johnny O'Clock."

Seen along coinrow this past week was Al Middleman, head man of the Sterling and Juke Box labels; Jacka Patocka and Gloria Friedman, of Runyon Sales Co. of New York, are impatiently awaiting the first shipment of the Harmonic Cats' discoing of the "Peg O' My Heart" derivative . . . and we did our good turn of the week by getting a number of disk jock friends to ride it over local air waves, including Ted Hasting and Barry Gray . . .

While at Lindy's, Barry told us he'd spotted it on his Saturday afternoon . . .
Cleveland Ops Honor Cavallerio

Howard Hits Royalty Jackpot With Majestic

NEW YORK — Indicative of the popularity of band leader and Majestic recording artist Eddy Howard is the endorsement made here this past week by E. A. Tracey, president of Majestic Records, Inc., revealing that royalties paid to Howard on the basis of sales of his Majestic Records for the month of March, 1947 amounted to $36,681.55.

Eddy Howard has long been a favorite in the middle west, but his sensational rise to national fame began a year ago with the release of his first Majestic recording—"To Each His Own."

His orchestra was voted the "Best Orchestra of 1946," by the Automatic Music Industry of America, in a music poll sponsored by The Cash Box.

Chicago To Open Mexico City Plant

NEW YORK — Mounting record demands in the Latin-American market have led Columbia Records, Inc., to set up its first foreign plant, in Mexico City it was disclosed late this past week.

Edward J. Wallerstein, president of Columbia has returned from an inspection tour of the new factory, and reported brisk progress. Expecting to have the plant in operation with approximately 15 to 20 presses working late this summer, Wallerstein pointed out that the new plant will use masters from this country, until such time that Latin-American artists can do on the spot waxing in Mexico City.

Prompting the diskery to set up its new facility was the request of Jose Salazar, Columbia distributor in Mexico City. Unable to meet the growing demand to adequately supply the booming market, it is believed the distributor conferred with Columbia officials regarding a new factory operation in Mexico.

The Mexican plant will be under the direction of Michael S. Kestler Columbus, Ohio — Honored at a luncheon tendered by The Cleveland Phonograph Merchant's Association this past week was Carmen Cavallerio, popular Decca recording artist. Standing beside Carmen is Gary Weber, president of E & W Distributing Co., this city.

VOX RECORDS IN NOVEL DISK SET-UP

NEW YORK — Marking a new development in the popular platter field, Vox Records announced to the trade their signing of an exclusive agreement with Radio Station WNEW, this city, for the recording and packaging of the station's Saturday night "Swing Session."

The agreement signed last week between George Mendelson and WNEW manager Bernie Judis, calls for the printing of at least four albums per year.

The first album, cut last week, featured many noted jazzmen. Featured are Buddy Rich, Chubby Jackson, Bill Harris, Charlie Ventura, Patsy Navarro and many others.

The record company, under the supervision of Bob Bach, musical director of the radio show, will edit the program for best numbers as judged by audience reaction.

WRITE FOR COMPLETE CATALOG

www.americanradiohistory.com
New York — That music operators are a long way from general satisfaction over the amount of play currently being rendered by the majority of records now being produced is well known both to contractors leaders and the heads of the record industry.

That some effort to improve the quality and play-giving properties of their platters is being made by many of the labels is also well known, with many recording companies going all out to plug the increased shellac content of their product.

Nonetheless, one suggestion that has been offered the contractors for improving the situation appears to be gaining wider and heavier support from all directions, and a great many of the leading ops quizzed in recent weeks by The Cash Box have come to agreement that there is only one answer to end the entire problem: That is for the record manufacturers to provide the music op trade with vinylite pressings.

It should be explained at this point that the term "vinylite" is actually a trade-mark for a plastic product produced by the Bakelite corporation, that is frequently used to describe all unbreakable records. There are a number of plastic compositions which have qualities similar to those of vinylite, but few of them are known by name.

Few music ops have had occasion to use these "unbreakables." Apart from those manufactured as classical or children's recordings, they have been circulated largely among record reviewers, disk jockeys, etc. However, those operators who have obtained them report amazingly successful wear when compared to the shellac product. In addition, those who have used another type of "unbreakable," namely vinyl records with aluminum core, such as those which have been produced by a Detroit manufacturer. These, too, have registered astonishing wear.

At the present time the number of leading manufacturers are toying with the idea of releasing "unbreakables" to the public. Most of the larger manufacturers have the facilities and are producing such disks for sale to the public. However, what has blocked their use on phonos to any important extent has been the price factor; in addition, few such records have been offered for sale to those which would warrant the increased cost.

Countering the complaint of the price factor, manufacturers point out that the material that goes into the manu-

Facture of an "unbreakable" is too high to even consider cutting current prices they must now charge for it. For this situation, they point out that there is a critical shortage of the material required and the prices they must pay to even press an "unbreakable" are almost as high as what ops are paying for shellac platters. Most claim they would have to charge double their current prices for an "unbreakable" if they were to put it out in place of shellac disks.

On the other hand, there is a feeling among some manufacturers that it could be done, and at a cost whereby the music operator would be required to pay but a few cents more per record than they are now. These manufacturers are bending every effort toward that accomplishment, and they are of the feeling that they will have favorable news for the trade soon.

MILLER MUSIC CORPORATION + 1619 Broadway, N. Y. 19
NEW YORK — Aiming at reducing the freight rates on records now being borne by manufacturers, distributors, music operators and retailers in practically all sections of the country, S. M. Gasster, general traffic manager of Decca Records, headquartered here, has communicated with representatives of a number of leading record manufacturers, suggesting that they meet for a discussion of the freight rate problem with the purpose of working together to obtain what he believes are warranted rate reductions.

Principal target for the manufacturers would be to reduce the shipping classification now being used in the movement of records from Class 2 to Class 3, for both truck and rail carriers. This, in turn, would reduce the freight rates now being carried by both the manufacturers and music operators to a very appreciable extent when examined over an entire year's total.

Gasster holds the belief that this freight reduction is more than warranted when it is considered that from the time the classifications were first fixed on phonograph records, the amount of tonnage shipped by the platteries has increased many times over; at the same time, he points out, the amount of claims entered against the carriers (an important item in considering rate reductions) have come to a very small percentage.

A leader in traffic rate adjustments, Gasster was instrumental in obtaining a reduction of freight rates for phonograph records shipped within the New England states, and he is now seeking to bring about comparable reductions for freight rates on records throughout the country.

To best accomplish this purpose, Gasster believes that a solid front among the record manufacturers would be an utmost advantage in negotiations with the railroad and trucking groups concerned.

**Folk and Western RECORD REVIEWS**

"Death By The Roadside"

"Scars Upon My Heart"

**TOMMY SOSEBEE**

(Apollo 140)

A genuine tear jerker is this offering tabbed "Death By The Roadside," as done by Tommy Sosebee. Reciting the tale of the drunk driver who runs down his own child, Tommy warbles it with no holds barred, and if such a tune will go in your locations, it's possible that the deck will prove a big click. The flip, "Scars Upon My Heart," is another ditty aimed at leaving not a dry eye within earshot, the this one has the less limited aspects of life to draw its message from. Considering the content of this disk, ops should choose their spots carefully in considering it for placement. It's certain that Tommy's performance will create good action wherever the tunes are acceptable.

