Management

Job Wanted by Man with Record . . .

. . . a past record of over 20 years experience as a program-production manager in the theater, radio and television.

I'm in my 40's.

I have been associated with quality operations in the Midwest including KRNT (Des Moines) and WCCO Television (Minneapolis). I have changed positions for advancement; never because of disagreement with management.

I am qualified — through my experience and ability — as an assistant manager in radio or television — or as production-program manager. Will gladly furnish rundown of experience and list of employers including the one I just left.
