the Globe, the German and British governments increased their funding for public TV by 1%, the Japanese government by 2.4%, and the French by 3%. A major problem for the new person who'll succeed former President **Perrin Beatty**, is "dealing with the demoralization in the face of uncertain leadership, growing commercialization, strident attacks from private broadcasters and overt disdain, if not contempt, from the present government"... US broadcasters are now able to own two TV stations in the same market. The change is limited to the largest markets with at least eight separately owned TV stations and prohibit any of the four top-rated stations in a market from combining. The **FCC** relaxation also allows one company to own as many as seven radio stations in a market where it also owns one TV station, or six radio stations in a market where it owns two TV stations... The **Associated Press** has acquired **United Press International's** broadcast news contracts, which cover services to more than 400 US radio and TV stations. UPI is getting out of the broadcast news business in an effort, it says, to reposition itself in more specialized markets... Internet search engine **Lycos** has bought **Internet Music Distribution**, maker of the **Sonique** player that enables downloaded music to be played on a personal computer. Lycos bought **IMDI** for about 1.1 million shares of stock in a deal valued at about \$US39-million... **NBC** is taking an equity stake in **Net2Phone Inc.**, a company that provides phone service over the Internet, in exchange for prominent placement of links on the network's top Web sites. Visitors to the **NBC.com**, **Snap.com** and **NBC Interactive Neighborhood** Web sites will be able to search yellow and white page phone listings and click any listing to automatically dial the number using **Net2Phone's** service. In return, **NBC** and **Snap.com** will acquire an equity stake in **Net2Phone**, with **NBC** gaining the right to nominate a board member to **Net2Phone's** board of directors.

RADIO: More than 15 major manufacturers will present new Digital Radio products at the **International Radio and Television Exhibition IFA** in Berlin (Aug 28-Sep 5). As well as car radios equipped for radio's new digital era, there will major focus on DAB sets for the domestic environment and PC cards

for use at home and in the workplace. At least ten manufacturers offer DAB receivers using the **Eureka 147** system. The range and variety of Digital Radios now available will substantially increase. A range of top manufacturers have announced the launch of home receivers and, for the first time, the launch of portable radios... On Monday at **CRTC** headquarter in Hull, a public hearing is on tap to discuss a range of applications, including: **NewCap's** applications to flip **CKXD Gander** and **CKXG Grand Falls** FM... An application by **Bea-Ver Communications** for an FM licence (alternative Rock) at Chatham, ON. The company owns **CFCO-AM/CKSY-FM Chatham**... Grossman is also asking to convert the stations to FM... **Craig Broadcast Systems** wants to flip **CKX Brandon** to FM... **Riding Mountain Broadcasting** wants to establish a new FM (AC) as a sister station to its **CKLQ Brandon**... **Golden West Broadcasting** is asking for an FM'er at Winkler to twin with its **CKMW** and for an FM licence at Moose Jaw to twin with its **CHAB**... And, applications by **Fraser Valley Broadcasters**, on behalf of newly incorporated **Fraser Newco**, to acquire, as part of a multi-step corporate reorganization, the broadcasting assets of **Fraser Valley Broadcasters Ltd.** (**CKMA Abbotsford**, **CKGO Hope** and **Star-FM Radio Inc.**, licensee of **CKWX/CKKS-FM**, **CKLG/CFox-FM**, and **CKNW/CFMI-FM** to simulcast in Digital to introduce the public to the new radio service as well as to refine coverage and market issues...

News Opportunities

Rawlco Communications is looking for qualified news people for News Talk CJME Regina and 650 NTR News Talk Radio Saskatoon. We're adding to our excellent news teams in both cities,. At **Q107 Toronto**, despite an ownership change coming up, the station says it intends to keep airing **Howard Stern's** morning show at least through August of next year. That would complete the original three-year contract... Meantime, **WRQC-FM Minneapolis** has dropped **Stern**. Low ratings are blamed. Apparently, his humor doesn't play well in the US midwest... Nominated as the *Canadian Country Radio Station of the Year* are **STAR 96.7 Pembroke**, **Country 105 Peterborough**, **CKKR Cranbrook**, **CHAT Medicine Hat** and **CJVR Melfort**. Winner will be announced at the **Canadian Country Music Association** award Sept. 11... It seems that anybody can have a private FM station, based on news that the **Radio Webcaster** is an FM transmitter that connects to your computer's sound card. It allows the computer to transmit any audio signal to any FM radio in your home or office. The package includes software that allows the user to select from over 1650 stations and Internet broadcasts... For those who remember former **66 CFR/KISS-FM Calgary** personality **Jerry Steen**, he's now partnered in a Second Cup franchise in Calgary. "It's a completely different world," he says. "You go from being a spoiled media brat enjoying all the freebies and being recognized to ... well, I never knew what an invoice was. Now I'm buying coffee by the five-pound bag!"