"New Milk Cows Blues"

"Moonshine Polka"

**MOON MULLICAN**

(King 607)

One of the better things heard this week is this latest Moon Mullican, waxing tab'd "New Milk Cow Blues." Mixing a folk and blues rhythm, Moon warbles the ditty in wholly agreeable style while the Showboys, on the instruments, add neat support to his efforts. The flip, "Moonshine Polka," is a gay and lively ditty that'll go well wherever folk type polkas are in demand. By all means peg this as a disk you should hear, and it's very probable you'll find it one you'll want to place.

"The Wreck Of The Old 97"

"Deep In The Bottom Of The Sea"

**FRED KIRBY**

(Sonora 3038)

Well known and among the greats of folk musicdom is "The Wreck Of The Old 97," done here by Fred Kirby, accompanied by the Mountaineers, the side comes up as an item with plenty of zip and go. Kirby's performance on the ditty is right on the track all the way thru and he does it up right to score well with all the folks who know the tune and for all the youngsters who don't. The flip, "Deep In The Bottom Of The Sea," serves well as a vehicle for Kirby and should serve well as a secondary side to feature when the top disc is thru.

"Look In The Looking Glass"

"Oklahoma City"

**LOUIE AND THE INNIS CLAN**

(Sterling 207)

Louie Innis plays the part of the bashful lover on the side of this platter tabbed "Look In The Looking Glass," and he scores well enough in a very folksy, but very passionless, style. Supplying the melody on the string instrument background is the Innis Clan, and tho the music they make is no serenade, their performance is adequate and workman-like. The flip, "Oklahoma City," has a pleasant bounce, and Louie warbles his tribute to that locality to the advantage of all concerned. Especially an item for Oklahoma areas, ops in other territories should find it an adequate filler.

SonoraExecs Negotiate; Strike Deadline Extended

NEW YORK — Latest developments in the impending strike at Sonora Records indicate that an agreement will be entered into early this week.

Monroe Postrel, press chief at Sonora, announced that Joe Girrl, president of the firm, has arrived in New York to confer with union officials in this city, and at the firm's plant in Meriden, Conn.

The impending strike, involving approximately 250 employees, would, if called, immediately curtail the production of the plant's disks. Demands of the employees, ranging from increases in wages to health and insurance benefits, might also affect the firm's low price policy.

“Negotiations will run through April 29th, and we feel that a definite settlement will be made by Wednesday,” Postrel said.

Union officials, when contacted by The Cash Box, would not disclose just what the demands of the Sonora employees are. The plant is organized by the United Construction Workers (AFL), Local 50, affiliated with the United Mine Workers Union. The union has extended its strike notice deadline until April 30th.

Signature Inks New Talent

NEW YORK — Alan Dale, ballad-er, and a new band unit headed by Warren Covington were signed to recording contracts late this past week, it was announced by Signature Records, this city.

Dale, formerly with the George Paxtou orch, has already waxed his first side, titled "My Heart Is An Open Window," to be released shortly.

Covington was plucked out of the Ray Bloch crew, when the latter maestro "found" him.

Continental Issues New Series—List At 60c

NEW YORK—Continental Records, this city, announced to the trade late this past week the issuance of a new series of records to retail at a 60c list.

“We feel that the demand for a lower-priced label is strong enough to warrant our putting out this new line,” said Donald H. Gabor, president of the firm. “We plan on using the best talent on our roster, and will continue to give the buying public, music operators and our dealers, records of the same high quality as is used in our higher priced line,” he continued.

Joe Doeh, plug singer for the label, will cut the first side in the new series, Gabor disclosed, with a tune titled "As Long As I'm Dreaming."

“Continental will continue to put out our 75c line, both for domestic and foreign consumption,” Gabor added. “At present our production facilities will be able to cope with the increased demand for our records, which should be the result of our decrease in prices,” said the proxy.

Weinand Visits East

J. A. (Art) Weinand

CHICAGO — Art Weinand, sales manager of Rock-Ola, left this city on Monday, April 21st and was present at the opening of the new display rooms of J. J. Golumbo and Co., 1119 Commonwealth Ave., Boston, Mass.

While in the East, Art will visit Mortimer Schwartz, of Mortimer Sales Company, Montreal, Quebec. Mortimer Sales Company is the Rock-Ola distributor for the Canadian territory.

Prior to his departure, Art and David C. Rockola, president of the firm, were hosts to two distributors who visited the Rock-Ola plant here. They were A. J. LaBeau of LaBeau Novelty Sales Co., St. Paul, Minn., and H. Zorinsky, of H. Z. Vending & Sales Co., Omaha, Neb.

Allite Names Graf Production Chief

CHICAGO — Announcement was made this week by Jack Nelson, Sales Director for Allite Mfg. Corp. of Los Angeles, that George Graf, ace production man, has joined Allite as Director of Production to speed delivery of Strikes 'N' Spares Bowling Alley.

Graf comes to Allite with an excellent background of production achievements. For several years he had charge of production at Majestic Radio Company as Works Manager, where he held the record of manufacturing 6,500 complete, console radios a day. He also was connected with Gulbranson Piano Company for several years as Works Manager and also held the position of Works Manager for Rockola Mfg. Corp. for several years.

During the war he served for almost three years with the War Department as a senior engineer, supervising production in many manufacturing plants producing vital war equipment. Graf is one of the very few men to be awarded a citation by the War Department for production accomplishment. This award was bestowed upon him for achieving the record of never missing a schedule in any job under his supervision.

With the addition of George Graf as Production Manager, new production lines of the most modern manufacturing equipment have been set up to increase production that has already started.

"We are glad to have Mr. Graf in our organization," said Bill Schrader, President of Allite, "as we know we have the best man obtainable for our particular job. His past record of combining quality with quantity is an asset that any concern can be well proud of. Working together in harmony with Duane Price, Chief Engineer, and Jack Nelson, Sales Director, we feel that our organization is now complete with the best talent an organization could possibly have. Production plans are going ahead of schedule and with the addition of Mr. Graf we expect to go even faster and produce more Strikes 'N' Spares in a shorter length of time."

PASTER WITH 'HAVANA'

CHICAGO — Herman Paster, of Mayflower Distributing Co., Minneapolis, poses with "Havana," United Manufacturing Company's new game, which he viewed while in this city. Monty Becker Earns Favorable Press For Biz

SPRINGFIELD, MASS. — Contributing his bit to develop better public relations for the coin machine industry in this territory, Maurice (Monty) Becker, well-known coinman headquartered here, was the recent subject of a lengthy feature story in "The Springfield Union," leading newspaper here.

Operating one of the largest routes in New England, Becker's name is also well known on local sport pages as manager of crack YMHA basketball teams in the past.

In its discussion of Becker's part in the coin machine business, the story was most favorable, describing details of its operation as to both pin balls and music, and pointing to the business as "booming," due in no small part to Becker's foresight and business planning.

New COINCRAFT Reels Feature "Sure-Fire" Talent

Monty Becker Earns Favorable Press For Biz

SPRINGFIELD, MASS. — Contributing his bit to develop better public relations for the coin machine industry in this territory, Maurice (Monty) Becker, well-known coinman headquartered here, was the recent subject of a lengthy feature story in "The Springfield Union," leading newspaper here.

