# SPEAKING OF SPOT...

Speaking of Power, the true power of Radio rests upon its ability to deliver Radio Audiences, responsive to its messages, both in the public and private interest.

The development of this response depends upon the constant effort of Stations towards understanding the character of their markets and the people they serve. Success varies in proportion to the amount of time, effort, and imagination put forth.

Conforming to this pattern of successful Radio showmanship, our Stations have developed programming, productive of highly responsive audiences.

Judging from results secured, advertisers—both local and national—have expressed their approval of this sound concept in renewals and expansions of their campaigns.

This power is at your service.

# 50% OF THE SALES ARE MADE OUTSIDE\*

on the Pacific Coast, too!

If you think nylons are hard to get, try getting complete radio coverage on the Pacific Coast without Don Lee. It can't be done—for while all 4 networks cover the "inside market," only Don Lee completely covers the "outside market" (where half the retail sales are made).

Most markets on the Pacific Coast are surrounded by mountains 5,000 to 15,000 feet high and the long-range broadcasting of other networks doesn't work. Don Lee, however, with 38 local stations, broadcasts from within each of these mountain-surrounded markets.

\*Half of all the retail sales on the Pacific Coast are made OUTSIDE the counties in which Los Angeles, San Francisco, San Diego, Oakland, Portland, Seattle and Spokame are located

A special Hooper coincidental telephone survey of 276,019 calls (largest ever made on the Pacific Coast) showed 60 to 100% of "outside" listeners tuned to Don Lec stations.

How about "inside coverage?" According to regular Hooper reports, during the past year all of the shows that switched from any of the other 3 networks to Don Lee received higher Hooper ratings within 13 weeks!

You'll have to wait for nylons—but you don't have to wait for complete Pacific Coast radio coverage. Buy Don Lee, the only network that delivers *both* markets of the Pacific Coast!

DISCOUNTS

Evening periods: After totaling the gross weekly billing, the applicable dollar volume discount is selected from the table below and is deduced, together with any other earned discounts as provided for in rate card.

Daytime periods: Inasmuch as daytime periods are equal to 50% of evening costs, the gross weekly billing for a daytime period is doubled for the purpose of ascertaining the applicable dollar volume discount bracket. The proper percentage of discount

is then applied to the actual weekly gross billing of the daytime program.

"Transition periods: Whenever the period is 1/3 or 2/3 of the evening rate, the gross weekly billing is converted to 3/3 or full evening billing, for the purpose of ascertaining the applicable dollar volume discount bracket. The proper percentage of discount is then applied to the actual weekly gross billing of the transition period.

(\*) This method of determining net costs for time classifications other than evening is not applicable when computing "oversil discounts."

Dollar Volume Discounts

Discounts are earned by advertisers who complete 13 or more consecutive weeks of network broadcasting.

It seems that every station *must* have its "keen reporter with an alert evaluation of the news"but we have chosen these words wisely, for they best describe Wallace Beecham. He broadcasts the 6:00 PM news, 15 minutes which have a peak interest with news-conscious Alabamians who naturally expect—and get-the most complete news service from WAPI, "The Voice of Alabama."

6:00-6:15 Tuesday, Thursday, and Saturday evenings are available to an advertiser who knows the value of an experienced newscaster familiar to his listeners, gifted with the knowhow of reporting local and national events for industrial workers of Birmingham and farmers of Alabama alike. You can reach 'em with Beecham. For proof, see us or Radio Sales.

DISCOUNTS

The above rates represent a 15% discount on the composite rates of the five Beeline stations. It is desirable in Beeline operation to have the same number of broadcasta used on all stations during the same contract, even though the exact broadcast time of the schedules may differ. Where this is not possible the following rules apply:

I nequal frequency: When the length of contract on all Beeline atations is the same but the number of broadcasts per week on these stations is different, the 15% Beeline discount will be allowed but the frequency discount will be allowed but the frequency discount will be determined by the number of broadcasts on the atation or stations with the smallest schedule. That is, if an advertiser issues a 13 week schedule comprising five broadcasts per week on each of the others, the frequency discount will be based on 13 times one station, and one broadcast per week on one station, and one broadcast per week on each of the others, the frequency discount will be based on 13 times of the others, the frequency discount will be absed on 13 times of the others of the othe

recates on gross billing or each series will be paid for 13, 26, 39 or 52 consecutive weeks of broadcasting and on any continuation thereafter so long as there is no lapse in soledule. The rebate will be due and payable currently only on firm qualifying contracts or as contracts become firm for 13, 26, 39 or 52 consecutive weeks.