TV/FILM: The **CRTC**, prodding cablecos about new TV channels, has sent a public notice setting out the rules for distributing **ROBTV**, **Canadian Learning Television**, **Star TV**, and **Talk TV** -- the only specialty channels among 17 licenced in 1996 not yet shown in English Canada. In its latest letter, the Commission outlines in detail how cable must distribute them by Sept. 1... A wholly-owned **CanWest Global Communications** subsidiary has acquired 925,000 Class A voting shares of **Alliance Atlantis Communications** at a price of \$21.00 per share. That brings CanWest's Alliance Atlantis stock to 1,038,250 Class A voting shares, or approximately 20.6% of the outstanding Class A voting shares... As the **Toronto Blue Jays**

soar, so do the team's TV ratings. Audiences over the past two weeks are up more than 40% over the season average. The Jays are enjoying numbers they haven't seen since their 1992 & '93 World Series years... **The Television Bureau** has issued the call for entries for their **RETAIL COMP**, open for all retail commercials produced for Canadian audiences and aired between September 1998 and August 1999. TVB judges spots from A, B and C markets, single-market and multi-market, English and French, and has special categories for station-produced PSAs. Entries are accepted from all stations and agencies and production houses in Canada, and must be received at TVB by September 17. Winners will be announced at **SAC 2000**, January 16-17 in Toronto. On another front, TVB says **The Bessies 2000** will return to the Sheraton Centre Toronto Hotel May 10. The Bessies is TVB's national competition for English language commercials... Internet sports broadcasting, or Webcasting, is on its way. Combine the technical advancements with major league sports organizations' determination to maximize income and that means it's now only a question of when. A London-based correspondent says conventional broadcasters in radio, but especially TV, may respond by unleashing a bitter new battle over rights aimed at strangling Webcasting at birth.

SUPPLYLINES: Ten **Power Broadcasting** stations in Ontario and Quebec are installing Scott Studios' digital audio/automation. This brings to 12 the number of Power stations using the equipment distributed in Canada by Saskatoon-based **Pippin Technical**. **The Peak Collingwood** and **CIAM Cambridge** put them in a couple of years back... **Miranda Technologies** has released DV-Bridge, the first bi-directional DV-to-SDI/AES converter. Designed to work with DV camcorders, DV-VCRs, or DV-based storage and editing systems equipped with the IEEE-1394 interface, the DV-Bridge is the first product on the market to convert compressed DV format video and audio to and from SDI digital video and AES audio.

New York comes word that 11 major advertisers will pay to have writers develop family-friendly shows for consideration by the **Warner Bros.** network. The deal with Mountain View-based **Replay Networks Inc.** involves **CTV**, **Time Warner**, **Walt Disney**, **Showtime Networks**, the **Tribune Co.** and **Liberty Media Group**, among others. PVRs are set-top boxes that can search channels and line up many hours of shows that fit an individual viewer's tastes. They also allow instant replays of live TV, and promise to be much easier to use than VCRs. It also has a quick-skip feature that allows viewers to zip past commercials in a few seconds... Friday the 13th lived up to its reputation with **CJDC-TV Dawson Creek**. At about 8:45 pm, vandals cut a guy wire resulting in the collapse of the top half of the 400-foot tower, with a resultant loss of signal and a steel pretzel on the ground. The collapse missed the transmitter buildings by a few feet. Service was restored 25-hours later after **CBC Prince George** loaned the **Okanagan Skeena** station an emergency low power antenna.

will pull the plug at a special party... Monday night, **97.3 K-ROCK Edmonton** hosted a make-good concert for fans let down by the collapse of the highly promoted *Rockfest '99* festival, which fell apart when the promoter bailed out on the day before the concert. K-ROCK teamed with Nashville's **Electric Roadhouse** to bring in **Nazareth**, who had been scheduled to play *Rockfest* but never made it to the stage. K-ROCK turned a public relations nightmare into a positive event... Remember the Millennium Baby Contests back in March? At **The Bear Edmonton**, of the 50 couples who spent the weekend at a hotel trying to conceive, four couples 'took'. Each Bear daypart has 'adopted' one of the couples for a race to the finish.