Operating one of the largest routes in New England, Becker's name is also well known on local sport pages as manager of crack YMHA basketball teams in the past.

In its discussion of Becker's part in the coin machine business, the story was most favorable, describing details of its operation as to both pin balls and music, and pointing to the business as "booming," due in no small part to Becker's foresight and business planning.
CHICAGO — Coin Machine Industries, Inc., through its Public Relations Bureau, this past week took an important step in efforts to create a more favorable reflection for the entire industry via the powerful mediums of motion pictures and radio.

In a letter signed by James T. Mangan, director of the CMI Public Relations Bureau, it was pointed out to leaders in both fields that they must be aware of the full power they controlled and the responsibility they have to the tremendous audiences they address.

In addition, Mangan asked that these leaders consider, too, their responsibility to the material or subject matter they communicate to these audiences.

Forwarded to the heads of 1,000 radio stations and to all the leading motion picture studios, the letter included the following salient remarks:

“When you issue a moving picture or a radio program, with a title having words in it like ‘Gangster,’ ‘Outlaw,’ ‘Racketeer,’ ‘Gambler,’ or other words with a forbidden allure to them, you always have a good moral point to make, a point like ‘Crime doesn’t pay’ or ‘The regular guy always wins out.’ But in the making of this point, you may employ ways and means that involve a great deal of harmful propaganda for a large group of Americans who never need anything to hurt you, and who are in exactly the same kind of business activity as yourself.

“For example:

“The normally gifted movie or radio writer thinks nothing at all about employing devices such as coin machines in such pictures to carry the suggestion of criminality, badness per se, or outlawry.

“It seems that to these writers a pin game or a juke box or a coin operated machine of any kind is the universal symbol of gangdom. So the play goes on—making its good point, no doubt—but using the coin machine industry as the sacrificial goat, without its ever having been given a chance to defend or explain itself.

“In addition to this direct insult to the people whose entire livelihood is secured from coin machines, there is also that vast segment of the American public which uses and likes the service of coin machines. There are 75,000,000 Americans who patronize coin machines every week, consider the machines an essential part of the American economy, like their time-saving features, their democratic nature. These 75,000,000 coin machine users are also your customers. What must be their feelings when they hear or see you using machines in a bad or forbidden context? SIMPLY THAT THERE MUST BE SOMETHING THE MATTER WITH THE AMERICAN PEOPLE THEMSELVES BECAUSE THEY ALWAYS THOUGHT THAT THE MACHINES WERE INNOCUOUS DEVICES OF RECREATION OR SERVICE AND NOTHING ELSE.

“Considering these factors, won’t you agree that it would be more polite to take a more tolerant attitude towards the machines, and at least half the time TREAT THEM AS GOOD AND NATURAL AMERICAN PRODUCTS serving a good and not a nasty purpose?

“All we ask is consideration, a good ‘looking-at’, so that you may be sure that our medium is essentially the same as your own, and that a blow below the belt to us is ultimately nothing more than a self-inflicted wound.

“We have over 50,000 individually operated businesses, and the owners of many of these businesses are also interested in motion pictures and occasionally sponsor radio programs. We are more closely related to you than you know.”

Mangan closed his letter with the statement that every member of the coin machine industry would appreciate a reply to the statements expressed above from the radio and motion picture heads to whom they had been addressed.

New Bally Game Features Action

CHICAGO — Fast action is the outstanding feature of the new Bally "Rocket" novelty game, according to a statement by George Jenkins, vice president and general sales manager of Bally Manufacturing Company.

"In addition to the ever popular bumper action," Jenkins explained, "the new 'Rocket' has five kick-out pockets on the play-field. Four of the pockets are arranged in the form of a diamond, and it is possible for the ball to be kicked from one pocket to another, going round and round until finally the ball misses one of the pockets and rolls down on the board.

"Every pocket scores 5,000. This feature plus the high value of the

bumpers insures extremely high scores, which is what players want today. 'Rocket' is a straight high-score game with the extra feature of 'special-when-ill' bumpers. The simplicity of the score system is attracting players who are fed up with complicated games. As a result of the

simple, easy-to-understood score system and fast action, 'Rocket' earnings are the highest ever known in the novelty field.

"'Rocket' is described as convertible for novelty or free play operation, also convertible for five or three ball play.
Wurlitzer Launches Third Great Step In Its National Ad Campaign

Complete 'Point of Purchase' Campaign Introduced to Music Merchants at Nationwide Dinner Meetings

NO. TONAWANDA, N. Y. — Hard on the heels of its expanded national consumer magazine campaign and its encircled outdoor billboard program, Wurlitzer has launched Step 3 in its drive to increase phonograph play and profits for Wurlitzer Factory Approved Music Merchants.

This latest step is a complete Point-of-Purchase program available to Wurlitzer Music Merchants at cost and launched in spectacular style at a series of 40 dinner meetings from coast to coast.

As explained by Wurlitzer's Vice-President and Director of Sales, M. G. Hammergren, "The purpose of this program is the same as the aim of our full-color, full-page campaign in Life, Look, The Saturday Evening Post, Redbook, Farm Journal, American Weekly, True Confessions and True Romance. And its purpose is identical to that of our nationwide billboard effort. That aim is to educate people to appreciate that Wurlitzer Music offers Musical Fun for Everyone and to stimulate them to go all the material composing the new Point-of-Purchase program. Speakers outlined the material, its uses, its low cost to the Music Merchant and its proved effectiveness in stimulating sales and profits from Wurlitzer Phonographs. Then followed a 35-minute, full-color, sound movie depicting the material in action.

It is doubtful if this business has ever seen so well-integrated, so fast-moving, so interesting or thoroughly convincing a set-up as Wurlitzer presented in those 40 meetings to its Music Merchants.

Orders for Point-of-Purchase materials were taken on the spot, with most ship-

A new line of Music Merchant business cards, letterheads and phonograph identification cards are also presented as well as fourteen nine-inch and three-inch decals for widespread display of the Wurlitzer emblem—all furnished without cost to Wurlitzer Music Merchants.

One of the newly introduced items that created considerable attention, and it is also provided without cost, is a large gold lacquered Wall Frame to be installed in locations. Into this frame go a series of beautiful full-color cards designed to stimulate play on the Wurlitzer and these, too, are furnished Wurlitzer Music Merchants without cost.

Each Music Merchant attending the meeting was presented with a copy of Wurlitzer's new Sales Manual. First half of the Manual is a graphic and pictorial presentation of the entire Wurlitzer Music story to be used in influencing locate-

Second half of the Manual consists of a catalog of the Point-of-Purchase material. Each unit is illustrated and de-

The pages also include four series of newspaper advertisements and a series of telephone book ads all set for Wurlitzer Music Merchants to run in their own communities.

"All in all, the Plan is sound, complete and beyond any form of advertising that should show itself in action as a real moneymaker for Wurlitzer Music Merchants," a spokesman for the firm declared.

Following the meeting series, four field representatives will cover the country working with Wurlitzer Distributors, their own salesmen and the Music Merchants they service, in a continuing effort to see to it that Point-of-Purchases pro-

gram material is put into use, kept in use, and replaced when used.