Interruptions of a series necessitated by the broadcasting of special events of importance will not affect the advertiser's right to the discount or rebate.

The rate of discount or the rebate to which an advertiser would otherwise be entitled for the then firm portion of his contract will not be prejudiced if he is required by company to relinquish the time or times specified in his contract and the contract is cancelled for that reason.

# KOA LEADS THE WAY IN POWER!

KOA is the dominating force in its "area of influence." This includes Colorado and adjoining states.

It's probably the only U. S. station with over three times the power of all competing stations in the city wherein it is located and with nearly double the power of all stations in the state it serves.

With its 50,000 watts, KOA carries your messages to more radio families at lower cost per listener than any other Denver station or combination of stations in Denver or Colorado.

KOA's big story is results for advertisers. Power is the big reason for KOA's results! When KOA listeners hear your message they respond!

NINETY-SIX and one half percent of New England's shoppers hear and respond to the peak program and power impact of NERN stations. How well they respond is indicated by U.S. Department of Commerce figures, which show much higher-than-average retail sales per capita in every one of the six New England States. To

reach these people for a quarter-hour in the daytime costs only \$292 on NERN This gives you stations which, through NBC affiliation and adept local planning carry the nation's and New England's peak programs. And, per the listings below, they have New England's peak power. When you buy NERN, you buy a network.

## MANUFACTURING

The valuation of Florida's manufactured products ranging in variety from ships and paper to cigars, food and novelties, approximates \$200,000,000 annually. Climatic and geographical advantages offer strong support for future industrial expansion. Water transportation from excellent Atlantic and Gulf ports convenient to established trade routes, rail service within forty hours of thirty-six states, and complete air transportation to all the nation, as well as to South America, make Florida a logical location for new industries. Never-failing sunshine creates an average mean temperature of seventy degrees—ideal for workers in industry.

North Florida, from Ocala to Jacksonville, and as far west as Pensacola, is Florida's most important industrial region, covered by, and responsive to, the dominant influence of John H. Perry Radio Stations.

# FOR A \$URE-LOCK"

Read This New, Timely "Glenn Marshall-gram"...

- Let's get down to brass tacks on this huge market that most national advertisers are calling the "North Florida bonanza"... First of all, Jacksonville's WMBR rating in a Monday-thru-Friday Conlan survey, proved that in the 48 quarter-hour ratings, WMBR showed an amazing tabulation of firsts, seconds, thirds, and fourths!...By the same token, WFOY, St. Augustine salesproducer, was tabbed for 74.3% of the audience from 8 a.m. to 10 p. m!
- Man to man, that's the sort of performance you're interested in, isn't it?...Unless I miss my guess, you'll reach for the phone book to get the number of Weed & Company's nearest office ..Let them tell you ALL the facts—about WMBR and WFOY, the North Florida Sales-Twins!... Thanks for your time!

# RESULTS

THIS MONTH: SATURDAY NIGHTS

When Murphy Products Company of Burlington, Wisconsin, recently renewed its sponsorship of the 9 to 9:30 p.m. portion of the WLS National Barn Dance, it marked the 15th year for Murphy on the WLS National Barn Dance. Advertiser-loyalty, year after year, comes only because WLS GETS RESULTS!

A free sample of a pipe tobacco, offered twice one Saturday night (10:00 and 10:30 p.m., one-minute announcements) brought 3,261 requests. Saturday nights, early and late, WLS GETS RESULTS!

A fence advertiser, 7:30 to 8 p.m. Saturday nights, offered a \$3 weekly prize for the best 75-word announcement copy submitted. There were 6,601 entrants in 3 months. Saturday nights, late and early, WLS GETS RESULTS!

Your product, too, can have this kind of acceptance in Midwest America. Because WLS speaks as "the voice of a friend", as "one of the family", our listeners hear and respond with confidence ... a confidence that extends to the products we advertise. See a John Blair man for many other factual stories revealing how this WLS-built confidence can work to your advantage, now and postwar.

For deepest penetration of the four-state area, city, town, village, and farm, use Prairie Farmer with WLS as a team. There is no more economical way, effectively to reach, inform, and sell this great midwest American market than with WLS and Prairie Farmer together.

Commitments made prior to March 1, 1945, will be completed at the rates called for by such commitments. But advertisers may elect to substitute new contracts effective at any time after March 1, 1945, at these rates for the unexpired portion of such commitments. Otherwise, rates in effect immediately preceding March 1, 1945, will apply to extensions of said commitments for any period or periods up to and including February 28, 1946, for the same series continuously used. Rates effective March 1, 1945, are applicable to all new broadcast series ordered on and after March 1, 1945.

