Each month, each report adds proof upon proof of WQAM's rapid take-over of Miami listening. First it was Hooper showing WQAM way out front with 30.1% of the audience*. Now the newest Trendex gives WQAM 33.4% share of audience in the morning, 33.1% in the afternoon—for an all-day average of 34.1%.

All this has been accomplished without so much as a single give-away and without a single contest which required participants to be tuned in in order to win.

Observing these developments, time-buyers, both on the scene, and out-of-town, are fishing in WQAM waters for sales—and landing them. Get your own line on Southern Florida from a BMIAR man . . . or WQAM General Manager JACK Sandler.