Copied with and dovetailed into Wurlitzer's national magazine and billboard campaigns, there is no question of the power of this program, "Wurlitzer officials emphasized, "It compares favorably with any similar effort by the nation's leading advertisers in all fields. It is, by far, the most complete promotional pro-

gram ever undertaken by any commercial phonograph manufacturer for the benefit of the men who buy and operate his machines."

Its success, for all concerned, is assured.

Gold Lacquered Permanent Wall Frame with 4 changes of 4 colored play-pro-

moting cards per year furnished free to Wurlitzer Music Merchants.

where they can enjoy it whenever they are in the mood for entertainment.

"But," continues Mr. Hammergren, "There is a minor difference. When our national magazine and billboard adver-

tising is designed to get people to go to Wurlitzer locations, our Point-of-Pur-

chase advertising is to encourage them to play the phonograph more after they get there."

"How well Wurlitzer conceived and introduced its Point-of-Purchase pro-

gram is evidenced by the landslide of orders for the material now pouring into the factory from Wurlitzer Music Mer-

chants all over the country," he de-

clared.

Each dinner meeting was presided over by a Wurlitzer Distributor. Each group was addressed by the Distributor, the Face-

representative of Wurlitzer's Advertising Agency.

Pictured on a giant display board was a full-color printout of the Wurlitzer Phonograph Advertisement Agency.

cheerful, colorful play-promoting table cards and tents, part of a vast array of Point-of-Purchase advertising provided Wurlitzer Music Merchants at Cost. All these materials moving out of central warehouses assuring speedy delivery and immediate use of the many units involved.

Those units, available individually or in package deals, consisted of Musical Note Mixer Sticks, Musical Note Beer Coasters, Single and Four-page Menus featuring Wurlitzer's Sign of the Musical Note and slogan, handsome electric Flasher Signs for windows, counters or back bars, attractive Table Cards and Table Tents, Direct Mail Pieces for Music Merchant to prospective location mailing, Neaties featuring the Sign of the Musical Note for presentation to bartenders, waiters and location owners.

Also offered at cost are three-inch and eight-inch woven cloth Musical Note in-

Flasher Sign displaying Wurlitzer's Sign of the Musical Note for back bars, counters, windows and walls.

signs for servicemen's jackets, shop costs, athletic team shirts, location drapes and valances.
PRICES SLASHED ON "TALKING GOLD"

NEW CUT-TO-ORDER SIZES NOW AVAILABLE

YOU SAVE TWO WAYS—by lower prices and by our new technique of making "Talking Gold" grille cloth tailor-cut to fit any make or model. Our increased production caused by the sensationally increasing popularity of "TALKING GOLD" PLASTIC GRILLE CLOTH has resulted in lower costs per unit. We pass this savings on to you plus the added savings of "Talking Gold" strips out to the size of your particular machine. Lower price—no waste.

Rocket Train
Rolls Rockets

BEN COVEN

CHICAGO—One of the most interesting stories to come out of this area in sometime is that related by Ben V. Coven of Coven Distributing Co., this city, distributors for Bally Manufacturing Co.

Coven stated, “Since my return to the office here from our big showing in Milwaukee at the Wisconsin Pho-nograph Operators Association convention, we have been deluged with wires, letters and phone calls for Bally Rocket games which we were the first to show in our suite at the Hotel Pfister on Monday, April 14.

“Everyone of these ops”, Coven continues, “wanted Rockets in a hurry. That simply jammed us up and we didn’t know how we were going to get them into Wisconsin as speedily as they wanted them. But”, Coven continued, “our shipping department here reminded us that we can use the speediest train passing thru the Wis-consin country, the Rocket, and so we made our first shipments of Bally Rockets on the Rocket into Wisconsin.

Immediately after the first shipments were made, Coven reports, the firm sent wires to all the Wisconsin ops along these lines, “Rocket Rolls Rockets”.

This sparked so well that the firm has been using this wire with all the Wisconsin ops. “From now on,” Ben Coven reports, “we are going to ship all Bally Rockets via the famous Rocket train into Wisconsin.”

WHAT’S “A.M.”?
IT’S THE DAWN OF A NEW ERA IN AUTOMATIC SELLING!
NEWARK, N. J. — At a General Meeting of the Music Guild of America held here on April 24th, LeRoy Stein, executive director of the powerful New Jersey music-operators’ trade group, delivered a complete report on music association activities and problems he encountered during his recent mid-Western tour which took him to Indianapolis, Bloomington (Ill.), Chicago, Milwaukee and Cleveland.

Highlight of Stein’s address was the call for more effective cooperation from phonograph manufacturers and distributors with the music operator in aiding him to merchandise the musical entertainment he sells to the public.

Declaring that the manufacturers and distributors as a group have “practically shirked” their responsibility to the music operator once the machine was sold and delivered to him, Stein pointed out that he knows of no other industry in which there is “such an appalling lack of effort demonstrated by the manufacturers and distributors as a group” to assist with the problems of their customers, the operators, as a group.

“Too often,” Stein declared, “members of the automatic music industry have regarded the juke box as so much wood, plastic and machinery, created merely to be placed somewhere, to collect income automatically and, in turn, dispense entertainment automatically. All well and good. But,” he remarked caustically, “we have yet to create a customer who will buy that entertainment as automatically as it is sold.”

Stein then went on to touch upon the competition facing the automatic phonograph in the person of radio and television. “The time is already well under way when we must recognize that the type of automatic entertainment we sell must actually be sold,” Stein said.

He then called upon the MGA membership to support a move that would create a public relation service exclusively for the music division of CMI thru which manufacturers and distributors could participate in building up the demand for automatic music among the public.
Modern Shows Mills Phono In New York

MILLS PRESENTS

MILLS PRESENTS

SCIENTIFIC MACHINE CORP.
229 WEST 28th STREET NEW YORK 1, N.Y.

With Charlie Schlicht, chief of the Music Division for Mills Industries, Inc., looking on, Nat Cohn explains to ark trader and M-G-M recording artist Blue Barron some of the outstanding features of the new Mills "Constellation" phonograph.

In the lower cut at left, Nat is flanked by a pair of outstanding cointrade figures in this area. Al Denver, president of the Automatic Music Operators Association, this city and (right) Sidney Levin, attorney for the well known trade group.

NEW YORK — Nat Cohn and Earl Winters, Modern Music Sales Corp., this city, played host to hundreds of guests who turned out to view the first showing of Mills' "Constellation" phonograph in this territory.

Starting at 11:00 A.M. on Wednesday, April 23, music operators, record manufacturers and recording artists began to flow into Modern's showrooms, and kept on coming until late in the day. The party was up to the usual "Modern Style" with plenty of refreshments and entertainment to keep all the guests happy.

Charley Schlicht, Manager of the Music Division of Mills Industries, was on hand to greet the New York operators.

"The operators showed great enthusiasm about the 'Constellation' and placed orders for quite some machines," reported Nat Cohn.

Assisting Cohn and Winters at the affair were Dick Goodspeed, factory technician, Jack Cooper, Eddie Kornfeld, Frank Fellor, and Henry Segars.
The by-laws of the Association were changed to provide for holding the annual meeting by采用, on the second day of the Annual Coin Machine Convention. The next Convention will be held January 19-20-21-22, 1948, at the Sherman Hotel. The annual meeting will, therefore, be held January 20, 1948.