GENERAL: **Alliance Atlantis Communications** has closed a \$132-million financing package with **Kinowelt Medien AG**, giving Kinowelt shareholders 20% of the common equity. This increases Alliance Atlantis principals' stake to 54.5% of voting shares through separate private transactions. Purpose of this, and smaller transactions, was to ensure that the principals retain effective control of the company... Delegates to the Second Annual Meeting of the **Elementary Teachers' Federation of Ontario** (ETFO) have voted unanimously to actively oppose the introduction of the **Youth News Network** (YNN) to Ontario public schools. YNN delivers a 12-minute daily program, including 2.5 minutes of commercials that must be shown to students. A delegate from the **Peel Board** where - at Meadowvale Secondary School a contract for a trial period has been signed) - said, "In the sample program, students are being told that the Canadian dollar is low because of our debt which is caused by the high cost of our social programs. Most economists know this to be a myth. It's a question of who determines the curriculum in our schools"... A spate of **Canadian Broadcast Standards Council** decisions this week. The controversial movie, *Kids*, which aired on **Showcase Television** was, says CBSC, broadcast responsibly. A complainant alleged that the movie was tantamount to "kiddie porn". In another complaint, this one about **CHRO-TV Pembroke/Ottawa**, the Council ruled that PG programming

may contain brief scenes of nudity and discreet sexual references. An episode of *Dead Man's Gun* had viewers complaining that CHRO was irresponsible in airing the program at 9 pm and with a PG rating because it contained nudity and sexual scenes. And, various forms of adult humour were found not to be in breach of broadcast standards codes. Three decisions concerning the programs *Dream On*, *Comedy Club 54* and *The Tom Green Show*, all broadcast on **The Comedy Network**, had no breaches nor violations of the various codes which CBSC bases decisions; ethics, gender portrayal and television violence. On the other hand, aggressive and mocking behaviour by TV program hosts during interviews have been ruled inconsistent with broadcast standards. **CFTM-TV (TVA) Montreal's** programs - *J.E.* and *J.E. en direct* -- scored one favorable and one critical ruling. On the plus side, no problem was found with a story about a real estate deal gone sour. In the other, the Quebec Regional Council said the mocking behaviour was in violation of the **RTNDA** Code and of the **CAB** Code of Ethics. All CBSC decisions and codes may be found at www.cbsc.ca...

TV/FILM: TV broadcasters — alarmed by the compromise over magazine-protection laws and anticipating a trade challenge from the US TV industry — have begun talks aimed at developing trade initiatives. They're considering a trade strategy that would offer to sacrifice foreign-ownership limits to save protectionist subsidies. The goal is to avoid a similar fate as the Canadian magazine industry. Legislation aimed at limiting advertising in Canadian editions of US publications was defeated in the face of American threats to retaliate. **Canadian Association of Broadcasters** President/CEO **Michael McCabe** is quoted as saying: "It became painfully obvious to us after the magazine business that a knee-jerk response of keeping all the protections you've got and not changing anything wasn't going to work. Our general view is that it's got to be an offensive strategy, where we say, what are the best [protectionist] instruments we can maintain in order to strengthen our industry, and what can we give up in order to build our markets

internationally?" Of the broadcasts execs interviewed, all said they'd support a tradeoff whereby Canada would offer to raise the allowable foreign-ownership limits on TV stations and networks in exchange for keeping protectionist rules and subsidies in place... The **Canadian Film and Television Production Association** says the **CRTC's TV Policy** is out of step with Federal Government cultural policies and based on a faulty understanding of the financial structure of Canadian production. CFTPA is proposing reforms. Specifically, it is concerned about the elimination of spending requirements; that there are no requirements for children's programming; the reduction in incentives to produce expensive Canadian drama by removing the bonus credit against overall Canadian content levels for all Canadian drama programming, and then introducing a new 125% bonus against the "priority" requirements, for less distinctively Canadian drama programming; no first run requirements for drama programs benefiting from the additional credit bonus; and inclusion, as priority programming, of regional programs that could include game shows and other programs with no regional reflection. On the children's programming front, CFTPA is upset that the CRTC didn't require major private broadcasters to make commitments to their broadcast... **Robert Lantos'** severance, bonus and stock options from **Alliance**

Atlantis Communications was valued at nearly \$12.3-million, enough to start his new company, **Serendipity Point Films**. He got the sum after resigning Sept. 21, shortly after the merger of Alliance and Atlantis... The President of the **National Association for the Advancement of Colored People** says his organization will call for a boycott of the US networks during an upcoming sweeps period. **Kweisi Mfume** says it will be an attempt to highlight complaints that blacks are not fairly represented in prime-time series... **ABC** is expected to axe about 50 staff in a move to save money as its prime-time broadcast group merges with **Disney's** network TV production. The cuts at ABC had been expected since last month when Disney said it was merging its TV production unit with **ABC Entertainment**.