The rate of discount to which an advertiser would otherwise be entitled will not be prejudiced if interruptions of a series are necessitated by the broadcasting of special events of importance, or if he is required by the station to relinquish the time or times specified in his contract and the contract is cancelled. Rates for periods longer than one hour are in exact proportion to the corresponding one hour rate. Contracts with the same advertiser and for periods in the same rate classification may be grouped for the purpose of obtaining lower rates.

# ... WMAQ at 5:15 PM

Carson Piric Scott & Co., one of Chicago's oldest and finest department stores, recently decided to inaugurate an institutional advertising campaign. Radio was chosen as the medium to reach the millions in the Chicagoland market. America's 2nd largest, where 2,855,700 families annually spend over \$3,500,000,000.

Before selecting a station they checked station coverages and found WMAQ to be Chicago's number I station—the Chicago station most people listen to most.

And so Carson Piric Scott & Co. currently sponsors "Variety at 5:15" on Monday, Wednesday and Friday evenings. They have joined the group of discerning advertisers whose programs over WMAQ make up radio's finest entertainment program schedule in the world.

WMAQ—morning, noon and night—reaches the people who listen and buy. Information concerning time availabilities furnished upon request.

Yes, indeed, growing corn IS big business in Iowa . . . but, there's other BIG BUSINESS, too! For Iowa's industrial income EQUALS the value of its gigantic agricultural income. Iowa is a versatile market and WMT at 600 KC (Iowa's best frequency) cuts right through this cross-section like a Patton armored division. When you think of Iowa, think of WMT . . . and while you're thinking of it, wire or write now for availabilities and market data. Thanks.

"Every time you hear somebody talk about a farmer, you want to remember the average farm income out here in KXELland—or Iowa—is just about \$8,000. Yes, sir, friends—that's quite a heap o' money. It lets our folks do quite a heap o' livin'—and a heap o' buyin'."

"And how is the best way to sell this market? Why, shucks, just use KXEL-'cause this is the station our farm folks depend on."

# KFH Wichita

An average day at Buck's, Inc. Wichita's four department stores retail sales in 1944 amounted to approximately \$20,000,000. They tell their shopping news over KFH.

# Count on \$100,000,000, over-the-counter

Everyone knows that the Wichita market is a standout today with millions in war industry payrolls. But when conditions become normal, you can count on solid retail sales over Wichita's up-to-the-minute selling counters.

The reason has always been apparent to solid-minded time buyers who know the great Southwest. They know some sections depend alone on oil; some alone on wheat; some on agriculture or cattle...but Wichita, that solid section of Kansas' biggest and richest market, is enriched and perpetuated by all four to which is added solid industrial growth

Although Wichita's retail sales reached \$102,162,086 in 1944, Wichita retailers predict new increases in 1945. Your share is waiting for you on that selling station for Kansas' richest market.

# WHAT'S SO WONDERFUL

# **ABOUT** MIRACLE (Ky.)?

Mayoe Miracle is marvelous to somebody, but to usand you-it's just another distant settlement. All such communities in the State lumped together wouldn't give you a market equal to WAVE's populous and prosperous Louisville Trading Area (which is all we actually ask you to pay for, though our wave-lengths reach farther than you'd think). You won't get miraculous results from Miracle, but you can expect 'em in Louisville. Shall we WAVE a wand?

# "It's got to be delivered!"

War supplies can be produced and loaded or board ships . . . but they might as well not be made if they aren't delivered. It's the same thing in radio.

You and your clients can load the soundest sales argument into a package . . . put it on the air . . .

But it's got to be delivered to do you any good.

he next time you hear Schubert's immortal Unfinished Symphony remember it laid in oblision on a dusty shelf for over forty years.

Then one day it was discovered and played before an audience. Immediately it was recognized as a masterpiece.

Which indicates that even genius must be heard before it can be appreciated.

This same thought applies to radio. The most compelling "commercial" spoken into a microphone would be a waste of breath if there were no listeners at the receiving end.

Your selling story, spoken into a WCBM microphone is certain to reach a profitable proportion of the Baltimore market, for listening to WCBM is a habit in Baltimore.

Remember 1936? A second term and nine years ago. That's when Cloverland Farms Dairy\* started on Baltimore's Big Home Town Station WFBR. It was natural that the Cloverland people—home town boys who grew from small beginnings to Baltimore's biggest independent dairy—should turn to WFBR.

Since then Cloverland has consistently been on WFBR in programs of their own or on WFBR's specials—such as Club 1300. Right now they have

the 5 minute news period on Club 1300 six days a week at 11 A M.