Complete financial audit on Coin Machines, Inc., and also on Coin Machine Industries Public Relations Bureau, was read to the Association members and unanimously endorsed. Dave Gottlieb and James T. Mangan spoke on Public Relations. Mangan giving a detailed report of the operation of the CMI Public Relations Bureau for the past six months.

CHICAGO — At the annual meeting of Coin Machine Industries, Inc., for the election of Directors held here on April 22, Mr. Herb Jones of Bally Manufacturing Co., and Mr. Harry Williams of the Williams Manufacturing Company were elected Directors for three-year terms to succeed M. F. H. Parsons of Buckley Music System, Inc., and Mr. Wm. Rabkin of the International Mutoscope Corp., whose terms had expired. Mr. Lou Ginsburg of Genco Manufacturing & Sales Co., was elected for a three-year term to succeed himself. Mr. Sam Wolberg of Chicago Coin Machine Co., was elected for a two-year term to succeed DeWitt Eaton of AMI, Inc., who had resigned.

At the Director’s Meeting which followed, the present officers were re-elected for the ensuing year as follows: Mr. Dave Gottlieb, D. Gottlieb and Company, President; Mr. R. W. Hood, H. C. Evans & Co., Vice President; Mr. John Christ, Exhibit Supply Co., Treasurer; and Mr. James A. Gilmore, Secretary-Manager.

Other Directors of CMI are Mears, R. W. Hood, John Christ, Walter Traitsch, Dave Gottlieb and Jas. A. Gilmore.

NAAMO Mechanic School Starts May 5

NEW YORK — The School for Mechanics, sponsored by the National Association of Amusement Machine Owners, will start May 5th at the Manhattan Trade Center, located here. This school, sanctioned by the Veterans Administration, under the G.I. Bill of Rights and conducted by the New York City Board of Education, is for veterans only, who have finished a fifty week course in radio repairs and maintenance.

At a NAAMO Executive meeting, held in the Roosevelt Hotel, Wm. Rabkin, Al Rodenstein, Al Meyers, Herb Weaver, Max Schaffer, Mike Munves and F. McKim Smith outlined the course. Final details were arranged on April 22nd at a meeting between Wm. Krangel, John F. Nowak and A. P. Henry of the Board of Education and F. McKim Smith and Al Bendlow of NAAMO.

One major change has been made in previously announced plans. In order to assure more thorough training, the course has been extended to twenty-four weeks. As the school is being sponsored by NAAMO, for its members, selection of students will be made by a NAAMO Committee consisting of Smith of Atlantic City, Bendlow of New York and Al Rodenstein of Philadelphia on April 29th at the Manhattan Trade Center.

NAAMO's first vice-president, Al Rodenstein, is also scheduled to make an early trip to Chicago to enlist the support of the manufacturers in this project.

NAAMO Girls Monicker

Wednesday, April 25, the weekly NAAMO Girls Monicker reports that Rodstein, the Manhattan mechanics, will make the course. and will be held in the New York City Board of Education, is for veterans only, who have finished a fifty week course in radio repairs and maintenance.

By the way, the school is being sponsored by NAAMO, for its members, selection of students will be made by a NAAMO Committee consisting of Smith of Atlantic City, Bendlow of New York and Al Rodenstein of Philadelphia on April 29th at the Manhattan Trade Center.

NAAMO's first vice-president, Al Rodenstein, is also scheduled to make an early trip to Chicago to enlist the support of the manufacturers in this project.

'Advance Roll' Clicks

By W. J. GOODWIN

CHICAGO — "Genco is clicking with one of the finest rolldown games in the country," according to reports from coinmen from all over the nation who have visited here these past few weeks.

The Genco factory is one of the busiest spots in this city at this time turning the games out just as speedily as they can to get them to the operators who have been ordering them in unprecedented volume.

Officials at the Genco factory report, "We believe that one of the reasons why 'Advance Roll' has gone over with such a bang wherever it has appeared is due to the floating rollover button which is one of the outstanding features of the game.

"Every operator who has seen this feature and the many others on 'Advance Roll' have all acclaimed it the greatest rolldown game in history."

The firm reports that shipments are going forward just as speedily, and many coinmen believe that "Advance Roll" is opening a new era for the trade in rolldown game action.
**Cleveland Ops Announce Program For Convention**

**JACK COHEN**

CLEVELAND, O. — Jack Cohen, Chairman of the Banquet Committee for the Ohio State Phonograph Operators Association, announced the program for the forthcoming convention this past week.

The signing of bandleaders, Eddie Howard, Gene Krupa and the Murphy Sisters, to provide the entertainment portion of the show was also disclosed.

Highlighting the convention will be panel discussions with phonograph and record manufacturers, a Hit-Tune Party co-sponsored with the Cleveland Press with Howard, Krupa, etc. appearing, and a gala dinner with floor shows by all the appearing artists.

"We are practically sold out at this time", said Cohen, "and are left with only a handful of tickets which are being held for out of town guests who may decide to come at the last minute".

"There are operators from Wisconsin, Philadelphia, Pittsburgh and other parts of Pennsylvania, along with the host of people expected from Ohio", he continued.

**Minn. Anti-Slot Bill Passed**

MINNEAPOLIS, MINN. — The Minnesota senate, this past week adopted by a 48 to 18 vote, a measure banning bell machine. In conjunction with the anti-slot machine bill, another measure authorizing action in the event of violation of the new bill, was also passed. The senate rejected an amendment to the bill, proposing to forbid the manufacture or storage of gambling devices in Minnesota.
NEW YORK — It was learned here this past week that a number of the Scott Bill (H.R. 1260) are making every effort to have the House of Representatives' Committee on Judicature schedule a public hearing on the measure.

The bill, which would amend the present copyright laws so as to strike out the section which now protects music operators from paying royalties to On performance rights groups such as ASCAP, BMI, etc., poses a direct threat to the very livelihood of every common concerned with the operation of a phonograph route. That this is so is seriously and loudly agreed upon by all leaders in the industry who have been asked for an interpretation of the measure.

Late this past week, Maurice J. Speiser, general counsel for the National Association of Performing Artists, disclosed that he has communicated with Representative Scott, requesting that the congressman inform him of the date to be set for the hearing. This was interpreted by several observers as a method of "putting on the heat" to bring the bill out of committee before a Congressional adjournment could put an end to it for this session. Should the present session of Congress end prior to the bill passing the committee, proponents of the measure would have to draw up a new one and have it introduced in Congress again.

Speiser pointed out that he intends to notify all who are concerned with the bill as soon as a public hearing is scheduled, and he invites any representative of the coin machine industry who would like to be heard to communicate with him at 630 Fifth Avenue, New York City.

"We intend to win this fight," Speiser declared, "but we want to win it fairly; and that means hearing all sides that should be heard."

Meanwhile, coin trade leaders here asked that music groups communicate with the members of their respective committees. The Judiciary who are from their territories. It is this committee that holds the present fate of the Scott Bill in the balance.

The members of the committee include: Earl C. Michener (R. Mich.), chairman; the Republicans are: J. M. Rubin (Ky.), C. W. Reed (Ill.), J. W. Gwynne (Ia.), L. E. Graham (Pa.), R. S. Tipton (Ind.), Frank Fellows (Me.), E. R. Lewis (O.), A. L. Goodwin (Mass.), Clifford Case (N.J.), E. W. Chadwick (Pa.), A. L. Reeves (Mo.), K. B. Keating (N.Y.), E. J. Devitt (Minn.). The following are Democrat members: Emanuel Celler (N.Y.), E. F. Walker (Pa.), Sam Robbia (Ala.), Wm. Byrne (N.Y.), Estes Kefauver (Tenn.), J. R. Bryan (S.C.), F. Cravens (Ark.), T. J. Lane (Mass.), Martin Gorsky (Ill.), M. A. Peigan (O.), F. L. Chelf (Ky.), Ed. Gossett (Tex.).

Most impressive to every visitor here in town is the way the pinball field has zoomed to a new high mark. "Talking about the games," leading coinmen themselves report, "are turning out hit after hit. They are producing the finest machines that have yet come out of this area in many, many years." And the result is that they are reviving the entire amusement machine field. A great many others who never before operated pins, are now in the field with them. And others are coming in, too, as the news spreads that the pin games are bringing back bigger and better collections. It is also interesting to note that the manufacturers are driving on ahead and are planning their new games far in advance. This means that coinmen can be assured of one of the best years that they've ever enjoyed.

We received a great many phone calls this past week from coinmen all over this area and from Gwen Desplenter of CMI Public Relations Bureau asking us more about the Rev. Father Gordon Gehring's article which appeared in the Bloomington, Ill., papers wherein the Rev. Father criticized the city's raids on slots in 15 clubs from his pulpit. Many reprints of this article were called for by interested coinmen and Miss Desplenter of CMI public relations tells me that they will make prints of it. The article originally appeared in the April 14 issue of The Cash Box on Page 26.

Irv Blumenfeld of the "3 Generals" of General Vending, Baltimore, Md., popped into town this past week and seemed to pop out just as fast ... Hymie Zorinsky of Omaha, Neb., was also in town attending the NATD convention that took place here and called around to say "hello" to the coin machine factories here. As per usual, Hymie was dressed in the very height of sartorial splendor—and he still had that cigar sticking out of his face ... Gary Weber of F. & W. Distributors, Cleveland, O., was in town and enjoyed a long talk with Barten (Shuggy) Sagerman of Runyon Sales Co., N. Y. and Newark, as well as with John Hadlock of AMI, Inc. He was all pepped up after this little call and reported that Bod and him are planning many new plans on greater Model "A" sales.

Harold Midbett of Tennessee Music Distributors, Union City, Nashville and Memphis, Tenn. also came to town this past week and reported that things were going great down below the Mason Dixon line. Harold was full of pep, vim and vigor and said that it looked like a great year for all hard working distributors ... Over at D. Gottlieb & Co. they now have a "Doctor" in the house. None other than "Dr." Nate Gottlieb. It seems that this past week a zillion phone calls came in to "Dr." Nate Gottlieb from coinmen all around the country asking him to make a quicker date with "Maiise" for them. Nate claims that the demand for new equipment is exceeding even their mostest dreams. "Just can't be halted anymore, so it seems!" Nate reports.

Grant Shay of Bell-O-Matic is mighty proud of that new, full color circular on their "Jewel Bell" and all those who have seen it agree he should be very, very proud of this job. "We've got a zillion more colorfull ideas like this one," Grant claims ... One of the larger advtg agencies here in town is preparing four color ads to put in a new juice box. They won't as yet give the name of the machine nor of the firm making it but just ask the trade to wait and see ... Art Weinand of Rock-Ola, who just got back from a long and hard trip thruout the West, rushed out again this past week. Nay present at Jerry Columbus's big opening in Boston, Mass. on Monday (April 21). Art also stated that he would continue on up to Montreal from Boston to see how things were going in Canada.

Tommy (Ting-Ling) Callaghan of Bally Mfg. Co. "advises his meter running" at least that's what Mrs. Callaghan remarked the other week in Mil- waukee. Now the boys who have been asking him what the "T" is for in his monicker learned that it meant "Tobacco." And if not to "Tobacco" then they could ask who come out here and bother me to death", or some such excuse he uses ... One of the funniest events of this past week was the rush of Harry Williams and Tony Goldberg to seem to take their CMI duties so seriously that the cyclone they created in the lobby of the Bismarck Hotel had everyone half scared to death. They were on their way to the CMI meeting—but they were one week AHEAD OF TIME ... Sam Stern of Scott-Grove, Phila., Pa., our Chi com- muter popped into town this past week wearing yellow gloves. Real sartorial elegance.

Don Kintzel of Cointrul tells me that they have their Zodi horoscope machine on a test location in Texas where it is taking in from $15 to $20 per day. He also advises that Michigan territory went to a real "swammi" from India. One of those fortunate telling guys who is absolutely nuts over the machine. He's placing demonstra- tion models around on locations very soon to get complete reaction ... Haven't heard from Al Sehring of Beacon Coin Changer in sometime now and am wondering whether AI is all set to pop with some production surprises ... Howard (Carley) Prentel of CMAC must be getting older and older, from what the boys tell me. Now when Curley pulls into town at 3 in the dawning he quickly sees out the softest bed he can find and sleeps and sleeps and sleeps. No more drink只能 with the strong.

The boys over at Coven are talking nothing else but "Rocket." Art Cady, Ed Wikoff, Bob Schaeffer along with the boss, Ben Coven make a very interesting quartet. Someone should write lyrics and music for the song so that Ben can lead them off in one of those old Bally tunes like "What'll we do in '32?—play Ballyhoo". It's about time someone brought some singing sales back into the field once again ... Music ops here are going wild over that "Peg O' My Heart" tune as done by the "Harmonicats" three boys who graduated from Borrach Minevich's Harmonica Rascals and clicked big at Helsing's here in Chicago before the Vitaphone people discovered them and put them on records ... Bud Breitenstein of Bally seems to be putting on even more weight. "I love to eat!", or something like that is what the boys tell me he's saying these days.

Georgie Jenkins over at Bally is also one of the busiest of the busy guys around this man's town. Georgie is all hot and bothered about those phones being shut down just when they are keeping up with "Rocket". Is 'tis terrible", he hollers at everyone within hearing distance. Why? Because he wants to make himself heard about the noise of those Western Union boys rushing in wires to him,—he claims, with more and more orders.

Ken (Wilky) Wilkinson of San Antonio expected in town ... Billy DeSelm of United Mfg. Co. talks about the wonderful reception the firm has received on their new "Rawana." game since it first appeared. They are getting more even before completely sold out of their first lot ... Gene Bates of Pace Mfg. Co. back on the job and receiving visitors every day. Gene is in speedy action again ... Harry Brown of American Amuse- ment Co. expects to discover some neat thing in Idaho and Nevada started right to New York City where Harry awaits some very important news.
The board of directors of the New York Music Operators Association spent an entire session in discussion about the Scott Bill, H. R. 1269 recently introduced into the House of Representatives. (This bill, reported in detail appeared in *The Cash Box*, issues of April 14 and 21—and the current issue, would amend the copyright act of 1909, thus making it possible for numerous groups to extract fees for playing recorded music on coin operated machines.) The New York organization is taking action, and hope all other music associations and everyone connected with the music machine division will also take similar action.