Remember the above facts when people start talking about RESULTS in Baltimore! Yes, if you want to know what to buy in Baltimore... buy what the successful home town boys have always bought and are buying today... W...F...B...R...

# "Want Boston at breakfast?"

HUM & STRUM will deliver it to you, via the "Commuters' Special" over WCOP.

HUM & STRUM are New England's most famous harmony duo. For twenty years, over all major stations, they've built a terrific following in Boston with song and patter, piano and ukelele.

HUM & STRUM have just won new laurels on an overseas trip; they wowed GI's in hospitals, recreation centers and at the battlefronts.

HUM & STRUM are now conductors on "The Commuters' Special" featuring the boys with music, patter, news, weather and time over WCOP every morning Monday through Saturday from 7:30 to 8:00 and from 8:30 to 9:00.

Publicity and newspaper ads are sewing up new and greater audiences. Participations are available in one-, five-, ten- or fifteen-minute units. Every one of them will cash in on the buying decisions which are made at Boston breakfast tables!

Discounts will be silowed currently on non-cancellable contracts. On other contracts discounts will be due and payable as earned Where more than one time classification is used for pregams, first total up the gross onle-day rates for the periods to be purchased and then deduct carried discounts, as follows:

(1) Deduct the applicable weekly frequency discount

periods to be purchased and the access minutes, as follows:
Deduct the applicable weekly frequency discount (10% from the gross for 3, 4 or 5 days per week; 20% from the gross for 6 or more days per week). Deduct the applicable weekly dollar volume discount if contract is for 13 weeks or longer.
Deduct consentive weeks discount if applicable.

Weatly Preguency Discounts

Weekly Frequency Discounts
Weekly frequency Discounts
Weekly frequency discounts on mixed station time:
When an advertiser contracts for station time under
General Broadcasting Time Rates in more than one
time classification or in units of unequal cost, the
higher priced (m basis of one day gross rate) program periods earn frequency discounts for the lower
priced periods but not vice versa.

Example 1: If an advertiser buys three Class "A" 15 minute periods on Monday, Wednesday and Friday and three Class "B" 15 minute periods on Tuesday, Thursday and Saturday, the rate is then the six day rate (20% discount from the gross) for the Class "B" periods and the three day rate (10% from the gross) on the Class "A" periods.

on the Class "A" periods. Example 2: An advertiser buys three 60 minute periods in Class "B" on Tuesday, Thursday and Saturday and three 15 minute periods in Class "A" on Monday, Wednesday and Friday, the rate is then the six day rate for the Class "A" periods (20% from the gross) and the three day rate for the Class "B" periods (10% from the gross).

#### Weekly Dollar Volume Discount

Weekly dollar volume discounts not applicable on schedules of less than 13 consecutive weeks of broadcasting. Advertisers using a schedule of 13 or more consecutive weeks are entitled to dollar volume discount on all broadcasting at General Broadcasting Time Rates or Announcements running concurrently.

#### YOU MAY BE ABLE TO SWIM 292 MILES, NONSTOP\*

#### BUT-YOU CAN'T FLOAT INTO WESTERN MICHIGAN FROM THE "OUTSIDE"

So you're using a 50,000-watt station within 250 miles or so of Western Michigan—and you figure you're getting "coverage"!

But listen: People in this section aren't hearing your broadcasts regularly - they can't because of a queer local condition of fading. To reach them you must broadcast from within-the-wall of the fading area.

Chiama and Detroit are outside. Use of nearby stations is the only answer.

In Kalamazoo, Battle Creek and Greater Western Michigan, that station is WKZO, serving eighteen counties with a daytime

population of 630,762 people. In Grand Rapids and Kent County, it's WJEF, serving a quarter-million people with the most favorable frequency in the market (1230 KC). Both WKZO and WJEF are CBS. Both are programmed for their specific areas. Both are owned by the Fetzer Broadcasting Co., and are sold in combination at a bargain rate per thousand radio homes. Together they offer complete coverage of Western Michigan.

Let us send you the whole story—or just ask Free & Peters!

From the day a soldier goes to war, he is dependent on paper. His records are packed in it; his cartridges are wrapped in it; his shoes are lined with it; his letters are written on it.

His barracks are built with paper wallboard, paper roofing, paper insulation. He shoots at paper targets, eats from paper plates, drinks from paper cups. His battles are planned, his orders are issued, on paper.

You may not have to pinch your pennies, but now is the time to pinch paper and see that it does its part in the war. Paper has become so much a part of our lives that we hardly notice the way we waste it—much less the way we use it.

Paper is our soldier's indispensable ally we have no more right to deprive him of it than we have to take away his gun.