* * * *

"THE CASH BOX" IS THE ONLY MAGAZINE IN THE COIN MACHINE INDUSTRY TO BRING THIS VERY DANGEROUS PIECE OF LEGISLATION TO THE ATTENTION OF THE TRADE.

* * * *

Nat Cohn and Earl Winters, Modern Music Sales Corp., ran one of their typical parties on Wednesday, April 23, introducing the Mills' "Constellation" phono to local operators. The showing started early and kept on going until late at night. Plenty of refreshments and entertainment for the visitors. Charley Schlicht, manager of the music division for Mills Industries, came in from Chicago to attend. Schlicht will be a busy man from now on—flying thruout the country to attend other showings. Harry Fromkes, Eddie Heller and Herb Hendler of Rainbow Records were on hand with some of their recording artists. Larry Clinton, Vogue artist, Blue Barron, M-G-M records, and other recording stars put in an appearance.

* * * *

Dave Stern and Tom Burke, Seacoast Distributors (Rock-Ola distributors) played host to L. LeStur-geon, Southern Music Corp., Durham and Charlotte, N. C., also distributor for Rock-Ola. Stern and LeSturgeon spent quite some time talking about mutual friends from the South . . . Ben Becker, Jack Semel, Jack Rubin and Barney Kahn seen in a huddle on the corner of Tenth Avenue and 42nd Street . . . Sam Stern, Scott-Crosse Co., Philadelphia, returns from his Chicago trip . . . Another coinman who spent some time in Chicago was Jack Fitz-gibbons of Jafco, Inc. . . . Jack Mitnick of Runyon Sales Company and Joe Ash, Active Amusement Machines Co., Philadelphia, two old cronies, celebrated birthdays the same day, April 23. Mitnick hit the half-century mark, but looks and acts like he did twenty years ago.

* * * *

Ben Becker, Tri-State Sales Company and Pioneer Distributing Company (Bally distributors) telling his customers about the wonderful reaction received on Bally's new novelty game "Rocket" . . . George Young, Norfolk, Va. distributor cames in to visit with us. George had just arrived from Syracuse, N. Y., where he and Cliff Baille of Rex Amusement Co., had an old fashioned get-together . . . Dave Lowy and Phil Mason, Dave Lowy Company, traveled out to Hirsh Coin Machine Corp., Washington, D. C. (Packard distributors) one day this week and we understand completed a deal, purchasing a number of used phonos, running into quite a cash figure. We saw Lowy and Mason after their return, and from every outward appearance evidently got out of Washington safe and sound . . . Joe Eisen and Sid Mittleman, Joe Eisen & Sons (Packard distrib-utors) take advantage of the nice sunshine weather and pay the 10th Avenue coinmen a visit.

* * * *

LeRoy Stein, manager of the MGA (Music Guild of America) New Jersey phono ops assn. returned from his visits thru the middle west. It's reported Stein made a terrific speech at the Milwaukee meet of Wisconsin operators. The Scott Bill also came up for discussion at the regular membership meeting of MGA on Thursday, April 24 . . . Barney (Shugy) Sugerman, Runyon Sales Co., can usually be found in the New York office every afternoon. Shugy tells us that music ops are buying considerable AMI equipment, and he is able to accomplish a great deal by being in the city helping out the sales staff.

* * * *

The Washington Coin Machine Corporation (Washington coin machine association) will hold its Second Annual Dinner on April 29 at the Hamilton Hotel, Washington, D. C. Festivities begin at 7:30 P.M., and in addition to the membership, Ben Rodins, banquet chairman, reports that a great many outstanding visitors will attend. The meet held in 1946 was addressed by Homer E. Capehart and Bill Gersh.
Bill Schrader, of the Allite Manufacturing Company, has his factory really going in high gear, and from what we hear these new "Strikes N' Spares" are really rolling on the assembly lines, and samples and sizable shipments should be on the way to the various distribs throughout the country. Bill plans an announcement very soon in which the complete list of national distribs will be published.

Bill Happel Jr., of Badger Sales, plans on a trip up to Big Bear Lake this weekend to combine a bit of fishing and visiting with the ops in that territory. He hopes to stir up a bit of action to get the ops to replace their old worn out equipment with new and fresh games. Jack Leonard, of the Badger parts department, is one very happy hombre these days; after hunting for more than 13 months, he found an apartment. "Ah, life is wonderful," says Leonard.

Dropped in to take a look see at the new factory and offices of the Pantages Wired Music, and saw how the cabinets are assembled and tested. A really amazing sight, it looked very much like an automobile assembly line in Detroit. "Hum" Brokamp conducted the tour of the plant and stressed the production facilities. The plant is capable of turning out a very large number of these cabinets daily, according to Brokamp.

Paul Laymon will set to move into his nice new offices and shops but is being held up by the telephone strike. The new place is across the street (about 150 feet away) from his present showrooms. "If it isn't one thing it's twenty others," moans Paul. Laymon has a sample of the new Bally "Rocket," a swell new five ball which is getting lots of nice comments from the ops calling around the Laymon place.

Bill Williams, of the Williams Distributing Company, has been selling lots and lots of the new Williams "Tornado." Bill tells us that he wishes the factory could supply the volume of games he has orders for. He keeps himself very busy calling on the jobbers and distribs and is keeping them in a happy frame of mind until the games can get here ... Frank Navarro just back from a visit to his offices and showrooms in Mexico City, Frank is distributing the new Aireon phon and "Bang-A-Fitty" bowling game ... David Klor, of the Ray-o-Matic Corp., reports that the sales of the firm's coin operated radio has been on the increase from week to week ... Bill Wolf, of the M. S. Wolf Dist. Co., has taken off for his Seattle offices and will be gone for the next ten days. Al Silberman, just back from a trip through the Midwest, is looking after things in the local offices. We hear that Golden Williams, now looking after things for the firm in San Diego, is due back in town after the first, when she will take charge of the office here.

Ray Powers of E. T. Mape has been displaying some really swell used phonos and games which have been completely reconditioned and refinished and are being offered at very attractive prices. Ray tells us that the demand for the firm's new conversion cabinets is very great with new orders pouring in right along. Len Baskfield, vice pres. of the firm, spent a few days in town on a visit from the Bay City ... Among the ops shopping along coin row this past week were: Jack Teal, Long Beach; Harold Sharkey, Los Angeles; R. G. Patterson, San Bernardino; E. H. Butler, Los Angeles; T. S. Broadbert, Fresno; J. M. Dyer, Los Angeles; S. J. Burris, Montebello; B. N. Hart, Los Angeles; S. R. Hopkins, Banning; Ben Korte, Glendale; Claude Sharpensteen, Yuma, Arizona; Art Weiss, Arcadia.

C. W. Coleman, of Crystalite Radio of Long Beach, has the firm's plant going at full blast turning out the new and improved coin operated radio and plans an important announcement soon ... Jack Gutshall has been doing lots of visiting out in the territory, calling on the boys and talking over their problems and making suggestions to improve the business at their locations. Jack tells me that he has convinced many of the ops that one answer to improving collections at their locations is to change equipment, replace the old worn out pieces with new. Many of the ops have called at Jack's place and have reported that the collections have increased as much as 100% where new equipment replaced old. The Cash Box strongly advocates this point of view to all ops everywhere ... Mercie Connell, of Quality Pictures is having the firm's studios remodeled and enlarged for a number of "super colossal" musical numbers, which he plans on producing for 16 M.M. coin films. Connell plans on shooting within the next two or three weeks, when the carpenters have finished ... Len Micon, of Pacific Coast Distributing Co., is rapidly on the mend and plans on returning to his offices within the next ten days to two weeks ... Al Bettelheim, of C. A. Robinson, is rapidly becoming champ high scorer on the new Genco "Advance Rolls." Al has been practicing quite regularly and is about ready to issue a few challenges ... According to rumors hereabouts, Dick Gallagher, Sam Ricklin, I. B. Gayer and a number of other music ops are planning on withdrawing from the present M.O.A.S.C. and forming a new association. There are at present three music op associations, all pulling in opposite directions, which in the final analysis doesn't do too much good for any of the groups. A friendly merger of all groups for their common good would, I believe, be the sensible thing to do ... Lou Chudd, of Holiday Distributing, is planning on an extended three months trip to the east coast to plug the firm's line of records. Chudd plans on flying to Cuba and Puerto Rico while on his trip ... Nels Nelson expects some good news on the Aireon phon any day now and expects to take lots of orders. He has seen a preview of the new machine and believes it will be in great demand ... Charles Fulcher, manager of the local Mills Sales offices, plans on calling on many of the local ops to take over the firm's swell line of games, Fulcher expects to sell lots and lots of the new Mills phonograph.

William "Bud" Parr, of Solotone, reports increased production of the firm's new Mirror-Tone now that they have substituted a wooden cabinet for the steel. Bud believes that this new change will increase and improve the tone quality.
ST. LOUIS

One thing which everybody notices these days is the lack of smiles on ops' faces when "shortages" come up. Most of the boys, sweating out badly needed equipment for more than a year, can't see anything funny about non-delivery ... Dale Riemer, doughty head of Missouri Tavern Supply down in Springfield, has bought in with Carl Trippe on Carl's largest phonograph route in central South Missouri. This will consolidate two big interests, according to the new partners.

The Missouri Amusement Machine Association got together in the middle of the week for a much delayed meeting which had hung fire for a few weeks. A tensely interesting program was on the roster, centering around the recent edict that all one-balls must be removed from University City; suburb to the northwest of St. Louis. They're gambling machines, the city fathers have ruled, and have advised pinball ops that the one balls must go or the whole shebang will be ostracized. So there is a parade of pickup trucks coming in St. Louis with profitable one-balls scheduled for city locations instead ... No. 2 topic as the ops gathered was location troubles—location jumping, and the recently uncovered trend toward selling location owners various types of coin operated equipment. The association went on record against this practice, pointing out that when the location owner runs his own equipment the spot is gone for good. "We believe a lot of these machines are sold by mechanics who have access to used equipment, and see a chance to earn $50 or so on the side," one sage op declaimed. "Fortunately, not too many location owners are willing to absorb the maintenance and replacement risks of their own equipment."

Maynard Todd, Rockola field goodwill merchant, was in the 49th State over last week, visiting prominent ops such as Andy McCall, of McCall Novelty Company, Barney Neal, Lou and Joe Morris. Todd's gladhanding, we hear, helps to offset much of the ire aroused in the boys who have empty spots staring them in the face ... The CMI Show film, which was due two weeks ago, didn't show. It's promised for the next conclave, however, according to Del Veatch, when a few CMI speakers will be on hand to lend spice to the movie.

Bill Hollenbeck, of Cape Girardeau, buzzed a few distributors showrooms this past week in his new big plane. Bill still holds the title as the only flying operator in the midwest, and claims he saves money darting in and out of St. Louis. Bad weather kept him clamped on the ground most of the winter, however.

MINNEAPOLIS

Cecil Adams former ace mechanic of the H. J. Gulck Co. just got himself hitched. Good luck Cecil ... Snooks Harrison of the Howard Sales Co. is sporting a new nose, and it's plenty cute. A little plastic surgery and presto a new personality. On him it looks good ... Henry Klein of Sioux Falls, So. Dakota, is no longer in the business, having sold his route to Ray Sturgeon of the same city. Henry plans to keep busy with his carnival. Good Luck, Henry!

Clayton Norberg of the C & N Sales Company, Mankato, Minn., in town with his hand in a sling. Started with a scratch which was neglected and then blood poisoning. He's getting along fine and that's the important thing ... We just heard that Art Johnson, Glenwood, Minn., sold his route to Bob More of Willmar, Minn., last month. Art is spending all his time at his tavern and it looks as if Bob is going to work a little harder.

Con Kaluza of Browerville, Minn. in town for just the day calling on a few jobbers ... Art Hawks and his wife of Yankton, So. Dakota, in town for a few days' shopping, etc. Art just started in the business and with a big bang ... Mr. J. Coullhan, who runs the Excelsior Amusement Park at Excelsior Minn., is praying for warm weather and plenty of sunshine when he officially opens the park.

J. H. Bessler of the Hy-G Music Co. home ill with a bad cold ... Frank Davidson of Spooner, Wisc., in town for the day calling on a few distributors ... Dick Cabot from Dakota, Minn., in town for the day ... J. Koers of the Rushmore Amusement Co., Rapid City, So. Dakota, in town for a few days calling on a few distributors ... Harry Harrison critically ill of pneumonia at Brainard, Minn. Doctors are giving him an even chance of pulling through.

Don Bruington, of Onamia, in town and ready to have his launch put on the lake for cruising and fishing ... Van Specialty Co., Bismarck, No. Dak., is now known as the Westrum Bros. Music Co. ... J. E. McNiece, of the Mpls. Rifle Sport on his feet again after spending two months in bed. Mac suffered a heart attack about two months ago, and it didn't look too good. Nice going, Mac ... L. Linz, of Linz-Scheer, Hayward, Wisc. in town for a few hours.

THAT'S WHY Aireon

GIVES YOU 18% TO 36% GREATER PROFIT!

Tone Quality is the vital feature of any coin-operated phonograph — the feature that brings in the most nickels. And in tone quality Aireon Electronic Phonographs have achieved a new high. Aireon music is sweet and mellow, with a fidelity to the brilliance of the original performance never before achieved, thanks to Aireon electronic science and engineering genius. Another reason why Aireon pays you 18% to 36% greater profits. Another reason why Distributors, Operators and Location Owners agree . . . from now on it's —

Aireon
MANUFACTURING CORPORATION

General Offices: 1401 Fairfax Trafficway, Kansas City, Kansas
In Canada: Mafco Corp., Ltd., 4001 St. Antoine Street, Montreal, Quebec
All the bell-fruit flash and spinning-reel action of Draw Bell—plus the big 1000 Super-Special popularized in Triple Bell—plus the new EXTRA DRAW feature that permits players to deposit three, four, five coins per game to hold favorable reels and spin again for a winner! That's Bally's new console, DE LUXE DRAW BELL, fastest profit-producer in the bell-console class. Nickel or Quarter play.

Triple Coin Chutes permit three players—or three coins—every spin. 1000 Super Special Awards, plus plenty of other big awards and single-cherry awards insure continuous repeat play. Deluxe cabinet in rich wood-grain finish. Simple trouble-proof mechanism guarantees rock-bottom service cost. Available in straight Nickel, Dime, Quarter or any desired coin-combination.
